Chapter 204 Unlocking the Tier 3 mechanical Army

Immediately after.

“Whoosh!!!”

The two Jade boxes in front of him flashed with white light, and all the lower spiritual crystals in them disappeared and were converted into energy points.

A notification popped up in front of Jiang Li.

conversion successful. You’ve received 38520000 energy points!

“Over 38 million. It’s already close to 40 million,”

Jiang Li looked at the notification carefully and murmured, ” in other words, we’ve collected 3852 lower spiritual crystals in the entire magic cauldron Prefecture.

yes. If I remember correctly, we only got 1730 spiritual crystals when we plundered the entire spirit desolated province of the black snake barbarian kingdom. This time, The Magic Cauldron province got more than twice the amount of the spirit desolated province.

“Not bad, not bad.”

okay. Jiang Li nodded in satisfaction.

Shua!

Soon after.

I'm ready. Jiang Li closed the prompt interface and prepared to convert the herbs and spiritual herbs.

"My Lord, this is what zh01 wanted me to pass to you."

At this moment.

Zh02 took out a Crystal Jade slip from his pocket and gave it to Jiang Li.

"What is this?"

Jiang Li asked.

"My Lord, this Jade slip contains information on 'spiritual herbs'. The contents are related to spiritual herbs, and it records in detail most of the spiritual herbs below the third grade, as well as some basic information about the third grade spiritual herbs,"

"We felt that this thing would be useful to the ruler, so we brought it back," said zh02.

"An information Jade slip."

Jiang Li took it and studied it, but he didn't see anything special.

It was like a palm-sized, rectangular ordinary Jade.

"My Lord, you only need to inject your internal force into it and the information recorded inside will be projected."

Zh02 explained.

"I'll try."

Buzzzzzz!

okay. Jiang Li nodded and used the technique. The internal force of the Thunder Qi art gushed out and entered the information Jade slip in his hand. The Jade slip lit up.

Very quickly.

A projection of densely packed words appeared.

it's really useful to me. I don't know many of them. I don't know their specific effects. Jiang Li Read it carefully.

“With this information Jade slip, it'll be much more convenient.”

“It is our honor to be able to share the sovereign's burden.”

Zh02 said with a joyful expression.

“Next, I'll convert all the medicinal herbs.”

okay. Jiang Li took back his internal force and the projection disappeared. He then put the Jade slip with the information of the spiritual herbs into his pocket.

Soon after.

He walked to the place where the ordinary medicinal herbs were piled up. These medicinal herbs occupied a large area of the camp's open space and were piled up like a small mountain, looking extremely spectacular.

One had to know.

The Magic Cauldron Prefecture was one of the famous ‘medicine merchant prefectures’ of the great Qian dynasty. It was rich in natural resources and had many places where spiritual and medicinal herbs were planted.

Many County cities of the great Qian dynasty would buy medicinal and spiritual herbs from The Magic Cauldron County. Some spiritual herbs could only be found in The Magic Cauldron County and couldn’t be bought in other County cities.

so,

This time.

The Thearch-crocodile Army’s harvest was huge. A large number of ordinary medicinal herbs were packed in wooden boxes and arranged in a row.

“Convert.”

Buzzzzzz!

yes. Jiang Li put his hand on the herbs and touched the wooden box. Then, a prompt appeared in front of his eyes and he confirmed it.

[activate conversion function.]

A large white light flashed.

It was rather glaring.

Shua!

conversion successful. You’ve received 42050800 energy points!

A notification appeared.

...

“There’s actually more than 40 million!”

Jiang Li’s eyes widened in surprise.

Although he had already expected that he would gain a lot this time, he was still very confident.

but ...

When he successfully converted all the herbs, the amount of energy points he got surprised Jiang Li.

One had to know.

Jiang Li got all the ordinary herbs from the spirit desolate County. After he successfully converted them, he only got around six million energy points, but he got more than forty million from The Magic Cauldron County.

The difference was almost seven times!

The ordinary herbs in The Magic Cauldron County were seven times more than those in the spirit desolate County.

If it was converted to real gold and silver.

It was worth more than four billion taels of silver.

...

“Four billion taels of silver.”

Jiang Li thought for a while. one tael of gold is equivalent to a hundred taels of silver. That's more than forty million taels of silver. It doesn't seem like a lot.

you must know that a few days ago, Mo Ling, the Vice Alliance master of the half-monster Alliance, wanted to discuss a business deal with me about medicinal herbs worth one billion taels of gold and spirit herbs worth ten billion taels of gold.

how many energy points can I get if I close the deal? ” Jiang Li thought.

“Tsk, tsk.”

I can't. Jiang Li's eyes were red. such a big cake is in front of me, but I can't get it. It's so tempting and uncomfortable.

and how did the half-monster Alliance get so many herbs? ”

Jiang Li thought to himself.

“Continue the transformation!”

I'm ready. Jiang Li calmed down and walked to the place where the spiritual herbs were piled up. He took a deep breath, put his right hand on the spiritual herbs, and started the conversion.

Buzzzzzz!

Another large white light flashed.

All the spirit herbs disappeared and were converted into energy points.

conversion successful. You've received 127004000 energy points!

A notification appeared.

“Si si si ...”

Jiang Li couldn't help but take a deep breath this time. He looked at the number on the screen and suddenly became excited. He couldn't help but be overjoyed.

127 million!

It had broken a hundred million!

The number of energy points had exceeded 100 million.

“There are so many energy points.”

Jiang Li took a few more deep breaths to calm himself down. great, great. As expected of The Magic Cauldron County.

with this, I have fulfilled all the conditions to unlock the stage three mechanical Army.

Jiang Li was very happy.

my Lord, these are the Tier 2 superior grade spirit herbs that you asked us to distribute. There are 1120 of them, three of them are Tier 3 inferior grade spirit herbs, and one of them is Tier 3 intermediate grade spirit herb.

Zh02 pointed ahead.

“Alright,” he said.

okay. Jiang Li nodded and closed the interface. what spiritual herbs do you have? ”

“My Lord, zh01 and this subordinate have made a copy of most of the information regarding the elixir, and have recorded it in the smart chip.”

1120 stalks of Tier 2 superior grade spiritual herbs. 900 of them are ordinary Tier 2 superior grade spiritual herbs. They're used to concoct Tier 2 superior grade medicinal pills.

in addition, there are 100 more special ones. They are the supplementary ingredients needed to refine a third-grade pill. They are of higher value and are relatively rare. It is generally difficult to obtain them.

“The last 20 plants have various special effects, such as the ‘bone growing fruit’ and the ‘muscle growing flower’. If consumed at the same time, it can regrow a broken limb. There is also the ‘marrow cleansing Lotus’ that can increase one’s martial arts aptitude, and so on.”

Zh01 explained in detail.

“Okay, I got it.”

okay. Jiang Li nodded. send these spiritual herbs to the warehouse and distribute the spiritual herbs that can improve your martial arts talent and cultivation. I have use for them.

“Yes.”

Zh01 nodded.

Now that he had gathered all the energy points and soul Tinder, Jiang Li was in a hurry to unlock the level-three mechanical Army. He had to put other things aside.

After leaving the temporary camp, Jiang Li returned to the city Lord’s mansion.

In the bedroom.

Shua!

The Dominator panel opened.

In the soul Tinder column.

There were no more level-one and level-two soul Tinders, only 15 level-three soul Tinders.

Speaking of this.

The crocodile Emperor Legion took three days to occupy the demon tripod province and lost three thousand perfected-stage level one meches, one thousand early-stage level two meches, and one hundred perfected-stage level two meches.

A hundred perfected-stage level one meches self-destructed, ten early-stage level two meches self-destructed, and none of the perfected-stage level two meches self-destructed.

It could be said that ...

The losses were very small.

The perfected-stage level one mech recovered 217500 energy points, the early-stage level two mech recovered 495000 energy points, and the perfected-stage level two mech recovered 750000 energy points.

He had obtained a total of 207574800 energy points from The Magic Cauldron Prefecture.

The war had consumed 580500 energy points.

In the energy points column.

Jiang Li now had 220751110 energy points.

Over 220 million.

unlocking the mechanical Army's stage two troop class.

Jiang Li controlled the Dominator panel and used nine level-three soul Tinders and one hundred million energy points to unlock the interface of level-three mechanical Army.

A notification flashed before his eyes.

[nine stage-three soul Tinders and one hundred million energy points have been achieved. Unlocking conditions have been met. Unlocking the interface of the stage-three military types of the mechanical Army. Please wait patiently. 10?9?8?7.....?]

the countdown has ended. The interface for the mechanical Army's stage three military type has been successfully unlocked.

[can be expanded.]

Ten seconds passed.

Unlocking complete.

Shua!

Shua!

[master panel]

[master: Jiang Li]

[game: super mechanical Army]

[interface: Army type]

Mechanical Army type (can be expanded), mechanical Navy type (can not be expanded), mechanical air Force type (can not be expanded), mechanical interstellar type (can not be expanded), special mechanical Army type (can be expanded)

energy points: 1207511

[soul Tinder: six level-three soul Tinders]

‘Open the mechanical Army type interface.’

Jiang Li had an idea.

In front of him.

The interface changed.

A new window popped up.

[interface: mechanical Army type]

Level 1 troop type: Youyou (omitted) ”

[Level 2 troop type: bi an (omitted)]

Level 3 mech types: liquid metal mech (unlocked), exoskeleton armor mech (locked 6/8), laser weapon mech (locked), ultrasonic mech (locked), energy mech (locked)

?.....?

“Level 3 troop class, I’ve finally unlocked it.”

I'll be able to use energy points to make level three meches. I don't need to use the level three soul Tinder anymore. Jiang Li smiled as he looked at the content on the interface.

of course, unlocking the new recruit seed still requires a level-three soul Tinder.

to unlock the 'exoskeleton armor mech', I need eight level-three soul Tinders. I only have six now, so I'm short of two.

let's make the liquid metal mech first.

Jiang Li thought.
