

## Army 281

Chapter 281 Five hundred million

Jiang Li looked at Liang qiquan's body and murmured, "liang qi is all dead. looks like i'll have to ask the others where da qian's treasury is."

"MYL01, use the key to open the black stone door."

don't forget, " Jiang Li said. remember to take Liang qiquan's key to the National Treasury too.

"Yes."

" yes. " myl01 nodded and followed jiang li's order.

Kachaa! Kachaa!

With the key in his hand, the black stone door naturally opened easily. Although some small things happened along the way, it did not delay anything.

Furthermore ...

Jiang Li was lucky enough to get a level-three soul Tinder.

It could be considered that the goddess of luck was watching over him.

In reality.

Liang qiquan had been abandoned by his family since he was young due to his natural deficiency, which was impotence. He had become a beggar and almost starved to death.

By chance, Qian linlong discovered that Liang qiquan had a good talent for martial arts, so he adopted him and kept Liang qiquan by his side.

Unfortunately ...

It was also because of this innate defect that Liang Qi Quan had never been able to break through to the fourth step.

But no matter what.

To Liang qiquan, Qian linlong was like a parent who had given birth to a new life.

so,

Liang Qi Quan's loyalty to Qian linlong was undoubted. It was because of his trust and ability that Liang Qi Quan was able to become the head of the palace. That was why he knew about Qian linlong's private treasure vault and many of his secrets.

from the very beginning.

Liang qiquan's compromise was to lure Jiang Li into the Qian linlong's private treasure vault because there was an array in the treasure vault.

liang qiquan knew very well that he couldn't kill jiang li with his strength because jiang li had two subordinates who were at the perfected-stage of level-four following him at all times.

but ...

Qian linlong had told him that he had paid a huge price outside his private treasure vault and even invited a fourth-grade array master from the 'martial immortal court' to set up a fourth-grade trapping array.

As long as they forcefully attacked the black stone door and used the key to reverse the array, it would activate the trapping array.

At that time.

Once the trap array was activated, everyone would be trapped to death within the trap array.

Since he couldn't kill Jiang Li, he would trap him with a trap formation. In order to avenge Qian linlong, Liang qiquan had put his life aside and even used himself as bait.

Of course, Jiang Li didn't know about this. He wasn't an array master, so he couldn't see the hidden array on the black stone door. That was why he asked ynjs01 to do it.

However ...

jiang li didn't trust liang qiquan from the beginning. he noticed it when liang qiquan was quietly looking at the right side of the black stone door.

There was more.

liang qiquan was just a chief steward of the imperial palace. he even said that he had accidentally seen qian linlong open the entrance to his private treasury once. however, the way liang qiquan opened the entrance was very familiar. it didn't look like he had just seen it once.

Instead, it seemed like he had done it many times.

as long as there was doubt, it was enough for jiang li.

“Hegemon, the stone door has opened.”

MYL01 said.

“Yes.”

yes. Jiang Li nodded. let's go in and have a look.

“Yes.”

MYL01 and ynjs01 protected Jiang Li in the middle. At the same time, they were extremely alert. As long as there was any sign of trouble, they would be able to react.

Buzzzzzz!

Above their heads.

The array pattern lit up. It was an extremely ordinary illumination array. The lines of the array pattern were like lamps, absorbing the spiritual Qi of heaven and earth and emitting light.

It illuminated the entire underground space.

jiang li thought qian linlong's private treasure vault would be big, but it turned out to be less than ten square meters.

There were nine boxes of different sizes in front of Jiang Li.

They were neatly arranged.

In the middle of the basement was an exquisite nanmu table.

There was an unopened rectangular purple jade box on the table, as well as a brush, ink, paper, and an inkstone. On the right corner of the table, there was a lamp that was powered by a spiritual crystal.

It emitted a faint light.

Jiang Li walked over.

He lowered his head and looked.

...

Something was written on the white paper. Two bronze paperweights were pressed down to prevent the paper from falling. The ink in the inkstone was still wet.

The writing brush was placed at the side.

Jiang Li took the paperweight away, then read the content and read it out loud.

reporting to the division of the martial Celestial Court of the human race-Saint peace state, I'm the solitary Qilin Dragon. As King Qian of the great Qian dynasty, I've suppressed the demons and devils in the 'mang Huang Lake' for 300 years and have not forgotten my duty. Some time ago, the demons and devils in the 'mang Huang Lake' rebelled and lost nearly a million elites of the great Qian dynasty before I could barely suppress them.

the great Qian dynasty has fallen into civil strife again, and the half-monster Alliance has invaded. Our national power has been weakened again. I'm afraid that we can't suppress the 'wild lake'. I'd like to ask the martial immortal court of the human race-division of the Saint peace state for help. I'm very grateful.

Jiang Li finished reading.

"the wild lake."

Jiang Li put down the letter and thought, I didn't expect that the great Qian dynasty would lose a million elites to suppress the demons in the lake of mang Huang.

"It seems that the demons in the wild lake are not to be underestimated."

“the ink on the inkstone is not dry yet, and the words on the letter paper seem to have been written not long ago.”

this means that King Qian didn't send out the letter in time, ” Jiang Li murmured. if the human martial arts Celestial Court really did send someone here, things will be even more troublesome.

...

perhaps the human martial arts Celestial Court will side with the great Qian dynasty on account of King Qian's efforts in suppressing the 'mang Huang Lake' for hundreds of years.

“It's alright.”

it's over. Jiang Li was relieved. it's over.

“The demon of the wild lake.”

I want to try and see if the soul Tinder of those demons can activate other special units, ” Jiang Li murmured. but I need to replenish my forces first.

From the contents of King Qian's letter, he could tell that the demons in the lake were not simple. They had lost millions of elites when they suppressed the riot last time.

so,

I'll go. Jiang Li naturally had to be careful and be prepared.

He didn't want to be suppressed by the demon instead of being able to suppress it.

That would not be worth it.

ynjs01, come and open the purple jade box on this table.

go! Jiang Li ordered.

“Yes.”

yes. ynjs01 nodded and took the rectangular purple jade box on the nanmu table. He opened the jade box and presented it to Jiang Li.

“This is a Kasaya.”

Inside the jade box was a Jade slip.

Jiang Li took out the Jade slip and injected his internal force into it. With his internal force, dense information appeared in the form of a projection.

“I see.”

Jiang Li finished reading it carefully.

The information Jade slip recorded the details of the formation. It was the formation of King Qian’s private Treasury. With this information Jade slip, Jiang Li could control the formation.

“A fourth-grade trap array.”

spirit-caging formation, ” Jiang Li murmured. Liang qiquan wanted to activate the spirit-caging formation to kill me. Luckily, he didn’t succeed.

MYL01, ynjs01, open the rest of the boxes.

I’ll study this spirit-trapping formation, ” Jiang Li said.

“yes.”

Ynjs01 and MYL01 nodded. They walked forward and opened the boxes one by one. Most of them were filled with lower spiritual crystals.

There were many of them.

Other than that.

even the extremely precious tier 3 pills and even tier 4 spiritual medicine were priceless. they were precious items that could not be found outside.

Buzzzzzz! Buzzzzzz!

Jiang Li formed a seal with both hands and condensed the runes according to the Jade slip with his internal force. Every time he was about to succeed, the runes collapsed.

obviously.

Jiang Li didn't have any Foundation in arrays, so it was almost impossible for him to control a fourth-grade array.

“It's a little difficult.”

” spirit-trapping formation? ” jiang li frowned. ” are we just going to put the spirit-trapping formation here? ” To be honest, this is too much of a pity. This is a fourth-grade formation.”

“Chief sovereign, the chest has been opened.”

myl01 and ynjs01 came over and reported to jiang li.

“Alright,” he said.

let's go and see what King Qian has collected. He's using a level-four spirit imprisoning array to protect it. By the way, MYL01, ynjs01, can you understand this information Jade slip? ”

“This bi an ...”

MYL01 and ynjs01 exchanged glances and shook their heads. master, we do not have the ability to learn.

“so, yingluo”

“I know.”

No. Jiang Li waved his hand. it seems like you can't either.

“my lord, the battlefield commander is fine.”

the commander is a special type of soldier, ” said MYL01. the commander is not only special in commanding the meches but also in ‘learning skills’.

“Oh, that's right.”

great! Jiang Li was overjoyed. how could I forget about the battlefield commander? if I can learn skills, I'll have infinite possibilities. The battlefield commander is the perfect candidate.

“MYL01, get zh01 here immediately.”

jiang li said.

“Yes.”

MYL01 nodded.

Shua!

After that.

MYL01's figure flickered and disappeared from the spot. He quickly left the basement to find zh01. It would probably take a few minutes.

“So many spiritual crystals.”

Jiang Li walked to the box. The first thing he saw was a crystal-clear diamond-shaped crystal that was glowing.

There were many of them.

Nine boxes.

the five biggest boxes were all filled with lower spiritual crystals. each box contained 10000 pieces, so there were 50000 pieces in total.

In reality.

These spirit crystals were taken from the National Treasury by King Qian to be used for his daily closed-door cultivation.

This was because the basement was not only King Qian's personal treasure vault, but it was also the place where King Qian went into closed-door cultivation. Naturally, he would need a large number of spirit crystals.

“convert!”

Jiang Li reached out and touched the lower spiritual crystals. He started the conversion.

[ discovered item that can be converted into energy points. Do you want to convert it?! ]

A notification popped up.

“Yes.”

jiang li confirmed it immediately.

“Whoosh!!!”

A white light flashed.

The 50,000 lower spiritual crystals were all gone and converted into energy points.

conversion successful. 500 million energy points obtained!

Jiang Li received a notification.

500 million energy points in hand.

Jiang Li smiled and looked at the small Jade box next to him. There were only a few Jade bottles painted with different colors.

These Jade bottles contained extremely precious pills.

Jiang Li picked up a random Jade bottle. Fortunately, the names of the pills were written on it, or he wouldn't be able to recognize them.

However ...

Even if Jiang Li knew the names, he might not know the effects of these pills.

The Jade bottle in Jiang Li's hand said, "The five essence gathering pill."

## Chapter 282 array board

Jiang Li opened the bottle and smelled the refreshing fragrance of the elixir. After the elixir entered his body, the internal force in his body became more active.

The Jade bottle contained a total of five spirit quintessence pills.

"Five spirit quintessence pill."

Jiang Li murmured, "what's the effect of this pill? It's just a wisp of medicinal Qi, but it can make my internal strength extremely active. Could it be a pill that can increase the speed of cultivation?"

Of course.

Jiang Li didn't know if it was really that effective.

He was just guessing.

he put the cork back into the jade box.

The jade box had a total of nine Jade bottles that contained medicinal pills. Three bottles contained the 'five spirit quintessence pill', one bottle contained the 'bone cleaning marrow pill', one bottle contained the 'spirit turtle longevity pill', and the remaining four bottles contained the 'origin increasing pill'.

There were a total of four types of medicinal pills, each of which was a third-grade superior-grade pill.

It could be said to be priceless and almost couldn't be found outside.

Among them.

jiang li only knew the effects of the ‘energy-increasing pill’ and the ‘bone-cleaning pill’. the’ energy-increasing pill ‘was used to help with cultivation.

The ‘bone cleaning pill’ was a pill that removed the impurities in the body and increased one’s talent in martial arts.

The five spirit quintessence pill and the spirit turtle longevity pill.

jiang li didn’t know.

“It’s a Jade slip.”

jiang li looked at the other box. there were three jade slips in it. he took one out and injected his internal force into it.

Buzzzzzz!

The Jade slip formed an information projection with detailed information.

“It’s actually a peak grade rank 4 inner force cultivation method.”

purple true Qi. Jiang Li Read the content carefully and read it out loud, ” purple true Qi.

a top grade rank four inner force cultivation method. This is the highest grade inner force cultivation method I’ve ever seen.

In reality.

‘Purple glow true Qi technique’ was the internal art that Qian linlong had cultivated before the establishment of the ‘great Qian dynasty’. After the establishment of the’

great Qian dynasty', he had obtained the 'Qian dragon art' from the young dragon List.

Thus, Qian linlong switched to cultivating the 'Qian dragon art' that was more suitable for him.

other than the 'purple aura true qi technique'.

The remaining two Jade slips contained martial arts that were compatible with the 'purple aura true Qi technique'. Both of them had reached the level of top grade rank four.

They were the purple stellar energy and the purple seven-star steps.

Among them.

After cultivating the purple stellar energy, it could be used to attack and defend. The purple Seven Star steps was a movement martial art that combined the mysteries of the seven stars. It was as fast as lightning and unpredictable.

"They are good things, but they don't suit me."

Jiang Li shook his head and put the Jade slip back into the box.

Obviously.

Jiang Li already had the 'Xia Dynasty Azure Dragon technique', which was made for him. It was very suitable for him, so he didn't plan to switch to the purple aura true energy technique.

One had to know.

Didn't Qian linlong also switch to cultivating the 'Qian Dragon technique'?

The remaining two boxes.

jiang li saw that one of them still had spiritual crystals in it, but they weren't low-grade ones. they were middle-grade ones, the size of which was the same as the low-grade ones.

However ...

The lower spiritual crystals were grayish-white in color, while the middle spiritual crystals were pure white. They contained purer energy and were more helpful for cultivation.

there were not many of them.

There were only a hundred.

the exchange of lower and middle spiritual crystals.

One middle spiritual crystal was equivalent to 100 lower spiritual crystals.

Jiang Li reached out his right hand and touched the middle-grade spiritual crystal.

Shua!

[ discovered item that can be converted into energy points. Do you want to convert it?! ]

A notification appeared.

“Yes.”

yes, ” Jiang Li confirmed.

Shua!

A white light flashed.

...

All the middle spiritual crystals had disappeared.

” conversion successful. 100 million energy points obtained! ”

a notification popped up.

“100 million.”

one middle-grade spiritual crystal can be converted into one million energy points,  
” Jiang Li murmured and did some calculations.

The last one.

It was the smallest one, only the size of a palm, and it was placed at the corner of the edge. If one didn't look carefully, they would really miss this small wooden box.

jiang li squatted down and took it.

It was a token.

in the small wooden box was a half-black token. there was nothing unusual about it. there were no special patterns on it, and he could not feel any energy aura.

he looked carefully.

...

He could only see the word 'wood' on the front, and the back was blank.

“It shouldn't be wood.”

Jiang Li played with the token in his hand. there's only half of the token. This 'wood' word should be half of a complete word.

“there are many characters with the word 'mu' as a partial division.”

Jiang Li couldn't think of any reason for now.

“Let's keep it for now,”

Jiang Li put the token back into the small wooden box, closed the lid again, and gave it to ynjs01. since Qian linlong put this token in his private treasure vault, it must have a big background. There must be some secret hidden inside. Maybe I'll have a chance to unlock the secret of this token in the future.

“Chief sovereign.”

At this moment.

MYL01 returned with zh01.

“yes.”

Jiang Li walked over and took out the Jade slip that recorded the information of the formation. He gave it to zh01. can you learn and master the contents of this Jade slip? ”

“I can try.”

Zh01 received the Jade slip and replied.

After that.

Zh01 held the Jade slip in his hand and stood at the side. He activated his 'advanced learning' skill. Two rays of light were projected from his eyes as he scanned the Jade slip in his hand.

Shua! "Whoosh!"

Jiang Li vaguely saw a large amount of data flowing.

time passed.

Half an hour later.

Buzzzzzz!

Zh01 closed his eyes. After a few seconds, he opened his eyes and gave the Jade slip back to Jiang Li, "my Lord, I've successfully copied all of the contents and information in this Jade slip.

"Oh."

"yes." jiang li took the jade slip. "have you learned it?"

my Lord, it will take some time for me to fully understand this information. However, I can still perform the basic operations of the array.

Zh01 replied.

"Can you take the 'spirit imprisoning array' away?"

jiang li asked.

“Sure.”

Zh01 nodded.

“Alright!”

Jiang Li smiled.

Immediately after.

Zh01 formed a seal with both his hands and even moved the surrounding spiritual energy. Then, he gathered it between his hands and formed a series of array runes.

“Spiritual energy!”

spiritual Qi? ” Jiang Li was surprised. I can control spiritual Qi.

Shua!

” zh01? ” jiang li immediately checked the information.

special troop type: battlefield commander

[ rank: Grand completion of rank-three ]

[ No.: Zh01 ]

skill 1: rank-three advanced intelligence

” skill 2: advanced tier 3 skill learning

skill 3: Tier 3 advanced battlefield command skill

[ learned skill 1: Level 1 low-grade mechanical psionic power (can be improved with advanced learning) ]

learned skill 2: Level 1 low-grade array mastery (can be improved with advanced learning) ”

[ artificial intelligence machinery: Wanwan (omitted) ]

advancement condition: a level-four soul Tinder, one million energy points.

“Learning skills.”

Jiang Li looked at it carefully and found that zh01 had two more ‘learning skills’. It was obviously an ability that was acquired through ‘advanced learning’.

Furthermore ...

Skills learned could be upgraded and grown.

the uniqueness of a battlefield commander was only the tip of the iceberg.

mechanical psionic power.

jiang li said to himself, ” the other meches have mechanical psionic energy. zh01 has mechanical spiritual energy. he can control the spiritual qi of heaven and earth. ”

“Oh, that’s right.”

hmm. Jiang Li realized and looked at the Jade slip containing the ‘purple true Qi technique’. since the battlefield commander can learn arrays and control mechanical spiritual energy, can he also learn cultivation techniques? ”

“Activate!”

Buzzzzzz!

let’s go! zh01 formed a rune and waved his hands. The rune broke through the air and entered the black stone door.

Immediately after.

The ‘spirit imprisoning array’ had been activated.

Shua! Shua! Shua!

“Whoosh!!!”

Black formations appeared one after another. The surrounding spiritual Qi gushed in and poured into them, spreading throughout the entire basement.

“Gather!”

After that.

The hand seals in zh01’s hands changed once more, and the ‘spirit caging array’ began to revolve. All of the black runes started to gather together, and finally, they all came together.

It could be seen.

The runes gathered together and turned into a black array board. It appeared out of thin air and slowly descended from the sky. Zh01 reached out and caught the array board.

“Chief sovereign, this subordinate has already transformed the ‘spirit imprisoning array’ into a ‘formation disk’,”

Zh01 said.

“A formation plate.”

Jiang Li studied the black formation disk in zh01’s hand. It was octagonal with strange purple-black symbols on it.

“Yes, I am.”

zh01 nodded, ” in the ‘array master’ system, arrays are divided into four main components: Formation base, formation eye, formation pattern, and formation seal.”

“generally speaking.”

level one and level two formations are difficult to move after they are successfully set up. If you want to move the formation, you have to gradually separate the formation base, formation eye, and formation pattern.

level three and above formations are different. The formation base, formation eye, and formation patterns can be fused together, and a specific ‘formation seal’ can be transformed into a ‘formation disk’. It can be moved at will and can be set up anywhere.

“The knowledge of formations is quite complicated.”

Jiang Li said.

“The hegemon is right.”

Zh01 didn’t deny it, but nodded, ” at present, I have only grasped a level 1 low-grade array technique. I can only be considered to have just started.

“If I want to improve, I’ll need a long time to learn.”

“Yes.”

jiang li took the formation disk and asked, ” “how do i activate this array board?”

“Replying to ruler, the key to activating the ‘spirit imprisoning array’ has already been fused into the array board. Ruler only needs to inject your internal strength into it and use up spirit crystals to activate the array.”

Zh01 said,”if the ruler directly releases the ‘spirit imprisoning array disc’ without preparing the ‘array base’, then the’ spirit imprisoning array disc ‘can only be used once.”

“If you prepare the foundation of the ‘spirit imprisoning array’ in advance and release the formation disk on the foundation, the spirit imprisoning array can be used repeatedly.”

“I know.”

okay. Jiang Li nodded and put the ‘spirit imprisoning formation disk’ into his pocket.

With this ‘spirit-imprisoning array disk’, if Jiang Li encountered a level-four enemy, he could throw it out and trap the enemy with the spirit-imprisoning array.

This could also be considered as an additional life-saving method.

“Zh01, can you learn the cultivation technique in this Jade slip?”

Hence.

Jiang Li took the Jade slip of the purple true Qi technique in his hand and handed it to zh01.

## Chapter 283 national treasury

“Reporting to the hegemon, we can’t for now.”

Zh01 glanced at it and replied, ” because I’m already learning ‘array techniques’. I can’t learn multiple abilities at the same time unless I’ve already raised my array technique to the same level as my own level. Only then can I learn other abilities.

“Although I can’t learn it now, but zh02 and zh03 can.”

Obviously.

Although the ‘advanced learning’ skill of a battlefield commander was extremely special and powerful, it still had certain limitations. At the very least, it could not learn multiple abilities at the same time.

“Alright,” he said.

yes. Jiang Li nodded. MYL01, go and find zh02 and zh03.

“Yes.”

MYL01 nodded.

A few minutes later.

Zh02 and zh03 arrived at the basement.

“My Lord!”

They saluted Jiang Li.

“yes.”

okay. Jiang Li nodded and gave them the Jade slip with the ‘purple true Qi technique’. let’s see if we can learn internal strength.

“Yes.”

Zh02 and zh03 nodded.

Buzzzzzz!

‘advanced learning’ was activated.

Zh02 and zh03 began to record and scan the purple true energy technique. A large amount of information flowed into their eyes. Jiang Li saw countless streams of data flowing in their eyes.

Time passed.

Half an hour later.

Zh02 and zh03 finished scanning the records and returned the Jade slips to Jiang Li.

“How is it?”

Jiang Li asked.

“Ruler, we’ve already recorded down this internal cultivation technique, but it’ll take some time to completely master it.”

Zh02 replied.

“In other words, you can learn it?”

Jiang Li asked.

“yes, i am.”

Zh03 nodded, ” however, we’re still mechanical creations and not real humans. The internal cultivation technique is an energy system created based on the Constitution of humans.

therefore, we still need to make some improvements.

“It’s fine.”

I’m fine. Jiang Li waved his hand. as long as you can learn.

“What about these two martial arts?”

Jiang Li took out the ‘purple aura shield’ and the ‘Purple Seven Star steps’.

“Temporarily not.”

Zh02 and zh03 looked at each other and said, ” “We’re already learning the ‘purple aura true Qi technique’. We have to cultivate the’ purple aura true Qi technique ‘to the same level as our own level before we can continue to learn other skills and abilities.”

“Yes.”

okay. Jiang Li nodded.

shua!

special troop type: battlefield commander

[ rank: Grand completion of rank-three ]

[ No.: Zh02 ]

” skill 1: rank-three advanced intelligence

skill 2: advanced Tier 3 skill learning

skill 3: Tier 3 advanced battlefield command skill

[ learned skill 1: Level 1 low-grade mechanical psionic power (can be improved with advanced learning) ]

learned skill 2: Tier 1 low-grade purple aura true Qi technique (can be leveled up by learning advanced skills) ”

[ artificial intelligence machinery: Wanwan (omitted) ]

advancement condition: a level-four soul Tinder, one million energy points.

jiang li checked the information on zh02 and the others.

obviously.

...

after learning the internal cultivation technique, zh02 and the others had obtained the ‘mechanical psionic power control’ skill, allowing them to control the spiritual energy of the world to a certain extent.

“It’s alright,”

” okay. ” jiang li nodded in satisfaction.

Soon after.

Jiang Li left the basement and asked ynjs01 and the others to bring the pills.

He had gained quite a lot this time. Not only did he get 600 million energy points, but he also obtained the formation disk for the fourth-grade formation ‘spirit imprisoning formation’. He now had a pretty good life-saving method.

Other than that.

The three battlefield commanders had learned new abilities, forming many learning skills.

More potential of a battlefield commander had been unearthed.

Half an hour later.

where’s the Treasury? ” Jiang Li asked the captives for the location of the Treasury and asked someone to lead the way. They arrived at the Treasury without any trouble.

...

this time, there was no accident.

“MYL01, open the door.”

Jiang Li said.

“yes.”

with the golden dragon-shaped key in his hand, myl01 walked to the door of the national treasury and inserted the golden dragon-shaped key into the key holder.

Kachaa!

It was perfectly embedded.

Wuwuwuwuwu!

After that.

A golden light lit up. With the Golden Dragon-shaped key as the center, a dense golden pattern appeared and spread out. The formation was activated.

“Rumble!”

The door of the Treasury opened automatically.

What came into view was a straight passage.

“Let’s go in.”

Jiang Li said.

“Yes.”

MYL01 and ynjs01 walked in front and led the way.

Da Qian’s Treasury.

jiang li walked along the straight tunnel. the space inside was huge and extremely spacious. there were closed doors on both sides of the tunnel.

On the door of each room was written the items stored in each treasury room.

For example.

The room on the right that Jiang Li was standing in.

The words on the door were “Armory.”

“Open it,”

Jiang Li said.

“yes.”

Ynjs01 opened the door to the Armory. There was a lighting array inside. Under the illumination of the array, every weapon shimmered with a cold light.

Jiang Li walked in.

What entered his eyes were countless weapons.

sabers, swords, spears, shields, staves, and so on.

It could be said that ...

it had all eighteen types of weapons.

Furthermore ...

There were so many of them that they couldn't even be counted. These weapons had been accumulated over the years.

“There are so many weapons here, and most of them are made of steel.”

I got another batch of ‘steel materials’. The mech factory won't have to worry about steel materials anymore. Jiang Li smiled.

“Not bad, not bad.”

Jiang Li was very satisfied.

Other than the Armory.

there was also the ‘armory’. the armory naturally stored the defensive armors worn by soldiers and generals. there were all kinds of different styles.

For example, light armor, scale armor, heavy armor, heavy armor, half-body armor, full-body armor, and so on.

Similarly.

There were also a lot of them.

they were the wealth that the great qian dynasty had accumulated over hundreds of years.

The entire da Qian Treasury.

It was divided into the Armory, the Armory, the elixir warehouse, the material warehouse, the secret manual warehouse, the spiritual medicine warehouse, the medicinal herb warehouse, the spiritual crystal warehouse, and the last ‘Treasury’.

The elixir warehouse stored elixirs. From non-graded to third-ranked elixirs, there were almost all of them, but the number of third-ranked elixirs was pitifully small.

Most of them were still not ranked.

They occupied 60% of the total number.

There were only a few pills that had entered the grade.

The material storehouse stored all kinds of ores. These ores were also divided into grades. They could be used to forge weapons and armors, as well as special materials from fierce beasts.

The secret book Warehouse naturally stored all kinds of internal strength mental cultivation methods and martial arts secret books, from unrated to rank three. There were not many rank three internal strength mental cultivation methods and martial arts secret books, and they could be counted.

The vault.

It contained the gold, silver, and jewelry that the great Qian dynasty had accumulated over the years.

His wealth was quite astonishing.

Every sum of the Treasury's income and expenditure was recorded in detail. After hundreds of years, there was a thick Book of Records, which was controlled by the Minister of Finance, Lin qiqiu.

Lin qiqiu was dead.

Although the man was dead, the 'vault record book' was still in the vault. Jiang Li Read a few pages and found that there was too much information. He gave up after a few pages and closed the 'vault record book'.

it's better to let Xu Ya and the others find someone to do such a small thing.

I don't want to waste my time, " Jiang Li said decisively.

The spirit herb warehouse.

Jiang Li took a deep breath and calmed himself down. He looked at the door of the spiritual herb warehouse and murmured, " "All the spiritual herbs that the Imperial court of da Qian has accumulated for hundreds of years are in here. I hope the number will not disappoint me."

Squeak!

open the door. Jiang Li opened the door.

Buzzzzzz!

There was a strong smell of spirit herbs. Jiang Li immediately walked in, followed by MYL01 and ynjs01.

"....."

Jiang Li looked around.

What came into view was a huge spirit herb cabinet. According to the grade, spirit herbs of the same grade and the same type were placed together.

It was very big!

it was extremely big!

Jiang Li couldn't estimate the size of the entire spiritual herb warehouse. He had to calculate how big the entire spiritual herb warehouse was.

Anyway.

All Jiang Li could see were huge herb cabinets arranged neatly.

MYL01, ynjs01, go stand guard outside the door. Do not let any living beings in.

go! Jiang Li ordered.

“Yes.”

myl01 and ynjs01 nodded and retreated to the door of the elixir storage. they stood on the left and right sides like statues.

“Convert!”

Jiang Li walked forward and came to the area where inferior-class spirit herbs were stored. This area was the largest and had the most spirit herbs.

shua!

[ discovered item that can be converted into energy points. Do you want to convert it?! ]

“Yes.”

Jiang Li immediately confirmed.

“Whoosh!!!”

The next moment.

A dazzling white light bloomed and covered the entire area where the inferior-class level one spiritual herbs were stored. There were so many of them that Jiang Li had to close his eyes.

Instantly.

the white light disappeared.

Even all the low-grade tier one Spirit herbs in the spirit herb cabinet had disappeared, leaving only an empty spirit herb cabinet.

Shua!

” conversion successful. 887 million energy points obtained! ”

a notification appeared.

a stalk of inferior-class rank-1 spiritual herb can be converted into ten energy points. This time, I’ve converted it to 187 million energy points. After some conversion, I have 88.7 million stalks.

not too much, but not too little. Jiang Li calculated in his heart.

spiritual herbs are consumables, after all. It’s already a lot to have more than 80 million of them, and they’re only low-grade first-grade spiritual herbs.

“There are also other grades of spiritual herbs.”

I’m sure. Jiang Li looked at the spiritual herbs of other grades and smiled even wider. I believe that after I convert all these spiritual herbs, my energy points will surge again.

“Convert!”

“Convert!”

Jiang Li walked forward and converted all the spiritual herbs below level three into energy.

There were patches of white light shining continuously.

At the same time.

notifications of successful transformation also popped up in front of jiang li’s eyes.

half an hour later.

Jiang Li had just converted all the spiritual herbs in the spiritual herb warehouse and gained a lot of energy points.

## Chapter 284 The ranking

“It’s finally done.”

Jiang Li looked at the almost empty ‘spirit herb warehouse’ and patted his hands. He was in a good mood. He turned around and left the ‘spirit herb warehouse’ for the ‘herb warehouse’ next door.

There weren’t many level three spiritual herbs left in the ‘spiritual herb storage’. Because they were more valuable, it wasn’t worth it to convert them into energy points, so Jiang Li kept them and didn’t convert them.

After Jiang Li converted all the elixirs below level three in the elixir Storage, he gained 4.396200000 energy points in total.

This was a huge income.

Jiang Li's energy points suddenly became rich.

With the energy points.

Jiang Li had the confidence to send out his troops.

At that time.

Even if the black snake barbarian kingdom, the red eyebrows Yao Kingdom, the panic Yao dynasty, and the lion barbarian kingdom sent their troops to invade the great Xia Dynasty at the same time, Jiang Li would not be afraid.

Even ...

I'll kill them all. Jiang Li could also kill all the troops of the four dynasties and obtain a large number of soul Tinders to unlock the troop classes and types as soon as possible.

'Medicinal ingredient warehouse'.

The door opened.

Jiang Li walked in and saw a large number of ordinary herbs. There were so many that they were piled up randomly, forming a mountain of herbs.

as these were all ordinary medicinal herbs, the imperial court of da qian did not place much importance on them. they were also placed in a very messy manner, unlike the 'spiritual herb warehouse', which was divided according to grade and stored in spiritual herb cabinets.

it was also because the value of ordinary medicinal herbs was too low. they could only be used to refine pills that were not mainstream and were only effective for martial artists who were not mainstream. therefore, the imperial court of da qian did not collect and accumulate many of them.

There was another thing.

Ordinary herbs were different from spirit herbs. Their medicinal properties would be lost very quickly. After picking them, if they were not used in time, they would lose their effects after their medicinal properties were lost.

This also caused the storage of ordinary medicinal herbs to be more troublesome.

Even so ...

This 'herb warehouse' contained the entire accumulation of the Imperial court, so there were still hundreds of millions of ordinary herbs.

“Convert!”

Jiang Li walked over and touched the herbs with his right hand. He started the conversion.

“Whoosh!!!”

After that.

A large white light flashed.

A large amount of medicinal herbs disappeared.

conversion successful. Received 110 million energy points!

.....

conversion successful. Received 110 million energy points!

.....

Jiang Li converted all the herbs. It took him some time. After each conversion, there would be a notification that he had gained more than 100 million energy points.

Very quickly.

the hundreds of millions of ordinary medicinal herbs in the ‘medicinal herb warehouse’ had all been transformed.

Jiang Li had gained 3.18 billion energy points in total.

Another huge sum of money was in his hands.

Finally.

It was the spirit crystal vault.

The door was pushed open.

The space in the ‘spirit crystal warehouse’ wasn’t big. Compared to the medicine warehouse, spirit herb warehouse, and Armory, it was a small room with a lot of spirit crystals.

After all, spiritual crystals were rare, and they naturally did not need a large space to store them.

“convert.”

Jiang Li walked forward, put his right hand on the crystal, and started the conversion.

[ discovered item that can be converted into energy points. Do you want to convert it?! ]

“Yes!”

Buzzzzzz!

A white light flashed.

All the spirit crystals in the ‘spirit Crystal Bank’ disappeared.

Shua!

conversion successful. 1.28 billion energy points obtained!

A notification appeared.

“1.28 billion.”

...

128000 lower spiritual crystals. No middle spiritual crystals. Jiang Li looked at the notification and calculated.

it seems that the middle-grade spiritual crystals have been kept by the Qian linlong.

They swept through the National Treasury.

He had obtained a large number of energy points.

Jiang Li walked out with MYL01 and ynjs01.

“It’s already the morning of the next day.”

Jiang Li walked out of the National Treasury and looked up at the sun rising in the sky. Before he knew it, a night had passed.

Within the capital of da Qian.

” let’s go. ” under jiang li’s order, the meches started to search for resources from the families of the rich and noble in the capital under the leadership of their commander.

Naturally, they were met with fierce resistance from the rich and Noble during the search.

However ...

...

They were all suppressed by the mech Army.

Some of the nobles were even killed by Jiang Li’s mech Army. When the news spread, they were so scared that they didn’t dare to resist anymore. They all handed over their things.

Of course.

These rich and Noble people must have hidden a lot of things in private.

However, Jiang Li’s order was to confiscate their properties. Even if they handed over their things, the mech Army would still search their mansions.

so,

They basically couldn’t hide anything.

On the other side.

Bai yingwang and the other County Kings had all returned to their County cities. After they calmed down, they immediately gave the order to collect spirit herbs and herbs from all the county cities as Jiang Li had ordered.

Most of the spirit herbs and medicinal herbs in each county were in the hands of the Chamber of Commerce of spirit herbs. If one wanted to get the herbs and spirit herbs from these merchants, they would have to pay a huge amount of property.

In addition, the power of each city was intertwined, and a slight change would affect the whole.

If it was in the past.

Bai yingwang and the other County Kings still had some concerns. For the stability of the county cities and other cities, and for the huge benefits they could obtain from these merchants, they would naturally not use force.

However, things were different now.

I'm going to do it. Jiang Li gave the order himself. Anyone who failed would be killed. Also, it was related to the territories of the other eight counties.

Therefore, in order to obtain as many spirit herbs and medicinal herbs as possible, Bai yingwang and the others personally led an Army to purchase and collect all the spirit herbs and medicinal herbs from various counties and cities at extremely low prices.

Of course.

The actions of White Eagle Wang and the others had caused the economy and market of the counties they controlled to gradually decline. All industries were forced to stop production.

without a job, the commoners lost their source of income, and without their source of income, they could not eat.

The people would live in misery.

Fortunately ...

this had just happened, so the situation was not very serious.

no matter what.

Those Chambers of Commerce had suffered a huge blow, and it was estimated that they would never recover from it. In the future, no one would dare to run the business of spirit herbs and other things.

This was a good thing for Jiang Li.

jiang li only needed the people to help him open up herb fields and plant spirit herbs. without the chamber of commerce of spirit herbs, all the herbs would be bought by the imperial court.

as a result ...

The Imperial court would be able to form a complete monopoly.

At noon.

Jiang Li was just waiting for the commander to lead the mech Army to loot the entire capital of great Qian. Then, he would convert the resources and return to the capital of great Xia with the captives, including the officials, generals, maids, eunuchs, and the huge amount of spoils.

At this moment.

Jiang Li sat on the Dragon chair with a few books about elixirs beside him. They were all books that Jiang Li asked the commanders to find.

“Five spirit quintessence pill.”

Jiang Li finished reading the books. Although he didn’t know how to make elixirs, he at least knew most of the names and effects of the elixirs.

It could be considered as supplementing the blind spots in his knowledge.

a third-grade superior-grade elixir contains the Qi of the five spirits. It is an excellent elixir to help a martial artist who has perfected stage two to open the celestial bridge, communicate with the spiritual energy of heaven and earth, and condense innate true Qi. There are no major side effects.

” five spirit quintessence pill? ” jiang li murmured. ” so the five spirit quintessence pill is used to break through to level three. i thought it was to speed up cultivation. ”

“I was wrong.”

jiang li put down the book in his hand. “i’m at the perfected stage of level two now. the five essence true pill is perfect for me.”

and there are five more. I’m not afraid that I can’t break through to the third rank. If one doesn’t work, I can take a few more and try to break through a few more times.

but before I break through, I still have the young dragon ranking reward that I haven’t received.

“Whoosh!!!”

Jiang Li closed his eyes and started to run the ‘great Xia Azure Dragon art’. The internal force around him ran the Azure Dragon and the Azure light was released, covering his whole body.

“Roar!”

A Dragon’s Roar came from his body.

young dragon ranking-Saint peace state.

Jiang Li used his consciousness to communicate with the ‘young dragon ranking-Saint peace state’ and ‘saw’ the purple-gold ranking again.

It floated in his line of sight.

It was as if it was right in front of him, but it was thousands of miles away, and he could not touch it at all.

The purple-gold ranking list was shrouded in layers of fog.

However ...

This time was different from the last time.

The mist at the end of the list had cleared. Jiang Li could see the content and information clearly.

Young dragon ranking-Saint peace state

[ first place: ??? ]

[ second place: ??? ]

.....

[ 80th place: xia dynasty, country name ‘xia’, king’ jiang li’. ]

81st place: Jin dynasty, country name 'Jin', King' Jin Wushuang'.

[ 82nd place: five spirit demon Kingdom, country name 'spirit', King' spirit five Immortals'. ]

83rd place, changman Kingdom, title 'Chang', King' Wuchang'.

84th place: Kingdom of Yanque, name 'Yan', King' Zhang Wude'.

85th place: black snake barbarian kingdom, country name 'snake', King' man Teng'.

.....

90th place: red eyebrows Yao Kingdom, country name 'red', King' red eyebrows'.

[ 91st place: shaman barbarian kingdom, title 'wu', wang' wu xiao ' ]

92nd: Cang lang Kingdom, title 'Cang', Wang' Cang lang'.

[ 93; rank: Hao Yue Yao Kingdom, name Hao, Wang Jinlin, Xiao Yue ]

94th place: Yong Ling dynasty, country name 'Ling', King' Dong Xun'.

.....

obviously.

Jiang Li had devoured all of the fate of the 'great Qian dynasty', including the fate of the great Xia Dynasty itself.

The area of the country doubled.

so,

Jiang Li's ranking rose to the eightieth in the 'young dragon ranking-Saint peace state'. He could now see the information of all the dynasties below the eightieth.

A total of 19 dynasties.

Among them.

Jiang Li only knew the 'black serpent barbarian kingdom' and the 'red eyebrow Empire'. The black serpent barbarian kingdom was ranked 85th while the red eyebrow Empire was ranked 90th.

In reality.

The red eyebrow Yao Kingdom was originally ranked 86th, but their ranking dropped because Jiang Li took away five counties 'territory and a part of the country's fate.

He almost fell out of the 90th place.

in other words ...

The 90 foreign dynasties were relatively weak, and even the cultivation of their 'Kings' was likely only at the early stage of level four.

After all, Chi Mei and man Teng were only at the middle stage of the fourth level.

Chapter 285 The reward

Jiang Li Read through all the information he could see on the ‘young dragon ranking-Saint peace state’ and remembered all the information about the 19 dynasties.

Apart from the black snake barbarian kingdom and the red eyebrows shifter Kingdom, which were the closest to Jiang Li, the other dynasties were far away from the Xia Dynasty. It would be difficult for him to get in touch with them in a short time.

however, it was better to be safe than sorry.

it was better to be prepared.

It would be good to learn more information if he met them in the future.

‘Congratulations on the great Xia Dynasty’s promotion, rising 19 ranks. Great Xia Azure Dragon technique.

At this moment.

Jiang Li felt the information from the ‘young dragon ranking-Saint peace state’ was directly sent into his mind.

Buzzzzzz!

after that.

a ray of purple-gold light fell on jiang li and merged with him. jiang li immediately received a lot of information about the technique.

The Azure Dragon technique of the great Xia!

That’s right.

it was the advanced version of the great xia azure dragon technique.

The ‘great Xia Azure Dragon technique’ that Jiang Li had now was an improvement on the original foundation, just like a mobile phone app update.

It was filled with new content.

Half an hour later.

Jiang Li had completely memorized the new version of the ‘great Xia Azure Dragon technique’. It was already a mid-grade level four cultivation technique.

it had been upgraded by one small grade.

‘Reward 2: elementary slave contract.’

very quickly.

Another message came.

“Slave contract.”

it’s finally here. Jiang Li was overjoyed. I’ve been waiting for so long.

I remember li qinglu saying that after we take down the other dynasties, we can get a ‘slave contract’ from them. But this time, I took down the great Qian dynasty, but I didn’t find a ‘slave contract’ from the great Qian dynasty.

“Could li qinglu have lied?”

Jiang Li thought.

“Whoosh!!!”

While he was thinking.

Two runes appeared on the ‘young dragon ranking-holy peace state’. They looked like they were formed by many strange symbols and were in an oval shape.

shua! Shua!

Obviously.

These two runes were the slave contract.

Among them.

The one on the right was ‘green’, and the one on the left was ‘gold’.

Buzzzzzz! Buzzzzzz!

The two runes merged into Jiang Li’s body and merged with the Azure Dragon. They also established a close connection with Jiang Li.

Another piece of information entered Jiang Li’s mind.

“i see.”

yes. Jiang Li understood. the Qian dynasty is gone, and the ‘slave contract’ has been taken back by the ‘young dragon ranking-Saint peace state’.

Then, he gave it to Jiang Li, who had destroyed the ‘great Qian dynasty’.

in other words ...

slave contract. Jiang Li got two slave contracts.

In reality.

The two talismans that Jiang Li controlled now were the real 'slave contracts'. Jiang Li was the real owner of these two 'slave contracts'.

In other words ...

Jiang Li could use the two slave contracts to form a contract charm and then inject it into other creatures to form a contract and control them.

Generally speaking.

There were two types of 'contract charms' - ordinary contract charms and core contract charms.

Ordinary contract talismans could be copied onto 'spiritual paper', and when needed, they could be activated with internal strength. After success, they could turn other living creatures into slaves.

Ordinary contract talismans could only control creatures below stage three.

Slaves could not disobey orders.

The core contract charm couldn't be copied on the 'spiritual paper'. Jiang Li had to separate it from the 'slave contract' himself. The effect of the core contract charm couldn't be compared to ordinary contract charms.

...

The core contract charm could theoretically control any living being.

Furthermore ...

After the core contract charm was planted, the power of the core contract charm would gradually change the mind of the controlled person, as if they were constantly hypnotized, causing the controlled person to completely submit to the contract master.

Of course.

Depending on the strength of the will and cultivation of the person being controlled, the time taken for this transformation would also be different. Some existences with a will so strong that it would make one's hair stand on end could even ignore the power of the 'core contract charm'.

Such existences were naturally in the minority.

But that didn't mean there wasn't.

jiang li only had a 'basic slave contract' so he could have one million 'normal contract charms' and ten 'core contract charms' at most.

The 'primary slave contract' of the great Qian dynasty had already controlled about 800000 slaves. There were barbarians, demons, half-demons, barbarians, and so on.

Jiang Li got about 800000 slaves right away.

It could be considered a windfall.

...

As for the 'core contract charm', the great Qian dynasty had only produced three in the past hundreds of years. Moreover, the three slaves who had planted the 'core contract charm' were all dead. They had all died for the Qian Lin Dragon.

the golden 'primary slave contract' could only be divided into seven 'core contract charms'.

‘Reward 3: with the blessing of the country’s fortune, the weather will be good, the country will be prosperous and the people will be safe.’

After Jiang Li received the reward of the ‘beginner-level slave contract’, he received another message from the young dragon rank, but this time it wasn’t a physical reward.

Instead, it was an additional state.

“the weather is good, the country is prosperous, and the people are safe.”

jiang li murmured.

obviously.

the third reward was related to the development of the entire great xia dynasty.

the great xia dynasty had just been established and there were many things to be done. in addition, jiang li had just taken over the great qian dynasty. although he had gained a lot, there were many hidden dangers.

The most important thing was ...

The people in the great Xia Dynasty were unstable and the situation was turbulent.

If he didn’t solve this problem.

A month at most.

If the people in the great Xia Dynasty didn’t become bandits, there would be public resentment. Then, they would escape the great Xia Dynasty and go to other human dynasties.

for example, the recent wei dynasty.

at that time.

the people would either run away or become bandits. the whole country would be in chaos. without the people, there would be only a large territory, and the country would only exist in name.

It was just right.

The third reward of the young dragon List was to solve this problem.

With the blessing of the nation's fate.

The natural disasters and man-made disasters would disappear and the good weather in the great Xia Dynasty would be guaranteed. It would also suppress the complaints in the hearts of the commoners and calm them down.

Of course.

There was a limit to this blessing.

He had exceeded this limit.

It would be useless.

so,

let's go. Jiang Li had to issue a policy as soon as possible to maintain the peace in the country. Otherwise, the situation would only get worse if it continued.

However ...

Jiang Li did notice this. He didn't kill Bai yingwang and the others because he was worried that there would be riots in the counties. He needed Bai yingwang and the others to stabilize the situation.

but now it seemed ...

The situation was not very good.

“We really need to find a way to deal with this matter.”

I'll be fine, ” Jiang Li thought to himself, ” if all the people run away, no one will help me plant the herb field.

“Whoosh!!!”

After the three rewards were given out, the ‘young dragon ranking-Saint peace state’ disappeared. Jiang Li's consciousness returned to his body and he opened his eyes.

it was already afternoon.

It was almost evening.

“chief sovereign.”

Zh01 and the others came over and reported to Jiang Li, ” 90% of the resources from the rich and powerful Chambers of Commerce, royal descendants, and aristocrats of the great Qian dynasty have been plundered. The spiritual herbs, medicinal herbs, and spiritual crystals have all been sent out of the hall.

“alright,” he said.

yes. Jiang Li stood up. send soldiers to move all the resources except the spiritual herbs, herbs, and crystals to the trucks. Also, take away all the weapons, armor, gold, silver, and pills in the Treasury.

“Yes.”

Zh01 nodded.

master, there are too many resources. I’m worried that we don’t have enough meches to transport.

Zh02 said.

let’s move them first. I’ll replenish the transportation meches when they’re missing.

Jiang Li said.

“Yes.”

Zh02 nodded.

I’ll take it. Jiang Li left the hall and went outside. He was going to convert all the spirit herbs, herbs, and crystals he got from the capital of da Qian.

“Convert!”

jiang li reached out and touched the herbs to start the conversion.

“Whoosh!!!”

A white light flashed.

all the medicinal herbs disappeared.

conversion successful. One billion and ninety-five million energy points obtained!

A notification appeared.

“Continue.”

I’ll try again. Jiang Li walked to the mountain of spiritual herbs, then reached out his right hand and started to transform again.

buzzzzzz!

It was still a dazzling white flash.

The mountain of spiritual medicine disappeared.

conversion successful. 889 million energy points obtained!

A notification appeared.

“Again,”

Jiang Li converted all the crystals.

Buzzzzzz!

a white light flashed.

All the spirit crystals disappeared.

conversion successful. 310 million energy points obtained!

A notification popped up.

After Jiang Li converted all the resources he got from the capital of da Qian, he only got 2.294 billion energy points.

compared to what jiang li got from the national treasury, it was much worse.

Obviously.

Most of the wealth and resources of the great Qian dynasty were still under the control of the Imperial court. Although there were many wealthy merchants and aristocrats in the capital, their combined wealth was far less than that of the Imperial court.

this was a normal situation.

The night came.

In order to transport all the resources back to the imperial capital, Jiang Li spent one hundred million energy points to build one hundred thousand transport meches.

In addition to the original 33 thousand transport meches.

A total of 133000 meches.

they were already able to transport all of the resources back to the imperial capital of the grand xia in one go.

obviously.

In the battle between Jiang Li's mech Army and great gan's Army, the transport meches fired anti-aircraft guns at the back of the battlefield, so they suffered fewer losses.

The mech factory lost 5300 level two transport meches and 1700 perfected level two transport meches. In total, they lost 7000 meches.

Among them.

The ‘meches’ produced by the mech factory were made of ‘steel’. After they were completely scrapped, they didn’t look like meches that were made from ‘energy points’.

The remains of the meches that were completely created from ‘energy points’ would turn into energy points and dissipate. They would be recycled without leaving any remains.

The ‘meches’ produced by the meches were different. Apart from being able to recover half of their energy points, the remains made of ‘steel’ would not disappear. Instead, they would be left as a pile of scrap iron.

Of course.

the ‘scrap metal’ could be recycled and thrown into the ‘production line’. energy points could be used to create new meches.

Chapter 286 air force

The night came quietly.

let’s go back. Jiang Li was ready to return to the imperial capital.

“rumble!”

The engine roared.

jiang li’s mech army had already left the great gan dynasty and was on their way back.

All the mech remains from the mech factory were also moved into the large military transport trucks.

At the same time.

the casualties of the mech army had been calculated.

The mech factory lost 319000 level one meches, 38000 level two meches, and 100 level three meches. He lost 167000 perfected-stage level-one meches, 17000 perfected-stage level-two meches, and ten perfected-stage level-three meches.

They had lost 541110 meches.

One had to know.

jiang li's total force was 1.063 million, 416.

In other words ...

Although Jiang Li had defeated the great Qian dynasty, killed King Qian, and wiped out the elites of the Imperial court and the Imperial Army, he had lost more than half of his meches.

Shua!

Jiang Li was sitting in the passenger seat of YS01.

He opened the Dominator panel.

The fleet of meches continued to move forward.

Soul Tinder.

Jiang Li opened it.

He carefully checked the number of soul Tinders.

This time.

Jiang Li did get a lot of soul Tinders.

Among them.

The number of level-one soul Tinders had reached 43500, level-two soul Tinders 2300, and level-three soul Tinders 11.

There was no fourth-tier soul Tinder.

“Fuse.”

buzzzzzz!

fuse them. Jiang Li activated the soul Tinder fusion function and was ready to fuse all 40000 level-one soul Tinders.

Then, a notification appeared before his eyes.

[ prompt: congratulations, Lord, you have obtained more than 10000 soul Tinders. You have activated the ‘one-button Fusion function’ of soul Tinders, and you can fuse All Soul Tinders of the same level at once. ]

“one-click fusion.”

jiang li looked at the notification.

Shua!

The fusion interface appeared.

after that.

At the bottom of the fusion interface, there was an additional option, 'one-click fusion'.

one had to know.

Each fusion of the soul Tinder required a 10-second countdown.

43,500 level-one soul Tinders could be fused 4350 times, and each fusion took 10 seconds, which was 43500 seconds.

60 seconds per minute.

60 minutes to an hour.

If he didn't have the 'one-click fusion' option, Jiang Li would have to fuse them again and again. It would take more than 12 hours to fuse all 40000 level-one soul Tinders.

It was really a waste of time.

The appearance of the one-button Fusion solved this problem.

"One-click fusion."

Jiang Li clicked on the 'one-click fusion' option.

"Whoosh!!!"

The fusion interface lit up with white light.

shua! Shua! Shua!

[fusion failed!]

.....

[fusion successful!]

...

.....

[ fusion failed! ]

.....

Immediately after.

A notification popped up on the interface, like a spam, the speed was very fast.

[ prompt: 4350 fusions, 2900 failures, 1450 successful fusions, and 1450 stage-two soul Tinders obtained. ]

fuse the second-stage soul Tinder with one key.

” fuse. ” jiang li clicked on the ‘one-button fusion’ again. this time, he fused the ‘level-two soul tinder’. there were 3750 level-two soul tinders, so he could fuse them 375 times.

“whoosh!!!”

The fusion interface lit up.

Shua! Shua! shua!

...

[ fusion failed! ]

.....

[ fusion failed! ]

.....

[ fusion successful! ]

.....

After that.

More notifications popped up.

[ prompt: 375 fusions, 306 failures, 69 successful fusions, 69 stage-three soul  
Tinder obtained. ]

As a result ...

Jiang Li had a total of 80 level-three soul Tinders.

Shua!

Jiang Li launched the level-three mechanical Army.

Level 3 mech types: liquid metal mech (unlocked), exoskeleton armor mech (unlocked), laser weapon mech (unlocked), ultrasonic mech (locked 80/32), energy mech (locked) ”

thirty-two level-three soul Tinders have been consumed to unlock the ‘ultrasonic mech’.

jiang li confirmed.

“Whoosh!!!”

thirty-two level-three soul tinders were integrated into the ‘ultrasonic mech’.

shua!

[ the ultrasonic mech has been successfully unlocked! ]

A notification appeared.

“Activate mech Air Force!”

jiang li operated the dominator panel and used nine level-three soul tinders and one hundred million energy points to activate the ‘mech air force service’.

Shua!

[ a total of 100000 soldiers has been achieved. Nine stage-three soul Tinders have been achieved. One hundred million energy points have been achieved. The activation conditions have been met. The ‘mech Air Force military service interface’ is opening. Please wait patiently. 10?9?8?7.....?

[ the countdown has ended. The ‘mech Air Force military service’ interface has been successfully opened. ]

[ can be expanded. ]

Ten seconds passed.

It was a success.

Jiang Li saw several notifications in front of him.

The Dominator panel opened.

[master panel]

[master: jiang li]

[game: super mechanical Army]

[interface: Army type]

Mechanical Army type (can be expanded), mechanical Navy type (can not be expanded), mechanical air Force type (can be expanded), mechanical interstellar type (can not be expanded), special mechanical Army type (can be expanded)

“Interface: army base (can be expanded)”

energy points: 117402845

[soul Tinder: 39 level-three soul Tinders]

the number of energy points has already exceeded 10 billion.

energy points. Jiang Li looked at the 'energy points' and read it out loud, "the total is 11.740284500 points.

Obviously.

Jiang Li gained a lot of energy points this time.

[interface: mech Air Force type]

Level 1 troop types: mech-wing air Force (unlocked), Air Scout (locked 0/1), glider Air Force (locked), lightweight armored Air Force (locked), biochemical Air Force (locked)

?.....?

The mech Air Force was activated successfully.

However ...

Because it had just been unlocked, only the mech aerial unit was unlocked. The other four mech Air Force units were not yet unlocked.

Besides, Jiang Li had already fused with the level-one soul Tinder, so he didn't have any extra level-one soul Tinder to unlock the level-one mech Air Force.

The next day.

In the morning.

let's go. Jiang Li returned to the imperial capital with the mech Army.

On the city wall.

Around the city gates of the imperial capital of the Grand Xia.

The soldiers were watching.

Wu Zong, Xu Ya, Hong Tianqi, han Liqi, pang kui, and so on, all rushed over after hearing the news.

After that.

They saw Jiang Li's mech Army driving on the road. The dust was lifted up into the air like a long Dragon.

"His Majesty is back!"

Hu Dong's eyes widened. he's really back.

"That's great!"

Hua Tian said happily.

"Do you think that His Majesty has returned triumphantly, or is it a mayfly?"

Wu Zong murmured.

"Don't worry about this."

it doesn't matter if His Majesty returns triumphantly or dejectedly, "han Liqi said. His Majesty has returned alive. This is a great thing.

"As for whether we win or lose, that's not important."

"Yes, yes, yes."

Wu Zong nodded quickly.

“hurry up and go out of the city to welcome his majesty.”

Hong Tianqi said.

you must remember not to ask questions when the time comes, in case you anger His Majesty.

Hu Dong reminded.

“I understand, I understand.”

hong tianqi and the others all nodded.

“Rumble!”

The city gates of the imperial capital of the Grand Xia slowly opened.

Jiang Li's mech Army stopped in front of the city gate. The winding fleet was like a huge Dragon that extended to the back.

“welcome back to the palace, your majesty.”

In front of the city gate.

Jiang Li! Hong Tianqi, Hu Dong, Xu Ya, pang kui, and the other soldiers all stood around the gate and bowed to Jiang Li at the same time.

Tada tada

The sound of footsteps.

Jiang Li opened the door of YS01 and walked out of the cockpit. He had taken off the 'ordinary Dominator armor suit' and the 'ordinary Dominator armored soldier' followed him closely on his left.

“Yes.”

jiang li walked over and glanced at xu ya and the others. he nodded and asked, ”  
“Did anything happen in the capital in the past few days that I was away?”

“your majesty, everything is normal in the capital. the people are living in peace and working in peace.”

Hu Dong said immediately.

“your majesty, the citizens of the imperial capital have already begun to open up the medicine fields and plant medicinal herbs and spirit herbs. the policies have already been fully implemented.”

han liqi said.

“However,”

Wu Zong paused for a moment and said, ” “Your Majesty, if the people plant medicinal herbs on their original fertile land, where do they get their food from?”

“i’m afraid i’m going to be hungry.”

“Are we going to buy food from other countries?”

“Do you still need to ask this Prince about such a small matter?”

Jiang Li frowned and said in a deep voice, ” under the condition that there is enough food production, we can plant medicinal herbs in the extra fields. If there is not enough food, we can buy it from other countries.

“We accept your orders.”

Wu Zong and the others nodded.

“Bring out all the captives.”

” let’s go. ” jiang li turned around, waved his hand, and gave an order to zh01 and the others.

“Yes.”

The door of the truck opened.

After that.

The officials, generals, maids, and eunuchs that were captured from the great Qian dynasty were all taken out of the carriages by the meches and squatted down.

“Who are they?”

“This Suan ni, this Suan ni”

“A captive?”

In the surroundings.

Everyone was stunned.

“They are all officials of the Imperial court of da Qian.”

Han Liqi suddenly exclaimed.

“What?”

Hu Dong’s eyes immediately widened.

“How did the officials of the Imperial court become prisoners?”

Wu Zong was dumbfounded.

“Don’t tell me it’s Zhenzhen?”

Hong Tianqi thought of a possibility, but he couldn’t believe it.

“Xu Ya.”

jiang li said.

“your subject is here.”

Xu Ya took a step forward and bowed.

“Yes.”

Jiang Li nodded and pointed at the captives on the ground. “these captives were all officials of the imperial court of da qian. there are high and low positions.”

” the great xia dynasty has just been established, and the positions of the officials are vacant. i will hand these prisoners over to you to deal with. if they are useful, keep them to add to the construction of the great xia dynasty. ”

as for those who are half-hearted and useless, there’s no need to be polite. Just kill them.

“Do you understand?”

## Chapter 287 The Barbarian Army

Xu Ya was stunned. She didn't know what to say for a moment. Her stunned expression was a little cute. She looked at the captives in shock.

Xu Ya really didn't expect that these captives were really officials of the Imperial court of da Qian.

“Si si si ...”

Gasps could be heard all around.

“Oh my God, they are really officials of the Imperial court!”

“These officials have all become His Majesty's prisoners, which means that His Majesty has really won? The great Qian dynasty? He defeated the great Qian dynasty?”

“Is this true?”

“I can't believe it!”

that's the great Qian dynasty. It has been established for hundreds of years.

In the surroundings.

immediately, there was a clamor of discussion. the soldiers and citizens whispered to each other and discussed animatedly. their voices were filled with shock.

“Your Majesty, if I may be so bold as to ask, has Your Majesty really taken down the great Qian dynasty?”

” what's going on? ” hong tianqi asked jiang li after he recovered from the shock.

Instantly.

Everyone looked at Jiang Li, waiting for his answer.

“Yes.”

jiang li nodded calmly and said, ” from today on, the great Qian dynasty will no longer exist. All the territories of the great Qian dynasty will belong to the great Xia Dynasty.

King Qian is dead. Great Xia will rise.

“.....”

silence!

The entire place was silent!

When Jiang Li said it himself, Hong Tianqi, Hu Dong, and the others couldn't accept it. They felt like they were in a dream.

It was simply unbelievable.

He actually won!

Emperor Xia actually won!

The great Qian dynasty was destroyed by the great Xia Dynasty. King Qian was dead, and all the officials of the great Qian imperial court were captured. The great Xia Dynasty was going to rise again!

long live Your Majesty Emperor Xia!!!

His Majesty Emperor Xia is invincible!!!

“!!!”

The next moment.

The audience burst into loud cheers.

all of the soldiers, all of the commoners, they couldn't help but cheer loudly. their joyful voices spread throughout the entire imperial capital and didn't dissipate even after a long time.

“Be quiet.”

Jiang Li raised his hand.

The entire place fell silent.

everyone immediately shut their mouths.

It was obvious that Jiang Li's prestige had reached an extremely high level.

It could be said that ...

the people in the imperial capital already respected and admired jiang li. if jiang li was a god, then these people would be his followers.

the carriages behind us are all filled with the spoils of war from the great Qian Empire's capital. Immediately send people to move all these spoils of war into the capital. Then, separate them into different categories. After counting them all, store them in the National Treasury.

go! Jiang Li ordered.

“Yes, sir!”

“yes, your majesty!”

“.....”

Hu Dong and the others bowed one after another. Their tone became even more reverent.

Xu Ya, I'll leave these captives to you. Take care of this and Don't Let Me Down.

jiang li said.

“Yes.”

Xu Ya responded.

“yes.”

okay. Jiang Li nodded with satisfaction and then entered the capital with the mech Army. On the streets, the people around looked at Jiang Li with respect and admiration.

Around the city gate.

Not long after Jiang Li left.

...

Clang! Clang!

The door of the large military transport truck opened.

“si si si ...”

After that.

When everyone saw the spoils of war in the car, they gasped again. Their eyes widened so much that their eyeballs were about to fall out.

“This Suan ni, this Suan ni, this Suan ni”

“A third-grade spiritual medicine! This is full of third grade spiritual medicine!”

“I’ve never seen so many treasures before!”

“Oh my God!”

“I feel like I’m going to faint.”

“Medicinal pills, these carriages are all filled with spiritual medicine! how many are there?”

...

“Weapons, armors, there’s too many of them.”

“Gulp!”

“.....”

Everyone let out an incomparable exclamation.

calm down, don’t wail like ghosts and howl like wolves. Hurry up and work. Don’t think about slacking off. Move everything into the Treasury.

Hong Tianqi shouted.

“minister hong, with so many things, i feel that the national treasury we built is a little too small? It might not be able to fit.”

Hua Tian said.

“then we’ll expand.”

” i believe that with your majesty’s strength and means, this is only the beginning,  
” xu ya said. ” there will be countless spoils and resources to be transported back to the capital in the future. ”

therefore, the expansion of the National Treasury is imperative.

“Yes, yes, yes.”

“Minister Xu is right.”

“It must be expanded, it must be expanded.”

everyone nodded in agreement.

“Ai, ai, ai, ai.”

actually, I’ve long felt that His Majesty would win this time. He would definitely defeat the great Qian dynasty and kill King Qian, ” Hu Dong said with a sigh.

“Taking down the great gan Lord dynasty is as easy as taking something out of my pocket.”

I should have followed His Majesty back then. At that time, I would have been able to gain some credit. However, for the sake of the imperial capital's safety, I ultimately decided to stay behind and guard it.

“Hehe.”

Hua Tian laughed disdainfully. Hu Dong, I don't remember you saying that before.

“That's right,”

pang kui nodded.

“is there? How come I don't remember?”

Hu Dong asked in confusion.

“Don't embarrass yourself.”

“hurry up and get to work,” xu ya shouted.

“Yes, yes, yes.”

Hu Dong laughed awkwardly, and everyone else nodded.

in the army base.

In the mech factory.

Jiang Li's remaining 522306 meches all entered the Army base and 'lived' in the mech factory.

The ruler's hub.

Hidden Dragon, replenish the damage immediately. Run the mech factory at full power and produce three hundred and nineteen thousand level one meches, thirty-eight thousand level two meches, and one hundred level three meches.

go! Jiang Li ordered.

He had consumed 5119000 energy points and 70900000 pounds of steel materials.

“yes.”

Buzzzzzz!

yes. Hidden Dragon showed his purple face and responded to Jiang Li. The mech factory started operating at full power. The ‘ordinary mech production lines’ were working at full power.

“Rumble!”

It could be seen.

The ‘wormhole vortex’ appeared.

The normal mech production soldiers threw the ‘wreckage’ into the black Vortex and sent it into the ‘furnace’ of the production line.

Energy points were consumed.

He started to produce meches.

generally speaking.

The meches in the mech factory would become ‘scrap metal’ after they were scrapped. These ‘scrap metal’ would be sent to the ‘furnace’ of the production line to be remade, and there would be material loss.

The loss would be half.

In other words ...

One hundred Jin of steel was needed to produce a level one mech, and only fifty Jin of steel could be recovered from the 'remains and scrap'.

half of the steel material would be lost.

Shua!

The mech factory was projected in front of Jiang Li.

The 'mech factory' was operating at full power.

Soon, meches were produced one by one.

Shua!

The Dominator panel opened.

replenish the losses. Create 167000 Level 1 meches, 17000 Level 2 meches, and 10 Level 3 meches. Upgrade all of them to the peak level.

Jiang Li used up 295.05 million energy points.

It replenished the battle losses.

This time.

Jiang Li wasn't very lucky. He had created so many meches, but none of them triggered the special probability. No elite meches appeared, no matter if they were level one or level two.

buzzzzzz!

The manufacturing interface appeared.

There were a total of 14 illusionary figures, representing 14 different types of troops. There were different numbers beside each illusionary figure, representing the number of troops to be created.

Only the Intel mech was not lost.

There was no need to supplement.

A minute later.

[ creation complete! ]

A notification appeared.

Shua! "Whoosh!"

The next moment.

More than 100000 meches appeared out of thin air. They stood in the open space of the Army base and formed 14 groups according to the type of soldiers.

"My Lord!"

They saluted Jiang Li at the same time and said in unison.

“Yes.”

yes. Jiang Li nodded with a smile. everyone, enter the mech factory.

“Yes.”

The new batch of meches ‘moved’ into the mech factory and joined the original mech Army.

Time passed.

The mech factory had finished producing all the meches and replenished all the losses. Jiang Li’s total military strength had reached 1.063 million, 416 soldiers.

On the other side.

celestial water city.

At the border defense line.

BOOM! BOOM! BOOM!

The ground shook.

a vast amount of dust spread and swept across the sky like smoke. a large number of barbarian soldiers were marching towards tianshui city.

“Roar!”

In the air.

It was a three-clawed Black Dragon.

It was eight hundred meters long.

The power of the country was strong.

on the dragon's head.

Man Teng stood with his hands behind his back, looking at the defense line at the border of Tianshui city in the distance. His eyes were filled with killing intent and battle intent.

Below.

It was the Barbarian Army, with two million soldiers.

Roar! "Roar!"

As the Army formation rotated, the murderous aura of the Army gathered and attracted the vast spiritual Qi of heaven and earth, forming a ferocious beast of the Army formation that was as long as the front. It revealed a huge black python.

This time.

Man Teng personally led two million barbarian soldiers to invade the great Xia Dynasty from Tianshui city, occupy the great Xia Dynasty's territory, and then devour the great Xia Dynasty's fate.

obviously.

After man Teng returned to the black snake barbarian kingdom from the great Qian dynasty, he immediately gave the order. He gathered two million troops and launched an invasion at the great Xia Dynasty as fast as possible.

He wanted to catch Jiang Li off guard and not give him any chance to breathe.

Jiang Li, this time, the four kingdoms will attack the great Xia Dynasty together. You're going to die for sure.

Man Teng muttered with a cold smile.

“Barbarian soldiers! it's the barbarian army!”

“Si si si ...”

“There are too many of them.”

“hurry up! Report to the city Lord!”

On the city wall at the border.

The two million barbarian soldiers were really powerful. In addition, man Teng didn't even try to cover his tracks. All the patrolling soldiers on the city wall discovered the approaching barbarian Army at a fast speed.

“There's no need to report. I've already arrived,”

Shua!

Luo Tianshui flew into the air. He was wearing silver-white armor and holding a long spear. He looked at the Barbarian Army and the 800-meter-long National true dragon in front of him with a serious expression.

“It's the true dragon of the nation!”

Luo Tianshui took a deep breath and clenched his spear. This Is the Army led by the Barbarian King himself. The number of the Barbarian Army is estimated to reach two million.

“This is a declaration of war against the Grand Xia Dynasty.”

“city lord,”

“What should we do?”

“There are too many enemies. I’m afraid we won’t be able to hold on.”

in the surroundings.

The soldiers and generals gathered around.

## Chapter 288

The imperial capital of the Grand Xia.

In the Army base.

in the current situation, just a million meches is far from enough.

that’s right, ” Jiang Li thought to himself. the black snake barbarian kingdom, the red eyebrow Empire, the panic Empire, and the lion Empire won’t let go of this rare opportunity. They’ll definitely send an Army to invade the great Xia Dynasty.

it’s impossible to stop the four kingdoms ‘invasion with just a million soldiers.

“Even if they don’t invade, we have to take precautions.”

“I need more meches.”

He opened the Dominator panel.

create a hundred ultrasonic meches.

Shua!

The manufacturing interface popped up.

In the interface.

it was an illusionary figure that was slowly rotating. countless light spots filled in the surroundings, and then gradually solidified.

There was a number 'X100' next to the illusionary figure.

A minute later.

[ creation complete! ]

A notification appeared.

Shua! Shua! "Whoosh!"

A hundred ultrasonic meches appeared out of thin air in Jiang Li's sight. They stood in rows, both men and women.

"my lord!"

Yes, sir! the hundred ultrasonic meches saluted Jiang Li at the same time.

"Yes."

okay. Jiang Li nodded and then looked at the hundred ultrasonic meches.

At this moment.

Tianshui city's border defense line.

Luo Tianshui looked at the Barbarian Army in the distance with a serious expression.

His heart was heavy.

one had to know.

there were less than 30000 soldiers stationed at the border defense line of tianshui city. jiang li didn't send the mech army to help Luo Tianshui guard the border.

now.

The black snake barbarian Kingdom's two million barbarian soldiers were about to arrive, and they were led by man Teng. Under such circumstances, it was impossible to defend.

"City Lord,"

Zhang Feiyang looked up at Luo Tianshui.

with our 30000 men, it's like throwing an egg at a rock against the two million barbarian soldiers.

Li Qing said.

"....."

wang dalei was silent for a while, and then said, "The Barbarian Army will arrive in half an hour at most. City Lord, please give the order."

“City Lord, please give the order.”

“Whether we retreat or defend, we will not complain.”

“Advance and retreat together with the city Lord.”

“.....”

the soldiers shouted in unison.

“Big sister Tianshui.”

Luo Yilin stood not far away, looking at Luo Tianshui and clenching her fists.

Shua!

Luo Tianshui flew down from the sky.

“You guys stay here.”

Luo Tianshui looked at everyone.

As soon as he finished speaking.

Luo Tianshui left directly and returned to the commander’s tent.

“This bi an ...”

“What is the city Lord going to do?”

“I don’t know,”

...

Zhang Feiyang and the others looked at each other and shook their heads.

since the city Lord has already given the order for us to guard this place, we'll guard this place. There's no point in thinking about anything else.

Wang Dalei said.

“Yes.”

All the soldiers nodded, but their eyes were full of worry.

The commander's tent.

Luo Tianshui walked in. In the right corner of the commander's tent stood xx011, an information mech.

“Xx011.”

luo tianshui looked at the 'soldier' standing in front of him with a complicated expression.

The soldier who called himself 'xx011' was the one Jiang Li asked Luo Tianshui to take with him.

The defense line at the border of Tianshui city was close to the black snake barbarian kingdom. It could be said to be the gate of the great Xia Dynasty, and its geographical location was extremely important.

...

Although Jiang Li didn't send a mech Army to defend the border, he did send an information mech to follow Luo Tianshui.

This way ...

As long as there was an emergency at the border defense line of Tianshui city, they could contact Jiang Li through xx011.

"I need to contact His Majesty Emperor Xia immediately."

Luo Tianshui took a deep breath. She remembered that Jiang Li said she could contact him through 'xx011' if there was an emergency.

moreover, it could be contacted at any time and under any circumstances.

But to be honest.

luo tianshui didn't really believe it. she didn't understand how a soldier could contact jiang li. an ordinary soldier with no expression?

Luo Tianshui couldn't understand.

Even ...

Luo Tianshui felt that Jiang Li was just brushing him off and didn't really pay attention to the defense line at the border of Tianshui city.

"Yes."

Xx011 nodded.

buzzzzzz!

After that.

Xx011 used the skill 'wireless communication technology' and turned on the wireless communication device. A virtual screen was projected in the air from his wrist.

initiate communication. Contact QX01.

Xx011 said.

“What is this?”

Luo Tianshui was stunned. He stared at the scene in front of him in a daze.

The communication was connected.

Shua!

Within the communication screen.

QX01's figure appeared.

xx011, please report the situation.

qx01 said.

QX01, Luo city Lord requests to contact His Majesty. She has the authority to obtain His Majesty's permission.

xx011 said.

“Yes.”

QX01 nodded and looked at Luo Tianshui, asking, ” “Luo Tianshui city Lord, please report the situation.”

“.....”

what’s going on? ” Luo Tianshui was still in a daze. She looked at the virtual projection in front of her with a stunned expression. She couldn’t understand what was going on.

please report the situation!

QX01 repeated his words.

“Ah!”

Luo Tianshui came back to his senses. After sorting out his thoughts, he immediately said, ” ” the black serpent barbarian kingdom has sent two million barbarian soldiers, and they are led by the barbarian king man teng. ”

“Your Majesty, please send reinforcements.”

“The enemy has invaded.”

QX01 nodded and immediately said, ” “Don’t hang up. I’ll report to His Majesty immediately.”

“Yes.”

Xx011 nodded.

“.....”

Luo Tianshui’s eyes were still fixed on the virtual screen in front of her. Many thoughts ran through her mind, but she couldn’t understand what this ability was.

A thousand mile sound transmission?

or something else?

The Army base within the imperial capital of the Grand Xia.

QX01 came out of the mech factory and ran to the entrance of the dominating heart.

“Your Majesty.”

QX01 stood at the door. the Luo city Lord of Tianshui city’s border defense line has an emergency report.

“Celestial water city.”

Jiang Li turned around.

In front of him.

Standing there were a hundred newly-created super meches. Before Jiang Li could check the details of the Super meches, QX01 came.

“Open the door.”

Jiang Li said.

“Yes.”

Hidden Dragon replied.

after that.

The door to the control hub opened on its own.

“your majesty.”

QX01 walked in.

“What’s the situation?”

what’s wrong? ” Jiang Li asked.

“Whoosh!!!”

The communication screen appeared in front of Jiang Li.

In the image.

It was Luo Tianshui in full silver armor, and xx011 was standing next to him.

“Your Majesty.”

Luo Tianshui saw Jiang Li on the screen and was slightly surprised. He immediately knelt down and said respectfully, ” “Greetings, Your Majesty.”

“No need to be so polite.”

No. Jiang Li waved his hand. report the situation.

“Yes.”

luo tianshui stood up, suppressed the doubts and surprise in his heart, and repeated what he had just said, ” your majesty, man teng, the barbarian king, is personally

leading two million barbarian soldiers and is rushing toward the border defense line of Tianshui city. ”

“we’ll be there in half an hour.”

“Man Teng,”

Jiang Li wasn’t too surprised. He said, ” ” they are indeed here. i just didn’t expect them to come so quickly. two million barbarian soldiers. ”

“you’re willing to invest.”

“Your Majesty Emperor Xia, please give the order.”

although there are only 30000 soldiers at the border of Tianshui city, ” Luo Tianshui said, ” I’ll defend it with my life. If the Barbarian Army wants to invade the great Xia Dynasty, they’ll have to cross over my dead body.

“.....”

Jiang Li glanced at Luo Tianshui and said, ” “There are only 30000 soldiers in the defense line at the border of Tianshui city. You want 30000 soldiers to fight against two million barbarians?”

and man Teng is a fourth level National Guardian.

however, the defense line at the border of Tianshui city has fallen. The black snake barbarian Kingdom’s barbarian Army is marching straight in, and Tianshui city will definitely fall in a short time.

“What about the citizens of Tianshui city?”

Luo Tianshui said.

“Let’s retreat first.”

” go back to tianshui city. ” jiang li waved his hand. ” you can retreat to tianshui city first. we can abandon the border defense line for now. i’ll send troops to help you immediately. ”

“Can we make it in time?”

luo tianshui asked.

“Do as I command!”

” i’m sorry. ” jiang li emphasized.

“Yes.”

Luo Tianshui nodded.

if there’s anything, get xx011 to contact me immediately.

Jiang Li said.

“Yes.”

Luo Tianshui nodded again.

the communications were shut down.

“MYL01.”

go to Tianshui city immediately, ” Jiang Li ordered. go to Tianshui city as fast as possible.

“yes.”

MYL01 nodded.

Shua!

After that.

MYL01 used the void-ification technique and turned into an illusory spirit-like state. He flew out of the ruler’s hub and left the Army base, heading in the direction of Tianshui city.

Even though ...

The imperial capital wasn’t far from Tianshui city. They only needed to cross half of the province to get there. However, Jiang Li wasn’t sure if they could get there in an hour with the transportation meches ‘speed.

so,

let’s go. Jiang Li sent MYL01 to Tianshui city first. With its speed, it could reach Tianshui city in half an hour. Even if the meches were a bit late, they could delay the Barbarian Army for a while.

“All troops, move out.”

Buzzzzzz! Buzzzzzz! “Whoosh!!!”

the space teleportation function of the mech factory.

Meches were teleported out one by one and appeared in the open space of the Army base. They formed an army of one million meches and sat on large military transport trucks.

“rumble!”

The engine roared.

There were many large military transport trucks, main battle tanks, and artillery off-road vehicles. They rushed out of the Army base at the fastest speed possible and followed the main road out of the imperial capital.

“It’s His Majesty’s Army.”

“What’s going on?”

“Why did His Majesty’s Army leave the city again?”

“This direction is towards Tianshui city.”

what happened? ”

“the celestial water city is near the border defense line and is close to the black snake barbarian kingdom. could it be that the black snake barbarian kingdom has sent troops to invade our great xia dynasty? Otherwise, His Majesty would not have sent out so many soldiers.”

Around the capital’s city gate.

hong tianqi and the others moved the spoils of war that jiang li brought back from the capital of da qian, counted them, and put them into the xia treasury.

A large number of soldiers left the city once again. The commotion was too great, and it naturally attracted their attention. They looked in the direction of the Army.

They began to speculate in their hearts.

“why do i suddenly have a bad feeling about this?”

Wu Zong muttered.

“Hahahahaha!”

suddenly.

Among the captives, an official of the Imperial court stood up and laughed crazily. He pointed at Hong Tianqi and the others and shouted, ” you’re all dead! You’re all dead! Dead! Dead! Dead!

Chapter 289 possession

“?! i think you don’t want to live anymore?”

Pang kui immediately rushed over and grabbed the captive official by the collar. He glared at him and roared, ” you’re just a captive, and you still dare to bark here. Do you believe that I won’t kill you with a hammer? ”

pang kui, calm down.

Wu Zong walked over and shouted.

“Hmph!”

Pang kui finally let go of the captive official.

“What do you want to say?”

Han Liqi asked in a low voice.

In the surroundings.

The others also looked at the captive official.

As for the other captives, the palace maids, and eunuchs, they all lowered their heads and said nothing. Some of them were carefully looking at the captive official.

“I’m afraid you guys don’t know yet.”

The captive official laughed coldly, before barking out, “that’s right. The Xia Dynasty won. Emperor Xia, Jiang Li, won. Emperor Qian is dead.

but you don’t even know what happened.

“at the final moment of the war.”

“Man Teng of the black snake barbarian kingdom, Chi Mei of the red eyebrow Yao Kingdom, Cang Huang of the panic Yao dynasty, Shi Qingtian of the lion barbarian kingdom, and Feng chenzi of the Wei Dynasty.”

a total of five fourth-tier National guardians descended upon the capital of the great Qian dynasty at the same time to fight for the true dragon of the great Qian dynasty’s National aura. That battle was truly earth-shattering. The world changed colors.

” no one would have thought that in the end, it would be emperor xia, jiang li, who took all the national fate of the ‘great qian dynasty’. he took all the national fate. ”

hahaha, that’s for sure. His Majesty, Emperor Xia, is a valiant and heroic man. He is unrivaled in the world and his combat power is unrivaled. Even if he were to face five level four National guardians at the same time, he would still be able to win easily.

it’s just a matter of National fate! pang kui laughed. isn’t it easy? ”

“Yes, yes.”

“His Majesty Emperor Xia is so powerful!”

“that’s our majesty!”

“That’s right,”

Everyone immediately agreed.

“Hehehehehehe.”

The captive official sneered again, ” invincible? unparalleled in the world? It’s too early for you to be happy. Jiang Li has taken away all the fate of the country. Panhuang and the others won’t let this go.”

“And ...”

Jiang Li’s Army has suffered heavy losses. There are only about 500000 soldiers left. The great Xia Dynasty is strong now. We don’t have enough soldiers to protect the country.

it’s like a child walking past a Bandit with a large sum of money. Do you think the panicking gang will let go of this opportunity? ”

” impossible. the four great empires are probably leading their armies and are on the way to attack the great xia dynasty. ”

and when the four-Nation Alliance Army arrived ...

“It’s time for you to die!”

“This Yingluo can’t be, right?”

“i don’t believe you.”

“Don’t talk nonsense here.”

“But what if this is true? This is a four-Nation Alliance, how are we going to resist? How could His Majesty resist it? This Suan ni, this Suan ni ”

“Things are not good!”

Instantly.

The crowd discussed spiritedly. Some believed it, some didn’t, but the seeds of uneasiness were planted.

“If you want to live, there’s only one way.”

escape from the great Xia Dynasty, escape to the great Wei Dynasty, and become a citizen of the great Wei Dynasty, ” the captive official continued. there’s still a chance of survival.

after all, the Wei Dynasty is one of the strongest human countries.

“big wei,”

“this bi an ...”

Everyone looked at each other.

” don’t listen to his nonsense. as long as his majesty emperor xia is here, as long as his army is here, as long as our soldiers are here, the xia dynasty will be fine. ”

what? ” Hong Tianqi shouted, ” a captive just said a few words and you’re already confused? ”

“Yes, yes, yes.”

“Minister Hong is right.”

“But just now, His Majesty sent out a large number of troops. It’s obvious that something has happened in Tianshui city.”

“.....”

shua!

...

At this moment.

Xu Ya made her move.

how dare you disturb the People’s hearts? you deserve to die.

Xu Ya shook her right hand and took out a thorny iron whip. The iron whip in her hand was like a living thing, like a poisonous snake, biting at the captive official.

“Pfft!”

Blood splattered everywhere.

The iron whip pierced through the heart of the captive official.

“Kekekekekekeke”

However ...

The captive official did not die immediately. Instead, he raised his head and revealed a twisted and sinister smile. you will all die. You will all die, hehe.

“What the hell is this?”

...

“this bi an ...”

Everyone was shocked.

“He didn’t die?”

Xu Ya was stunned.

BOOM!

Hong Tianqi smashed the captive’s head with his palm.

after that.

Only then did the headless body fall.

“Whoosh!!!”

Immediately after.

A blood-black mist rose from the captive official’s body, forming a twisted and illusory blood-black shadow.

“Kekekekekekeke”

He laughed eerily.

It was extremely ear-piercing.

the Demon King asked me to say hello to Emperor Xia, Jiang Li. Thank you for killing King Qian and destroying the Qian dynasty. That's why we demons could get out of the lake. We were suppressed for hundreds of years. It's so lonely.

“kekekekekekeke”

The blood-black shadow floated into the distance.

“Yao Chi Chi, a demon?”

“The demons in the wild lake have come out?”

“possessed by a demon?”

“This Wanwan is going to be in big trouble!”

“Yaomo? What is it?”

I can tell it's not a good thing just by looking at it. Didn't you see that the captive official was controlled by this demonic shadow? ”

“Quickly report to His Majesty!”

Everyone exclaimed in shock.

Only a small number of people knew a little about the magical beasts. Most of them were not clear about it. They didn't even know what magical beasts were.

obviously.

The captive official was controlled by the ‘demon’ with an ability similar to possession, and then he suddenly said those words.

As for the purpose of his actions ...

It was currently unknown.

“Don’t even think about running.”

Shua!

Xu Ya rushed over and whipped.

BOOM!

The blood-black demonic shadow swept out a blood-black stream of light and knocked away the iron whip in Xu Ya’s hand. The powerful force even made Xu Ya retreat.

“So powerful.”

Xu Ya was shocked.

“You think you ants can stop me?”

The blood-black demonic shadow laughed sinisterly.

He was very proud.

“BOOM!”

Suddenly.

A figure fell from the sky and landed on the ground. He stood in front of the city gate, a deep pit formed in the ground. He was wearing a Black Dragon robe.

Black true energy surrounded his body.

“His Majesty King Qian?”

“King Qian?”

in the surroundings.

all the captives and officials were shocked.

“Qian Lin Dragon? Aren’t you dead?”

The blood-black demonic shadow was stunned, but it quickly reacted, ” no, that’s not right. You don’t have the aura of a living spirit at all. It’s all death energy.

hehehehehehe, I didn’t expect, I really didn’t expect that you, Qian linlong, would have such a day. Your corpse was actually refined into a puppet.

“if the demon king knew about this, i wonder how happy he would be.”

Shua!

King Qian’s walking corpse raised his head.

“Roar!”

In that instant.

The black genuine Qi around his body condensed and turned into a black three-clawed true dragon. It bared its fangs and brandished its claws, then pounced forward.

“!!!”

BOOM! BOOM! BOOM!

the blood-black demonic shadow's pupils contracted. it exploded with all its power, but it was easily defeated. they were on completely different levels.

“Ah!”

bang!

The blood-black demonic shadow exploded.

One-shot kill!

“He's dead?”

“So strong!”

“He killed this demon in one move.”

“.....”

everyone cried out in alarm.

Shua!

King Qian's walking corpse leaped into the air and left the place, returning to the Army base.

Buzzzzzz!

Suddenly.

a blood-black light spot was gradually condensing in the air.

He disappeared.

shua!

[ captured a stage-three fiend's soul Tinder! ]

At this moment.

In the room in the ruler's hub.

A notification appeared in front of Jiang Li's eyes.

“A demon.”

There was a holographic projection in Jiang Li's line of sight. It was the picture taken by the holographic camera of the holographic mech and was synchronized to Jiang Li's eyes in real time.

In other words ...

Although Jiang Li was in the room of the ruling hub, he could see everything that was happening in the imperial capital.

Jiang Li didn't expect the demon to suddenly appear.

the great qian dynasty had been destroyed, king qian had died, and the army had scattered. there was no one guarding the lake. in just a few days, demons had sneaked into the captives and possessed the officials.

There was no guarantee that there were other demons in the imperial capital of the Grand Xia.

Furthermore ...

Jiang Li didn't know what these demons wanted to do. He estimated that the 'Demon King' that the blood-black demonic shadow was talking about was at least a level-four.

In addition, demons were special.

He would only become stronger.

plus ...

The four-Kingdom Alliance would arrive at the Xia Dynasty soon. Jiang Li already knew that the black snake barbarian Kingdom's Army was about to reach the defense line at the border of Tianshui city.

There was no news from the armies of the other three dynasties.

It could be said that ...

Jiang Li was in an extremely dangerous and passive situation.

Shua!

[ prompt: congratulations, ruler, you have successfully captured the special soul tinder, 'level-three demon soul tinder'. you have successfully activated the special mechanical type, 'phantom mech'. ]

in front of him.

Another notification appeared.

“A special troop type.”

good news. Jiang Li raised his eyebrows. I’m right. I can get a special soul Tinder by killing a demon, and I can also activate a special troop class.

Shua!

” special units: battlefield commander (unlocked)(able to build 3/710), mechanical demon (unlocked)(able to build 1/1), psionic demon mech (unlocked)(0/1)

“Psionic demon mech.”

because there’s only one level-three demonic soul Tinder, ” Jiang Li said. I can only make one tenebrous demon mech.

since this Demon Soul Tinder is only level three, the ‘serene demon mech’ that I’ll make will also be level three.

“Create a psionic demon mech.”

jiang li confirmed.

Buzzzzzz!

In front of him.

He jumped out of the manufacturing interface. There was an illusionary figure on the interface that was spinning slowly. The soul Fire seed of the rank-three fiend had been integrated into the illusionary figure.

Countless light spots filled the space.

The illusionary figure gradually solidified.

initiate information on the ultrasonic mech.

Jiang Li said.

shua!

[ unit Type: Ultrasonic mech ]

[ rank: early stage of rank three ]

[ No.: Cs01 ]

skill: level three low-grade sound wave pulse spell ”

equipment: stage three low-grade sonic weapon ”

[ machinery: Jian Jia (omitted) ]

advancement requirement: 200000 energy points

The information was displayed.

Jiang Li finished reading it carefully.

Chapter 290 The wall falls

upgrade a hundred ultrasonic meches.

Immediately.

Jiang Li used one hundred and forty million energy points to upgrade all the hundred ultrasonic meches to the perfected level three.

Shua! Shua!

A white light flashed.

The promotion was complete.

The skills and equipment of the ultrasonic mech had been upgraded to the top-tier level three.

His strength had greatly increased.

as for their specific abilities, they would have to go through a real battle to test them.

[ creation complete! ]

at this moment.

Another notification popped up in front of Jiang Li.

“Whoosh!!!”

It was the serene demon mech. It appeared out of thin air and stood in front of Jiang Li. It looked like a young man in his 20S. He had short hair and was wearing a camouflage uniform.

special troop type: psionic mech

[ rank: early stage of rank three ]

[ no.: ym01 ]

skill 1: level three low-grade psionic mastery

skill 2: level three low-grade Soul Manipulation

skill 3: level three low-grade void-ification technique

skill 4: stage three low-grade Dark Demon body ”

[ Dark Demon machine: mechanical creation. It is not afraid of death, pain, and is infinitely loyal. It has the ‘heart of Dark Demon’ that was created from the ‘fire seed of Dark Demon’. It has the ability to devour souls and evolve itself. Only when the heart of Dark Demon is destroyed, or when 90% of it is destroyed, will it be truly useless. After it dies, it can be recycled for half of the energy points that were built. ]

advancement requirement: 200000 energy points

“Psionic demon mech.”

Jiang Li finished reading and murmured, ” it’s almost like a weakened version of the mechanical demon spirit. The four skills of the dark Demon mech are almost the same as the skills of the mechanical demon spirit.

“My Lord!”

Ym01 saluted Jiang Li.

“Yes.”

okay. Jiang Li nodded.

“Upgrade.”

Jiang Li immediately used 1.4 million energy points to upgrade ym01 to the perfected stage of level three and all his skills to the best of level three.

“Thank you, hegemon.”

Ym01 saluted again.

create 100000 mech winged air soldiers.

Jiang Li opened the Dominator panel and used one million energy points to create 100000 early-stage level-one mechanical winged air soldiers.

buzzzzzz!

The manufacturing interface appeared.

An illusionary figure appeared in the interface, slowly rotating. Countless light spots filled the surrounding, gradually solidifying.

A minute later.

[ creation complete! ]

shua! Shua! Shua!

100,000 mechanical winged air troops appeared out of thin air and appeared in the open space of the Army base, forming an Air Regiment of 100000 soldiers.

“My Lord!”

Jiang Li! the hundred thousand mechanical winged air soldiers saluted Jiang Li at the same time and greeted him in unison.

“Yes.”

Jiang Li looked at the 100000 mechanical winged aerial soldiers outside from his room in the dominating hub. He was observing them.

First of all ...

The uniform of the mechanical air Force and mechanical Army were the same in style, but the color was different.

The mechanical Army’s military uniform was a camouflage uniform with a pine green base, while the mechanical Air Force’s military uniform was a camouflage uniform with a sky blue base.

The pattern on the epaulet was also at an inverted obtuse angle.

Rank of private.

unit Type: Mechanical winged air soldier ”

[ rank: early stage of rank one ]

...

[ No.: YK01 ]

skill: level-one low-grade mechanical wings

“Equipment: Level 1 low-grade mechanical wing device”

[ machinery: Jian Jia (omitted) ]

” advancement requirement: 20 energy points ”

mech winged air soldiers, spread your mechanical wings.

let’s go! Jiang Li immediately gave the order after reading the information.

“Yes.”

yes! the mech pilots responded in unison, extremely loud.

after that.

Shua! Shua!

...

Kachaa! crack! crack!

The next moment.

From the shoulder blades of the 100000 mechanical winged air soldiers, pairs of sky-blue mechanical wings extended from their bodies.

He took a closer look.

The pair of sky-blue mechanical wings were actually made of countless leaf-like ‘steel feathers’, and they shone under the sun.

“Whoosh!!!”

The 100,000 mech pilots flapped their wings and rose into the air, looking down like angels.

Shua! Shua! “Whoosh!”

It could be seen.

The ‘steel feathers’ of the ‘steel mechanical wings’ could also be separated from the mechanical wings, and the mechanical-winged air soldiers could control these ‘steel feathers’ to attack.

Generally speaking.

The number of ‘steel feathers’ in the early stage of Level 1 was 99, and the number would double with each level.

A perfected-stage winged air soldier could control 792 ‘steel feathers’ at the same time, which was enough to form a terrifying strangling ability.

“All of them will be promoted.”

Shua! Shua! Shua!

jiang li spent 14 million energy points to upgrade all the 100000 mechanical winged air soldiers to the perfected stage of level one and then created three battlefield commanders.

A minute later.

“My Lord!”

The three battlefield commanders had completed their production.

no. zh04, zh05, zh06.

The three of them stood in front of Jiang Li and saluted him.

The three battlefield commanders were all young men.

“Yes.”

okay. Jiang Li nodded with satisfaction. He took out the ‘purple true Qi technique’ Jade slip and gave it to the three commanders for them to learn first.

Half an hour later.

The three battlefield commanders had all learned the ‘purple aura true Qi technique’ and obtained two similar learning skills, which were ‘mechanical psionic power’.

“Zh04.”

go. Jiang Li ordered, ” take 30000 mech winged air soldiers and Intel meches to the Ling Jue County in the westernmost part of the great Xia Dynasty as soon as possible.

zh05, lead 30000 winged mech soldiers and Intel mech soldiers to Wushuang County.

zh06, lead 30000 winged mech soldiers and Intel mech soldiers to black jail County.

“Yes!”

yes! the three battlefield commanders replied in unison.

“Go on.”

” go. ” jiang li waved his hand.

Immediately.

The three commanders followed Jiang Li’s order and left the room to meet with the mechanical winged Air Force. Ninety thousand of them were divided into three Air Forces.

The remaining 10000 mechanical winged air soldiers remained in the Army base.

Jiang Li sent the remaining 10000 mechanical winged air troops to patrol the imperial capital, hoping to find the humans who were possessed by demons.

Among them.

The destination of the 1st Air Force, led by zh04, was Ling Jue County.

Ling Jue County.

it was located on the westernmost side of the great xia dynasty. before the great gan dynasty was destroyed by jiang li, ling jue county was close to the territory of the lion barbarian kingdom.

The two countries were separated by a mountain range.

It was called Lion King Mountain.

Obviously.

Jiang Li sent the No. 1 mech-wing aerial unit to Ling Jue County to find out how many barbarian soldiers the lion barbarian kingdom sent.

In addition.

Zh05 led the No. 2 mech wing aerial unit and headed towards the Wushuang Prefecture, which was located at the North of the great Xia Dynasty.

Wushuang County was next to the red eyebrows Yao Kingdom's 'mist Crane County'. If the panicky demon dynasty wanted to invade the great Xia Dynasty, they had to pass through the red eyebrows Yao Kingdom's mist Crane County to enter Wushuang County.

so,

The mission of the No. 2 mech winged aerial unit was to investigate the panicking demon dynasty.

Finally.

It was the No. 3 mech winged aerial unit that was led by No. Zh06. The destination of the No. 3 mech winged aerial unit was the 'black jail County'. Their mission was to keep an eye on the demon soldiers of the red eyebrows demon Kingdom.

Mech winged air soldier.

It could fly.

Furthermore, it was flying at a very high speed.

This was the advantage of the Air Force.

With the flying speed of the mech pilots, they were extremely suitable for such reconnaissance missions. They could arrive at their destination in the shortest time possible.

Shua! Shua! Shua!

In the air.

The battlefield commander and Intel meches couldn't fly, but the mech-winged air soldiers could take them with them. The mech-winged air soldiers formed an Air Force and flew away from the base.

“heaven's mayfly, heaven's mayfly”

“Someone is flying! Someone is flying in the sky!”

“This bi an ...”

f \* ck!!!

“.....”

Within the imperial capital of the Grand Xia.

The deployment of the mech-wing air Force caused quite a stir. The people looked at the figure flying in the air in shock and could not calm down for a long time.

“What exactly is that?”

Wu Zong's eyes widened as he stared at the soldiers in the sky. He rubbed his eyes and said, ” with wings on his back, he looks like a demon, but he's not one.

he's flying so fast. I can't even see him in the blink of an eye.

Hong Tianqi looked on.

“could it be that these soldiers were also created by his majesty?”

Hua Tian said.

“Definitely.”

they’re obviously air troops, ” pang kui said. they’re air troops.

“.....”

The crowd was in a heated discussion.

at this moment.

celestial water city.

At the border defense line.

The two million barbarian soldiers led by man Teng had arrived with a great momentum. The Qi of military evil gathered and formed a terrifying army formation beast.

however ...

Luo Tianshui and the others had already evacuated.

“Your Majesty, there are no soldiers guarding the place.”

“Hahaha, Qianqian, these human soldiers must have been scared out of their wits by the might of His Majesty, the Barbarian King. They don’t even dare to defend.”

“That’s right,”

Your Majesty is mighty!!!

The Barbarian generals said one after another.

“They’ve evacuated.”

Man Teng looked at the city wall of the border defense line. His eyes flickered, and he muttered to himself, “I wonder if Shi Qingtian and Chi Mei have made their moves yet.

I don’t care anymore. The arrow is already on the bow. I have no choice but to fire it.

“Dear soldiers.”

Man Teng took a deep breath and stood on the head of the three-clawed Black Dragon. He looked down at the two million barbarian soldiers and the Barbarian generals.

today, I will personally lead you to attack the great Xia Dynasty. We will take over the territory of the great Xia Dynasty, plunder its resources, and devour its fate.

the great Xia Dynasty’s forces have suffered heavy losses. They are like an arrow at the end of its flight. We will definitely win this battle!

“we will definitely win this battle!”

“We will definitely win this battle!”

“Attack the city!”

massacre the humans!!!!

“.....”

The next moment.

Under man Teng's encouragement, the morale of the Barbarian generals and barbarian soldiers was greatly boosted. The sound of killing was heard everywhere, and then they all roared.

“Whoosh!!!”

Man Teng slowly raised his hand. The power of the totem gathered and condensed in the center of his palm, forming a huge black energy ball.

“BOOM!”

man teng waved his right hand, and this huge black energy ball landed on the wall of the defense line at the border of tianshui city, directly exploding.

The earth trembled, the ground crumbled, the city walls crumbled, and countless gravel flew everywhere.

The border city wall, which had existed for hundreds of years, was destroyed by man Teng with one move. The border city wall collapsed just like that, burying the ‘border river’.

“The city wall has fallen.”

man teng's right hand pointed to the front and shouted: “All troops advance at full speed. Our first target is ‘celestial water city’. After we take down celestial water city, we will directly attack the root and attack the imperial capital of the great Xia!”
