

Army 501

Chapter 501

” let’s go. ” jiang li soon left the great xia camp on foot. he returned to the base of the no. 01 division and summoned qx01 and the commanders of the battlefield.

at this moment.

in the military camp.

Bang Bang Bang Bang Bang Bang

From time to time, dense gunshots could be heard. The great Xia soldiers were familiarizing themselves with their firearms.

The room in the ruler’s hub.

“Chief sovereign.”

commander Jiang. the commanders saluted Jiang Li.

“Yes.”

okay. Jiang Li nodded.

Shua!

Immediately.

QX01 projected the holographic projection of the battlefield in the ‘darkfield country’ and split it into nine squares. The battlefields were reflected in his eyes.

“Kill!”

BOOM! boom! boom!

In the holographic projection.

Loud and clear battle cries could be heard. The battle was extremely intense.

The Alliance Army in the darkfield sea had launched a full-scale attack on the major islands of the darkfield country, and had already occupied more than half of the darkfield country’s territory.

And now.

Only the ‘Black King Island’ and the eight ‘Dragon protection islands’ were left to defend against the Alliance Army’s attack.

it could be said that ...

The situation in the country of heiyu was very dangerous.

“Ruler, the various powers of the Black Sea are all built on the islands. Their ships and naval forces are all extremely developed, and they are also equipped with all sorts of underwater combat equipment.”

it’s fine,” zh01 said. based on the strength displayed by the various forces in the Black Sea, we only need to send out an Army of ten million elite meches and a Tier 6 high-end combat force.

“We only need one day to completely conquer the Black Sea.”

“that’s right.”

to the current great Xia Dynasty, conquering the Black Sea is as easy as blowing off dust.

All the battlefield commanders said one after another.

“i naturally understand what you’re saying.”

No. Jiang Li waved his hand. but this time, I don’t plan to send my mechanical Army. I’m planning to use the dark sea as a training ground for the Xia soldiers.

because I also want to see how powerful the martial artists of this world can be on the battlefield after being equipped with firearms. If there is value in training them, I will continue to expand the great Xia Army.

“I see.”

“The hegemon truly is far-sighted,”

“we are inferior.”

The commanders of the battlefield said one after another.

“My Lord, since the battlefield is within the Black Sea, there will definitely be a ‘naval battle’. There will also be a ‘landing battle’. Will the soldiers of the great Xia Army be able to complete the mission?”

Zh01 said.

if it can’t be completed, it means that the Army of soldiers formed by martial artists and firearms is useless. I won’t waste my time on this in the future.

jiang li said.

“Yes.”

“We understand,”

the battlefield commanders said.

“Oh, that’s right.”

zh01, ” Jiang Li asked. how’s your cultivation technique? ”

“reporting to you, chief sovereign.”

“We’ve already trained our cultivation technique to the peak of the type 3 realm, and we can learn other skills now.”

“Alright,” he said.

yes. Jiang Li nodded. as for the new skills, you can choose them based on your own situation. I won’t interfere.

“Yes.”

“Yes, sir.”

The battlefield commanders responded.

The next day arrived.

In the morning.

...

“ruler, there’s an unexpected situation at the battlefield of the black sea.”

At this moment.

Yes, sir. the Intel force monitoring the battlefield in the dark sea sent back a message. QX01 immediately reported to Jiang Li.

“What’s the situation?”

Jiang Li asked.

“Whoosh!!!”

QX01 activated its holographic communication skill.

The scene unfolded.

“My Lord, the darkfield Kingdom has received powerful foreign aid.”

It’s very likely that the half-monster Alliance sent them, ” QX01 said. although there aren’t many of them, there are only about 100 of them.

“They’re all level four half-demons.”

...

“There might be stronger half-fiends in the dark.”

“oh.”

Jiang Li looked at it carefully.

On the battlefield.

“Rumble!”

The powerful team formed by a hundred level four half-beasts was like an extremely sharp knife, tearing a huge hole in the battlefield.

“Ah!”

miserable screams rang out continuously.

The Alliance Army’s soldiers were immediately severely injured.

“Bastard!”

BOOM!

Instantly.

The type 5 powerhouses from the Dark Zone Alliance Army immediately charged out. Dark light quickly made his move, summoning the fate true dragon and also unleashing the combat power of a type 5 powerhouse.

They managed to stop the Tier 5 Champions of the dark field Alliance.

“Hahahahaha!”

Dark light laughed wildly, ” you want to destroy my ‘darkfield country’ with just a bunch of motley crew? You’re all going to die today!”

“Dark light is very arrogant.”

I’ll go, ” Jiang Li said.

the half-monster Alliance has suddenly intervened. It seems that the great Xia Army can't completely deal with the black field country.

Jiang Li muttered.

In the morning.

Jiang Li immediately sent out the Super transport troops.

Super transport soldiers.

It was formed by the fusion of three types of transportation troops.

they were equipped with the skills of water, land, and air transportation.

integrated troop type: super transporter (elite) ”

[rank: rank two]

[No.: BAGC-cjys01]

skill 1: rank two is as easy as walking on flat ground ”

skill 2: second stage air transport ”

” skill 3: tier 2 water transportation

skill 4: second stage mechanical transformation ”

[machinery: Jian Jia (omitted)]

Obviously.

The Super transport soldier had four skills.

Since they were meches from the mech factory, they couldn't be upgraded.

Mechanical transformation.

It could allow the Super transport soldiers to change their forms, and they could freely change into three forms: 'large military transport plane', 'large military truck', and 'large military transport ship'.

Great Xia barracks.

Over 50 million great Xia soldiers were already waiting.

“Rumble!”

After that.

The Super transport soldiers were in the form of 'large military transport aircraft'. The steel planes descended from the sky and landed on the open space of the military camp.

There were many super carriers.

It was enough to hold more than 50 million great Xia soldiers.

“All troops, hear my order!”

Hong Tianqi took a deep breath and looked at the steel birds in front of him. He could not calm down. He waved his hand and shouted, “Board the plane.”

“Yes!”

hurry, hurry, hurry!!!

Ta ta ta da

The cabin door opened.

The great Xia soldiers suppressed the doubts and excitement in their hearts, then boarded the plane in an orderly manner and sat on the seats in the cabin.

The soldiers were naturally very curious about the situation inside the transport plane.

There was a lot of discussion.

Generally speaking.

A super transport soldier could transport about 1000 soldiers. For 50 million great Xia soldiers, they would need 50 thousand super transport soldiers.

However ...

” let’s go. ” jiang li sent out a hundred thousand super carriers.

“Let’s go!”

“Rumble!”

The next moment.

The engine roared.

The numerous military transport planes soared into the sky.

it was suspended in the air.

Hidden Dragon, activate the teleportation room!

Jiang Li said.

“Yes.”

Hidden Dragon replied.

“Whoosh!!!”

Within the teleportation room.

The wormhole maker was activated, forming a wormhole tunnel. Spatial ripples spread out, covering the entire imperial capital of the Grand Xia, as well as the Super transport troops that were floating in the air.

“Whoosh!”

After that.

The 100,000 super transport soldiers disappeared into thin air.

They were all teleported away.

The scene changed.

Within the territory of the Duke of Lion.

Base 012.

In the sky above the base.

shua! Shua! Shua!

Spatial fluctuations began to spread.

A total of 100000 super carriers were teleported here and appeared in the sky. They were densely packed, forming a huge fleet.

“What happened just now?”

“it’s awkward here.”

“Yi, we’ve already left the imperial capital of the Grand Xia.”

“Si si si ...”

“Duke Lion! This is the territory of the Duke of Lion!”

“This Suan ni, this Suan ni”

in the blink of an eye, we’ve arrived in the territory of the Duke of Lion.

“.....”

In the cabin.

The great Xia generals and soldiers looked out of the windows and observed the environment outside. Then, they confirmed their current location.

they were all extremely shocked.

Obviously.

With their knowledge and status, it was impossible for them to come into contact with the realm of 'space', because even the top dynasties would find it difficult to come into contact with 'space'.

Only the Imperial dynasty had the ability to use space.

so,

They could not understand this ability even if they racked their brains.

The imperial capital of the Grand Xia.

In the base of the 01 division.

Within the room in the ruler's hub.

shua!

QX01 projected the image of the Xia Army.

"Let's go."

Jiang Li said.

"Yes."

"Rumble!"

The Super transport fleet's commander gave the order, and the 100000 military transport planes flew at their fastest speed, leaving the base and heading towards the Black Sea.

“.....”

In the cabin.

The great Xia soldiers were all dumbfounded as they looked at the scene that was rapidly retreating outside the window.

“This is really amazing.”

“Such a huge iron bird, and it's able to fly so fast and so smoothly with us.”

“that's right,”

“your majesty is truly unfathomable.”

with such a fast flying speed, we should be able to reach the battlefield in the black field country this afternoon. Make your preparations. The next battle will be the first battle of our great Xia Army. We must not disappoint His Majesty!

“That's right!”

“We must win and return triumphantly!”

Xiao Xia and the other commanders clenched their fists.

His fighting spirit was high.

In reality.

In addition to the 50 million soldiers, Jiang Li also sent 100 mechanical fortress soldiers, as well as MYL01 and SSTs01 to the battle.

The mechanical pseudo-Demon God was not sent out.

Jiang Li stayed with her.

It could be said that ...

Unless the half-monster Alliance sent a level Seven half-monster to help the black field Nation.

Otherwise ...

the great xia army would win without a doubt.

This was also to ensure that nothing would go wrong.

Furthermore ...

MYL01 and SSTs01 were special mechanical units, able to evolve by devouring the souls of living creatures. Participating in the war would allow them to absorb more remnant souls.

At noon.

The Super transport troops arrived at the border of the great Xia Dynasty and came to the vicinity of the Black Sea. On the screen, there was a boundless Black Sea.

Hualala!

Kachaa! kachaa!

In the air.

Lightning flashed, Thunder rumbled, and the wind howled.

The storm was coming.

The vast ocean waves rose to the sky and swept across the horizon.

It was ten thousand meters tall.

Obviously.

The black region sea was extremely vast and was considered an inland sea. However, it was actually a part of the 'endless sea domain', which was located in the Saint peace state like a concave-shaped object.

The bad weather did not affect the Super transport soldiers 'flight.

It was still unimpeded.

Chapter 502 Naval battle

Half an hour later.

The Super transport troops left the stormy sea.

They flew all the way.

During this period, they discovered traces of various creatures and some villages on some islands, but they didn't pay much attention to them.

In the afternoon.

The Super transport troops had truly entered the darkfield country's borders.

“Land.”

mechanical transformation-large maritime military transport ship!

The commander of the battlefield gave the order.

Shua! Shua!

Immediately.

The 100,000 super carriers descended from the sky and began to transform. They activated the ‘mechanical transformation’ skill, and their bodies flickered with black light.

In the blink of an eye.

The 100,000 large military transport planes transformed into 100000 large maritime military transport ships.

All of them appeared on the surface of the sea.

They formed a huge fleet of ships.

Of course.

After all, these were only military transport ships. Their main purpose was to transport soldiers and supplies, not combat-type destroyers.

so,

They were only equipped with small-caliber naval guns and heavy machine guns.

The firepower was not high.

it also had a certain combat ability.

“It can actually change its form.”

“What a huge steel ship.”

“Si si si ...”

on the deck of the ships.

the great xia soldiers stood on it and looked at the super transport soldiers that had transformed into ‘transport ships’. then, they all exclaimed in surprise.

It was a feast for the eyes.

Obviously.

The mechanical transformation did not affect the great Xia soldiers.

Roar! “Roar!”

At this moment.

The roars of the sea beasts came from the sea.

this was because 100000 transport ships had suddenly appeared on the surface of the sea. each of them was huge and weighed a few thousand tons. such huge targets naturally attracted the attention of the ferocious beasts in the sea.

Hualala!

the sea water swept over.

then, it hit the transport ship, causing it to shake.

On the surface of the sea.

One after another, ferocious sea beasts appeared.

Their appearances were different.

“What a good fellow.”

“Be careful, these are all sea beasts.”

“prepare for battle.”

“Hurry!”

I didn't expect that we'd encounter a group of sea beasts just as we arrived near the country of heiyu. We didn't even start a war with the half-demons of the country of heiyu.

“I'll just use these sea beasts as practice.”

The great Xia soldiers shouted.

“A sea beast.”

Jiang Li's eyes lit up as he looked at the image. there are a lot of them. The Black Sea is such a big territory. There must be a lot of fierce beasts living there.

this is a good place to harvest soul Tinders.

Obviously.

Jiang Li set his eyes on the beasts in the Black Sea.

One had to know.

...

After Jiang Li's slaughter, there weren't many ferocious beasts left in the northern region of the Saint peace state. He had killed more than 99% of them.

"I just don't know if the 'bloodthirsty ferocious spirit formation' will be effective against these sea beasts."

Jiang Li thought, "the Black Sea is connected to the boundless sea. There are countless beasts in the boundless sea. I can't kill them all.

"Machine gun unit, get ready!"

"fire!"

Da da da da

On the deck of the ship.

The great Xia soldiers set up their light machine guns and arranged themselves in an orderly manner, forming a machine gun team. Then, they aimed at the ferocious beasts in the sea and pulled the trigger.

In an instant.

The machine gun fired.

The muzzle of the gun spewed fire.

...

Countless bullets formed a rain of bullets.

“Pfft! Pfft! Pfft!”

The bullets shot into the sea, splashing water everywhere. One by one, the beasts were killed, and their blood dyed the sea red.

However ...

After the bullet’s kinetic energy entered the sea, it was hindered and weakened by the sea water, unable to cause much damage to the beasts in the sea.

Of course.

With just one round of shooting, they had killed a large number of sea beasts.

da da da da

immediately after.

The automatic rifle unit and submachine gun unit followed closely behind, firing wildly at the surrounding sea. Countless bullets flew across the sky, killing a large number of sea ferals.

Buzzzzzz! Buzzzzzz!

Very quickly.

One after another, soul Tinders flew out of the sea and disappeared into thin air. They had obviously been captured from a distance.

Shua! Shua!

In Jiang Li's sight.

Notifications about the soul Tinder being captured popped up one after another.

Obviously.

When the great Xia soldiers used 'firearms' to kill living creatures, they would also drop soul Tinders and be captured in the air.

"Fire the bazookas!"

BOOM! BOOM!

Immediately after.

Over 10,000 Level 1 soldiers carried rocket launchers and quickly aimed at the larger sea beasts. They pulled the trigger and fired the Rockets.

An explosion sounded.

one of the sea monsters that looked like a giant octopus was killed by a few rockets. its head exploded and it became a headless corpse.

"Kill!"

Shua!

kill! Hong Tianqi shouted. He jumped up and flew into the sky. He stared at a huge sea snake beast, which was at rank three.

It was huge, at least a thousand meters long.

it set off terrifying waves and almost overturned a ship.

“Battle halberd art!”

Hong Tianqi held the heavenly halberd in his hand. Genuine Qi burst out and he thrust the halberd forward. The sea snake roared and shot out a water column from its bloody mouth.

boom!

The halberd radiance shattered the water column, but Hong Tianqi’s attack was also blocked.

“i’ll give you an artillery shell.”

the next moment.

hong tianqi took out the psionic rocket cannon on his back, aimed at the sea snake beast below, and pulled the trigger. the psionic rocket shell broke through the air.

“BOOM!”

It directly hit the sea snake beast’s head.

The Cannonball exploded.

The flames soared into the sky, forming a storm.

Pfff!

Blood splattered everywhere.

The head of the sea snake beast was blown to pieces.

“Hahahahaha!”

Hong Tianqi laughed wildly. It felt too good! his majesty’s weapon is too powerful, killing a tier 3 beast with one shot!”

“Hahahahaha!”

Time passed.

Half an hour later.

The sound of gunfire gradually stopped.

All the ferocious beasts in the surrounding Sea area had been cleaned up.

around the ship.

They were all corpses of ferocious beasts.

It dyed the sea red.

“Salvage the body.”

Hong Tianqi shouted.

“yes.”

the great xia soldiers got into action one after another. they fished out the corpses of the ferocious beasts and placed them on the deck of the ship. array masters immediately came over to set up the 'blood refining array'.

Other than a few more precious materials.

Most of the dead beasts had been refined into blood refinement pills.

then, he distributed them to the great xia soldiers.

“Cool! it’s so cool!”

“I had never thought that these beasts would be so weak.”

haha, my shot just now directly blew off the head of a Tier 1 vicious beast a few hundred meters away.

“the weapons his majesty gave us are too powerful.”

“That’s right,”

The great Xia soldiers were excited, and their morale was high.

“Let’s continue.”

the transport ship fleet sailed on the sea, the huge fleet was aggressive, with an indomitable momentum, they advanced towards the center of the black field country.

All the firearms.

The bullets used were all 'energy bullets'. Each gun could automatically absorb the free energy around it and condense it into 'energy bullets'.

so,

He finished his bullets.

All he needed to do was wait for a while.

The bullets would be completely restored.

of course.

Jiang Li could also use energy points to replenish his ammunition.

However, there was no need to.

Half an hour later.

Finally ...

Jiang Li's fleet passed by a large island. Because Jiang Li's fleet was too large, there were 100000 transport ships. As soon as they appeared, they immediately attracted the attention of the troops stationed on the island.

“Stop!”

“Which force are you from?”

On the surface of the sea.

Huge ships appeared and blocked the transport fleet's path.

“The water Army of the Alliance.”

“What do you mean?”

what else can we do? of course, we'll fight our way over. We're not here to negotiate with them.

“That's right!”

“attack!”

“Kill those who block my way!”

kill!!!

However ...

Jiang Li had sent the Xia Army here to conquer the Black Sea. He wanted to train them, so they attacked.

Da da da da

In an instant.

They fired their guns.

The bullets formed a rain of bullets, shrouding the fleet of ships in front of them.

Pfft! Pfft! pfff!

“Ah!”

A miserable scream rang out.

Blood splattered everywhere.

the soldiers on the ship were caught off guard.

“Enemy attack! Enemy attack!”

“Hurry up! Counterattack!”

“kill!”

Whoosh! Whoosh! Whoosh!

A furious roar rang out.

In an instant.

The formation was completed, and the beasts of the formation were formed. Countless sharp arrows and crossbow bolts flew across the sky, and the two sides fought.

“Set up the formation!”

“roar!”

At the same time.

Xiao Xia shouted.

buzzzzzz!

The murderous military Qi gathered and arranged an army formation. A huge army formation beast appeared and occupied the sky, blocking countless sharp arrows.

BOOM!

An explosion sounded.

the stage 2 great xia generals carried psionic rocket cannons and psionic cannonballs on their shoulders as they aimed at the naval fleet ahead and pulled the trigger.

after that.

The psionic cannonballs flew out one after another and exploded. Psionic flames soared into the sky, tearing through the defense of the Army formation and blowing the ships into pieces.

He was directly hit and sank.

“Ah!”

There were also countless screams of terror.

“what kind of weapon is this kasaya?”

“The enemy is too strong.”

“Retreat! Retreat!”

“Quickly inform the Lord Marshal!”

the soldiers of the allied forces screamed and their morale collapsed.

“Kill!”

“Hahahahaha!”

charge!!!

“We’ll crash into it!”

The transport ships immediately sped up and crashed into each other. The ships from both sides collided head-on, and the sharp steel prow of the transport ship pierced through the other ship.

Immediately.

The great Xia soldiers charged onto the enemy’s ships and engaged in an intense boarding battle. The great Xia soldiers who were armed with shrapnel guns aimed at the enemy soldiers and fired, bombarding the enemy soldiers into a bloody mess.

For a moment.

The great Xia soldiers had completely crushed this Navy.

Ten minutes later.

The Navy was completely annihilated. Hong Tianqi left one alive and carried out a cruel interrogation.

Chapter 503 status

The interrogation lasted for half an hour.

the commander of the navy couldn’t bear the cruel punishment. his will collapsed and he revealed a lot of information to hong tianqi.

Finally.

Hong Tianqi ended the man's life with one shot.

Bang!

a gunshot was heard.

The commander's head was pierced through, and a bloody hole appeared on his forehead. His stiff body fell backward and fell on the deck.

The Army of the Alliance in the dark sea.

There were only two main forces.

They were the human-ghost region and the demon territory.

Other than that.

There were also many forces of various sizes.

together, they formed the huge 'black sea alliance army'.

In total, hundreds of millions of soldiers were gathered.

Currently.

They had already taken down nine levels of the black field nation's territory.

Only the eight 'Dragon protection islands' and the 'Black King Island' in the middle remained.

Originally.

according to the alliance army's unstoppable offensive ...

the darkfield kingdom should have been destroyed long ago.

However, when they were attacking the 'Black King Island', they encountered a powerful team of 100 level-four half-beasts, which led to a stalemate.

He was unable to take it down for a long time.

After Hong Tianqi got the information, he led the Xia Army to land on the island and took over the island in half an hour.

All the Alliance soldiers on the island were killed.

“the location of the black king island is here.”

Hong Tianqi was holding a 'Jade slip map'. It was the spoils of war that he had obtained after capturing the island. It recorded the terrain and islands of the 'Black Sea' in detail.

buzzzzzz!

True Qi was injected.

The Jade slip formed a projection.

The ground opened up.

it was presented in front of hong tianqi, xiao xia, and the commander of the battlefield.

Similarly.

Jiang Li also clearly saw the map of the Black Sea through the holographic communication.

“In the entire Black Sea, other than some extremely remote places, there are a total of 3608 islands. The islands are of different sizes, and they are scattered all over the place.”

“The large islands are as vast as the small continents. They are as large as the Marquis of Red Dragon and the Marquis of da Qian of the great Xia Dynasty,” Hong Tianqi said slowly.

as for the small islands, none of them can be compared to a city.

“the former black field country occupied one-third of the black field sea and had almost a thousand islands. the black field king island is in the center of the ‘black field sea’”

“This is the place.”

Hong Tianqi raised his hand and pointed at an Island in the center of the map. It looked like a shell and was surrounded by eight other islands.

“For now,”

Hong Tianqi continued, “ the country of heiyu and the Alliance Army have been at war for a long time. Both sides have lost a lot of soldiers. The country of heiyu only has less than 20 million soldiers left.

” the alliance army, which originally had over a hundred million, is now left with only about fifty million. ”

” if it wasn’t for the sudden appearance of reinforcements from the darkfield nation, i’m afraid that the darkfield king island would have already changed hands.
”

so, I plan to set off from here, and then follow this sea route, full speed March, using the fastest speed to reach 'Black King Island'.

Hong Tianqi drew an almost straight route on the map as he spoke.

“alright!”

“Additional discussion!”

“as the saying goes, a long delay may cause trouble. i agree with general hong’s plan.”

“Alright!”

“Then let’s set off immediately!”

Xiao Xia and the other commanders said.

The commander of the battlefield did not say anything. He only nodded.

Obviously.

...

Hong Tianqi had been given full command of the war.

Jiang Li planned to use the Black Sea as a training ground for the Xia Army.

so,

Hong Tianqi’s ability to lead an Army was also an important factor.

Otherwise ...

let's go. Jiang Li sent out his elite mech Army. It wouldn't take long for them to destroy the black field Kingdom and the Alliance Army.

It didn't even take a day.

They would be able to take down the Black Sea.

After resting for a moment.

The fleet set off again, following the route that Hong Tianqi had set. They sailed at the fastest speed and passed by many islands.

Not only that.

...

During this period, there were several naval battles.

Many of the trade routes had already been occupied by the Allied forces. If Hong Tianqi and the others wanted to go over, they would have to fight with the Allied forces.

however ...

With the combat power of great Xia's Army and the help of firearms, the Alliance's Navy was no match for them at all. Great Xia's Army pushed forward and was invincible. It could be said that they would win every battle.

"The Internet Water Army is also weak."

"one shot and they're dead."

“Haha!”

“The great Xia is invincible!”

“long live your majesty!”

“.....”

The great Xia soldiers cheered in joy.

victory after victory had already made these great xia soldiers feel smug. they felt that they were invincible with guns in hand.

“.....”

Hong Tianqi looked at the excited great Xia soldiers and frowned, but he did not remind them. Instead, he remained silent.

“General, we can’t continue like this.”

At this moment.

Zhao Mo, one of the nine commanders, walked to Hong Tianqi’s side and said, ”
“There’s a saying that ‘proud soldiers are bound to be defeated’.”

the soldiers have experienced several wars and won every time, which has caused their self-confidence to swell. If they are blindly arrogant, I’m afraid that something big will happen.

furthermore, the Alliance’s Navy is only a small force. Even without her Majesty’s firearms, great Xia’s Army can easily win.

“But if we encounter the Alliance’s main forces, it’ll be completely different.”

“I know,”

Hong Tianqi took a deep breath and looked at the soldiers. He said slowly, ” Zhao Mo, you have to understand one thing. Do you know why his Majesty asked us to lead the great Xia Army to attack the Black Sea? ”

“This bi an ...”

Zhao Mo muttered.

after being in the great Xia Dynasty for so long, you should know that His Majesty Emperor Xia controls a super Army with terrifying strength, a huge number of troops, and extremely powerful combat power.

Hong Tianqi continued, ” it can be said that with the strength of the Army, as long as His Majesty Emperor Xia sends out that Army, it will be easy to take down the Black Sea.

“yes, yingluo.”

Zhao Mo was stunned.

“To train the soldiers.”

hong tianqi took out the laser psionic sniper rifle from his back. ” his majesty has spent a lot of effort to make this powerful weapon. ”

“Let us use it.”

His Majesty wants to create a powerful Army of Warriors who can control these special weapons. This is a special army that only belongs to the great Xia Dynasty.

if we disappoint His Majesty this time, I can imagine what will happen in the future.

At this point.

Hong Tianqi fell silent.

“.....”

zhao mo shivered.

“General, your subordinate understands.”

Zhao Mo came back to his senses and clenched his fists. His eyes were burning as he said, ” “This time, not only must our great Xia Army win, but we must also win beautifully.”

“I must make His Majesty Emperor Xia look at me in a new light.”

only in this way will His Majesty Emperor Xia pay more attention to the Xia Army.

“Yes.”

” yes. ” hong tianqi nodded. ” so, this is a test for us and the soldiers. if they can’t adjust their mentality in time, they don’t deserve to be soldiers of great xia. ”

of course, I still need to remind you.

“Yes.”

Zhao Mo nodded.

The night came quietly.

Late at night.

Hong Tianqi led the great Xia Army and arrived near the black king Island. They were not far from the island.

Far away.

ships could be seen densely packed like ants. they surrounded the entire black king island and blocked all the entrances and exits.

On the other side.

The room in the ruler's hub.

“It's getting late.”

it's late. Jiang Li stretched and looked at the night sky. Before he knew it, it was already late at night. He had been observing the great Xia soldiers' movements the entire day.

as for the performance of the great xia soldiers ...

There was nothing remarkable about it.

It wasn't outstanding.

he was not too disappointed.

It could only be said to be average.

jiang li asked qx01 to turn off the holographic projection and stop paying attention to the great xia soldiers. he left the room and went back to the great xia palace to rest.

“your majesty!”

“This servant pays her respects to Your Majesty!”

Along the way.

On the way, they encountered several groups of Palace maids and eunuchs.

They all stopped when they saw Jiang Li, then lowered their heads and knelt down.

“Yes.”

Jiang Li nodded in response.

Jiang Li didn't pay much attention to the Great Xia Palace, but as the palace expanded, there were more and more places to be taken care of, so there were more and more maids and eunuchs in the palace.

Even ...

Many civil officials of the Great Xia Dynasty sent their daughters to the palace to be maids so that they could get close to Jiang Li.

If he was lucky enough to be fancied by Her Majesty ...

That would be a blessing from the heavens.

Speaking of this.

Jiang Li hadn't had any concubines yet. He did favor Su You and Su Yanfei, but he didn't give them any status.

Squeak!

Jiang Li pushed open the door of the bedroom.

“Your Majesty.”

Su yanyue and su Jue were waiting in the palace.

Speaking of this.

This was because Jiang Li didn't set any rules in the harem. Usually, not everyone was allowed to enter the emperor's bedroom.

That would require flipping the cards.

Only those who were chosen had the right to serve the Emperor.

“Yes.”

Her sexy body was exposed in front of Jiang Li.

Her skin was fairer than snow, and her straight legs were round and slender.

“Go to sleep.”

Jiang Li said.

“yes.”

The night passed.

The next day arrived.

With the help of the palace maids, Jiang Li changed his clothes and had breakfast. Then, he went to the Azure Dragon Palace and started a new morning meeting.

In the Azure Dragon Palace.

“Yes.”

As soon as Jiang Li sat on the Dragon Throne, he felt the change in the fate of the great Xia Dynasty.

Vaguely.

he actually felt like he was about to break through.

Chapter 504 The human Emperor

“What’s going on?”

let’s go. Jiang Li immediately used his cultivation technique to suppress the surging fate of the country.

Buzzzzzz!

However ...

Although Jiang Li had suppressed the country’s fate, there was still a deep Dragon’s Roar from his body.

It covered the entire Azure Dragon Hall.

“Your Majesty”

Plop!

Within the palace.

xu ya, han liqi, the sorcerer tribe, pang kui, wu changding, wei lin, and the other ministers of great xia could not withstand the power of the dragon and knelt on the ground.

His face was filled with respect.

“yes.”

Jiang Li took back the Dragon power and looked at Wei Lin and the others. “wei lin, fei lian, have you already taken control of the entire northern region of the holy peace region?”

“Reporting to Xuanji, reporting to Your Majesty.”

Fei Lian took a deep breath and replied respectfully, “it’s not complete yet. We haven’t built a city in the area near The Endless Forest.

“oh.”

Jiang Li frowned.

Shua!

Immediately.

Azure Dragon technique. Jiang Li activated the Azure Dragon technique. The Azure Dragon appeared and spat out a beam of Azure light from its mouth. It projected a map of the Xia Dynasty in the air.

It could be seen.

This was the territory of the great Xia Dynasty.

it had already covered the entire northern region of holy peace state. more than 90% of the territory was covered by a green light, which meant that these places were already under control.

only about ten percent of the area was dim.

It indicated that it was not under control.

“This is a Kasaya.”

the sea of darkness? ” Jiang Li was stunned because he found that the sea of darkness was now covered by the light of the Xia Dynasty, which meant that the Xia Dynasty had taken it.

“i see.”

huh? ” Jiang Li reacted.

Obviously.

In the span of one night.

Hong Tianqi took down the Black Sea with the Xia Army. Jiang Li didn't know what happened, but he knew the result.

“Hahahahaha!”

haha! Jiang Li laughed.

as expected.

After occupying the Black Sea, taking down the black field Nation, and devouring the fate of the dynasty of the black field Nation, the great Xia Dynasty would naturally become an imperial dynasty.

Half an hour later.

The morning court session ended.

Jiang Li walked out of the Azure Dragon Palace and went to the room in the ruler's hub.

shua!

communication link.

QX01 stood next to Jiang Li and activated his holographic projection skill, forming a projection screen that clearly showed the situation on the island to Jiang Li.

in the image.

The first thing that came into view was the battlefield that was filled with mountains of corpses and seas of blood. The ground of the battlefield was covered with corpses and potholes that had been blasted by artillery shells.

The Alliance Army of the sea of darkness and the half-monster army of the country of darkness.

They were all exterminated.

Great Xia's Army won a huge victory.

they had lost thirty million soldiers.

The remaining 20 million power soldiers.

among them.

five of the nine commanders had died in battle.

Xiao Xia was also seriously injured.

hong tianqi injected a level 2 gene strengthening fluid at the last minute and broke through to the early stage of level 4. his strength increased greatly and he used the psionic destruction bomb to injure dark light.

...

In reality.

Last night.

The moment the war began.

MYL01 and SSTs01 made the first move and found the reinforcements that dark light had invited from the half-demon Alliance.

Other than the hundred level four half-beasts, there were two level five perfected half-beasts.

it was killed in two moves.

As for the 100 level four half-beasts ...

a hundred mechanical soldiers charged out and annihilated the level 4 half-monster army.

One night passed.

Great Xia's soldiers made use of the power of their firearms to engage in long-range attrition warfare. They then formed a defensive formation and pressed forward step by step, slowly nibbling away at the enemy.

They had achieved the final victory.

...

Among them.

kill them all! Jiang Li specifically told the commander to kill all the humanoids in the Alliance Army of the Black Sea. That was why MYL01 and SSTs01 attacked.

The human-ghost clan of the Alliance Army of the Black Sea was completely annihilated.

This battle.

In addition to a large number of Soul Fire Seeds, Jiang Li also got the ghost Soul Fire Seeds, the resources of the black field Kingdom, and the resources of the Black Sea Alliance.

of course.

It would still take some time for these resources to be transported back to the imperial capital.

“The great Xia! It's the great Xia again!”

Dark light was seriously injured. He knelt down on one knee, his face full of despair. Then, he shouted angrily, “The half-monster Alliance won't let you go! Definitely not!”

Pfft!

SSTs01 swung its sword down and beheaded dark light.

Buzzzzzz!

Suddenly.

Dark light's body emitted a pure golden light, which condensed into a pure golden light spot, and then disappeared into thin air.

Shua!

[acquired a Tier 5 soul Tinder!]

a notification appeared.

“Hehe.”

Jiang Li smiled.

BOOM!

“roar!”

Dark light had fallen, and the heiyu nation had perished.

the black field country's national aura true dragon appeared. the huge dragon body began to collapse and the invisible national aura crossed the boundaries of time and space and rushed towards the great xia dynasty.

“the azure dragon art of the great xia dynasty,”

Buzzzzzz! Buzzzzzz!

” let’s go. ” jiang li activated his technique and the azure dragon of xia appeared. it wrapped around jiang li and devoured the fate of the black field country to strengthen itself.

“We’re almost there,”

Jiang Li felt the changes in the Azure Dragon.

Obviously.

After devouring the fate of the heiyu nation, the Azure Dragon of the great Xia would definitely be able to advance.

“Let’s wait a little longer,”

Jiang Li took a deep breath and tried to suppress the improvement of the fate of the nation. it’s too abrupt for me to advance just like that. I need to be fully prepared.

a month later.

The imperial capital of the Grand Xia.

The great Xia Palace.

The Dragon platform.

It was located in the center of the great Xia Palace.

It was a huge building in the shape of a Dragon. It was 10000 meters tall, and there were four-clawed true dragons carved on it. They looked like living creatures and were extremely eye-catching.

“We welcome Your Majesty!”

we welcome Your Majesty!!

welcome, Your Majesty!!!

With the Dragon Ascension platform as the center.

In the surroundings.

the ministers of great xia knelt down one after another.

The innermost circle.

They were Xu Ya, Hong Tianqi, han Liqi, Wu Zong, pang kui, Wei Lin, Ling Tian, Dong Xiao, Fei Lian, MA Heng, and then the Kings of the counties.

After that.

The officials and generals of great Xia were kneeling on the ground.

and the city lord of the city.

This included Luo Tianshui, Luo Yilin, dynasty, ma han, and so on.

There were tens of thousands of people.

Ta ta ta da

Clear footsteps could be heard.

Jiang Li. Jiang Li walked over slowly. He was wearing a Blue Dragon robe with a four-clawed true dragon on it. He looked majestic and was surrounded by the light of the fate of the nation.

The might of a human King was vast.

He suppressed the entire scene.

Obviously.

Jiang Li had been preparing for a month for the Xia Dynasty to become the Xia Empire. He finally controlled the entire northern region of the Saint peace state and even the Black Sea.

Everything was ready.

It was faster than Jiang Li had expected.

Today.

It was the moment Jiang Li ascended to the throne.

For this reason.

Jiang Li also built a 'Dragon platform'.

“.....”

In the surroundings.

Xu Ya, Hong Tianqi, and the others looked at Jiang Li with admiration. All the officials around them were also looking at Jiang Li.

His face was filled with awe and excitement.

Time passed.

let's go. Jiang Li walked up the stairs at a steady pace. With each step, he gradually released the suppression on his National fate.

Roar! “Roar!”

Immediately.

A series of deep and majestic dragon roars rang out.

“Whoosh!!!”

in the surroundings.

The vast spiritual energy of heaven and earth trembled, and the wind and clouds changed in the sky. There were lightning and thunder, and all kinds of earth-shaking phenomena were formed.

“Your Majesty!”

“It's His Majesty, Emperor Xia!”

“Today is the day that His Majesty, Emperor Xia, will ascend the throne as the ‘human Emperor’!”

“Quickly pay your respects!”

“.....”

The great Xia Dynasty.

Millions of citizens.

Because the Dragon Ascension platform was 10000 meters high and there were many strange phenomena, all the People's attention was focused on it. They all bowed in the direction of the Dragon Ascension platform.

Kachaa!

Finally ...

Jiang Li walked to the top of the Dragon platform.

With his hands behind his back, he looked down at all the officials of great Xia who were kneeling around the Dragon Ascension platform. He looked around at the millions of commoners who were kneeling and kowtowing in the imperial capital.

He looked around.

the place he was looking at.

all of them were great xia's territory!

it was all jiang li's territory!

Lofty sentiments!

“hu ~ hu ~ hu ~”

Jiang Li took a deep breath and gradually calmed down. He raised his head and felt the existence of the young dragon ranking.

However ...

As time passed, this feeling became weaker and weaker.

Obviously.

The great Xia Dynasty was about to leave the young dragon ranking.

“It’s starting.”

Jiang Li didn’t hesitate anymore. He immediately used the Azure Dragon technique and released the Fortune of the Xia Dynasty and the power of his true spirit.

“Roar!”

In that instant.

An earth-shaking Dragon’s Roar reverberated in all directions.

“Whoosh!”

The green light pillars shot up into the sky, penetrating the entire heaven and earth. A lifelike three-clawed Green Dragon appeared, winding around the green light pillars.

The Dragon’s might was released.

“.....”

At this moment.

Xu Ya, Hong Tianqi, and the others looked up with great excitement.

buzzzzzz! Buzzzzzz! Buzzzzzz!

After the Azure Dragon of the great Xia appeared.

Immediately.

Countless rays of green light gathered from all directions. These green lights were the National aura of the great Xia Dynasty, which was constantly being injected into the body of the great Xia Dynasty's Azure Dragon.

The Azure Dragon of the great Xia Dynasty became more and more solid.

It was as if it had materialized.

Shua! Shua! Shua!

Immediately after.

the azure dragon imperial decree, the azure dragon imperial jade seal, and the great xia marquis token-three nine-dragon level dynasty saint weapons flew out and merged into the great xia's azure dragon body like three azure dragons.

After that.

The great Xia Azure Dragon's body finally began to grow slowly. Although it was growing very slowly, almost by a meter, it was growing very steadily.

9,100 meters 9200 meters 9300 meters

Time passed by.

jiang li closed his eyes. when the azure dragon of xia was improving, the blessing of the country came and affected jiang li.

Jiang Li gained a lot from it.

The Azure Dragon technique of the great Xia circulated wildly.

His true spirit continued to condense.

His cultivation base was slowly increasing.

In such a situation.

It lasted for an entire day and night.

Everyone in the imperial capital of the Grand Xia also knelt for an entire day and night.

but ...

But no one had the slightest complaint.

Finally!

The Azure Dragon of the great Xia Dynasty had grown to 10000 meters!

shua!

the huge dragon's eyes were shining.

“Roar!”

The next moment.

Another earth-shaking dragon roar was heard. This dragon roar, under the mysterious power, spread throughout the entire northern region of holy peace state and the territory of the great Xia Dynasty.

Kachaa!

Finally.

The Azure Dragon's fourth claw was born.

It grew out of thin air.

A four-clawed true dragon!

A true dragon of the Empire!

It was a success!

The Azure Dragon of the great Xia Dynasty had broken through the final barrier and advanced from a three-clawed true dragon to a four-clawed true dragon.

“Today!”

Shua!

I'm the human Emperor! Jiang Li slowly opened his eyes. A Green Dragon-shaped light flashed in his eyes. He said in a low and majestic voice, "I'm the human Emperor!"

Chapter 505 Level

BOOM! BOOM! BOOM!

At this moment.

lightning flashed and thunder rumbled.

countless bolts of lightning flashed in the air above the imperial capital of the grand xia, like countless twisting and turning lightning dragons. strange phenomena began to appear as they circled the entire world.

It was difficult to describe such a vast and magnificent scene with words.

It was too shocking.

The 10,000-meter-long Imperial true dragon hovered in the sky. The lightning dragons were like stars surrounding the moon, circling around the Imperial true dragon.

“Whoosh!!!”

The Imperial true Dragon’s might spread out with the Dragon ascending platform as the center. It spread out in all directions and gradually enveloped the imperial capital of the great Xia Dynasty. In the end, it affected the entire ‘great Xia Dynasty’.

one had to know.

The territory of the great Xia Dynasty.

They had already occupied and covered the entire northern region of the Holy peace state, and they even controlled the ‘Black Sea’. Just the size of the northern region of the Holy peace state was already equivalent to the size of earth.

in addition to the ‘black sea’.

The area was even larger.

” long live our emperor! long live our emperor! ”

Below.

the ministers all bowed.

then, they shouted in unison.

He was extremely excited.

Within the imperial capital.

There were also millions of people kowtowing.

Not only that.

Because this was the promotion of a dynasty and a true dragon, the commotion and phenomena caused were so great that they had already affected the entire northern region of Saint peace state.

The Marquis of red eyebrows, the Marquis of Great Jin, the Marquis of great Wei, the Marquis of Lion, and the Marquis of Donglin, Lao Ai.

Those cities.

More than one billion citizens of great Xia.

There were also nearly two billion slaves.

All of them turned to look in the direction of the imperial capital.

At this moment.

the entire country was celebrating.

“I’ve sensed the Suan ni.”

Jiang Li, on the other hand, was calm. He closed his eyes again.

now.

Jiang Li’s consciousness seemed to have left his body. The Azure Dragon of Xia Dynasty hovered above Jiang Li’s head and gave off endless azure light.

It was like a canopy.

In the space of consciousness.

It was pitch black.

It was like a vast and endless universe.

shua!

Suddenly.

Jiang Li heard a dragon roar.

Immediately after.

From the deepest part of the space of consciousness.

An endless purple-gold true dragon that seemed to run through the universe rushed out. It contained endless might and seemed to be the ultimate truth of the world.

“Whoosh!!!”

finally.

The purple-gold dragon roared at the sky and burst into endless light, lighting up Jiang Li's consciousness space. In the end, it condensed into a vast list.

it slowly unfolded downwards.

it was clearly presented in front of jiang li.

Jiang Li looked closely.

Hidden Dragon rank-Saint peace state

[first place: ???]

[second place: ???]

...

[third place: ???]

.....

30th place-great Xia Dynasty, country name: Xia, human Emperor 'Jiang Li'.

“Hidden Dragon rank.”

Jiang Li finished browsing.

Obviously.

The great Xia Dynasty had been promoted to an imperial dynasty.

After leaving the 'young dragon List', his consciousness connected with the 'Hidden Dragon List' and entered the 'Hidden Dragon List', showing the information of the Saint peace state's dynasty.

However ...

Because the great Xia Dynasty had just been promoted and had just entered the 'Hidden Dragon List', they were sent to the bottom of the 'Hidden Dragon List'. More than 99% of the entire list was covered in a purple-gold fog.

Jiang Li could only see 'the Xia Dynasty'.

...

Other than that.

He could not see anything.

"30th place."

I can't see the information of the other dynasties, but from the hidden Dragon List, there are thirty dynasties in the entire Saint peace state.

the number of dynasties is more than three times that of the Imperial dynasty.

Wuwuwuwuwu!

The next moment.

The 'Hidden Dragon rank' shook a little, then it split into a fist-sized purple-gold light ball and flew to Jiang Li.

it merged into jiang li's body.

‘Congratulations to the great Xia Dynasty for becoming the great Xia Empire. You have entered the’ Hidden Dragon ranking-Saint peace state’. The position of the human Emperor.”

In his mind.

A message appeared out of thin air.

“Level.”

Jiang Li muttered.

Immediately after.

His consciousness returned to his body.

Jiang Li slowly opened his eyes.

In his eyes.

There was a flash of Dragon-shaped light.

“Roar!”

The next moment.

roar! the Azure Dragon that had become a ‘four-clawed true dragon’ roared and turned into a Dragon-shaped Azure light before entering Jiang Li’s body under the gaze of all the officials.

After that.

in the air above the imperial capital of the grand xia.

The various phenomena began to calm down.

Dynasty's promotion was basically complete.

Buzzzzzz!

however ...

Jiang Li sat down on the Dragon platform with his legs crossed and started to practice the Azure Dragon art. With the help of the Fortune of the nation, he began to cultivate and absorb the spiritual Qi.

It could be seen.

A giant whirlpool of spiritual Qi appeared above Jiang Li's head. Like a tornado, it sucked in the surrounding spiritual Qi.

All of it was injected into his body.

the four-clawed true dragon coiled around jiang li.

The Blue dragon's head leaned against Jiang Li's head.

In his dantian.

When Jiang Li reached the early stage of level six, the 'true elixir' broke into nine petals like a level-nine lotus flower and floated in his dantian.

At the center of the ninth-grade Lotus.

Jiang Li's true spirit sat cross-legged.

It was only an inch tall.

now.

Because the great Xia Dynasty had become the great Xia Dynasty, the Fortune of the country had increased. The blessing of the country had arrived. Jiang Li used the blessing to cultivate.

Increase cultivation.

Buzzzzzz! Buzzzzzz!

It could be clearly seen.

The green light merged into Jiang Li's true spirit. The 'true spirit' that was only an inch tall started to grow and become more solid.

not only that.

The 'true spirit' at the early stage of the sixth rank was originally only surrounded by the shadow of an Azure Dragon. Now, it began to condense a second, and even a third.

BOOM!

Finally ...

Jiang Li's body trembled and his aura rose. It was as if his cultivation was about to break through. His 'true spirit' grew from one inch to three inches and surrounded the three Azure Dragons.

At the same time.

His cultivation base had broken through to the mid-stage of the sixth rank!

Soon after.

Jiang Li gradually stabilized his cultivation, and the blessing of the nation also gradually calmed down. His cultivation was completely consolidated at the mid-stage of level six.

“Level.”

After Jiang Li stopped cultivating, he started to communicate with the ‘human Emperor’, which was the reward given by the ‘Hidden Dragon rank’.

Status!

The position of the human Emperor!

Very quickly.

Jiang Li felt the existence of the ‘position of the human Emperor’. It was hard to describe, but it seemed to exist in the depths of Jiang Li’s soul.

He looked like a green, four-clawed true dragon.

It was difficult to touch.

Yet, he could still sense it.

Buzzzzzz!

It could be seen.

When Jiang Li communicated with the ‘position of the human Emperor’, a Blue Dragon Mark appeared between his eyebrows, shining.

At the same time.

A substantial ‘Emperor’s pressure’ appeared on Jiang Li’s body and gradually spread out. It was like an evolution of life, making all the ministers of great Xia bow down.

“Whoosh!”

Immediately after.

The ‘position of the human Emperor’ emitted green light that passed through Jiang Li’s body and covered the ‘true spirit’ and the ‘level nine Lotus’ in his dantian.

Kachaa! Kachaa!

After that.

The ninth-grade Lotus formed by the ‘true core’ began to change. It gradually grew a tenth petal, an eleventh petal, and a twelfth petal.

In the end.

the ninth stage had advanced to the twelfth stage.

Buzzzzzz! Buzzzzzz!

every petal was engraved with the mark of a four-clawed green dragon.

BOOM!

Jiang Li's body trembled and his aura rose.

It was obvious.

The improvement of Jiang Li's strength was also a kind of evolution and advancement of life. Jiang Li now had the 'human Emperor' status, which was above the human race.

This was like having a 'divine spark'.

However ...

Those who had 'godhood' were the God race.

Jiang Li, on the other hand, was the human Emperor.

“hu ~ hu ~ hu ~”

Jiang Li opened his eyes. The Azure Dragon Mark between his eyebrows disappeared. Then, he stood up and looked down at the ministers of great Xia.

It could be said that ...

The great Xia Dynasty had been promoted to an imperial dynasty.

the fate of the country grew.

All the ministers of great Xia were also affected by the fate of the Empire. Although they didn't get as many benefits as Jiang Li did, they still gained some.

Shua! Shua! Shua!

immediately after.

Jiang Li waved his right hand.

Three beams of light fell from the sky and stopped in front of Jiang Li. They were the 'Green Dragon imperial edict', 'Green Dragon imperial seal', and 'Xia Marquis token'.

Three sacred weapons of National aura.

However ...

These three sacred weapons had also been upgraded from nine-Dragon Dynasty sacred weapons to one-Dragon Dynasty sacred weapons. Originally, there were nine three-clawed Azure Dragon shadows surrounding them, but now, there was only one four-clawed Azure Dragon Shadow left.

but ...

its power had increased greatly.

“keep.”

Shua!

Green Dragon imperial edict! Jiang Li said. The 'Green Dragon imperial edict' and 'Green Dragon Imperial Jade seal' turned into two rays of green light and flew into Jiang Li's body, floating in his dantian.

They were nourished by the fate of the Empire.

“congratulations on your promotion, xia emperor! Congratulations to the great Xia Dynasty for being promoted to an imperial dynasty! Long live the Emperor!”

At this moment.

Around the Dragon ascending platform.

The ministers of great Xia shouted in unison again.

“Yes.”

Jiang Li looked at the ministers calmly and said in a serious tone, ” “All of you have contributed to the promotion of the great Xia Dynasty,”

“We are all ashamed.”

the promotion of the great Xia Dynasty was all because of His Majesty’s invincible posture. He conquered the enemy country and cut through all the obstacles, which was how it was promoted to an imperial dynasty.

“We don’t dare to claim credit.”

“.....”

xu ya, wu zong, and the others said one after another.

“The Grand Xia’s Marquis medallion,”

Jiang Li didn’t say anything else. He activated the fate of the nation and injected his true essence into it. The Marquis token immediately flew out of his hand.

Shua!

after that.

A green radiance flashed.

the map of the grand xia empire was revealed.

He took a closer look.

The various territories of the great Xia Empire were clearly marked on it.

“This is a Kasaya.”

“The territory of Grand Xia.”

“Could it be that Your Majesty is going to do something?”

“Marquis!”

instantly.

The officials immediately raised their heads and looked at the map of the great Xia Empire displayed by the Marquis token. Their eyes were burning with excitement.

The great Xia Dynasty.

Marquis of great Xia, Marquis of red eyebrows, Marquis of man Yi, Marquis of Cang lang, Marquis of black snake, Marquis of Cang Huang, Marquis of da Qian, Marquis of Donglin, Marquis of Yong Ling, Marquis of Wei, Marquis of Jin, Marquis Wugu, Marquis Yanque, Marquis Wuling, Marquis spirit moon, Marquis changman, Marquis Haoyue, Marquis Black Dragon, Marquis heavenly demon, Marquis little heavenly demon, Marquis little Chang, Marquis demonic wind, Marquis Liyi, Marquis great Cang, Marquis Shu, and Marquis heiyu.

There were a total of twenty-six Marquises.

“Feilian, come forward and receive your orders.”

stop! Jiang Li shouted.

“Your subject is here!”

Fei Lian suppressed his excitement and quickly walked forward. He knelt in front of the Dragon Stage and kowtowed to Jiang Li. His forehead hit the ground, making a ‘bang’ sound.

It was extremely clear.

Chapter 506 Nuclear energy

“Yes.”

Jiang Li looked at Fei Lian calmly and said, ” general Fei Lian was originally one of the three generals of the Shu country. The king of Shu was defeated and joined me. He did not manage to persuade the new ‘Liu Chang’ to surrender, but he did contribute by helping me to conquer the Shu country.

“Today, in the name of the Xia Emperor, I grant ‘Fei Lian’ the title of Marquis of Shu!”

“Thank you, Your Majesty!”

The Feilian kowtowed again in excitement.

“Roar!”

Immediately.

A Dragon’s Roar resounded.

Shua!

Immediately after.

Jiang Li waved his right hand and a ray of green light flew out, carrying the fate of the dynasty, and then merged into the FEI Lian's body.

BOOM!

Instantly.

Fei Lian's body trembled.

He circulated his true Qi.

The fate of the nation descended.

in that instant.

A thousand-meter long 'four-clawed Dragon' appeared behind Fei Lian. It sat in the air and lowered its head at Jiang Li.

Buzzzzzz!

Fei Lian sat down cross-legged.

With the protection of the Empire's fate, the 'great Xia Azure flood Dragon technique' appeared in his mind, allowing the Feilian to receive the blessing and feedback of the Empire's fate.

He immediately circulated the 'great Xia Azure flood Dragon technique' with all his might.

time passed.

An hour later.

Fei Lian's aura increased.

Cultivation base breakthrough.

It rose from the middle-stage of the fifth rank to the late-stage of the fifth rank.

Furthermore ...

with the blessing of the empire's fortune, the cultivation speed of the feilian would be increased, and its talent and aptitude would be strengthened. it would probably break through to the perfected stage of type 5 soon.

"Congratulations, Marquis Feilian!"

" congratulations! "

"....."

In the surroundings.

The ministers of great Xia congratulated him.

"Thank you, Your Majesty, for your kindness."

The Feilian knelt down and kowtowed.

"yes."

okay. Jiang Li nodded.

Time passed.

In the following period of time.

There were 26 Marquises in total. Apart from the Marquis of great Wei, the Marquis of Great Jin, the Marquis of Donglin, and the Marquis of Yongling, there was also Fei Lian, so there were 21 more Marquises.

‘xu ya’ was conferred the title of marquis king of great xia.

Hong Tianqi was given the title of Marquis of the Black Dragon.

MA Heng was conferred the title of heaven demon Marquis King.

Feng chenzi was given the title of spirit moon Marquis.

He conferred ‘Wu changding’ the title of Marquis Wuchang.

Luo Tianshui was conferred the title of Marquis of da Qian.

Luo Yi Lin was given the title of red eyebrows Marchioness.

He gave ‘Bai zhanbo’ the title of black snake Marquis.

Wu Zong was given the title of Marquis Cang lang.

Pang kui was given the title of Marquis Yanque.

hu dong was given the title of barbarian king.

He conferred ‘han Liqi’ the title of Marquis of panic.

...

Zhou Tianzhang was given the title of Marquis of the five spirits.

The 'dynasty' was given the title of Marquis changman.

Marchioness ma han, Marquis Haoyue.

he was given the title of 'wei wu xian'.

He conferred Chang Wuqi the title of Marquis of little Chang.

'Ke ji Ming' was conferred the title of little sky demon Marquis King.

Shang Jie Lin was given the title of strength ant Marquis King.

He conferred 'Changping Wang' the title of Marquis of the great Cang.

He conferred 'Mo Sha' the title of Marquis of the black domain.

Roar! "roar!"

The enfeoffment was completed.

...

In total, there were twenty-one marquisate Kings.

He turned into 21 four-clawed Dragons and hovered above the capital. Each of them was a thousand meters long. They saluted Jiang Li.

"We thank Your Majesty!"

Xu Ya was the leader.

Twenty-one Marquis Kings.

At the same time, he bowed to Jiang Li with great respect.

“Yes.”

okay. Jiang Li looked around and nodded in satisfaction.

It could be said that ...

Including Wei Lin, Dong Xiao, Ling Tian, and Jin Wushuang, there were a total of twenty-six Marquis Kings. Among them, Marquis Shu's territory was the largest.

but ...

The one with the highest status was Xu Ya.

That was because Xu Ya was the Marquis of da Xia.

The imperial capital of the Grand Xia was within the borders of the 'Grand Xia Marquis'.

Other than that.

Wu Zong, pang kui, Hong Tianqi, Xu Ya, Bai zhanbo, and the others were not only marquissate Kings, but also important officials of the great Xia Dynasty. They held important positions such as the Minister of War, the Minister of Justice, and the elder of the medicine Pavilion.

They all had high status.

“The Grand Xia Empire will set today as the founding day of the Empire.”

it’s time. Jiang Li continued to announce, ” the historian will record it down. With today as the start, we’ll announce it to the world on January 1st, year 000 of the great Xia calendar.

“Yes!”

“This subject will remember it in my heart!”

The ministers all kowtowed.

At the same time.

There were records by the historians of great Xia.

it was also recorded in the ‘great xia history book’, recording all sorts of battles.

It was already evening.

let’s go. Jiang Li walked down from the ‘Dragon Stage’. The ten-thousand-meter tall’ Dragon Stage ‘was originally made of ordinary materials. Since Jiang Li ascended to the throne here and became the’ human Emperor’, the ‘Dragon Stage’ was stained with the ‘fate of the dynasty’, so it became a little magical and contained a trace of the power of the human Emperor.

However, it was not obvious.

Other than that.

The ‘Dragon Ascension platform’ would also become the landmark of the Xia Empire.

Three days later.

The Imperial Palace of great Xia.

Azure Dragon Palace.

Morning court meeting.

“Your Majesty.”

Wang Chao kowtowed, then took out a Memorial from his chest and presented it.

The current dynasty.

He was no longer a member of a small gang, but the Marquis of changman. His status was not low, and he controlled the entire territory of changman.

It could be said that ...

Wang Chao had become a Lord from a member of a small gang thanks to Jiang Li's recognition and promotion. His loyalty to Jiang Li had almost reached 100%.

because ...

Everything he had was given to him by Jiang Li.

Jiang Li did fulfill his promise-I'll make sure you'll live-good life if you follow me.

“The Junwang of each county within the changman Marquis's territory has been confirmed, and the city Lords of each city have been registered. The medicine Pavilion policy has also been fully implemented.”

wang chao said respectfully.

“Yes.”

Jiang Li nodded and opened the memorial.

In the memorial.

It had detailed records of the Marquis of prosperous Savage’s situation, and even included how many mu of medicinal fields each city had plowed, as well as an estimation of the production of medicinal herbs.

“Not bad.”

okay. Jiang Li nodded in satisfaction.

“Reward!”

Shua!

Jiang Li waved his right hand and a bottle of level-one gene strengthening liquid flew to Wang Chao.

“Thank you, Your Majesty.”

Wang Chao caught it excitedly and kowtowed continuously.

“Your Majesty, Marquis da Cang, Lao Ai!”

“little marquis chang, qianqian.”

“strength ant marquis qianqian”

Immediately after.

Chang Wuqi, ke Jiming, Wei Wuxian, and the other Marquises quickly submitted their memorials for Jiang Li to read. The development of the Marquises was orderly.

“Reward!”

Jiang Li was very satisfied with the Marquis Kings ‘work efficiency, so he rewarded them generously and gave them one bottle of gene strengthening liquid after another.

In the morning.

As the Marquis Kings reported their findings.

The morning court session ended.

It was already noon.

Jiang Li read a lot of memorials in the morning, but he wasn’t tired. After all, he was already at mid-stage level six, so it didn’t take him much energy to read some.

In the afternoon.

Jiang Li arrived at the base of Army 01.

And now.

The great Xia Dynasty had completed its promotion and the various marquises had been conferred the title of marquise King. They had also begun to develop in an orderly manner. The various marquise Kings had managed their territories in an orderly manner.

So, everything was developing in a good direction.

The entire dynasty was full of vitality.

“It’s about time.”

In the room of the ruler’s hub, Jiang Li called, ” “Hidden Dragon,”

“Chief sovereign.”

Shua!

The purple face appeared.

“Upgrade to Base 01.”

Jiang Li said.

“yes.”

Hidden Dragon replied, and a virtual screen appeared.

It showed.

upgrade plan 1: nine level-five soul Tinders, ten billion energy points.

upgrade plan 2: nine level-five soul Tinders, 100 million tons of steel materials, one billion energy points.

“I choose the second option.”

Jiang Li said.

“I’ve already chosen ‘Plan 2’.”

yes. Hidden Dragon replied, ” base upgrading in progress.

one had to know.

Jiang Li had trillions of tons of steel in his hands, so he would use steel first if he could.

buzzzzzz!

the next moment.

A vast screen of light covered the entire base. An illusory building appeared and soldiers started to work.

A large amount of steel materials were transported from great Xia’s Treasury.

Shua! shua!

The steel and iron materials were all integrated into the illusory building, gradually making the illusory building more solid. The engineers also used their virtual-reality transformation skills.

The promotion of the base of the 01 division was a bit big.

This was especially so when the labor-type soldiers had been transformed into transport vehicles to transport steel and iron, requiring them to travel through the streets. Naturally, the commoners of the imperial capital of the Grand Xia had all seen this.

However ...

The commoners of great Xia had looks of respect in their eyes.

Regarding these matters, the citizens of the imperial capital of the great Xia were already used to it. They knew that this was the secret of His Majesty, Emperor Xia. Although they were curious, they would not probe further.

They maintained their reverence.

Of course.

The entire imperial capital was under Jiang Li's surveillance. The Intel and holographic troops were monitoring the entire imperial capital.

They would basically be discovered at the first moment.

The only thing that awaited them was death.

Then, he shot it down.

An hour later.

The base of the 01 division completed its upgrade.

[prompt: congratulations, commander. the upgrade of army base 01 has been completed. all army base facilities have been upgraded to rank-5, and all equipment and units have been upgraded to rank-5.]

[add the Army's base facility-nuclear power station!]

“Chief sovereign.”

Shua!

The hidden Dragon appeared once again, and the purple human face became more three-dimensional and vivid. The spiritual light in its eyes was more abundant, and its tone of voice was no longer so mechanical and cold.

“Yes.”

what’s going on? ” Jiang Li noticed the change in Hidden Dragon and ordered, ” display the information of the 01 army base.

“Yes.”

Hidden Dragon replied.

Shua!

the screen unfolded.

“Interface: army base”

[sub-plane: army base 01]

[rank: rank five]

facilities: master’s hub (can be expanded), mech Armory (can be expanded), Research Center (can be expanded), Construction Center (can be expanded), Sentry tower (can be expanded), teleportation room (can be expanded), nuclear power station (can be expanded)

” basic construction requirements: ten normal mechanical soldiers, one normal mechanical engineer, 10000000 energy points

advancement requirements: nine level-six soul Tinders, 100 billion energy points ”

“Nuclear power station.”

Jiang Li's eyes were burning.

The appearance of the nuclear power station meant that Jiang Li was about to master nuclear power.

It could be said that ...

That was the ultimate technique of Earth's civilization.

“Hu ~~ Hu ~ Hu ~”

Jiang Li took a deep breath and calmed himself down. He then gave Hidden Dragon another order, “open all the facilities.”

Chapter 507 The chip

At the southernmost border of the great Xia Empire.

In other words, it was within the Black Sea.

“Whoosh!!!”

Shua! Shua!

There was a shock of spirit Qi.

after that.

two silhouettes broke through the air and stopped on the shore of the black sea. however, they did not go deep in. they looked around and revealed their figures.

two humans.

From his appearance.

He looked to be in his 30s or 40s.

Of course.

A level three connate realm martial artist had a lifespan of three hundred years, a level four true energy realm martial artist could live up to a thousand years, and a level five true core realm martial artist could live up to five thousand years.

In other words ...

It was impossible to tell a martial artist's age from their appearance.

“This is the Black Sea,”

The man standing on the left was thinner and had a long face, similar to a horse's. He said in a deep voice, ” “If we go any further and enter the Black Sea, we might have to cross the ‘black field country’.”

“Yes.”

The chubby-faced man on the right nodded, ” don't worry about the black field Nation. It's just a half-beast dynasty. They wouldn't dare to stop us.

“The main purpose of our visit this time is to establish a friendly diplomatic relationship with the ‘great Xia Dynasty’.”

“Let's go,” he said.

The horse-faced man said.

“Increase the speed.”

“I’ll try my best to reach the imperial capital of the grand xia by tomorrow,” the chubby-faced man said.

shua! Shua!

As soon as he finished speaking.

They quickly flew into the black Sea.

Time passed.

Half a day later.

They passed by the former ‘darkfield country’.

Black King Island.

“What’s going on?”

The horse-faced man looked at the huge island below in shock and said in surprise, ” “What about the black field Nation? How did it disappear? They are Yingluo.”

“This bi an ...”

The fat-faced man was also dumbfounded.

Shua! “Whoosh!”

immediately.

A number of Intel operatives flew over, and the drones surrounded them. Their tracks had been discovered by the Intel operatives.

“What is this?”

The horse-faced man looked at the surrounding drones. mechanical puppets? ”

“Let’s not act rashly.”

The chubby-faced man’s pupils contracted slightly as he said cautiously.

He looked down and saw several figures flying over. The one in the lead even carried the aura of the Empire’s fate.

“Roar!”

The next moment.

A thousand meter long green four clawed flood Dragon appeared.

“Who are you? state your name.”

Shua!

On the head of the four-clawed flood Dragon.

The Marquis of the dark domain, Mo Sha, stood on top with his hands behind his back. His gaze was cold and carried the might of the Empire’s fate as he stared at the two men before him.

he asked in a deep voice.

“The dynasty flood Dragon.”

The long-faced man swallowed his saliva and looked reverent. it’s actually a flood Dragon from dynasty. In other words, this person in front of me is a Marchioness of dynasty!

“What a good fellow.”

...

The fat-faced man was also shocked.

“My respected Marquis of the Empire.”

The chubby-faced man calmed down and cupped his hands. Then, he introduced in a respectful tone, ” “I am Cande, and this is my colleague, Li Ji.”

“Li Ji greets the Marquis of the Empire.”

The horse-faced man cupped his hands and saluted.

“Yes.”

Mo Sha looked at ke de and Li Ji. He could feel the fluctuations of vital essence from their bodies, which meant that they were at least fourth stage National guardians.

in reality.

Mo Sha’s cultivation was only at the great circle of stage three.

However ...

Mo Sha was a Marquis of a dynasty, protected by the fate of the dynasty. In terms of status alone, he was comparable to the human King of a human dynasty. Therefore, although ke de and Li Ji were fourth level National guardians, they did not dare to show Mo Sha any disrespect.

...

“Respected Marquis King.”

“If I’m not mistaken, this should be the king Island of the half-fiend dynasty-black zone country, why is it in a mess now?” Cande asked with a puzzled tone.

“Hehe.”

Mo Sha laughed and said arrogantly, ” ” it’s just a half-beast dynasty. his majesty, the xia emperor, sent out an army of great xia soldiers, and in less than two days, they took down the entire ‘black sea’. ”

“The entire Black Sea is now the territory of the great Xia Empire.”

as for the ‘black field country’ that you mentioned, it has long been destroyed under the iron hooves of the great Xia Army.

“It’s destroyed.”

Cande was shocked.

“Si si si ...”

Li Ji took a deep breath. the heiyu nation has the support of the half-monster Alliance’s Holy Land. They will definitely ask for help from the Holy Land when their nation is in danger of being destroyed.

“I didn’t expect that the Grand Xia Empire would be able to silently wipe them out.”

After a while.

they gradually came back to their senses.

“Your Excellency Marquis King, we are the emissaries from the wind order dynasty from the central region of the Holy peace Region. We would like to meet the respected Emperor Xia.”

“To express the goodwill of the wind order dynasty, may I ask Your Excellency to introduce us?” Cande asked.

“Oh.”

Mo Sha glanced at them, ” Feng Ji dynasty’s Messenger, you want to see Emperor Xia.

“I’ll have to trouble you, Your Excellency.”

he said.

Cande took out a treasure and placed it in Mo Sha’s hand.

* Cough cough *

mo sha took a look at it and his eyes lit up. he coughed lightly and kept the treasure in his arms without a trace. he said indifferently, ” “I can introduce him to you, but I can’t guarantee whether His Majesty will see you or not.”

“No problem, no problem.”

“it’s enough that your excellency the marquis is able to introduce us,” ke de said with a smile.

“that’s good.”

mo sha nodded his head in satisfaction.

The drones of Jiang Li’s super Intel troop had already sent the information to the imperial capital.

Outside the hegemon’s hub.

QX01 arrived.

“Chief sovereign.”

QX01 knocked on the door. Marquis Black field’s super Intel soldier unit has important news. Do you want to answer? ”

“Oh.”

open the door, ” Jiang Li said. Hidden Dragon, open the door.

“Yes.”

The door to the room in the ruler’s hub opened.

Tada tada

QX01 walked in.

“Chief sovereign.”

QX01 saluted.

“What is it?”

Jiang Li asked.

“Please take a look, chief sovereign.”

Shua!

QX01 waved his right hand and projected the image sent by the Marquis of Black Field's super Intel soldiers in front of Jiang Li, forming a clear video.

Half a minute later.

He finished watching.

“Wind order dynasty.”

It's from the central region of the Saint Peace State. If I'm not wrong, the Wind Order Dynasty is ranked fourth in the 'Young Dragon Ranking'. It's only slightly lower than the Great Demon Dynasty of the Monsters and the Gale Barbarian Kingdom of the Barbarian Race.

It's also at the critical point of becoming a dynasty.

After the Great Xia Dynasty became an Empire, the first one to come into contact with the outside of the northern region of the Holy Peace State was not an Empire, but a human empire.

“I wonder what the situation is like in the central region of the Holy Peace Region.”

Shua!

At this moment.

all right. Hidden Dragon showed Jiang Li all the facilities in the base.

[facility: master's hub]

Lord's arms: base heart (unlocked), normal Lord's armor (unlocked), elite Lord's battle armor (unlocked), Lord's aide (locked 111/1) ”

.....

“Facility: mech factory”

factory units: normal mech production line (unlocked), normal mech production line (unlocked), elite mech production line (unlocked), elite mech production line (unlocked)

.....

[facility: Research Center]

Research Unit type: Normal research equipment Center (unlocked), normal mechanical research soldier (unlocked), elite research equipment Center (unlocked), elite research soldier (unlocked), biological research soldier (111/1 locked) ”

.....

[facility: Construction Center]

[construction units: normal mechanic soldiers (unlocked), normal mechanic engineers (unlocked), psionic engineers (unlocked), hovercraft technicians (locked 111/1)]

.....

[facility: Sentry tower]

Sentinel units: normal Sentinel mechanical soldier (unlocked), normal Sentinel mechanical soldier Captain (unlocked), mech soldier (unlocked), air Sentinel soldier (locked 111/1)

.....

[facilities: teleportation room]

teleport units: normal wormhole maker (unlocked), mechanical teleport unit (unlocked), wormhole upgrade unit (locked 111/1)

.....

facility: Nuclear Station

nuclear soldiers: mechanical nuclear energy manufacturing base (unlocked), mechanical nuclear soldiers (locked 111/1)

.....

Jiang Li read the information of the facilities in the base in detail. There were seven types of facilities in total, and a new 'nuclear power station' was added.

The mech factory didn't have any new facilities or units.

the other five facilities.

They all had brand new troops.

Furthermore ...

It turned out that all the facilities and units had been upgraded to type 5.

unlocking the 'ruler's aide'.

Jiang Li said.

Shua!

He had consumed a fifth-tier soul Tinder.

[master's aid has been unlocked!]

A notification appeared.

“Create a 'ruler's aide'.”

Jiang Li confirmed.

It consumed one billion energy points.

“Whoosh!!!”

The manufacturing interface appeared.

What appeared on the interface was not an illusionary figure, but an extremely small A. I. Chip. It slowly rotated and then gradually solidified.

A minute later.

[creation complete!]

shua!

The solid chip appeared in front of Jiang Li.

He took a closer look.

It was an extremely small black Chip.

Shua!

[Lord's arms: Lord's aide]

[rank: rank five]

[No.: Zz fz01]

“Skill: rank 5 human biochip technology”

[machinery: Jian Jia (omitted)]

Simple basic information.

“Activate,”

Jiang Li was sure.

“Yes.”

Shua!

” master's aid ” was activated. the tiny black human biochip glowed and moved closer to jiang li.

It came to the back of Jiang Li's head.

It was close to Jiang Li's skin.

“Whoosh!!!”

finally.

The ‘human biochip’ was integrated into it.

It was implanted into Jiang Li's body.

Ding!

jiang li heard a clear sound.

shua!

Immediately.

A virtual projection screen appeared on Jiang Li's retina.

It formed images and data streams.

‘Human biochip implanted [implanted successful] [binding successful]
[biological brain activated] [activated complete]’

“My Lord, zzfz01 is at your service.”

The AI's voice sounded.

“yes.”

okay. Jiang Li nodded.

‘Master’s aide’.

It was equipped with the ‘human biochip technology’, which could implant an auxiliary brain into Jiang Li and monitor his body’s condition in real time.

At the same time.

The AI could also analyze the situation for Jiang Li during a battle. After careful calculation, it could even predict the enemy’s attack and had various auxiliary functions.

The most important thing was ...

As the Army’s base upgraded, the ‘Dominator-helper’ and the ‘human biochip technology’ would also be upgraded. Naturally, the strength of the artificial intelligence would also be upgraded.

In the later stages.

The computing speed of the smart-brain could even deduce the changes of the world.

He had to plan for the future.

Chapter 508 The coordinates

immediately unlock ‘biological research soldier’, ‘suspension technician’, ‘air Sentinel’, ‘wormhole upgrade’, and ‘mechanical nuclear soldier’.

Shua!

Jiang Li used five level-five soul Tinders to unlock all five types of facilities.

There were still 106 Tier 5 soul Tinders left.

[biological research soldier has been successfully unlocked!]

.....

[hovercraft technician has successfully unlocked!]

.....

[air Sentinel has been successfully unlocked!]

.....

[wormhole upgrade successful!]

.....

mechanical nuclear soldier has been successfully unlocked!

.....

Immediately.

Five notifications popped up.

jiang li glanced at it and closed all five pop-up windows.

“hidden dragon,”

open the mech factory, ” Jiang Li said. open the information immediately.

“Yes.”

Hidden Dragon replied.

In the mech factory.

on the fifth floor.

Currently, it was empty.

After the base was upgraded to level five, the mech factory could naturally produce level five meches.

However, the fifth floor had not been equipped with a ‘production line’ and ‘production soldiers’.

The original level four mech factory could accommodate one billion meches. After it upgraded to level five, it could accommodate ten billion meches.

First of all ...

A level five mech factory.

From the first level to the third level.

One thousand ‘ordinary mech production lines’ could be set up on each floor, and each ‘ordinary mech production line’ would be equipped with one hundred ‘ordinary mech production soldiers’.

It could maximize the work efficiency of the first to third floor.

One hundred 'elite mech production lines' could be set up on the fourth floor, and each 'elite mech production line' would be equipped with one hundred 'elite mech production soldiers'.

it could maximize the efficiency of the fourth level.

Finally.

On the fifth floor.

Ten 'elite mech production lines' could be set up, and each 'elite mech production line' would be equipped with 100 'elite mech production soldiers'.

At the same time.

Since the 'normal mechanical production line' and 'normal mechanical soldier' were both level five, the speed of production was ten times faster.

In other words ...

The first level.

A level 5 'normal mechanical production line' with a hundred Level 5 'normal mechanical soldiers' could produce 100000 Level 1 meches every second.

One had to know.

When the mech factory was only at level three, a level three 'normal mechanical production line' with a hundred level three 'normal mechanical soldiers' could only produce a thousand level one meches per second.

now.

It had already increased by a hundred times.

in other words ...

With 1,000 'ordinary mechanical production lines' and 100000 'ordinary mechanical production soldiers' working at full power ...

It could create 100 million Level 1 meches per second.

As a result ...

It would increase the speed of Jiang Li's Army and allow him to produce a large number of low-level soldiers in a very short time.

The second level's manufacturing speed was ten times slower than the first level.

It could create ten million level two meches per second.

...

The third level was ten times worse than the second level.

It can create one million Level 3 meches per second.

The fourth floor.

That was even more different.

a type 5 'elite mechanical production line' with a hundred type 5 'elite mechanical soldiers' could produce ten type 4 meches per second.

When the mech factory was at level four.

It took one second to create a level four mech.

as a result ...

a total of 100 tier 5 'elite mechanical production lines' with 10000 tier 5 'elite mechanical soldiers' could produce 1000 tier 4 meches every second.

Finally.

The fifth floor of the mech factory.

...

The production speed was 100 times slower than the fourth level.

A level five 'elite mech production line' with a hundred level five 'elite mech production soldiers' could produce one level five mech per second.

In other words ...

If the fifth floor had ten level five 'elite mech production lines' and one thousand 'elite mech production soldiers', it could produce ten level five meches per second.

Currently.

From the first level to the third level, there were 100 'ordinary mech production lines' and 10000 'ordinary mech production soldiers'.

the fourth floor was equipped with ten 'elite mech production lines' and one thousand 'elite mech production soldiers'.

I'll gather the units on the fourth and fifth floor first.

I'll make one hundred 'elite mech production line' and ten thousand 'elite mech production soldiers'.

Level 5 facility troops.

creating one would require one billion energy points.

This time, a total of 10100 were produced and 10100 billion energy points were consumed.

Buzzzzzz! Buzzzzzz!

The manufacturing interface appeared.

In the interface.

Two illusionary figures appeared. One was in the shape of a furnace, and the other was a human-shaped mech. They were spinning slowly.

countless light spots filled the space.

it gradually solidified.

A minute later.

[creation complete!]

A notification appeared.

Shua! Shua!

On the fifth floor of the mech factory.

Buzzzzzz!

Ten 'elite mech production lines' appeared out of thin air. They were ten purple-black furnaces that looked like alchemy furnaces, and one thousand 'elite mech production soldiers'.

In the fourth level.

Shua! shua!

Similarly.

There were 90 'elite mech production lines' and 9000 'elite mech production soldiers'. The fourth and fifth levels of the mech factory were fully equipped.

After they were fully equipped, they could no longer continue to produce 'production units'.

2700 'ordinary mech production lines' and 270000 'ordinary mech production soldiers' are needed for the first to third levels. That's too much.

it'll take nearly three hundred trillion energy points to build so many level-five 'production units'. The energy points I have right now aren't enough.

"There's no need to think about it for now."

"but the current equipment is enough for now."

Hidden Dragon, display the image of the 'teleportation room'.

" go! " jiang li ordered.

“yes.”

Hidden Dragon replied.

shua!

The projection in the teleportation room appeared in Jiang Li’s sight.

after the upgrade.

In the ‘teleportation room’, there were still ten ‘normal wormhole makers’, and the number of ‘mechanical teleportation soldiers’ had reached 1000.

all of them had advanced to the fifth step.

Of course.

After the promotion.

His ability had been improved.

Originally.

ten level four ‘normal wormhole creators’ could transport one hundred million meches at once. it was ten times more than the original amount.

It could teleport one billion people.

“Create ten ‘wormhole boosters’.”

Jiang Li spent ten billion energy points.

Buzzzzzz!

The manufacturing interface appeared.

in the interface.

a black 'ring'- like shadow appeared. it was about a meter in diameter and was filled with countless light spots.

It gradually solidified.

A minute later.

[creation complete!]

A notification appeared.

Shua! Shua!

Immediately.

Ten black rings appeared.

It was floating in front of Jiang Li.

teleportation unit type: wormhole upgrader

[rank: rank five]

[No.: Cdsj01]

“skill: rank 5 wormhole upgrade technique”

[machinery: Jian Jia (omitted)]

A brief message appeared.

Jiang Li finished reading it carefully.

To put it simply.

The 'wormhole upgrade device' was similar to a 'accessory', and it was used to upgrade the 'normal wormhole creator'.

activate 'wormhole upgrade'.

Jiang Li confirmed.

Buzzzzzz!

Spatial teleportation.

The ten black rings in front of Jiang Li teleported away and came to the 'teleportation room'. They were floating in front of the ten 'ordinary wormhole creators' that looked like round doors.

Shua! Shua!

After that.

The ten black rings fused into the 'ordinary wormhole creator' one by one and disappeared in the blink of an eye.

The fusion was a success.

Buzzzzzz! Buzzzzzz!

The light flickered.

Just from its appearance.

There was no change to the ‘normal wormhole maker’.

teleportation weapon type: upgraded wormhole maker (elite)

[rank: rank five]

skill 1: rank 5 wormhole creation

skill 2: rank 5 spatial positioning teleportation technique

[machinery: Jian Jia (omitted)]

Hence.

Jiang Li checked the information after the upgrade.

“they’ve become elite troops.”

I’ve also gained the ‘spatial teleportation technology’, ” Jiang Li said. I’ve improved a lot.

First of all ...

Ten upgraded wormhole creators.

It could teleport ten billion meches at once.

In other words ...

The number of teleportations had increased tenfold.

In reality.

The increase in teleportation numbers was only secondary.

the most important thing was the 'spatial positioning teleportation technology'. this skill could create 'spatial positioning coordinates', which jiang li could carry around with him.

After activation.

It had two functions.

The first function was to teleport Jiang Li, who had the 'space coordinate', back to the teleportation room 'in the base of Army 01.

The second function was to open a 'portal' and send the mech Army to Jiang Li.

It could be said that ...

These two functions.

Every single one of them was extremely powerful.

The first one.

Unless the enemy could seal the space, Jiang Li could escape whenever he encountered a strong enemy.

The second.

It would allow Jiang Li to summon his mech Army at any time.

“Immediately create ‘spatial coordinates’.”

” go! ” jiang li ordered.

Shua!

[prompt: an upgraded wormhole maker can only create one ‘spatial coordinate’, and it will consume 100 million energy points! [confirm?]

“I’m sure,”

Jiang Li’s tone was undeniable.

Buzzzzzz! Buzzzzzz!

One billion energy points were deducted.

The ten upgraded wormhole creators emitted bursts of light, and extremely intense spatial fluctuations appeared, gathering bursts of silver light.

finally.

Ten silver light spots were formed.

[ten spatial coordinates have been created!]

A notification appeared.

Shua!

Ten silver light spots disappeared from the ‘teleportation room’ and appeared in front of Jiang Li. They then flew to Jiang Li and imprinted on his left palm.

he took a closer look.

Each silver light spot turned into a petal and formed a Silver Lotus in Jiang Li’s palm. Then they slowly disappeared.

Chapter 509 Living creature

“Not bad.”

Jiang Li carefully sensed the ‘space coordinate’ on his left palm. There were ten of them in total, and he could activate them ten times at any time.

In other words ...

Jiang Li had ten chances to save his life.

Activating one ‘space coordinate’ could teleport one billion meches at once. If all ten were activated, ten billion meches could be teleported.

furthermore ...

These ‘spatial coordinates’ could be created by consuming energy points after they were used up.

“Next up is the Research Center.”

Jiang Li said.

Shua!

Jiang Li. Hidden Dragon immediately projected the scene of the Research Center for Jiang Li.

The scene was divided into five parts.

From the first level to the third level.

there were 100 'ordinary mechanical research facility centers' and 10000 'ordinary mechanical research soldiers' on each floor. since the army base had been upgraded to stage five, these research soldiers had all been upgraded to stage five.

The fourth floor.

There were ten 'elite mechanical research and equipment Center' and a thousand 'elite research soldiers'.

Similarly.

All of them had also advanced to the fifth step.

On the fifth floor of the Research Center.

There was nothing.

There was no equipment or troops.

” create 100 'elite mechanical research and equipment center' and 10000 'elite research soldiers'. ”

Jiang Li controlled the Dominator panel and used 10110 billion energy points to build 'research soldiers'. build ten more' biological research soldiers'.

as a result ...

More than 20 trillion energy points had been consumed.

“Whoosh!!!”

the manufacturing interface appeared.

A minute later.

[creation complete!]

A notification popped up.

shua! Shua!

The 'elite mechanical research equipment Center' appeared on the fourth and fifth floors of the Research Center, and the elite research soldiers also appeared.

only the 'biological research soldier' appeared in front of jiang li.

“My Lord!”

The ten biological researchers saluted Jiang Li.

Five men and five women.

They were all wearing white coats.

The man was handsome, and the woman was beautiful.

“yes.”

okay. Jiang Li nodded and looked at them.

Currently.

A type 5 Research Center could only have 10 biological research soldiers.

Shua!

research soldier Type: Biological research soldier ”

[rank: rank five]

[no.: swkey01]

“Skill: Tier 5 genetic biotechnology”

[machinery: Jian Jia (omitted)]

A message appeared.

Biological research soldier.

He had mastered ‘genetic biotechnology’, and his main ability was to research ‘biological genes’. He was able to create powerful ‘genetic biological weapons’, ‘genetic biological potions’, and so on.

Of course.

If he wanted to make 'genetic biological weapons' and 'genetic biopharmaceutical', Jiang Li needed to provide a large number of 'biological corpses 'for the' biological research soldiers 'to research.

...

Other than that.

what kind of 'genetic biological weapon' and 'genetic biological medicine' could be developed was also uncertain, and it also required time.

It was impossible to achieve it in one stroke.

"Go to work."

let me know. Jiang Li waved his hand. if you have any needs or difficulties, just tell me.

"Chief sovereign."

we need the bodies of different creatures, " swkey01 said immediately. we also need enough research equipment and the cooperation of research soldiers.

"yes."

yes. Jiang Li nodded. don't worry. The things you need have been prepared. The Research Center has stored a large number of corpses of creatures of different races.

including land beasts, sea beasts, barbarians, demi-demons, demon men, ghost gods, Devils, demons, and angel warriors of the God race.

"You can use these at any time."

...

also, you can use and mobilize all the research equipment and soldiers in the Research Center.

“Yes.”

“thank you, hegemon.”

we will definitely not let down the great Lord’s hopes. We will research ‘genetic biological weapons’ and ‘genetic biological medicine’ in the shortest time possible.

The ten biological researchers quickly replied.

“Go on.”

Jiang Li waved his hand.

“Yes.”

The ten biological research soldiers all left and headed to the Research Center. They immediately started working and ordered the research soldiers to retrieve the corpses of the creatures stored in the Research Center.

he began his research.

After watching for a while, Jiang Li lost interest because he couldn’t understand how the biological researchers worked.

Blood drawing, laboratory tests, various experiments, and so on.

It was really dazzling.

However ...

it didn't matter if he didn't understand it.

As long as the results were out, it was fine.

Shua!

[facility: Research Center]

[research unit type: yingluo (omitted)]

[current scientific research results-Level 1: [(omitted)]

[current scientific research results-Tier 2: [(omitted)]

[current scientific research results-Tier 3: [(omitted)]

[current scientific research results-level 4: blueprint of [pixiu] and [psionic heavy armor] (manufacturing price: One million energy points, one million Jin of steel material)

Level 5 Tier 5 technology: Tier 5 gene strengthening fluid (available for research), Tier 5 nuclear weapon design (available for research), Tier 5 psionic weapon design (available for research), Tier 5 biotechnology (available for research), other technologies yet to be unlocked.

“as expected,”

I can start researching the level five gene strengthening liquid now, ” Jiang Li said to himself. I can't neglect the research of nuclear weapons, psionic weapons, and biotechnology.

” hidden dragon, immediately activate the ‘research center 5th floor’ and start researching the tier 5 gene strengthening fluid. ”

go! Jiang Li ordered.

“Yes.”

Yes, sir. Hidden Dragon replied, and data streams flashed rapidly, ” the fifth level of the Research Center has been activated. Research target: Tier 5 gene strengthening fluid, estimated time: 100 days, resources required: One billion energy points.”

“I only need a hundred days.”

Jiang Li could still accept it.

“Yes, I am.”

the fifth floor of the Research Center is fully equipped, ” Qian Long explained. with the help of the ‘biological research soldiers,’ it’ll only take 100 days.

“Is it possible to research two or more technologies at the same time?”

jiang li asked again.

reporting to my Lord, we are temporarily unable to research two or more type 5 technologies at the same time.

Hidden Dragon replied, ” only by completing the research of the Tier 5 gene strengthening fluid can we start researching other Tier 5 technologies.

“i know.”

okay. Jiang Li nodded.

Shua!

The screen of the Research Center closed.

Next.

All that was left was the 'Alert Center', the 'Construction Center', and the 'nuclear power station', a new facility that had been upgraded to level five.

Jiang Li looked at the number of energy points.

Not long ago.

Jiang Li occupied the country of Blackie and looted almost 90% of the entire Blackie ocean, including three small crystal mines and one medium-sized crystal mine.

so,

Jiang Li had gained more than 20 trillion energy points in the Black Sea.

plus ...

During this period of time.

Jiang Li had harvested a large number of mature herbs and spirit herbs in China.

so,

energy points: 31122.1 billion energy points.

Jiang Li still had more than 31 trillion energy points.

At the security Center.

There were four sub-guard towers and one main guard tower.

After advancing to the fifth step.

The power of the sub-guard towers had been upgraded. Each sub-guard tower was equipped with psionic cannons with Tier 5 destructive power, and each sub-guard tower had a thousand psionic cannons.

The power of the main psionic cannon of the main Sentry tower was more than ten times that of the psionic cannon.

It was enough to pose a threat to those at the sixth step.

Other than that.

After reaching the fifth step.

The number of troops that the security Center could accommodate had also been increased.

A sub-guard tower could accommodate 10000 people.

The main guard tower could accommodate 100000 people.

The entire base could accommodate millions of people.

[facility: Security Center]

[alert units: chenchen (omitted)]

[alert forces: 1 million normal alert mechanical Sentinels, 100000 normal alert mechanical Sentinels Captain, 10000 mechanical soldiers.]

“it’s a good thing that before i was promoted to the base, i had already allocated all the security forces to the base.”

Otherwise, I’ll have to waste a lot of energy points, Jiang Li thought.

after all, the cost of building a level five mech and a level four mech is 100 times higher. A level four mech only needs ten million energy points, but a level five mech needs one billion energy points.

create 1000 air Guardsmen.

Jiang Li used one trillion energy points to create a thousand air sentries.

The manufacturing interface appeared.

Wuwuwuwuwu!

a minute later.

[creation complete!]

A notification appeared.

Shua! Shua!

A thousand air guards appeared.

“Chief sovereign.”

A thousand air sentries appeared outside the room in the ruler's hub. They had the ability to fly and patrol in the air.

it could protect the base from air threats.

“yes.”

jiang li glanced at it and didn't pay much attention to it. he asked the air sentries to patrol around the base.

create a thousand 'suspension designers' and ten thousand 'psionic engineers'.

Soon after.

jiang li opened the 'construction center' and used 11 trillion energy points to build 11000 construction units.

Buzzzzzz!

The manufacturing interface appeared.

In the interface.

Two illusionary figures appeared and slowly made a choice. Countless light spots filled in and gradually solidified.

A minute later.

[creation complete!]

A notification appeared.

Shua! Shua! shua!

outside the room in the ruler's hub.

On the empty ground of the base.

There were 11000 construction troops.

10,000 psionic engineers and 1000 hover designers.

This was the highest quota for a Tier 5 Construction Center.

It could no longer increase.

Shua!

[construction unit: psionic engineer]

[rank: rank five]

[No.: Yngc01]

[skill: Tier 5 psionic base construction technique]

[machinery: Jian Jia (omitted)]

.....

[construction unit: hovering designer]

[rank: rank five]

[No.: Xfj01]

[skill: Tier 5 floating base construction technique]

[machinery: Jian Jia (omitted)]

.....

” psionic base and floating base. ” jiang li finished reading the information of the two types of construction units, psionic base and floating base.

He would be able to build a mobile ‘floating psionic base’.

In other words ...

With these two units, Jiang Li could turn the ‘01 army base’ into a ‘Castle base’ that could move in the air.

Chapter 510 Transformation

“Yngc01, Xifeng js01.”

Jiang Li called the two mechs into the room and asked them, ” “How many resources would be needed to transform the base into a ‘floating psionic base’?”

“How long will it take?”

“.....”

Yngc01 and Xifeng js01 looked at each other.

Immediately.

Xifeng js01 reported to Jiang Li.

“Reporting to you, chief sovereign.”

“Because Base 01 is a Tier 5 base, the transformation will require 10 billion energy points,” xfjs01 said.

also, energy points must be used for the modification. ‘Steel material’ can not be used.

the time required for the modification is related to the number of engineers undergoing the modification.

with one hovercraft designer, ten psionic engineers, a hundred normal Mechanical Engineers, and a thousand normal mechanical soldiers as a unit, it will take 10000 days to transform the ‘army base 01’.

for every tenfold increase in unit, the transformation time will be reduced by tenfold.

“Yes.”

Jiang Li muttered.

Currently.

At the construction center of the base.

Before Jiang Li upgraded the base of Army 01, he had filled the quota for the construction center, so there were a thousand hover designers, ten thousand psionic engineers, a hundred thousand ordinary Mechanical Engineers, and a million ordinary mechanical soldiers in the construction center.

Obviously.

otherwise, he wouldn't have thought of preparing all the facilities and units before upgrading.

"In other words ..."

"I'll put a thousand levitating designers, ten thousand psionic engineers, a hundred thousand ordinary Mechanical Engineers, and a million ordinary mechanical soldiers into operation," Jiang Li said. the modification time will be shortened by a thousand times.

"I only need ten days to complete it."

"Yes, I am."

Xfjs01 nodded.

"Alright," he said.

Jiang Li didn't hesitate and immediately ordered, "Let's not waste any time. We'll start the modification of the 01 base."

"Yes."

"Yes, sir."

Xfjs01 yngc01 nodded in response.

Of course.

Although they had to start the modification immediately, there was no hurry. The 'nuclear power units' of the 'nuclear power station' had not been manufactured yet.

Jiang Li walked out of the room.

They arrived at the southeast Region of the base.

There was an empty space here.

there was nothing.

At the nuclear power station.

In fact, it was an independent nuclear base. Although it was unlocked, Jiang Li needed to build it before it could be built.

to build a ‘mechanical nuclear energy manufacturing base’.

Shua!

Jiang Li used one billion energy points.

Buzzzzzz!

The manufacturing interface appeared.

In the image.

What appeared was an illusionary building like a base Castle. Countless light spots filled the surrounding, and the illusionary building gradually solidified.

A minute later.

[creation complete!]

“Whoosh!”

Immediately.

The 'base building' materialized out of thin air and gradually enlarged. It was as if it had descended from the sky and landed directly on the open space in front of them.

It formed a base building.

It was squarish.

It was about nine meters tall.

...

The words 'nuclear power station' were engraved on the top of the steel gate.

"Rumble!"

Jiang Li walked over.

The steel gate of the nuclear power station opened automatically.

He entered it.

The first thing that Jiang Li saw was an empty tunnel. Data screens were projected on both sides of the tunnel. The walls were black and steel-like, cold and high-tech.

Because the 'mechanical nuclear soldier' had not been created, the various facilities and equipment of the 'nuclear power station' could not be activated.

create 100 mechanical nuclear soldiers.

Jiang Li immediately used up 100 billion energy points.

Currently.

The ‘nuclear power station’ could only be equipped with 100 mechanical nuclear soldiers.

...

Shua!

The manufacturing interface appeared.

Buzzzzzz! Buzzzzzz!

The illusionary figure gradually solidified.

A minute later.

[creation complete!]

shua! Shua!

A hundred mechanical nuclear soldiers appeared in front of Jiang Li.

“chief sovereign.”

thank you. the hundred mechanical nuclear soldiers saluted Jiang Li at the same time.

“Yes.”

I see. Jiang Li nodded and sized up the mechanical nuclear soldier.

The ratio of men to women was half.

There were 50 males and 50 females.

he was wearing a full set of anti-nuclear radiation equipment.

Obviously.

Even the meches would be affected by the radiation.

Therefore, they needed to wear anti-nuclear radiation equipment.

” nuclear soldier type: mechanical nuclear soldier

[rank: rank five]

[No.: Jxhn01]

” skill 1: level 5 nuclear energy station operating technique ”

skill 2: Level 5 nuclear fission Technology ”

[machinery: Jian Jia (omitted)]

Jiang Li checked the mechanical nuclear soldier’s information.

It had two skills.

The ‘nuclear power station operating technology’ allowed the mech nuclear soldiers to operate the ‘nuclear power station’, and the ‘nuclear fission technology’ allowed the mech nuclear soldiers to create nuclear weapons ‘with the’ nuclear fission technology ‘as the core.

jxhn01, with the current 'nuclear power station', what kind of nuclear weapon 'can you make? "

what's the matter? " Jiang Li asked.

"Chief sovereign."

Jxhn01 took a step forward. She was wearing a full set of anti-radiation equipment, so her face couldn't be seen, but the voice belonged to a female.

"We need time to do research."

for now, " jxhn01 replied, " the only nuclear energy technology we have is 'nuclear fission', and it's the uncontrollable nuclear fission'.

during the research process, it will produce strong 'nuclear radiation'.

we suggest that before the 'controllable nuclear fission' technology is completed, master should not enter the 'nuclear power station' to avoid being affected by nuclear radiation.

of course, a ruler is already a rank 6 lifeform. The effects of nuclear radiation on a ruler aren't that great, but it will still have some effect.

"Uncontrollable nuclear fission."

that means you can make 'atomic bombs'. Jiang Li pondered.

"sure."

Jxhn01 nodded, " however, the 'atomic bomb' is only the lowest level of nuclear technology. Although the destructive power is shocking, if the yield is large enough, it can even destroy a Type 6 life form.

however, there is extremely powerful radiation, and the side effects are too great.

“I know.”

okay. Jiang Li nodded.

Soon after.

okay. Jiang Li went back to his room in the Dominator’s hub after browsing the nuclear power station.

Shua!

facility: Nuclear Station

” nuclear-powered unit: pi xiu (omitted)

nuclear energy technology: uncontrollable nuclear fission (mastered), controllable nuclear fission (available for research), uncontrollable nuclear fusion (available for research), controlled nuclear fusion (available for research), other nuclear energy technologies yet to be unlocked.

[uncontrollable nuclear fission weapon: 1000-ton nuclear bomb (manufacturing price: 10,000 energy points, 5000 kilograms of steel material, 10000-ton nuclear bomb (manufacturing price: 100,000 energy points, 100000 jin of steel material, 100000-ton nuclear bomb (manufacturing price: Million energy points, million Jin of steel material) million ton nuclear bomb (manufacturing price: Ten million energy points, ten million Jin of steel material), ten million ton atomic bomb (one hundred million energy points, one hundred million Jin of steel material), ten million ton atomic bomb (one billion energy points, one billion Jin of steel material)]

Controllable nuclear fission weapon: locked

Uncontrollable nuclear fusion weapon: locked

Controllable nuclear fusion weapon: locked

?.....?

the price of making an atomic bomb is a little expensive.

” a ten-million-ton atomic bomb requires one billion energy points and one billion kilograms of steel materials. steel materials are fine, but one billion energy points can make a permanent level five mech. ”

“The atomic bomb is a one-time-use item.”

a 1000-ton nuclear bomb is not expensive. It only needs 10000 energy points and 5000 kilograms of steel material. However, its power is much smaller.

Qian Long, speed up the research on ‘controllable nuclear fission’ technology at the nuclear power station.

go! Jiang Li ordered.

“Yes.”

yes. Hidden Dragon replied, ” ruler, you can mobilize the Research Center’s elite research soldiers to assist the mechanical nuclear soldiers in their research of nuclear technology.

“Alright,” he said.

yes. Jiang Li immediately nodded. mobilize the ‘elite scientific research soldiers’ to assist the ‘mechanical nuclear soldiers’ in the research of ‘nuclear technology’.

” mobilize 100 elite scientific researchers into the nuclear power station. ”

yes. Hidden Dragon replied, ” at the same time, we need to consume 10000 energy points every day to protect 100 ‘elite scientific research soldiers’ from the radiation.

“I’m sure,”

okay. Jiang Li nodded.

It was only 10000 energy points per day.

Not much.

He could afford to completely consume it.

After all, creating a type 5 elite research soldier would require one billion energy points.

At the Research Center.

A hundred elite research soldiers walked out of the research room and headed to the nuclear power station. The mechanical nuclear soldiers were already waiting outside the nuclear power station.

Inside the nuclear power station.

A mechanical nuclear soldier with an elite scientific researcher as his assistant began to study the ‘controllable nuclear fission’ technology with the help of the instruments and equipment in the ‘nuclear power station’.

Unknowingly.

It was already evening.

okay. Jiang Li had almost finished arranging the work for the stage five base. He spent ten billion energy points and a thousand hovercraft technicians and ten thousand psionic engineers started working with the ordinary Mechanical Engineers and meches.

“whoosh!!!”

first of all ...

a vast psionic light curtain covered the entire army base. illusory buildings appeared and were being modified.

If nothing unexpected happened.

At the latest, ten days later.

The transformation of the 01 army base would be completed. At that time, it would be able to leave the ground and rise into the sky, becoming a ‘floating base’.

At night.

Jiang Li went back to rest.

On the other side.

Because black demon had received benefits from ke de, he had no choice but to bring the wind order dynasty’s ke de and Li Ji to the great Xia’s imperial capital.

the next day.

Early in the morning.

Jiang Li got up early.

She washed up and had breakfast in the palace maid's clothes.

It had to be said.

Jiang Li had gradually gotten used to the service of the palace maids.

Azure Dragon Palace.

Morning court meeting.

Jiang Li listened to the ministers of the Xia Dynasty. The Xia Dynasty was thriving, so nothing major happened.

“your majesty.”

At this moment.

Mo Sha stepped out and kowtowed to Jiang Li. He said respectfully, ” “I have something to report.”

“It's accurate,”

Jiang Li said.

“Thank you, Your Majesty.”

Mo Sha's face lit up and he immediately said, ” “Your Majesty, two emissaries from the Fengji dynasty came yesterday and are currently waiting outside the great Xia Palace.”
