

Army 381

Chapter 381 revenge

The imperial capital of the Grand Xia.

In the room of the ruler's hub in the base of the 01 division.

Shua! Shua!

In front of Jiang Li was a holographic projection. It was the scene sent by several Air Scout troops.

my Lord, air reconnaissance unit 01 has not discovered any enemy movements.

my Lord, air reconnaissance unit 02 has not discovered any enemy movements.

“.....”

The battlefield commander reported the situation.

“Yes.”

okay. Jiang Li nodded.

Shua!

The communication was disconnected.

The holographic projection in front of him disappeared.

In reality.

a few days ago.

Although Jiang Li didn't go back to the base of Army 01, he had already given orders and sent several air reconnaissance troops to patrol around the border of the Xia Dynasty.

Pay close attention to any enemy that might appear.

however ...

A few days had passed.

The enemy of the Shu state did not discover it. Instead, they found a large number of fierce beasts in the abandoned territory, which had become a paradise for the fierce beasts.

Shua!

qx01 projected a holographic image in front of jiang li.

“There are actually so many ferocious beasts.”

beast King? ” Jiang Li looked at it and said, ” if a ‘beast King’ is born, there’ll be more than ten million beasts in an instant. Why are there so many? ”

my Lord, through the reconnaissance of the scouts in the air, we have discovered that most of these ferobeasts have migrated from outside the great Xia Dynasty. In addition, the ferobeasts are reproducing very quickly.

“That’s why it’s on such a large scale.”

“Migration.”

Jiang Li nodded. it seems like I have to find a time to clear them out. Although there are many of them, it'll take some time to clear them out after they've scattered.

I do hope to form a beast tide and settle it in one wave. I can also obtain a large number of soul Tinder.

To tell the truth.

Jiang Li wasn't afraid no matter how many fierce beasts there were.

First of all ...

Jiang Li now had a large number of energy points. If he wanted to, he could create a terrifying mech Army in a very short time.

Plus ...

the berserk beasts were unable to form an army formation, so those large-scale killing weapons could fully exert their power.

so,

No matter how many beasts there were, they were here to give Jiang Li the soul Tinder.

Buzzzzzz!

Soon after.

jiang li took out the 'map jade slip' he got from the demon dynasty and injected his genuine yuan. the map immediately appeared in front of him. jiang li was studying the map carefully.

The great Xia Dynasty.

At present, they had already occupied a large area of territory in the southern and Southeast of the Northern Territory of holy peace state. The territory was originally formed by the great Qian dynasty, the red eyebrows Yao Kingdom, the black snake barbarian kingdom, the Cang lang Kingdom, the panic Yao dynasty, and the lion barbarian kingdom.

The Donglin Kingdom basically belonged to the great Xia Dynasty.

now.

Jiang Li only needed to take down the Barbarian dynasty and the Wei Dynasty.

Then ...

The entire South and Southeast of the northern region of holy peace state.

They would all belong to the great Xia Dynasty.

the shu nation was located in the north and northeast of the northern region of the holy peace state. it had a vast area and almost occupied the entire northern and northeast regions of the holy peace state.

according to the map.

The Shu nation and the great Xia Dynasty were originally separated by several dynasties, such as the red eyebrows demon nation, the panic demon nation, the great Cang nation, and the five spirit demon nation.

And now ...

Only the great Cang nation and the five spirit demon Kingdom were left.

...

Other than that.

There were also steep mountains and lakes.

Among them.

there was also a specially marked 'ghostmist forest'.

in the 'ghost mist forest', there were strange' ghosts 'that formed a' ghost mist'.
even if millions of troops entered, if they were not careful, they would be lost in
the 'ghost mist'.

In the end.

All of them became the food and resources of the 'human ghost'.

"the entire northern region of the holy peace region."

Jiang Li thought, other than the human dynasty, the monster dynasty has: The sky
Yao Kingdom, the lesser sky Yao Kingdom, the spirit moon Yao Kingdom, the
bright moon Yao Kingdom, the five spirit Yao Kingdom, the swallow Bird
kingdom, the evil wind Kingdom, and the power ant Kingdom."

the Barbarian dynasties are: Black Dragon barbarian kingdom, barbarian dynasty,
witch's gun dynasty, changman Kingdom, and little changman Kingdom.

currently, it seems that the demon dynasty has the most numbers.

...

"Then, who will make the first move?"

jiang li muttered.

The Wei Dynasty.

Wei Royal Palace.

it had been re-cultivated.

In the palace.

Your Majesty, a fourth-level barbarian appeared in Donglin a few days ago. They also encountered two waves of beasts. Under such circumstances, Donglin should have been destroyed.

the ge elder in charge of the intelligence agency, 'silent words', reported, " however, the great Xia Army appeared and saved the Donglin Kingdom. They eliminated two waves of beasts.

those fourth-grade barbarians are all dead.

"A fourth level barbarian."

wei zheng snorted. " barbarian tribe? After disappearing for such a long time, he still jumped out like a cat that smelled fish."

" your majesty, we've found traces of the half-monster alliance in several places in the country. "

Feng chenxi said.

Half-monster Alliance.

Wei Zheng took a deep breath. as expected, all kinds of evil people have come out.

Your Majesty, three days have already passed. Are we really going to deliver the medicinal herbs and resources to the great Xia Dynasty? ”

wei lin asked.

“feng chenzi, i’ll leave this matter to you.”

Wei Zheng pondered for a moment and said, ” ” although there is no war in the northern region of holy peace state, i don’t think this peace will last long. ”

the four National Guardian armies and the armies in the county cities must be on full alert. We can’t let the alien races have any chance to take advantage of us.

“yes.”

“Yes, sir.”

Feng chenzi, Wei Wuxian, and the others all called out.

On the other side.

The border sea.

The border sea was actually a huge Lake, but it was so big that it looked like an ocean with no end in sight. It was also between the sky demon Kingdom and the Black Dragon barbarian kingdom, like a border, separating the two kingdoms.

Thus, it was called the ‘border sea’.

Deep in the ocean.

Buzzzzzz!

This was a huge ‘magical formation’ with nine-colored light flowing around it. It was like a huge light shield that blocked the sea water and covered an extremely huge underwater city.

He pulled in his gaze.

There were actually a large number of barbarians in this underwater city.

In other words ...

This ‘underwater city’ was built by the barbarians.

It was the ‘main branch’ of the Barbarian tribe in the northern region of the Holy peace Region.

at the center of the underwater city.

Barbarian God Palace.

Within the palace.

It was resplendent.

“High priest, the plan has failed.”

At this moment.

A barbarian walked into the hall and knelt on the ground. the Donglin Kingdom didn’t perish. All eight level four barbarians are dead.

how can a mere Donglin country resist the 8 million beasts tide and 8 fourth-level barbarians? ”

within the palace.

A majestic voice rang out.

It was obviously the 'high priest of the Barbarian'.

"It's the Grand Xia Dynasty,"

The Barbarian who was kneeling on the ground immediately replied, "we were about to succeed, but the great Xia Dynasty's Army suddenly appeared and turned the tide of the battle.

"Great Xia!"

The high priest of the Barbarian tribe snorted. it's the great Xia Dynasty again. The half-monster Alliance lost in the great Xia Dynasty and now it has disrupted our plan.

"This Emperor Xia of the great Xia Dynasty is really bold."

"High priest, what should we do next?"

The Barbarian who was kneeling on the ground asked.

"It's fine,"

the Donglin Kingdom was just a small plot," the high priest said. the original plan was to frame the spirit moon Fey Kingdom for the destruction of the Donglin Kingdom, and then force the great Wei to go to war with the spirit Moon Kingdom.

"A failure is a failure,"

the rest of the arrangements have been completed. The little sky Fey Kingdom has been destroyed, and the Black Dragon barbarian kingdom has been framed. Now,

we're just waiting for the war between the sky Fey Kingdom and the Black Dragon barbarian kingdom to start.

"Yes."

The Barbarian who was kneeling on the ground nodded.

"Oh, that's right."

He muttered to himself for a while.

The high priest of the Barbarian tribe said coldly, "the great Xia Dynasty has ruined our plan. They have also killed eight of our fourth-grade barbarians. Naturally, we can't pretend that nothing has happened.

"please give your orders, high priest."

The barbarians knelt on the ground and kowtowed.

Shua!

Within the palace.

A blood-red light flew out and landed in the barbarian's hand. It was an octagonal blood-red crystal with light mist flowing inside and strange blood-red patterns.

it gave off a bloodthirsty and crazy aura.

"Xing Ling, this is a rank four 'bloodthirsty ferocious spirit formation'. Take it with you and immediately head to the Grand Xia Dynasty. Gather all of the ferocious beasts of the Grand Xia Dynasty and form a large-scaled ferocious beast tide. We'll directly attack the capital of the Grand Xia."

“There’s a price to pay for killing the members of the Barbarian tribe,” the Barbarian high priest said coldly.

“yes.”

Xing Ling nodded.

Immediately.

He then walked out of the barbarian’s divine Palace.

“Men!”

Xing Ling shouted.

Shua! shua!

A few barbarians in black clothes appeared.

“My Lord!”

They knelt on the ground.

“yes.”

yes! Xing Ling nodded and ordered, ” gather the troops and set off with me immediately.

“Yes.”

the barbarians kneeling on the ground said in unison.

Half an hour later.

Shua! Shua!

With Xing Ling in the lead, a small team of fourth-grade barbarians and a team of third-grade barbarians left the ‘underwater city’.

at this moment.

The imperial capital of the Grand Xia.

Jiang Li didn’t know that the Barbarian tribe was going to take revenge on him, but even if he did, he wouldn’t care. He would even laugh.

One had to know.

let’s go. Jiang Li was worried about how to gather the scattered beasts together and kill them all.

Azure Dragon Palace.

“emperor xia.”

Ling Tian cupped his hands in greeting.

“Yes.”

” okay. ” jiang li nodded.

in the surroundings.

xu ya, wu zong, hong tianqi, and the other officials of the great xia dynasty stood on both sides, sizing up ling tian, the human ruler of the yongling dynasty.

this time, I'm not just here to bring medicinal herbs and other resources for the great Xia Dynasty.

"There's still a huge matter that I have to report to Emperor Xia," Ling Tian said.

"What's the matter?"

Jiang Li asked.

"This matter is related to the demon dynasty."

"Ever since Emperor Xia destroyed the black snake barbarian kingdom and the Cang lang Kingdom, there were no longer any obstacles between the Yong Ling Empire and the bright moon Yao Kingdom."

during this period of time, we've sent out spies and discovered that the bright moon Yao Kingdom is constantly reorganizing and gathering their Yao soldiers.

"Emperor Xia, this could be the prelude to the demon race's war."

"There's no hurry."

let's go see the resources you sent. Jiang Li waved his hand. let's go see the resources first.

in reality.

The air Scouts Jiang Li sent out not only patrolled the great Xia Dynasty, but also monitored the surrounding dynasties.

Jiang Li had already known about the changes in the bright moon Yao Kingdom.

However, there was no action for the time being.

He had to make things clear first.

This was to avoid alerting the enemy.

Chapter 382

“This bi an ...”

Ling Tian opened his mouth. He thought Jiang Li would take this matter very seriously.

if the demon alliance was preparing to invade from the bright moon yao nation ...

The great Xia Dynasty would be the first to bear the brunt.

but ...

Ling Tian didn't expect that Jiang Li didn't care about the news at all. Instead, he wanted to see the resources he brought.

okay.

he admitted.

resources were also very important.

But could it be compared to the possibility of a war?

Although the bright moon Yao Kingdom's strength was far inferior to the great Xia Dynasty, the bright moon Yao Kingdom was backed by the spirit moon Yao

Kingdom. Furthermore, the Yao dynasty had most likely already formed an alliance.

Under such circumstances.

If the Allied army of the monster race suddenly launched a surprise attack on the great Xia Dynasty, the dynasty would be destroyed, but Jiang Li didn't seem to care.

“Your Majesty Emperor Xia, are you not worried at all?”

Ling Tian directly asked.

“What are you worried about?”

you're right. Jiang Li smiled. Ling Tian, you know nothing about the Xia Dynasty. Alright, let's stop talking about this.

“I'm looking forward to the resources you've brought.”

“.....”

ling tian fell silent.

Half an hour later.

Jiang Li saw that the resources Ling Tian brought were less than he expected. After all, Ling Tian couldn't give Jiang Li all the resources of the Yong Ling dynasty.

He had only brought about 30%.

It was not bad.

After all of them were converted to energy points, Jiang Li got 3.48 billion and 99900 energy points.

if the Yong Ling dynasty is in trouble, they can ask the great Xia Dynasty for help. After all, the great Xia Dynasty is the leader of the ‘Alliance of human dynasties’.

Jiang Li patted Ling Tian’s shoulder.

“thank you, emperor xia!”

Ling Tian bowed.

To tell the truth.

Undercurrents were surging in the northern region of the Holy peace Region. Behind the peace was a storm. No one knew when the war would start.

the yongling dynasty was too weak.

Under such turbulence.

If they were not careful, their country would be in danger of being destroyed.

so,

The Yongling dynasty needed a backer.

In the beginning.

Ling Tian wanted to rely on the Shu country. After all, the Shu country was the strongest human empire in the northern region of the Saint peace state. In fact, Ling Tian was even prepared to contribute his fate and resources to the Shu country.

However ...

Wei Zheng's 'Alliance plan' had disrupted Lingtian's plans.

Facing the tyrannical attitude of the great Wei Dynasty, Ling Tian could only agree to head to the capital. However, he never thought that so many things would happen there.

In the end.

It was the great Xia Dynasty who had won the final victory.

Nearly 90% of the Yongling dynasty's National fortune was given to the great Xia Dynasty.

He was helpless.

Ling Tian could only give up on the Shu country and choose to rely on the great Xia Dynasty.

Their goal was to seek the protection of the great Xia Dynasty.

But now it seemed ...

The situation was not bad.

One had to know.

ling tian had heard of it.

Just a few days ago.

The Donglin Kingdom had been attacked by two 'berserk beast tides' and had almost been destroyed. The long-lost barbarian tribes were even behind this.

...

If it wasn't for the fact that Emperor Xia had sent the Xia Army as reinforcement.

The Donglin Kingdom was destroyed.

It could be explained.

Jiang Li, the Emperor of Xia, was a man of his word. He would send his troops to help if he promised.

In the afternoon.

Jin Wu Shuang had arrived at the imperial capital of the great Xia.

Similarly.

Jin Wushuang had also brought the resources of the Jin dynasty.

the number was much more than that of the yongling dynasty.

Finally.

Jiang Li converted all the resources that Jin Wushuang brought and got 7.984.2 million energy points in total, which was close to eight billion.

...

it was several times more than that of the yongling dynasty.

this was only about 30% of the resources of the jin dynasty.

The Jin dynasty had a lot of money to take.

“Emperor Xia.”

Jin Wu Shuang’s tone was respectful, then he said, ” the barbarian dynasties have also been gathering their armies recently. i reckon that a war will break out soon. ”

“We should also make early preparations.”

The Jin dynasty.

it was located in the southwest of the northern region of the holy peace state and was close to the barbarian dynasty and the black dragon dynasty. moreover, most of the western parts of the northern region of the holy peace state were ruled by barbarian dynasties.

It could be said that ...

The Jin dynasty was not in a good situation.

If war broke out.

The Jin dynasty would probably be the first to be attacked by the Allied barbarian forces.

“Oh.”

what do you want to do? ” Jiang Li asked.

“emperor xia, i hope to gather the power of the ‘alliance of human dynasties’ and take the lead in attacking the barbarian dynasty, destroying and occupying it.”

Jin Wushuang said, "if we destroy the Barbarian dynasty, the South and Southeast of the northern region of the Holy peace Region will belong to the territory of the 'Alliance of human dynasties'."

when the time comes, we only need to work together against a common enemy. Then, we'll have the power to fight against the Barbarian Alliance and the Demon Alliance.

"I don't think so."

Ling Tian thought about it for a moment before saying in a low voice, "the Barbarian dynasty is very powerful. Besides, they are not far from the Black Dragon barbarian kingdom. If we attack the Barbarian dynasty, the Black Dragon barbarian kingdom will definitely send reinforcements. By then, we will have to fight against the Black Dragon barbarian kingdom.

"Don't worry about that."

"there's a 'little sky fey kingdom' between the barbarian dynasty and the black dragon barbarian kingdom," jin wushuang said confidently. "this little sky fey kingdom is a vassal kingdom of the sky fey kingdom. currently, it's to prevent the barbarian dynasty and the black dragon barbarian kingdom from forming an alliance."

with the little sky Fey Kingdom in the middle, it won't be easy for the Black Dragon barbarian kingdom to help the Barbarian dynasty.

In reality.

The little sky Fey Kingdom had been destroyed.

Not only that.

It was because Jin Wu Shuang had heard of this news that he became restless and immediately brought a large amount of resources to the imperial capital of the great Xia.

The purpose was to ask for help.

One had to know.

Without the little sky Fey Kingdom's interference, the Alliance between the Black Dragon barbarian kingdom and the Barbarian Empire would be unimpeded.

the great jin dynasty was the only human dynasty in the southwest of the holy peace state.

At that time.

If the Barbarian Alliance wanted to unite the South and the southwest, they would definitely destroy the Jin dynasty.

Jin Wu Shuang was very clear.

It was impossible for the Jin dynasty to stop the Allied barbarian forces.

He had to ask for help.

“As the saying goes, the bird that takes the lead is shot. I don't agree with our 'human dynasty Alliance' to be the first to start a war.”

Ling Tian said in a low voice.

obviously.

The Yongling dynasty was still in a safe situation.

The alien dynasties around the Yong Ling dynasty, such as the black snake barbarian kingdom, the red eyebrows Fey Kingdom, and the Cang lang Kingdom,

had all been destroyed by the great Xia Dynasty. In addition, the Yong Ling dynasty was also dependent on the great Xia Dynasty.

in other words ...

Unless the Yao nation's alliance Army crossed the great Xia Dynasty's territory, it would be impossible for them to invade the Yongling dynasty.

Under such circumstances.

Ling Tian was naturally unwilling to send out his troops and lose the soldiers of the Yong Ling dynasty.

“Emperor Xia!”

Jin Wushuang ignored Ling Tian. He looked up at Jiang Li and said, “now is the best time to take down the Barbarian dynasty before the barbarians have fully United.

“As long as Emperor Xia agrees, the Jin dynasty will be the vanguard!”

“There's no hurry.”

” no. ” jiang li waved his hand and said, ” even if you want to fight, you should ask for wei zheng's opinion first. the wei kingdom is a member of the alliance. how about this? you can rest in the imperial capital first. when wei zheng comes, we'll talk. ”

“This bi an ...”

Jin Wu Shuang's eyes opened and closed, his heart was filled with unwillingness.

At the same time.

He was also very worried.

“This is good too.”

Ling Tian nodded his head.

“Alright,” he said.

Jin Wu Shuang could only agree.

“Xu Ya, arrange a place for Ling Tian and Jin Wushuang to stay.”

go! Jiang Li ordered.

“Yes.”

xu ya nodded and said to ling tian and jin wu shuang, ” “Human Kings, please follow me.”

“.....”

Jin Wushuang and Ling Tian said goodbye to Jiang Li and left the Azure Dragon Palace with Xu Ya.

“Chief sovereign.”

jin wu shuang and the others had just left.

QX01, who was standing not far away, walked over and waved his right hand. A holographic projection appeared, showing the movements of the berserk beasts all over the territory.

“what is this?”

Jiang Li looked around.

an air reconnaissance unit has discovered that these berserk beasts are not normal.

QX01 said.

“.....”

hmm? ” Jiang Li immediately observed carefully.

Very quickly.

Jiang Li noticed that in the deserted territories of the great Xia Dynasty, a large number of fierce beasts were gathering in one direction in a regular pattern.

It was as if it had been sensed and driven by something.

the most important thing was ...

This location actually pointed directly towards the imperial capital of the Grand Xia.

“A berserk beast tide?”

a beast King? ” Jiang Li pondered. a beast King is born? ” Or is there some other reason?”

“My Lord, according to the speed of these beasts, they will reach Red Dragon County before dawn tomorrow. Then, they will Cross the Green Mountain Range and enter Azure Dragon County.”

qx01 said.

“Yes.”

okay. Jiang Li nodded and said, ” send out all the air Scouts in the base. I’d like to see who’s behind this.

“Yes.”

QX01 nodded.

In reality.

Jiang Li already had some guesses.

In such a situation.

It was obviously similar to the beast tide in Donglin country, so there was a high possibility that it was the work of the ‘barbarian tribe’, and the purpose was probably very simple.

It was ‘revenge’!

In the base of the 01 division.

Shua! Shua! shua!

Immediately.

A large number of aerial Scouts were deployed. They were densely packed, covering the entire sky. The unmanned surveillance drones spread out in all directions, quickly flying away from the imperial capital of the Grand Xia.

At this moment.

Roar! “roar!”

Within the abandoned territories of the great Xia Dynasty.

The roars of countless beasts.

He looked around.

The ferocious beasts were like wolves and tigers. Their eyes were Scarlet, full of bloodthirsty and violent auras. When the large number of ferocious beasts gathered together, they formed a tide.

At this moment.

A small wave of berserk beasts passed by a city.

It could be seen.

Most of the people in these cities were slaves.

There were demon slaves and barbarian slaves.

Around the city.

It was a medicine field that had been cultivated, and there were medicinal herbs planted in it. However, they had just been planted not long ago, so even with the help of the ‘ripening array’, it would still take some time for them to mature.

Obviously.

This slave city was the result of Xu Ya and han Liqi’s hard work during this period of time.

He sent a large number of slaves to rebuild the city on the ruins.

There were indeed some results.

However ...

This 'slave city' that had been built with great difficulty had met with this disaster. A large number of small beasts surged over like a flood.

They directly crushed this 'slave city'.

The human soldiers stationed in the slave city were simply not a match for the beasts.

The city gate was broken.

A large number of berserk beasts poured into the city.

“Ah!”

Countless screams rang out.

a large number of slaves were bitten to death by the beasts, their bodies torn apart and eaten. blood and flesh flew everywhere, and the entire city was filled with miserable screams.

Chapter 383 Battleship

It was not just this slave city.

During this period of time, several ‘slave cities’ that had been built with great difficulty, as well as the medicinal fields that had been cultivated and planted, were basically destroyed by the beasts.

Many slaves died.

He had suffered a great loss.

shua! Shua! Shua!

In the air.

It was a gathering of barbarians. They were standing on top of the beasts, looking down at the beasts that had gradually gathered together. Their faces revealed a satisfied smile.

I didn’t expect that there would be so many ferocious beasts in the great Xia Dynasty. If we gather all of them together, there will probably be more than ten million of them.

“Ten million? hehe, i’m afraid that’s not all!”

“To be honest, I’m a little worried that the formation won’t be able to withstand it!”

“A beast tide formed by so many beasts is enough to form an unstoppable force. I’m afraid the great Xia Dynasty will be destroyed by this beast tide.”

“You’re right!”

“Hahahahaha!”

the barbarians laughed wildly.

In the clouds.

The drones spread out and followed the movement trajectory and direction of the beasts to search and investigate. Soon, they discovered the traces of these barbarians.

He locked onto the target.

The video was transmitted.

The room in the ruler's hub.

14 commanders.

From room zh01 to room zh014.

All of them had arrived.

DTS01, MYL01, and ynjsw01, three level-five meches, stood behind Jiang Li respectfully.

QX01 projected the scene of the beast tide.

“They are indeed barbarians.”

Jiang Li glanced at the projection and said coldly, ” “I didn’t look for trouble with you, but you jumped out first to court death.”

battlefield commander, how many meches are left? ”

” i need specific data, ” jiang li said.

“Reporting to you, chief sovereign.”

Zh01 took a step forward and reported, ” apart from base 04, all the meches stationed in base 03 and base 02 have been withdrawn to Base 01.

army base 03 and army base 02 only have 10000 mech-winged air soldiers, 1000 Air Scouts, and one holographic mech left.

there are a million meches in the base.

“Among them,”

300000 level one meches, five types of level one mech Army, and five types of level one mech Air Force, 30000 each.

200000 perfected-stage meches, five types of land and air meches, 20000 of each type!

level two mech Jian Jia ”

level three mech Jian Jia ”

Zh01 began to report to Jiang Li one by one. It took him a long time to tell him the number of meches Jiang Li had.

After several wars.

He had also destroyed two thousand-year dynasties and didn't replenish his losses, so he only had five, five hundred and ninety-two, or three hundred and seventy-three meches.

more than half of the meches were lost.

only five million or so left. It's not even six million.

there are still a million meches in the base. There are only four million meches in the base.

“It’s time to replenish our forces.”

“Hidden Dragon,”

build the mech Army first. Run the mech factory at full power and build two million level-one meches, five hundred thousand combat meches, cold weapon meches, firearm meches, and biochemical meches each.

” create 2 million stage 2 meches, 500000 electric-powered meches, artillery meches, tank meches, and mech rangers. ”

create one million stage three meches, two hundred thousand each of the liquid metal meches, exoskeleton armor meches, laser weapon meches, ultrasonic meches, and energy meches.

create 500 mechanical giant soldiers and 500 energy destroyers.

“Yes.”

Hidden Dragon replied.

“Rumble!”

In the mech factory.

...

from the first level to the fourth level.

The production line and the production soldiers were running at full power. The production soldiers were teleported away to the place where the steel materials were stored and sent into the black furnace.

Shua! Shua!

Black light screens appeared.

Meches were being manufactured in batches.

it was extremely fast.

among them.

It took 100,000 tons of steel and two million energy points to build two million level one meches, and one million tons of steel and two hundred million energy points to build two million level two meches.

It took five million tons of steel and ten billion energy points to build one million level three meches.

Creating one thousand level four meches used up fifty thousand tons of steel and one billion energy points.

The consumption of steel materials was huge.

...

He had also spent more than 10 billion energy points.

However ...

They were all within an acceptable range.

after all, jiang li had conquered so many dynasties and collected a lot of steel materials, which was enough for the soldiers. he also had tens of billions of energy points.

A few minutes later.

all the meches were finished.

my Lord, a total of five million and one thousand mech soldiers have been completed.

Hidden Dragon said.

“Yes.”

yes. Jiang Li nodded and said, ” keep the mech factory running at full power. Start building mech Air Force units.

“yes.”

yes. Hidden Dragon replied, ” Lord, please give your orders.

create two million Level 1 mech soldiers, mech winged mech soldiers, Air Scouts, glider mech soldiers, light armored mech soldiers, and biochemical mech soldiers, four hundred thousand of each.

create two million stage two meches, electric-powered mech airdropping soldiers, transport mech soldiers, air mech soldiers, bombing mech soldiers, and 400000 air fighter meches each.

create a million Stage 3 mech soldiers, 200000 each of the mech Dragon cavalry, exoskeleton armor mech soldiers, mechanical destructive bomber soldiers, stealth mech soldiers, and mechanical aerial battleship soldiers.

“Finally, make 500 mechas and Ares-class weapons.”

go! Jiang Li immediately ordered.

“Rumble!”

The mech factory started operating again.

The production line and soldiers were working at full power.

Shua! Shua!

Mech soldiers were being created one after another.

Among them.

Creating two million Level 1 mech pilots consumed a total of 100000 tons of steel and two million energy points.

Creating two million stage two mech soldiers consumed a total of one million tons of steel and two hundred million energy points.

Creating one million Stage 3 mech soldiers consumed a total of five million tons of steel and ten billion energy points.

Creating 500 mechas and Ares-class soldiers consumed 25000 tons of steel and 500 million energy points.

A few minutes later.

Five million and five hundred mech soldiers were completed.

In less than ten minutes.

the rampage ended.

Jiang Li's mech Army increased from five million to fifteen million, which was three times the number. It also cost him a lot of energy points and steel materials.

One had to know.

Jiang Li didn't use the Dominator panel to make meches this time. He used the mech factory, so it didn't cost him much energy points.

However ...

Jiang Li had used up about a third of the steel materials he got from the dynasties.

In other words ...

The remaining steel materials could support two more waves of this scale. If Jiang Li used up all the steel materials, he could have another 20 million!

Of course.

Jiang Li didn't do that.

the battlefield commander.

Jiang Li ordered, " send out an Army of ten million meches and form the 'beast-extermimating Army'. You can decide the division. Go to the mountains and destroy the beasts. Don't let them pass the mountains.

"Yes!"

"yes, sir!"

“I promise to complete the mission!”

commander Jiang. the fourteen commanders responded in unison and saluted Jiang Li.

DTS01, ynjsw01, the two of you will set off with the beast-exterminating Legion in case the Barbarian tribe sends out a level five Barbarian.

go! Jiang Li ordered again.

“yes.”

DTS01 and ynjsw01 said in unison.

Half an hour later.

“Rumble!”

The beast exterminating Legion set off.

This time.

There were several new mechanical Air Force units.

Among them.

the most eye-catching ones were the ‘mechanical aerial battleship soldiers’.

An aerial battleship!

That’s right!

The mechanical aerial battleship soldier was different from many of the meches that Jiang Li had made. They were not humanoid machines, nor were they made of mechanical wristwatches.

The mechanical aviation battleship soldiers were actually incomparably huge floating battleships. They were sky blue in color, as if they had fused with the sky. They gave off a mechanical and sci-fi feeling.

There were also huge black cannons on the ship, capable of firing destructive energy cannonballs. There were also stealth fighter jets, mechanical destructive bombers, and other machines parked on the deck.

floating battleships.

Jiang Li took a deep breath and looked up at the floating warship. It was huge like a floating castle. It was like a super sci-fi weapon in a sci-fi movie.

Its overall appearance was similar to a slender oval-shaped hull.

If he had to describe it ...

It was like an 'aircraft carrier' that could fly in the air.

each floating battleship was 215.5 meters in length and 35.5 meters in width. the lowest altitude was 10000 meters while the highest altitude was 100000 meters.

The weapons were luxurious.

Among them.

It was equipped with 20 456mm/45mm main cannons, 30 224mm sub-cannons, 60 80mm long-range cannons, and 100 40mm long-range cannons.

Other than the energy cannons.

There were also 360-degree large-caliber heavy machine guns all around the warship. These machine guns could kill the enemy in close range.

It was also the close range attack method of the mechanical aviation battleship soldiers.

As a result ...

even if the enemy got close to the aerial battleship, they would be swept into a pulp by the pouring machine guns.

One had to know.

This was only the 'stage three mech aerial battleship soldier' produced by the mech factory. If it was created using the Dominator panel and upgraded to the peak of stage three ...

The power of an aerial battleship would be even more terrifying.

Its body was also bigger.

Furthermore ...

If he consumed the Tier 4 soul Tinder to advance to Tier 4 ...

It would probably become a true 'floating fortress'.

Of course.

While aerial battleships were powerful, they had their own weaknesses. Firstly, due to their size, they could easily be attacked by the enemy. As they were only at the type 3 realm, they could not defend against the attacks of type 4 experts.

In reality.

If the aerial battleship were to be attacked by a type 4 expert, there was a high chance that it would crash.

A single mecha Ares-class soldier could easily destroy and shoot down more than ten aerial battleships. Even with the speed of a mecha Ares-class soldier, the aerial battleships could not lock onto it.

But what was undeniable was ...

the destructive power of an aerial battleship on the battlefield would be devastating.

Chapter 384 increase

unit Type: Mechanical air battleship

[rank: rank three]

[No.: BAGC-hkzj01]

skill: third order air coverage strike ”

[machinery: Jian Jia (omitted)]

.....

Soon after.

Jiang Li checked the basic information of the mechanical aerial battleship soldier.

It was not yet midnight.

The night sky was slightly bright.

the moon hung high in the sky and the stars were shining.

200,000 mechanical aerial battleship soldiers, which were 200000 'floating battleships', appeared in the air above the imperial capital of the Grand Xia one after another.

Each of the floating battleships was 215.5 meters long.

This wasn't two thousand.

It wasn't twenty thousand either.

Instead, it was a full 200000 floating battleships.

they were all floating in the air.

They truly blotted out the sky and covered the sun. They blocked off the entire sky, and practically covered the entire sky above the imperial capital with a layer of shadow.

Such a scene.

It was something that could only be seen in science fiction movies.

within the capital.

Many of the commoners were alarmed by such a huge commotion. They walked out of their houses and looked up at the sky. Immediately, their faces were filled with shock and dumbfounded expressions.

They were all stunned.

“Oh my God!”

“What are those things in the sky?”

“The sky Fortress?”

“si si si ...”

“Could it be that these were also made by His Majesty, Emperor Xia?”

“This is too shocking! It’s too shocking!”

the giant iron birds I’ve seen before were already shocking enough, but now, they’re nothing compared to these giant ‘fortresses in the sky’.

“.....”

The crowd was amazed and stared at the sky, unable to calm their excitement and shock.

“Gulp!”

Ling Tian couldn’t help but swallow his saliva as he looked up at the floating battleship in the sky. He was so shocked that he couldn’t say anything, and it was difficult for him to express the shock he was feeling at this moment.

is this the foundation of Emperor Xia? ”

Jin Wushuang took a deep breath and recovered from the shock. He muttered to himself, ” such a terrifying Sky Fortress Army should be enough to sweep across the entire northern region of the Holy peace state, right? ”

Shua!

let's go. Jiang Li flew up.

“Elite ruler's armor, activate!”

Wuwuwuwuwu!

Kachaa! kachaa!

jiang li flew into the sky. in an instant, he was covered in a layer of steel armor and energy flames shot out from his feet. he then stood on the deck of a floating warship.

On the deck of each warship.

There were many stealth fighter jets, light bombers, air fighter jets, destructive bombers, and other fighter jets parked in an orderly manner.

“The beast exterminating Legion!”

Jiang Li looked around. Other than the 200000 floating battleships, there were also large military transport planes and mechanical dragon cavalymen.

They formed a huge mech Army.

shua! Shua!

DS01 flew over and stood next to Jiang Li. Ynjsw01 jumped up from the ground and landed on the deck of the warship.

“Let's go!”

Jiang Li waved his hand.

“Yes!”

“Beast exterminating Legion! All troops, move out!”

...

“Rumble!”

The fleet moved out.

Shua! Shua!

First of all ...

A large number of Air Scouts and drones spread out and flew into the clouds to investigate. Then, the mech winged Air Force and other Level 1 mech Air Forces formed the first line of defense outside the Army.

the mechanical dragon cavalry and the others formed the second line of defense.

The floating battleship was in the center.

Not long after.

The beast-exterminating Army left the imperial capital.

They were heading straight for the Green Mountain Range.

“.....”

...

within the city.

the commoners of great xia watched the beast exterminating army leave.

He was unable to come back to his senses for a long time.

“What does Emperor Xia want to do by mobilizing such a terrifying Army?”

ling tian was puzzled.

“I’m not sure,”

Jin Wu Shuang shook his head.

Early in the morning.

The sky started to brighten.

The beast-exterminating Army had arrived at the Green Mountain Range for a long time.

“roar!”

Far away.

Jiang Li heard the roars of countless beasts. He stood on the deck of the warship ‘BIC-hkzj01’ and looked down.

On the ground.

Waves after waves of beasts gathered from all directions like the sea waves.

Countless beasts.

There were almost countless of them.

This was definitely far more than 10 million.

There were simply too many of them.

Behind the beast tide.

“Very good!”

A smile appeared on the punishment Spirit’s face. He held a blood-red, diamond-shaped crystal in his hand, and a light mist spread out from the crystal.

It was filled with a bloodthirsty and crazy aura.

“There are actually so many fero beasts within the borders of the Grand Xia Dynasty. This has truly exceeded my expectations.”

“However, this is good as well. With so many fero beasts, a horde of fero beasts will be enough to easily destroy the imperial capital of the Grand Xia,” the punishment spirit said with a smile.

“Sir, there’s a situation up ahead.”

At this moment.

One of the fourth-level barbarians shouted.

“The sky above the Green Mountain Range!”

“Si si si ...”

“What’s that?”

“Oh my God!”

“This Suan ni, this Suan ni”

He was stunned.

the barbarians were all stunned. they saw the beast exterminating legion and the huge floating battleships, which were like steel fortresses floating in the air.

Dark clouds that seemed to cover the sky blocked out the sun.

this is the great Xia Army?!

Xing Ling’s eyes widened as he felt a chill in his heart. He could not help but exclaim, ” “What are these war weapons? This is definitely not puppetry, nor is it mechanical skill!”

absolutely not!!!

“It seems that everyone has arrived.”

Jiang Li stood on the deck of BAGC-hkzj01 and looked at Xing Ling and the other barbarians coldly. He waved his hand and shouted, ” “Attack!”

“Annihilate the beast tide!”

BOOM! BOOM! BOOM!

As soon as he finished speaking.

After Jiang Li gave the order.

In an instant.

Kachaa! Kachaa!

The main and secondary cannons of the 200000 floating battleships adjusted their trajectory and aimed at the beasts below. Then, they all fired.

At this moment.

Jiang Li only heard the sound of countless cannons. The energy cannonballs rose into the sky and fell into the beast tide like a meteor shower.

“Rumble!”

Over a million energy cannonballs exploded, causing the entire land to shake. The ground was cracked by the energy cannonballs, and a layer of the ground was lifted up.

countless cracks appeared on the ground.

Countless energy flames scattered in all directions.

Mud and soil flew everywhere.

“Roar!”

It was filled with the sorrowful roars of the beasts.

as the beasts were torn apart by the energy cannons, they could not withstand the firepower of the battleships, covering a large area.

boom! BOOM! BOOM!

However ...

This was just the beginning.

Even to the extent that ...

The beast exterminating Legion didn't even need to send out other meches. Just 200000 floating battleships fired continuously, and the energy cannonballs fell into the beast tide.

It formed an overwhelming massacre.

” what?! ”

“Impossible! This is impossible!”

“How can there be such a terrifying weapon of war?”

“si si si ...”

Fear!

aghast!

his entire body was trembling!

At this moment.

The faces of Xing Ling and the others were as pale as paper. They felt as though their hearts had stopped beating as they stared at the scene before them with their mouths agape.

The cannonballs exploded all over the sky, forming destructive fluctuations.

It was too terrifying!

This was simply too terrifying!

They had been scared silly from the start of the war.

“Gulp!”

xing ling gulped. he could not help but take a few steps back as his hands and feet turned cold. he quickly put away the crystal in his hand and shouted, ” “Retreat!”

Originally.

Xing Ling thought that with the help of the ‘beasts tide’, he could destroy the imperial capital of the Xia Dynasty and teach the Xia Dynasty and Emperor Xia a lesson.

However, he could never have expected this.

To think that the great Xia Dynasty had hidden such a terrifying Army.

In the face of such a terrifying Army, the beast tide of tens of millions of beasts was powerless. Countless beasts were slaughtered and their corpses were strewn all over the ground.

In reality.

The ‘beast exterminating Army’ had not even used its full power.

Only 200,000 battleships had made their move.

Other than that.

There were still a large number of mech army units, stealth fighters, air fighters, and level four meches that hadn't been deployed. This was enough to scare Xing Ling and the others.

“Since you're here, then don't leave.”

you're right, ” Jiang Li said coldly.

Shua!

DTS01 arrived from the sky.

It was as if a bolt of lightning had streaked across the void. Then, a sword was slashed out. The sky-blue sword radiance was like a half-moon as it swept out and slashed towards the punishment spirit.

Shua! Shua! Shua!

At the same time.

A thousand mecha Wargod soldiers moved out. They took out energy beam swords and advanced at full speed.

“You're so silly!”

BOOM!

Xing Ling raised his head and let out a loud roar. His weapon was a huge black blade. He slashed out a black blade light, blocking DTS01's attack by a hair's breadth.

Buzzzzzz! buzzzzzz! Buzzzzzz!

a thousand level four wargod mechas had already charged over and surrounded xing ling and the others. they attacked immediately, waving their energy beam swords. they were as fast as lightning and formed a sky full of sword light.

The sword light interwove into a net.

“Ah!”

Pfff!

Blood splattered everywhere.

“Tier 4! They're all Tier 4!”

1000 Tier 4 experts!!

“How can the Grand Xia Dynasty be so powerful?”

The Barbarian subordinates of the punishment spirit were extremely frightened.

Pfft! Pfff!

It could be seen that a thousand level-four mechas and Ares-class mechas working together with DTS01 were surrounding Xing Ling and the other barbarians. It was a completely one-sided battle.

A few minutes later.

All the barbarians were killed.

Only the punishment spirit was still alive.

Of course.

jiang li had intentionally let xing ling live. he asked dts01 to beat xing ling to a state of near death and then brought him to jiang li.

“chief sovereign, the mission is complete.”

bang!

DTS01 threw the half-dead Xing Ling on the ground.

“Yes.”

Jiang Li sized up Xing Ling.

* Cough cough *

you ... Xing Ling coughed up blood and stared at Jiang Li, but he couldn't see Jiang Li's face and expression through the iron armor. you're Emperor Xia, Jiang Li? ”

“A barbarian at the initial stage of the fifth rank.”

Jiang Li didn't care about Xing Ling's words. He continued, ” “I'll have another Tier 5 combatant.”

“Ynjsw01.”

convert it, ” Jiang Li ordered.

“Yes.”

Ynjsw01 nodded.

Wuwuwuwuwu!

The next moment.

The Zombie King’s poison skill was used, and a thick black Poison mist spread out, covering the punishment Spirit’s entire body. Then, it gradually eroded and transformed.

“ah!”

the punishment spirit let out a miserable shriek.

Very quickly.

the screams disappeared.

The transformation was complete.

The poisonous mist disappeared.

Xing Ling opened his eyes, but they were as black as ink. Pitch-black mist gushed out of his body, and he stood up shakily, roaring towards the sky.

BOOM!

the aura of an early-stage tier 5 cultivator erupted.

The transformation was a success!

Jiang Li had another early-stage level-five walking corpse puppet.

The high-end combat power had increased again.

“Not bad, not bad.”

okay. Jiang Li nodded in satisfaction.

Chapter 385 Breaking through a hundred

boom! BOOM! BOOM!

On the battlefield.

light bombers, stealth fighters, air fighters, destructive bombers and other aircraft were deployed. they hovered above the beast tide and dropped bombs one after another.

Da da da da

The aerial heavy machine gun fired madly. The terrifying penetrative power and destructive power were enough to tear apart the beast's corpse.

Of course.

There were also beasts that resisted. They jumped up from the ground and pounced on the mech. They started fighting, causing many mechs to crash.

since it was a war.

It was impossible to not suffer losses.

However ...

It was only a matter of time before the beasts were annihilated.

more than half of the red dragon county was caught in the flames of war.

It could be said to be a thousand miles of barren land.

An hour later.

The war was over.

The airships, bombers and other airships all stopped firing.

This time, almost all of the beasts had been killed by the beast-exterminating Legion. After careful calculation, the beasts didn't even last two hours under the attack of the beast-exterminating Legion.

They were completely defeated and annihilated just like that.

“Clean up the battlefield and prepare to return.”

Jiang Li looked at the bodies of the beasts on the battlefield. The smell of blood mixed with the smell of burnt meat was pungent.

“Yes.”

The commander replied.

the transport plane landed.

the mechanical army started to clean up the battlefield and move the scrapped meches to the transport aircraft. these scrapped meches could be recycled into steel materials.

Naturally, he couldn't let it go to waste.

As for the corpses of the beasts ...

There were too many of them.

jiang li was going to send array masters to deal with the bodies after he went back and turn them into blood refining pills with the blood refining array.

The blood refinement pill was also a good resource.

They could be used to train and nurture human soldiers.

half an hour later.

The beast exterminating Legion quickly returned.

Jiang Li stood on the deck and looked at the huge fleet and the mech Army. He felt proud.

These were all the powers he had.

Jiang Li still remembered.

He had just arrived in this world.

He was in danger.

He created the first combat mech and named it 'Wang Gang'.

And now.

In less than a year.

Jiang Li already had more than 15 million meches under his command. He had even established the great Xia Dynasty and occupied a large area of territory.

It was already one of the most powerful dynasties in the northern region of the Holy peace state.

there's an imperial dynasty above an imperial dynasty, and there's an imperial dynasty above an imperial dynasty.

the dynasty has just begun, ” Jiang Li said in a deep voice. you can't be arrogant just because you've made some achievements and strength.

shua!

The Dominator panel opened.

He opened the soul Tinder column.

[soul tinder: 1739600 level-one soul tinders, 157400 level-two soul tinders, 2000 level-three soul tinders, 45 level-four soul tinders, and one level-five demon soul tinder fragment.]

On the way back.

Jiang Li checked his gains this time.

The Barbarian subordinates who had killed Xing Ling, on the other hand, had two fourth-grade soul Tinders.

The harvest this time was not small.

“one-click fusion.”

...

“Whoosh!!!”

” fuse. ” jiang li activated the soul tinder fusion function and chose ‘one-click fusion’ to fuse all the level-one soul tinders.

Shua! Shua!

A series of notifications popped up on the fusion interface.

Finally.

The fusion was complete.

[prompt: 173960 fusions, 57980 successes, 115980 failures, 57980 stage-two soul Tinders obtained.]

“continue.”

Buzzzzzz!

The fusion continued.

This time, he was going to fuse all the stage-two soul Tinders.

...

One click fusion.

A few seconds later.

All the stage-two soul Tinders were fused.

[prompt: 21538 fusions, 3590 successes, 17948 failures, 3590 stage-three soul Tinders obtained.]

fuse the third-stage soul Tinder.

Jiang Li said.

“whoosh!!!”

The fusion interface appeared.

the light flickered.

A series of notifications popped up, like a flood.

Very quickly.

The fusion was complete.

[prompt: 559 fusions, 62 successes, 497 failures, 62 level-four soul Tinders obtained.]

“sixty-two plus forty-five.”

I’ve got 107 level-four soul Tinders. Jiang Li calculated in his heart.

The number had exceeded a hundred.

It had reached three digits.

In reality.

the stage four mech army had already unlocked ‘mechanical giant soldier’ and ‘energy explosive soldier’. the remaining ones were ‘super mech’, ‘mechanical cavalry’, and ‘mechanical missile soldier’.

It would take 112 level-four soul Tinders to unlock the remaining three level-four units. Jiang Li still needed five level-four soul Tinders.

After unlocking all the fourth-tier troop classes, he would be able to unlock the authority of the fifth-tier troop class.

“I’m only short of five.”

soon, ” Jiang Li murmured.

Shua!

Jiang Li closed the interface. He didn’t unlock the new level-four mechanical Army. Instead, he kept all the level-four soul Tinders.

This was because they could be unlocked at any time.

It only took a moment.

However, it was not easy to get the soul Tinder.

Furthermore ...

Mechanical giant soldier, energy explosive soldier, and mech Ares soldier. These three level four soldier types were enough to deal with any battle situation.

The most important thing was ...

Jiang Li had to keep enough soul Tinders so that he could use a level-four soul Tinder to fuse them if he didn't have enough level-five combat power.

Create level five meches.

The beast-exterminating Army returned to the imperial capital of the Grand Xia.

The floating battleship stopped above the base, and the large military transport plane landed on the empty land of the base. The meches returned to the mech factory one after another.

However ...

The mech aerial battleship soldiers didn't return to the mech factory. Instead, the 200000 floating battleships stopped in the air above the capital and were on standby.

Within the city.

From time to time, the citizens of great Xia would look up at the sky and gaze at the floating battleships that were like fortresses in the sky. They would sigh and feel even more reverence.

After Jiang Li returned to the imperial capital, he went straight to the Azure Dragon Palace and summoned Xu Ya and the others to discuss matters.

Azure Dragon Palace.

"Your subjects pay their respects to Your Majesty!"

within the palace.

The officials of the great Xia Dynasty, led by Xu Ya, Han Liqi, Hong Tianqi, and others, knelt down to pay their respects.

“Yes.”

Jiang Li nodded and said, “There was a beast tide in the great Xia Dynasty. I led the Army to stop the beast tide outside the Green Mountain Range.”

the beast tide has been settled, but there are still many beast corpses on the battlefield. Immediately send array Masters to deal with those beast corpses.

“Yes!”

“Yes, sir!”

Xu Ya and the others looked at each other and immediately agreed.

“Yes.”

okay. Jiang Li nodded and left the Azure Dragon Palace.

“We will see you off, Your Majesty.”

Xu Ya and the others bowed.

“Your Majesty dispatched the Army to eliminate the beasts tide.”

I thought they were going to attack another dynasty.

“Yup!”

“.....”

let's go. the ministers whispered to each other and quickly carried out Jiang Li's order. They sent a team of formation Masters to the Qingshan mountains to deal with the dead beasts.

In the room of the ruler's hub in the base of the 01 division.

Shua!

Jiang Li took out a blood-red crystal. It was octagonal with light and strange blood-red lines inside.

Obviously.

Jiang Li got this crystal from the spirit of punishment.

“whoosh!!!”

He injected his true essence into it.

The crystal began to glow, and a formation diagram began to appear.

“A formation?”

Jiang Li thought to himself.

As for formations ...

Jiang Li didn't know much about it and didn't study it.

However ...

However, zh01 had learned how to use arrays.

Hence.

Jiang Li called zh01 over.

“Chief sovereign.”

Jiang Li. zh01 came and saluted.

“Yes.”

okay. Jiang Li nodded and gave the blood-red crystal to zh01. zh01, take a closer look at this formation.

“Yes.”

Zh01 nodded and took the blood-red crystal.

Buzzzzzz!

Immediately after.

Zh01’s body was surging with mechanical spirit energy, and countless data streams flowed through his eyes. He clenched his hands together, and numerous array seals appeared.

It was a combination of technology and formations.

An oval-shaped blood-red formation appeared above the blood-red crystal. It was filled with a bloodthirsty and violent aura.

half an hour later.

The commotion subsided.

“reporting to the ruler, this is a ‘formation plate’ for a rank four formation technique.”

zh01 said, “this formation is called: The bloodthirsty ferocious spirit formation’s main purpose is to target ‘ferocious beasts’. After the formation is activated, under the influence of the formation, the ferocious beasts will enter a bloodthirsty and berserk state. Even if the formation is removed, this berserk state will continue for a long time.”

“The berserk beasts will form a berserk beast tide, and with the formation as a guide, we can control the direction of the berserk beast tide.”

“but this formation can’t affect a fourth rank beast king.”

in other words, if there’s a Tier 4 beast King keeping watch, the ferocious beasts won’t be affected by the array.

“Oh.”

jiang li played with the bloody formation disk in his hand. ” so, the barbarian tribe used this formation to create the beast tide. ”

“Yes, I am.”

Zh01 nodded.

“This is good stuff.”

jiang li’s eyes lit up.

One had to know.

although the beasts were terrifying to other dynasties, it was nothing for jiang li's mech army.

If he could master this 'bloodthirsty evil spirit formation', Jiang Li would be able to gather all the beasts and then harvest a large number of soul Tinders.

"can you control this 'bloodthirsty ferocious spirit formation'?"

Jiang Li asked.

"My Lord, if we want to activate the 'bloodthirsty ferocious spirit array', we need the power of the barbarians."

Said zh01.

"Alright," he said.

jiang li shrugged. "i'll keep it for now. i'll find a way to catch a barbarian above level five and control him with the 'core contract charm'."

"You may leave."

jiang li waved his hand.

"Yes."

Zh01 left the room.

Buzzzzzz!

Jiang Li closed his eyes and activated his technique. -Dragon's Roar came out of his body. Then-he immersed his consciousness into it and connected to the 'young dragon ranking-Saint peace state'.

Chapter 386 reward

the purple-gold ranking list slowly unfolded.

It could be seen.

The fog on the list had already lessened greatly.

It only blocked less than two-thirds of the area.

This was obviously because the great Xia Dynasty's ranking had risen.

Jiang Li took a closer look.

The great Xia Dynasty was ranked 56th!

Obviously.

It was a huge improvement.

He was already in the top 60.

One had to know.

Jiang Li had shown his power in the capital of the Wei Kingdom and became the leader of the Alliance of human dynasties.

It had absorbed over 90% of the National fortune of the human dynasties in the northern region of the Holy peace state.

It could be said that ...

The Fortune of the great Xia Dynasty had increased greatly.

The great Xia Dynasty's great Xia Azure Dragon had even grown from 2500 meters to 3500 meters.

Jiang Li Read it carefully.

He saw many familiar dynasties on the list.

The spirit Moon Demon Kingdom, the Barbarian dynasty, and the great Wei Dynasty.

Wait, wait, wait.

Among them.

The great Wei Dynasty was ranked 60th, the spirit Moon Demon Kingdom was ranked 59th, and the Barbarian dynasty was ranked 58th. They had all entered the top 60.

Other than that.

Jiang Li also saw many dynasties that he had never seen before.

However ...

Jiang Li didn't see the sky demon Kingdom, the Shu Kingdom, or the Black Dragon barbarian kingdom.

it was obvious.

The three dynasties were more prosperous than the great Xia Dynasty, so Jiang Li couldn't see them.

It was very likely that he had entered the top 50.

Or even higher.

“congratulations on the great xia dynasty's promotion. rank 56. The sacred weapon of the nation-the Green Dragon Imperial Jade seal.

At this moment.

A message appeared in Jiang Li's mind.

Buzzzzzz!

after that.

A purple-gold light spot fell from the 'young dragon ranking-Saint peace state' and entered Jiang Li's body like a Firefly.

A square green jade seal.

there were four lifelike carvings of three-clawed green dragons.

'Reward two: upgrade the great Xia Azure Dragon technique.'

Buzzzzzz!

Another purple-gold light landed and merged into Jiang Li's body. A huge amount of information appeared in his mind. It was the improved Azure Dragon skill of the great Xia Dynasty.

Jiang Li quickly memorized it.

tier 4 supreme-grade!

Great Xia's Azure Dragon technique had been upgraded to Tier 4 Supreme-grade.

This was already the highest grade cultivation method among Tier 4.

Above that was the fifth step.

however, it would not be easy to upgrade the great xia azure dragon technique to the fifth step.

'reward 3: azure dragon absolute kill seal.'

Buzzzzzz!

The third purple-gold light landed and merged into Jiang Li's body again. This time, he was rewarded with an extremely powerful martial art.

Tier 4 Supreme-grade!

Shua!

he received all three rewards.

...

the 'young dragon ranking' disappeared. jiang li's consciousness returned to his body. he opened his eyes and a square green dragon imperial jade seal appeared in front of him.

“roar!”

the four azure dragon carvings on the jade seal were vivid and lifelike, and a faint dragon roar could be heard coming from them.

in reality.

After Jiang Li got the ‘Green Dragon Imperial Jade seal’, he also got the basic information about the ‘sacred weapon of National fate ‘from the young dragon ranking.

From low to high.

they were divided into dynasty saint weapons, imperial saint weapons, and imperial saint weapons.

Among them.

It was further divided into 1 – 9 Dragons.

For example.

It was Jiang Li’s Green Dragon imperial edict.

...

Since it had swallowed the Imperial edicts of the panic demon dynasty and the lion barbarian kingdom, it now had three three-clawed Green Dragons, which was why it was called the ‘three Dragon Dynasty’s Saint weapon’.

There were four Azure Dragon carvings on the Azure Dragon Imperial Jade seal the moment it appeared.

Therefore, it was the Imperial Jade seal of the four dragons dynasty.

It could reach the level of ‘Nine Dragons’.

Soon after.

Jiang Li familiarized himself with the power of the ‘Green Dragon Imperial Jade seal’, then put it away and sent it to his dantian. It floated above the Azure Dragon Kingdom, resonating with the ‘imperial edict of the Azure Dragon’.

Using the fate of the country to nurture it.

“The Azure Dragon art of the great Xia Dynasty,”

roar!

Jiang Li started to practice the improved Azure Dragon technique of the great Xia Dynasty. He circulated the extremely rich true essence through his body and formed a three-clawed Azure Dragon with its head on Jiang Li’s head.

Half an hour later.

Jiang Li’s aura stabilized. He had completely mastered the level-four Supreme-grade great Xia Azure Dragon technique. He was getting better at controlling and controlling the fate of the great Xia Dynasty.

it could unleash even greater power.

“azure dragon absolute kill seal!”

Shua! Shua!

jiang li started to practice the ‘top-grade level-four martial arts’.

The 'Azure Dragon absolute kill seal' was a martial art that was purely offensive in nature.

However ...

In order to cultivate and use this martial art, one needed to use the Azure Dragon technique of great Xia as the foundation, coupled with a sacred artifact of the nation's fortune. Only by borrowing the power of the nation's fortune could it be fully exerted.

It was extremely powerful.

it could be said that ...

It was a martial art that was specially made for Jiang Li.

After all, this was a top-grade fourth-rank martial art.

Even though it was specially made for Jiang Li and was extremely suitable for him to practice, it wasn't easy to get started.

fortunately ...

Jiang Li had been injected with level one to level three gene strengthening potions and had taken a lot of elixirs to improve his aptitude, so his comprehension and aptitude in martial arts techniques had greatly improved.

He should be able to get started in a few days at most.

On the other side.

In the red Dragon County.

The battlefield was a mess.

Han Liqi and the others led their formation master troops over and saw the battlefield that was almost a thousand miles wide. The smoke from the battle had not completely dissipated.

The huge pits and the corpses of ferocious beasts were scattered all over the field as if there was no end in sight.

At this moment.

Han Liqi and the others were stunned.

He couldn't help but open his mouth wide.

He was so shocked that he couldn't speak.

after a long time.

Only then did they come back to their senses.

"There are so many beasts in this Suan ni. My God, so many beasts have died."

"At the very least, it's over ten million."

this is a beast tide of tens of millions. From the time His Majesty's Army was dispatched to the time they returned, it only took less than a morning. Yet, this beast tide of tens of millions was actually annihilated.

"Gulp!"

too strong. His Majesty's Army is too strong.

"by the way, how many blood refining pills can i refine from so many dead beasts?"

“You should be asking us when we can finish dealing with these fierce beasts” corpses.”

The array Masters were amazed. They were even more in awe of Jiang Li.

Three days later.

Outside the imperial capital of the Grand Xia.

“Azure Dragon absolute kill seal!”

Buzzzzzz!

” seal! ” jiang li flew into the air and formed a seal with both hands. green light glowed and formed many green seals. vast true essence gushed out with the power of the nation’s fate.

At the same time.

The Green Dragon Imperial Jade seal appeared on its own.

It was floating above Jiang Li’s head.

“Go.”

kill! Jiang Li pushed out his hands and three-clawed Green Dragons appeared in the air. After the dragons twisted, they formed the word ‘kill’.

“BOOM!”

The ‘kill’ word formed by the three-clawed Green Dragon fell forward with terrifying power. It shattered several mountains in succession before it completely collapsed.

“I’ve finally crossed the threshold.”

Jiang Li was overjoyed.

In the past three days.

Azure Dragon absolute kill seal. Jiang Li had been practicing the Azure Dragon absolute kill seal and finally mastered it. He could exert the power of this martial art technique and had such a killing move.

Naturally, his combat strength had increased greatly.

In reality.

two days ago.

Feng chenzi from the Wei Dynasty brought a large amount of resources to the Xia Dynasty. Jiang Li met Feng chenzi and asked him to tell Wei Zheng to come to the imperial capital in two days to make an announcement.

The resources that Feng Chen Zi had brought.

There were quite a few of them.

After all, the great Wei Dynasty was much richer than the great Jin dynasty. Moreover, the great Wei Dynasty had a spirit crystal mine with a large reserve of spirit crystals.

After Jiang Li converted all the resources, he got 180362003000 energy points, which was almost 20 billion.

Shua!

The Dominator panel opened.

Jiang Li glanced at the energy points column.

energy points: 61.089814230 energy points.

“There’s still 60 billion.”

I can make more than 400 perfected-stage level-four meches with all these energy points, ” Jiang Li thought.

Of course.

Jiang Li didn’t plan to send more troops.

At noon.

the great xia palace.

Inside the Azure Dragon Palace.

at this moment.

Wei Zheng, Ling Tian, Jin Wushuang, and Dong Xiao were all here.

jiang li was sitting on the highest dragon chair in front of him.

“Emperor Xia!”

Jiang Li. Wei Zheng and the others bowed to Jiang Li and greeted him respectfully.

“Yes, I’m now giving orders as the leader of the Alliance.”

Jiang Li looked at Wei Zheng and the others, nodded, and said, "I'll give you one day. The Wei, Yongling, Jin, and Donglin Kingdom, immediately gather more than ten million troops and set off against the Barbarian dynasty.

"What?"

Ling Tian looked up at Jiang Li in shock.

"Emperor Xia, are you going to officially declare war on the Barbarian race?"

dong xiao was shocked.

"Alright!"

Jin Wu Shuang was overjoyed.

"Emperor Xia, you must think twice before you act on this matter."

Wei Zheng said in a deep voice.

"You only have one day."

Jiang Li's eyes were calm. besides, you're right. I'm going to officially declare war on the barbarians. Since no dynasty wants to be the first to declare war, I'll be the one to ignite the war.

"You guys go and prepare."

" go. " jiang li waved his hand.

After saying that.

Jiang Li got up and left.

Only Wei Zheng and the other three were left in the Azure Dragon Hall.

“.....”

Dong Xiao took a deep breath and cupped his hands at Wei Zheng and the others, saying, ” everyone, I’ll go back to Donglin to gather my troops. We’ll meet again at the Wei Kingdom at this time tomorrow.

After saying that.

Dong Xiao walked out of the Azure Dragon Palace.

Roar!

Dong Lin’s Scarlet Dragon manifested. Dong Xiao leapt into the air, stepping on the dragon’s head. Like a streak of Scarlet light, he flew away from the imperial capital of the Grand Xia at an extremely fast speed.

“Emperor Xia is too reckless.”

how dare you attack the Barbarian dynasty without knowing the situation of the Barbarian race? ” Wei Zheng said in a deep voice. if you’re not careful, you’ll be in danger of being annihilated.

“Prince Wei, don’t be so pessimistic,”

Ling Tian thought for a moment before replying, ”I feel that Emperor Xia would have made some preparations.”

“Also, on your way here, didn’t you see those floating fortresses in the air above the imperial capital?”

Ling Tian pointed to the sky and continued, " those air fortresses are the air troops of Emperor Xia. I'm afraid you don't know about it. It was a few days ago.

there was an outbreak of a ten million level tide of beasts in the great Xia Dynasty. Emperor Xia sent such an Army and it only took one morning to wipe out the ten million level tide of beasts.

"It's incredible just thinking about it."

"There's such a thing?"

wei zheng's eyes widened.

"It's true."

jin wu shuang nodded his head solemnly, " that's why i said that the great xia dynasty's foundation is far from what we had imagined. it's truly unfathomable. "

"By the way, Prince Wei, do you have any news from the Shu country?"

Jin Wu Shuang suddenly asked.

"i'm not too sure."

wei zheng shook his head and guessed, " however, after such a long time, the king of Shu has not led his Army to avenge Guan Ling. I'm afraid he has been delayed by something.

"Yes."

Jin Wushuang nodded and said,"no matter what, since Emperor Xia has given the order, we have to follow it. After all, the great Xia Dynasty is the leader of the Alliance."

besides, if we can take down the Barbarian dynasty this time, all the territories of the human dynasty Alliance will be connected and we will occupy the southern area of the northern region of holy peace state.

“When the time comes, we’ll be able to take over a side.”

Chapter 387 Demonic god

Time passed.

the next day.

at noon.

In the capital of the great Wei.

boom! BOOM! BOOM!

outside the city.

The ground was shaking.

First of all ...

The Army of the Yongling dynasty came into view.

There were not many of them.

It was only two million.

However, the elites of the Yongling dynasty were also dispatched.

“The Army of the Yongling dynasty has arrived.”

Ling Tian stood on the head of the National aura true dragon and shouted.

Immediately after.

The Donglin country’s Army arrived shortly after.

It was also two million.

Dong Xiao personally led them.

“Donglin country’s Army has arrived.”

Dong Xiao shouted.

Roar!

The roar of the true dragon of National aura.

Not long after.

The Jin army had arrived.

Five million!

Great Jin had mobilized an Army of five million soldiers.

Obviously.

In order to completely take down the Barbarian dynasty, Jin Wushuang was also serious. Because during this time, Jin Wushuang's Scouts had discovered that many barbarians had quietly sneaked into the great Jin dynasty.

There was no more time.

"I've been waiting for you all for a long time,"

Shua!

wei zheng rose into the air from the capital, and a hundred-meter long great wei blue dragon appeared beneath his feet. wei zheng stood on the dragon's head and cupped his hands at jin wushuang and the others.

"Prince Wei, how many troops do you plan to send out this time?"

Jin Wu Shuang asked.

"The four National Guardian armies!"

Wei Zheng said.

BOOM! BOOM!

As soon as he finished speaking.

The city gates of the Wei Dynasty opened and the sound of orderly footsteps could be heard. Soldiers came out from the city one by one. They were dressed in armor and had an astonishing murderous aura. They formed four armies with an imposing aura.

these are the four National Guardian armies of the Wei Dynasty!

Jin Wu Shuang looked on in shock.

Very strong!

It was extremely powerful!

These four armies.

Each Army had three million soldiers, and when the four armies were put together, they were an Army of ten million.

Just the number of troops that the Wei Dynasty had sent out had already exceeded the combined forces of the Donglin country, the Yongling dynasty, and the great dynasty.

It could be seen from this.

The Wei Dynasty's Foundation and national power far surpassed the Jin dynasty.

the armies of the donglin kingdom and the yongling dynasty were probably only equivalent to the defender-general army of the wei dynasty.

It might even be worse.

With the great Wei Dynasty's national power and military strength, Wei Zheng was indeed qualified to fight in the northern region of the Holy an province. However, he was still a little lacking in overall.

“Now, we're just waiting for the great Xia Army.”

Wei Zheng said.

...

“Yes.”

jin wu shuang and the others nodded.

At this moment.

The imperial capital of the Grand Xia.

in the base of the 01 division.

The 14 battlefield commanders gathered in the room of the dominating heart.
DTS01, MYL01, ynjsw01, and the two early stage type 5 undead puppets.

There were a total of five tier 5 combatants.

the battlefield commander.

let's go, " Jiang Li ordered. this time, we'll form an Army of ten million meches
and name it: The battle Legion will be decided by your commander, but you must
make sure that there are no shortcomings and that you can unleash the full power
of the mech Legion."

"Yes."

yes! the 14 battlefield commanders responded in unison.

...

Half an hour later.

The 'punitive expedition Army' had been decided.

Among them.

It was the high-end combat force of the ‘punitive expedition Army’.

DTS01 and ynjsw01.

There were also two early fifth-order walking corpse puppets.

100 mecha Ares-class soldiers, mechanical giant soldiers, and energy bomb soldiers were deployed.

As for the level four meches.

They had all been mobilized.

that was 11500.

fourth rank and below.

The meches created by the Dominator panel were all left in the base.

There were two million level three meches, two hundred thousand of each type. Four million level two meches, four hundred thousand of each type. Four million and five hundred thousand level one meches. Excluding the Intel meches, there were five hundred thousand of each type.

“teleport!”

“whoosh!!!”

teleport room. Jiang Li waved his hand and activated the ‘teleport room’. Spatial fluctuations appeared and a spatial light beam flew out of the’ teleport room ‘and covered the mech factory.

Shua! Shua!

In the Arsenal.

Tens of millions of meches disappeared.

In the air above the imperial capital of the Grand Xia.

The 200,000 battleships vanished into thin air.

They were all teleported away.

The scene changed.

Luoyan County.

In the base of the 03 division.

In the mech factory.

Shua! “Whoosh!”

a large number of meches appeared in the empty mech factory. they were all teleported from the base of the 01 army.

At the same time.

Buzzzzzz! buzzzzzz!

There was an intense spatial fluctuation.

in the air.

200,000 airships teleported over and appeared in the sky above the fallen goose County. They enveloped the entire County in an instant.

It blocked the sky.

The luoyan County fell into a shadow.

“What’s going on?”

“Look at the sky, what are those things?”

“si si si ...”

“.....”

Within the city.

The residents were all alarmed. They all raised their heads and looked at the incomparably huge floating battleships. Their eyes were filled with shock as they discussed.

“This bi an ...”

Luo dingyang was also dumbstruck. He stared blankly, unable to recover. what happened? ” What’s with these air fortresses made of steel?”

Immediately after.

In the base of the 03 division.

The transport mech soldiers appeared, and large military transport planes appeared. A large number of mechanical Army soldiers boarded the transport planes.

“Rumble!”

The engine roared.

the large military transport planes took off.

other than light bombers, fighter jets, destructive bombers, and other meches, all of them were parked on the deck of the floating warship.

The other mech soldiers.

for example.

Mechanical dragon cavalry, mechanical winged air soldiers, Air Scouts, glider air soldiers, biochemical air soldiers, exoskeleton armor air soldiers, and other types of Air Forces.

They were all centered around the floating battleship and then spread out, forming a line of defense.

It was a huge ‘battle Army’ made up of tens of millions of meches. They had all been deployed and were flying in the air.

“Si si si ...”

In luoyan County.

They looked at the vast Army.

Countless people gasped.

Shua!

let's go. Jiang Li flew into the air and released his true essence and divine will. He controlled the spiritual Qi around him and flew from the base of the No. 03 Army.

that Qianqian is His Majesty, Emperor Xia!

“It's His Majesty, Emperor Xia!”

“His Majesty Emperor Xia has come to luoyan County.”

“This commoner pays his respects to Your Majesty.”

at this moment.

Jiang Li! when Jiang Li appeared, the people of luoyan County saw him and bowed to him in awe.

“Yes.”

I'm fine. Jiang Li just looked down and stood on the deck of the first floating warship. DTS01 immediately came to Jiang Li's side.

Ynjsw01 was followed by two early-stage rank-five zombie puppets. They followed Jiang Li like bodyguards.

“Let's go!”

go! Jiang Li waved his hand and shouted.

“Yes.”

“Rumble!”

The punitive expedition Army was dispatched.

The rumbling sound reverberated in all directions.

The magnificent fleet, the huge fleet, and the dense mech pilots formed a vast mech Army that covered the sky.

he quickly left luoyan county.

They moved forward at their fastest speed.

He was flying towards the capital of the great Wei Kingdom.

so they are the subordinates and Army of His Majesty, Emperor Xia!

“This is too shocking! This is too shocking!”

“Gulp!”

Emperor Xia suddenly sent out such a terrifying Army and they are flying towards the Wei Dynasty. Is Emperor Xia going to invade the Wei Dynasty? ”

In luoyan County.

Luo dingyang and the others looked up at the Army in the sky that was gradually getting further away. The awe and shock in their eyes didn't dissipate for a long time. They then started to discuss in low voices.

on the other side.

Ghostmist forest.

Buzzzzzz! Buzzzzzz! Buzzzzzz!

It started a month ago.

An extremely thick ghost fog was constantly spreading out from the forest, as if it was endless. It kept expanding, and had already expanded several times.

They gradually invaded the territory of the great Cang nation.

In a village at the border of the great Cang nation.

“Kekekekekekekeke”

The gray fog gradually enveloped the village silently, and an extremely sinister laughter could be heard from within the fog.

However, it soon fell into silence again.

the ghostly mist shrouded them.

No one knew what had happened in the village.

The dense ghost fog continued to spread forward.

After he zoomed in.

the entire village.

All of them had disappeared into thin air, as if they had never existed.

However, there were more ghostly figures in the ghostly mist.

Shu country.

Guan Ling was killed by Jiang Li.

the king of shu was naturally extremely furious.

One had to know.

As one of the three great generals, Guan Ling was King Shu's right-hand man. He had a deep relationship with King Shu, and King Shu was ready to lead the Army to attack the great Xia Dynasty.

However ...

The sudden change in the desert of death disrupted King Shu's plan.

The desert of death.

Legend had it that it was a forbidden zone for living beings. In the deepest part of the desert of death, a 'demonic god' was sealed, and there was no possibility of survival after entering it.

It was precisely because of the aura that this 'Demon God' would leak out from time to time that it would corrode life, causing the land to turn into a desert of death that seemed to have no end.

However ...

After the creatures in the desert of death were contaminated with the aura of a Demon God, they would undergo a mutation. There was even a certain chance that a Demon God crystal core would be formed in their bodies.

This Demon God crystal core was a rare treasure. Not only could it cleanse one's meridians and improve one's aptitude, but it could also help one break through and increase the success rate of the breakthrough.

Furthermore ...

There was also a certain chance of obtaining the power of a Demon God.

of course.

the probability of this happening was too low.

Not even one in a hundred thousand.

It was basically nothing.

The demon God crystal core was too rare.

It could only be produced in the body of 'mutated creatures' at the third stage and above, and the probability was very small. Killing ten of them would give you one.

This time.

The 'mutated creatures' in the desert of death suddenly went on a rampage. They formed an attack that was like a beast tide and attacked the Shu country.

There were even rank five mutated creatures among them.

He had no choice.

King Shu could only give up on taking revenge on the great Xia Dynasty for now. He had to suppress the 'mutated creatures' in the desert of death first. Furthermore, King Shu had to guard against the possible attacks of the demons and barbarians.

The entire Shu country had entered a state of preparation for war.

He was a little overwhelmed.

Barbarian dynasty.

The capital.

BOOM! BOOM! BOOM!

The ground shook.

Outside the city.

Tens of millions of barbarian soldiers had arrived. A huge flag was raised in the middle of the Army. A lifelike Black Dragon was depicted on the flag.

It was the Army of the Black Dragon barbarian kingdom.

“Hahahahaha!”

shua!

Xing Jiali laughed and immediately flew out of the capital.

immediately.

In the Black Dragon barbarian Kingdom’s Army.

Another figure flew over and the two met in the air.

“General Longse, it’s great that you can come.”

Xing Jiali said respectfully.

“The Barbarian King is too polite.”

Long se saluted, speaking neither haughtily nor humbly, ” I’m here under the orders of the Black Dragon King to help you conquer the Jin dynasty and unify the west and southwest of the northern region of the Holy peace state.

“I will do my best.”

Chapter 388 Logistics

Jiang Li’s expedition Army set off from luoyan County and flew at the fastest speed. It took them less than half a day to arrive at the capital of the Wei Kingdom in the afternoon.

10,000 meters up in the sky.

The huge fleet blocked the dark clouds in the sky, and all kinds of mech Air Forces formed a line of defense, gradually appearing in the sight of Wei Zheng and Jin Wushuang.

“Coming, Yingluo, coming, Yingluo”

Ling Tian couldn’t help but shout out in shock, his eyes wide open.

Although this was not the first time he had seen such a majestic Army in the sky, Ling Tian could not help but be shocked.

His heart was filled with deep respect.

“So This Is the Army of the great Xia.”

Jin Wu Shuang sighed and looked up at the sky. His eyes were filled with shock, ” Emperor Xia is finally here, the great Xia’s iron army.

“With such a magnificent Army, we will definitely win this battle!”

dong xiao said emotionally.

One had to know.

Dong Xiao could be said to be the only one among them who had personally witnessed the strength of the great Xia Army. A beast tide of over 4 million had been easily annihilated.

He saw it with his own eyes.

Such combat strength.

It was terrifying.

“.....”

Wei Zheng also looked up at the huge floating fortresses. His eyes were solemn as he muttered, ” “A rough estimate of the number of soldiers in this Army is definitely in the tens of millions.”

“I just don’t know how strong they are.”

Outside the city.

the total number of soldiers from the various countries was close to 20 million. at this time, they all raised their heads and looked at the approaching army in the sky.

“Are they the soldiers of the great Xia Dynasty?”

they can actually fly in the air. Are they special air troops? ”

and those huge iron birds, I really don't know how they can fly in the sky.

"i think there's a high chance that these soldiers aren't real humans."

"Yup!"

"After all, their weapons and equipment are too strange."

"....."

The soldiers were all discussing.

Not long after.

The entire expedition Army stopped in the sky above the capital of the great Wei Kingdom.

Shua!

let's go. Jiang Li landed from the deck and stood in the air.

"Welcome, Emperor Xia!"

Dong Xiao immediately came forward and bowed, his tone extremely respectful.

"Your Majesty Emperor Xia, you are finally here."

master Jiang. Ling Tian also came quickly and saluted Jiang Li.

"Greetings, Emperor Xia!"

Jin Wu Shuang bowed.

“Emperor Xia.”

Wei Zheng cupped his hands and said.

“Yes.”

” i see. ” jiang li nodded and looked down at the human army. there were more than he expected. there were almost twenty million of them.

“very good,” he said.

good. Jiang Li was quite satisfied. gather the troops and get ready to go.

“Yes.”

Jin Wu Shuang and the others all nodded.

Half an hour later.

“roar!”

The stage 3 military formation was completed. The military killing aura gathered and attracted the surrounding heaven and earth spiritual energy, activating the military formation. A military formation ferocious beast appeared.

It could be seen.

The stage three military formations of the Dong Xiao Legion and the Yong Ling Legion were the ‘Wind Dragon Eagle Formation’. After the military formations were set up, a black wind Dragon Eagle Army beast that was a thousand meters long was formed.

It had the body of an Eagle and the head of a Dragon.

...

Shua!

After the formation was set up.

The Army's marching speed increased rapidly, and the vast army formation's light fog enveloped the entire Army. They moved as if they were flying, and their speed increased by at least ten times.

dajin's third-grade military formation was the 'hurricane formation'.

After the setup was successful.

what appeared wasn't the 'army beast', but a hurricane with a physical form. from a distance, it looked like there was a huge tornado above the army.

Finally.

It was the great Wei Dynasty's army formation.

They also set up a stage three army formation.

It was called the wind serpent formation.

The formation beast that was formed was a lifelike flood Dragon beast. Its entire body was surrounded by wind attribute energy, which increased the speed of the Army.

...

“Let’s go!”

BOOM! boom!

The Army moved out.

They formed an extremely vast array.

The beasts of the battle formation hovered in the air.

Among them.

the yongling legion and the dongxiao legion marched in front of the army. the four national guardian armies of the wei dynasty were divided into two legions and marched on the left and right wings.

Finally.

Dajin’s Army brought up the rear.

Jiang Li’s Army was moving slowly in the air. Although the stage-three marching formation was not slow, it was much slower than Jiang Li’s mech pilots.

the difference was at least ten times.

Unless it was a stage four army formation.

Only then could they be compared to Jiang Li’s mech pilots.

so,

Jiang Li asked the Army to slow down.

The Army marched on.

In the evening.

They had just arrived at the border County on the westernmost side of the Wei Dynasty.

It was called Lin man County.

The county city of linman County.

BOOM! BOOM!

The ground was shaking.

Nearly twenty million soldiers of the Alliance had arrived outside the county city.

“All troops, hear my order!”

jin wu shuang and the others shouted.

“Yes.”

The generals and soldiers responded.

Buzzzzzz!

The marching Army dispersed.

All the beasts in the Army formation above the Army disappeared.

After that.

The armies of the various countries set up camp outside the county city of Linman County.

He looked around.

Outside the county city.

all of them were tents that were connected together and densely packed, taking up a large area. the vast army camp seemed to have no end in sight.

The city gate of Lin man County opened.

The Viscountess Modi walked out quickly with a few of his capable subordinates beside him.

“Chen Modi, we await Your Majesty Wei King and all the human Kings!”

Modi bowed.

“Greetings, Your Majesty! Welcome, human King!”

Modi’s subordinates knelt down and saluted.

“Yes.”

Wei Zheng looked at Modi and said, ” we will be resting in Lin man province tonight. Go and arrange a place for us to stay. There must be no mistakes.

“Your subject will obey.”

Modi immediately said.

soon after.

Wei Zheng then introduced Jin Wushuang, Dong Xiao, Ling Tian, and Jiang Li to Modi. Modi bowed to them one by one with great respect.

The night came.

Jiang Li stayed in the county city of linman County.

The armies of the four countries were all stationed outside the county city of linman County.

Jiang Li's Army was also in the sky outside the county. The drones had already spread out.

Shua!

The holographic mech sent the holographic camera to the sky above the county.

As a result ...

It wasn't just the entire linman County that was under surveillance. With linman County as the center, the surrounding hundred miles were under surveillance.

In other words ...

As long as Jiang Li wanted to.

He would be able to know anything that happened in Lin man province at any time.

And these ...

Wei Zheng and the others had no idea.

the second-rank prince's mansion.

Within the palace.

Jiang Li, Jin Wushuang, Wei Zheng, Ling Tian, Dong Xiao, Modi, and Zhang kede, the commander-in-chief of the army of Lin man province, were also there.

They were discussing the plan and layout for tomorrow's attack on the Barbarian dynasty.

Modi, is there any unusual movement from the Barbarian dynasty? ”

Wei Zheng asked directly.

“Your Majesty.”

Modi got up and quickly replied, ” not long ago, the five million barbarian soldiers of the Barbarian dynasty were defeated by the National Guardian Army. The Barbarian dynasty began to withdraw, and there are very few barbarians harassing the Barbarian Army.

“It seems like he's hiding.”

Wei Zheng muttered.

did the spies who sneaked into the Barbarian dynasty get any information? ”

Wei Zheng asked again.

“No, I didn't,”

Mody shook his head. there was also a purge during the sacrificial ceremony, which led to the death of many spies. It's already very difficult to get any information.

“Yes.”

Wei Zheng nodded, then turned to Jin Wushuang and the others, saying, ”
“Everyone, we will officially attack the Barbarian dynasty tomorrow. Do you have any plans? Do you have any good suggestions?”

we don't know much about the Barbarian dynasty's situation. We don't know if they have the Black Dragon barbarian Kingdom's support.

“I'm afraid it's not appropriate to invade so rashly.”

“prince wei,”

Jin Wu Shuang waved his hand and said, ” you're worrying too much. This time, we've gathered an Army of 20 million soldiers. In addition, there's Emperor Xia's great Xia Army.

a mere barbarian dynasty? isn't that a piece of cake? ”

“You're right.”

Ling Tian muttered to himself for a moment before saying, ” however, we can't guarantee how long it will take to completely take down the Barbarian dynasty.

“What about the logistics?”

“Twenty million soldiers need to eat and drink.”

“That's easy.”

“If we take down a city, we’ll plunder it,” Jin Wushuang said.

“But what if the barbarians burn all the food?”

Ling Tian asked again.

obviously.

Jiang Li’s mech Army didn’t need to eat or drink. Every mech had a perpetual motion machine in their body, so Jiang Li didn’t have to worry about logistics every time he invaded.

He had never considered it.

but ...

however, the human army was different.

Twenty million human soldiers consumed an astronomical amount of food each day. If the entire Army set off with food, it would definitely have an impact on their fighting power.

“No matter what, we must have sufficient food and logistics.”

that’s why we have to leave an Army behind to ensure that there are no problems with the logistics, ” Wei Zheng said in a deep voice. when the Army’s food is insufficient, they can deliver the food in time.

“Yes.”

“that’s a good idea.”

Jin Wushuang and the others looked at each other and agreed with Wei Zheng’s opinion.

“Then which army should we leave behind?”

Dong Xiao asked.

“This bi an ...”

wei zheng and the others all looked at jiang li.

“No need,”

there’s no need to leave an Army behind, ” Jiang Li said. as for the logistics, I’ll take care of it myself. You only have one mission, and that is to take down the Barbarian dynasty as soon as possible.

“This bi an ...”

Wei Zheng and the others were stunned.

“Emperor Xia, how do you want to solve this?”

jin wu shuang couldn’t help asking.

“don’t ask too much.”

it’s fine. Jiang Li glanced at him coldly. I said I’ll solve it myself, so I’ll do it.

it’s decided. Gather the Army tomorrow morning.

Jiang Li made the decision.

As soon as he finished speaking.

jiang li left immediately.

DTS01 and ynjsw01 quickly followed.

“.....”

Within the palace.

Only Wei Zheng and the others were left.

“can emperor xia really solve it?”

Jin Wu Shuang was a little worried,”if there’s really a problem with the logistics, at that time, without food and supplies, the morale of the Army will be in chaos.”

“We can’t let the soldiers fight the barbarians on an empty stomach, can we?”

“You’re asking me, but who should I ask?”

Ling Tian shrugged his shoulders.

“.....”

Dong Xiao was silent.

“We can only try to get the soldiers to bring more food.”

Wei Zheng said.

Chapter 389 death

Soon after.

Ling Tian and Dong Xiao left one after another, but Jin Wu Shuang was stopped by Wei Zheng.

“Prince Wei, what’s the matter?”

Jin Wu Shuang stopped and asked.

“Hehe.”

Wei Zheng smiled.

“jin wu shuang, don’t think that just because you can hide it from ling tian and the others, you can hide it from me.”

“I don’t understand what you’re talking about.”

Jin Wu Shuang snorted and turned to leave.

the little sky Fey Kingdom was destroyed a long time ago. The Black Dragon barbarian kingdom and the Barbarian Empire have joined forces. The great Jin dynasty is on the verge of destruction.

Wei Zheng immediately said.

“you’re so silly!”

jin wushuang’s pupils contracted. he immediately turned around and stared at wei zheng. he quickly walked into the hall and closed the door behind him.

“Wei Zheng, what do you mean by this?”

Jin Wu Shuang said in a low voice.

“Nothing much.”

Wei Zheng shrugged and sat in Jiang Li’s seat. however, if Emperor Xia finds out that you’re hiding such important information, do you think he’ll kill you? ”

“.....”

Jin Wushuang took a deep breath and quickly calmed down, ” Wei Zheng, what do you want? ”

“Hehe.”

Wei Zheng was still smiling as he said, ” ” prince jin, oh prince jin, you’re really bold. you know that the little sky fey kingdom has been destroyed, but the black dragon barbarian kingdom and the barbarian empire have already joined forces. ”

as long as the Barbarian dynasty was invaded, the Black Dragon barbarian kingdom would definitely send troops to support the Barbarian dynasty at the first moment. But you still hid it.

“Do you want us to be buried with you?”

“Nonsense,”

“With our military strength and the strength of the great Xia Army, we can easily take down the entire barbarian dynasty,” Jin Wushuang shouted.

“When the time comes, Yingluo”

“That’s enough,”

Wei Zheng interrupted Jin Wushuang's words and sneered disdainfully, "after all that, aren't you just trying to borrow our strength to help your Great Jin get through this calamity?"

"Don't make it sound so Grand,"

"wei zheng,"

Jin Wu Shuang muttered to himself for a while, then asked, if that's the case, why did you send out the four National Guardian armies when you already know the news?"

"what is your purpose?"

because I want to use the Black Dragon barbarian kingdom to destroy the great Xia Dynasty!

Wei Zheng said in a deep voice.

"You're crazy!"

jin wu shuang suddenly cried out in shock, his face turned pale with fear, and he scolded, "You actually want to have an internal fight at this time."

"Hehe."

Wei Zheng sneered. do you think the sky Fey Kingdom will let this matter rest after the little sky Fey Kingdom has been destroyed? If I'm not mistaken, the sky demon Kingdom and the Black Dragon barbarian kingdom will fight soon."

"When the time comes, they won't have time to worry about us."

"And if I can destroy the imperial capital of the Grand Xia Dynasty and absorb all of the fate of the Grand Xia Dynasty, then with the feedback from the fate of the nation, my cultivation will definitely rise."

then, I'll take Jiang Li's head and offer it to the king of Shu.

Jiang Li killed Guan Ling.

tell me. I helped him kill Jiang Li. He should be grateful, right? ”

“Aren't you afraid that King Shu's appetite is too big and will directly swallow your Wei Dynasty?”

Jin Wu Shuang shouted.

“Then we'll fight to the death.”

wei zheng snorted coldly.”my great wei is not weak. if the king of shu dares to do this, you'll have to wait for my crazy revenge.”

with the Barbarian race and the monster race watching, King Shu won't be too tough as long as he takes the big picture into consideration. Besides, I helped him kill Jiang Li.

“At the very least, he won't go too far in the short term.”

“Hu ~~ Hu ~ Hu ~”

Jin Wushuang took another deep breath, ” Wei Zheng, I think you're crazy. I'm sorry I can't keep you company.

As soon as he finished speaking.

jin wu shuang was about to turn around and leave.

...

“Whoosh!!!”

Wei Zheng’s aura of an early-stage Tier 5 cultivator spread out from his body. His true essence surged, and he even controlled the surrounding spiritual energy to form an oppressive force.

It suppressed Jin Wu Shuang.

“You’re so silly!”

Jin Wu Shuang’s face turned pale.

“Jin Wu Shuang, you don’t have a choice now.”

you must work with me unless you want to die Here, ” Wei Zheng shouted. besides, if I tell you about the destruction of the little sky Fey Kingdom, you should know what the consequences will be.

“Your Great Jin will definitely be destroyed.”

do you think Jiang Li dares to fight with the Black Dragon barbarian kingdom? ”

“Wei Zheng, you’re the one!”

Jin Wushuang’s body trembled as he clenched his fists and glared at Wei Zheng.

...

“I’ll count to three.”

Wei Zheng’s tone was cold as he stretched out his finger. if you don’t agree, you can go and die.

“One!”

“Two!”

.....

“Wait a moment!”

Jin Wu Shuang shouted.

“I agree,”

Jin Wu Shuang lowered his head dispiritedly.

“hahahahaha!”

Wei Zheng laughed, ” Jin Wushuang, believe me, you’ve made the wisest decision today.

“Zhang kede,”

wei zheng waved his right hand. ” take out the map. ”

“Yes.”

The Commander-in-Chief Zhang kede, who was standing not far away, walked over and took out a Jade slip. He injected his Zhen Yuan into it, forming a projection map.

“Your Majesty, Prince Jin,”

in fact, ” Zhang kede said, ” we’ve paid a great price, and the spies in the Barbarian kingdom were almost completely wiped out. We’ve already learned that the Black Dragon barbarian Kingdom’s Army has arrived in the Barbarian capital.

if everything goes well, they will send troops to attack the great Jin dynasty and control the entire West of the northern region of the Holy peace state.

Obviously.

Wei Zheng had lied during the discussion just now. He was just acting.

“The Black Dragon barbarian Kingdom’s Army is already here,” Jin Wushuang said in shock.

“That’s right.”

Zhang kede nodded.

“what else?”

Wei Zheng sneered. the Black Dragon barbarian kingdom is planning to destroy your Great Jin dynasty and control the entire northern region of the Holy peace state before starting a war with the sky Fey Kingdom.

this way, the Black Dragon barbarian kingdom won’t have to worry about any problems in the rear. They can focus on dealing with the sky Fey Kingdom.

“The most important thing is ...”

with the strength of the Black Dragon barbarian Kingdom’s Army, even if we have twenty million soldiers, we may not be able to win, not to mention the Barbarian dynasty’s Army.

and the Black Dragon barbarian kingdom could send more troops to help at any time.

that's why we can't take down the Barbarian dynasty from the beginning.

“Attack the Barbarian dynasty? Haha, Jiang Li has made a stupid decision, but it's good. This way, I'll have a chance to destroy the great Xia Dynasty.”

“The location is here.”

Wei Zheng pointed to a place on the map. when the time comes, we only need to lure the Barbarian Army here and let the great Xia Army fight with the Barbarian Army.

“And we just need to sit on the mountain and watch the Tigers fight.”

when the great Xia Army and the Barbarian Army are almost done fighting, I think Jiang Li will retreat when he knows he can't win.

“i'll take advantage of the great xia army's weakest moment to give them a fatal blow!”

“Wei Zheng, you're really ruthless.”

Jin Wushuang looked at the map and heard what Wei Zheng said. Speaking of which, Jiang Li didn't do anything to you, right? why do you want to kill him? ”

“those who achieve great things must step on piles of white bones under their feet.”

Wei Zheng said indifferently.

“What a good” stepping on a pile of white bones.””

Jin Wu Shuang snorted coldly, ” it's a pity that the ‘pile of white bones’ you're stepping on are all human bones and not alien bones.

“Jin Wu Shuang, remember what you have to do.”

Wei Zheng shouted.

“I know,”

Jin Wu Shuang left the main hall.

Within the palace.

Only Wei Zheng, Modi, and Zhang kede were left.

“Your Majesty, can we trust Jin Wu Shuang?”

“If Jin Wushuang tells Jiang Li about this, won’t we be dead?” Modi said with worry.

“Yup,”

Zhang kede was also worried.

“Don’t worry,”

Wei Zheng stood up. Jin Wushuang has no choice. Besides, even if he told Jiang Li, he has no evidence to prove anything. he said.

the destruction of the little sky Fey Kingdom is a fact. Jin Wushuang can’t quibble.

“Also, do you think I didn’t do anything?”

Wei Zheng sneered.

“whoosh!!!”

He said.

A mysterious talisman appeared in the palm of Wei Zheng’s hand.

“This is the core slave charm.”

Said Mo Di.

“Yes.”

Wei Zheng nodded. yes, it’s the ‘core slave charm’. Although it can’t control or enslave Jin Wushuang, it’s still possible to use some price to restrict Jin Wushuang and make him unable to tell anyone about this matter in a short time.

At Jiang Li’s place.

Inside the house.

“Whoosh!”

qx010 stood next to jiang li and projected a clear holographic image. jin wushuang, ling tian, dong xiao, and wei zheng were all in the image.

It was obvious.

From the very beginning.

Jiang Li was watching Dong Xiao and the others.

The most important thing was ...

Dong Xiao and the others didn't know.

in other words ...

Wei Zheng and Jin Wushuang's Secret plot in the hall.

Jiang Li heard everything.

He saw everything.

"Why do you think some people like to court death?"

Jiang Li's expression was cold and his eyes were cold.

"my lord, that's because these lowly ants don't understand your great power at all. they're only seeking their own deaths if they try to go against you. "

DTS01 said.

"That's right."

Ynjsw01 nodded.

"Alright,"

jiang li stood up, put his hands behind his back, and looked up at the night sky. "since they want to die so much, i'll fulfill their wish. "

"Chief sovereign, do you need this subordinate to act?"

DTS01 asked.

“No,” she said.

No. Jiang Li shook his head. it’s such a pity to kill Wei Zheng.

“Then how about transforming into a walking corpse puppet?”

Ynjsw01 said.

Wei Zheng is definitely going to die, but not now. If he dies, no one will be able to command the four National Guardian armies.

Jiang Li said, ‘it’ll be a waste if we don’t use such a powerful human army against the barbarians. As the saying goes, “an eye for an eye.”’

isn’t it better to let the four National Guardian armies consume the strength of the Barbarian Legion? ”

“The ruler is wise!”

DTS01 and ynjsw01 immediately complimented.

“The Black Dragon barbarian kingdom.”

Jiang Li thought, I didn’t expect that I’ll have to fight with one of the three most powerful dynasties in the northern region of the Holy peace state so soon.

” it’s a good time to test the strength of the three strongest dynasties in the northern region of the holy peace state. ”

The night came.

Shua!

A strong figure sneaked in and came to the courtyard of Jiang Li's residence. He looked around and walked towards Jiang Li's room.

Bang!

DTS01's figure flashed and appeared behind the man. Then, with a hand knife, he hit the back of the man's head, knocking him out.

"chief sovereign, we've captured an infiltrator."

Jiang Li, you're here, " DTS01 said to Jiang Li as he grabbed the man by his collar.

"Bring him in."

Jiang Li said.

"Yes."

He pushed the door open.

DTS01 threw the person in his hand to the ground.

"jin wushuang."

Jiang Li looked down and recognized her.

Chapter 390 righteousness

jiang li was surprised.

He couldn't understand why Jin Wu Shuang would come to visit so late at night.

Moreover, he had come after he had conspired with Wei Zheng.

If he didn't understand, he would just ask directly.

"Wake him up,"

Jiang Li said.

"Yes."

DTS01 nodded.

After that.

DTS01 threw a slap, hitting Jin Wushuang's face accurately. With a loud slap, a clear palm print appeared on the left side of Jin Wushuang's face.

His face was also a little swollen.

"Ah!"

Jin Wushuang was in so much pain that he woke up.

"xia yingluo, your majesty emperor xia!"

He raised his head.

Jiang Li! Jin Wushuang saw Jiang Li standing in front of him and looking down at him. He was so scared that he shivered.

He also ignored the throbbing pain on the left side of his face.

“Jin Wushuang.”

jiang li looked calm and asked slowly, ” “It’s so late, why did you suddenly come to my residence?”

“Emperor Xia.”

Jin Wushuang had already regained his senses. He looked at DTS01 standing behind him, and his expression became even more respectful.

One had to know.

This expressionless and extremely cold middle-aged man in front of him was a peerless powerhouse at the perfected stage of Tier 5.

Back in the Wei Dynasty.

He was the one who had displayed an extremely powerful combat power and suppressed Wei Zheng in one fell swoop. He had even killed the Guan Ling of the Shu state. He was known as invincible.

Jin Wu Shuang naturally didn’t dare to be rash.

“Speak,” he said.

you’re right, ” Jiang Li said coldly.

“Gulp.”

Jin Wu Shuang swallowed his saliva and planned to tell him everything.

“I’m Yingying!”

The result.

An accident happened.

Just as Jin Wu Shuang was about to say something.

He didn’t say it.

Buzzzzzz!

Suddenly.

at the back of jin wu shuang’s body, a talisman appeared and lit up. jin wu shuang’s expression immediately froze, and a confused expression appeared on his face.

‘Core contract charm’.

although wei zheng couldn’t control and enslave jin wushuang through the ‘core contract charm’, he could use this’ core contract charm ‘as the price and a large amount of the country’s fate power to seal a part of jin wushuang’s memory.

as long as jin wushuang wanted to spread the news, it would trigger the restriction that had already been set up. the ‘core contract charm’ would be activated in an instant, and it would seal all the memories of the things that they had discussed tonight.

“What do you want to say?”

Jiang Li asked again.

“F * ck me f * ck me”

Jin Wu Shuang's mouth was wide open, but his mind was blank. He didn't know what to say for a long time, and his face was covered in cold sweat.

Damn it!

Damn it!

What was going on? What's wrong with me?

what am i trying to say?

What on earth had happened?

Jin Wu Shuang's mind was in a mess.

the most important thing was ...

if she couldn't explain it clearly and made jiang li suspect that she had bad intentions ...

...

That would be bad.

In reality.

The reason why Wei Zheng chose Jin Wushuang was not only because he had Jin Wushuang's weakness, but also because only the National and military power of the Jin dynasty was enough to cooperate with him to complete the next plan.

as for donglin country and yongling dynasty ...

he was too weak.

moreover ...

Many things had happened in the Donglin Kingdom before. It was Jiang Li who sent the Xia Army to save the Donglin Kingdom and put an end to the beast tide.

dong xiao was quite loyal to jiang li.

as for ling tian.

Wei Zheng didn't think much of it and was even worried that Lingtian would ruin his plans.

He thought about it.

...

Jin Wu Shuang was the most suitable.

Wei Zheng had no choice but to take the risk.

Furthermore ...

Wei Zheng had also taken sufficient precautions. At the very least, he didn't think that there would be any problems.

“You can't tell me?”

Jiang Li looked at Jin Wushuang and thought for a while. He remembered what Wei Zheng said before. He seemed to have set some restrictions with the ‘core contract charm’.

“Green Dragon Imperial Jade seal.”

Buzzzzzz!

Hence.

jiang li waved his right hand and a square green jade seal appeared in his palm.
there was a three-clawed green dragon carving on each side.

There were four in total.

The four-Dragon Kingdom's Holy transportation tool.

“go.”

Shua!

let's go. Jiang Li waved his hand and the Green Dragon Imperial Jade seal flew out
and floated above Jin Wushuang's head. Four three-clawed Green Dragons
appeared and formed a green light curtain.

It covered Jin Wu Shuang's entire body.

“Roar!”

A Dragon's Roar resounded.

The power of the nation's fate gushed out and was injected into the green Dragon
Imperial Jade seal.

Immediately after.

The intermediate slave contract also appeared on Jiang Li's forehead.

Rays of light poured into Jin Wu Shuang's body.

“Ah!”

The next moment.

jin wu shuang clutched his head and screamed. he fell to the ground, his body curled up. the veins on his face popped out. he was in extreme pain.

It lasted for a few minutes.

Bang!

at the back of his neck.

The ‘core contract charm’ shattered, turning into light spots and dissipating.

Shua!

The Green Dragon Imperial Jade seal flew back to Jiang Li's hand and was put into his dantian.

“Thank you, Emperor Xia!”

jin wushuang was panting heavily. his face was still pale. he saluted jiang li.

“You may rise.”

go. Jiang Li waved his hand.

“Yes.”

Jin Wu Shuang stood up.

Wei Zheng, that bastard. He actually planted the ‘core contract charm’ on me without a sound. If it was not for Emperor Xia’s intervention, I would never have known.

thank you, Emperor Xia. Jin Wushuang bowed to Jiang Li again. thank you for saving me.

obviously.

The ‘core contract charm’ was erased by Jiang Li with the Green Dragon Imperial Jade seal, the power of the nation fate, and the power of the intermediate slave contract. Jin Wushuang’s sealed memory was naturally restored.

not only that.

Jin Wu Shuang had already guessed what was going on.

“emperor xia.”

Jin Wu Shuang took a deep breath, gritted his teeth, and his eyes became firm. He immediately said, ” “We can’t attack the Barbarian dynasty.”

“why?”

what? ” Jiang Li smiled.

because the Black Dragon barbarian kingdom has allied with the Barbarian Empire. Not only that, but the Black Dragon barbarian kingdom has also sent their barbarian Army to the Barbarian Empire.

Jin Wu Shuang said.

isn't there the little sky Fey Kingdom between the Black Dragon barbarian kingdom and the Barbarian Empire? ”

Jiang Li asked.

“This bi an ...”

Jin Wu Shuang paused for a moment.

Plop!

The next moment.

Jin Wu Shuang immediately knelt down.

“Please forgive me, Emperor Xia!”

Jin Wu Shuang said.

“What crime has Prince Jin committed?”

Jiang Li said.

the Xuanji of the little SkyDemon Kingdom has actually been destroyed.

Jin Wu Shuang gritted his teeth and told the truth, ” it was destroyed a long time ago. It seemed to be the Black Dragon barbarian Kingdom's doing.

“You actually took so long to reveal such an important piece of information.”

Jiang Li's eyes turned cold.

“Please forgive me, Emperor Xia.”

Jin Wushuang’s tone was filled with fear, ” I have no choice. The great Jin dynasty is the only human dynasty in the West of the northern region of the Holy peace state.

“The Barbarian Alliance will definitely send troops to the Jin dynasty.”

therefore, the only way is to strike first and destroy the Barbarian dynasty. The territories of the human dynasty Alliance will be connected, and the Jin dynasty will have a chance of survival.

“If that’s the case, why are you saying it now?”

what? ” Jiang Li asked.

“because of wei zheng!”

Wei Zheng has already gone crazy, ” Jin Wushuang said. he has completely forgotten about the safety of the entire human race in the northern region of Saint peace state for his own selfish desires.

he’s crazy enough to use the Black Dragon barbarian kingdom to deal with you and the great Xia.

even in such a situation, he still wants to fight and consume each other. If he really succeeds, all the human dynasties in the South of the northern region of holy peace state will be in danger of being destroyed.

“when the nest is overturned, how can the eggs be intact?”

at that time, the entire human race in the North will become slaves to the alien races.

In reality.

after thinking for a long time, jin wushuang finally made a decision. he was going to tell jiang li everything, not just for the 'righteousness of the human race'.

There was another thing.

If he really did as Wei Zheng said, it would be considered a success.

in the end, the great jin dynasty still couldn't avoid the crisis of being destroyed and might even accelerate its destruction. jin wushuang didn't think that wei zheng would send troops to help the great jin dynasty.

Instead, it was the great Xia Dynasty.

jiang li promised dong xiao that he would send troops to defend the donglin kingdom and he did it. he sent the xia army and saved the donglin kingdom.

Furthermore ...

Compared to the great Wei Dynasty and Wei Zheng.

Jin Wushuang was more optimistic about the great Xia Dynasty.

Other than that.

Although Jiang Li was domineering and tyrannical, he had never humiliated Jin Wushuang, but Wei Zheng had humiliated Jin Wushuang many times. When they were in the capital of the great Wei Kingdom, he even forced Jin Wushuang to kneel down.

"i know." jiang li smiled and patted jin wushuang's shoulder. "i know. you can go back now."

"Your Majesty Emperor Xia, you?"

Jin Wu Shuang had a startled expression.

“Let’s go back,”

Jiang Li waved his hand.

“But Yingluo”

Jin Wushuang wanted to say something but stopped. Your Majesty Emperor Xia, we should cancel the attack on the Barbarian dynasty tomorrow. If we really start a war, we will probably have to face the entire barbarian Alliance head-on.

“That’s not wise.”

you’d better think it through. If the Barbarian dynasty is not destroyed, your Great Jin dynasty will be the one that will be destroyed.

Jiang Li said.

” your majesty emperor xia, i am willing to give all the resources of the jin dynasty to emperor xia. i only hope that emperor xia can send troops to help for the sake of the human race, if he still can not stop them. ”

Jin Wu Shuang took a deep breath, and said in a low voice, we still have to make the barbarians pay a heavy price.

“The operation tomorrow will not be canceled.”

I’m determined to get the Barbarian dynasty, Jiang Li said.

“Emperor Xia.”

Jin Wu Shuang raised his head and said in shock, "you have to think twice!" Although Wei Zheng brought the four National Guardian armies with him on the surface, they won't contribute at all when the time comes. The purpose of him bringing so many troops here is actually to deal with the great Xia Army."

"If he doesn't want to help, then force him to help."

let's go back, " Jiang Li said. just follow my orders.

"Yes."

Jin Wu Shuang nodded.

"Wait a moment."

Buzzzzzz!

Jiang Li used the power of the fate of the nation to create a 'core contract charm' with the 'elementary slave contract'. It floated in his palm.

"In order to avoid being detected, you should disguise yourself."

Shua!

Jiang Li waved his right hand and the talisman landed on Jin Wushuang's back and then disappeared.

"Thank you, Emperor Xia."

Jin Wu Shuang once again cupped his hands and saluted, then left the room.

"This Jin Wu Shuang is quite interesting."

Jiang Li watched Jin Wushuang leave the courtyard and said with a smile, ”

“He was lucky enough to keep his life.”

DTS01 said.

“.....”

Jiang Li shrugged.

it was true.

Jin Wu Shuang was really lucky to have his life back.

He was supposed to die.

However ...

Jiang Li didn't expect this.

Jiang Li was surprised that Jin Wushuang would come here in the middle of the night and tell him everything about Wei Zheng's plan.

“The righteousness of the human race?”

No. Jiang Li shook his head.

Perhaps this was the reason.

But it was definitely not just that.

Although Jin Wushuang had concealed the news of the destruction of the small sky Yao nation, the war had not truly started. This meant that there was still room for redemption.

There were many human dynasties in the northern region of the Holy peace state.

The open and secret fights were endless.

Jiang Li didn't see the word 'United'.

Even ...

dugu Huangcheng. Jiang Li encountered his first powerful enemy, dugu Huangcheng. He led his Army to join the alien races and betrayed the human race for a spiritual herb.
