

Army 341

Chapter 341 The outcome

Not only that.

There were also the exoskeleton armor meches, laser weapon meches, ultrasonic meches, energy meches, and hundreds of thousands of level three meches that displayed their strong combat abilities on the battlefield.

The exoskeleton armor mech activated its full-body armor and turned into an armored robot. Its close-combat ability was extremely strong, and its giant Iron Fist was enough to crush the demon soldiers.

The ultrasonic pulse of the ultrasonic mech almost ignored the defense of the armor on the demon soldiers. The pulse rushed into the body directly and destroyed the internal organs. They could only rely on the power of their blood to resist it.

The laser weapons mech's laser had a strong penetrating power.

After the energy mech's body was energized, the enemy's physical attacks could only cause minimal damage to the energy mech. It had to contain energy to cause damage.

The energy bombs flew everywhere and exploded one after another.

“Charge!”

boom!

The mechanical giant soldier charged into the battlefield. Its nine-meter-tall body was pitch-black, and its huge Iron Fists smashed down, filled with violence.

Da da da da

The loaded heavy machine guns fired wildly in all directions.

“Ah!”

A large number of demon soldiers were killed.

It was swept into minced meat.

“Dragonlion pounce!”

Roar!

Mo Changli and the others immediately controlled the Tier 4 battle formation beast, the ‘dragonlion beast’. The 10000-meter long dragonlion beast was simply terrifying.

It was like an ancient giant mountain that lay in the sky.

boom!

The gigantic dragonlion pounced towards the mechanical giant soldier.

BOOM! BOOM! BOOM!

Immediately.

The mechanical giant soldiers fired ‘small energy missiles’, and those one-meter-long’ small energy missiles ‘bombarded the body of the dragonlion beast.

The missile exploded.

The dragonlion beast was sent flying.

At the same time.

The shockwave shook the surroundings.

The mechanical giant soldier was also sent flying.

Kachaa! kachaa!

Cracks appeared on the dragonlion beast's body once again.

“Ah!”

within the grade 4 army formation.

Another 100,000 demon soldiers were killed by the backlash of the battle formation.

“.....”

The faces of mo Changli and the others turned pale.

“So strong!”

“Is this the combat ability of a team formed by National Guardian level combatants? Even a Grade 4 army formation formed by tens of millions of demon soldiers was not a match for it. It's truly terrifying.”

“This war will be extremely difficult, hehe.”

Xu Yi's gaze was heavy.

a stage 4 army formation is truly powerful. It can actually block the continuous attacks of the mechanical giant soldiers.

Jiang Li looked at the battlefield and said in a deep voice, "if there was no stage 4 army formation, with the destructive power of the stage 4 mechanical giant soldiers, this battle would have been won long ago.

"kill!"

Buzzzzzz! Buzzzzzz!

Mo Changli and the other three controlled the dragonlion formation, using the dragonlion behemoths to block the mechanical giant soldiers. Then, Chi Liang took the opportunity to charge into the destruction Legion.

One had to know.

Wufu and Wufu Ling were both late-stage rank four.

At this moment.

With a Tier 4 military formation and the blessing of the nation's fate, they could unleash combat strength comparable to a perfected Tier 4.

Two perfected-stage level four demons were enough to cause a lot of damage on the battlefield. A large number of meches were destroyed in a short time.

Clang!

ts01 immediately rushed over and blocked youyou.

BOOM! BOOM! BOOM!

...

The two perfected-stage Tier 4 combatants fought their way up into the sky. Their attacks collided one after another, resulting in a huge explosion and a storm of energy.

“Demon spirit domain!”

Wuwuwuwuwu!

MYL01 made his move.

In that instant.

with myl01’s speed, it only took him an instant to rush over from the back. the demon spirit domain was unleashed, forming a powerful soul suppression and restricting xuanji ling.

“!!!”

Xuanji Ling’s expression was aghast.

he felt the danger of death.

They were on completely different levels.

“Psionic mastery, Soul Control.”

...

Buzzzzzz!

The mechanical psionic energy combined with the air of the soul and transformed into demonic spirit energy. The pitch-black demonic spirit energy surged and covered MYL01’s entire body.

“Die!”

BOOM!

myl01 launched a palm strike at xuanji ling. demonic spirit energy condensed into a huge energy palm print, like a five-fingered mountain, and blasted toward xuanji ling.

“Not good!”

His pupils contracted in panic. Tier 5! It’s the aura of a rank 5!”

“Purple dragon imperial decree!”

“Whoosh!!!”

Without the slightest hesitation.

Without hesitation, he used the ‘National fortune Saint weapon-purple dragon Saint decree’. The Saint decree scroll appeared and spread out, crossing the sky and blocking in front of Xuanji Ling.

Bang!

The energy palm print fell and hit the ‘purple dragon imperial decree’.

“Roar!”

A Dragon’s Roar came from the Imperial edict. A purple dragon appeared and collided with the energy palm print, causing a huge explosion and light to splash everywhere.

The ‘purple dragon imperial decree’ blocked the palm of MYL01.

However, its luster had dimmed.

“Demon King Army, move out!”

He shouted in panic.

Shua!

As soon as he finished speaking.

A flustered figure broke through the air and personally entered the battle. The power of a perfected Tier 4 martial artist was fully unleashed. The purple-winged celestial Hound materialized, and the power of its bloodline surged, forming purple lightning that surrounded its body.

immediately.

He waved his right hand in a panic, and the ‘purple dragon imperial edict’ flew back into his hand.

In an instant.

He appeared on the battlefield in a panic and stood beside Xuanji Ling. He shouted, ” “Retreat! let’s meet up with the monster king’s army!”

“Yes!”

Xuanji Ling nodded quickly, rejoicing at the fact that he had just survived a disaster. He looked at the MYL01 in the air with lingering fear and didn’t dare to stay there any longer. He immediately retreated and regrouped with the Demon king’s army that had rushed out of the capital city of panic.

The Demon King Army.

This was the strongest army that had been built in a hurry.

There were not many of them.

only ten thousand.

However, every one of them was a perfected stage two demon expert. The weakest Centurion was at the early stage of stage three, while the chiliarch was at the perfected stage of stage three. The commander of the army, Cang li, was at the late stage of stage four.

“Commander Cang li,”

Xuanji Ling shouted.

“Chu Wenxiang.”

yes. Cang li nodded and said in a deep voice, ” His Majesty has personally taken action. This time, our panhuang demon dynasty is in the most dangerous situation in history.

“Yes.”

yes. Xuanji Ling nodded. three level-four experts have already died. I even suspect that Jiang Li has a level-five master.

fifth-rank?!

cang li’s eyes widened, ” how is this possible? ”

“i don’t want to believe it either, but yingluo”

Xuanji Ling wanted to say something but stopped.

“Don’t say anymore.”

Cang li interrupted, ” follow the Demon King Army to kill the enemies.

“alright!”

Xuanji Ling nodded.

Immediately.

let’s go! Cang li and Xuan xuanling led 10000 monster Kings into the battlefield and charged at Jiang Li’s destroyed Army. With the addition of the monster Kings and two level-four monsters, the pressure on the monster army was reduced.

BOOM! BOOM! BOOM!

“Roar!”

The Dragon-Lion roared in grief.

Although a stage 4 army formation was powerful, facing the continuous bombardment of 110 initial-stage type 4 mechanical giant soldiers and 100 perfected-stage type 4 mechanical giant soldiers, it was a little too much for them.

The backlash from the battle formation was too strong.

“Pfft!”

Mo Changli and the others coughed up blood.

On the other hand, the mechanical giant soldier.

Even though it was damaged.

However, Jiang Li could use energy points to restore the mechanical giant soldiers.

“The Tier 4 Dragon-Lion formation probably can’t hold on for too long.”

Mo Changli’s gaze was heavy.

“Too strong, the enemy is too strong.”

There was already fear in mang Chong’s eyes.

the energy consumption of a Grade 4 army formation is too great. Every time they clash, the Dragon-Lion will be injured and will need a large amount of bloodline power to repair it. Even tens of millions of demon soldiers won’t be able to hold on for long.

Wu Chang Li said.

“Even if you can’t hold on, you have to!”

if we can’t hold on, ” Xu Yi shouted, ” once the stage 4 formation is broken, we’ll have to face the encirclement of hundreds of stage 4 experts. That’ll be the end of us!

“Dragonlion! Kill!”

“Roar!”

The 10,000-meter-long Dragon-Lion roared again. Under the control of Xu Yi and the others, it pounced toward the mechanical giant soldiers.

BOOM! BOOM!

A small Energy Missile was launched, sending the dragonlion flying.

“MYL01, get rid of panic immediately.”

Jiang Li looked at the scene and said in a deep voice.

“Yes.”

MYL01 replied.

Buzzzzzz!

Demonic spirit energy gathered, and the demonic spirit domain spread out, forming a suppression on the soul. However, with the country's fate protecting his body, Cang Huang was able to resist this soul suppression.

“tier 5!”

Panicking, he took in a deep breath. Although he appeared extremely calm on the surface, he was extremely shocked inside. He could not even believe the reality before his eyes.

Tier 5!

This was the fifth step!

One had to know.

Only dynasty had Tier 5 combat strength.

Or rather ...

Only the top five Dynasties could have the combat power of a level five, but Jiang Li had it.

The great Xia Dynasty that had been established for a month.

He actually had Tier 5 combat strength.

how could he not be shocked?

“His Majesty’s order.”

“I’ll take your head!” Said MYL01.

as soon as he finished speaking.

MYL01 made his move. His figure flickered and he disappeared from his original spot. In an instant, he appeared on the left side of the panic-stricken man and raised his hand to slap down.

“A Saint artifact!”

The purple dragon imperial decree materialized like a light shield, protecting the flurry and blocking the attack of MYL01.

but ...

the powerful force of this palm strike from myl01 still forced panicky back. there was an extremely huge gap between level five and level four. even if panicky had the blessing of the entire demon dynasty’s national fate and the ‘national fate saint weapon’, it was still difficult to make up for it.

“Panicking purple dragon art!”

roar!

He hurriedly circulated his cultivation technique and manipulated the power of the country's fate. The purple dragon turned into a purple dragon-shaped light and rushed into the purple dragon imperial decree.

“Whoosh!!!”

The purple dragon imperial decree floated in the air, transforming the power of the country's fate into combat power and merging with Cang Huang. The purple dragon imperial decree materialized into the purple dragon Armor.

BOOM!

His momentum increased greatly.

Kachaa! Kachaa!

Purple lightning flashed.

The bloodline Dharma power of the purple-winged Celestial Dog appeared and merged into Cang Huang's body. The image of the purple-winged Celestial Dog appeared on the purple dragon Armor, and its power increased again.

“Spear!”

Whoosh!

He raised his hand in a panic, and immediately, a purple Thunderbolt shot out from the inner strength of the capital. It was a purple spear, and the body of the spear seemed to be covered with dragon scales, with lightning twining around it.

A top-tier level four weapon.

It was the purple dragon Spear!

“Today, I’ll see how strong a Tier 5 is.”

BOOM!

He took the lead in attacking MYL01. He thrust his purple dragon Spear forward, and the purple Spear’s radiance pierced through the void like lightning, piercing through MYL01.

“Whoosh!!!”

Demon spirit energy gathered.

After that.

In front of MYL01.

A pitch-black demonic spirit energy shield was formed.

Bang!

the spear struck the shield, and purple light flashed. thunder and lightning scattered. crack! crack! the demon spirit energy shield cracked from the middle.

“Obliteration storm!”

boom!

The next moment.

MYL01 immediately released the strongest active attack skill he had, which was also the latest skill he had obtained after advancing to the early stage of the fifth step.

Chapter 342 Obliteration

the moment the ‘obliteration storm’ skill was released, all the ‘demonic energy’ that was controlled by myl01 was completely detonated.

Naturally, it produced unparalleled power and destructive power.

It could be clearly seen.

With MYL01 as the center, a pitch-black Vortex storm was like a vast tornado, and a catastrophic energy sandstorm swept in all directions.

Obliteration!

It contained the power of ‘obliteration’!

powerful!

it was extremely powerful!

The obliteration storm destroyed everything in its path.

tier 5!

This was the true power of the fifth step.

“!!!”

Panic couldn't help but widen his eyes, and fear and shock appeared in the depths of his pupils. He seemed to feel the arrival of death, as if the Grim Reaper had already placed its scythe on his shoulder, leaning on his neck.

He only needed to wave it gently.

he could reap his life.

“No!”

They roared in a panic, letting out a roar that shook the heavens.

“Whoosh!!!”

at this moment.

He exploded with all his might, and endless purple light bloomed. Purple lightning flashed, forming an endless sea of lightning around him.

“Roar!”

The true dragon roared.

The ‘National aura Saint weapon-purple dragon imperial decree’, which had transformed into the purple dragon Armor, also exploded. The power of the National aura was directly activated, producing a huge power.

Bang Bang Bang Bang!

However ...

When the ‘obliteration storm’ spread out, pitch-black ripples spread out, obliterating the lightning, the power of the nation’s fate, and the purple lightning.

It was impossible to resist!

It was unstoppable!

The difference was too great!

“Your Majesty!”

On the battlefield.

mo changli, xuanji ling, and the other level-four demons couldn't help but raise their heads and look at the sky. they looked at the battlefield and let out a cry of surprise.

“Tier 5! This is the strength of a rank 5!”

“There's no mistake, there's no mistake!” Xuanji Ling shouted.

“Five Luan Luan, rank five Luan Luan”

cang li was shocked.

The countless demon soldiers were also terrified.

“Is Your Majesty going to lose?”

Cang li couldn't believe it.

“bloodline ignition!”

“Roar!”

Panicking couldn't care less anymore. He used all his means, but he still couldn't resist the spreading 'obliteration storm'. Therefore, he could only use his last trump card!

Burning his bloodline!

In that instant.

A purple bloodline flame gushed out from Cang Huang's body, covering his entire body. The purple-winged celestial Hound had manifested, burning with purple flames. Its aura had risen once again.

it was almost close to tier 5!

heavenly dog Dragon Lightning Spear!

Finally.

He used his strongest move and gathered all the power in his body, including the power of his bloodline, the power of the nation's fate, the power of the sacred weapon, and the power of his burning bloodline.

All of them were added to the spear!

Roar! "roar!"

The purple dragon Spear was thrust forward.

The roars of the heavenly Hound and the roars of a Dragon could be faintly heard. This was the most powerful attack, the most powerful attack that panic could unleash.

...

After the spear was thrust out.

It was as if a small purple Sun had appeared in the sky. The power it contained was already close to the level of the fifth step. In the end, it collided with the ‘destructive storm’.

It could be seen.

The purple lightning Spear radiance was like a small purple Sun. It collided with the pitch-black energy storm ripples head-on and produced a series of rumbling sounds.

Bang Bang Bang Bang!

The energy exploded one after another.

It was as if tens of thousands of cannonballs had exploded in an extremely short period of time. Purple light and black energy storm ripples were constantly being shattered.

Waves of aftershocks spread out.

It swept in all directions.

Kachaa! Kachaa!

The ground was cracked.

...

“Ah!”

In the surroundings.

Many demon soldiers and meches were sent flying.

boom!

Finally.

The sound of an explosion rang out.

The purple spear radiance that was like a miniature sun exploded with a loud bang. The MYL01's destructive storm was also blocked and dispersed.

“Pfft!”

“Ah!”

He vomited blood in a panic and screamed. His body was sent flying tens of thousands of meters away before he finally stabilized himself and spat out another mouthful of blood.

Kachaa! Kachaa!

MYL01 took a few steps back and was also injured. The damage was only about 5%.

“I blocked it!”

“i blocked the tier 5 attack!” he shouted in a panic.

“His Majesty blocked it!”

“That's great!”

“Tier 5 isn't invincible!”

“!!!”

The demon soldiers immediately cheered.

as expected of a demon dynasty that's ranked in the top 70. He's only at the perfected stage of Tier 4, but he blocked MYL01's strongest skill with the power of the nation's fate.

I'm fine. Jiang Li sighed. but I only blocked it.

“You can't change the outcome.”

That's right!

He used all his means in a panic and finally managed to block the obliteration storm. However, the purple dragon Armor on his body dimmed. The Imperial edict's power of National aura was greatly consumed.

Furthermore ...

How long could the ignition of bloodline last?

Shua!

jiang li waved his hand and used some energy points. he instantly recovered the energy that my01 had used and returned to its peak.

“Obliteration storm!”

BOOM!

Hence.

After MYL01 had fully recovered, he once again used the skill ‘obliteration storm’. The demonic spirit energy in his body once again exploded, creating a terrifying obliteration storm ripple that spread out and rushed towards the direction of panic.

“!!!”

His pupils shrank in panic.

“Dragon-Lion array!”

roar!

it was a critical moment.

Mo Changli and the others controlled the grade 4 army formation, and the Dragon-Lion pounced over. It was like a black stream of light that merged into Panic’s body.

Obviously.

Mo Changli and the rest used all the power of the grade 4 army formation on panic.

“Ah!”

BOOM!

His eyes turned red in panic, and he once again stabbed out with his strongest spear, blocking the second ‘obliteration storm’ of MYL01. He coughed out blood and staggered back.

“Pfft!”

Huanghun’s injuries worsened.

“Ah!”

At the same time.

A large number of demon soldiers suffered the backlash from the battle formation.

He screamed again and again.

boom! BOOM! BOOM!

Without the dragonlion’s obstruction, the mechanical giant soldiers immediately took the opportunity to charge towards Xuan Moling, Cang li, and the others. The small energy missiles bombarded them one after another, causing a large number of demon soldiers to die.

“Ah!”

Pfff!

Xuan Moling, Cang li, and the others were even seriously injured.

It was quite miserable.

Wuwuwuwuwu!

myl01’s body flashed with white light.

His energy was restored again.

“Obliteration storm!”

Hence.

for the third time, myl01 used the ‘destructive storm’ skill, detonating all the demon spirit energy in his body and producing a vast destructive energy ripple.

All of them were aimed at panic.

“No!”

He howled in panic.

Mo Changli and the others were also in despair.

“boom!”

High up in the sky.

The explosion reverberated throughout the entire battlefield.

“Ah!”

the destructive storm’s power struck cang huang’s body, causing bursts of energy radiance to explode. the purple dragon spear in his hand flew out and stabbed into a hill in the distance.

The purple dragon Armor that the purple dragon imperial edict had transformed into cracked.

Bang!

The colossal Dragon-Lion was also jolted out of its flustered body and materialized in the air. Countless cracks appeared all over its body, and it was on the verge of collapse.

Buzzzzzz!

The purple dragon Armor turned back into the purple dragon imperial decree, but its luster was dim. It had exhausted all its power, and the purple dragon appeared in a hurry, but its aura was extremely low.

“pfft!”

he vomited blood in a panic, his face pale, his breathing weak, and his body seriously injured.

“Tier 5! This is the power of a Tier 5!”

Looking at MYL01 in a panic, his heart was filled with unwillingness, even if it's only at the early stage of the fifth rank, I still can't win, I'm not willing! I'm not willing to accept this!”

why does Jiang Li have a level five expert?!

In reality.

” you're right. ” panghuang was strong indeed. with the help of external forces, he could fight against early-stage level five beings, but he was facing jiang li's mech.

Other level five experts couldn't keep using powerful moves, but Jiang Li's mech could because he could use energy points to recover.

It was like cheating.

Shua!

MYL01 charged towards Cang Huang at full speed. His demon spirit energy condensed and turned into a huge demon spirit energy blade, slashing towards Cang Huang.

Pfff!

The next moment.

This slash of MYL01 broke through the last defense of panic and cut off his head. His head flew up and Scarlet blood spurted out from the broken neck.

They fell in a panic!

MYL01 beheaded him in one strike!

“Roar!”

The panicking purple dragon wailed in pain.

Kachaa! kachaa!

It could be seen.

The 1,500-meter long dragon body was constantly breaking apart. The nation's fate was constantly dissipating, turning into invisible nation's fate that filled the sky. It crossed time and space and surged towards the great Xia Dynasty.

They died in a panic!

This caused the true dragon of the demon dynasty to collapse.

As a result ...

The blessing that the National aura true dragon gave to the panicking demon dynasty's demon soldiers also disappeared.

“Your Majesty!”

“no! This can’t be real! it can’t be true!”

“how could his majesty die? How did he die?”

how did this happen?!

“No!”

on the battlefield.

Mo Changli, Cang Li, Tao Wu, and the other Level 4 demon generals, commanders, and countless demon soldiers couldn’t accept this reality.

Bang!

The headless body fell to the ground in a panic, smashing a deep pit in the ground.

It could be seen.

The panicking corpse turned back into a demon.

It was a demon from the heavenly Hound clan with purple wings and purple fur.

“panic is dead!”

MYL01 reached out and caught panicking’s head. It was a Purple dog’s head. Its eyes were wide open, and it died with regrets.

“!!!”

The demon soldiers were greatly shocked.

An emotion called 'fear' spread.

Bang!

MYL01 detonated the demon spirit energy and directly shattered the dog's head, turning it into a blood mist that dissipated into the sky.

“Bastard!”

Cang li was enraged, his blood started to burn, and he roared as he charged towards MYL01.

BOOM!

MYL01 raised his hand and sent a palm strike over. A powerful demonic spirit energy erupted and sent Cang li flying. Cang li spat out blood and screamed in pain. All the bones in his body seemed to have been broken.

cang li, who was already heavily injured by the small energy missiles of the mechanical giant soldier, was almost killed by a single palm from myl01. he fell to the ground, unable to get up.

kill!!!

BOOM!

MYL01 was no longer in a hurry to stop them. He was free to release the destructive storm again, directly destroying the Tier 4 military formation 'Dragon-Lion formation'.

“Ah!”

boom!

The colossal Dragon-Lion exploded.

It was completely shattered.

Mo Changli, Wu Chang Li, Xu Yi, and mangchong suffered a backlash from the destruction of the grade 4 battle formation. They fell from the sky while screaming in agony, spitting out fresh blood from their mouths. They were severely injured.

The grade 4 army formation collapsed.

Hundreds of thousands of demon soldiers were killed, and some even exploded.

From this, one could see how terrifying the backlash of a Grade 4 army formation was.

A type 4 army formation was powerful, able to withstand the attacks of a perfected-stage type 4, even 110 perfected-stage type 4 mech giant soldiers and 100 early-stage type 4 mech giant soldiers working together could not break through it.

But at the same time.

A Grade 4 army formation consumed a huge amount of energy, and the backlash was extremely terrifying.

This was the price.

Chapter 343 Refining

the panhuang dynasty is dead, and the grade 4 army formation has been broken. The two biggest obstacles in destroying the panhuang dynasty have been eliminated. Next, victory is basically assured.

Jiang Li looked at the battlefield and thought.

In reality.

That was indeed the case.

First of all ...

Jiang Li's Army also had ten million soldiers. At most, they were only two million fewer than the demon Army of the panicking demon dynasty.

The most important thing was the high-end combat power.

Jiang Li had 211 level-four meches, while the chaotic demon dynasty only had six level-four meches. Without a level-four battle formation, how could they fight against the mechanical giant soldiers?

In terms of numbers, it was a complete suppression!

Furthermore ...

Jiang Li now had hundreds of thousands of level three meches.

It was terrifying.

There were less than 10000 level-three demons in the panic demon dynasty.

The gap between them was even greater.

Then, there was the difference between the second and first rank.

They were on completely different levels.

so,

Even though there were two million more demon soldiers than Jiang Li's meches, it was still a drop in the ocean. The demon Army was no match for the army of destruction.

BOOM! BOOM! BOOM!

On the battlefield.

The small energy cannonballs exploded in the midst of the demon Army, forming small mushroom clouds and killing a large number of demon soldiers.

run!!!

"we're finished! We're all finished!"

"The panicking demon dynasty is finished!"

"!!!"

Their morale collapsed.

The demon soldiers began to flee in disorder. Even the demon regional Kings were fleeing. They no longer had the courage to continue fighting, especially when they saw the cannonballs that blotted out the sky and the nine-meter tall steel Giants.

He was simply the messenger of death.

They were harvesting the lives of the demon soldiers.

"Die!"

MYL01 attacked one after another. With his strength at the early stage of the fifth rank, he could easily crush the fourth rank demons.

mo changli, mang chong, wu chang li, xu yi, bi an ling, bi an, and cang li.

They all died in the hands of MYL01.

They were killed one by one.

the destruction legion attacked the chaotic yao dynasty and killed ten level-four demons. therefore, when myl01 killed yingying, a level-four soul tinder dropped.

buzzzzzz!

A pure Golden Soul Fire seed appeared and was captured by the mech.

Shua!

[acquired a Tier 4 soul Tinder!]

Of course.

the level-four soul fire seed was only part of jiang li's harvest. there were also a lot of level-one, level-two, and level-three soul fire seeds.

However, in this case ...

Jiang Li now had eight level-four soul Tinders. He could unlock 'energy destructions' or 'level-four mech Air Force' with one more.

The war continued.

It was already gradually coming to an end.

ten million demon soldiers, three million elite demon soldiers, one million imperial army demon soldiers, 10000 demon monarch elite soldiers, and a demon army of nearly 14 million.

After the morale of the Army collapsed.

The demon soldiers began to flee in all directions. They no longer had the courage to continue fighting. With so many demon soldiers fleeing in different directions, it was naturally more difficult to annihilate them.

However ...

Jiang Li's annihilation Corps had tens of millions of soldiers, so they chased after the demon soldiers one by one. They didn't let them go and almost 99% of them were killed.

Only a small number of demon soldiers managed to escape.

Small fish and shrimp were not a concern.

The war was over.

...

the destructive army obtained the final victory, killing the demon king, the ten million demon soldiers, and destroying the demon dynasty.

At this moment.

the morning of the second day came quietly.

The sun slowly rose from the East.

The afterglow of the early morning shone on the battlefield. Corpses were strewn all over the ground, spreading out for five kilometers. The entire outside of the capital city of panic was covered with demon corpses.

The battle lasted for an entire night.

To tell the truth.

It was indeed a problem to clear out so many corpses.

“hu ~~ hu ~ hu ~”

Jiang Li took a deep breath and relaxed. He was still worried before he really killed Yao Chao.

now.

...

The panicking demon dynasty had been destroyed, and the destructive Legion had won the final victory. They had achieved Jiang Li's goal.

destroy the Army, clean up the battlefield, collect the spoils of war, and collect all the resources of the panicking demon dynasty. Gather all the resources in the county cities and bring them back to the great Xia Dynasty.

” we don't need so many meches to clean up the battlefield and collect resources. ”
jiang li said, ” myl01, bring back the ‘purple dragon imperial decree’ of the panhuang demon kingdom. then, we only need ten perfected-stage level four meches, a hundred early-stage level four meches, three thousand perfected-stage level three meches, one hundred thousand level three meches, one million level two meches, and two million level one meches. ”

the rest of the meches, return to the Army base.

“Yes!”

MYL01 and the battlefield commanders immediately responded.

in reality.

In this battle.

Although they had won the final victory and successfully destroyed the panicking demon dynasty, they had obtained a massive amount of Soul Fire Seeds and a large number of resources.

but ...

The losses were also very heavy.

Although there were no detailed statistics, Jiang Li roughly estimated that they had lost at least three million meches, which was nearly one-third of the Army.

In order to take down the panicking demon dynasty.

Jiang Li also paid a big price.

However ...

It was all worth it.

Shua!

The Dominator panel opened.

Jiang Li looked at the soul Tinder.

[soul tinder: 1049720 level-one soul tinders, 78980 level-two soul tinders, 760 level-three soul tinders, 10 level-three demon soul tinders, 8 level-four soul tinders, 1 level-five demon soul tinder fragment]

this is the first time that the number of level-one soul Tinders has exceeded one million.

Jiang Li smiled.

Obviously.

The quality of the demon soldiers of the panic demon dynasty was very high, and there were many level-one demon soldiers. That was why so many level-one soul Tinders were dropped. For the first time, the number exceeded one million.

There were also 70000 to 80000 level-two soul Tinders.

furthermore ...

this was not all.

Jiang Li left more than three million meches to search for resources and trophies in the dynasty. There must be some demon soldiers left in the 158 counties.

Of course.

After the demons in the county cities of the panic demon dynasty received the news that the Imperial court had been destroyed, they would definitely escape immediately. They might even take the resources and escape.

so,

He had to speed up the pillaging and plundering.

He couldn't let the demons take away the resources.

After killing the remaining demon soldiers, he would probably be able to obtain a lot of Soul Fire Seeds.

“One-click fusion.”

Buzzzzzz!

fuse. Jiang Li activated the soul Tinder fusion function and fused all the level-one soul Tinders he got. The fusion interface appeared and a series of notifications popped up.

Finally.

[prompt: a total of 104972 fusions. 35000 successes and 69972 failures. You have obtained 35000 stage-two soul Tinders.]

“Continue.”

fuse the level-two soul Tinder. Jiang Li controlled the Dominator panel.

Buzzzzzz!

The fusion interface popped up.

The light flickered.

A series of notifications popped up.

finally.

All the stage-two soul Tinders had been fused.

[prompt: a total of 11398 fusions. 1900 successes and 9498 failures. You have obtained 1900 stage-three soul Tinders.]

one thousand nine hundred plus seven hundred and sixty, that's two thousand six hundred and sixty level-three soul Tinders.

Jiang Li thought.

fuse the third-stage soul Tinder.

Jiang Li continued to use the soul Tinder fusion function.

a few minutes later.

He had fused all 2660 stage-three soul Tinders, and he had tried 266 times in total. He had failed 237 times and succeeded 29 times.

in other words ...

Jiang Li got 29 level-four soul Tinders!

In addition to the eight that he already had.

there were a total of thirty-seven level-four soul tinders.

“thirty-seven.”

Jiang Li's smile grew wider. I've gained a lot this time. With these 37 level-four soul Tinders, not only can I unlock 'level-four mech Air Force', but I can also unlock' energy destructive soldiers 'and even some leftovers.

“roar!”

At this moment.

The Azure Dragon in Jiang Li's body was drawn by the invisible fate of the nation. It immediately rushed out of Jiang Li's dantian, ignoring the obstacles of the buildings.

It directly appeared in the air above the imperial capital of the Grand Xia.

The Azure Dragon of the great Xia Dynasty roared into the sky.

The Dragon roared.

It resounded throughout the capital.

“The Azure Dragon of the great Xia!”

“The true dragon of the nation has manifested again.”

“.....”

Within the capital.

The commoners raised their heads and looked at the Azure Dragon in the sky. They looked at him with respect and curiosity.

it could be said that ...

during this period of time.

the azure dragon of the great xia had appeared several times. the citizens of the imperial capital were already used to it. in the beginning, they were still rather shocked.

Now, he was already used to it.

“Whoosh!!!”

In the surrounding void.

that was the invisible fate of the nation that crossed space and came from the panicking demon dynasty. all of it surged towards the azure dragon of great xia. the azure dragon of great xia was like a magnet, and the invisible fate of the nation was like iron powder.

The magnet absorbed all the surrounding iron powder, and then turned it all into devouring.

the great Xia Dynasty’s fate is getting stronger again!

“Could it be that His Majesty has taken down another dynasty?”

“This Suan ni, this Suan ni”

“Too fierce, His Majesty is really too fierce.”

the great Xia Dynasty is developing too quickly. We can’t keep up with His Majesty’s pace. If it wasn’t for the strong fate of the country supporting it and affecting the People’s hearts, I’m afraid that all kinds of chaos and events would have happened in the country.

“Yup!”

“Sometimes, when compared to Your Majesty, I’m really too incompetent.”

“Isn’t that normal? Do you still want to be mentioned in the same breath as Her Majesty? hehe, funny!”

the ministers looked up at the true dragon in the sky and discussed.

“The Azure Dragon art of the great Xia Dynasty,”

Buzzzzzz!

Azure Dragon technique. Jiang Li sat down with his legs crossed and immediately used the Azure Dragon technique to help the Azure Dragon refine the invisible National aura that originally belonged to the panicky demon dynasty.

from head to toe.

The green light flickered.

This time, it took more time than Jiang Li had expected to refine the invisible National aura of the demon dynasty.

The growth of the country’s fortune was also beyond Jiang Li’s expectations.

One had to know.

None of the dynasties that Jiang Li had destroyed had a true dragon that was more than a thousand meters long. The purple dragon of the panic demon dynasty was more than 1500 meters long, which was even stronger than the Azure Dragon of the Xia Dynasty.

so,

This time, the refinement process lasted for an entire day and night.

It wasn’t until the morning of the next day that he finished refining all of them.

At this moment.

MYL01 and the others had already returned to the base.

Chapter 344 A breakthrough

In the air above the Grand Xia Palace.

bursts of azure light began to shine down. this was the incomparably vast and dense power of the nation's fate. it spread out, enveloping the entire imperial capital of the grand xia.

It seemed to have coated the imperial capital with a layer of green.

The citizens of great Xia in the capital were bathed in the radiance of the country's fate and were nourished by it. Their physical fitness was enhanced, and those with hidden illnesses were all getting better.

Obviously.

This was the gift given to the people of the dynasty after the country's fate became too strong and powerful. It could even slightly influence the People's hearts of the people of the dynasty.

“Roar!”

The great Xia Azure Dragon roared at the sky. It raised its mountain-like head. This time, the great Xia Azure Dragon had devoured all of the fate of the panicky demon dynasty. Its size had increased from 1500 meters to 2000 meters!

It had increased by five hundred meters.

It could be said that ...

The fate of the country had been greatly improved.

It had almost doubled.

Buzzzzzz! Buzzzzzz!

Immediately.

the azure dragon turned into a ray of azure light and disappeared into the air, returning to jiang li's body.

it was hovering in jiang li's dantian.

At the same time.

The 'Azure Dragon imperial decree' was also floating above the Azure Dragon of great Xia, and there were strands of Azure National aura flowing into the 'Azure Dragon imperial decree', nurturing the 'National aura Saint weapon'.

The luster became more and more dazzling.

Immediately after.

Jiang Li's consciousness started to communicate with the 'young dragon ranking-Saint peace state'. This time, the Azure Dragon of Xia had increased to two thousand meters.

Hence, his ranking had increased by five places.

it had risen from 70th to 65th.

The panicky demon dynasty had already been destroyed, so it naturally disappeared from the ‘young dragon ranking sub-ranking-holy peace state’. Moreover, the panicky demon dynasty was only ranked 69th.

buzzzzzz!

Immediately after.

A ray of purple light flew over and entered Jiang Li’s mind.

it was the ‘middle-grade slave contract’ that belonged to the panicking demon dynasty.

‘Congratulations on the great Xia Dynasty’s promotion, your ranking has risen by five places. Great Xia Azure Dragon technique.

shua!

The purple-gold light fell from the ‘young dragon ranking-Saint peace state’ and entered Jiang Li’s mind.

Optimize and improve the great Xia Azure Dragon technique.

Very quickly.

The great Xia Azure Dragon technique’s cultivation technique had been upgraded from level four mid-grade to level four high-grade.

It had been upgraded by one small grade.

After that.

After receiving the reward, Jiang Li’s consciousness returned to his body.

“great xia azure dragon technique!”

“Whoosh!!!”

let’s go. Jiang Li Ran his cultivation technique. After the upgrade, the power of the nation’s fate gave feedback to Jiang Li and helped him improve his cultivation.

he activated his cultivation technique.

Roar!

A series of Dragon roars rang out.

in the surroundings.

A vast amount of heaven and earth spiritual Qi was injected into Jiang Li’s body.

One had to know.

jiang li was already at the perfected stage of level three. after injecting the ‘level-one gene strengthening liquid’ and ‘level-two gene strengthening liquid’, his true qi and soul strength were far beyond that of an ordinary perfected stage of level three.

The difference between the fourth and third rank.

It was the combination of the ‘spirit’ and ‘true Qi’.

In other words ...

After the ‘soul’ and ‘true Qi’ merged, they would form an even more powerful ‘true origin’. True origin ‘was a higher level of power, far stronger than the’ innate true Qi ‘of the third level.

but ...

The illusory ‘power of the soul’ was difficult to capture and comprehend, let alone to integrate it with the ‘true Qi’. It was even more difficult.

...

so,

many perfected stage tier 3 martial artists were stuck at this step, unable to break through.

However ...

Jiang Li, on the other hand, didn’t have this problem.

thanks to the blessing of the nation, jiang li’s comprehension ability increased greatly. he seemed to have entered a state of enlightenment that he could only come across by luck. he easily captured the illusory ‘power of the divine soul’.

The power of the soul was invisible, but it was real. Jiang Li could clearly feel it and capture it. Then, it gradually combined with his ‘innate true Qi’.

“Roar!”

he activated his cultivation technique.

In his dantian.

the ‘power of the spirit’ and the ‘innate true qi’ were gradually merging, and a change was produced. after the mist-like green ‘innate true qi’ and the shapeless and intangible ‘power of the spirit’ merged, the ‘innate true qi’ started to change.

it immediately produced a qualitative change.

...

From 'mist', it gradually turned into 'liquid'.

Di da!

finally ...

When the first drop of 'true essence' was formed and dropped into his dantian, it sounded like water falling on water. Then, drops of 'true essence' condensed.

“Whoosh!!!”

jiang li's aura changed drastically. it kept rising and immediately broke through the perfected stage of level three and reached level four.

Time passed.

After an hour.

The 'innate true Qi' that filled Jiang Li's body and the 'power of the soul' had all merged and turned into liquid 'true essence'. It existed in his dantian and only filled up one-third of it.

Half an hour passed.

jiang li stabilized his cultivation.

“Hu ~~ Hu ~ Hu ~”

He opened his eyes, and a Green Dragon-shaped light flashed in his eyes. He had just broken through, so he could not hide his aura.

“I’ve succeeded.”

Buzzzzzz!

Jiang Li raised his right hand and opened his palm. He circulated his true essence and easily mobilized the spiritual Qi around him, forming a spiritual Qi Whirlpool in his palm.

“Initial-stage Tier 4!”

I’ve finally reached the early stage of level four and have the combat power of a National Guardian. It’s been a long time. Jiang Li smiled.

In reality.

In the northern region of the Holy peace state, all stage four National guardians had cultivated for decades, or even centuries, before reaching stage four.

There were even some who were at the perfected stage of Tier 3, unable to break through in their entire lives due to insufficient aptitude.

He calculated carefully.

It had only been half a year, but Jiang Li had advanced from an unranked martial artist to the early stage of level four.

To tell the truth.

Such a speed of improvement.

It was like riding a rocket.

It was so fast that it flew.

He was already comparable to the monstrous geniuses of the Imperial dynasties.

of course.

This was mainly because after Jiang Li established the great Xia Dynasty, he took down several dynasties with his mech Army and devoured the fate of other countries to strengthen himself.

Otherwise, he would not have been able to improve so quickly.

He might still be in the 2nd rank.

“Chief sovereign.”

MYL01 had been waiting outside the room in the control center since he came back. Since Jiang Li was cultivating in seclusion, he didn't dare to disturb him and just waited outside.

“Come in.”

jiang li said.

Hidden Dragon opened the door.

MYL01 walked into the room.

“This is the ‘purple dragon imperial decree’ that you wanted, my Lord.”

thank you. MYL01 handed the purple scroll to Jiang Li respectfully.

“Yes.”

okay. Jiang Li took it.

buzzzzzz!

Immediately after.

the ‘green dragon imperial decree’ in his dantian was attracted and wanted to rush out and devour the ‘purple dragon imperial decree’ in jiang li’s hand.

The panicking demon dynasty had already perished.

the true dragon of the country’s fate had been defeated.

It was natural.

the sacred artifact that originally belonged to the ‘panicking demon dynasty’ had already lost all its power. its luster had dimmed, and it looked like an ordinary scroll.

He couldn’t feel any power.

but ...

The essence of the ‘National fortune Saint weapon’ was from the ‘young dragon ranking’.

jiang li slowly opened the ‘purple dragon imperial decree’. on the back of the imperial decree was a lifelike three-clawed purple dragon, and on the front was a line of words.

he wrote:

the panhuang demon dynasty was established in 'Saint an calendar year 017580' and was destroyed in 'Saint an calendar year 018680'. It has existed for 1100 years and has been a demon dynasty for a thousand years.

"A thousand-year dynasty."

Jiang Li said to himself.

"Green Dragon imperial decree."

Shua!

Jiang Li waved his right hand and the 'Green Dragon imperial edict' appeared. It glowed with a green light. It was extremely powerful when the country was at its peak.

"Devour!"

Buzzzzzz!

Jiang Li controlled the Green Dragon imperial decree. The scroll opened automatically. A three-clawed Green Dragon rushed out and pounced on the purple dragon imperial decree in Jiang Li's left hand.

The next moment.

the three-clawed green dragon merged with it, and the 'purple dragon imperial decree' emitted a purple light. like lightning, it resisted the invasion of the green light.

but ...

the panicking demon dynasty had already been destroyed, and the 'purple dragon imperial edict' had no source of power. its resistance became weaker and weaker, and finally, a dragon's cry could be heard faintly.

BOOM!

The purple light of the purple dragon Saint decree had completely disappeared. The green light had completely tainted the purple dragon Saint decree, turning it into a dazzling green.

“Whoosh!”

In the end.

The ‘purple dragon imperial decree’ turned into a ball of light and merged into the ‘Green Dragon imperial decree’.

BOOM! BOOM! BOOM!

The ‘Green Dragon imperial decree’ vibrated, and the scroll floated in the air. Two three-clawed Green Dragons circled around the ‘Green Dragon imperial decree’ and merged into it.

shua!

Jiang Li raised his hand and the ‘Green Dragon imperial edict’ fell into his right hand.

It became quiet.

the devouring was complete.

“alright,” he said.

jiang li felt the change of the ‘green dragon imperial decree’. after devouring the ‘purple dragon imperial decree’, his ‘green dragon imperial decree’ was clearly stronger.

Its power had doubled.

on the back of the ‘green dragon imperial edict’.

There used to be only one three-clawed Green Dragon, but now there were two.

Of course.

As for how much power it could unleash.

It still needed to be tested in actual combat.

Buzzzzzz!

the ‘green dragon imperial decree’ flashed and disappeared. it returned to jiang li’s dantian and continued to be nourished by the fate of the xia dynasty.

“Chief sovereign.”

QX01 walked in from outside.

“What’s the matter?”

Jiang Li asked.

my Lord, I didn’t report this to you because you were in seclusion. However, the No. 1 air Scout team has sent news that they have already figured out the origins of the Barbarian Army and the demon Army that invaded the great Wei Dynasty.

qx01 said.

“Speak,” he said.

Jiang Li said.

the Barbarian Army is from the Barbarian dynasty, which is one of the border countries of the great Wei Dynasty. The demon Army is the great army of the spirit Moon Demon Kingdom. The great Wei imperial court sent out ten million soldiers from the county city and intercepted the ten million demon soldiers of the spirit Moon Demon Kingdom.

QX01 reported in detail, ” the Barbarian Army of the Barbarian dynasty was blocked by the Western Garrison Army, one of the four National Guardian armies of the Wei Dynasty.

“Oh.”

the Wei Dynasty is indeed powerful. Jiang Li muttered, ” they stopped the invasion of the two kingdoms so quickly.

continue to have air reconnaissance unit one keep an eye on them.

go! Jiang Li ordered.

“Yes.”

QX01 nodded and immediately gave Jiang Li’s order.

On the other side.

The Wei Dynasty.

Wu Fu County.

Its geographical location was on the eastern edge of the great Wei Dynasty. It was naturally very far from the capital of the great Wei Dynasty, only two counties away from the country of Donglin.

at this moment.

Wu Fu County had already become a war-torn land.

The ten million spirit Moon Demon soldiers led by the fifth stage spirit were intercepted by the ten million soldiers of the great Wei imperial court, and an extremely intense battle broke out between the two sides.

Tens of millions of armies clashed.

naturally, it caused a terrifying aftershock on the battlefield.

The battle cries of the two legions shook the heavens.

Blood flowed like a river.

Chapter 345 shock

Shua! Shua!

In the air.

There were a number of drones hidden in the clouds, flying high in the sky and recording the entire battlefield.

After that.

They were all sent to QX01.

buzzzzzz!

QX01 formed a holographic projection and it was clearly displayed in Jiang Li's sight.

In the projection.

The battlefield was smaller. In Jiang Li's eyes, the tens of millions of human and monster soldiers were like ants.

“They’ve already started.”

Jiang Li observed the situation on the battlefield. The monster army of the spirit moon Fey Kingdom and the human army of the Wei Dynasty were almost evenly matched. It was impossible to determine the winner in a short time.

Furthermore ...

Their high-end combat power was also almost the same.

Roar! “Roar!”

In the air above the battlefield.

The grade 4 army formation had already been set up.

It could be seen.

The rank 4 formation of the spirit Moon Demon Kingdom's Army was a Nine-Tailed giant fox that was completely black in color. Its body had already reached the height of ten thousand meters.

The rank 4 formation of the Wei Dynasty was not weak either. Its power was overwhelming. The combination of the military Qi, the spiritual Qi of heaven and earth, and the inner force and true Qi condensed into a vast black flood Dragon.

Its body was ten thousand meters long.

The two Grade 4 battle formation beasts fought.

“BOOM!”

Waves of energy storms spread out.

In the surroundings.

One by one, the mountains collapsed.

The ground cracked.

It contained a destructive power.

“Damn it!”

The fivefold spirit stood in the air and looked around the battlefield with a gloomy expression.

To tell the truth.

He had not expected that he would encounter such a powerful obstruction before he even entered the Wei Dynasty’s interior and was only at the border.

One had to know.

This battle had already been going on for a day and a night.

Both sides suffered heavy losses.

Furthermore ...

The fivefold spirit did not see any hope of victory.

“How could the Wei Dynasty be so powerful?”

The fivefold spirit murmured in a deep voice.

Not far away.

BOOM! BOOM! boom!

Several rank 4 spirit moon generals were fighting against the elders of The Guardian Pavilion from the Wei Dynasty. The battle was extremely loud, and it was difficult to determine the winner.

“5th layer spirit!”

Buzzzzzz!

At this moment.

The Commander-in-Chief ‘mo Wuji’ flew into the air and charged over from the back of the Army. He streaked across the sky like a bolt of lightning.

Shua!

It was a huge blood-red sword light.

“Mo Wuji!”

The fivefold Spirit’s pupils contracted.

BOOM!

the fivefold spirit struck out with his palm and his bloodline power condensed into a huge palm print that was as large as a mountain. it blocked mo wuji's attack.

"A mere spirit moon Fey Kingdom dares to invade the great Wei Dynasty?"

"You don't know what's good for you."

...

"Today, I, the general, will make sure that the spirit Moon Demon Army will never be able to return!" Mo Wuji shouted.

"laughable."

The fivefold spirit snorted coldly. you're still far from that.

"Roar!"

As soon as he finished speaking.

The bloodline Dharma of the 5th layer spirit was revealed, and it was a 'Howling Moon Silver Wolf'. It let out a howl and its huge claws slashed towards mo Wuji.

"Martial arts! Universe severing blade!"

Thump!

Mo Wuji shouted as he gathered a vast amount of martial arts Zhen Yuan and slashed out with his blade. The blade swept across the sky and blocked the wolf Claw of the 5th layer spirit beast. The blade light and the wolf Claw exploded at the same time.

Bang Bang Bang Bang!

The two sides clashed, and the battle was intense.

...

“both of them are at the peak of the perfected stage of rank four.”

Jiang Li observed the battlefield through ‘No. 1 air Scout team’ and learned the strength of the spirit Moon Kingdom and the Wei Dynasty.

In reality.

Jiang Li was wondering if he should get involved.

However, before he was clear about the true strength of the great Wei Dynasty, he should not act rashly.

Let’s wait and see.

However ...

What Jiang Li didn’t know was that ...

The sudden disappearance of the ‘panicking demon dynasty’ from the ‘young dragon ranking-holy peace state’ had already caused-huge commotion in the northern region of the Holy peace state.

One had to know.

The panicky demon dynasty was not a weak dynasty.

It was a thousand-year-old dynasty that had existed for a thousand years.

The country was at its peak.

in the entire northern region of the holy peace region, it could be ranked at the top.

however ...

All of a sudden.

almost without any warning, warning, or news, the panicking demon dynasty disappeared from the 'young dragon ranking-holy peace state'.

He disappeared from the young dragon ranking.

There was only one possibility.

That would be 'perdition'.

The panicking demon dynasty was destroyed!

Barbarian dynasty.

In the palace.

"This bi an ..."

Xing Jiali's consciousness returned, and his face was still filled with shock. how is this possible? What is going on?"

"Your Majesty, what happened?"

Prime Minister Mi Yue asked.

“The panicking demon dynasty has been destroyed.”

Xing Jiuli took a deep breath and said in a deep voice.

“What?”

Chu Yue’s eyes widened. the panicky demon dynasty was destroyed? ” This was a thousand-year-old dynasty. How could it be destroyed just like that? There wasn’t even any sign of it?”

“This Suan ni, this Suan ni”

“Who is it? Which dynasty did it? to be able to possess such strength!”

Within the palace.

The ministers were shocked.

“The Grand Xia Dynasty.”

“because on the second day after the fall of the panicking demon dynasty, the great xia dynasty’s ranking rose from 70th to 65th,” xing jiuli said in a deep voice.

“The great Xia?”

“How is that possible?”

is it the newly-established human dynasty? ”

“Great Xia has only been established for a month!”

“Si si si ...”

the ministers all gasped.

first, it was the Prince of Wei who went into seclusion in an attempt to break through. Now, it's the rising great Xia Dynasty. Could it be that the humans in the northern region of the Holy peace state are about to rise? ”

Xing Jiuli's eyes were heavy. pass down my order. Send messengers to the lion barbarian kingdom, Black Dragon barbarian kingdom, and other barbarian dynasties to discuss the Alliance.

“yes!”

“We will do as you command!”

the ministers all nodded in response.

the spirit moon fey kingdom.

In the palace.

“Why is it great Xia again?”

Naturally-Ling Yue had also seen the changes in the rankings of the ‘young dragon ranking-holy peace state’. the panicky demon dynasty was actually destroyed by the great Xia Dynasty.

“I'm afraid Ma Lin and green spirit are doomed.”

“.....”

Ling Yue's expression was grave.

Obviously.

The situation had gradually gone out of her expectations and control. The death of Ma Lin and green spirit had caused the spirit moon Fey Kingdom to lose two of their most powerful forces.

Furthermore ...

The news from the frontlines that the fivefold spirit realm had sent over was not what Ling Yue had expected. They had broken into the capital of the great Wei Kingdom with irresistible force, but they had actually been stopped at the martial Palace County.

Lion barbarian kingdom.

In The Leo king's palace.

“Bad news, bad news.”

Shi Qingtian paced back and forth with an uneasy expression.

In reality.

The panic demon dynasty was ranked 69th, while the lion barbarian kingdom was ranked 68th.

When Shi Qingtian was communicating with the ‘young dragon ranking’, he saw the panicking demon dynasty disappear from the young dragon ranking.

At that time.

Shi Qingtian had thought that the panicky demon dynasty's fate might have increased and its ranking had surpassed the lion barbarian kingdom. That was why Shi Qingtian had not seen it.

After all, this kind of thing had happened quite often in the past.

but ...

On the second day.

the great xia dynasty, which was ranked 70th, had also disappeared.

Shi Qingtian felt that something was wrong.

Not long after.

Shi Qingtian received the news. It was an urgent report from the Barbarian spies that he had arranged to stay in the panicky demon dynasty. The panicky demon dynasty had been destroyed.

What made Shi Qingtian feel fear was ...

It was the great Xia Dynasty that destroyed the panic demon dynasty.

the strength of the lion barbarian kingdom and the panicky demon dynasty is almost the same. If the great Xia Dynasty can destroy the panicky demon dynasty, it can also deal with the lion barbarian kingdom.

Shi Qingtian's mood was very heavy. it shouldn't be for the time being. The great Xia Dynasty has just finished the war with the panicky demon dynasty. They must have lost a lot of soldiers. They shouldn't dare to attack the lion barbarian kingdom again.

"Men!"

Shi Qingtian shouted.

"your subject is here."

Outside the door.

A barbarian soldier came in immediately.

“Spread the news that Luo manxiao is here to see me.”

Shi Qingtian said.

“Yes.”

The Barbarian soldier nodded and left.

A few minutes later.

Chu manxiao arrived.

“Your humble servant man Xiao pays his respects to Your Majesty.”

Chu manxiao was a burly middle-aged barbarian with a high official position. His cultivation was also at the perfected stage of the fourth level, so his status in the lion barbarian kingdom was naturally very high.

Shi Qingtian trusted him deeply.

He was appointed as the general of the elite Barbarian Army of the lion barbarian kingdom.

“Yes.”

Shi Qingtian nodded and said, ” Chu manxiao, immediately lead the elite Barbarian Army and head to nanyi County at the fastest speed. Keep an eye on the great Xia Dynasty. If there are any unusual movements in the great Xia Dynasty, report it immediately.

“Yes, sir.”

Although Chu manxiao was puzzled, he did not ask further and nodded.

“Chu manxiao, you have to keep a close eye on the Grand Xia Dynasty.”

Shi Qingtian reminded him again, ” just a few days ago, the panicking demon dynasty was destroyed by the great Xia Dynasty. Therefore, you must not let your guard down.

“!!!”

Chu manxiao raised his head and widened his eyes, his face full of disbelief.

The panicking demon dynasty was destroyed?

The panic demon dynasty, which was on par with the lion barbarian kingdom, had been destroyed!

Shocking!

Chu manxiao was extremely shocked.

“Hurry up and go.”

shi qingtian waved his hand.

“Yes.”

chu manxiao came back to his senses and nodded solemnly.

“Hu ~~ Hu ~ Hu ~”

Shi Qingtian took a deep breath, ” we can’t go on like this. We have to find a way to get reinforcements. Otherwise, I’ll feel a little uneasy.

the territory of the panhuang dynasty was too vast. after jiang li’s ‘destruction legion’ had plundered all the resources in the panhuang dynasty’s capital, they spread out and plundered the resources in many demon countries.

Even though the ‘annihilation Corps’ acted as quickly as possible, there were still many demons who took the resources and supplies of the county city and escaped from the panicking demon dynasty.

This was something that could not be helped.

Fortunately ...

The losses weren’t huge.

after all, most of the resources were concentrated in the capital of panic.

In the evening.

The ‘annihilation Corps’ had already plundered most of the resources in the panicking demon dynasty’s territory, and the 20000 large military transport planes were already fully loaded.

Hence.

The ‘army of destruction’ had started their return journey.

The great Xia Dynasty.

in the army base.

Jiang Li received the news that the ‘army of destruction’ was preparing to return.

“Alright,” he said.

okay. Jiang Li nodded.

kill!!!

Suddenly.

from the holographic image projected by qx01, there was a clear and loud battle cry. jiang li immediately looked over and saw a scene that surprised him.

In the image.

It was the battlefield between the spirit moon Fey Kingdom’s Army and the Wei Dynasty’s Army.

The victor had yet to be decided.

They had been fighting for two days and one night.

Whether it was the spirit Moon Demon Kingdom or the great Wei Dynasty, they had both lost millions of soldiers, causing the grade 4 army formation to be unable to be maintained. The Army formation behemoth had already disappeared.

* Cough cough *

the 5th layer spirit and mo wuji were also injured.

but ...

At this moment.

The Wei Dynasty's reinforcements had arrived.

Chapter 346 The first batch

in reality.

The number of reinforcements from the Wei Dynasty was not large.

Only 10,000!

However ...

These 10,000 reinforcements had come through the air.

in other words ...

This was an elite force of 10000 type 3 Xiantian realm experts!

Furthermore ...

This group was led by 10 rank 4 Pavilion elders, with Feng chenzi as the leader.

Ten 4th rank.

10,000 type 3 experts.

“Kill!”

Feng chenzi waved his horsetail whisk and his Zhen Yuan turned into a vast lightning. Like a pillar of lightning, it directly fell into the demon Army.

boom!

The Thunderbolts exploded, and lightning shot out in all directions, turning into a sea of lightning.

“Ah!”

The demon soldiers cried out in pain. At least ten thousand demon soldiers had died.

The corpse turned into charcoal.

“Attack!”

Shua! Shua! Shua!

Immediately.

10,000 level three inborn experts charged into the battlefield.

“What?”

The fivefold Spirit’s pupils contracted.

Obviously.

the addition of 10 stage-four and 10000 stage-three experts was enough to turn the tide of the battle. if they did not retreat now, they might not have the chance anymore. at that time, they might really be wiped out.

“Retreat!”

Without any hesitation.

The 5th layer spirit roared and exploded with all his strength, forcing mo Wuji to retreat. He then gave the order for the demon Army to retreat.

“Hahahahaha!”

mo wuji laughed maniacally, “5th layer spirit, why are you running now?” If you have the guts, then stay and fight another 300 rounds with this general.”

“All troops, hear my order! kill him!”

” charge!!! ”

“Kill!”

BOOM! BOOM! BOOM!

The great Wei Dynasty’s Army immediately pursued the demon Army of the spirit Moon Demon Kingdom.

“.....”

Jiang Li fell into deep thought as he looked at the battlefield.

Obviously.

With the arrival of the great Wei Dynasty’s 10 Tier 4 and 10000 Tier 3 reinforcements, the spirit Moon Demon Kingdom’s demon Army was naturally unable to resist, and their defeat was certain.

They started to retreat.

Of course.

Mo Wuji led the great Wei's human army to beat the dog while it was down. They pursued with all their might and killed many demon soldiers, but they didn't go too deep.

After Chasing the Demon Army led by the fifth level spirit out of the Wei Dynasty, he stopped in time.

Because mo Wuji was very clear.

With the military strength of the county's main Army, even if they were able to annihilate the demon Army of the fifth level spirit, they would have to pay a heavy price. They would suffer 1000 losses to the enemy and 800 losses to themselves.

If they were forced too hard, the five-layered spirit would rather die than live in dishonor.

The power of the Wei Dynasty would also suffer a huge loss.

One had to know.

Every human soldier of the great Wei Dynasty had to go through a long period of training before they could pass.

It was not like Jiang Li's meches, which could be replenished immediately.

The lost soldiers needed time to be trained.

“Many thanks for Feng chenzi and Minister Wen's timely assistance.”

...

Mo Wuji cupped his hands in greeting.

“General mo is too polite.”

Feng chenzi cupped his hands in return and said,”as subjects of great Wei, we naturally have to help each other. Facing the invasion of an enemy, we should work together ..”

“Hahahahaha!”

Mo Wuji laughed out loud, ” Feng chenzi, Minister Wen, you are right. I was wrong.

“General mo.”

Feng chenzi continued,”I’m not only here to assist you, but also to ask you for a favor ..”

“What’s the matter?”

Mo Wuji asked.

I hope that general mo can continue to lead the prefecture capital’s Army to guard the border Prefecture, in case the spirit Moon Demon Kingdom invades again and blocks the enemy’s Army outside.

Feng chenzi said.

...

“This bi an ...”

mo wuji pondered for a moment before raising his head, ” “Alright, since Feng chenzi has said so, then I will stay in the border Prefecture and intimidate the enemy.”

“Thank you for your hard work, general mo.”

Feng chenzi bowed.

Soon after.

Feng chenzi and the others left.

He returned to the capital of the great Wei Kingdom.

“.....”

mo wuji looked on and remained silent.

On the other side.

Wei Wuxian led the northern Battlefront Army to support the Western Battlefront Army. After the two armies met up, the Barbarian dynasty’s five million troops were naturally defeated by the Joint Forces of the Western and Northern Battlefront Army.

the barbarian dynasty and the spirit moon demon kingdom had joined forces to invade the great wei dynasty, but they were all repelled by the great wei dynasty.

“They were all forced back.”

jiang li received the news from air scout no. 1 and thought, ” the Wei Dynasty’s national power is indeed extraordinary. It doesn’t seem like what it appears on the surface.

“he’s hidden very well.”

they easily dispatched ten Tier 4 and ten thousand Tier 3 reinforcements. I’m afraid that there are even stronger forces and troops hidden in the dark. In addition to King Wei’s seclusion, if he successfully breaks through, he’ll have the unparalleled combat power of an early-stage Tier 5.

” combined with the fate of the dynasty and the power of a sacred weapon, i’m afraid even myl01 is no match for king wei. ”

Shua!

The communication was shut down.

Jiang Li ended the communication and the holographic projection disappeared.

The armies of the spirit moon Fey Kingdom and the Barbarian dynasty had been defeated by the Wei Army. Jiang Li naturally couldn’t get involved at this time, nor did he plan to send troops into the Wei Dynasty.

The Dominator panel opened.

Currently.

The level-four soul Tinder was enough, but the energy points were not enough to unlock the ‘level-four mechanical air Force’. He could only wait until the’ destruction Legion ‘brought back the resources of the chaotic demon dynasty.

Only then would he be able to unlock the ‘stage four mechanical air Force’.

first, unlock the energy explosive soldiers.

jiang li used eight level-four soul tinders.

shua!

Eight pure gold level-four soul Tinders were integrated into the ‘energy destructive soldier’ column.

[energy destructive soldier has been successfully unlocked!]

a notification appeared.

“yes.”

okay. Jiang Li nodded.

There were still 29 fourth-tier soul Tinders left.

Lord, the third aerial scout team has news.

QX01 said.

“Answer.”

Jiang Li said.

“yes.”

Buzzzzzz!

The communication was connected.

the holographic projection was displayed.

“Chief sovereign.”

Jiang Li! zh012 showed up and saluted.

“Report the situation.”

Jiang Li said.

“Yes.”

Zh012 nodded and reported, “my Lord, the third scouting unit has discovered that within the territory of the lion barbarian kingdom, a large number of barbarian soldiers have appeared in nanyi County, which is close to the great Xia Dynasty’s border.

however, this barbarian Army doesn’t show any signs of invading the great Xia Dynasty. Instead, they are stationed in nanyi County and seem to be keeping an eye on the great Xia Dynasty.

“Oh.”

Jiang Li muttered.

“Continue to keep an eye on him.”

jiang li said.

“yes.”

Zh012 nodded.

Soon after.

Jiang Li ended the communication.

“It seems that Shi Qingtian has become vigilant.”

Jiang Li said to himself.

It was obvious.

The panicking demon dynasty was destroyed.

This news could not be concealed.

In particular, there was the existence of the ‘young dragon ranking sub-list-holy peace state’. After the fall of the panicking demon dynasty, it disappeared from the sub-list, and the great Xia Dynasty’s ranking rose the next day.

Such an obvious change.

As long as he wasn’t stupid.

They could basically guess that the great Xia Dynasty had destroyed the panicking demon dynasty.

In other words ...

The great Xia Dynasty had gradually entered the sights of those powerful dynasties.

The panicking demon dynasty.

It was a demon dynasty that had existed for a thousand years.

In such a short time.

they were destroyed by the great xia dynasty.

It was enough to make those powerful countries wary.

Even ...

Jiang Li could guess.

In the following period of time, there would probably be spies from many powerful countries entering the great Xia Dynasty's borders to try their best to find out the truth about the great Xia Dynasty.

There would be a lot of trouble.

At night.

Jiang Li went back to the great Xia Palace to rest.

The next day arrived.

Early in the morning.

Jiang Li woke up. With su yanyue and su you's help, he changed his clothes and went to the Azure Dragon Palace after breakfast.

The routine morning court.

The ministers stood in the Azure Dragon Hall.

They reported to Jiang Li about the situation.

Among them.

Within the great Xia province.

Tianshui city, Pingding city, five lakes city, and hope City.

Four cities.

The first batch of medicinal herbs planted had already begun to be harvested. Although there were not many, it was still the first harvest.

“Your Majesty.”

there are four cities, ” han Liqi reported. the first batch of medicinal fields has been opened up in each city. Each mu can produce about 1000 medicinal herbs.

“If nothing unexpected happens, we should be able to harvest around 40 million stalks from the first batch of medicinal ingredients.”

“However, this batch of medicinal herbs has only been planted for a short time, and they rely on the ‘ripening array’, so the medicinal strength will be very poor.”

“oh.”

I’ll get 40 million in the first batch. Jiang Li raised his eyebrows.

“Yes, I am.”

Han Liqi replied.

“Yes.”

okay. Jiang Li nodded.

One had to know.

And this was only the first batch of the great Xia province's production. In just a month, they had already harvested 40 million stalks of ordinary medicinal herbs that were ten years old.

They were converted into energy points.

that would be 40 million points.

Currently.

The size of the great Xia Dynasty's territory.

This included the black snake barbarian kingdom, the ash Wolf Kingdom, the red-browed demon Kingdom, the panic demon dynasty, and the great Qian dynasty. Together, they formed the vast territory of the great Xia Dynasty.

Among them.

There were 35 counties of the black snake barbarian kingdom, 30 counties of the Cang lang Kingdom, 35 counties of the red eyebrows demon Kingdom, 36 counties of the great Qian dynasty, and 158 counties of the panic demon dynasty.

Adding them up.

There were a total of 294 counties!

These territories.

if they were all plowed out and used to plant medicinal herbs ...

It was only a rough estimate.

Jiang Li would gain 11.76 billion energy points every month.

This was not a small number.

A year passed.

That would be over 100 billion.

Of course.

It would not be an easy task to reclaim all the territories this time.

At the very least.

It was impossible for the great Xia Dynasty to achieve this in a short period of time with its population.

“I’ll leave the matter of purchasing medicinal herbs to your medicine Pavilion.”

” the medicine pavilion’s policy is very important, ” jiang li said. ” we can’t be careless. ”

the price of the medicinal herbs will be based on the market price. There can not be a reduction, and there can not be any corruption.

“And we must let the people in the country know and understand that the medicinal herbs they grow will not be unable to be sold.”

“The Imperial court will buy all of them.”

“yes!”

han liqi and the others nodded. ” we will definitely complete the mission. ”

Time passed.

The morning court session ended.

let's go. Jiang Li left the Azure Dragon Palace and headed to the base.

The 'Army of annihilation' had returned to the imperial capital of the Grand Xia at dawn.

The spoils of war had already been transported. The resources that could be converted into energy points were all transported into the Army base by the meches.

Those that could not be converted into energy points were placed in the great Xia Treasury.

Speaking of this.

As the spoils of war and resources increased, great Xia's Treasury had no choice but to expand once again.

Chapter 347 The map

In the Army base.

Jiang Li looked at the herbs and spirit herbs piled up on the ground. The smell of herbs hit his face.

He was in a good mood.

One had to know.

Jiang Li's gains in the chaotic demon dynasty far exceeded his expectations.

The empty space in the Army base could not fit all of them. There were still many resources that had not been transported in and were still in the cabin of the transport plane.

the medicinal herbs in front of him were piled up in an extremely random manner, and it even caused many medicinal herbs and spirit herbs to break.

the breaking of the medicinal herbs would even affect the medicinal strength, causing the medicinal strength to be lost.

moreover, if they were to be sold, the appearance would be too bad, and the price would be reduced by several percent.

However ...

This didn't affect Jiang Li.

jiang li only needed energy points. the breaking of herbs and the loss of medicinal power wouldn't affect the acquisition of energy points.

“Chief sovereign.”

Jiang Li! zh01 and the others walked over and saluted.

“Yes.”

Jiang Li glanced at them, then checked the information of zh01 and the others.

He found that after this period of study, he had become more and more powerful.

Zh01's learning skill had already been upgraded by a few grades.

It had already reached the level of Tier 2 Supreme-grade.

“All of your skills have already reached the peak of Tier 2.”

that’s great. Jiang Li’s eyes lit up. you’re improving very quickly. I think you’ll be able to reach level three soon. Then, you can learn new abilities.

“Reporting to the hegemon, it won’t be that easy.”

Zh01 and the others nodded before explaining, ” it’s faster to improve before Tier 3, but it’ll still take some time to improve to Tier 3 Supreme-grade.

“How long will it take?”

Jiang Li asked.

“About a month.”

Zh01 replied.

“that’s not too slow.”

Jiang Li said.

“My Lord, your subordinate found a few items in the panicked private Treasury. They should be of use to you,”

Zh01 said.

“What kind of item?”

Jiang Li asked.

“chief sovereign, please take a look.”

zh01 and the others took out the items and put them in front of jiang li.

First of all ...

The first item was an exquisite purple wooden box the size of a palm.

he opened it.

There were ten crystal clear spiritual crystals inside.

However ...

These ten crystals were different from the ones Jiang Li had seen before.

The lower spiritual crystals were grayish-white while the middle spiritual crystals were pure white.

The upper spiritual crystal was white and transparent.

shua!

[discovered item that can be converted into energy points. do you want to convert it?!]

The upgrade appeared.

“Yes.”

yes. Jiang Li confirmed.

A white light flashed.

All ten upper spiritual crystals disappeared.

Shua!

conversion successful. One billion energy points obtained!

A notification appeared.

...

“One billion.”

energy points? ” Jiang Li raised his eyebrows in surprise. so, one upper spiritual crystal can be converted into 100 million energy points.

it’s 100 times the value of middle spiritual crystals and 10000 times that of lower spiritual crystals.

Soon after.

Jiang Li put down the empty wooden box and picked up the second item.

It was also a purple wooden box.

After the wooden box was opened.

There were three purple stones inside, wrapped in lightning.

It was a material that contained lightning attribute.

“What is this?”

Jiang Li looked at it. He didn't know what material it was.

...

However, it was definitely not ordinary. Jiang Li could feel the powerful Thunder energy contained in it.

He thought about it carefully.

cang huang's bloodline was the purple-winged heavenly dog, which had a powerful lightning-attribute bloodline.

It was possible that these were the materials that panicking had specially collected for himself.

It would be helpful to his bloodline.

Finally.

The third item.

It was a Jade slip, and it should have recorded some information.

Buzzzzzz!

okay. Jiang Li circulated his true Yuan and injected it into the Jade slip.

“Whoosh!”

The next moment.

The Jade slip turned into an illusionary projection and appeared in front of Jiang Li.

It slowly unfolded.

It was a detailed and clear map.

“A map!”

Jiang Li looked at the map carefully.

It was written on the top, “northern region of holy peace state.”

“This should be a map of the entire northern region of the Holy peace state.”

Jiang Li understood.

Immediately.

A happy expression appeared on his face.

One had to know.

Although Jiang Li had established the great Xia Dynasty and taken down several dynasty territories, his strength and power had been greatly enhanced.

but ...

He didn't have much knowledge and understanding of this world.

for example, what was the ‘san an calendar’, when it started, and who decided it.

There was more.

how big was the holy peace state? besides the dynasties, how many imperial dynasties were there? did they even have an emperor dynasty?

The great Xia Dynasty was also in the region of the Holy peace state.

Wait, wait, wait.

Jiang Li didn't know any of this.

now.

After Jiang Li got the map, he finally had some basic understanding of the Holy peace state.

Soon after.

Jiang Li started to read the map of the northern region carefully.

However ...

Jiang Li didn't find the Xia Dynasty, but he found the great Qian dynasty, the red-browed Empire, and the panic Empire that had been destroyed by the Xia Dynasty.

Obviously.

this map was from a long time ago. at the very least, it was created before the great xia dynasty was established.

Naturally, the Grand Xia Dynasty was not recorded.

however, it also had a certain reference value.

Very quickly.

Jiang Li found the Wei Dynasty, the spirit Moon Kingdom, the lion barbarian kingdom, and the Barbarian dynasty on the map.

Other than that.

The great Wei Dynasty was located in the southernmost part of the northern region of the Holy peace state.

To the southwest and South of the northern region of the Holy peace state was an ocean that stretched as far as the eye could see.

It was only marked with the name 'Black Sea'.

The northeast and the East were vast deserts.

It was labeled as 'desert of death'.

Finally.

To the West of the Northern Territory was an endless forest, in which countless fierce beasts resided.

Furthermore ...

There were also many other races hidden within.

Only the North was still normal.

"i see."

the great Xia Dynasty is probably in the southeast of the northern region of the Holy-peace state. Jiang Li looked at the map.

” the wei dynasty is in the southernmost part of the northern territory. ”

It was recorded on the map.

There were a total of 24 dynasties in the northern region of the Holy peace state.

There was no dynasty.

on the surface, the strongest three great empires were: The Black Dragon barbarian kingdom, the Shu Kingdom, and the sky demon Kingdom.

The sky Fey Kingdom was located in the center of the northern region of the Holy peace state.

the shu nation’s territory spanned across the northeast and north of the holy peace state.

It was shaped like a crescent moon.

In other words ...

the border of the shu country was the ‘desert of death’.

The Black Dragon barbarian kingdom was located in the West of the northern region of the Holy peace state.

Near The Endless Forest.

The Black Dragon barbarian kingdom and the Barbarian kingdom were very close to each other.

There was only one demon dynasty.

It was called the little sky Fey Kingdom.

It was obvious.

The reason why the little sky Fey Kingdom could survive was because of its protection.

Furthermore ...

The little sky Fey Kingdom had been deliberately placed between the Black Dragon barbarian kingdom and the Barbarian kingdom.

The purpose was to control.

To avoid an Alliance between the two countries.

“24 dynasties.”

that’s in the past. There should only be 20 dynasties left in the northern region of the Holy peace state, including the great Xia Dynasty.

One had to know.

Jiang Li had destroyed Five Dynasties.

“Convert!”

Buzzzzzz!

Jiang Li put the Jade slip away and started to convert energy points.

Shua! Shua!

The light flickered.

It flashed and disappeared.

The short white light was too intense, causing it to be rather glaring.

A large amount of medicinal herbs disappeared.

” conversion successful. 1.8 billion energy points obtained! ”

.....

conversion successful. One billion energy points obtained!

.....

Time passed.

jiang li had finished converting all the resources in the base.

He had obtained a total of 2989207000 energy points!

Of course.

This wasn't all he had gained.

There was still a large amount of supplies that had not been moved out of the transport plane.

Half an hour later.

a large amount of resources once again filled the empty space in the army base.

“Convert!”

Jiang Li walked over and reached out his right hand to touch the supplies.

Buzzzzzz!

A white light flashed.

a large number of resources disappeared and were converted into energy points.

In the end.

The whole process took more than an hour.

Jiang Li had just finished converting all the resources he got from the panicky demon dynasty.

this time.

In total, he had obtained 50.213 million and 2000 energy points.

It was a whole 50 billion.

“That’s 50 billion!”

Jiang Li looked at the eleven-digit number on the energy point column.

he was extremely happy.

with so many energy points, I don't have to worry about not being able to strengthen my mechanical dragon Army.

I'll unlock the level four mech Air Force first and then build level four mech pilots. Jiang Li smiled.

"The combination of land and air is invincible."

One had to know.

The panic demon dynasty had 158 counties, while the red-browed demon Kingdom and the black snake barbarian kingdom had 35.

The area of the panic demon dynasty's territory was nearly five times that of the red eyebrows demon Kingdom and the black snake barbarian kingdom.

Plus ...

the panicking demon dynasty was a thousand-year-old dynasty.

More resources.

Jiang Li had collected more than ten billion energy points from the black snake barbarian kingdom and the red eyebrow Empire.

If it wasn't for the fact that the monster race had stolen a lot of resources.

Jiang Li's harvest would reach at least sixty billion.

"Create a hundred energy explosive soldiers."

Jiang Li first used one billion energy points to build a new level-four mechanical Army.

Shua!

The manufacturing interface appeared.

There was an illusionary figure in the interface.

It rotated automatically.

there were 'X100' next to the figure, representing the number of items to be created.

Wuwuwuwuwu!

The surrounding white light filled in, and the illusionary figure gradually solidified.

“Upgraded to Base 01.”

jiang li said.

Shua!

upgrade plan 1: nine level-four soul Tinders, one billion energy points.

” upgrade plan 2: nine soul tinders, ten million tons of steel materials, and one hundred million energy points. ”

a notification appeared.

choose the first advancement plan.

okay. Jiang Li quickly made a decision.

In the past.

Jiang Li didn't have enough energy points, so he needed steel materials.

now.

Jiang Li had plenty of energy points, but he lacked steel materials.

Jiang Li still had a lot of steel materials to make level four meches.

The energy explosive soldiers weren't finished yet. Jiang Li continued to operate the Dominator panel.

Shua!

unlock the Level 4 mech Air Force immediately.

jiang li said.

the energy points were already in his hands.

without any hesitation.

Jiang Li immediately used nine level-four soul Tinders and ten billion energy points to unlock the level-four mech Air Force.

A notification appeared.

[nine level-four soul Tinders and ten billion energy points have been achieved. Unlocking conditions met. Unlocking the level-four mech Air Force soldier type. Please wait patiently. Countdown: 10?9?8?7.....?]

countdown ended. The stage 4 mechanical Army type has been successfully unlocked.

[can be expanded.]

A series of notifications popped up.

Chapter 348 mecha

“Open the Dominator panel.”

Shua!

[master panel]

[master: Jiang Li]

[game: super mechanical Army]

[interface: army type]

Mechanical Army type (can be expanded), mechanical Navy type (can not be expanded), mechanical air Force type (can be expanded), mechanical interstellar type (can not be expanded), special mechanical Army type (can be expanded)

“Interface: army base (can be expanded)”

” energy points: 40.174382330 energy points. ”

soul Tinder: ten level-three soul Tinders, eleven level-four soul Tinders, one level-five soul Tinder fragment.

there are still slightly more than 40 billion energy points left.

Jiang Li raised his eyebrows and was in a good mood.

shua!

Jiang Li opened the separation interface of the mech and air Force.

[interface: mech Air Force type]

Level 1 troop type: Youyou (omitted) ”

[Level 2 troop type: bi an (omitted)]

[level 3 troop type: bi an (omitted)]

Level 4 troop types: mecha Ares-class soldier (unlocked), energy-powered air soldier (locked 11/8), Super Air soldier (locked), air missile soldier (locked), mechanical cruise soldier (locked).

?.....?

“Immediately create 100 mechas and Ares-class weapons.”

Jiang Li controlled the Dominator panel and used one billion energy points.

Shua!

The manufacturing interface appeared.

Another illusory figure appeared on the interface. It looked like a huge steel mech from a science fiction movie.

because it was an illusionary figure in the interface, it was temporarily impossible to determine the specific height and size of the mecha and ares-class weapon.

Buzzzzzz!

The illusionary figure slowly made his choice, and there were 'X100' words beside him.

It gradually solidified.

At this moment.

Base 01 was also in the process of upgrading.

The ordinary Mechanical Engineers and mechanical soldiers all stood around the four walls of the Army base.

This was because he was using all his energy points to level up.

so,

A huge black light screen covered the entire army base. A large number of energy points were consumed to produce the materials needed to build the Army base.

Shua!

[energy destructive soldier completed!]

At this moment.

A notification appeared.

Shua! Shua!

Within the hegemon's room.

A hundred figures appeared out of thin air.

“Chief sovereign.”

Jiang Li! the hundred energy destructors stood in a neat line and saluted Jiang Li.

“Yes.”

okay. Jiang Li nodded and looked at the energy bomb soldier.

First of all ...

The energy destructive soldier was a humanoid robot. When it was manufactured, it would be a major General. It wore a pine green camouflaged military uniform and had a determined face. It had the appearance of a 20-year-old young man.

The only difference was ...

It was their hands that were glowing with energy.

It was very extraordinary.

“Upgrade.”

Shua!

...

Jiang Li used 14 billion energy points to upgrade all the energy destructive soldiers to the perfected stage of level four.

A few seconds later.

All of them had been promoted.

“thank you, chief sovereign!”

The hundred energy destroyers shouted in unison.

“Yes.”

Jiang Li nodded and checked the message.

“Troop type: energy explosive troop”

[rank: Grand completion of rank-four]

[No.: NYBL01]

skill: Tier 4 ultimate energy explosion control ”

...

[machinery: Jian Jia (omitted)]

mechanical energy: a special mechanical energy that is converted from the ‘mechanical heart’ from the heavens and earth. It has an extremely powerful destructive effect and requires the skill ‘energy control’ to control it.

advancement requirements: one level-five soul Tinder, 100 million energy points ”

“Mechanical energy source.”

Jiang Li read the information of the ‘energy destructive soldier’ carefully.

Currently.

Jiang Li already knew the three types of ‘special energy’ that mechs could control. Mechanical psionic energy, mechanical spirit energy, and mechanical energy.

Among them.

Mechanical psionic energy was the first to appear.

mechanical psionic power was a ‘special energy’ that the ‘battlefield commander’ had derived from the cultivation arts of this world through ‘learning skills’.

generally speaking.

Only the mech types with the ‘learning skill’ could master it.

And now ...

The specific effect of the latest mechanical energy.

They needed to be tested on the battlefield.

In fact.

There was also another type of ‘mechanical energy’, such as the energy Angel of the TS01, the energy mech, and so on.

However ...

The ‘mechanical energy’ was not displayed.

Shua!

[mecha Ares-class weapon completed!]

Very quickly.

Another notification appeared.

Shua! Shua! Shua!

The mechas and Ares-class mechas were huge. After they were created, they appeared out of thin air in the empty space of the Army base and stood in a row.

It could be seen.

Hundreds of steel mechas came into Jiang Li’s sight. They were like real mechas from science fiction. They were sky blue and had steel wings that could be extended behind them. They could also shoot out energy flames and generate a strong thrust force.

the pairs of purple electronic eyes flickered.

“My Lord!”

After that.

the mecha wargod weapon emitted a mechanical and electronic sound.

“Yes.”

okay. Jiang Li nodded.

Obviously.

The appearance of a mech Ares-class soldier was that of a steel mech. It was unlike the mechanical giant soldier, which could disguise itself as a human and would only become a nine-meter tall mechanical giant when fighting at full strength.

At the same time.

The mech was equipped with energy firearms, energy beam swords, small energy missiles, and many other long-range and close-combat weapons. It was a killing machine on the battlefield.

The most important thing was ...

The mech Ares-class soldier was extremely mobile and could fly in the air. Although its area of effect and destructive power were not as good as the mechanical giant soldier, its advantages were very obvious.

no matter what.

this was another powerful troop class.

“Upgrade.”

Shua!

jiang li used 14 billion energy points to upgrade all the mechas and ares-class mechas to perfected-stage level four. the mechas and ares-class mechas were glowing with white light.

A few seconds later.

The promotion was completed.

“Check the information.”

Jiang Li had an idea.

shua!

unit type: mecha God of War ”

[rank: Grand completion of rank-four]

[No.: Jjzs01]

skill: level-four mecha combat Mastery ”

equipment: top-tier level-four energy long-range weapon, top-tier level-four energy close-combat weapon ”

[machinery: Jian Jia (omitted)]

advancement requirements: one level-five soul Tinder, 100 million energy points ”

“Yes.”

hmm. Jiang Li muttered and carefully read the information of the mecha Ares-class weapon.

An hour later.

base 01 has been upgraded.

[prompt: congratulations, commander. the upgrade of army base 01 has been completed. all army base facilities have been upgraded to stage four. all equipment and troop classes have been upgraded to stage four.]

[added facility-teleportation room.]

The room in the ruler's hub.

“Chief sovereign.”

After the promotion.

Hidden Dragon immediately appeared.

It formed a purple human face.

“Yes.”

” yes. ” jiang li nodded. ” show me the details of the base. ”

“Yes.”

Hidden Dragon replied.

Shua!

A virtual screen appeared on the hidden Dragon's projection.

On it was the detailed information of the upgraded Base 01.

there was a huge change.

“Interface: army base”

[sub-plane: army base 01]

[rank: rank four]

facilities: master’s hub (can be expanded), mech Armory (can be expanded), Research Center (can be expanded), Construction Center (can be expanded), Sentry tower (can be expanded)

basic construction requirements: ten normal mechanical soldiers, one normal mechanical engineer, 10000000 energy points

advancement requirements: nine level-five soul Tinders, ten billion energy points ”

The ‘basic construction conditions’ referred to the construction of a new stage 3 base, not a stage 4 base.

display all the facilities ‘information.

Jiang Li said.

Shua!

[facility: master’s hub]

” lord soldier types: heart of the base (unlocked), normal lord’s armor (unlocked), elite lord’s battle armor (locked 11/2)

.....

“Facility: mech factory”

factory units: normal mech production line (unlocked), normal mech production line (unlocked), elite mech production line (locked 11/2), elite mech production line (locked 11/2)

.....

[facility: Research Center]

[Research Unit type: Normal research equipment Center (unlocked), normal mechanical research soldier (unlocked), elite research equipment Center (locked 11/2), elite research soldier (locked 11/2)

.....

[facility: Construction Center]

[construction troops: normal mechanical soldiers (unlocked), normal Mechanical Engineers (unlocked), psionic engineers (locked 11/2)]

.....

[facility: Sentry tower]

Sentinel units: normal Sentinel mechanical soldier (unlocked), normal Sentinel mechanical soldier Captain (unlocked), mech soldier (locked 11/2)

.....

[facilities: teleportation room]

teleport troops: normal wormhole maker (unlocked), mechanical teleport troops (locked 11/1)

.....

in addition to the original five facilities, there's an additional 'teleportation room'.

it's a new base. Jiang Li Read through the basic information of 'Base 01' carefully. apart from that, each facility has more or less one or two new facilities.

also, the original facilities and units have all been upgraded from rank three to rank four.

One had to know.

When Jiang Li was still at level three in the base, all the facilities and units he built were upgraded to level four.

It became a level four mech.

Among them.

The psionic cannons of the four sub-guard towers had all reached level four.

Its power rose.

If a stage four creature dared to sneak into the base, they would be killed in minutes.

In reality.

The teleportation room only had one function.

it was to realize the space transmission between the 'army bases'.

In other words ...

After Jiang Li built more military bases in the future, he could use the ‘teleportation room’ to teleport people over long distances instantly.

unlocking elite dominating battle armor soldier, elite mech production line, and elite mech production soldiers.

Jiang Li used six level-four soul Tinders and unlocked three facilities.

Shua!

elite dominating battle armor soldier has been unlocked. Elite mech production line has been unlocked. Elite mech production line has been unlocked.

A notification appeared.

create one elite dominating battle armor soldier, ten elite mech production lines, and one hundred elite mech production soldiers.

Immediately.

Jiang Li spent 1.11 billion energy points to build 111 facilities.

Buzzzzzz!

The manufacturing interface appeared.

Three illusory images appeared.

one of the images was in the shape of a ‘watch’, another was in the shape of a furnace, and the last was in the shape of a human.

A minute later.

[creation complete!]

A notification appeared.

shua!

Among them.

A black ‘mechanical watch’ appeared out of thin air in front of Jiang Li. It was floating in the air without any light.

After that.

The watch projected a virtual screen.

On the screen.

a purple data face appeared.

It was similar to the hidden Dragon.

“Chief sovereign.”

A mechanical voice came from the ‘mechanical wristwatch’.

Chapter 349 injection

shua!

Jiang Li checked the information.

[lord's arm type: elite lord's battle armor]

[rank: rank four]

[No.: Jrzj01]

skill: fourth-rank Lord's armor

[machinery: jian jia (omitted)]

The basic information was rather brief.

The construction units of the Army base.

The grade of the building would be determined by the level of the building, and it could not be upgraded by consuming energy points. Only when the Army base was upgraded would the construction units be upgraded.

For example.

Jiang Li upgraded the No. 01 army base to level four, so all the construction units were upgraded to level four as well. They were a whole.

The ruler's Army.

Of course, it was to serve Jiang Li.

Furthermore ...

Although the ordinary Lord's armor soldiers and the elite Lord's battle armor soldiers were both at stage four, the elite Lord's battle armor soldiers were in the form of 'mechanical wristwatches'.

Compared to the ordinary Dominator armored soldiers in robot form, this was much more powerful.

Its advantage was that it was easy to carry.

Jiang Li only needed to put it on his hand and activate it when he needed it. The armor would be put on Jiang Li's body instantly.

Kachaa!

Jiang Li grabbed the 'mechanical watch' and put it on his left wrist.

"Activate the hegemon's armor,"

Jiang Li said.

"Yes."

Jrzj01 replied.

The skill was activated.

"Whoosh!!!"

instantly.

Black light spots spread from the 'mechanical watch' and covered Jiang Li's body in an instant, turning into black armor.

At the two daggers.

The purple-red electronic eye lit up.

my Lord, Jrzj01 is at your service.

Jrzj01's mechanical voice sounded.

“yes.”

okay. Jiang Li nodded.

After that.

He carefully felt the power and functions of the ‘ruler’s battle armor’. It was much stronger than the ruler’s armor ‘and had a very strong amplification effect.

He clenched his fists.

It was full of strength.

“Not bad.”

okay. Jiang Li nodded in satisfaction.

Shua!

Soon after.

The ‘Dominator armor’ disappeared and Jiang Li put on a black ‘mechanical watch’ on his left wrist.

In the mech factory.

This was because the Army base had been upgraded.

The ten elite meches appeared on the fourth floor after the production line was completed.

It was different from an ordinary mech production line.

The elite mech production line was a purple-black furnace.

First of all ...

The first to third levels of the mech factory couldn't be equipped with elite mech production lines and elite mech production soldiers. They could only be equipped with ordinary mech production lines and ordinary mech production soldiers.

Only the fourth level could.

Furthermore ...

...

the appearance of the fourth level.

It allowed the mech factory to produce Level 4 soldiers.

“Chief sovereign.”

Jiang Li! a hundred elite mechanical soldiers appeared and stood in a row. They saluted Jiang Li and shouted in unison.

“Go on.”

go to work. Jiang Li waved his hand.

“Yes.”

the hundred elite mech production soldiers nodded and left the room in the ruler’s hub. they went to the mech factory and entered the fourth floor.

Hidden Dragon, what’s the cost of the mech factory to produce level four soldiers?
”

Jiang Li asked.

“Reporting to you, chief sovereign.”

...

yes. Hidden Dragon replied, ” the fourth level of the mech factory can produce level four soldiers. Each elite mech production line can produce one level four mech every ten seconds under the operation of ten elite production soldiers.

creating a level 4 mech requires 100000 Jin of steel and one million energy points.

“Yes.”

okay. Jiang Li nodded.

although there was no detailed statistics.

After Jiang Li took down the Qian dynasty, he took down the black snake barbarian kingdom, the gray wolf Kingdom, the red eyebrow Empire, and the thousand-year-old demon dynasty, the panic demon dynasty.

He had accumulated a large number of spoils of war.

Armors, weapons, and steel materials had already accumulated to an extremely large number.

In a short period of time.

Jiang Li didn't have to worry about steel materials at all.

it was enough for consumption.

Hidden Dragon, create 3000 mechanical giant soldiers, 3500 energy explosive soldiers, and 3500 mecha Ares soldiers.

Jiang Li said.

“Yes.”

yes. Hidden Dragon replied, ” a total of five hundred thousand tons of steel materials and ten billion energy points were consumed.

Shua!

The projection of the fourth floor of the mech factory appeared.

The elite mech production line and the elite mech soldiers started to work. The elite mech soldiers were first teleported to the place where the steel materials were stored.

buzzzzzz!

A temporary wormhole appeared.

The production soldiers threw a large amount of steel materials into the tunnel and sent them into the purple-black furnace. The furnace ran and used energy points to create level four meches.

Shua! Shua!

Rays of purple-black light appeared.

Time passed.

According to the efficiency of the fourth level of the mech factory, ten level four meches could be created every ten seconds. Ten thousand level four meches would take ten thousand seconds.

In other words, it had been almost 170 minutes.

Close to three hours later.

Three hours later.

3,000 mechanical giant soldiers, 3500 energy bomb soldiers, and 3500 mecha ares-class soldiers were all created.

“Yes.”

okay. Jiang Li nodded in satisfaction.

we’ve used up more than 30 billion energy points to create powerful level four meches. The energy points we got from the panicking demon dynasty are almost all used up. The remaining few billion will be saved for future use and war expenses.

Jiang Li thought, ‘a mech troop made up of more than 10000 level-four meches, including 320 perfected-stage level-four meches. They’re ready on land and in the air.’

” i’m really looking forward to the terrifying combat power i can unleash. ”

Unknowingly.

The day passed just like that.

At night.

Jiang Li went back to the great Xia Palace to rest.

In the next few days, Jiang Li didn't send his mech Army to attack the other dynasties. Instead, he was digesting what he had gained.

To tell the truth.

Although Jiang Li had taken down a large piece of territory, he didn't have much control over it.

However ...

this kind of thing couldn't be rushed.

He could only take it one step at a time.

let's develop slowly.

In order to increase the population of the great Xia Dynasty, Jiang Li started to implement the policy of 'encouraging childbirth'. If each family had more children, they would get subsidies from the Imperial court.

Even though ...

The policy of 'encouraging childbirth' might take many years to see results.

But it was better than nothing.

At the very least, there was hope.

three days later.

The first batch of medicinal herbs that had grown were all purchased and transported to the imperial capital of the great Xia Dynasty. The amount of medicinal herbs was much more than expected.

there were a total of 50 million and 3000 stalks.

“Convert.”

Jiang Li didn’t keep them, but converted them all.

Buzzzzzz!

A white light flashed.

all the medicinal herbs disappeared.

conversion successful. Received 50003000 energy points!

as expected, it’s just as I expected. Although the medicinal effects of these herbs are relatively low, they won’t affect the conversion and harvest of energy points.

Jiang Li said to himself.

this way ...

Jiang Li’s only worry was gone.

The ‘medicine Pavilion policy’ had to be carried out with great effort.

although this batch of medicinal ingredients wasn't much, it was still a very good start. he believed that before long, there would be an unending stream of medicinal ingredients being transported from all over the country to the imperial capital of the great xia.

At that time.

Jiang Li would have a channel to continuously obtain energy points.

A few more days passed.

The room in the ruler's hub.

my Lord, the Tier 3 gene strengthening Fluid Research is complete.

Hidden Dragon reported.

"Alright," he said.

it's finally here. Jiang Li was overjoyed. Hidden Dragon, make it now.

"yes."

hidden dragon replied.

[facility: Research Center]

[Research Unit type: Yingluo (omitted)]

[current scientific research results-Level 1: [(omitted)]

[current scientific research results-Tier 2: Tier 2 gene strengthening fluid (manufacturing price: 10,000 energy points for one), stage 2 thermal weapon

[current research results-Tier 3: Tier 3 gene strengthening drug (manufacturing price: One million energy points for one),]

[current research results-Level 4:.....?]

At the same time.

Jiang Li checked all the research results so far.

During this period of time.

The Research Center would produce a Stage 2 thermal weapon design blueprint every day, and the Stage 2 thermal weapon design was already reaching the limit of an ordinary mechanical research soldier.

On the third floor of the Research Center.

The ordinary mechanical research soldiers began to produce the ‘Stage 3 gene strengthening liquid’, and a million energy points were consumed. Various indicator lights were flashing in the ordinary research equipment Center.

Ten seconds later.

The production was completed.

The research soldier placed the finished product on the finished product rack.

“Take it out,”

jiang li said.

buzzzzzz!

The finished product of the level 3 gene strengthening drug was sent to the room in the Dominator’s hub and floated in front of Jiang Li. It was a small, pure white syringe.

The syringe contained a fluorescent strengthening liquid.

It was as if there were countless stars decorating it.

It felt like a dream.

shua!

[research product: Tier 3 gene strengthening fluid]

[rank: rank three]

[effect: deeply strengthened gene]

[usage: intravenous injection]

[origin: army base 01-the fourth floor of the scientific research Center]

His basic information appeared.

” deeply strengthened gene. ”

Jiang Li Read it carefully. I wonder what the effect of the level three gene strengthening liquid is like. I've been injected with level one and level two gene strengthening liquid before, and my strength doubled every time.

"I think it won't be bad this time."

Not long after.

The ordinary mechanical research soldier arrived at the room in the dominating heart.

"Let's start."

I'll give it to you. Jiang Li gave the small white syringe to the ordinary mechanical soldier, then rolled up his sleeve to his shoulder, showing his entire arm.

"Yes."

okay. the ordinary mechanical soldier took the pure white syringe. The small needle pierced through Jiang Li's skin and into his blood vessels. There was a slight pain.

After that.

The research soldier slowly injected the strengthening drug.

Chapter 350 Upgrade

Jiang Li could feel it clearly. The cold rank-3 gene strengthening liquid slowly flowed into Jiang Li's blood as the soldier injected.

After that.

The liquid followed the flow of his blood and gradually spread throughout his body.

Basically.

The feeling after the injection wasn't much different from the previous two times. If there was a difference, it was that the chill was getting stronger and stronger.

The medicinal effect was also stronger and stronger.

“Si si si ...”

Jiang Li couldn't help but exhale. The mist was frozen into small particles like water vapor.

Although the chill was getting stronger and stronger, it was nothing to Jiang Li with his current cultivation.

on the contrary, it was very comfortable.

Very quickly.

When the chill covered his entire body.

Jiang Li felt like the shackles on his body were broken again.

he broke free.

half an hour later.

The coldness faded.

The effect of the Tier 3 gene strengthening liquid began to show.

BOOM!

Jiang Li's body shook.

Roar!

Immediately after.

A Dragon's Roar came from his dantian. The Azure Dragon of Xia was roaring and releasing the vast power of the nation fate, washing Jiang Li's body and true essence.

“whoosh!!!”

the great xia azure dragon technique was activated.

In the surroundings.

Spiritual Qi gushed into Jiang Li's body like moths to a flame, improving the quality of his true Yuan.

It could be seen.

Jiang Li's body.

A green three-clawed true dragon appeared and completely solidified. It was like a real Dragon sitting on Jiang Li's body and its head was resting on Jiang Li's head.

The dragon's eyes focused ahead.

An hour later.

Everything settled down.

“Hu ~~ Hu ~ Hu ~”

Jiang Li opened his eyes and let out a breath. He could feel the changes in his body. His physical strength had doubled.

the quality and strength of his ‘true essence’ had also doubled.

Not only that.

Jiang Li could also control the spiritual Qi within ten thousand meters around him to form a powerful ‘domain’. His strength was multiplied.

One had to know.

when jiang li had just broken through to the early stage of level four.

He could only control the spiritual Qi of heaven and earth with a diameter of 1000 meters around him. Now, the diameter had increased by ten times, reaching 10000 meters.

Such an improvement was terrifying.

Furthermore ...

Generally, only those at the perfected stage of Tier 4 could control the spiritual energy of heaven and earth within a 10000-meter radius.

However ...

Jiang Li was only at the early stage of level four, but he could do it.

Obviously.

This was due to the three consecutive injections of the gene strengthening fluid, from the first stage, the second stage, and finally the third stage, which finally triggered a qualitative change.

Not only that.

Jiang Li's mind was clear and his thinking was much better. Like a supercomputer, he gradually understood many things that he couldn't understand before.

“Azure Dragon protective seal!”

Buzzzzzz!

Azure Dragon protection seal. Jiang Li formed a hand seal and performed the ‘Azure Dragon protection seal’, one of the three martial arts techniques recorded in the ‘Azure Dragon art of the great Xia’.

The mark appeared.

...

“Roar!”

immediately after.

The Green Dragon appeared on Jiang Li's body and formed a Green Dragon-shaped defensive light shield.

“azure dragon seal!”

roar!

Soon after.

Azure Dragon Seal. Jiang Li performed the 'Azure Dragon Seal', one of the three martial arts techniques recorded in the 'Azure Dragon art of the great Xia'. The Azure Dragon Seal appeared and turned into a Dragon-shaped seal.

The Azure Dragon materialized and pounced forward.

Unparalleled attack.

“BOOM!”

The Azure Dragon pounced on the wall of the room in the ruler's hub, blasting a huge crater in it. The entire wall was almost penetrated.

...

“Azure Dragon flying seal!”

shua! Shua!

let's go. Jiang Li disappeared. He used the Azure Dragon footwork. Countless afterimages of Jiang Li appeared in the room of the Dominator's hub. They were left behind by his extreme speed.

Finally.

the afterimage disappeared.

Jiang Li stood in the center of the room in the ruler's hub.

“Very good,” he said.

A smile appeared on Jiang Li’s face.

he was in a good mood.

Obviously.

the rank-3 gene strengthening drug not only improved jiang li’s strength, but it also improved his aptitude and comprehension. that was why he could learn all three martial arts techniques recorded in the ‘azure dragon technique of the great xia’.

And it was done in such a short time.

“Congratulations, hegemon. You’ve mastered your technique.”

Hidden Dragon immediately congratulated.

“Hehe.”

Jiang Li smiled. I’m still far from it. I’ve only learned the rudiments of all three martial arts techniques. There’s still the lower level and the higher level.

“But it’s not bad.”

now.

jiang li was already at the early stage of level four and had the combat power of a national guardian. he had mastered three martial arts techniques, including attack, defense, and movement techniques.

It could be said that ...

as long as jiang li didn't encounter a level-five fighter.

He was basically free of worries.

In other words.

He could finally go out and have fun.

He didn't have to stay in the base all day.

Shua!

Jiang Li checked the information of the Research Center.

[facility: Research Center]

" hidden dragon, how long will it take to develop the tier 4 gene strengthening fluid? "

Jiang Li asked.

reporting to my Lord, the type 4 technology research can only be conducted on the 4th level, and the 4th level can only accommodate 10 elite research equipment centers and 1000 elite research soldiers.

“With all the necessary equipment, it’ll take 100 days,” Hidden Dragon immediately replied.

10 elite research equipment centers and 1000 elite research soldiers.

I’ll need 10.1 billion energy points to make 1000 level-four scientific research units, even if I don’t upgrade them.

Obviously.

Jiang Li didn’t have enough energy points.

Furthermore ...

Even if he had enough energy points.

That would still require a hundred days.

first, we’ll build 10 elite research equipment centers and 100 elite research soldiers.

Jiang Li said.

Shua!

The manufacturing interface appeared.

It consumed 1.1 billion energy points.

A minute later.

[creation complete!]

A notification appeared.

Shua! Shua!

The ten elite research equipment centers were all equipped on the fourth floor, and a hundred elite research soldiers appeared in front of Jiang Li.

“Chief sovereign.”

The 100 of them were wearing white coats and didn’t look too different from ordinary mechanical scientific research soldiers. The only obvious difference was in their appearance. Ordinary mechanical scientific research soldiers were young men with exquisite looks, while these elite scientific research soldiers were middle-aged.

Jiang Li checked the information of the two research units.

“go to work.”

come on. Jiang Li waved his hand. develop the ‘level-four gene strengthening liquid’ as soon as possible.

“Yes.”

Yes, sir! the 100 elite scientific research soldiers responded in unison. They all left and entered the fourth floor of the Research Center.

“Hidden Dragon, you may begin.”

jiang li said.

“Yes.”

Yes, sir. Hidden Dragon replied, and data flashed. the fourth level of the Research Center has been activated. Research target: Tier 4 gene strengthening fluid, estimated time: 1,000 days. Resources required: 100 million energy points.”

“It actually takes a thousand days.”

” no. ” jiang li shook his head. ” that’s too slow. it’s too long. ”

He wanted to shorten the time.

He had to create more elite scientific research soldiers.

One had to know.

The research of stage one gene strengthening liquid required ‘stage one creatures’ and ‘stage one elixirs’, as well as 100000 energy points. The level 2 gene strengthening fluid required ‘Level 2 creatures’ and ‘Level 2 elixirs’, as well as one million energy points. The Tier-3 gene strengthening fluid required ‘Tier-3 creatures’ and ‘Tier-3 elixirs’, as well as 10 million energy points.

the consumption of energy points increased tenfold.

At the same time.

The hidden Dragon projected the image of the fourth floor of the Research Center. 100 elite research soldiers began their research work, and the 10 elite research equipment centers also began to operate.

The stage four creature’s corpse was thrown into the equipment and various data began to be collected.

soon after.

Jiang Li walked out of the room.

In the teleportation room.

This was a new ‘facility’ that appeared after the base was upgraded to the 4th tier. Its main purpose was to have teleportation between the various bases.

at this moment.

here. Jiang Li arrived.

The teleport room was next to the mech factory, about ten meters away.

from the outside.

The teleportation room was a one-story building with a flat roof.

There was nothing out of the ordinary.

BOOM!

The door of the teleportation room opened automatically.

Jiang Li walked in.

Inside.

It was extremely spacious.

There was nothing.

because jiang li hadn't built a teleportation unit yet.

unlock the mechanical teleportation soldier.

shua!

Jiang Li had used one level-four soul Tinder and only had four left. He had used up almost all the resources he had accumulated.

[mechanical teleportation soldier has been successfully unlocked.]

create ten normal wormhole makers.

jiang li opened the dominator panel and used 1.1 billion energy points. ” 100 mechanical teleportation soldiers. ”

Buzzzzzz!

The manufacturing interface appeared.

The illusionary figure appeared on the interface and slowly rotated. The surrounding light spots merged into the illusionary figure and gradually solidified.

A minute later.

[creation complete!]

Shua! Shua!

First of all ...

Ten ordinary wormhole creators appeared out of thin air and occupied most of the space in the teleportation room. They were divided into ten equal parts.

It could be seen.

The ‘ordinary wormhole maker’ was like a black circular door, only one meter tall, and in the center was a pitch-black Vortex that was slowly spinning.

Jiang Li sensed it carefully with his divine soul.

He could sense the slight spatial fluctuations above.

Immediately after.

A hundred mechanical teleportation soldiers appeared.

It also appeared out of thin air.

They stood together.

“Chief sovereign.”

Jiang Li! the hundred mechanical soldiers saluted Jiang Li at the same time and greeted him respectfully.

“Yes.”

okay. Jiang Li nodded and studied the mechanical soldier.

It was a normal human-shaped mech.

He was wearing a pine-green military uniform.
