

## Army 2

### [Chapter 2](#)

The Combat Mech, “Wang Gang”

“Opening Dominator Panel”

Swish! Something appeared within Jiang Li’s sight, but it was transparent and didn’t affect what he saw.

“Dominator Panel”

“Dominator: Jiang Li”

“Game: The Legendary Mech Army”

“Window: Types of Army”

“Types of Regular Meches (expandable)” “Types of Navy Meches (non-expandable)” “Types of Air Meches (non-expandable)” “Types of Space Meches (non-expandable)” “Types of Special Meches (non-expandable)”

“Energy Points: 0”

“Soul Tinder: 0”

“This is... a game.” Jiang Li finally remembered.

A game! That was right! This was a game!

Jiang Li spent the whole night playing a game called the “Legendary Mech Army” before transmigrating. He even reached the next level. After he woke up, he came to a different world.

So. The game, the “Legendary Mech Army” also followed him here.

If this is real.

Jiang Li took a deep breath and calmed himself down.

Then, I’ll be able to solve the problem with the game. Not only that...

Jiang Li paused. To be honest. The types of meches Jiang Li unlocked at later stages of the game were powerful and he was a bit excited about it.

“Show me the types of Regular Meches on a sub-window.”

Jiang Li controlled the Dominator Panel.

“Sub-window: Types of Regular Meches”

“Level-one Mechs: Combat Mech (unlocked), Cold Weapon Mech (locked), Firearm Mech (locked), Intel Mech (locked), Biochemical Mech (locked)”

Right now. Among the five armies, only Regular Meches could be seen, while the remaining four were still locked. Besides, only one type of the Regular Meches were unlocked.

“Master, are you in there?” Someone was at the door. Since Xiao Lan reported to the elders about Jiang Li, they sent Officer Su Long here. He knocked and asked.

“...”

Hearing the rough voice, a brawny man immediately came to Jiang Li’s mind.

It’s Officer Su Long. Why is he here so fast?

“Convert it to energy points,” Jiang Li said.

“Successfully converted the wild ginseng. Ten energy points received.”

Jiang Li looked at the panel and saw that ten energy points had been added.

“Create a level-one ‘Combat Mech,” Jiang Li issued an order.

Above the mech type window a virtual screen popped up along with an illusory human figure. Countless light dots were filling the figure, making it more and more realistic. It needed about a minute.

“Master, it’s time. You should come with me to Juyi Hall. The elders and the other officers have been waiting for you. If you remain silent, I’ll come in directly,” Su Long said more firmly.

“Officer Su Long, I’m changing in here. After all, I’m going to be the leader of the Sirius Gang and it’s a big deal for everyone. I must wear something appropriate, or the Sirius Gang will lose face. Am I right?” Jiang Li made an excuse to buy himself more time.

“Haha, okay, be quick,” Su Long laughed and said with a mocking tone. He thought.

This kid really thinks he can be the leader of the gang. Fine, I’ll let you wear whatever you want, so you can die looking better. I’m only respecting our former leader.

A minute later.

“Combat Mech completed.”

Buzz! The figure on the screen turned into something real and it became like a normal person.

This was like a fantasy!

In front of Jiang Li there was a man as tall as he was. He looked around twenty years old and was expressionless. He was wearing a camouflage hat and outfit, and there was a badge with an inverted obtuse image on his shoulder. He was in a standard military uniform, but wasn’t carrying any weapons.

“Master, I’m GD01, a Combat Mech at early-stage level one.” He walked to Jiang Li and saluted.

“...”

Jiang Li was a bit startled. When he played video games, the meches created were only a bunch of data, so they certainly weren’t as astonishing as the one that appeared in front of him was. However, this felt pretty good.

Of course, the mech before him wasn’t a real person, but a mechanical creation. It just looked exactly like a human.

“GD01 doesn’t sound good,” Jiang Li said. “From now on, you’ll be called Wang Gang.”

“Yes, Master.” The Combat Mech, Wang Gang, nodded.

“What’s your current level?” Jiang Li asked.

“Master, I can fight with ten Martial Artists of peak-stage elementary level at the same time and I can beat those of early-stage level one. When I exert myself, I can kill two of them and myself,” Wang Gang replied.

Even though meches were mechanical creations, they had intelligence programs in them. They might not be really smart, but they could still have simple conversations and could understand orders.

Of course, the higher level the mech type was, the more advanced their program was and the more intelligent they were.

“Let me see.” Jiang Li opened Wang Gang’s information window.

“Mech Type: Combat Mech”

“Level: Early stage of level one”

“No.: GD01 (Wang Gang)”

...

“Skills: Level-one elementary combat art”

“Characteristics: A mechanical creation that isn’t afraid of dying, can’t feel pain and is extremely loyal. It stops functioning only if its heart is broken or 90% of its body is destroyed. After it dies, it can be recycled for half of the energy points of the cost.”

“Condition to Reach the Next Level: 20 energy points”

Wang Gang’s strength was out of Jiang Li’s expectation. It could deal with Martial Artists at the early stage of level one.

In fact, Jiang Huahong was only at the early stage of level one, but he managed to establish the Sirius Gang and rule the entire Honghua Street. The three elders were only at peak-stage elementary level.

So with Wang Gang, Jiang Li’s safety in this new world could basically be secured.

“Wang Gang, you need to stay close to me and protect me from now on,” Jiang Li said.

“Don’t worry, Master. Your safety is our top priority. We’ll do everything we can to protect you even if it costs our lives,” Wang Gang yelled.

“Alright, alright.” Jiang Li felt even better now.

Boom! Su Long pushed open the door.

“Master, what are you doing? Why are you taking so long to get changed? Also, why did I hear someone else in the room?” Su Long came in and asked Jiang Li.
