

## Army 541

### Chapter 541

“Let’s go.”

Immediately after.

Jiang Li sent out ‘dynasty mechanical Army No. 2’ and rushed to the ‘soul martial puppet army’ as fast as possible.

The ‘soul martial puppet army’ was a puppet army made up of one billion puppet Warriors. Other than Qin Meng, who was the Commander-in-Chief, it was also controlled by many human puppet masters.

After Jiang Li’s ‘dynasty mechanical Army No. 2’ arrived, four billion meches started to kill the soul martial puppet army from all directions.

Half a day later.

The ‘soul martial puppet army’ had been completely annihilated, and they had obtained a complete victory.

But unfortunately ...

Puppet Warriors did not have souls.

therefore, although jiang li killed one billion puppet warriors, he didn’t get any soul tinder. he only got some after killing many human puppet masters.

The most important thing was ...

After a puppet warrior died completely, its corpse would turn into ashes and dissipate. There was no way to recycle it.

As a result ...

Jiang Li didn't get much loot. Not only did he not get many soul Tinders, but he also lost about a hundred million meches.

After taking Care of the Soul martial puppet army, Jiang Li returned to the imperial capital.

The next day.

“Chief sovereign.”

QX01 came and reported to Jiang Li, ” “Zh0214 has important information, requesting communication.”

“Answer.”

Jiang Li said.

“Yes.”

Shua!

The holographic communication was activated.

The scene unfolded.

“Chief sovereign.”

Jiang Li. zh0214 appeared on the screen and saluted.

“Report the situation.”

Jiang Li said.

“Yes.”

Zh0214 nodded, “My Lord, I’ve received accurate news that ten-winged demon Emperor has gathered an Army of ten billion soldiers. He’s even preparing to lead the Army personally to avenge the three billion demon soldiers and the three marshals.”

“Attack the Grand Xia Empire!”

“An Army of ten billion.”

Jiang Li’s pupils constricted.

“Yes, I am.”

Zh0214’s gaze was solemn. With ten billion demons and ten-winged demon Emperor leading the Army personally as the main Marshal, it’s enough to set up a rank-7 military formation.

A Grade 7 military formation can block Grade 7 attacks. Only grade 8 can break it.

“I know.”

Jiang Li took a deep breath. Keep an eye on him. Report to me immediately if anything happens.

“Yes.”

Zh0214 nodded.

Shua!

The communication ended.

“Ten billion demon soldiers.”

I’m in danger. Jiang Li looked serious and clenched his fists. with ten-winged demon Emperor, I’m in the biggest danger this time.

“Immediately contact the beast exterminating Army in the base of Army 037.”

go! Jiang Li ordered.

“Yes.”

qx01 nodded and activated the holographic communication.

Shua!

The holographic projection screen appeared.

“Chief sovereign.”

Jiang Li. zh01 and the others appeared on the screen and saluted Jiang Li.

“Yes.”

...

okay. Jiang Li nodded and asked, ” how’s the situation of MYL01 and SSTs01 in the ‘Poseidon dynasty’? ”

“Reporting to the chief sovereign, there hasn’t been much progress.”

” poseidon empire is very strong, ” zh01 replied. ” their defense is also very tight. it’s hard for us to get any more information. ”

“Have MYL01 and SSTs01 retreat.”

go! Jiang Li ordered.

“Yes.”

Zh01 nodded.

“Besides the ‘ocean Empire’, are there any other’ ocean dynasties ‘in the endless ocean where the Army base is located?”

Jiang Li asked.

“reporting to the lord, after this period of investigation, we can confirm that this sea area is called: the three-emperor sea area has three overlord ‘sea empire dynasties’, and the ocean empire is one of them.”

Zh01 said,”other than the ocean Empire, the other two Overlord-level ocean Empire are: The dream Dragon Empire and the Penglai Empire.”

...

“It’s a three-legged tripod.”

there are many ocean dynasties. They’ve hunted sea beasts in the beast exterminating Army and explored a radius of one million kilometers. There are more than ten ocean dynasties that we know of.

“Alright,” he said.

” okay. ” jiang li nodded in satisfaction. ” i’m afraid i can’t deal with the ‘ocean empire’ with my current forces. i’ll attack the ‘ocean empire’. ”

“Ruler, although the ocean Empire isn’t a powerful nation, it has the support of three Overlord-level empires. If we attack them, we’ll definitely alert the three Overlord-level empires,”

“When the time comes, dynasty’s Army will definitely come,” said zh01.

we’re not going to occupy these territories. We’re going to plunder resources and supplies.

let’s go, ” Jiang Li said. as long as we take down a ‘sea dynasty’ and take their resources, we’ll leave immediately. Even if the three Overlord dynasties are alerted, they won’t be able to catch up.

“Yes.”

Zh01 nodded, ” this subordinate will send out the Super Intel troops to investigate the surrounding ‘ocean dynasty’, and confirm the target and route of attack.

“Go on.”

Jiang Li waved his hand.

Shua!

The communication was cut off.

In the afternoon.

MYL01 and SSTs01 retreated from the ‘Poseidon dynasty’ and returned to the base of the 37th Division. The Super information troops sent out by zh01 had also confirmed the surrounding ‘Poseidon dynasty’.

Finally.

Then, he confirmed the route of attack.

First of all ...

The first target was the ‘Moro dynasty’ that was closest to the 37th Army base. The strength of the ‘Moro dynasty’ was average, roughly equivalent to the strength of the Wei Dynasty.

as for resources.

Since they had to pay tribute to the ‘ocean Empire’ behind them every year, there were not many materials and resources left. What was certain was that the ‘Moro dynasty’ had about two small spiritual crystal mines.

“Let’s go!”

let’s go. Jiang Li gathered his mechanical Army and only left the ‘great Xia mechanical Army’ made of ordinary meches to guard the great Xia Dynasty.

He sent out both ‘dynasty mechanical Army No. 2’ and ‘dynasty Army’.

“Teleport!”

“Whoosh!!!”

The spatial fluctuations were extremely clear.

The ‘teleportation room’ was activated, covering the entire base and teleporting away the ‘dynasty Army No. 2’ and ‘dynasty Army’ from the mech factory.

The scene changed.

In the three-Emperor seas of the endless ocean.

The base of the 37th Division.

Deep in the ocean.

Shua! shua! Shua!

A large number of meches appeared around the base. There were too many of them. The level three mech factory in the base couldn't accommodate so many meches.

so,

They were all teleported outside the base.

They were densely packed.

it filled up the surrounding seabed.

There were even many meches emerging from the sea.

it was hard to count.

One had to know.

'Dynasty Army No. 2', 'dynasty Army', and the 'beast exterminating Army' in the base No. 037, the total number of meches had reached about eight billion.

It was close to 10 billion.

It could be said that ...

Jiang Li's main force was all gathered here.

Buzzzzzz!

Jiang Li walked into the teleportation room in the base of Army 01 and entered the wormhole tunnel. In a flash, he was teleported to the base of Army 037.

He walked out of the teleportation station.

“chief sovereign.”

Outside.

There were hundreds of commanders, hundreds of super holographic soldiers, MYL01, SSTs01, WMS01, and four soul realm controllers.

They were all gathered together.

At the same time, he saluted Jiang Li.

“Yes.”

Jiang Li nodded, looked at MYL01 and SSTs01 and asked, ” “How much have you two evolved?”

” my lord, your subordinate's evolution progress has reached 95%. ”

Said MYL01.

“your subordinate's evolution progress has reached 94%.”

SSTs01 replied.

“alright,” he said.

Jiang Li nodded. almost 100%.

“Chief sovereign, this is the attack route we’ve decided on.”

Zh01 asked a super Intel soldier with the code CJ02 to project a map of the ‘three-Emperor Sea area’ and reported to Jiang Li.

On the sea Map.

There was a red route that ran through more than half of the map, and the attack route cleverly avoided the territories of the three Overlord dynasties.

“There’s no need to change it. We’ll just proceed according to the plan you’ve made.”

jiang li said.

“Yes, sir.”

Zh01 and the others saluted, ” I promise to complete the mission!

Half an hour later.

“Rumble!”

The engine roared.

Led by Jiang Li himself,’dynasty mechanical Army No. 2’,’ dynasty Army’, and ‘beast-exterminating Army’ formed the ‘predatory mechanical Army’.

The total number of troops had reached about eight billion.

From base 037, they headed Southeast. Their first target was the 'Moro dynasty'. With the speed of the 'mechanical Army', they would reach the 'Moro dynasty' in about an hour.

One had to know.

The meches of the 'plundering mechanical Army' were all 'Elite Fusion troops'. They had the ability to fight on land and in the air. In the ocean, they all became a mechanical Navy.

The speed was extremely fast.

On the other side.

At the edge of the three-Emperor Sea area.

the ocean region controlled by the martial king dynasty.

Martial King Island.

At the center of the island.

There was a huge military camp.

General's mansion.

"Marshal Wu, our spies have reported that a large number of Navy forces have appeared at the border between the dark sea and the three-Emperor Sea area. They're moving in the deep sea, but the exact situation is unknown."

Within the palace.

A general reported to 'Wu Zhonghe'.

“A large number of navies have appeared.”

it's true. Wu Zhonghe was a bald man with a rough face and abnormally well-developed muscles. there was indeed an unknown Navy that hunted a large number of fierce beasts in the three-Emperor Sea area some time ago.

it caused serious damage to the ecosystem, which attracted the attention of the 'ocean Empire'. They sent out a Navy to attack, but the unknown Navy stopped for a while.

“Now you're out to cause trouble again?”

“It's very possible.”

The general nodded. the Marshal's analysis is correct. However, our spies say that the number of navies this time is much more than the last time.

“Also, we still don't know the history of this Navy.”

“Oh.”

Wu Zhonghe muttered to himself, ” I'll immediately inform His Majesty, the Martial Emperor, and let him make a decision.

the resources in the Eastern Region of the Holy peace Region are limited. No matter how we split it, the cake will only be this big.

therefore, in the recent hundreds of years, His Majesty the force Emperor began to attach importance to the establishment of a 'Navy' and set his sights on the 'endless ocean'.

compared to the Holy peace Region, which has a limited area, the 'endless ocean' has unlimited resources.

“No matter what, we have to figure out the background and identity of this Navy.”

“Marshal, you said that this Navy came from the Black Sea. Then, could it be that the identity and origin of this Navy is related to the ‘great Xia Dynasty’?”

The general guessed.

“Impossible.”

Wu Zhonghe waved his hand and said with disdain, “I have indeed heard of the great Xia Dynasty. It is just a newly-established human dynasty.”

“How is it possible to build such a huge Navy?”

“that’s impossible,”

“The Lord Marshal is right.”

The general immediately nodded.

“however, yingluo”

Wu Zhonghe frowned and pondered for a while before saying, “Even though it’s unlikely to be related to the great Xia Dynasty, we still have to investigate.”

## Chapter 542 Capture

After sailing for more than an hour on the sea.

Jiang Li arrived at the border of the Moro dynasty with the 'mechanical Army of plunder'. Eight billion elite meches surrounded an Island at the border of the Moro dynasty.

On the surface of the sea.

Many ships appeared.

There were many of them.

They were densely packed like locusts, filling up the surrounding 10000 miles of sea. Looking out, one could not even see the end of the mechanical fleet.

On the deck of one of the ships.

Jiang Li was standing on it.

He was looking at the island ahead.

"Chief sovereign."

Zh01 stood next to Jiang Li and reported to him while pointing at the island, "The island in front is called 'Wanghai Island', one of the 108 islands of the Moro dynasty."

the entire Moro dynasty is made up of 108 main islands, and they control this region of the sea.

"Yes."

"okay." jiang li nodded and waved his right hand. "send my order. get close to it immediately and take down this island as soon as possible."

"yes."

Zh01 replied respectfully.

mech Army, hear my order. Advance to the island ahead.

The commanders of the battlefield gave their orders.

“Rumble!”

The engine roared.

On the surface of the sea.

The huge steel ships began to approach the ‘ocean-gazing Island’. It was a dark mass filled with a sense of oppression, as if a black cloud was about to crush the city.

It was very fast.

On the island.

Around the coast.

they built ‘sentry towers’.

On the guard tower.

Naturally, a large number of guards were stationed there.

After Jiang Li’s mechanical fleet arrived, it attracted the attention of the guards on the island. All the guards gathered in a very short time.

Defend the coastline.

At the main guard tower.

“What’s going on?”

The island master of the gazing-Sea Island, mo Qing, stood on the main Sentry tower with a solemn expression. His face was pale as he looked at the fleet of ships on the sea surface in a state of fear.

“where did these fleets come from? What do they want?”

Mo Qing swallowed his saliva.

One had to know.

The entire ‘ocean-gazing Island’ only had about 100000 Navy guards. Facing this endless mechanical fleet, mo Qing only had a deep sense of powerlessness and fear.

“There’s no need to log in,”

Jiang Li looked at the island, waved his hand, and ordered, ” “direct long-range bombardment.”

“Yes.”

Zh01 and the others replied.

let’s go! he then gave out orders as Jiang Li ordered.

Kachaa! Kachaa!

Immediately.

The cannons of the mechanical ships were raised, and the pitch-black muzzles were aimed at the ocean-gazing Island.

target locked. Fire!

“Attack!”

BOOM! BOOM! boom!

the next moment.

The ship’s cannons fired cannonballs one after another. They rose into the sky, leaving trails of flames behind them. They were like a group of meteors, moving at an extremely fast speed.

they bombarded the island.

“No!”

On the island.

...

The soldiers on guard widened their eyes, and could only watch helplessly as the tens of millions of cannonballs came blasting towards them, unable to resist.

The god of death had descended.

“BOOM!”

tens of millions of cannonballs not only covered the coastline, but almost the entire island was covered in them.

In reality.

Jiang Li's 'mechanical Army' only used a very small part of his forces for this round of cannon fire, and they were the 'super carriers'.

Even so ...

When tens of millions of naval artillery shells exploded on the island, the earth-shattering explosions easily destroyed the Sentry towers and defensive buildings on the coastline.

"Ah!"

Pfft! "Pfft!"

Smoke and dust filled the air. The ground cracked open from the explosion. The entire Island seemed to be shaking, and the soldiers on the defense kept screaming.

...

Corpses were everywhere.

It was only one round of bombarding.

They had completely destroyed the entire Island-gazing Garrison.

The entire Army was annihilated.

A few minutes later.

The aftermath of the explosion gradually subsided.

The island was in ruins. The buildings on the island were all in ruins, and the forests and lakes were destroyed by the explosion.

It was like the end of the world.

On the ground that was badly damaged.

There were corpses lying on the ground.

Other than that.

Some of the surviving soldiers fell to the ground, wailing in pain. They were either missing an arm or a leg, or half-dead.

“log in.”

Jiang Li waved his hand.

Shua! Shua!

Jiang Li went to sea-gazing Island in person.

Immediately after.

” let’s go. ” jiang li sent meches to capture a few survivors and forced them to tell him where the resources and supplies were stored.

Finally.

mo Qing. Jiang Li found the island owner of sea gazing Island by interrogating the captives.

Because ‘mo Qing’ had the cultivation of the perfected stage of the third level, he had survived the explosion. He had only suffered some serious injuries, but his life was not in danger.

“Sir great Suan ni, I’ll Take You There now.”

Mo Qing said in a trembling voice.

“Alright,” he said.

okay. Jiang Li nodded.

Half an hour later.

jiang li had taken all the resources on the island, including 100 million tons of steel materials and all kinds of pills and materials.

After that, he had to convert the spirit herbs, medicinal herbs, and spirit crystals.

He had obtained 100 million energy points.

“that’s too little,”

Pfft!

only one hundred million energy points. Jiang Li waved his right hand and his power of true spirit formed a ray of light that pierced through mo Qing’s forehead. only one hundred million energy points.

“Zh01.”

don’t waste your time on these ‘islands’, ” Jiang Li said. there are too few resources on these’ islands’. Go to the ‘King Island’ of the Moro dynasty.

“Yes, sir.”

Zh01 nodded.

A few minutes later.

Jiang Li's 'mechanical Army' left the 'ocean-gazing Island' and confirmed the location of the 'King Island' of the 'Moro dynasty'.

The target was Moro Island.

They followed the straight route.

With the speed of the 'mechanical Navy ship' that the Super carrier had transformed into, it took less than half an hour to cross more than half of the Moro dynasty.

After passing by one island after another, they arrived at Moro Island.

In reality.

Jiang Li's super transport troop had more than one billion soldiers.

In other words ...

On the surface of the sea.

there were more than a billion ships sailing. with so many ships, the movement caused by the sailing was extremely huge.

He made a rough calculation.

It was just a single ship.

The ship was about 50 meters in length and 10 meters in width.

Hence, the surface area of a single mechanical ship was 500 square meters.

Then, there were billions of mechanical ships.

The total area was around 700 billion square meters.

In other words, it was 700000 square kilometers.

It was about the size of half a province.

Moreover ...

It was impossible for the mechanical ships to travel close to each other. There had to be a certain distance between each other. The area occupied by more than one billion mechanical ships was almost the size of a province.

“Chief sovereign, we’ve arrived at Moro Island.”

Zh01 reported.

“yes.”

yes. Jiang Li nodded. I’ve seen it.

“my lord, are we going to engage in a landing battle this time?”

Zh01 asked.

“We’ll first fire an area-of-effect attack, then land for combat.”

” go! ” jiang li ordered.

Moro Island.

The island was huge.

It was no longer just an Island. It had a vast area, almost comparable to a small continent, about one-tenth of the Northern Territory of the Holy peace Region.

At this moment.

on mara island.

Because Jiang Li’s ‘mechanical Army’ was very quiet, the Moro dynasty had already received the news that a terrifying Navy was coming to Moro Island.

Not only that.

the sudden appearance of such a huge naval force in the three-emperor sea realm had already attracted the attention of the three overlord sea dynasties.

At this moment.

inside the mo lu palace.

Your Majesty, there’s an urgent report from the front line on the coast. The Navy has already arrived at the waters of Moro Island and is likely to launch an attack soon.

The Moro Navy’s Chief Marshal Yue qianqiu spoke with a heavy tone, the enemy has hundreds of millions of ships. It’s hard to imagine how many soldiers they have.

“Your Majesty, did the ocean Empire not send any reinforcements?”

“With the military strength of our mo Luo Empire, it is impossible to defeat the other party. Only death awaits us.”

“Your Majesty, please make your decision.”

Your Majesty, we’d better escape quickly. If we don’t, it’ll be too late. As the saying goes, ‘where there’s life, there’s hope.’ Our lives are more important.

“Your Majesty!”

The officials of the Moro dynasty shouted one after another.

“Rumble!”

Suddenly.

The sound of an explosion rang out.

Jiang Li’s ‘mechanical Army’ officially launched an attack on Moro Island.

The first was the firing of the cannons of the billion-plus mechanical ships.

more than a billion cannonballs rose into the air and covered moro island.

The cannonballs fell one after another.

It covered the sky.

Countless explosions were heard.

the buildings and defense lines around moro island's coastline were destroyed by the cannonballs. they collapsed and a large number of soldiers died.

The entire Island was shaking.

The rolling waves hit the shore of Mara Island.

Immediately after.

The Super artillery unit, the multipurpose tank unit, the laser destroyer unit, the Super ARES unit, and so on, fired shells and missiles at Moro Island one after another.

It was a complete Cannonball bombardment.

after the bombardment ended.

Immediately.

Water and electricity mech troops, Dominator Dragon divine soldier troops, super energy soldier troops, Storm Giant soldier troops, Super Dragon divine soldier troops, and so on.

They landed on Moro Island from all directions.

A few billion soldiers.

They poured into Moro Island.

kill!!!

” attack!!! ”

They looked down from the sky.

Jiang Li's mech Army moved like a tide from the coastline to the center of Moro Island.

the moro dynasty's army was completely defeated by the mechanical army.

It simply couldn't be blocked.

The 'mechanical Army' was unstoppable.

It only took an hour.

They had annihilated the entire Army of the Moro dynasty.

Buzzzzzz! Buzzzzzz!

On the battlefield.

Soul Fire Seeds flew out of the bodies and formed a colorful rainbow. They all flew to Jiang Li and caught many Soul Fire Seeds.

at the same time.

myl01 and ssts01 had also absorbed a large number of remnant souls.

it increased the evolution by a little.

However ...

It wasn't a hundred percent.

After all, the military strength of the Moro dynasty was too weak.

Chapter 543 Peak

finally.

let's go. after taking down the entire Island, Jiang Li entered the island and came to the capital of Moro in the center.

In the main hall of the Royal capital.

Within the palace.

There were corpses lying on the ground.

the bodies were the ministers and generals of the moro dynasty, but they were all dead. they were all killed by jiang li's meches.

not a single one was left alive.

Only the Emperor of the Moro dynasty, 'Moro', survived.

in reality.

The meches didn't kill mo Luo on purpose. They only severely injured him and left him to Jiang Li.

“Who are you?”

Mo Luo was wearing a Black Dragon robe. His face was pale and there was blood at the corner of his mouth. He sat on the ground and was badly injured. He stared at Jiang Li and asked angrily, ” “Why are you doing this?”

my Moro dynasty is backed by the ocean Empire. If you destroy the Moro dynasty, the ocean Empire will not sit by and do nothing. You will definitely suffer the revenge of the ocean Empire.

Jiang Li didn't say anything. He just looked down at mo Luo coldly. He waved his right hand and the Dominator Dragon divine weapon turned into a Black Dragon-scaled longsword. Then he slashed.

A black sword ray streaked across.

Pfft!

Blood splattered everywhere.

Mara's head was cut off.

“Roar!”

immediately after.

The Moro dynasty's true dragon of National aura appeared. A three-clawed Black Dragon soared into the sky. A sorrowful Dragon's Roar rang out as the huge black Dragon's body crumbled.

The dynasty was destroyed.

The true dragon of National aura dispersed.

“The Azure Dragon art of the great Xia Dynasty,”

Buzzzzzz!

Azure Dragon. Jiang Li immediately activated his technique and the Azure Dragon of Xia appeared. It was 11000 meters long. It opened its mouth and devoured the three-clawed Black Dragon of the Moro dynasty.

After devouring the fate of the kingdom of Moro, the Azure Dragon did not change much because the three-clawed Black Dragon of the kingdom of Moro was only 1000 meters long.

Most of the fate of the nation had been offered to the ocean Empire.

“Although there isn’t much of the nation’s fortune, it’s better than nothing,”

Jiang Li said.

Half an hour later.

let’s go. Jiang Li sent out the mech Army to plunder the resources of the Moro dynasty and gathered all the resources.

Finally.

jiang li gained 115 trillion energy points, three billion tons of steel materials, and other pills and materials.

“Not bad.”

” okay. ” jiang li looked at the energy points and nodded in satisfaction. ” i’ve collected one hundred trillion energy points. i can unlock the level six mechanical army. ”

” all troops, gather. get ready to set off for the next target. ”

” go! ” jiang li ordered.

“yes.”

“Yes, sir!”

yes! zh01 and the other meches responded in unison.

Ten minutes later.

The ‘mechanical Army’ gathered in the sea outside of Mara Island. The Super carriers carried a large number of resources, including a large amount of steel materials, pills, and other materials.

“Hegemon, the next target is the Qinghe dynasty.”

“Continue to head southeast at your fastest speed. After an hour, we will enter the Qinghe dynasty,” said zh01.

the Qinghe dynasty is a dynasty established by the mixed-blood Demonkin, and its national power is several times stronger than the Moro dynasty.

it’s about the same level as the wind order dynasty.

“alright,” he said.

okay. Jiang Li nodded with satisfaction. the Qinghe dynasty it is. I’m not afraid that they’re too strong. I’m just afraid that they’re not strong enough. The stronger the dynasty is, the more resources they can take.

Shua!

The Dominator panel opened.

On the way to the Qinghe dynasty, Jiang Li was going to unlock the level 6 mech Army.

He looked at the three military types on the interface.

...

Jiang Li fell into deep thought.

mech Army, mech Navy, mech Army.

I'll unlock it first. Jiang Li muttered, " which one should I unlock first? "

The three main military types.

Each had their own advantages and disadvantages.

The mechanical Army.

It was the most powerful, but it couldn't fly. It had low mobility and couldn't fight underwater.

Mech Air Force.

It had the least power, was able to fly, and had high mobility, but was also unable to fight underwater.

the mechanical army.

Medium power, able to fight underwater, average mobility, but unable to fly.

...

so,

Only by combining the three types of troops into 'elite mech troops' could they make up for their own strengths and weaknesses and become an all-rounded troop type.

"If I remember correctly."

level six is the limit of the 'three main mechanic types', " Jiang Li murmured. after all the level six units are activated, you'll get the permission to activate the' mechanic interstellar Army'.

" level 7 is already in the category of 'mechanical interstellar military service'."

Level 6 mech Air Force troop class unlocked.

Finally.

okay. Jiang Li made a decision.

Shua!

[ nine level-six soul Tinders have been achieved. One hundred trillion energy points have been achieved. Unlocking conditions have been met. Unlocking the level-six interface of the mech Air Force military formation. Please wait patiently. Countdown: 10?9?8?7.....?

the countdown has ended. The interface for the level 6 mech Air Force military type has been successfully unlocked.

[ can be expanded. ]

A series of notifications appeared in front of Jiang Li.

He had completed the unlocking of the level 6 mech Air Force.

open the interface for mech and air Force.

Jiang Li controlled the Dominator panel.

Shua!

[ interface: mech Air Force type ]

?.....?

Level 6 troops: mechanical controllable nuclear fission air-transforming soldiers (unlocked), mechanical controllable nuclear fusion air-transforming soldiers (12/32 locked)

“As expected, there are only two types of troops.”

Jiang Li wasn't surprised, because he already knew.

In reality.

It wasn't just the mech Air Force that only had two types of Level 6 troops-the mech Navy and mech Army. These two types of troops also only had two types of Level 6 troops.

create 10 mechanically-controlled nuclear fission air-transforming soldiers.

Shua!

jiang li controlled the dominator panel.

Building a single type 6 controllable nuclear fission air-transforming soldier required 100 billion energy points. Building 10 Type 6 controllable nuclear fission air-transforming soldiers would consume one trillion energy points.

Buzzzzzz!

The manufacturing interface appeared.

In the interface.

It was an illusory figure.

The illusory figure slowly rotated, and countless light spots filled the surroundings, causing the illusory figure to gradually become solid.

A minute later.

[ creation complete! ]

A notification appeared.

Shua! Shua! Shua!

Immediately after.

Ten ‘mechanically-controlled nuclear fission air-transforming soldiers’ appeared in front of Jiang Li. They stood in a row, five men and five women.

furthermore ...

The ten meches in front of him looked like normal people. They were wearing a general-level Air Force uniform and a military cap. They looked to be around 30 years old.

“My Lord!”

” jiang li! ” the ten mechanical and controllable nuclear fission air-transforming soldiers stood straight, saluted jiang li, and shouted in unison.

“Alright,” he said.

okay. Jiang Li nodded.

Obviously.

Level 6 mech.

As it was already at the peak of the three major mechanical armed forces, after it was manufactured, the military rank would be the highest, general.

“Upgrade.”

Buzzzzzz! Buzzzzzz!

It would take 1.4 trillion energy points to upgrade a mechanical controllable nuclear fission air-transforming soldier to the perfected-stage of level six. Jiang Li used 14 trillion energy points to upgrade ten.

A few seconds later.

ten mechanically-controlled nuclear fission air-transforming soldiers had been upgraded.

All of them had reached the peak of Tier 6.

Shua!

unit Type: Mechanical controllable nuclear fission air-transforming soldier

[ rank: complete rank six ]

[ no.: kkkhlbkz01 ]

skill: Tier 6 ultimate-grade controlled nuclear fission ”

[ equipment: Tier 6 ultimate nuclear fission controller ]

[ machinery: Jian Jia (omitted) ]

advancement requirements: one level-seven soul Tinder, one trillion energy points ”

Jiang Li checked the basic information of the mechanical controllable nuclear fission air-transforming soldier.

Although Level 6 was the peak of the three main mech types, they could still use level 7 soul Tinder to upgrade to Level 6.

“Kkkhlbkz01, step forward.”

Jiang Li said.

“Yes.”

Kkkhlbkz01, who was on the far right, walked forward and saluted Jiang Li. Kkkhlbkz01 was a man.

“please give us your orders, chief sovereign.”

Kkkhlbkz01 said.

“Show me your ability.”

Jiang Li said.

“Yes, sir.”

kkkhlbkz01 nodded and said, ” ” reporting to the lord, this subordinate can completely grasp the power of ‘nuclear fission’ and can release the power of ‘nuclear fission’. ”

“Whoosh!!”

As soon as he finished speaking.

Kkkhlbkz01 raised his right hand, and a palm-sized ball of light appeared in his palm. It emitted a gentle-looking red light.

“My Lord, this ‘nuclear fission light ball’ in my hands is already as powerful as a ten-million-ton nuclear bomb.”

Kkkhlbkz01 said.

“Oh.”

Jiang Li raised his eyebrows and looked at the ‘nuclear fission light ball’ in kkkhlbkz01’s hand. It was only the size of a palm, but it was as big as a ten-thousand-ton atomic bomb.

Furthermore ...

kkkhlbkz01 was created casually.

“What’s the maximum level?”

jiang li asked again.

“chief sovereign, please take a look.”

“Whoosh!!!”

Kkkhlbkz01 slowly raised his hands above his head. The red ‘nuclear fission light’ was getting bigger and bigger.

It was as if there was no limit.

its diameter started from a few centimeters to dozens of centimeters, then a few meters, a dozen meters, a hundred meters, a few hundred meters, and finally a thousand meters.

quickly stop!!!

Jiang Li’s scalp was numb.

one had to know.

The first few centimeters.

Its power was comparable to a ten-million-ton atomic bomb.

now.

This ‘nuclear fission light ball’ with a diameter of nearly a thousand meters was like a small sun. If it were to explode, the power would be unimaginable.

“Yes.”

kkkhlbkz01 nodded.

“Whoosh!!!”

In that instant.

The red ‘nuclear fission light cluster’ extinguished out of thin air, as if it had never existed, which showed the degree of control over ‘nuclear fission’.

It was perfect.

as expected of the top soldier type of the three major soldier types.

it’s indeed powerful. You know, this is the least powerful mech Air Force. The more mobile and powerful mech Army is even more powerful.

On the other side.

Moro Island.

Jiang Li had left a long time ago. He had already sailed out of the territory of the Moro dynasty and was on his way to the Qinghe dynasty.

Buzzzzzz! Buzzzzzz!

Two figures flew across the void at an extremely fast speed. They were like two rays of light, arriving in the sky above Mara Island and stopping.

He looked closer.

A man and a woman came into view.

“We’re late.”

The handsome middle-aged man in a green robe with a single black horn on his forehead looked down at the tragic scene on the island and frowned, "the Moro dynasty is finished.

"Who is the other party? What's his background?"

the beautiful and alluring woman's eyes turned gloomy. "they're really bold. don't they know that the moro dynasty is under the protection of the ocean empire?"

"He actually dared to destroy the mo Luo Empire."

"Yes."

The single-horned man looked around. After careful observation, he came to a conclusion and said in a deep voice, it seems like the other party's goal is to plunder resources.

they left after plundering all the resources in the Moro dynasty. I think they'll attack the other sea dynasties.

let's go back immediately and report to His Majesty the sea Emperor. We can't let the other party be so arrogant. Does he really think the three-Emperor Sea area is his own backyard?"

Chapter 544 promotion

Jiang Li's mechanical fleet sailed all the way on the surface of the three-Emperor Sea area.

From time to time, there would be attacks from sea beasts on the route, but they were easily dealt with.

The waves around him rolled violently as he looked up at the sky.

The sky was clear.

On the deck of the ship.

Jiang Li stood on the boat with his hands behind his back. The salty sea breeze blew against his face and the sound of waves hitting the edge of the boat was very clear.

MYL01, SSTs01, 4 soul realm controllers, 35 Type 6 puppet Warriors, as well as 10 mechanically-controlled nuclear fission air-transforming soldiers.

They all stood behind Jiang Li.

“Chief sovereign.”

“We’ve arrived within the borders of the Qinghe dynasty,” zh01 said.

“yes.”

” okay. ” jiang li nodded.

He raised his head and saw a huge island in front of him.

“Let’s continue.”

After Jiang Li’s mechanical fleet entered the territory of the Qinghe dynasty.

They sailed all the way.

during this period, they encountered three waves of the qinghe dynasty’s navy.

All of them were taken away by Jiang Li's cannons and missiles.

the news of the dynasty's navy's consecutive defeats reached the qinghe island, the king island of the qinghe dynasty, and the entire qinghe dynasty fell into a state of panic.

Half a day later.

They had arrived at Qinghe Island.

Shua!

At this moment.

a red three-clawed true dragon that was a thousand meters long flew over from qinghe island. standing on the red dragon's head was the demon king of the qinghe dynasty-mo qinghe.

“Roar!”

The three-clawed Red Dragon let out a high-pitched roar.

“Respected expert from afar.”

Mo Qinghe stood on the dragon's head and looked at the terrifying fleet on the sea with a reverent expression. He then shouted, ” “i am the qinghe dynasty's ‘demon king-mo qinghe’.”

I have come alone to request for the esteemed expert to spare the Qinghe dynasty's life. I don't care what kind of request you have, as long as the Qinghe dynasty is able to fulfill it, I will try my best to do so.

Finished speaking.

Mo Qinghe bowed and saluted to Jiang Li.

“Your Majesty!”

“.....”

On Qinghe Island.

The ministers of the Qinghe dynasty looked up at mo Qinghe. They felt extremely aggrieved. As the Demon King of the Qinghe dynasty, he had to beg for mercy in such a humble manner.

However ...

This was the reality.

The weak had no dignity.

“Attack!”

attack Qinghe Island. Jiang Li looked at mo Qinghe coldly without any hesitation. He waved his hand and gave the order to attack Qinghe Island.

BOOM! boom! BOOM!

The next moment.

the mechanical army, which had been prepared for a long time, fired a large number of ship cannons, long-range artillery shells, energy artillery shells, conventional missiles, and so on.

“no!”

In that instant.

It was a Cannonball that blanketed the sky and blasted directly at Qinghe Island. Mo Qinghe's eyes widened, and her face was filled with fear and horror.

“Set up the formation!”

Mo Qinghe roared.

Shua! “whoosh!”

The 10 controlled mechanical nuclear fission air-transforming soldiers attacked at the same time, like 10 red beams of light.

It was only for a moment.

He appeared in front of mo Qinghe.

nuclear energy beam!

...

Whoosh! Whoosh! “Whoosh!”

they stood around mo qinghe and pointed their fingers. the energy produced by the nuclear fission condensed and condensed, finally turning into a crimson nuclear light beam.

It pierced through the sky.

Pfft! “Pfft!”

Blood splattered everywhere.

The ten nuclear energy light beams pierced through mo Qinghe's body. His head, heart, and other vital parts were pierced by the nuclear energy light beams.

“Ah!”

Mo Qinghe screamed in pain.

His life force was completely extinguished.

It could be said that ...

He was killed without any resistance.

...

One had to know.

after all, mo qinghe was a mixed-blood alien with a cultivation at the peak of the sixth step-the demon dweller.

However ...

He had no chance to fight back against the 10 mechanically-controlled nuclear-powered air-transforming soldiers and was killed in one move.

on the other side.

the 'qinghe demonic army', which was made up of 200 million demonic soldiers, had just finished setting up the tier 6 formation when wms01 directly used the 'demonic god's eye 'and destroyed this tier 6 formation.

“Ah!”

BOOM!

Countless demon dwellers screamed in pain.

“Rumble!”

The cannonballs and missiles fell and exploded in the demon Army. Countless explosions were heard. It was just a wave of cannonballs and missiles.

He brought away the ‘Qinghe demonic Army’, which was made up of 200 million demonic soldiers.

Jiang Li took down Qinghe Island with zero losses.

Buzzzzzz! Buzzzzzz!

On the battlefield.

Soul Fire Seeds came out of the demon dweller’s body and formed a colorful rainbow that flew towards Jiang Li.

he had captured a large number of soul tinders.

the soul fire seeds of the mixed-blood alien races such as demons, half-demons, and barbarians were not special soul fire seeds, but normal soul fire seeds.

At the same time.

MYL01, SSTs01, and WMS01 had absorbed a large number of remnant souls on the battlefield. Both MYL01 and SSTs01 had finally evolved to 100%.

Immediately.

Their bodies were surging with light and fluctuations.

MYL01 emitted a black mist of light, while SSTs01 emitted a holy white light.

“Alright,” he said.

Jiang Li looked at MYL01 and SSTs01 and nodded with satisfaction. the evolution progress has finally reached 100%. I can upgrade to the early stage of Level Seven.

however ...

Upgrading to the initial stage of the seventh rank would require ten trillion energy points.

Jiang Li didn't have enough energy points so he couldn't upgrade MYL01 and SSTs01 immediately. Fortunately, Jiang Li had already taken down the Qinghe dynasty and could plunder their resources.

“All troops, hear my order! Land on Qinghe Island immediately and gather all the resources and resources on the island. Gather them all together.”

go! Jiang Li ordered.

“Yes.”

“Yes, sir!”

the order was given.

a few billion meches landed on qinghe island.

time passed.

Half an hour later.

Jiang Li first captured a few high-ranking demon dwellers in the Qinghe dynasty and interrogated them. In the end, all the materials and resources on Qinghe Island were taken.

In the end.

Jiang Li had gained 321 trillion energy points, eight billion tons of steel materials, and other materials from Qinghe Island.

“Upgrade to MYL01 and SSTs01.”

Buzzzzzz! Buzzzzzz!

Jiang Li immediately used twenty trillion energy points to upgrade MYL01 and SSTs01 to the early stage of Level Seven.

The light flickered.

It only took a few seconds.

He had completed the promotion.

“Thank you, chief sovereign!”

myl01 and ssts01 saluted jiang li.

at this moment.

MYL01 and SSTs01 were already Level Seven meches, so Jiang Li had two more Level Seven meches under his command.

Their high-end combat power had increased greatly.

From the appearance alone, there were not many changes between MYL01 and SSTs01.

Jiang Li immediately checked their basic information.

” special unit type: holy angel mech soldier ”

[ rank: early seventh rank ]

[ no.: ssts01 ]

skill 1: Level Seven inferior-grade holy sword Mastery ”

skill 2: rank seven inferior-grade divine power ”

” skill 3: rank seven low-grade divine domain ”

” skill 4: level seven low-grade holy angel ”

skill 5: Level Seven low-grade divine burial ”

Skill 6: Level Seven low-grade Holy beam cannon

skill 7: Level Seven low-grade judgement blade ”

[ equipment: Level 7 low-grade mechanical particle beam sword ]

[ angelic machinery: Jian Jia (omitted) ]

[ mechanical Holy ability: Pixiu (omitted) ]

[ evolution progress: 0% ]

“promotion condition: can not be promoted!”

First of all ...

jiang li finished reading the information on ssts01. the information panel had changed a lot. all the skills had been upgraded to level seven low-grade.

Other than that.

there was also a new skill, 'blade of judgment'.

Finally.

It was the change in equipment.

From the original 'angelic sword' to the current 'mechanical Holy energy particle beam sword'.

in contrast.

SSTs01's combat power naturally rose by a huge margin.

” special troop type: mechanical demon

[ no. my01 ]

skill 1: Level Seven low-grade psionic master ”

skill 2: Level Seven low-grade Soul Master ”

skill 3: Level Seven low-grade interstellar spirit ”

[ skill 4: lower grade seven demon spirit domain ]

” skill 5: rank seven low-grade demon spirit body ”

Skill 6: Level Seven low-grade destructive storm

skill 7: Level Seven low-grade Nirvana blade ”

” skill 8: tier 7 low-grade demon spirit high energy particle cannon

[ magic spirit machinery: Chenchen (omitted) ]

[ evolution progress: 0% ]

promotion condition: can not be promoted!

Jiang Li then read the information about MYL01. MYL01’s change was even greater than SSTs01’s.

All of MYL01’s skills had been upgraded to Level Seven low-grade.

‘Level four top-grade psionic mastery’ had advanced to ‘Level Seven low-grade psionic Grandmaster’, and ‘level four top-grade Soul Mastery’ had advanced to ‘Level Seven low-grade soul Grandmaster’.

The ‘fourth-tier pinnacle-grade void-ification technique’ became a ‘seventh-tier low-grade interstellar spirit’.

His demon spirit domain had also been upgraded from level four peak-grade to Level Seven low-grade.

Finally.

There was also a new skill, 'demon spirit high-energy particle cannon'.

On the other side.

when jiang li took down the qinghe dynasty, the ocean empire also sent out a powerful ocean empire navy.

They already knew how powerful Jiang Li's mechanical Army was.

so,

The 'Ocean Emperor Navy' that the ocean Empire had sent out was also powerful and had a large number of soldiers. The number of soldiers had already reached the level of ten billion.

furthermore ...

it was also led by the poseidon empire's 'commander', hai shaohuang.

However ...

'Poseidon's dynasty' couldn't determine Jiang Li's exact location for the time being. Also, the Navy of Poseidon couldn't travel as fast as Jiang Li's mechanical fleet.

so,

just as the 'neptune navy' rushed to the qinghe dynasty ...

Jiang Li had left a long time ago.

He headed towards his next destination, the 'Wind Rider dynasty'.

“Bastard!”

Hai shaohuang looked at the ragtag Qinghe Island with a dark expression. He scolded, ” activate the ‘sea Army’ immediately and catch up with them as fast as possible.

first, it was the Moro dynasty, and now it’s the Qinghe dynasty. They’ve been killed one after another. I’ll definitely annihilate the entire Navy of unknown origin.

“yes.”

“Yes, sir!”

set up the formation!!!

“whoosh!!!”

The ‘Neptune Navy’ set up the ‘marching formation on the sea’. The waves rolled up, and the huge ships formed a link with each other.

The speed of the Army increased.

Jiang Li didn’t know that the ocean Emperor dynasty had already sent out the ocean Emperor Navy. He had already arrived at the wind dynasty.

The gentlewind dynasty’s national power was far inferior to the Qinghe dynasty’s.

so,

After an hour.

‘Gale dynasty’ was taken over by Jiang Li and the king Island ‘Gale Island’ was occupied. Then, they spent another half an hour collecting and plundering resources.

after all the energy had been converted.

He had obtained 150 trillion energy points, four billion tons of steel materials, and a large number of pills, materials, and other resources.

Chapter 545

time passed.

Jiang Li led the ‘mechanical Army’. Within the three-Emperor Sea area, they were unstoppable with their strength.

One day later.

Jiang Li then took down the ‘green spirit dynasty’, ‘domineering whale dynasty’, and ‘magic cloud dynasty’ in the three-Emperor Sea area. In total, he got 780 trillion energy points and 23 billion tons of steel materials.

Pills, materials, gold, silver, jewelry, and all sorts of other resources.

That was even more uncountable.

Furthermore ...

there were too many resources, so jiang li activated a ‘space coordinate’ and created a temporary ‘wormhole tunnel’.

He ordered the 'super transport troops' to transport steel, medicinal pills, various materials, gold, silver, jewelry, and many other resources back to the imperial capital of the great Xia.

because there were too many supplies being transported back, xu ya and the others had no choice but to send a large number of slaves. with the help of mechanical engineers, they rushed to expand the 'great xia treasury' overnight.

Even so ...

Great Xia's National Treasury was still not enough.

Not including other supplies.

For example, steel.

One cubic meter of steel was equivalent to eight tons.

Jiang Li had taken down six 'sea dynasties' this time and obtained 38.1 billion tons of steel materials in total.

He did some calculations.

38.1 billion tons divided by eight tons was equivalent to 4.762.5 million cubic meters, which was roughly equivalent to the volume of a cube with a side length of 1700 meters.

of course.

The density of steel materials was relatively high.

Gold, silver, jewelry, all kinds of materials, and all kinds of pills of different grades. The area and volume occupied by these materials were several times larger.

three-emperor sea area.

After the ‘super carriers’ transported the supplies back to the imperial capital, Jiang Li activated another ‘space coordinate’ and created a one-time temporary ‘wormhole tunnel’ to transport the Super carriers over.

“Zh01, what’s our next target?”

Jiang Li asked.

“Reporting to the ruler, the next target is the Luo water dynasty.”

Zh01 replied.

“Yes.”

Shua!

Jiang Li opened the Dominator panel.

His energy points and soul Tinder had both increased explosively.

It could be said that ...

after jiang li took down six ocean dynasties in a row, he gained a lot of resources.  
the number of energy points he had increased to more than 120 trillion.

Jiang Li finally tasted the sweetness.

As expected.

If Jiang Li could take down more than a dozen ocean dynasties in the three-Emperor Sea area, he would have trillions of energy points.

However ...

jiang li had already offended all the three overlord dynasties of the three-emperor sea area by attacking all the sea dynasties in the three-emperor sea area.

The most important thing was ...

The ocean Empire, the dream Dragon Empire, and the Penglai Empire, the three Overlord-level ocean empires, had already formed an alliance to fight against the outside world.

Furthermore ...

After analyzing Jiang Li's attack route, the three Overlord dynasties had roughly figured out Jiang Li's next target and plan.

Shua! Shua! Shua!

In the air.

It was Jiang Li's super Intel mech Army. They were flying in the sky, scouting the situation and movements around the mechanical Army.

BOOM! BOOM! BOOM!

At this moment.

On the surface of the sea.

A large number of naval ships appeared. They formed a huge encirclement and sailed from all directions at a rapid speed.

His goal was clear.

It was Jiang Li's 'mechanical Army'.

"a large number of navy ships have appeared on the surrounding sea. "

"The enemy's target is very clear."

...

"The possibility of it being the enemy has reached 90%."

"Immediately inform the chief sovereign!"

After discovering the enemy's situation.

The Intel was immediately transmitted by the Super Intel soldiers.

"Chief sovereign."

Cjqx01 and the rest of the Super holographic soldiers immediately received the information from the 'super Intel soldier mechanical Army'. the Super Intel soldier mechanical Army has discovered the enemy.

"What's the situation?"

Jiang Li asked.

"Chief sovereign, please take a look."

Buzzzzzz!

Cjqx01 projected the images captured by the Super Intel soldier mech Army. In the images, there were many Navy ships appearing on the surrounding sea.

...

There were just too many ships.

even the super intel soldier mechanical army could not film everything.

“Chief sovereign.”

“We’re currently in the ‘chaotic Bay’ of the three-Emperor Sea area, which is the border between the Poseidon Empire, the dream Dragon Empire, and the Penglai Empire,” said zh01.

” if i’m not wrong, we’ve plundered a lot of resources and materials in the past two days because we’ve destroyed six sea dynasties in succession. ”

“It’s very likely that the three great Ocean dynasties have deduced our sailing route from the route of our attack, so they’re blocking us at the ‘chaotic Ocean Bay’.”

cjqx01, immediately order the Super Intel soldier mechanical Army to investigate the number of enemies. It would be best if we can determine the true identity and origin of the enemies.

go! Jiang Li ordered.

“Yes.”

Cjqx01 said.

” the battlefield commander. ”

Jiang Li took a deep breath and said in a deep voice, " it will be a tough battle soon. I'll leave the command of the battlefield to you.

"Yes."

"Yes, sir."

zh01 and the other commanders replied in unison.

"WMS01, MYL01, SSTs01."

you're all at the seventh-rank, " Jiang Li said. I'll leave all the enemy's seventh-rank combatants to you. You must block all of them. Don't let the enemy's seventh-rank Emperor-level experts break into the mechanical Army.

"Yes."

WMS01 and the others nodded.

"Soul realm controller."

Jiang Li continued, " your mission is to release your soul realms to offset the suppression of the enemy's battle formation. If the enemy has a level-seven battle formation, we can't break it because we don't have level-eight meches. We can only use your soul realms to defend.

"You still need to control 35 Type 6 puppet-Warriors to deal with the enemy."

"Yes, sir."

The four soul realm controllers nodded at the same time.

let's go! Jiang Li gave out orders one after another. The commanders also started to give orders. Different types of mechanical soldiers formed a mechanical Army.

Then, they gradually dispersed.

They were all ready for battle.

Shua!

The Dominator panel opened.

Jiang Li looked at the large number of energy points and soul Tinders and took a deep breath. He finally felt relieved. if I'm really forced, I'll just make a large number of mechanical controllable nuclear fission air-transforming soldiers.

If it really didn't work.

jiang li still had the 'space coordinate' with him. he could create a 'wormhole tunnel' and teleport back to the 'army base 01'.

One had to know.

Dynasty was unable to come into contact with the space domain.

Jiang Li had the 'spatial coordinate' so he could leave whenever he wanted. The three Overlord-level dynasties couldn't stop him at all.

Furthermore ...

More than 120 trillion energy points.

It was enough to produce nearly 1000 mechanically-controlled nuclear fission air-transforming soldiers.

At that time.

There were a thousand perfected-stage level six meches.

Thousands of perfected-stage type 6 controllable nuclear fission air-transforming soldiers released nuclear energy at full power. In an instant, the terrifying energy of the nuclear explosion was produced.

Even a peak-stage type 7 Emperor expert would be reduced to ashes in an instant.

“I just don’t know if it’ll be able to threaten a tier 8.”

jiang li thought.

It would probably be very difficult.

This was because the gap between each level was like the difference between heaven and earth.

It was already very strong to be able to cross realms and kill those at the seventh step.

generally speaking.

An initial-stage tier 7 could easily kill a peak-stage Tier 6.

At this very moment.

Jiang Li’s super Intel soldier mech Army was approaching the enemy’s fleet and checking out the enemy’s situation.

BOOM! BOOM! BOOM!

Very quickly.

The Super Intel soldiers were discovered by the enemy. The formation was activated, and a huge formation map was formed. Beams of light shot out, shooting down many of the Super Intel soldiers.

At the same time.

there were also powerhouses at the 3rd rank and above.

it destroyed a large number of super intel soldiers.

However ...

The Super Intel soldier mechanical Army still managed to find out the enemy's situation.

“Hmph!”

BOOM!

Hai shaohuang's eyes were cold. He waved his right hand and terrifying energy gathered, forming a giant palm with a diameter of a million meters.

Bang Bang Bang Bang!

it was only one move.

It had destroyed tens of thousands of super Intel soldiers.

“This is the Navy's reconnaissance unit. It seems like they are quite capable. They were only discovered after they entered the hinterlands of our Poseidon Corps.”

“We've already been discovered,” hai shaohuang said.

“all troops, hear my order! increase the speed of the march!”

buzzzzzz! Buzzzzzz!

The formation was activated.

The speed of the sea Emperor Army’s fleet increased rapidly.

“Chief sovereign.”

Cjqx01 immediately reported to Jiang Li after receiving the news from the Super Intel soldier mech Army, ” ” at the cost of losing ten million super intel soldiers, the super intel soldier mech army has already detected the enemy’s specific intelligence. ”

“speak,” he said.

jiang li said in a deep voice.

“Yes.”

Cjqx01 continued to report, ” “The enemy is the ‘Poseidon Corps’ from the ‘Poseidon Empire’. They have one billion small ships, 500 million medium ships, and 100 million large ships.”

nine Marshal-class mainships.

“One Admiral-class Emperor ship.”

“The total military strength has definitely reached the ten billion level.”

other than that, the Super Intel soldier mechanical Army didn't find any traces of the Navy of the dream Dragon Dynasty and the Penglai dynasty. They might still be on their way, or they might not have joined in.

“Ten billion level.”

Jiang Li's eyes turned serious. as expected of a domineering dynasty. They've sent out a ten-billion-level Navy so easily. They're going to fight the sea Empire's Navy before they even fight the ten-billion-level demon Army of the ten-winged dynasty.

“alright!”

I'll see. Jiang Li clenched his fists, his eyes burning. let me see how strong this ten-billion dynasty Army is.

“Even if I have to destroy the entire ‘plundering mechanical Army’, I will still eat up the entire’ Poseidon Army ‘of the Poseidon Empire.”

One had to know.

A whole ten billion-level dynasty Army.

If Jiang Li could eat all of them, he would get a huge amount of soul Tinder and destroy the ‘mechanical Army’.

Jiang Li had a large number of energy points and steel materials.

You can use the mech factory.

He wasn't afraid of consumption at all.

Jiang Li didn't stay on the deck of the ship. Instead, he flew into the sky and looked at the sea around the 'mechanical Army'.

He looked at the enemy's position.

The waves were rolling violently.

The sea Emperor Army's naval fleet was getting closer and closer.

The war was imminent.

"The ocean Empire."

Jiang Li recalled the information about the ocean Empire and said in a deep voice, "the three Overlord dynasty forces of the three-Emperor Sea area are powerful dynasties established by the 'mixed-blood demon dwellers'.

"The strength and cultivation of the 'demonic Ocean Emperor' is rumored to have reached the eighth step."

"Because only a rank 8 dynasty can be called a 'dominant dynasty'."

as long as no type 8 Overlord-tier monsters appear, my 'mechanical Army' will have a fighting chance.

At this moment.

In the sea Emperor Army's commander's ship.

"Commander."

A general of the sea Emperor Army quickly came forward and knelt in front of hai shaohuang. In his hands were a few super Intel soldiers that had been turned into scrap metal.

“Please take a look. These are the bodies of the enemy soldiers.”

“We discovered that these corpses aren’t living beings at all. They’re made from a material called ‘steel’,” the general said in a deep voice.

therefore, we suspect that this Navy of unknown origin is not an Army made up of real living creatures, but it is also not a puppet technique or a mechanism technique.

“He has a mysterious background.”

“It’s also very strange. I can’t tell at all.”

“Steel,”

Shua!

Hai shaohuang reached out his hand and the two pieces of scrap metal fell into his hands. He injected energy into them and tried to inspect them, but he could not find anything.

It was a huge iron block.

“Interesting.”

” hmph! ” hai shaohuang snorted and chided, ” immediately send orders to the nine marshals to set up a grade-6 battle formation. the enemy has extremely long range attacks, and it’s a wide-range attack. ”

“we have to defend with our military formation.”

“Yes.”

“Yes, sir.”

Buzzzzzz! “Whoosh!!!”

Before the sea Emperor Army even entered the range of Jiang Li’s mechanical Army, they quickly organized themselves and gathered their military aura.

Roar! Roar! “Roar!”

In a short period of time.

A total of nine Grade 6 Army formations were set up successfully.

a terrifying army of beasts that were millions of meters long appeared, hovering in the sky. their roars shook the world, and their might rose.

Hualala!

boundless waves swept across the world.

Buzzzzzz! “Whoosh!!!”

Not only that.

The heaven and earth spiritual Qi in the entire ‘chaotic Ocean Bay’ shook, and all kinds of strange phenomena appeared. The originally clear and cloudless sky was suddenly covered with dark clouds.

The dark clouds collided.

Lightning flashed.

the atmosphere was extremely tense.

it's just a naval Legion that's not even ten billion. How dare they plunder resources and attack dynasties in the three-Emperor Sea area so unscrupulously? ”

Hai shaohuang's killing intent was strong. today, there's no need for the armies of the dream Dragon Dynasty and the Penglai dynasty. I, the chief Marshal, will personally lead the sea Emperor Army and it will be enough to destroy this naval Army.

“Just in time. After we capture the commander of this naval Army, we can force him to reveal his background.”

“All soldiers, hear my order!”

attack!!!

“Ocean Emperor formation!”

“Kill!”

attack!!!

Bang Bang Bang Bang!

immediately.

One billion small ships, 500 million medium ships, and 100 million large ships.

...

at the same time, they activated the ‘poseidon formation’ engraved on the ship.

The small ships 'Emperor of the Sea formation was third-grade, while the medium-sized and large ships' Emperor of the Sea formation was fourth-grade.

the formation was activated.

Blue formation diagrams appeared in the sky above the ships. The formation diagrams had totems that looked like octopuses, and they gathered the power of every soldier on the ships.

In an instant.

More than one billion beams of blue light shot through the sky and shot at Jiang Li's mechanical Army like countless laser cannons.

"Fire the ship's cannons!"

target locked. Cannonball fired!

"Laser Annihilator cannon!"

launch the missiles!

kill!!!

...

attack!!!

BOOM! boom! BOOM!

the war broke out.

Jiang Li's mechanical Army opened fire without hesitation. Billions of shells, laser annihilating cannons, and missiles were fired at the sea Emperor Army.

At this moment.

In the sky above the chaotic Bay.

The billions of light beams triggered by the Poseidon formation hit Jiang Li's cannonballs and missiles.

A direct confrontation.

Bang Bang Bang Bang!

Countless shells and missiles exploded, creating a bright light that covered more than half of the sky above chaotic Ocean Bay. Those 'formation light beams' were all shattered.

At the same time.

the remaining shells and missiles fell toward the poseidon corps.

However, they were all blocked by the grade 6 army formation.

The first clash.

Both sides didn't suffer too many losses.

"What are these weapons? If it wasn't for the rank 6 formation, we would have been at a disadvantage in this clash."

this means that the enemy is very strong. We must not let our guard down.

“Did you guys notice? The enemy did not set up a battle formation. From The Steel Remains, we can deduce that the enemy soldiers are not real living beings, so they can not set up a battle formation.”

everyone, increase your speed and get closer to the enemy. Use the grade 6 formation to suppress their strength and then engage in close combat.

charge!!!

BOOM! BOOM! BOOM!

It had to be said.

The marshals and generals of the sea Emperor Army had experienced countless battles, big and small. They were also generals of a domineering dynasty, and they could already see the weakness of the mechanical Army in their first encounter.

He immediately thought of a countermeasure.

The sea Emperor Army accelerated.

At the same time.

The level 6 army formation was operating at full power, maintaining the formation. The ‘Poseidon formation’ on the ship was also activated, shooting out beams of formation light.

“Fire at full force.”

Jiang Li’s eyes were cold as he watched the battlefield.

Currently.

The war had just begun, and it was hard to tell who was stronger or weaker.

However ...

Before the Neptune Army approached the 'predatory mechanical Army', Jiang Li ordered all the mechanical Army that could attack from a distance to open fire. Hundreds of millions of shells and missiles destroyed the attack of the Neptune formation 'and bombarded the level 6 battle formations.

There were a total of nine Grade 6 army formation beasts that were a million meters long.

It managed to defend against all the explosions.

The energy consumption of the stage 6 army formation was not small. A large number of missiles and many of the stage 5 meches still caused the stage 6 army formation to shake, causing the Poseidon Army to die from the backlash.

but unfortunately ...

For an Army of tens of billions, the number of soldiers who died from the backlash of the formation was just a drop in the ocean.

It could not cause any serious damage to the sea Emperor Army.

currently.

Jiang Li didn't send out any level six meches yet.

Similarly.

The sea Emperor Army did not send out any high-end powerful combat forces either.

Half an hour later.

finally ...

The Poseidon Army and the mechanical Army clashed. The Poseidon Army had ten billion soldiers, while the mechanical Army had eight billion soldiers.

Just military strength.

The difference between the two wasn't that big.

Bang! Bang! Bang!

On the battlefield in the chaotic Bay, the ships of the sea Emperor Army and Jiang Li's mechanical ships collided. The boarding battle had begun.

“Soul realm!”

Buzzzzzz! Buzzzzzz! Buzzzzzz!

The four soul realm controllers released their ‘quadruple soul realm’, which covered the battlefield. The power of the quadruple soul realm resisted the suppression of the nine Grade 6 formations.

And he was barely able to resist it.

It offset the suppression of the level 6 army formation on the meches.

“What is this?”

“What kind of domain ability is it?”

it actually canceled out the suppression of a Grade 6 army formation!

“detestable!”

the faces of the sea emperor army’s generals turned ugly at once.

They had wanted to rely on the suppression of the grade 6 formation to weaken the enemy’s combat strength and give their side an advantage.

He didn’t expect this.

Although the enemy did not have a formation, they had this domain ability that could offset the suppression of the formation.

This caused their plan to fail.

“Kill!”

shua! Shua! Shua!

After the boarding battle began, the demonic soldiers on the ships of the sea Emperor Army rushed to Jiang Li’s mechanical ship. They were full of fighting spirit and murderous intent.

kill!!!

bang bang bang bang!

On the mechanical ship.

There were also a large number of meches, level one super bio-soldiers, level two water and electricity meches, level three invisible energy soldiers, level four Storm Giant soldiers, and even level five super Ares soldiers.

There were all sorts of soldiers.

It was equipped with powerful close combat abilities.

Take the 'invisible energy soldier' for example. It could perform almost perfect 'invisibility'. Through the refraction of light and so on, it would be difficult for the enemy to discover it.

At the same time.

The invisible energy soldier had mastered 'mechanical energy'.

They were extremely powerful.

so,

The invisible energy soldier was basically invisible, lurking next to the enemy, and killing the enemy in one blow without the enemy's notice.

It was like an energy spirit that specialized in assassination.

Of course.

The 'invisible energy soldier' was not perfect. A level three or level four creature with sensitive perception would be able to sense and discover the invisible energy soldier.

the invisibility skill would also be ineffective.

pfft! pfft! "pfft!"

Blood splattered everywhere.

The battle was getting more intense. The meches and the sea Emperor demon soldiers were fighting, and the demon soldiers were killed by the meches one after another.

at the same time.

Some meches were turned into scrap iron.

however ...

Jiang Li's meches weren't afraid of death or pain on the battlefield. They only wanted to execute Jiang Li's orders and kill their enemies.

The most important thing was ...

As long as the damage wasn't at 90%, the mech would fight to the death even if it lost an arm or a leg.

"Tao Wu and his soldiers aren't real living beings at all."

"to hell with it!"

I chopped off their hands and feet, but they didn't lose their ability to fight. Without their hands and feet, they just used their teeth to bite!

"I've never seen such fearless soldiers."

"!!!"

Shocking!

aghast!

Even fear!

In the face of such a fearless battle, the sea Emperor Army's demon soldiers felt a faint fear in their hearts. They were normal living beings with seven emotions and six desires, so it was natural for them to have an instinctive fear of death.

Naturally, she was a little scared.

Chapter 547 Nuclear explosion

"You do have some ability."

Hai shaohuang looked at the situation on the battlefield calmly and sneered, "these soldiers are like men of sacrifice without any emotions or desires. They have no fear in their hearts.

"This might be related to the fact that they aren't real living beings."

no wonder you dare to act so arrogantly in the three-Emperor Sea area. You do have something to rely on, but if that's what you're proud of, you're gravely mistaken.

"Roar!"

At this moment.

The nine marshals of the sea Emperor Army immediately controlled the nine Grade 6 military formations. Endless military killing intent gathered, and they even attracted the heaven and earth Spirit energy of the entire chaotic Bay.

"Kill!"

BOOM! BOOM!

Every rank 6 battle formation beast was a million meters tall. They were like monstrous beasts that had awakened from ancient times, displaying boundless ferocity.

they charged at Jiang Li's army of machines.

The grade 6 army formation started to show its might.

“Nuclear explosion!”

Bang! Bang! Bang!

at this moment.

let's go! the ten mechanical and controllable nuclear fission aerial combat soldiers standing next to Jiang Li flew out and charged at the level 6 battle array beast.

“Rumble!”

They raised their hands and formed a red nuclear energy ball with a diameter of a thousand meters. They threw it out, and it fell on the nine beasts.

The ‘red nuclear light ball’ was only a thousand meters in diameter, but it was like an ant against an elephant in the face of the huge Army beast that was a million meters long.

the two sides did not seem to be on the same level at all.

However ...

when the two sides collided, ten ‘red nuclear light balls’ with a diameter of 1000 meters exploded, creating an extremely terrifying nuclear explosion.

This was hundreds or even thousands of times more powerful than a ten-million-ton atomic bomb.

At this moment.

In the sky.

It was completely occupied by the ten Crimson Suns. The endless energy of the nuclear explosion was like a world-destroying storm, sweeping in all directions and destroying everything.

The waves rolled and rose tens of thousands of meters high.

The seawater was evaporated by the extremely high temperature.

The sun!

It was as if ten suns had appeared in the sky!

“Ah!”

Kachaa! “Crack!”

Bang Bang Bang Bang!

The screams of countless demon soldiers rang out, but they were drowned out by the sound of the nuclear explosion. Countless cracks appeared on the bodies of the nine million-meter-long grade 6 Army beasts.

“what kind of power is this monastic robe?”

“Gulp!”

“Army formation! The Army formation can’t hold on any longer!”

the many generals of the sea emperor army felt the change in the nine sixth-grade army formation, and their expressions changed drastically.

Obviously.

The ten perfected-stage level six mechanical controllable nuclear fission air-transforming soldiers released the power of a ‘nuclear explosion’ at the same time. The power had already reached the level of an early-stage level Seven.

“tier 6 perfection!”

Hai shaohuang looked at the ‘red sun’ in the sky and said in a deep voice, ” ” furthermore, it’s not just an ordinary perfected rank six. after overlapping the attacks, the power has just barely risen to the level of an early rank seven. ”

“Condense!”

Buzzzzzz! Buzzzzzz!

the nine marshals of the sea emperor army immediately released their energy and formed hand seals with both hands, commanding the nine army formation beasts to block the power of the ten ‘nuclear explosions’.

” this power has already reached tier 7. the nine tier 6 military formations were almost unable to hold on just now. if we weren’t controlling the military formations, they would have already been broken. ”

At this moment.

One of the nine marshals said in a deep voice.

In reality.

they were the nine marshals of the sea emperor army.

The six at the perfected stage of the sixth step.

one at the initial stage of the seventh rank, one at the middle stage, and one at the late stage.

Hai shaohuang was the commander.

...

His cultivation was at the great circle of the seventh step.

His combat strength had reached the peak of the seventh step.

Of course.

other than the nine Nine Nine generals, there were 20 Deputy generals. The Deputy generals were all at rank six and the weakest one was at the initial stage of rank six.

On the battlefield.

The sea Emperor Army and the mechanical Army were at war. A large number of demon soldiers were fighting with Jiang Li's meches.

Battle cries shook the heavens.

There were countless explosions, roars, and sounds of fierce fighting. Demon dweller corpses fell into the ocean one after another, dyeing the water red.

The remains of the mech sank to the bottom of the ocean because they were made of steel.

The smell of blood in the battlefield was extremely strong. The sea water was dyed red by the blood of demon dwellers, and even gradually drifted to the sea outside the battlefield.

However ...

...

However, none of the ferocious beasts in the sea dared to approach.

although the beasts on land and in the sea didn't have intelligence, they had the most basic instincts. like wild beasts, they naturally didn't dare to approach the battlefield when they instinctively felt fatal danger.

Even if it had a bloody smell that was extremely attractive to the fierce beasts in the sea.

Buzzzzzz! Buzzzzzz! Buzzzzzz!

As the demon soldiers were killed one by one, light spots condensed on their bodies and floated up, forming a colorful rainbow.

They all flew towards Jiang Li.

shua! Shua! shua!

[ acquired a first-stage soul Tinder! ]

.....

[ acquired a stage-two soul Tinder! ]

.....

[ acquired a Tier 3 soul Tinder! ]

.....

[ acquired a Tier 4 soul Tinder! ]

.....

In Jiang Li's sight.

A large number of notifications kept popping up.

Among them.

most of them were level-one and level-two soul tinders. there were also quite a few level-three soul tinders, and only a few level-four soul tinders. as for level-five soul tinders, jiang li hadn't caught any yet.

Jiang Li was dazzled by the notifications and couldn't watch the battle, so he immediately turned off the notifications.

kill!!!

shua! shua! Shua!

At this moment.

The 4 soul realm controllers controlled 35 Type 6 puppet Warriors and charged into the battlefield, immediately engaging the 20 vice marshals.

the battle had reached this point.

The high-level combatants from both sides finally left the stage one after another.

“A puppet warrior of the sixth step.”

One of the nine Nine Nine-star generals.

It was the nine-star general whose cultivation had reached the initial stage of rank seven.

his name was ladis.

“Kekekekekekeke”

A sinister smile appeared on Ladis ‘face. I’ve long felt the soul aura of the puppeteer. It was indeed true.

four puppeteers at the peak of the sixth step. If I can devour your souls, I’ll definitely be able to advance my cultivation.

“Devil’s Domain!”

BOOM!

As soon as he finished speaking.

ladis released his power, and the devil’s domain of the mixed-blood alien race-the devil-was activated, producing a vast power of the domain.

“The devil clan!”

“marshal ladis is actually from the devil clan!”

“This bi an ...”

Many of the demon soldiers who did not know the truth cried out in alarm.

“This guy ...”

Hai shaohuang frowned. forget it. Since the enemy has a ‘puppeteer’, there’s no other way for Ladis to expose his identity.

The other eight marshals looked at Ladis. They didn’t look surprised, as they already knew.

Obviously.

Hai shaohuang and the other marshals all knew that Ladis was a member of the demonic ghost clan. Even the higher-ups of the ocean Empire knew that.

The devil clan.

the ‘mixed-blood alien race’ that was born from the union of the demon and ghost clan was born with the power of the two. after the union, it produced a strange demonic power.

it was a natural counter to puppeteers.

Ladis had joined the Poseidon Empire of his own free will.

Of course.

He joined after he was defeated by the sea Emperor.

The demon ghost clan was different from the demon human clan.

Although the devil ghost race was powerful, they were few in number. The demon race’s talent was average, far inferior to the devil ghost race, but their numbers were high, only a little less than the half-Beasts and Barbarians.

“Suppress!”

Buzzzzzz!

Ladis released the ability of the demon ghost clan and easily suppressed the soul realm master, making it difficult for the soul realm master to release his Mechanical Soul energy.

At the same time.

The 4 soul realm controllers ‘control over the 35 Type 6 puppets was cut off.

“This is a good opportunity!”

Bang Bang Bang Bang!

the twenty vice marshals ‘eyes lit up, and they quickly made their move, sending the 35 type 6 puppet warriors flying.

This caused the 35 Type 6 puppet Warriors to be riddled with cracks.

“hahahahaha!”

Ladis laughed wildly, and his devil power was released without restraint. His body was like a black light, and he excitedly rushed toward the four soul realm controllers.

“the demonic ghost clan.”

demonic clan? ” Jiang Li looked at Ladis. He was surprised to see a demonic clan member in the sea Emperor Army. MYL01, I’ll leave this demonic clan to you.

“yes, sir.”

buzzzzzz!

MYL01 stepped out from behind Jiang Li. He released his psionic master and soul Master skills and condensed a vast amount of demonic energy.

A pitch-black mist of light surrounded his body.

He directly charged towards Ladis.

“Obliteration storm.”

BOOM!

MYL01 released his active skill, and the demon spirit energy exploded, forming a terrifying destructive storm that swept towards Ladis.

“Who is it?”

Ladis felt the danger. He couldn't care less about attacking the four soul realm controllers. He turned around and saw the obliteration storm sweeping toward him.

“Devil's power! Explode!”

Bang!

Ladis was shocked. He felt that the other party's strength was no weaker than his. He released the devil's power and then detonated it, producing a terrifying explosion.

bang bang bang bang!

The attacks from both sides collided.

The aftermath of the explosion swept in all directions.

“Who are you?”

After the aftershock subsided.

Ladis saw the ghostly figure of MYL01, and his pupils contracted. He felt an aura from the same source from MYL01.

“Could it be that you’re also from the demonic ghost clan?”

Ladis asked in a deep voice.

“demon spirit domain!”

Buzzzzzz!

MYL01 wasn’t interested in answering Ladis ‘question. He first released his skill, the demon spirit realm, to resist Ladis’ devil realm.

The domain powers of the two sides were offset.

Immediately.

the 4 soul realm controllers regained control of the 35 type 6 puppets. they reacted quickly and retaliated against the 20 vice marshals.

“Damn it!”

Ladis was shocked, ” you really are from the demon ghost clan.

“Nirvana blade.”

Buzzzzzz!

MYL01 continued to release his skills, and a destructive power emerged and condensed into a long and straight black sword in his hand.

“Die!”

Shua!

MYL01 charged towards Ladis, and the blade of extinction slashed down, sending out blade lights of extinction. Ladis’s heart was beating fast, and he kept dodging.

bastard, we’re all from the demonic ghost clan. There’s no need for us to kill each other.

ladis shouted loudly.

“Slash!”

However, MYL01 did not care. He accumulated his power and swung his powerful saber. The terrifying Silent Blade light was like a huge mountain range, spreading across the sky.

It even sealed off the surrounding space.

It slashed down.

Chapter 548

kill!!!

Ladis roared in anger. He could clearly feel the powerful force and the threat from the slash of MYL01.

he didn't dare to be arrogant.

“Demonic blade art!”

Hence.

Ladis immediately took out his weapon and waved his right hand. a black and blood-red executioner's blade appeared in his hand, gathering a vast amount of devil power.

The blade of the saber pulsed with Saber Light.

slash!!!

Shua!

Ladis slashed his blade forward, and a huge blade light was also slashed out, as if the sky was cut in half.

Bang! Bang!

MYL01's blade of silence and Ladis 'demonic blade technique clashed. In the high sky of the battlefield, two incomparably huge blade auras collided head-on.

“Rumble!”

An explosion sounded.

Boundless energy waves spread out.

it swept in all directions.

“Since you’re so insistent on seeking death.”

Ladis took a deep breath. His eyes were cold, and his killing intent soared. He stared at MYL01 and shouted, ” “Then I’ll fulfill your wish!”

“Three forms of the demonic blade, sky-overturning form!”

“Kill!”

Ladis took the initiative to attack, attacking towards MYL01. His powerful strength and pressure spread in all directions, and the devil’s power seemed to be boiling.

He slashed out with a terrifying blade.

Bang Bang Bang Bang!

myl01 was not afraid at all. the blade of quietus also slashed out streams of quietus blade light. the two sides fought and collided fiercely in the sky.

They were evenly matched.

“It’s another member of the demon ghost clan.”

The marshals of the ‘Poseidon Corps’ were very surprised. They looked at the sky above the battlefield. The appearance of MYL01 was something they had never expected.

“what’s the origin of this naval legion? I’ve never seen these war weapons before. Not only are they powerful, but they also possess terrifying destructive power.”

all the demon generals looked serious, ” moreover, these soldiers don’t look like real living creatures at all. they are also very different from the puppet warriors and machine warriors created by the puppet technique and mechanism technique. ”

“I didn’t think that the demonic ghost clan would still exist.”

“Since the seventh-rank has already entered the arena ...”

Jiang Li took a deep breath, waved his hand, and ordered, ” “SSTs01, WMS01, make your move immediately.”

“Yes.”

“Yes, sir.”

Shua! Shua!

two rays of light flashed.

A purple-black light and a holy white light flew out from behind Jiang Li and attacked the sea Emperor Army.

“Rank 7!”

hai shaohuang’s pupils contracted. ” and there are two of them! ”

kill!!!

BOOM! boom!

The appearance of SSTs01 and WMS01 immediately caught hai shaohuang’s attention. The other two Type 7 generals of the sea Emperor Army immediately made their move.

“Do it.”

Hai shaohuang shouted.

“Yes.”

kill!!!

Two Grade 7 nine-star generals.

Among them.

One of them was a mid-stage seventh rank demon dweller with a thin face. He was wearing full body armor, and the weapon in his hand was a green long spear.

It was called the magic power sea.

“Whoosh!”

Sea of magic thrust his spear forward. The Spear’s radiance seemed to pierce through the void. It was even a beam of energy light that pierced straight through SSTs01.

“Divine power.”

...

Buzzzzzz!

SSTs01 was wearing the Holy angel battle armor. The angelic wings on her back spread out, and her entire body was filled with Holy and pure power.

The light was endless.

Immediately after.

She took out the ‘mechanical Holy particle beam sword’, which was transformed from the ‘mechanical wristwatch’ on her right wrist, and it was shining brightly.

It condensed into a ‘particle beam sword’ that was as long as a light tube.

The beam saber was two meters long and had a Holy pure white color.

It contained a terrifying power.

Bang!

SSTs01 thrust its sword forward. The blade of the sword was imbued with ‘holy power’, which was transformed from ‘mechanical holy power’, and it destroyed the spear light from the sea of magic.

the green spear radiance exploded.

...

They turned into dots of Starlight.

“God race!”

The sea of Magic’s pupils contracted as it looked at SSTs01 in fear. It took a step back and could not help but shout, ” “You are the God race’s ‘Battle Angel’.”

“Damn it!”

The demonic ocean was shocked. Who are you? What’s his background?”

“Why would I?”

The other demon Marshal, who had already reached the late stage of the seventh step, was called: Hai Qing was stunned. He was equally shocked as he looked at SSTs01 in shock.

“First it was the demonic ghost clan, and now it’s the God race’s battle Angel, and they’re all at the seventh step. Just who is this mysterious naval force? Could it be the Empire’s Army?”

Hai Qingyun said in a frightened tone.

“Demon God’s Funeral!”

Buzzzzzz!

At this moment.

WMS01 charged over. He took out the demon God halberd, Demon God’s aura, Demon God’s power, Demon God’s halberd technique, and other skills were all released at the same time.

After that.

The demon God halberd was swung.

The vast halberd radiance surged forward like a boundless ocean wave, sweeping towards hai qingyao.

Demon God mo Qianqian!!!

Hai qingxuan’s eyes widened as she screamed in shock.

“Ocean Emperor light wave slash!”

It was a critical moment.

Hai shaohuang, who had been gathering his strength and waiting for the right time, made his move. His figure flashed and he disappeared from his original spot in an instant.

After that.

Hai shaohuang held his sword with both hands and slashed out a black-blue sword light that swept across the sky like a boundless waterfall. It blocked WMS01's attack.

“Rumble!”

The wave-like halberd radiance collided with hai shaohuang's blade radiance. In a head-on confrontation, both of them had cultivation at the perfected tier 7 and their combat abilities were extremely powerful.

After the two attacks collided.

It was a battle of energy.

In the end, both of them collapsed.

“a fake demon god!”

Hai shaohuang took a deep breath and held the wide Demonkin long sword in his right hand. The tip of the sword was pointed downwards and his eyes were fixed on WMS01.

demons, angels, and a fake Demon God.

Hai shaohuang was a little afraid, ” a naval Legion with less than 10 billion soldiers actually has such a luxurious lineup.

“Minister hai, please.”

” this fake demon god is already at the perfected stage of level seven, ” hai shaohuang ordered. ” the demonic ocean is holding the combat angel back, and we’ll leave the demonic ghost to ladis. ”

Charge into the battlefield now, and combine the strength of the type 6 army formation, and kill all the type 6 experts on the other side, then come back to support us.

“Yes.”

Hai Qingyun snapped back to his senses and looked at WMS01 with fear. If hai shaohuang had not saved him, he would have been severely injured.

General, don’t worry, give me half an hour, I’ll take care of the enemy’s type 6 powerhouse.

BOOM! BOOM! BOOM!

On the battlefield of the chaotic sea.

The battle had entered a state of white heat. The Poseidon Army and the mechanical Army were locked in a fierce battle. The formation was activated, and the shells and missiles were fired.

jiang li got a lot of soul tinders.

At the same time.

A large number of meches were also destroyed.

Although it hurt him a little, Jiang Li was relieved to see the soul Tinder growing.

“Kill!”

Hai Qingshang let out a long roar and activated his demon dweller technique. Black light mist appeared around his body. He first targeted the four soul realm controllers.

It was because of the '4-layer soul realm' of the 4 soul realm controllers that the suppression of the type 6 army formation was nullified.

now.

As long as he could kill the 4 soul realm controllers, the suppression of the Tier 6 army formation would be fully displayed.

“Whoosh!”

Hai qingxuan's body turned into a ray of light and charged over.

“Roar!”

the next moment.

An earth-shaking Dragon's Roar was heard.

Jiang Li appeared.

The 11,000-meter great Xia true dragon appeared.

they soared in the sky.

Buzzzzzz! Buzzzzzz!

The vast fortune of the Empire was released.

It enveloped the battlefield.

“Blessing of the nation’s fate!”

let’s go. Jiang Li waved his hand and the power of the dynasty’s fate was added to billions of meches, making them stronger.

“Slash!”

boom!

Jiang Li raised his right hand and the divine weapon immediately turned into a giant dragon-headed saber. He injected his power of true spirit and the power of the nation fate into it.

immediately.

it had become two million meters long.

It slashed towards Hai Qing’s spine.

“!!!”

Hai qingxuan’s pupils contracted as she roared. She stared at the Imperial true dragon that had suddenly appeared with a shocked expression. it’s actually the Imperial true dragon!

“But this is only 11000 meters.”

die! hai Qingyun shouted in anger. With a wave of his hands, nine black swords appeared beside him and spun around him like a blooming lotus.

It was as if he had used the sword control technique.

“go!”

break! hai Qingshang pointed with his right hand and the nine black swords cut through the air. The swords collided and blocked Jiang Li's attack.

“Human!”

Hai shaohuang raised his head. He blocked WMS01's attack and quickly retreated to increase the distance between them. Only then did he have time to observe Jiang Li.

“The human Emperor of the human race.”

Hai shaohuang's gaze was dark as he chided, ” “Is it just the human imperial dynasty in the Saint peace state? A mere 11000-meter dynasty National aura true dragon dares to act so arrogantly in the three-Emperor Sea area.”

human Emperor of the human race, you are really bold.

“This Marshal is going to ‘slay the dragon’ today.”

Roar! Roar!

As soon as he finished speaking.

Hai shaohuang released a vast amount of demonic power. Immediately after, an extremely rich fate energy of the Empire gathered behind hai shaohuang.

A four-clawed flood Dragon was formed.

It was blue.

its body length had reached 9000 meters.

“Kill!”

Hai shaohuang rushed towards Jiang Li, trying to get rid of WMS01. He attacked Jiang Li with his giant Demon Sword.

Clang!

WMS01 appeared in front of hai shaohuang as if it had teleported. With a swing of its halberd, it blocked hai shaohuang's attack.

Bang Bang Bang Bang!

The two sides immediately engaged in an intense battle.

“What a troublesome fellow.”

hai shaohuang's face was dark. he knew that he would not be able to break through wms01's blockade. he looked at hai qingyun and shouted, ” “Minister hai, I can't leave for now. I'll leave the human Emperor to you.”

“Yes, sir.”

yes. hai qingya nodded and stared at Jiang Li with a creepy smile. human Emperor, I've eaten many humans, but I've never tasted a human Emperor.

“It seems like my wish is going to come true today.”

BOOM! BOOM! BOOM!

In the sky above the battlefield.

Jiang Li looked around. WMS01 was stopped by hai shaohuang, SSTs01 was fighting with the sea of magic, and there was no clear winner between MYL01 and Ladis.

Hai qingya's cultivation was at the late stage of the seventh rank.

He was extremely powerful.

Jiang Li naturally had to try his best.

“Gather!”

“Whoosh!!!”

Dragon Saber! Jiang Li raised the Black Dragon Saber in his hand. The divine weapons on the battlefield immediately received the call. The true steel Dragons flew up and turned into countless streams of light, merging into the huge black Dragon Saber.

The power was getting stronger and stronger.

Chapter 549 Full power

“What is this weird thing?”

Hai Qingyun's pupils shrank as he looked at the giant weapon that was no longer fused with the true dragon of steel. He felt his scalp go numb.

He actually sensed danger.

“This is impossible!”

Hai qingmo found it hard to believe. the other party is only at the late stage of the sixth rank, while I'm already at the late stage of the seventh rank. The difference is an entire rank.

“How can it be a threat to me?”

“Kill!”

Jiang Li! hai Qingshang didn't dare to be careless. He immediately attacked Jiang Li. The nine black swords were like living creatures. They tore the space apart and slashed at Jiang Li.

Roar! Roar! Roar!

Three Dragon roars.

On Jiang Li's body.

Three sacred artifacts of the Empire's National aura appeared.

These were the Green Dragon Imperial Jade seal, the Green Dragon imperial decree, and the great Xia Marquis seal.

Two green Dragon shadows appeared on each of the three sacred artifacts.

This meant that the 'sacred artifact of the Empire' of the great Xia Empire had already risen from the previous one dragon-level to two Dragon-level.

After Jiang Li destroyed six ocean dynasties in the past few days, great Xia's 'dynasty fate Saint artifact' devoured a lot of other sea dynasties 'Saint artifacts and advanced.

Grade increase.

The power of the Empire's sacred artifact of National fortune had naturally increased.

“Condense!”

jiang li pointed with his right hand. the power of the three sacred weapons emerged and turned into a blue dragon shadow that wrapped around the dragon-headed saber.

However ...

This was not the end.

jiang li mobilized the power of the dynasty's fate. the azure dragon's power was also integrated into the overlord dragon divine weapon. jiang li's own power of true spirit was also integrated.

“roar!”

Finally.

It was the power of the Overlord Dragon divine weapon.

All the skills.

All released.

The destructive power of Nirvana seemed to crack the space.

At this moment.

The Black Dragon-headed giant saber that was transformed from a peak-stage rank six Overlord Dragon divine weapon had reached a height of five million meters under the support of various forces.

it had reached the limit that jiang li could reach now.

Five million meters!

One could imagine.

The Dragon-headed saber was as big as a planet. It was floating above Jiang Li's head.

It was as if it was tiny and invisible.

However ...

However, Jiang Li was controlling such a terrifying Dragon-headed saber.

“Si si si ...”

Countless demon dwellers looked up at the Dragon-headed giant blade that seemed to pierce through the sky. Their eyes were shocked, and they were dumbfounded. They even took in a breath of cold air.

“Break!”

BOOM!

Jiang Li controlled the five-million-meter-long saber. The Dragon-headed saber shook and released boundless Saber Light, which knocked away hai Qingchi's nine black swords.

“this is impossible!”

Hai Qingqi screamed.

” after injecting the fifth-tier gene strengthening fluid, although i didn't break through to the perfected-stage of the sixth-tier, there was an obvious increase in my strength. in addition to the upgrade of the dynasty's national fortune saint weapon,

the number of divine weapons fused with the overlord dragon has increased by a lot. ”

Jiang Li sensed the power of the Dragon head saber and analyzed, ” ” with the help of the peak sixth-rank overlord dragon divine weapon, the maximum strength i can display now has already reached the late seventh-rank. ”

“Slash!”

die! without hesitation, Jiang Li controlled the Dragon-headed saber and slashed at hai qingyao.

“Devil Lotus sword spell!”

hai qingxuan’s pupils contracted as she felt a terrifying sense of danger. with a loud roar, she released all of the demon dweller’s power in her body and used her most powerful attack.

Clang! clang! Clang!

Countless sword hums rang out.

...

Hai qinghuang formed a seal with both hands and controlled the nine black swords. They spun at an extreme speed, and then split into countless black swords.

Finally.

All the black swords began to gather together. Under the control of the sea green dagger, they turned into a huge sword Lotus!

A twelfth-grade Demonkin sword Lotus!

endless sword qi was released.

They were everywhere.

block it!!!

BOOM!

Hai qingmo roared again and again. The huge twelfth grade demonic Lotus bloomed, and its diameter reached millions of meters. It was no smaller than the Dragon-headed saber.

It was also extremely powerful.

He rose into the sky.

...

Then, it crashed into the dragon-headed saber.

From afar.

It was like two planets were colliding.

“This bi an ...”

Shocking!

The demon soldiers looked on in shock.

“To actually be able to display such formidable power with a cultivation at the late-stage of the sixth step!”

Ladis was shocked.

It wasn't just Ladis.

Hai shaohuang, mo lihai, and all the demon Marshal and vice marshals were shocked by the situation.

“Mo Ling's high energy particle beam cannon.”

BOOM!

At this moment.

MYL01 immediately seized this fleeting opportunity. The blade of Quietus in his hand disappeared, and he put his hands together and turned into a huge black cannon barrel.

buzzzzzz! Buzzzzzz! Wuwuwuwuwu!

Countless black particles of energy were constantly pouring into the black Barrel, gathering a heart-palpitating power.

“!!!”

Ladis immediately came back to his senses, and his scalp went numb. He felt the danger of death, and then he saw the black Barrel, and his pupils shrank.

At this moment.

only then did ladis feel that something was wrong.

“You're not from the devil clan!”

ladis stared at myl01 with a look of disbelief. he shouted in shock, ” “You’re actually not from the devil clan!”

“but why are the aura and energy fluctuations so similar?”

Obviously.

Ladis found it hard to understand.

The aura and energy fluctuations were almost exactly the same. If it wasn’t for the fact that MYL01 had released his strongest skill, the ‘particle beam cannon’, and revealed a different aura fluctuation ...

Ladis almost couldn’t detect it.

“Fire!”

boom!

The ‘demon spirit high energy particle beam cannon’ was completed.

He locked onto Ladis.

It was fired immediately.

With a ‘shua’, that black beam of light shot out in an instant. It was as if it had ignited the spiritual Qi, and the space trembled.

“Three forms of the demonic blade! exterminate!”

BOOM!

Ladis slashed with all his strength, releasing a destructive sword intent. The huge sword light slashed down and collided with the mo Ling's high-energy particle beam cannon.

Kachaa!

Bang!

The blade light exploded.

pfff!

The next moment.

the demon spirit's high-energy particle beam pierced through ladis 'chest and continued to spread forward, falling to the surface of the sea and evaporating the sea water.

“Ah!”

Ladis let out a shrill cry as he suffered a huge blow.

“Rumble!”

At the same time.

Jiang Li's Dragon-headed saber collided with Hai Qing's rank-twelve Demon Sword Lotus. It was like the collision of two planets. The terrifying explosion completely covered the noise of the battle between Ladis and my01.

Bang Bang Bang Bang!

The sound of explosions continued.

A boundless storm spread out.

“ah!”

Hualala!

The chaotic Ocean Bay was shaking, and the water was rushing up to the sky. The shockwaves from the battle even affected the battle between the mechanical Army and the demon dweller Army, and a large number of demon dweller and meches were affected.

Countless screams rang out.

Bang!

The Dragon-headed giant saber was sent flying and kept shrinking. The powerful collision caused a large number of divine weapons of the Overlord Dragon to be scrapped and fall off the Dragon-headed giant saber.

“Pfft!”

At the same time.

Jiang Li was also injured by the shock and blood was flowing out of his mouth.

His face was slightly pale.

The power of true spirit in his body was greatly consumed.

“Ah!”

but ...

Hai qingya's situation was even worse. All the twelfth-grade demonic sword lotuses he had condensed had exploded, and four of the nine black swords had been broken.

Pfft! pfft! "Pfft!"

Blood splattered everywhere.

Hai qingya retreated continuously, and the blood vessels in his body burst.

"Hai Qingyun actually lost."

Demonic ocean's eyes widened. I was actually defeated.

"Not good!"

hai shaohuang's pupils contracted as he looked at the heavily injured hai qingya. at the same time, he realized that ladis was also heavily injured. he was shocked.

"Demon God's eye light!"

Shua!

wms01 unleashed its most powerful killing move. the demon god's true form, which was millions of meters tall, appeared. the huge demon god's eyes were like the eyes of heaven.

The demon Eye opened its eyes.

The purple-black pupils pierced through hai shaohuang.

It was dangerous!

It was extremely dangerous!

Hai shaohuang's scalp turned numb as he felt immense fear.

“Ah!”

Hai shaohuang bellowed, his long hair dancing in the wind. His demon dweller's power surged, and a dark blue radiance bloomed. His cultivation of the perfected stage of tier 7 was fully unleashed.

Roar! Roar!

At the same time.

the nine-thousand-meter long four-clawed flood dragon merged into hai shaohuang's body.

This caused hai shaohuang's aura to rise again.

“The sea Emperor's blade!”

hai shaohuang shouted. he held the demonic man's long sword tightly with both hands and held the hilt tightly. then, he raised his hands and raised the sword above his head.

Buzzzzzz! Buzzzzzz!

All the power was integrated into the blade.

Shua!

Boundless blade light condensed.

“Sky splitting slash!”

BOOM!

Hai shaohuang’s strike was unleashed with all his might. The boundless blade radiance was so powerful that it seemed to be able to split the sky into two.

Bang!

He slashed with all his might.

The strongest killing move.

The demon God’s eye light hit the boundless blade light.

The attacks and power of both sides had reached the limit of the seventh step.

“Rumble!”

Purple-black light and black-blue blade-light kept exploding, and the power and energy of both sides were constantly wiping out each other.

Finally.

The demonic God’s eye light and the boundless saber radiance were completely dispersed.

It was a draw.

“.....”

Hai shaohuang steadied himself, his face pale. That move just now had almost used up 90% of his demonic power. He immediately took out a pill and swallowed it to refine the medicinal power to recover his strength.

“Recover,”

Buzzzzzz!

Jiang Li used the energy points to recover the energy consumed by the mechanical demon spirit, the mechanical pseudo-Demon God, and the Dominator Dragon divine weapon.

Suddenly.

hai shaohuang rushed down to the battlefield at an extremely fast speed.

shua! Shua! Shua!

“Ocean Emperor true dragon Seal!”

“Whoosh!!!”

Hai shaohuang formed a seal with his hands, and the dark blue demonic dweller’s power condensed into Dragon-shaped array seals, which poured into the bodies of the nine Army beasts.

“Nine formations, assemble!”

“Ocean Emperor Nine Dragons formation!” Hai shaohuang shouted.

he’s going to set up a Grade 7 army formation!

stop him! Jiang Li sensed hai shaohuang’s intention. MYL01, SSTs01, WMS01, stop him at all costs!

“yes!”

Buzzzzzz! buzzzzzz!

hai shaohuang! MYL01 and WMS01’s energy had fully recovered. As soon as they received Jiang Li’s order, they immediately charged at hai shaohuang.

“Stop them!”

Hai shaohuang raised his head and shouted angrily.

kill!!!

Hai qingyao swallowed a pill and managed to suppress her injuries. She quickly rushed toward WMS01 while sea of magic tried to stop SSTs01.

Chapter 550 sneak attack

BOOM! BOOM!

On the battlefield.

One could clearly see that the nine sixth-grade formations of the sea Emperor Army were gradually merging into one under hai shaohuang’s control. After the nine formations merged into one, they would form a seventh-grade formation-the sea Emperor Nine Dragons formation.

“roar!”

The roars of beasts shook the heavens and earth, reverberating through the entire battlefield.

“Mo Ling’s high energy particle beam cannon.”

Shua!

The MYL01 fired the particle beam cannon once again. The pitch-black beam cannon was like a laser track, piercing straight through hai shaohuang.

They were trying to stop hai shaohuang from completing the grade 7 formation.

“Demonic blade art!”

Ladis’s eyes flickered. He roared and forcefully suppressed the injuries on his body. He gathered his devil power and slashed out with all his might. A vast black blade light fell and blocked the beam cannon of MYL01.

“boom!”

The beam cannon and the blade collided in the air and exploded at the same time.

kill!!!

shua!

hai shaohuang! Jiang Li’s eyes were cold. He took a deep breath and activated his techniques. Dragon roars came out of his body as he crossed half the battlefield and charged at hai shaohuang.

“Slash!”

BOOM! BOOM!

dragon blade! Jiang Li shouted. The peak-stage level six divine weapon turned into a giant blade with a dragon head. It was infused with the power of true spirit, the power of the nation's fate, and the power of the dynasty's Saint weapon.

The 5,000,000-meter long dragon head saber slashed towards hai shaohuang.

“The formation is complete!”

BOOM!

Hai shaohuang raised his head. The formation seals had merged, and the nine Tier 6 formations had already merged into one. The military killing intent of the ten billion demon soldiers had gathered together.

They formed an incomparably huge battle formation beast.

Roar! “Roar!”

It could be seen.

It was a nine-headed Dragon covered in pitch-black scales. It had nine heads, and its body was ten million meters long.

A Grade 6 army formation beast.

Its size could reach the extent of a million meters.

Grade 7 army formation.

After increasing it by ten times.

It had reached ten million meters.

After the appearance of such-huge beast of the Army-the nine-headed Dragon, the entire sky above the battlefield was covered by the huge body of the nine-headed Dragon.

One had to know.

The Earth's diameter was only 12742 kilometers, which was about 12742000 meters.

In other words ...

The 'Army beast' formed by the 'rank 7 army formation-the sea Emperor Nine Dragons formation-the nine-headed Dragon' was already the size of a planet.

From this, one could imagine how terrifying this giant beast was.

Similarly.

After the grade 7 army formation-the sea Emperor Nine Dragons formation was successfully set up, the burden on the demon soldiers of the sea Emperor Army was too great.

Because the grade 7 army formation was too powerful, it was able to drain the demon soldiers of their demon energy and even their life force in a short period of time.

It could only be maintained for a very short time.

It was precisely because of this.

Hai shaohuang did not set up A 'Grade 7 army formation' right from the start. Instead, he saw that the enemy was too strong and had no choice but to use the power of the 'Grade 7 army formation'.

The price was huge.

Buzzzzzz! Buzzzzzz!

After the level 7 battle formation was set up, it formed a terrifying suppression and weakened the meches 'strength. The soul realm controller's' fourfold soul realm 'couldn't offset it.

“Hahahahaha!”

Hai shaohuang laughed wildly and shouted, ” “Nine-headed Dragon! Kill him!”

“Roar!”

roar! the nine giant dragon heads roared. The sound was earth-shaking and the terrifying power seemed to tear the sky apart. Then, with a swing of its tail, it blocked Jiang Li's full-force attack.

“boom!”

The huge Dragon-headed saber was sent flying by the huge Dragon Tails of the nine Dragons.

...

Pfff!

jiang li coughed up blood and stepped back.

“Ah!”

Pfft! pfff!

At the same time.

On the battlefield.

The screams of the demon soldiers rang out as they activated the grade 7 battle formation and controlled the nine Dragons to kill the enemies. This caused a large number of demon soldiers to suffer from the backlash, and those with low cultivation were sucked dry of their life force and died.

“I have to end this quickly.”

Hai shaohuang’s gaze was dark. the energy consumption of a Grade 7 army formation is too high. We have to get rid of the enemy leader in the shortest time possible. Otherwise, we won’t be able to hold on for long.

“The sea Emperor Nine Dragons formation! Kill!”

hai shaohuang shouted.

...

Wuwuwuwuwu!

The grade 7 army formation activated.

Under hai shaohuang’s control, the nine-headed Dragon, which was as huge as a planet, charged at Jiang Li with boundless power.

“A fake Demon God true body!”

WMS01 attacked with all his might. After a few moves, he defeated hai Qingyu and rushed over at full speed. The huge fake Demon God stood in front of Jiang Li.

BOOM!

WMS01 circulated all the energy in its body and held the demon God halberd horizontally in front of its body to block the nine Dragons. The nine Dragons 'huge dragon claws grabbed the demon God halberd.

Bang Bang Bang Bang!

The two sides were wrestling.

“Roar!”

The nine heads of the nine Dragons opened their bloody mouths and let out nine Dragon breaths. Like black pillars of fire, they blasted toward WMS01.

“Demon God’s eye light!”

Buzzzzzz!

WMS01 unleashed his ultimate move. The purplish-black demonic God’s eye seemed to penetrate everything as it clashed head-on with the nine Flaming Dragon breaths.

“BOOM!”

An explosion sounded.

The flaming Dragon Breath and the demonic God’s eye exploded at the same time.

Bang Bang Bang Bang!

It was followed by a series of explosions.

“Thump!”

WMS01 was sent flying, its chest caved in by the powerful shockwave. It was 30% damaged.

He was injured.

“Recover!”

Jiang Li’s pupils constricted. He immediately used some energy points to recover WMS01’s damage and energy.

“Kill!”

Buzzzzzz!

Hai shaohuang controlled the ‘Sea Emperor Nine Dragons formation’ and added the power of the nine Dragons to his body. The nine Dragons, which were tens of millions of meters long, actually turned into a full-body nine-headed Dragon Armor and became one with hai shaohuang.

“Ah!”

Hai shaohuang howled at the sky, his expression insolent. The energy on his body condensed into a pillar of light that shot up into the sky, and his aura was constantly rising.

“Hahahahaha!”

Hai shaohuang laughed maniacally, his eyes burning. He held a huge long sword in his right hand and his aura had reached its limit, ” too strong. This power is too strong.

“As expected of a Grade 7 army formation!”

“You all have to die!”

Hai shaohuang glared at Jiang Li with killing intent.

“Kill!”

BOOM!

” die! ” hai shaohuang slashed. the vast energy condensed into a million-meter long sword light that fell from the sky and slashed at jiang li.

“!!!”

I’m not afraid. Jiang Li immediately released all his strength and formed another five million-meter long dragon head saber to block hai shaohuang’s attack.

Bang Bang Bang Bang!

A series of explosions rang out.

A large number of the third-rank Dragon God weapons that had been fused into the sixth-rank Dragon God weapon were all turned to scrap by this slash. One after another, steel remains fell off the Dragon-headed saber, falling into the sea below.

Pfff!

Jiang Li coughed up blood again and stepped back.

In this clash.

jiang li was also injured.

Furthermore ...

the ruler's dragon divine weapon at the peak of the sixth rank had been damaged to thirty percent.

“this power is overwhelming.”

I'm already beyond level Seven. Jiang Li's eyes were solemn. He was under great pressure.

Obviously.

Hai shaohuang was already at the peak of the seventh rank, and his combat ability had reached the limit of the seventh rank. He was on par with WMS01.

now.

After hai shaohuang integrated the strength of the tier 7 army formation, coupled with his various supplementary techniques, his strength at the peak of tier 7 was further enhanced.

It had already reached the level of initial-stage rank eight with great difficulty.

Such combat strength.

It was simply too powerful.

Jiang Li wasn't a match for him right now. He didn't have any level-eight meches as his subordinates.

“Recover,”

Jiang Li's eyes were solemn. He clenched his fists and used energy points to repair the complete-stage level six divine weapon. Then, he looked down at the battlefield in chaotic Bay. The mechanical Army had suffered heavy losses, especially after being suppressed by the level Seven battle formation. Their combat ability had dropped drastically.

If this continued ...

There would be a danger of the entire Army being annihilated.

it seems like we can only choose a strategic retreat.

Jiang Li muttered, but he was unwilling to give up.

Buzzzzzz!

With a thought.

Jiang Li was going to activate the ‘spatial coordinate’ and leave this place to return to the great Xia Dynasty.

“Ah!”

Pfft!

Suddenly.

On the other side of the battlefield.

Ladis’s shrill scream rang out.

Blood splattered everywhere.

Ladis’s head was blown apart by the MYL01’s cannon. Ladis was already severely injured by MYL01, but he ignored his injuries and forcefully stopped MYL01.

The most important thing was ...

Jiang Li could use energy points to heal MYL01's injuries and energy.

so,

In the end, Ladis was seized by MYL01 and his head was blown up by the 'demon spirit high-energy particle beam cannon', and he died.

"Ladis!"

Mo Li Hai and hai Qingyun's pupils shrank.

"You're looking for death!"

you! hai shaohuang was furious. He immediately gave up on Jiang Li and charged at MYL01. Then he slashed.

The blade light streaked across the sky.

It was as if the sky had been split in half.

BOOM!

MYL01 fired the 'demon spirit high-energy particle beam cannon' again. The pitch-black beam pierced through but was shattered by hai shaohuang's sword.

"ah!"

Bang!

MYL01 was sent flying and was almost split in half. 80% of his body was damaged.

It was almost scrapped.

He was almost killed by hai shaohuang in one strike!

“Demon God’s eye light!”

whoosh!

WMS01 gathered his power and released his killer move once again. The eye of the demon God, which was like the Eye of Heaven, opened and released all kinds of skills. It combined all the power, and the purplish-black eye light pierced through.

It pierced through Hai Qing’s bones.

“You’re looking for death!”

Hai shaohuang snorted coldly. He crossed the void and rushed over, ” Ocean Emperor light wave slash!

Bang!

WMS01’s attack power had reached the limit of the seventh-rank, so hai shaohuang used his move. After this slash, the sword gleams were like a waterfall.

BOOM!

The demonic God’s eye light shattered.

WMS01 was also sent flying.

“The blade of judgment!”

“Whoosh!!!”

SSTs01 had accumulated enough power and released its strongest move. Divine power, divine territory, divine angel, and other skills were released.

The power of the skills overlapped and fused.

Finally.

It was an incomparably resplendent judgement sword light that descended from the sky. It was incomparably huge, and it carried the Holy power of judgement as it slashed towards the sea of magic.

BOOM!

However ...

However, hai shaohuang's sword slashed out and destroyed SSTs01's blade of judgment.

“Haha!”

Mo Li Hai laughed out loud, “the commander is too strong. So what if he is a God race's ‘Battle Angel’? They're still as weak as before.”

Suddenly.

“Pfft!”

Blood splattered everywhere.

“!!!”

Sea of Magic's eyes widened. He lowered his head and saw a pitch-black, straight sword piercing through his heart.

Blood dripped down the tip of the sword.

“ah!”

The intense pain from his heart made sea of magic scream in pain.
