

Army 321

Chapter 321 strengthening

Shocking!

It was very shocking!

luo wuding was extremely shocked. in fact, he found it hard to believe. he stared blankly at the azure dragon in the sky above the imperial capital and felt an extremely powerful pressure.

“How long has it been?”

Luo Wuding was shocked, 'it's only been two days since the great Xia's invasion of the Graywolf Kingdom, and the kingdom has already been destroyed by the great Xia's Army? He's been taken down just like that?"

“Si si si ...”

Luo Wuding sucked in a breath of cold air.

To tell the truth.

Luo Wuding couldn't believe it.

but ...

He had no choice but to believe the truth in front of him.

If the Cang lang dynasty had not been destroyed, how could the true dragon of the great Xia Dynasty have devoured the fate of the country?

“Too fast, it’s really too fast.”

Luo Wuding took a deep breath. He still couldn’t calm down. He suppressed the shock in his heart and gradually calmed down, ” this kind of attack is simply irresistible.

it seems like I’ve underestimated the Xia Dynasty and Emperor Xia.

Shua!

Luo Wuding descended from the sky, arriving before the gates of the imperial capital.

On the main road.

People came and went.

Most of them were residents of the great Xia Dynasty’s capital, as well as villagers from the surrounding villages. There were also some merchant groups, and there were soldiers standing guard at the city gates.

on the city wall.

There were also quite a number of patrol squads.

There were more walking corpse puppets.

There were demon race, barbarian race, human race and even half-demon race walking corpse puppets.

“This bi an ...”

luo wuding looked up and his line of sight fell on the walking corpse puppet. he frowned and thought, death Qi. These patrolmen are all filled with death Qi. They aren't living things.

“Also, there are all kinds of races.”

“Jiang Li has many tricks up his sleeve.”

Thinking of this ...

luo wuding was even more vigilant.

Soon after.

Luo Wuding passed through the city guards “search and entered the city safely.

Obviously.

In the great Xia Dynasty.

Most of the commoners did not have an ‘identification card’. Only officials and merchants of a certain status would have a ‘teeth card’ as a ‘identification card’.

Generally speaking.

the badge would have the official’s name, workplace, rank, and so on.

so,

Unless it was a wanted criminal or someone from a different race with distinct characteristics, it was still very easy to enter the imperial capital of the Grand Xia. Basically, they would not be stopped.

After Luo Wuding entered the city, he didn't show off too much and didn't plan to see Jiang Li so soon. Instead, he stayed in the city and asked about the great Xia Dynasty and Emperor Xia.

At the same time.

Luo Wuding would also look in the direction of the great Xia Palace from time to time, as well as the great Xia Azure Dragon that was circling in the sky.

Time passed.

The night came.

“Roar!”

At this moment.

The Azure Dragon of the great Xia had just devoured the fate of the kingdom of Cang lang, increasing it from 1300 meters to 1400 meters. The fate of the kingdom had been strengthened.

Buzzzzzz!

at the same time.

the blessing of the nation also fell on jiang li. the azure dragon of xia turned into a ray of blue light and merged into jiang li's body. the power of the nation's blessing strengthened his body.

He activated his cultivation technique.

The surrounding spiritual Qi gathered and formed a spiritual Qi Whirlpool above Jiang Li's head.

Half an hour later.

...

boom!

Jiang Li's body shook.

His cultivation had broken through again, from the mid-stage to the late-stage of the third stage. His innate true Qi was getting stronger and stronger, and the quality had also improved.

The Xiantian true Qi that had already filled his dantian had also filled up the twelve standard meridians.

It could be said that ...

The total amount and quality of his Xiantian true Qi had improved by leaps and bounds.

At the same time.

His astral body had also improved, from being able to affect an area of 18 meters around him to 36 meters. It had doubled.

“My cultivation level has increased again.”

Buzzzzzz!

Jiang Li consolidated his cultivation and stopped channeling. The green genuine Qi around him merged into his body. He felt the changes in his body and smiled.

...

it's already reached the late stage of the third rank. I believe that it will break through to the fourth rank very soon.

Jiang Li was very satisfied.

my Lord, the Expeditionary Army has already plundered most of the resources in the Cang lang Kingdom. They have also captured five million demons and are now on their way back.

QX01 immediately reported to Jiang Li.

“Alright,” he said.

” okay. ” jiang li nodded.

my Lord, the Research Center has made new progress.

At this moment.

Jiang Li. Hidden Dragon said to Jiang Li.

“The Research Center.”

Oh. Jiang Li remembered. if you didn't remind me, I would've forgotten about it.

“What do you mean?”

Jiang Li asked.

reporting to my Lord, the level 1 gene strengthening liquid has been developed.

Hidden Dragon replied.

“Display the research results of the Research Center.”

jiang li said.

“Yes.”

Shua!

The hidden Dragon projected the information of the Research Center.

[facility: Research Center]

Research Unit type: Normal research equipment Center (unlocked), normal mechanical research Unit (unlocked)

[current research result: Tier 1 gene strengthening fluid (manufacturing price: [100 energy points for one)]

[Wuwu (omitted)]

only Tier 1 gene strengthening fluid? ”

Jiang Li asked.

“Yes, I am.”

Hidden Dragon replied.

I’m already at the late stage of Tier 3. Is the Tier 1 gene strengthening fluid still effective on me? ”

Jiang Li asked again.

“there is.”

hidden dragon replied, ” the effect of the gene strengthening liquid is not only to increase the level. it can also strengthen the genes and complete the evolution from the root. ”

“Alright, let’s make one first to test its effect.”

Jiang Li said.

consume 100 energy points to produce a vial of Tier 1 gene strengthening liquid? ”

Hidden Dragon said.

“Yes.”

Jiang Li confirmed.

[the first floor of the Research Center is in operation.’Stage 1 gene strengthening liquid’ is being manufactured. 10?9?8?7.....?]

A notification appeared.

The first floor of the Research Center was projected in front of Jiang Li through Hidden Dragon.

In the image.

The ordinary mechanical research soldiers started to get busy, operating the ordinary mechanical research equipment Center. Lights flickered, and various indicator lights lit up.

Ten seconds later.

The production was completed.

The three-dimensional rectangular instrument was opened.

The ordinary mechanical researcher took out a silver syringe from inside and placed it on the finished product rack beside him.

my Lord, the level 1 gene strengthening fluid has been completed.

“Do you want to take it out?” Hidden Dragon asked.

“yes.”

okay. Jiang Li nodded.

Buzzzzzz!

After that.

Spatial teleportation.

the ‘tier 1 gene strengthening liquid’ on the first floor of the research center disappeared and was directly sent to the room in the control hub. it appeared in front of jiang li and floated in the air.

this is the Tier 1 gene strengthening fluid.

Jiang Li took the silver syringe in his hand.

He observed carefully.

most of the small silver syringes were made of silver metal, and there was a transparent part in the middle, where the sky blue liquid could be seen.

[research product: Level 1 gene strengthening fluid]

[rank: rank one]

[effect: strengthen genes]

[usage: intravenous injection]

[origin: army base 01-first floor of the scientific research Center]

Jiang Li could see the information of the ‘level-one gene strengthening liquid’.

intravenous injection.

Jiang Li took a deep breath.

To tell the truth.

jiang li really didn’t know how to ‘inject’, let alone inject himself. looking at the small silver syringe in his hand, jiang li was in a dilemma.

master, we can ask the ordinary research meches to help.

hidden dragon reminded.

“Alright,” he said.

Jiang Li said immediately.

half a minute later.

An ordinary machine research soldier rushed over from the Research Center.

“Chief sovereign.”

The ordinary mechanical research soldier saluted.

“Yes.”

” yes. ” jiang li nodded. ” inject me with the level-one gene strengthening fluid. ”

“Yes.”

okay. the ordinary mechanical soldier nodded and took the small silver syringe from Jiang Li. Jiang Li rolled up his sleeve and showed the blood vessels on his arm.

Soon after.

It was accompanied by a slight stabbing pain.

The small silver syringe had already been inserted into the vein of Jiang Li’s elbow joint. The cold strengthening liquid was injected into the vein.

finally, he pulled it out.

The needle-sized wound immediately healed.

Obviously.

With Jiang Li’s cultivation at the later stage of level three, his body was much stronger than ordinary people. The wound healed very fast.

“I don’t feel anything.”

Jiang Li said.

The next moment.

As soon as Jiang Li finished speaking.

That was a chill that gradually spread from his arm to the rest of his body, as if it was gradually affecting his entire body with the flow of blood.

The coolness was obvious, but it wasn't uncomfortable. Instead, it was very comfortable, just like drinking iced Coke in the hot summer. It was very heart-piercing and cool.

Not only that.

Jiang Li felt like some shackles on his body had been broken.

Half an hour later.

The chill in her body disappeared.

but ...

The real effect was only showing up now.

BOOM!

Jiang Li's body trembled and he activated his technique. The spiritual Qi around him surged. The true dragon in his dantian roared and the power of the nation's fate protected him.

The total amount and quality of his innate true Qi was increasing.

His divine soul was improving.

An hour had passed.

Everything settled down.

“Hu ~~ Hu ~ Hu ~”

Jiang Li let out a breath and felt the changes in his body. Although his cultivation was still at the late stage of level three, the amount and quality of his innate true Qi had doubled.

Furthermore ...

The strength of his spirit had also doubled.

It had reached a level where it could affect an area of seventy-two meters around it.

his strength had clearly increased.

“The improvement is so obvious.”

Jiang Li was overjoyed. I thought the level-one gene strengthening liquid wouldn't work, but it seems that I'm wrong. It's very effective.

Hidden Dragon, create the Tier 1 gene strengthening liquid again.

Jiang Li said.

my Lord, I need to remind you that the Tier 1 gene strengthening fluid is only effective the first time you inject it. Multiple injections are ineffective. At most, it can only eliminate fatigue, recover from injuries, and increase your strength slightly.

hidden dragon said.

“.....”

Jiang Li thought for a while and said, ” in that case, I’ll try to develop the ‘stage two gene strengthening liquid’ and ‘stage three gene strengthening liquid’ as soon as possible.

“It’s just that with the current staff in the Research Center, the time needed to research the ‘Tier 2 gene strengthening liquid’ and ‘Tier 3 gene strengthening liquid’ is too long.”

create 27 ordinary research equipment centers and 2970 ordinary mechanical research soldiers.

Jiang Li used 299.7 million energy points to get all the staff in the Research Center. This way, the efficiency of the Research Center could be maximized.

Chapter 322 harvest

In the past, the Research Center only had one ordinary research equipment Center and ten ordinary mechanical research soldiers on each floor.

Hence, their work efficiency was extremely low.

As a result, it took 10 days for a Stage 1 technology to ‘research’ a result, 100 days for a Stage 2 technology, and 1000 days for a Stage 3 technology.

It would take almost three years for a Tier 3 scientific research to succeed.

It was extremely time-consuming.

And now ...

After Jiang Li gathered all the staff in the Research Center.

Each floor was equipped with ten ordinary research equipment centers and one hundred ordinary mechanical research soldiers. The work efficiency was directly increased by a hundred times.

In other words ...

with the current personnel allocation of the research center.

stage 1 technology only needed two hours and twenty-four minutes to 'research' a scientific result.

Stage 2 technology would only take a day.

stage 3 technology required 10 days.

Of course.

In order to get enough members.

jiang li also used nearly 300 million energy points.

Hidden Dragon, immediately activate the Research Center at full power and study all the technology that can be studied at the moment.

go! Jiang Li ordered.

"Yes."

yes. Hidden Dragon immediately replied, ” the Research Center is fully activated. Research target 1: Stage 1 thermal weapon design, estimated time: 2 hours and 24 minutes. Resources required: stage 1 material ore, energy point cost: One hundred thousand energy points.”

” research objective 2: tier 2 gene strengthening fluid. estimated time: [one day, resources required: stage two living beings, grade two spiritual medicine, energy points consumed: One million energy points.”

“research objective 3: stage 2 thermal weapon design. estimated time: [1 day, resources required: Stage 2 Material ore, energy points consumed: one million energy points.”

research objective 4: Tier 3 gene strengthening fluid. Estimated time: Ten days, resources required: Ten million energy points.”

” research objective 5: stage three psionic weapon design. estimated time: [10 days. Resources required: stage three materials, ores, lower spiritual crystals. Energy points required: Ten million energy points.”

Shua!

Very quickly.

the image of the research center on the third floor was transmitted to jiang li’s eyes from hidden dragon. all the ordinary mechanical soldiers and ordinary research equipment center started working.

As for the required resources ...

The Grand Xia’s Treasury had both ores and spiritual medicine.

Jiang Li immediately sent mechanical winged air soldiers to the wild lake to get the bodies of the creatures.

There were many high-level fake demon corpses in the wild lake.

Jiang Li was the only one who didn't have any spiritual crystals.

Jiang Li had turned them all into energy points.

however ...

When the Expeditionary Army returned, they would have crystals too.

It was because they lacked spirit crystals.

The 'stage three psionic weapon design' was temporarily unable to be carried out.

It was getting late.

It was late at night.

Soon after.

jiang li sat down cross-legged and connected to the 'young dragon ranking-saint peace state'. the fate of the xia dynasty had increased. the xia dynasty's azure dragon had increased from 1300 meters to 1400 meters.

so,

The great Xia Dynasty's ranking rose by one.

He was ranked 71st.

Buzzzzzz!

Immediately after.

The ‘elementary slave contract’ that originally belonged to the Cang lang Kingdom fell and merged into Jiang Li’s body. Jiang Li had obtained the third ‘elementary slave contract’.

The ‘primary slave contract’ of the Cang lang Kingdom had already been divided into five hundred thousand ordinary contract talismans, controlling three hundred thousand barbarian slaves, one hundred thousand barbarian slaves, and one hundred thousand human slaves.

‘Congratulations on the great Xia Dynasty’s promotion, promotion by one rank. Increase the blessing of the country.’

Immediately after.

Jiang Li received the reward of the young dragon rank.

Increase the blessing of the country’s fate.

This also meant that ...

...

With the blessing of the country’s fate, the great Xia Dynasty’s ‘good weather, prosperous country, and peaceful people’ effect was increased, and the effect of the additional status was also increased.

“That’s fine.”

Jiang Li shrugged.

it was better to have a reward than nothing.

It was better than nothing.

moreover ...

The great Xia Dynasty's large-scale cultivation of medicinal fields and planting of medicinal herbs indeed required 'good weather', which was also extremely beneficial to the growth of medicinal herbs.

It was already late at night.

Soon, Jiang Li returned to his bedroom in the great Xia Palace.

In the palace.

su yanmo and su xiao had changed into long dresses, which accentuated their graceful figures. coupled with the fact that they were 'first wives', they were even more alluring.

...

Tonight.

They slept under the same quilt.

So, Jiang Li had another primitive battle with su Yanluo and su you. It was like a dragon fighting two phoenixes.

To his heart's content.

The next day.

In the morning.

Jiang Li woke up and left the bedroom. He ate the breakfast du Xiaohua prepared and went outside the imperial capital.

This was because the Expeditionary Army had travelled through the night and had already returned to the imperial capital of the Grand Xia this morning. They had brought back five million demon citizens, as well as 300000 barbarian slaves, 100000 barbarian slaves, and 100000 human slaves from the Cang lang Kingdom.

They were all waiting outside the city.

“Your Majesty!”

“Your Majesty!”

Around him.

Hong Tianqi, Xu Ya, and the other ministers all bowed to Jiang Li.

“Yes.”

okay. Jiang Li nodded in response.

“Divide!”

Buzzzzzz!

Jiang Li went to the city wall and looked down at the five million monsters gathered outside the city. He used the power of the nation’s fate to create ‘ordinary contract talismans’.

“Roar!”

The Azure Dragon of great Xia materialized.

The power of the nation’s fate was surging, and it bloomed with a bright green light. Five million ordinary contract talismans were gradually divided into different

parts. Each talisman was shining with a green light, like Starlight, densely covering the sky.

Shua! Shua! Shua!

Under Jiang Li's control, the talismans turned into countless green lights and were all planted into the bodies of the five million monsters.

These demons naturally had no ability to resist.

They were all controlled.

As a result ...

Five million demons were turned into the demon slaves of the great Xia Dynasty.

Soon after.

Jiang Li then removed the 'contract talismans' in the bodies of the 100000 slaves.

The 100,000 humans all kneeled on the ground. They were grateful to Jiang Li because they had a normal status.

Next.

The only problem was how to distribute the millions of slaves.

Han Liqi and Xu Ya could handle this kind of thing. Jiang Li didn't ask much. He couldn't waste the labor anyway. He had to create value.

In the distance.

Luo Wuding was in a restaurant in the city. He stood on the highest floor and looked at the city wall. He saw Jiang Li turning into a demon slave with his own eyes.

” with such a large number of demons, the great xia dynasty has obviously taken over the cang lang nation. ”

“.....”

luo wuding pondered. he was thinking if he should contact emperor xia, jiang li.

On this day.

Luo Wuding stayed in the city and asked around for information about the great Xia Dynasty and Jiang Li, but most of the information was from the people who blindly admired Jiang Li.

They didn't get any useful information.

however ...

Luo Wuding had recently discovered an important piece of information, which was related to the 'military camp'.

The great Xia Dynasty actually had two military camps.

One of the military camps was very normal, an ordinary human army camp. Luo Wuding had secretly investigated it, but he hadn't found anything unusual.

but ...

The other 'military camp' seemed to be very special. It was built not far from the great Xia Palace and was under Jiang Li's control. No one was allowed to approach it except Jiang Li, not even the Minister of War, Hong Tianqi.

This was a big problem.

It was very likely that there was a big secret hidden inside.

so,

Luo Wuding planned to go to the ‘special military camp’ tonight. He might be able to find out Jiang Li’s Secret and the Xia Dynasty’s situation.

Time passed.

Large military transport planes filled with supplies landed one after another. A large amount of supplies were carried out by the meches.

“Move all of these weapons, equipment, pills, and other items into the great Xia’s Treasury.”

Xu Ya and the others ordered the slaves to move.

This kind of material transportation work was best done by these slaves.

After a long time.

all the spirit herbs, herbs, and crystals were moved into the base by the meches and piled up on the empty land.

With the spirit crystals ...

The ‘stage three psionic weapon design’ could finally enter the right track of research.

“convert!”

Jiang Li reached out and touched the herbs with his right hand. He started the energy point conversion function.

buzzzzzz!

After that.

A white light bloomed in front of him.

It was extremely dazzling.

In the blink of an eye.

The mountain of medicinal herbs in front of him disappeared and were converted into energy points.

conversion successful. You've received 1.3 billion energy points!

A notification appeared.

Ten minutes later.

Jiang Li converted all the herbs, spirit herbs, and spirit crystals he got from the Cang lang Kingdom, leaving only spirit herbs of level three and above and a hundred lower-grade spirit crystals for research.

conversion successful. 900 million energy points obtained!

.....

” conversion successful. you've received a kasaya. ”

.....

In the end.

jiang li had gained 9.873 billion energy points!

Obviously.

Compared to the harvest in the black snake barbarian kingdom, the resources in the Cang lang Kingdom were also less. After all, the strength of the Cang lang Kingdom was not as good as the black snake barbarian kingdom.

However, there were still 9.8 billion.

It was close to ten billion.

the conversion of energy points was completed.

Jiang Li entered the room in the ruler's hub.

my Lord, the first stage thermal weapon design research is complete.

as soon as jiang li came in, hidden dragon showed up and reported to jiang li with a purple face.

“display the research results of the research center.”

Jiang Li said.

“Yes.”

Hidden Dragon replied.

Shua!

The projection screen appeared.

[facility: Research Center]

[Research Unit type: Yingluo (omitted)]

[current research result: Tier 1 gene strengthening fluid (manufacturing price: 100 energy points for one gun), stage one thermal weapon design-automatic pistol (manufacturing price: [500 grams of steel material, 10 energy points per tube)]

[Wuwu (omitted)]

“Automatic pistol.”

it’s not very useful. Jiang Li took a look.

“Yes, I am.”

yes. Hidden Dragon nodded. it’s not very useful, but the weapons can be equipped to the meches without weapons to improve their combat abilities.

“it’s better than nothing,”

Jiang Li shrugged.

“make one,”

Jiang Li said.

“Yes.”

Hidden Dragon replied.

The manufacturing of the automatic pistol was not done at the Research Center but at the mech factory. It consumed one pound of steel and ten energy points.

Ten seconds later.

The production was completed.

buzzzzzz!

spatial teleportation.

The finished automatic pistol was sent to the room in the Dominator hub and floated in front of Jiang Li. The pistol was similar to the 'Desert Eagle', but it was black and almost didn't reflect light.

Jiang Li reached out and held it in his hand.

Chapter 323 The giant

of course.

In addition to the automatic pistol, the holster of the pistol was also fully equipped.

Jiang Li held the pistol's handle. It felt good and heavy. The cold metallic touch slightly stimulated the skin of Jiang Li's palm.

[research product: level-one thermal weapon-automatic pistol]

[rank: rank one]

[effect: energy bullet, level one firearm mastery]

[origin: army base No. 1-first floor of the Research Center, first floor of the mech factory]

Jiang Li saw the profile.

At the same time.

As soon as Jiang Li held the automatic pistol, a lot of information about guns appeared in his mind. He automatically mastered level-one firearms proficiency.

It was as if he had suddenly become a soldier who had been trained for a long time.

Although he didn't become a sharpshooter immediately, he was proficient in firearms.

It was the automatic pistol in Jiang Li's hand.

The gun's length was 375mm, the barrel was 254mm, the weight of the empty gun was 2.15kg, and the caliber was 0.50 inches. It used 'energy bullets' and 'energy clip', and it had a capacity of nine bullets. It could automatically absorb spiritual energy to replenish its energy bullets, and the recovery speed was one energy bullet per second.

kachaa! Kachaa!

Jiang Li opened the safety.

Bang! Bang! Bang! Bang!

Then, Jiang Li fired continuously. The gun's recoil hit his wrist with great force. The muzzle flashed and Jiang Li enjoyed the sound of the gunshot.

The energy bullet was fired.

After that.

Several white marks were left on the walls of the room in the ruler's hub.

there was basically no damage.

obviously.

The level 1 thermal weapon, automatic pistol, was still too weak. If it was in the past, it would have been pretty good, but now, it was far from it.

However ...

Guns were a man's romance.

When Jiang Li was on earth, he obviously couldn't touch 'guns'. However, one of his wishes was fulfilled when he could touch a gun in this fantasy world and master level one gun proficiency.

Of course.

The 'stage one thermal weapon-automatic pistol' was just the beginning.

'Stage 1 thermal weapon design' could still be researched further, because there were still rifles, submachine guns, sniper rifles, and other firearms.

Other than that.

There was also the 'stage two thermal weapon design', 'stage three psionic weapon design', and so on.

Qian Long, let the Research Center continue their research.

go! Jiang Li ordered.

“Yes.”

Hidden Dragon replied.

Soon after.

Jiang Li put the holster on his waist and put the automatic pistol in the holster.

“Chief sovereign.”

MYL01 arrived at the entrance of the ruler’s hub.

“Hidden Dragon, open the door.”

Jiang Li said.

“Yes.”

the iron door opened automatically.

MYL01 walked in.

“.....”

jiang li was sizing up myl01.

Jiang Li asked MYL01 to come over.

“MYL01, you still haven’t completed your evolution?”

Jiang Li asked.

“yes, i am.”

myl01 nodded, and his tone was also somewhat regretful. ” master, although the expeditionary army has taken down the cang lang kingdom, plundered a large amount of materials and resources, killed millions of demon soldiers, and devoured a large number of souls ...

but it still hasn’t completed its evolution.

...

“What’s the specific progress?”

jiang li asked again.

“Ninety-nine percent.”

MYL01 replied.

“that’s one percent off.”

Jiang Li said.

“yes.”

MYL01 nodded.

“.....”

jiang li muttered.

It was only one percent away.

...

It was a pity that he couldn't complete his evolution.

Shua!

The Dominator panel opened.

He clicked on the soul Tinder.

the expeditionary army destroyed the cang lang kingdom and jiang li got a lot of soul tinders.

Among them.

150,020 level-one soul Tinders, 6100 level-two soul Tinders, 32 level-three soul Tinders, 10 level-three Demon Soul Tinders, 8 level-four soul Tinders, and 1 level-five Demon Soul Tinder fragment.

He had gained a lot.

However ...

After all, the blue Wolf Kingdom was weaker than the black snake barbarian kingdom. They had fewer level two and level three soul Tinders, so they had fewer level two and level three soul Tinders.

“Fuse.”

Buzzzzzz!

fuse. Jiang Li activated the soul Tinder fusion function and chose to fuse all 15020 level-one soul Tinders.

Shua! Shua! Shua!

The fusion interface flickered.

A series of notifications appeared.

Finally.

Jiang Li got 5000 level-two soul Tinders.

“Continue.”

Buzzzzzz!

The fusion continued.

This time, he was fusing the stage-two soul Tinder.

One click fusion.

Finally.

[prompt: a total of 1110 fusions, 185 successes, and 925 failures. You have successfully obtained 185 stage-three soul Tinders.]

fuse the third-stage soul Tinder.

buzzzzzz!

The fusion interface appeared.

” merging in progress. countdown: 10,9,8,7 ”

Ten pure white tier 3 soul Tinders were lined up in a row, gradually approaching the center and slowly gathering together, with a blazing white light flashing.

Ten seconds later.

[fusion failed!]

a notification appeared.

“continue.”

Buzzzzzz!

The fusion continued.

There were a total of two hundred and seventeen tier-three soul Tinders, which could be fused twenty-one times with a success rate of only one in nine.

Time passed.

All 21 times.

in the end, he only succeeded twice and failed 19 times.

Two pure golden level-four soul Tinders were floating in front of Jiang Li, emitting pure golden light and extremely bright.

there are ten fourth-level soul Tinders.

Jiang Li was overjoyed.

immediately unlock the Level 4 mech Army type.

without any hesitation.

Jiang Li controlled the Dominator panel and used nine level-four soul Tinders and ten billion energy points to unlock the level-four units of the mechanical Army.

A notification appeared.

[nine level-four soul Tinders and ten billion energy points have been achieved. Unlocking conditions have been met. Unlocking the level-four mechanical Army soldier type. Please wait patiently. Countdown: 10?9?8?7.....?]

” countdown ended, the stage 4 mechanical army type has been successfully unlocked. ”

[can be expanded.]

A series of notifications popped up.

The unlocking was complete.

“Unfurl.”

Shua! Shua!

[master panel]

[master: Jiang Li]

[game: super mechanical army]

[interface: army type]

Mechanical Army type (can be expanded), mechanical Navy type (can not be expanded), mechanical air Force type (can be expanded), mechanical interstellar type (can not be expanded), special mechanical Army type (can be expanded)

“Interface: army base (can be expanded)”

energy points: 13.486762330 energy points

[soul Tinder: seven level-three soul Tinders, ten level-three Demon Soul Tinders, one level-four soul Tinder]

although unlocking the Tier 4 mechanical Army cost me 10 billion energy points, I still have 13.4 billion energy points left.

jiang li was satisfied. with energy points, he had more confidence. he then opened the interface of the mechanical army.

Shua!

[interface: mechanical Army type]

Level 1 troop type: Youyou (omitted) ”

[level 2 troop type: bi an (omitted)]

[Level 3 troop type: bi an (omitted)]

Level 4 troops: mechanical giant soldier (unlocked), energy blasting soldier (locked 1/8), super mech (locked), mechanical cavalry (locked), mechanical missile soldier (locked).

?.....?

“very good,” he said.

Jiang Li was in a good mood after unlocking the level four mechanical Army. He had spent so much time and energy, and now he finally got something.

these mech types will be harder to unlock as you progress. Just unlocking the ‘energy blasting soldier’ alone requires eight level-four soul Tinders.

I’m not sure, ” Jiang Li said to himself, ” the Expeditionary Force destroyed the Cang lang Kingdom and only managed to fuse two level-four soul Tinders.

In reality.

This was only relative.

After all, the Cang lang Kingdom was too weak. They were only ranked 92nd in the ‘young dragon ranking-holy peace state’. Naturally, they did not have many high-level demons.

if it was a dynasty with a high ranking.

They had a strong military force.

they could easily gather an army of ten million.

There were also quite a few type 4 powerhouses.

Even ...

The Imperial court was above the Imperial court.

That was a truly terrifying existence. Dynasty's strength had far surpassed that of dynasty's. Even the weakest soldier was a level 1, and they even had a level 4 'National Guard'.

There was still an imperial dynasty above an imperial dynasty.

How powerful was the Imperial dynasty?

it was already hard to predict.

immediately create ten mechanical giant soldiers.

Since he had unlocked the level four mech Army and had a lot of energy points, Jiang Li naturally didn't care about the energy points. He immediately started building level four meches.

Creating one mechanical giant soldier required 10 million energy points, so 10 of them would be 100 million energy points.

And this was just the creation.

It didn't count as an advancement.

The energy points required for the upgrade would be even more.

Shua!

the manufacturing interface appeared.

An illusionary figure appeared.

Buzzzzzz!

The illusionary figure rotated on its own, and there were 'X10' words beside it. Countless light spots filled in the surroundings, and it gradually solidified.

A minute later.

[creation complete!]

Shua! Shua! Shua!

In the blink of an eye.

ten tall and sturdy figures appeared out of thin air in front of Jiang Li. they looked like middle-aged men. all ten of them were men, and they were two meters tall. they were wearing green camouflage uniforms.

Bare-handed.

He was not equipped with any weapons.

He was a major General.

“My Lord!”

Jiang Li! the ten mechanical giant soldiers saluted Jiang Li at the same time and said in unison.

“Yes.”

okay. Jiang Li nodded and sized up the ten mechanical giant soldiers.

“Upgrade.”

Shua! Shua!

Jiang Li spent 1.4 billion energy points to upgrade all ten mechanical giant soldiers to the perfected stage of level four.

A white light flashed.

A few seconds later, the upgrade was completed.

“Thank you, chief sovereign!”

They said in unison.

“Yes.”

Jiang Li then checked the message.

Shua!

[unit Type: Mechanical giant soldier]

[rank: grand completion of rank-four]

[No.: Jr01]

skill: Tier 4 ultimate mechanical giant transformation ”

[equipment: Tier 4 ultimate giant armor]

[machinery: Jian Jia (omitted)]

advancement requirements: one level-five soul Tinder, one billion energy points ”

Jiang Li Read all the information of the mechanical giant soldier carefully.

Jr01, use your ability.

go! Jiang Li ordered.

“Chief sovereign, the space here is too small. I can’t use it to its full potential,”

jr01 replied.

“Then let’s go outside.”

Jiang Li said.

“Yes.”

jr01 nodded.

Immediately.

Jiang Li and the others walked out of the room in the control hub and came to the open space of the Army base. The open space was vast and flat.

“Mechanical giant transformation.”

Buzzzzzz!

Jr01 stood in the middle of the empty space and immediately used his skill. His body lit up with light and energy surged, conjuring a huge body.

Chapter 324 infiltration

In the blink of an eye.

The materialization of energy was already complete. The mechanical giant soldier had become a huge robot that was nine meters tall. Its entire body was pitch-black, and the majority of its body was made of alloy steel. It was extremely hard, forming a giant armor.

It could be seen.

The mechanical giant even carried a few ‘small missiles’ on its back, equipped with super-heavy machine guns and cannons. It was completely a killing robot born for war.

It was hard to predict how much destructive power these ‘war killing robots’ would cause when they charged into the battlefield, if they were to form a ‘mechanical giant soldier’ unit.

How terrifying would this unit be?

It was enough to form a situation where they could sweep through everything.

“good! Very good!”

Jiang Li was naturally very satisfied.

Buzzzzzz!

Soon after.

The mechanical giant soldier returned to its original form in the blink of an eye, returning to its two-meter-tall human form.

In reality.

In its 'normal' form, the mechanical giant soldier also possessed powerful combat abilities, just not as powerful as the 'mechanical giant transformation'.

It's a pity that Base 01 is only at the initial stage of level three. The mech factory only has three floors, so it can't produce level four mechs.

Jiang Li said regretfully.

one had to know.

If he used all the energy points.

It would take ten million energy points to build a level four mech, and 150 million energy points to upgrade to the perfected stage.

The consumption was huge.

Jiang Li had more than 13 billion energy points, but he couldn't even make 100.

if he used the mech factory to build them, he would have enough energy points left. even if the level four mechs couldn't be upgraded, he could make up for the difference in quality with the quantity.

after all, they were all at the fourth step.

create 100 mechanical giant soldiers.

Immediately.

Shua!

The Dominator panel opened.

Jiang Li used one billion energy points to build another hundred mechanical giant soldiers.

The manufacturing interface appeared.

The illusionary figure rotated on its own, and there was a number 'X100' beside it. Countless light spots filled the surroundings, and the illusionary figure gradually solidified.

A minute later.

[creation complete!]

A notification appeared.

Shua! shua! Shua!

Immediately after.

Another hundred mechanical giant soldiers appeared.

It appeared out of thin air.

“My Lord!”

Jiang Li! the hundred mechanical giant soldiers saluted Jiang Li and shouted in unison.

“Yes.”

okay. Jiang Li nodded in satisfaction, but he didn't upgrade the hundred newly-made mechanical giant soldiers this time because he didn't have enough energy points.

As a result ...

Jiang Li now had thirteen perfected-stage level four meches and a hundred early-stage level four meches.

Soon after.

jiang li returned to his room in the ruler's hub.

"MYL01."

Jiang Li shouted.

"Yes,"

MYL01 walked over.

shua!

Jiang Li opened the Dominator panel and clicked on the soul Tinder. Then he took out the only level-four soul Tinder and the only level-five Demon Soul Tinder fragment.

since your evolution progress has reached 99% and is only one percent away, I'll give you a hand and absorb this fourth-rank soul Tinder and fifth-rank demonic soul Tinder fragment. I think it'll be enough for you to advance.

Jiang Li said.

...

“Thank you, my Lord, for your generosity.”

MYL01 “s eyes were filled with desire, but he still said, however, I don’t think it’s necessary. You can start another war. There’s no need to waste the precious Level 4 soul Tinder and Level 5 Demon Soul Tinder fragments.

“Start a war.”

jiang li pondered for a while.

It was true.

What MYL01 said was not without reason.

“I’m still in too much of a hurry.”

Jiang Li took a deep breath.

Obviously.

With MYL01’s special nature, talents, and skills, it could absorb souls to level up. It was only one percent away from the evolution progress.

They only needed to start another war.

...

He would be able to complete the advancement.

There was no need to waste the hard-won Tier 4 soul Tinder and Tier 5 Demon Soul Tinder fragments.

“that’s good.”

Jiang Li put away the level-four soul Tinder and the level-five Demon Soul Tinder fragments.

Of course.

It was mainly because Jiang Li couldn’t wait to own a level-five mech troop after seeing the power of level-five.

That was why he was so anxious.

Hidden Dragon, run the mech factory at full power and make 908000 level one meches, 110000 level two meches, and 2000 level three meches.

go! Jiang Li ordered.

“Yes!”

Hidden Dragon replied.

The mech factory was operating at full power.

The ordinary mech production line and the ordinary mech production line started to work.

“rumble!”

The black furnace let out a roar.

Shua! Shua! Shua!

with the projection of the black beam, meches were created one after another. they were created very quickly and finished replenishing the damaged meches in about ten minutes.

He had consumed 15900 tons of steel materials and 3108000 energy points.

” create 350000 early-stage level one meches, 31000 early-stage level two meches, and 158 early-stage level three meches. ”

Buzzzzzz!

Jiang Li controlled the Dominator panel.

It consumed 50.3 million energy points.

The manufacturing interface appeared.

Other than the Intel meches.

There were a total of fourteen illusionary figures, fourteen different types of soldiers.

a minute later.

[creation complete!]

Shua! Shua! Shua!

hundreds of thousands of meches appeared on the empty ground of the army base.

“My Lord!”

” thank you! ” the meches shouted in unison and saluted jiang li.

This time.

Naturally, it triggered a special probability.

Among them.

he received 100 spear meches, archer meches, hammer meches, and axe meches each. he also received one imperial crocodile mech soldier, one mammoth mech soldier, and one dragon mech soldier.

The energy meches did not trigger any special probability.

“Yes.”

yes. Jiang Li nodded and waved his right hand. all of you!

Buzzzzzz!

A white light flashed.

It consumed 704298000 energy points.

A few seconds later.

All the meches completed the upgrade.

upgrade three perfected-stage elite meches.

Jiang Li used six level-three soul Tinders and 60000 energy points to upgrade the three perfected-stage elite troops to level three and gain the mechanical psionic energy skill.

“Continue.”

After that.

jiang li used another 8.4 million energy points to upgrade the three elite meches to perfected-stage level three.

“We’ve finished replenishing the losses.”

Jiang Li said to himself.

This way ...

During this period of time.

He had destroyed the black snake barbarian kingdom, solved the demons in the wild lake, and taken down the Cang lang Kingdom. The losses of the meches from the consecutive battles had all been replenished.

The night came.

The night was particularly dark.

In the night sky.

The thick dark clouds blocked the moon and the stars.

outside the army base.

Shua!

A figure was quietly approaching.

He looked closer.

It was Luo Wuding.

“this is the place.”

Luo Wuding was already close to Jiang Li’s army base. He was shocked to see the magnificent buildings made of black steel.

Luo Wuding had never seen such an architectural style before.

“As expected,”

Luo Wuding clenched his fists. this military camp is indeed not simple.

Obviously.

with Luo Wuding’s stage four cultivation base, it would indeed be difficult for him to be discovered if he sneaked close to the army base. moreover, Luo Wuding was confident of this.

However ...

Luo Wuding didn’t know.

The entire imperial capital of the Grand Xia.

Everything was under Jiang Li’s control.

In addition to the mech wing air Force patrolling in the air, there were also reconnaissance drones and holographic cameras of reconnaissance mechs.

In other words ...

As long as Jiang Li wanted to.

He could know at any time and place, at any corner of the imperial capital, at any time, and anything that happened. Luo Wu Ding thought that his whereabouts were hidden, and no one noticed or knew.

However, he didn't know that Jiang Li knew his whereabouts.

This was especially so when he was about to approach the Army base and try to sneak in.

in the room in the ruler's hub.

Shua!

There was a holographic projection in front of Jiang Li.

In the image.

Luo Wuding was like a cat. He hid in the darkness and avoided the meches outside the base.

“A 4th rank expert.”

Jiang Li looked at the scene and said, ” “What identity? What's his background?”

In order to prevent them from running away, Jiang Li didn't do anything.

Furthermore ...

jiang li also asked the normal mechanical sentinels and the captain to pretend that they didn't see Luo Wuding and didn't stop him.

Shua!

Very quickly.

Luo Wuding sneaked into the Army base.

“I’m coming in.”

Luo Wuding was overjoyed. He leaned against the wall, the cold Steel stimulating his skin. He secretly heaved a sigh of relief, but he was extremely excited.

hehe, I thought the defense here would be very tight. It seems like it’s nothing. I managed to sneak in so easily.

luo wuding was very pleased with himself, ” i can only say that although the great xia dynasty has some trump cards, it is still a dynasty that was established not long ago. its foundation is not strong enough. compared to the great wei dynasty, it is not just a little bit weaker. ”

“Just in time.”

“Let me take a good look at what secret the Grand Xia Dynasty is hiding.”

his eyes flickered.

Luo Wuding looked around and saw many square steel buildings. Then, he walked toward the Research Center that was closest to him.

Shua! Shua! “Whoosh!”

However ...

The next moment.

Luo Wuding had only taken a few steps.

From the position of the four sub-towers and the main tower, the bright searchlights shone directly on him.

Ta ta ta da

Immediately after.

Dense footsteps.

They were a number of ordinary mechanical Sentinels, led by their Captain, forming a small security perimeter.

Kachaa! Kachaa!

The mechanical psionic cannons were also aimed at Luo Wuding.

He locked onto the target.

“You, you, you, you, you ...”

Luo Wuding’s face stiffened. He looked at this scene in astonishment. His expression was extremely ugly. How could he not understand at this moment?

His whereabouts had long been discovered.

Furthermore ...

He was already a turtle in a jar.

He had been tricked.

now, he probably couldn't even run away.

Chapter 325 captured

“when were they discovered?”

Luo Wuding looked around him, thinking of an escape route.

“go!”

Shua! Shua!

The next moment.

a few sentinel captains led the sentinel sentries to attack Luo Wuding. they were very fast, and mechanical psionic energy surged as they attacked.

“Get lost!”

boom!

Luo Wuding shouted as his Zhen Qi burst out, forming a powerful palm print. Within a few moves, the captain and the Sentry guards were sent flying.

As expected of a 4th rank expert.

Although there were quite a number of Sentinel captains and Sentinel sentries, they were only at the 3rd rank, after all, and their strength was only equivalent to the early stage of the 3rd rank.

“They’re all Tier 3!”

Luo Wuding was even more shocked.

Because ...

He discovered that the people around him were all Tier 3!

“Run!”

Shua!

Luo Wuding used all his strength to force back the sentries who were surrounding him. He rose into the air, and his true energy burst out, forming a powerful aura. He fled toward the outside of the Army base at an extremely fast speed.

BOOM! BOOM! BOOM!

an explosion sounded.

The mechanical psionic cannon fired psionic cannonballs one after another, directly blasting Luo Wuding to the ground before his body crashed.

Pfft!

Luo Wuding spat out a mouthful of blood.

“What kind of technique is this Tao Wu using?”

Luo Wuding was shocked to the extreme. He was completely stunned and felt powerless.

Immediately after.

let's go. under Jiang Li's order, to make sure everything went well, MYL01, TS01, and ynjs01 also went out. Three perfected-stage level-four meches attacked, so Luo Wuding naturally couldn't do anything.

In less than half a minute.

Luo Wuding was captured, his four limbs broken and tied up.

"The invader has been captured."

let's go. MYL01 brought Luo Wuding to Jiang Li.

* cough cough *

Luo Wuding was coughing up blood. He looked up at Jiang Li, but Jiang Li was already wearing the 'ordinary Dominator armor'. Luo Wuding couldn't see Jiang Li's face.

"Tell me, what's your background? What is his identity?"

what's wrong? " Jiang Li asked calmly while looking at Luo Wuding.

you are Emperor Xia, Jiang Li!

Luo Wuding lifted his head. He didn't hide anything and he didn't need to hide anything. Even though he was captured, he still spoke arrogantly and scolded, " i'm Luo Wuding, the elder of the Great Wei Dynasty's national guarding pavilion. if anything happens to me, the Great Wei Dynasty will definitely lead an army to trample the Great Xia Dynasty. "

"Big Wei,"

that's impressive. Jiang Li smiled. that's impressive.

“You want to raze my Grand Xia Dynasty to the ground? I’m afraid you don’t have the ability to do so. Besides, you came uninvited and sneaked into the military camp.”

“I have every right to kill you.”

Jiang Li, you dare to kill me? ”

Luo Wuding coldly shouted.

“Kill you?”

No. Jiang Li shook his head. there’s no hurry. A living person is more valuable than a dead person. It’s a pity to kill you. You’re worth more than that.

send him to the Minister of Justice, Bai zhanbo, and let him receive him well. Since this is the elder of the great Wei Dynasty’s Zhenguo Pavilion, he must know a lot about the great Wei Dynasty.

Jiang Li said to MYL01, ” ask Bai zhanbo to pry his mouth open. Ask him as much as you can.

I’m afraid that Bai zhanbo has never interrogated a 4th rank expert.

“Yes.”

MYL01 nodded, grabbed Luo Wuding’s collar, and walked out.

“Jiang Li!”

don’t even think about getting any information from me! If I don’t return to the Wei Dynasty in three days, the Wei Army will definitely trample your great Xia Dynasty!! Luo Wuding roared.

“You’re noisy.”

...

No. Jiang Li shook his head and ignored her.

Although great Wei’s power couldn’t be underestimated, Jiang Li was also different. He had a mech Army of 100 level-four meches and nearly nine million meches.

To tell the truth.

Jiang Li really had nothing to be afraid of.

The Ministry of Justice’s residence.

myl01 landed on the ground.

The officials of the Ministry of Justice respectfully welcomed MYL01 into the mansion.

“Where is the Minister of Justice, Bai zhanbo?”

MYL01 asked.

“Your Excellency, please wait for a moment. I’ll go and inform Minister Bai.”

The official from the Ministry of Justice said.

...

“Yes.”

myl01 nodded.

Half a minute later.

Bai zhanbo had arrived.

“Minister of Justice, Bai zhanbo, greets you, my Lord.”

Bai zhanbo cupped his hands and bowed.

“Yes.”

myl01 nodded slightly and pointed at the half-crippled lu0 wuding on the ground, saying, according to his Majesty’s order, this man is the elder of the great Wei Dynasty’s National guarding Pavilion. He is a 4th rank primary stage expert. He sneaked into the military camp’s important place tonight and has been captured.

“Your task is to use all means possible to interrogate this person to find out everything he knows, regardless of whether he lives or dies.”

“4th rank Suan ni”

“He’s a Tier 4?”

he’s the elder of the defender Pavilion of the great Wei Dynasty!

“This Suan ni, this Suan ni”

In the surroundings.

The ministers of the Ministry of Justice were shocked and their hearts were filled with shock.

One had to know.

among such ministers ...

Among them were many officials who were originally from the great Han dynasty. They naturally knew a lot about the great Wei Dynasty. After all, it was the neighboring country of the human race.

Regarding the existence of the defender Pavilion of the great Wei Dynasty ...

They were also clear.

the guardian pavilion was the pillar of the Wei dynasty!

Each of the pavilion elders was at the fourth rank.

he didn't expect this.

One of the Wei Dynasty's cabinet elders had been captured today and was beaten to such a state. His four limbs were broken and he was almost half-disabled.

"A Tier 4 expert!"

Bai zhanbo's eyes brightened. He looked around, as if he was looking at his prey. He licked his lips and said, "I will complete your Majesty's order as soon as possible.

"Alright," he said.

MYL01 nodded and left.

"Men, come."

bai zhanbo smiled and looked around. his eyes had a strange purple light.”Men, invite this ‘guest’ into the ‘interrogation room’.”

“Yes.”

The bailiffs from the Ministry of Justice immediately captured Luo Wuding.

From the beginning to the end.

Luo Wuding didn’t say a word.

“Hehe.”

Bai zhanbo laughed even more happily. I like tough bones the most. The tougher the bones, the tougher the will, and the higher the sense of accomplishment.

“Kekekekekekeke”

Bai zhanbo laughed coldly as he walked toward the interrogation room.

“.....”

In the surroundings.

the officials from the ministry of justice couldn’t help but shiver.

His Majesty Emperor Xia has captured the elder of the Wei Dynasty. It seems that things will not end well. I’m afraid there will be a conflict with the Wei Dynasty.

“Yup!”

I don't know what His Majesty Emperor Xia is thinking. That is the Wei Kingdom. If the Wei Kingdom's Army comes to the border, it will be bad.

The ministers were filled with worry.

The room in the ruler's hub.

my Lord, the Tier 2 gene strengthening fluid on the second floor of the Research Center has been developed.

Hidden Dragon reported.

“Display the research results of the Research Center.”

Jiang Li said.

“Yes.”

Shua!

The hidden Dragon projected the information of the Research Center.

[facility: Research Center]

[Research Unit type: Yingluo (omitted)]

[current scientific research results-Level 1: Tier 1 gene strengthening drug (manufacturing price: 100 energy points for one gun), stage one thermal weapon design-automatic pistol (manufacturing price: 1 Jin of steel material, 10 energy points for one), Stage 1 thermal weapon design-automatic rifle (manufacturing price: 10 Jin of steel material, 100 energy points for one), Stage 1 thermal weapon design-automatic submachine gun (manufacturing price: 10 Jin of steel material, 100 energy points per gun), Stage 1 thermal weapon design-small-caliber sniper rifle (manufacturing price: 10 catties of steel material, 100 energy points per tube)]

[current scientific research results-Tier 2: Tier 2 gene strengthening fluid (manufacturing price: [10000 energy points for one),]

[Wuwu (omitted)]

” the rifle, submachine gun, and sniper rifle designs have all been developed. ”

Jiang Li said.

“Yes, I am.”

Hidden Dragon replied, ” it’s just that the power of a Stage 1 thermal weapon can’t be of any help to a ruler at the moment, so I didn’t warn him.

create a vial of Tier 2 gene strengthening liquid.

Jiang Li said.

“yes.”

Hidden Dragon replied.

Immediately.

It consumed ten thousand energy points.

On the second floor of the Research Center.

the ordinary mechanical research soldiers began to get busy.

[the second floor of the Research Center is in operation.’Stage 2 gene strengthening liquid’ is being manufactured. 10?9?8?7.....?

A notification appeared.

The second floor was also clearly shown in front of Jiang Li.

Ten seconds later.

The production was completed.

The rectangular device in the center was turned on.

The ordinary mechanical researcher took out a black syringe from inside and placed it on the finished product rack beside him.

“Take it out,”

Jiang Li said.

Buzzzzzz!

Spatial teleportation.

The black syringe on the shelf disappeared and was teleported to the room in the Dominator’s hub. It floated in front of Jiang Li and he grabbed it.

It was a small black syringe.

It was made of a special alloy.

It was a black liquid with Silver Starlight, like the stars in the night sky.

[research product: tier 2 gene strengthening fluid]

[rank: rank two]

[effect: strengthen the gene again]

[usage: intravenous injection]

[production area: army base 01-the second floor of the scientific research Center]

a message appeared.

” strengthen the gene again. ”

Jiang Li finished reading the information.

Soon after.

just like last time.

jiang li asked an ordinary mechanical researcher to inject the ‘stage-two gene strengthening liquid’ into his body. the black liquid was slowly injected into his blood vessel.

“Whoosh!!!”

It was a cold feeling.

gradually, it flowed through his blood and spread throughout his body. he didn’t feel uncomfortable at all. instead, he felt very comfortable, as if a shackle had been broken.

Half an hour later.

The chill disappeared.

The real effect appeared.

BOOM!

The spiritual Qi of heaven and earth gathered and formed a huge vortex, pouring into Jiang Li's body. The cultivation technique was running automatically, refining the spiritual Qi and improving himself.

An hour later.

All the strange phenomena calmed down.

“Hu ~~ Hu ~ Hu ~”

Jiang Li stabilized his aura and felt the changes in his body.

This time.

The quality of Jiang Li's true Qi doubled again. The range of his divine soul's influence increased from 72 meters to 144 meters.

it could be said that ...

Although Jiang Li was only at the late-stage of level three, he could already beat someone at the perfected stage of level three.

It had improved by more than a little.

“Congratulations, chief sovereign. You've grown even more powerful.”

Hidden Dragon said.

“Yes.”

I’m only at the late stage of level three. I’m still far from it. Jiang Li smiled.

Chapter 326

The next day.

Azure Dragon Palace.

Morning court.

The officials stood in the hall.

In general, they could be divided into two categories, ‘civil officials’ and ‘military officials’.

The Civil officials stood on the left, and the military officials stood on the right.

Among them.

The Civil officials were headed by Xu Ya, and the military officials were headed by Hong Tianqi.

After this period of development ...

There were many unfamiliar faces in the Azure Dragon Palace. They were obviously new officials, most of whom were from the Imperial court.

Now, he was working for the great Xia Dynasty.

At this moment.

bai zhanbo, the minister of justice, walked out of the group and bowed to jiang li. he took out the 'memorial' that he had already written.

"Your Majesty, I'm glad I didn't fail you,"

I've already gotten some information about the Wei Dynasty from Luo Wuding, " Bai zhanbo said. although it's not very detailed, it's still valuable to be used as a reference.

"is he dead?"

Jiang Li asked.

"not yet,"

bai zhanbo said.

"Present it."

Jiang Li said.

"Yes."

Jiang Li. Bai zhanbo personally gave the memorial to Jiang Li.

jiang li opened the memorial.

On it was a detailed record of all the information Luo Wuding had said, including the Wei Dynasty's Army and the number of Pavilion elders in The Guardian Pavilion.

Wait, wait, wait.

Among them.

The Imperial court of the great Wei.

There were four National Guardian armies.

They were the northern Army, Southern Army, Western Army, and Eastern Army, led by four great generals, each of them a type 4 powerhouse.

Wei Wuxian was the northern General.

each national guardian army had three million soldiers.

Great Wei's elite army.

All of them were made up of great Wei's elite soldiers, and the weakest of them was at the early stage of level one. They formed an elite army of one million to protect the capital of great Wei.

The commander of great Wei's elite army was 'Wu changding'.

He was Prince Wei's trusted aide.

A peak expert at the perfected stage of Tier 4.

finally.

Great Wei Imperial Army.

they were made up of imperial guards, and the weakest of them was at the perfected stage of level one. there were 500000 of them, and they guarded the great wei palace.

The Imperial Army commander, Wei Lin.

He was the younger brother of Prince Wei.

A peak expert at the perfected stage of Tier 4.

Of course.

This was only the power and Army of the Wei Dynasty on the surface. There must be other unknown methods and strength hidden in the dark.

One had to know.

The great Wei Dynasty also had a large number of County armies. Although the quality of these County armies could not be compared to the great Wei imperial court's Army, they had a large number.

It was also a force that could not be ignored.

“prince wei is in closed-door cultivation?”

Jiang Li looked up and asked.

“Luo Wuding personally said this.”

yes. Bai zhanbo nodded and replied, ” he’s been in seclusion for a few days. Before he went into seclusion, he gave an order to lock the Wei Dynasty up. All domestic matters will be decided by the National Guard Pavilion.

“There shouldn’t be any mistake,”

...

“Yes.”

Jiang Li nodded. He had finished reading the documents. He closed the documents and put them down. Then he looked at Bai zhanbo and asked, ” Bai zhanbo, you have done a good job. I am very satisfied. What reward do you want? ”

Your Majesty, it is my honor to share your burden. There is no need for any reward.

Bai zhanbo said.

“There must be a reward.”

Jiang Li took out a silver syringe from his pocket. It was the ‘level-one gene strengthening liquid’. He asked MYL01 to hand it to Bai zhanbo.

“your majesty, what is this?”

bai zhanbo asked.

In the surroundings.

The officials also looked over, their eyes filled with curiosity.

“Potions!”

...

it’s a ‘medicine’ made with special methods and spiritual herbs. It can improve one’s strength.

” the way to use it is to pierce the needle into the blood vessel and inject the medicine inside. ”

“Potions?”

“I’ve never heard of it.”

increasing strength? is it similar to medicinal pills? ”

“.....”

The ministers were discussing in low voices.

“Just use it.”

jiang li said.

“Yes.”

Bai zhanbo looked at the silver syringe in his hand and hesitated. However, under Jiang Li’s gaze, he could only take a deep breath and aim the needle at the blood vessel on his arm.

He injected the liquid in the syringe.

Very quickly.

The strengthening drug was injected.

buzzzzzz!

Immediately after.

bai zhanbo could clearly feel a cool sensation flowing through his blood and spreading throughout his body. it was a very comfortable feeling.

His face revealed a happy expression.

“.....”

All the officials looked on curiously.

Half an hour later.

the chill disappeared.

The effect was truly displayed.

“Whoosh!!!”

Immediately.

The surrounding spiritual Qi of heaven and earth surged and poured into Bai zhanbo’s body, forming a huge vortex of spiritual Qi and creating a strange phenomenon.

“This bi an ...”

The officials ‘eyes widened.

An hour later.

The phenomenon disappeared.

“hu ~~ hu ~ hu ~”

Bai zhanbo opened his eyes and felt the changes in his body. Although his cultivation level had not increased, his Foundation had doubled.

His strength had greatly increased.

unbelievable. This is simply unbelievable.

Bai zhanbo said in shock.

“How do you feel?”

Jiang Li asked with a smile.

“Thank you, Your Majesty, for your generosity!”

Plop!

thank you. Bai zhanbo knelt down and kowtowed to Jiang Li. although my cultivation hasn't improved, my strength has doubled. I don't feel uncomfortable at all.

his cultivation level didn't increase, but his strength did? ”

“What kind of elixir is this?”

“Didn't you hear what Her Majesty just said? This isn't a miraculous elixir, it's a 'medicine'! ”

“.....”

All the officials stared blankly.

“You may rise.”

Jiang Li waved his hand and looked at the ministers. as long as you can make a contribution, you can also get the ‘medicine’ as a reward like Bai zhanbo.

“Yes!”

“We will definitely do our best for Your Majesty!”

“Your Majesty is wise!”

The officials all knelt down and shouted.

The morning assembly dispersed.

The ministers had gathered in twos and threes, discussing the ‘medicine’. They were all extremely envious of the effects of the ‘medicine’.

as a result ...

With the motivation of such a reward, these ministers were naturally full of energy. They wanted to make a contribution and get the reward of the ‘potion’.

When Bai zhanbo returned to the Minister of Justice’s residence, he was surprised to find that the ferocious centipede-like scar on his face had become much lighter.

“This bi an ...”

Bai zhanbo was both surprised and happy. not only did the medicine increase my power, but it also made the scars on my face lighter.

After the morning court session.

jiang li arrived at the army base.

“Chief sovereign.”

commander Jiang. the nine commanders came and saluted Jiang Li.

“Yes.”

jiang li nodded and looked at the nine commanders. ” our next goal is very clear, and that is to take down the red eyebrows Yao Kingdom.

master, if we attack the ‘red eyebrows Yao Kingdom’, the panicky Yao dynasty will definitely send reinforcements. There might be an ambush. In order to ensure that nothing goes wrong, we should send a large number of troops to attack.

Zh01 said.

“Naturally.”

” we’ll send two million level-one meches, one million level-two meches, one hundred thousand level-three meches, two million perfected-level meches, two hundred and fifty thousand perfected-level meches, two thousand one hundred perfected-level meches, fifteen perfected-level elite meches, one hundred early-stage giant meches, and ten perfected-level giant meches, ” jiang li said.

form the ‘horizontal Army’, led by the nine of you. Destroy the red eyebrows Yao Kingdom.

“Ts01, YNJS01, stay behind and guard the imperial capital of the Grand Xia,”

“yes.”

“Yes, sir!”

The commanders of the battlefield shouted.

Hidden Dragon, operate the mech factory and produce 10000 transport mech soldiers.

go! Jiang Li ordered.

“Yes.”

hidden dragon replied.

The mech factory was operating at full power.

Very quickly.

After using one million pounds of steel and one million energy points, ten thousand transport meches and air soldiers were created in ten seconds.

“Rumble!”

The ‘horizontal Army’ was ready to set off.

This included MYL01, nine battlefield commanders, and one holographic mech.

The total strength of the ‘horizontal Army’ had reached 5.352236, exceeding the number of five million.

“let’s go!”

All the meches got on the large military transport aircraft. Ten thousand large military transport aircraft took off quickly, forming a huge fleet and marching toward the red eyebrows devil Kingdom.

Jiang Li looked up at the ‘crushing Army’ that had gone far away. He didn’t look away until they disappeared from his sight.

“Create three battlefield commanders.”

Buzzzzzz!

The manufacturing interface appeared.

Jiang Li used 300000 energy points to create three battlefield commanders.

A minute later.

[creation complete!]

commander Jiang, the three commanders appeared out of thin air and saluted Jiang Li.

“Yes.”

yes. Jiang Li nodded and waved his right hand. all of you.

He spent 4.2 million energy points to upgrade all three battlefield commanders to the perfected stage of Tier 3. Then, he made them all learn the ‘purple aura true Qi technique’ and master mechanical spirit power.

“Hidden Dragon, create 300000 Air Scouts.”

” go! ” jiang li ordered.

“yes.”

Hidden Dragon replied.

The mech factory started operating.

he had consumed thirty million pounds of steel materials and three hundred thousand energy points.

A few seconds later.

Three hundred thousand aerial Scouts were completed.

“Zh10.”

take ‘Air Scout No. 1’, which is made of 100000 level-one air Scouts, to the Wei Dynasty, ” Jiang Li said. keep an eye on the Wei Dynasty.

“Yes.”

Zh10 stepped out.

zh011, you will also lead the ‘No. 2 Air Scout team’, which is made up of 100000 Level 1 air Scouts, to the Cang lang nation and investigate the situation of the’ bright moon Yao nation ‘and’ spirit moon Yao nation’.

“Yes, sir.”

Zh011 immediately stepped forward.

“Zh012, your target is the ‘Lion barbarian kingdom’. If there’s any movement in the kingdom, report it immediately.”

Jiang Li said.

“I promise to complete the task.”

Zh012 replied.

“Go on.”

Jiang Li waved his hand.

very quickly.

Three air reconnaissance units set off from the Army base. They flew very fast and left the capital in the blink of an eye, heading in three directions.

An hour later.

The ‘horizontal Army’ had arrived at Red Dragon County.

The Red Dragon County was already desolate and uninhabited. The original demon village and city had already become ruins. It had become a paradise for wild and ferocious beasts.

It was basically abandoned.

The demon people in Red Dragon County had either escaped or died. In addition, no human had migrated here. It was normal for them to be abandoned.

Chapter 327 Surging

High up in the sky.

The 10,000 large military transport planes flew at their fastest speed. After activating the ‘air acceleration’ skill, they flew very quickly and left the Red Dragon County territory.

they marched straight in the direction of the red eyebrows yao kingdom.

“Ling Yue, from the Wei Kingdom.”

Jiang Li thought, although the panicky demon dynasty and the lion barbarian kingdom aren't weak, they're much weaker than great Wei and Ling Yue.

the great Xia Dynasty is ranked 71st, so I can see the basic information of the dynasties below 71st, but I can't see great Wei and Ling Yue.

I can't even see the panicky demon dynasty and the lion barbarian kingdom.

“In other words ...”

the great Wei Dynasty, the spirit Moon Demon Kingdom, the panic demon Kingdom, and the lion barbarian kingdom are all ranked above the seventy-first place. Their National Strength is quite strong.

the spirit Moon Demon Kingdom can even casually send two demons at the perfected stage of level four to support the Cang lang Kingdom.

“There's more,”

“If I'm not mistaken, the time when King Wei went into seclusion was the same time the human martial immortal court's envoy from Saint peace state arrived. There must be something I don't know about.”

King Wei suddenly went into closed-door cultivation and even gave the order to lock down the country. It's very likely that he's preparing to break through to the perfected Tier 4 and advance to the initial-stage Tier 5.

if the breakthrough is successful, the King of Wei will definitely start a war and invade the surrounding countries. He will devour the fate of the other countries and strengthen himself to become an Empire.

” the great xia dynasty is right next to the great wei dynasty. when the time comes, conflicts will be inevitable. ”

therefore, I have to take down more dynasties as soon as possible while King Wei is in seclusion and accumulate more energy points. Only then can I deal with the changes in the situation.

The Wei Dynasty.

The capital.

In the attic of the National Guardian Pavilion.

“It’s been some time since Luo Wuding sent back any news.”

feng chenxi said.

“Could something have happened?”

Wei Wuxian said.

“It’s possible.”

The one-eyed elder nodded.

I’ve warned him to be careful. There are several experts at the perfected stage of level four guarding Jiang Li.

Feng chenxi said,”it seems like he’s still in trouble ..”

Luo Wuding is, after all, an elder of The Guardian Pavilion. Although he has just joined, he represents the face of the great Wei Dynasty. If he is really lost in the great Xia Dynasty, we must save him.

The fat-faced Pavilion elder said in a deep voice.

“Then send out the Army!”

“How can a mere great Xia Dynasty overturn the heavens?”

“That’s right.”

A few Pavilion elders agreed.

“Enough!”

At this moment.

wei lin stood up. his gaze was a little indifferent as he scanned the pavilion elders. his gaze landed on feng chenxi as he said in a deep voice, “Don’t you think it’s chaotic enough?”

before his Majesty went into seclusion, he personally ordered us to lock up the country. Apart from domestic affairs, we are not to care about the affairs of other dynasties. Everything must wait until His Majesty comes out of seclusion.

“Feng chenxi, if it wasn’t for your suggestion to test the great Xia Dynasty, how would Luo Wuding have fallen into the great Xia Dynasty? Your suggestion has caused the National Guardian Pavilion to lose an elder. Do you know your crime?”

“Whether I’m guilty or not will be decided by His Majesty.”

Feng chenxi said.

“Hmph!”

wei lin snorted coldly and left with a flick of his sleeves. ” i advise you not to turn a deaf ear to his majesty’s orders, and even more so, don’t casually mobilize the army while his majesty is in seclusion. ”

“Otherwise, bear the consequences.”

As soon as he finished speaking.

Wei Lin left the meeting room.

“.....”

All the pavilion elders looked at each other and fell silent.

“Forget it. Let’s wait for her Majesty to come out of seclusion.”

“That’s true.”

“Let’s not act rashly.”

All the pavilion elders said.

The spirit moon Fey Kingdom.

The capital.

...

In the magnificent Palace Hall.

Your Majesty, there’s news from the spies in the great Wei Dynasty. A few days ago, the great Wei Dynasty’s King of Wei, Wei Zheng, went into seclusion. He might be preparing to break through to the early stage of the fifth tier.

In the main hall.

the demon minister of the spirit moon demon kingdom, qing fengye, said.

“wei zheng is in closed-door cultivation.”

The Demon King Ling Yue muttered to herself, and a thick layer of National aura enveloped her, making it difficult to see clearly. do you want to break through to rank five? That won't do.”

“Send my order to mobilize tens of millions of demon soldiers to attack the Wei Dynasty!”

“Stop him from breaking through!”

“Your Majesty, I'm afraid this is not appropriate!”

“Your Majesty, please reconsider.”

” your majesty, there's one more thing. although ma lin and green spirit went to help the kang lang kingdom, the strength of the great xia dynasty's army was beyond our estimation. they actually sent four perfected-stage tier 4 experts and the kang lang kingdom was eventually destroyed. ”

...

“Your subject failed to complete your Majesty's order. Your Majesty, please punish me!”

Ma Lin and green spirit knelt down.

“The Grand Xia Dynasty.”

Buzzzzzz!

Ling Yue closed her eyes and connected to the ‘young dragon ranking-holy peace state’ with her consciousness. She could clearly see the great Xia Dynasty’s ranking.

He had already risen to the 71st place.

“What a fast speed of advancement.”

Ling Yue was secretly shocked. it hasn’t even been a few months since the establishment of the dynasty, and you’ve already risen from the bottom 99th to the 71st.

“i’ve misjudged.”

“Ma Lin, green spirit,”

Ling Yue muttered to herself for a while before saying, “I’m giving you a chance to redeem yourselves.”

Shua!

Ling Yue waved her right hand.

A token flew out and landed in Ma Lin’s hand.

It was a diamond-shaped orange token.

On the back was the word ‘moon’, and on the front was a white fox that was looking up at the moon.

“Moon FOX token!”

Ma Lin cried out in alarm.

“Ma Lin, green spirit, hear my order.”

ling yue shouted.

“Your subject is here.”

Ma Lin and green spirit kowtowed.

I order all of you to take the ‘moon FOX token’ and head to the bright moon Yao Kingdom. Mobilize the Yao soldiers of the bright moon Yao Kingdom and attack the great Xia Dynasty. We will test the strength of the great Xia Dynasty.

Ling Yue ordered.

“This Minister will obey your decree!”

Ma Lin and green spirit said in unison.

Your Majesty, we are dealing with the great Xia Dynasty and the great Wei Dynasty at the same time. I’m afraid that the other dynasties will come and spy on us if we send out so many demon soldiers at once.

Qing Fengye said.

“Spying? Hahaha!”

Ling Yue laughed out loud, and her aura surged. She said arrogantly, “With me personally watching over lingyue, who would dare to be impudent? Who could be impudent? Which dynasty would dare to send troops to invade?”

“i have made up my mind.”

fivefold spirit, ” Ling Yue berated. I now confer you the title of ‘war general’ and command the entire Army. Immediately lead an Army of ten million demon soldiers and attack the Wei Dynasty.

“We can’t let Wei Zheng break through to the fifth rank.”

“Your subject will obey!”

The delicate-looking wuchong spirit bowed in acceptance of the decree, his eyes determined.

in reality.

At the border of the Wei Dynasty.

There were only three border countries.

They were the great Xia Dynasty, the Barbarian dynasty, and the Donglin Kingdom.

Among them.

The great Xia Dynasty was to the North of the great Wei Dynasty, the Barbarian dynasty was to the West, and the country of Donglin was to the East of the great Wei Dynasty. To the South of the great Wei Dynasty was an ocean.

The Barbarian dynasty was the Barbarian race’s dynasty. Their national power was also extremely strong. Their ranking on the young dragon List was not low either. They were even stronger than the lion barbarian kingdom, only slightly weaker than the Wei Dynasty.

The Donglin Kingdom was a human dynasty.

The country was weak.

His ranking was one rank lower than that of the Yongling dynasty.

so,

The country of Donglin had already submitted to the Wei Dynasty and sought their protection. Every year, they had to offer their National fortune and resources.

Barbarian dynasty.

The capital.

Within the Barbarian Hall.

“Wei Zheng is in seclusion?”

On the throne.

The Barbarian King Xing Jiali muttered to himself and raised his head to look at the officials below. is the information accurate? ”

“It’s absolutely true!”

Your Majesty, in order to investigate this information, we lost a few precious spies in the Wei Dynasty. There’s no way they’re wrong.

Wei Zheng is in seclusion. The great Wei Dynasty is in seclusion. Something big must have happened.

“Your Majesty, could it be that Wei Zheng is trying to break through to the fifth tier?”

“This bi an ...”

“If Wei Zheng succeeds, our barbarian dynasty will be in trouble.”

The ministers of the Barbarian Empire said one after another.

Xing Jiuli stood up and shouted, ” no matter what, we must not let Wei Zheng break through. Immediately dispatch five million elite troops and attack the Wei Dynasty.

“Yes!”

“We will obey!”

all the officials agreed, and none of them had any objections.

on the surface, the northern region of the holy peace region seemed to be calm, but in reality, undercurrents were already surging.

The spirit Moon Demon Kingdom, the Barbarian dynasty, and the great Wei Dynasty were already the top dynasties in the northern region of the Holy peace state.

wei zheng had gone into seclusion in an attempt to break through to the fifth tier. this had aroused the fear of the spirit moon demon kingdom and the barbarian dynasty, so they had sent their army to invade the great wei dynasty without hesitation.

A huge war was about to break out.

At this moment.

The three scout teams sent by Jiang Li had all arrived at their destination.

” reporting to my lord, the number one air scout team has not discovered any abnormalities or enemy movements. they will continue to scout. ”

” the no. 2 air reconnaissance unit has arrived at the destination of the cang lang kingdom and is currently scouting the ‘bright moon yao kingdom’. for the time being, they have not found any traces of the enemy or the yao army. ”

” the third aerial scout team has not discovered the lion barbarian kingdom’s army.
”

The three scout teams sent back information one after another.

“yes.”

okay. Jiang Li nodded.

“The horizontal Army has arrived in Hulao Prefecture.”

At this moment.

A message came from the horizontal Army.

Shua!

The holographic projection screen unfolded.

It could be seen.

In the image.

Jiang Li’s 100000 air reconnaissance troops had already discovered the demon soldiers in the air with the help of drones.

“These demon soldiers in the air are the Army of the panicky demon Kingdom.”

Jiang Li recognized it.

There weren't many of these demon soldiers in the air, only 1000 in total. However, the weakest of them was at the early stage of level two.

Clearly, they were the elite of the elite.

They patrolled in the sky.

It was obvious.

The panicking demon dynasty had already sent troops to reinforce the red eyebrows demon Kingdom. They even set up an ambush in the 'Hulao County', which they had to pass through, and patrolled around, waiting for Jiang Li's Army to arrive.

However ...

They were still one step behind.

They didn't expect Jiang Li to have transport mech pilots, nor did they know that Jiang Li's Air Scouts had already found them.

air reconnaissance troops, use unmanned reconnaissance planes immediately and tail these airborne demon soldiers. Find out where the demon Army is hiding.

Zh01 immediately gave the order.

"Yes."

Buzzzzzz! Buzzzzzz!

Under the control of the aerial Scouts, the drone quietly followed them. The patrolling aerial demon soldiers did not notice it at all.

One had to know.

The air Scout didn't have any combat capabilities, and its main function was to Scout.

back at the wild lake.

Even the two level 5 'Saint peace state court emissaries' couldn't detect the drone, let alone these demon soldiers in the air.

Half an hour later.

After completing their patrol mission, the airborne demon soldiers began their return journey. The drone naturally followed them immediately and finally found the camp of the demon Army.

Chapter 328 the arrival

to be precise.

The camp of the demon Army was located on the border between the Tiger cage County and the red eyebrows demon Kingdom. It was in a dense and lush forest.

This huge forest was close to the main road. From tiger cage County to the red eyebrows demon Kingdom, they had to pass through this huge forest. That was why the demon Army was stationed here.

Of course.

There were not many demon soldiers in this Army, and they were only a reconnaissance team. The main force of the panic demon dynasty was not here, and the main purpose of the reconnaissance team was to detect the enemy's movements in advance.

“Enemy camp discovered!”

“prepare for battle!”

“Attack!”

The Army had already arrived in the sky above the forest.

After that.

They immediately launched an attack.

First, the heavy machine guns of the 10000 large military transport aircraft were aimed at the demon army camp in the forest below. The muzzles spat out tongues of fire, forming a rain of bullets.

It poured down.

Pfft! Pfft! “Pfft!”

BOOM!

“Enemy attack!”

“Be careful!”

“Ah!”

instantly.

the camp of the demon soldiers fell into chaos. the tents were razed to the ground by the heavy machine guns. the huge and thick trees were blown into pieces by the heavy machine guns.

The demon soldiers screamed in pain, completely caught off guard.

“The enemy is in the air, in the air.”

“Demon Army in the air, quickly engage the enemy!”

hurry up!!!

Shua! Shua! Shua!

The demon soldiers roared loudly.

” kill!!! ”

In an instant.

A large number of demon soldiers in the air charged into the sky, killing their way towards the Army.

mechanical wing air Force, move out.

“Attack!”

“Whoosh!”

Hundreds of thousands of mechanical-winged air soldiers flew out of the cabin, forming a vast mechanical-winged air soldier Army. Countless steel feathers formed a terrifying storm.

it was like a tornado that swept through the world.

“Ah!”

The sharp arrows and Spears shot by the demon soldiers in the air were torn apart by the storm of the mechanical wings, and the vast tornado storm enveloped the demon soldiers in the air.

“Pfft!”

Blood and flesh flew all over the sky. It was as if he had been thrown into a meat grinder and was directly torn into minced meat. He couldn't even scream.

mechanical giant soldiers, move out!

boom! BOOM! BOOM!

The next moment.

The large military transport plane's cabin door opened.

After that.

A hundred initial-stage type 4 mech giant soldiers directly jumped down from the sky, using their skills in mid-air, transforming into 9m-tall mechs.

Under the effect of gravity, the speed of the fall was extremely fast.

“Rumble!”

The huge robot smashed into the ground, creating nine giant pits with a diameter of hundreds of meters. The ground shook violently, and cracks spread out like a spider's web.

The mechanical giant soldier was completely unscathed.

kill!!!

Da da da da

A hundred initial-stage type 4 mechanical giant soldiers charged into the battlefield, their huge mechanical arms equipped with huge heavy energy cannons.

It was like a machine gun.

He fired crazily.

...

A massacre was immediately launched.

boom! BOOM! boom!

“Ah!”

In the surroundings.

Countless demon soldiers cried out in pain.

Not to mention level one and level two demons.

Even if it was a 3rd rank.

He would still be killed in one shot.

“BOOM!”

The next moment.

The mechanical giant soldier launched the ‘small Energy Missile’ on its back and exploded in the demon army camp, setting off energy flames that soared into the sky.

...

The explosion created a giant pothole with a diameter of a thousand meters.

Within the range of the explosion.

All the demon soldiers were dead.

Half an hour later.

The war was over.

This ‘reconnaissance demon Army’ of the panicking demon dynasty had been completely annihilated. Millions of demon soldiers had died, turning into incomplete corpses.

Not a single one was left alive.

“Reporting, my Lord. The million-strong demon Army has been completely annihilated.”

Zh01 reported.

“Alright,” he said.

Jiang Li was naturally quite satisfied.

One had to know.

From the start of the battle to the end.

Only 500,000 mech winged Air Force soldiers, 10000 military transport planes, and 100 initial-stage type 4 mech giant soldiers were deployed.

He had easily annihilated a million demon soldiers.

The overwhelming Legion did not even display a tenth of their strength.

Furthermore ...

after the scouting demon army was annihilated, the panicky demon dynasty and the red eyebrow empire couldn't find out where jiang li's army was.

Soon after.

They cleaned up the battlefield and moved the spoils of war into the large military transport aircraft.

The hundred mechanical giant soldiers returned to the cabin.

“Rumble!”

the transport planes took off, and the 10000-strong fleet continued to move forward. they had already risen to an altitude of more than 10000 meters, and the clouds in the sky had blocked the transport planes.

they had already entered the red eyebrows yao kingdom.

This time.

The horizontal Army did not attack the red eyebrows Yao Kingdom's County city. Instead, they flew all the way and headed straight for the 'red eyebrows capital' of the red eyebrows Yao Kingdom.

red-browed capital.

The panicking Yao dynasty's three million elite Yao soldiers were stationed in the forest outside the capital, led by 'Yi Shang'.

All the troops of the red eyebrows Yao Kingdom.

A hundred thousand Imperial Guards, a million elites, and two million demon soldiers.

In other words ...

There were more than six million troops stationed in the red-browed royal capital.

Chi Mei and Yi Shang, two fourth tier National guardians, were also among them.

Red-browed Palace.

red-browed Demon King, in the current situation, the best way is for the red-browed demon Kingdom and the panic demon dynasty to become one. The two countries will be one and advance and retreat together.

"Why struggle so hard?" Yi Shang said.

"....."

"General yishang, the panicking Demon King asked you to help me deal with the great Xia Dynasty, not to persuade me, right?" Chi Mei asked in a deep voice.

“You have to be clear about your responsibilities.”

“This is also the intention of His Majesty, panicking.”

Yi Zheng said.

“In that case, general Yi Shang, please lead the panicking Yao Army back.”

Chi Mei shouted.

“.....”

Yi Shang shook her head. if I were to leave, with the current military strength of the red eyebrows Fey Kingdom, how would we be able to defend against the great Xia Army if they were to invade? ”

when that time comes, the red eyebrows Yao Kingdom will be in danger.

if anything happens to you, demon monarch red eyebrows, His Majesty canghuang will blame me. Besides, His Majesty canghuang sent me to lead the demon Army here to ambush the ‘great Xia Army’. Therefore, I will not leave before the great Xia Army arrives.

“Then shut up!”

Chi Mei scolded.

In the surroundings.

The officials of the red eyebrows Yao Kingdom were silent.

Because what Yi Shang said was right.

With the red eyebrows demon Kingdom's continuous damage to its National Strength and military strength, it was impossible to stop the great Xia Army and had to rely on external forces.

However ...

the panicking demon dynasty's appetite was too big.

They actually wanted to swallow up the entire red eyebrows Yao Kingdom. Although it was said to be a Royal action on the surface, if the red eyebrows agreed, the final result would be that the red eyebrows Yao Kingdom would merge with the panic Yao dynasty.

It would directly exist in name only.

This was no different from the destruction of a country.

“Hehe.”

Yi Shang secretly sneered and did not say anything more.

Time passed.

With the flying speed of the large military transport aircraft, it would take at most half a day to fly across the red eyebrows Yao Kingdom. At this moment, they had arrived in the sky above the red eyebrows capital.

the drone was dispatched.

The scene in the red-browed royal capital unfolded clearly in front of Jiang Li.

He looked down from above.

Chi Mei, Yi Shang, and the other demon soldiers in the capital city didn't know that Jiang Li's Army had arrived in the sky above their capital.

It was right above their heads, like a tiger watching its prey.

Ten minutes later.

The scouts in the air had already clearly scouted out the distribution of the red-browed royal capital's military forces, including the three million panicked troops that were hidden.

enemy intelligence has been scouted out. The enemy numbers are 6.1 million. Three million of them are demon soldiers hiding outside the red-browed Imperial City. 100000 demon soldiers and Imperial Army soldiers, as well as a million red-browed elite soldiers, are stationed in the red-browed Imperial Palace. Two million demon soldiers are stationed in the red-browed Imperial City.

the air scout reported the situation.

"Everyone, land."

deploy all mechanical artilleries and set up an artillery formation. Lock onto the target 'three million demon dynasty demon soldiers'. Deploy all Air Force and land forces.

confirm the target of the attack,'three million panicked demon dynasty troops'. Take care of the foreign aid of the red eyebrows demon kingdom first before attacking the red eyebrows royal capital.

Very quickly.

After confirming the situation on the battlefield.

The battlefield commanders quickly decided on the attack plan.

“Whoosh!!!”

Ten thousand transport planes descended from the sky.

The first to come out were two million level one meches and two million perfected-stage level one meches. Then, it was one million level two meches and two hundred and fifty thousand perfected-stage level two meches.

One after another.

All the level three and perfected level three meches came out.

Finally.

10 perfected-stage type 4 mechanical giant soldiers, 100 initial-stage type 4 mechanical giant soldiers.

“Rumble!”

the engine roared.

The 200,000 type 2 artilleries from the mech factory and 50000 complete type 2 artilleries were quickly spread out, forming a huge artillery formation.

Kachaa! kachaa!

The cannon locked onto the target, and the cannoneers adjusted the trajectory and loaded the shells.

In the distance.

To the southeast of the red-browed royal capital.

It was a mountain range.

The three million demon soldiers were stationed in this mountain range and were very close to the red-browed King City. They could rush over in the shortest time to help.

attack!!!

“artillery bombardment!”

BOOM! BOOM! BOOM!

The target was locked.

The cannons were fired.

In an instant.

that was a total of 200000 cannonballs and 50000 cannonballs. they rose directly into the sky and crossed ten miles.

he fell into the mountain range.

“rumble!”

A total of 250000 artillery shells exploded at almost the same time, causing a huge commotion that shook the earth and the mountains.

The mountain range trembled as flames shot up into the sky. Huge trees collapsed and the ground cracked. The top of the mountain was shifted to the ground, and rocks and soil flew everywhere.

“ah!”

Countless demon soldiers cried out in pain.

They were completely caught off guard and could not even set up their battle formation in time. Hundreds of thousands of demon soldiers were killed by this round of bombing.

Tragic!

It was too tragic.

BOOM! BOOM! boom!

However ...

This was only the beginning.

What welcomed them was the continuous bombardment of the cannon soldiers. The cannonballs rose into the sky and landed into the mountain range.

They fell into the demon Army.

As a result, it caused a large number of casualties.

the powerful level-two and level-three demons activated their bloodline power. although they were able to block the bombardment of the cannonballs, the level-one demons and the inferior demon soldiers were directly killed by the explosion.

Chapter 329 Despair

As they were suddenly attacked by the enemy, the panicking demon Army did not even know where the enemy was. As a result, close to a million demon soldiers had died.

They fell into chaos.

Very quickly.

the demon army immediately reacted.

“Set up the formation!”

quickly set up the formation!!

The demon soldiers roared loudly.

“Roar!”

The military killing intent gathered. Amidst the flames and dust that filled the sky, a huge two-winged celestial Hound rushed out. Its power was vast and mighty as it roared towards the sky.

The heavenly Hound pounced.

It had blocked the bombardment of the artillery shells.

This gave the demon Army a chance to catch their breath.

At this moment.

Red-browed capital.

On the city wall.

Many demon soldiers of the red eyebrows demon Kingdom were patrolling. The sudden explosion attracted their attention and they immediately looked at the mountain range in the distance.

“That’s Yingluo.”

“oh my god!”

Their eyes widened in shock.

“enemy! there are enemy troops!”

“Hurry up! Quickly report to His Majesty!”

“prepare for battle!”

The red eyebrow Yao Kingdom Generals roared.

Shua!

Yi Shang rose into the air and stood in the sky. He looked up at the ‘mountain range’ and saw that the demon Army had suffered heavy losses. His pupils contracted, and his face was filled with endless anger.

“Bastard!”

Yi Shang roared.

“it’s the great xia army!”

Shua!

Red eyebrows also rushed over immediately. He clearly saw the scene of the bombing and shouted in a deep voice, ” “The great Xia’s Army has arrived,”

this is the unique war weapon of Emperor Xia’s Army, Jiang Li. It’s extremely destructive. Without the protection of the stage three battle formation, it will cause terrible casualties.

Shua! Shua! Shua!

A large number of demon soldiers in the air flew into the sky to Scout the enemy. They discovered the ‘horizontal Army’ five kilometers away and turned pale with fright.

“enemy discovered!”

“In the Northwest direction! It’s in the Northwest!”

“Si si si ...”

“The enemy Army has reached more than five million!”

“The great Xia Army! They are the great Xia Army!”

The demon soldiers in the air roared loudly.

“five million!”

Chi Mei was even more frightened, and her delicate face showed a faint fear.

red-browed Demon King, please give the order to mobilize the red-browed demon Kingdom’s Army to support the panicking demon Army. Otherwise, the panicking demon Army will be completely annihilated if this continues.

Yi Shang said in a deep voice.

“this bi an ...”

Chi Mei muttered.

Among the panicking Yao Army.

“It’s the great Xia’s Army!”

cang zilei led the demon soldiers in the air and found the location of the overwhelming army. his pupils couldn’t help but contract. he looked up and saw the mechanical wing air troops flying over at an extremely fast speed. the mechanical wing storm swept in all directions. ” it’s the great xia air troops! ”

be careful!

BOOM! boom!

At this moment.

As the type 3 army formation had blocked the cannon fire, the 10 peak stage type 4 mech giant soldiers immediately fired the ‘small energy missiles’.

The ‘small Energy Missile’ was only one meter long, but it had extremely terrifying destructive power. It drew a bright trail of flames in the air and exploded.

...

“BOOM!”

The ten ‘small energy missiles’ exploded at the same time.

“Rumble!”

The deafening explosion almost shattered eardrums. The power of each ‘small Energy Missile’ was on par with a full-force attack of a perfected type 4 powerhouse.

the radiance of energy filled the sky, as if ten small suns had appeared at the same time. the terrifying power destroyed everything in the surroundings.

The grade 3 army formation was destroyed.

It was impossible to withstand it.

“ah!”

Bang Bang Bang Bang!

The sound of explosions rang out continuously.

At this moment.

...

More than half of the mountain range had been destroyed. The Army formation had been destroyed, and countless demon soldiers had died. Their corpses were all charred black.

they were stunned!

This time.

They were all stunned!

Yi Shang, Chi Mei, Zhu Ling, the demons, the commanders of the demon soldiers of the red eyebrow demon Kingdom, and millions of demon soldiers were all stunned.

After that.

it was as if a chill ran from the soles of their feet to the top of their heads, and the emotion known as 'fear' spread in their hearts and filled their minds.

it was as if his blood had frozen and his heart had stopped beating.

“No! This was impossible! That’s impossible!”

Yi Shang screamed and staggered backward. Her face was pale as she looked at the scene of the battlefield in horror, ” Tier 4! They’re all Tier 4!”

“Is this the true power of the great Xia Dynasty?”

Chi Mei’s eyes were dull, as if he could not accept this fact. He laughed bitterly, ” fourth rank! There are so many 4th rank experts!”

“how do we fight? How do we fight?”

moreover, the demon Army has been completely destroyed. Only 3.1 million soldiers of the red eyebrow Yao Kingdom are left, while Jiang Li’s great Xia Army has more than five million soldiers.

At this moment.

kill!!!

The mechanical wing air Force descended into the mountains and attacked the remaining demon Army.

Da da da da

10,000 transport planes arrived and circled in the air. Machine guns were fired and the remaining demon soldiers were killed.

run!!!

Finally.

The surviving demon soldiers were filled with fear. They no longer had the courage to fight and fled in all directions.

The storm of the mechanical wings enveloped the surroundings, and none of the demon soldiers could escape.

“Bloodline ignition!”

BOOM!

There were still a few demon race experts who had reached the perfected stage of Tier 3 that had survived, including Cang zilei. They had ignited their bloodlines, and their strength had skyrocketed.

kill!!!

Bang Bang Bang Bang!

The powerful demon bloodline power destroyed many mechanical winged aerial soldiers in all directions. Cang zilei’s spear pierced through hundreds of mechanical winged aerial soldiers.

“Die!”

They had already gone crazy.

Shua! Shua!

The figure burning with bloodline flames shot straight into the sky, trying to shoot down the transport plane.

“BOOM!”

However ...

the energy meches had arrived. a hundred perfected-stage level three energy meches surrounded them. an intense battle broke out. energy and explosions were heard.

“Ah!”

In the end.

All the demons at the perfected stage of Tier 3 were exterminated.

“Pfft!”

Cang zilei’s head was also crushed by the energy mech and he died. A pure white level three soul Tinder dropped and was successfully captured by the mech.

the three million panicking demon dynasty troops were dealt with so quickly.

Jiang Li looked at the battlefield and opened the notification interface. Notifications kept appearing on the screen that he had captured a large number of soul Tinders.

” having a level four mech is indeed different. ”

Jiang Li was in a good mood.

At this moment.

MYL01 had devoured enough souls and did not join the battle. The last 1% of evolution had been replenished and it had reached 100%.

In other words ...

MYL01 could be upgraded.

they pushed the rear of the army.

“Whoosh!!!”

MYL01 hovered in the air, with demonic spirit energy surging around it. It was like a huge black ball of light, emitting an unstable aura.

Obviously.

Although he had absorbed enough souls, he would still need to consume a large number of energy points if he wanted to complete the upgrade.

energy points consumed. Upgrade to MY01 immediately.

Jiang Li didn't hesitate.

Shua!

It was a total of one billion energy points.

one billion energy points gushed into myl01's body out of thin air, and it began to transform and upgrade myl01. its entire body began to flash with light.

The promotion had already begun.

“Attack the red-browed capital!”

As the entire Army of the panicking demon dynasty was annihilated, the horizontal Army immediately changed their target. The commander of the battlefield gave the order, and the horizontal Army charged towards the red-browed royal capital.

BOOM! BOOM! boom!

at the same time.

The artillery position locked onto the red-browed royal capital. 250000 shells rose into the sky and bombarded the red-browed royal capital.

“Roar!”

The grade 3 army formation activated.

The beasts of the military formation appeared.

The three battle formation beasts blocked the cannonballs. The cannonballs exploded in the air, and the flames were dazzling, like fireworks blooming. It was quite beautiful.

After that.

A hundred early-stage level four mechanical giant soldiers fired ‘small energy missiles’, which crossed ten miles and bombarded the red eyebrows devil Kingdom’s Army.

“Don’t even think about it!”

“Roar!”

chi mei made his move.

a red dragon roared.

The three-clawed Red Dragon appeared, the National aura protected his body, and the power of the Army formation was added to Chi Mei's body, causing his strength to rise continuously.

He had reached the level of Tier 4 perfection.

“Scarlet Dragon Seal!”

“boom!”

Chi Mei launched a powerful attack. He formed a seal with his hands, and a Dragon-shaped seal appeared. It was like a huge red real Dragon, baring its fangs and brandishing its claws as it pounced.

Bang!

Red eyebrows 'attack had blocked more than half of the' small energy missiles'. After all, they were launched by the initial-stage level four mechanical giant soldier.

but there were still dozens left.

“This bi an ...”

Chi Mei couldn't believe it, ” the power has all reached the fourth stage!!!

“Yi Shang, are you still not going to attack?”

chi mei shouted.

“The red eyebrows Yao Kingdom is finished.”

Yi Shang's heart was already filled with fear. "It's useless even if I attack. Red-browed demon king, you can only pray for yourself. I will not die with the red-browed demon kingdom."

Shua!

As soon as he finished speaking.

Yi Shang flew into the air at full speed. With a pair of green wings on her back and the power of her bloodline circulating, she fled into the distance like a green bolt of lightning.

He had escaped!

Yi Shang immediately ran away.

I have to inform His Majesty Canghuang about the great Xia Dynasty as soon as possible. The great Xia Dynasty's strength is far beyond our estimation. They actually have a level 4 National Guardian team.

Yi Shang thought to herself, 'It's best if His Majesty Canghuang can work with the surrounding demon dynasties and form a demon dynasty Alliance. Otherwise, I'm afraid we can't deal with the great Xia Dynasty's Army.'

"You!"

Chi Mei glared at Yi Shang, but she could do nothing but watch Yi Shang run away.

"Bloodline ignition!"

BOOM!

Chi Mei roared again. He was going all out. The red bloodline flame covered his whole body. The National aura seemed to be boiling, and his power rose.

“Ah!”

bang bang bang bang!

The red true dragon circled around and intercepted the remaining ‘small energy missiles’.

“Pfft!”

Red eyebrows screamed and spat out blood. She was blown away by the power of the missile explosion and knocked down buildings. She was seriously injured and looked extremely embarrassed.

boom! BOOM! BOOM!

The next moment.

The ‘small energy missiles’ of the ten perfected-stage type 4 mechanical giant soldiers were launched, covering ten miles and bombarding the red-browed capital.

“.....”

Chi Mei could only look on in despair.

Chapter 330 Destruction

BOOM! BOOM! BOOM!

The perfected-stage Tier 4 small Energy Missile completely tore the stage 3 formation of the red eyebrows Yao Kingdom Army into pieces. The power and aftershock of the explosion even caused the entire city wall to collapse, and debris flew everywhere.

“Ah!”

A large number of demon soldiers had died.

kill!!!

Immediately after.

Millions of meches charged into the capital. The horizontal Army had already entered the city and started close combat. The firearm meches fired wildly.

“Whoosh!!!”

the biochemical poison mist spread and corroded the surrounding demon soldiers, turning a large number of demon soldiers into walking corpse puppets. they then pounced on the demon soldiers beside them.

“How could he be so fast!”

Yi Shang turned back to take a look. Her eyes were filled with shock. the red eyebrows Fey Kingdom’s Army has actually been breached so quickly. The capital has also been captured.

“let’s go!”

Yi Shang did not dare to stay any longer.

“You can’t escape!”

“Whoosh!!!”

At this moment.

A vast amount of demonic spirit energy condensed and turned into a huge energy palm in the blink of an eye. It grabbed at Yi Shang, who was fleeing quickly.

“Who is it?”

Yi Shang was terrified.

the power of his bloodline exploded in an attempt to resist. a green light bloomed from his body and condensed into a huge green light pillar. then, it pierced through.

Bang!

The huge energy palm clenched tightly, and the green light pillar was destroyed.

“Ah!”

Yi Shang screamed as his body was grabbed by the black energy palm. The terrifying force acted on his body as if it was going to crush him.

“Bloodline ignition!”

Buzzzzzz!

Yi Shang roared.

His body was burning with green bloodline flames.

Immediately after.

Behind him, a huge green bird appeared. It spread its wings and flew high. It exploded with all its strength, and its cultivation level rose by a small level, reaching the great circle of Tier 4.

The green flames were resisting the black energy palm.

However ...

It was still useless.

The difference between the two was too great.

Even if Yi Shang burned her bloodline, it would be useless.

“No!”

Yi Shang howled in fear.

there was a loud ‘boom’.

The black energy palm exploded, and the powerful force completely tore Yi Shang’s body apart. Blood and flesh flew everywhere. The Tier 4 Yi Shang was killed in one move.

Buzzzzzz!

At this moment.

A black figure appeared out of thin air.

It turned from illusory to real.

It was MYL01.

Furthermore, it was the MYL01 that had already advanced to the early stage of the fifth step.

“I’ve completed my promotion.”

Yi Shang! Jiang Li was overjoyed, especially when he saw that MYL01 killed Yi Shang with one move.

Jiang Li was in an even better mood.

Shua!

special troop Type: Mechanical demon

[rank: early stage of the fifth rank]

[No. MY01]

” skill 1: tier 4 psionic mastery

...

skill 2: rank four ultimate Soul Control ”

skill 3: Level 4 ultimate void-ification technique

skill 4: Tier 4 superior-grade demon spirit domain ”

skill 5: Tier 5 inferior-grade demon spirit body ”

” skill 6: level five inferior-grade obliteration storm ”

[magic spirit machinery: Chenchen (omitted)]

promotion condition: can not be promoted!

immediately.

Jiang Li checked the basic information of the upgraded MYL01.

it’s still the ‘mechanical demon spirit’ troop class. There’s no change to the troop class, but there’s a new skill. Also, the ‘demon spirit body’ has been upgraded from Tier 4 ultimate to Tier 5 low-grade.

” obliteration storm, ” jiang li thought. it’s an active attack skill.

...

“This way, MYL01 can be considered to have a ‘big move’. It’s not like before when he could only rely on’ demon spirit energy ‘to fight.”

On the battlefield of the red-browed royal capital.

Chi Mei had burned her bloodline and forcibly increased her cultivation base. She was already an arrow at the end of its flight. She led the remaining demon soldiers and fought desperately, but it was just a last-ditch struggle.

their defeat was already set in stone.

“Is there no more hope?”

chi mei looked around. she saw that the demon soldiers were being slaughtered and had no chance of winning. she took a deep breath and activated all the energy in her body, releasing the power of the nation’s fate.

She was going to self-destruct her country's fortune and then fight back with all her might.

“Die!”

MYL01 quickly left the stage. He crossed the void and entered the red-browed capital in the blink of an eye. With a wave of his right hand, vast demonic spirit energy gathered and formed a huge energy palm that was as vast as a mountain.

It directly hit Chi Mei.

“!!!”

Chi Mei's pupils shrank.

BOOM!

An explosion sounded.

Chi Mei was no match for him at all. The true red Dragon transformed by the Scarlet Dragon Seal was destroyed, and the energy palm hit Chi Mei's body.

“Pfft!”

Blood spurted out.

“Ah!”

Chi Mei screamed.

His body exploded in the air.

The scene was like a blood-colored firework blooming.

Only a few pieces of torn clothes fell from the sky.

Not even a corpse was left.

He was killed in one palm!

“your majesty!”

The surrounding demons of the red eyebrows demon Kingdom wailed in pain.

kill!!!

The horizontal Army immediately increased the speed of their attack.

He pushed forward all the way, sweeping away everything in his path.

The red eyebrows Yao Kingdom’s Army could not stop them.

The demon soldiers fell one after another.

The war was nearing its end.

in the evening.

When the last demon soldier died ...

the war was over.

The red eyebrows Yao Kingdom was destroyed!

clean up the battlefield, search for resources, and prepare to return.

The commanders of the battlefield shouted.

“Yes.”

The meches started to move.

“.....”

Jiang Li took a deep breath and closed the communication with the horizontal Army. The holographic projection in front of him disappeared as well. He sat on the chair.

He was neither happy nor sad.

It was easy for the horizontal Army to take down the red eyebrows Yao Kingdom. Jiang Li had expected that the demon dynasty would send troops to help the red eyebrows Yao Kingdom.

It would be wrong if he couldn't get it.

“However,”

” i'm surprised that we took down the red eyebrow empire so quickly, ” jiang li said. ” of course, it's a good thing. the stronger the mech army, the better. ”

the panicking demon dynasty has lost nearly four million demon soldiers in a row. In addition to the previous loss, their National Strength has clearly been severely damaged.

after the horizontal Army brings back the resources of the red eyebrows Yao Kingdom, we will have another wave of soldiers and form an Air Force Army of meches. This way, the ground army of meches and the Air Force of meches will work together and we can send troops to the panic Yao dynasty.

Obviously.

Jiang Li had already planned his next move.

At this moment.

With the destruction of the red eyebrows Yao Kingdom.

“Roar!”

the three-clawed scarlet dragon let out a sorrowful roar and collapsed on its own.
after that, the invisible national aura dispersed and crossed through time and space,
directly surging towards the imperial capital of the grand xia.

Buzzzzzz!

The next moment.

The Azure Dragon of the great Xia Dynasty rose into the air.

The Azure Dragon of the Grand Xia, who had already reached a height of 1400 meters, once more appeared. He hovered in the air above the imperial capital, and his boundless draconic might enveloped the entire imperial capital.

“A true dragon of National fate!”

“It’s the manifestation of the true dragon of the nation’s fortune again.”

“Quickly pay your respects!”

Within the capital.

The commoners were all shocked and came out of their houses. They knelt down and paid their respects to the great Xia Azure Dragon. They were extremely respectful and reverent. The ministers also looked up at the great Xia Azure Dragon.

“The Azure Dragon of the Xia Dynasty is devouring the fate of the nation to strengthen itself again.”

“This bi an ...”

” if i remember correctly, a few days ago, the azure dragon of the great xia dynasty had already devoured the fate of the nation once, and its height increased from 1300 meters to 1400 meters. i can’t believe something like this happened again today. ”

did His Majesty destroy another dynasty? ”

“This speed is too fast.”

His Majesty Emperor Xia is too powerful.

Jiang Li! the ministers of the Xia Dynasty exclaimed and were in awe of Jiang Li.

At the same time.

The stronger the great Xia Dynasty was, the more prosperous the nation would be, and the more at ease they would be. Their sense of belonging to the great Xia Dynasty would naturally be stronger as well. Only when the great Xia Dynasty became stronger would they not be in danger of being destroyed.

Only then would they be able to live in peace.

the room in the ruler’s hub.

Buzzzzzz!

” azure dragon technique. ” jiang li sat down cross-legged and used the xia azure dragon technique to help the azure dragon devour the fate of the red eyebrow empire and strengthen itself. jiang li also benefited a lot.

Time passed.

The night had arrived.

“Roar!”

He spent half the night.

The fate of the red eyebrows demon Kingdom was completely devoured by the great Xia Azure Dragon. The great Xia Azure Dragon had once again increased in height, from 1400 meters to 1500.

The Dragon’s Roar echoed throughout the capital.

One thousand five hundred meters!

One had to know.

Back then, when Cang Huang and Shi Qingtian rode the true dragon to the capital of da Qian in an attempt to snatch the fate of da Qian, the true dragon of the panicking demon dynasty and the lion barbarian kingdom was only 1500 meters long.

In other words ...

the fortune of the great xia dynasty had grown to this day.

It was not any weaker than the panic demon dynasty or the lion barbarian kingdom.

Of course.

As the Azure Dragon of the great Xia Dynasty had only just reached 1500 meters, it was still slightly inferior to the panicky demon dynasty and the lion barbarian kingdom.

Shua!

The next moment.

The Azure Dragon turned into a ray of blue light and disappeared into the base. It merged into Jiang Li's body and hovered in his dantian.

Immediately after.

The Fortune of the country started to give back to Jiang Li.

“Whoosh!!!”

He activated his cultivation technique.

the spiritual qi of heaven and earth gathered and formed a whirlpool above jiang li's head. the spiritual qi was injected into jiang li's body.

An hour later.

BOOM!

Jiang Li's body shook.

His aura increased greatly.

There was no surprise.

Jiang Li's cultivation had successfully advanced from the late stage of level three to the perfected stage of level three. The total amount of innate true Qi had doubled. It had filled his dantian, twelve principal meridians, and eight extraordinary meridians.

At the same time.

The strength of his soul had increased greatly.

From being able to affect a range of 144 meters with him as the center, it had increased to 288 meters.

it had directly doubled.

He had such a strong spirit and a large amount of true Qi.

Even if Jiang Li didn't master any powerful martial arts techniques, he could easily defeat an ordinary expert at the perfected stage of level three. He wouldn't be afraid of a top expert at the perfected stage of level three.

Furthermore ...

If Jiang Li could master powerful martial arts techniques and practice them to a profound level, he could even fight against a National Guardian at the early stage of level four.

Of course.

It wasn't something that could be done in a day if one wanted to master a powerful martial art.

it required time and talent.

In terms of talent.

Jiang Li had taken a lot of elixirs and injected himself with the ‘stage one gene strengthening liquid’ and ‘stage two gene strengthening liquid’, so his talent was greatly enhanced.

He just lacked time to practice martial arts.

buzzzzzz!

Jiang Li closed his eyes and connected to the sub-list of the young dragons-Saint peace state.

shua!

a purple-gold ranking list appeared.

Soon after.

Jiang Li saw that the great Xia Dynasty’s ranking had risen again, from 71st to 70th, just within the top 70.

“Whoosh!!!”

The next moment.

The ‘young dragon ranking-holy peace state’ seemed to light up, and a bright purple-gold light ball fell from the ranking.

Shua!

The purple-gold light entered Jiang Li’s body.
