

Army 421

Chapter 421 Dimension reduction

“Rumble!”

Millions of cannonballs exploded, as if the earth was being torn apart. Countless energy flames burst out, and countless flowers appeared on the ground.

It was extremely gorgeous.

“Ah!”

Pfft! Pfft!

A miserable scream rang out.

“Whoosh!!!”

The light fog of the Army formation spread.

“Roar!”

The beasts in the battle formation roared.

They were Grade 3 battle formation beasts that were 1000 meters long. They roared continuously and blocked a large number of battleship cannons. The battle formation light fog churned violently.

A large number of half-demon soldiers screamed as they died.

Obviously.

While the dark region Army was marching, although they did not set up a stage four military formation, they still set up a stage three military formation to avoid being attacked.

It was also these Grade 3 formations that blocked the cannons.

Otherwise ...

When millions of cannonballs fell, even if they only had the power of a Tier 3 monster, half-fiends below Tier 3 would not be able to withstand it. It was enough to cause millions of deaths.

And now ...

Because of the stage 3 army formation.

In the end, it only caused the deaths of hundreds of thousands of half-fiend soldiers.

BOOM! BOOM!

but ...

The army of destruction's attack had just begun.

The next moment.

It was the mecha giant soldier. The long-range small missiles of the mecha Ares-class soldiers were launched into the air, and there were even small missiles at the perfected-stage of the type 4 divine warrior.

Bang! Bang! Bang!

the small missiles were fired.

“Enemy attack!”

set up the formation!!!

“Hurry up!”

The black region Army’s generals shouted loudly.

“This bi an ...”

Jiang Yaotian’s eyes widened as he looked at the mechanical Army several kilometers away. He was a little dazed. it’s the great Xia Army. They’re the great Xia Army!

“Ah!”

“boom!”

The type 4 missiles were not something that a type 3 Army could reach, and the type 3 beasts were all torn apart.

They all exploded.

After that.

millions of half-fiend soldiers screamed and fell to the ground, bleeding from their seven orifices.

BOOM!

The carriage exploded.

The dark region Army's general 'dark parade' was like a beam of light that shot out, shattering the glorious atmosphere of the carriage. He shot straight into the sky and stood in the void.

It could be seen.

Hei Yaowu was a burly man, almost 2.5 meters tall. He was wearing a pitch-black full-body armor, and an extremely solid half-demonic force enveloped his body.

Shua!

The blade flashed.

A black saber with a Python's head appeared in dark parade's hand.

"Black light slash!"

Shua!

the blade slashed out.

In that instant.

A 10,000-meter-long blade-light appeared, sweeping across the sky with infinite power. It was as if the sky had been split apart.

Bang Bang Bang Bang!

...

countless explosions were heard.

one blade!

It was only one blade!

In just a few seconds, dark shining warrior had shattered all the cannonballs that filled the sky.

“Dark light is invincible!”

dark light is invincible!!

Instantly.

The half-beast soldiers of the black region Army shouted.

“What a good Tao Wu, so strong!”

Jiang Yaotian’s eyes widened as he looked up at the scene in the sky. His eyes were filled with deep respect. is this the strength of a Tier 5? He’s too strong.”

“It’s like one person can fight an Army!”

...

“Hu ~~ Hu ~ Hu ~”

Dark parade took a deep breath and looked at the Army in front of him. There were floating fortresses, huge steel puppets, and all kinds of soldiers he had never seen before.

His gaze was solemn.

“damn it!”

Hei Yaowu gritted his teeth and lowered his head to look at Jiang Yaotian angrily. He felt like he had been tricked by Jiang Yaotian.”How does this look like we’re being besieged by multiple parties?”

“it’s completely effortless.”

” they’ve sent out so many soldiers. ”

“Set up the formation!”

dark shining warrior roared.

“Yes!”

“whoosh!!!”

finally ...

The grade 4 army formation was set up.

“roar!”

It was a huge black python with wings. It looked like the giant flying snake in the legends. It was 10000 meters long and was hovering in the sky.

It was very powerful.

Bang Bang Bang Bang!

The two-winged giant python blocked the bombardment of the small missiles.

“Jiang Yaotian!”

Shua!

“This is the danger you told me about?” he Yaowu shouted. Is this what you told me about the great Xia Dynasty being attacked from all sides? On the verge of death?”

“Do you think I’m an idiot?”

Hei Yaowu grabbed Jiang Yaotian’s collar and roared.

“f * ck me f * ck me”

Jiang Yaotian was also dumbfounded.

Obviously.

Jiang Yaotian didn’t know that Jiang Li had already defeated all the enemies and annihilated the monster army and the Barbarian Army.

now.

he directly concentrated his strength.

They were ready to destroy the black region Army.

“Obliteration storm!”

“All-rounded release!”

“Zombie King domain!”

Roar! roar! “Roar!”

The next moment.

Hei Yaowu, Jiang Yaotian, and the many half-demon commanders of the Dark Zone Army all saw the scene that made them despair.

In the air.

There were a total of six type 5 powerhouses!

Among them.

DTS01 and ynjsw01 were at the peak of the type 5 realm, while MYL01 had already advanced to the mid-stage of the type 5 realm.

Six tier 5 experts!

A total of six fifth step powerhouses attacked at the same time.

Furthermore ...

and it was even under the amplification of the ‘zombie king domain’.

Dark parade and the others finally saw what kind of power they could not resist.

bang!

An explosion sounded.

The 10,000-meter-long double-winged giant python couldn’t even hold on for a second. Under such an attack, it directly turned into light spots and dissipated.

Grade 4 Army formations couldn’t even withstand a single blow.

“Ah!”

Countless half-fiend soldiers screamed in pain.

Kachaa! Kachaa!

the earth cracked.

There was only a blinding light that exploded on the battlefield like a sun, forming a terrifying storm that spread in all directions.

Under the impact of this storm.

the half-fiend soldiers were swept up into the sky by a tornado. their bodies couldn't withstand the power and were torn into blood mist.

finally.

When everything settled down.

The radiance dissipated.

In the middle of the war.

A huge pit with a diameter of 100000 meters was created.

in the surroundings.

Not a single living thing.

With the crater as the center, the cracks spread out of the battlefield. The entire dragonmarial County was affected.

Terrifying!

It was truly terrifying!

one had to know.

And this was only the fifth step.

Even though ...

This was the result of the joint efforts of six tier 5 experts, two of whom were at the perfected stage of Tier 5. Even so, the destructive power was too shocking.

It was hard to imagine.

If he reached the sixth step.

Could they destroy a County if they went all out?

“Based on this situation ...”

Jiang Li looked at the battlefield and thought, ” “Against a Tier 6 existence, even an Army of tens of millions of soldiers wouldn’t be able to do much.”

“Yup!”

” this is a super fantasy world. it’s a super fantasy world where thousands of forces belong to themselves. ” jiang li sighed.

“It’s a world where the strong are respected.”

“Against the experts standing at the top, no matter how many there are, they are still ants.”

He couldn't help it.

three-body ” that Jiang Li had read on earth. It was a weapon of universal law-the omnidirectional foil.

It was also known as dimension reduction strike.

It directly reduced the three-dimensional space to a two-dimensional plane.

In principle.

The three-dimensional space was made up of the three dimensions of ‘length, width, and height’, and the two-way foil was the instant it came into contact with the three-dimensional space of the universe, it would cause a dimension in the space to shrink infinitely.

As a result, the three-dimensional space and all the matter in the space collapsed into the two-dimensional universe, losing the concept of ‘high’ dimension and becoming an absolute plane with only the concept of length and width.

Under such a ‘dimension-reducing weapon’.

Numbers were meaningless. It was enough to wipe out a civilization and a world, so what was the use of numbers?

Of course.

perhaps in this super fantasy world, due to the individual's own power, one could be born to jump out of the three-dimensional space and even control time.

This was because he had jumped out of the three-dimensional world.

It was natural.

The dual-directional foil might not be of any use.

Just when Jiang Li was thinking about something else ...

The destruction Legion quickly approached the Dark Zone Army. The transport aircraft landed, and the mechanical Army was deployed, charging towards the Dark Zone Army.

They formed an encirclement.

“Six type 5 experts! Six type 5 experts!”

Hei Yaowu screamed, his face filled with extreme fear. His entire body was shaking as he screamed, ” “Jiang Yaotian, you’ve done me in! You’ve done me in!”

“This ... This ... This is impossible ... Impossible ...”

Jiang Yaotian’s face turned pale.

fear!

Jiang Yaotian had completely fallen into fear!

“why? Why is it like this?”

Jiang Yaotian shrieked, ” isn’t the great Xia Dynasty under attack from many sides? Shouldn’t he be unable to even protect himself? Why are they still able to mobilize so many troops?”

“50 million! it’s a total of 50 million!”

“And!”

“There are six other type 5 experts! A total of six type 5 powerhouses!”

“Tens of thousands of Tier 4 experts!”

an Army like this would be considered an elite force even in dynasty!

At this very moment.

Jiang Yaotian’s mind and body were completely consumed by fear.

“jiang yaotian, you piece of trash!”

shut up! dark parade shouted angrily.

At this moment.

Dark Warrior no longer had the courage to continue fighting. He was only at the early stage of the fifth rank. Even if he had a seed explosion, he would not be able to fight against six fifth-rank opponents.

If he stayed, he would die without a doubt.

It could be said that ...

Hei Yaowu hated Jiang Yaotian so much that he was grinding his teeth.

If it wasn’t for Jiang Yaotian’s information, if it wasn’t for the fact that Jiang Yaotian didn’t know the true strength of the great Xia Dynasty, he wouldn’t have fallen into such a dangerous situation.

It was hard to imagine.

Six tier 5 experts!

In addition, there were 50 million soldiers.

On the other hand, there were only 20 million soldiers in the dark Zone Army, and there was only dark shining warrior who was a Tier 5.

The difference between the two sides was too great.

there was no fighting at all.

Moreover ...

At the start of the battle, the Dark Zone Army had been bombarded by the annihilation Army, and a large number of half-beast soldiers had been killed or injured. With the six Stage 5 experts working together, they had completely destroyed the stage 4 Army, killing millions of half-beast soldiers.

“Whoosh!”

Without any hesitation.

Dark shining warrior turned around and fled. A pair of Black Dragon wings grew on his back, and he was as fast as a Black bolt of lightning.

BOOM!

Ynjsw01 gave chase.

his figure leaped.

it shot out.

the next moment.

ynjsw01 caught up to dark warrior and threw a punch.

Bang!

Black Yaowu slashed out a black blade light, but it was easily shattered by ynjsw01's punch. The blade light exploded.

Pfft!

Blood splattered everywhere.

DTS01 swung his sword, and the sky-blue sword light cut off Yaowu hei's dragon wings.

“Ah!”

arghh! hei Yaowu screamed and fell from the sky.

Bang!

He fell to the ground.

Chapter 422 Four corpses

* cough cough *

Hei Yaowu was lying in the pit, his dragon-like wings landing beside him. His head was tilted to the side as he coughed up blood. He was severely injured.

His eyes were filled with despair.

The shadow of death loomed over him.

He had no chance.

He had no chance at all.

How could I die Here?

No!

I don't want to die!

He didn't want to die!

Buzzzzzz!

DTS01 looked down at dark shining warrior from above. The three-thousand-meter wide energy light wings covered the sky after they were spread out, gently flapping.

Feather-like light feathers fell.

She was like an angel who had descended to the human world.

“Whoosh!”

The next moment.

DS01 descended from the sky. The sky-blue energy Archangel's spear in his hand pierced out and fell straight down, like a sky-blue lightning cutting through the space.

Pfff!

The spear pierced through dark shining warrior's heart.

“Ah!”

ah! hei Yaowu screamed, his eyes widening.

“Zombie King poison.”

shua!

Ynjsw01 appeared in front of dark parade and raised both his hands. A thick black poisonous mist gushed out from his palms and spread.

in the blink of an eye.

It had already covered dark shining warrior's entire body.

Not only that.

the pitch-black poisonous mist spread out and enveloped the two broken wings not far away.

“Ah!”

” arghh! ” hei yaowu let out an even more shrill scream.

A few minutes later.

The screams stopped.

The black poisonous mist also gradually dispersed.

After that.

Hei Yaowu stood up unsteadily. His Broken Wings were reattached, and when he opened his eyes, they had turned pure black.

It was crystal clear like a black gem.

It was shining.

“Roar!”

dark light warrior roared.

Buzzzzzz!

a vast black mist spread out from his body.

The transformation was successful.

Ynjsw01 already had four type 5 walking corpses.

“Not bad.”

Jiang Li saw this through the communication screen and nodded in satisfaction. currently, including Xing Wuwu, I already have a total of 8 type 5 subordinates.

“Among them,”

“including ynjsw01, myl01, dts01, xing wuwu and four other tier 5 undead puppets. the top combat power is not small.”

In the image.

The war continued.

The mech Army of 50 million continued to encircle and annihilate the black field army.

Jiang Yaotian was scared out of his wits, especially after seeing how hei Yaowu had been killed and then refined into a ‘puppet’.

His legs went soft.

He was paralyzed on the ground.

...

At this very moment.

Jiang Yao finally understood how terrifying the great Xia Dynasty’s strength was, and how laughable everything he had done was.

Take revenge on Jiang Li? Take revenge on the great Xia Dynasty? he was simply seeking his own death.

pfft!

In the end.

jiang yaotian was surrounded and killed by several perfected-stage level four mechas and ares-class soldiers.

“ah!”

Pfft! Pfft! Pfft!

On the battlefield.

As the Level 4 half-demon commanders were killed by the Level 4 meches, the dark region Army from the half-demon Alliance ‘dark region nation’ completely collapsed.

Half an hour later.

...

The Dark Zone Army, which consisted of 20 million half-fiend soldiers, was completely annihilated.

20 million corpses were lying on the battlefield.

The scene of corpses lying everywhere.

” what’s wrong? ” jiang li was calm. it wasn’t the first time he had seen such a scene, so he was used to it. perhaps he would feel a little uncomfortable at the beginning.

but ...

after seeing so many of them.

He was already able to turn a blind eye to it.

“The corpses of these half-fiends are still useful.”

I can make a lot of blood refining pills, ” Jiang Li said to himself. the bodies of the Barbarian soldiers can be turned into blood refining pills by Hong Tianqi and the others.

“It’s a pretty good resource.”

“although it’s useless to me.”

Soon after.

The destruction Legion started to clean up the battlefield. They collected the broken remains of the meches and brought back the broken armors, weapons, and other spoils.

After an hour.

The destruction Legion had returned to Base 01 through the ‘teleportation station’ of base 012.

It had experienced several wars.

The meches were more or less injured.

Some of them were not damaged much, while some were more than 50%.

The damage was more than fifty percent.

It would affect the combat power of the meches.

Buzzzzzz!

“Repair!”

hence.

Jiang Li used 34 million energy points to repair all the damaged meches. Light flashed on the meches.

A few seconds later.

The restoration was completed.

Unknowingly.

It was night.

In the night sky.

The Starlight was very dense, and the somewhat incomplete moon hung high in the sky.

However ...

This was because over a million floating battleships were docked in the air above the imperial capital of the Grand Xia, blocking out all the stars in the sky.

it only cast a large shadow over the imperial capital of the grand xia.

however ...

There wasn't a single citizen of great Xia who was dissatisfied with this. In fact, they felt that this was an honor and a guarantee of their safety. Every time they looked up at the sky, they would see an existence that was like a steel fortress.

his heart was filled with a sense of security.

Look!

This was the great Xia Army!

emperor xia's great xia army!

It was a symbol of invincibility.

They were there.

The imperial capital of the Grand Xia was the safest place.

the room in the ruler's hub.

“Whoosh!!!”

a map projection appeared in front of jiang li. it was the map of the northern region of the holy peace state after some modifications.

On the map.

the dynasties of various sizes were all gone.

there were only four dynasties.

They were the Black Dragon barbarian kingdom, the Shu Kingdom, the sky demon Kingdom, and the great Xia Dynasty.

Other than that.

There were also a few more famous places.

For example, the border sea, the ghostly Mist Forest, and so on.

Among them.

Jiang Li learned from Xing Wuwei that the Barbarian tribe was hiding in the deepest part of the border sea. A huge underwater city was built at the bottom of the sea.

furthermore ...

the high priest of the sub-tribe was a barbarian at the 'peak of the fifth step'.

Not only that.

He was also a fifth-grade array master.

it could set up powerful fifth-grade formations.

Fifth-grade array.

In terms of power.

As long as it was used properly.

It was enough to kill a peerless existence at the fifth step.

It was difficult for attacks below the fifth rank to destroy a fifth rank array.

Plus ...

The Barbarian tribe's sub-tribe was located in the depths of the sea. It was obviously not an easy task to deal with the Barbarian tribe's sub-tribe.

“Chief sovereign.”

Zh01 arrived.

“Come in.”

Jiang Li said.

“yes.”

Zh01 walked into the room. Xing Wuji has already told me everything he knows.

“Tell me.”

jiang li said.

“Yes.”

Zh01 nodded and reported, “ the Black Dragon barbarian kingdom is the leader of the Barbarian race. All the Barbarian dynasties have been swallowed up by the Black Dragon barbarian kingdom and become a part of it.

this allowed the Black Dragon barbarian Kingdom’s territory to expand greatly, and the country’s fate rose sharply. Under the feedback of the country’s fate, the Black dragon king’s strength is at the top of the Tier 5.

“On the surface.”

” apart from the dark dragon king, there were five other rank five existences in the black dragon barbarian kingdom. however, long se has already died in your hands, my lord. ”

“That’s why there’s still four tier 5 experts left.”

” of course, this is only what they show on the surface. the high priest of the barbarian tribe deduced that the black dragon barbarian kingdom definitely has hidden strength. ”

“In terms of military strength,”

the Black Dragon barbarian kingdom lost nearly 20 million barbarian soldiers in total. In addition to the destruction of the Barbarian dynasty, the losses were quite heavy. However, they could still gather more than 50 million barbarian soldiers.

“what about the sky demon kingdom?”

Jiang Li asked again.

the situation in the sky demon Kingdom is similar to that of the Black Dragon barbarian kingdom.

” however, we’ll definitely be able to gather more than 50 million soldiers. furthermore, the sky demon kingdom has only lost a rank five marquise king, ’ling yue’. ”

the original Tier 5 experts of the heaven Fey Kingdom did not suffer any losses.

“There are also five tier 5 combatants on the surface.”

Xing Wuwu is not clear about the information regarding the Shu country. However, he can confirm that the Shu country has hidden their strength very well.

“From the beginning to the end, only the three generals showed their faces.”

“.....”

Zh01 had completed his report.

“How’s the research on the bloodthirsty ferocious spirit array going?”

Jiang Li asked.

“Replying to the ruler, the bloodthirsty ferocious spirit array can only be activated by the power of barbarians. Other than that, no other energy can activate this array.”

Zh01 said.

“Exclusive to barbarians?”

Jiang Li said.

“Yes.”

Zh01 nodded.

“So what if it’s exclusive to the barbarians? since Xing can’t be here, it’s not like the ‘bloodthirsty evil spirit formation’ can’t be used. If I have time, I can gather a group of beasts and kill them.”

Jiang Li said.

On the other side.

The Duke of Lion was at the coastal border.

Shua! shua! Shua!

In the air.

it was a unit made up of 10000 air scouts, controlling unmanned reconnaissance drones to fly in the air. they had already gradually left the borders of the great xia dynasty.

They entered the sky above the Black Sea.

At night.

The sky was covered with dark clouds.

Hualalalalalalalalala

the wind howled.

the sea water rolled against the shore, and the waves rolled. under the strong wind, the waves were dozens of meters high, which was quite spectacular.

He looked closer.

In the dusky seawater.

a large number of sea beasts were resting there.

Obviously.

After confirming that the half-monster Alliance had landed on the 'dark sea', Jiang Li sent out this Air Scout team.

He was preparing to investigate the situation of the 'Black Sea domain'.

in reality.

The 'Black Sea' could be said to be an inland sea, but it could also be said to be a part of the 'endless ocean', because the Black Sea 'was connected to the' endless ocean 'and didn't belong to the Holy peace state.

The Scout in the air captured the images and sent them to Jiang Li.

“Black Sea.”

jiang li looked at the projection. nothing was out of the ordinary. he only saw a large number of ferocious beasts in the sea.

However ...

The air Scout was flying in the clouds, and these sea beasts naturally couldn't hurt the air Scout.

if I want to conquer the ocean, I still have to unlock the 'mechanical Navy service'.

Jiang Li thought to himself.

Even though ...

The mech Air Force could also deal with the Navy, but it was impossible for the mech Air Force to dive into the sea to fight the enemy. Only the mech Navy could dive into the sea and not be affected. It could even increase its combat power in the water.

At this moment.

on the other side.

Man Wuji had already led the Barbarian Army back to the Black Dragon barbarian kingdom. He had met the Black Dragon King at once and reported the situation to him.

Your Majesty, I have failed to live up to your expectations. Please punish me, Your Majesty!

Man Wuji knelt on the ground.

Chapter 423 Target

“You may rise.”

The Black Dragon King raised his hand. man Wuji, although you lost this time, it's not your fault. I underestimated Jiang Li's strength and the Xia Dynasty's power.

I didn't expect that Emperor Xia would be so decisive to send the main force to attack.

” you were able to retreat in time and save the barbarian soldiers. you've made up for your mistake. ”

“Thank you, Your Majesty!”

Man Wuji kowtowed.

“Your Majesty, no matter what, general man Wuji's failure this time might even cause the joint attack on the imperial capital of the Grand Xia to fail,”

“Yup!”

” i originally wanted to join forces to weaken or even destroy the great xia dynasty.
”

the ministers discussed.

Obviously.

The Black Dragon barbarian kingdom didn't know what had happened in the great Xia Dynasty. They didn't know that the monster army had been completely destroyed by the great Xia Dynasty.

The Barbarian Army and the half-monster Alliance's Dark Zone Army were also completely annihilated.

Other than that.

the human-ghost army in the ghostmist forest had also been scared off.

It could be said that ...

The plan to deal with the great Xia Dynasty had failed. Jiang Li killed all the invaders with his powerful strength and the mech Army.

He had won fair and square.

With the power of the Xia Dynasty and the mech Army that Jiang Li had, the Black Dragon barbarian kingdom, the sky Monster Kingdom, and the Shu Kingdom couldn't deal with them easily.

the current situation ...

Unless the Black Dragon barbarian kingdom, the sky demon Kingdom, and the Shu Kingdom joined forces, it was impossible to destroy the great Xia Dynasty. Otherwise, it was impossible to do it with only one force.

As for the possibility of them joining forces ...

It was almost negligible.

The imperial capital of the Grand Xia.

“Whoosh!!!”

Late at night.

the ‘annihilation corps’ was dispatched again. through the ‘teleportation room’ in the army base 01, the teleportation function was activated and the annihilation corps was teleported away.

He disappeared into thin air.

“He’s gone again.”

“his majesty emperor xia has sent out his army again.”

“Yup!”

“They’ve been deployed several times in just one day.”

“.....”

Within the imperial capital of the Grand Xia.

The crowd was discussing.

The Marquis of panic.

Army base No. 09.

In the air.

“Whoosh!!!”

The fluctuations of a spatial teleportation.

All the meches of the destruction Legion appeared out of thin air.

He had already been transported here.

“Let’s go!”

target-ghostmist forest!

“BOOM!”

The engine roared.

The army of destruction flew at full speed, a fleet of a million warships and tens of millions of mech soldiers formed a line of defense with the fleet as the center.

A rapid March.

Head towards ‘ghost Mist Forest’.

Obviously.

Jiang Li had already chosen his first ‘target’.

It was also known as the ‘ghostmist forest’.

First of all ...

...

Jiang Li's meches were like the nemesis of ghosts and humans. The soul erosion power that they were proud of was useless in front of meches without souls.

Plus ...

the ghost mist forest was obviously weaker than the black dragon barbarian kingdom, the shu nation, the sky demon kingdom, and the barbarian tribes. it was also the closest to the great xia dynasty.

As the saying goes, pick the soft persimmons and pinch them.

so,

"ghost mist forest." naturally, jiang li's first goal was to conquer and unify the entire northern region of the saint peace state.

In order to ensure that nothing went wrong.

Jiang Li even sent almost all his troops.

They formed the 'destruction Legion', which was made up of 50 million ground and air Force legions.

Other than Xing Wuke, there were eight Tier 5 experts.

All of them were mobilized.

...

After marching for an hour.

The destruction Legion left the Marquis of Panic's territory.

Far away.

It was a large area covered in strange fog.

He looked closer.

In the strange fog.

There were no longer any living beings, only twisted ghostly figures aimlessly floating in the fog. The entire great Cang nation had become a ghostly land.

Distorted ghostly shadow.

In fact, they were 'human ghosts' who killed living beings and used the souls of living beings from various races to create a kind of 'soul puppet'. They didn't have any consciousness.

It was natural.

It didn't have a soul.

Even if they were killed, they wouldn't drop the soul Tinder.

it had to be said.

The methods of these 'human ghosts' were very similar to those of human puppeteers. Human puppeteers used all kinds of Materials and Methods to create puppet Warriors that could be used.

He then used his 'soul thread' to control it.

A powerful human puppeteer could form an Army by himself.

It was not fictional.

even ...

In this fantasy-like continent, there had been cases where powerful human puppeteers destroyed a Marquis dynasty by themselves.

Of course.

The human puppeteers were not invincible.

It had a fatal 'weakness'.

In other words, it was called 'soul thread'.

By cutting or cutting off the 'soul thread' of the human puppeteer, the puppeteer would not be able to control the puppets.

Therefore, the 'connate ghosts' were the nemesis of human puppeteers.

Among them.

The mixed-blood 'devil', born from the Union of the ghost and the demon, was the biggest nemesis of human puppeteers.

In the face of demons.

The 'puppet army', the greatest reliance of the human puppeteers, was barely of any use.

Jiang Li wasn't a human puppeteer, so he didn't have such a fatal weakness. The meches he created had intelligence and didn't need Jiang Li's control at all.

However ...

Many people thought that Jiang Li was a powerful puppeteer who had mastered the ‘ancient puppetry’.

“The great Cang nation is gone just like that.”

Jiang Li looked at the scene of the Army being destroyed. The entire great Cang Kingdom was covered in a thick and strange fog. Tens of millions of humans in the great Cang Kingdom were dead and turned into food for the ghosts. Their souls were even turned into twisted ghosts.

speaking of this.

After Jiang Li took care of the vast forest and turned it into a walking corpse puppet, he didn’t pay too much attention to the great Cang Kingdom because it was a subsidiary of the Shu Kingdom.

Every year, the great Cang nation had to offer Tributes to the Shu nation. Therefore, the Shu nation had basically taken away all the resources within the nation.

Now that he thought about it.

If the strange fog could enter the Marquis of Panic’s territory, it would have to pass through the great Cang nation. Now that Cang Wu Lin was dead, the great Cang nation would not be able to resist the corrosion of the strange fog.

The destruction of a country was destined.

“Attack!”

go! Jiang Li ordered.

boom! BOOM! BOOM!

A few kilometers away.

attack! the destruction Legion received Jiang Li's order and immediately launched an attack. Millions of battleships fired at the same time, and millions of shells flew into the air.

After that.

Like a meteor shower, they all fell into the strange fog.

“Rumble!”

Instantly.

The earth trembled, the ground cracked, and countless flames lit up. The power of the energy cannonballs' explosion formed a vast shock wave that scattered a large amount of fog.

Bang Bang Bang Bang Bang Bang

Millions of distorted ghostly figures were reduced to ashes under this round of bombardment.

Unfortunately ...

There was no soul Fire seed.

“Damn it, it's them again. It's this puppet army again.”

“bastard!”

“Their numbers have increased,”

“.....”

inside the strange fog.

The angry roars of the human-ghost hybrids could be heard.

“All troops, charge!”

“Attack!”

” fire the ship cannons! ”

Very quickly.

The transport aircraft landed, and the mechanical Army was dispatched. Various mechanical army units formed into various groups and rushed into the strange fog.

Da da da da

the machine gun fired, and bullets flew everywhere.

however ...

This kind of physical attack couldn't do much damage to the ghost. Similarly, the twisted ghost didn't cause any damage when it passed through the mech's body.

Obviously.

Distorted ghost's ability to deal with souls was almost ineffective on the meches.

the enemy is almost immune to physical attacks. Change your combat style.

“Artillery bombardment!”

BOOM! BOOM!

After that.

The combat meches, cold weapon meches, firearm meches, and other meches that used physical attacks started to retreat.

Immediately after.

Bombers, destructive bombers, and other meches flew over and circled in the air, dropping a large number of bombs.

at the same time.

The artillery position was set up.

Millions of cannons fired at the same time, filling the sky with the light and shadow of cannonballs. They fell into the strange fog and tore the locust-like twisted ghostly figures to pieces.

“This Suan ni, this Suan ni”

“Damn it!”

“These bastards!”

“The losses are too great. At least ten million of the ghostly puppets died in this battle!”

“Human puppeteer, do you really want to fight to the death with us?”

“Stop! Quickly stop!”

Inside the strange fog.

the angry roars of the human-ghost hybrids rang out.

obviously.

these human-ghost hybrids were very cautious, or rather, very timid. from the start of the war until now, not a single one of them had appeared.

They were hiding in the depths of the strange fog, and only sound could be heard.

Or rather ...

Their real bodies were not here at all.

“Continue.”

However ...

This time, Jiang Li made up his mind to get rid of the ‘ghost Mist Forest’ and these ghosts. Speaking of which, if these ghosts didn’t provoke Jiang Li first, he wouldn’t have noticed them so quickly.

BOOM! BOOM! BOOM!

The army of destruction was closing in. The shells fell into the strange fog like they were free. Jiang Li had used up a lot of energy points to refill the shells.

However ...

Such an attack forced the strange fog to retreat, and the front line kept shrinking. As a large number of distorted ghosts died, the strange fog's density decreased.

Vaguely.

DTS01 and the others had detected traces of the human-ghost.

“It's here,”

Shua!

DTS01 raised his head, a glint flashing across his eyes. He fixed his gaze on a place in front of him and his figure flashed.

It was as if he had disappeared into thin air.

“I've found you!”

Clang!

DTS01 went at full speed. With a flap of its wings, it covered a distance of tens of thousands of meters in an instant. As if it had teleported, it appeared at a place in the southeast.

He stood in the strange fog.

Below.

There was a human-shaped pitch-black fog. It was like thick smoke, rolling continuously. It did not seem to have a physical body, but it had a human face.

it was a young man in his 20s or 30s.

“You’re so silly!”

the human ghost raised his head and looked at ds01 in shock.

Obviously.

he didn’t expect that he would be discovered.

“Die!”

DTS01 raised his sword and slashed down. A sky-blue sword light fell. It was extremely resplendent and contained a powerful force. The strange fog around it seemed to separate automatically under this sword.

“stop!”

An angry roar came from the strange fog.

Bang! Bang!

DTS01’s sword cut through the human ghost’s body from top to bottom, splitting it in two from the middle. The rolling black fog seemed to have stopped as if a pause button had been pressed.

The young man who had been split in two still had a stunned expression on his face.

it was frozen on his face.

Chapter 424 manipulation

Bang!

The next moment.

The human-ghost with the young man's face died. His body, which was like black fog, exploded and turned into black light spots.

he didn't even have the chance to scream.

Buzzzzzz!

Immediately after.

A black spot of light appeared.

It was the soul Tinder.

it could be captured from a distance through the mech.

Shua!

[acquired a level-one ghost soul Tinder!]

A notification appeared.

“A special soul Fire seed.”

Jiang Li saw the notification.

Shua!

The Dominator panel opened.

Jiang Li clicked on the special mechanical units column.

Other than the battlefield commanders, mechanical demons, and Supreme magic meches, there was a new special mech troop called ‘Soul Control soldiers’.

Obviously.

It was because Jiang Li got the ‘level-one ghost soul Tinder’ and got a completely different kind of soul Tinder, which was why he unlocked the ‘soul soldier manipulation’.

However ...

the ‘soul-controlled soldier’ was only a level 1 mechanical special soldier.

Jiang Li didn’t want to make one yet.

Bang Bang Bang Bang!

It could be seen.

When this stage one human-ghost died, all the ‘distorted ghostly shadows’ he controlled and created collapsed, turning into light spots that scattered in the sky.

There were not many of them.

only a little over ten thousand.

Furthermore ...

those ‘twisted ghostly figures’ were basically rank 1 and below.

Obviously.

a level 1 human-ghost wasn't very strong.

“bastard!”

“Rumble!”

The strange fog churned as boundless energy drove the fog. After which, it shook and formed extremely vast waves that soared into the sky, reaching a height of several hundred meters.

A mountain-like huge wave appeared and slammed straight towards DTS01.

DTS01 did not make a move. Ynjsw01 was the one who did.

Ynjsw01 only sent out one walking corpse.

“Roar!”

The rank five walking corpse roared. Then, a vast amount of black mist condensed and shot out a punch. A huge fist mark rushed into the sky and shattered the wave of mist.

bang!

An explosion sounded.

“kill!”

“Rumble!”

The next moment.

MYL01 and three other type 5 undead puppets had all appeared and entered the strange fog.

Behind them, there were many mech God soldiers, mechanical giant soldiers, energy bomb soldiers, mechanical station cavalry, and super meches. They formed a level 4 mech Army.

Other than that.

There were also millions of level three mech soldiers.

launch the missiles!

Behind them.

Over a thousand type 4 mech-missile soldiers, as well as over a hundred perfected-stage mech-missile soldiers, fired their missiles into the strange fog.

Thousands of missiles took off at the same time.

...

Among them, there were even over a hundred gravity-type missiles at the perfected stage of type 4.

“Stop them!”

BOOM! BOOM! BOOM!

The human-ghost hybrids roared in anger. They could faintly feel fear.

If these weapons were to explode in the fog, they would suffer great damage.

In an instant.

the humans and ghosts controlled the strange fog, and there were countless distorted ghostly figures that formed an incomparably huge fog giant.

It was more than ten thousand meters tall.

After that.

The misty fog giant charged over.

“Break!”

...

BOOM!

DTS01 and ynjsw01 joined forces to attack. Ynjsw01 controlled the mechanical psionic energy to condense and slashed out a dazzling black blade.

At the same time.

the spear dts01 was thrust forward. the spear's radiance streaked across the sky and pierced through the earth.

bang!

A loud bang was heard.

The mist giant, which was 10000 meters tall, was shattered by DTS01 and ynjsw01's combined attack. It exploded, and the sound of the explosion was earth-shattering.

“Ah!”

The screams of the human-ghost hybrids rang out.

“rumble!”

The next moment.

Thousands of missiles fell into the strange fog and exploded almost at the same time. Only the sound of the missiles exploding could be heard.

The sound of the explosion covered everything.

Thousands of small mushroom clouds rose into the air, dotting the vast mist and scattering the strange mist around them.

On the ground.

Huge potholes appeared one after another.

The power of the missile tore everything around it into pieces.

Among them.

There were also many low-level human ghosts who couldn't Dodge in time. Existences below stage three couldn't withstand the power of the missile's explosion at all, and even those at stage three would be seriously injured.

Only those at the fourth step could block it.

if one was close to the center of the explosion, even those at the 3rd rank would still be fighting, and those at the 4th rank would also be seriously injured.

“retreat! Retreat!”

“Let’s go!”

“Retreat to the misty forest!”

Fear!

The tone of these human-ghost demons was already filled with fear!

Obviously.

The destruction Legion’s firepower stunned the ghosts of the misty forest. They had never seen such a terrifying weapon of war with such a wide coverage.

they had only fought for a short time.

they had lost nearly a third of their ghostly puppets, and over a thousand of their true human-ghost comrades had died.

one had to know.

The entire misty forest.

The total number of human ghosts was less than 100000!

Losing a thousand.

It was already a serious injury.

It was precisely because human ghosts were few in number that they were extremely afraid of death and very cautious. They hid in the strange fog and never took the initiative to show themselves. They only used distorted ghostly shadows to fight their enemies.

This time.

They had met their nemesis.

“Whoosh!!!”

It could be seen.

When these human ghosts started to retreat, the strange fog rapidly shrank. In the blink of an eye, they had already retreated out of the great Cang nation’s territory.

It was as fast as lightning.

after that.

They had all returned to the misty forest to hide.

“He’s running so fast?”

Jiang Li was also stunned.

The fog retreated too quickly. The army of destruction didn’t chase after them but waited for Jiang Li’s order.

jiang li was also looking at the image from the army of destruction.

After the mist disappeared.

The terrain of the great Cang nation was revealed.

Because they had just experienced the baptism and bombardment of the artillery, the ground was a mess. However, there were no corpses left, only traces of the shell.

The ground was filled with charred holes.

Especially the huge pit created by the missile.

It was very eye-catching.

“This is a Kasaya.”

Suddenly.

Jiang Li saw the information on the interface.

“What a good fellow!”

what? ” Jiang Li’s pupils constricted and he was overjoyed. there are 1000 level-one ghost Soul Fire Seeds, 100 level-two ghost Soul Fire Seeds, and ten level-three ghost Soul Fire Seeds.

“This human ghost’s drop rate is actually 100%.”

Jiang Li didn’t notice it just now because he blocked the notification of capturing the soul Tinder.

what’s going on? ” after Jiang Li glanced around, he noticed the situation.

That’s right!

The drop rate of soul Tinder when killing a murderer was 100%.

In other words ...

The more ghosts Jiang Li killed, the more soul Tinders he would get.

“I didn’t expect this.”

Jiang Li was overjoyed. the twisted ghostly shadow can’t drop the soul Tinder, but I can definitely drop the soul Tinder.

“This is considered a loss where there are gains?”

“Destruction Legion, hear my order.”

chase after the ghosts and humans. Destroy the misty forest. Jiang Li ordered.

“Yes.”

“All troops, move out!”

“Rumble!”

the transport plane landed.

the mechanical army entered the cabin.

After that.

The transport plane took off.

The destruction Legion was flying at full speed.

Pursue the human ghost.

“They’ve caught up.”

“damn it!”

“Are they trying to kill us all?”

don’t worry, the misty forest is our home ground. We’ve been operating in the misty forest for thousands of years. If they dare to enter the misty forest, we’ll definitely make sure they won’t be able to return.

“that’s right.”

“Everyone, there’s no need to panic.”

“When the time comes, I’ll show the human puppeteer the power of the ‘spirit soul array’.”

“Let them come here and never return!”

In the strange fog.

only their voices could be heard. the real bodies of the human-ghost army could not be seen at all. they were hiding among them, and then they discovered that the destruction legion was still unwilling to give up and continued to pursue them.

Shua!

Jiang Li opened the special mechanical units column.

since he had obtained the level 2 and level 3 ghost soul tinder, he had unlocked two more special mechanical units.

It could be said to be an advanced version of Soul Manipulation soldiers.

They were Tier 2 soul manipulators and Tier 3 soul manipulators.

Create a soul manipulator.

Jiang Li didn't make level one and level two. Instead, he made level three, because level three soul manipulators were made from level one soul soldiers and level two soul manipulators.

The nature of their abilities was the same.

But their strength was different.

Buzzzzzz!

The manufacturing interface appeared.

After that.

An illusionary figure appeared on the interface.

countless light spots filled the space.

It slowly solidified.

A minute later.

[creation complete!]

A notification appeared.

Shua!

It flashed in the air.

The soul manipulator appeared in front of Jiang Li.

It was a young man in a black suit and black-rimmed glasses.

They were not equipped with any sci-fi weapons.

It looked very ordinary.

“Chief sovereign.”

The soul manipulator saluted Jiang Li.

It was very standard.

“Yes.”

yes. Jiang Li nodded. promoted.

Shua! Shua!

A white light flashed.

A few seconds later.

This soul manipulator had advanced to the perfected stage of Tier 3.

He had consumed 1.4 million energy points in total.

“Thank you, hegemon.”

The soul manipulator saluted.

shua!

[special troop type: soul manipulator]

[rank: Grand completion of rank-three]

[No.: LHCb Z01]

skill 1: Tier 3 ultimate soul power control ”

skill 2: Tier 3 puppet creation

skill 3: Tier 3 ultimate puppet control ”

skill 4: rank-three premium soul power domain ”

[machinery: Jian Jia (omitted)]

Mechanical Soul energy: with the ‘mechanical heart’ as the core, it can transform the free energy in the world into ‘Mechanical Soul energy’. It has the ability to control and create.

” advancement requirements: one level-four human-ghost soul tinder, one million energy points ”

“Oh.”

soul manipulator? ” Jiang Li looked at the information of the ‘soul manipulator’ carefully and confirmed the true abilities of the soul manipulator. He was surprised.

“This is an ...”

puppeteer? ” Jiang Li was stunned. This is the mech version of the puppeteer!

That’s right.

The ability of a soul manipulator.

With the help of ‘Mechanical Soul energy’ and the skill ‘puppet creation’, he could use various materials, including but not limited to the corpses of living creatures, high-quality forging materials, ores, and so on.

From there, they could create ‘puppet Warriors’.

Then, through ‘soul energy control’ and ‘puppet control’, he could control and manipulate the ‘puppet Warriors’.

This kind of ability.

It was obviously very different from the human puppeteers.

“That’s a little amazing.”

Jiang Li was speechless.

Chapter 425 Control

The most important thing was the number of puppets that a ‘soul manipulator’ could control.

Under extreme circumstances.

A level 1 Soul manipulator soldier could only control 10000 unranked puppets and 1000 Level 1 puppets.

A stage two soul manipulator could control a hundred thousand unranked puppets, ten thousand stage one puppets, and a thousand stage two puppets.

A Tier 3 soul manipulator.

Ten times more.

It could control a million unranked golems, a hundred thousand first-ranked golems, ten thousand second-ranked golems, and a thousand third-ranked golems.

Of course.

Soul manipulators also had an obvious 'weakness'.

The first point.

Its combat strength was very weak. Although it was at the perfected stage of Tier 3, its combat strength was the weakest among its peers. It did not have any combat skills.

The second point.

Connate ghosts, Devils, and other existences that were extremely talented in soul power were the nemesis of soul manipulators. This was similar to the 'human puppeteers'.

The third point.

The created puppets did not have any intelligence and could only move under the control of a soul manipulator. Without the control of a soul manipulator, they were just motionless puppets.

Other than these three points.

It basically had no major weaknesses.

However ...

If a 'soul manipulator' was fully prepared and could control the maximum number of puppets, he could form an Army and completely crush existences of the same level.

"I didn't expect this human ghost to give me such a big surprise."

I'm happy. Jiang Li smiled. He was in a good mood.

One had to know.

Within the territory of the Barbarian Marquis.

However, there were still tens of millions of barbarian soldiers 'corpses and tens of millions of beasts' corpses that had not been disposed of. There were also twenty million half-beast corpses in the territory of the Duke of Lion.

Originally.

Jiang Li was planning to ask Xu Ya and the others to send a team of array Masters to turn the bodies into blood refining pills, but he had to deal with the ghosts in Forest Mist, so he forgot to ask them to send a team of array Masters.

" the materials to make the puppet are completely sufficient. with close to 40 million living creatures 'corpses, there is no need to worry about the lack of materials to make the puppet. "

Jiang Li thought to himself.

Shua!

fuse 1000 level-one human ghost Soul Fire Seeds!

Buzzzzzz!

the fusion interface appeared.

[fusion successful!]

.....

[fusion successful!]

.....

A series of notifications appeared.

Obviously.

It should be the uniqueness of the human-ghost Soul Fire seed, or rather, it should be a special soul Fire seed, so the success rate of the fusion of the human-ghost Soul Fire seed was actually 100%.

There was no chance of failure.

The 1,000 Level 1 ghastly Soul Fire Seeds had been fused into 100 level 2 ghastly Soul Fire Seeds. In addition to the original 100, there were a total of 200.

fuse with the level two human ghost Soul Fire seed.

Jiang Li continued to merge.

Buzzzzzz! Buzzzzzz!

[fusion successful!]

.....

[fusion successful!]

.....

Out of the 200 level 2 ghastly Soul Fire Seeds, 20 Level 3 ghastly Soul Fire Seeds had been fused. In addition to the nine that were left, there were a total of 29 Fire Seeds.

“Again,”

Buzzzzzz!

Hence.

Jiang Li fused the twenty level-three ghost soul Tinders and got two level-four ghost soul Tinders. He unlocked a new special mechanical troop class.

...

[soul power controller (able to create 0/2)]

Obviously.

after reaching the 4th rank.

They were already at the National Guardian level and could influence the rise and fall of a weak dynasty. Therefore, the name of the new special mechanical troops had changed greatly.

create nine Tier 3 soul manipulators and two tier 4 Soul Controllers.

jiang li used 10.9 million energy points to build 11 special mechanical units.

Shua!

the manufacturing interface appeared.

Two different illusionary figures appeared on the interface.

Wuwuwuwuwu!

Countless light spots filled in.

...

It gradually solidified.

a minute later.

[creation complete!]

Shua! Shua!

Eleven figures appeared in front of Jiang Li.

“my lord!”

The nine soul manipulators and two soul power controllers saluted Jiang Li.

His military posture was very standard.

However ...

The soul manipulator was wearing a black suit and black glasses, standing in a military salute. It did not look too out of place, but it was a different story for a soul controller.

The two soul power controllers were dressed in large black cloaks with a pure black pointed hat on their heads. They also held black snake-shaped staffs in their hands.

He had the appearance of a dark wizard.

The military salute looked rather awkward.

“upgrade.”

Shua! Shua!

Jiang Li used 12.6 million energy points to upgrade nine soul manipulators to the perfected-stage of level three, and then another 280 million energy points to upgrade two soul manipulators to the perfected-stage of level four.

a white light flashed.

they had all completed their advancement.

“thank you, chief sovereign!”

The soul controller and the soul manipulator saluted again.

Shua!

[special troop type: Soul Master]

[rank: Grand completion of rank-four]

[No.: Hnzk01]

” skill 1: rank-4 pinnacle-grade soul power mastery ”

” skill 2: tier 4 puppet creation ”

skill 3: Tier 4 ultimate puppet control

skill 4: top-tier rank-4 soul power domain ”

skill 5: Tier 4 ultimate puppet fusion skill ”

[machinery: Jian Jia (omitted)]

Mechanical Soul power: (omitted) ”

advancement requirements: a Tier 5 human-ghost soul Tinder, 100 million energy points ”

Jiang Li Read all the information about the soul power controller carefully.

First of all ...

The soul controller had five skills, while the soul controller only had four. Moreover, the soul controller’s skills were all Tier 4 top-tier, a full rank higher than the soul controller’s.

At the same time.

Soul power control had advanced to soul power mastery.

Puppet control had advanced to puppet control.

other than these.

It was the number of puppet Warriors he could control.

“Soul controller, soul manipulator.”

” go to the base immediately, ” jiang li ordered. ” there are a lot of dead bodies there. you can make a lot of puppets. ”

if there aren't enough materials, send them to base 012.

“Yes.”

” yes. ” the two soul controllers and the ten soul manipulators nodded and left the room for the teleportation room.

Buzzzzzz!

Spatial teleportation.

They arrived at the base and went straight to the battlefield. There were corpses of barbarian soldiers and beasts all over the ground.

“Release your soul power.”

It could be seen.

The soul manipulator and the soul power controller released ‘Mechanical Soul power’ at the same time. A vast amount of soul power gushed out, possessing a power similar to that of the soul.

Like a thick black mist, it spread out with them as the center.

Among them.

A soul manipulator’s Black mist of soul power could cover a radius of ten thousand meters, while a soul controller could cover a huge area of a hundred thousand meters.

The soul power of the machine gushed into the dead bodies.

It gradually eroded.

“Puppet creation.”

Soon after.

The skill was released.

The mechanical Soul energy began to modify these corpses. The broken limbs and wreckage gradually gathered together under the mechanical Soul energy and the power of puppet creation.

This scene was like the resurrection of the dead.

A number of ‘puppets’ that were completely black and had muscles as hard as iron stood up. They were like zombies. The creation was successful.

in the blink of an eye.

Every soul manipulator received a thousand puppet Warriors, while the soul Controllers created ten thousand puppet Warriors and controlled them.

Time passed.

In the ruins of the battlefield.

A number of 'zombie' - like puppet Warriors, whose bodies were completely black and had stiff muscles, stood up one after another. A large number of puppet Warriors were created.

Unfortunately ...

there weren't many stage four corpses.

Finally.

even if the entire battlefield was filled with the corpses of the barbarian soldiers and beasts, only 12 type 4 puppet warriors were created.

The two Soul Controllers were given six each.

Other than the type 4 puppet warrior.

The rest of the puppet Warriors only amounted to 16 million.

This was far from the limit.

One had to know.

He was just a Soul Master.

He could control ten million lesser golems, a million first-tier golems, a hundred thousand second-tier golems, ten thousand third-tier golems, and a thousand fourth-tier golems.

In other words ...

A soul energy controller who was fully prepared and equipped with puppets to the limit could have the strength to destroy and exterminate a weak dynasty.

This was not a joke.

It was the truth.

“truly magnificent.”

Through the holographic mech’s communication device, Jiang Li looked at the scene on the projection screen. The puppet army was following the soul energy controllers and soul manipulators.

He couldn’t help but sigh.

At the same time.

The powerful abilities of the soul Controllers and soul manipulators made Jiang Li even more determined to take down the ghosts in Forest Mist and gather more ghost Soul Fire Seeds.

If he could obtain the type 5 human ghost Soul Fire seed.

Then ...

They would definitely be able to create a terrifying puppet army.

With the mech Army.

Jiang Li was more confident that he could take down the Black Dragon barbarian kingdom, the sky Monster Kingdom, and the Shu Kingdom one by one without increasing the number of mechs.

In the end, he would unify the entire northern region of the Holy peace Region.

Very quickly.

The soul Controllers and soul manipulators had already made their way to base 012 through the teleportation room in Base 01 as a transit station.

He was preparing to turn the 20 million half-fiend soldiers into puppet Warriors.

“Chief sovereign.”

QX01 reported. the [annihilation Corps] has chased the human ghost to the misty forest. Do you want to let the [annihilation Corps] enter the misty forest? ”

Shua!

The scene was presented in front of Jiang Li.

“Misty forest.”

jiang li looked at it carefully but couldn't see anything from the projection. the area of the misty forest wasn't small. it was as large as the great cang kingdom.

He looked around.

The entire forest was shrouded in a strange fog that couldn't be dispersed. It was so dark that one couldn't even see their own fingers. Even the vegetation and trees in the misty forest were affected by the strange fog.

He took a closer look.

the trunks of those trees had hollow facial features.

They were like strange treants.

It seemed to be alive.

“There’s no need to go deep into the misty forest.”

it’s a trap. Jiang Li thought for a moment and ordered, ” Forest Mist is the nest of human ghosts after all. There must be many traps. There might be powerful formations.

destruction Legion, hear my order. Fire a wide-range of cannons outside the misty forest.

“Beat him up ruthlessly!”

“Yes!”

“Yes, sir!”

“fleet, get ready!”

“Artillery position, get ready!”

“missile soldiers, get ready!”

Immediately.

under the command of the battlefield commander, there were floating battleships, mechanical artilleries, mechanical giant soldiers, mecha god of war soldiers, mechanical missile soldiers, and so on.

All meches with long-range artillery ability.

All of them had formed their own Corps.

The target is ‘misty forest’.

Then, he gave the order.

full launch.

Chapter 426 spirit soul

BOOM! boom! BOOM!

in an instant.

Fire coverage.

Countless cannons, energy bombs, small energy missiles, and conventional missiles rose into the sky one by one, covering half of the sky.

Then, they all fell into the misty forest ahead.

The number of these bombs had already exceeded ten million.

“they actually didn’t enter the misty forest.”

“It’s this kind of attack again,”

“Be careful!”

“Rumble!”

After that.

Tens of millions of artillery shells exploded one after another, blasting in the misty forest. The coverage of the tens of millions of bombs had already reached a radius of tens of kilometers.

In other words ...

Such an area of coverage was enough to destroy a large city.

kachaa! kachaa!

The strange mist was scattered, and a large number of trees in the misty forest collapsed and were directly blown to ashes. The distorted ghostly figures that filled the sky dissipated.

“Ah!”

There were also shrill screams of humans and ghosts.

There were serious injuries and deaths.

Buzzzzzz! Buzzzzzz!

Light spots flew over and were captured by the meches. With just one round of bombing, they obtained thousands of human ghost soul Tinder.

Of course.

Most of them were rank one.

“Activate the ‘spirit soul array’ immediately.”

obviously.

the destructive army’s firepower made the human-ghost army shiver in fear. they no longer had any hope of being lucky and immediately activated their strongest formation.

Wuwuwuwuwu!

shua! Shua! Shua!

It could be seen.

The Lord of misty forest.

The human ghost king, GUI li, had appeared.

other than that.

there were also a hundred type 4 human-ghosts and nearly a thousand type 3 human-ghosts.

All of them appeared.

“activate!”

BOOM!

The strange mist of the misty forest churned violently, like a monstrous wave, engulfing the entire misty forest.

GUI li was in charge of the formation, with the 100 type 4 and 1000 type 3 human-ghosts supporting him.

Countless array runes appeared.

Finally.

they were all intertwined.

They formed an extremely vast ‘Great Spirit soul formation’.

an enormous grey screen of light appeared, almost enveloping the entire misty forest.

not only that.

At the center of the misty forest.

It formed an incomparably huge mist giant!

it was as high as 100000 meters!

giant spirit soul!

Tier 5 Grand array!

This was a Tier 5 Grand array!

“Roar!”

The 100,000-meter-tall giant spirit soul roared. His voice was like thunder, shaking the sky. A vast pressure spread out in an extremely powerful manner.

BOOM! BOOM! BOOM!

...

The next moment.

The destruction Legion launched another round of heavy fire. Countless artillery shells rose into the sky and blotted out the sky as they bombarded the 100000-meter tall giant spirit soul.

“Get lost!”

Bang Bang Bang Bang!

The giant spirit soul roared and its huge palm swept across the sky, blocking out the sun and sending the cannonballs flying.

The cannonballs landed on the giant spirit soul’s body, but they did not cause much damage.

Wuwuwuwuwu!

At the same time.

The Great Spirit soul array’s light screen also protected the misty forest.

“Leave this place,”

“Or you’ll all die!” The giant spirit soul roared.

...

“Continue the attack.”

Jiang Li said in a deep voice.

“yes.”

BOOM! BOOM!

DTS01, MYL01, ynjsw01, and four other type 5 walking corpses joined forces and attacked the 100000-meter tall giant soul.

At the same time.

There were more than 10000 Level 4 meches, and close to 1000 peak-stage level 4 meches.

Other than that.

The annihilation Legion’s firepower never stopped. They bombarded the dense fog forest continuously, wearing down the forest’s power and the spirit soul array’s power.

“Energy Archangel.”

Buzzzzzz!

Bright energy wings spread out.

DTS01 went all out, and a huge energy Archangel’s spear appeared. The mechanical energy was fully released, turning into a huge spear that was ten thousand meters long.

“Zombie King domain.”

Buzzzzzz!

ynjsw01 released his skill, and his domain spread out, enveloping the surroundings. within the range of the zombie king's domain, it directly increased the strength of his allies.

“Obliteration storm.”

BOOM!

MYL01 was not to be outdone. He released a vast amount of demonic spirit energy and exploded, forming a destructive storm that spread like ripples.

Roar! roar! roar!

The four fifth-order undead puppets roared as they joined forces to attack the hundred-thousand-meter giant spirit soul.

An intense battle broke out.

The seven type 5 experts, with the help of the destruction Legion, were fighting the 100000-meter-tall ‘spirit soul giant’ formed by the ‘spirit soul formation’.

In the image.

Endless radiance surged.

An earth-shattering explosion sounded.

even though jiang li wasn't there, he could feel the terrifying and destructive power through the holographic projection.

It was truly powerful.

Obviously.

Tier 5 Grand array.

It was enough to withstand the attack of a fifth step.

The giant spirit soul was extremely powerful.

Bang!

There was a loud explosion.

one of the rank 5 walking puppets was sent flying by the giant spirit soul's palm.
the giant spirit soul roared and spat out a gray pillar of light.

Bang Bang Bang Bang!

In an instant.

The gray pillar of light had a diameter of a thousand meters. It pierced through the void and attacked the army of destruction. Everything that the gray pillar of light passed through was destroyed.

A large number of meches exploded, and nearly ten thousand floating warships were destroyed.

Very strong!

It was extremely powerful!

Immediately after.

A large number of distorted ghostly figures surged out from the misty forest. There were at least hundreds of millions of them, and they rushed madly towards the army of destruction.

Both sides fought.

the war was getting more and more intense.

Bang!

At this moment.

Ynjsw01 seized the opportunity and quickly approached the giant spirit soul. With a loud roar, he released mechanical psionic energy and his arms turned into blades.

Shua! Shua!

after that.

two 10,000-meter-long psionic blade auras crossed each other and formed an 'X' shape, cutting off the giant spirit soul's left arm.

"Ah!"

Pfff!

The giant soul was injured.

the human-ghosts maintaining the spirit soul formation immediately let out blood-curdling screeches as they suffered a backlash from the formation. they immediately circulated their human-ghost power to quickly repair the giant spirit soul.

bang!

Ynjsw01 was sent flying by the giant spirit soul's punch.

The damage level increased by 10%.

“Repair.”

Buzzzzzz!

jiang li used energy points to restore ynjsw01 and the others 'damage. they were back to their peak state and attacked the giant soul.

“They've recovered from their injuries.”

“this must be the 'puppeteer' who is hiding in the dark.”

“But why can't we detect their 'soul thread'?”

hateful!!

GUI li and the others roared.

“Obliteration storm!”

“All-rounded release!”

BOOM! BOOM!

dts01 and myl01 charged over again, attacking with all their might and releasing their skills. every time they attacked, it was their strongest attack.

he had exhausted all his energy.

but ...

In the blink of an eye.

they had all recovered.

Jiang Li used energy points to recover their energy.

“Ah!”

BOOM!

The giant spirit soul was once again injured by DTS01 and the others. Once again, its huge arm was cut off. The human-ghost hybrids screamed in pain as their injuries worsened.

Buzzzzzz!

The Great Spirit soul array was activated once again.

The vast mist gathered.

The giant spirit soul recovered once again.

Roar!

Immediately after.

The giant spirit soul roared again and unleashed a gray pillar of light with a diameter of 1000 meters. It used its ultimate skill and pierced through the air, hitting ynjsw01 and DTS01 directly.

bang! Bang!

The two of them were unable to block it and were sent flying by the gray pillar of light. They flew tens of thousands of meters away and plowed two huge trenches on the ground.

Furthermore ...

DTS01 and ynjsw01's damage levels had risen to 60%.

It could be said that ...

this was a heavy blow.

“Repair.”

Buzzzzzz!

okay. Jiang Li immediately used his energy points.

BOOM! BOOM! boom!

The next moment.

The destruction Legion's firepower bombarded the giant spirit soul, blocking it and buying time for DTS01 and ynjsw01 to recover.

“Get lost!”

boom!

The giant spirit soul roared and slammed its huge palm down, sending countless bombs flying. It wanted to kill its way into the army of destruction, but MYL01 and the four undead puppets immediately blocked it.

Shua! Shua!

Ynjsw01 and DTS01 had recovered.

They joined forces again.

They attacked the giant spirit soul.

“Ah!”

The giant spirit soul roared repeatedly.

As for GUI li and the others who were controlling the ‘spirit soul formation’, they could not help but look anxious, especially when they saw ynjsw01 and DTS01 recovering in a few seconds.

his heart grew heavier.

One had to know.

every time the giant spirit soul was injured, they would suffer the backlash of the formation, and their injuries would become more and more serious.

Furthermore ...

There was a limit to the spirit soul formation.

It couldn’t be maintained forever.

If this continued ...

If they couldn't defeat the enemy ...

They would be the ones to lose in the end.

In terms of consumption.

Jiang Li had hundreds of billions of energy points in his hands. He wasn't afraid of anyone.

BOOM! BOOM! BOOM!

The war continued.

The hundreds of millions of distorted ghostly figures controlled by the human-ghost hybrids were gradually annihilated by the annihilation Army. Under the bombardment of the cannonballs, the distorted ghostly figures were torn apart by the power of the explosions.

It was difficult to resist.

Of course.

The destruction Legion had also suffered great losses.

Jiang Li used energy points again and again to repair the damage of the meches and replenish their energy and ammunition. He was determined to get the 'misty forest'.

Time passed.

This war had actually continued until now.

They fought for an entire day.

Jiang Li used three billion energy points to repair the damage of the meches and to replenish their energy and ammunition.

It could be said that ...

This was the first time Jiang Li had used so many energy points in a war.

“Rumble!”

finally ...

the destruction legion had paid the price of two type 5 undead puppets.

The giant spirit soul could not hold on any longer.

Ynjsw01, DTS01, MYL01, and the remaining two type 5 undead puppets, in addition to the firepower of the destruction Legion.

They struck the giant spirit soul’s body simultaneously.

an earth-shattering explosion rang out in all directions, and an endless storm spread out. the spiritual qi of heaven and earth trembled, and the destructive aftermath tore the ground apart. even the ground of the misty forest was lifted up.

“Ah!”

GUI li and the others screamed.

The 100,000-meter-tall spirit soul giant exploded.

It exploded into endless light spots.

The ‘spirit soul formation’ collapsed.

Bang Bang Bang Bang!

GUI li, a hundred Tier 4 human-ghosts and nearly a thousand Tier 3 human-ghosts, were sent flying by such a shock wave, and they screamed in pain.

Even ...

There were also many type 3 human ghosts who could not withstand the impact and were killed by the shockwaves.

“All troops, charge!”

“Kill!”

“don’t leave a single one!”

“BOOM!”

The spirit soul array was destroyed.

The destruction Legion immediately landed, and the mechanical Army charged into the misty forest, killing the human ghosts one by one.

At the same time.

The mechanical air Force Army formed an encirclement to prevent the ghosts from escaping.

Chapter 427 sixth step

Within the misty forest.

The strange fog that had existed for thousands of years was gradually dissipating. As the human ghosts died one by one, the strange fog became thinner and thinner.

not many of the distorted ghostly figures were left.

they were scattered.

It was no longer a battle strength.

“No!”

“How did it become like this?”

“Ah!”

Despair appeared in the eyes of the Tier 4 human-ghost hybrids.

One had to know.

The misty forest had existed for thousands of years.

It had never been truly destroyed.

However ...

It was today.

The misty forest was about to face the crisis of destruction.

The hundred thousand ghosts and humans would all be annihilated.

No one was spared.

In reality.

The misty forest was very strong.

It was extremely powerful.

Otherwise ...

The misty forest wouldn't have been able to stand in the northern region of the Holy peace Region for thousands of years. Even if they had encountered several crises, they had all been resolved.

First of all ...

It was a spirit soul array.

tier 5 grand array.

This was almost comparable to a Grade 5 army formation.

In addition, there was the power of the 'giant spirit soul'.

It could be said that ...

it couldn't be broken unless it was a 'grade 6'.

There was another thing.

There were hundreds of millions of ‘distorted ghostly shadows’.

This was the number that GUI li and the others had accumulated over thousands of years. Hundreds of millions of ‘distorted ghostly shadows’ had gathered together to form an Army.

He could completely sweep away everything.

The ‘twisted ghost shadow’ could even destroy the soul.

For intelligent creatures with ‘souls’.

It was a very terrifying ability.

The ghost clan in the ‘misty forest’ had this kind of power, so even though the Shu country, the Black Dragon barbarian kingdom, the sky Yao Kingdom, and other Marquis countries knew that the ghost clan was hiding in the ‘misty forest’, they could only turn a blind eye.

This was because they didn’t have enough power to destroy the ‘misty forest’.

Unfortunately ...

These ghouls encountered the great Xia Dynasty, Jiang Li, and his mech Army. After thousands of years of freedom in the northern region of the Holy peace state, they finally met their doom.

The meches produced by the mech factory didn’t have a ‘soul’, so the ability to twist ghostly shadows was useless in front of them.

it was a complete restraint.

the ‘spirit soul array’ was indeed powerful, and the ‘spirit soul giant’ it formed was also terrifying. even the seven type 5 experts working together were not its match.

However ...

The 'spirit soul formation' was a formation after all. It had its limits, but Jiang Li could use energy points to recover the meches' injuries and energy.

so,

The spirit soul formation was being worn out by Jiang Li.

in the end, they won the war.

kill!!!

the human-ghost hybrids started to run away, but they were just struggling against the annihilation army. as they were killed one by one, jiang li captured a large number of human-ghost soul fire seeds.

A large number of notifications popped up before his eyes.

The 1,000 perfected-stage level four meches and 10000 level four meches worked together to surround the 100 human ghosts.

BOOM! BOOM! BOOM!

...

An intense battle erupted.

Sword light flashed, and missiles bombarded.

A few minutes later.

the hundred tier 4 human-ghost hybrids were all annihilated.

Jiang Li got 100 level-four ghost Soul Fire Seeds.

“Get lost!”

BOOM!

The rank 5 human-ghost GUI li roared in anger. His expression was one of fear as he tried to escape with all his might. He released a vast amount of human-ghost power that contained soul energy fluctuations.

Bang Bang Bang Bang!

The meches in front of GUI li were all sent flying.

In fact, it might even be scrapped.

...

Shua!

GUI Li's speed was very fast.

However ...

DTS01, MYL01, and ynjsw01 had long been keeping an eye on GUI li. They immediately chased after him and blocked his path.

“You guys ...”

gui li's pupils contracted.

“So this is a Tier 5 human ghost.”

Jiang Li sized him up.

In the image.

GUI li stood at an altitude of 1000 meters. His body was surrounded by a thick black fog that could not be dispersed. He had a physical body and could switch between illusion and reality.

The face was that of a middle-aged man.

The weapon in his hand was a long black stick.

He took a closer look.

There were blood-colored patterns on it.

“Kill him!”

go! Jiang Li ordered.

Shua! Shua!

MYL01 and the rest joined forces to attack, while ynjsw01 controlled the remaining two type 5 walking corpses. The five tier 5 combatants joined forces and attacked GUI li.

“Ah!”

GUI li roared angrily and went all out.

However ...

It was all in vain.

Although GUI li was also at the perfected stage of Tier 5, he was no match for two at the perfected stage of Tier 5, in addition to three others assisting him from the side.

Half an hour later.

Pfft!

dts01 seized the opportunity and shot through gui li's head.

Shua! Shua!

Ynjsw01 swung his sword twice and cut GUI li into three pieces. MYL01's destructive storm spread over and turned GUI Li's body into ashes.

Wuwuwuwuwu!

after that.

A pure black spot of light appeared.

Shua!

[acquired a Tier 5 human ghost Soul Fire seed!]

A notification appeared.

“It's in my hands.”

Jiang Li was overjoyed.

In the special mechanical arms column.

Because he had captured the 'Level 5 human ghost soul Tinder', he had unlocked a new special mechanical soldier type.

Jiang Li immediately opened the column for special mechanical units.

[Mechanical Soul spiritualist (able to craft 0/1)]

After an hour.

'misty forest' was completely taken down by jiang li's army. the strange mist that had covered the misty forest for thousands of years finally disappeared because all the ghosts and humans were dead.

He looked around.

one-third of the entire 'misty forest' was a desolate area, and the ground was filled with huge deep pits that had been blasted out by shells and missiles.

There were wisps of smoke.

However ...

But there was not a single corpse.

the distorted ghostly figure was not a living being, but a 'puppet' created by the human ghost. it would dissipate after death, and the human ghost itself was also a kind of spiritual body.

After death, there would be no corpse left. Instead, it would turn into light and disappear.

“these human ghosts have been living in the ‘misty forest’ for thousands of years. there must be a lot of good things hidden in there.”

Jiang Li thought, destruction Legion, don’t rush back. Keep searching the misty forest and find all the good things of the human-ghost race.

“Yes!”

The battlefield commanders responded.

after that.

The meches started to spread out in a fan shape, searching the entire misty forest. They gradually went into the deepest part of the misty forest.

Shua!

The Dominator panel opened.

Jiang Li opened the soul Tinder.

This time.

Jiang Li got 100000 level-one ghost Soul Fire Seeds, 10000 level-two ghost Soul Fire Seeds, 1000 level-three ghost Soul Fire Seeds, 100 level-four ghost Soul Fire Seeds, and one level-five ghost Soul Fire seed.

It could be said that ...

The 100% drop rate of the human-ghost soul Tinder gave Jiang Li a lot.

“Fuse.”

buzzzzzz!

The fusion interface appeared.

100,000 level-one soul Tinders could be fused 10000 times. Because the success rate of the fusion of the human-ghost soul Tinder was 100%, Jiang Li got 10000 level-two human-ghost soul Tinders.

“Continue.”

buzzzzzz!

[fusion successful!]

.....

[fusion successful!]

.....

the 20,000 level-two human ghost soul tinders were fused 2000 times.

He had obtained 2000 Level 3 human ghost Soul Fire Seeds.

fuse with the level 3 human ghost Soul Fire seed.

Buzzzzzz!

[fusion successful!]

.....

[fusion successful!]

.....

Three thousand third-stage soul Tinders.

He had fused a total of 300 times, and he had obtained 300 level 4 human ghost Soul Fire Seeds.

fuse with the Level 4 human ghost Soul Fire seed.

The fusion interface appeared.

[fusion successful!]

.....

[fusion successful!]

.....

Obviously.

even if it was fusing the level 4 human ghost soul fire seed, the success rate of fusion was 100%, with a total of 400 level 4 human ghost soul fire seeds.

After the fusion.

Jiang Li got forty level-five ghost Soul Fire Seeds.

” continue to fuse the level 5 human ghost soul fire seed. ”

Jiang Li's eyes lit up and he was looking forward to it.

Obviously.

Jiang Li's target wasn't the level-five human-ghost Soul Fire seed. He wanted the level-six human-ghost Soul Fire seed and created level-six mechanical special units.

That was Jiang Li's goal.

Buzzzzzz!

The fusion interface appeared.

Within the interface.

The 10 pure black Tier 5 human ghost soul Tinders were lined up in a row, and then gradually gathered towards the center, slowly fusing together.

merging in progress. Countdown: 10,9,8,7 ”

The countdown ended.

[fusion successful!]

A notification appeared.

“Hahahahaha!”

haha! Jiang Li laughed excitedly. I did it, I did it. I've fused a level-six human-ghost Soul Fire seed. Hahaha!

Excitement!

Jiang Li was excited!

He was in a good mood.

One had to know.

Jiang Li knew how special the human-ghost Soul Fire seed was, so he had to take down the misty forest at all costs.

the battle lasted for an entire day and night.

the destruction legion suffered heavy losses.

Although there were no statistics.

However, at least ten million meches were scrapped.

Even two of the fifth step undead puppets were lost.

However ...

This time, it was all worth it.

This was because he had obtained the Tier 6 human ghost's Soul Fire seed.

“Continue.”

Buzzzzzz!

Jiang Li suppressed his excitement and calmed down. He continued to use the soul Tinder fusion function to fuse the remaining thirty level-five soul Tinders in front of the ruler.

[fusion successful!]

.....

[fusion successful!]

.....

[fusion successful!]

.....

Three fusions.

He had succeeded in all of them.

In other words ...

Jiang Li already had four level-six human-ghost soul Tinders. As long as he had enough energy points, he could create four level-six special mechanical troops.

Shua!

In the special mechanical arms column.

A brand new special mechanical soldier type had appeared.

[soul realm controller (able to create 0/4)]

“Alright!”

Jiang Li was all smiles.

“create four soul realm controllers.”

Jiang Li controlled the Dominator panel.

Shua!

[prompt: insufficient energy points. 100 billion energy points will be consumed to create a soul realm controller.]

“This bi an ...”

energy points? ” Jiang Li was stunned. I don’t have enough energy points.

Obviously.

just the creation of an early-stage type 6 soul realm controller would cost 100 billion energy points, let alone a perfected type 6 soul realm.

my Lord, the destruction Legion has already found the lair of the human-ghost race.

At this moment.

QX01 reported.

“So fast.”

Jiang Li was overjoyed.

Shua!

The projection screen expanded.

In the image.

It was the deepest part of the misty forest.

what's going on? ” Jiang Li saw many magnificent palaces. They were connected and formed a grand building complex.

It was even more glorious than the Xia Palace.

” the human-ghost clan has been accumulating for thousands of years. they must have a lot of good stuff. the energy points i need to create the soul realm master will depend on this. ”

jiang li thought.

Chapter 428 rest

Thousands of years had passed.

The human-ghost clan had taken root in the ‘misty forest’. As they gradually developed and grew stronger, they plundered all kinds of resources from all over the world. Naturally, they left a large number of treasures and wealth in their’ old nest’.

Even though ...

In the process of development and expansion, there must have been a lot of resources consumed by the human-ghost clan, but there was still a large amount of wealth left.

And now ...

The wealth and resources all went to Jiang Li.

BOOM! BOOM! BOOM!

The ground was shaking.

After that.

The palaces were destroyed by the meches. Under Jiang Li's order, the meches swept everything clean like a swarm of locusts.

There were a large number of materials, ores, gold, silver, jewelry, spirit herbs, medicinal herbs, and spirit crystals.

they had all been found.

The harvest was huge.

Time passed.

Half a day later.

the human-ghost clan's lair had just been completely plundered by the annihilation corps. several hidden 'treasuries' had also been found, and there were a large number of spiritual crystals stored in them.

The number of crystals was almost blinding.

there were simply too many of them.

it was only a rough estimate.

There were more than 10 million lower spiritual crystals.

One had to know.

Spirit crystals were consumables for cultivation.

Even so ...

There were still more than ten million of them left.

as expected of the human-ghost clan that had existed for thousands of years. they had such a deep foundation, but now it was all in jiang li's hands.

destruction Legion, hear my order. Bring back all the resources we've plundered from the misty forest and return immediately.

go! Jiang Li ordered.

"Yes."

"All of you, return."

The battlefield commanders responded.

"BOOM!"

the engine roared.

The destruction Legion flew at full speed and left the misty forest.

After a few hours.

the destruction legion leaped over the great cang nation and returned to the marquis of panic. they used the teleportation station of the no. 09 legion base to teleport back to the imperial capital of the great xia.

Immediately after.

The transport plane quickly landed outside the city.

Outside the city.

the great xia soldiers were maintaining order.

The slaves who had been waiting outside the city followed Xu Ya and Hong Tianqi's orders and transported the materials out of the transport plane one after another into the great Xia Treasury.

Of course.

The slaves were only carrying various materials, ores, gold, silver, and jewelry. They were not qualified to touch the spirit herbs, medicinal herbs, and spirit crystals.

They were all moved to the base of the 01 Army by the meches.

“Convert!”

Jiang Li reached out and touched the spirit herbs and herbs. He started the conversion.

Buzzzzzz!

A white light flashed.

All the resources in front of him disappeared.

Shua!

” conversion successful. 1.5 billion energy points obtained! ”

A notification appeared.

On the other side.

While Jiang Li was converting the resources he got from the misty forest.

...

The demon race’s heavenly Demon King, the Barbarian race’s Black Dragon King, and the Shu nation’s King.

They had finally received the true battle report from the front line.

The Allied forces that were attacking the great Xia Dynasty!

They were all annihilated!

This news shocked them.

Deep in the border sea.

In the Barbarian God Palace.

“he actually slipped away.”

The high priest of the Barbarian tribe was silent. Around the hall, there were many barbarians of high status who kneeled down. They all had their heads lowered, and their expressions could not be seen.

However ...

The atmosphere in the temple was heavy.

...

“I failed again.”

The high priest of the Barbarian tribe said in a low voice, “ten million barbarians and a total of ten million beasts formed the beast tide, but they were all annihilated in a single night.

“Hu ~~ Hu ~ Hu ~”

this is not a small loss for us.

high priest, we know too little about the Xia Dynasty. We don't know the real strength of Jiang Li, the Emperor of Xia, or the real combat power of the Xia Dynasty. We blindly believed in those unrealistic rumors.

“yup!”

the unequal information puts us in a passive position every time we act.

the most important thing is that although we have sent barbarian Scouts several times to gather information about the great Xia Dynasty, we only know what is on the surface. We don't know anything about the true secrets of the great Xia Dynasty.

high priest, the great Xia Dynasty was able to survive the joint attack of the various forces and even annihilate the armies of the various forces. Such strength can not be underestimated.

the great Xia Dynasty is powerful enough to gain a firm foothold in the northern region of the Holy peace state.

The barbarians were discussing.

“If that’s the case, then let’s just wait and see.”

There was a moment of silence.

the high priest of the barbarian tribe made his decision.

Obviously.

tens of millions of barbarian troops were destroyed by the great xia dynasty. although the barbarian high priest wanted to take revenge, he did not dare to act rashly. he could only wait and see how the situation changed.

In other words.

The high priest of the Barbarian tribe was terrified.

He did not dare to provoke the great Xia Dynasty anymore.

At least, he didn’t dare to do so now.

the black dragon barbarian kingdom.

the capital.

Black Dragon Palace.

“Your Majesty.”

The commander of the dark Dragon guards kowtowed. the great Xia Dynasty's Army not only defeated our barbarian Army, but they also annihilated the demon Army of twenty million led by Ling Yue.

at the same time, the human-ghost clan in the dense fog forest was also forced to retreat.

“During this period of time, they also destroyed the ‘barbarian tribe Army’ and the ‘black region Army’ of the black region country.”

“This is an invasion!”

“We lost completely, but the great Xia Dynasty won.”

“Si si si ...”

the great Xia Dynasty is so terrifying.

“The forces in the northern region of the Holy peace state, other than the Shu nation, are the Black Dragon barbarian kingdom, the sky demon Kingdom, the misty forest, the Barbarian tribe, and even the ‘black region Army’ of the black region nation.”

Five Forces are attacking the great Xia Dynasty at the same time!

the great Xia Dynasty actually won. Not only did they win, but they also achieved a complete victory. Has the great Xia Dynasty's military power become so strong?
”

“This is too terrifying.”

In the surroundings.

Man Wuji and the other ministers of the Black Dragon barbarian kingdom were all shocked after hearing the report from the dark Dragon Guard commander.

obviously.

This battle result was completely beyond their expectations.

They had originally thought that ...

Under the attack of so many forces, even if the great Xia Dynasty was not destroyed, it would suffer heavy losses and its National Strength would be greatly reduced. It would then withdraw from the stage of 'hegemony'.

But the result was completely different.

The great Xia Dynasty had won.

And it was a beautiful win.

This was the first time he had shown off his muscles in front of the powerful countries in the northern region of the Holy peace state. It was as if he was announcing to the entire northern region that the rise of the great Xia Dynasty was unstoppable.

"I know."

The dark Dragon King's expression did not change.

In reality.

When the Barbarian Army led by man Wuji was defeated by Jiang Li, the Black Dragon King had a feeling that this operation was likely to fail.

However ...

The Black Dragon King did not expect that the great Xia Dynasty would be so powerful. They had displayed a terrifying combat power and Army, and they had actually annihilated the Allied forces.

It could be said that ...

If not for man Wuji's quick-witted reaction and his immediate retreat after realizing that something was amiss, the 20 million barbarian soldiers sent out by the Black Dragon King would have followed in the footsteps of the monster army.

they were all destroyed in the great xia dynasty.

“All ministers, hear my order.”

The Black Dragon King stood up.

“Your Majesty.”

within the palace.

The ministers of the Black Dragon barbarian kingdom knelt on the ground.

send an order to the entire country. Without my order, no one is to send out any troops. Send out elite Scouts and keep an eye on the great Xia Dynasty's movements.

the black dragon king said.

“Yes.”

“We will do as you command.”

the ministers all responded.

“Yes.”

The Black Dragon King nodded and left.

After the Black Dragon King had swallowed all the Barbarian dynasties, he had integrated all the National fortunes of the Barbarian dynasties in the northern region of the Holy peace state. The territory of the Black Dragon barbarian kingdom had expanded greatly.

the fortune of the black dragon barbarian kingdom rose sharply.

under the feedback of the country’s fate.

the dark dragon king’s cultivation base had already reached the peak of the perfected tier 5, faintly touching the threshold of the tier 6. now, he was only one step away.

In other words ...

The dark Dragon King was preparing to go into seclusion. He had also secretly asked the dark Dragon guards to gather all the precious resources of the Black Dragon barbarian kingdom to help him break through.

“Rank 6!”

The Black Dragon King’s eyes flickered as he clenched his fists. as long as I can successfully break through to level six, I’ll be able to dominate the entire northern region of the Holy peace state with the might of level six.

“At that time, we can send out our troops.”

“Before that, it’s not appropriate to send out any more troops.”

BOOM!

The door to the closed room closed.

The dark Dragon King was in seclusion.

The imperial capital of the Grand Xia.

Because they had obtained a lot of resources from the misty forest, they would not be able to transport them all in a short time.

During this period of time.

Jiang Li hadn't had a good rest for days in order to deal with the invasion and attack of many forces and to destroy the 'misty forest'.

now.

The matter had temporarily come to an end.

At night.

Jiang Li went back to the Xia Palace to rest.

At this moment.

The sky demon Kingdom.

“Trash!”

The celestial demon monarch's expression was very gloomy. 20 million demon soldiers. A total of 20 million demon soldiers. Furthermore, they are powerful soldiers who have been through hundreds of battles. To think that they would fall to the great Xia Dynasty just like that.

“Damn the great Xia Dynasty!”

he was furious!

the skydemon monarch was furious.

This was normal.

After all, the sky demon Kingdom had suffered significant losses this time. Not only had they lost an early-stage rank 5 Marchioness spirit moon, but they had also lost an Army of twenty million demon soldiers.

Although it wasn't a serious injury, the damage was still significant.

“Your Majesty, I am willing to lead my elite troops to attack the great Xia Dynasty and avenge Your Majesty.”

At this moment.

He was one of the Tier 5 experts of the sky demon Kingdom.

The chief demon general, Yao Tianqing, took a step forward.

“That's enough,”

No. the celestial Demon King waved his hand. this failure has made me realize the true strength of the great Xia Dynasty. It is no longer weaker than the celestial demon Kingdom or the Black Dragon barbarian kingdom.

” if we want to destroy the great xia dynasty, we have to use the entire country's power. ”

” moreover, the black dragon barbarian kingdom and the shu country are eyeing us covetously. there’s no need to continue fighting with the great xia dynasty and let the black dragon barbarian kingdom and the shu country take advantage of us. ”

send down my order. The entire country will withdraw its forces and send out Scouts to pay close attention to the movements of the great Xia Dynasty, the Black Dragon barbarian kingdom, and the Shu country.

The sky demon monarch ordered.

“Yes.”

“We will obey your orders.”

The ministers of the sky Fey Kingdom responded.

Obviously.

The sky Demon King had similar thoughts as the Black Dragon King. After the sky demon Kingdom had devoured all the demon dynasties, its territory had more than doubled.

Therefore, under the feedback of the country’s fate ...

The SkyDemon monarch had also reached the peak of the perfected stage of Level 5 and was faintly touching the threshold of Level 6.

Hence.

the skydemon monarch was also preparing to enter seclusion in an attempt to break through to level 6.

A day had passed.

Early in the morning.

the xia king palace.

Jiang Li walked out of his bedroom, stretched, and looked at the sky.

The sun was shining brightly.

The weather was good.

After breakfast, Jiang Li went straight to the Azure Dragon Palace.

Chapter 429 Shrinking

Inside the Azure Dragon Palace.

Jiang Li was reading the news from the Marquis of Great Jin and the Marquis of black snake, so everything was just as he had expected.

They had no intention of sending any more troops to attack the great Xia Dynasty.

Obviously.

The great Xia Dynasty's combat power was displayed in this battle. With the power of a country, it repelled the joint invasion of Five Forces and destroyed several legions.

He displayed his powerful combat strength.

so,

The Black Dragon King and the heaven Demon King did not dare to continue sending troops.

however ...

However, there was no news from the Shu country. From the beginning to the end, the Shu country's Army did not show up, as if everything had nothing to do with them.

Of course.

However, the Shu state was constantly paying attention to the changes in the war situation.

He wanted to be the mastermind.

“You guys don't want to fight.”

Jiang Li sneered. but I want to fight.

Shua!

The Dominator panel opened.

Jiang Li opened the energy points column.

” energy points: 780.2 billion 4092730 energy points. ”

It was a total of 700 billion.

it was close to 800 billion energy points.

In other words ...

After Jiang Li converted all the resources he got from the misty forest, he got 444 billion energy points in total.

One had to know.

The 10 million lower-grade spiritual crystals alone added hundreds of billions of energy points to Jiang Li, not to mention the middle-grade and upper-grade spiritual crystals.

A large number of medicinal herbs and spirit herbs were also a large part of the energy points he obtained.

Other than that.

There were also 4 type 6 ghastly Soul Fire Seeds, 1 type 5 ghastly Soul Fire seed, as well as an Army of 20 million puppets formed by 2 Spirit energy controllers and 10 spirit manipulators.

Finally.

it was the army of forty million meches that jiang li had.

All of these added up.

It was Jiang Li's capital.

Of course.

There were also some zombie puppets infected by the bio-meches. There were not many of them and they could not form an effective combat force. They were basically used to patrol the imperial capital of the great Xia 24/7.

the mech Army only has forty million soldiers left.

Jiang Li thought, it's mainly because I lost more than ten million meches when I attacked the 'misty forest'. I even lost two level-five zombie puppets.

luckily, we have the 'puppet army' to supplement, so we don't lack soldiers. There's no need to build more low-level meches.

At noon.

Wei Lin had arrived at the imperial capital of the Grand Xia.

Jiang Li met Wei Lin in the Azure Dragon Palace.

"Your Majesty."

wei lin bowed.

"Yes."

Wei Lin. Jiang Li looked at Wei Lin, who was kneeling in front of him. Wei Lin, why aren't you at the border of the Marquis of Manyi? what urgent matter did you come to see me for? "

"Your Majesty, the demi-humans have been constantly pulling back their forces in recent times."

"The border of the great Xia Dynasty seems to be peaceful, but I suspect that this is just the calm before the storm," Wei Lin quickly said.

"The monsters and barbarians must be plotting something bigger."

"It's just that I didn't manage to get any information."

"A bigger scheme."

Jiang Li smiled. He didn't mind.

now.

Jiang Li had nearly 800 billion energy points and four level-six human-ghost Soul Fire Seeds. As long as nothing went wrong, Jiang Li would win for sure.

Of course.

...

jiang li didn't act arrogantly in case he lost. even though he had a great advantage, he wasn't arrogant.

Instead, he would fight steadily.

He slowly planned.

"Your Majesty, this is the 'fifth-grade inferior-class blood refining pill'."

At this moment.

Wei Lin presented a Jade bottle that she had prepared earlier. Inside it was a low-grade fifth-grade blood refinement pill refined from Ling Yue's corpse.

"A fifth-grade blood refinement pill."

level five blood refinement pill? " Jiang Li was curious. He had never seen a level five blood refinement pill before. He waved his right hand and the Jade bottle flew into his hand.

He opened the bottle.

Instantly.

A thick and pure energy gushed out. Jiang Li sniffed it and vaguely felt the true essence in his body run faster.

...

It was a pill that was as clear as a Ruby.

the pill was densely covered in pill veins.

It was indeed a precious medicine.

However ...

The elixir wasn't of much use to Jiang Li. He had reached the peak of the perfected stage of level four, and the 'great Xia Azure Dragon technique' was only a perfected stage level four cultivation technique.

There would be no effect even if he took it, and it would be a waste.

"Not bad."

okay. Jiang Li nodded.

"Wei Lin."

you've made a great contribution, " Jiang Li said. you led the Wei Army to stop the monster army.

Shua!

As soon as he finished speaking.

Jiang Li took out a syringe. It was the ‘stage two gene strengthening liquid’.

“This is ‘Tier 2 gene strengthening liquid’.”

Jiang Li waved his right hand and the syringe fell to Wei Lin. take it. This is the reward you deserve.

“Thank you, Your Majesty!”

Wei Lin kept it excitedly.

Immediately after.

jiang li took out a hundred bottles of level-one gene strengthening liquid and put them in a locked box. he gave them all to wei lin and said, ” “Here are 100 bottles of the Tier 1 gene strengthening liquid. When you return to the Marquis of man Yi, reward Feng chenzi, Wu changding, Wei Wuxian, and the 100 Pavilion elders of the Marquis of great Wei with these bottles.”

“This is their reward.”

“Your Majesty’s grace, this subject is extremely grateful on behalf of Feng chenzi and the others.”

Wei Lin bowed.

“Go on.”

I’ll send my Army to attack the sky Monster Kingdom in three days. Jiang Li waved his hand and said, ” you must get ready as soon as possible.

“!!!”

Wei Lin's eyes widened and he had a startled expression. Your Majesty, you want to attack the sky Fey Kingdom? ”

“Yes.”

okay. Jiang Li nodded.

“This bi an ...”

shocking!

Wei Lin was shocked.

obviously.

Although Wei Lin had expected Jiang Li to send troops, he didn't expect it to be so fast. He was going to attack the sky Monster Kingdom in three days.

One had to know.

the sky demon kingdom was a marquis-ranked country.

Not only that.

After annexing all the demon dynasties and integrating all the demon clans in the northern region of holy peace state, the country's strength and fortune had greatly improved.

To attack such a powerful demon dynasty.

He had to make all the necessary preparations.

he only had three days.

Wei Lin felt that it was too short.

this time, the main force attacking the sky Fey Kingdom will be my great Xia Army. Your great Wei Army and great Jin army only need to defend the great Xia Dynasty.

Jiang Li said.

“Yes.”

Wei Lin looked at Jiang Li’s indifferent expression and opened her mouth. Although she didn’t want Jiang Li to attack the sky demon Kingdom so soon, she didn’t say anything in the end.

Wei Lin could tell.

Even if he did, Jiang Li wouldn’t listen.

He had already made his decision.

Roar! Roar!

Two Dragon roars.

Jiang Li waved his right hand. The Green Dragon imperial edict and the Green Dragon Imperial Jade seal left Wei Lin’s body. They turned into two Dragon-shaped green lights and returned to Jiang Li’s hand.

“I’ll be taking back the sacred artifact of National fortune.”

Jiang Li said.

“Yes.”

Wei Lin immediately nodded, not daring to have any objections.

Soon after.

Wei Lin left the Azure Dragon Palace with the silver iron password-protected suitcase.

“xing wuwu, this pill is for you.”

Jiang Li gave the low-class level-five blood refinement pill to Xing Wuwu.

“thank you, master.”

Xing Wuwu said excitedly.

Gulu!

Xing Wuwu swallowed the fifth-grade blood refinement elixir directly in the Azure Dragon Hall. He circulated his cultivation technique and devoured the medicinal power of the blood refinement elixir to strengthen his barbarian power.

Half an hour later.

xing wuke's refinement was complete, and his aura rose quite a bit. but he was still a long way from violently breaking through to late-stage tier 5. clearly, he would not break through so easily.

no matter what.

Xing Wuke was Jiang Li's first slave. After he was injected with the level one to level three gene strengthening fluid, his training ability had changed.

“The Tier 4 gene strengthening fluid has not been developed yet.”

Jiang Li thought, although I used a lot of energy points yesterday and equipped all the research meches on the fourth floor of the Research Center, I’m still not satisfied.

but if I want to research the Tier 4 gene strengthening liquid, it will still take a few days.

in the base of the 01 division.

the room in the ruler’s hub.

Buzzzzzz!

The Dominator panel opened.

“Create one Mechanical Soul spiritualist and four soul realm controllers.”

Among them.

A Mechanical Soul spiritualist was at the fifth step.

Soul realm controllers were rank six.

It cost Jiang Li 40 billion energy points in total.

The number of energy points had been reduced by more than half.

Shua!

The manufacturing interface appeared.

In the interface.

Two illusory figures appeared.

Countless light spots filled in the surroundings, and the illusionary figure gradually solidified.

A minute later.

[creation complete!]

Shua! Shua!

In front of Jiang Li.

Five figures appeared out of thin air and stood in a row.

“My Lord!”

The five special meches saluted Jiang Li at the same time.

“yes.”

Jiang Li looked at the five meches in front of him.

Three men and two women.

Among them.

The mechanical Soul spiritualist was a middle-aged man.

He was wearing a long black cloak and a tall pointed hat. The black mist around him was almost the same as the ‘soul controller’.

However ...

The Soul Master was holding a black snake-shaped staff in his hand.

However, a Mechanical Soul spiritualist was different.

The mechanical Soul spiritualist’s arms were already completely mechanized.

It was a mechanical arm.

In other words ...

not only could a mechanical soul spiritualist control an army of puppets, but they could also rely on their mechanical arms to fight. they were equipped with strong combat abilities.

Of course.

a mechanical soul spiritualist was not bad.

However, Jiang Li was more concerned about the ‘soul realm controller’.

The ‘soul realm controller’ was Jiang Li’s first level-six troop class.

“Chief sovereign.”

Four soul realm controllers.

two men and two women.

The two men looked like young men. They wore loose black windbreakers, and their eyes were pure black. They were extremely deep, and if one stared at them for a long time, it was as if their eyes had turned into vortexes.

It can devour your soul.

The two women had beautiful faces, and their loose black trench coats couldn't hide their sexy figures. They had figures that could be said to have golden proportions.

Vaguely.

Jiang Li could feel the destructive power in the four soul realm controllers. It was far beyond DTS01 and ynjsw01.

Even if he was still only at the initial stage of Tier 6 right now.

“Yes.”

alright. Jiang Li nodded slowly. tell me about your abilities.

“Yes.”

The four soul realm controllers nodded and said, ” “we’re ‘soul realm controllers’. we’re equipped with the ability to create puppets and puppet armies.”

a stronger method is to create a ‘soul realm’. Within the range of the ‘soul realm’, we can easily destroy the souls of our enemies.

Chapter 430 Over a hundred million

Jiang Li couldn't tell the specific effect of their abilities just from the self-description of the soul realm controllers. He needed to test it in real combat.

promoted to a Mechanical Soul spiritualist.

Buzzzzzz!

jiang li first used 14 billion energy points to upgrade his mechanical soul spiritualist to the perfected stage of level five.

He still had 300 billion energy points left, which was only enough for one soul realm master to reach the mid-stage of Type 6.

Shua! Shua!

A white light flashed.

It only took a few seconds.

A Mechanical Soul spiritualist had already reached the peak of the fifth step.

On the surface, there were not many changes.

However, all of his skills had been upgraded to top-tier Tier 5.

“Promote to a soul realm controller.”

Buzzzzzz!

Jiang Li used 200 billion energy points.

Shua!

A white light flashed.

One of them had already reached the mid-Type 6 realm.

Jiang Li only had 100 billion energy points left, and he had used up 600 billion.

immediately.

Jiang Li checked the basic information of the mechanical Soul spiritualist and soul realm controller.

[special troop Type: Mechanical Soul spiritualist]

.....

Jiang Li Read through the information about the mechanical Soul spiritualist and soul realm controller in detail. In terms of skills, every level up would give him a new skill.

The first five skills were basically the same, but their grades and ranks had been greatly improved.

It was just that the new skills were different.

“Hidden Dragon,”

Jiang Li said.

“Chief sovereign.”

...

Shua!

a purple face appeared.

“How’s the progress of the Tier 4 gene strengthening Fluid Research?”

Jiang Li asked.

my Lord, the fourth level of the Research Center has been equipped with ten elite research equipment centers and one thousand elite research soldiers.

“The research progress is only two percent,” Hidden Dragon replied.

“It will take 98 days to complete.”

“It’s too slow,”

No. Jiang Li shook his head.

Obviously.

Even if the fourth floor of the Research Center was fully equipped, it would still take a full 100 days to develop the Tier 4 gene strengthening liquid.

...

” my lord, if you want to speed up the research of the tier 4 gene strengthening liquid, you can upgrade all the other army bases to tier 4 and join forces with the research centers. ”

“Every additional one can shorten the time by half,” said Hidden Dragon.

“That’s a good idea.”

okay. Jiang Li nodded.

In reality.

As Base 01 was already at Tier 4, the other bases would not need to use soul Tinder to upgrade. They would only need one billion energy points.

It wasn’t a lot.

but ...

creating 10 elite research equipment centers and 1000 elite research soldiers would require a lot of energy points.

It would require ten billion energy points.

For the time being.

Jiang Li still had more than 100 billion energy points left. He couldn't spend them on this.

After all, Jiang Li was about to attack the Sky Monster Kingdom.

100 billion energy points had to be saved for emergencies.

One had to know.

In order to take down the 'dense fog forest' last time, the energy points consumed in the war had reached a few billion.

In the next few days.

Jiang Li ordered the mechanical Soul spiritualist and the soul realm controller to use the materials and ores in Great Xia's Treasury to make a large number of puppet Warriors.

Of course.

This was because of the limitation of the grade of the materials.

Most of the puppets were not of the standard.

Almost 80% of them were low-level puppet Warriors.

A fifth rank Mechanical Soul spiritualist.

Under extreme circumstances.

It could control thirty million unranked golems, three million Stage 1 golems, three hundred thousand Stage 2 golems, thirty thousand Stage 3 golems, three thousand stage 4 golems, and three hundred Stage 5 golems.

A rank 6 soul realm master.

It could control 100 million lesser golems, 10 million first-stage golems, 1 million second-stage golems, 100000 third-stage golems, 10000 fourth-stage golems, 1000 fifth-stage golems, and 100 sixth-stage golems.

It could be said that ...

A rank five Mechanical Soul spiritualist was fully prepared.

He had prepared a sufficient puppet army.

It was enough to pose a huge threat to a Marquis country.

As for a rank 6 soul realm master ...

The command of the puppet army.

It was enough to destroy a Marquis country and even threaten the Imperial court.

of course.

Whether it was a 'soul realm controller' or a 'Mechanical Soul spiritualist', their abilities were similar to a 'puppeteer', and their methods of controlling puppets were similar to 'soul thread'.

In other words ...

As long as he could block the control of the ‘soul thread’.

He would be able to completely destroy the ‘puppet army’.

At that time.

A Mechanical Soul spiritualist and a soul realm controller were all alone.

In reality.

This was a common method to deal with ‘puppeteers’.

After all ...

Although the puppeteers were powerful, they were not invincible.

two days later.

The mechanical Soul spiritualist and soul realm controller used all the accumulated materials, ores, and other resources in great Xia’s Treasury to create puppet Warriors.

In total, they had created 40 million warrior puppets, 4 million first-stage puppets, 400000 second-stage puppets, 40000 third-stage puppets, 100 fourth-stage puppets, and 5 fifth-stage puppets.

Obviously.

The Tier 4 and Tier 5 materials were too rare. Even if they used all of them, they could only produce five tier 5 players and a hundred Tier 4 players.

However ...

That was more than enough.

Jiang Li now had 40 million meches, more than 20 million puppets made of dead bodies, and more than 40 million puppets made of various materials.

The total number of troops had already exceeded 100 million!

High-end combat power.

Four rank 6 soul realm controllers.

MYL01, DTS01, ynjsw01, HLS01, 2 Type 5 walking puppets, 5 type 5 puppet Warriors, and the type 5 servant Xing Wuwu.

A total of 12 Level 5 experts.

Tier 4 had already broken through 10000.

On this day.

In the morning.

Jiang Li left the palace and finished his breakfast. He looked up at the sky. There were many floating battleships above the capital, blocking the morning sun.

Jiang Li walked out of the palace.

They arrived at the base of the 01 division.

Outside the imperial capital of the Grand Xia.

What he saw was a dense crowd of puppet Warriors.

Obviously.

The puppet Warriors weren't meches, so they couldn't enter the mech factory. They could only stay outside and station outside the capital.

More than 60 million puppet Warriors.

They gathered outside the city.

He looked around.

It was as if there was no end in sight.

Atop the city walls of the imperial capital of the Grand Xia.

Aside from the hundreds of thousands of patrolling walking corpse puppets, there were also human soldiers maintaining order, as well as guarding the gates of the imperial capital.

From time to time.

The human soldiers looked at the puppet army with shock and reverence in their eyes.

"So many puppet Warriors."

His Majesty Emperor Xia must be an extremely powerful puppeteer of the human race.

"Yup,"

"The rumors are true."

Everyone was talking in low voices.

In reality.

Puppeteers needed to consume energy to control the puppet Warriors. Puppeteers consumed soul power, while Jiang Li's special meches consumed 'Mechanical Soul power'.

In the base of the 01 division.

Within the room in the ruler's hub.

Hidden Dragon, activate the 'teleportation room'.

go! Jiang Li ordered.

"Yes."

Hidden Dragon replied.

In the past few days.

Jiang Li was ready. He had hundreds of millions of soldiers, so he would lead the 'great Xia Army' made of puppets and meches to attack the sky demon Kingdom.

In the past few days.

Jiang Li had rested enough.

"All troops, teleport!"

Buzzzzzz!

The 'teleportation room' was immediately activated.

A wormhole vortex appeared.

After that.

teleportation room. Jiang Li vaguely felt the fluctuation of space. The entire 'teleportation room' glowed and in an instant, Jiang Li's entire 'great Xia Army' was teleported away.

Shua! Shua!

first of all ...

The floating battleships in the sky disappeared first, then the meches in the mech factory were teleported away, and the 60 million puppet army outside the city was the last.

Obviously.

The teleportation room covered a very large area. Even the area outside the imperial capital of the Grand Xia was covered by space, allowing one to directly teleport.

The scene changed.

marquis black snake.

Black snake King's old location.

In the sky above the base of the No. 010 Army.

Buzzzzzz!

The spatial fluctuations were extremely obvious.

After that.

First, almost a million floating battleships appeared and were teleported here.
Then, almost forty million meches were teleported here.

outside the capital.

shua! Shua! “Whoosh!”

More than 60 million puppet Warriors were teleported over.

The great Xia Army had arrived at Marquis Black snake.

At the teleportation station of the base.

Space cracked open.

A vortex-shaped wormhole tunnel appeared.

After that.

Jiang Li walked out of the tunnel.

Immediately after.

Xing Wuwu followed Jiang Li.

“This Suan ni, this Suan ni”

Xing Wuke's eyes widened as he looked around, " is this really a spatial teleportation? We've already left the imperial capital of the Grand Xia! Hiss! Hiss! Hiss! Hiss! Hiss! Hiss! Hiss! Hiss!

Xing Wuke sucked in a cold breath.

shocking!

He was extremely shocked!

Emperor Xia had really mastered the 'mystery of space' and was able to perform long-distance teleportation. This was a concept that only the Imperial dynasty could come into contact with.

Shua! shua!

Soon after.

The four soul realm controllers, ynjsw01, DTS01, MYL01, and the mechanical Soul Spiritmaster walked out of the wormhole tunnel one by one.

Obviously.

This time, Jiang Li sent out all his forces. He only left some Air Scouts, mechanical winged air soldiers, and a holographic mech to stay in the imperial capital for communication.
