

Army 251

Chapter 251 The Overlord Dragon

Then, it was the spiritual herbs worth ten billion gold. There were a lot of them, and they were piled up into a mountain. They occupied a large area of open space in the military camp, and a strong smell of spiritual herbs permeated the surroundings.

spirit herb. Jiang Li walked over and touched the spirit herb with his right hand.

Shua!

[discovered item that can be converted into energy points. Do you want to convert it?!]

“Yes.”

yes. Jiang Li confirmed.

Wuwuwuwuwu!

A white light flashed.

A large number of spiritual herbs disappeared and were converted into energy points.

conversion successful. You’ve received 120000000 energy points!

.....

conversion successful. You’ve received 102400000 energy points!

.....

conversion successful. You've received 95070000 energy points!

.....

Naturally, there were a lot of spiritual herbs. There were at least tens of millions of them, and their grades were all different. There were spiritual herbs ranging from low-grade first-grade to second-grade, and it was almost everything one could think of.

There were also quite a few level three spirit herbs, but Jiang Li put them aside.

it was not converted.

As there were too many spiritual herbs, it was impossible to convert all of them at once. Therefore, he did it ten times, and he obtained about 100 million energy points each time.

In the end.

After converting all the spiritual herbs, Jiang Li got 987000000 energy points.

Nine hundred eighty-seven million!

Nearly one billion.

Shua!

The energy points column opened.

Jiang Li now had 2133250000 energy points.

2.13325 billion points.

energy points. Jiang Li looked at the number on the energy point column and read it out loud.

“Let’s destroy all these boxes,”

go! Jiang Li ordered.

“Yes.”

the meches responded.

After that.

Jiang Li left the camp and returned to the great Xia Palace.

Inside the Azure Dragon Palace.

upgrade to ynjs01.

Jiang Li opened the Dominator panel and used 80000000 energy points to upgrade ynjs01 to the perfected level of level four.

Shua!

A white light flashed.

It only took a few seconds.

Ynjs01 completed its upgrade.

he had reached the perfected stage of tier 4.

His skill 'zombie body' had reached the peak of Tier 4.

If he wanted to level up again, he would need a level-five soul Tinder and 100 million energy points.

upgrade all the early stage level two meches.

Soon after.

Jiang Li used 637000000 energy points to upgrade all 45500 meches from the early stage to the perfected stage of level two.

Although the early stage level two meches weren't with Jiang Li, he could upgrade them directly.

As a result ...

All of Jiang Li's level-two troops had been upgraded to the perfected level.

in addition to the 4507 perfected-stage level two meches.

Jiang Li now had 50007 perfected-stage level two meches.

make 90 exoskeleton armor meches and 80 laser weapon meches.

...

jiang li used 17000000 energy points to make 170 level three meches.

Buzzzzzz!

the manufacturing interface appeared.

Two illusionary figures appeared, representing the mech types to be built. One of the illusionary figures had a number 'X90' beside it, while the other had a number 'x80'.

Countless light spots filled in.

The illusory figure gradually solidified.

A minute later.

[creation complete!]

a notification appeared.

Shua! Shua! "whoosh!"

One hundred and seventy figures appeared out of thin air and entered Jiang Li's sight. They stood in two groups and saluted at Jiang Li at the same time."My Lord!"

...

"Yes."

okay. Jiang Li glanced at them and nodded in satisfaction.

"upgrade."

Shua! Shua!

Jiang Li used another 238000000 energy points to upgrade all 170 meches to the perfected stage of level three.

As a result ...

Jiang Li had unlocked three types of level-three mechanical army units, and there were 100 soldiers in each type.

Soon after.

Jiang Li walked out of the Azure Dragon Palace and came to an extremely empty place in the great Xia Palace.

create 50000 early-stage level two meches, 10000 of each type.

kill. Jiang Li continued.

It consumed 50000000 energy points.

Shua!

The manufacturing interface appeared.

There were five illusionary figures, and each of them had a number 'X10000' beside it.

Buzzzzzz!

Countless light spots filled in.

The illusionary figure gradually solidified.

A minute later.

[creation complete!]

A notification appeared.

Shua! Shua! Shua!

The next moment.

50,000 meches appeared out of thin air in five different groups in Jiang Li's sight.

Almost the entire open space was occupied.

“My Lord!”

The fifty thousand meches saluted and shouted in unison.

“Yes.”

okay. Jiang Li nodded.

shua!

[congratulations, my Lord. Because you created 10000 mechanical Rangers at the same time, a special probability has been triggered. You have received two tier 2 elite troops, 'mechanical Emperor crocodile Rangers' and one 'mechanical Overlord Dragon Ranger'.]

At this moment.

jiang li received a notification.

“Three rank two elite soldiers.”

” a new level-two elite troop class appeared. ” jiang li was delighted after reading the notification.

“rank 2 elite troops, step forward.”

stop! Jiang Li shouted.

“yes.”

BOOM! BOOM!

The ground shook slightly.

Two mechanical Emperor crocodile and one mechanical Overlord Dragon walked out of the group of mechanical Rangers and stood in front of Jiang Li.

It wasn't Jiang Li's first time seeing the mechanical crocodile Emperor. The combination of the huge crocodile Emperor and the mechanical knight was very powerful.

The mechanical Overlord Dragon Ranger.

it could be seen.

The gigantic Overlord Dragon had thick and solid hind legs, short and powerful forelimbs, and a ferocious mouth. Its body was extremely huge, and it was ferocious like an ancient ferocious beast.

The exclusive weapon was a huge iron hammer covered with spikes.

“Not bad.”

okay. Jiang Li nodded in satisfaction.

Soon after.

jiang li used another 3000 energy points to create three mechanical rangers, filling up the gap in the elite units.

“Upgrade.”

Jiang Li first upgraded 50000 newly-made early-stage level two meches, which cost him 700000000 energy points.

Buzzzzzz! Buzzzzzz!

The white light on the meches was dazzling because there were so many of them.

a few seconds passed.

The 50,000 meches were all upgraded to the perfected stage of level two. Each mech was a first lieutenant.

the number of perfected-stage level two meches has exceeded one hundred thousand.

Jiang Li looked at the mech Army in front of him and smiled.

Immediately after.

jiang li spent 84000 energy points to upgrade two mechanical crocodile cavalrymen and one mechanical overlord dragon cavalryman to the perfected stage of tier two.

upgrade two mechanical crocodile Emperor Rangers and one mechanical Overlord Dragon Ranger to the early stage of Tier 3.

Jiang Li didn't hesitate. He used six level-three soul Tinders and 60000 energy points to upgrade all three of his newly-acquired elite soldiers to level three.

Buzzzzzz! Buzzzzzz!

The level-three soul Tinder and the energy points merged into the mech's body, upgrading it. The mech was glowing.

A few seconds later.

The promotion was completed.

“Roar!”

The crocodile Emperor and the Overlord Dragon roared.

his momentum was like a rainbow.

The mechanical Emperor crocodile cavalry had been upgraded to a psionic Emperor crocodile cavalry, and the mechanical Overlord Dragon cavalry had been upgraded to a psionic Overlord Dragon cavalry.

“Continue.”

Jiang Li used 8400000 energy points to upgrade all three elite troops to the peak of level three.

the light of psionic energy flowed around the three meches and then they slowly died down.

At this moment.

The power of the psionic Overlord Dragon Riders had reached its peak. The Overlord Dragon was sixteen meters tall, and it looked like a small mountain.

the mech knight sat on the overlord dragon's back and held an extremely huge hammer in his hand.

shua!

[unit type: psionic Overlord Dragoons (elite)]

[rank: Grand completion of rank-three]

[No.: Ynbwlyq01]

skill 1: Tier 2 ultimate charge

skill 2: rank-two dragon power

skill 3: Tier 3 psionic control

[equipment: stage three top-tier cold weapon knight set, stage three top-tier thermal weapon knight set, stage three top-tier exclusive weapon overlord dragon hammer]

[machinery: Jian Jia (omitted)]

[mechanical psionic energy: Momo (omitted)]

advancement requirements: two level-four soul Tinders, 2000000 energy points ”

.....

[sub-troop type: psionic Overlord Dragon Knight]

[rank: Grand completion of rank-three]

[No.: Ynbwlqs01]

skill 1: stage-two ultimate Knight's killing skill ”

skill 2: rank two Supreme heavy hammer technique

skill 3: Tier 3 exquisite psionic heavy hammer

[machinery: Jian Jia (omitted)]

[mechanical psionic energy: Momo (omitted)]

.....

[sub-troop type: psionic Overlord Dragon weapon]

[rank: Grand completion of rank-three]

[No.: Ynbwl01]

skill 1: rank-two superior-grade sprint ”

skill 2: level two extreme rage ”

skill 3: Tier 3 superior-grade psionic Draconic Aura ”

[machinery: Jian Jia (omitted)]

[mechanical psionic energy: Momo (omitted)]

.....

“It’s also nine skills.”

it’s another powerful mech. Jiang Li Read through all the information about the psionic Overlord Dragon mech, including the information about the Deputy mech. another powerful mech.

“Not bad, not bad.”

Jiang Li was very satisfied.

Shua!

The energy points column opened.

Jiang Li had 402703000 energy points left after the last round. He had used up 1730547000 energy points.

Currently.

Jiang Li’s mech Army.

Two perfected-stage level four meches, 310 perfected-stage level three meches, 10007 perfected-stage level two meches, and 460097 perfected-stage level one meches.

The total number of soldiers was 560416.

time passed.

three days later.

Hong Tianqi completed Jiang Li’s task. It only took him four days to gather all the steel needed to build a solid ‘army base’.

The materials had been gathered.

let's go. Jiang Li summoned the normal Mechanical Engineers and mechanical soldiers and confirmed the location of the 'army base'.

It was the original military camp.

Not far from the great Xia Palace.

"Chief sovereign."

Ptgc01 came over with the labor soldiers.

"How long will it take to build the Army base?"

Jiang Li asked.

"Half a month,"

Ptgc01 replied.

"Half a month is too long. Can you shorten the time?"

Jiang Li asked again.

One had to know.

Jiang Li planned to attack the great gan dynasty after the base was built.

"Yes, I can."

yes. ptgc01 nodded. Lord, you can create more engineers and labor soldiers. For every additional normal mechanical engineer and ten normal mechanical soldiers, you can reduce the construction time by one day.

however, there are still restrictions. Only ten groups of engineers and engineers can build the 'army base' at the same time.

"Alright," he said.

Jiang Li understood.

Shua!

The interface of the Army base opened up, and the construction center appeared.

create 9 normal Mechanical Engineers and 90 normal mechanical soldiers.

Jiang Li used up 9900000 energy points.

Chapter 252 A breakthrough

Within his line of sight.

The manufacturing interface appeared.

There were two illusionary figures in the interface, slowly rotating on their own. There were countless light spots filling in the surroundings, and the figures gradually solidified.

A minute later.

the illusionary figure completely solidified, as if it was a real entity.

[creation complete!]

A notification popped up.

Shua! Shua! shua!

Ninety-nine figures suddenly appeared in Jiang Li's sight. There were nine ordinary Mechanical Engineers and ninety ordinary mechanical soldiers.

"My Lord!"

Immediately.

"jiang li! " the ninety-nine construction soldiers saluted jiang li and shouted in unison.

"Yes."

okay. Jiang Li looked at them and nodded. I'll leave the construction of the military base to you. You must build it as soon as possible.

"Yes."

"i promise to complete the task."

"Please be at ease, chief sovereign."

The 99 construction troops responded one after another.

"Alright," he said.

okay. Jiang Li nodded with a smile. let's start working.

“Yes.”

“Rumble!”

The ground was shaking slightly.

A total of 100 ordinary mechanical soldiers stood in a row, and then they all activated their Stage 3 multi-form construction tools. There was a conspicuous Black Watch on their left wrists, and they pressed the black button on the watch.

Buzzzzzz!

Kachaa! kachaa!

The Black Watch emitted bursts of light, just like mechanical psionic energy. It was extremely dense, and as it spread, the energy gradually condensed.

In the blink of an eye.

The black energy materialized into a huge black bulldozer, which stood in a row and looked quite imposing.

“let's start working.”

The hundred ordinary mechanical soldiers quickly walked into the control room of the bulldozer and started it. The steel bulldozer that appeared was like a huge beast as it directly charged toward the military camp.

“Rumble!”

There was a violent vibration.

The walls of the camp were directly flattened by the bulldozers, causing the buildings to collapse.

very quickly.

Most of the buildings in the military camp were flattened.

It only took one morning.

The entire military camp was razed to the ground and turned into ruins. The wreckage of the collapsed military camp was transported out of the city by ordinary mechanical workers.

“Rise!”

“Whoosh!!!”

The ten ordinary Mechanical Engineers also started working.

It could be seen.

they stood in ten different positions and waved their right hands, causing a field of light to flash.

A thick black light spread out like psionic energy, covering the old barracks and gradually forming a huge, illusory army base.

it was huge!

It was extremely huge!

It covered a vast area, with a total area of one million square meters.

the army base was a square.

so,

The four sides were 1000 meters long.

Clang! clang!

It was the sound of steel colliding.

Huge lifting machines appeared from the ordinary mechanical tools and transported the collected steel to the surroundings of the Army base. They then lifted the steel and fused it into the illusory army base.

...

“Whoosh!!!”

A Black Radiance flickered.

When the steel material touched the illusory army base, it directly integrated into it and became a part of the illusory army base.

not only that.

Its size had been reduced by ten times.

It had been condensed to a certain extent.

“.....”

Jiang Li stood on the side and watched the construction process.

The construction scene was different from what he had expected. At first, Jiang Li thought it would be the same as building a house. He would need to smelt pieces of steel and then build them by hand.

Now, it seemed that this was not the case at all.

Generally speaking.

...

If all of them were to be used to build a giant building with a total area of one million square meters, it would require nearly 100000 tons of steel.

Building a solid 'army base' would require one million tons.

it had increased by ten times.

Because ...

During the construction process, the steel would be 'condensed' to become harder, tougher, and tougher.

Therefore, the amount of steel needed was up to a million tons.

Buzzzzzz! Wuwuwuwuwu!

a large amount of steel was transported by ordinary mechanical soldiers and then continuously integrated into the illusory army base, where the steel was condensed.

Time passed.

At noon.

Some of the illusionary buildings had become real. Jiang Li knocked on them with his fingers on purpose. They were extremely tough and made a crisp sound.

Ten construction teams working at the same time could shorten the time by nine days. The military base that originally needed half a month to be completed only needed six days.

The commotion caused by the construction site naturally aroused the curiosity of the residents in the imperial capital. Hong Tianqi, Hu Dong, and the others were also very curious.

However ...

They didn't dare to get close, or even peep.

Because ...

Around the construction site.

let's go. Jiang Li arranged a large number of meches to patrol and protect them. No one was allowed to approach without Jiang Li's order. Anyone who tried to approach would be killed on the spot.

one had to know.

The Army base was the most important thing. It couldn't be exposed before it was built. Also, the construction of the Army base would be too shocking. Jiang Li didn't want others to know about it.

He wanted to avoid as much trouble as possible.

In the afternoon.

Jiang Li left the construction site and returned to the great Xia Palace.

after lunch.

Jiang Li went to the ‘practice hall’.

“Whoosh!!!”

Azure Dragon technique. Jiang Li was using the Azure Dragon technique of the great Xia Dynasty. The invisible fortune of the nation turned into a ten-meter-long three-clawed Azure Dragon and wrapped around Jiang Li.

With the blessing of the nation’s fate.

Jiang Li clearly felt that his cultivation speed had more than doubled.

Furthermore ...

as the strength of the country’s fate increased, the speed of cultivation would also increase.

Jiang Li was holding the blood refining bead in his right hand. There was still a lot of energy in the blood refining bead. He used his cultivation technique to absorb and refine this energy. Then, he took some pills to help with his cultivation.

From there, he could improve his cultivation base.

It could be said that ...

Jiang Li had already reached the limit of the perfected stage of level one. His body was filled with internal force. The internal force in his dantian and the twelve standard meridians were also abundant and solid.

now.

He just needed to open one of his eight extraordinary meridians to step into the early stage of level two and cultivate elemental internal force. His strength would definitely increase greatly.

He was just missing an opportunity.

Time passed.

this time, jiang li cultivated for an entire afternoon and night.

Until the next morning.

BOOM!

Jiang Li's body shook.

“Roar!”

Immediately after.

roar! the Azure Dragon let out a roar. The power of the fate of the nation gathered and turned into a ray of Azure light that entered Jiang Li's body.

it helped jiang li.

The eight extraordinary meridians!

Jiang Li's internal force combined with the Azure Dragon's power and opened the yin Meridian, one of the eight extraordinary meridians. His aura and internal force increased greatly.

kachaa! Kachaa!

At the same time.

jiang li felt a strong life force coming from the depths of his body. it combined with his internal force and formed a light green light.

Azure Dragon.

The five elements belonged to the wood element, which contained endless vitality.

After Jiang Li's 'great Xia Azure Dragon technique' reached the early stage of level two, he had condensed wood-elemental internal force.

Half an hour later.

Jiang Li stabilized his cultivation.

Buzzzzzz!

The light green internal strength retracted and poured into his dantian. It then flowed through his meridians and strengthened his body.

Wood-elemental vitality filled his entire body.

It was a pretty good feeling.

Kachaa! Kachaa!

Jiang Li heard a cracking sound. He looked down and saw that the energy of the blood refining bead had been absorbed and turned into dust.

"It's being consumed so quickly."

the energy in the blood refining bead is completely used up after I reached the early stage of level two. The Azure Dragon technique of the great Xia is indeed a 'low-grade level four' technique. It's much more powerful in terms of energy consumption and absorption than techniques like the Thunder Qi technique.

most importantly, the inner force that I cultivate is more condensed.

“if the inner force cultivated by techniques like the thunder qi technique is an ordinary piece of iron, then the inner force cultivated by the great xia azure dragon technique is a hundred refined steel.”

“The gap is not small.”

Soon after.

jiang li came out of seclusion.

He walked out of the practice hall.

Speaking of this.

Jiang Li was able to break through this time because he had already reached the limit of the perfected stage of level one. It was only a matter of time before he reached the early stage of level two.

In addition, with the help of the country's fate.

He had succeeded in one go.

In the morning.

Jiang Li went to the construction site. A large part of the base had become solid buildings, and a lot of steel had been consumed.

at noon.

The gates of the imperial capital of the Grand Xia.

People came and went.

“This place is the imperial capital of the Grand Xia.”

The great Wei Dynasty’s emissaries had arrived. There were only three of them. The one in the lead was a middle-aged man with a delicate face. He wore a green and purple long robe and had a sharp aura between his brows.

to tell you the truth, Lord li, it’s not that I look down on the great Xia Dynasty. Take a closer look. Any city in our great Wei Dynasty can surpass the great Xia capital.

the light-armored, tall and sturdy man on the left sized up the imperial capital of the grand xia a few times. his eyes revealed a look of disdain, and then he said a few words.

“Indeed,”

The man on the right nodded.

“Be careful with your words.”

Lord Li, Li qinglu, frowned and reproached him in a soft voice, ” this is the territory of the great Xia Dynasty after all. We are here under the orders of Prince Wei to establish diplomatic relations with the great Xia Dynasty and to build a long-term trading route.

“I’m not here to make enemies.”

“Also, it’s just a city in front of us. What can we see? Since the great Xia Dynasty was able to successfully establish a Kingdom between the great Qian dynasty and

the red eyebrows Yao Kingdom, it naturally has its own unique and powerful aspects.”

“Yes.”

“Your subordinate has learned.”

the two of them responded in unison, but they didn’t think much of it.

Li qinglu and the other two passed the interrogation at the city gate and directly revealed their true identities, asking to meet the ‘Emperor Xia’ of the great Xia Dynasty.

hong tianqi and the others were alerted by this.

“Are you the emissaries of the Wei Dynasty?”

what’s the matter? ” Hong Tianqi asked as he sized up the three of them.

Chapter 253 The contract

“Yes, I am.”

“This is the warrant given to me by the Wei King of the Wei Dynasty,” li qinglu nodded and said.

As he said.

Li qinglu took out a square token from his pocket. The ‘Wei’ character was engraved on the front, and a blue three-clawed true dragon was on the back.

it was tainted with the great wei dynasty's national aura.

This could not be faked.

“Alright,” he said.

Hong Tianqi looked at it carefully and was not sure, but he still nodded and said, ”
“Please wait a moment.”

Wang Chao, ma han, the two of you go to the great Xia Palace immediately and report to His Majesty about the arrival of an envoy from the great Wei Dynasty.

Hong Tianqi said.

“Yes.”

Wang Chao and ma han looked at each other and quickly ran in the direction of the great Xia Palace after receiving the order.

The great Xia Palace.

At the East Gate.

Wang Chao and ma han were stopped outside the East Gate by the meches. They had to tell the meches what happened and the meches would report to Jiang Li.

“The envoy of the Wei Dynasty.”

Jiang Li heard the news. He thought for a while and said, ” the great gan dynasty is South of the great Wei Dynasty. In other words, the great Wei Dynasty's emissaries need to cross more than half of the great gan dynasty to reach the great Xia Dynasty. What are they doing in the great Xia Dynasty? ”

Soon after.

Wei Dynasty. Jiang Li asked the mech to inform Wang Chao and ma han to bring the emissaries of the Wei Dynasty to the Azure Dragon Hall and ask them what they were planning.

Outside the East Gate.

Emperor Xia's order is for you to bring the envoy from the Wei Dynasty to the Azure Dragon Hall.

The mech conveyed Jiang Li's words to Wang Chao and ma han.

"Yes, sir."

yes. Wang Chao and ma han nodded at the same time. They didn't even enter the great Xia Palace or see Jiang Li. After receiving the mech's message, they left in a hurry to inform Hong Tianqi and the others.

Hong Tianqi's mansion.

In the reception hall.

"minister hong, his majesty has ordered us to bring these three people to the azure dragon hall."

Ma han whispered to Hong Tianqi.

"Yes."

Hong Tianqi nodded.

"My three envoys, His Majesty has agreed to let you follow us to the Azure Dragon Hall."

Soon after.

Hong Tianqi stood up and said.

“Hmm, that’s good.”

Li qinglu nodded. please lead the way.

Ten minutes later.

Azure Dragon Palace.

Jiang Li sat on the Dragon chair while MYL01 and ynjs01 stood straight on his left and right.

Li qinglu and the other two were standing in the main hall.

Hong Tianqi, Hu Dong, and the others were standing on the side.

“Your Majesty, the three envoys from the Wei Dynasty have arrived.”

Hong Tianqi saluted.

“Yes.”

okay. Jiang Li nodded. you guys wait here.

“Yes.”

Hong Tianqi and the others nodded and walked to the side.

Li qinglu and the other two were sizing up the Azure Dragon Hall. The main hall's decorations were gorgeous, and the sculptures were exquisite. Moreover, it also had a kind of ancient and simple atmosphere.

this Emperor Xia of the great Xia Dynasty looks young. Moreover, his cultivation is not high. He is not even at the third rank. It seems that the rumors are true.

li qinglu sized jiang li up and looked down on him. then, she recalled what she had seen and heard after entering the great xia palace and thought, "also, I didn't see a single maid in the palace.

there aren't even any Palace maids to serve you. However, there are numerous guards stationed all around the great Xia Palace.

it can be seen that Emperor Xia places great importance on his own safety.

"Maybe it's because my strength is too low, so I don't feel safe."

"The three envoys from the Wei Dynasty, tell me your purpose in coming."

...

jiang li looked at li qinglu and the other two.

"Emperor Xia, we brothers are not the emissaries of the Wei Dynasty. We are only the guards of Lord li. We can not be addressed as emissaries."

The two men in light armor beside li qinglu said at the same time.

"Indeed,"

"emperor xia, they're just my guards," li qinglu said with a smile.

"Oh."

jiang li glanced at the two guards indifferently.

“Since you’re not even emissaries, why didn’t you kneel before his Majesty?”

MYL01 shouted in a deep voice.

“.....”

The two guards looked at each other.

...

“ahem.”

li qinglu coughed. ” zhao lin, zhao sen, hurry up and pay your respects to emperor xia. ”

After Zhao Lin and Zhao Sen heard li qinglu’s words, they bowed to Jiang Li reluctantly and said, ” “Greetings, Emperor Xia!”

Jiang Li glanced at MYL01.

BOOM!

the next moment.

MYL01 released his Devil’s realm. Black soul gas filled the air, forming a rank suppression on the soul. It surged towards Zhao Lin and Zhao Sen like a wave.

“ah!”

Zhao Lin and Zhao Sen screamed.

Plop!

The two of them had no power to resist.

He immediately knelt down.

His face was pale and he had a frightened expression.

“4th rank expert!”

Li qinglu’s face turned pale.

“Kneel down!”

myl01’s eyes were cold as he stared at li qinglu.

li qinglu, the envoy of the Wei Dynasty, pays his respects to Your Majesty,
Emperor Xia!

Li qinglu took a deep breath, then knelt down to Jiang Li and greeted him with respect.

In reality.

although li qinglu had verbally warned zhao lin and zhao sen not to underestimate the great xia dynasty, li qinglu himself didn’t think too highly of the great xia dynasty.

One had to know.

The two countries were having an exchange.

When one of the countries sent a Messenger to meet the king of the other country, they should pay their respects, let alone a guard who was not even a Messenger.

However ...

After li qinglu saw Jiang Li, he didn't bow to Jiang Li to show respect. Instead, he looked at the layout of the great Xia Palace.

It was as if he was strolling in his own garden.

There was more.

The attitudes of li qinglu's two guards, Zhao Lin and Zhao Sen, were also very problematic.

"Break his legs."

Jiang Li said.

"Yes!"

MYL01 nodded.

Shua!

His figure flashed.

Like a black ray of light, Zhao Lin and Zhao Sen didn't even have the chance to react.

Kachaa! kachaa!

Two crisp sounds.

“Ah!”

A miserable scream rang out.

Both of Zhao Lin’s and Zhao Sen’s legs were broken by a single slap from MYL01.

He fell to the ground and screamed.

His face was pale.

“.....”

Li qinglu’s expression changed slightly.

Shua!

MYL01 returned to Jiang Li’s side.

“Whoosh!!!”

myl01 withdrew the devil’s realm, the black soul gas dissipated, and the aura was retracted.

“Alright, we can have a good talk now.”

Jiang Li looked at li qinglu with a smile.

Your Majesty is right. My two guards did not know their manners. They should be punished.

Li qinglu said with a smile.

Jiang Li didn't say anything else. He just looked at li qinglu.

Your Majesty Emperor Xia, the great Xia Dynasty has just been established and needs a lot of help. We humans should help each other. That's why Prince Wei sent me here. His main purpose is to establish a friendly diplomatic relationship with the great Xia Dynasty, hoping to set up a stable trading route.

Li qinglu revealed the purpose of this trip.

"This is a good thing."

Jiang Li smiled. since Prince Wei said so, it'd be rude of me to reject him.

"To be able to establish a friendly diplomatic relationship with your country, I am very relieved."

"some time ago, i took down five counties of the red eyebrow yao kingdom and captured millions of yao people, men, women, young and old. there are all kinds of yao race. "

"If Prince Wei is interested, we can trade these demons to your country."

"A few million demons!"

Li qinglu raised her head. Her eyes lit up, and even her breathing became a little rushed.

A few million demons.

This was not a small number.

"That's right."

yes. Jiang Li nodded. but what's the price? ”

“ahem.”

Li qinglu coughed lightly and smiled. “Your Majesty Emperor Xia, I have not seen those demons, so I can not determine the quality of those demons. It is really difficult to set the price.”

this is a small matter. All the demon citizens are currently locked up in the red Dragon County city. We'll know when we go and take a look.

Jiang Li said.

“Alright, alright!”

Li qinglu immediately nodded. then, as Your Majesty Emperor Xia has said, when do we leave? ”

“There's no hurry.”

Jiang Li smiled. we're done with the demon slave business. We can talk about other business. I heard that the Wei Dynasty is vast. I think there must be a lot of herbs and spiritual herbs.

“I want to purchase a batch of medicinal herbs and spirit herbs. Is that possible?”

“This bi an ...”

Li qinglu pondered for a moment. Your Majesty Emperor Xia, may I know how many medicinal herbs and spirit herbs you want to buy? ” If the number is small, I can make the decision.”

“But if there are too many of them, we'll have to ask His Majesty, King Wei.”

“how much can you make the decision?”

Jiang Li asked.

“Your Majesty, if it’s herbs and elixirs within ten million taels of gold, I can make the decision.”

Li qinglu replied.

“That’s too little,”

jiang li frowned.

“Your Majesty Emperor Xia, that’s already quite a lot.”

Li qinglu laughed bitterly.

“Forget it,”

No. Jiang Li waved his hand and said, ” do you have a ‘slave contract’ in the Wei Dynasty? ”

“A slave contract! Qianqian, Your Majesty Emperor Xia, you are overestimating the Wei Dynasty by asking this question.”

Li qinglu shook his head. I think the great Xia Dynasty has just been established. So, Your Majesty, you probably don’t know the origin of the ‘slave contract’.

“what’s his background?”

Jiang Li asked.

The ‘slave contract’ is actually a reward for the ‘young dragon ranking’.

” yes. ” li qinglu explained, ” as long as you rank in the top 90, you can get a ‘slave contract’. you can use the contract to enslave creatures of other races. ”

the reward of the young dragon ranking.

Jiang Li didn’t expect this.

“Yes, I am.”

Li qinglu nodded.

“Is there no other way to obtain it?”

Jiang Li asked.

“Naturally, there are.”

Li qinglu replied, ” for example, if you destroy the top 90 dynasties, you will be able to obtain the ‘slave contract’ that originally belonged to that dynasty. There are also rumors that the ‘God race’ can create the ‘divine servant contract’ with the divine language, the ‘demon race’ can create the ‘demon servant contract’ with the demon language, and the ‘ghost race’ can create the ‘ghost servant contract’ with the spiritual language.

“In the martial arts Celestial Court of the human race, there is a ‘soul contract’ that is similar to the ‘slave contract’.”

” however, the most stable and safest way is still to develop the dynasty step by step, strengthen the nation’s fate, and improve the ranking on the young dragon ranking. in turn, i will obtain the rewards from the young dragon ranking. ”

Jiang Li fell silent after hearing what Li Qinglu said. He was thinking about what Li Qinglu said. The Azure Dragon Hall became quiet except for Zhao Lin and Zhao Sen's muffled moans.

Obviously.

The origin of the 'slave contract' was beyond Jiang Li's expectation.

If Jiang Li wanted to get a 'slave contract', he had to be in the top 90 of the 'young dragon list'.

If he were to develop the great Xia Dynasty step by step and improve the country's strength and fate, it would be too time-consuming.

furthermore ...

He might not even succeed.

As the great Xia Dynasty developed, the other dynasties naturally developed as well. By relying on stable development to continuously increase their National Strength and fate, it was easier said than done to catch up.

so,

The fastest way.

It was to 'plunder' other dynasties and devour the National fate of other dynasties in order to quickly rise in the ranking of the young dragon List.

"Your Majesty Emperor Xia, I wonder about the 'demon people'?"

After a while.

Li qinglu asked in a low voice.

“Oh.”

Jiang Li raised his head and said to li qinglu, ” there’s no problem with that. Those captured demons can be traded to the great Wei Dynasty. However, I hope that the great Wei Dynasty can use medicinal herbs of equal value to trade.

“Using medicinal herbs to trade, this Wufu ...”

Li qinglu was stunned. It was the first time he heard about this. He couldn’t help but think, ” I heard that Jiang Li needs herbs and spirit herbs on the way from the Wei Dynasty to the Xia Dynasty. It seems to be true.

“Let’s do this first.”

let’s go, ” Jiang Li said. Hu Dong, take the Wei Dynasty’s Messenger to the Red Dragon County. We’ll make a decision when we see the monsters.

“yes, sir.”

Hu Dong took a step forward.

“That’s good.”

li qinglu also nodded.

The discussion was over.

li qinglu supported his two guards and left azure dragon palace. hong tianqi and the others also left one after another, leading li qinglu’s two guards to treat their injuries.

“The Wei Dynasty.”

Jiang Li sat on the Dragon Throne and said, ” “I hope he’ll be a good trading partner.”

jiang li had heard from hong tianqi that the price of an adult demon slave was around 100 taels of silver.

However, it seemed like ...

the true value of the demon race and its people should be more than a hundred taels.

First of all ...

the existence of the ‘slave contract’ would prevent the demonic slaves from betraying them. the value of the demonic slaves ‘labor alone would be more than a hundred taels of silver.

Plus ...

If they were demon slaves with cultivation, their value would be even higher.

A few million demons.

If all of them were to sign a ‘slave contract’ and become demon slaves, it would be enough to create huge value for the great Wei Dynasty. This was why li qinglu was so impatient and couldn’t even keep calm.

” a hundred taels of silver for a demon slave. either the great qian dynasty intentionally lowered the price of the demon slaves, or they were demon slaves who had not been signed with a ‘slave contract’.

slave market? ” Jiang Li thought to himself, I should learn more about the slave market when I have time.

That night.

Li qinglu sent a messenger pigeon to the Wei Dynasty, reporting everything that had happened in the Xia Dynasty.

It also mentioned that Jiang Li wanted to trade herbs with the monsters.

The next day.

In the morning.

after li qinglu's two guards had recovered from their injuries, hu dong led the way. he led a group of human soldiers and rushed to the city of red dragon county.

the wei dynasty.

Li qinglu's letter had already arrived. The Tianji Pavilion of the Wei Dynasty had received the letter and sent its contents to the King of Wei.

“Yes!”

After reading the content, Prince Wei only replied with one word.

The pavilion of heavenly secrets.

A snow-white messenger pigeon flew out carrying the decree of the Prince of Wei. It flew towards the great Xia Dynasty at its fastest speed, like a white bolt of lightning, streaking across the sky.

It was very fast!

The ‘carrier pigeons’ that the pavilion of heavenly secrets had nurtured were extraordinary.

...

It was called the 'Tianji carrier pigeon'.

At noon.

Li Qinglu arrived at the county capital of Red Dragon County and saw the millions of demons imprisoned there.

This was because there had been a rebellion not long ago. Although it had been suppressed, hundreds of thousands of demons had died.

"Good, good."

Li Qinglu looked at the demons in the Red Dragon County city, and the smile on his face grew even wider. Very good. The quality of these demons is very good. I'm willing to buy all of them on behalf of the great Wei Dynasty.

"The price is 150 taels of silver for each demon."

"Ahem."

Cough, cough, "Hu Dong coughed and said," you should know that His Majesty Emperor Xia said that he hopes to trade with medicinal herbs of equal value.

"Of course I remember that."

Li Qinglu paused for a moment before continuing. I've already sent a messenger pigeon to report the specific situation to His Majesty. If everything goes as expected, he should have a reply by this evening.

...

"Alright," he said.

Hu Dong nodded.

in the evening.

Shua!

The Tianji carrier pigeon flew into red Dragon County like a bolt of White Lightning, then headed straight for li qinglu's residence.

“They're here.”

Li qinglu's eyes brightened. He quickly stood up and walked to the window. The Tianji carrier pigeon jumped onto his shoulder. Li qinglu took the letter from the bird's claw and unfolded it.

There was only one word written on the letter-accurate!

“his majesty has agreed.”

Li qinglu was overjoyed. His expression was one of excitement. that's great! If this transaction is successful, we'll be able to bring these few million demons back to the great Wei Dynasty and sign a 'slave contract'. This will be a great contribution.

“Alright, alright, alright.”

Li qinglu suppressed his excitement and immediately walked out of the room to find Hu Dong to discuss the deal. The two met at the Duke's residence in the red Dragon county capital.

“His Majesty, Prince Wei, has agreed.”

Li qinglu said directly.

“Really!”

hu dong was also delighted.

“Yes,”

Li qinglu nodded. Sir Hu Dong, please inform His Majesty Emperor Xia as soon as possible and calculate the number of these demons. Each demon will be bought at 150 taels of silver.

“Sure, no problem.”

Hu Dong quickly nodded.

Soon after.

hu dong went to zh01 who was in the red dragon county and told him what happened. zh01 then contacted jiang li through the intel mech.

The communication was connected.

ruler, Hu Dong just reported to this subordinate that the great Wei Dynasty’s envoy, li qinglu, has already received the Wei King’s decree. The great Wei Dynasty’s Wei King has agreed to the request to trade medicinal herbs.

zh01 said directly.

“Alright,” he said.

yes. Jiang Li heard it and nodded. close the deal as soon as possible. It’s a problem for these millions of monsters to stay in the county capital of Red Dragon County.

“Yes.”

zh01 nodded.

Shua!

The communication was shut down.

Jiang Li didn't have a slave contract, so he couldn't sign a slave contract with the monsters. He might as well sell them to the Wei Dynasty in exchange for a large amount of herbs.

Furthermore ...

If the hundreds of thousands of monsters stayed in the red Dragon County, Jiang Li would need to keep a heavy guard, which would slow down his military deployment.

Since the Prince of Wei had agreed to trade medicinal herbs, it meant that the value of these few million demons was very high in his eyes. It was worth it for him to do so.

A day later.

There were a total of 3789600 demon dwellers. At the price of 150 taels of silver per person, the total amount was 56844000 taels of silver.

In other words ...

The great Wei Dynasty would need to take out 568.44 million taels of silver worth of medicinal herbs to exchange for it.

After confirming the price.

in order to complete the transaction as soon as possible, li qinglu sent a messenger pigeon again. when the wei dynasty received the news, they immediately sent an army to escort him.

This was to ensure that the transaction would proceed smoothly.

It was obvious.

Compared to Jiang Li, the Wei Dynasty seemed to value this deal more.

“This demon slave’s value is definitely higher than I expected.”

slave contract? ” Jiang Li was even more certain of his judgment after seeing the Wei Dynasty’s reaction. At the same time, he wanted to get the slave contract as soon as possible.

At the construction site.

Clang! Clang!

Wuwuwuwuwu!

Hundreds of ordinary mechanical soldiers were busy working 24 hours a day. They lifted a large number of steel plates and integrated them into the illusory army base.

It could be seen.

Nearly half of the buildings in the base were completed. A large part of the buildings had turned into physical objects. The four walls were tall and dark in color.

how long until ptgc01 is completed? ”

jiang li asked.

“Reporting to the hegemon, I’ll need three more days at most,”

ptgc01 replied.

“Yes.”

” okay. ” jiang li nodded.

For the great Wei Dynasty’s Army to reach the great Xia Dynasty, they had to cross several counties of the great Qian dynasty’s territory. Even if they marched at full speed, it would take nearly a day.

Furthermore ...

The great Wei Dynasty had suddenly sent out an Army and wanted to enter the great gan dynasty’s territory. This naturally attracted the great gan dynasty’s attention.

Without a valid reason, the great gan dynasty would naturally not allow the great Wei Dynasty’s Army to enter the country. The negotiations between the two countries were delayed for another half a day.

Finally.

Until noon the next day.

the great wei dynasty’s army had just arrived at the red dragon county city and met with hu dong zh01. after confirming that there was no mistake, the two parties carried out the transaction.

However ...

Jiang Li didn’t expect this.

The great Wei Dynasty's Army was too powerful. Every soldier was a stage one martial artist. Although they were not as strong as the Imperial Army of the great gan dynasty and the red eyebrows Yao Kingdom, they were still very strong.

However, it was still very terrifying.

After all, this Army was not the Imperial Army of the Wei Dynasty.

Furthermore ...

The commander of this Army had reached the fourth stage of cultivation!

The combat strength of a National Guardian!

It could be seen from this.

The great Wei Dynasty's national power and strength were so powerful that he didn't know what its ranking was on the young dragon List.

"let's go." jiang li left the deal to zh01 and hu dong. he only learned some information from the intel mech.

That afternoon.

The deal was completed. Zh01 led 100000 meches and escorted all the herbs back to the capital from Red Dragon County.

Li qinglu and the others led more than three million demons back to the Wei Dynasty under the escort of 100000 human soldiers.

in the evening.

Zh01 and the others had returned to the imperial capital of the Grand Xia.

The medicinal herbs that were worth over five hundred million taels of silver had also arrived safely.

Chapter 255 The radiation

The original camp was being rebuilt, so the meches didn't have a place to stay for the time being. Jiang Li had them all stay in the great Xia Palace.

The great Xia Palace was huge, but there were too many buildings. More than 500000 meches were stationed there, making the entire great Xia Palace very crowded.

There were not many people living in the great Xia Palace, so the palaces looked empty. After more than 500000 meches poured in, the place became lively.

Du Xiaohua naturally saw the meches that were stationed in the great Xia Palace. Although she was curious, she didn't ask anything and focused on studying the new recipe.

At night.

Jiang Li ordered the meches to move the 500 million herbs off the large military transport truck and put them in front of him.

“Convert!”

Jiang Li reached out his right hand, touched the herbs, and started the conversion.

“Whoosh!!!”

A white light flashed.

all the medicinal ingredients had disappeared.

All of them were converted into energy points in one go.

” conversion successful. you’ve received 5684400 energy points! ”

a notification appeared.

“Burn these boxes,”

go! Jiang Li ordered.

“Yes.”

The meches nodded and burned the wooden boxes to ashes.

more than three million demon dwellers were only exchanged for five million energy points.

No. Jiang Li shook his head. if I turn all these monsters into slaves of the Xia Dynasty, the value I’ll create will definitely be much higher than these five million energy points.

this can’t be helped. After all, without the ‘slave contract’, it’s useless to keep these demons. They’ll only drag down the military. Now, we’ve at least exchanged them for five million energy points.

” the military base should be completed by tomorrow. all the meches have returned to the capital. ”

” it’s time to attack the great qian dynasty, ” jiang li thought.

“MYL01.”

Jiang Li shouted.

“Please give us your orders, chief sovereign.”

Mr. Jiang. MYL01 walked over and saluted Jiang Li.

tonight, you’ll move through the night and head to the capital of the great gan Lord dynasty as fast as you can. Use your invisible form to investigate the situation in the great gan Lord dynasty.

jiang li said.

“Yes.”

MYL01 nodded.

“Bring QX03.”

Jiang Li said.

“understood.”

MYL01 nodded again.

buzzzzzz!

The void-ification technique was activated.

MYL01 turned into a ‘spirit form’ and floated in the air. Then, it brought along QX03 and flew through the air, leaving the great Xia Palace.

“I hope everything goes well.”

HM? ” Jiang Li looked in the direction where MYL01 left.

The great gan Lord dynasty.

Within the capital.

in the closed-door cultivation room where king qian was located ...

Wuwuwuwuwu!

A golden radiance flickered and the surroundings were filled with lower spiritual crystals. They were arranged in a special pattern and formation patterns were carved on them to gather the spiritual Qi of heaven and earth.

“roar!”

A three-clawed Golden Dragon appeared and coiled around King Qian’s body.

With the blessing of the nation’s fate.

BOOM! BOOM!

King Qian’s aura was getting stronger, and his injuries had completely recovered. He had also consumed a large number of medicinal pills to refine the medicinal effects. In addition, he had also consumed the energy from the ten thousand spirit Pearl.

His true energy was steadily increasing.

Obviously.

King Qian had been cultivating in seclusion for half a month, and the situation was better than he had expected. The ten thousand spirit Pearl was indeed a treasure

that was condensed from the essence of millions of living beings and even the rank four demonic fog soldiers.

...

The energy was extremely abundant.

Initially, King Qian thought that he would have to go into seclusion for a month. He did not expect that only half a month had passed, and there were already signs of a breakthrough. It was only a matter of time before he broke through to the perfected stage of Tier 4.

“Heaven Dragon art!”

“roar!”

die! King Qian shouted. A Dragon’s Roar came from his body, and a terrifying suction force devoured a vast amount of heaven and earth Spirit energy. A large amount of energy from the lower spiritual crystals was also devoured.

Buzzzzzz! “Whoosh!!!”

His true energy was vibrating.

A huge spirit Qi vortex appeared above King Qian’s head.

At this moment.

The palace of the great Qian dynasty.

King Qian was in seclusion, and the king of counsel was temporarily taking King Zhou’s place to manage the country’s Affairs. In the past half a month, the entire great Qian dynasty had been recruiting soldiers to replenish their losses.

...

Even though great gan Lord dynasty experienced a huge upheaval not long ago, many citizens chose to join the army because of the favorable conditions and treatment for recruitment.

There were also many stage-one Warriors among them.

there were also many peak stage elementary level prospective fighters.

However ...

Most of them were ordinary civilians.

Most of the civilians had to undergo training after joining the army. These new soldiers had only been trained for less than half a month. They were only cannon fodder on the battlefield.

“King of the Council, there’s news from the county in the South.”

the Wei Dynasty suddenly sent an Army of 100000 people, ” Wang Shangqing said. after some negotiations, the southern County city allowed the Wei Dynasty’s Army to enter the country.

“This Army should be heading towards the great Xia Dynasty.”

“Big Wei,”

The king of Parliament raised his head and frowned. what does King Wei want to do? By sending an Army to the great Xia Dynasty at this time, are they trying to loot a burning house?”

“This doesn’t seem to be Prince Wei’s style.”

“King of Town, I haven’t finished the news.”

“when the wei dynasty’s army left the xia dynasty’s territory, they actually brought a few million demons with them,” wang shangqing added.

“There are many of them.”

“The demon race.”

The king of Council pondered, ” do you know where these monsters came from? ”

“I’m not too sure.”

Wang Shangqing said.

“The matter is basically clear now.”

Gongsun Zhi took a deep breath and suddenly said, ” Jiang Li of the Xia Dynasty has occupied ten counties of our dynasty. The ten counties alone are not enough to build a country.

however, he had obviously successfully occupied the territory of the red eyebrows Yao Kingdom. This was how he met the standard and successfully established the ‘great Xia Dynasty’, gathering the fate of the country.

Jiang Li must have captured those millions of monsters, but he sold them all to the Wei Dynasty.

“Gongsun Zhi’s analysis makes sense.”

Wang Shangqing immediately nodded.

“that’s right! That’s right!”

“That’s definitely the case,”

“that should be the truth.”

The ministers said one after another.

since Jiang Li can take the red eyebrows Empire’s territory from them, he must be quite strong. He’s at least a level-four.

“wang shangqing, what’s the result of the recruitment?” the king of council asked.

King of Council, we’ve recruited two million soldiers in the past half a month, but more than ninety percent of them are ordinary civilians. They’ve only been training for less than half a month, so they can’t play a big role in the battle. They’ll be cannon fodder on the battlefield.

“We’ll need at least half a year of training to form a combat force with these two million newly recruited soldiers,” said Wang Shangqing.

“Half a year,”

The king of Parliament nodded, and then ordered, “Wang Shangqing, send a few inspectors to infiltrate the great Xia Dynasty’s territory and find a way to obtain information about the great Xia Dynasty. It would be best if you can find out the strength and number of soldiers of the great Xia Dynasty.

“I’m afraid this won’t be easy to do.”

Wang Shangqing said, but he still nodded. I’ll do my best.

that’s all for now. As for the specific matters, we’ll make a decision after King Qian comes out of his closed-door cultivation.

The king of Parliament said.

“yes.”

“yes, sir.”

“That’s the only way.”

Wang Shangqing, Gongsun Zhi, and the other civil and military officials all nodded.

The Wei Dynasty.

The capital.

Li qinglu and Wei Wuxian met with the Prince of Wei.

within the palace.

“I, li qinglu, kowtow to Your Majesty.”

Plop!

Li qinglu knelt on the ground and kowtowed to the Prince of Wei.

“Wuxian greets Your Majesty.”

Wei Wuxian stood straight at the side, he only cupped his hands and saluted to the Prince of Wei, but he did not kneel down.

Obviously.

This was because Wei Wuxian’s status was very high. His cultivation had reached the early stage of Tier 4, so in the great Wei Dynasty, he didn’t even need to kneel when he saw the Wei King.

“You may dispense with the formalities,”

In front of him.

King Wei sat on the Dragon Throne of the great Wei Dynasty. He was dressed in a Blue Dragon robe and there was a layer of faint blue mist around his body. This was a strange phenomenon formed by an overly rich country’s fate.

The country’s fate protected him.

If one’s cultivation had not reached a certain level, one would not even be able to see the true appearance of the King of Wei through the fate of the nation.

“Have you made arrangements for those demons?”

Asked Prince Wei.

“Your Majesty, it has been arranged.”

Li qinglu raised his head and replied, ” I believe that after the ‘slave contract’ is planted, it will soon become cheap labor and enter the ‘spirit crystal mine’ to mine.

“Yes.”

Prince Wei nodded in satisfaction.

‘Spirit crystal mine’

It was a precious mine that produced ‘spiritual crystals’.

The value of spiritual crystals was extremely high, and they were the high-end currency circulating throughout the continent. However, in ‘spiritual crystal mines’, they had ‘spiritual radiation’.

Only the ‘spiritual crystals’ that had been mined could be used normally.

Staying in the ‘spirit crystal mine’ for a long time would not only have no benefits, but would also be subjected to ‘spirit radiation’, which would lead to the corrosion of one’s life.

It could be as short as a month, and as long as a year.

He would definitely die.

Most of the ‘demonic slaves’ and ‘barbarian slaves’ of the Wei Dynasty had been sent into the ‘spiritual crystal mine’ to mine spiritual crystals. Because of the year-round mining, the ‘spiritual crystal mine’ was gradually drying up, and the ‘spiritual radiation’ was getting stronger and stronger.

“how do you feel about your trip to the great xia dynasty?”

Asked Prince Wei.

“Your Majesty.”

Emperor Xia’s cultivation and strength are indeed as the rumors say, ” li qinglu said directly. he’s too weak. I guess he has just broken through to the second rank.

my two guards are both at the later stage of level three, so I let them disrespect Emperor Xia. I tested Jiang Li’s men and found that there are indeed powerful Masters under him. They are definitely at the National Guardian level, and there might be more than one.

” he broke the legs of two of my guards with a single move. zhao lin and zhao sen did not even have the time to react or resist. he is extremely powerful. ”

” also, it is precisely because of his lack of cultivation that emperor xia places great importance on his own safety. he is almost always accompanied by guards. ”

” as for the ‘ancient puppetry’, i can’t confirm whether it’s true or not, but i didn’t feel any strong soul waves from jiang li. ”

but I don’t think Jiang Li’s subordinate is human.

“you said he’s not a human.”

Jiang Li! Prince Wei suddenly looked up and a deep dragon roar came out. An indescribable pressure came out of Prince Wei’s body. Jiang Li dares to collude with the alien race?!

Chapter 256 Exiting seclusion

“This subject does not dare to make wild guesses.”

Li qinglu lowered his head and then replied.

“Wuxian, what do you think?”

The Prince of Wei looked at Wei Wuxian and asked.

Your Majesty, I think that li qinglu has been an official for many years and has seen many things. He still has the eyesight that he should have.

Wei Wuxian said as if he didn’t answer the question.

“you have good eyes.”

Prince Wei muttered.

“.....”

Li qinglu's head was still lowered.

“All of you may leave.”

Prince Wei waved his hand.

“This official will take his leave.”

Li qinglu stood up, bowed, and then retreated out of the hall.

“This official will take his leave.”

Wei Wuxian said.

The two of them left the Royal Palace together.

“.....”

The Prince of Wei was silent, as if he was thinking about something.

Suddenly.

A shadow appeared beside the Prince of Wei. It was as if it had appeared out of thin air, as if it had already fused with the surrounding darkness.

They took on a human form.

” yin shiyi, investigate jiang li. ”

Said Prince Wei.

“Yes.”

Yin Shiyi nodded.

Buzzzzzz!

A black light surged, and the figure blended into the darkness.

Then, he disappeared into thin air.

outside the royal palace.

“General Wuxian, I really have to thank you for what you did in the Royal Palace just now.”

Li qinglu cupped his hands toward Wei Wuxian with a smile on his face and said in a grateful tone.

“No need.”

Wei Wuxian glanced at li qinglu out of the corner of his eye. remember what you promised.

“Don’t worry,”

Li qinglu nodded. 500000 demonic slaves will be delivered to the general’s residence tomorrow.

“Yes.”

Wei Wuxian nodded in satisfaction. He quickened his pace and left. He seemed to be walking at a normal speed, but every step he took covered a hundred meters.

In the blink of an eye.

He had already left li qinglu's line of sight.

“Hehe.”

Li qinglu's lips curved up slightly. There was a sense of vengeful pleasure in his eyes. He chuckled smugly. Jiang Li, Oh, Jiang Li. Although what I said just now might not make His Majesty the King of Wei target you, I think it's enough to give you a warning.

“Moreover, if you really collude with the ‘foreign race’, with His Majesty's temperament, the great Xia Dynasty will be destroyed soon.”

“When the time comes, I'd like to see what your end will be.”

It was obvious.

back in the azure dragon hall of the great xia palace.

in front of li qinglu, jiang li asked myl01 to break zhao lin and zhao sen's legs and forced li qinglu to kneel.

He had disgraced li qinglu.

Li qinglu didn't show anything at that time and was very respectful to Jiang Li.

But in his heart.

He could not swallow this resentment.

He hid it in his heart.

He was looking for an opportunity to take revenge.

...

so,

Li qinglu said that Jiang Li might have colluded with alien races in front of Prince Wei, and Wei Wuxian also said something ambiguous.

Prince Wei was indeed suspicious and sent Yin Shiyi to investigate Jiang Li.

On the other side.

the night came.

MYL01's entire body turned invisible as he brought QX03 with him. He used his fastest speed to head towards the capital of da Qian and had already arrived at fallen Phoenix County.

As long as he left fallen Phoenix County, he would be able to enter Royal protector County.

Finally.

and then through the royal guard county.

He would be able to arrive at the imperial capital of the great gan Lord dynasty.

Shua!

...

MYL01 was like a ghost, carrying QX03 and flying in the air at a very fast speed.

They entered the Royal Guard County at midnight.

Along the way.

unimpeded.

No one noticed it.

The next morning.

MYL01 had successfully entered the borders of the DA Qian Empire, dropped off QX03, and found a safe hiding place for QX03.

Shua!

The holographic camera rose into the air and shot into the sky, recording the scene in the capital of da Qian.

QX03, it's not convenient to bring you along for the next operation because it's easy to expose your whereabouts. Moreover, your mission is to send a message to the Lord, so you just need to hide here and do not move. You can film from a distance.

MYL01 ordered.

“Yes, Major General MY01.”

QX03 nodded.

“be careful, don't get discovered.”

MYL01 warned.

“Yes.”

qx03 nodded.

“Whoosh!!!”

MYL01 activated the ‘void-ification technique’ skill, and his entire body became void-like, turning into a ‘ghost-like’ form. He rose into the air and flew into the capital of da Qian.

The figure fused with the shadow.

it was like invisibility.

initiate holographic communication. Contact QX01.

QX03 controlled the holographic camera and pointed it at the palace. At the same time, he immediately contacted QX01.

Within the Grand Xia Palace.

Jiang Li had just come out of his bedroom.

“Chief sovereign.”

qx01 quickly came over and stood in front of jiang li. he said quickly, ” QX03 has sent news, Major General MY01 has already sneaked into the capital of da Qian.

“So fast.”

HM? ” Jiang Li was surprised. He didn’t expect that MYL01 would arrive at the capital of da Qian so quickly and even sneak in.

“How’s the situation?”

Jiang Li asked.

“chief sovereign, please take a look.”

buzzzzzz!

The holographic projection appeared.

It occupied most of Jiang Li’s sight.

In the holographic screen.

The first thing that Jiang Li saw was the imperial capital of the great Qian dynasty. It was a huge and magnificent city. The Imperial Palace was right in the middle.

Around the palace.

the buildings were arranged in rows and were densely packed.

He could see the citizens of the capital walking on the streets. At the same time, a large number of farmers were rebuilding the destroyed buildings in the capital.

The battle between the DA Qian dynasty, the half-monster Alliance, and the rebel army had destroyed a large number of buildings in the capital. Even a large part of the city wall had collapsed.

However ...

The reconstruction had been completed.

“QX03, where is MYL01?”

Jiang Li asked.

shua!

QX03 quickly adjusted the camera, and the blurred image of MYL01 appeared on the screen. He had already sneaked into the palace of da Qian.

“Not bad.”

okay. Jiang Li nodded in satisfaction. send a message to MYL01 immediately. If possible, try to assassinate the higher-ups of the Imperial court.

“It’s best if we can find the king of the Council and kill him.”

“Yes.”

” yes, sir. ” qx03 responded and conveyed jiang li’s order to myl01.

“Understood.”

MYL01 replied.

“Where is the military camp of the Imperial court of da Qian?”

can you find it? ” Jiang Li asked again.

“yes, i can!”

QX03 replied.

Half a minute later.

“Chief sovereign, I’ve found it.”

Buzzzzzz!

Immediately.

QX03 quickly zoomed in. In the holographic image, there was a place that was quickly enlarged in Jiang Li’s sight.

Finally, it was completely presented in front of Jiang Li.

In the barracks of the great gan Lord dynasty.

the location was not far from the palace of da qian.

It wasn’t hidden.

Instead, it was very eye-catching.

It occupied a huge area.

In the military camp.

Jiang Li saw a large number of soldiers training.

There were many of them.

“Didn’t the great Qian dynasty lose a lot of soldiers in the war with the half-monster Alliance and the rebel army? How can there still be so many of them?”

Jiang Li thought to himself.

“MYL01, go over and check the situation.”

go! Jiang Li ordered.

“Yes.”

MYL01 nodded.

Ten minutes later.

MYL01 arrived outside the military camp.

in the military camp.

There was a commotion.

“Run faster! Did you not eat yesterday?”

“Use more strength! Hold the spear tightly and thrust it forward!”

“?!”

“trash! What a bunch of f * cking trash!”

“Trash!”

“If you go to the battlefield like this, you’re just going to die. You don’t even have the right to be cannon fodder. If you don’t want to die, then train with all your might! use all your strength!”

“.....”

The angry shouts of the military instructor and general kept coming out.

“Whoosh!!!”

As the MYL01 approached the military camp, it sensed a wave of energy and set up a protective array around the military camp.

Obviously.

This formation was arranged by the king of Council.

The king of Parliament was a third-grade array master.

Unfortunately ...

This was only a third-grade defensive array. It could defend against others, but it could not defend against the already illusory MYL01, not to mention that MYL01 was at the perfected stage of the fourth tier.

Unless it was a fourth-grade formation.

It was very likely that they could stop MYL01.

“i see.”

” master, most of the soldiers in the camp are new recruits of the great qian dynasty. ” myl01 sneaked in and reported to jiang li.

“I’ve only been training for less than half a month.”

moreover, more than 90% of the new recruits are ordinary civilians without any cultivation.

“So you’re a new recruit.”

I see. Jiang Li understood. no wonder there are so many soldiers. They’re all new recruits. They’re just paper tigers. They’re only good for show but useless. They’ll be cannon fodder on the battlefield.

Time passed.

Half the morning passed.

Jiang Li learned about the situation in the capital of da Qian through QX03 and got a lot of information about the dynasty.

However ...

MYL01 failed to find King Qian and The King of Town.

but ...

however, myl01 had eavesdropped on the conversation between the higher-ups of the imperial court of da qian and found out that king qian had gone into seclusion half a month ago in an attempt to break through to the perfected stage of level four.

He still hadn’t come out of seclusion.

“I’m going into seclusion.”

Jiang Li was surprised when he heard the news. King Qian is actually in closed-door cultivation for a breakthrough!

“This is an opportunity.”

let's go. Jiang Li didn't hesitate. He quickened his pace and immediately ordered all the meches to gather. Then he went to the construction site.

“Chief sovereign.”

Thank you, sir. the construction units, including ptgc01, saluted Jiang Li.

“Yes.”

okay. Jiang Li nodded and looked at the base. More than 90% of the illusionary buildings had become real.

The entire base was black.

“How long until it's complete?”

Jiang Li asked.

“one hour.”

Ptgc01 replied.

“Alright,” he said.

yes. Jiang Li nodded. gather the mech Army first. We'll leave in an hour.

but ...

Half an hour later.

Something happened at MYL01.

“roar!”

In the palace of da Qian.

An earth-shattering dragon roar resounded. Its might was overwhelming. Golden light shone and illuminated the entire Palace of the great Qian dynasty. The true dragon of the country’s fate had manifested.

In the sky above the palace.

It was a lifelike three-clawed Golden Dragon!

It hovered in the air.

It bared its fangs and brandished its claws, its Golden Dragon beard fluttering.

A thousand meters!

It was a three-clawed Golden Dragon that was a thousand meters long!

“It’s the true dragon of the nation!”

“That’s great!”

His Majesty has come out of seclusion. This must be His Majesty!

“.....”

The entire capital of da Qian was alarmed.

“The true dragon of the nation.”

myl01 looked up at the thousand-meter-long three-clawed golden dragon and felt a strong sense of oppression. it was much stronger than the three-clawed red dragon of the red eyebrows demon kingdom.

Shua!

Suddenly.

The three-clawed Golden Dragon lowered its head and looked at MYL01 with its golden eyes. Its sharp gaze carried a heavy sense of pressure.

“I’ve been discovered.”

MYL01 finally reacted.

“How dare you sneak into the palace.”

The next moment.

King Qian’s chiding voice was heard. He had already come out of his closed-door cultivation and had successfully broken through to the perfected stage of Tier 4. He stood in the air and stood beside the three-clawed Golden Dragon.

Chapter 257 Start

Obviously.

king qian had gone into seclusion for half a month to successfully refine the energy of the thousand spirit pearl. he had also absorbed a large number of spirit crystals with the help of the power of the nation's fate.

He had successfully broken through.

However, King Qian did not expect the true dragon to notice that a type 4 powerhouse had infiltrated the palace the moment he broke through.

Even the formation set up by the king of Council could not stop the other party.

If it was not for the uniqueness of the National aura true dragon, the invisible National aura that enveloped the entire Palace, which allowed it to detect the abnormal fluctuations in the palace, King Qian would not have been able to discover the existence of MYL01.

At this moment.

QX03 once again connected to QX01.

report the emergency to Jiang Li.

Shua!

The holographic projection appeared.

Everything that happened in the palace was displayed before Jiang Li's eyes.

“This Suan ni, King Qian has come out of seclusion.”

King Qian. Jiang Li looked at King Qian's figure in the image. He was wearing a Golden Dragon robe, had a handsome face, a pair of sharp eyebrows, and a pair of deep eyes. He was very imposing and majestic.

He was surrounded by a thick golden light.

King Qian has successfully made a breakthrough.

Jiang Li thought and murmured, ” “It’s a pity that I didn’t grab this opportunity.”

“Golden Dragon Seal!”

BOOM!

In the image.

King Qian had already made his move. He formed a hand seal with both his hands, and a vast amount of true energy gathered and formed a dazzling golden light. It turned into a golden seal in the shape of a Dragon.

The Dragon-shaped golden seal descended.

“Roar!”

It was like a Golden Dragon roaring as it charged over.

“whoosh!!!”

myl01 had no choice but to reveal himself. he activated his devil’s realm and formed a black light screen that enveloped the surroundings and blocked king qian’s golden dragon seal.

boom!

Immediately after.

MYL01 struck out with his palm. The mechanical psionic energy combined with the black soul gas and condensed into demonic spirit energy. It turned into a black palm print and shot out.

“dragon claw!”

Bang!

” die! ” king qian gathered his strength and the power of the nation’s fate to form a golden dragon claw. he slashed out, and the two collided before exploding.

“Rumble!”

The explosion formed an energy storm that swept in all directions.

Both parties retreated at the same time.

“So strong!”

His Majesty King Qian has already broken through to the perfected stage of Tier 4. With the support of the power of the nation’s fate, his strength has greatly increased. To think that the other party is actually able to fight evenly with His Majesty.

“What is his background?”

this energy fluctuation doesn’t seem to be the true Qi of the human race.

“A foreign race?”

In the surroundings.

Wang Shangqing, Gongsun Zhi, and the others looked at the battle in the sky and were secretly shocked.

MYL01, it's enough to Test King Qian's strength. There's no need to continue fighting. Retreat with QX03. When the great Qian dynasty's Army reacts, it won't be easy to escape.

Jiang Li said.

“Yes.”

MYL01 nodded.

buzzzzzz!

Immediately after.

MYL01's entire body turned invisible. He stopped fighting with King Qian and retreated quickly. He went to the place where QX03 was hiding and left with QX03.

Shua!

QX03 quickly recalled the holographic camera in the sky.

“Since you're here, then leave something behind.”

The king of Council suddenly appeared and shouted in a deep voice. He formed a seal with both hands, and a formation disk flew out of his sleeve, then he activated the formation.

...

“I'm sleepy!”

“whoosh!!!”

In the air.

The array board unfolded and turned into a trapping array. The array pattern spread out and trapped QX03's holographic camera in the array, causing it to be unable to be summoned back by QX03.

“Not good.”

the holographic device can't be retrieved, ” QX03 exclaimed. it's trapped.

Shua!

King Qian's figure was like a golden stream of light as he flew over at full speed. He reached out his hand to grab the holographic camera trapped in the formation.

“Explode!”

BOOM!

without any hesitation.

...

QX03 directly blew up the holographic camera, and it exploded into a sky full of flames. The holographic device became a pile of scrap metal.

“Detestable!”

king qian's expression turned gloomy.

Buzzzzzz!

At the same time.

The holographic screen in front of Jiang Li went out and turned dark.

my Lord, QX03's holographic device has been scrapped. Communication can't continue. It has been disconnected.

QX01 said.

"i know,"

okay. Jiang Li nodded.

Then, he quickly opened the Dominator's panel and looked at QX03's information. He self-destructed his holographic device, causing a huge impact on QX03.

All communication functions can not be activated.

The damage had reached 60%.

Fortunately, as long as the meches weren't broken, Jiang Li could use energy points to repair them.

"repair qx03."

Jiang Li used some energy points.

In the blink of an eye.

QX03 was restored, and the scrapped holographic equipment was also repaired.

Shua!

QX01 once again contacted QX03.

at this moment.

MYL01 had already brought QX03 out of the capital of da Qian and returned as fast as they could. The image on the communication screen was rapidly rewinding.

MYL01, after you've shaken off King Qian and the others, find a place to hide first. There's no need to come back now.

let's stay around the capital. Don't get discovered. Then, keep an eye on the capital. Report to me immediately if King Qian does anything.

"Yes."

QX03 nodded.

"I promise to complete the task."

MYL01 said.

"yes."

Jiang Li hung up.

At this moment.

the actual military base had already been completed.

All the illusionary buildings became physical existences.

A full one million tons of steel had been consumed.

“My Lord, the physical army base has been completed.”

The ten ordinary Mechanical Engineers and a hundred ordinary mechanical soldiers stopped working and gathered around Jiang Li to report to him.

“Alright,” he said.

okay. Jiang Li looked up at the military base that had completely turned into a solid object. He smiled and nodded with satisfaction.

“my lord, there’s only one last step left. you need to go to the ‘master’s hub’ and activate the ‘heart of the base’. the army’s base will be able to operate normally after that.”

Jiang Li, ” said ptgc01.

“Alright,” he said.

okay. Jiang Li nodded.

It could be seen.

The four city walls of the base were ten meters tall and five meters thick. The roads on the city walls were extremely wide.

There was an ‘iron gate’ on each wall that allowed entry and exit.

In the four corners of the base.

There were four sub-guard towers.

They were the southeast sub-Sentry tower, the Northwest sub-Sentry tower, the northeast sub-Sentry tower, and the southwest sub-Sentry tower, which could provide a 360-degree defense without any blind spots.

He looked closer.

Each Sub-Alert guard tower had seven floors, and each floor was about two meters high. The seven floors were fourteen meters in total, which was about four to five meters higher than the four city walls.

Furthermore ...

in every tower and every level.

Each level had nine 'psionic mechanical cannons', which meant that each sub-guard tower had a total of sixty-three 'psionic mechanical cannons'.

The power of these 'psionic mechanical cannons' was immense, enough to cause damage above the third stage.

In a situation where he was going all out.

It could pose a certain threat to those at the 4th rank.

on the city wall of the east gate.

Jiang Li walked to the 'iron gate'.

"Rumble!"

The iron gate on the east wall opened automatically.

Jiang Li saw a wide road made of steel. There was a large open space on both sides of the road.

jiang li walked in.

He walked along Eastwall Avenue and soon reached a fork. On his right was the road to the northeast Sub-Alert tower, and on his left was the southeast Sub-Alert tower.

The mech factory was right ahead.

The 'ruler's hub' was in the center of the Army base. If Jiang Li wanted to go to the 'ruler's hub' to activate the 'heart of the base', he would have to pass by the 'mech factory'.

He walked forward.

jiang li arrived at the 'mech factory'.

What came into Jiang Li's sight was a rectangular Western skyscraper with three floors. It was mainly black and made of steel.

Because the 'heart of the base' had not been activated, other than the 'Construction Center', the rest of the facilities could not be activated. Although the 'mech factory' had been built, it was still temporarily unusable.

the gate of the mech factory was closed.

Jiang Li couldn't get in either.

so,

jiang li had to go around the 'mech factory'.

After going around the 'mech factory' and walking for a while, they arrived at the 'ruler's hub'. The ruler's hub 'was a half-sphere structure.

Its overall appearance was similar to a half-sphere that covered the ground.

it wasn't very big.

It wasn't high.

It was about the size of an ordinary building.

master. Jiang Li walked to the 'Dominator's hub' and the steel door opened automatically.

It wasn't dark inside. Instead, it was very bright.

jiang li looked inside.

He walked in.

"I see."

After Jiang Li walked in, he realized that the 'ruler's hub' was one-sided. When Jiang Li looked from the outside, the 'ruler's hub' was dark without any light. He couldn't see inside at all.

but ...

From the inside of the 'ruler's hub', one could clearly see what was happening outside. The sunlight was able to shine in, which made the 'ruler's hub' 'bright.

Right in front.

In the middle of the room.

It was a human-shaped cylinder, completely black, about 20 centimeters in diameter. It looked ordinary, and there was nothing unusual about it.

Jiang Li walked over.

he stood in front of the cylinder.

there was a black sphere on the cylinder.

Its diameter had reached 40 centimeters.

Apart from the cylinder and the ball, Jiang Li didn't find anything else in the room.

so,

Jiang Li reached out his right hand and touched the black ball.

“Whoosh!!!”

Instantly.

The cylinder and the sphere glowed with purple lines that looked like dense and complicated energy circuits that almost covered the entire cylinder and sphere.

It was bright and shiny.

shua!

[do you wish to use 10000000 energy points to activate 'base core'?!]

A notification appeared.

“Yes.”

Jiang Li quickly confirmed.

The next moment.

Ten million energy points were injected into the 'heart of the base'. The black ball floated in the air, and the purple light became brighter and brighter.

A few seconds later.

the black ball turned into a purple ball of light, floating in the air.

shua! Shua! "Whoosh!"

Rays of purple light shot out from the ball of light and formed a purple illusory face with facial features. It was a holographic three-dimensional image.

"My Lord, the Army base 01 is at your service."

The purple-faced man said expressionlessly.

[congratulations, my lord. the physical army base has been completed. the 'base heart' has been successfully activated. all the facilities and functions have been activated. [the Army base is operating.]

At this moment.

A notification popped up in front of Jiang Li.

Chapter 258 armor

jiang li carefully read the content of the prompt, then closed it. he then looked up at the 'purple face' in front of him.

His appearance was a bald head with three-dimensional facial features. His eyes seemed a little empty, and his tone was very mechanical. It was a holographic image formed by countless rays of light.

“Army base No. 1.”

Jiang Li murmured.

“Yes,”

The purple human face responded immediately.

“What functions do you have?”

Jiang Li asked.

“Reporting to the Lord, army base 01 has an ‘AI system’ formed after the ‘base heart’ was activated. It can help the Lord manage and operate all the facilities in the Army base.”

The ‘purple human face’ replied, ” the Lord only needs to issue a mission to ‘army base 01’.’ Army base 01 ‘will automatically operate according to the Lord’s orders.

“Whoosh!!!”

As soon as he finished speaking.

A large amount of purple light was projected from the purple light ball and gradually gathered to form a holographic 3D image of the Army base.

“My Lord, this is the holographic image of the 01 army base.”

The 'purple human face' explained, " the Lord can see the situation in the Army base in real time through holographic images. At the same time, 'army base 01' will monitor the 'army base' 24 hours a day to ensure the safety of the 'army base' and prevent enemies from infiltrating.

"as 'army base 01' is currently at the 3rd rank, it is still in the initial stage. therefore, any living or non-living things below the 4th rank can be detected by army base 01."

"Yes."

okay. Jiang Li nodded and asked, " what else? "

"After the 'army base' is built, the 'heart of the base' is activated. All communication will be done through the 'army base' as the central hub."

yes, " the purple face continued, " every communication in the future will not consume any more energy points.

however, if the 'army base' and the 'heart of base' are destroyed, all communication-type meches will lose their communication ability and can't be restored. They won't be able to use the 'super mech Army' game as the communication core and transfer station, unless the 'army base' and 'heart of base' are rebuilt.

"In other words, there are both advantages and disadvantages."

Jiang Li said.

"Yes, I am."

the purple human face nodded.

Shua!

Jiang Li opened the Dominator panel and clicked on the Army base.

“interface: army base”

[sub-plane: army base 01]

facilities: master’s hub (can be expanded), mech Armory (can be expanded), Research Center (can be expanded), Construction Center (can be expanded), Sentry tower (can be expanded)

construction requirements: ten normal mechanical soldiers, one normal mechanical engineer, 100000000 energy points

advancement requirements: nine level-four soul Tinders, 1000000000 energy points ”

display all the facilities ‘information.

jiang li said.

shua!

[facility: master’s hub]

[lord soldier types: heart of the base (unlocked), normal lord armored soldier (locked 6/1)

.....

“Facility: mech factory”

factory units: normal mech production line (unlocked), normal mech production line (locked 6/1)

.....

[facility: Research Center]

[Research Unit type: Normal research equipment Center (unlocked), normal mechanical research Unit (locked 6/1)

.....

[facility: Construction Center]

construction units: normal mechanical soldiers (unlocked), normal Mechanical Engineers (unlocked)

.....

[facility: Sentry tower]

[Sentinel units: normal Sentinel mechanical soldier (unlocked), normal Sentinel mechanical soldier Captain (locked 6/1)]

.....

There were five types of facilities.

Jiang Li finished reading all the information. As he expected, each facility only had two units.

of course.

...

With the upgrade of the 'army base', more facilities and units would be unlocked in the future.

He would also have many different abilities.

unlocking the Dominator armored soldier.

Jiang Li confirmed.

Shua!

[Lord armored soldier has been successfully unlocked!]

He had consumed a level-three soul Tinder.

unlocking normal mechanical production soldiers.

Jiang Li said.

Shua!

[normal mechanical soldiers have been successfully unlocked!]

...

He used another level-three soul Tinder.

Soon after.

Jiang Li unlocked the 'normal mechanical soldier' and the 'normal mechanical Sentry Captain' and used two level-three soul Tinders.

As a result ...

Jiang Li only had two level-three soul Tinders left.

“Create a Lord’s armored soldier.”

Jiang Li operated the interface of the base and used 100000 energy points.

Shua!

The manufacturing interface appeared.

within the interface.

It was an illusionary figure that was slowly rotating on its own. Countless light spots filled the surroundings and gradually solidified.

A minute later.

[creation complete!]

A notification appeared.

Buzzzzzz!

A solid figure appeared out of thin air and stood in front of Jiang Li.

“Zzzj01 ordinary ruler armored soldier greets the ruler.”

mech. what Jiang Li saw was a mech that looked like steel armor. It was made of steel and looked like a robot.

It was not as if.

He was a robot.

His voice was also mechanical.

Shua!

[Lord soldier type: Normal Lord armored soldier]

[rank: rank three]

[No.: Zzzj01]

skill: stage three Lord's armor ”

[machinery: Jian Jia (omitted)]

The basic information was relatively simple.

First of all ...

the facilities and units in the army base could not be upgraded. the level of the units created would always be the level. the level of the units was related to the level of the army base.

Because it was a Lord soldier type, its main function was to serve the Lord.

Ordinary lord armored soldiers only had one ability.

“Activate the Lord's armor.”

go! Jiang Li ordered.

“Yes.”

Zzzj01 replied.

wuwuwuwuwu!

After that.

Zzzj01 instantly turned into countless black light spots from top to bottom and then formed a black torrent that rushed towards Jiang Li.

It covered his entire body.

kachaa! Kachaa!

The sound of steel armor colliding.

in an instant.

countless black light spots materialized and turned into black armor, covering jiang li's entire body.

The electronic eyes in his eyes lit up.

“Master, zzzj01 is at your service.”

Jiang Li heard zzzj01's voice.

From the outside.

jiang li was now wearing the 'normal ruler's armor'. it was pitch-black and seemed to have swallowed all the light.

The electronic eyes on his eyes were purple and transparent like gemstones.

“Alright,” he said.

Jiang Li was inside the 'ordinary Dominator armor'. He could see through the external camera and the intelligent program of zzzj01.

Even though Jiang Li was covered in armor, he could still see everything outside.

furthermore ...

zzzj01's intelligent program could help jiang li control the 'ordinary dominator armor' to fight.

Kachaa! kachaa!

Jiang Li clenched his fist and looked at the black fingers that were like steel.

BOOM!

Jiang Li clenched his fist and hit the ground.

The ground shook.

A clear fist mark was left on the tough steel ground.

It was full of strength.

immediately after.

With zzzj0's help, Jiang Li gradually mastered the ability of the 'ordinary Dominator armor'. It was enough to improve Jiang Li's strength to the level of a stage three.

"Whoosh!!!"

It could be seen.

the soles of jiang li's feet spewed out purple flames like rocket launchers, creating a strong force.

Jiang Li flew up.

at the same time.

Purple flames also gushed out of his palms to adjust the direction of his flight.

However ...

It was difficult to control. Even with the help of zzzj01's intelligent system, Jiang Li still spent a lot of time to master it.

my Lord, zzzj01 is at the 3rd rank, so the combat power it can display is at least at the initial 3rd rank. As for its specific combat power, it will depend on you, my Lord.

Zzzj01's voice sounded in Jiang Li's ear, "it's also related to the 'energy points' you used.

"the normal energy cannon on the 'normal ruler's armor' needs to consume energy points, and the destructive power from consuming 10 and 10000 energy points is completely different."

"maintaining the 'normal ruler's armor' form will consume one energy point every hour. "

“Release.”

Jiang Li said.

Buzzzzzz!

The armor on Jiang Li’s body turned into black light spots and disappeared. Then, it regathered around Jiang Li and turned back into the armored robot.

“chief sovereign.”

zzzj01 saluted.

“Yes.”

okay. Jiang Li nodded. from now on, you’ll be with me.

“Yes.”

Zzzj01 nodded.

Even though ...

Zzzj01’s appearance was too eye-catching. It looked like a steel puppet. If the enemy saw it, it would confirm Jiang Li’s identity as the ‘puppet master’.

However ...

Jiang Li didn’t mind.

On the contrary, this would have the effect of misleading the enemy.

create an ordinary mech production line and an ordinary mech producer.

Jiang Li used 200000 energy points.

Shua!

The manufacturing interface appeared.

A minute later.

[creation complete!]

A notification appeared.

Buzzzzzz!

Then, an ordinary mechanical soldier appeared in front of Jiang Li. He was wearing a camouflage suit and a helmet. He was dressed like a normal worker.

He appeared to be a young man of 23 years old.

As for the ‘ordinary mech production line’, it directly appeared in the ‘mech factory’. The ‘ordinary mech production line’ was more like a basic production facility of the ‘mech factory’ than a soldier type.

They were only created in the form of ‘troops’.

“My Lord!”

Yes, sir. the ordinary mechanical soldier saluted Jiang Li.

“Yes.”

yes. Jiang Li nodded. go work at the mech factory now.

“Yes.”

” yes, sir. ” the normal mech production soldier nodded and left the dominating heart, heading to the mech factory.

army base No. 1, activate the mech factory’s ordinary mech production line immediately.

go! Jiang Li ordered.

my Lord, the ‘ordinary mech production line’ can’t be started.

The purple human face replied.

“What’s going on?”

jiang li asked.

it requires at least ten ordinary meches to start the ‘ordinary mech production line’.

The purple face replied.

Chapter 259 Scientific research

The function of the ‘mech factory’ was to use ‘normal mech production line’ and use ‘materials’ to reduce the consumption of energy points. This way, they could mass-produce meches and form a mech Army.

Other than that.

The mech factory had relatively mature ‘space folding’ and ‘space teleportation’ technology. It was only a small three-story building, but it could accommodate a large number of meches.

factory type: ordinary mech production line

[rank: rank three]

[No.: SCX01]

skill: level three troop class creation ”

[machinery: jian jia (omitted)]

.....

factory units: normal mechanical production units ”

[rank: rank three]

[No.: SCB01]

” skill: level 3 troop production line operating technique ”

[machinery: Jian Jia (omitted)]

.....

Jiang Li opened the information of the factory.

“Chief sovereign.”

The ‘purple face’ started to introduce the information and functions of the mech factory to Jiang Li. ” the mech factory has three floors. since the army base is still in its initial stage, only ten ‘ordinary mech production lines’ can be set up on each floor. each ‘ordinary mech production line’ requires at least ten ‘ordinary mech production soldiers’. if you want to maximize the efficiency of the ‘ordinary mech production line’, you need a hundred ‘ordinary mech production soldiers’. ”

the first level of the mech factory can only produce all the level one units that the ruler has activated. The second level can only produce all the level two units that the ruler has activated. The third level can only produce all the level three units that the ruler has activated.

“Okay, I got it.”

Jiang Li nodded. After listening to the introduction of Base 01, he asked, ” “What about the cost of making it?”

my Lord, it only takes 1 energy point and 50 kilograms of steel to create a Stage 1 soldier. It only takes 100 energy points and 500 kilograms of steel to create a Stage 2 soldier. It only takes 10000 energy points and 5000 kilograms of steel to create a Stage 3 soldier.

The ‘purple face’ answered Jiang Li’s question in detail, ” currently, the main material for making meches is ‘steel’. The energy points are used for making and replenishing.

in the future, I will need other materials to make high-level troops.

“Special units require special materials.”

“I understand.”

okay. Jiang Li nodded again.

Obviously.

The appearance of the ‘mech factory’ reduced the energy points consumption by ten times, but at the same time, if Jiang Li wanted to use the ‘mech factory’ to create more soldiers, he would need to start collecting ‘steel’.

but ...

There was one more thing.

The meches created by the mech factory couldn’t be upgraded either, which was completely different from the ones created by Jiang Li using the Dominator panel.

the meches created by the dominator panel could be upgraded.

create 29 ordinary mech production lines and 299 ‘ordinary mech production soldiers’.

Jiang Li spent 32800000 energy points.

buzzzzzz!

The manufacturing interface appeared.

An illusionary figure appeared in the interface, and countless light spots filled it.

A minute later.

[creation complete!]

Shua! Shua! Shua!

The ordinary mech production line appeared in the mech factory.

“my lord!”

commander Jiang. the ordinary mechanical production soldiers saluted Jiang Li.

“Yes.”

okay. Jiang Li nodded and said, work at the mech factory.

“Yes.”

The normal mech production soldiers left the Lord’s hub and headed to the mech Armory.

“Show me the mech factory.”

Jiang Li said.

“Yes.”

The purple human face responded.

Shua!

...

After that.

The mech factory appeared in front of Jiang Li. On the first floor, Jiang Li saw ten ‘ordinary mech production lines’.

Each production line was a huge black furnace.

It was the most eye-catching.

Then, the ordinary mechanical soldiers stood next to each production line. Because there were no manufacturing and production tasks, the production lines and soldiers were not working.

As for the second and third levels ...

They were basically similar scenes.

Hong Tianqi collected all the steel in the great Xia Dynasty and spent a lot of gold and silver to gather one million tons of steel. One million tons were used to build the Army base. They were all used up.

Jiang Li thought, but I still have the equipment and weapons from other counties. Xu Ya and the others spent a lot of time and effort on them. They've all been counted. Apart from some high-grade weapons, the rest weigh about 100000 tons.

“That's two hundred million Jin!”

if all of these steel materials are used to create stage 1 soldiers, it'll be enough to create two million soldiers, 200000 Stage 2 soldiers, and 20000 Stage 3 soldiers.

...

of course, other than steel, we also need energy points.

for the time being, 100000 tons of steel is completely enough.

Shua!

Jiang Li opened the energy points column.

A few days ago, Jiang Li had used up more than half of the two billion energy points. He only had 392803000 energy points left.

more than three million demons were exchanged for 5684400 energy points.

he had spent another 33100000 energy points to build 331 facilities today.

Jiang Li still had 365387400 energy points left.

produce 400000 level one soldiers immediately. 100000 of each type, combat meches, cold weapon meches, firearm meches, and biochemical meches.

go! Jiang Li immediately ordered.

the first level of the mech factory is in operation.

The voice of the 'purple human face' sounded.

In the image.

On the first floor of the mech factory, a hundred mech production soldiers started to work. They activated 'space transmission' and disappeared into thin air. The next moment, they appeared in the warehouse of the great Xia Palace where 'steel' was stored.

“Whoosh!!!”

After that.

The 'ordinary mech production line' started to work. The black furnace lit up and connected with the ordinary mech production soldiers. Then, it opened up a temporary wormhole passage to the warehouse of the great Xia Palace.

Within the warehouse of the great Xia Palace.

A Black Vortex tunnel appeared in the space.

Clang! Clang!

The ‘ordinary mech-production soldiers’ carried the weapons and equipment made of steel and threw them all into the black Whirlpool tunnel, which was then teleported into the ‘black furnace’.

“Rumble!”

The black furnace began to work, melting steel and letting out a rumbling sound.

shua! Shua! “Whoosh!”

Every ten seconds.

Then, a black projection light shot out from the black furnace. The light was very bright, and meches appeared in the projection light.

Each ‘normal mech production line’ could produce 1000 level one meches every ten seconds.

Ten production lines meant ten thousand people.

jiang li created 400000 level-one units, and it only took him 400 seconds, which was less than seven minutes.

In the mech factory.

Since it was equipped with the mature ‘space folding’ technology, the meches that were created were only the size of a doll.

It was even smaller than a doll.

but ...

As long as they came out of the mech factory, they would return to their normal size.

“Continue to produce 3000 3rd rank soldiers, 1000 of each.”

Jiang Li continued to give orders. This time, he used 310000000 energy points. create 100000 level-two troops, 20000 of each.

“Yes!”

The purple human face responded.

After that.

The ‘mech factory’ started operating at full capacity. Three hundred ordinary mech production soldiers were all sent out and teleported to the warehouse of the great Xia Palace.

Buzzzzzz! Buzzzzzz!

After that.

Two more Whirlpool tunnels appeared.

A large number of steel weapons and equipment were thrown into the three Whirlpool tunnels like garbage, and the number of weapons and equipment was decreasing at a visible rate.

In the mech factory.

“Rumble!”

The production line was running, and the black furnace was shaking. A large amount of steel was being melted, and energy points were used to manufacture and repair.

Every ten seconds.

The black furnace would project a black beam of light and conjure meches.

Among them.

The second level.

Each production line could produce 100 Stage 2 soldiers every 10 seconds, so 10 production lines would be 1000.

The third floor.

Each production line could produce 10 Stage 3 soldiers every 10 seconds, so 10 production lines would be 100.

he had to finish all the meches.

It would take about twenty minutes.

Jiang Li still had 54987400 energy points left.

More than 54 million.

Jiang Li started to study the functions of the Research Center.

At the Research Center.

Two types of research troops.

For now.

The Research Center also had three levels.

the first level would study the technology within the first stage, the second level would study the technology within the second stage, and the third level would study the technology within the third stage.

similarly.

Each normal research equipment Center required ten normal research mechanical soldiers to open, and each floor could accommodate ten normal research equipment centers.

create three normal research equipment centers and 30 normal mechanical research soldiers.

Jiang Li used 3300000 energy points.

“Whoosh!!”

the manufacturing interface popped out.

an illusionary figure appeared on the interface.

A minute later.

[creation complete!]

A notification appeared.

“Chief sovereign.”

Thirty ordinary mechanical soldiers appeared in front of Jiang Li. There were fifteen men and fifteen women in white coats and glasses.

The normal research equipment Center had already been established in the Research Center.

there was one on each floor.

Research Unit: ordinary research equipment Center

[rank: rank three]

No. Kysb01 ”

skill: stage three scientific research manufacturing ”

[machinery: Jian Jia (omitted)]

.....

research soldier type: ordinary mechanical research soldier ”

[rank: rank three]

[No.: Ptky01]

skill: Level 3 technology mastery ”

[machinery: Jian Jia (omitted)]

.....

Jiang Li checked the information of the two types of research units.

At the same time.

After Jiang Li created the two types of research soldiers, the information on the 'Research Center' changed.

Jiang Li opened the interface.

[facility: Research Center]

Research Unit type: Normal research equipment Center (unlocked), normal mechanical research Unit (unlocked)

Level 1 technology: Level 1 gene strengthening fluid (available for research), Level 1 thermal weapon design (available for research), other technologies yet to be unlocked.

Level 1, Stage 2 technology: Stage 2 gene strengthening fluid (available for research), Stage 2 thermal weapon design (available for research), other technologies yet to be unlocked.

[Level 3 technology: Level 3 gene strengthening fluid (available for research), Level 3 psionic weapon design (available for research), other technologies yet to be unlocked.]

Chapter 260 The attack

Jiang Li Read through the details of the Research Center.

"Army base 01, how long will it take for these research centers to produce results? What resources do you need?"

Jiang Li asked.

The ‘purple face’ replied, ” reporting to my Lord, with the current setup of the ‘Research Center’, with one ordinary research equipment Center and ten ordinary mechanical research soldiers on each floor, it will take ten days to’ research ‘a stage one technology, 100 days for stage two technology, and 1000 days for stage three technology.

‘research’ genetic technology within Level 1 requires the collection and capture of ‘living beings’ and ‘non-living beings’ within Level 1 of the world to collect ‘genetic information’.

for example, first-tier fierce beasts, first-grade spirit herbs, and so on.

based on the different types of ‘genetic information’, we can’ research ‘many types of’ genetic technology’. However, the type of mechanical research soldier is too singular, so we can only ‘research’ the ‘gene strengthening liquid’ for now.

” as for the mechanical technology of weapons and equipment, the ‘research center’ and the mechanical research soldiers have their own technological information reserves. they can also ‘study’ the weapons of the world they are in and thus optimize and improve the ‘technological weapons’.

“Yes, I understand.”

Jiang Li nodded. let’s finish the ‘level-one gene strengthening liquid’ first. I’ll have the meches send the spiritual herbs and creatures over.

“Yes.”

The ‘purple face’ responded, and a stream of data flashed, ” the Research Center has been activated. Research target: Tier 1 gene strengthening fluid, estimated time: 10 days, resources required: 100000?”

shua!

At the same time.

A holographic image appeared in front of Jiang Li. It was the situation of the Research Center.

There was only the first floor, as the second and third floors had not started work yet.

In the image.

the most eye-catching one was the ‘ordinary scientific research equipment center’.

The normal research equipment Center wasn’t what Jiang Li had expected.

There were no ‘biosafety cabinets’, ‘super-clean work tables’, ‘Thermo-thermal incubators’, ‘sterilisers’, ‘biomicroscopes’, ‘ionizers’, ‘drying boxes’, ‘high-speed centrifuge’, and other technological instruments.

The ‘ordinary research equipment Center’ combined and simplified a series of scientific and technological instruments, turning them into a rectangular instrument.

The overall appearance was similar to a large counter.

After placing biological and non-biological samples inside, the biological and non-biological samples could be decomposed and studied to form scientific research data.

Ordinary mechanical research soldiers operated ordinary research equipment centers, and based on the ‘research data’ they analyzed, they organized and planned, and from there, they ‘researched’ the corresponding technological products.

It was easy to say.

however, it was not easy to do it.

He needed time.

“My Lord, out of the five facilities in the base, only the Sentry tower is left. The Sentry tower is the most important one, and it is used to protect the base.”

“This is because all the defensive equipment and weapons in the base need to be activated by the sentries.”

“In order to ensure the safety of the base, you need to create a certain number of sentries,” the ‘purple face’ said.

“How much is appropriate?”

jiang li asked.

at its maximum capacity, each of the four sub-sentry towers can hold 1000 Sentry guards, the main Sentry tower can hold 10000 Sentry guards, and the base can have up to 100000 patrol guards.

The ‘purple human face’ replied, ” but as for how much we want to make, it will still need you to decide.

“Yes.”

Jiang Li looked at the energy points. There were 51687400 points left. I don’t have enough energy points. I only have a little more than 50 million left.

I can only first create 10 normal mechanical Sentinel captains and 100 normal mechanical Sentinels.

Jiang Li used 11000000 energy points.

Since the facilities and units in the base came from the facilities in the base and weren't unlocked from the different types of units, they couldn't be manufactured in the 'mech factory'.

Otherwise, Jiang Li would have saved a lot of energy points.

Shua!

The manufacturing interface appeared.

two illusionary figures appeared, spinning on their own. countless light spots filled the surroundings, and the illusionary figures gradually solidified.

A minute later.

[creation complete!]

A notification appeared.

shua! Shua! Shua!

In that instant.

A hundred and ten mechanical Sentinels appeared in front of Jiang Li. Each of them was wearing a black security uniform and holding a psionic Baton.

Among them.

There were also ten Sentinel captains.

The police uniform was different from the normal mech sentries. Not only was there a psionic Baton, but there was also a portable exoskeleton armor on his left wrist in the form of a watch.

shua!

...

[Sentinel units: normal Sentinel mechanical Sentinel]

[rank: rank three]

[No.: Ptjjsb01]

“Skill: rank three psionic mastery”

[weapon: Tier 3 psionic Baton]

[machinery: Jian Jia (omitted)]

[mechanical psionic energy: Momo (omitted)]

.....

[sentry type: normal sentry mechanical sentry captain]

[rank: rank three]

[no.: ptsbdz01]

...

skill 1: rank three psionic control

skill 2: rank three patrol detection ”

[weapons: Level 3 psionic police baton, Level 3 portable exoskeleton armor equipment]

[machinery: Jian Jia (omitted)]

[mechanical psionic energy: Momo (omitted)]

.....

Jiang Li checked the information of the two types of alert units.

Normally speaking.

At the same cost, the captain of the normal mechanical Sentinel was clearly stronger than the normal mechanical Sentinel. It had two skills and two weapons.

Jiang Li should have created all the Sentinel leaders.

In reality.

there was a limit to the number of sentinel captains that could be created.

a sentinel leader could lead 10 sentinel sentries, so the prerequisite for creating a sentinel leader was to first create 10 sentinel sentries.

you will be divided into 10 patrol squads. Each sub-Sentry tower will be in charge of one patrol squad, the main Sentry tower will be in charge of two patrol squads, and the four patrol squads will patrol the Army base.

go! Jiang Li ordered.

“Yes.”

“Yes, sir!”

Yes, sir! the captains and Sentinels responded in unison. Each Captain led ten Sentinels to form ten patrol teams and followed Jiang Li’s orders.

my Lord, all the meches in the mech factory have been completed. A total of 170 million pounds of steel materials and 310.4 million energy points have been consumed.

the purple human face reported to jiang li.

shua!

The first floor was filled with level one meches, the second floor with level two meches, and the third floor with level three meches.

There were many of them.

“Yes.”

yes. Jiang Li nodded. there should be around 30 million pounds of steel left.

army base No. 1. Since you are the first Army base I created, you have a certain symbolic meaning. I’ll give you a name.

jiang li suddenly said.

“Yes.”

Jiang Li thought for a while and said, ” “Let’s call it ‘Hidden Dragon’, how about it?”

“Thank you, chief sovereign!”

The tone of the ‘purple face’ was still mechanical, like a mechanical synthetic voice, without the slightest emotional fluctuation. Hidden Dragon is at your service.

“Alright,” he said.

alright. Jiang Li smiled. send all the meches out of the mech factory. I’ve been preparing for a long time. It’s time to end the war with the great Qian dynasty.

“Yes!”

yes. Hidden Dragon nodded. the mechanical Army is being transported!

“Whoosh!!!”

The next moment.

A white light appeared on the first three floors of the mech factory, covering all the meches.

shua! shua! Shua!

there were spatial fluctuations.

All the meches disappeared. This was the teleportation function of the mech factory. All the meches were teleported out of the factory.

After that.

He appeared out of thin air in the Army base.

A total of five hundred and three thousand meches.

There were four hundred thousand level one meches, one hundred thousand level two meches, and three thousand level three meches. Almost all of them had returned to their normal size.

The Army base was one million square meters.

the five facility buildings only took up a small part of the area.

It was more of an empty field.

It could hold more than 500000 meches. Although the tank meches, artillery meches, and transport meches took up a lot of space, it could still hold them.

However, it seemed to be very crowded.

“Open the door.”

jiang li said.

“Yes.”

Boom! Boom! Boom!

The iron gates on all four sides of the city wall opened automatically.

“All troops, move out!”

jiang li said.

BOOM! BOOM!

Their voices were extremely loud and orderly.

It could be seen.

The huge mech Army got on the large military transport trucks first. The 20000 transport meches could fit more than 400000 meches.

There was even space.

“Rumble!”

The ground was shaking.

It was accompanied by the roar of the engine.

They were large military transport trucks, artillery off-road vehicles, and main battle tanks. They formed four huge mech teams and drove out from the iron gates on all four sides of the city wall like a long line.

at the same time.

Jiang Li's original mech Army of more than 560000 had gathered outside the great Xia Palace.

All the meches sat in the military transport trucks.

Three psionic mammoth Rangers, four psionic crocodile Emperor Rangers, and one psionic Overlord Dragon Ranger. A total of eight perfected stage three elite units.

Due to their huge size, each perfected-stage level three elite soldier occupied a perfected-stage level two transport mech.

Other than that.

There was also the T01 and QSZ01, which had been upgraded from stage two to stage three.

“Qian Long, I’ll leave the safety of the Army base to you.”

jiang li said.

“Don’t worry, chief sovereign.”

Hidden Dragon replied.

“Activate the armor.”

” go! ” jiang li ordered.

buzzzzzz!

Zzzj01 activated his skill and turned into countless black light spots, covering Jiang Li’s body and forming an ‘ordinary Dominator armor’.

“flying.”

BOOM! BOOM!

purple flames gushed out of jiang li’s feet and he flew out of the control hub.
purple flames gushed out of his palms and he adjusted his direction.

Shua!

Ynjs01 immediately gave chase. His figure was like a Black bolt of lightning, but he was unable to fly. He could only run on the ground or forcefully activate his mechanical psionic energy to temporarily soar into the air.
