

Army 207

Chapter 207 A million

create 10 exoskeleton armor meches.

This time.

Jiang Li only used 1000000 energy points to make ten exoskeleton armor meches. It was too expensive to make a level-three mech.

Buzzzzzz!

The manufacturing interface appeared.

In the image.

An illusionary figure appeared.

there was a number 'X10' beside the figure.

Countless light spots filled in.

A minute later.

[creation complete!]

Shua! Shua! Shua!

The meches gradually became real in front of Jiang Li's eyes. They were meches.

A total of ten.

They stood in a row.

“My Lord!”

They saluted Jiang Li at the same time.

“Yes.”

okay. Jiang Li nodded and sized up the exoskeleton armor mech.

It was very normal!

He was no different from an ordinary person, and there was nothing unusual about him. He was still wearing a camouflaged military uniform and a military cap. His face was expressionless, and he looked very cold.

It was only the first glance.

He really couldn't see how it had anything to do with the exoskeleton armor. It was just like an ordinary person without any weapons or equipment.

He didn't even have a pistol.

However ...

he took a closer look.

On their wrists, they all wore a two-centimeter wide watch. It was not very delicate, and it was army green in color.

Shua!

” unit type: exoskeleton armor mech

[rank: early stage of rank three]

[No.: Wggzj01]

skill: level three low-grade armor control

equipment: stage three low-grade exoskeleton armor equipment ”

[machinery: Jian Jia (omitted)]

advancement requirement: 200000 energy points

jiang li read the information of the exoskeleton armor mech carefully.

“Wggzj01, show me your ability.”

Jiang Li said.

“Yes, chief sovereign.”

Yes, sir. wggzj01, who was standing on the first seat on the right, nodded. He walked out of the line, saluted to Jiang Li, and then moved.

armor control, activate exoskeleton armor equipment.

“Whoosh!!!”

It could be seen.

Wggzj01 “s eyes flickered with energy, and his right hand lightly tapped on his left wrist, activating the ‘exoskeleton armour’.

Immediately after.

kachaa! kachaa!

a white light spread out from the watch and quickly covered the mech’s body. then, it turned into an exoskeleton armor and covered the mech’s body.

It was only for a moment.

what’s going on? ” in front of Jiang Li was a two-meter tall robot-like soldier covered in exoskeleton armor.

“Oh.”

transformation? ” Jiang Li raised his eyebrows. It’s a little different from the game.”

To tell the truth.

When the exoskeleton armor mech activated the equipment, it was similar to the transformation of an armored warrior.

...

It was quite similar.

my Lord, before the exoskeleton armor is activated, we have a certain level of combat power. However, after the exoskeleton armor is activated, our combat power will increase by several times.

Wggzj01 said.

“Yes.”

okay. Jiang Li nodded.

“I’ll know your combat strength when I get on the battlefield.”

jiang li said.

“Yes, chief sovereign.”

The exoskeleton armor meches said in unison.

“Upgrade.”

Buzzzzzz!

...

Soon after.

Jiang Li used 14000000 energy points to upgrade the ten exoskeleton armored meches to the perfected stage of level three.

A white light flashed.

A few seconds passed.

The ten exoskeleton armor meches were all upgraded.

Similarly.

Their appearances hadn't changed much. Only, their skills and equipment had been upgraded to Tier 3 top-tier equipment. Naturally, their strength had received a massive boost.

they were all promoted to colonel.

He still had 109990000 energy points left.

Hence.

Jiang Li used 70000000 points to upgrade all 50 early-stage level three liquid metal meches of the crocodile Emperor Legion to perfected level three.

With the remaining 39990000 energy points, Jiang Li made two hundred thousand early-stage level one meches and upgraded them to the perfected stage.

He had spent a total of 30000000 energy points.

Among them.

Combat mech, cold weapon mech, firearm mech, and biochemical mech. He created 50000 of each mech.

He did not build Intel meches.

for the time being.

Ninety-seven perfected-stage level one Intel meches and three perfected-stage level two holographic meches were enough. He didn't need to build more Intel meches.

And this time.

Jiang Li didn't make any level two meches.

Jiang Li's mech Army had enough high-end combat power. He needed more soldiers.

currently.

Jiang Li's total military force had reached 510212.

An Army of 500000 meches.

Furthermore ...

All of them were at the perfected stage of level one or above.

There was more.

The number of walking corpse puppets had reached 100000.

Plus ...

Jiang Li had conquered ten large counties. The human army that had surrendered to him could make up an Army of 500000.

In other words ...

the number of troops that jiang li could mobilize had exceeded a million!

"It's a million!"

Jiang Li took a deep breath and clenched his fists. He felt a sense of achievement. I've gained control of an Army of a million without realizing it.

this power is not weak. I already have the power to fight against a Kingdom.

“The only thing I’m lacking is Tier 4 combat power.”

however, I have ymmyq01 and yndeyq01. I was lucky enough to have two mechanical mammoth Rangers drop a few days ago.

the elite troops are equipped with extremely powerful combat power. In addition, there are 100 perfected-stage level-three liquid metal meches and 10 exoskeleton armor meches.

it’s not like I’m completely powerless against Tier 4.

“QX01.”

Jiang Li said.

“Please give us your orders, chief sovereign.”

QX01, who had been following Jiang Li, walked up to him.

“Contact zh01.”

Jiang Li said.

“Yes.”

QX01 quickly established a holographic communication with QX02.

Buzzzzzz!

The holographic image was projected in front of Jiang Li.

In the image.

Zh01, zh02, QX02, and a few other meches.

“My Lord!”

They saluted.

“yes.”

yes. Jiang Li nodded. zh01, you don't have to push forward anymore, let alone attack the Royal Guard County. Pass on my order. Gather all the human soldiers in the nine major counties. We'll arrive at great Xia city by tomorrow evening.

also, take all the meches back to the great Xia city immediately.

“Yes!”

Zh01 and the rest immediately responded.

“may i ask, my lord, what are we going to do next?”

Zh02 asked.

“Yes,”

yes. Jiang Li nodded. I'm going to gather all our forces and launch an all-out attack on the red eyebrows shifter Kingdom. Then, I'll use war to build up my strength and take down the red eyebrows shifter Kingdom!

“This bi an ...”

Zh01 and zh02 looked at each other.

“I understand.”

Soon after.

yes. they nodded. we will definitely do our best to assist you.

“Alright,” he said.

” okay. ” jiang li nodded in satisfaction. ” act as soon as possible. if there’s a county city that doesn’t send troops, just destroy it. ”

“Yes, sir!”

Zh01 nodded again.

“Hegemon, what about the great gan Lord dynasty?”

Zh01 asked again, ” the wuzu sub-League of the half-monster Alliance is ready to launch a general attack on the great Qian dynasty. If nothing goes wrong, the final battle will definitely happen in the capital in three days.

“We’re not participating?”

“Ignore them.”

Jiang Li waved his hand. let them fight. The wuzu sub-League of the half-monster Alliance can help us distract the Qian dynasty. The fiercer they fight, the more likely we’ll have a chance.

Speaking of which, if it wasn’t for wuzu sub-league’s sudden move, causing the great Qian dynasty to fall into chaos, I wouldn’t have developed to this extent.

“Yes.”

Zh01 didn’t say anything else.

In reality.

The great Qian dynasty had 36 counties. Apart from the ten that Jiang Li occupied, the black snake barbarian kingdom occupied three counties. The rebels took everything else.

In other words ...

There was nothing left in the great gan Lord dynasty.

even if there was.

They were all gathered in the capital.

They wanted to take down the capital.

In that case, he would have to kill King Qian.

On the other hand, in the red eyebrows Yao Kingdom.

Jiang Li had only plundered one red Dragon County. There were many other big counties in the red eyebrow Empire that he could plunder.

There was another thing.

If Jiang Li participated in the final battle in the capital, there would definitely be a three-way battle. If they started fighting, the red eyebrow Empire would suddenly attack him from behind.

That would be troublesome.

Jiang Li would be attacked from both sides and the red eyebrow Empire and the black snake Empire would benefit greatly.

If Jiang Li didn't participate in the battle at the capital city and chose to invade the red eyebrow Empire instead ...

The situation was completely different.

Neither the wuzu sub-League nor the great gan Lord dynasty had the time to bother with Jiang Li.

because they were busy with the final battle.

He had no time to split his attention.

In the evening.

News came from zh01's side and they sent out small units to inform the various counties to form their human army and head towards the great Xia city.

everything was going smoothly.

Nine County cities.

They all followed Jiang Li's order. None of the county cities dared to disobey.

There was only one point.

jiang li didn't expect this.

The number of human soldiers in the nine County cities was more than Jiang Li had expected. He thought there were only 500000, but it turned out to be 600000.

It was a hundred thousand more than Jiang Li expected.

City Lord's mansion.

In the bedroom.

“whoosh!!!”

Jiang Li's body shook and his internal force shook. He activated the Thunder Qi skill and opened the fifth meridian. His cultivation had a small breakthrough again.

Not only that.

This afternoon.

Jiang Li's Thunder movement technique had also reached the basic level.

Obviously.

after cultivating for seven days in a row and consuming two stalks of 'marrow cleansing flowers', his martial arts aptitude had improved again. however, after consuming two stalks of 'marrow cleansing flowers 'and a second-grade spirit herb, there was no longer any effect.

He had already reached his limit.

If Jiang Li wanted to improve his talent, he would need higher-grade spiritual herbs.

The next day.

Outside the great Xia city.

“Rumble!”

The ground was shaking.

One after another, human armies arrived at the great Xia city. As the city couldn't accommodate so many soldiers, they had to temporarily set up camp outside the city.

on the city wall.

Hong Tianqi, Hu Dong, Xu Ya, and han Liqi looked at the Army outside the city in shock. They couldn't help but swallow.

" king jin county, magic cauldron county, fallen phoenix county, xuanji county, mountain river county. "

these troops are all elite soldiers from other counties, " han Liqi said in shock. the number of soldiers has already exceeded 500000.
