

Army 206

Chapter 206 The ten counties

In the next few days, Jiang Li finally saw how powerful the mech Army was.

it could be described in three words.

It was invincible!

No one could stop him!

ever-victorious!

The Thearch-crocodile Army conquered one county city after another at an unimaginable speed. They took over the territory of the great Qian dynasty and took over the fallen Phoenix County, Shanhe County, Chaoyang County, and several other large counties.

At the same time.

a large number of resources were also sent to the great xia city in batches. jiang li gained a lot of energy points from them. his original energy points increased from 2801110 to 128241000.

The number of energy points broke 100 million again.

In seven days 'time.

they had occupied and taken down seven major counties in total and gained 125439890 energy points. they had killed nearly 400000 human soldiers.

In reality.

From the third day on, the name of Jiang Li's mech Army had spread throughout the dynasty. All the surrounding counties knew that there was an invincible and powerful Army.

And it was Jiang Li's Army.

so,

Ever since they took down Chaoyang County, the other four counties didn't put up much resistance. They surrendered as soon as Jiang Li's mech Army arrived.

he had conquered four large counties almost effortlessly.

as a result ...

Jiang Li had already occupied ten counties of the great Qian dynasty, including great Xia County, Prince Jin County, magic cauldron County, fallen Phoenix County, mountain river County, and Chaoyang County.

One had to know.

There were only 36 County cities in the entire great Qian dynasty, but Jiang Li had already occupied ten, which was almost one-third of the territory of the great Qian dynasty.

On the other side.

On the red eyebrows Yao Kingdom's side.

They had just received the news that the 300000-strong demon Army had been annihilated a day ago. At the same time, Zhu Ling had also received the news that the assassination had failed.

The demon Kingdom's Palace.

“Zhu Ling, Oh Zhu Ling, take a good look at this. This is the good plan you came up with. The so-called foolproof plan is just Bullsh * t. Not only did you cause the 300000 demon soldiers to be annihilated, but you also killed the top assassins that you have trained with great difficulty.”

Li Wuye’s tone was cold as he chided, ” “It’s been so many days, but we’ve only just received the news. Zhu Ling, you’ll have to take full responsibility for this.”

also, I told you. We should’ve led a million troops and killed them. We’re wasting time and making Jiang Li stronger.

“I’m guilty!”

I’m sorry. Zhu Ling lowered his head and didn’t argue. I was wrong. I didn’t expect Jiang Li to be so powerful. Even an Ying failed to assassinate him.

to tell the truth.

zhu ling really didn’t expect this.

Shadow actually failed.

Zhu Ling was extremely shocked when he received the news.

“I’m unemployed.”

Chi Mei raised his head, and his Ruby-like eyes were calm and without any waves. He slowly said, ” “i order you to lead an army of a million and attack the great xia province.”

“Yes, sir!”

“I will definitely return with the news of victory,” li Wuye bowed and said.

“yes.”

Chi Mei nodded.

at the same time.

Within the great gan Lord dynasty.

Things had developed faster than he had imagined.

As more and more counties in the great Qian dynasty were taken over by the rebel army, their power and Army grew stronger and stronger, forming a dragon-like aura that could destroy everything.

among them.

In the end, they formed three powerful main forces of the rebel army.

One of them was the Shang County rebel army, which was gradually developing and growing. It was led by the leader of the rebel army, Li Xiao 'er. Mo Yanping of The Magic Cauldron County was also developing well, but he was killed by the emperor's alligator troop led by zh01.

There was also the 'devil County', a border County of the lion barbarian kingdom in the West, which was their stronghold. The 'devil County rebel army 'had gradually developed and grown stronger, and it was led by the leader of the rebel army,' Xiu Qing'.

The last rebel army was the most powerful. This Army was named the 'gan slaughtering Army'. They started from the wuan County in the inner land of the great Qian dynasty and occupied the surrounding County cities.

in the end, they formed a huge army.

The leader was 'tu Wanling'.

yayayayaya

In the air.

...

They were blood-eyed crows, flying into the wuzu plain, then to the wuzu sub-League of the half-monster Alliance, and then into the palace on the main peak.

“Our time has come.”

Buzzzzzz!

The sub-Alliance master wearing a colorful ghost mask stood up. His voice was calm, but it contained an indescribable power.

Kachaa! Kachaa!

Instantly.

In the sky above the main peak.

Dark clouds gathered, forming bolts of lightning.

Vaguely.

It was as if a black true dragon was gradually taking shape.

In the dark.

...

There was a gathering of power from all directions.

wuzu sub-League of the half-monster Alliance, all of you, move out.

The sub-Alliance leader said.

“Yes!”

“Yes, sir!”

“!!!”

In the surroundings.

Mo Ling, Gao Luoqing, Luo Lin, E kui, Hong Luan, many elders, and the members of the half-monster Alliance stood up one after another.

They were densely packed.

There were many half-fiends.

It was almost as if one could not see the end of it.

The great Gan Lord dynasty.

The capital.

There were a total of five County cities surrounding the capital. Like the stars surrounding the moon, they protected the capital and were the last barrier of the great Gan Lord dynasty.

They were Prince-protecting County, Dragon Guard County, Baoping County, Eagle guard County, and Xiong County.

At this moment.

In the wild Goose County, which was close to the Dragon Guard County.

In the camp of the Shang Army.

“the army, move out!”

Li Xiao ‘er received the message from wuzu sub-League of the half-monster Alliance. He slowly got up and walked out of the commander’s tent. He sent a message to the Deputy general and gave an order.

“Yes!”

Half an hour later.

The entire Shang Army had gathered, a total of 500000 soldiers. Among them, there were many stage two and even stage three experts.

Among them.

Li Xiao ‘er was a peak-level expert at the perfected stage of type 3, just one step away from type 4.

“Let’s go!”

Li Xiao ‘er rode on the flood-Dragon Lion and led the 500000 soldiers of the Shang Army to Weilong County.

in reality.

It was not just Li Xiao 'er's Shang Army.

xiu qing's rebel army had also started to move. their numbers were even greater than li xiao 'er's shang army, already approaching 700000.

Finally.

They were tu Wanling's 'tu gan Army'.

This was a powerful Army.

He was very powerful, and the military Qi was extremely thick. It enveloped the entire Army like a blood mist, so thick that it could not be dispersed.

The number of soldiers had already reached a million!

Obviously.

Until now.

The plan of 'Dragon contest' of the wuzu sub-League of the half-monster Alliance had reached the final stage.

Of the thirty-six hidden chess pieces he had laid down, only three were left.

It gave birth to three flood Dragons.

li xiao 'er, xiu qing, and tu wanling.

They formed three rebel army Corps and launched their final attack on the capital of the great gan dynasty.

At the same time.

The wuzu sub-League of the half-monster Alliance had been waiting for a long time, and the time was ripe, so all of them went to the capital of the Qian dynasty to prepare for the final battle.

The half-monster Alliance and the great gan Lord dynasty.

Who would win or lose?

The final result would also be revealed in this final battle.

On the other side.

The black snake barbarian kingdom had received the news and had begun to retreat.

This was because they had already gained enough benefits. They had occupied several County cities and plundered a large number of resources and spoils of war.

Compared to the red eyebrows Yao Kingdom.

The black snake barbarian kingdom was quite lucky.

The great Xia city.

Shua!

A white messenger pigeon flew into the mansion and stopped in front of Jiang Li.

“Another message.”

Jiang Li reached out his hand and the pigeon flew into his hand. He took off the bamboo tube from the bird’s claw and took out the letter.

The letter was unfolded.

Jiang Li read the letter carefully and shattered it into pieces with his internal force. The pieces fell to the ground and he murmured, "the half-monster Alliance's plan has already reached the final stage so quickly.

"It's only been half a month since the plan started."

"Is the great Qian dynasty going to fall?"

To tell the truth.

Jiang Li couldn't believe it.

he felt that the half-monster alliance's plan was going too smoothly.

Shua!

The Dominator panel opened.

Jiang Li looked at the information on the interface.

Among them.

Soul Tinder.

after so many days of battle, zh01 had led the thearch-crocodile army and occupied seven major counties of the great gan lord dynasty, producing many soul tinders.

There were 4358 level-one soul Tinders, 110 level-two soul Tinders, and a level-three soul Tinder.

Jiang Li now had seven level-three soul Tinders. He only needed one more to unlock the exoskeleton armor mech.

At the same time.

The crocodile Emperor Army had lost 7000 perfected-stage level one meches, 2000 early-stage level two meches, and 100 perfected-stage level two meches.

Five hundred perfected-stage level one meches, one hundred early-stage level two meches, and ten perfected-stage level two meches self-destructed.

A total of 2112500 energy points had been recovered.

It took 4550000 energy points to replenish the damaged meches.

In terms of consumption during the war, 804500 energy points were used.

In the energy points column.

Jiang Li had a total of 124999000 energy points.

“Fuse with the soul Fire seed.”

Soon after.

fuse. Jiang Li controlled the Dominator panel and started the soul Tinder fusion function. He first fused all four thousand level-one soul Tinders.

He had fused a total of 435 times, 145 times of success and 290 times of failure, and obtained 145 Stage 2 souls.

continue to fuse the second-stage soul Tinder.

buzzzzzz!

Jiang Li continued to merge more than 200 level-two soul Tinders. He could merge them 25 times in total. He succeeded five times and failed 20 times.

He had obtained five level-three soul Tinders.

As a result ...

there were still eight level-one soul tinders and five level-two soul tinders left.

jiang li now had twelve level-three soul tinders and he needed eight to unlock the exoskeleton armor mech.

unlock the exoskeleton armor mech.

Jiang Li had an idea.

[do you wish to use eight level-three soul tinders to unlock the exoskeleton armor mech?!]

A notification appeared.

“Yes.”

jiang li confirmed.

buzzzzzz!

Soldier type column.

In the interface.

there was a flash of light, and the eight level-three soul tinders disappeared. the exoskeleton armor mech had become 'unlocked'.

[the exoskeleton armor mech has been successfully unlocked!]

a notification appeared.

At the same time.

The conditions to unlock the laser weapon mech appeared.

" level 3 mech types: liquid metal mech (unlocked), exoskeleton armor mech (unlocked), laser weapon mech (locked 4/16), ultrasonic mech (locked), energy mech (locked)

to unlock the laser weapon meches, you need 16 level-three soul Tinders.

hmm. Jiang Li looked around and murmured, " it's still too early.

"Let's make the exoskeleton armor mech first."

jiang li operated the dominator panel and started to create new units.
