

## Army 411

### Chapter 411

In reality.

After hearing Feng chenzi's words, the other Pavilion elders were also tempted.

one had to know.

if he could really become a 'marquis king', he would have the same status as wei lin and would be able to enjoy the protection of the 'flood dragon of the country 'and cultivate' cultivation techniques of the country's fate'.

At that time.

As long as the great Xia Dynasty grew stronger, they would be able to use the fate of the country to raise their cultivation and break through to the next realm, just like the human Emperor of the dynasty.

All sorts of benefits.

It made people drool.

The most important thing was ...

If the day really came when the great Xia Dynasty was promoted to a 'dynasty', they would be the Marquis of the dynasty.

A Marquis of the Empire!

Just thinking about it made him excited.

“.....”

Wei Lin looked at Feng chenzi and then at Wu changding and the others. After a moment of silence, he said, “If you really have such an idea, I won’t stop you.”

“However,”

“It’s not that easy to become a Marquis,” Wei Lin said after a pause.

“Hahaha.”

feng chenzi laughed out loud, “of course it’s not that easy to achieve great things.”

Within Feng chenzi’s eyes, a seed of “ambition” was sprouting.

The Marquis of Great Jin.

After Jiang Li returned to the great Xia Dynasty, he was teleported to base 07 through the teleportation room in Base 01. The base was built next to the Marquis ‘Palace of the Marquis of Great Jin.

The Marquis Palace of Dajin.

Within the palace.

“Your Majesty.”

Jin Wushuang bowed to Jiang Li.

In the surroundings.

Jin Wushuang’s vassals were standing there.

“Your subjects pay their respects to Your Majesty!”

These vassals knelt down and kowtowed.

“You may dispense with the formalities,”

Jiang Li waved his hand.

“Thank you, Your Majesty.”

The ministers stood up.

Soon after.

let’s go, ” Jiang Li said. He was here for the resources of the Marquis of Jin. Jin Wushuang led the way to the Treasury.

The resources of the Marquis of Great Jin were far inferior to that of the Marquis of great Wei.

“Convert!”

Buzzzzzz!

energy points. Jiang Li activated the conversion function and converted all the resources in the Treasury. The resources that filled the Treasury disappeared and he got a lot of energy points.

finally.

jiang li got 30 billion and 20 million energy points.

It could be said that ...

Compared to the resources of the Marquis of great Wei, the Marquis of Great Jin had more.

The difference was ten times.

“Farewell, Your Majesty.”

Jin Wu Shuang and the others said respectfully.

Buzzzzzz!

The fluctuations of a spatial teleportation.

Jiang Li returned to the imperial capital through the teleportation station in the base of Army 07. Then, he went to Marquis Yongling and converted his resources.

He obtained ‘10.11 billion’ energy points.

Finally.

Jiang Li went to Marquis Donglin again.

After converting the herbs that Marquis Donglin had collected during this period of time, he had only obtained 1003 million energy points. Although it was not a lot, it was still meat no matter how small it was.

...

Unknowingly.

The sun set in the West.

It was almost evening.

in the base of the 01 division.

Within the room in the ruler's hub.

Shua!

Jiang Li had an idea.

He opened the Dominator panel and clicked on the energy points column.

energy points: 477.3 billion energy points.

The data was displayed.

jiang li clearly saw that he had more than 470 billion energy points.

...

It was a huge number.

To tell the truth.

Jiang Li didn't expect to have so many energy points at once.

"400 billion isn't that much."

Jiang Li calmed down and thought, "after all, I'll need one trillion energy points to unlock the fifth-tier troop class.

"400 billion isn't even half of that."

“so,”

“Don’t be arrogant.”

At this moment.

The Marquis of panic was located at the easternmost part of the great Xia Dynasty.

“Whoosh!!!”

The strange and dense gray-black fog had already entered the Marquis of Panic’s territory. Furthermore, it was gradually spreading, corroding all the living beings in the surroundings and devouring their vitality.

Shua! shua! shua!

Countless ghostly figures appeared.

It didn’t seem to have a physical body.

“What?”

“Why? Why were there no demons here? Why?”

“Why are there only some vicious and wild beasts?”

“What happened?”

In the depths of the fog.

A furious roar rang out.

Obviously.

the powerful beings in the ghost fog didn't know that the 'panicking demon dynasty' had already been destroyed by jiang li. the demons of the panicking demon dynasty fled in all directions.

It could be said that ...

In the Marquis of panic.

It was a state of desolation.

There were only berserk beasts and wild beasts.

"Damn it!"

the mist rolled like waves and then gathered together, finally condensing into a giant creature that was 10000 meters tall, letting out a furious roar.

BOOM!

An explosion sounded.

The powerful beings were venting their anger, and many mountains were shattered, causing the deaths of many beasts and beasts.

Such a huge commotion.

naturally, it attracted the attention of the 'air reconnaissance troops' stationed in the marquis of panic. drone after drone flew over in the clouds.

"enemy detected."

” no information on this race is recorded in the database. ”

it’s suspected to be a new species.

“Report immediately.”

Shua! shua!

The air reconnaissance troops began to transmit information to the holographic soldiers in the base of the 09 Army.

Then, holographic mech QX09 contacted Jiang Li.

The Marquis of Great Jin.

Near the border of the changman Kingdom.

BOOM! BOOM!

the ground was shaking.

he looked closer.

The Barbarian Army, which seemed to have no end in sight, was marching toward them at a rapid speed. From a distance, it looked like a huge black Dragon.

It contained an aura of invincibility.

furthermore ...

It was hard to estimate the number of barbarian troops.

In the sky above the Army.

There were also a large number of Level 3 barbarians in the air.

Among them.

The leader of the group was a fifth-grade barbarian general.

“Man gan, support the Barbarian Army!”

“si si si ...”

“How can there be so many barbarian soldiers?”

The Marquis of Jin’s soldiers stationed at the border were dumbfounded, their faces full of fear.

“kill!”

“Roar!”

The next moment.

The Black Dragon barbarian Kingdom’s barbarian Army immediately launched an attack. The grade 4 formation activated, and a 10000-meter giant beast was formed.

It was a huge black Dragon.

“boom!”

The Black Dragon pounced from the sky and crossed 100000 meters. Then, it directly destroyed the border city of the Marquis of Great Jin. The thick city walls collapsed.

“Ah!”

Countless screams rang out.

“Charge!”

“Rumble!”

The Army of tens of millions of barbarians charged forward. They were unstoppable and directly entered the territory of the Marquis of Dajin.

kill!!!

man wuji’s eyes were cold as he led his entire army and destroyed several cities of the marquis of great jin, killing hundreds of thousands of humans.

Just by relying on the soldiers of the Marquis of Dajin’s city.

They couldn’t stop the invasion of the Barbarian Army of the Black Dragon barbarian kingdom.

It was almost midnight.

The Marquis Palace of Dajin.

“This bi an ...”

Jin Wu Shuang had only just received the news from the front line. He was shocked and exclaimed, ” “The Black Dragon barbarian kingdom didn’t attack from the Barbarian Marquis”

“Hurry up!”

Jin Wushuang shouted, ” immediately send the news of the Black Dragon barbarian Kingdom’s invasion to His Majesty, Emperor Xia. Request for His Majesty’s support. Gather all the troops and fight against the Black Dragon barbarian Kingdom’s Army. We must hold on until the Xia Army arrives.

“Yes!”

“Yes, sir!”

“.....”

Jin Wu Shuang’s subordinates all responded.

Half an hour later.

The Marquis of Dajin’s Army had assembled.

Roar!

A thousand-meter long Dragon of National fortune appeared.

It was hovering in the sky.

Shua!

Jin Wushuang stood on the head of the flood Dragon and looked down at the Army of Great Jin that had gathered below. There were quite a number of them, reaching five million.

” the barbarian army of the black dragon barbarian kingdom has already entered the marquis of jin’s territory. many cities have been conquered, and hundreds of thousands of humans have been slaughtered. ”

“I have already sent the news of the Black Dragon barbarian Kingdom’s invasion to His Majesty Emperor Xia. It won’t be long before the invincible great Xia Army will come to help.” Jin Wushuang shouted.

therefore, we must hold on and stop the Black Dragon barbarian Kingdom’s barbarian Army before the great Xia Army arrives. All troops, listen up and follow me.

“yes!”

The soldiers shouted in unison.

“I hope I can make it in time.”

jin wu shuang’s eyes were worried.

almost at the same time.

The bright moon Yao nation.

boom! BOOM!

the ground was shaking.

The monster army entered the territory of the Marquis of black snake. Since Jiang Li didn’t send any soldiers to guard the territory, the monster army entered the territory of the Marquis of black snake without any hindrance.

however ...

On the other hand, Ling Tian had sent some soldiers to guard the border of the Marquis Black snake.

so,

when the demon army entered the territory of marquis black snake, they were discovered by the soldiers of marquis yongling.

“Demon race!”

“Si si si ...”

“so many monster soldiers!”

“It’s bad.”

“Hurry back to Yongling.”

The soldiers were panicking. They were clearly frightened by such a huge demon Army. They had never seen such a large formation.

it was too terrifying.

Pfft! Pfft! pfft!

In the air.

The arrows were as fast as lightning and killed all the soldiers. Not a single one was left alive.

They were all dead.

“They are not great Xia soldiers.”

“it’s the human soldiers of the eternal tomb.”

“Continue forward, ignore them.”

BOOM! BOOM!

The demon Army increased their marching speed.

The imperial capital of the Grand Xia.

Jiang Li received three pieces of news almost at the same time. They were from the Marquis of panhuang, the Marquis of black snake, and the Marquis of Dajin.

Shua!

QX01 raised his wrist.

It formed a map projection.

what appeared in front of jiang li was the map of the xia dynasty.

Among them.

Three areas were marked with red dots.

They were the Marquis of Cang Huang, the Marquis of black snake, and the Marquis of Dajin.

” i thought that the barbarians would probably invade from the marquis of barbarian kingdom. i even built two army bases in the marquis of barbarian kingdom. ”

” i didn’t expect the barbarian race to invade from the marquis of dajin, the monsters from the marquis of black snake, and an unknown force from the marquis of canghuang, ” jiang li thought.

the Marquis of Dajin is in the westernmost part of the great Xia Dynasty, the Marquis of Cang Huang is in the easternmost part, and the Marquis of black snake is in the North of the great Xia Dynasty. The East, West, and North have been invaded at the same time.

“Now we’re only left with the South.”

“To the South of the great Xia Dynasty is the ‘Black Sea’, ”

“If another army appears in the South, we will be surrounded by enemies on all sides.”

## Chapter 412 Corrosion

Because the steel materials of the Marquis of great Wei, the Marquis of Great Jin, and the Marquis of Yongling hadn’t been delivered to the imperial capital yet, Jiang Li couldn’t use the mech factory to send out soldiers.

However ...

It was already fast.

Jiang Li had already sent out air transportation troops to the Marquis of great Wei, the Marquis of Great Jin, and the Marquis of Yongling through the teleportation room.

after that, he would be able to use the teleportation array to return to the imperial capital of the grand xia.

It saved time and effort.

Buzzzzzz! Buzzzzzz!

Space fluctuated.

The three transport air Forces returned to the base through the wormhole tunnel.

in the night sky.

Jiang Li looked up and saw a large military transport plane.

Millions of transport planes were flying in the sky.

It was extremely eye-catching.

“Very good,” he said.

okay. Jiang Li nodded in satisfaction.

Soon after.

Jiang Li immediately sent out meches to transport the steel materials to the Xia Treasury and then gathered all the commanders.

Prepare for battle.

“Chief sovereign.”

The 14 commanders stood in front of Jiang Li and saluted him at the same time.

what are your opinions and opinions on the current situation? ”

Jiang Li asked.

“.....”

The battlefield commanders looked at each other.

Soon after.

Zh01 replied.

“Chief sovereign.”

according to the aerial reconnaissance, we can temporarily confirm that the Barbarian race has sent out twenty million barbarian soldiers. The demon race has also sent out twenty million demon soldiers, ” zh01 said.

the Marquis of panhuang’s enemy is blocked by the ‘strange fog’. The situation is unknown.

therefore, after our discussion, we think that we should concentrate our forces and make use of the mobility of the ‘teleportation room’ to annihilate the enemy first and then take them down one by one.

“Don’t give the enemy any time to react.”

“Yes.”

that’s right. Jiang Li nodded and said, I think so too.

so far, only three armies have invaded the great Xia Dynasty. The most dangerous one is the Marquis of Great Jin, who has been invaded by the Barbarian Army.

but the Marquis of black snake and the Marquis of Cang Huang are barren lands, ”  
Jiang Li continued. it’ll take some time for the monster army to cross the black  
snake County and enter the great Xia County.

“As for the Marquis of panic, I can totally deal with him as the last one.”

“War commander, hear my order.”

stop! Jiang Li shouted.

“yes.”

Zh01 and the others responded in unison and got into position.

immediately lead thirty million meches to form the ‘barbarian-exterminating Army’  
and teleport to the Marquis of Great Jin through the teleportation room. Annihilate  
the Barbarian Army as quickly as possible.

go! Jiang Li ordered.

“yes.”

“I promise to complete the mission!”

The battlefield commanders responded in unison.

“Let’s go.”

Jiang Li waved his hand.

“Rumble!”

Immediately.

The 'barbarian-exterminating Army', which was made up of thirty million meches, moved out. Space fluctuations appeared, and the fleet above the capital of the Grand Xia disappeared.

at the same time.

In the mech factory.

More than 90% of the meches were teleported away.

...

Shua!

the scene changed.

The Marquis's capital of the great Jin.

“Whoosh!!!”

In the sky.

all of a sudden.

almost 600,000 floating battleships appeared out of thin air. they were like steel fortresses in the sky.

When they gathered together, they blocked a part of the sky.

On the deck of the warship.

There were many stealth fighter jets, destructive bombers, light bombers, aerial fighter jets, and all sorts of other fighter planes.

Shua! Shua! shua!

...

millions of mechanical winged air soldiers, glider air soldiers, exoskeleton armor air soldiers, mechanical dragon cavalry, and other types of air soldiers flew out of the mech factory.

They were densely packed.

It was like a dark cloud.

they flew into the sky with the fleet as the center.

They quickly set up an indestructible line of defense.

In the base of Army 07.

A large number of mechanical soldiers walked out of the mech factory and boarded the large military transport plane.

“Rumble!”

The engine roared.

It was a number of military transport aircraft that were flying into the sky.

Shua!

A sky-blue light flashed.

DTS01 flapped its wings and streaked across the night sky like a bolt of lightning. It stood on the deck of the floating warship and looked straight ahead.

shua!

Another black stream of light appeared.

myl01 appeared.

He stood beside DTS01.

Obviously.

The Barbarian-extermimating Army had two level five meches.

As for ynjsw01.

Jiang Li didn't send them out. They stayed in the base of Army 01.

“DTS01.”

The MYL01 said.

“Yes.”

DTS01 nodded slightly in response to MYL01.

After that.

He fell into silence.

obviously.

As the level increased.

The intelligence of the meches was getting higher, but they still couldn't chat.

“The great Xia Army! It's the great Xia's Army!”

“This Suan ni, this Suan ni”

“There are too many of them. There are too many of them.”

“The great Xia Army has arrived.”

“hahahahaha!”

“that's great, that's great, yingluo.”

In the Marquis's capital of the great Jin.

The commoners looked up at the sky and saw countless figures appearing out of thin air. Their eyes were filled with respect and they were discussing spiritedly. Some of the higher-ups of the Marquis of Great Jin recognized that this was the great Xia Army and cheered.

an hour ago.

Jin Wushuang had already led the Jin army to fight against the Barbarian Army.

“Let's go!”

“rumble!”

The 'barbarian-exterminating Army' made up of thirty million meches moved out.  
The vast Army covered the sky like dark clouds.

He flew at full speed.

After determining the location of the Barbarian Army ...

the army left.

Shua! shua! Shua!

In the blink of an eye.

The huge Army gradually disappeared from everyone's sight.

"With the help of the great Xia Army, we will definitely be able to win."

"That's right."

"The human race will win! The great Xia will definitely win!"

"....."

in the marquis's capital of the great jin.

Everyone shouted.

In the base of the 01 division.

Within the room in the ruler's hub.

"whoosh!!!"

QX01 had already displayed the holographic image of the ‘barbarian-exterminating Army’ in front of Jiang Li, occupying most of his vision.

On the left and right.

There were also scenes of Marquis Black snake and Marquis canghuang.

It was transmitted by the air Scout.

marquis black snake’s demon army advanced at top speed in a stage four army formation. with this speed, they would reach the great xia province in half a day at the latest.

in other words ...

The Barbarian-exterminating Army had to finish off the Barbarian Army within half a day.

Inside the Marquis of panic.

A strange mist filled the air and spread out at a rapid speed. It gradually covered and occupied the Marquis of Panic’s territory, devouring all the living beings within.

His life force was completely extinguished.

After he zoomed in.

They could see the distorted ghostly figures in the strange fog.

“What?”

Suddenly.

huh? ” Jiang Li felt something strange.

“roar!”

In his dantian.

The great Xia Azure Dragon let out a low groan of pain.

Buzzzzzz!

Azure Dragon technique. Jiang Li immediately sat down cross-legged and used the great Xia Azure Dragon technique. His true essence circulated all over his body and the power of the nation’s fate shook. The great Xia Azure Dragon was formed and sat on Jiang Li’s body.

The Blue Dragon head leaned against Jiang Li’s head.

“This is a Kasaya.”

hmm? ” Jiang Li clearly saw that there was a strange gray fog on the Azure Dragon’s body. It was like a parasite that was eroding part of the Azure Dragon’s body.

Soon after.

Jiang Li felt the changes in the Azure Dragon.

he immediately understood.

this was because the marquis of panic was the territory of the great xia dynasty. the strange fog spread and occupied the marquis of panic’s territory, thus affecting the true dragon of the country.

If they continued to ignore it, the great Xia Dynasty's fate would be damaged when the Marquis of panic was completely occupied by the strange fog.

At that time.

The fate of the great Xia would definitely fall.

It was easy for a country's fate to fall, but it was difficult to recover.

"I have to get rid of the strange fog in the Marquis of panic as soon as possible."

I can't be the last one to deal with it, Jiang Li thought.

"I originally wanted to save it."

"Hidden Dragon,"

Jiang Li looked up.

"Chief sovereign, please give us your orders."

Hidden Dragon replied.

run the mech factory at full power and start building meches.

Jiang Li said.

"Yes."

Hidden Dragon said.

This time.

Jiang Li used up all the steel materials he got from the Marquis of Wei, the Marquis of Jin, and the Marquis of Yongling and sent a large number of soldiers.

Another twenty million mechs appeared.

Among them.

the mechanical army had ten million soldiers.

This included 4 million Stage 1 mech soldiers, 4 million Stage 2 mech soldiers, 2 million Stage 3 mech soldiers, and no stage 4 mech soldiers.

Mechanical air Force Army, 10 million

There were four million Level 1 mech soldiers, four million Level 2 mech soldiers, two million Level 3 mech soldiers, and no level 4 mech soldiers.

He had consumed a total of 40.808 billion energy points.

24.4 million tons of steel materials.

Shua!

The Dominator panel opened.

create ten battlefield commanders.

Buzzzzzz!

Jiang Li operated the Dominator panel and used one million energy points to create ten battlefield commanders. He then used another 14 million energy points to upgrade the ten battlefield commanders to the perfected stage of level three.

Finally.

Jiang Li had the ten commanders learn the purple true Qi technique and master mechanical spiritual power.

“My Lord!”

commander Jiang. the ten newly-created commanders saluted Jiang Li.

“Yes.”

okay. Jiang Li nodded.

create 100 mech giant soldiers, 100 energy destructions soldiers, 100 super meches, 100 mech cavalry soldiers, 100 mech missile soldiers, and 100 mech Ares soldiers.

Buzzzzzz!

The manufacturing interface appeared.

shua! Shua!

There were six different illusionary figures, and there were ‘X100’ words beside each figure. They were slowly rotating, and countless light spots filled in the surroundings, gradually becoming solid.

A minute later.

[ creation complete! ]

A notification appeared.

buzzzzzz! Buzzzzzz! Buzzzzzz!

Immediately.

Six hundred meches appeared out of thin air. Jiang Li was familiar with the three types of mech giant, energy explosion, and mech Ares.

The remaining three were all new types of troops.

Jiang Li had made it in the mech factory before.

This time.

Jiang Li created it using the Dominator panel.

Making these 600 Level 4 meches had consumed six billion energy points before they were upgraded.

On the empty ground of the Army base.

Jiang Li's eyes went past the mechanical giant soldiers, energy destructive soldiers, and mecha God of War soldiers. He looked at the Super meches, mechanical cavalry, and mechanical missile soldiers.

Among them.

what caught jiang li's attention the most was the 'mech missile soldier'.

First of all ...

What came into view were huge steel trucks. Beside the steel trucks, there were several meches. On the steel trucks, there were huge, rocket-like heavy missiles.

## Chapter 413 Guided missile

“Hu ~~ Hu ~ Hu ~”

Jiang Li took a deep breath and walked out of the room.

“Chief sovereign.”

Immediately.

The meches saluted Jiang Li.

“Yes.”

okay. Jiang Li nodded and walked to the missile. He reached out his right hand and touched the dark green missile.

He felt an ice-cold touch.

Jiang Li's blood was boiling when he observed the strategic Missile weapon at such a close distance.

One had to know.

Jiang Li had only seen such things on TV before.

even though ...

the ‘mech missile soldiers’ created by the ‘super mech army’ were different from the missile soldiers on earth, but it didn’t stop jiang li from observing them at close range.

Of course.

The missile in front of them was naturally not a missile equipped with a nuclear warhead, but a ‘conventional missile’ equipped with a warhead of a conventional high-explosive drug.

Even so ...

Its power was not to be underestimated.

In reality.

The most terrifying thing about the mech and missile soldiers was their area of effect. The area covered by the missile explosion was enough to destroy and kill all living things.

Furthermore ...

The closer they were to the center of the explosion, the stronger the power.

“Upgrade.”

Buzzzzzz!

Jiang Li used 84 billion energy points to upgrade all the six hundred meches to perfected-stage level four.

Shua! Shua!

The meches ‘bodies glowed with white light.

After a few seconds.

All of them had been promoted.

soon after.

Jiang Li checked the message.

troop type: super mech

[ rank: grand completion of rank-four ]

[ No.: CN01 ]

[ machinery: Jian Jia (omitted) ]

.....

Obviously.

The information of the level 5 mech type was very simple. The mech missile soldiers were equipped with several humanoid mech soldiers, but there was no subclass.

...

his ability was extremely simple.

On the other hand, there were many low-level troops with extremely complicated abilities. There were even different main troops and sub-troops.

The rampage was complete.

” the battlefield commander. ”

let’s go to the Marquis of panhuang immediately. Jiang Li immediately gave an order, ” lead twenty million meches to form the ‘mist Army’ and suppress the riot of the mist.

“Yes.”

yes! zh015 and the 10 other commanders replied in unison.

After that.

The ‘fog exterminating Legion’ was dispatched.

“Whoosh!!!”

The spatial teleportation began.

...

huh? ” Jiang Li felt the fluctuation of space. Then, the ‘mist exterminating Army’ made of more than 20 million meches were all teleported away through the teleportation room.

He was being cautious.

Jiang Li also sent ynjsw01 over.

In addition, there were three fifth-order walking corpse puppets.

Six hundred meches at the peak of level four.

it was enough to suppress the strange fog.

In the blink of an eye.

the ‘fog exterminating army’ had directly arrived at the army base.

Which was the Marquis of panic.

army 09’s base was built on the old site of the ‘panicking capital’.

“All troops, move out!”

“BOOM!”

In the air.

After the fog destroying Army appeared, the meches spread out with the fleet as the center. They formed lines of defense and confirmed the direction of the strange fog.

He flew at full speed.

He was heading to suppress them.

The Marquis of great Wei.

Within the main hall of the marquissate Palace.

there’s accurate news from the front line. The demon Army has appeared in the territory of Marquis Black snake. The Marquis of Great Jin has also been attacked by the Barbarian Army.

Chang Wuqi said.

it seems that the Barbarian race and the demon race are indeed joining forces to deal with the great Xia Dynasty.

Wei Lin said in a deep voice.

“Yes.”

“According to the current situation, it is very disadvantageous to our great Xia Dynasty.”

most importantly, when the nest is overturned, there will be no intact eggs. If the great Xia Dynasty can't stop it, then our great Wei can't stay out of it.

“Yup!”

All the pavilion elders had grave expressions.

“Everyone,”

Feng chenxi stood up and said, “isn't this an opportunity to make a name for yourself?” as long as we can stop the demon army, we can buy time for his majesty emperor xia.”

“This is the greatest contribution.”

“This is an ...”

” that's a demon army. i'm afraid there will be a tier 5 peerless combat power. ”

“.....”

All the pavilion elders said.

“we are not going to fight to the death with the demon army.”

Feng chenzi continued,”it’s enough as long as we can stop the demon Army’s advance.”

“This bi an ...”

half an hour later.

“Alright!”

Finally.

After some discussion.

Wei Lin made a decision and said in a deep voice, ” send my order immediately. Mobilize the four National Guardian armies, the elite Wei Army, the Imperial Army, and the prefecture Army.

“All troops, gather and stop the demon Army.”

“Yes.”

“Yes, sir!”

“alright!”

Wei Wuxian and the others shouted.

An hour later.

The great Wei’s Army had assembled. Because of the rush, they had only formed a total of 20 million Wei soldiers and nearly 100 Pavilion elders.

“Roar!”

A Dragon’s Roar resounded.

In the air.

A thousand-meter long three-clawed green flood Dragon appeared. Wei Lin stood on the head of the huge green flood Dragon and looked down at the great Wei’s Army that had gathered outside the city.

The momentum was huge.

The military Qi gathered and did not dissipate for a long time.

they were all elite soldiers.

“Everyone,”

Wei Lin took a deep breath, and his voice sounded even more majestic with the help of the flood Dragon. next, we will head to Marquis Black snake and intercept the demon Army.

“Our goal is to buy time for the great Xia Dynasty.”

we will be going through a difficult battle soon because the demon Army is very strong. However, we don’t have to worry because great Xia is stronger, and the human race is stronger.

“The final victory will only belong to us, to the human race, to the great Xia.”

the humans will win!!!

immediately after.

All the generals shouted in unison, stirring up the emotions of the soldiers.

Shua!

At this moment.

A figure flew out from the base of the 06 division.

it was very fast.

“Who is it?”

Wei Wuxian and the others scolded.

Very quickly.

The figure stopped not far away.

it was a mecha wargod soldier.

“They are the subordinates of Emperor Xia.”

“.....”

Wei Wuxian and the others naturally recognized him at a glance.

After all, the nine-meter tall steel mech was very eye-catching.

“By the order of His Majesty.”

The mechanical voice of the Ares-class mecha rang out, ” Wei houwang, step forward and listen.

“Yes.”

Wei Lin was stunned for a moment before she stepped forward and bowed.

“Wei Lin will be titled the ‘demon-killing general’ and receive the Green Dragon imperial edict and green Dragon Imperial Jade seal.”

Shua! Shua!

As soon as he finished speaking.

two green streams of light flew out from the mecha and ares-class weapon, materializing in the air and floating in front of wei lin.

roar! Roar!

A series of deep dragon roars sounded.

“A sacred artifact of National fortune!”

wei lin’s eyes widened as she looked at the imperial edict and imperial jade seal in front of her. she couldn’t help but be excited. ” and it’s a six-dragon level sacred artifact of national aura! ”

“Thank you, Your Majesty!”

Wei Lin immediately knelt down on one knee.

Buzzzzzz! buzzzzzz!

The Green Dragon imperial edict and the Green Dragon Imperial Jade seal turned into two green streams of light and temporarily merged into Wei Lin's body, temporarily obtaining the right to use these two National aura Saint weapons.

we've just assembled the Army, and his Majesty Emperor Xia has already sent his subordinates. He has even sent the Green Dragon imperial edict and the Green Dragon Imperial Jade seal.

that is to say, all of our actions are under the control of His Majesty, Emperor Xia?  
”

“.....”

Wu changding and the rest were even more in awe.

“Hahahahaha!”

Roar!

the flood dragon of national fortune roared.

wei lin laughed out loud. he felt the power from the green dragon imperial edict and the green dragon imperial jade seal. the two sacred weapons of national aura had boosted him.

Very strong!

It was extremely powerful!

Even ...

Wei Lin was confident that he could fight against a fifth-rank.

“With Your Majesty's support, we will definitely win this battle!”

“all troops, move out!” wei lin shouted.

“Roar!”

The stage 4 army formation was formed.

The beast of the Army formation manifested.

It was a black flying snake.

Shua!

Great Wei’s Army advanced at full speed.

At the same time.

Jiang Li also sent an Air Scout team to follow the Wei Army.

“Big Wei has given this Prince quite a big surprise.”

jiang li looked at the projection. ” 20 million soldiers, nearly 100 level-four fighters, and wei lin, who has the green dragon imperial edict and the green dragon imperial seal. ”

let’s not talk about defeating the demon Army. It’s more than enough to stop them.

Obviously.

When Jiang Li learned that Wei Lin and the others were going to send troops to stop the monster army, he immediately made a decision to help Wei Lin by lending her the Green Dragon imperial edict and the Green Dragon Jade seal.

One had to know.

Wei Lin was the Marquis King of great Xia and had the protection of the Dragon of the nation. He could unleash the power of the green Dragon Imperial Jade seal and the Green Dragon imperial edict. If he used all his strength, he could not defeat a fifth-rank expert, but he could block one for a short time.

After all, Wei Lin had been injected with a level 1 gene strengthening fluid, and her strength had already surpassed an ordinary perfected Level 4.

“my lord, the barbarian exterminating army has caught up to the jin army.”

At this moment.

QX01 reported the situation to Jiang Li.

Shua!

Immediately.

Jiang Li enlarged the picture of the Barbarian-exterminating Army.

In the image.

the jin army led by jin wushuang had officially joined the barbarian-exterminating army.

However ...

Great Jin's Army couldn't set up a Grade 4 marching formation, so their marching speed couldn't keep up with the flying speed of the Barbarian-exterminating Army.

“Great Xia's Army is fast.”

“That’s great.”

“With the great Xia Army, the Barbarian Army is nothing.”

“That’s right,”

“most importantly, didn’t you all realize that the number of great xia soldiers this time is several times that of the last time! It’s probably at 30 million.”

the last time, the Black Dragon barbarian Army and the Barbarian dynasty were annihilated with just 10 million. How terrifying will the great Xia Army be with 30 million soldiers? ”

The soldiers and generals of Great Jin’s Army heaved a sigh of relief. They looked at the great Xia Army as if they had seen their invincible Savior.

“Greetings, milords.”

Jin Wushuang’s tone was very respectful. He then cupped his hands and saluted to DTS01 and MYL01, ” thank you for leading the great Xia Army to support the Marquis of Great Jin.

“Your marching speed is too slow.”

MYL01 said.

“that’s right.”

DTS01 nodded. His Majesty’s order is for us to annihilate the Barbarian Army as soon as possible. With your marching speed, you will only waste time.

“This bi an ...”

Jin Wu Shuang laughed bitterly.

## Chapter 414

Great Jin's Army could only arrange a stage-three marching formation, and the speed of a stage-three marching formation naturally couldn't keep up with the flying speed of the 'barbarian-exterminating Army'.

In order to get rid of the Barbarian Army as soon as possible, the 'barbarian-exterminating Army' had set off first without waiting for the Army of Great Jin.

The Marquis of Great Jin.

within the mowu county.

the barbarian-exterminating army had arrived.

BOOM! BOOM!

The ground was shaking.

The surroundings of the county city of the Mowu County.

He looked around.

the 20 million barbarian army led by man wuji had entered the city. they had still sealed off the city. the thick city walls had already collapsed. many buildings in the city had turned into ruins.

The raging flames were burning.

Pungent black smoke rose.

They were very far away.

He could hear the savage laughter of the Barbarian soldiers, as well as the sorrowful wails, cries, and cries for help from the people of the county city.

Pfft! pfft! Pfft!

Blood splattered everywhere.

The entire County.

It was like a tragic purgatory.

Hundreds of thousands of humans were slaughtered in the most brutal way. Their blood essence was devoured by the Barbarian soldiers to strengthen their totem power.

This was war.

The war between races.

There was no pity.

There was only cruel and cold-blooded slaughter.

It was a life-or-death scene.

Merciful?

It was a joke in such a war.

“Attack!”

BOOM! BOOM! BOOM!

10,000 meters above the county city of Mowu County, Jiang Li's 'barbarian exterminating Army' had already locked onto the 'barbarian Army'.

After that.

The ship's cannons fired.

Nearly 600,000 floating battleships fired their cannons at the same time. The scene was extremely shocking. In an instant, countless energy cannonballs streaked across the sky like a meteor shower.

it bombarded the barbarian army.

"Enemy attack!"

Man Wuji raised his head, his gaze cold as he looked at the Army that had suddenly appeared 10 kilometres away. His expression became serious as he hollered, " get into formation! Return fire!"

"Roar!"

Instantly.

The array was set up.

It was two huge black dragons, each of which was 10000 meters long. They were hovering in the air, and a thick military formation light mist spread out, covering the entire barbarian Army.

kill!!!

Bang Bang Bang Bang!

An explosion sounded.

The Black Dragon circled and roared out two pitch-black Dragon Breath light pillars that were hundreds of meters in diameter. They pierced through the sky and shattered the energy cannonballs.

It was like fireworks in the sky.

It was extremely beautiful.

“It’s the great Xia’s Army,”

“He came so quickly.”

“All troops, prepare for battle!”

kill!!!

The fourth-level barbarian commanders shouted.

“Land!”

“rumble!”

The large military transport plane descended from the sky. The cabin opened, and thousands of mechanical Army meches poured out of the cabin like a tide.

...

kill!!!

A distance of ten kilometers.

it wasn't too far for the barbarian army that had set up a stage four battle formation. the entire army charged forward like an endless tide.

Looking down from the sky.

The two armies collided like two incomparably huge waves crashing into each other. A huge boom erupted, and the battle cries shook the heavens and earth.

The scene was vast.

The war had broken out.

Pfft! Pfft! "Pfft!"

On the battlefield.

Blood splattered everywhere. The Barbarian soldiers and the meches were fighting fiercely. If the Barbarian soldiers were hit by the meches, they would die immediately.

Even if the meches had their limbs cut off, as long as they weren't 90% damaged, they wouldn't become useless. They wouldn't be afraid of death and could continue fighting.

...

for the meches.

There was no concept of death.

Buzzzzzz! Buzzzzzz!

The biochemical meches and biochemical air soldiers spread the biochemical poison, but because of the light fog of the military formation, the biochemical poison was not effective for the time being.

The artillery, bombers, and warships didn't cause much damage.

however ...

The moment the war began.

The Barbarian-extminating Army had invested all their forces. They had thirty million meches, ten million more than the Barbarian Army led by man Wuji.

In terms of military strength, they had an overwhelming advantage.

so,

Jiang Li's barbarian-extminating Army had the upper hand.

On the other side.

In the base of the 01 division.

In the room in the ruler's hub.

Shua!

QX01 showed Jiang Li the full picture of the battlefield.

“.....”

Jiang Li was watching silently.

“Energy Archangel.”

BOOM!

DS01 attacked and descended from the sky. Its 3000-meter wide energy light wings spread out, and the energy Archangel’s spear was in its hand as it charged towards man Wuji.

“Do it.”

At the same time.

MYL01 attacked. He released his demon spirit energy and directly used the ‘obliteration storm’. The demon spirit energy exploded, producing obliterating ripples.

BOOM! BOOM! BOOM!

It could be seen.

MYL01 attacked the 10000-meter-long black Dragon. He unleashed his full power, and the obliteration storm covered the 10000-meter-long black Dragon.

After that.

There was a loud bang.

The 10,000 meter long black Dragon exploded.

It exploded into light spots that filled the sky.

“Ah!”

A miserable scream rang out.

The formation beast was broken, and the fourth-grade Black Dragon formation was destroyed. A large number of barbarians suffered from the backlash and spat out blood. They were also badly injured.

Bang!

instantly.

Another 10,000-meter-long black Dragon crashed over and sent MYL01 flying. MYL01's demonic spirit energy was exhausted, and he couldn't resist it. His body flew tens of thousands of meters away and smashed several mountains.

The damage had reached 50%.

“Repair.”

Jiang Li used energy points to repair MYL01.

“Ah!”

On the other side of the battlefield.

Man Wuji screamed.

pfft!

He spat out a mouthful of blood.

At the chest.

There was a single gash, fresh blood flowing out. His face was pale, and he looked at the air above with shock.

” the great circle of the fifth tier of five elements! ”

man wuji’s tone was filled with fear. he was shocked. ” it’s a complete stage of tier 5. no wonder long se died and the barbarian dynasty was destroyed by great xia. ”

Obviously.

DTS01 had used all his strength the moment he made his move. In an instant, he exploded. After exchanging a few dozen moves, man Wuji was severely injured by DTS01.

“General!”

“The general is injured!”

In the surroundings.

the fourth-level barbarian commanders shouted in shock.

“Retreat!”

Man Wuji took in a deep breath and looked at the battlefield below. When he saw that the number of great Xia soldiers had reached 30 million, and one of the two fourth-grade Black Dragon arrays of the Barbarian Army had been broken, he already had the intention to retreat.

“retreat!”

“Let’s go!”

“All troops, retreat!”

Wuwuwuwuwu!

The battle formation changed.

the tier 4 black dragon array became the tier 4 wind dragon array.

The Barbarian Army began to retreat.

They retreated at full speed.

He didn't have any thoughts of fighting.

BOOM! BOOM! BOOM!

Countless ship cannons fired.

The Cannonball rose into the air.

They would carry out long-range bombardment.

From the start of the battle to man Wuji's retreat, only less than an hour had passed. The Barbarian Army had been forced back by the Barbarian-extminating Army and had started to flee.

it had to be said.

The stage four army formation was very fast and man Wuji didn't want to continue fighting. He only wanted to retreat, so it was hard for Jiang Li's barbarian-extminating Army to catch up.

There was no point in continuing the pursuit.

this battle.

Jiang Li's barbarian-extermimating Army had won.

Nearly five million barbarian soldiers were left behind, while the Barbarian-extermimating Army only lost less than one million meches.

"No need to chase."

let's go back immediately, " Jiang Li ordered.

"yes."

"Rumble!"

The large military transport plane landed.

The meches collected the wreckage and cleaned up the battlefield. Then, tens of millions of meches from the mechanical Army entered the cabin.

The 'barbarian-extermimating Army' started to return at full speed, and on the way back, they encountered Great Jin's Army again.

"it's the great xia army!"

"what's going on? Why did they suddenly go back?"

"What happened?"

"Is the war over?"

"It can't be."

jin wushuang and the others raised their heads and looked at the great xia army in the sky with suspicion. jin wushuang wanted to go over and ask about the situation, but the barbarian exterminating army didn't seem to have any intention of stopping.

Half an hour later.

Jin Wushuang led the Army of Great Jin to Mowu County and arrived at the battlefield of the county city of Mowu County. He saw the scene of the battlefield.

The ground was covered with barbarian corpses.

“This bi an ...”

Everyone's eyes widened as they stared blankly with dumbfounded expressions.

the Barbarian Army has been repelled!

“Si si si ...”

“This is too fast.”

“The Barbarian army was defeated by the great Xia Army in less than an hour? Moreover, they left behind five million barbarian soldiers!”

“He's too strong! The great Xia Army is really too powerful!”

“This is simply unbelievable!”

Everyone was amazed.

array master, immediately set up the blood-refining array and clean up the battlefield.

Jin Wu Shuang took a deep breath, and after calming down, he quickly gave the order.

“Yes.”

Buzzzzzz! Buzzzzzz! Buzzzzzz!

The formation Masters began to move, and blood-refining formations were set up one after another. The blood-red formations covered almost half of the battlefield.

There were bursts of blood light.

The corpses of the Barbarian soldiers were then refined into blood refining pills.

An hour later.

The five million barbarian corpses were all eroded.

Dajin’s Army had obtained nearly 5 million blood refinement pills.

the smell of blood on the battlefield had faded a lot.

After doing all this.

“The Army will continue to advance towards the border County, Lin Chang County.”

Jin Wu Shuang gave the order, ” we’ll guard Lin Chang County to prevent the Barbarian race from making a comeback.

“Yes.”

“Yes, sir.”

The generals responded.

“Whoosh!!!”

The imperial capital of the Grand Xia.

There were spatial fluctuations.

The Barbarian extermination Army returned to the imperial capital through the ‘teleportation station’ of the #07 army base. Close to 600000 floating battleships appeared in the sky above the imperial capital.

Other than that.

There were also a large number of aerial troops.

“Activate the teleportation room!”

jiang li said, ” change ‘barbarian-annihilating army’ to ‘monster-annihilating army’. go to the base of marquis black snake now. this time, we can’t let the monster army run away. we must annihilate them all. ”

“yes.”

Buzzzzzz!

The teleportation began again.

“Whoosh!”

The spatial fluctuations were extremely clear.

it flashed in the air.

The fleet disappeared.

A large number of mech soldiers were also teleported away.

the scene changed.

In the base of the No. 010 Army.

In the air above the black snake royal capital.

the ‘monster exterminating army’ appeared and was teleported to the army base no. 010.

“Let’s go!”

after that.

after confirming the accurate location of the target, the monster exterminating army advanced at full speed. the huge fleet covered the sky and flew very fast.

An hour later.

At the border between the Marquis of black snake and the great Xia.

In the desolate Wildlands province.

the monster-exterminating army had arrived.

At this moment.

Wei Lin's great Wei Army had already clashed with the demon Army and blocked the demon Army in the desolate barbarian province, preventing them from entering the great Xia province.

The battle between the great Wei's Army and the demon Army was extremely intense.

Chapter 415

Roar! "Roar!"

In the sky above the battlefield.

it was a green dragon. the green dragon imperial jade seal and the green dragon imperial edict floated beside wei lin, releasing the power of a vast national aura saint weapon.

Buzzzzzz!

The Azure water dragon had grown to 3000 meters long under the boost of the Holy weapon.

It was extremely powerful.

"Green flood Dragon Seal!"

BOOM!

Wei Lin used all his strength and fought extremely crazily. He was currently fighting with the demon Army's commander in chief. An explosion sounded, and a vast energy storm spread.

He looked closer.

The general of the demon Army was the Demon King of the spirit Moon Demon Kingdom, 'Ling Yue'.

In reality.

The spirit moon Fey Kingdom, five spirit Fey Kingdom, and the other Fey dynasties had all been annexed by the sky Fey Kingdom. Ling Yue was no longer a Fey King, but the sky Fey Kingdom's Marchioness spirit moon.

Obviously.

The current situation in the northern region of holy peace state.

This was because many of the weaker dynasties had either been annexed or destroyed. Now, there were only four dynasties left. The Black Dragon barbarian kingdom, the sky Fey Kingdom, the Shu Kingdom, and the great Xia Dynasty.

These four great dynasties represented all the forces of the human race, demon race, and barbarian race.

“Get lost!”

BOOM!

Ling Yue's palm blasted out, and the demonic power of an early fifth rank bloodline burst out. It also carried the power of a flood Dragon and shattered Wei Lin's Green Dragon Seal, sending Wei Lin flying.

Pfft!

Wei Lin coughed up blood.

he was clearly injured.

“Where’s Wei Zheng?”

Ling Yue arrogantly looked at Wei Lin and asked, ” “Didn’t they say that Wei Zheng had already broken through to the early stage of the fifth rank? i’ve just broken through and i’d like to have a fight with him.”

obviously.

Ling Yue was a perfected level four demon to begin with. After agreeing to merge the spirit Moon Demon Kingdom into the sky demon Kingdom, she had broken through to early-stage level five with the help of the sky Demon King.

“i’m more than enough to deal with you.”

wei lin shouted.

As soon as he finished speaking.

Wei Lin once again attacked Ling Yue.

“You’re overestimating yourself.”

Ling Yue snorted coldly. since you want to die, I’ll fulfill your wish.

Bursts of light.

Ling Yue gathered her power and prepared to release a powerful demonic secret technique.

Buzzzzzz! Buzzzzzz!

It could be seen.

Behind Ling Yue.

A blood-colored crescent moon gradually appeared.

“.....”

Wei Lin’s pupils contracted.

He felt a fatal danger.

Ling Yue’s attack.

He probably couldn’t block it.

On the battlefield below.

The great Wei’s Army was also fighting with the demon Army. The stage 4 battle formations of both sides collided and attacked each other. The great Wei’s Army was at a disadvantage.

If not for the presence of the 100 rank four Pavilion elders.

The disadvantage of the great Wei’s Army would be even greater.

“If this continues, the great Wei’s Army will be defeated without a doubt.”

In the distance.

Luo Tianshui and Luo Yilin, who were guarding Tianshui city in the great Xia province, led the Tianshui city’s Army and hid at the edge of the battlefield.

They didn't dare to get close to the battlefield.

After this period of expansion.

...

The Army of Tianshui city had already reached 50000.

Luo Tianshui's cultivation had also broken through to the perfected stage of level three.

but ...

In such a large-scale war between dynasties, the forces of Tianshui city would not be able to cause any waves.

If Luo Tianshui led the Army of Tianshui to charge at this time, he would be killed.

That would just be courting death.

"big sister tianshui, quickly look over there."

Suddenly.

Luo Yilin raised her small hand, and her white jade-like finger pointed to the sky in the North. Her eyes lit up, and then she shouted, ""it's the great xia army! The great Xia Army is here!"

Luo Tianshui looked up with a happy expression on his face. He said excitedly, ""It's really the great Xia Army. They're here."

"Hu ~~ Hu ~ Hu ~"

...

“That’s great.”

“There’s hope for Tianshui city,”

The celestial water city’s soldiers all heaved a sigh of relief, and smiles appeared on their faces.

all troops, listen up. The transport mech soldiers will land quickly. The mech Army will block the demon Army’s retreat. The mech Air Army will form an encirclement.

“The hegemon has ordered that we can not let the monster army escape this time,”

“attack!”

BOOM! BOOM! boom!

The monster-exterminating Army arrived.

After that.

the transport plane landed.

tens of millions of meches rushed toward the demon army and formed a blockade, blocking the demon army’s retreat.

After that.

the fleet took the lead to attack.

It was a bombardment that far exceeded the coverage.

The Level 4 mech Army was also mobilized.

At the first moment.

MYL01 and DTS01 were the first to attack. At full speed, they bypassed the monster-exterminating Army and entered the battlefield.

“Slash!”

Clang!

The sky-blue sword light bloomed.

DTS01 slashed out with his sword, and a dazzling sword light swept through the void, slashing at Ling Yue.

“Who is it?”

Ling Yue was shocked and turned around to face the enemy. The crescent moon tore through the sky, but it was shattered by DTS01’s sword. The crescent moon exploded with a dazzling light.

“Ah!”

Ling Yue screamed.

The shock wave from the explosion sent her flying.

the great circle of the fifth tier of five elements!

Ling Yue’s face was filled with fear as she looked at DTS01 in shock.

“Roar!”

BOOM!

It was the sorrowful cry of the beast in the battle formation.

MYL01 unleashed his full power and directly released the ‘obliteration storm’. The powerful force destroyed a stage 4 formation of the demon Army.

The Tier 4 soaring snake formation exploded.

“Ah!”

The demon soldiers cried out in pain.

There were many casualties.

“No!”

ling yue was terrified.

It was another Tier 5!

“Hahahahaha!”

Wei Lin laughed madly, his expression excited as he shouted, ” lingyue, you’re finished. Your demon Army is finished. Hahaha!

“his majesty emperor xia’s army has arrived. you have no way to escape.”

“The reinforcements from the great Xia Army have arrived.”

“Soldiers! Charge!”

“It’s time to make a name for yourself.”

“Kill them!”

“The human race will win!”

“Great Xia will win!”

“Hahahahaha!”

At this moment.

The soldiers and generals of the great Wei’s Army shouted in unison, letting out excited and agitated roars. Their morale was greatly boosted, and they launched a crazy attack on the demon Army.

The most important thing was ...

one of the two stage-four formations of the demon army had already been broken, and there was only one left. on the other hand, the two stage-four formations of the great wei army had not been broken.

As a result ...

The great Wei’s Army, which had been at a disadvantage, had gained the upper hand.

One had to know.

The great Wei’s Army of nearly 20 million plus the ‘monster-exterminating Army’ of nearly 30 million had a total of 50 million soldiers.

On the other hand, the demon Army only had 20 million troops.

“Retreat! Retreat!”

Ling Yue roared.

BOOM! BOOM! BOOM!

However ...

When the demon Army was ready to retreat, they were greeted by the mechanical Army that had been waiting for a long time, as well as the mechanical air Force Army.

Pfft! pfft! Pfft!

In the air.

The corpses of the demon soldiers in the air fell one after another. The stage 4 mecha and Ares-class soldiers charged forward, waving their energy beam swords.

They killed a large number of demon soldiers in the air.

“Roar!”

The mechanical dragon cavalry had also played a huge role.

All sorts of mech Air Force units displayed their different abilities.

“No! No! No!”

Ling Yue’s face was pale and bloodless, and fear welled up in her heart. That’s an Army of fifty million!”

“How could great Xia possibly have such a huge Army?”

One had to know.

Other than the demon Army.

There was also the Barbarian Army and the human-Ghost Army in the ghostmist forest.

facing the attack from three sides.

Jiang Li sent 50 million soldiers to deal with the monsters. Isn't he afraid that the Barbarian Army and the human-Ghost Army will attack the capital of the Xia Dynasty? ”

ling yue had no idea.

The Barbarian Army had been defeated by Jiang Li. It only took him an hour to defeat them. As for the ghostmist forest, Jiang Li had also sent out his mech Army.

In reality.

The sky demon Kingdom, the Black Dragon barbarian kingdom, and the Shu Kingdom had all underestimated Jiang Li's strength. It was a stupid decision to invade the great Xia Dynasty.

They were just giving Jiang Li the soul Tinder.

“Die!”

BOOM!

DS01 once again used the skill 'energy Archangel', and then stabbed out with all his might. That vast spear light was extremely bright as it pierced towards Ling Yue.

Bang Bang Bang Bang!

Ling Yue used all her strength and released all kinds of demonic Arts and secret techniques, but she was unable to block the power of DTS01's spear. Even the Dragon of National fate was shattered.

Pfft!

Blood splattered everywhere.

DTS01's spear pierced through Ling Yue's heart and came out of her body.

is this the power of a perfected Tier 5 Suan ni? ”

Ling Yue's eyes dimmed, and her life force was quickly fading away. he's really too strong.

“marchioness spirit moon!”

Marquis Wang is dead!!!

“!!!”

the demon soldiers 'morale plummeted.

“Obliteration storm!”

Buzzzzzz!

After recovering, MYL01 once again released all of his demon spirit energy. The demon spirit energy exploded, and a destructive storm spread.

‘boom!’ there was a loud sound.

The second stage 4 formation of the demon Army was broken.

kill!!!

“Attack!”

“Fire the ship’s cannons!”

“Artillery fire!”

thump! Thump! “Thump!”

The monster-exterminating Army launched an all-out assault. The battleship cannons fell into the battlefield. Bombs, cannon shells, and so on all bombarded the monster army.

missile mech soldiers, get ready!

“Target locked!”

missile launch!!!

“whoosh!!!”

At the rear of the mechanical Army.

There were 1000 type 4 mech missile soldiers, forming a formation. What came into view were many dark green steel trucks.

kachaa! Kachaa!

the missile on the truck was slowly lifted.

BOOM! BOOM! BOOM!

after that.

the missiles were launched, and red flames burst out from the bottom. a thousand missiles loaded with conventional high-explosive warheads rose into the air.

After flying for several kilometers.

It fell directly into the demon Army.

“Rumble!”

In an instant.

A total of 1000 missiles exploded, covering more than half of the battlefield. The earth trembled, and the sound of explosions resounded in all directions. It was as if one was deaf.

A thousand small mushroom clouds rose.

Finally.

everything calmed down.

On the battlefield.

A thousand huge pits appeared. Around the deep pits, there were mutilated corpses lying on the ground. The corpses were scattered all over the field, and the area was charred black.

Thick smoke billowed.

just this round of missile bombardment had killed millions of demons.

“gulp!”

“My Tiangang!”

“This kind of power is too terrifying, too frightening, too strong ...”

the Xia Empire is invincible!!!

“Si si si ...”

Wei Lin, Feng chenzi, Wu changding, and many others looked at this scene. Their eyes seemed to have lost focus, and they were clearly shocked.

Chapter 416 The ghost clan

The demons were also frightened out of their wits by this scene.

Because this kind of destructive power was really too terrifying.

As long as they were within the range of the explosion.

the demon soldiers below stage three were basically doomed.

The corpses were all incomplete.

Even a level three demon commander would be severely injured by the explosion. Only a level four demon commander could block it.

“run!”

The next moment.

With a shout.

The morale of the monster soldiers completely collapsed. They were terrified by Jiang Li’s monster-exterminating troop and fled in all directions.

“Attack!”

“Kill!”

However ...

Jiang Li’s monster-exterminating Army had already surrounded the monster army. The monster soldiers couldn’t break through the blockade of the mech Army at all.

In the end, he would only be killed.

BOOM! BOOM! boom!

It could be seen.

MYL01 rushed into the battlefield and released his demonic spirit energy. It spread out continuously, forming a vast domain that strangled the demon soldiers.

Buzzzzzz! Buzzzzzz!

the skill of the demon spirit body was released.

With a large number of incomplete souls being devoured by MYL01, its evolution rate was gradually increasing, and it would soon reach the mid-stage of type 5.

Clang! Clang!

DTS01 also continued to slash out bright beams of light, sweeping across the entire battlefield.

In the air.

Some level-four and level-three demons formed small troops and tried to escape after breaking through the blockade of the mech Army.

However ...

Very quickly, they were met with the interception of thousands of fourth-rank mecha and Wargod soldiers.

Among them were a hundred mechas and Ares-class weapons at the perfected stage of rank four.

“Attack!”

Shua! Shua! Shua!

the mecha ares army attacked.

In that instant.

Countless sword lights spread out and intertwined together, forming an inescapable net that sealed off all their escape routes.

“no!”

“Tier 4 Suan ni, they’re all Tier 4!”

“ah!”

The demons were on the verge of collapse.

Pfft! Pfft!

Blood splattered everywhere.

Demon corpses fell one after another. The small teams of Level 4 and Level 3 demons were all killed by the mecha Wargod troops.

Buzzzzzz! Buzzzzzz!

Among them, a fourth-tier soul Tinder had dropped.

Time passed.

An hour later.

The war was over.

Jiang Li’s ‘monster-exterminating Army’ annihilated the ‘monster army’ sent by the sky Monster Kingdom and killed twenty million monsters.

A large number of soul Tinders dropped.

he had gained a lot.

“we won!”

“The monster army has been completely annihilated!”

“Hahahahaha!”

the next moment.

The soldiers of great Wei’s Army cheered loudly, their faces full of joy.

...

“It’s finally over,”

smiles also appeared on the faces of feng chenxi and the others as they looked at the vast battlefield. there were demon corpses and human corpses.

There were also the remains of mechs.

Obviously.

They had annihilated twenty million demon soldiers.

The great Wei’s Army had also paid a heavy price. Nearly three million of their soldiers had died, and many of them had been injured.

A few Pavilion elders were even seriously injured.

He wanted to recover.

It would take quite some time.

Similarly.

Jiang Li's monster-exterminating Army lost another million meches.

...

However ...

To be able to annihilate twenty million demon soldiers at such a small price.

Such a battle result was extremely glorious.

clean up the battlefield immediately and collect the spoils.

go back, " Jiang Li ordered. then we'll go back.

"Yes."

"As you command, hegemon."

The battlefield commanders responded.

Immediately.

The meches of the monster-exterminating Army started to move the remains of the meches into the cabin as Jiang Li ordered. At the same time, they collected the armor of the demon soldiers and treated them.

Half an hour later.

The battlefield was cleared.

the monster-exterminating troop left immediately.

“They’re leaving so quickly,”

“He left immediately after clearing the battlefield.”

“Yup!”

their combat strength is even more terrifying. In just a few hours, they have annihilated a demon Army of twenty million. Such efficiency is truly shocking and terrifying.

“That’s right.”

“.....”

wei lin and the others were amazed.

“This fight ended so quickly.”

Luo Yilin opened her mouth and looked at the great Xia Army that was quickly leaving, ” this war was a complete suppression. The great Xia Army defeated the demon Army without any chance of retaliation.

“In just a few hours, twenty million demon soldiers were completely annihilated.”

“Yes.”

Luo Tianshui nodded.

She was still in a daze.

the main reason was that the combat strength and destructive power displayed by the great xia army were too terrifying. those ‘strange’ war weapons were like gods of war, capable of destroying everything.

after losing the protection and resistance of the army formation.

The demon soldiers below stage three were slaughtered without any resistance under the bombardment of the war weapons. This was the reason why the war had ended in such a short time.

“Big sister Tianshui.”

Luo Yilin said, ” now that I think about it, it’s only been a short while. Jiang Li has already grown to such a level. The Xia Dynasty has even occupied the entire Southern Northern Territory. They’ve annexed almost all the human dynasties.

” it feels like yesterday when jiang li was just a city lord. ”

“.....”

Luo Tianshui didn’t say anything. He just nodded.

“Sister Tianshui, I heard that Jiang Li hasn’t had any concubines yet. Why don’t you try? I believe with sister Tianshui’s beauty, you’ll be able to charm Jiang Li.”

“Wuwuwuwu!”

Before Luo Yilin could finish her words, Luo Tianshui pinched her little face, and she could only make a whimpering sound.

He had a resentful expression on his face.

Buzzzzzz! Buzzzzzz!

At this moment.

The array Masters of great Wei's Army began to take action. They laid out a blood-refining array and refined the corpses of 20 million demon soldiers into blood-refining pills.

Even though ...

Due to the incomplete corpses, the number of blood refinement pills had decreased significantly.

however, there were still more than 18 million of them.

The most important thing was ...

He had even used Ling Yue's corpse to refine a 'fifth-grade low-grade' blood refining pill. This grade of blood refining pill had a strong medicinal power, and it was even a priceless pill.

Even ...

It had a certain probability of assisting the perfected Tier 4 to break through to Tier 5.

“.....”

wei lin looked at the red gemstone-like low-grade fifth-grade blood refinement pill and couldn't help but gulp, a trace of greed in his eyes.

However ...

He quickly suppressed it and carefully put it in a Jade bottle. He did not intend to keep it, but he was going to present this 'fifth grade lower-class' blood refining elixir to Emperor Xia.

In reality.

the five million barbarian soldier bodies of the marquis of jin and the twenty million demon soldier bodies in the desolate barbarian province were all given to jin wushuang and wei lin by jiang li.

Jiang Li knew that array Masters could turn these corpses into blood refining pills with the blood refining array, and these blood refining pills were rewards for them.

The most important thing was ...

Jiang Li's meches didn't need this pill, and he didn't need it either.

"All troops, hear my order!"

Wei Lin shouted, " we have already won this war. Under the wise leadership of His Majesty, the Xia Emperor, and under the main attack of the Xia Army, we have completely destroyed the demon Army of 20 million.

however, in order to prevent the return of the demons, to resist the invasion of the demons, and to live up to the heavy responsibility of His Majesty Emperor Xia ...

so I have decided to lead the Army forward and guard the border of the black snake Marquis.

"This bi an ..."

wei wuxian and the others looked at each other.

"Yes!"

They had just won a big battle.

The entire Army.

All the soldiers were in high spirits and high morale. After hearing Wei Lin's words, they all responded loudly.

"Alright!"

Wei Lin nodded in satisfaction, waved his hand, and shouted, "Immediately distribute the blood refinement pills. All soldiers, take the blood refinement pills and recover from your injuries and strength."

"Those who are heavily injured, stay in Tianshui city to recuperate."

"Feng Chenzi."

Wei Lin said.

"Marquis Wang."

Feng Chenzi took a step forward and bowed.

"Yes."

Yes. Wei Lin nodded. In order to ensure the stability of the logistics, I've decided to send you to lead a million soldiers to stay in Tianshui city and be ready to deliver food and other supplies to the front line at any time.

"Yes."

Feng Chenzi nodded his head.

Half an hour later.

The great Wei's Army had been reorganized.

They set off again.

“Roar!”

the army formation was activated.

Great Wei’s Army advanced at full speed.

“To guard the border of the Marquis Black snake.”

Through the air Scouts, Jiang Li clearly knew the movements of the Wei Army. He was very satisfied with Wei Lin’s actions.

“That’s good.”

that’s good. Jiang Li nodded. it’s a good thing that the Wei Army is guarding the Marquis Black snake.

shua!

The scene changed.

The image of the ‘fog exterminating Army’ was enlarged and clearly presented in front of Jiang Li.

In the Marquis of panic realm.

Buzzzzzz! Buzzzzzz!

The dense and strange fog continued to spread and had already corroded more than half of the Marquis of Panic’s territory, causing the fog on the Azure Dragon’s body to increase.

The fate of the country was being eroded.

At this moment.

The fog destroying Army had already met with the ‘strange fog’.

The distance between the two sides was probably less than ten miles.

“Fleet! Attack!”

BOOM! BOOM! boom!

first of all ...

The fog destroying Legion carried out long-range attacks. Millions of warship cannons fired at the same time. In an instant, countless energy flames soared into the sky.

All of them fell into the strange fog.

“Rumble!”

The explosion reverberated in all directions.

the fog rolled.

It was as if a huge rock had suddenly fallen into the lake.

It set off countless waves.

Bang!

A lot of the strange fog was directly scattered.

After that.

Jiang Li saw 'living beings' in the strange fog. They were more like twisted ghosts than living beings.

These ghostly figures didn't seem to have a physical body. They were like human shadows, but they floated in the air. There were many of them, and they were densely packed like locusts.

In reality.

these ghostly figures were puppets created and controlled by 'human ghosts'.

there was a saying.

the gods and devils lived high up in the nine heavens.

The ghost clan lived in the nine nethers.

Ghost clan.

They lived in the nine nethers.

Under normal circumstances, very few members of the ghost clan would appear on the continent, because they rarely came out of the netherworld.

Generally speaking.

The so-called 'real ghost clan' was also known as the 'innate ghost clan'. They were born from the nine Serenities and were 'born from heaven and earth'. They were very powerful.

Other than the ‘innate ghost clan’.

There was also the houtian ghost race.

The so-called ‘houtian ghost clan’ were creatures of other races who, under various lucky circumstances, were nourished by Yin Qi and Yin land after their deaths and turned into ‘ghosts’.

Other than that.

There was another situation.

It was a ‘Ghost Art’ created by the ‘innate ghost race’. The other races abandoned their original race and identity and became ‘ghost cultivators’.

Ghosts and ghost cultivators.

They were all ‘houtian ghost clan’.

Chapter 417

In reality.

‘Houtian ghosts’ were unable to give birth and couldn’t produce offspring. Only ‘innate ghosts’ could produce offspring and give birth.

Shua! Shua! Shua!

Within the fog.

The distorted ghostly figures were very fast and did not have a physical body. They existed in between existence and illusion, so it was very difficult for physical attacks to cause any damage to them.

However ...

Jiang Li's cannons were energy cannonballs, which were powerful enough to kill.

It was only one round of bombardment.

It destroyed a large number of ghostly figures and dissipated in the air.

however ...

After destroying so many ghostly figures, Jiang Li didn't receive any system notifications. There wasn't even a soul Tinder. Something was wrong.

"What's going on?"

jiang li frowned.

shua!

The interface opened.

He confirmed it again.

He didn't get any soul Tinder.

"Could it be that these ghostly figures aren't living creatures at all?"

Jiang Li thought.

“What?”

Inside the strange fog.

A few soft gasps could be heard.

Obviously.

Jiang Li’s cannons killed a large number of ghostly figures, which made the existence in the strange fog a little scared. It also couldn’t figure out Jiang Li’s Army.

“They are humans?”

“No! It’s wrong!”

” i can’t sense the existence of ‘souls’ in them. ”

“It’s not completely non-existent.”

only a small portion of them have a ‘soul’.

In the depths of the strange fog.

There was a conversation.

The meches produced by the mech factory didn’t have a soul. Only the meches created by the Dominator panel had a soul.

For example, ynjsw01.

In fact, he already had a ‘complete soul’.

however ...

The soul of a mech was different.

As for the specific differences ...

jiang li didn't know.

Shua! Shua! "whoosh!"

The next moment.

The existence in the strange fog launched a counterattack. The vast thick fog rolled over, and millions of ghostly figures rushed out from the fog, sweeping toward the fog destroying Army.

BOOM! BOOM! BOOM!

The ship's cannons fired.

The mechanical dragon cavalrymen spat out Dragon Breath.

"Whoosh!!!"

it formed an attack that covered a wide area.

A deafening explosion was heard.

at least a million ghostly figures had been destroyed.

"Bastard!"

boom!

A furious shout came from the strange fog.

Immediately after.

A 10,000-meter-tall giant made of thick fog was formed. It was extremely tall and powerful, and it had reached the fifth rank.

...

“Die!”

BOOM!

A huge fist smashed over.

“get lost!”

ynjsw01 leaped into the air, leaving a huge crater in the ground. like a bolt of lightning, he shot into the sky and punched.

Bang!

A vast amount of power rushed out.

A loud noise was produced.

the thick fog giant's fist and arm were shattered by ynjsw01's punch and exploded into a mist that filled the sky. the existence inside the strange mist let out a scream.

the great circle of the fifth tier of the five elements Phoenix!!!

A frightened voice was heard.

...

“Si si si ...”

why is there a perfected Tier 5? ”

“This Suan ni, this Suan ni”

fear!

The voice of the being in the strange fog was filled with fear.

However ...

This was not the end.

shua! Shua! Shua!

The next moment.

Ynjsw01 summoned three tier 5 undead puppets and stood in a row with ynjsw01.  
An extremely powerful aura spread out.

“Zombie King domain!”

Buzzzzzz!

Ynjsw01 released his skill, and his domain spread out in all directions.

“attack!”

“Rumble!”

at the same time.

The fog destroying Army charged into the strange fog without hesitation. The transport plane landed, and tens of millions of mechanical Army soldiers rushed out of the cabin.

They formed a huge Army and surged into the fog.

“You, you, you, you, you ...”

Bang Bang Bang Bang!

Inside the strange fog.

the ghosts were crushed by the meches one by one, but they couldn't do much damage to the meches because they had no soul or flesh.

All of them were just mechanical creations.

so,

The meches were the nemesis of these ghostly shadows.

“Retreat! Retreat!”

“Let's go!”

“Damn it, these are all puppet soldiers.”

“Heavens!”

to be able to control so many puppet Warriors, could there be a human puppet master of the sixth step or above here? ”

“Don’t get caught by the human puppeteers.”

Buzzzzzz! “Whoosh!!!”

it could be seen.

The strange fog quickly contracted and fled. In the blink of an eye, it had retreated more than ten kilometers away.

A few minutes later.

The strange fog had actually retreated from the Marquis of panic and left the great Xia Dynasty.

He fled very quickly.

“He’s running away?”

what? ” Jiang Li was stunned. more importantly, I didn’t get a soul Tinder after killing so many twisted ghosts.

“I’m really not happy.”

“there’s more,”

Jiang Li thought, what’s the thing in the strange fog? We’ve never encountered one before. Should we send the fog destroying Legion to continue chasing?”

“Chief sovereign.”

At this moment.

“There’s a situation with the Barbarian Marquis,” said QX01.

“What?”

what happened? ” Jiang Li asked.

shua!

the holographic projection screen unfolded.

Linyao County, Marquis of Manyi’s County.

Jiang Li built two army bases in the Marquis of barbarian country. Army base 05 was in the capital of barbarian country, and army base 011 was in linyao County.

At this moment.

The air reconnaissance troops of the Army base 011 discovered the appearance of the ‘barbarian tribe’. Moreover, they did not know where they had gathered tens of millions of beasts.

Obviously.

the ‘barbarian tribe’ seemed to have mastered a ‘secret technique formation’ that could control ferocious beasts. moreover, this ‘secret technique formation’ could only be controlled and driven by the power of the barbarian.

“The Barbarian tribe.”

it seems like they're taking advantage of the time when the Barbarian race and the monster race are invading the great Xia Dynasty, " Jiang Li said. they're here to take a share.

"Roar!"

The beast roared.

Tens of millions of beasts gathered together, forming an extremely powerful force. The murderous aura was incomparably strong as they rushed towards the Marquis of Manyi realm.

other than the beasts.

There was also an Army of ten million barbarians.

The strength and cultivation of these barbarians were not weak.

His combat strength was naturally not low.

looking at the time, the great Xia Dynasty should be facing attacks from the monster army, the Barbarian Army, and the human ghosts at the same time. Being attacked from three sides, they must be in a terrible state.

In the Barbarian Army.

The one leading this barbarian Army was 'Xing Wuwu', a level five initial stage barbarian. He was also proficient in formations and was already a fourth grade formation master.

" after all, the great xia dynasty has just been established. it doesn't have enough resources and soldiers. facing attacks from many sides, it's hard to spare enough troops to fight the enemy. "

"This is our chance."

break into the capital of the great Xia Dynasty as fast as possible, kill Jiang Li, the Emperor of the great Xia Dynasty, and then devour all the Fortune of the dynasty.

The Barbarian commanders discussed among themselves.

Xing Ling died in the great Xia Dynasty. We can't let our guard down. Even if the current situation is beneficial to us, we have to do our best to prevent ourselves from being defeated.

Xing Wuwu said in a deep voice.

“Yes.”

“we understand.”

“Don't worry.”

All the Barbarian commanders said one after another.

“Everyone, pay attention. The berserk beast Army is about to enter the territory of the Barbarian dynasty.”

Xing Wuke shouted.

Obviously.

Xing Wuwu and the others didn't know that the Barbarian Army had been defeated by Jiang Li's mech Army, nor did they know that the monster army had been completely annihilated.

As for the human-Ghost Army in the strange fog ...

Jiang Li's meches naturally countered the abilities of the ghosts and humans. They easily pushed back the ghosts and humans and scared them away.

“Human-ghost!”

let me think. Barbarians are the ‘mixed-blood alien race’ born from the Union of humans and barbarians, and half-demons are the ‘mixed-blood alien race’ born from the Union of monsters and humans.

“That is to say ...”

‘human ghost’ is the ‘mixed-blood alien race’ that is born from the Union of ‘human’ and ‘ghost’? ”

“i’m going to run!”

what? ” Jiang Li was speechless. is this a ‘Japanese ghost’? ”

he couldn’t help it.

A name popped up in Jiang Li’s mind-ning caichen.

“But, how do humans and ghosts roll on the sheets?”

ghost race? ” Jiang Li couldn’t help but say, ” or are the ‘ghost race’ in this world different from what I thought? ”

“Whoosh!!!”

While he was thinking.

huh? ” Jiang Li felt the fluctuation of space.

Shua! Shua! Shua!

it was the monster-exterminating army that had returned to the base from marquis black snake through the teleportation station and asked the monster-exterminating army to store the spoils and the remains of the meches in the warehouse.

Activate the ‘teleportation room’.

send the monster-exterminating League to the base No. 011, ” Jiang Li said. kill all the Barbarian armies and beasts that are invading the capital.

“Whoosh!!!”

The teleportation began.

It just flashed in the air.

The monster exterminating League disappeared and was teleported away. They left the base of the No. 01 Army and teleported to the base of the No. 011 Army, appearing in the sky above the base.

At the same time.

The Barbarian Army and the Beast Army had also entered the territory of the Marquis of barbarian Yi.

“Attack!”

after that.

The monster exterminating League locked onto the Barbarian Army and the Beast Army and fired their cannons. In an instant, millions of energy cannons were fired.

“Rumble!”

“ah!”

The Cannonball exploded.

The energy flames soared into the sky and countless screams were heard. The Barbarian soldiers were caught off guard by the monster exterminating League. This round of bombardment had killed a large number of barbarian soldiers.

More than a million berserk beasts were killed.

“Enemy attack!”

“It’s from the heavens.”

“Over there! The enemy is over there!”

“si si si ...”

“The great Xuanji Army of the great Xia!”

“Why would the great Xia Army suddenly appear here? shouldn’t they be sent to deal with the monster army and the barbarian army? why are you here?”

they were dumbfounded!

The barbarians were all dumbfounded.

Initially, they had wanted to use the monster army, barbarian Army, and the human Ghost Army to hold back the main force of the great Xia Dynasty. Then, they would take the opportunity to attack the imperial capital of the great Xia Dynasty and reap the fruits of victory.

The result.

They had just entered the territory of the Marquis of barbarian, and before they could even execute their plan, they were met with a head-on attack from the great Xia Army, which forced them to flee like rats.

The most important thing was ...

The monster-exterminating Army had appeared out of thin air. There had been no sign of it before. The Barbarian Army had also investigated the surroundings in advance, but they had not found any traces of human troops.

This caused the Barbarian Army to lower their guard.

Chapter 418 The core

This wave of attack from the monster-exterminating Army had killed millions of barbarians. As a result, the number of barbarian soldiers was insufficient, and it was difficult for them to form a Grade 4 Army in a short time.

He had lost a powerful method.

kill!!!

all troops, attack!!!

“Rumble!”

the monster-exterminating army launched a second wave of attack. an overwhelming number of air troops surged forward and blocked the sky like a thick layer of dark clouds.

It covered the sky and the sun.

BOOM! BOOM! BOOM!

Countless cannonballs fell from the sky and landed on the Barbarian Army. They exploded, sending flames and corpses flying everywhere. The screams of countless barbarians could be heard.

It was extremely tragic.

bang bang bang bang!

At the same time.

The transport plane began to land.

The Army of meches moved out.

All kinds of army units formed into groups and rushed into the Barbarian Army. They started close combat. The level four meches of the mechanical Army rampaged on the battlefield. They were invincible.

missile launch!!!

The next moment.

Thousands of mech missile soldiers had already completed their calibration and locked onto their targets. A thousand conventional missiles took off, drawing a beautiful tail flame.

After that.

All of them exploded in the middle of the Barbarian Army and the beasts. The sound of the explosion was deafening, as if the eardrums of the people were broken.

Small mushroom clouds rose into the sky.

The scene was quite shocking.

“Retreat! Retreat!”

Xing Wuwu roared out as he watched the barbarians being torn apart one by one by the terrifying weapons, and the barbarians being blasted into pieces one by one.

xing wuwu was helpless.

His eyes were about to tear.

boom!

Xing Wuke let out a furious roar, and his cultivation of the early fifth rank exploded. A vast amount of barbarian power surged out, and then he struck out with his palm, creating a palm print as huge as a mountain.

clang!

The sky-blue sword light flashed.

DTS01 slashed out with his sword and destroyed Xing Wuwu’s attack.

“!!!”

Xing Wuke’s pupils contracted.

“Kill!”

Shua!

DTS01 flew across the sky as fast as lightning. The weapon in his hand was the energy Angel's sword. He did not use his full strength, but he still managed to completely suppress Xing Wuwei.

“pfft!”

They had only exchanged a few dozen moves.

Xing Wuji was injured by DTS01. A bloody wound appeared on his chest. His face was pale and he looked shocked and frightened.

“tier 5 perfection!”

Xing wuwang looked at DTS01 in front of him and felt despair.

“Ah!”

In the surroundings.

The screams of countless barbarians rang out continuously, and the continuous deafening explosions were deafening. The monster-exterminating Army stretched out the battle line and began to surround the Barbarian Army, completely blocking their retreat.

The encirclement had been formed.

“How did this happen?”

Xing Wuke staggered backward. His face was as pale as a sheet of paper. There was no color in his face at all. It was as if he was powerless. why did it become like this? ” Why is this the result?”

“No! No!”

Xing Wu couldn't accept this fact.

He would never have thought that the Barbarian Army he led had just entered the territory of the Marquis of barbarian Yi and had yet to launch an attack on the great Xia Dynasty.

the result.

the great xia army appeared.

Then, they dealt a head-on blow to the Barbarian Army.

...

What was more terrifying was ...

The strength of the great Xia Army was too strong, so strong that it made one's hair stand on end. Furthermore, it was led by a peak-level combat strength at the perfected stage of the type 5 realm.

The two armies clashed.

the army of the barbarian tribe had no power to resist.

he retreated step by step.

even the huge number of beasts that they had spent a lot of effort to gather were like paper in front of the war weapons of the great xia army.

It couldn't withstand a single blow!

"A fifth-ranked barbarian."

Jiang Li's eyes lit up when he saw Xing Wuwu on the screen. He ordered, "DTS01, don't kill this Level 5 barbarian. Capture him and bring him back."

"Yes."

DTS01 responded.

...

Shua! Shua!

DTS01 immediately used the skill 'energy Archangel' and changed his weapon to the energy Archangel's spear. Then, he went all out with MYL01 assisting from the side.

"Ah!"

Pfft!

Xing Wuke screamed repeatedly.

He was only a barbarian at the initial stage of the fifth rank. He was no match for the joint attack of DTS01, who was at the perfected stage of the fifth rank, and MYL01, who was at the initial stage of the fifth rank.

If Jiang Li didn't want him alive, Xing Wuwu would have been killed.

Even so ...

Xing Wuwu could only hold on for a few minutes before the tendons in his four limbs were all cut off. His barbarian strength was exhausted, and he was seriously injured to the point of death.

He fell to the ground.

Immediately.

the meches surrounded xing wuji and tied him up.

BOOM! BOOM! boom!

The war continued.

However ...

the barbarian army couldn't cause any more waves. two-thirds of the ten million beasts had been killed. the ground was covered with the corpses of the beasts.

Countless cannons and bombs landed on the battlefield.

After the missiles of the mech missile soldiers were used up, Jiang Li immediately used 1000 energy points to replenish the missiles of the 1000 mech missile soldiers and continued attacking.

Half an hour later.

The sound of cannonballs exploding, machine guns firing, and the meches 'shouts gradually stopped.

The war was over.

Tens of millions of barbarians were killed, and tens of millions of beasts were also killed. The battlefield was filled with the corpses of barbarians and beasts.

The smell of blood was thick.

The Army of barbarians was completely annihilated.

The monster exterminating Army had won another glorious victory.

Similarly.

About a million meches were damaged.

Soon after.

The monster-exterminating Army started to clean up the battlefield and collect the remains of the meches. They then collected the armors, weapons, and other spoils of war and transported them back to the imperial capital of the great Xia.

“Whoosh!!!”

At this moment.

Dense demon spirit energy was rolling around MYL01’s body. After absorbing a large amount of broken souls, his evolution had once again reached 100%.

It could be promoted to the middle stage of the fifth step.

“Upgrade.”

After Jiang Li saw the situation of MYL01, he immediately used two billion energy points to upgrade it.

Shua!

MYL01’s body glowed.

a few seconds later.

the promotion was completed.

MYL01 had advanced to the mid-stage of the fifth step.

Two skills.

The ‘destructive storm’ and the ‘demonic spirit body’ had both been upgraded from level five low-grade to level five mid-grade.

his strength had naturally increased by quite a bit.

“Whoosh!!!”

The fluctuations of a spatial teleportation.

the monster exterminating army returned to the base through the ‘teleportation station’, and the’ fog exterminating army ‘also returned.

The two mech armies were gathered in the capital.

in the sky above the capital.

Countless meches covered the sky and the earth. The floating battleships covered the sky and the sun. Their shadows covered the entire imperial capital.

The two legions.

The total number of meches had reached about 50 million.

It was extremely huge.

the Barbarian Army has been repelled, and the monster army has been completely annihilated. The 'human Ghost Army' that came from the misty forest has also been scared away by the fog destroying Army.

The Barbarian tribes that wanted to take advantage of the situation were also annihilated by the monster-exterminating troop.

“Next, it’s my turn to counterattack.”

“Hu ~~ Hu ~ Hu ~”

Jiang Li took a deep breath and looked at the mech Army in the sky. His eyes were filled with killing intent.

Obviously.

It wasn’t Jiang Li’s style to just be beaten passively.

One had to know.

The monsters lost 20 million monsters this time. The Barbarian race only lost five million this time, but Jiang Li destroyed the Black Dragon barbarian Army and the Barbarian dynasty last time.

In other words ...

Whether it was the monster race or the Barbarian race.

they had lost a large number of soldiers.

There was more.

jiang li’s mech army didn’t need any support at all. they could move very fast and fight in a flash.

Shua! Shua! Shua!

Ynjsw01, DTS01, and MYL01 had arrived at the room in the dominating heart.

Behind them.

There were a total of twenty-four battlefield commanders.

“Chief sovereign.”

They saluted at the same time.

“Yes.”

thank you. Jiang Li nodded and said, ” thank you.

“It is our honor to be able to share the sovereign’s burden.”

“This is our duty.”

DTS01 and the others said one after another.

“where are the fifth-ranked barbarians?”

Jiang Li asked.

“Please take a look, chief sovereign.”

Bang!

Xing Wuwu had been thrown to the ground. His limbs had been cut off, and his body was covered in blood. There were wounds all over his body, and his eyes were in a daze.

He was basically dying.

“It would be such a waste if I died.”

let's go. Jiang Li took out a low-level healing pill and let Xing Wuke take it. The medicinal effect spread and slightly recovered Xing Wuke's injuries.

At the very least, Xing Wuke was no longer in a daze.

” you're the emperor xia! ”

Jiang Li? ” Xing Wuke's pupils constricted when he saw Jiang Li.

“Yes.”

jiang li looked down at xing wuwei with an indifferent look. he activated his technique and released the dragon power of the country, forming an extremely powerful pressure.

“I am Emperor Xia.”

Jiang Li said.

“What do you want to do?”

Xing Wuke asked.

“I'm going to give you a chance to live.”

buzzzzzz!

intermediate slave charm. Jiang Li opened his right palm and the ‘intermediate slave charm’ appeared. He put his National aura into it and then condensed a ‘core contract charm’.

Shua!

In the air above his palm.

The green talisman was like a dragon, emitting a faint green light.

“The core talisman of the nuclear mayfly!”

Xing Wu Ke was frightened, but he immediately reacted.

“Yes, I am.”

yes. Jiang Li nodded and said, ” I’m very interested in the secret technique that you barbarians can use to control ‘fierce beasts’. However, only you barbarians can use this formation.

so, as long as you accept this ‘core contract charm’, you can live.

“Of course.”

it’s fine if you don’t agree, ” Jiang Li continued. I’m just a little interested in your ‘secret techniques and formations’.

“To me, they are dispensable.”

“but for you, it’s about your life.”

“I’ll give you three seconds to consider.”

He said.

I’m counting down. Jiang Li extended three fingers and started to count down calmly.

“Three-Jue Gu”

“You’re so silly!”

xing wuwu was caught in a struggle.

In his mind.

All sorts of thoughts flashed through his mind.

however ...

Jiang Li didn’t give Xing Wuke time to think.

“Two!”

“Wait a minute, Yingluo.”

“One!”

“I’m Yingying!”

“Kill him!”

Jiang Li waved his hand.

clang!

The sound of a sword.

DTS01 did not hesitate to slash out.

“I agree! agree to it!”

Xing Wuke shouted in fear.

Chapter 419 Servant

“Stop!”

Jiang Li smiled.

“.....”

Xing Wuze’s entire body was trembling.

dts01’s angel’s sword of energy stopped in front of xing wuwu, less than a centimeter away from his forehead.

In other words ...

xing wuwu shouted a little slower.

Then ...

His head would have been split open by DTS01.

Cold sweat!

Xing Wuwu's entire body was covered in cold sweat.

He couldn't help it.

There was a sense of relief after surviving a disaster.

Obviously.

Jiang Li had already broken Xing Wuwei's psychological defense.

One had to know.

xing wuke was already seriously injured and weak. if jiang li didn't feed him a low-level healing pill, he would've lost consciousness.

In such a situation.

xing wuke's will was extremely weak.

after that.

under the shroud of the great terror of death.

Xing Wuke's will collapsed.

"Congratulations."

” you’ve chosen a very lucky path, ” jiang li said with a smile. ” at least you’re still alive, aren’t you? ”

“Go.”

Shua!

Jiang Li waved his right hand and the first ‘core contract charm’ found its first ‘owner’. It turned into a ray of green light and merged into Xing Wuwu’s forehead.

“Don’t struggle.”

you can’t, ” Jiang Li said. otherwise, if you fail, you’ll be dead.

“.....”

Xing Wuke’s face turned pale.

“Ah!”

The next moment.

Xing Wuke screamed.

The ‘core contract charm’ merged into the depths of Xing Wuwu’s soul, completely fusing with his soul.

Jiang Li felt a very clear connection.

With a thought.

Jiang Li would be able to control Xing Wuwu’s life and death at any time.

The most important thing was ...

As long as Jiang Li wanted to.

Jiang Li could even see all of Xing Wuwu's memories and secrets. Xing Wuwu was completely transparent to Jiang Li.

There were no secrets to speak of.

He had complete control.

One had to know.

As time passed, under the influence of the 'core contract charm', it could even change the thoughts of the contracted being, causing him to completely submit to the master.

One could see how terrifying the 'core contract charm' was.

"Not bad."

Jiang Li sensed it carefully and nodded in satisfaction. from today onwards, Xing Wuwu, you are my first servant.

"This servant, Xing Wuwu, greets master!"

xing wuke kowtowed.

At the center of his eyebrows.

There was a faint Azure Dragon Mark that could be hidden.

"master."

...

in fact, it's not just the Barbarian tribes who want to take advantage of the situation, " Xing Wuwu said. the half-monster Alliance has also secretly mobilized the Army.

"oh."

half-monster Alliance? " Jiang Li raised his eyebrows.

"Yes, I am."

xing wuke nodded, " master, even though you've defeated the barbarian army, there's still the barbarian army, the monster army, and the human ghost army. "

and then there's the half-monster Alliance.

"The situation is really worrying."

"A worrying situation?"

No. Jiang Li smiled and said, " the Barbarian Army has been defeated. As for the monster army, they were all killed outside the great Xia County by my Army.

" the human-ghost army in ghostmist forest was also scared away. "

" what?! "

...

Xing Wuke's eyes widened as he suddenly raised his head. Then, he had a look of disbelief on his face. this Qianqian, this Qianqian, how is this possible? "

“Nothing is impossible.”

I’ll go, ” Jiang Li said.

“Gulp!”

Xing Wuke used the swallowing technique.

His heart was filled with shock.

“This is too terrifying.”

the Barbarian race, the monster race, the human ghost, the Barbarian tribe, and the half-monster Alliance, there are Five Forces in total.

“In the short span of a day.”

master actually repelled the armies of the four forces and annihilated the entire monster army.

“This Suan ni, this Suan ni”

“He’s too strong!”

he rejoiced!

Xing Wuke suddenly felt lucky that he didn’t become a tough guy and agreed to become Jiang Li’s slave.

Obviously.

xing wu had completely accepted this reality.

He thought about it carefully.

Xing Wuwu didn't think it was a bad thing to become Jiang Li's slave. After all, Jiang Li was the Emperor of Xia.

The human King of a human dynasty.

With Jiang Li's identity and status, he was not the only one.

Some people couldn't even become Jiang Li's slaves.

furthermore ...

The strength of the great Xia Dynasty.

He was simply too powerful.

Perhaps he could really unify the northern region of the Holy peace state and promote the great Xia Dynasty to an Imperial City, becoming the human Emperor. At that time, he would be the human Emperor's slave.

Thinking of this ...

Xing Wuwu was a little excited.

Obviously.

The power of the 'core contract charm' had already begun to affect Xing Wu without him knowing it.

"Your injuries are too severe."

Jiang Li looked at Xing Wuwu and took out three syringes. They were Tier 1 gene strengthening liquid, Tier 2 gene strengthening liquid, and Tier 3 gene strengthening liquid.

“take it for an injection.”

Jiang Li threw the three syringes to Xing Wuwu. inject them in order. Inject the silver syringe first.

“Yes.”

Xing Wuwu didn't hesitate at all. Or rather, he was in Jiang Li's control, so he would follow Jiang Li's orders to the letter.

Pfft!

The silver syringe jabbed into the blood vessel and injected the strengthening liquid.

Very quickly.

the strengthening liquid flowed through xing wuwu's body.

the coldness spread.

“whoosh!!!”

The next moment.

The medicine began to take effect.

Xing Wuwu seemed to have turned into a black hole. The power of the Barbarian surged, and a terrifying suction force was emitted. The surrounding spiritual Qi of heaven and earth gathered.

It formed a huge spirit Qi Whirlpool.

There was a huge commotion.

Time passed.

The strange phenomenon subsided.

“this suan ni, this suan ni”

Xing Wuwu stabilized his body. His injuries had completely recovered. Not only that, but with the help of the Tier 1 gene strengthening fluid, his strength had doubled!

It had doubled without any side effects.

“Thank you, master!”

Xing Wuwu was so excited that he kowtowed to Jiang Li.

He was more and more convinced.

one had to know.

he had just joined, but jiang li gave him such a powerful medicine. not only did he recover from his injuries, but he also doubled his strength.

Of course.

The reason why Jiang Li did this was because ...

It was because everything about Xing Wuwu was under Jiang Li's control. The stronger Xing Wuwu was, the more useful he could be.

Furthermore ...

Jiang Li also wanted to see it.

What would happen to Xing Wuke after he was injected with rank-1 to rank-3 gene strengthening fluid at the early stage of rank-5?

“Continue to inject the remaining two.”

I'll go, ” Jiang Li said.

“Yes.”

Xing Wuke nodded and suppressed his excitement. He then injected the Tier 2 and Tier 3 gene strengthening fluid into his blood vessels.

BOOM! BOOM!

xing wuwu's aura increased greatly.

His strength doubled.

An incomparably dense barbarian power was released. It was pure black in color, as if it had devoured all the light. Its strength had increased by several times.

“Break!”

Not only that.

Xing Wuke had reached the limit of initial-stage Tier 5 to begin with.

This time.

Because he had been injected with Level 1 to Level 3 gene strengthening fluid, not only did it increase Xing Wuwu's strength, but it also increased his aptitude.

hence.

xing wuwu had profited from a disaster.

He had successfully broken through to the mid-stage of the fifth rank.

An hour later.

Xing Wuji's cultivation was stable.

In his dantian.

The vast barbarian power condensed into a solid form, forming a blood-red true core. On the 'barbarian true core', there were even totem patterns.

"i, xing wu, can not thank master for your great kindness!"

xing wuke kowtowed.

"You may rise."

go. Jiang Li waved his hand.

"Yes, master,"

Xing Wuke stood up and looked at Jiang Li with respect, as if he was a fanatic looking up at a God.

One had to know.

Xing Wuwu had never thought about it.

in just a few short hours.

He had actually experienced a ‘rebirth’.

“Tier 5 perfection?”

Xing Wuke clenched his fist and felt the changes in his body. His heart was filled with hope and anticipation for the future. hehe, that was just a goal that I set in the past.

as for the current me, rank five is definitely not the end.

“My goal should be the ‘sixth step’.”

Obviously.

Xing Wuwu was a little arrogant now.

“Zh01.”

Jiang Li said.

“Yes,”

Zh01 walked out and saluted Jiang Li.

“xing wuwu, cooperate with zh01 to research the ‘bloodthirsty evil spirit formation’.”

report to zh01 everything you know about the Barbarian tribe, ” Jiang Li ordered.

“Yes, master,”

Xing Wuke nodded respectfully.

“yes, sir.”

Zh01 replied.

Shua!

the dominator panel opened.

Soul Tinder.

After killing 20 million monsters, 10 million barbarians, 10 million beasts, and nearly five million barbarian soldiers, Jiang Li got a lot of soul Tinder.

soul Tinder: 7.9 million level-one soul Tinders, 5308000 level-two soul Tinders, 10000 level-three soul Tinders, 140 level-four soul Tinders, one level-five Demon Soul Tinder fragment.

“Fuse!”

Wuwuwuwuwu!

fuse. Jiang Li activated the soul Tinder fusion function and chose ‘one-button Fusion’. He fused all the level-one soul Tinders.

Shua! Shua!

The fusion interface appeared.

A series of notifications appeared.

“Chief sovereign.”

At this moment.

While Jiang Li was fusing with the soul Tinder, QX01 came up and reported to Jiang Li, “the air reconnaissance team at the base has reported that they have found traces of the half-monster Alliance in the territory of the Duke of Lion.

from the direction of the half-monster Alliance Army, they should be heading straight for the imperial capital of the great Xia.

Half-monster Alliance.

open the screen, ” Jiang Li said. now.

“yes.”

buzzzzzz!

QX01 raised his right hand and a beam of light shot out from his wrist, forming a very clear holographic projection in front of Jiang Li.

in the image.

the army of the half-monster alliance came into view.

There were quite a few of them.

It had reached 20 million.

Not only that.

There were quite a number of Air Corps.

half-monster alliance. ”

Hmph. Jiang Li snorted. Xing Wuwu is right. He’s planning the same thing as the Barbarian tribe.

” order the entire army to form the ‘destruction legion’ with 50 million meches and teleport to the army base no. 012. destroy the half-monster alliance army as soon as possible. ”

Jiang Li said in a deep voice.

“Yes.”

QX01 sent Jiang Li’s order to the commanders through ‘communication’.

Chapter 420 The Dark Zone

Half an hour later.

The destruction Legion had assembled.

This time.

Jiang Li used almost all of his meches, forming a huge Army of 50 million meches. There were more than 10000 level-four meches.

Not only that.

There were also nearly 1000 perfected-stage level four meches.

As for the level three meches.

The number was already in the millions.

However ...

Zh01 was left behind.

This was because zh01's mission was to learn the 'bloodthirsty ferocious spirit array'. It would be best if he could master it. That way, he would be able to control the beasts and form a beast tide.

At that time.

The gathered beasts.

it didn't matter if it was used to deal with enemies or to kill for the soul tinder.

It was a sure-win business.

"Teleport!"

"whoosh!!!"

There were spatial fluctuations.

the 'teleportation room' was activated.

Instantly.

In the air above the imperial capital of the Grand Xia.

The meches disappeared into thin air. They were teleported away. The shadows that covered the sky disappeared, allowing the capital to regain the sunlight.

However ...

it was already close to evening.

There was only the sunset.

“What’s going on?”

Xing Wuwu raised his head in a daze and looked at the Army in the sky that had suddenly disappeared. His expression was one of shock. how did they just disappear into thin air? ”

“could it be that qianqian?”

suddenly.

Xing Wuwu thought of a possibility.

spatial teleportation? ”

Xing Wuwu’s mouth opened wide.

It was hard to believe.

In reality.

Xing Wuwu had once been fortunate enough to come into contact with a member of the 'barbarian tribe-the Holy Land of the barbarians'. From the mouth of this member, he learned a secret that he had never known before.

Among them.

It was about the secret of 'space teleportation'.

However ...

Xing Wuwu only knew about it, but he didn't know why. He had only heard the member mention it casually, but he didn't know the real situation.

he only knew.

The concept of 'space' was something only the Imperial dynasty could come into contact with.

Even dynasty.

He was also unable to come into contact with 'space'.

"this suan ni, this suan ni"

Xing Wu was extremely shocked. great Xia is only a dynasty. Although it is already considered a 'Marquis country', how could it come into contact with a space 'that even an Empire can't reach? "

this is unbelievable! Unbelievable!

"Master is too great."

the lowly servant, Xing Wuwu, is even more grateful to be the master's 'servant'.

Xing Wuwu knelt down and saluted Jiang Li.

The scene changed.

Duke Lion.

At the old site of The Lion King's capital.

Base 012.

...

In the air.

“Whoosh!!!”

Spatial fluctuations emerged.

The space in this area rippled like the surface of water.

The next moment.

Shua! Shua! Shua!

the ‘destruction legion’ appeared. it was a huge fleet made up of millions of floating battleships. together with the densely packed mechanical air soldiers around them, they formed a line of defense.

The Army covered a wide area.

It was as if he could not see the end of it.

“Target locked.”

100 kilometers South of the base.

...

“Full speed ahead.”

“Let’s go!”

Boom! Boom! Boom!

The engine roared.

The destruction Legion flew at full speed and left the sky above army base 012. In the blink of an eye, they flew a few kilometers and gradually disappeared in the sky.

In the base of the 01 division.

In the room in the ruler’s hub.

Buzzzzzz!

QX01 projected the image of the ‘annihilation Corps’ in front of Jiang Li.

Shua!

[ prompt: you have fused 750000 times. You have succeeded 250000 times and failed 500000 times. You have obtained 25 stage-two soul Tinders. ]

Jiang Li looked at the pop-up window that appeared in front of him.

fuse the second-stage soul Tinder with one key.

Buzzzzzz!

The fusion interface appeared.

[ fusion failed! ]

.....

[ fusion successful! ]

.....

A notification popped up on the fusion interface. It was very fast, as if the screen was being refreshed.

Not long after.

All the stage-two soul Tinders had been fused.

Shua!

[ prompt: fusion 78800 times, success 13134 times, failure 65666 times, acquired 13134 stage-three soul Tinder. ]

fuse the third-stage soul Tinder.

Jiang Li continued to merge.

The fusion interface appeared once again.

Very quickly.

All the stage-three soul Tinders had been fused.

[ prompt: fusion 2313 times, success 257 times, failure 2056 times, acquired 257 Tier 4 soul Tinder. ]

two hundred and fifty-seven plus the original one hundred and forty, the number of fourth-tier soul Tinders has reached three hundred and ninety-seven.

Jiang Li thought.

“not bad, not bad.”

okay. Jiang Li nodded in satisfaction.

If he wanted to obtain nine level-five soul Tinders, the success rate of synthesizing a level-five soul Tinder from a level-four soul Tinder was about one-tenth.

In other words ...

it would be best if jiang li could collect 900 level-four soul tinders.

now, we have 397. We still need 503 more to reach the 900 mark.

Jiang Li said to himself.

“Chief sovereign.”

the destruction Legion is approaching the half-monster Alliance’s Army, ” QX01 said.

“Attack directly.”

kill the half-monster Alliance as soon as possible, ” Jiang Li said. then, let the army of destruction return.

“Yes.”

yes. QX01 nodded and gave Jiang Li’s order.

at this moment.

Within the territory of the Duke of lion’s Longwu County.

BOOM! BOOM!

He looked closer.

What came into view was the ‘half-monster Alliance Army’ made up of 20 million half-monsters. The formation was not small, and the military Qi gathered, forming a dense military formation light fog.

In the air.

There was also a half-demon Army made up of millions of air troops.

Obviously.

Some half-fiends had inherited the power of the monster race. They had human faces but wings on their backs. Even if they had not reached level three, they still had the ability to fly.

Hence, they formed an Air Force.

In the center of the Army.

He raised a military flag.

The flag had a blue sea pattern at the bottom. In the middle was a huge island, surrounded by a giant snake with wings on its back, its mouth biting its tail.

It was like an 'Ouroboros'.

At the center of the island.

There were two words-Dark Zone.

Obviously.

This half-monster Alliance Army came from the 'Black Sea', and there was a powerful half-Monster Force in the Black Sea.

It was called the half-monster Alliance black field country.

The half-monster dynasty.

That's right.

The darkfield nation was a powerful half-demon dynasty established by the 'half-demons'. Because the 'sea of Blackfield 'did not belong to the' holy peace state', it did not appear on the 'young dragon ranking-holy peace state'.

Of course, Jiang Li didn't know there was such a half-monster dynasty in the 'Black Sea'.

The Dark Zone Army had crossed the Dark Zone sea not long ago and landed on the Duke of Lion. Jiang Yaotian had pointed out the direction for the Dark Zone Army.

in the center of the black field army.

It was a magnificent carriage.

In the surroundings.

They were protected by Grade 4 half-fiends.

It could be seen that the half-fiend in the carriage had a high status.

“Jiang Yaotian.”

A low and majestic voice came from the carriage. your operation this time is a failure. It's fine if the fog troops of the fog sub-League failed. After all, that guy is brainless. He only has the strength of Tier 4 and he wants to overthrow a human dynasty. It's simply a dream.

but Jiang Yaotian, you're different. You're in control of the half-monster Alliance's Northern sub-Alliance of the Sheng 'an province. By right, it should be as easy as pie for you to build a half-monster dynasty in the middle of the three clans.

“But you failed.”

not only did they fail, but they also completely destroyed the 'Northern Shengan Alliance', just like the' barbarian tribe 'hundreds of years ago.

“my lord,”

Jiang Yaotian took a deep breath and said, ” this is all because of the Xia Dynasty and Emperor Xia, Jiang Li. If it wasn't for Emperor Xia's sudden attack, I wouldn't be in this state.

“However,”

Jiang Yaotian paused for a moment before continuing in a deep voice, " this time, the imperial capital of the great xia dynasty has annexed all the human dynasties in the northern and southern regions of the holy peace state. their territory and power have increased greatly. "

they even received the favor of the 'young dragon ranking'. Before they entered the top 30, they received a ' Marquis token 'as a reward and became a ' Marquis country'.

"Such a change has caused the Barbarian and demon races to be wary."

" even the shu country is not willing to see the great xia dynasty grow stronger. "

therefore, the Barbarian race and the demon race sent out their troops and attacked the great Xia Dynasty at the same time. In addition, the human Ghost Army invaded and the Barbarian tribes took advantage of the situation.

the great Xia Dynasty is surrounded by enemies from all directions. It is in danger.

my Lord, it can be said that this is a great opportunity to destroy the great Xia Dynasty. At that time, we can seize the fate of the great Xia Dynasty, and even obtain the 'Marquis token' and the sacred artifact of the fate of the country.

"Yes."

The half-beast in the carriage nodded slightly. if we can take down the great Xia Dynasty this time and successfully obtain the 'Marquis token' and other national saint artifacts.

Jiang Yaotian, you've finally atoned for your crimes. If the conditions allow, I'll speak to His Majesty the 'dark field King' and ask you to build another half-beast dynasty in the old location of the great Xia Dynasty.

" of course, the half-beast dynasty you've established must become a subsidiary of the black field country. "

“thank you, my lord.”

Jiang Yaotian cupped his hands and said in a flattering tone, ” it’s just a mere great Xia Dynasty. Not to mention that we’re already surrounded by enemies from all sides, even if they weren’t, with you, my Lord, and the famous black region Army, it would be a piece of cake to capture them.

“They can be easily destroyed.”

“Hahahahaha!”

The half-beast general in the carriage laughed and said in a carefree tone, ” Jiang Yaotian, although that’s what you said, no matter what, the great Xia Dynasty must have some strength to be able to Annex many human dynasties in the southern northern region of the Holy peace state. We can’t be careless.

“blind arrogance is the biggest taboo on the battlefield.”

“you’re right, sir.”

“I’ll definitely remember this,” Jiang Yaotian said respectfully.

“yes.”

The half-demon general in the carriage nodded slowly.

“Enemy troops ahead!”

“All troops, be on guard!”

“Prepare for battle!”

“inform the general!”

At this moment.

The Dark Zone Army's Air Scout team discovered the 'annihilation Corps' that was rapidly approaching at the first moment. They immediately became alert and informed the entire Army.

"Fire the ship's cannons!"

BOOM! BOOM! BOOM!

However ...

The black region Army was still a step too slow.

In an instant.

The millions of floating battleships of the annihilation Corps fired their cannons at once. Millions of energy cannons rose into the air, leaving countless streaks of light in the sky.

it was like a meteor shower.

It landed on the Dark Zone Army a few kilometers away.
