

Army 209

Chapter 209 The invasion

“As Qianqian commands!”

” jiang li! ” luo ming was extremely unwilling and regretful, but he could only pretend to be very excited and respond loudly to jiang li.

He was afraid that Jiang Li would kill him as an example.

If he had known, he wouldn't have said that.

He was filled with regret.

“Open the city gates.”

Jiang Li said.

“yes.”

Hong Tianqi nodded and signaled the soldiers at the gate.

“rumble!”

The huge city gate of the great Xia city was slowly pushed open.

Ta ta ta da

Immediately after.

The sound of orderly footsteps came from the city. Because there were too many of them and the footsteps were uniform, the ground shook with the sound of the footsteps.

“Rumble!”

After that.

There was also the roar of a car engine.

It was like a deep and heavy thunder.

Not long after.

It was an Army of meches in camouflaged military uniforms. They were determined, expressionless, and cold. They were well-equipped and had an imposing aura.

Just like that, he slowly appeared in front of everyone.

They formed a neat military formation.

An Army of more than 500000 meches!

Everyone, move out!

This time.

let's go. Jiang Li sent out all the soldiers. He didn't leave a single mech in the city. He even decided to go with the mech Army and command the battle himself.

Obviously.

Jiang Li was ready to take the risk.

He was going to use all his strength.

He had to take down the red eyebrows Yao Kingdom.

To tell the truth.

Jiang Li was going to invade the red eyebrow Empire. He was going to face the entire army of the Empire. It would be a lie to say that he didn't feel any pressure.

and the pressure was not small.

In reality.

The analysis of the commanders of the nine counties was not completely unreasonable.

The red eyebrows Fey Kingdom was not weak. How could it be so easy to conquer? even the 600000 human soldiers were not enough for the red eyebrows Fey Kingdom to eat.

One had to know.

It was a fact that the red eyebrows Yao Kingdom had a level-four National Guardian level combat power. Jiang Li couldn't predict how powerful level-four was.

but ...

The commanders of the nine counties didn't know that Jiang Li had more than 500000 meches, let alone more than 150 perfected-stage level three meches.

Furthermore ...

Jiang Li could also use battles to gain resources and convert them into energy points.

and there was one more important point.

The current situation.

Jiang Li had to take the initiative and occupy the county city of the red eyebrow Empire as soon as possible. Then, he would plunder a lot of resources.

This was the only way.

Only then could Jiang Li grow quickly.

otherwise ...

Not to mention the fact that the red eyebrows Yao Kingdom would attack them if they couldn't pass through, as long as there was a winner between the Qian dynasty and the wuzu sub-League of the half-monster Alliance, Jiang Li would face the war of the winner no matter which side won.

The wuzu sub-League might be able to find a way to deal with it.

However, if the great Qian dynasty won, there would be no chance of peace.

The border countries around the great Qian dynasty were probably also eyeing them covetously.

“They are the powerful Army of the regional King.”

...

Luo Ming's eyes immediately widened as he stared at it. He felt the power coming at him, making his face pale and his scalp numb. His expression was one of awe.

“Si si si ...”

the sounds of the human soldiers gasping could be heard from the surroundings.

“This number is at least 500000.”

Jin Muyan swallowed his saliva and said to himself, “if I remember correctly, Jiang Li's Army doesn't have that many soldiers.

“Yup!”

Feng Wutian nodded.

“it should be around three hundred thousand.”

Gu Shanhe mumbled, “but now it's already 500000.

“It increased by 200000!”

“If that's the case, then with our 600000 troops, doesn't that mean that we have a million soldiers?”

...

cao pipei said in shock.

“An Army of a million!”

no wonder the Commandery Prince of Jiangli dared to attack the red eyebrow Yao Kingdom.

but Wufu, even if we have a million troops, we can't set up a stage three formation at all. We can't unleash the true power of a million troops.

on the other hand, the red eyebrows demon Kingdom definitely has a stage three army formation and a stage four Demon King. No matter how I think about it, I really can't see any hope of victory.

“ai, ai, ai, ai.”

Although the commanders were shocked by Jiang Li's Army, they still didn't see any hope of victory.

In reality.

If Jiang Li hadn't suppressed them with his mech Army, these commanders would have run away with their soldiers.

Why would he continue to stay here?

They were very clear.

if they didn't attack the red eyebrow empire with jiang li, they would be suppressed by his army.

There might still be a chance of survival.

so,

They could only accept their fate.

Jiang Li brought the human troops because he wanted them to be of some use. At least, they could help the mech Army.

They could be cannon fodder, bait, and meat shields.

Otherwise ...

If it was useless, then what was the point of keeping it? He might as well kill the soul Tinder and unlock more mech units for Jiang Li.

“Hong Tianqi, han Liqi, Xu Ya, your mission is to defend the great Xia city.”

Jiang Li said.

“Yes.”

Hong Tianqi nodded.

“Yes, sir.”

Han Liqi cupped his hands and bowed.

Your Highness, Xu Ya is waiting for the news of your triumphant return in the great Xia city.

Xu Ya said.

“Yes.”

okay. Jiang Li smiled.

Triumphantly returned?

That’s right!

He had to return triumphantly!

Soon after.

Jiang Li jumped off the city wall, walked to YS01, and sat in the passenger seat.

“Get in the car, the entire Army will set off.”

stop! Jiang Li shouted.

“Yes.”

The meches responded in unison and sat on the large military transport truck. Behind the large military transport truck was a fleet of artillery off-road vehicles and main battle tanks.

form a stage two army formation!

Buzzzzzz!

The 10 human armies were grouped together, forming a 600000-strong Army. Then, they arranged themselves into a Grade 2 marching formation.

“Roar!”

The murderous military Qi gathered and the spiritual Qi of heaven and earth surrounded it. Finally, it formed a ferocious beast of the military formation. It was a huge black Eagle that spread its wings and flew high.

The black wind Eagle!

Stage 2 army formation, 'black wind Eagle army formation'.

This was a relatively common stage two military formation. Not only the great Qian dynasty, but the armies of the red eyebrows Yao Kingdom, black snake barbarian kingdom, and other kingdoms also had this kind of military formation.

Because the Jinwang County Army led by Luo Ming had been appointed as the vanguard, they marched at the forefront of the Army and took the lead.

Then, the troops from the other counties came.

In order to prevent any soldiers from running away, Jiang Li's mech Army followed the 600000 human soldiers.

The Army marched on.

Time passed.

Evening came.

The sky was gradually turning dark.

Jiang Li led a million-man army and attracted the attention of the villagers as he passed by.

They had already arrived at the Green Mountain Range and began to cross the mountain range. Along the way, they encountered fierce beasts, but it didn't cause much of an impact. Soon, all the fierce beasts were annihilated.

the night arrived.

In the air.

The moon was bright and cloudless. They could see countless stars shining in the night sky. Jiang Li's Army had entered the territory of the red eyebrow Empire.

Lord, our first target is to occupy yehuang County.

Zh03 suggested to Jiang Li.

“what’s your reason?”

Jiang Li asked.

first of all, yehuang County is the closest to us. Furthermore, yehuang County had sent many demon soldiers to assist Red Dragon County. The Crown Prince had also recruited 50000 demon soldiers. Even the county Prince, Ye Huang, has fallen.

” that’s why yehuang County’s strength has been greatly weakened. With our strength, we can take it down without any effort, ” zh03 said.

on the way to yehuang County, we will pass by the county city of Red Dragon County.

” back then, the ruler had plundered the five demon cities of the red dragon county. due to the lack of time, the only city left is the red dragon county. this time, i can make up for my regrets. ”

Jiang Li didn’t answer immediately. Instead, he took out the map of the red eyebrow Empire and opened it.

The red eyebrows Fey Kingdom was a neighboring country of the great Qian dynasty. The two sides had been enemies for many years and had infiltrated each other. Naturally, there would be a map of the red eyebrows Fey Kingdom in the great Qian dynasty.

Jiang Li had occupied ten counties, so it was easy for him to get a map.

Although it was not very detailed, it was enough.

“Alright,” he said.

okay. Jiang Li nodded.

He did not plan to attack the red eyebrows Yao Kingdom's capital directly. Instead, he planned to occupy the red eyebrows Yao Kingdom's County cities one by one and slowly devour them. Along the way, he would plunder resources and convert them into energy points.

Of course.

The red eyebrows Yao Kingdom would definitely send troops as soon as they received the news.

so,

Before the final battle with the red eyebrows Fey Kingdom, Jiang Li had to occupy as many County cities as possible and collect as many resources as possible.

“The first target will be yehuang County.”

Jiang Li said.

“Yes.”

Zh03 nodded.

Soon after.

Jiang Li gave the order.

The direction of the Army changed, and the entire Army advanced in the direction of yehuang County.

Late at night.

Jiang Li's million-strong Army had arrived at the Red Dragon County.

"Stop," he said.

wait! Jiang Li shouted.

The Army stopped marching.

Right in front.

It was about a few thousand meters away.

The holographic camera of the holographic mech had flown into the sky and could capture the situation within ten kilometers. It transmitted the images of the Red Dragon County.

It formed a holographic projection.

It was clearly presented in front of Jiang Li.

ruler, it's not that I'm overconfident, but there's no need for us to think of a plan to attack the city. With the strength of our Army, we can just push through a mere Red Dragon County city.

Zh03 said.

"You can't say that,"

However, zh02 said,"it's right to be more cautious. What if there's a demon Army stationed in Red Dragon County?" We can't just rush over like this."

"....."

Zh03 shrugged.

master, from the holographic mech's image, there are no more than 30000 demon soldiers in Red Dragon County. They're still in shock.

Zh01 said.

“Yes.”

” yes. ” jiang li nodded. ” let's do it. we'll take down this city in half an hour. ”

“yes!”

zh01 nodded.

“Attack!”

Zh01 shouted.

“Brothers, charge with me!”

luo ming gritted his teeth. he was the vanguard, so he had to lead the jun army of prince jin to the forefront. he raised the broadsword in his hand, shouted, and led the charge.

“Charge!”

“Kill him!”

” let's go. ” the other commanders looked back at jiang li and led the human soldiers to attack the red dragon county.

BOOM! BOOM! BOOM!

The next moment.

The artillery fired, directly blasting the city. The shells landed, and explosions rang out. Flames shot into the sky, and shrapnel flew everywhere.

“Ah!”

a large number of demon soldiers let out miserable shrieks.

The bombardment of the mechanical artilleries caught the demon soldiers off guard.
