

## Army 331

Chapter 331 Saint artifact

“roar!”

The true dragon roared.

roar! Jiang Li heard a clear dragon roar in his mind.

“Congratulations on the great Xia Dynasty’s promotion. You have been promoted by one rank and are now ranked 70th. the sacred weapon of the nation-green dragon imperial decree!”

Immediately after.

Jiang Li received another message.

“Green Dragon imperial decree.”

Jiang Li was stunned.

Immediately.

Jiang Li’s consciousness returned and he woke up immediately.

“This is a Kasaya.”

After that.

what’s going on? ” Jiang Li was feeling his body. He found that the Azure Dragon of Xia was circling in his dantian. The Azure National aura was shining from the Dragon, refining his true Qi and body.

However ...

The Azure Dragon of the Xia Dynasty was different. The spiritual light in his eyes was more vivid, and above his head, there was a green 'scroll' floating.

Shua!

scroll. Jiang Li summoned the green 'scroll' from his dantian. He reached out and grabbed it.

“Whoosh!!!”

As soon as Jiang Li held the 'scroll', information about the 'scroll' was sent into his mind.

The Imperial decree of the Azure Dragon.

The great Xia Dynasty's 'sacred artifact of National fortune'.

after possessing the 'national aura saint weapon', one could use the 'national aura saint weapon' to drive the power of the country's national aura, transforming it into the most direct combat power.

For example, when Feng chenzi used the “Imperial Jade seal.”

However ...

the imperial jade seal was of a higher level than the imperial edict.

Furthermore ...

the 'national aura saint weapon' could also store the power of another country's national aura and refine it.

one had to know.

Only a dynasty that possessed a 'sacred artifact of National fate' could accept the National fate of other dynasties as a tribute. Otherwise, without a 'sacred artifact of National fate', even if other dynasties offered their National fate to you, you would not be able to refine it.

Unless they destroyed the other dynasties like Jiang Li did, they would be able to take over the fate of other countries, but they wouldn't be able to do so in a long time.

Destroying a country was just a one-time deal.

Shua!

There was a flash of green light.

Jiang Li put the Green Dragon imperial edict back into his dantian.

It was already early in the morning.

The battle in the red eyebrows Yao Kingdom had also ended long ago, and the horizontal Army had won all of their battles. They were currently collecting the spoils of war and resources, and they believed that they would be able to return to the imperial capital of the great Xia very soon.

There was no news from the three air reconnaissance troops either.

Jiang Li didn't plan to stay in the room of the Dominator's hub any longer. He planned to go back to the great Xia Palace to rest first.

However, just as he was about to leave.

However, QX01 came.

Lord, the second air Scout team has an important report.

QX01 said.

“answer.”

Jiang Li sat down again.

“Yes.”

Buzzzzzz!

A holographic projection appeared.

“Chief sovereign.”

Zh011 appeared on the screen and saluted Jiang Li.

“Report the situation.”

jiang li said.

“Yes.”

Zh011 nodded. the No. 2 aerial reconnaissance unit has discovered a large number of demon soldiers. They have already left the territory of the ‘bright moon Demon Kingdom’ and entered the Cang lang Kingdom.

...

“They are marching over at the fastest speed possible.”

“This Army of demon soldiers is heading towards the great Xia Dynasty. There’s a high possibility that they’re here for the great Xia Dynasty.”

“whoosh!”

Immediately after.

As soon as he finished speaking.

The camera turned.

Through the drones of the scouts in the air, the situation of the Army of Yao soldiers from the ‘bright moon Yao Kingdom’ was fully presented to Jiang Li.

“They are Yingluo.”

jiang li saw a familiar face in the demon army and immediately said, ” ” this is the place. immediately zoom in on the scene of this place. ”

“Yes.”

The camera zoomed in and the image was enlarged.

...

Very quickly.

Jiang Li saw the man’s face clearly.

Ma Lin and green spirit.

When they attacked the Cang lang Kingdom last time, Jiang Li's Expeditionary Force encountered two perfected-stage level-four demons from the spirit Moon Kingdom. The male demon called himself 'Ma Lin'.

The other female demon did not say her name.

"The spirit Moon Demon Kingdom."

Jiang Li thought to himself, "these two complete-stage level four monsters are the general of the monsters of the spirit Moon Kingdom. In that case, this Army of monsters must be related to the spirit Moon Kingdom.

master, Air Scout unit one has important news to report.

QX01 said again, interrupting Jiang Li's thoughts.

"Answer."

Jiang Li said.

"yes."

Shua!

QX01 immediately projected another holographic image.

In the image.

Zh010's figure appeared.

"chief sovereign."

Zh010 saluted.

“Report the situation directly.”

Jiang Li said.

“Yes.”

“Although the great Wei Dynasty did not send any troops to invade the great Xia Dynasty, the aerial reconnaissance troops have discovered that the great Wei imperial court is mobilizing the troops of the various counties,” said zh010.

“I mobilized the troops of the various counties.”

Jiang Li fell into deep thought after hearing zh010’s report. why did the Wei Dynasty do this? ” Could it be that Prince Wei had already broken through? So they’re starting to recruit troops and are preparing to send them to the surrounding dynasties?”

“So fast?”

Jiang Li didn’t believe it.

One had to know.

Back then, King Qian had to go into closed-door cultivation for half a month before he could break through to the perfected stage of Tier 4.

This time.

For King Wei to break through from the perfected fourth tier to the initial stage of the fifth tier, he would need more time. At the very least, he would need to enter closed-door cultivation for a month before he could successfully break through.

Furthermore ...

It wasn't even certain if he would succeed.

Something else must have happened.

zh010, lead the 1st Air Scout unit deep into the Wei Dynasty and continue to Scout. We must find out the reason why the Wei Dynasty is recruiting the prefecture Army.

go! Jiang Li ordered.

"Yes."

Zh010 nodded, " I promise to complete the mission.

immediately.

The communication ended.

" qx01, contact the third air reconnaissance unit. "

" go! " jiang li ordered.

"Yes."

QX01 nodded and contacted the third air reconnaissance unit.

"Chief sovereign."

Zh012's figure appeared on the screen.

"Is there any movement in the lion barbarian kingdom?"

Jiang Li asked.

my Lord, everything is calm in the lion barbarian kingdom. We didn't find any traces of the Barbarian Army.

Zh012 replied.

“Then continue to keep an eye on him.”

Jiang Li said.

“Yes.”

Zh012 nodded.

the communication was cut off.

All that was left in front of Jiang Li was the communication screen with Air Scout Troop number two.

“We haven't even finished plundering the supplies. There's still a period of time before the horizontal Army returns to the imperial capital.”

hmm. Jiang Li looked at the communication screen of the No. 2 Air Scout Troop and muttered, “there are quite a number of demon soldiers from the bright moon Yao Kingdom. There are nearly four million of them.

with the two perfected-stage level four demon commanders, the low-level meches are enough to take down the demon Army, but the high-level meches are still not enough.

Currently.

jiang li stayed in the mech army at the base.

The mech factory produced 2.4 million level one meches, 210000 level two meches, and 2004000 level three meches.

There were 639716 perfected-stage level-one meches, including the 117 information meches.

The two thousand perfected-stage elite meches were all staying at the base.

There were 150000 perfected-stage level two meches.

Four hundred and two perfected-stage level three meches.

Two perfected-stage level four meches.

They had a total of 3.6 million soldiers.

Of course.

Jiang Li couldn't send out all his meches.

so,

He had to send more troops.

This time.

Jiang Li was going to build an Air Force mech Army.

Shua!

The Dominator panel opened.

” create 10 mechanical giant soldiers. ”

Jiang Li first used one hundred million energy points.

Buzzzzzz!

The manufacturing interface appeared.

An illusionary figure appeared and gradually solidified.

A minute later.

[ creation complete! ]

Ten mechanical giant soldiers appeared out of thin air.

“Upgrade.”

Jiang Li used another 1.4 billion energy points to upgrade the ten mechanical giant soldiers to the perfected stage of level four. They finished the upgrade in a few seconds.

“Very good,” he said.

okay. Jiang Li nodded in satisfaction.

” hidden dragon, activate the mech factory and create 100000 mech dragon riders and one million level 2 mech soldiers. apart from the transport mech soldiers, 250000 of each mech soldier type. ”

create another two million Level 1 mech soldiers. Apart from the mech winged aerial soldiers, there are four types of mech soldiers, and each type has 500000 mech soldiers.

Jiang Li said.

“Yes.”

Hidden Dragon replied.

“Rumble!”

The mech factory was operating at full power.

Creating 100,000 mech Dragon cavalry soldiers used one billion catties of steel materials, a total of 500000 tons, and one billion energy points.

The production of one million Level 2 mech pilots used one billion kilograms of steel materials, a total of five hundred thousand tons, and consumed one hundred million energy points.

The production of two million Level 1 mech pilots used two hundred million pounds of steel materials, a total of one hundred thousand tons, and consumed one million energy points.

Very quickly.

Ten minutes later.

100,000 mech Dragon Riders, 1 million Stage 2 mech soldiers, and 2 million Stage 1 mech soldiers were all completed.

create 1000 mechanical dragon cavalry.

Shua!

the dominator panel opened.

Jiang Li used one hundred million energy points to create a thousand early-stage level three mechanical dragon cavalymen.

A minute later.

[ creation complete! ]

Shua! Shua! Shua!

A thousand early-stage rank 3 mechanical dragon cavalymen appeared on the empty ground of the Army base. Their bodies were extremely huge, and the first thing that came into sight was the huge ‘mechanical dragon’.

That’s right.

it was the mechanical dragon.

The steel Dragon.

its overall appearance was similar to that of a western dragon. when the steel mechanical wings were spread, it was ten meters long. its whole body was pitch-black, and it glowed coldly under the moonlight.

They were equipped with all sorts of firearms.

Riding on the back of the steel Dragon was a ‘Dragon Knight mech’ covered in armor, holding a huge Dragon Knight heavy spear.

“Upgrade.”

jiang li used 1.4 billion energy points to upgrade all 1000 mechanical dragon cavalymen to perfected-stage level three.

Shua! Shua!

Several rays of light flickered on the bodies of the 1000 mechanical dragon cavalry.

A few seconds passed.

They all advanced to the perfected stage of Tier 3.

jiang li carefully read the basic information of the mechanical dragon cavalry.

Obviously.

Other than the ‘main type’, the mechanical dragon cavalry also had two’ sub-types’. After the two sub-types were combined, they formed a complete ‘mechanical dragon cavalry’.

it had a total of three skills.

Naturally, it was equipped with extremely powerful air combat abilities.

He was very strong in both long range and close combat.

“Create three battlefield commanders.”

Jiang Li used 300000 energy points.

Shua!

the manufacturing interface was displayed.

“whoosh!!!”

An illusionary figure appeared and solidified.

A minute later.

[ creation complete! ]

“chief sovereign.”

Three battlefield commanders appeared.

Zh013, zh014, zh015.

Jiang Li! they saluted Jiang Li at the same time.

“Yes.”

okay. Jiang Li nodded.

Shua!

He waved his right hand.

He spent 4.2 million energy points to upgrade all three battlefield commanders to the perfected stage of Tier 3. Then, he took out the 'purple aura true Qi technique' for the three battlefield commanders to learn.

An hour later.

The three battlefield commanders had all learned the 'purple aura true Qi technique' and mastered 'mechanical psionic power', so they had a certain level of combat ability.

"I now order you to be the commanders of the 'Air Force Division 1', with zh013 as the main commander, and zh014 and zh015 as the Deputy commanders."

go! Jiang Li ordered.

"Yes."

yes! the three battlefield commanders replied in unison.

the first Air Force will consist of 10 perfected-stage type 4 mech Giants, TS 01,1000 perfected-stage type 3 mech Dragon Riders, 100000 type 3 mech Dragon Riders, 10000 transport mech soldiers, electric-powered mech soldiers, air-to-air mech soldiers, bomb mech soldiers, and 250000 fighter mech soldiers each.

400000 mechanical winged air soldiers, 500000 Air Scouts, glider air soldiers, lightweight armored air soldiers, and 500000 biochemical air soldiers each.

including the three of you, there are a total of 3511014 of us.

hence.

Jiang Li added all the newly-built mech soldiers, 400000 winged mech soldiers, 10000 transport mech soldiers, and the TS01.

They formed the first Air Force Legion under his command.

It was officially named Air Force Division 1.

Air Force Battalion number one, heed my orders. Move out immediately and head to the borders of the former 'Cang lang nation'. Stop and kill the demon Army that is marching over from the bright moon Yao nation.

Jiang Li said.

“Yes.”

“Yes, sir.”

The three commanders replied.

...

Soon after.

In the open space of the Army base.

The first thing that came out of the mech factory was the transport mech soldiers. Many large military transport planes were conjured.

It stopped in the Army base.

After that.

Air Scouts, glider soldiers, lightweight armored soldiers, biochemical soldiers, electric mech soldiers, and air mech soldiers walked out of the mech factory one after another.

They all boarded the 'large military transport plane' and entered the cabin.

"Rumble!"

Immediately after.

the large military transport plane took off.

"Roar!"

...

The mechanical dragon roared and flapped its mechanical wings.

The 100,000 Stage 3 mechanical dragon Riders and 1000 perfected Stage 3 mechanical dragon Riders followed closely behind, forming a huge Dragon Rider Army.

The scene was so shocking that it covered the sky.

Immediately after.

Bombing mechs. Fighter mechs appeared last.

it could be seen.

The appearance of the bombing mechs was a 'light bomber', and each of them had a 'mech pilot' and 'mech arms'.

Among them.

The mech pilot controlled the 'bombers', and the mech arms operators 'controlled the weapons of the' bombers'. Each 'light bomber' carried at least three to five tons of bombs.

It could be dropped from a high altitude to carry out a wide-area bombardment.

It was enough to cause destructive damage on the battlefield.

It was extremely terrifying.

Air fighter mech soldier.

They were mech troops that fought in the air. They had high mobility, high speed, and strong combat power in the air. They were equipped with aerial machine guns with a caliber of more than 20 mm.

It carried 'two to three tons' of bombs.

The bombing mech and the fighter mech in the air.

It was also a 'main troop type' and had two sub-troop types.

Together, they formed a mech troop.

unit type: bombing mech

[ rank: rank three ]

[ No.: BGC-Hz01 ]

.....

The two sub-types of fighter meches were basically the same as the sub-types of bombing meches. They were both mech pilots and mech Gunners.

However ...

The skill was a little different.

The skills of the pilot and weapon operator were ‘stage three air fighter operating technique’ and ‘stage three air fighter weapon operating technique’.

very quickly.

The Air Force Battalion one was officially dispatched.

Shua! Shua! shua!

high up in the sky.

Large military transport planes, light bombers, fighter jets, and mechanical Dragons formed a huge Air Army. It was extremely spectacular, covering the sky and moving at full speed.

Jiang Li was relieved after he sent Air Force No. 1. He left the base and went back to the great Xia Palace to rest.

The next day.

In the morning.

Jiang Li didn't go to the morning court.

There was news from the horizontal Army. They had already plundered most of the resources in the red eyebrows Yao Kingdom and had a great harvest. They were on their way back.

At the same time.

Zh012's Air Force 1 had officially met up with the 'air reconnaissance Force 2'.

A battle was about to break out.

Jiang Li immediately went to the Army base.

They were prepared to watch the first battle of the 'Air Force No. 1'.

shua!

The holographic projection spread out in front of Jiang Li. It took up a large space and was scaled down, showing the situation of the battlefield clearly in front of Jiang Li.

At this moment.

within the borders of the former 'cang lang nation'.

The four million bright moon Demon soldiers led by Ma Lin and green spirit had crossed more than half of the original territory of the Cang lang Kingdom. They were now on a flat plain.

The demon Army advanced at full speed.

The marching army formation was activated.

Spirit Qi gathered.

It was extremely fast.

“roughly how long will it take before we enter the grand xia dynasty?”

Ma Lin asked in a deep voice.

“General Ma Lin, I’m afraid we still need one more day. We still need to cross the black snake barbarian kingdom before we can enter the great Xia Dynasty.”

The chief general of the bright moon Yao Kingdom, Luo Xiao, replied.

Obviously.

Luo Xiao’s position in the bright moon Yao Kingdom was not low. He controlled the Yao Kingdom’s Army, but now he could only be Ma Lin’s Adjutant and had to listen to Ma Lin’s orders.

“One more day!”

Ma Lin’s expression wasn’t too good. the stage two army formation is too slow. We have to enter the ‘great Xia Dynasty’ as soon as possible and change to a stage three army formation.

“This bi an ...”

Luo Xiao paused for a moment and then continued, ” “general ma lin, although the speed of a stage three army formation is very fast, it’s too taxing on the demon soldiers.”

” by then, even if we reach the great xia dynasty within half a day, the demon soldiers will be too exhausted. it will affect the combat power of the demon army. ”

“The loss outweighs the gain.”

“Ma Lin, what Luo Xiao said is not without reason.”

it’s fine,”green spirit said. don’t be in such a hurry.

“Hu ~~ Hu ~ Hu ~”

Ma Lin took a deep breath and nodded. alright.

obviously.

Ma Lin and green spirit didn’t know that Jiang Li had sent Air Force No. 1 and they were ready to attack them.

“Enemy discovered.”

“bomber units, get ready.”

“Attack immediately!”

BOOM! boom! BOOM!

The next moment.

In the air.

250,000 light bombers were the first to appear. They hovered above the bright moon Demon Army and dropped one 'bomb' after another.

It was like putting dumplings into a pot.

It was overwhelming.

It landed on the bright moon Demon Army below.

“enemy attack!”

“There are enemies!”

“What’s that?”

“Be careful!”

Instantly.

It was only then that the airborne demon soldiers of the bright moon Demon Kingdom discovered the enemy. Just as they were about to counterattack, the 'bomb' had already landed and exploded.

“Rumble!”

The sound of the explosion reverberated in all directions.

The sky was filled with flames and smoke.

“ah!”

Pfft! Pfft! Pfft!

The aerial demon soldiers of the bright moon Demon Kingdom suffered heavy losses. More than half of them were killed by the 250000 'bombing shells', and their charred bodies fell to the ground.

At the same time.

There were also some cannonballs that exploded on the ground.

"It's this 'iron bird' again,"

Ma Lin raised his head and looked. He reacted and shouted, it's great Xia's Army. Get into formation immediately. All stage-three demons, gather and prepare to counterattack.

"Kill!"

"boom!"

As soon as he finished speaking.

Ma Lin was the first to attack. He leaped up with a long spear in his hand. He conjured his Qilin horse and charged straight at the light bomber that was circling in the air and dropping bombs continuously.

BOOM!

Ts01 took action and conjured a heavy sniper cannon. He aimed it directly at Ma Lin and fired a shot, forcing Ma Lin to retreat.

Bang!

Ma Lin thrust his spear forward and blocked the energy Cannon's attack.

“You again!”

Ma Lin naturally recognized the TS01 at a glance. His eyes were cold as he shouted, “It’s indeed the great Xia Army. There are actually so many strange aerial soldiers.”

In the surroundings.

The fighter meches and the bomber meches formed a huge fleet. They kept circling the bright moon Demon soldiers and dropping shells.

Chapter 333 Breathing out

“roar!”

At this moment.

Under the orders of the demon soldier commanders, the millions of demon soldiers quickly formed into a battle formation. Three Grade 3 battle formations appeared.

Three battle-type beasts had manifested.

They were like wolves and tigers.

Every one of them was a thousand meters long.

BOOM! BOOM! BOOM!

The beasts in the military formation pounced and blocked the bombardment of the cannonballs. The sky was filled with flames and explosions. The sound of the explosion shook the surroundings, and waves of shock waves spread out.

“Kill!”

Shua! shua!

It could be seen.

Many level-three demons rose into the air and flew. Their bloodlines manifested, and the power of their bloodlines surged. With the support of the military formation, their strength increased greatly.

They attacked the bombers and fighter jets hovering in the air.

One had to know.

The bombers and fighter jets circled in the air a thousand meters above the ground. The attacks of the demon soldiers, including the sharp arrows and giant crossbow arrows, could not hit the mech soldiers even with the blessing of the bloodline.

In other words ...

The demon soldiers could only passively take the beating.

Of course.

When the level-two demons injected their bloodline power into the giant bow, they could also unleash extremely powerful attacks. They had never threatened the mech soldiers.

but ...

The number of level-two demons was too few.

Most of them were only unranked and Level 1 demon weapons.

energy Angel.

Buzzzzzz!

No. TS01 released its skill, and energy wings appeared. The weapon in its hand had already been changed to the energy Angel's sword, and its combat power increased greatly. It fought fiercely with Ma Lin in the air.

"Ma Lin, let me help you!"

shua!

Green spirit shouted. His figure rose into the air. His huge green whip was like a green python, attacking towards TS01. The air was cracked.

"Dragon's breath!"

"Roar!"

The 1,000 perfected stage three mechanical dragon cavalymen roared, and from the steel Dragon's bloody mouth, they spat out a pillar of energy that burned like a flame.

"Rumble!"

The sound of an explosion rang out.

Green Spirit's attack was stopped.

"Tier 3 perfection!"

Green Spirit's pupils shrank and he looked at the list in horror, " and it's 1000!

However ...

This was just the beginning.

BOOM! BOOM! BOOM!

10 perfected-stage type 4 mechanical giant soldiers moved out, directly jumping down from the transport aircraft. They revealed their huge mechanical bodies, reaching a height of nine meters.

Huge pits were created.

“What is this?”

Green spirit looked on.

launch the missiles!

The 10 mech giant soldiers at the perfected stage of the type 4 realm fired 10 ‘small energy missiles’ at the bright moon Demon Army, shooting across the void.

“Not good.”

Green spirit was shocked and realized that they were going to destroy the formation.

Shua!

Her figure strode across like a flood Dragon. Her huge whip was like a mountain range, falling from the sky, but it could only intercept one ‘small Energy Missile’.

there was a loud ‘boom’.

the ‘small energy missile’ exploded, and green spirit was blown away.

Tier 4 Suan ni perfected stage!!!

Green spirit said in horror.

...

“What?”

Ma Lin heard it and lowered his head.

“BOOM!”

the 9 small energy missiles exploded within the army, easily destroying the 3 battle formations, and the battle beasts exploded into light spots.

“Ah!”

The demon soldiers shrieked in pain.

Nine huge mushroom clouds rose from the ground, and the earth cracked open, creating nine huge pits. Cracks spread in all directions.

“Dragon’s breath!”

“Roar!”

the next moment.

The stage 3 battle formation was destroyed, and the demon soldiers lost their ability to defend. The 100000 Stage 3 mechanical dragon cavalrymen aimed at the demon soldiers below.

...

A total of 100000!

A huge Dragon cavalry force.

It spat out a pillar of energy that burned like flames, covering a large area of the battlefield. The demon soldiers were burned to ashes by the dragon's breath.

Not even a corpse was left behind.

Da da da da

the fighter aircraft's autocannons fired wildly. the bullets contained extremely powerful kinetic energy and power, and they could penetrate boulders and steel.

At the same time.

The bombs fell like dumplings and exploded on the ground. A large number of demon soldiers were sent flying, their bodies mutilated.

Pfft! Pfft! "Pfft!"

Blood and flesh flew everywhere.

"mechanical wing storm!"

"Whoosh!!!"

Shua! Shua! Shua!

The mechanical wing's aerial troops descended, and countless steel feathers formed a vast tornado storm that swept across the battlefield and reaped the lives of the demon soldiers.

Immediately after.

The glider Air Force, lightweight armored Air Force, biochemical Air Force, and electric mechanical air Force, the four types of mechanical air Force troops, appeared one after another.

It could be seen.

Under the feet of the glider soldiers were two-winged 'gliders'. The meches flew in the air by stepping on the 'gliders' and were equipped with automatic rifles.

The 'glider' could also fire bullets.

Da da da da

the rifle fired.

Killing inferior demon soldiers.

the air force was equipped with lightweight armor. the sky-blue armor covered his entire body, and he could shoot out flames from his back to fly in the air.

Their weapons were also firearms.

They could also fight in close combat in the air.

The biochemical air soldier was different. Its talent was 'biochemical machinery'. It had a pair of biochemical flesh wings and the 'biochemical poison' skill, which could be transformed into a walking corpse.

Furthermore ...

The transformed 'walking puppet' could grow 'biochemical flesh wings' and have the ability to fly.

The biochemical air soldier did not have any long-range attack means, and it mainly fought in close combat in the air.

The electric-powered mech paratroopers were similar to the electric-powered mech. They had the skill of using electricity, but they were equipped with 'mechanical parachutes' and could be dropped in the air.

In other words ...

The electric mechanical paratroopers could follow the Air Force Legion and then carry out high-altitude fixed-point drop, effectively carrying out fixed-point killing, with extremely high mobility.

For example.

in the siege battle.

The transport aircraft would fly above the enemy's city, and then the electric mechanical paratroopers would be released into the city at a fixed time. They would attack from the inside and cooperate with the outside, easily taking down the city.

The different types of troops would have different effects.

They had to change the battle plan according to the situation and changes on the battlefield.

However ...

There was no need to worry about such things when dealing with the four million bright moon Demon soldiers, as Air Force Battalion one had already crushed the other party.

Generally speaking.

It was only when the strength of the two armies was evenly matched that a detailed battle plan was needed. If the difference in strength was too great, they could just crush it.

” surround and kill those two demon generals at the perfected stage of tier 4. ”

boom! BOOM! BOOM!

At this moment.

The ten perfected-stage type four mechanical giant soldiers worked together with the TS01 and attacked Ma Lin and green spirit at the same time. They surrounded them and bombarded them with energy cannonballs.

Shua!

Ma Lin and green spirit rose into the sky at an extreme speed. The two of them worked together and were extremely fast. They dodged the crazy bombardment of the mechanical giant soldiers and a large number of energy cannonballs.

Obviously.

Although the mechanical giant soldiers were powerful and had terrifying area-of-effect damage, they did not have the ability to fly and were less mobile. Thus, they were restricted by Ma Lin and green spirit.

Fortunately, there was no. Ts01, which made it difficult for Ma Lin and green spirit to escape.

Otherwise ...

Ma Lin and green spirit had already run away.

“Dammit! you should die!”

Ma Lin’s face was gloomy and his heart was heavy. He looked around the battlefield and saw that the demon Army of more than four million soldiers could not hold on much longer.

“What do we do now?”

Green spirit looked at the ten huge figures on the ground. They were not human at all. They were more like powerful puppets made with the art of traps and puppet techniques.

however ...

These puppets were too powerful, and their attacks were impossible to defend against.

“Think of a way to escape.”

Ma Lin took a deep breath. we have gained a lot from this test. However, we did not expect that the great Xia Dynasty’s strength would be so terrifying and that they would have such an aerial Army.

“the threat is too great.”

you must know that among the dynasties below the Imperial dynasty, humans, monsters, and barbarians, only we monsters can form an aerial demon Army. However, the great Xia Dynasty has formed an aerial Army with extremely powerful combat abilities.

“This is something I’ve never encountered before.”

we must escape and report this to His Majesty. The great Xia Dynasty is a huge threat and we can not underestimate them. We must find a way to eliminate them.

“But, Yingluo, how are we going to escape?”

Green Spirit’s heart sank.

I’ll burn my bloodline and block the enemy’s attack. You can take the chance to escape.

Ma Lin said.

“this bi an ...”

Green spirit was stunned.

there’s no time. If the demon Army is destroyed, we’ll be surrounded by the Army. We won’t have any chance then.

Ma Lin roared.

“Bloodline ignition!”

Buzzzzzz!

As soon as he finished speaking.

Ma Lin immediately exploded.

The Lin horse appeared.

his entire body was burning with purple-green bloodline flames. the flames were extremely strong and the lin horse's body grew bigger.

it was as if an ancient beast had appeared.

“Kill!”

Ma Lin roared and attacked the TS01.

“Whoosh!”

The long spear was like lightning as it pierced through.

“All-rounded release!”

Clang!

The energy wings of the TS01 expanded and a huge energy sword pillar that was a thousand meters long slashed down, colliding with Ma Lin's spear.

There was a huge explosion, and a series of energy storms swept out.

“break!”

kachaa! Kachaa!

break! Ma Lin roared loudly as his aura skyrocketed. The energy sword pillar shattered.

Bang!

The impact sent TS01 flying. The Spear's radiance pierced through TS01's chest and sent him flying for over 10000 meters, smashing a huge pit on the ground.

“Let’s go!”

Ma Lin roared.

“Take care!”

Shua!

Green spirit gritted his teeth and ran away quickly.

BOOM! BOOM! BOOM!

The 10 perfected-stage type 4 mechanical giant soldiers fired 10 small energy missiles at Ma Lin and green spirit, who was trying to escape.

“I’m your opponent!”

wuwuwuwuwu!

Ma Lin released all of his power. His bloodline flame surged. He didn’t care anymore and went all out. The Lin horse appeared and pounced at the ten small energy missiles.

he was actually trying to stop all the small energy missiles.

“Rumble!”

The small Energy Missile exploded, bombarding the body of the ancient beast-like Qilin horse. The sky was filled with energy flames.

Kachaa! Kachaa!

Bang!

Like an ancient beast, the unicorn horse was blown to pieces by the ten small energy missiles. A violent storm swept in all directions, shaking the spirit Qi of heaven and earth.

It created a spirit Qi storm.

“Ah!”

Ma Lin screamed and vomited blood. His blood vessel Dharma laksana was destroyed. He was seriously injured and fell from the sky. But he saw that green spirit had left the battlefield.

A smile appeared on his face.

“ma lin!”

Green spirit looked back.

“Dragon’s breath!”

Ma Lin’s joy did not last long. The 100000 type 3 mechanical dragon cavalymen and 1000 perfected type 3 mechanical dragon cavalymen left the battlefield and used their long range breathing techniques.

An earth-shattering sea of energy flames surged forth.

It covered the entire area.

Shua!

At the same time.

At the same time, TS01 had completely recovered. Like an extreme stream of light, it crossed the void and chased after green spirit.

Chapter 334 dropped

“He’s the one who’s crying!”

Ma Lin’s eyes widened as he stared at the flying TS01 in the air. He had a dumbstruck expression on his face. impossible. He was clearly severely injured by me just now. How could he have recovered so quickly? ”

One had to know.

ma lin had personally pierced his spear through the other party’s chest.

Such heavy injuries.

Even if he took a miraculous elixir, it was impossible for him to fully recover without at least half a month.

however ...

it had only been a few seconds.

He had already recovered to his peak condition, as if he had never been injured.

Ma Lin was extremely shocked.

“green spirit! Be careful!”

Ma Lin reminded loudly.

BOOM!

At this moment.

Immediately, a perfected-stage type 4 mechanical giant soldier leaped over and appeared in front of Ma Lin. Its huge black steel fist carried a terrifying kinetic energy as it smashed directly towards Ma Lin's head.

The sound of air exploding was heard.

“!!!”

Ma Lin's pupils contracted.

“Ma Lin!”

Green spirit shouted.

Ma Lin wanted to use his bloodline power to counterattack, but he realized that the bloodline power in his body had been exhausted. He had tried in vain to stop the ten small energy missiles. Although he had indeed stopped them, his bloodline Dharma had been destroyed.

He had exhausted all his strength.

“Pfft!”

Bang!

The ground collapsed from this Iron Fist of the mechanical giant soldier. It trembled intensely, and many cracks spread out.

After the mechanical giant soldier retracted its Iron Fist.

It was a huge pit with a diameter of ten meters.

inside the pit.

Ma Lin was already dead. His headless body lay inside. His head had been smashed into a bloody mess of meat paste, mixed with the mud.

He couldn't tell.

He was killed with a single punch.

“Whoosh!!!”

Suddenly.

A pure golden radiance emerged from the corpse and gathered together, forming a pure golden spot of light. It appeared like a Firefly and then disappeared into thin air.

This was a level-four soul Tinder!

Jiang Li's eyes lit up.

It was captured by the mech.

Shua!

[ acquired a Tier 4 soul Tinder! ]

A notification appeared.

this Ma Lin actually dropped a fourth-rank soul Tinder.

Jiang Li was overjoyed.

Speaking of this.

Jiang Li's meches had killed many level-four meches, so it was reasonable that a level-four soul Tinder dropped.

“Bloodline ignition!”

At this moment.

Ma Lin's death drove green spirit crazy, and she had fallen into a siege.

He was surrounded by 100000 type 3 mech Dragon Riders, 1000 peak-stage type 3 mech Dragon Riders, and the pursuing TS01.

A crisis had arrived.

“Roar!”

The green python appeared, and green flames covered her entire body. She used all her strength, and her whip swept in all directions, sending thousands of Stage 3 mechanical dragon Riders flying.

Bang Bang Bang Bang!

Explosions sounded one after another.

...

The sea of fire formed by the dragon's breath was blocked.

Clang!

The next moment.

Ts01 had already charged over, and the sword ray slashed down.

Bang!

Green spirit struck out a palm and shattered the sword light. His body became one with the green python, almost penetrating the battlefield. The stage three mechanical dragon cavalry was not even a match for him.

It could even kill a type 3 mech Dragon cavalry.

After all, green spirit was at the perfected stage of the fourth rank and he was even burning his bloodline to fight for his life.

A Stage 3 mechanical dragon cavalry was at most equivalent to an early stage stage 3.

The difference was too great.

BOOM! BOOM! BOOM!

...

The mechanical giant soldiers charged over, forming a siege.

Desperately!

Green spirit was going all out.

she knew.

He could no longer escape.

Since that was the case ...

then, he would drag a few more down with him before he died. that was also a profit.

However ...

10 perfected-stage type 4 mechanical giant soldiers joined forces with the TS01, in addition to the 1000 perfected-stage type 3 mechanical dragon Riders and 100000 other type 3 mechanical dragon Riders.

Green spirit was just struggling in his death.

If it wasn't for the fact that the mechanical giant soldier couldn't fly and its mobility was too low, green spirit and Ma Lin would have been surrounded and killed long ago. They wouldn't have been able to hold on until now.

Obviously.

Although the mechanical giant soldiers were powerful and had extremely powerful area of effect damage, which was enough to affect the victory of a war, they were still somewhat inadequate when dealing with high-level powerhouses.

However ...

It was already powerful enough.

“Ah!”

Pfff!

green spirit screamed. she was hit by the ‘small energy missile’ of the mechanical giant soldier. she screamed again and again. the missile exploded, and her body was blown away.

He was seriously injured.

BOOM! boom! boom!

one after another, the missiles bombarded green spirit’s giant green python bloodline dharma laksana. it exploded completely, turning into light spots and dissipating.

“All-rounded release!”

Finally.

TS01 attacked with all his might. A thousand-meter long energy sword pillar slashed down, cutting green spirit into two halves and leaving a huge Gully on the ground.

He was dead.

“General Ma Lin and general Qing Ling are both dead. They’re both dead, Zhenzhen!”

run!!!

The demon Army’s morale collapsed.

The stage 3 demon commanders had already been killed by the stage 3 mechanical dragon cavalry. Only some Stage 2 demons and Stage 1 demons were left.

Most of them were low-level demon soldiers.

The demon soldiers fled in all directions.

The No. 1 Air Force Legion had formed an encirclement.

He couldn't escape.

It could be said that ...

With the fall of the two perfected stage Tier 4 demons of the spirit Moon Demon Kingdom, the first battle of the Air Force Battalion No. 1 had come to an end, and the bright moon Demon soldier Legion was on the verge of destruction.

half an hour later.

The war was over.

Air Force No. 1 won a big victory.

The four million soldiers of the bright moon Yao Kingdom were completely annihilated. The entire Army was annihilated, and not a single one of them survived. Not a single demon soldier managed to escape. They were all killed and turned into corpses.

They were piled up on the plain.

The smell of blood was extremely strong.

He looked around.

The ground was full of charred corpses.

Clean up the battlefield. Air Force No. 1 is ready to return.

Jiang Li said.

“Yes.”

The commander replied.

Shua!

the communication was disconnected.

The holographic projection disappeared.

Air Force No. 1's combat power is indeed very strong, and it did not disappoint me. It also has the advantage in the air. If the mechanical air Force Army is combined with the mechanical Land Army, I believe that the two will be able to unleash an even stronger combat ability.

Jiang Li recalled the battle between Air Force No. 1 and the bright moon Demon troop. the flaws of the mechanical giant soldiers have also been revealed.

against a type 4 powerhouse, due to the inability to fly and the lack of mobility, it's difficult to deal effective damage. It's not as good as the TS01.

“You need to take note of this.”

of course, the advantages of the mechanical giant soldiers are also quite obvious. Their area of effect is extremely powerful, and they can form extremely effective bombarding effects. This is especially so for the 'small energy missiles'. They are extremely powerful and can easily destroy a Stage 3 army formation, causing terrifying destructive power.”

Shua!

The Dominator panel opened.

He clicked on the soul Tinder.

The horizontal Army had completely annihilated the red eyebrows Yao nation's Yao Army and the panic Yao Army. They had killed nearly seven million Yao soldiers in total. In addition, Air Force No. 1 had annihilated four million bright moon Yao soldiers.

In other words ...

nearly eleven million demon soldiers died in jiang li's mech army.

This was a huge number.

It could be said that ...

If so many corpses were to be piled together, they would form a mountain of corpses.

This time.

Soul Fire seed. Jiang Li naturally got a lot of Soul Fire Seeds.

soul Tinder: 309200 level-one soul Tinder, 14300 level-two soul Tinder, 100 level-three soul Tinder, 10 level-three Demon Soul Tinder, 2 level-four soul Tinder, and 1 level-five Demon Soul Tinder fragment.

“One-click fusion.”

Shua!

The fusion interface appeared.

Jiang Li fused all 309200 level-one soul Tinders. The fusion interface was covered in light, and then a series of notifications popped up.

Finally.

The fusion was complete.

[ prompt: a total of 30920 fusions, 10300 successes, and 20620 failures. You have obtained 10300 stage-two soul Tinders. ]

“Continue.”

Buzzzzzz!

Jiang Li then merged all 24600 level-two soul Tinders and used the ‘one-button Fusion’ function. A series of notifications appeared on the interface.

[ prompt: a total of 2460 fusions, 410 successes, and 2050 failures. You have obtained 410 stage-three soul Tinder. ]

As a result ...

The number of stage-three soul Tinders had reached 510.

“Five hundred and ten.”

that’s a lot. If I merge all of them, I can merge them fifty-one times. If I’m lucky, I can get six or seven level-four soul Tinders.

however, for the time being, the Tier 4 mechanical Army has already been unlocked, and the mechanical giant soldiers are enough for now.

“I should unlock the level 3 Air Force first.”

besides, unlocking all the level-three Air Force units doesn’t require many level-three soul Tinders. This is a sure-win thing.

Shua!

The mech Air Force's military type interface appeared.

unlocking all Level 3 mech Air Force units.

Jiang Li confirmed.

Shua!

[ exoskeleton armors aerial soldier has been successfully unlocked. Mechanical destructive bomber soldier has been successfully unlocked. Stealth fighter soldier has been successfully unlocked. Mechanical aerial battleship soldier has been successfully unlocked. ]

A notification appeared.

Among them.

Four level-three soul Tinders were used to unlock the 'exoskeleton armored aerial soldier', and eight were used to unlock the 'mechanical exterminator bomber soldier'.

he used 16 to unlock the 'stealth fighter soldier' and 32 to unlock the 'mechanical aviation warship soldier'.

In total, he had only used 60 level-three soul Tinders.

[ prompt: congratulations, Lord. You have fully unlocked the level three mech Air Force and obtained the right to activate the level four mech Air Force. Please gather 'nine level four soul Tinders' and 'ten billion energy points' as soon as possible to open the level four mech Air Force interface. ]

a notification popped up.

“Level 4 Air Force.”

okay. Jiang Li nodded in satisfaction.

The ground forces had the disadvantage of being unable to fly, so they naturally needed the Air Force to make up for it. Jiang Li fully unlocked the level three mech Air Force because he wanted to gain the right to unlock the level four mech Air Force.

At that time.

the level 4 air force and level 4 land force cooperated.

that was truly powerful.

fuse the third-stage soul Tinder.

jiang li continued to operate the fusion interface.

There were 450 level-three soul Tinders left, which could be fused 45 times.

A few minutes later.

Jiang Li merged all the level-three soul Tinders.

He had succeeded five times and failed forty times.

with five pure golden level-four soul tinders, plus the two he already had, jiang li now had seven level-four soul tinders in his hands.

One more to unlock the ‘energy destructive soldier’.

Or, if he gathered all nine of them, he could unlock the ‘stage four mechanical air Force’.

Whether it was unlocking the ‘energy destructive soldier’ or the ‘level four mech Air Force’, there was not much difference. It was just a matter of having one more level four soul Tinder.

### Chapter 335 Return

In the afternoon.

the horizontal army brought a huge amount of resources and resources back to the capital, and a number of transport planes landed outside the city.

Other than that.

He even brought back a large number of demons.

The number of demons had reached four million.

There were also the humans and barbarians who were originally enslaved by the red eyebrows Fey Kingdom.

“Divide!”

Buzzzzzz!

The Azure Dragon of the great Xia revealed itself. Its 1500-meter long body was like a mountain range as it coiled in the sky. Its head was lowered as it looked at the demons below.

Plop!

the four million demons trembled under the might of the dragon and knelt down.

In the surroundings.

The citizens of the imperial capital all stared in awe at the Azure Dragon in the air.

Shua! Shua! Shua!

He used the power of the nation's fate to create 4 million 'ordinary contract talismans' through the 'intermediate-level slave contract', turning these 4 million demons into the demon slaves of the great Xia Dynasty.

As a result ...

The slaves of the great Xia Dynasty, including monster slaves, barbarian slaves, half-monster slaves, barbarian slaves, and so on, added up to tens of millions.

One had to know.

after jiang li destroyed the red eyebrows shifter kingdom, he got another 'elementary slave contract'. the 'elementary slave contract 'of the red eyebrows shifter kingdom was divided into 500000' ordinary contract charms'.

Among them, there were two hundred thousand human slaves and three hundred thousand barbarian slaves.

'human slave' jiang li naturally returned to their normal identities, and the barbarian slaves were replaced by slaves.

thank you, Your Majesty Emperor Xia!

Jiang Li. the 200000 humans all knelt down and kowtowed to Jiang Li.

“Xu Ya, han Liqi,”

Jiang Li said.

“your majesty.”

“your subject is here.”

Xu Ya and han Liqi immediately moved forward.

the great Xia Dynasty has already taken down the black snake barbarian kingdom, the Cang lang Kingdom, and the red-browed demon Kingdom. Their territory has expanded by more than three times.

Jiang Li said.

Your Majesty, you are a God when it comes to commanding troops. It is as easy as taking down the Barbarian dynasty and the demon dynasty. I believe that the great Xia Dynasty will become an imperial dynasty one day.

Han Liqi immediately flattered.

In the surroundings.

The ministers were all shocked by Jiang Li’s words.

no wonder during this period of time, the Azure Dragon of the great Xia Dynasty has leveled up several times and has reached the height of 1500 meters. The fate of the country is extremely prosperous. It turns out that His Majesty, Emperor Xia, has already taken down three dynasties and devoured the fate of the three dynasties.

His Majesty Emperor Xia is too powerful.

I wonder what level His Majesty Emperor Xia's Army has reached.

The ministers discussed spiritedly.

in reality.

During this period of time.

hong tianqi and the others were also recruiting soldiers and buying horses. they had recruited nearly one million soldiers.

However ...

most of them were new recruits, and only a few of them were level one and level two.

If they were to send out such a small number of troops, most of them would probably die in a big battle.

Jiang Li knew that Hong Tianqi and the other officials of the Ministry of War were recruiting soldiers. Xu Ya had told Jiang Li about it. Without Jiang Li's permission, Hong Tianqi and the others wouldn't dare to do it.

Jiang Li's idea was simple.

If the human army was not weak, they would be a force that could be used. After all, the mech Army could not form a battle formation.

but the human army could.

At that time.

If the human army of great Xia could develop, it would become a force in Jiang Li's hands.

Even ...

If the human army of great Xia could be of great use, Jiang Li would reward the soldiers and generals of great Xia Dynasty with technological products such as ‘gene strengthening liquid’.

Loyalty was something that was slowly cultivated.

...

It was impossible to achieve it in one stroke.

a monarch.

He had to be good at grasping people’s hearts.

Of course.

Jiang Li’s base was still the Super mechanical Army. The most important thing was to develop and strengthen the Super mechanical Army, so he wouldn’t spend too much time on the human army.

the army of human soldiers.

He would use it if he could.

It was fine if it couldn’t be used.

the territory of the three dynasties is vast. Since the dynasties have been destroyed, most of the demons and barbarians have fled to other demon and barbarian dynasties.

so, ” Jiang Li continued, ” the territories of the three dynasties are in a state of wasteland.

I’ll give you a mission now. That is to gradually move the citizens of the great Xia Dynasty to the territories of the three great dynasties.

...

at the same time, bring the tens of millions of slaves from the great Xia Dynasty to the three dynasties to cultivate the medicinal fields and plant the spiritual herbs and medicinal herbs on a large scale.

“The labor force of tens of millions of slaves can not be wasted.”

“This bi an ...”

Han Liqi was taken aback. Your Majesty, I’m afraid that this matter of migration will not be easy to handle. After all, we are not familiar with the territories of the three great dynasties.

moreover, most of the people are unwilling to leave their homes.

I’m afraid it will take a long time to complete this. Moreover, the great Xia Dynasty is vast and sparsely populated. If we migrate to the territory of the other three dynasties, there will be even fewer people.

“We have to do it even if it’s not easy.”

what? ” Jiang Li said in a deep voice, ” are we just going to let those places be abandoned? ” If you can’t even handle such a small matter, what use are you?”

“Yes.”

Han Liqi sighed and did not dare to say anything more. He could only think of a way.

In fact.

In the end.

it was still a matter of population.

The population of the great Xia Dynasty was not large to begin with. If the population was large and the population was too dense, there would naturally be people willing to migrate to new places.

Soon after.

xu ya ordered the 4 million demonic slaves to move the spoils of war brought back by the horizontal army into the imperial capital of great xia, into the national treasury.

Of course.

The medicinal herbs, spirit herbs, and spirit crystals were personally transported into the Army base by the meches.

In the evening.

The herbs, spiritual crystals, and other resources that the horizontal Army had plundered from the red eyebrows Yao Kingdom were all moved to the open space in the Army base.

At the same time.

the 1st air force corps had also returned to the imperial capital of the grand xia by nightfall.

they also brought back the spoils of war.

Most of the spoils were armors, weapons, and broken meches, which could be used to make steel. They also brought back some level three demons 'bodies, as well as Ma Lin and green Spirit's bodies, which could be used for' research'.

The bodies were placed in the Research Center.

“Convert!”

“Whoosh!!!”

Jiang Li converted all the resources in the open space of the Army base. White light flashed in front of his eyes. In an instant, the herbs, spirit herbs, and spirit crystals disappeared.

They were converted into energy points.

conversion successful. 1.1 billion energy points obtained!

.....

” conversion successful. 900 million energy points obtained! ”

.....

In front of him.

A series of notifications flashed past.

Finally.

All the resources had been converted.

Jiang Li got 10.78 billion and four thousand energy points in total. He got more than ten billion energy points, which greatly replenished his energy points.

another ten billion energy points have entered my account.

Jiang Li was in a good mood.

my Lord, there's a new research result on the second floor of the Research Center.

Hidden Dragon warned.

“The second level.”

As soon as Jiang Li walked into the room, Hidden Dragon showed up and reported the progress of the Research Center to Jiang Li. that should be a level-two thermal weapon.

“Yes, I am.”

Hidden Dragon nodded.

are there no new research results on the first level? ”

jiang li asked.

“no, i didn't,”

” yes. ” hidden dragon replied, ” because there are only the most ordinary mechanical research and equipment centers and ordinary mechanical research soldiers, we can only research ‘gene strengthening liquid’ and ‘thermal weapon design’. ”

that's because the Stage 1 thermal weapon design research has reached a bottleneck. It's very difficult to produce new research results. In fact, it's possible that there won't be any new research results before new research units appear.

"I know."

okay. Jiang Li nodded. display the research results of the Research Center.

Shua!

An image appeared on the hidden Dragon's projection.

[ facility: Research Center ]

[ Research Unit type: Yingluo (omitted) ]

[ current scientific research results-Level 1: [ (omitted) ]

[ current scientific research results-Tier 2: Tier 2 gene strengthening fluid (manufacturing price: 10,000 energy points for one), Stage 2 thermal weapon design drawing-single bazooka (manufacturing price: 100 pounds of steel material, 10000 energy points) ]

"It's actually a bazooka!"

make a bazooka, " Jiang Li ordered. make a bazooka.

"Yes."

Hidden Dragon replied.

The manufacturing of the bazooka was naturally not done at the Research Center. Instead, the technology provided by the Research Center would be manufactured at the mech factory.

It was being manufactured on the second floor of the mech factory.

Ten seconds later.

The production was completed.

Buzzzzzz!

Spatial teleportation.

the bazooka was teleported to the room in the control hub and appeared in front of jiang li out of thin air. it floated in the air and jiang li took it.

It was black in color.

A cylindrical body.

The rocket launcher was made up of two parts, the launcher and the Cannonball. The launcher had an aiming device and firing structure.

However ...

The rocket developed by the Research Center was an 'energy rocket', which could absorb the free energy in the air and gather it into an 'energy rocket'.

Generally speaking.

One could be formed in ten seconds.

launch and attack.

It was even more powerful than armor-piercing and armor-piercing bullets.

The bazooka in Jiang Li's hand had a total length of 1290mm, a caliber of 112mm, and a mass of five kilograms. It was equipped with an 'energy rocket' with a diameter of 112mm, a length of 925mm, a mass of 4.5kg, and an initial speed of 300 meters per second.

its maximum range was 2500 meters.

[ research product: stage two thermal weapon-single bazooka ]

[ rank: rank two ]

[ effect: energy rocket, stage two firearm mastery ]

[ origin: army base No. 1-the second floor of the Research Center, the second floor of the mech factory ]

jiang li checked the message.

at the same time.

As soon as Jiang Li took the bazooka, the information about the level-two firearms appeared in his mind. He had mastered level-two firearms proficiency.

It could fully display the power of a 'single bazooka'.

"Let's try."

Jiang Li was interested. He carried the bazooka and was ready to test the power of the bazooka.

"Chief sovereign."

QX01 walked over and reported to Jiang Li, ” the No. 1 air reconnaissance unit has sent important news from the front line. They have discovered the reason why the great Wei imperial court is recruiting the prefecture capital’s Army.

“Connect immediately.”

Jiang Li put down the bazooka in his hand.

Chapter 336

“Yes.”

QX01 nodded.

let’s go. they contacted Air Scout unit one as Jiang Li ordered.

Buzzzzzz!

The holographic camera immediately projected a holographic image in front of Jiang Li, forming a clear projection. On the image was zh10.

“Chief sovereign.”

Zh10 saluted.

“yes.”

yes. Jiang Li nodded and said, report.

“Yes.”

reporting to my Lord, ” zh10 said. the first air Scout team has already entered the great Wei imperial court’s territory and discovered traces of the ‘barbarian Army’ and ‘demon Army’.

so, I guess that the reason why the Wei imperial court recruited all the troops in the country’s counties is most likely because the Wei Dynasty was invaded by the ‘barbarian’ and ‘demon’ at the same time.

“Oh.”

Jiang Li pondered.

if that’s the case, the news of King Wei’s seclusion has been leaked. Those demon dynasties and barbarian dynasties are afraid that King Wei might break through to the early stage of level five, so they attacked the great Wei Dynasty.

Jiang Li said.

“It’s very possible.”

after all, if King Wei breaks through to early-stage Tier 5, he’ll be too much of a threat, ” said zh10. it’s fine if it’s a human dynasty. At most, they can submit and offer the country’s fortune and resources to the great Wei Dynasty every year.

” however, it’s a huge crisis for the barbarian and demon dynasties. ”

can you confirm which barbarian dynasty and demon dynasty it is? ”

Jiang Li asked.

“I can’t be sure at the moment.”

Zh10 replied.

“Alright,” he said.

okay. Jiang Li nodded and said, ” keep an eye on them. Find out the identity and background of the Barbarian Army and the monster army that invaded the Wei Dynasty.

then, report the situation in the Wei Dynasty’s battlefield in real-time.

“Yes.”

Zh10 nodded.

Shua!

the communication was shut down.

Soon after.

okay. Jiang Li contacted air reconnaissance team No. 3. The lion barbarian kingdom didn’t make any moves. They hid in their territory and didn’t send a single soldier.

“the heavenly lion turtle is hiding.”

I see. Jiang Li pondered. in that case, let’s send troops to the panicking demon dynasty first.

One had to know.

Jiang Li’s dominating Army and air Force number one had all returned to the base.

but ...

The total number of air and land mechs still exceeded ten million, enough to form a powerful mech Army.

so,

Jiang Li didn't replenish his losses this time.

create 100 mechanical giant soldiers.

Jiang Li controlled the Dominator panel.

It consumed one billion energy points.

Shua!

The manufacturing interface appeared.

“Whoosh!!!”

An illusory figure appeared on the interface, spinning on its own. Countless light spots filled the surroundings, and the illusory figure gradually solidified.

A minute later.

[ creation complete! ]

Shua! Shua! “Whoosh!”

on the empty ground of the army base.

Out of thin air, the silhouettes of a hundred mechanical giant soldiers appeared.

“Chief sovereign.”

...

Jiang Li! the hundred mechanical giant soldiers saluted Jiang Li and said in unison.

“Yes.”

” yes. ” jiang li nodded and waved his right hand. ” all of you. ”

Shua! shua!

A white light flashed.

A few seconds later.

The promotion was completed.

The 100 mechanical giant soldiers had all been upgraded to the perfected stage of Tier 4.

The upgrade this time had consumed 14 billion energy points.

In other words ...

In order to make 100 complete-stage giant mechas, Jiang Li not only used up the ten billion energy points he got from the red-browed demon Kingdom, but he also used up more than half of the remaining energy points.

...

He had used up close to 90% of his energy points.

As a result ...

Jiang Li now had 120 perfected-stage level-four mechanical giant soldiers and 100 level-four giant soldiers.

There weren't many energy points left, so Jiang Li didn't make more meches. Instead, he saved the remaining energy points to cope with the consumption of the war.

After all ...

Replenishing ammunition and repairing the meches required a large amount of energy points.

In the past.

When the number of meches was small, it didn't consume many energy points, but now that Jiang Li's meches had reached ten million, it would take ten million energy points to repair all of them.

After a battle.

at the very least, it had to be repaired.

The number of times they had to replenish their ammunition was even more.

The energy points consumed were also a huge number.

The night came.

The moon was bright.

However, the Army base was not peaceful.

“Rumble!”

This was because large military transport planes were constantly taking off and flying into the sky, forming a huge fleet that covered the sky.

20,000 transport mech soldiers.

They all rose into the air.

at the same time.

There were also bombing meches, fighter meches, and mech Dragon cavalrymen. They formed an Air Force and left with the large military transport plane.

This time.

let's go! Jiang Li mobilized almost all his troops.

In the Army base.

Jiang Li only left ten perfected-stage giant meches and ynjs01, one million level-one meches, five hundred thousand level-two meches, and one hundred thousand level-three meches.

And QX01, which was used for communication.

Other than that.

all the meches.

This included MYL01, TS 01,110 perfected-stage type 4 mechanical giant soldiers, and 100 initial-stage type 4 mechanical giant soldiers.

There were thousands of perfected-stage level three meches, hundreds of thousands of level three meches, millions of level two meches, and millions of level one meches.

The Air Force and ground forces were all dispatched.

They formed a mech Army of ten million soldiers.

Jiang Li named the Army of meches ” The destructive Army meant that this Army on land and in the air had extremely terrifying combat ability.

He was able to destroy the panicking demon dynasty.

my Lord, isn't it too risky to use more than 90% of the meches this time? ”

Ynjs01 said.

“i won't,”

No. Jiang Li shook his head. the only dynasties around the great Xia Dynasty are the great Wei Dynasty, the lion barbarian kingdom, the panhuang Yao dynasty, the bright moon Yao Kingdom, and the Yongling dynasty.

currently, only the lion barbarian kingdom and the Wei Dynasty can pose a threat to the great Xia Dynasty.

Shi Qingtian is hiding in the kingdom. The Wei Dynasty is being invaded by the Barbarian Army and the demon Army. The war is endless, and it is difficult to protect itself.

“There's no time to worry about the Grand Xia Dynasty.”

” as for the ‘spirit moon demon kingdom’, the demon army they sent has been completely destroyed. it will take at least a few days to get the news. ”

” therefore, this is the best time to attack the ‘panicking demon dynasty’. with the national fate and strength of the ‘panicking demon dynasty’, we will certainly reap tremendous resources.

Obviously.

jiang li had thought it through.

Moreover ...

Jiang Li also left two million meches and ten perfected-stage level-four giant meches behind. Plus, Jiang Li was already at the perfected-stage level three. With the help of the ‘Azure Dragon imperial decree’, the sacred weapon of National aura, he could turn the power of the National aura into actual combat power.

Jiang Li could also use the power of a Tier 4 for a short time.

He walked out of the room.

” let’s go! ” jiang li carried the bazooka and fired at the empty space in front of him. the energy rocket flew out and exploded on the ground.

‘BOOM!’ There was a loud sound.

The fire lit up.

The steel-paved ground of the Army base was blasted into a medium-sized pit. The power of the single bazooka was indeed not bad.

It was equivalent to the full-powered attack of a 2nd rank expert.

“Not bad.”

okay. Jiang Li nodded.

speaking of this.

if the great xia human army could be of great use, they could equip the great xia human soldiers with these firearms to enhance the combat power of the army.

Of course.

He definitely couldn't do it now.

At the very least, he had to cultivate his loyalty first.

on the other side.

The spirit moon Fey Kingdom.

In the palace.

Ling Yue was in a Hall.

“Eh? The great Xia Dynasty's ranking has actually risen by one.”

Ling Yue's consciousness connected to the 'young dragon ranking-holy peace state', and she immediately discovered that the ranking of the great Xia Dynasty 'had changed. It had risen to the 70th place.

he's already in the top 70. In other words, Jiang Li, the Emperor of Xia, has already obtained the first 'sacred weapon of National fate-imperial edict'.

“You've improved so quickly.”

“Could it be that they have taken down another dynasty?”

“Men, come.”

Ling Yue stood up and shouted.

Buzzzzzz!

“Your Majesty.”

A figure appeared out of thin air, as if walking out of the shadows.

Hidden guards!

This was a ‘secret force’ that Ling Yue had personally trained and established. The dark guard Legion. The weakest of those who could enter the dark guard Legion was at the perfected stage of stage one.

“Is there any news from Ma Lin and green spirit?”

Ling Yue asked.

“Your Majesty, there is no news at the moment.”

The hidden guard responded.

“Send a message to Ma Lin and green spirit immediately. Tell them to be careful of the great Xia Dynasty.”

Ling Yue said.

“Yes.”

The secret guard nodded and quietly retreated.

“Your Majesty.”

At this moment.

another hidden guard appeared.

“Speak,” he said.

ling yue said.

general wuchong Ling sent a report from the front line. The ‘battle expedition Army’ has already entered the Wei Dynasty and taken down a County city.

“At the same time, we’ve also discovered news of the ‘barbarian Army’. The Barbarian dynasty has also sent the’ barbarian Army ‘to attack the Wei Dynasty.”

“Very good,” he said.

Ling Yue nodded her head in satisfaction. Xing Jiuli isn’t a fool. He knows that we must attack the Wei Dynasty at this time and not let the Prince of Wei break through.

“Pass on my order. Have the ‘fifth level spirit’ increase their marching speed and directly attack the ‘capital of the great Wei’. Don’t waste precious time in the county city.”

“Yes.”

The secret guard accepted the order and retreated.

at this moment.

The capital of the great Wei.

The Barbarian Army of the Barbarian dynasty had invaded from the West of the Wei Dynasty and had already entered the territory of the Wei Dynasty. The demon Army of the spirit Moon Demon Kingdom was led by the fifth level spirit and had broken through the defense of the Wei Dynasty in the East from the Donglin Kingdom.

one had to know.

Donglin country was only a small country and was no match for the demon Army of ten million. They could only let the demon Army invade and did not dare to stop them.

In the National Guardian Pavilion.

Wei Lin, Wu changding, Feng chenzi, Wei Wuxian, and the other Pavilion elders were all gathered here.

the Barbarian Army of the Barbarian dynasty and the demon Army of the spirit Moon Demon Kingdom have already entered the territory. Two counties have been lost, and hundreds of thousands of human soldiers have been killed or injured.

This was the battle report from the front line.

“the armies of the various counties are already rushing towards the capital of the great wei kingdom.”

The Commander-in-Chief, mo Wuji, said, ” ” when the time comes, the army of the county city will be able to form an army of ten million. i will then lead the ‘general army of the county city’ to stop the demon army of the spirit moon demon kingdom. ”

” as for the barbarian army of the barbarian dynasty, i’ll leave it to the guardians of the state. ”

## Chapter 337

the Barbarian dynasty and the spirit Moon Demon Kingdom have chosen to attack at this time. It is obvious that they have already known that His Majesty is in seclusion.

“There must be a spy in the Imperial court.”

“of course, we are aware of this. we have to investigate the spy, but we can’t let the monster army and the barbarian army reach the capital of the great wei kingdom.”

“There can not be any mistakes in His Majesty’s seclusion!”

“.....”

All the pavilion elders said one after another.

“When the time comes, I’ll mobilize the Imperial Army!”

Wei Lin said in a deep voice.

“There’s also the elite army of great Wei.”

Wu changding said.

“The four National Guardian armies are on standby!”

The North general Wei Wuxian, the West General Chang Wuqi, the South general ke Jiming, and the East general Shang Qilin all shouted in unison.

On the other side.

The panicking demon dynasty.

the demon king palace.

” the king of wei went into seclusion in an attempt to break through to the fifth level. the spirit moon demon kingdom and the barbarian kingdom sent their troops to attack the great wei dynasty to stop the king of wei from breaking through. ”

Within the palace.

The ‘leader of the dark net’ of the panic Yao nation, Gui Ye, knelt on the ground and reported the situation to panic.

“There’s actually such a thing.”

what?! he stood up in a panic, a look of shock on his face. Prince Wei actually wants to break through to the fifth step. If he succeeds, it will be bad.

“It’s a pity that the panicking demon dynasty is too far away from the great Wei Dynasty, and they’re also separated by the great Xia Dynasty. Even if they want to send troops, they have no power.”

“Your Majesty, there’s another important matter.”

Gui Ye said.

“speak,” he said.

he said in a panic.

“The red-browed Yao Kingdom is destroyed.”

the demon Army led by general Yi Shang was completely annihilated, ” Gui Ye said in a deep voice. they were all killed. They were all annihilated by the great Xia Dynasty’s Army.

“What did you just say?”

he said in a panic.

Buzzzzzz!

The next moment.

He closed his eyes in a panic and immediately communicated with the ‘young dragon ranking-holy peace state’ with his consciousness. He discovered that the great Xia Dynasty’s ranking had once again risen, reaching the 70th place.

Furthermore ...

They could no longer find the red eyebrows Yao Kingdom in a panic.

In other words ...

There was only one possibility for the red eyebrows Yao Kingdom to disappear from the young dragon Roll.

That would be destruction!

Jiang Li!!!

His consciousness returned in a panic, and his face was filled with anger. He couldn’t help but clench his fists and shout, ” “How dare you destroy the red eyebrows Yao Kingdom!”

Your Majesty, I was worried that Jiang Li would attack the panicking demon dynasty.

He said.

“he doesn’t have the guts!”

He was in a panic but didn’t believe it.

“Your Majesty.”

last time, we invaded the great Xia Dynasty and lost more than a million demon soldiers, ” Qianqian reminded. in addition to the death of general Yi Shang, more than three million demon soldiers were wiped out.

” the panicking demon dynasty has lost a lot of soldiers. ”

Jiang Li might take the opportunity to send out troops. We have to be careful.

“Yes.”

He calmed down and mumbled to himself, Qianqian, you’re right. We have to be careful. We can’t let Jiang Li take advantage of us.

“Pass on my order. Let the commander of the air Demon Army, Yi Kongming, lead the air Demon Army and immediately head to Qilin County.”

Qilin County is a border County. If Jiang Li really wants to send troops, he’ll have to invade from Qilin County.

“Also, send an order to the entire country. Order all the county Kings to immediately mobilize the county Army and rush to the ‘capital of panic’ at the fastest speed. There can not be any delay.”

“Yes!”

...

Qianqian nodded respectfully. yes, your subordinate!

Immediately.

gui ye retreated and conveyed the order in a panic.

“Jiang Li.”

Huanhuang’s eyes were gloomy and filled with killing intent. He waved his right hand, and the ‘sacred weapon of National fate-purple dragon imperial edict’ appeared in his hand, emitting a faint light.

the great Xia Dynasty has taken down the black snake barbarian kingdom, the red eyebrows demon Kingdom, and the Cang lang Kingdom. Their National fortune has been promoted one after another, and they are now ranked seventieth.

“I think you’ve already obtained the first ‘sacred weapon of the nation-imperial decree’.”

“Hehe.”

hehe. he sneered. Jiang Li, if you really dare to send out your troops, I’ll definitely treat you well and annihilate your entire Army in the capital of panic!

Obviously.

In his heart, panicky had already made a plan.

...

He was going to mobilize all the troops of the demon dynasty and gather all the demon soldiers in the Commandery cities at the ‘capital of panic’. Then, he would pretend to be weak and let Jiang Li’s Army come to the capital of panic.

Finally.

A decisive battle in the capital of panic!

Annihilate the entire great Xia Army.

One had to know.

Other than spending time and energy to nurture it through the nation's fate, the 'National aura Saint weapon' could also devour and merge with the 'National aura Saint weapons' of other dynasties to improve.

They stared at the Green Dragon imperial edict in Jiang Li's hand.

It was a quiet night.

The next day arrived.

In the morning.

Jiang Li woke up.

Su Jue and su yanyue leaned against Jiang Li's arms. Jiang Li put his hands around their slim and soft waists. They were soft and smooth to the touch.

In reality.

Su Jue and su yanmo had already woken up, and their long eyelashes were trembling slightly.

She was pretending to be asleep.

Jiang Li smiled and didn't expose them. He just reached his hands further down.

The morning was a little absurd.

Jiang Li didn't indulge in the gentleness for too long. With the help of the maids, he washed up, had breakfast, and went to the Army base after morning court.

The contents of the morning court session were simple yet cumbersome.

It was mainly to listen to the reports of the various counties.

Han Liqi reported about the migration. The progress was slow and most of the people were not willing to move. Han Liqi could only send the slaves over.

However, during this period of time, as the great Xia Dynasty's fortune became more and more prosperous, the country was prosperous and the people were at peace. The weather was good, and the great power of the Fortune of the country affected the People's hearts. The implementation of the 'medicine Pavilion policy' had been implemented in almost all the counties, cities, and villages in the country.

A large number of medicinal fields had been cultivated.

at the same time.

The formation Masters were also running around, setting up one 'maturation-increasing formation' after another.

In the Army base.

The room in the ruler's hub.

"Chief sovereign."

QX01 and ynjs01 stood beside Jiang Li.

“yes.”

yes. Jiang Li nodded and asked, ” where’s the destruction Legion? ”

my Lord, the destruction Legion has already arrived at Wushuang County. They have also sent air reconnaissance troops into the territory of the panicking demon dynasty.

QX01 replied.

“Communication link.”

Jiang Li said.

“yes!”

qx01 nodded.

Buzzzzzz!

the holographic communication was connected.

“Whoosh!”

The projection screen spread out in front of Jiang Li. The first thing that came into view wasn’t Jiang Li’s army of destruction, but a huge Army of demon soldiers in the air.

“An Army of demon soldiers in the air!”

Jiang Li said.

“My Lord!”

Shua!

The scene changed.

” commander! ” commander myl01, ts01, and zh01 showed up and saluted jiang li.

“What’s the situation?”

Jiang Li asked.

my Lord, the panhuang demon dynasty is different from the other dynasties that attacked us in the past. Their military strength is far stronger than that of the red-browed demon Kingdom and the black snake barbarian kingdom. It’s very likely that they can form an Army of ten million demons.

the military killing aura of tens of millions of demon soldiers can be gathered together to form a ‘stage 4 army formation’. As for how strong a stage 4 army formation is, we are not sure yet.

” therefore, just in case, we sent out air reconnaissance troops to scout the enemy’s situation first in case of an ambush from the panicking demon dynasty.

“Grade 4 army formation.”

okay. Jiang Li nodded.

In reality.

The reason why Jiang Li created a hundred perfected-stage giant mechs and sent MYL01 out was that he even sent out almost all of the soldiers of the ‘destruction Legion’.

They were worried about the grade 4 army formation.

Although Jiang Li hadn't seen how powerful a 'level-four military formation' was, he knew that a level-three military formation could block a level-three attack and suppress it.

Then ...

a stage 4 army formation would be able to block a stage 4 attack, and it would have a terrifying suppression effect. as such, they had to send out enough soldiers.

Other than that.

There was also the 'sacred artifact of the nation'.

Jiang Li had received the 'Green Dragon imperial edict' and knew the power of the Imperial edict. It could turn the National fate into real combat power, allowing Jiang Li to display the combat power of a Tier 4.

One had to know.

Jiang Li had just received the 'Green Dragon imperial edict'.

It had been a long time since he had received the Imperial edict. Jiang Li couldn't predict how powerful it could be with the help of the fate of the country.

Fortunately ...

Jiang Li also had MY01 who had reached the early stage of level five.

although the aerial reconnaissance troops did not discover the ambush of the panicking demon dynasty, they did find this 'aerial demon Army'.

Zh01 continued, " this 'airborne demon Army' is patrolling the air territory of the border counties of the panicky demon dynasty. They are obviously a

reconnaissance unit. Their goal should be to watch out for the great Xia Army's invasion.

therefore, I plan to destroy this demon Army in the air as quickly as possible and with lightning speed. I don't want them to send the news back to the capital of panic.

"Alright!"

yes. Jiang Li nodded. let's do it.

"Yes!"

Zh01 replied.

Half an hour later.

qilin county.

The demon Army that Yi Kongming led.

This time.

The demon soldiers that were dispatched were the elite demon soldiers of the demon Army in the air. There were over a million of them, and they had been through hundreds of battles. They were well-equipped, well-disciplined, and had extremely strong combat abilities.

"I really don't know what His Majesty is thinking. Could it be that the great Xia Dynasty would really dare to send troops to attack the panicky demon dynasty? to be honest, i really don't believe it. "

Jiang Li wouldn't dare to do that even if he had a hundred guts.

we're elites, after all, but we can only do this kind of patrol mission. What a waste of time.

“.....”

the demon soldiers in the air were discussing spiritedly.

At noon.

It was time to gather.

The many demon troops in the air gathered together and began to report to Yi Kongming and the other commanders about the situation in the area they were in charge of this morning.

no human army detected in the air territory No. 1.

“There's no emergency situation in the No. 2 air territory.”

a group of 'demon bandits' was discovered attacking a demon village in the air territory No. 3, so I annihilated them.

“No. 4 Wuwu.”

time passed.

The demon troops in the air reported one by one.

“Reporting to the battlefield commander, the demon Army in the air has all gathered. There is no one left out.”

Not far away.

Jiang Li's Air Scouts had found out the situation of Yi Kongming's demon Army and sent the news to the commander.

“Attack!”

The commander of the battlefield gave the order.

Chapter 338

“Roar!”

The next moment.

Just like that, there were 100000 type 3 mech Dragon Riders, as well as 1000 perfected-stage type 3 mech Dragon Riders, who surrounded Yi Kongming's demon Army from all directions.

“Dragon's breath!”

“Whoosh!!!”

The energy flames that filled the sky were like more than 100000 pillars of fire. They pierced through the air and gathered together, forming a vast and endless sea of energy flames.

It was overwhelming.

It enveloped the demon Army in the air.

“!!!”

The demon soldiers in the air widened their eyes.

“Enemy attack!”

The demon soldiers roared.

At the same time.

Da da da da

The mechanical dragon Knight carried its heavy machine gun and fired crazily. It was like a continuous rain of bullets, covering everything.

BOOM! BOOM! BOOM!

In the sky.

The bombing meches dropped bombs into the demon Army in the air and the bombs exploded.

The fighter planes in the air fired their autocannons wildly.

“Ah!”

A shrill scream resounded through the sky.

One by one, the demon soldiers in the air were killed, their bodies burned to ashes by the energy flames. The bombs exploded, and their incomplete corpses flew everywhere.

Obviously.

This was because Jiang Li's Air Scouts had already discovered Yi Kongming's Army of airborne demon soldiers and figured out the routes of the demon soldiers.

so,

That was how the annihilation Corps was able to easily avoid the patrolling and scouting of the airborne demon soldiers. They were able to enter Qilin County without being discovered by them.

Furthermore ...

after all the demon soldiers in the air had gathered together, they had launched a surprise attack, causing a large number of casualties among the demon soldiers.

It could be seen.

The Army of meches in the air had a terrifying combat power.

shua! Shua! Shua!

The storm of mechanical wings swept in all directions like a steel tornado, tearing the demon soldiers into pieces.

“No!”

Yi Kongming let out a furious roar.

He was stunned!

He was extremely shocked and furious!

Yi Kongming looked at the scene in front of him. He had never expected that they would be ambushed and attacked by the enemy in their own country.

Even ...

before he was attacked, yi kongming did not receive any news at all. he did not find any traces of the other party.

“Kill!”

Yi Kongming burst out with the power of his bloodline and his bloodline Dharma appeared. A bright red light appeared and it was like a burning flame. It contained a strong power.

Behind him.

it was a giant red snake with two wings. its dharma power was vast and powerful.

boom!

Yi Kongming charged toward the mech Dragon Riders at the peak of stage three.

“Die!”

However ...

Just as Yi Kongming was about to make his move, MYL01 had already made his move. The demon spirit energy gathered and turned into a huge energy palm.

It felt like a five-fingered mountain.

“!!!”

Yi Kongming’s pupils contracted.

Terrifying!

it was extremely terrifying!

...

Yi Kongming could feel the danger of death.

“Bloodline ignition!”

Without the slightest hesitation.

Yi Kongming burned his own blood, and the red winged snake roared. Red blood flame shot up into the sky, and his Blood Meridian Dharma power rose.

Buzzzzzz!

after that.

The bloodline Dharma power and Yi Kongming had become one. Yi Kongming was wearing a red energy Armor and holding a red spear.

“Kill!”

The spear radiance was like a dragon.

It was imbued with Yi Kongming’s most powerful force, and it pierced through the air like a Crimson streak of light, piercing through the massive energy palm.

Bang!

...

The two sides collided.

The spear light exploded.

“ah!”

Yi Kongming screamed and vomited blood. His body flew backward. Even though he burned his bloodline and used all his strength, he still couldn't block an attack from MYL01.

This was the power of an initial-stage Tier 5.

The difference was too great.

One had to know.

back then, yi shang was crushed to death by myl01.

“No! This is impossible!”

Yi Kongming said in fear.

BOOM! BOOM! BOOM!

the next moment.

MYL01 activated his demon spirit domain and suppressed Yi Kong Ming. He attacked continuously, and the demonic spirit energy palm prints fell. Yi Kong Ming was forced to retreat. He was no match for him at all.

Pfff!

Finally.

myl01 crushed yi kong ming's head with a single palm.

He died immediately!

Unfortunately ...

It did not drop a tier-four soul Tinder.

“Attack!”

The air mech Army launched a general attack on the air Demon Army. They surrounded them and killed all the one million air Demon soldiers.

No one was spared.

From the start of the war to the end.

the whole process took less than ten minutes.

The million-strong demon Army in the air was completely annihilated.

“Reporting to the hegemon, the demon Army in the air has been completely annihilated. Not a single one survived,”

zh01 reported.

“yes.”

” yes. ” jiang li nodded. ” let's continue and attack the capital of panic. ”

“Yes.”

Zh01 replied.

One had to know.

The annihilation Corps had annihilated Yi Kongming's million-strong demon Army and caused a huge commotion. In addition, there were many demon villages around.

so,

In order to prevent their whereabouts from being exposed.

the destruction legion then destroyed all the surrounding demon villages and two demon cities before continuing their march.

time passed.

Evening came.

The destruction Legion flew all the way, but they did not attack the county city of the panicky demon dynasty. Instead, they headed straight for the panicky demon dynasty's capital.

With the aerial reconnaissance troops scouting ahead, they were able to avoid the aerial demon soldiers of many County cities in advance and hide their tracks.

The capital of panic.

BOOM! BOOM! boom!

The ground was shaking.

they were demon soldiers that had rushed over from the various counties of the panicking demon dynasty. their numbers varied. the smaller ones only had a few

hundred thousand demon soldiers, while the larger ones had up to a million demon soldiers.

in the air.

There were also many demon troops in the air.

It was like a dark cloud that covered the sky.

It blocked out the sky.

the panicking demon dynasty.

The territory was extremely vast.

There were a total of 158 counties.

The Army of the 158 counties had all gathered in the capital city of the panicking state in just one day under orders.

The number of demon soldiers had reached ten million!

That's right!

Just the demon Army of the 158 counties had tens of millions of demon soldiers, including heavy-armored cavalrymen, heavy-armored infantrymen, long-range archers, aerial demon soldiers, and many other types of soldiers.

It was fully equipped.

One had to know.

This did not include the panicked Yao dynasty's National Army, elite army, Imperial Army, and private army, the 'Yao King Army'.

Outside the capital of panic.

Tens of millions of demon soldiers gathered, forming an Army that stretched as far as the eye could see. They were all demon soldiers, wearing armor and holding weapons.

A vast amount of military evil Qi hit him in the face.

Those who were timid would probably be scared to death if they stood in front of the demon Army.

This was not a joke.

It was the truth.

“Roar!”

The next moment.

Within the capital of panic.

An earth-shattering Dragon's Roar was heard.

Buzzzzzz!

The invisible fate of the country gathered.

After that.

In the sky.

a purple true dragon with national aura manifested. it was extremely lifelike and solid, just like a real three-clawed true dragon, as it circled in the sky.

Its body was winding, like a continuous mountain range.

He could clearly see the purple dragon scales on his body.

Its body was 1500 meters long!

The true dragon of the panicking demon dynasty.

The panicking purple dragon!

On the dragon's head.

With his hands behind his back, he stood on top of the city. With the blessing of the nation's fate, he looked down at the tens of millions of demon soldiers outside the city.

From head to toe.

Waves of purple light burst out, and the monarch's might was like a prison.

It was truly powerful.

"Your subjects pay their respects to Your Majesty!"

"your subjects pay their respects to your majesty!"

The next moment.

Outside the dynasty city.

One hundred and fifty-eight of the panicking demon dynasty's regional Kings knelt down in a panic at almost the same time. They kowtowed and greeted loudly.

Your Majesty!

BOOM! boom!

Immediately after.

Tens of millions of demon soldiers knelt down at the same time. The sound of their armor and knees hitting the ground merged together to form an extremely heavy sound.

He looked around.

The ten million demon soldiers all knelt down.

such a scene was indeed shocking.

“yes.”

Huanghun nodded his head lightly. His voice was low and dignified. It seemed very light, but it was clearly transmitted into the ears of every demon soldier, as if it was ringing in their minds.

Shua! Shua! shua!

In the surroundings.

One figure after another rose into the air and stood beside panic. Their auras were extremely strong, and every one of them had reached the fourth rank.

‘Mo Changli’, ‘Xu Yi’, ‘Xu Yi’, ‘Lao Ai’, ‘leader of the dark net’, and ‘Lao Ai Ling’, the Civil Minister of the Yao nation.

a total of four.

boom! BOOM!

The ground shook.

Within the capital.

The panicky Yao dynasty’s elite army, panicky Royal Army, and the Demon King Army had all moved out and gathered together.

The murderous aura was thick.

Obviously.

This time, the entire country’s military force was mobilized.

Shua!

At this moment.

A blood-red demonic Sparrow was flying in the sky like a blood-red shooting light. It was as fast as lightning.

It flew directly in front of Yingying.

He stopped.

“Blood Sparrow.”

lao ai was stunned. he reached out his right hand, and the blood sparrow flew to the top of lao ai's palm and put the secret letter in its mouth into his hand.

He opened it and took a look.

“This bi an ...”

His expression changed slightly.

“What?”

He looked over in a panic and frowned.

“your majesty.”

Qianqian raised her head. something has happened. Two cities in Qilin County have been destroyed. A village has been destroyed as well. All the demons have been killed.

the most important thing is that such a big thing has happened, but Yi Kongming didn't send back any news. It was only after the dark net members found out about the situation that they sent the news through the blood Sparrow.

“If I may be so bold as to guess, Yi Kongming's aerial demon Army might have already met with some mishap. They might not even have the chance to send a message.”

“That's not possible.”

Mo Changli raised his head in disbelief. Yi Kongming was the Commander-in-Chief of the demon Army in the sky. His cultivation level was at the mid-fourth stage, and he was leading a million elite demon soldiers in the sky. How could he have been completely annihilated without even having the chance to send a message? ”

“Yingluo, are you sure the news is true?”

Xu Yi asked.

“.....”

Xuanji Ling remained silent and looked at Lao Ai, waiting for his answer.

“the blood sparrows” information can’t be wrong.”

“Your Majesty, great Xia’s Army might have entered our borders, but we haven’t found any traces of them,” Lao Ai said in a deep voice.

“Your Majesty, you must be vigilant.”

“There’s no need to be on guard.”

At this moment.

Said Cang Huang suddenly.

As soon as he finished speaking.

He looked into the distance in a panic.

“.....”

They were stunned.

“Because the enemy is already here.”

Huanghun said in a deep voice.

Chapter 339 start the war

“Rumble!”

the plane’s engine roared.

It was like a low rumble of Thunder.

At this very moment.

Jiang Li’s army of destruction had arrived at the capital of panic. They were about twenty miles away.

The flying altitude slowly decreased.

20,000 large military transport planes.

Light bombers.

Fighter jet in the air.

They formed a huge fleet.

It was as if dark clouds had covered the sky.

The sky.

the sun had yet to set completely, and the afterglow of the setting sun shone on the planes, as if they were coated with a layer of dark red light.

They flew all the way.

It was almost unimpeded.

With the help of the reconnaissance ability of the air reconnaissance troops, they hid their tracks and crossed more than half of the panic demon dynasty in the shortest time possible, arriving at the capital of panic.

Originally.

He had hidden his tracks in order to ambush the capital of panic.

however ...

Ten million demon soldiers were gathered outside the capital city of the panic-stricken Kingdom. The elite army, the Imperial Army, and the Demon King Army had all been mobilized.

therefore, the sneak attack plan was over before it even started.

what's that?!

lao ai, mo changli, xu yi, and lao ai ling followed their gazes and also saw a huge fleet of aircrafts that blotted out the sky like dark clouds.

He was shocked.

“Are they the enemy?”

“What is this?”

“The ‘iron bird’ that flies in the air?”

“Prepare for battle!”

The next moment.

All the commanders and generals shouted.

BOOM! BOOM!

The tens of millions of demon soldiers quickly grabbed their weapons.

He activated his bloodline power.

they were all prepared for battle.

At the same time.

The military aura was gradually gathering.

my Lord, the annihilation Army has already arrived at the kingdom of panghuang. However, the situation has changed. Tens of millions of demon soldiers have already gathered outside the city of the kingdom of panghuang. The sneak attack plan has failed.

Zh01 reported.

“Yes.”

okay. Jiang Li nodded. He looked at the scene in front of him with a serious expression.

To tell the truth.

it's amazing. the Army of tens of millions of demon soldiers was indeed shocking. Jiang Li's heart sank after seeing it.

Furthermore ...

And this was only the prefecture Army.

This did not include the elites of the Imperial court.

In other words ...

the destruction legion was about to face a fierce battle.

as expected, the decision to send ten million meches to form the destruction Legion was the right one.

jiang li thought, otherwise, the dynasty won't be able to take them down without an army of more than ten million meches.

“even if we win, we'll suffer heavy losses.”

“Prepare for battle.”

let's go, ” Jiang Li said in a deep voice. since the sneak attack failed, we'll attack from the front.

“Yes.”

...

The battlefield commanders responded.

transport mech pilots, hear my order. Lower your altitude. Mech army units, prepare to jump.

mech soldiers, attack first and delay the enemy. Buy time for the mechanical Army.

“Prepare to attack!”

The order was given.

immediately after.

The 20,000 large military transport planes lowered their altitude once again, only a hundred meters above the ground. Many of the transport planes even landed directly.

The cabin doors opened one by one.

The Army meches jumped down one after another.

A height of a hundred meters.

It would not cause any damage.

...

“Rumble!”

Immediately after.

Artillery off-road vehicles and main battle tanks drove out of the cabin.

In the blink of an eye.

Millions of Army meches appeared and formed a huge mech Army. The mech artilleries spread out and quickly formed an artillery formation.

When all the Army meches appeared.

The transport plane took off again.

Shua! Shua! Shua!

Mechanical winged Air Force, biochemical Air Force, glider Air Force, and light armored Air Force flew out of the cabin, forming a huge mechanical air Force.

The mechanical air Force took the lead in attacking the demon soldiers of the panicky County city.

“Blessing of the nation’s fate.”

“Roar!”

Suddenly.

The panicking purple dragon roared, and the fate of the country trembled. It produced an endless purple radiance that spread out and enveloped the entire panicking Kingdom.

It could be seen.

A faint purple light appeared on every demon soldier’s body.

This was the blessing of the country’s fate.

Under the blessing of the country’s fate.

the courage of every demon soldier increased greatly, and the morale of the army increased greatly. their strength increased, and their recovery rate increased. their strength had increased by at least ten percent.

“Great Xia’s Army.”

He stood on the head of the purple dragon in a panic. His eyes were calm, but there was killing intent in them. I didn’t expect this. Emperor Xia Jiang Li, you really dared to send troops to attack me.

To tell the truth.

He had mobilized all the troops in the country just in case. In fact, he didn’t think Jiang Li would send troops to attack, but he didn’t expect them to come.

In his heart, he rejoiced.

but at the same time.

More than anything else, he was furious!

He was extremely furious!

the great xia dynasty!

It was only a human dynasty that had been established for a month, while the panicky demon dynasty had been established for nearly a thousand years. Although it was not the most powerful dynasty in the northern region of holy peace state, its national power was still quite strong.

However ...

A mere human dynasty that had been established for less than a month actually dared to send troops to the panicking demon dynasty.

It was natural for him to be angry.

so,

He was going to annihilate Jiang Li's Army.

“all soldiers, hear my order!”

His panicked voice spread across the entire battlefield like thunder, ” set up the formation! battle! Destroy the great Xia Army for me! Don't leave a single one!”

kill!!!

“Roar!”

The panicking purple Dragon's Roar shook the heavens.

The spiritual Qi of heaven and earth trembled.

“Whoosh!!!”

The murderous aura of the Army gathered.

“set up the formation!”

kill!!!

” charge!!! ”

“Annihilate the great Xia Army!”

“.....”

On the battlefield.

Battle cries shook the heavens and earth.

It could be seen.

The first to attack were the ten million soldiers from the county city outside the city. There were 158 County Kings from the demon dynasty, and each of them had a cultivation base of stage three.

The weakest were all initial-stage Tier 3.

Among them.

The three strongest demon dynasty County Kings were already at the early stage of level four.

They were the demon spirit County's County King Ling Xing, the red blaze County's mang Chong, and the mo beast County's Wu Chang Li.

“Artillery, attack!”

BOOM! BOOM! boom!

The sound of cannon fire resounded in all directions.

Artillery position.

Hundreds of thousands of mechanical artilleries fired at the same time. The cannonballs rose into the sky like a hailstorm and fell into the demon Army.

“roar!”

The beasts of the military formation manifested.

Their numbers had reached ten million demon soldiers.

He did not set up a Grade 4 army formation.

It was only a Grade 3 army formation.

Even so ...

A total of ten grade-3 military formations, when combined together, had a huge boost to the demon soldiers. The peak-stage elementary level demon soldiers, under the support of the ten grade-3 military formations, were able to display the combat strength of an early-stage Grade-1 demon soldier.

This was quite powerful.

“Rumble!”

the ten beasts of the battle formation appeared. they were all different in appearance. there were tigers, wolves, pythons, flood dragons, double-winged sky dogs, and so on. their bodies were thousands of meters long as they circled the sky.

All the cannonballs were intercepted.

its might was monstrous.

it was extremely powerful.

Bang Bang Bang Bang!

In the air.

The bombers dropped their bombs, the space machine guns of the fighter planes in the air fired wildly, and the heavy machine guns of the transport planes fired a large number of bullets.

Da da da da

The flames soared to the sky.

“Roar!”

The mechanical dragon cavalry spewed out energy flames.

It formed a sea of energy fire.

It enveloped them.

The war had just begun.

most of the explosions and attacks were blocked by the stage 3 army formation and did not cause too many casualties to the ten million soldiers. only a small number of demon soldiers died from the backlash of the army formation.

“the demon army in the air, attack!”

Shua! Shua! Shua!

Almost three million demon soldiers formed an Army and gathered together. Under the leadership of many stage-three Commandery Kings and demon commanders, as well as the Commandery King of the monster spirit Commandery, Ling Xing, they attacked the mech soldiers.

“Mechanical wing storm!”

Buzzzzzz!

The mech winged Air Force took the lead.

The steel feathers fell off and gathered together. They danced and spun wildly, forming a vast, huge steel tornado storm that swept over.

“Roar!”

The beast of the military formation appeared. It was a huge Eagle with a body length of 1000 meters, and it scattered the storm of the mechanical wings.

kill!!!

Bang Bang Bang Bang!

The lightweight armored Air Force, biochemical Air Force, and mechanical dragon cavalry engaged in close combat with the three million airborne demon soldiers, forming a vast aerial battlefield.

Pfft! Pfft!

blood splattered everywhere.

At every moment, demon soldiers in the air died and their corpses fell from the sky. There were also mech soldiers that were scrapped. Some fell as mechanical wreckages, while others disappeared and were recycled as energy points.

“Dragon Breath.”

“Dragon Knight spear technique!”

BOOM! BOOM!

the mechanical dragon cavalry displayed their powerful aerial combat abilities. the giant steel dragons spat out energy flames, burning the demon soldiers into ashes.

The mechanical dragon Knight wielded a huge heavy Dragon Knight spear, and its close combat abilities were extremely strong. A single thrust of the spear could easily pierce through the demon soldiers.

Several stage-three demon commanders had died at the hands of the perfected stage-three mechanical dragon cavalry.

“die!”

Buzzzzzz!

Ling Xing immediately charged over. His weapon was also a long spear that was entirely green. The power of his bloodline surged and was surrounded by a green light.

“Whoosh!”

The spear radiance pierced through.

Bang!

Several of the perfected stage-three mechanical dragon cavalymen were sent flying, and one of them had a hole in its chest.

thank you, lingxing County Prince.

The level-three demon commanders that Ling Xing had saved said gratefully.

“Yes.”

Ling Xing only nodded.

“kill!”

Shua!

After that.

ling xing gripped his green spear tightly and attacked once again. at the same time, he displayed a powerful demonic secret technique, 'spirit demon spear art! penetrating stance!”

“BOOM!”

The next moment.

In the distance, an energy bomb exploded and shattered Ling Xing’s spear radiance. The powerful explosive force even forced Ling Xing to retreat continuously.

energy Angel!

“Whoosh!!!”

Ts01 appeared and used the heavy sniper cannon to blast away Ling Xing, who was at the initial stage of Tier 4, with a long-range shot. Then, he used his skill, and the mechanical wings turned into energy light wings.

The heavy sniper cannon in his hand had also turned into an energy Angel’s sword.

“Slash!”

A sky-blue sword projection was unleashed.

They attacked Ling Xing.

boom!

Ling Xing stabbed out with his spear. The long spear collided with the energy light sword and an explosion was heard. Ling Xing felt a huge force rushing towards him.

pfft!

ling xing vomited blood and was forced back.

one had to know.

Ling Xing had the support of ten Grade 3 military formations.

In addition, there was the blessing of the nation.

his strength had skyrocketed.

However, he was still easily forced back and injured by the TS01.

tier four Suan ni perfected stage!

Ling Xing was shocked.

Shua! Shua! “whoosh!”

The TS01 attacked at full speed. Its speed was extremely fast. The sword radiance flickered and was like a sword dance as it enveloped Ling Xing.

“Ah!”

Ling Xing cried out in pain. He was completely outmatched and could only barely hold on.

“Pfft!”

In the end.

Ts01 cut off Ling Xing’s head.

Chapter 340 the dragon-lion

Ling Xing’s head flew up into the air and Scarlet, sticky blood spurted out from the broken neck. The headless corpse was affected by gravity and fell from the sky.

Bang! Bang!

It smashed a hole in the ground.

Wuwuwuwuwu!

Because TS01 had used ‘all-around release’, its energy was almost exhausted. Therefore, it had exited from the energy Angel state, and the energy light wings had returned to the eight-winged mechanical wings.

At the same time.

The energy Angel’s sword in his hand had also become a large-caliber heavy sniper cannon.

” commandery prince ling xing of the spirit puppet sect is dead! ”

“His head was cut off by a sword!”

“This Suan ni, this Suan ni”

Fear!

In the surroundings.

The level-three demon commanders of the demon soldiers in the air panicked and retreated continuously. They did not dare to get close at all, and their faces were full of fear.

One had to know.

Even Ling Xing, who was at the initial stage of Tier 4, was killed with one sword.

They would only be sending themselves to their deaths if they charged forward.

furthermore ...

The surrounding mechanical winged Air Force, glider Air Force, light armored Air Force, and mechanical dragon cavalry formed an air Legion and charged over. The demon soldiers had no time to worry about anything else. They could not even save their own lives.

The battle continued.

“Ling Xing!”

On the other side of the battlefield.

Mang Chong raised his head and saw Ling Xing’s head being cut off.

“This bi an ...”

Wu Chang Li was also shocked.

They had not expected this.

From the start of the battle until now, Tier 4 players had actually fallen so quickly.

“Open the city gates!”

Cang Huang’s eyes darkened and he immediately shouted, ” mo Changli, listen to my orders. Immediately lead the panicking Yao dynasty’s elite army and the panicking Yao dynasty’s Imperial Army to attack the enemy!

“yes!”

“yes, sir!”

Mo Changli and Xu Yi nodded at the same time.

“All soldiers, hear my order!”

“Charge!”

“Rumble!”

The city gates of the capital of panic opened.

Immediately after.

The panicking Yao dynasty’s elite army and the Imperial Army charged out of the city gates like a vast Dragon. Their murderous aura shot into the sky, and their battle cries shook the heavens.

Within the capital.

The monster King Army that he had personally created did not move out.

It could be seen.

the number of elite troops had reached three million, and the number of imperial army troops had reached one million!

” the elite army of the panicking demon dynasty has reached three million soldiers, and the imperial army has reached one million soldiers. ”

jiang li looked at the army of demon soldiers rushing out of the capital city of panic and thought, ” if i remember correctly, bai zhanbo interrogated luo wuding. the wei dynasty only has a million elite troops and 500000 imperial guards. ”

“This is clearly not right.”

One had to know.

The great Wei Dynasty was obviously stronger than the panicking demon dynasty.

If the panicky demon dynasty had close to three million elite demon soldiers and one million Imperial Army demon soldiers, then the great Wei Dynasty, which was even stronger than the panicky demon dynasty, definitely did not only have ‘one million elite’ and ‘five hundred thousand Imperial Army soldiers’.

Either Luo Wuding was lying, or he didn’t know how strong the Wei Dynasty’s military was and the Prince of Wei was hiding his strength.

Of course.

It was also possible that Bai zhanbo had given him false information.

“mechanical giant soldier! Attack!”

BOOM! BOOM! BOOM!

Finally ...

...

A hundred early-stage level four mechanical giant soldiers entered the battlefield and launched a hundred 'small energy missiles', leaving trails of flames in the air as they fell into the demon Army.

“Rumble!”

“Roar!”

Bang! Bang! Bang!

A series of explosions rang out.

At this moment.

The mechanical giant soldier displayed its terrifying might and deterrence on the battlefield. Hundreds of 'small energy missiles' were fired at the same time, directly blasting the beasts in the military formation that were hovering in the sky into pieces.

A sorrowful roar reverberated throughout the battlefield.

“Ah!”

A large number of demon soldiers died.

The next moment.

...

while the army formation was broken.

Hundreds of thousands of cannons fell into the Army, and the bombers in the air dropped bombs in a frenzy, while the aerial machine guns fired wildly.

“Rumble!”

“Ah!”

pfft! pfff! “Pfft!”

Blood splattered everywhere.

On the battlefield.

The artillery shells created huge holes and a large number of demon soldiers were directly killed. Limbs flew everywhere, flames burst out, and the pungent smell of gunpowder filled the air.

This wave of attack.

It had caused a total of one million demon soldiers to be injured.

“Tier 4! They’re all Tier 4!”

“The Army formation was destroyed.”

“This Suan ni, this Suan ni”

Aghast!

Fear!

Many of the demon Princes were shocked and a chill ran down their spines. Some of them even took a few steps back.

One had to know.

To be able to destroy a stage three army formation, one had to have stage four combat strength.

ten grade 3 formations were destroyed at the same time.

Such a blow was too great a blow to the demon Army.

“A hundred Tier 4!”

high up in the sky.

Panic stood on the head of the panic purple dragon and looked over. He saw a hundred nine-meter-tall steel Giants and could not help but be shocked.

To tell the truth.

Even Cang Huang did not expect this.

Jiang Li's great Xia Army actually had a strong team of a hundred early-stage level four fighters.

One had to know.

The panicking demon dynasty had developed for nearly a thousand years.

Including panic.

In total, there were only eleven rank four experts.

Furthermore ...

and now, three of them had fallen.

Yi Shang, Yi Kongming, Ling Xing.

There were only eight of them left, namely Cang Huang, mo Changli, Xu Yi, Xuanji Ling, Taowu, mang Chong, Wu Chang Li, and the commander of the Demon King Army, Cang li, who had yet to reveal himself.

“Mo Changli, Xu Yi, mangchong, Wu Changli, listen to my orders.”

Huanghun took a deep breath and shouted, ” immediately use the elite army and the Imperial Guards to lead all the demon troops in the county city. All the county Kings will assist and coordinate with each other to form a Grade 4 formation!

“Yes!”

“Set up a Grade 4 army formation!”

“Hurry!”

Mo Changli and the others shouted.

He immediately took action.

“Set up the formation!”

“Gather the military Qi!”

hurry, hurry, hurry!!!

On the battlefield.

The elite and Imperial Army Corps had already joined up with the other soldiers of the provincial city, and the elite and Imperial Army were the leaders.

Shua! Shua! Shua!

Mo Changli and the others rose into the air and stood in the four directions of the Army. A vast amount of bloodline power surged out from their bodies.

He formed a seal with both hands.

They formed many seals.

“Whoosh!!!”

In all directions.

Endless military Qi gathered and was guided by the seal. The tens of millions of demon soldiers immediately set up a formation.

The vast and endless spiritual energy of heaven and earth gathered.

It created a terrifying storm.

An extremely terrifying pressure appeared.

In the sky above the demon Army.

The military killing aura combined with the spiritual energy of heaven and earth, and then integrated with the bloodline power of the tens of millions of demon soldiers. The light fog of the military formation emerged and gradually enveloped the entire demon Army.

“Attack!”

“Stop them!”

kill!!!

The commander of the battlefield gave the order.

BOOM! BOOM! BOOM!

After that.

110 perfected-stage type 4 mech giant soldiers and 100 initial-stage type 4 mech giant soldiers were all deployed, launching ‘small energy missiles’ from afar.

at the same time.

Mechanical artilleries, light bombers, and fighter jets.

They all attacked the demon Army.

In that instant.

it was a sky full of cannons covering the sky.

It exploded.

the scene was extremely shocking. it could be said to be earth-shattering, covering the sky for five kilometers and half of the battlefield. the sky was filled with surging flames.

“Roar!”

The grade 4 army formation was formed.

the roars of the beasts in the battle formation resounded in all directions, forming a physical sound wave. it was like a dragon’s roar, roaring in the world. an incomparably huge body came into view.

The pitch-black battle formation’s light mist enveloped his entire body.

bang bang bang bang!

It could be seen.

Solid sound waves spread out, forming a crushing power that sent a large number of cannonballs flying. Its huge body took the 210 ‘small energy missiles’ head-on.

“Rumble!”

the radiance of energy shot up into the sky.

“Roar!”

The Level 4 battle formation beast also let out a painful wail as cracks appeared on its body. The demon soldiers in the battle formation screamed in pain as they suffered an extremely terrifying backlash.

“Ah!”

Nearly 100,000 demon soldiers died from the backlash.

“Condense!”

Buzzzzzz!

The faces of mo Changli and the others were also slightly pale. They activated the grade 4 military formation and absorbed the murderous military Qi and the spiritual energy of heaven and earth. The bloodline power of tens of millions of demon soldiers gathered.

The cracks on the grade 4 formation-type beast’s body recovered.

The consumption was huge.

“roar!”

At this moment.

through the holographic projection, jiang li finally saw the true appearance of the level-four beast. it was a terrifying giant beast that was more than 10000 meters long.

A dragon’s head and a lion’s body.

its four limbs were burning with black flames.

Grade 4 army formation!

Dragon-Lion array!

It required four level-four experts, ten million demon soldiers, the gathering of the murderous military Qi, the spiritual energy of heaven and earth, and the integration of the bloodline power of ten million demon soldiers to set it up successfully.

It was powerful.

It was enough to resist the attack of a perfected Tier 4.

He did not have the strength of a Tier 5.

They were unable to break a Grade 4 army formation.

“The dragonlion formation is complete! It’s time for us to counterattack!”

kill!!!

all troops, charge!!!

Mo Changli and the others shouted loudly.

“Charge!”

kill!!!

“The panicking Yao Army is invincible!”

“Kill! Kill! Kill!”

The next moment.

With the help of the level-four battle formation, the demon soldiers ‘morale and strength were greatly boosted. Their shouts shook the earth as they charged at Jiang Li’s Army.

“Whoosh!”

In that instant.

It was a sky full of sharp arrows that were condensed with the power of bloodline, the power of the military formation, and the power of the nation's fate. Their offensive power increased greatly, and they poured down like a storm.

“attack!”

“Kill!”

Jiang Li's meches were fearless. They charged forward with combat meches, cold weapon meches, biochemical meches, and electric meches.

They formed a huge mech Army.

At this moment.

The two armies finally clashed. From the sky, it looked like two boundless waves had crashed into each other, creating an earth-shattering boom.

The intense battle had completely broken out.

On the battlefield.

the demon soldiers at the peak of the elementary level were strengthened by the level 4 formation and the fate of the nation. their strength had reached the early stage of level 1 and could fight with level 1 meches.

pfft!

A level one combat mech smashed the demon soldier's head with a punch, and the demon soldier on the other side also cut off the combat mech's head.

He had lost his head.

The demon soldier was naturally dead.

However, the combat mech didn't. Because of his 'talent-machinery', as long as the damage wasn't over 90%, his mechanical heart wouldn't be destroyed. Even if his head was cut off, he could still fight.

“BOOM!”

On the battlefield.

Every hundred liquid metal meches liquefied and then merged together, turning into a huge Silver Hammer. It was very powerful and could kill thousands of demon soldiers.
