

Army 511

Chapter 511 Alliance

“Wind order dynasty.”

jiang li’s expression didn’t change.

“Mo Sha Marquis.”

The Marquis of the great Cang, Wang Changping, suddenly shouted, “You’re going too far. How can you be so sure that he’s really an envoy from the wind order dynasty?”

” also, can you be sure whether the other party is good or evil? ”

“You actually dared to bring them directly to the imperial capital of the Grand Xia, thus exposing the location of the imperial capital. If something were to happen, would you be able to take the responsibility?”

“yes.”

The Marquis of strength ant, Shang jielin, nodded slightly, “Chang Hou Wang’s words are reasonable.”

“Lord mo, you’ve been too hasty in this matter.”

Ke ji ordered.

at the very least, we have to figure out the other party’s true identity and intentions. Moreover, before bringing them here, we should have reported to His Majesty in advance.

Chang Wuqi said.

“You guys ...”

Mo Sha’s face turned ugly.

At the same time.

Xu Ya, Hong Tianqi, and the others also stared at Mo Sha with an unfriendly look.

The pressure on Mo Sha doubled.

“Your Majesty, I am guilty!”

Plop!

Mo Sha immediately knelt down with a look of fear on his face. He then took out an exquisite Jade box from his bosom and opened it to reveal a Purple Peach.

“This is a fifth-grade spiritual medicine, Purple Star peach!”

“What a good fellow.”

“.....”

In the surroundings.

Chang pingwang and the others widened their eyes.

One had to know.

This was a fifth grade spirit herb.

It was priceless.

Furthermore ...

The purple Star peach had the effect of assisting in a breakthrough.

Its value would be even higher.

“This subject received benefits from those two, that’s why I’m ridiculing them.”

Mo Sha did not dare to hide anything.

“Good job, Mo Sha.”

“You actually secretly accepted benefits? no wonder you brought those two envoys directly to the imperial capital of the Grand Xia.”

Your Majesty, I think that Mo Sha’s actions are unforgivable. He should be removed from the position of regional King and put in prison as a warning to others.

Chang pingwang said loudly.

“.....”

instantly.

The surrounding officials discussed animatedly.

It was a little noisy.

“Be quiet.”

shut up! Jiang Li yelled.

Immediately.

The hall was completely silent.

the officials lowered their heads in fear.

“Bai zhanbo.”

you’re the Minister of Justice, ” Jiang Li said. so, how do you think we should deal with this? ”

“.....”

Mo Sha knelt on the ground and looked at Bai zhanbo with a pleading look in his eyes.

“Your Majesty.”

Bai zhanbo glanced at him indifferently and said, ” according to the laws of the great Xia, Mo Sha has already broken the law. He accepted bribes from other countries ’emissaries and harmed the interests of the Empire for his own benefit.

“According to the law, the Junwang should be removed from his position.”

...

“Cripple your cultivation and be demoted to a commoner.”

“Your Majesty”

Mo Sha was shocked and his face turned pale.

He was quite frightened.

A moment of greed.

Was he actually going to end up like this?

“However, Yingluo”

At this moment.

Bai zhanbo’s tone changed. Lord mo was able to wake up in time and tell the truth in the hall. It can be considered as surrendering himself. Furthermore, he did not cause any substantial losses, so he can be given a lighter sentence.

“.....”

Chang pingwang pursed his lips and didn’t say anything more.

...

“of course.”

as for the specific punishment, ” Bai zhanbo continued, ” Your Majesty, you have the final say.

“Your Majesty, I was wrong, Zhenzhen.”

mo sha said with a pitiful expression.

“I can avoid death, but I can’t escape punishment.”

Jiang Li's eyes were cold. Mo Sha, you have to know that if I don't punish you for breaking the law, the laws of great Xia will be useless.

"I'm willing to accept my punishment."

Mo Sha kowtowed.

Roar!

The next moment.

Jiang Li reached out his hand to Mo Sha.

The great Xia Azure Dragon technique was activated.

A series of Dragon roars could be heard.

"Whoosh!!!"

the dynasty dragon might was released.

It pressed down on the ministers, making them feel as if there was a mountain on their backs.

buzzzzzz!

A Green Dragon Claw appeared and grabbed onto Mo Sha's body. Then, a four-clawed Green Dragon's ball of light was pulled out from Mo Sha's body.

"Ah!"

Mo Sha cried out in pain.

His face was pale.

“Mo Sha, I’ve taken away 90% of your country’s fate.”

Jiang Li said.

“thank you for your forgiveness, your majesty.”

Mo Sha kowtowed. Your Majesty is so magnanimous. I’m so grateful that I’m in tears. I’ll definitely atone for my crimes and manage the Marquis of the Dark Zone well for Your Majesty. The incident today will never happen again.

“yes.”

Shua!

okay. Jiang Li nodded and waved his right hand. The exquisite Jade box with the purple Star peach flew to Jiang Li.

Then, Jiang Li put it on the table in front of him.

The items were confiscated.

“Bring the two envoys from the wind order dynasty.”

Jiang Li said.

“Yes.”

Hong Tianqi nodded.

He ordered a few soldiers to bring the man back.

A few minutes later.

Ke de and Li Ji arrived at the entrance of the Azure Dragon Palace. Their faces were slightly reverent, but they tried to remain calm as they walked into the palace.

“Mo Feiyan, Marquis mo.”

Cande and Li Ji had just entered the palace, and the first thing they saw was Mo Sha kneeling on the ground. His face was pale, but there was a look of relief on his face.

“.....”

He raised his head again.

” what happened? ” cande saw the exquisite jade box on the table in front of jiang li. combined with mo sha’s situation, cande guessed what happened.

He quickly lowered his head.

“Feng Ji dynasty’s Messenger, ke de, pays his respects to Emperor Xia!”

Plop!

Without any hesitation.

Jiang Li. Cande knelt down and kowtowed to Jiang Li. He was very polite and his tone was very respectful.

“Feng Ji dynasty’s envoy, Li Ji, pays his respects to Emperor Xia!”

li ji immediately knelt down as well.

“.....”

In the surroundings.

All of the great Xia officials were sizing up ke de and Li Ji.

“Fourth rank.”

“The two of them are both at the fourth rank.”

the wind order dynasty must be quite powerful to be able to send two level 4 emissaries.

“I just don’t know what they’re planning.”

Wei Lin, Feng chenzi, and Hong Tianqi thought to themselves.

One had to know.

They were all Marquis Kings of the great Xia Empire, and everything about them was closely related to the great Xia Empire. It could be said that they were bound together for good or bad.

It was natural.

whatever they did, whatever they thought, they would instinctively consider it from the perspective of the great xia dynasty.

At the very least.

That was what they were thinking now.

“Wind order dynasty.”

Jiang Li glanced at Ke De and Li Ji. When his eyes fell on them, they were shocked.

They could clearly feel a terrifying pressure.

He couldn't even think of resisting.

They could only submit.

Obviously.

This was the oppression and rule of the human Emperor on ordinary humans.

Moreover ...

Jiang Li's cultivation was still at the mid-stage of level six.

He had far surpassed Cande and Li Ji.

"If I remember correctly."

The Wind Order Dynasty is ranked in the 'Hidden Dragon rank-Saint Peace State', "

Jiang Li said- it should be in third place now.

"Yes, I am."

Cande nodded. The Wind Order Dynasty has been established for more than 10,000 years. Now, the fate of the country has reached the peak of a dynasty. It is only half a step away from becoming an imperial dynasty.

It's the human dynasty that ranks third.

"It's about to be promoted to an imperial court."

“in that case, the wind order dynasty’s national power can not be underestimated.”

“Indeed,”

The ministers discussed in low voices.

“.....”

Cande and Li Ji also showed a faint smile.

Obviously.

They were proud to be a member of the wind order dynasty.

“Your Majesty, the Xia Emperor.”

Cande bowed once more. we are here with good intentions. If possible, we hope to establish a good diplomatic relationship with the great Xia Empire.

“Of course, if we can form an alliance, that would be even better.”

“An Alliance.”

what right does the wind order dynasty have to ally with the great Xia Dynasty? ”
Jiang Li asked.

“Your Majesty, Emperor Xia.”

Cande seemed to have expected Jiang Li to say that, so he said calmly, ” although the wind order dynasty hasn’t been promoted to an imperial dynasty, it’s only half a step away. It can complete the promotion at any time.

it has existed in the central region of the Holy peace state for more than 10000 years. It has been dealing with all kinds of imperial dynasties, and it has always been able to stand firm.

their national power, military strength, and high-end combat power are no longer weaker than ordinary weak empires. It's just that His Majesty has been suppressing it. He wants to use the blessing of the nation to break through to a higher realm, so he has not been promoted.

moreover, if the great Xia Dynasty wants to interfere in the central region of the Holy peace state, wouldn't it be better if they could get the help of our wind order dynasty? ”

after all, His Majesty Emperor Xia knows nothing about the situation in the central region of Saint peace state.

at the very least, the wind order dynasty can provide some help in terms of intelligence.

therefore, if we form an alliance, it will be a win-win situation for both the great Xia Dynasty and the wind order dynasty.

“Why not?”

“Good eloquence.”

Jiang Li said.

“Your Majesty, everything I've said is the truth.”

Cande bowed.

“This is a gift from my country's Emperor to you, Your Majesty.”

Immediately.

Cande took out a Crystal Jade slip from his pocket. please take a look.

“oh.”

Jiang Li glanced at SSTs01 who was standing next to him.

“Yes.”

SSTs01 nodded and walked to Cande. He took the Jade slip from Cande’s hand and handed it to Jiang Li respectfully.

“.....”

Cande looked at SSTs01 with fear.

After all, SSTs01 was too similar to the angel.

Furthermore ...

When SSTs01 stood in front of Cande, the aura it emitted made Cande’s legs shiver. It was too terrifying.

“As expected of a human dynasty.”

Cande was shocked and in awe, ” although I don’t know if this is the real ‘God race’s battle Angel’, this aura is too strong.

if we can form an alliance with the great Xia Dynasty, it will be more beneficial to the wind order dynasty.

“this is the map on the jade slip.”

Jiang Li took the Jade slip in his hand.

Buzzzzzz!

he injected his power of true spirit into it.

Immediately.

The Jade slip glowed and formed a very clear projection. It condensed into a vast three-dimensional projection map in the void in front of him.

The map of the central region of the Holy peace Region.

On the map.

It clearly showed the various iconic regions in the central region of the Holy peace Region.

“Your Majesty, Emperor Xia.”

” this is a detailed map of the central region of the holy peace state, ” cande said with a smile. ” it records the geographical locations of all the dynasties and clans in the central region. ”

“I believe it will be of some help to His Majesty, Emperor Xia.”

“The gift is not bad, I will accept it.”

Shua!

Jiang Li didn't take a closer look. After he deactivated his true essence, the three-dimensional projection map disappeared. He put the map back into his pocket.

Chapter 512 overbearing

“Your Majesty Emperor Xia, I wonder if you know about the Alliance between our two countries?”

” jiang li. ” cande looked at jiang li nervously.

“An Alliance?”

Jiang Li shook his head. He looked at Cande and Li Ji and said in a serious tone, ”
“The wind order dynasty is not qualified to ally with me.”

“go back and tell ‘feng ji’ that i can give your feng ji dynasty a chance to choose, which is to submit to the great xia empire and merge with it, becoming the great xia empire’s stepping stone for the battle against the ‘central region of the saint peace state’.”

“otherwise ...”

the Army of the great Xia Dynasty will definitely enter the order of the wind dynasty and flatten the capital.

“What!”

Cande’s eyes widened.

He didn’t expect Jiang Li to be so domineering and want the wind order dynasty to submit to him. It was simply wishful thinking.

“You’re so silly!”

Li Ji’s face darkened.

“Hu ~~ Hu ~ Hu ~”

Cande forced himself to calm down. Although he was furious, he didn't show it. Instead, he cupped his hands at Jiang Li and said,“”Since that's the case, I'll pass on Emperor Xia's words. I'll take my leave.”

“let's go,” he said.

Cande immediately hinted at Li Ji.

“your majesty emperor xia, we shall take our leave.”

li ji also bowed.

Finished speaking.

Ke de and Li Ji quickly walked out of the Azure Dragon Hall.

“.....”

In the surroundings.

Xu Ya and the others were staring at Cande and Li Ji.

However ...

Jiang Li didn't stop him.

A few minutes later.

Cande and Li Ji walked out of the great Xia Palace, wiping the cold sweat on their foreheads as they looked at the great Xia Palace behind them with lingering fear.

“Detestable.”

Li Ji clenched his fist and shouted, ” this Emperor Xia is too despicable. The wind order dynasty has clearly expressed enough goodwill, but he’s still pushing it.

“Not only did he accept the gift, but he also wanted the wind order dynasty to merge with the great Xia Dynasty.”

“It’s completely a fool’s dream.”

it’s just a newly-promoted dynasty. Do you really think you can defeat our wind order dynasty? ”

“Don’t say anymore.”

” this is no longer something we can decide, ” cande chided. ” i didn’t expect emperor xia to do this either. he’s so overbearing, asking the wind order dynasty to submit to him. ”

“Isn’t he afraid of us fighting to the death?”

” also, we have to leave this place as soon as possible. after all, this is the territory of the great xia dynasty. let’s return to the wind order dynasty and report this to his majesty for him to make a decision. ”

“When the time comes, whether we fight or surrender will depend on Your Majesty’s thoughts.”

“Yes.”

Li Ji nodded.

Shua! Shua!

Immediately.

Their bodies rose into the air, like two streaks of light, flying away from the imperial capital of the Grand Xia at maximum speed.

“Keep up.”

at the same time.

A tracking team made up of super Intel operatives had locked onto Li Ji and ke de’s whereabouts. They followed Li Ji and ke de and left the imperial capital of the great Xia together.

inside the azure dragon palace.

“Your Majesty, are we really going to war with the wind order dynasty?”

Chang pingwang asked in a nervous tone.

“Your Majesty.”

Wu Zong said, ” the Marquis and counties of the great Xia Dynasty have just stabilized. Everything is still under construction. If we suddenly start a war with a prosperous Marquis dynasty, I’m afraid it will have a great impact on the dynasty.

Fei Lian snorted coldly and looked at Chang pingwang, Wu Zong, Zhou Tianzhang and the others with disdain. He then shouted,”i think you’re the ones who are afraid.”

it’s just a prosperous Marquis dynasty. In His Majesty’s eyes, it’s as weak as chickens and dogs.

“Your Majesty.”

...

Fei Lian knelt down and kowtowed. I am willing to lead the great Xia Army to cross the Marquis of heiyu and enter the central region of the Saint peace state. I will start the first battle for Your Majesty.

“This official has a suggestion.”

MA Heng also knelt down. I am also willing to go with you.

“Your Majesty.”

Hong Tianqi said, ” great Xia’s Army has expanded to 100 million soldiers. With the weapons provided by Your Majesty, their combat power is strong. I believe it is enough to deal with the Army of the wind order dynasty.

“ahem.”

han liqi coughed lightly. ” marquis kings, we still need to think twice before we act. ”

“.....”

The ministers of great Xia were in an endless debate.

“Be quiet.”

Finally.

...

jiang li’s voice suppressed the arguments of the ministers.

wind order dynasty must choose to surrender.

they don't have a second choice, " Jiang Li said. since they're going to attack the central region of the sacred peace state, a war is inevitable.

"The Grand Xia Empire doesn't need an Alliance,"

"Pass down my orders. Tell the great Xia soldiers to prepare for war."

"Yes."

"We will do as you command."

"Yes, Your Majesty!"

The ministers all agreed, but there was no other voice.

It was close to noon.

The morning court session ended.

The ministers left the Azure Dragon Palace.

The news of the great Xia Dynasty's imminent war with the central region of the Saint peace state had also gradually spread.

All over the country.

One after another, they entered a state of preparation for battle.

"The next step is to build a base in each of the marquissate's territories of the great Xia Empire."

Jiang Li thought, with the Army base, I can use the 'teleportation room' to send reinforcements anytime and anywhere.

The Marquis of great Xia, the Marquis of great Qian, the Marquis of panhuang, the Marquis of great Wei, the Marquis of black snake, the Marquis of SkyDemon, the Marquis of Shu, the Marquis of Great Jin, the Marquis of Donglin, and the Marquis of Lion all had army bases.

Jiang Li had built 18 army bases in total.

Three days later.

Jiang Li used 1.6 billion energy points in total to build 16 more military bases, making the total number of military bases 34.

Another 160,000,000 was used to activate 16 teleportation stations.

they were spread all over the country.

shua!

Outside the imperial capital of the Grand Xia.

'Spirit Vein Mountain range'.

There were three medium-sized spiritual crystal mines and 13 small spiritual crystal mines.

After nearly a year.

The spiritual crystal mines in the 16 spiritual crystal veins had all been restored.

jiang li appeared in the sky above the spirit range.

Shua!

Jiang Li landed on the mountain.

“It’s starting.”

Jiang Li took a deep breath and found the ‘mine source’ of the crystal mine. He touched it and activated the ‘energy point conversion’ function.

“convert!”

Buzzzzzz!

The light flickered.

It only took an instant.

All the spirit crystal ores in a small spirit crystal mine vein disappeared and were converted into energy points.

Shua!

” conversion successful. one trillion energy points obtained! ”

Time passed.

After a few hours.

The 13 small crystal mines and three medium-sized crystal mines were all converted. The 13 small crystal mines had gained 13 trillion energy points in total.

the three medium-sized spiritual crystal mines had converted and obtained a total of 33 trillion energy points.

“The radiation intensity has increased again.”

Jiang Li felt the changes in the spirit vein and thought to himself.

Shua!

The Dominator panel opened.

He checked the number of energy points.

energy points: 5211.821082750 energy points.

after harvesting the resources in the spirit range, jiang li returned to the imperial capital.

The next harvest would be nearly a year later.

in the base of the 01 division.

Three days.

About a third of the base's transformation was completed.

Buzzzzzz! Buzzzzzz!

The light flickered.

The base's renovation was still in progress.

It would probably take another seven days to complete it.

Of course.

The base was in the process of transformation.

Jiang Li could still use the facilities in the base.

it would not be affected.

The room in the ruler's hub.

shua! shua!

qx01 and cjqx01 were standing on the left and right of jiang li.

the communication projection appeared.

“Chief sovereign.”

QX01 reported, ” the ‘tracking team’ made up of super Intel soldiers is following Cande and Li Ji. They left the great Xia Dynasty two days ago. They have entered the central region of the Saint peace state.

“Just today, Cande and Li Ji have returned to the capital of Fengji.”

“The ‘tracking team’ didn’t go deeper into the capital of discipline. There’s a high chance that there’s a rank 6 true spirit realm life form in the capital. In order to avoid being discovered, they’re only monitoring from outside the city.”

Buzzzzzz!

In the holographic projection.

What appeared was the scene of the 'royal capital of wind order'. A vast city with huge and thick city walls surrounded the entire royal capital of wind order. It was as if there was no end to it.

"Yes."

okay. Jiang Li nodded.

The wind order dynasty.

To be able to rank third on the 'young dragon ranking-holy peace state', it naturally had its own tyrannical aspects. It was one of the top Marquis countries.

However ...

No matter how top-tier they were, they were only dynasties, not imperial dynasties.

so,

Jiang Li had absolute confidence in taking down the wind order dynasty.

"Chief sovereign."

Cjqx01 reported to Jiang Li, "the 'reconnaissance team' made up of super Intel soldiers you sent out has arrived at the border of the desert of death.

"Oh."

yes, " Jiang Li said. answer it immediately.

"yes."

Buzzzzzz!

The communication was connected.

The holographic projection screen unfolded.

At the border of the desert of death.

Hualalalalalalalala

In the image.

What came into view was the boundless sea. The storm was monstrous, enough to set off waves that were ten thousand meters high. In this endless sea, there were countless sea beasts.

And the creatures that lived on the seabed.

Obviously.

The border of the desert of death was actually the border of the Holy peace state.

the endless ocean.

the ocean is really boundless compared to the Holy peace state. I can't see the end.
Jiang Li murmured.

In reality.

Jiang Li had two plans.

among them.

Their first plan was to conquer the central region of the Saint peace state and expand the territory of the great Xia Dynasty until they eventually occupied the entire Saint peace state.

The second plan was to conquer the endless ocean.

They took down one island after another.

“There’s no rush in the battle of the endless ocean.”

the ocean is too vast. It’ll be dangerous if I run into any life forms or beasts beyond level Seven.

compared to the endless ocean that we know nothing about, it’s more practical and safer to attack the ‘central region of the Holy peace Region’ first.

for the great Xia Dynasty, they should first take down the wind order dynasty and then use it as a springboard to gradually conquer the dynasties and even the empires in the central region of the Holy peace state.

Shua!

Jiang Li opened the Dominator panel.

Soul Tinder.

Unknowingly.

They had also accumulated a lot of soul Tinders. Last time, Hong Tianqi led the Army of great Xia soldiers to conquer the dark sea. Jiang Li also sent the elite mech Army to kill more than 90% of the beasts in the dark sea.

That was why the soul Tinder had grown by a large amount.

[soul Tinder: 89.5 million level-one soul Tinders, 7.3 million level-two soul Tinders, 470000 level-three soul Tinders, 5000 level-four soul Tinders, one level-five Demon Soul Tinder fragment, 106 level-five soul Tinders, two level-six soul Tinders]

“One-click fusion.”

Buzzzzzz!

The fusion interface appeared.

jiang li started to merge all the soul tinders.

A series of notifications popped up.

Chapter 513 skyrocketing

A few minutes later.

Jiang Li had finished merging all the soul Tinders from level one to level four.

In the end.

Jiang Li got 122 level-five soul Tinders. In addition to the 106 he already had, he now had 228 level-five soul Tinders.

Shua!

The mechanical Army’s military type interface appeared.

Grade 5 Army.

Currently, Jiang Li had only unlocked the ‘mechanical fortress soldier’. There were still three units that he hadn’t unlocked.

unlocked mechanical Ares-class weapon, mechanical dragon-class weapon, and mechanical exterminating mech.

Jiang Li confirmed.

Shua! Shua! Shua!

16 level-five soul Tinders have been consumed. The mech god weapon has been successfully unlocked.

.....

32 level-five soul Tinders have been consumed. The mechanical dragon divine weapon has been successfully unlocked.

.....

” sixty-four level-five soul tinders have been consumed to successfully unlock the mech exterminating mech. ”

.....

Three notifications appeared.

[prompt: congratulations, Lord, you have fully unlocked the Tier 5 mechanical Army and successfully obtained the authority to activate the Tier 6 mechanical Army. Please collect the ‘nine Tier 6 soul Tinders’ and ‘hundred trillion energy points’ as soon as possible to activate the interface of the Tier 6 mechanical Army.]

Jiang Li received another notification.

activate Level 5 mech Air Force.

Jiang Li controlled the Dominator panel and used nine level-five soul Tinders and one trillion energy points.

[nine level-five soul Tinders and one trillion energy points have been achieved. Unlocking conditions have been met. Unlocking the level-five interface of mech Air Force troops. Please wait patiently. Countdown: 10?9?8.....?]

the countdown has ended. The interface of the level 5 mech Air Force Army has been unlocked.

[can be expanded.]

activate Tier 5 mechanical Navy.

jiang li continued to control the dominator panel.

Once again, he used up nine level-five soul Tinders and one trillion energy points.

[nine level-five soul Tinders and one trillion energy points have been achieved. Unlocking conditions have been met. Unlocking the interface of level-five mech Navy military types. Please wait patiently. Countdown: 10?9?8.....?]

the countdown has ended. The interface of the mech Navy's level 5 military type has been successfully unlocked.

[can be expanded.]

Shua!

[interface: mech Air Force type]

[Level 1 troop class: bi an (omitted)]

[Level 2 troop type: bi an (omitted)]

[Level 3 troop type: bi an (omitted)]

[Level 4 troop type: bi an (omitted)]

” level 5 troop types: air fortress soldier (unlocked), air ares-class soldier (150/16),
air dragon divine soldier (locked), air destroyer soldier (locked) ”

.....

[interface: type of mech Navy]

[Level 1 troop class: bi an (omitted)]

[Level 2 troop type: bi an (omitted)]

[Level 3 troop type: bi an (omitted)]

[Level 4 troop type: bi an (omitted)]

” level 5 troop type: ocean fortress soldier (unlocked), ocean ares-class soldier
(locked)(150/16), ocean dragon divine soldier (locked), ocean destroyer soldier
(locked) ”

“Upgrade the ‘Army type fusion’ function.”

Jiang Li used nine level-five soul Tinders.

Shua!

The ‘Army type fusion’ interface appeared.

Buzzzzzz!

The nine soul fires disappeared.

He merged into it.

The interface flickered with white light.

...

A few seconds later.

The strengthening was complete.

[troop type fusion function upgrade completed!]

Shua!

The interface opened.

interface: Army type fusion (secondary enhancement) ”

[slots: mech Army, mech Navy, mech Air Force]

[consumption: ten billion energy points]

success rate of rank-1: 100% ”

[success rate of rank-2: 80%]

[success rate of rank-3: 50%]

...

[success rate of rank-4: 30%]

[success rate of rank-5: 10%]

[success rate of rank-6: yet to be unlocked]

?.....?

activate the ‘unit type fusion’ function.

I’ll choose mechanical soldiers, air soldiers, and ocean soldiers, ” Jiang Li said.

Shua!

[do you wish to consume ten billion energy points for the fusion?]

“Yes.”

Jiang Li confirmed.

Buzzzzzz!

Ten billion energy points were consumed.

Army type fusion interface.

The three fifth-grade troop classes overlapped.

It emitted an extremely dazzling radiance.

BOOM!

The light exploded.

[fusion failed!]

a notification appeared.

A 10% fusion success rate was still relatively low.

“continue.”

Jiang Li said.

[fusion failed!]

.....

[fusion failed!]

.....

[fusion successful!]

[elite fused soldier type obtained: Super Fortress soldier]

.....

In the end.

Jiang Li spent 100 billion energy points and merged the mechanical soldiers, the air soldiers, and the sea soldiers ten times before he succeeded.

“It’s done,”

jiang li smiled.

“Hidden Dragon,”

start the mech factory. Jiang Li closed all the interfaces and said.

“Yes.”

Hidden Dragon replied.

The previous time.

Jiang Li was fighting with Demon God Tuoba’s Demon God Army. The first elite fused with the mechanical Army and the second elite fused with the mechanical Army. There were only about 400 million soldiers left.

He used the demon God Army’s corpses to create puppet Warriors, forming a puppet army with a military strength of 500 million.

In addition, there was the great Xia Army that Hong Tianqi had built.

In other words ...

Even if Jiang Li didn’t start a war, he could immediately build a dynasty Army with one billion soldiers.

“Start the Army.”

build one billion hydroids, one billion super carriers, one billion super artilleries, and one billion omnipotent tanks. Jiang Li ordered.

one hundred million divine weapons of the Dominator Dragon, one hundred million Tri-perch armored soldiers, one hundred million laser destroyers, and one hundred million invisible energy soldiers.

two million superconducting Ares soldiers, two million super energy soldiers, two million infinite super soldiers, two million super missile soldiers, and two million Storm Giant soldiers.

“100000 Super Fortress soldiers.”

“Yes.”

yes. Hidden Dragon replied, “a total of 4.41 billion meches will be needed. It will require seven billion and ten million tons of steel materials and four hundred and Eighty-Four billion energy points.

“I’m sure,”

okay. Jiang Li nodded.

“Rumble!”

More than forty trillion energy points and more than seven billion tons of steel materials were invested. The mech factory started to operate at full power.

buzzzzzz! buzzzzzz!

The production soldiers transported large amounts of steel materials into the furnace.

Shua! Shua!

Meches were produced one after another.

“Yes.”

jiang li looked at the mech factory and nodded in satisfaction.

This time, the Army was in chaos.

jiang li didn't make any level one meches.

For the time being.

The Super information soldiers and super bio-soldiers were enough.

more than seven billion tons of steel materials.

He had used up all of Jiang Li's savings. All the steel materials he got from the northern region of the Saint-peace state and the Black Sea were used up.

He was only left with slightly more than ten trillion energy points.

one could imagine.

When the 'elite mech fusion Army' with more than four billion soldiers was formed, Jiang Li's strength would have a substantial leap.

at that time.

Even if it was a dynasty with a strong national power.

Jiang Li was confident that he could do it too.

Hidden Dragon, how long will it take to complete all of them? ”

Jiang Li asked.

“Reporting to you, chief sovereign.”

level five mech factory, ” Hidden Dragon said. the second level can produce ten million level two meches per second, so four billion level two meches can be produced in four hundred seconds.

the third level can create one million level three meches per second. It will only take 400 seconds to create 400 million level three meches.

the fourth level can only produce 1000 meches per second. It will take 10000 seconds to produce 10 million stage four meches, which is almost three hours.

the fifth level can produce ten level five meches per second. It will also take ten thousand seconds to produce one hundred thousand level five meches, which is about three hours.

“Yes.”

yes. Jiang Li nodded. three hours is already fast.

On the other side.

In The Endless Forest in the northern region of the Holy peace Region.

This endless forest was located Northwest of the northern region of the Holy peace state.

Although it was called the ‘endless forest’, it was not really endless. It was just very vast, and the size of the forest was almost the same as the desert of death.

BOOM! BOOM! BOOM!

High up in the sky.

A Thunder-like sound rang out.

He looked closer.

Tens of thousands of meters above the ground.

thick clouds.

What came into view were incomparably huge floating ships. Each of them was more than a thousand meters long and five hundred meters wide. The oars of the ships were slowly swaying.

This was a dynasty fleet with extremely terrifying strength.

In the middle.

The dynasty fleet's main ship.

It was squarish.

It was like a floating island.

It was incomparably huge.

The length of each side reached ten thousand meters.

Inside the dynasty fleet's main ship.

A huge Imperial Army flag was raised.

He looked closer.

The flag of the dynasty Army was a Black Tiger with ten wings.

This dynasty fleet.

The demon Empire from the Western Region of the Holy peace Region.

It was called the ten-winged dynasty.

In reality.

If Jiang Li had a map of the entire Saint peace state, he would clearly see that the ten-winged dynasty was very close to the northern region of the Saint peace state. There was only an endless forest in between.

In other words ...

Ever since the great Xia Dynasty was promoted to the great Xia Dynasty, it had been targeted by the ten-winged dynasty.

so,

the ten-winged dynasty sent out the 'dynasty fleet'.

He flew across The Endless Forest.

In the main ship.

the marshal's hall.

“where’s the fleet?”

On the Marshal’s seat.

The person sitting was ‘winged ten Tiger’, the commander of the’ Black Tiger fleet ‘of the ten-winged dynasty. He had a majestic face and a burly figure, and he was hugging two beautiful demon girls with alluring bodies.

“Reporting to the Marshal, the fleet has already arrived at the center of The Endless Forest. With our speed, we will be able to fly across The Endless Forest in half a day and enter the border of the ‘great Xia Dynasty’.”

Very quickly.

A demon general reported.

“Yes.”

Winged ten Tiger nodded his head in satisfaction, ” pass down my order. Tell all the soldiers to get ready for battle.

let’s take down the imperial capital of the great Xia Dynasty as soon as possible. We don’t want the news to be leaked and for the human dynasty in the West to react.

“yes.”

“yes, sir.”

don’t worry, general. According to reliable sources, the great Xia Dynasty has been fighting with the Army of the pseudo-demon gods for several days and nights, and they have suffered heavy losses. It is the best time for us to attack now.

“That’s right.”

the great Xia Dynasty is just a dynasty that has just been promoted. They don't have any Foundation and can't stop our 'Black Tiger fleet'.

The demon generals of the black Tiger fleet were full of confidence.

About three hours passed.

Night had yet to fall.

my Lord, all the meches have been built.

Hidden Dragon replied.

Shua!

the hidden dragon displayed the mech factory.

From the first level to the fifth level.

They were densely packed.

they were all meches.

The level 5 mech factory.

It could hold ten billion meches.

“Not bad, not bad.”

great. Jiang Li was very satisfied. when the base of the No. 01 Army is finished, I can start sending soldiers to war. With so many meches, I won't have to be afraid of dynasty.

even if the stronger dynasties have the combat strength of a tier 7, I have a mechanical pseudo-Demon God.

Chapter 514

At this moment.

“Chief sovereign.”

QX01 quickly walked to Jiang Li and reported, “wind order dynasty’s super Intel troops have important news.

“Connect immediately.”

Jiang Li said.

“Yes.”

QX01 activated the holographic communication skill.

“Whoosh!!!”

the holographic projection screen appeared.

In the image.

They were the Super Intel soldiers.

“Report the situation.”

Jiang Li asked.

“Reporting to you, chief sovereign.”

The Super Intel soldier immediately reported to Jiang Li in detail, “under our strict surveillance, we’ve noticed that the wind order dynasty has been mobilizing human soldiers.

“And it’s extremely dense.”

“Mobilize the Army.”

it seems like the human Emperor of the wind order dynasty isn’t willing to submit to the great Xia Dynasty. He’s going to fight against the great Xia Dynasty.

Of course.

It was normal for the human Emperor of the wind order dynasty to do this.

after all, the wind order dynasty had a history of 10000 years. to be able to stand tall in the central region of the holy peace state, it naturally had its own merits and wouldn’t submit to anyone so easily.

“Cjqx01.”

Jiang Li thought for a while and shouted, “if they don’t want to surrender, then we’ll fight until they do. Send out 500 million elite meches and 500 million puppet Warriors to form a ‘Battle Legion’. We’ll go to the wind order dynasty and take down the wind order royal capital in three days.

“Yes.”

Cjqx01 nodded.

A few minutes later.

Room zh01 to zh010.

Ten battlefield commanders.

He arrived at the room in the ruler's hub.

“Chief sovereign.”

The ten commanders saluted.

“Yes.”

yes. Jiang Li nodded and said, ” you’ll be in charge of the battle this time. This is the first battle the great Xia Dynasty will fight in the ‘central region of the Saint peace state’.

there can’t be any mishaps. We have to crush the wind order dynasty and display the unstoppable power of the great Xia Dynasty.

intimidate all the dynasties and empires in the central region of the Holy peace state.

“Yes.”

“Please be at ease, chief sovereign.”

yes! the ten commanders responded quickly.

the allocation of the 500 million elite fused meches will be decided and chosen by you personally. You will also have 500 million puppet Warriors.

four soul realm controllers and twenty rank-six puppet Warriors. I believe it's enough to take down the wind order dynasty.

"Hidden Dragon,"

start the nuclear power station," Jiang Li said. make ten 'ten million-ton nuclear bombs'.

my Lord, we don't have enough steel materials to make it.

Hidden Dragon said.

"Yes."

steel materials?" Jiang Li frowned and asked, "how much steel materials are left?"

reporting to the ruler, there's still about a million tons left.

"It can probably make one 'ten-million-ton atomic bomb' and ten 'ten-million-ton atomic bombs'," Hidden Dragon replied.

"Alright," he said.

let's make one 'ten-million-ton atomic bomb' and ten 'ten-million-ton atomic bombs'," Jiang Li said.

"Yes."

yes. Hidden Dragon replied, "the nuclear power station has been activated. One ten-million-ton nuclear bomb and Ten Ten-million-ton nuclear bombs will consume 1.1 billion energy points and one million tons of steel materials.

Buzzzzzz!

...

Immediately.

A projection of the nuclear power station appeared.

In the image.

It was the scene of the nuclear power station producing the ‘atomic bomb’, turning from illusion to reality. There were a total of 11 nuclear warheads, one of which was the largest, while the other ten were much smaller.

[atomic bomb manufacturing in progress, countdown: 60?59?58.....?]

a minute later.

[creation complete!]

A notification appeared.

In the ‘weapons room’ of the nuclear power station, 11 Black nuclear warheads appeared.

Immediately after.

jiang li found eleven complete-stage level-five mechanical soldiers.

...

replace the ‘missile’.

“Rumble!”

At the entrance of the nuclear power station.

The huge metal door opened.

11 nuclear warheads were transported out and loaded into the ‘mechanical soldiers’. The original missile heads of the ‘mechanical soldiers’ were replaced with nuclear warheads.

“Yes.”

okay. Jiang Li nodded in satisfaction.

Half an hour later.

The allocation of the troops for the ‘punitive expedition Legion’ had already been confirmed.

Level-one Elite Fusion meches, 100 million super Intel soldiers, 100 million super bio-soldiers.

[type 2 elite fusion meches: 50 million transport soldiers, 50 million utility meches, 50 million artillery soldiers, and 50 million tri-elements tanks.]

[type 3 elite mech fusion: 10 million divine weapons of the Dominator Dragon, 10 million multipurpose mecha soldiers, 10 million laser destroyers, and 10 million invisible energy soldiers.]

[Level 4 elite mech fusion: 200000 superconducting Ares soldiers, 200000 super energy soldiers, 200000 infinite super soldiers, 200000 super missile soldiers, 200000 Storm Giant soldiers.]

[perfected-stage level five mech: 111 mechanical fortress soldiers.]

[perfected-level six meches, four soul realm controllers]

Finally.

In addition, there were ten super holographic soldiers and ten battlefield commanders.

In addition.

11 of the mech fortresses had their ‘missiles’ replaced with ‘nuclear warheads’.

The total number of meches of the punitive expedition Army is: 451 million and 124.

“Let’s go!”

activate the teleportation room.

“All troops, teleport!”

buzzzzzz!

There were spatial fluctuations.

it quickly spread out.

In that instant.

The ‘expedition Army’ that had been prepared teleported away and disappeared from the ‘mech factory’. The 500 million puppet Warriors were also teleported away.

the scene changed.

The Marquis of the Dark Zone.

Black King Island.

In the middle of the room.

Army base 019.

“Whoosh!!!”

Space ripples spread and covered the entire base. Meches appeared out of thin air.

At the same time.

a large number of puppet warriors had also been transported here.

In an instant.

500 million puppet warriors surrounded the base of the no. 019 army tightly. in the sky were huge military transport aircraft.

“Land.”

“rumble!”

The transport plane landed.

the door of the cabin opened.

All 500 million puppet Warriors entered the cabin of the transport plane.

“take off!”

the roar of the mechanical engine.

50 million large military transport aircraft, an incomparably huge fleet, covered the sky above the Dark King Island, like dark clouds covering the sky.

It cast a large shadow.

“what’s that?”

“Si si si ...”

“!!!”

The Marquis city of the black king Island.

Black evil, his subordinates, the citizens, and the slaves of the great Xia Empire all looked up at the scene in the sky with dumbfounded expressions.

He was extremely shocked.

“Let’s go!”

the punitive expedition army flew at full speed.

In the blink of an eye.

He had already left the black king Island.

“This Is the Army of His Majesty, the Xia Emperor.”

Black demon swallowed his saliva and looked in the direction that the Army had left. He was shocked. that direction ... They are leaving the great Xia Dynasty and heading to the central region of Saint peace state.

“It’s starting so soon?”

with the strength of His Majesty Emperor Xia’s Army, he should be able to take down the wind order dynasty.

On the other side.

The night came.

The border County of the Marquis of Black Dragon.

Linsen County.

BOOM! BOOM! BOOM!

At this moment.

The black Tiger fleet of the ten-winged dynasty of the demon race.

They had already flown across The Endless Forest.

They had arrived in the region of ‘Forest County’.

He looked closer.

What came into view were many enormous floating ships. On these floating ships, there was a ‘floating formation’, which allowed them to fly in the sky.

ta ta ta da

on the deck of the floating ship.

the sound of concentrated and uniform footsteps, as well as the clattering of armor.

It could be seen.

They were well-dressed and heavily armored monster soldiers. Their killing intent was like a rainbow, as if it had materialized and formed a cloud.

“Marshal, the fleet has already arrived at the borders of the great Xia Empire.”

“Please give your instructions.”

The generals shouted.

Shua!

Yi Shihu walked out of the marshal’s hall on the mainship. he was tall and sturdy, with a heavy aura. his eyes were like lightning as he looked down from above.

Not far away.

There was a city.

“Activate the ‘Black Tiger rainbow formation’,”

Yi Shihu waved his hand and shouted, ” ” attack directly! ”

“Yes.”

kill!!!

“Whoosh!!!”

As soon as he finished speaking.

Every single one of the ‘floating boats’ lit up as they activated the formation. A round, black and blood-colored formation appeared in the air above each of the ‘floating boats’.

Bursts of light.

“Roar!”

The next moment.

As if they were corporeal, they hovered above each of the ‘giant floating boats’ and opened their bloody mouths.

Whoosh! Whoosh! whoosh!

After that.

The Black Tigers roared and shot out beams of light from their bloody mouths. The beams of light had a diameter of nearly 100 meters and were like thick laser beams.

Bang! Bang! Bang!

An explosion sounded.

Below.

The thick city walls were pierced through and collapsed. The beams of light plowed a huge trench on the ground and a large number of buildings collapsed.

“Ah!”

pfft!

His screams echoed through the night.

“Enemy attack! Enemy attack!”

prepare for battle!!

Within the city.

The soldiers roared.

“attack!”

Shua! Shua! Shua!

Suddenly.

The demon soldiers leaped from the floating ships one after another. Like divine soldiers descending from the heavens, they formed a terrifying Army and charged into the city.

“Kill!”

“Don’t leave a single one!”

Pfft! Pfft! Pfft!

Battle cries rang out.

Blades flashed and blood splattered.

“Ah!”

The screams of the human soldiers rang out.

bodies fell one after another.

Ten minutes later.

The city was captured.

Buzzzzzz!

After that.

A huge formation diagram appeared and enveloped the entire city. Tens of thousands of soldiers and hundreds of thousands of humans in the city were all refined into ‘blood food’ for the demons.

“Let’s continue.”

Winged ten Tiger said indifferently.

Time passed by.

The ‘Black Tiger fleet’ led by Yi Shihu was like the god of death in the night. After entering the territory of the Marquis of Black Dragon, they massacred villages and destroyed cities in their way.

One city after another fell.

Heavy casualties.

The great Xia Dynasty.

Within the sleeping quarters of the Grand Xia Palace.

Jiang Li was resting.

Buzzzzzz!

Suddenly.

Jiang Li opened his eyes. There was a flash of blue light in his eyes. In his dantian, the fate of the Xia Dynasty on Azure Dragon's body was shaking.

Jiang Li immediately sat up.

“what's wrong, your majesty?”

Jiang Li.

Su Jue and su yanmo were jolted awake.

“I'm fine.”

Jiang Li's expression didn't change. He didn't explain anything and just said, ”
“You guys can continue to rest.”

after saying that.

jiang li got out of bed and put on his clothes. he left the palace and went straight to the room in the control hub, leaving su yan and su yanyue in a daze.

Within the room in the ruler's hub.

Jiang Li called QX01 and cjqx01 over.

“Contact all the Army bases immediately.”

stop! Jiang Li shouted.

“Yes.”

QX01 and cjqx01 looked at each other and immediately nodded. They then activated the ‘holographic communication’ skill at the same time, forming a communication projection.

Chapter 515 Anger

jiang li didn't do it on a whim.

It was only when he noticed that the Fortune of the country had suddenly changed that Jiang Li woke up.

One had to know.

After the establishment of the Empire.

the fate of the great xia empire had always been very stable. as the great xia empire developed, the strength of the fate of the empire was also gradually increasing.

However ...

However, it suddenly shook tonight.

It was obvious that something serious had happened.

Thus, it affected the fate of the Empire.

so,

Jiang Li would investigate all the Army bases.

currently.

jiang li had built 34 army bases in the great xia dynasty. apart from base 01, which had been upgraded to level five, the rest were only level three.

Shua! Shua! Shua!

After the communication was connected.

Thirty-three images were projected.

In the image.

They were the 'purple faces'. They were the 'heart of the base'.

"Hidden Dragon No. 2 greets my Lord!"

"....."

"The hidden Dragon No. 20 greets you, my Lord!"

"....."

“Yes.”

Jiang Li nodded and ordered, ” “Immediately send out the ‘super Intel soldiers’ from your respective army bases to search and investigate the entire territory.”

“I suspect that there’s an enemy Army invading.”

“Yes.”

“Yes, sir!”

“Immediately mobilize the scouts.”

“.....”

A voice came from the projection.

“.....”

wait. Jiang Li remained silent and waited quietly.

At this moment.

Within the various Marquis territories of the Grand Xia Empire.

Shua! Shua! Shua!

Super Intel soldiers flew out of the Army base one after another, forming teams of reconnaissance troops and spreading out in all directions.

An hour later.

“Chief sovereign.”

the hidden dragon no. 23 occupied a large area of the projection and reported to jiang li, ” the reconnaissance troops of the 23rd Division base have discovered the enemy’s Army.

“Number 023.”

it’s the Marquis of Black Dragon. Jiang Li immediately realized.

launch the surveillance image.

stop! Jiang Li shouted.

“yes.”

buzzzzzz!

The images detected by the reconnaissance team in the base of Army 023 were clearly transmitted to Jiang Li’s eyes through holographic communication.

“This is a Kasaya.”

boom! BOOM! BOOM!

in the image.

What came into Jiang Li’s sight were giant floating ships like large warships. They were covered in a huge formation.

“rumble!”

At this moment.

The fleet was attacking the capital of Linsen County.

...

The black Tiger on the floating ship let out a roar and shot out beams of energy light, piercing through the Army formation, shattering the city walls, and shattering buildings.

“Ah!”

The screams of the soldiers resounded in the surroundings.

“Kill!”

immediately.

A large number of demon soldiers leaped down from the ships and charged into the capital city. They began a bloody massacre, and a large number of civilians were killed.

“You’re looking for death!”

Jiang Li was gloomy.

His eyes were filled with killing intent.

one had to know.

The people who were killed were the citizens of the great Xia Empire. There weren’t many citizens in the great Xia Empire to begin with, and the land was vast and the population was sparse. So many citizens were killed.

...

Jiang Li was the Emperor of the Xia Dynasty.

He was naturally furious.

“pass down my order.”

Jiang Li’s eyes were cold. Clearly, he was really angry. He stared at the black Tiger fleet on the screen and said, ” mobilize more than four billion elite meches and form the ‘dynasty Army’. I’ll personally lead the’ dynasty Army ‘and destroy this demon fleet.

no matter which demon dynasty this demon fleet is from, I will make them pay a heavy price for invading the great Xia Dynasty and massacring the villages and cities!

“Yes.”

“Yes, sir!”

QX01 and cjqx01 saluted.

Shua! Shua! Shua!

Immediately.

The three meches, WMS01, SSTs01, and MYL01, arrived.

“Chief sovereign.”

The three meches saluted Jiang Li.

“Yes.”

yes. Jiang Li nodded. you can go with me.

“Yes.”

The three meches nodded.

this time.

Jiang Li mobilized more than 90% of the meches and formed the ‘dynasty Army’.

There were no level one meches.

Even the weakest was at the 2nd rank.

Among them.

[level two elite mech fusion: one billion super carriers, one billion hydroen soldiers, one billion super artillerymen, and one billion Tri-army tanks.]

[level three Elite Fusion mech: 100 million divine Dominator-Dragon Soldiers, 100 million Tri-perch armored soldiers, 100 million laser destructive soldiers, and 100 million invisible energy soldiers.]

[Level 4 elite mech fusion: two million superconducting Ares soldiers, two million super energy soldiers, two million infinite super soldiers, two million super missile soldiers, and two million Storm Giant soldiers.]

[level five Elite Fusion mech: 100000 Super Fortress soldiers.]

The perfected-stage level six meches were SSTs01, MYL01, and ZZLS01.

Level Seven mech, WMS01.

There were 100 commanders.

one hundred super holographic soldiers.

This time, the total number of the 'dynasty Corps' led by Jiang Li had reached 4.41000204.

“Let's go!”

jiang li left the room in the dominating hub and went to the 'teleportation room'. he walked into the wormhole whirlpool tunnel, followed by myl01, wsm01, and sts01.

“Whoosh!!!”

Spatial fluctuations began to spread.

The teleportation began.

In the mech factory.

More than 90% of the meches were teleported away.

He disappeared.

The next moment.

The scene changed.

In the base of the 23rd Division.

At the teleportation station.

Shua! Shua!

jiang li walked out of the wormhole whirlpool. myl01, wsm01, and ssts01 followed him.

The steel gate of the teleportation station opened.

let's go. Jiang Li walked out.

Boom! Boom! Boom!

Jiang Li heard a roar.

He raised his head.

In the sky above the Army base.

The mech Army that covered the sky and the earth came into view. It was a huge mechanical Army, and there were battleships and aircraft, as well as a huge floating mechanical fortress.

There were 4.4 billion meches.

It was such a terrifying and massive number.

When they gathered together.

Just looking at it.

It was already enough to make people respect and fear.

the number was simply too great. the army that was formed could not be seen to the end. it was like an ocean of machines that covered the sky.

shua!

Jiang Li flew into the air.

“Roar!”

The Azure Dragon of great Xia materialized.

the 10,000-meter-long azure dragon of the xia dynasty was hovering in the air. jiang li was standing on the dragon’s head in the center of the ‘dynasty army’, surrounded by countless meches.

One had to know.

The 23rd Division’s base was built in the Black Dragon Marquis’s capital.

now.

The sudden appearance of such a huge mechanical Army naturally alarmed the entire Marquis of Black Dragon. All the citizens, demon slaves, and barbarian slaves in the Marquis of Black Dragon were alarmed.

All of them were looking up at the sky.

fear rose in his heart.

He had a dumbfounded expression.

“Let’s go.”

let's go. after Jiang Li confirmed the location, he waved his hand and gave an order. He led the 'dynasty's Army' and flew towards the 'Black Tiger fleet'.

“Rumble!”

The engine roared, and the thunderous sound resounded through the sky.

The 'dynasty Army' was like a boundless dark cloud, gradually flying away from the Marquis of Black Dragon's capital. Even though they were already a hundred miles away, they could still be seen faintly.

Time passed.

The county city of Linsen County.

“Run!”

“Junwang, hurry up and leave.”

“Father, run! I'm still blocking them! Ah!!!”

hurry up!!!

go to the Marquis of Black Dragon's capital and report the news of the enemy's invasion!

“.....”

On the battlefield.

The power of the black Tiger fleet was not something that a small county Army could resist. The soldiers of the forest County were almost massacred.

The most important thing was ...

The black Tiger fleet had only dispatched a small troop and had already destroyed the entire Linsen Prefecture.

“Hahahahaha!”

The demonic soldiers ‘maniacal laughter reverberated throughout the entire battlefield.

“You’re really too weak.”

I can’t imagine that they’re actually dynasty soldiers.

“There are too many unranked prospective fighters,”

“Even if it’s refined into blood food, it won’t be of much use.”

to be honest, I’m starting to suspect if we’re really invading a human dynasty.

The demons discussed among themselves.

Shua!

At this moment.

A demon general descended from the sky. He was dressed in green armor and held a long blade with a Tiger’s head. His figure crossed the void and quickly caught up with the Junwang of Linsen County, Xu Ji.

“You can’t escape.”

Shua!

The demon general swung his saber, and a black Saber Light slashed down.

“Ah!”

Pfft!

arghh! Xu Ji screamed. He could not block the blade even with all his strength. A deep wound appeared on his chest, and he fell to the ground.

“A King of the human race,”

Shua!

The demon general caught up and grabbed Xu Ji’s neck. A ferocious smile appeared on his face as he grinned and said, ” “He really can’t take a single blow.”

“He’s too weak,”

“Hahahahaha!”

He threw his head back and laughed maniacally, ” from the strength of your prefecture capital’s Army, I can infer how weak the great Xia Dynasty is.

human King, I’ll give you a chance to live. As long as you betray the great Xia Dynasty now and lead the way for our Black Tiger fleet, telling us where the great Xia Dynasty is, you can live and become a human slave of our ten-winged dynasty.

“In your dreams!”

Xu Ji gritted his teeth and glared at the demon general with hatred.

One had to know.

Xu Ji's wife and children had all died at the hands of these demons, and he wanted nothing more than to slice them into a thousand pieces.

“PAH!”

xu ji raised his head and spat out a mouthful of thick, bloody phlegm at the other party, but the other party dodged it nimbly.

“You're courting death!”

The monster General's eyes were bloodshot as his killing intent exploded.

“Hahaha Yingluo, kill me if you have the guts! His Majesty, the Xia Emperor, will definitely not let you off.”

Xu Ji roared, ” you damn demons! You will all die! You will all die!!!

“go to hell!”

Buzzzzzz!

The demon general did not hesitate to increase his strength, wanting to crush Xu Ji's neck. Xu Ji's face turned red, and his vision blurred.

snot and tears came out.

“Rumble!”

at this moment.

an incomparably loud explosion came from the distant horizon.

The dynasty Army led by Jiang Li had arrived.

“what’s that sound?”

“that’s yingluo.”

“It’s the Army!”

“!!!”

the demon soldiers of the black tiger fleet all looked up.

“Roar!”

The Dragon’s Roar resounded in all directions.

“You’re so bold!”

Jiang Li saw it from afar and shouted, ” a mere demon general dares to harm the Commandery Prince of the great Xia Dynasty? ”

“die!”

“Green Dragon absolute kill seal!”

“Whoosh!”

let’s go. Jiang Li formed a seal with both hands. The formation turned into a Green Dragon-shaped light beam and shot out. In an instant, it crossed a very long distance.

Chapter 516 crushing

Jiang Li's attack was formed by the formation seal and turned into a Dragon-shaped green light beam. It pierced through the air and attacked in an instant.

It contained a killing intent.

It was a killing intent as if all living things were withering.

It annihilated all living beings.

“!!!”

the demon general's pupils contracted. in that instant, he could clearly feel the arrival of death. it was impossible for him to resist. all the blood in his body seemed to have frozen.

Therefore, he did not hesitate at all.

The demon general immediately lifted Xu Ji up and used his body as a human shield in front of him.

“Hmph,” he snorted.

” humph! ” jiang li snorted.

Shua!

He waved his right hand.

The Dragon-shaped beam of green light changed its trajectory, drawing a curved arc in the air. It flew past Xu Ji and pierced through the body of the monster general.

“Pfft!”

Blood splattered everywhere.

“Ah!”

The demon General’s eyes widened as he let out an extremely shrill cry. The Green Dragon-shaped beam had pierced through his heart, leaving a hole in his chest.

A one-hit kill.

* Cough cough *

xu ji immediately broke free from the general’s grip and gasped for breath. he had almost suffocated to death just now. when he got up from the ground, he saw the corpse of the general on the ground, and his eyes were filled with shock.

“Hahahahaha!”

Immediately.

Xu Ji laughed out loud, “I’m still alive, I’m still alive, Yingluo!”

” kill!!! ”

attack! Jiang Li’s eyes were cold. He looked at the dynasty’s fleet in front of him and waved his hand, giving the order to attack.

super mechanical artilleries are ready.

fire!!!

BOOM! BOOM! BOOM!

In an instant.

A total of one billion super mechanical artilleries were ready. They locked onto the 'Black Tiger fleet' in front of them from a long distance and directly fired.

At this moment.

One billion cannonballs were fired. They covered the sky like a storm and bombarded the 'Black Tiger fleet'.

“Be careful!”

“Hurry up! raise the defensive formation!”

“Prepare for battle!”

“the main force of the grand xia empire has arrived.”

kill!!!

Roar! “Roar!”

Black Tiger fleet.

There were so many giant floating ships that Jiang Li couldn't estimate how many there were.

Buzzzzzz! buzzzzzz! Wuuwuwuwu!

At the first moment.

The black Tiger fleet reacted quickly. There were array Masters of the demon race on each of the giant floating ships.

it formed a defensive formation.

Every single ship was equipped with a formation.

Roar! “Roar!”

The roars of Tigers and Dragons shook the heavens and earth.

The array diagrams formed a vast array light screen, like an oval-shaped energy light shield, protecting every floating ship.

Bang Bang Bang Bang!

The next moment.

One billion cannonballs bombarded the black Tiger fleet, bombarding the array screens and exploding.

“Rumble!”

The sound of the explosion reverberated in all directions, and the vast shock waves shook the sky. Endless storms wreaked havoc, and the entire battlefield was covered in a dazzling radiance.

...

At this moment.

It was as if a blazing sun had been born in the sky.

“Ah!”

Kachaa! Kachaa!

Instantly.

the screams of the demi-human soldiers.

One had to know.

The ‘defensive formation’ on each ship was a fourth-grade formation with extremely strong defensive power. It could even block a fourth-grade attack.

However ...

A total of one billion cannonballs exploded. There were too many of them, and it triggered a qualitative change. The power was too strong, and it destroyed many arrays.

One by one, the giant floating ships were scrapped. Their bodies burst into flames and fell from the sky, killing many monster soldiers.

...

“Your Majesty”

Xu Ji raised his head and looked up at the sky. He looked up at the scene in the sky, at the countless explosions, the dazzling lights, and the vast Army that covered the sky.

And ...

In the vast Army.

The Azure Dragon of the great Xia Dynasty, whose body was over 10000 meters long.

Jiang Li stood on the Azure dragon's head with his hands behind his back. His eyes were calm and he looked majestic. He was surrounded by countless mechanical soldiers.

“Hahahahaha!”

Xu Ji laughed wildly. He was extremely excited and trembling. He could not help but clench his fists. His Majesty the Xia Emperor has arrived. His Majesty the Xia Emperor has personally led the great Xia Army here!

“Hahahahaha!”

“demon race! You're all dead! You're all dead!”

“Long live the Xia Emperor! His Majesty, the Xia Emperor, is invincible!”

Xu Ji shouted loudly and looked at the black Tiger fleet of the ten-winged dynasty. His eyes were filled with endless killing intent and hatred.

At this moment.

Black Tiger fleet.

The main ship of the fleet, which was as large as an Island.

“The main force of the Grand Xia Empire.”

Shua!

Winged ten Tiger Rose into the air and stood above the flagship. He looked around the battlefield with a heavy gaze.

The bombardment of the one billion artillery soldiers had caused a lot of damage to the airships.

Ten-winged dynasty.

In the entire Saint peace state, it could be considered one of the top empires.

The country was extremely prosperous.

It was precisely because of this.

the country's power was strong, and its military strength was sufficient.

so,

Only then would the ten-winged Empire send out a dynasty fleet to launch an attack on the great Xia Empire. They intended to take over the great Xia Empire in the shortest time possible and seize its fate and territory, then enslave the entire human race in the great Xia Empire.

If the country's strength was insufficient, the military might would be insufficient.

The ten-winged dynasty also did not dare to send out their troops casually.

Because he was strong enough, he was confident enough.

in reality.

On the surface, the ten-winged dynasty had a total of 'ten dynasty legions'. The Black Tiger fleet 'was just one of them, but their total military strength had already reached one billion.

Among them.

winged ten Tiger was the main general.

It had a seventh-rank bloodline-Black Dragon Tiger.

His cultivation base had even reached the great circle of the sixth step.

Other than that.

Ten winged Tiger also had three deputies, who were the three deputy marshals of the black Tiger fleet. Each of them had a cultivation base of the sixth step.

One at the early stage of the sixth rank, one at the middle stage of the sixth rank, and one at the late stage of the sixth rank.

Below the Marshal.

There were also the commanders of the various divisions and the generals of the monster race.

All of them were level five demons.

There were quite a few of them.

Added together.

There were about a thousand of them.

As for the Level 4 demon generals ...

That would be even more.

It was calculated in units of ten thousand.

There were countless level three demon commanders.

“Kill!”

” attack! ” jiang li waved his hand and gave the order to attack. ” destroy the army of the monster dynasty! ”

“Attack!”

“Three-pronged Tank Army, charge!”

“Laser Annihilator! Attack!”

kill!!!

“Fire!”

missile launch!!

BOOM! BOOM! boom!

After hearing Jiang Li’s order, the hundred commanders immediately gave the order to attack the mech Army.

The mechanical Army swarmed over.

they surrounded the black tiger fleet.

retreat!!!

Winged ten Tiger's pupils contracted. After clearly seeing the number of the great Xia Dynasty's Army, his heart instantly turned cold, as if a chill went straight to the top of his head.

His entire body trembled.

quickly retreat!!!

"There's an error in the information!"

"the power of the grand xia dynasty far exceeds our previous estimations."

"Retreat!"

the black Tiger fleet alone can't fight against the main force of the great Xia Dynasty!

all troops, retreat!!!

Without any hesitation.

retreat! winged ten Tiger immediately gave the order to retreat.

one had to know.

Jiang Li's dynasty Legion had more than four billion soldiers while the black Tiger fleet only had one billion. The difference was more than four times.

Furthermore ...

The meches in Jiang Li's dynasty Army were at least level two.

their tier 4 and tier 5 combat power was ten times or even dozens of times stronger than the black tiger fleet.

It could be said that ...

The fighting strength of both sides was not on the same level at all.

“Escape?”

run? ” Jiang Li sneered. do you think you can escape? ”

“It’s a sovereign Dragon divine weapon.”

Shua!

Jiang Li raised his right hand. transform. ”

Roar!

A Dragon’s Roar.

Immediately.

The Dragon-shaped bracelet on Jiang Li’s right wrist changed into a black liquid metal and then turned into a Black Dragon-scaled sword.

“Gather.”

Roar! roar! Roar!

In an instant.

A total of 100 million ruler's Dragon divine weapons materialized. They were huge steel Dragons that circled in the sky and let out Dragon roars.

It was earth-shattering.

Immediately.

They all turned into black light and flew towards Jiang Li, merging with the Black Dragon Scale sword in his hand.

Buzzzzzz! "Whoosh!!!"

the power was vast.

The Black Dragon-scaled longsword grew larger and larger.

finally.

When all one hundred million divine weapons gathered together, the Black Dragon Scale sword in Jiang Li's hand turned into a huge sword two million meters long.

Two million meters.

that was equivalent to two thousand kilometers in length.

One had to know.

The Earth's diameter was about 13000 kilometers.

In other words ...

The two-million-meter-long black Dragon-scaled giant sword in Jiang Li's hand was one-sixth of the diameter of the earth. It was easy to imagine how huge it was.

It was almost comparable to the moon.

“Slash!”

BOOM!

After that.

die! Jiang Li slashed at the black Tiger fleet. The scene was too shocking. It was like an asteroid falling from the sky.

One had to know.

Jiang Li didn't use the skills of a complete-stage rank six Overlord Dragon weapon. He just combined the power of 100 million Overlord Dragon weapons.

It hadn't reached the limit of Jiang Li's combat power.

The huge sword slashed down.

It was as if the sky had collapsed, bringing with it an extremely terrifying oppressive aura. The air seemed to collapse, and the space seemed to tremble.

“Not good!”

“This bi an ...”

“Be careful!”

“Ah!”

At this moment.

The demi-human soldiers and generals 'eyes widened as if the sky had collapsed. They stared at the massive sword descending from the sky, their bodies trembling.

The power of this sword.

it was simply too powerful.

He had already reached the limit of the sixth step.

Although it had not reached the seventh step.

However, he was almost invincible at the sixth step.

It was difficult to resist.

Bang! Bang! bang! bang! Bang!

it could be seen.

Before Jiang Li's sword completely landed, the pressure and pressure that it created already cracked the level four defense formation on the ship.

The light screen of the formation cracked open.

Chapter 517

“Marshal!”

At this moment.

The three deputy marshals of the black Tiger fleet shouted at the same time.

“Let’s join forces to block it!”

go! winged ten Tiger shouted.

“Yes.”

Buzzzzzz! Buzzzzzz! Buzzzzzz!

yes! the three deputy marshals responded at the same time.

“Bloodline Dharma.”

Yi Shihu took a deep breath and activated the bloodline power in his body. A bloodline light pillar shot up into the sky.

“black dragon tiger!”

“Roar!”

In an instant.

a million-meter-tall black dragon tiger bloodline dharma form appeared. it stood in the sky, as huge as a god.

It exuded an extremely powerful might.

The Black Dragon Tiger.

A seventh-rank bloodline.

They had Tiger-bodied Dragon beasts.

It was completely black.

It was covered in Black Dragon scales.

its body was wrapped in pitch-black flames.

“A Dharma idol with a bloodline! Black-scaled crocodile!”

“A Dharma idol with a bloodline! Nine-winged Sparrow!”

“A Dharma idol with a bloodline! A flood serpent!”

The next moment.

the three Deputy nine-star generals also conjured their bloodline Dharma. Their bloodlines couldn't be compared to winged ten Tiger and were only rank six, but they were already very strong.

“Dharma idol combination! Kill!”

BOOM! BOOM! BOOM!

Yi Shihu and the three deputy marshals worked together. The four bloodline Dharma images that were a million meters tall worked together to form a powerful attack.

The power of his bloodline gathered.

In the end.

It turned into a thick energy beam that seemed to be able to penetrate space and hit Jiang Li's Black Dragon Scale sword.

Bang Bang Bang Bang!

The two sides collided.

There was a huge explosion, and boundless energy exploded. At the center of the collision, a huge pitch-black ball of light exploded.

A boundless storm wreaked havoc in all directions.

“Ah!”

“rumble!”

the explosion shook the earth.

Kachaa! Kachaa!

The ground was constantly cracking.

One by one, the floating ships were sent flying by the storm and exploded in the air. A large number of monster soldiers and generals screamed in pain.

Clearly, he had been affected.

At the same time.

Many meches were also blown away.

“Pfft!”

PU! Yi Shihu spat out blood. The three deputy marshals were also sent flying. They were pale. They tried their best to block Jiang Li's attack, but they were injured.

On the other hand, Jiang Li.

He was completely fine.

He was not affected at all.

kill!!!

attack!!!

BOOM! BOOM! BOOM!

...

At this moment.

Jiang Li's dynasty had already surrounded the black Tiger fleet and blocked their way out. Countless cannons, missiles, lasers, and bombs were fired at the black Tiger fleet.

“Counterattack! Counterattack!”

“Kill!”

“Ah!”

Whoosh! Whoosh! Whoosh!

The demon soldiers of the black Tiger fleet tried to counterattack. The formation Condensed Black Tigers and roared out energy beams, launching long-range attacks.

At the same time.

Some of the monster generals controlled their ships and crashed toward Jiang Li's mech Army, trying to close the distance and fight back.

However ...

All of this was just a futile struggle.

...

After all ...

The difference in strength between the two sides was just too great.

they were on completely different levels.

Furthermore ...

Jiang Li's dynasty Legion had four times more soldiers than the black Tiger fleet.

There was no chance of winning.

“All troops, hear my order!”

Winged ten Tiger looked around the battlefield with a heavy expression. He already knew that the black Tiger fleet had been surrounded by the main forces of the great Xia Empire.

In other words ...

They could no longer escape.

It was difficult to break through the encirclement.

If this continued ...

The only outcome was complete annihilation.

“Immediately set up a Grade 7 military formation!”

Winged ten tiger’s roar reverberated throughout the battlefield.

“Yes!”

“Set up a Grade 7 military formation!”

“hurry up!”

Buzzzzzz! Buzzzzzz! Buzzzzzz!

It could be seen.

The black Tiger fleet’s giant airships immediately began to move according to a specific trajectory. Then, the demon array Masters formed countless hand seals.

The entire battlefield.

A vast amount of military Qi began to condense.

Among them.

With the flagship of the black Tiger fleet where Yi Shihu was located as the formation eye, the Deputy flagships of the three deputy marshals as the three major Deputy formation eyes, and the giant floating ships, nearly one billion demons had joined forces.

a grade 7 military formation!

black tiger sky-turning formation!

It was gradually taking shape.

Obviously.

An Army of 100 million soldiers.

They were able to set up a rank-5 military formation.

An army of one billion soldiers.

naturally, he would be able to set up a rank-6 military formation.

a rank-6 military formation.

The setup was a success.

It was enough to block any attack below the seventh step.

Only an attack that had reached Level Seven could destroy a level six military formation.

“I want to set up a rank-6 military formation.”

you don't have a chance. Jiang Li saw it. you don't have a chance.

“MYL01, SSTs01.”

attack! Jiang Li ordered.

“Yes.”

Shua!

myl01, who had been hiding in the black tiger fleet for a long time, appeared. like a ghost, he instantly appeared beside a deputy marshal.

“You!”

the Deputy General's eyes opened wide and he couldn't react at all.

“Nirvana blade.”

myl01 waved his right hand, and a pitch-black, straight long saber appeared in his hand. a black nirvana saber light flashed.

pfft!

blood splattered everywhere.

This demon race Deputy general, whose cultivation had reached the early stage of Tier 6, had no power to resist at all. His head was cut off by the MYL01.

He died immediately!

“No!”

Vice Marshal Jiao is dead!

“Ah!”

In the surroundings.

The terrified screams of the demons were heard.

Kachaa! Kachaa!

at the same time.

The ‘Grade 6 military formation-Black Tiger sky-turning formation’, which had not been fully formed, lost a secondary formation eye and immediately began to crack, making it difficult for it to take shape.

“The sacred angelic sword.”

Clang!

almost at the same time.

SSTs01, the Holy angel mech soldier, took out her wide angelic sword and charged towards the other Deputy Marshal.

“Divine funeral.”

Shua!

The skill was activated.

The angelic sword in SSTs01’s hand slashed down, releasing a dazzling sword light that contained the power to kill all living things, but also emitted a holy light.

“no!”

Pfft!

There was no surprise.

This monster race Deputy general, whose cultivation had reached the mid-stage of Tier 6, gave it his all, but he was still unable to block the sword of SSTs01.

his body was split in half by the sword.

“This Suan ni, this Suan ni”

why do you have a God race Battle Angel?!

no! winged ten Tiger shrieked, his eyes wide open as he stared at SSTs01 and MYL01, ” and the demonic ghost clan.

“Tier 6 perfection!”

and they’re all at the perfected Tier 6!!

“BOOM!”

There was an explosion.

due to the loss of two secondary array eyes and the death of two level six demons, the ‘black tiger sky overturning array’ that had yet to be completely set up exploded.

“Ah!”

Pfft! Pfft! Pfft!

The monster array Masters screamed and spat out blood as they fell from the sky. Their faces were as pale as paper as they suffered the backlash of the array.

“Bloodline ignition!”

roar!

Winged ten Tiger went all out.

Buzzzzzz! buzzzzzz!

The bloodline flames that soared to the sky seemed to burn the heavens.

Its might was monstrous.

They had suppressed more than half of the battlefield.

“Kill!”

At the same time.

The type 6 Deputy general also activated his bloodline, and let out a battle cry, his eyes bloodshot as he charged towards the MYL01 and SSTs01.

“Go to hell!”

BOOM!

after that.

He self-destructed.

This late-stage type 6 Deputy general charged in front of MYL01 and SSTs01 and self-destructed without any hesitation. The power of the self-destruction was all directed towards MYL01 and SSTs01.

Bang Bang Bang!

Countless explosions were heard.

Bang! Bang!

Both MYL01 and SSTs01 were blasted away.

The power of the explosion also destroyed a large number of floating ships and Jiang Li's meches. The ground was scorched.

Countless mountains collapsed.

"Now."

Shua!

winged ten Tiger's eyes were burning and his killing intent rose. He grabbed this chance and the rank six Deputy self-destructed to create an opportunity for him.

At this moment.

Winged ten Tiger had accumulated all his strength.

"A secret technique of the demon race."

Buzzzzzz!

God slaying spear! winged ten Tiger roared.

“Whoosh!”

It could be seen.

Yi Shihu concentrated his power into one point, and his bloodline Dharma power became one with his body. He held a powerful weapon in his hand.

man and spear as one.

it seemed to have turned into a dazzling black spear light, wrapped in black flames. it almost pierced through the space and reached the peak of the sixth step.

In that instant.

He flew across the entire battlefield.

The assassination was aimed at Jiang Li.

Hurry up!

It was extremely fast!

The speed of this spear was as if it had teleported.

“Go to hell!”

Winged ten Tiger shouted, his voice filled with endless madness.

But in the next moment.

Winged ten Tiger was in despair.

Because ...

In front of Jiang Li.

Suddenly, a broad and thick palm with a purple-black Luster and extremely small scales reached out and blocked winged ten Tiger's spear.

the sharp tip of the spear had clearly pierced his palm.

but ...

However, winged ten Tiger felt as if he had stabbed into a thick wall that he could not move an inch forward. Even though he used all his strength and burned his bloodline, he was still unable to move forward.

It was the mechanical pseudo-Demon God WMS01.

Early seventh rank.

Currently.

jiang li's strongest mech.

"No! No!"

Winged ten Tiger's face was filled with despair. that's impossible!!!

Kachaa!

Bang!

The broad and thick palm clenched hard. A purple-black light flickered and turned into a powerful demonic god Power, directly shattering winged ten Tiger's spear light.

It cracked.

you ant-like thing, how dare you show your laughable and weak fangs to the great and supreme ruler? ”

WSM01 was nine meters tall. Standing in front of Jiang Li, it looked like a giant. With a wicked smile on its face, it reached out its right hand and grabbed winged ten Tiger's head.

“whoosh!!!”

the demon god domain was released.

It formed a terrifying pressure that pressed down on Yi Shi Hu.

” seven luminaries ring, grade seven!!! ”

winged ten tiger let out a terrified scream.

“Chief sovereign.”

WMS01 easily caught winged ten Tiger, who was at the peak of the sixth stage, and restrained his power with the power of the demon domain. He saluted to Jiang Li and said respectfully, ” “The enemy leader has been captured. Please deal with him, my Lord.”

“Yes.”

okay. Jiang Li nodded and looked at winged ten Tiger, who was shocked and scared. He was going to kill him, but he had a new idea.

Chapter 518 Enslavement

“A fake Tao Wu and a fake Demon God.”

winged ten tiger’s eyes widened as he stared at the mechanical pseudo-demonic god in disbelief. he even shouted in shock, ” “How is this possible?”

“The God race’s battle Angel, the devil clan, and now another pseudo-Devil God has appeared, and it’s a class 7 pseudo-Devil God at that.”

it’s just a human dynasty, and you’re only the human Emperor. How can you control the battle Angel of the Celestials? and how can you control such a powerful mixed-blood race? ”

even if I use the ‘core contract charm’, it won’t be easy to do it.

the failure rate is too high. The opponent must give up on resisting with all his might.

“Yingluo, Who are you?”

winged ten tiger’s heart was trembling.

At this very moment.

In winged ten Tiger’s eyes.

Jiang Li’s body seemed to be covered in fog. She couldn’t see through him at all.

He couldn’t believe that a human dynasty that had just been promoted could control such a powerful mixed-blood race and have such a powerful Army.

It was too unbelievable.

One had to know.

When Yi Shihu first led the black Tiger fleet to the great Xia Dynasty, he was in high spirits and full of confidence. He thought that he could take down the capital of the great Xia Dynasty in a short time.

The result.

However, reality gave him a head-on blow.

The great Xia Dynasty's display of power had stunned him, not giving him any chance to react.

The black Tiger fleet was completely crushed.

Heavy losses.

They were facing the crisis of destruction.

Jiang Li ignored Winged Ten Tiger. Instead, he activated the fate of the Great Xia Dynasty. A green light flashed around him, and the 'core slave contract' appeared between his eyebrows.

The fate of the dynasty was gathering towards the 'core slave contract'.

"Condense!"

Run! Jiang Li shouted.

Shua!

The green light of the Fortune of the nation was dazzling.

The ‘core contract talisman’ was formed in an instant.

It formed a Green Dragon-shaped rune.

It fell into Jiang Li’s palm.

Obviously.

Jiang Li wanted to use the ‘core contract charm’ to enslave the winged ten Tiger. If he succeeded, the winged ten Tiger would become Jiang Li’s ‘core slave’.

This way ...

Jiang Li would be able to ask ‘winged ten Tiger’ for information about the demon dynasty.

“Core contract charm.”

Winged ten Tiger’s pupils contracted.

One had to know.

Winged ten Tiger was a level 6 demon.

In order to use the ‘core contract charm’ to enslave the other party, the other party had to be willing and let down the soul’s guard. Only then would the ‘core contract charm’ be able to copy the soul’s origin.

As long as there was the slightest bit of resistance.

The enslavement would fail.

the ‘core contract charm’ would destroy the other party’s soul.

Back then.

When Jiang Li controlled Xing Wu, Xing Wu let down his soul defense and planted the ‘core contract charm’ in his soul, becoming Jiang Li’s core slave.

One had to know.

xing wuwu’s cultivation was only at the fifth step.

“go.”

Jiang Li waved his right hand.

Immediately.

The ‘core contract talisman’ in his hand turned into a green light and entered winged ten Tiger’s forehead. Then, it disappeared.

“Ah!”

A miserable scream rang out.

Winged ten Tiger’s face was ferocious. The veins on his body were bulging, and his eyes were bloodshot. Not long after, blood started to flow out of his seven orifices, making him look extremely terrifying.

...

Bang!

After that.

Winged ten Tiger's head exploded.

Enslavement failed.

Jiang Li lost a 'core contract talisman' and a core slave slot.

"What a pity."

Jiang Li shrugged.

Obviously, it would not be that easy.

BOOM! boom! BOOM!

On the battlefield.

With the death of the main Marshal, ten winged Tiger, and the three vice marshals, the monster array Masters had suffered from the backlash from the failure of the Army's formation.

...

the black tiger fleet had already lost their strength to resist.

Countless cannons and missiles blew up the floating ships one by one. A large number of demons were killed by the shells and missiles, and the flames soared into the sky.

smoke filled the air.

buzzzzzz! Buzzzzzz! buzzzzzz!

Soul Tinders floated out from the battlefield and gathered together, forming a colorful torrent that rushed toward Jiang Li.

they all merged into jiang li's body.

He had captured a large number of soul Tinders.

” wms01, go and capture the enemy's tier 5 goblin general. ”

go! Jiang Li ordered.

“Yes.”

wms01 nodded.

Shua!

WMS01 immediately got to work.

He charged into the battlefield and unleashed his demon domain. The power of a tier 7 being crushed everything. He surveyed the entire battlefield, and his demon power transformed into chains that soared into the sky like giant pythons.

“Ah!”

“Seventh rank! It's at the seventh step!”

“Heavens!”

the great Xia Dynasty already has a Type 7 Emperor-level powerhouse!

“!!!”

the demon generals shrieked in fear.

Half an hour later.

All the Tier 5 demon generals of the black Tiger fleet were captured by WMS01. The demonic god Power formed chains and bound them.

he brought it to jiang li.

“chief sovereign.”

WMS01 reported to Jiang Li, ” ” capture all the level-five demon generals. ”

“Yes.”

Jiang Li got up and nodded in satisfaction.

In front of him.

In total, there were seven hundred and twenty-three tier 5 demon generals.

700th place.

There would always be one or two demons who were afraid of death and wanted to live. As long as he could successfully enslave one, he would be able to obtain important information from the other party.

Buzzzzzz!

Immediately.

Azure Dragon. Jiang Li activated the position of the human Emperor. The Azure Dragon Mark appeared between his eyebrows and the aura of the human Emperor appeared. Then, the Azure Dragon of the Xia Dynasty appeared behind him.

The Azure dragon's eyes coldly stared at the Tier 5 demon generals.

“!!!”

The pressure on these fifth-rank demon generals doubled. Under the pressure of the human Emperor's status and the Dragon's might of the country, they all knelt on the ground, their faces pale and their bodies covered in sweat.

“he should be the human emperor of the great xia.”

“this is the pressure of the human emperor's position. there's no mistake.”

“.....”

The Tier 5 demon generals were trembling in their hearts.

“The Emperor of the great Xia Dynasty.”

At this moment.

however, a level-five general of the monster race raised his head. he knew he was going to die, so he stared at jiang li and yelled, ” “Don't be too smug.”

the power of the ten-winged dynasty is not something that the great Xia Dynasty can fight against. You have destroyed the black Tiger fleet. His Majesty, the demon Emperor, will not let you off. He will definitely take revenge for the black Tiger fleet.

“At that time, the great Xia Dynasty will definitely be destroyed by our ten-winged dynasty, and you will die without a burial place in the end. Hahahaha!”

“you don’t know your place.”

Pfft!

let’s go. Jiang Li waved his right hand and activated the Dominator Dragon divine weapon. The Dragon-shaped bracelet on his right wrist shot out a metal thorn that pierced through the monster’s head like a javelin.

A one shot kill.

“Is there anyone else who would like to say something?”

” i’ll go, ” jiang li said.

“.....”

The demons were so frightened that they fell silent.

“Since you have nothing to say, then let me say it.”

you monsters, ” Jiang Li said indifferently. how dare you invade the Xia Dynasty. You deserve to die, but I’ll give you a chance to live.

As soon as he finished speaking.

buzzzzzz!

Jiang Li waved his right hand and another ‘core contract charm’ appeared in front of the monster generals. It was glowing with a faint green light.

“Core contract charm.”

The demi-human generals immediately recognized him.

Instantly.

He could vaguely guess what Jiang Li wanted to do.

as long as you're willing to submit, then let go of your mind and defense, and let the lone seed plant a 'core contract charm', you'll be able to live.

"It's better to live than to die."

I'm sorry, " Jiang Li said. you only have three seconds to think about it.

"Don't even think about it!"

"human emperor of the xia dynasty, stop dreaming."

"You want us to submit and become demon slaves? It's impossible!"

Instantly.

Many of the demi-human generals were agitated.

"One!"

Jiang Li didn't respond. Instead, he started the countdown.

"two!"

"three!"

The three-second countdown ended.

Jiang Li frowned.

because ...

most of the level-five demon generals glared at jiang li, while some lowered their heads. none of them were willing to surrender, which made jiang li a little upset.

He also did not expect this.

There were more than seven hundred demi-human generals, and not a single one of them was afraid of death?

to tell the truth.

Jiang Li didn't believe it.

but ...

The truth had already happened.

“Then kill them all.”

ten-winged dynasty? ” Jiang Li felt helpless. He wanted to learn more about the ten-winged dynasty from them so that he could be prepared.

now, he could only recall the core contract charm. he waved his hand and gave wms01 an order.

“Yes.”

WMS01 nodded.

Buzzzzzz!

WMS01 made his move. The chains formed by the demonic God's power contracted and squeezed into the bodies of these devil generals. Then, with a 'bang', they were strangled to death.

“Ah!”

Pfft! Pfft!

Miserable screams rang out continuously.

One demi-human general after another fell.

Buzzzzzz! Buzzzzzz!

Many level-five soul Tinders flew out of the bodies and into Jiang Li's body like fireflies.

[acquired a Tier 5 soul Tinder!]

.....

[acquired a Tier 5 soul Tinder!]

.....

A series of notifications popped up.

“If the fifth-rank one doesn't work, then find the fourth-rank one.”

Jiang Li changed his target. however, a level-four monster might have a low status. I don't think it knows many secrets, but it's better than nothing.

“have mercy! Spare me! i’m willing to submit! I’m willing to submit!”

at this moment.

After the seven hundred-some monster generals had all died.

A few generals couldn’t take it anymore. They watched their comrades die one by one. Fear took over their hearts and they collapsed. They begged for mercy.

“WMS01, stop immediately.”

Jiang Li’s eyes lit up and he immediately shouted.

“Yes.”

WMS01 held back his strength.

There were more than 700 level-five monsters, but only three survived. They knelt on the ground and kept kowtowing to Jiang Li. Their faces were full of fear and the desire to live.

“Very good, very good.”

jiang li smiled and looked at the three level-five demon generals in front of him.

“who’s going first?”

Shua!

Jiang Li took out a ‘core contract charm’.

“This Suan ni, this Suan ni”

The three tier 5 demon generals exchanged a few glances, their faces filled with struggle.

“What’s wrong?”

Jiang Li’s eyes darkened. you’re not willing? It seems that you don’t want to live anymore. That’s good, I don’t need to waste the core contract charm.”

“Xia Yingluo, Your Majesty, I, Yingluo, I’ll go first. I’ll go first.”

the yellow-haired, burly middle-aged demon immediately shouted.

Chapter 519 Inflated

“Go.”

shua!

Jiang Li waved his right hand and the ‘core contract charm’ flew out. It quickly merged into the man’s mind like a ray of green light.

“.....”

the burly middle-aged demon grunted and closed his eyes. his body trembled slightly, and his face was soon covered in cold sweat.

Then, his expression gradually twisted.

“Give up on resisting and accept it with all your heart and soul. Otherwise, you will die without a doubt.”

stop! Jiang Li shouted.

“Ah!”

However ...

The burly middle-aged demon let out a shrill scream. His eyes were red, and the veins on his body were bulging. He clenched his fists and blood began to flow from his seven orifices.

bang!

The next moment.

His head exploded.

The headless body fell to the ground.

He had failed.

I’ve wasted another core contract charm.

Jiang Li didn’t look too good.

One had to know.

There was a limit to the number of ‘core contract charms’.

One used meant one less.

“Next,”

Humph! Jiang Li snorted.

“Yes, yes,”

The shorter Tier 5 demon general walked over.

“If you don’t want to die, then don’t even think about resisting, not even for a little bit. Otherwise, you should know that you will end up like him.”

” don’t worry, ” jiang li reminded.

“Yes, yes,”

The shorter Level 5 demon general quickly nodded.

“Go.”

Jiang Li formed another ‘core contract talisman’. The talisman turned into a ray of light and merged into the shorter level-five General’s forehead.

This time.

This demi-human General’s condition was not bad. There was nothing strange about him, and his expression was relatively calm. Not long after, an Azure Dragon Mark appeared on his forehead.

It was very smooth.

The enslavement was a success.

Immediately.

Jiang Li also felt it.

“Servant Zhu Di kneels before master.”

Jiang Li, the short general woke up and kowtowed to Jiang Li. He was extremely respectful.

“Alright,” he said.

jiang li smiled and asked wms01 to take back the chains on zhu di. zhu di stood up and waited on the side respectfully.

Soon after.

Jiang Li created another ‘core contract charm’ and enslaved the third level-five general, but he failed again. The third level-five General’s head exploded and he died.

“What a pity.”

No. Jiang Li shook his head in disappointment.

However ...

They could enslave a level-five demon general.

He had already profited.

“Zhu Di.”

Jiang Li said.

“Master.”

Judi walked over respectfully. please give me your orders.

“Yes.”

...

okay. Jiang Li nodded with satisfaction. tell me everything you know about the ‘ten-winged dynasty’. Don’t hide anything.

“I dare not hide anything.”

zhu di quickly replied, ” master, my position in ten-winged dynasty isn’t too high. however, it’s not low either. after all, my cultivation base is at the peak of tier 5. ”

“If I can take one more step and break through to the sixth step, I’ll be able to become the Army’s Vice Marshal.”

therefore, other than some special secrets, most of the intelligence servants of the ‘ten-winged dynasty’ know a thing or two.

“Speak.”

Jiang Li said.

the ten-winged dynasty has a total of ten dynasty legions. In terms of overall strength, the black Tiger fleet is only ranked seventh. There are still six other legions that surpass the black Tiger fleet in overall strength.

Zhu Di explained in great detail,”ranked first is the ‘ten-winged Army’s’ Marshal ‘Sha Luo Jin’. He has even reached the seventh step of his cultivation.”

“the most important thing is ...”

“His Majesty, ten-winged demon Emperor, also controls the ‘ten-winged Imperial Army’. The ‘ten-winged Imperial Army’ is His Majesty, ten-winged demon Emperor’s core army. Even I don’t know the exact strength of the ‘ten-winged Imperial Army’.”

...

“but without a doubt, it has far surpassed the ‘ten-winged army’, which is ranked first.”

“Also, His Majesty, ten-winged demon Emperor, has already reached the peak of the seventh stage a thousand years ago.”

“Other than that, ten-winged dynasty’s bi an”

Time passed.

Zhu Di told Jiang Li everything he knew, giving him a general understanding of the ten-winged dynasty.

First of all ...

just in terms of military strength.

On the surface.

The ten-winged dynasty’s military strength had already reached ten billion.

Plus ...

The ten-winged demon Emperor had already reached the great circle of the seventh stage a thousand years ago.

And now.

Although he might not have broken through to the eighth level, with the help of the nine Dragon-level Empire's National aura Saint weapon and various supplementary means, his strength was naturally very terrifying.

Jiang Li didn't have the power to fight against them.

Soon after.

Zhu Di then told Jiang Li about the distribution of the dynasties in the Saint peace state.

Among them.

In the northern region of the Holy peace Region.

Because of the 'Demon God disaster' that year, the environment was greatly damaged. A large number of spiritual crystal mines disappeared, and resources were scarce.

so,

even though it was vast, the great xia empire was the only empire.

In addition, there were no 'secret lands' or 'floating continents' in the northern region of the Holy peace state, so it was impossible to accommodate more dynasties.

In addition.

In the Western Region of the Holy peace Region, where the ten-winged Empire was located.

Other than the ten-winged dynasty.

There were also five great majestic empires.

There were also more than ten dynasties that survived under the rule of the Empire.

There were seven great empires in the southern region of the Saint peace state, six in the Eastern Region, and nine in the central region.

Moreover, the Wutian demon dynasty, which ranked first in the 'Hidden Dragon ranking' of the Saint peace state, was in the central region of the Saint peace state.

The human race's 'martial King dynasty', which was ranked second, was located in the Eastern Region of the Holy peace state.

The third-ranked barbarian race, the 'Emperor Dragon barbarian dynasty', was located in the southern region of the Holy peace state.

The 'ten-winged dynasty' was ranked 15th.

In other words ...

In the entire holy peace Region.

There were also 14 other dynasties whose fate had surpassed the 'ten-winged dynasty'.

Even though ...

It wasn't that the stronger the Empire's National fate was, the stronger the Empire's strength would be. However, if the Empire's National fate was strong enough, the Empire's strength would definitely not be weak.

he is only ranked 15th on the hidden Dragon rank, but he already has ten billion soldiers.

Jiang Li thought, I wonder how powerful the top-ranked dynasties are. It seems that I've been overconfident.

he actually wants to use four billion meches to fight the central region of the Holy peace Region.

if we were to encounter a dynasty ranked in the top ten, I'm afraid we wouldn't even be able to defeat them.

One had to know.

Just the difference between dynasties.

For example, the DA Qian dynasty and the Shu country.

Back then.

The great gan Lord dynasty could only mobilize a few million soldiers, but the Shu state could build an army of 100 million soldiers.

The difference in military strength between the two sides had reached tens of times.

This was the difference in military strength between an ordinary dynasty and a top-tier Marquis dynasty.

In other words ...

The difference in military strength between an ordinary dynasty and a top-tier dynasty could also be dozens of times.

of course.

The ten-winged dynasty was no ordinary dynasty.

Only the dynasties ranked below 25th on the ‘young dragon ranking-Saint peace state’ were considered ordinary dynasties.

Half a day later.

Jiang Li’s ‘dynasty Corps’ ended the war and annihilated the ‘Black Tiger fleet’ of the ten-winged dynasty. They also killed nearly one billion monsters.

At the same time.

They seized a large number of ten-winged dynasty’s giant airships.

the floating ship.

This was a ‘war weapon’ created by the monster race’s mechanical refiners. It was paired with defensive formations, flying formations, floating formations, combat formations, and so on.

it could be said that ...

It combined ‘puppetry’, ‘mechanism’, ‘forging’, and formation ‘into one.

Jiang Li was curious too.

however ...

Jiang Li observed it carefully, but he couldn’t figure out anything because he didn’t know how to make puppets, mechanisms, refine weapons, or formations.

neither of them studied.

but ...

However, Jiang Li could let the battlefield commander learn this knowledge and master these skills. He might even be able to use them on mechanical technology.

At that time.

it was a combination of fantasy and technology.

they could create different sparks when they collided.

Of course.

Jiang Li didn't know if he could succeed.

He needed time.

furthermore ...

Even if he succeeded, the product would be too low-level and useless, but it could still be considered a way out.

Finally.

Clean up the battlefield.

The meches moved all the resources into the cabin of the large military transport plane, including the bodies of the high-level demons.

There were also the weapons and armors of the demon soldiers.

These were all resources.

the scrap metal of the meches had to be collected as well.

Other than that.

The meches found a lot of spiritual stones from the floating ship, the island-like flagship, and the three sub-flagships.

There were also all sorts of precious materials.

“Convert!”

Buzzzzzz!

jiang li converted all the spiritual stones and spiritual herbs he got.

A white light flashed.

The spirit stones and spirit herbs had all disappeared.

Shua!

conversion successful. Received 190 billion energy points!

A notification appeared.

He didn’t get many energy points.

After all, the black Tiger fleet was here to invade and fight a war. Naturally, it was impossible for them to carry too many resources with them. It was already good enough that they could obtain nearly 200 billion energy points.

[soul Tinder: 10.8 million level-one soul Tinders, 11 million level-two soul Tinders, 700000 level-three soul Tinders, 9000 level-four soul Tinders, 1 level-five

Demon Soul Tinder fragment, 190 level-five soul Tinders, two level-six soul Tinders]

Jiang Li destroyed the black Tiger fleet and got 101 level-five soul Tinders. He also killed four level-six monsters, but no level-six soul Tinders.

However ...

The soul Tinders below level five were plentiful.

Among them.

The number of level-one soul Tinders had exceeded 100 million.

“One-click fusion.”

buzzzzzz!

fuse. Jiang Li activated the soul Tinder fusion function and started to fuse the soul Tinders. The fusion interface appeared and it was shining.

a few minutes later.

Jiang Li fused all the soul Tinders into level-five soul Tinders.

In the end, he obtained 195 level-five soul Tinders.

with the 195 fused and the original 190, the number of fifth-tier soul Tinders has reached 385.

soul Tinder. Jiang Li glanced at the soul Tinder column. with so many level-five soul Tinders, it's enough to unlock all the level-five mech naval units and level-five mech Air Force units.

when the time comes, as long as I gather enough level-six soul Tinders, I can unlock the level-six troop class.

Chapter 520 Preparation

unlock the mech Ares-class weapon, mech Dragon-class weapon, and mech sniper-class weapon immediately.

shua!

The Dominator panel opened.

Jiang Li unlocked three level-five mechanical army units and used a total of 112 level-five soul Tinders. Several notifications popped up.

[the Ares-class mech has been successfully unlocked!]

.....

[the mechanical dragon divine weapon has been successfully unlocked!]

.....

[mech exterminating mech has been successfully unlocked!]

.....

[prompt: congratulations, Lord. You have completely unlocked the Tier 5 mech Army and successfully unlocked the authority of the Tier 6 mech Army. Please gather 'nine Tier 6 soul Tinders' and 'one hundred trillion energy points' as soon as possible to open the Tier 6 mech Army interface.]

A notification appeared.

Shua!

Immediately.

mech Navy. Jiang Li opened the interface of the mech Air Force and mech Navy.

continue to unlock the level 5 mech Navy and Level 5 mech Air Force.

Jiang Li controlled the Dominator panel.

Shua! Shua! “Whoosh!”

16 level-five soul Tinders have been consumed. Air Ares-class weapon has been successfully unlocked!

.....

” thirty-two level-five soul tinders have been consumed. the dragon divine weapon in the air has been successfully unlocked! ”

.....

[64 level-five soul Tinders have been consumed. The airborne destroyer has been successfully unlocked!]

.....

16 level-five soul Tinders have been consumed. The Naval Ares-class weapon has been successfully unlocked!

.....

32 level-five soul Tinders have been consumed. The ocean Dragon divine weapon has been successfully unlocked!

.....

[64 level-five soul Tinders have been consumed. Ocean destroyer has been successfully unlocked!]

.....

Six notifications popped up.

A total of two hundred and twenty-four fifth-tier soul Tinders were consumed.

Finally.

Of the 385 Tier 5 soul Tinders, only 49 were left.

However ...

All the level 5 units of the three main military types had been fully unlocked.

[prompt: congratulations, lord. you have completely unlocked the level 5 mech air force and successfully unlocked the authority of the level 6 mech air force. please gather 'nine level 6 soul tinders' and 'one hundred trillion energy points' as soon as possible to open the level 6 mech air force interface.]

.....

[notice: congratulations, Lord, you have completely unlocked the Tier 5 mech naval forces and successfully unlocked the authority of the Tier 6 mech naval forces. Please gather 'nine Tier 6 soul Tinders' and 'one hundred trillion energy points' as soon as possible to open the Tier 6 mech naval forces interface.]

.....

Immediately after.

Jiang Li received two more notifications as expected.

“Yes.”

okay. Jiang Li nodded in satisfaction. I just need to gather level-six soul Tinders and accumulate enough energy points to unlock the level-six troop class.

activate the unit type fusion function.

Buzzzzzz!

the army type fusion interface popped up.

” i’ve chosen to merge with the mechanical ares-class weapon, the air ares-class weapon, and the sea ares-class weapon. ”

Shua!

[do you wish to consume ten billion energy points for the fusion?]

“Yes.”

Jiang Li confirmed.

Buzzzzzz!

...

Ten billion energy points will be deducted.

In the interface.

The three types of fifth-grade troop classes started to overlap and merge.

It gave off a bright light.

BOOM!

The light exploded.

[fusion failed!]

“Continue.”

Jiang Li said.

Time passed.

After a few minutes.

...

Jiang Li spent 300 billion energy points in total and created three different ‘rank five Elite Fusion units’.

Among them, the mech Ares-class weapons, air Ares-class weapons, and sea Ares-class weapons were combined into the Super Ares-class weapons.

The ‘mechanical dragon divine weapon’, the ‘Air Dragon divine weapon’, and the ‘Sea Dragon divine weapon’ had fused into the ‘Super Dragon divine weapon’.

‘Mechanical executioner’, ‘air executioner’, and ‘ocean executioner’ fused into a ‘super executioner’.

Shua!

Jiang Li immediately closed all the interfaces in front of him.

“The entire Army will return.”

go! Jiang Li ordered.

“yes.”

“Rumble!”

The roar of the engine resounded through the sky.

Jiang Li led the huge ‘dynasty Army’ back to the ‘imperial capital’ with a full load of spoils.

In reality.

In the battle with the ‘Black Tiger fleet’.

Jiang Li’s ‘dynasty Army’ only lost about 100 million meches.

They won the war with minimal losses.

The night had passed.

It was already morning.

The sun rose.

Jiang Li led the 'dynasty Corps' to the base of Army No. 023 in the territory of the Marquis of Black Dragon and activated the teleportation station.

Buzzzzzz! Buzzzzzz!

Spatial fluctuations began to spread.

it quickly covered the large number of dynasty's meches.

shua! Shua!

Batches of mech Army troops were sent back to base 01, but they didn't appear in the air or around the base.

Instead, he entered the mech factory in the base.

"Teleport."

After dynasty's Army was teleported.

Jiang Li came to the teleportation station in the base of Army 023 and walked into the wormhole tunnel. Then, he was back in the teleportation room in the base of Army 01.

"Hidden Dragon,"

Jiang Li went to the room in the ruler's hub.

"Please give us your orders, chief sovereign."

The hidden Dragon appeared.

“Immediately create 100 million super Intel soldiers.”

” go! ” jiang li ordered.

“Yes.”

Hidden Dragon replied.

At the same time.

The first floor of the mech factory was operating at full power.

Two hundred million energy points and five million tons of steel materials were consumed.

one second.

100 million super Intel soldiers were completed.

my Lord, 100 million super Intel soldiers have been created.

Hidden Dragon reported.

“Yes.”

okay. Jiang Li nodded and called battlefield commander zh0214.

Currently.

Jiang Li had created 214 battlefield commanders in total.

Among them.

He had created 100 when he formed the '1st elite mech Army', and another 100 when he formed the '2nd elite mech Army'.

Before building the elite Fusion mechanical Army.

He had only created 14 battlefield commanders.

"Chief sovereign."

thank you. zh0214 saluted Jiang Li.

"Zh0214."

Jiang Li took out the 'demon bloodline cultivation secret technique' that he got from the 'Black Tiger fleet'. The seven refined bloodline technique.

"You can try to learn."

" go! " jiang li ordered.

"Yes."

Zh0214 nodded. He held the Jade scroll in his hand and activated the 'advanced learning' skill. Countless numbers of 0s and 1s appeared in his eyes.

It was like a waterfall.

Time passed.

An hour later.

“Whoosh!!!”

Immediately.

Zh0214’s body glowed with a blood-red light. The power of his bloodline had really appeared. Light patterns appeared on his face.

“My Lord, I’ve finished learning it.”

Zh0214 replied.

“Oh.”

Jiang Li immediately checked the information on zh0214.

special troop type: battlefield commander

[rank: grand completion of rank-three]

[no.: zh0214]

” skill 1: rank-three advanced intelligence

skill 2: advanced Tier 3 skill learning

skill 3: Tier 3 advanced battlefield command skill

learned skill 1: Level 1 low-grade mechanical bloodline power mastery (can be leveled up with advanced learning) ”

learned skill 2: Level 1 low-grade seven-refined bloodline technique (can be improved with advanced learning) ”

[artificial intelligence machinery: Wanwan (omitted)]

advancement requirements: one level-four soul Tinder, one million energy points ”

“Mechanical bloodline.”

Jiang Li Read zh0214’s information carefully and murmured, ” not only can the battlefield commander learn the secret martial arts of the human race, but he can also learn the secret bloodline techniques of the demon race. Learning the martial arts of the human race can give you ‘mechanical psionic power’, and learning the bloodline of the demon race can give you’ mechanical bloodline’.

“‘Advanced learning’ is indeed a very special skill.”

” zh0214, i now order you to lead the ‘large-scale reconnaissance team’ formed by 100 million super intel soldiers and fly over the ‘endless forest’ to the western region of the holy peace region. monitor and investigate the situation of the ‘ten-winged dynasty’. ”

” prepare for the war that might happen next, ” jiang li ordered.

“Yes.”

Zh0214 saluted.

“Yes.”

yes. Jiang Li nodded. after all, the ten-winged dynasty is a powerful dynasty of demons. You’re only at the perfected stage of level three. Your level is too low. Even if you disguise yourself with the power of the bloodline, you’ll be easily exposed.

[you need to increase your level.]

Jiang Li said.

Shua!

The Dominator panel opened.

Soul Tinder.

Jiang Li couldn't upgrade zh0214 because he didn't have a soul Tinder below level five.

“zh0214, you lead the ‘large scale reconnaissance unit’ and set off.”

jiang li said.

“Yes, sir.”

zh0214 said.

“Teleport.”

Buzzzzzz!

Immediately.

The teleportation room was activated.

First, they sent zh0214 and the 100 million super Intel soldiers to the base of the No. 023 Army. Then, they set off and flew to the Western Region of the Saint peace state.

at the same time.

let's go. Jiang Li sent out a huge Army of meches to The Endless Forest to hunt the beasts and collect the soul Tinder.

Endless forest.

It was vast.

It was about the same size as the death desert.

It was also equivalent to one-fifth of the northern region of the Holy peace Region.

In the forest.

A large number of wild beasts and fierce beasts were living there.

There were also many mixed-blood aliens living in the depths of the forest.

At noon.

The arrival of Jiang Li's 'mech Army' brought a terrifying disaster to the beasts and creatures in The Endless Forest.

"Target locked!"

"Fire the cannons!"

launch the missiles!

"Attack!"

BOOM! BOOM! BOOM!

In an instant.

A large number of artillery shells, cannon shells, energy shells, and conventional missiles directly carried out a blanket bombardment of The Endless Forest.

“Rumble!”

The flames soared to the sky.

The earth quaked and the mountains shook.

Countless trees collapsed.

“Ah!”

The screams of many mixed-blood aliens rang out.

“roar!”

The beast roared.

Then, they scattered and fled.

“Continue!”

BOOM! BOOM! BOOM!

The bombing did not stop.

The flames soared to the sky.

boom!

Suddenly.

From the depths of The Endless Forest, a huge ferocious beast rushed out. It had a pair of wings on its back and looked like the legendary flying snake.

They charged at Jiang Li's mech Army.

“Roar!”

It sounded like a Dragon's Roar.

it roared out a thick lightning pillar.

It pierced through.

“Nirvana blade.”

Shua!

MYL01 slashed out with the blade of extinction, shattering the lightning beam. SSTs01's figure flashed and appeared beside the flying snake.

Clang!

The sword light flashed.

the head of the flying snake was chopped off.

“Si si si ...”

“The Overlord of The Endless Forest, the ‘soaring Python’, was actually killed so easily.”

“Quickly run!”

“The enemy is too terrifying.”

“run!”

At this moment.

The foreign races in The Endless Forest were all terrified. After seeing how powerful their enemy was, they no longer had the courage to fight.

They began to scatter and flee.

Time passed.

A day and a night passed.

Finally ...

Jiang Li's mech Army stopped firing. The Endless Forest was on fire and there were huge pits everywhere.

the sky was filled with smoke.

Almost 90% of the ferocious beasts in The Endless Forest had been killed.
