

## Army 621

### Chapter 621 Crushing

The battle had just begun, but it was already unusually intense.

The thousand-hands barbarian Emperor's strength was extremely powerful. Under the heavy enhancement, he was close to the early eighth level. On the battlefield, he was almost invincible and no one could stop him.

BOOM! BOOM! BOOM!

The thousand-hands barbarian Emperor released his totem secret technique, and attacks bombarded the cannons and missiles. The sky was filled with flames. From a distance, it looked like countless fireworks were blooming. It was extremely beautiful, and a large number of meches were scrapped.

kill!!!

Bang!

The thousand hands barbarian dynasty's Army was about to break through the mechanical Army's encirclement under the thousand hands barbarian Emperor's leadership.

Buzzzzzz! Buzzzzzz!

However ...

More meches appeared and teleported over, blocking all the gaps. The thousand-hands barbarian Emperor could not break through the siege of the meches in a short time.

"Damn it!"

The thousand-hands barbarian Emperor's expression was extremely solemn. this is a spatial teleportation! How was that possible? Isn't the space domain something that only the people of the dynasty can control?"

"They teleported so many troops."

"The number of soldiers has already reached several hundred billion, and even the weakest of these soldiers is at Stage 2."

Heavy.

His heart was heavy.

It was not just the thousand-hands barbarian Emperor.

The thousand-hands barbarian dynasty's generals, princes, and marquises felt extremely grave. They could sense a fatal danger.

The thousand hands barbarian Emperor's Army might seem to have a slight advantage now.

That was because the two grade-7 formations had blocked the cannon fire and thousand-hands barbarian Emperor had resisted the pressure of the mech Army.

Otherwise ...

The thousand-handed barbarian dynasty had already fallen into a disadvantage.

"Your Majesty!"

if this continues, none of us will be able to escape, " one of the Barbarian kings shouted. the Army won't be able to break through either. We'll hold them off while you try your best to break through.

“this bi an ...”

The thousand-hands barbarian Emperor looked at the various princes.

“Your Majesty!”

“There’s no time to think too much.”

help His Majesty break out of the encirclement!!!

BOOM! BOOM! boom!

at this moment.

The barbarians of the thousand-hands barbarian dynasty who were level six and above had begun to fight with all their might. In order to help the thousand-hands barbarian Emperor break through the encirclement of the mechanical Army, they were willing to pay any price.

“A totem materialization!”

“Explode!”

“rumble!”

It could be seen.

The barbarians of the sixth level and above roared at the sky. Their huge totem images appeared one after another, looking like huge beasts.

The totem exploded.

in exchange for boiling power.

Obviously.

This was the desperate method of the Barbarian race.

The demons burned their own bloodlines, the humans mastered the profound meaning of martial arts, and the barbarians self-destructed their totems. All of these could greatly increase their combat power.

roar! roar!

at the same time.

the two 10-million-meter-long battle formation beasts rushed over and blocked the bombardment of the artillery and missiles, but they also paid a heavy price. many barbarian soldiers were killed by the backlash of the battle formation.

Bang Bang Bang Bang!

Countless explosions were heard.

The battle was extremely intense.

From the start of the war until now.

It was only half a minute.

More than one billion barbarian soldiers had died, and hundreds of millions of meches were scrapped.

In the southeast direction of the aerial battle.

The powerful barbarians above level six fought with their lives. They destroyed a large number of meches and tore apart the encirclement of the meches.

...

“thousand hands of destruction!”

“Whoosh!!!”

The thousand-hands barbarian Emperor used his most powerful technique. He formed countless seals with his hands and formed countless arms behind him.

He was like a thousand-armed Buddha.

it was a dazzling golden color.

It was extremely dazzling.

it also contained a powerful might.

“Break!”

“Rumble!”

The thousand hands covered the sky and contained a terrifying power. It combined all the power of the thousand hands barbarian Emperor and completely tore apart the encirclement of the mechanical Army.

A large number of meches were destroyed and fell from the sky.

...

“That’s great.”

“he rushed out, his majesty rushed out.”

“Hahahahaha!”

The Barbarian generals laughed in joy.

The thousand-hands barbarian Emperor looked back at the Barbarian Army, the Barbarian princes, and the generals. He gritted his teeth and ran away at full speed.

“No matter who it is, I will definitely take revenge, I will!”

The thousand-hands barbarian Emperor clenched his fists.

His heart was filled with hatred and killing intent.

At the same time.

let’s go. Jiang Li led Wang Gang and the other meches to the sky above the capital of the thousand hands through ‘fixed-point teleportation’. All the meches had arrived.

in addition.

The legions of the Lianzhen Empire, Mobei Empire, sword Empire, and tianzong Empire had also arrived.

“yes.”

As soon as Jiang Li arrived, he saw the thousand-hand barbarian Emperor tear apart the mechanical Army’s encirclement and escape. Wang Gang, stop him!”

“Astral battle technique!”

Buzzzzzz!

The skill was activated.

Wang Gang's figure disappeared into thin air and performed a short-distance 'space jump'. In the eyes of others, this scene was like teleportation as he chased after the thousand-hands barbarian Emperor.

A few figures flickered.

Wang Gang caught up with the thousand-hands barbarian Emperor.

“god of war's strike!”

BOOM!

Wang Gang raised his hand and punched out. The mechanical psionic energy and nuclear energy condensed into a terrifying fist radiance that pierced through the air and blasted toward the thousand-hands barbarian Emperor.

“No!”

The thousand-hands barbarian Emperor's face was full of fear. He could feel the aura of death in the face of Wang Gang's punch, as if the god of death had descended.

“Thousand hands of destruction!”

It was a critical moment.

the thousand-hands barbarian emperor used all his strength and launched his strongest attack again. the seal appeared, and all his strength merged together. countless arms appeared behind him.

He was like a thousand-armed Buddha.

All of them were aimed at Wang Gang.

Bang Bang Bang Bang!

An explosion sounded.

The arms were all blown up by Wang Gang's punch. They couldn't resist it at all. They were not on the same level.

All of them exploded.

"Ah!"

The thousand-hands barbarian Emperor shrieked in fear. He dodged at full speed and barely avoided his vital parts. However, he was still sent flying. He spat out a mouthful of blood, and all the bones in his body seemed to have been broken.

"Your Majesty!"

"Hurry up and help His Majesty!"

On the battlefield.

Seeing that the thousand hands barbarian Emperor was in danger, the barbarians wanted to help him.

"You're overestimating yourself."

attack! Jiang Li waved his right hand and ordered, "mechanical Army, attack with all your might and destroy the thousand-hands barbarian dynasty. MYL01 and

SSTs01, work with WMS01 and break the rank 7 formation of the thousand-hands barbarian dynasty.

“Yes.”

“Yes, sir!”

Buzzzzzz!

let's go! following Jiang Li's order, WMS01 attacked first. He released his skill and the demon God Power surged. He held the demon God halberd and revealed his true body.

At the same time.

MYL01 and SSTs01 followed closely behind.

“Kill!”

BOOM! BOOM!

WMS01 was unstoppable, especially with the help of MYL01 and SSTs01. It launched a full-force attack. The huge Demon God halberd smashed down with a powerful force, directly shattering a ten-million-meter-long battle formation beast.

“Ah!”

Pfft! Pfft!

Countless screams rang out.

The grade 7 army formation was broken, and the barbarians suffered a terrifying backlash.

There were countless deaths and injuries.

“No!”

The barbarians above the sixth grade were terrified and screamed in despair.

Grade 9 sword Lotus formation!

Clang!

A shocking sword chime rang out.

“Oh.”

Jiang Li looked over. It was Lian Zhen.

After Lianzhen arrived, she first observed the battle situation. When she saw WMS01 destroying one of the tier 7 Army formations, she immediately made her move.

Lianzhen charged into the battlefield.

He used his martial arts.

The vast energy condensed into nine huge ninth grade sword lotuses. Each Lotus was a million meters in size, and they released terrifying sword Qi.

Immediately after.

Under Lian Zhen’s control, the nine gigantic ninth grade sword lotuses formed the ‘ninth grade sword Lotus array’ and enveloped the beast that looked like an ox demon.

“explode!”

boom!

Lianzhen shouted and the ninth grade sword Lotus formation was activated. It released endless sword Qi and cut the beast. Finally, Lianzhen clenched his right hand and the ninth grade sword Lotus formation exploded.

The nine ninth grade sword lotuses exploded.

it exploded with a terrifying power.

“Roar!”

The bull demon-like Army beast was torn to pieces. Unable to withstand such power, it exploded and turned into a sky full of military Qi.

Pfft! Pfft! “Pfft!”

“Ah!”

The barbarians screamed in pain.

there were countless deaths and injuries.

“Roar!”

Suddenly ...

A Dragon’s Roar that sounded like a wail was heard.

kachaa! Kachaa! Crack! Crack!

In the southeast direction.

the four-clawed golden dragon wailed. its huge body was cracking and the fate of the dynasty was disappearing. the azure dragon in jiang li's body appeared and opened its mouth to devour the fate of the dynasty.

Di da! Di da!

Sticky blood dripped from Wang Gang's fist.

It was just a drop of blood, but it seemed to weigh a thousand pounds.

this was because the physical body of an expert had been tempered to the extreme, which was why it was so heavy.

The thousand-hands barbarian Emperor had already died in Wang Gang's hands. His head had been smashed by Wang Gang's fist, turning him into a headless corpse. He fell from the sky and smashed a deep pit on the ground.

In an extremely short period of time.

They had only exchanged a few moves.

The thousand-hands barbarian Emperor had been killed by Wang Gang.

Shua!

After Wang Gang killed the thousand-hand barbarian Emperor, he immediately returned to Jiang Li's side.

"Yes."

okay. Jiang Li nodded in satisfaction and ordered, " charge into the battlefield.

“yes.”

Wang Gang rushed into the battlefield and raised his right hand, ” flat palm!

BOOM! BOOM!

The palm landed.

It was as if a blazing sun had been created under his palm.

They killed a large number of barbarian soldiers.

“Target locked!”

“Condensed light beam! Fire!”

Whoosh! whoosh! “Whoosh!”

In the air.

Hundreds of planet-level space combat vessels participated in the war. First, the ‘super intelligence’ locked onto the target and then released the skill ‘condensed light beam’.

A total of 100 light beams, containing a terrifying amount of nuclear energy, covered half of the battlefield.

Pfft! pfft! Pfff!

The next moment.

The thousand-hands barbarian dynasty’s seventh-grade barbarians were all hit by the ‘condensed light beams’. They were simply unable to block such an attack.

In the end.

The seventh-grade barbarian of the thousand-hand barbarian tribe didn't even have time to scream before he was killed by the condensed light beam.

“Nuclear explosion!”

boom! BOOM! boom!

Millions of controllable nuclear fusion super soldiers descended, releasing nuclear fusion explosions and landing on the battlefield. On the battlefield, huge small Suns appeared.

A huge mushroom cloud rose.

The entire thousand hand Emperor was wiped out from the ground under the heavy nuclear explosion, not even leaving any ruins behind. Billions of barbarian soldiers were killed by the nuclear explosion.

“si si si ...”

“What terrifying destructive power.”

Lianzhen, human Emperor of Mobei, and the others watched this scene and sucked in a breath of cold air. They were shocked that the great Xia Army had such terrifying destructive power.

It looked like ...

The nuclear explosion of millions of controllable nuclear fusion super soldiers was indeed powerful.

However, it was still unable to cause any damage to a grade 8.

There were many of them.

However, the power of a million nuclear explosions was scattered, and it was impossible to concentrate all the power together, so it naturally couldn't hurt an eighth-rank existence.

Half an hour later.

The war was over.

It could be said that ...

Jiang Li won very quickly. In less than an hour, he annihilated the thousand-hand barbarian dynasty and more than twenty billion barbarian soldiers.

Buzzzzzz! Buzzzzzz!

The Azure Dragon of great Xia was devouring the fate of the thousand-hand barbarian dynasty.

The Dragon's body was slowly growing in size.

Shua! Shua!

MYL01 and SSTs01 came up to Jiang Li. Their bodies glowed with light, relying on their 'devouring evolution' talent.

They had absorbed a large number of remnant souls in this war.

Finally ...

Their evolution progress had all reached 100%.

Chapter 622 sixty thousand

“Upgrade to MYL01 and SSTs01.”

Buzzzzzz! Buzzzzzz!

Jiang Li immediately used two trillion energy points to upgrade both MYL01 and SSTs01. The light on MYL01 and SSTs01 disappeared.

A few seconds later.

The two special meches were all upgraded.

They had all risen to the early stage of the eighth rank.

“Thank you, hegemon.”

MYL01 and SSTs01 saluted Jiang Li.

Shua! Shua!

Jiang Li checked the basic information of the two special meches.

special unit type: holy angel mech soldier ”

[ rank: early eighth-rank ]

[ No.: SSTs01 ]

[ angelic machinery: jian jia (omitted) ]

[ mechanical holy ability: pixiu (omitted) ]

[ evolution progress: 0% ]

promotion condition: can not be promoted!

.....

Obviously.

after advancing to the initial stage of the eighth step.

SSTs01 had also mastered the 'law domain' ability and skills.

His combat strength had increased greatly.

” special troop type: mechanical demon

[ rank: early eighth-rank ]

[ no. my01 ]

skill 1: tier 7 psionic master

[ magic spirit machinery: Chenchen (omitted) ]

[ evolution progress: 0% ]

promotion condition: can not be promoted!

Similarly.

Like SSTs01, MYL01 had the power of a 'law domain'.

This way ...

Jiang Li now had four level eight meches under his command. They were Wang Gang, WMS01, MYL01, and SSTs01.

Among them.

Wang Gang was at the great circle of rank eight.

The other three were Special Forces.

...

He was only at the early stage of the eighth rank.

However ...

After the thousand-hand barbarian dynasty was destroyed.

WMS01's evolution progress had already reached 20%.

He was 80% away from another upgrade.

Shua!

The Dominator panel opened.

Jiang Li checked the number of soul Tinders.

soul Tinder: 9.8 billion level-one soul Tinders, 830 million level-two soul Tinders, 60 million level-three soul Tinders, 700000 level-four soul Tinders, 7000 level-five soul Tinders, 50 level-six soul Tinders, and 3 level-seven soul Tinders.

“fuse.”

Buzzzzzz! buzzzzzz!

...

Jiang Li activated the ‘soul Tinder fusion function’ and fused all the level-one soul Tinders. He got 330 million level-two soul Tinders.

“Continue.”

Buzzzzzz!

Jiang Li then fused another 1.16 billion level-two soul Tinders and got 19.4 million level-three soul Tinders this time.

After that.

Jiang Li quickly fused 79.4 million level-three soul Tinders and got 883000 level-four soul Tinders.

Immediately after.

Jiang Li fused 1.583 million level-four soul Tinders and gained 15830 level-five soul Tinders.

“One-click fusion.”

Buzzzzzz!

Jiang Li controlled the fusion interface and fused all 22830 level-five soul Tinders, obtaining 230 level-six soul Tinders.

Finally.

Jiang Li fused the two hundred and eighty level-six soul Tinders and got three level-seven soul Tinders.

In the end.

Jiang Li now had six level-seven soul Tinders.

Shua!

The interface closed.

“The Xia Emperor.”

Lord Jiang Li. Lianzhen and human Emperor Mobei flew over and stood in front of Jiang Li. They saluted him respectfully, then looked at MYL01 and SSTs01 behind Jiang Li with awe in their eyes.

Obviously.

Lianzhen and Mobei human Emperor could tell that MYL01 and SSTs01 had already reached the initial stage of the eighth rank.

“yes.”

okay. Jiang Li nodded.

“The Xia Emperor.”

“This time, our Mobei Empire has mobilized nearly 30 billion troops. I’m personally leading them. This is already close to 90% of the Mobei Empire’s combat power,” said the Mobei Emperor.

“among them,”

I’m at the perfected stage of the seventh rank. With the enhancement of the seventh rank army formation, the Empire’s fate, and the sacred artifact, I can probably display combat strength close to the early stage of the eighth rank.

“Also,”

“In the Army of the northern desert Empire, other than me, there are five seventh-ranked and five hundred sixth-ranked.”

“Alright,” he said.

okay. Jiang Li nodded.

Through the Mobei human Emperor’s introduction, he had some understanding of the strength of the Mobei Empire’s Army.

“Emperor Xia, the Lianzhen dynasty has mobilized 50 billion troops.”

Jiang Li, ” Lian Zhen continued to say to Jiang Li, ” I’ve also sent nearly 90% of the Lianzhen dynasty’s Army. In addition, I’m the only one at the early stage of level eight in the Mobei dynasty.

there are 15 Level 7 and 5000 Level 6.

“Yes.”

yes, ” Jiang Li said. I know.

Obviously.

The overall power of the Lianzhen Empire was at least five times that of the Mobei Empire.

It was obvious.

The combat power of the ten-winged dynasty could not even compare to that of the Lianzhen dynasty.

“We pay our respects to the Xia Emperor,”

soon after.

The two military marshals from the sword Emperor dynasty and the tianzong dynasty came. They bowed to Jiang Li and introduced the details of their Army to him.

The general of the sword Empire’s Army was a burly middle-aged man with a rough face.

It was not Xiao Linlin.

it was another person.

Full name, Lin Tianhe.

there was only a one-word difference between his name and lin tianjian’s.

“The Xia Emperor.”

Lin Tianhe explained, " according to your orders and instructions, the sword Emperor dynasty has sent out 100 million soldiers. Among them, I only have one type 7 soldier. There are ten Type 6 soldiers. In addition, there are also 10000 'nuclear energy troops'.

"Your Majesty, Emperor Xia."

Soon after.

the general of the tianzong dynasty's army reported to jiang li, " " the tianzong dynasty also sent out 100 million soldiers. among them, i only have one type 7, five type 6, and the 10000-strong 'nuclear force' that was formed last night. "

"yes."

I see. Jiang Li nodded and didn't say anything. He glanced at the armies of the sword Empire and the tianzong Empire and stopped at the 'nuclear force' for a while.

Speaking of this.

The Marshal of the tianzong dynasty's Army was only at the beginning of the seventh rank.

Full name, Kong kui.

"Clean up the battlefield."

go! Jiang Li ordered.

"Yes."

Buzzzzzz! Buzzzzzz!

First of all ...

Lian Zhen, the human Emperor of Mobei, and the others had sent out a ‘formation master team’. What they had set up was not a ‘blood refining formation’, but an even higher level ‘ten thousand blood refining formation’.

It could be seen.

After the formation was successfully set up.

A vast formation map appeared in the sky, covering almost half of the battlefield. It was blood-red like crystal, and it refined the corpses on the battlefield.

The corpses were like blood-colored streams of light, pouring into the ten thousand blood refinement formation, forming numerous ten thousand blood refinement pills.

There were many of them.

At the same time.

let’s go. Jiang Li sent the mech Army to clean up the battlefield and search for resources. They moved the remains of the meches and the armor and weapons of the monsters into the Super carriers ‘cabin.

“Teleport!”

Buzzzzzz!

Jiang Li contacted the mechanical space Station base and sent the Super transport troop back to the base of the No. 01 Army to transport a large amount of supplies.

Half an hour later.

the entire battlefield.

All the corpses had been refined, and the extremely thick smell of blood in the air gradually faded. It could no longer be smelled. The corpses on the battlefield.

a gentle breeze blew.

They were all turned into dust.

All of the essence was refined into ‘ten thousand blood refinement pills’.

The mountain of corpses and sea of blood had disappeared.

In reality.

because the ‘ten thousand blood refining formation’ was of a higher grade than the ‘blood refining formation’, the quality of the ‘ten thousand blood refining pills’ that were made was higher than the ‘blood refining pills’.

Finally.

He had obtained a total of 30 billion ‘ten thousand blood refinement pills’.

Jiang Li didn’t keep it.

Instead, they were all distributed to the soldiers as rewards.

Of course.

The meches didn’t need pills, so they gave the pills to the human soldiers.

“The Xia Emperor.”

Lian Zhen came with a Jade bottle in her hand. She handed it to Jiang Li and said,  
” “This is the seventh-grade ten thousand blood refinement pill, which was refined from the corpse of a seventh-grade barbarian.”

a seventh-tier top-grade pill. It’s refined from the essence of the thousand-hands barbarian Emperor’s body.

“Also,”

“One seventh tier upper grade, two seventh tier middle grade, and three seventh tier lower grade.”

“Alright,” he said.

Jiang Li nodded and took it.

even though ...

Jiang Li didn’t need these pills, but his subordinates did, such as Yue Fengji, Hong Tianqi, President Wu, and Xu Ya.

He really needed these pills.

jiang li stayed.

In the future, it could be used as a reward for Yue Fengji and the others.

Furthermore ...

only xu ya, hong tianqi, and the others could do more for jiang li if they improved and became stronger.

At this moment.

Jiang Li's Azure Dragon had absorbed all the fate of the thousand-hands barbarian dynasty. Its length had increased from 50000 meters to 60000 meters.

It had improved quite a bit.

“zh0214.”

let's go, ” Jiang Li ordered. leave ten billion super transport troops and search for the thousand-hand barbarian dynasty's spiritual crystals, herbs, and other resources.

” all the remaining meches, continue the battle. ”

“Yes.”

Zh0214 replied.

After that.

Ten billion super carriers were sent out from the mech Army.

“.....”

Lianzhen and the Mobei human Emperor did not say anything. It was obvious that they had tacitly agreed that all the spoils of war would belong to the great Xia Dynasty, and they would not dare to fight for it.

Furthermore ...

the war with the thousand-hands barbarian dynasty.

The Mobei Empire and the Lianzhen Empire did not do much.

“Kjzjd04 and kjzjd05, activate immediately. Target: The mechanical Army, the Mobei Empire army, the Lianzhen Empire army, the sword Empire army, and the tianzong Empire army.”

Jiang Li contacted the two mechanical space Station bases in the Western Region. The Moro Empire-the Moro continent.”

“Whoosh!!!”

As soon as he finished speaking.

The fixed teleportation began.

an invisible space beam crossed through time and space, covering the mechanical army and teleporting them away from the thousand-hands barbarian dynasty.

They headed to the ‘mo Luo Empire’.

Buzzzzzz! Buzzzzzz!

Very quickly.

The armies of the Mobei Empire and the Lianzhen Empire were also teleported away one after another.

“Chief sovereign.”

at this moment.

super holographic soldier cjqx01 came and reported to jiang li, ” QX01 stationed at the base of the 01 division is requesting communication.

“Answer.”

Jiang Li said.

.....

Chapter 623 The flames of war

Buzzzzzz!

After the communication was connected.

cjqx01 projected a holographic image in front of jiang li. it was qx01 and qian long in the base.

“Chief sovereign.”

QX01 and Hidden Dragon saluted Jiang Li and quickly reported, ” the experts of the demon race have descended upon the imperial capital of the Grand Xia. The ‘Grand Xia mechanical Army’ that was stationed at the imperial capital, as well as the security forces at the ‘army base’, have suffered heavy losses.

Shua!

As soon as he finished speaking.

QX01 immediately started filming the scene outside the base.

In the sky above the imperial capital.

“Rumble!”

The sound of an explosion rang out.

the demons 'dharma forms were ferocious, and the power of their bloodlines was as vast as the sea, charging in all directions.

Jiang Li saw the meches fall one after another. Many level-six patrol meches were destroyed one after another and disappeared into countless light spots.

Great Xia's mechanical Army.

This was the mechanical Army that Jiang Li had created using energy points a long time ago.

There weren't many meches left, and they were average.

now.

The imperial capital of the Grand Xia was suddenly invaded by demonic experts.

Great Xia's mechanical Army was fully mobilized.

However ...

These monster race experts had come from the monster race.

He was very powerful.

Among them.

The one leading them was the Vice Division head of the demon division, Fu Tianqing, as well as the ten demon Palace Masters. Such a terrifying combat power was enough to crush them.

It had only been half a minute since the battle started.

More than half of the security machinery in the base had been destroyed.

“The demon race is divided.”

jiang li’s eyes were cold. ” it seems like he used the power of the book of the nether world to create a space tunnel and then come to the imperial capital of the xia dynasty. he’s trying to kill me. ”

“It’s a pity,”

“It’s not just the demon race that can teleport.”

” cjqx01, contact the human division immediately. ”

go! Jiang Li ordered.

“Yes.”

Buzzzzzz!

The skill was activated.

The communication screen opened.

Cjqx01 contacted the Super Intel soldier team of The Human Division and ordered them to find Lord red and Elder Brown.

half a minute later.

“The Xia Emperor.”

In the image.

Lord Chi and Elder Brown appeared.

“Something has happened in the imperial capital of the Grand Xia.”

it’s fine, ” Jiang Li said. the demon race has already made a move. They’ve used the power of the ‘Book of the Earth’ to create a space tunnel and arrive at the imperial capital of the Xia Dynasty.

the demon division sent out a Deputy Division Head, ‘Fu Tianqing’, and ten Hall Masters. The number of experts at level 8 has reached six, and five have perfected Level 7.

“i need the human race to act immediately.”

“Alright,” he said.

“There’s no problem with this,” Lord Chi said directly.”Emperor Xia, teleport us over now.”

“Yes.”

Elder Brown nodded with a murderous look in his eyes. Fu Tianqing is the only one here. Lord Chi and I will bring ten Hall Masters. It’ll be best if we can keep Fu Tianqing here.

“Yes.”

yes. Jiang Li nodded. activate kjzjd02 and kjzjd03 and start the fixed-point teleportation. Target: Master Chi, Elder Brown, and the ten Palace Masters.”

“Teleportation destination: the imperial capital of the Grand Xia.”

“Whoosh!!!”

...

as soon as he finished speaking.

The teleportation was activated.

An invisible spatial light beam descended, enveloping Lord Chi and the others.

Shua!

It flashed in the air.

lord chi and the others disappeared, leaping through space and appearing in the air above the imperial capital of grand xia, reappearing on the aerial battlefield.

Kachaa! Crack! Crack!

The imperial capital of the Grand Xia.

The ground cracked, the buildings collapsed, and many civilians were either dead or injured.

Hong Tianqi led the Xia Army to arrange the battle formation, but it was destroyed by the monster Palace Master. The nuclear team was deployed, but the nuclear explosion was all blocked.

“Pfft!”

...

Blood splattered everywhere.

Fu Tianqing's figure flashed across the sky. He reached out and grabbed the head of a member of the nuclear squad. He exerted force with his right hand and the head exploded like a watermelon.

“This is the ‘special weapon’ that your great Xia created?”

Fu Tianqing held the controllable nuclear fission palm controller in his hand and observed it carefully, but he couldn't find anything special.

“Ah!”

On the battlefield.

The screams of the human soldiers rang out one after another.

A large number of soldiers fell.

It could be said that ...

There were six rank eights and five at the great circle of rank Sevens.

eleven monster race experts.

The top combat power of the demon race.

As long as they were given enough time, they could destroy an Empire.

Deputy court Lord, Emperor Xia, Jiang Li, might not be in the imperial capital.

at this moment.

One of the perfected stage tier 7 monster race temple Masters said.

” we’ve been fighting for so long. more than half of the imperial capital has been destroyed, and more than half of the soldiers have been killed, but emperor xia, jiang li, hasn’t appeared yet. ”

“and i can’t sense the aura of the empire’s fate.”

All the monster race temple Masters said.

“whoosh!!!”

At this moment.

There was an extremely obvious spatial fluctuation.

“Who is it?”

Fu Tianqing raised his head and looked to the left.

Shua! Shua! Shua!

The next moment.

Lord Chi, Elder Brown, and the ten human Palace Masters.

All of them appeared.

“Lord Chi!”

Fu Tianqing’s pupils contracted, and he said in surprise, ” “Elder Brown and the ten human Palace Masters, damn it! How could you teleport here directly?”

“Could it be that you guys have already finished setting up the ‘space transfer formation’?”

“No! It’s wrong!”

“If this is a ‘spatial transfer array’, you guys shouldn’t have appeared here. Instead, you should have appeared within the range of the spatial transfer array.”

“Kill!”

Buzzzzzz!

However ...

Lord Chi and Elder Brown had no intention of answering Fu Tianqing’s question. They attacked as soon as they appeared.

His figure was like light.

The two of them joined forces and charged toward Fu Tianqing.

BOOM! BOOM!

An intense battle erupted.

A terrifying explosion reverberated in all directions. The space was torn apart. Lord Chi and Elder Brown let out long howls. The radiance was boundless, shaking the mountains and rivers and shattering the earth.

At the same time.

The ten human Palace Masters and the ten monster Palace Masters were fighting.

“Retreat!”

BOOM!

Fu Tianqing attacked with all his might. The power of his bloodline condensed into a huge fist print, shaking the space and forcing Lord Chi, Elder Brown, and the others to retreat.

“i miscalculated this time.”

retreat! Fu Tianqing roared loudly. everyone, retreat!

“Let’s go!”

Shua!

Fu Tianqing knew very well that Lord Chi and Elder Brown were both peak-stage rank eights. They were extremely powerful, and Fu Tianqing was not sure if he could win in a one-on-one fight.

moreover, he was now fighting one against two.

Hence.

Fu Tianqing didn’t dare to continue fighting and kept retreating.

after hearing fu tianqing’s order, the ten monster palace masters were stunned.

He retreated as he fought.

Shua!

The communication ended.

Jiang Li was relieved.

with lord red, elder brown, and the others 'help, with their strength, he believed that the emperor of great xia would be fine. the no. 01 army base would not be in any danger.

one had to know.

All the mechanical space Station bases were built by the base of the 01 Army.

In other words ...

if the base was destroyed by fu tianqing and the others, all the mechanical space stations would lose their function.

unable to teleport.

Of course.

Jiang Li could make another one.

buzzzzzz!

an invisible spatial light beam descended.

Shua!

Jiang Li disappeared into thin air and was teleported to the floating continent of the Moro dynasty-the Moro continent.

on the other side.

In the central region of the Holy peace Region.

The three clans 'battlefield.

The demon Army was led by Wutian demon Emperor, and the number of demon troops reached more than 300 billion.

the barbarian race was led by the 'grand magus', the barbarian emperor of the great magus kingdom. they had gathered the barbarian soldiers of the three great barbarian dynasties, and their total military force was about 280 billion.

Finally.

The soul martial Empire and the myriad refinements Empire formed the human empire army.

The myriad refinement Empire had mobilized all their forces.

It had reached 60 billion.

under such circumstances.

The soul martial Empire had also mobilized all their forces. The number of human soldiers had reached 150 billion, and they also had a 'puppet army' formed by human puppeteers.

The number had reached 100 billion.

Central region plain.

BOOM! boom! BOOM!

The ground was shaking violently.

The armies of the three races came from three different directions, and there were many floating battleships in the sky. They were densely packed, and as the formation was activated, the formation diagram covered the sky.

Countless.

the murderous aura of the army shot up into the sky, turning the entire sky blood red.

kill!!!

In the sky above the demon Army, Wu Tian looked down at the human and barbarian armies with cold eyes. With his hands behind his back, he waved his hand and said, "all troops, charge! Kill!"

kill!!!

charge!!!

"attack!"

the demon army took the lead in attacking. they took the floating battleships of the demon race and activated the formation. then, countless beams of light shot out from the formation.

it could be seen.

Wutian demon Emperor brazenly launched an attack on both the human and barbarian armies.

The Grand Magus took in a deep breath and his killing intent surged. set up the totem formation and immediately counterattack.

"charge!"

attack!!!

“.....”

the barbarian army retaliated.

Bang Bang Bang Bang!

Countless explosions were heard.

“all troops, hear my order!”

The soul martial Empire watched the battlefield calmly and analyzed the situation. Wutian demon Emperor, you actually dare to attack the humans and barbarians at the same time.

“Puppeteer troop, take the lead and mobilize the puppet army.”

“Don’t fight with the barbarians for the time being. Let’s deal with the demons first,”

at this moment.

The war between the three races in the central region had truly begun.

The three clans were in a chaotic battle.

The vast battlefield was boundless, and hundreds of billions of living beings were fighting each other. There were living beings dying at every moment, and there were screams, yells, wails, and explosions.

It was endless.

After the war in the central region broke out, the 'imperial power struggle' was completely kicked off.

at almost the same time.

In the Eastern Region of the Holy peace Region.

A war had also broken out.

Originally.

According to the plan drawn up by the demon court, the astral wind Empire and the East Peak demon dynasty of the demon race were already preparing to attack the martial reverence Empire and the six-winged barbarian dynasty.

However ...

They had not expected this.

Duan Qilin had actually brought the entire martial reverence dynasty to join the martial King dynasty, becoming a part of the martial King dynasty and giving up the position of the human Emperor.

Hence.

Martial Emperor Wu Wuji led an Army of 200 billion human soldiers and started the dynasty War, which gradually developed into a chaotic war between three races.

the allied demon army of the astral wind empire and the eastern peak demon dynasty, as well as the allied barbarian army of the six-winged barbarian dynasty and the soaring snake empire.

In addition.

In the southern region of holy peace state.

The Allied forces of the three great demon empires launched a war against the Imperial Dragon barbarian dynasty and the sword Emperor dynasty. The Imperial Dragon barbarian dynasty retaliated at the first opportunity.

At the same time.

Di Long has United the forces of the Barbarian empires in the southern land.

this way ...

Lin Tianjian was under a lot of pressure.

In the southern region of the Holy peace state, there were only the sword Emperor dynasty and the tianzong dynasty. The monster race had three dynasties, and the Barbarian race also had three dynasties. The difference in military strength was huge.

Among them.

The combined forces of the sword-Emperor dynasty and the tianzong dynasty only reached 130 billion.

However ...

The demons had 250 billion troops.

The number of barbarians had even reached 300 billion.

There was also a gap in their top combat strength.

Western Region.

The mo Luo barbarian dynasty.

The floating continent-Moro continent.

Wuwuwuwuwu!

Jiang Li had already teleported over. As soon as he arrived, he heard explosions and rumbles. The mechanical Army had already started fighting with the Barbarian Army of the mo Luo barbarian dynasty.

Lianzhen and the rest also made their moves.

The two sides were in a chaotic battle.

A tragic war broke out again.

## Chapter 624 Sealing

The Moro continent was very large, about five times the size of the ten-wing continent. Jiang Li was looking around the battlefield.

He looked around.

The intense battle had spread to every corner of the Moro continent.

Countless meches were fighting with the Barbarian soldiers of the Moro dynasty. The battle cries shook the sky, and the terrifying energy fluctuations shook the sky.

One had to know.

the mo Luo empire was one of the five overlord empires of the barbarian race.

Among them.

The Barbarian Emperor, mo Luo, was at the mid-eighth level.

The total number of troops had reached 80 billion.

Roar! “Roar!”

The roars reverberated in all directions, and the sound waves seemed to be corporeal, forming invisible ripples that spread out. Many tier 7 army formation beasts were condensed.

Each Grade 7 formation beast was at least ten million meters long.

It was as vast as the stars.

They were fighting with all their might on the battlefield.

“Rumble!”

Countless artillery fire bombarded the Moluo continent. The Army beast pounced over, surging with a vast and endless military fiend light fog, blocking a large number of artillery fire.

the flames wreaked havoc and were extremely gorgeous.

Kachaa! Kachaa!

Under such an intense battle, many mountains collapsed, rivers flowed, and the ground cracked. It was as if a magnitude 15 earthquake had occurred.

“Get into formation!”

BOOM!

Lian Zhen and the human Emperor of Mobei took a deep breath and then shouted.

Buzzzzzz! Buzzzzzz! Buzzzzzz!

Immediately.

The human array Masters began to activate their secret array techniques, mobilizing the Army's endless military Qi, which merged with the spirit Qi of heaven and earth, setting up a Grade 7 Army array.

One had to know.

The Lianzhen dynasty sent out 50 billion of their troops, while the Mobei dynasty sent out close to 30 billion of their troops. Just the two great human empires combined.

Their military strength was close to 80 billion.

It was almost on par with the military strength of the Moro Empire.

At this moment.

The grade 7 army formation was set up successfully.

At the same time, eight grade 7 army formation beasts were formed. It was as if an endless amount of military light mist spread out, covering more than half of the battlefield.

They managed to resist the suppression of the mo Luo Empire's Army.

Obviously.

The armies of the Mobei Empire and the Lianzhen Empire were still very useful. They were able to set up a Grade 7 military formation, and from there, they could offset the suppression of the mo Luo Empire's military formation.

This way ...

With the help and protection of the human dynasty's Army, Jiang Li's mechanical Army was able to exert all its combat power without being suppressed by the Army.

kill!!!

“Attack!”

” all mechanical armies, get ready. seal off the entire moro continent and launch a heavy fire! ”

“Fire!”

fire!!!

BOOM! boom! BOOM!

It could be seen.

Jiang Li's mech Army formed by more than 400 billion meches had the entire Moro continent surrounded in the middle.

They were all locked down.

One had to know.

The Moro continent was five times the size of the ten-wing continent. The ten-wing continent was the size of a planet, almost the same size as earth.

It could be seen from this.

The Moro continent was so vast.

However ...

even so ...

Jiang Li's mechanical Army still surrounded the entire Moro continent.

...

The sky was filled with artillery shells, missiles, lasers, and nuclear explosions. They covered almost the entire sky of the Moro continent and carried out a carpet bombing.

Bang Bang Bang Bang!

jiang li heard an explosion.

Huge mushroom clouds could be seen rising.

at the same time.

The Barbarian Army of the Moro dynasty started to fight back. The floating battleships of the Barbarian race were like moths flying into the fire. They charged at Jiang Li's mechanical Army.

The formation diagram appeared.

The totem formation was formed.

All sorts of totems appeared.

roar! Roar!

kill!!!

...

“Let’s go all out with them.”

kill!!!

“Rumble!”

facing the barbarians ‘suicidal attack, jiang li’s meches finally suffered some losses. some of them were scrapped and fell to the ground of the moro continent as scrap metal.

In reality.

What Jiang Li saw was only the tip of the iceberg. The war had spread to the entire Moro continent. He couldn’t see the whole battlefield at a glance.

Somewhere on the battlefield.

The mechanical Army consisted of millions of ‘controllable nuclear fusion super soldiers’, and each of them was a rank-6 elite soldier.

They were powerful.

There were over a million of them.

After entering the battlefield, they were invincible. The level 7 human formation and the level 7 barbarian formation offset each other, so all the meches could use their full power.

The millions of ‘controllable nuclear fusion super soldiers’ were like an extremely sharp blade, cutting through the battlefield and killing a large number of barbarians.

Level six barbarians were killed by a group of level six meches.

“Ah!”

The screams of the barbarians resounded through the battlefield.

Other than that.

four teams of 10000 stage-five warriors equipped with ‘controllable nuclear fission palm control devices’ formed four ‘nuclear forces’. they also entered the battlefield and reaped the lives of the barbarians.

buzzzzzz! Buzzzzzz!

Jiang Li stood on the edge of the battlefield.

It was visible to the naked eye.

Countless soul Tinders flew out of the bodies and rushed to Jiang Li like a colorful flood. They were all captured.

Obtain a large amount of soul Tinder.

Shua! Shua! “whoosh!”

In front of him.

The system kept refreshing the capture notifications.

They were densely packed.

Jiang Li closed the notification.

“alright!”

Jiang Li was in a good mood.

On the other side.

In the three races ‘battlefields in the central region and the Eastern Region of the Holy peace state, Qin qipo and Wu Wuji both used atomic and hydrogen bombs.

The type 5 divine warriors then threw the nuclear warheads at the monster and barbarian forces.

BOOM! BOOM! BOOM!

Immediately.

Countless nuclear explosions occurred, shaking the earth.

the power of the nuclear explosion spread.

A large number of monsters and barbarians were killed.

They had achieved great results.

At the same time.

it also helped jiang li capture a large number of soul tinders.

“Good, good, good!”

Wu Wuji was overjoyed, and a smile appeared on his face as he looked at the battlefield. nuclear weapons are indeed useful. They’re powerful and have a wide range.

” ten billion demons and barbarians were killed after only one round of large-scale bombing.

“hahahahaha!”

Wu Wuji laughed, ” you paid so many spiritual crystals and didn’t let me down.

In the Central Plains.

“si si si ...”

The Barbarian Emperor, the great shaman, and the others all gasped. They looked at the huge mushroom cloud that had not dispersed for a long time, and traces of shock appeared in their eyes, ” is this the ‘nuclear weapon’ of the human race? I’ve only heard of it before, but I’ve seen it with my own eyes today. I didn’t expect it to be even more powerful than the rumors.”

” the demons have suffered a great loss from this round of bombing. even our barbarian race has been affected. ”

“Damn it!”

Qianfu demon Emperor’s face turned gloomy, ” it’s actually this kind of weapon again. When we destroyed the Great Yan Dynasty last time, the Imperial Guards were ambushed by this kind of weapon, which caused us to lose a lot of soldiers.

“Detestable!”

Seven Lotus demon Emperor’s expression was not good either.

“Soul Emperor.”

Wutian demon Emperor was calm. He remained calm even in the face of the nuclear weapons ‘bombardment as he looked at Qin qipo in the distance.

although ‘nuclear weapons’ are strong, they are still limited.

“moreover, in order to deal with the ‘puppet legion’ of the soul martial empire, i still have a backup plan,” wu tian demon emperor said simply.”i will definitely win this battle.”

“the central region of saint peace state will be mine.”

“Hu ~~ Hu ~ Hu ~”

Qiu Wanlian wiped the cold sweat from his forehead and sighed. although I don’t want to admit it, I have to say that the ‘nuclear weapons’ Jiang Li sold us are indeed useful, but they’re a little too expensive.

however, I didn’t waste so many spiritual crystals.

“Yes.”

Qin Qi po nodded.

In fact.

Qin qipo's heart was heavy. Although nuclear weapons were powerful, they were limited. Not only were there limited numbers, but nuclear bombs and hydrogen bombs that weighed less than ten million tons only had the power of a Tier 5.

one had to know.

This was a war between top Overlord-level empires.

From the beginning until now.

They were just probing attacks.

After all ...

The type 6 and type 7 powerhouses of the three races had yet to enter the arena.

The powerhouses of the eighth step did not make a move either.

There was more.

He didn't set up a grade 8 army formation either.

It was different from the situation in the central region of the Holy peace Region.

In the Eastern Region of the Holy peace Region.

Wu Wuji led the human army, and with the help of nuclear weapons, they had the absolute advantage.

In addition.

In the southern region of holy peace state.

The war had also broken out.

The three clans were in a chaotic battle.

the human army led by Lin Tianjian was at a great disadvantage.

It was supported by nuclear weapons.

The great Xia Dynasty.

Lord Chi and Elder Brown besieged Fu Tianqing, while the 10 demon Palace Masters fought 10 human Palace Masters. The aftershocks of the battle cracked the mountains and rivers of the great Xia Dynasty.

It was as if a magnitude 15 earthquake had occurred.

“The mighty power of The Earth Book!”

In the end.

Fu Tianqing was forced into a corner by Lord Chi and Elder Brown. He had no choice but to summon the power of the ‘Earth Book’ and form a projection. The illusory projection of The Earth Book manifested and suppressed the enemy.

“Suppress!”

BOOM! BOOM!

There were two loud sounds.

Lord Chi and Elder Brown were sent flying.

“Teleport! Retreat!”

Buzzzzzz!

He took advantage of this opportunity.

fu tianqing immediately took out his 'teleportation token' and activated it. a space formation appeared, and with a flash of light, fu tianqing disappeared into thin air.

He was teleported away.

“Let’s go!”

At the same time.

The ten monster race Palace Masters Unleashed their full power and forced Xia Tian, Xing lingqi, and the others to retreat. They took out their teleportation tokens and retreated with a flash of light.

“You want to escape?”

BOOM!

Master Chi and Elder Brown reacted and attacked immediately. it won’t be that easy.

“Spatial seal!”

“Whoosh!!!”

With a wave of his right hand, Lord Chi took out a Silver diamond-shaped token from his low-grade interspatial ring. The word ‘forbidden’ was engraved on it with profound space runes.

Energy injection.

The decree was activated.

It formed a Silver Ripple that spread out and confined the surrounding space.

“Ah!”

Pfft! Pfft!

in the end.

Two of the monster race temple Masters were unable to escape in time. The spatial teleportation failed, and their figures were squeezed out of the space one after another. They screamed and spat out blood.

“Spatial seal!”

“No!”

The two monster race temple Masters were terrified.

“Kill!”

BOOM! BOOM!

The ten human Palace Masters looked at each other and roared. They quickly surrounded and attacked.

Pfft! “Pfft!”

Blood splattered everywhere.

The two monster race Palace Masters who had not been able to escape were surrounded by Xing lingqi and the others. They were killed in less than half a minute.

“it’s a pity,”

Lord Chi shook his head, ” only two monster race temple Masters were left behind. Furthermore, they are only at the perfected stage of tier 7.

“Notify the Xia Emperor. Tell him that the crisis in the imperial capital of the Grand Xia has been resolved.”

by the way, ask him about the progress on his side, ” Elder Brown said. have you taken down the thousand hands barbarian dynasty and the mo Luo Empire? ”

after all, the mo Luo dynasty is a domineering dynasty. I’m afraid it won’t be that easy.

Chapter 625 seamless

The Moro continent.

Jiang Li had ordered Wang Gang, WMS01, MYL01, and SSTs01 to enter the high-level battlefield.

at the same time.

Hundreds of planet-level space combat vessels also locked onto the level Seven barbarian from the Moro Kingdom.

roar! “Roar!”

The Dragon roared.

The true dragon of the nation's fate, the flood Dragon of the nation's fate, was hovering in the sky. It was the Barbarian Emperor of the mo Luo Empire, mo Luo, as well as the Barbarian kings and Marquis Kings who possessed the fate of the Empire.

one had to know.

On Jiang Li's side.

in addition to lianzhen.

There were a total of five rank eights.

There was only one barbarian Emperor in the mo Luo Empire, mo Luo.

In addition.

Whether it was the high-level combat power or the low-level combat power, the Moro dynasty was far inferior to the Army led by Jiang Li.

The difference was huge.

Jiang Li didn't command the mechanical Army. Instead, he gave zh0214 and the other battlefield commanders full authority. They were enough to command the war.

buzzzzzz! Buzzzzzz!

Jiang Li stood at the edge of the battlefield and watched the epic battle. Artillery and true essence collided, missiles and martial arts techniques clashed.

It was filled with shock.

In reality.

According to the settings of the ‘super mechanical Army’ game, after unlocking the ‘mechanical interstellar Army’, one could already set foot in the universe.

Of course.

He had only just stepped in.

In other words.

If it was on earth, the mechanical Army that Jiang Li had created could only ‘play’ in the solar system at most. It wasn’t qualified to leave the solar system.

“Chief sovereign.”

At this moment.

Cjqx01 came over and said to Jiang Li, ” Lord Chi of The Human Division requests a letter.

“Answer.”

Jiang Li came back to his senses.

“Yes.”

Buzzzzzz!

the holographic communication skill was activated.

It formed a projection.

In the image.

They were Lord Chi, Elder Brown, and the others.

“The Xia Emperor.”

the crisis in the imperial capital of the great Xia has been resolved, ” Lord Chi said. it’s a pity that Fu Tianqing, the one who’s disrespected the demons, has escaped. We couldn’t keep him here.

we only killed two monster Palace Masters who were at the perfected stage of tier 7.

“Alright,” he said.

that’s enough. Jiang Li smiled. thank you, Lord Chi and Elder Brown.

“you’re too polite.”

lord chi waved his hand and asked,”by the way, emperor xia, how’s the war in the western region?” Have the thousand hands barbarian dynasty and the mo Luo Empire been dealt with?”

“yes.”

yes. Jiang Li nodded and said, ” the thousand-hand barbarian dynasty has been destroyed. My Army is fighting with the Barbarian Army of the Moro Empire. It’ll probably end soon.

“Alright!”

Master Chi and Elder Brown were overjoyed when they heard that. They said excitedly, ” this way, the southern and Western regions of holy peace state will all

fall into the hands of the human race. We'll directly occupy two-fifth of holy peace state.

however, you still have to be careful. After all, it's a transcendent dynasty.

soon after.

They talked for a while more.

The communication ended.

since jiang li could perform 'fixed-point teleportation', lord chi, elder brown, and the others stayed in the imperial capital to help jiang li.

if something really happened ...

...

jiang li could also teleport lord chi and the others to anywhere.

At this moment.

what? " Jiang Li heard mo Luo barbarian Emperor's furious roar. He looked up and saw that mo Luo barbarian Emperor had exploded his totem.

In an instant.

In exchange for an incomparably violent power.

His cultivation base rose.

"Inferno!"

Buzzzzzz! Buzzzzzz! Wuwuwuwuwu!

not only that.

In the face of such a situation, the mo Luo Empire decided to go all out. All the barbarians actually self-destructed their own ‘totems’.

In exchange for more powerful strength.

...

At the same time.

The formation master of the Barbarian race had used his own life as the price, and with the help of the mo Luo barbarian Emperor, the seventh-grade barbarian princes, and the Marquis Kings, he had forcefully set up a grade 8 formation.

Grade 8 army formation!

The endless purgatory!

At this moment.

The world changed.

After the formation was set up, Jiang Li saw the whole battlefield and the entire space. There were blood-red light patterns everywhere.

Ghostly shadows were everywhere.

in the end.

It turned the entire battlefield into a scene of ‘purgatory’.

It was as black as ink.

Waves of blood light.

“Grade 8 army formation!”

The pupils of the northern desert Empire contracted, and they immediately shrieked in shock, this is a grade 8 formation. All troops, listen up. Immediately shrink the battlefield and gather together. Be alert of your surroundings.

“The seamless purgatory.”

lian zhen took in a deep breath. countless sword lotuses floated around her. she was protected by the national aura and looked extremely majestic. ” in the end, mo luos plan succeeded. ”

“This is a grade 8 army formation.”

jiang li stood at the edge of the battlefield, but he was still covered by the ‘inferno hell’. he was trapped in the range of the level-eight army formation ‘and felt a terrifying pressure.

It could be said that ...

Within the range of this army formation.

Jiang Li’s strength was suppressed by at least half.

It was greatly weakened.

fortunately ...

The legions of the Lianzhen dynasty and the Mobei dynasty had eight level-seven formations. They resisted the suppression of the level-eight formations, so Jiang Li's strength was only suppressed by ten percent.

In reality.

a rank 8 army formation was no longer formed in the form of an 'army formation beast'. instead, it would form an 'army formation domain' that suppressed the enemy and strengthened the user.

However ...

The 'army formation domain' of a grade 8 army formation was only a simple prototype. It seemed real and illusory, but it still possessed extremely powerful power. Of course, the consumption and side effects, as well as the backlash, were even more terrifying.

Moreover ...

Mo Luo still forcefully set up the grade 8 army formation-the endless purgatory.

if ...

when an army formation reached level 9, it would touch upon the 'spatial domain', forming a true 'army formation domain space', trapping the enemy within the 'army formation domain space'.

For example, the 'Inferno hell'.

If he reached the ninth step.

it would break away from the 'main space' and truly develop an 'inferno hell'.

Buzzzzzz! Buzzzzzz!

lian zhen and mo bei ordered the army to shrink the battlefield and gather together. the stage 7 army formation was activated to the maximum. the army formation beasts roared towards the sky, resisting the suppression of the stage 8 army formation.

BOOM! BOOM! boom!

attack! commander zh0214 ordered the mechanical Army to launch a probing attack. Hundreds of billions of artillery shells were launched into the air, bombarding the mo Luo barbarian Army.

“Av CI blood rain!”

Wuwuwuwuwu!

The grade 8 army formation activated.

In that instant.

A blood-colored rain fell from the sky. Each drop of blood contained extremely powerful power, shattering the hundreds of billions of cannonballs and exploding them.

They were all blocked.

“The Xia Emperor.”

Lian Zhen quickly came over and said to Jiang Li, “a grade 8 army formation has already formed its own army formation domain. Within the Army formation domain, we will be greatly suppressed.

in addition, the commander of the army formation can control everything in the Army formation.

“However, I’m not sure.”

“Mo Luo forcefully set up this formation, and the backlash and consumption of a rank 8 formation is extremely terrifying. Mo Luo definitely won’t be able to last long.”

“Yes.”

” i see. ” jiang li nodded. he was calm. ” i can try out the power of this level-eight battle formation. ”

The mo Luo Empire could pay a huge price to set up a type 8 formation.

He believed that the top five hegemon-level dynasties would be the strongest.

They would definitely be able to set up grade 8 formations.

They would definitely encounter them in future wars.

This time, he would use the Moro dynasty’s ‘Inferno hell’ to test it out.

He wanted to familiarize himself with the power of a grade 8 army formation in advance.

“Lianzhen, Mobei.”

Buzzzzzz!

In the center of the inferno hell, Mara stood in the air. Blood-red light surged around him, and his power reached its peak.

At this moment.

Under the amplification of various methods.

Mo Luo's aura had already reached the peak of the type 8 realm.

“And Emperor Xia, Jiang Li.”

Mo Luo's gaze was cold as he berated, “you guys should be very clear on the might of a grade 8 army formation. Retreat from the mo Luo Empire immediately. Otherwise, even if you can kill me and destroy the mo Luo Empire, your Army will pay a heavy price.

In reality.

Mara was right.

If it were any other Empire, facing the grade 8 formation that mo Luo had forcefully set up, even if they won the battle, they would suffer heavy losses.

One had to know.

Even if it was an Overlord dynasty.

It was not easy to train soldiers.

Especially the elite soldiers.

For example.

After a large-scale Dynasty-level war, they won the final victory and destroyed the enemy. They lost 50 billion soldiers in their own hands.

They wanted to make up for the 50 billion soldiers they had lost.

it would take a long time.

Even if he used the ‘blood refinement pill’ or the ‘ten thousand blood refinement pill’ to nurture it.

It would also take a long time.

However ...

Jiang Li didn’t need it.

Even if he lost all his meches, he only needed to use steel materials and energy points to get them back from the mech factory in the base.

so,

Jiang Li wasn’t afraid of any battle of attrition.

Furthermore ...

Jiang Li already had thirty-seven level-six army bases.

“mara.”

Lianzhen took a deep breath and laughed coldly. He rebuked loudly, “Don’t think that it’s only your mo Luo Empire that can set up a type 8 formation. I can do it too.”

“Then die!”

Buzzzzzz!

Mo Luo did not waste any more time. His killing intent surged as he unhesitatingly launched an attack.

obviously.

The energy consumption of the grade-8 formation, the endless purgatory, was too great. The longer it lasted, the more disadvantageous it was for Mara.

He had to end the battle quickly.

Obviously.

Even if he died.

He also wanted to drag down a human Emperor with him.

“Attack with all your might.”

kill barbarian Emperor Mo Luo. Jiang Li sensed mo Luo’s growing power. He waved his right hand and gave an order, ” kill barbarian Emperor Mo Luo together.

“Yes.”

“Yes, sir!”

“Kill!”

Shua! shua! Shua!

Immediately.

WMS01, MYL01, and SSTs01, the three early-stage level eight meches, released their skills. The power of level eight meches surged.

They would first test Mara’s current strength.

Buzzzzzz!

first of all ...

WMS01 revealed its Demon God true form and opened its eyes with its devouring true eyes. The power of the law of devouring spread all over its body. Holding the halberd with both hands, it charged forward.

BOOM!

A vast halberd light swept across the sky.

“av ci blood blade!”

With a wave of his right hand, the endless purgatory flickered with endless blood patterns, as if they were imprinted on the space. Blood light surged, transforming into a hiltless Blood Blade that slashed horizontally.

Clang!

The two sides collided.

The halberd light shattered.

An explosion sounded.

WMS01 was knocked back.

“Purification sword!”

“The Blade of Destruction!”

In that instant.

Both MYL01 and SSTs01 unleashed their ‘law of purification’ and ‘law of destruction’. MYL01 slashed out a black beam of destruction, while SSTs01 unleashed a holy sword light of purification.

The swords and sabers hummed in harmony.

It slashed at Mara.

the true form of the blood Emperor from the inferno hell!

Buzzzzzz! buzzzzzz!

“Roar!”

mo Luo let out a long roar and directly unleashed his strongest power. endless blood light covered his body, and countless blood patterns interwove together on his body, forming a strange totem.

After that.

There was also a four-clawed Blood Dragon circling him.

“Break!”

boom! BOOM!

Mo Luo clenched his fist and threw a punch forward. It was as if the space had collapsed, and the blade-light and sword-light exploded under mo Luo’s punch.

It was extremely powerful.

Obviously.

Not a single Overlord dynasty would be destroyed so easily.

Because ...

As long as one paid a heavy price, a type 8 Emperor could set up a type 8 formation.

It could be said that ...

Back in the ten-winged dynasty.

If Jiang Li didn't seize the opportunity when ten-winged demon Emperor went to the monster race to fight, it would be hard for him to win.

Even if he could win.

They would also have to pay a huge price.

Chapter 626 Seventy thousand

the mechanical army made up of more than 400 billion meches kept attacking the barbarian army of the moro dynasty in the military formation domain of the 'inferno hell'.

BOOM! BOOM! BOOM!

countless cannons, energy bombs, lasers, missiles, and even nuclear explosions were launched at the barbarian army, but they were blocked by the blood rain of the inferno.

Explosions filled the air.

In the sky above the battlefield.

It had been covered by countless beautiful explosive fireworks.

“ah!”

The screams of the Barbarian soldiers were heard.

Even though ...

The power of the ‘endless purgatory’ was extremely strong, and it could even block any attack at the eighth-grade level. However, the consumption and backlash of an eighth-grade army formation were also very terrifying.

Not to mention that the ‘Inferno hell’ was something that barbarian Emperor Mara had paid a great price to create.

so,

The ‘Inferno hell’ had blocked the bombarding of more than 400 billion mechanical soldiers, but it had also caused a large number of barbarian soldiers to die from the backlash of the battle formation.

They were even directly turned into dried corpses by the Army.

All the essence in his body was devoured by the battle formation to maintain its operation.

Mara was very clear.

Don’t just look at how powerful the ‘grade 8 army formation’ was.

But they couldn't hold on for long.

especially now.

Mo Luo had already used the 'true form of the blood Emperor from the inferno hell'. This was his most powerful technique. After using this technique, it had drained the totem energy of at least ten billion barbarian soldiers.

“Whoosh!!!”

Mara's entire body was shrouded in a blood-red mist that burned like blood flames. He had just been facing the combined attacks of 3 type 8 primary stage experts, MYL01, SSTs01 and MYL01.

However, he easily pushed back the three meches.

He had displayed extremely powerful strength.

kill!!!

BOOM!

Mo Luo raised his head and looked at human Emperor of Mobei, Lian Zhen, Jiang Li, and finally human Emperor of Mobei.

Because ...

Lian Zhen's cultivation base was at the initial stage of the eighth rank.

It would be too difficult to kill Lianzhen.

jiang li and human emperor mo bei were both in the perfected stage of level seven.

but ...

Mo Luo vaguely felt a great threat from Jiang Li, which was why he targeted the human Emperor of Mobei. As the saying goes, 'pick the soft persimmons to pinch'.

“Mo bei, be careful, quickly retreat.”

Lianzhen reacted and reminded loudly as his beautiful eyes shrank.

“!!!”

Human Emperor Mo bei was instantly aghast.

Shua!

The next moment.

Mo Luo's body turned into a blood-red light and disappeared from his original spot. He charged towards mo bei human Emperor, who was the closest to him, as if he had teleported.

Human Emperor Mo bei felt a fatal danger.

“Super fist of Ares.”

BOOM!

at this moment.

Under Jiang Li's order, Wang Gang first used the 'space combat technique' and teleported to mo Luo.

After that.

The skill was released.

He threw a punch with his right hand, aiming for Mara's head.

“thump!”

mo Luo felt the terrifying power and immediately stopped. he crossed his arms in front of him and blocked wang gang's punch.

BOOM!

Energy exploded.

The light was as bright as the explosion of the sun.

...

“Crack!”

A crisp sound was heard.

Mo Luo was sent flying by Wang Gang's punch. The bones in his arm cracked, and he was sent flying hundreds of thousands of meters away. He finally stabilized himself and looked up.

“god of war's strike!”

However ...

What mo Luo received was an even more powerful punch from Wang Gang. The fist radiance grew brighter and brighter, as if it was condensed from the light of the starry sky. It contained an extremely powerful force.

“Ah!”

Mara shouted and roared in anger.

Buzzzzzz!

Endless blood-red light condensed and countless blood-red patterns interweaved. There were even Dragon roars. All kinds of forces interweaved and stacked together.

He had struck with all his might.

...

bang!

The two fists collided head-on, causing a dazzling radiance to erupt. A terrifying explosion resounded in all directions, causing the space to shake violently.

Bang Bang Bang Bang!

There was a series of explosions.

“argh! Pfft!”

Mo Luo screamed miserably as he spat out a mouthful of blood.

Obviously.

Although Mo Luo was powerful, with the Empire’s fate, the self-destructing totems, the level 8 military formation, and other enhancements, his cultivation level had risen from mid-level level 8 to perfected level 8.

but unfortunately ...

after all, this was only a forced upgrade. it was simply incomparable to wang gang, who had truly reached the perfected stage of rank eight. after the battle, the difference in strength between the two could be clearly seen.

They exchanged several moves.

They exchanged a few moves.

Mara was completely at a disadvantage.

“Ah!”

Kachaa! “crack!”

At this moment.

As more and more barbarian soldiers were devoured by the formation, their totem energy was drained dry, and the grade 8 formation that mo Luo had set up could no longer be maintained.

The surrounding space.

it was as if cracks had appeared.

It was as if the space had split open.

“no!”

“We’re finished! We’re all finished!”

“.....”

the barbarian kings, marquisates, and generals of the moro empire were all in despair.

because ...

The grade 8 army formation, 'Inferno hell', was collapsing.

Buzzzzzz! “Whoosh!!!”

Marlo's strength was rapidly weakening.

The blood-colored mist and lines were disappearing.

Emperor Xia, this is an opportunity. Mo Luo's strength is weakening, which means that the rank 8 formation is crumbling. They can no longer maintain the rank 8 formation.

Lianzhen said loudly.

“Hahahahaha!”

Human Emperor Mo bei was instantly overjoyed and laughed wildly. He waved his hand and roared, ” mobei legion, listen up! kill me!!! ”

“Charge!”

“Annihilate all the barbarians of the mo Luo Empire!”

kill!!!

Immediately.

The counterattack began.

“It’s over?”

No. Jiang Li shook his head. it’s a bit anticlimactic. I haven’t even tested the true power of the level-eight formation yet, and the Moro dynasty can’t hold on.

“It’s a pity,”

“BOOM!”

finally ...

the eight grade 7 formations that the two imperial armies of mobei and lianzen had set up condensed into eight grade 7 formation beasts, completely tearing apart the grade 8 formation that was already on the verge of collapse.

“Pfft!”

the backlash from the battle formation.

Mo Luo also spat out blood. His face was as pale as paper, and the strength of his aura dropped drastically, dropping from the peak of level eight to the level of early level eight.

One had to know.

Mo Luo’s cultivation had originally fallen from the middle eighth rank to the early eighth rank.

“Kill!”

Three level eight meches, WMS01, SSTs01, and MYL01, surrounded him. Mara was heavily injured and weakened after he self-destructed his totem.

Mara was no longer a match for him.

“pfft!”

In the end.

SSTs01 swung his sword and beheaded Marlo.

He killed mo Luo.

The Barbarian Emperor of the mo Luo Empire had fallen.

BOOM! boom! BOOM!

Without the protection and amplification of the Army formation.

Under the bombardment of the mech Army, it was like a one-sided massacre. Tens of billions of barbarian soldiers died one after another.

An hour later.

The Moro Empire’s barbarian Army was completely annihilated.

“roar!”

In the sky above the Moro continent.

The blood-red four-clawed true dragon let out a sorrowful wail, and its 50000-meter-long body began to collapse, scattering into the vast fate of the Empire.

“The Azure Dragon technique of the great Xia Dynasty.”

Buzzzzzz!

Immediately.

great Xia. Jiang Li activated his technique. The Azure Dragon that was already 60000 meters long appeared. It opened its huge mouth and started to devour the fate of the mo Luo Empire.

The huge dragon body was slowly growing.

“Emperor Xia’s Kasaya.”

Lian Zhen and human Emperor of Mobei opened their mouths as if they wanted to say something. However, when they saw the level eight subordinates around Jiang Li and the hundreds of billions of soldiers, they stopped.

They obediently shut their mouths.

“Clean up the battlefield.”

While absorbing the fate of the dynasty, Jiang Li ordered, ” “Plundering resources.”

“Yes.”

“yes, sir!”

Immediately.

Under the command of the battlefield commander, the mech troops cleaned up the battlefield and transported all the useful resources to the Super transport troops.

“Ten thousand blood refinement formation!”

Buzzzzzz! Buzzzzzz!

The formation was successfully set up, and a vast blood-red formation appeared, covering the sky above the battlefield.

It could be seen.

A large number of barbarian corpses had been refined. The vast essence of their flesh and blood was integrated into the array diagram, and then refined into numerous ‘ten thousand blood refinement pills’.

Half an hour later.

The battlefield was cleared.

Jiang Li’s super transport troop retrieved a large amount of scrap metal, barbarian armors, and weapons. They also obtained a large number of resources.

At the same time.

Lianzhen, Mobei, and the rest had also produced close to 70 billion ‘ten thousand blood refinement pills’.

The grades of the Barbarian corpses were different.

Naturally, the ‘ten thousand blood refinement pills’ that were refined had different grades.

Among them.

The corpse of the Barbarian Emperor ‘mo Luo’, a mid-grade eighth level’ ten thousand blood refinement pill’, was refined. It was of extremely high quality. It

was a blood-colored pill the size of a thumb. It was crystal clear and contained a vast amount of energy essence.

Other than that.

There was also the seventh-grade ten thousand blood refinement pill.

There were two seventh tier Supreme-grade, four seventh tier high-grade, eight seventh tier mid-grade, and sixteen seventh tier low-grade. In total, there were thirty pieces.

Jiang Li took all the ten thousand blood refinement pills above level Seven.

On the battlefield.

A strong wind blew.

The countless corpses were all weathered, turning into dust and dissipating into the air.

Dust to dust, earth to earth.

“Roar!”

A Dragon’s Roar filled the sky.

The Azure Dragon of the great Xia Dynasty had finally devoured all of the National fate of the Moro Empire. In the end, it grew from 60000 meters to 70000 meters.

the improvement was not small.

Buzzzzzz!

After that.

The Xia Azure Dragon disappeared and turned into a Dragon-shaped Azure light, merging into Jiang Li's body.

“Eighth level mid-grade ten thousand blood refinement pill.”

jiang li took the only level-eight ten thousand blood refinement pill in his hand. he could feel the energy contained in it. it was extremely pure and could be taken directly without any side effects.

Obviously.

The ten thousand blood refinement pill was very useful for Jiang Li.

after annihilating the thousand hands barbarian dynasty and the mo Luo Empire, the nation's fate has increased by quite a bit. I believe that the energy that the nation's fate will provide will be extremely vast.

Jiang Li thought, with this mid-grade level eight ten thousand refinement blood pill, I should be able to reach the early stage of level eight.

“it's even possible to go one step further.”

“Now, the only one left is the ‘Red Dragon Empire’ of the demon race.”

Jiang Li clenched his fists. as long as the ‘Red Dragon Dynasty’ is destroyed, the entire Western Region of the Saint peace state will fall into the territory of the great Xia Dynasty.

He made a decision.

jiang li immediately left only ten billion super transport troops on the moro continent to search for the resources of the moro dynasty and transport them back to the imperial capital of the great xia.

“chief sovereign.”

At this moment.

cjqx01 came and reported to jiang li, ” the Super information soldiers of the ‘super transporter No. 1 unit’ left in the thousand-hands barbarian dynasty are requesting communication.

“Answer.”

jiang li said.

“yes.”

buzzzzzz!

The communication was connected.

The projection screen appeared.

“Reporting, my Lord.”

the super intel soldier appeared on the screen and immediately reported to jiang li, ” other than the ‘spirit crystal vein’, which can’t be transported, super transporter No. 1 has already transported all the resources of the thousand-hands barbarian dynasty. Requesting master to proceed with the transportation.

“Alright,” he said.

Jiang Li was overjoyed. He didn’t ask how many resources he got. He contacted the mechanical space Station base and said, ” activate fixed teleportation. Target: Super transporter 1 unit, destination: The imperial capital of the Grand Xia.”

Chapter 627 escape

The next moment.

The teleportation began.

an invisible spatial light beam descended and enveloped the ‘super transporter no. 1’ of the thousand-hands barbarian dynasty. in the blink of an eye, they disappeared from their original spot and were all teleported away.

The scene changed.

Transport fleet number one had already appeared in the air above the imperial capital of the Grand Xia.

this commotion naturally alerted lord chi, elder brown, and the others who were keeping watch in the imperial capital of the great xia.

This is Jiang Li’s troop.

“Why did you come back?”

Lord Chi and the others looked at the troops that had suddenly appeared in the sky.

Very quickly.

The Super transport troops started to land. The door of the cabin opened, and the meches quickly moved the supplies out of the cabin and into the great Xia Treasury.

“Si si si ...”

“There are so many resources.”

spirit crystals, elixirs, herbs, and various other materials.

“So this is Jiang Li’s transport team.”

Lord Chi and the others reacted.

“Good!”

Jiang Li’s smile grew wider when he saw these images.

One had to know.

Most of these resources could be converted into energy points. Jiang Li only needed to finish the war in the Western Region of the Saint peace state and return to the imperial capital of the great Xia Dynasty to convert them all into energy points.

Furthermore ...

All the time.

There were lots of notifications in front of Jiang Li saying that he had obtained batches of soul Tinders. They were all monsters and barbarians killed by the nuclear weapons Jiang Li sold.

Obviously.

It was time for Jiang Li’s plan to work.

“Chief sovereign.”

After hanging up the communication with the ‘super transporter 1’, cjqx01 said, ” the human Emperor of the sword-Emperor dynasty, Lin Tianjian, has requested to communicate with you.

“Oh.”

Lin Tianjian. Jiang Li raised his eyebrows.

in reality.

Last time, when Lin Tianjian left the division of the human race.

Jiang Li sent 10000 ‘super carriers’ to the southern region of Saint peace state with Lin Tianjian and Jing yueke so that they could contact each other more easily.

As expected.

Lin Tianjian had contacted him so quickly.

“answer.”

jiang li said.

“yes.”

Buzzzzzz!

The ‘holographic communication’ skill was activated.

It formed a projection.

It was clearly presented in front of Jiang Li.

kill!!!

“Charge!”

“Bloodline explosion! Furious tiger blood saber slash!”

“totem materializations! Corrosive domain!”

“Nine Demon Slayer styles!”

“.....”

“Rumble!”

The next moment.

Lin Tianjian! Jiang Li heard countless shouts and roars. He looked up and saw Lin Tianjian and the tragic battlefield behind him.

He could only see the tip of the iceberg.

Even so ...

It was also extremely intense.

...

The terrifying war caused the ground to collapse, the space to shake, and the spiritual energy to boil.

“Emperor Xia!”

Lin Tianjian was a little excited. that's great. We can really contact each other.

“The sword Emperor.”

yes. Jiang Li nodded and asked, ” what is it? ”

“The Xia Emperor.”

Lin Tianjian suppressed his excitement and said with a serious expression, ” “The current situation in the southern region of the Holy peace Region is too tragic.”

“It's hard for us to resist the armies of the monster race and the Barbarian race.”

“Not only is there a huge difference in military strength, but there is also a huge difference in high-end combat strength.”

“and ...”

“All the nuclear weapons have been used up.”

...

“so fast.”

Jiang Li was also stunned.

One had to know.

Jiang Li had given Lin Tianjian a large number of nuclear weapons. There were 20 million nuclear bombs and hydrogen bombs.

he didn't expect this.

He had finished using it.

no wonder there are so many hints for capturing the soul Tinder.

jiang li said to himself.

“Alright,” he said.

I understand. Jiang Li looked up and said, ” in that case, I’ll immediately send a super transport team to transport the atomic bombs and hydrogen bombs to the battlefield in the southern Territory.

“Where are you now?”

the center of the southern Territory-the great Prairie of the southern Territory.

Lin Tianjian replied immediately.

“Yes.”

don’t worry, ” Jiang Li said. the nuclear weapons will arrive in five minutes at most.

“Emperor Xia, I hope that you can succeed.”

Shua!

However, Jiang Li had already hung up.

“.....”

Lin Tianjian opened his mouth, but his expression froze.

“Sword Emperor, what did the Xia Emperor say?”

Jing yueke asked.

“He’s cut off the communication.”

Lin Tianjian said.

“He actually slipped away.”

jing yueke’s eyes widened in anger as he roared, ” Emperor Xia, that bastard. To think that we supported him in becoming the ‘leader of the Alliance’ and even gave him 30% of the Empire’s fate.

he’s actually unwilling to lend a helping hand at this critical moment.

“It’s not like that.”

Lin Tianjian interrupted Jing yueke and said, ” Jiang Li agreed. He’ll send a transport team to provide nuclear weapons for the battlefield in the southern Territory.

“However, when I wanted to ask him if he could provide military support, the communication was already cut off.”

“eh?!”

Jing yueke was stunned.

there was a long silence.

maybe it’s because the war situation in the Western Region isn’t too good? ”

Jing yueke said.

“Not very good?”

Lin Tianjian shook his head. if you communicate with the ‘Hidden Dragon ranking-Saint peace state’, you will know what the situation is like in the Western Region.

“Alright,” he said.

Hence.

Jing yueke closed his eyes and communicated with the hidden Dragon rank.

“This is impossible!”

A few seconds passed.

Jing yueke’s consciousness returned, and his eyes widened as he shouted, ” it has only been a short while, and the thousand-hands barbarian dynasty has disappeared from the hidden Dragon rank-Saint peace state.

this means that the Xia Emperor has already destroyed the thousand-hand barbarian dynasty.

“Is there a need to be surprised?”

Lin Tianjian said, ” Emperor Xia had sent a few soldiers to The Human Division. With their strength, it would not be easy for them to destroy the thousand-hands barbarian dynasty.

“In fact,”

“It’s not just the thousand hands barbarian dynasty. Even the ‘mo Luo dynasty’, one of the five Overlord dynasties of the Barbarian race, has disappeared from the list not long ago.”

“So fast. The great Xia Dynasty is truly a coward.”

Jing yueke opened his mouth.

At this moment.

He could deeply feel the power of the great Xia Dynasty.

Buzzzzzz!

At this moment.

Lin Tianjian, Jing yueke, and the others felt an obvious spatial fluctuation. They looked up and saw a large number of super transport soldiers.

They formed a transport team.

“They’re here!”

Lin Tianjian was overjoyed.

“It’s the great Xia Dynasty’s reinforcement!”

“Hurry!”

“Bring out the nuclear weapons immediately.”

The human commanders shouted.

Half a minute later.

BOOM! BOOM! BOOM!

On the battlefield of the three tribes in the great Prairie of the southern border.

Originally.

the 'nuclear explosion' that had stopped for less than a few minutes rang out again. the atomic bombs and hydrogen bombs exploded one after another, as if miniature suns were born.

It was extremely terrifying.

It set off a destructive storm.

"Damn it!"

"Human! The human race!"

"It again! This kind of weapon again!"

he was furious!

He was extremely furious!

The Barbarian Emperor and the demon Emperor of the Barbarian race and demon race seemed to be burning with anger in their eyes as they stared at the mushroom clouds produced by the 'nuclear explosions'.

His face was extremely gloomy.

One had to know.

Although the demons and barbarians could set up a level Seven military formation, humans could also set up a level Seven military formation if they had military formations.

They fought and killed each other.

Battle formations could cancel each other out.

In other words ...

The 'atomic bomb' and 'hydrogen bomb' thrown out by the sword Empire and the tianzong Empire would be able to play a great role when their military formations offset each other.

so,

This had caused a great loss to the monster race and barbarian race.

It was also because of this.

That was why the sword-Emperor dynasty and the tianzong dynasty could hold on for so long.

Otherwise ...

Lin Tianjian could only consider retreating. He would escape from the southern region of the Holy peace state to the Western Region and find a way to meet up with Jiang Li and the others.

This also brought Jiang Li a large number of soul Tinders.

In reality.

The specific situation of the battle in the southern Territory.

Jiang Li actually didn't know.

however ...

Jiang Li was more than willing to help with the nuclear weapons.

To create nuclear bombs and hydrogen bombs.

Naturally, it would not consume too many resources.

Furthermore ...

Jiang Li also made 100000 'controllable nuclear fission palm controllers' and sent them to the southern region of the Saint peace state.

This way ...

If they could form a 'nuclear Army' with 100000 troops ...

He believed that it would greatly increase the strength of the sword-Emperor dynasty and the tianzong dynasty.

He could also harvest more soul Tinders for Jiang Li.

“Upgrade!”

Buzzzzzz!

Jiang Li used six trillion energy points to upgrade WMS01, MYL01, and SSTs01, three early-stage level eight special mechanical soldiers, to mid-stage level eight.

Their eighth-ranked skills had all been upgraded to mid-grade eighth-ranked.

His strength had increased by quite a bit.

After the promotion.

buzzzzzz! buzzzzzz! Buzzzzzz!

The three meches continued to absorb the souls on the battlefield. Their evolution progress increased and stopped at 60%.

He could no longer continue to improve.

at this rate, we'll have to destroy at least one more Overlord dynasty before they can all advance to the great circle of type 8.

Jiang Li said.

“Teleport!”

after doing all this.

jiang li activated the ‘fixed-point teleportation’ function of the ‘mechanical space station base’ again and left ten billion super carriers on the moro continent to search for resources.

After that.

The mechanical Army, the Mobei Army, the Lianzhen Army, and the others were all teleported to the ‘Red Dragon Dynasty’.

The scene changed.

The Red Dragon Empire's Red Dragon imperial capital.

High up in the sky.

Buzzzzzz! buzzzzzz!

Suddenly, a dense mechanical Army appeared out of thin air.

It was like a boundless ocean.

It covered the entire sky.

After that.

jiang li was also teleported here.

“This bi an ...”

Lianzhen, human Emperor of Mobei, and the others looked down at the Red Dragon Capital below. What they saw was an empty city without a single demon.

“what about the demon race?”

“He ran away?”

Everyone was dumbfounded.

that's right.

The Red Dragon Empire's demonic Army had all retreated.

Even ...

the red dragon demon emperor had given up on the red dragon dynasty.

In reality.

Just half a day ago.

after fu tianqing and the others retreated from the imperial capital of the great xia, they returned to the demonic division. then, they immediately headed to the red dragon imperial capital through the power of the 'book of the earth' and informed the red dragon demon emperor.

Hence.

After knowing how terrifying the great Xia Dynasty was ...

The Red Dragon Demon Emperor had made a wise 'strategic retreat'.

Not only that.

With the help of the demon division, the Red Dragon Demon Emperor led the Red Dragon Empire's Army to retreat to the central region of the Holy peace state at full speed, and then met up with Wu Tian demon Emperor.

Furthermore ...

The Red Dragon Demon Emperor had officially met with Wutian demon Emperor and merged the Red Dragon Empire into Wutian demon dynasty.

All of the Empire's fate was absorbed by the Wutian demon dynasty.

In other words ...

the red dragon empire had already disappeared from the rankings.

The Red Dragon Demon Emperor had lost his position as demon Emperor.

“The Xia Emperor.”

lian zhen came to jiang li and reported in a deep voice, ” the Red Dragon Empire has disappeared from the list. There’s not a single demon in the imperial capital. It’s very likely that they’ve escaped.

from the signs of the Army moving around, the Red Dragon Empire’s demon Army should have fled to the central region of the Saint peace state.

Chapter 628 Triumphant return

“yes.”

okay. Jiang Li nodded. He looked down at the Red Dragon Capital under his feet and saw a huge city of the monster race. There were layers of buildings built in an orderly manner.

descend, mechanical Army.

Jiang Li waved his right hand.

“Rumble!”

The roar of the mechanical engine.

Then, a large number of meches landed from the sky and entered the Red Dragon imperial capital. The meches immediately started to search for resources in the red Dragon imperial capital according to Jiang Li’s orders.

jiang li was standing in the sky above the red dragon imperial capital.

They waited quietly.

Time passed.

Half an hour passed.

“Your Majesty.”

Zh0214 came and reported to Jiang Li, ” “We discovered that most of the resources in the red Dragon Capital have been moved away by the demon race. The Treasury is basically empty.”

spiritual crystals, medicinal herbs, all kinds of precious materials, elixirs, and so on are basically all gone. Only some gold, silver, jewelry, steel, and other ordinary materials are left.

“The resources have been taken away.”

so many resources? ” Jiang Li frowned. it’s only been half a day, and the Red Dragon Dynasty retreated so quickly. How did they manage to transport so many resources away? ”

After pondering for a while.

Jiang Li finally understood.

“Since the human race has a ‘spatial storage bag’, the demon race will naturally have one too.”

” it’s probably the monster race’s help, ” jiang li thought.

In reality.

It was just as Jiang Li had guessed.

It was only with the help of the monster division that they had been able to transport most of the Red Dragon Dynasty's resources and supplies in such a short time.

only an empty city was left for jiang li.

Not only that.

Even the spiritual crystal mine was stored into a 'spatial storage bag' by the Red Dragon Demon Emperor using the 'spiritual vein dragon control technique'.

Not a single one was left.

Half an hour later.

The Super transport troops moved away all the steel, gold, silver, jewelry, and other normal supplies in the red Dragon Imperial City.

No matter how small a mosquito's leg was, it was still meat.

I can't let him go.

Jiang Li immediately used the teleportation function to send them back to the imperial capital of the Xia Dynasty.

"Teleport back."

Buzzzzzz! Buzzzzzz!

Jiang Li contacted the mechanical space Station base and activated ‘fixed-point teleportation’. The mechanical Army made of hundreds of billions of meches was teleported back to the imperial capital.

The armies of the Mobei Empire and the Lianzhen Empire also went to the imperial capital of the great Xia.

Shua! Shua!

Jiang Li also disappeared.

he was teleported away.

The scene changed.

The imperial capital of the Grand Xia.

In the base of the 01 division.

Within the teleportation room.

Jiang Li appeared in the room.

it could be said that ...

This time’s expedition.

” jiang li won. ”

He returned triumphantly.

Among them.

Jiang Li took down the thousand-hand barbarian dynasty and the mo Luo Empire. Although the Red Dragon Empire escaped, he also took the entire Western Region of Saint peace state.

Originally.

According to Jiang Li's original plan.

He planned to continue the expedition after taking down the Western Region of holy peace state. He planned to head to the southern region of holy peace state and take it down as well.

...

However ...

Jiang Li gave up for the time being.

he chose to return to the imperial capital of the grand xia.

It was mainly to sort out and digest the gains from the Western Region of holy peace Region, turning them into his own power and increasing his own strength.

It was also because the level-eight formation was more powerful than Jiang Li had expected.

however, 400 billion soldiers were not enough.

He needed more.

In the evening.

within the azure dragon hall of the grand xia.

Lord Chi, Elder Brown, the ten Hall Masters of the human race, Lian Zhen, human Emperor of Mobei, Hong Tianqi, Xu Ya, and Feng yueji were all here.

First of all ...

...

Hong Tianqi and Xu Ya reported the losses to Jiang Li.

immediately after.

Lord Chi and the others discussed the next battle plan with Jiang Li.

“The Xia Emperor.”

“We’ve already taken down the Western and Northern territories of holy peace Region,” human Emperor Mo bei said. “We’ve also won a huge victory this time. We didn’t suffer too many losses.”

“Do I have to continue my expedition?”

“Yup,”

Lianzhen nodded his head.

“Emperor Xia, why don’t we continue to attack the southern Territory after taking down the Western Territory? Instead, you’re returning to the great Xia?”

Lin Tianhe looked up and questioned Jiang Li, “didn’t we agree before? After occupying the Western Region, they continued to attack the southern region. Why did they change their mind now?”

“His Majesty, Emperor Xia, naturally has his own thoughts.”

why are you here? ” Hong Tianqi frowned.

“the southern land will naturally be occupied.”

but not now, ” Jiang Li said. I’ve underestimated the power of a level-eight formation, so we can’t attack the southern Territory yet.

“Also,”

“In the following days, I’ll be cultivating in seclusion for a while and try to break through to the eighth step.”

“But Yingluo”

“What about the sword Emperor dynasty and the tianzong dynasty?” Lin Tianhe asked.

“don’t worry,”

yes, ” Jiang Li said. I’ll send out a Legion to help Lin Tianjian and Jing yueke evacuate from the southern land.

Soon after.

okay. Jiang Li didn’t say anything else and left the Azure Dragon Palace.

The people in the hall also dispersed.

The night came.

In the room in the ruler’s hub.

Buzzzzzz!

Jiang Li ordered QX01 to communicate with the Super Intel troops in the South.

The communication screen appeared.

it formed a projection.

In the image.

What Jiang Li saw was an intense battlefield.

On the battlefield.

BOOM! BOOM! boom!

It could be seen.

Lin Tianjian, di Long, and the Barbarian King of the Barbarian race have already set up the level 8 formation and are fighting for their lives.

Every moment.

A large number of living beings had died.

activate 'fixed point teleportation'.

Buzzzzzz!

Jiang Li immediately contacted kjzjd08 and kjzjd09 in the southern land.  
teleportation target: WMS01, teleport location: It's the battlefield of the three tribes  
in the great Prairie of the South."

Shua!

an invisible spatial beam descended and enveloped wms01 who was next to zhan jiang li.

The next moment.

WMS01 was teleported to the southern battlefield.

Buzzzzzz! Buzzzzzz!

The devouring evolution talent was activated.

On the entire battlefield.

WMS01 started devouring countless remnant souls, and all of them flowed into WMS01's body. WMS01's evolution progress was increasing at a speed that was visible to the naked eye.

“Alright!”

Jiang Li was overjoyed.

Not long after.

WMS01's evolution progress had increased to 100%.

“Upgrade!”

Jiang Li used four trillion energy points to upgrade WMS01 to the late-stage of level eight. It was obviously stronger.

This was because the battle between the three armies was too intense.

The terrifying energy almost tore the space apart.

The grade 8 army formation collided.

it was difficult to describe such a grand scene with words.

It was like a collision of space.

so,

WMS01's appearance did not alarm any living being.

Under Jiang Li's order.

WMS01 concealed its presence and hid at the edge of the battlefield. It used its 'devouring evolution' talent to absorb the remnant souls on the battlefield.

It was constantly increasing its evolution speed.

other than the southern border, there are two battlefields in the Central and Eastern regions.

Jiang Li thought, WMS01 will be sent to the southern battlefield to absorb the souls in the southern battlefield, while MYL01 will be sent to the central battlefield to absorb the souls in the central battlefield."

"Finally, SSTs01 will be sent to the eastern battlefield."

Buzzzzzz! Buzzzzzz!

the teleportation was activated.

Jiang Li teleported MYL01 and SSTs01 to the central battlefield and the eastern battlefield.

After the teleportation.

All of them were trying their best to hide their auras, quietly absorbing the remnant souls.

In the central region of the Holy peace Region.

On the battlefield of the three clans in the central region.

Buzzzzzz! Buzzzzzz!

after absorbing a large number of remnant souls, myl01's evolution reached 100%. jiang li immediately used four trillion energy points to upgrade myl01 to the late-stage of level eight.

At this moment.

Buzzzzzz! "Whoosh!!!"

The space in the central region suddenly cracked.

A spatial vortex appeared.

It was the space tunnel that the demon race's Chamber of Commerce had created with the help of the 'Book of the Earth'.

Shua! shua!

Fu Tianqing and Mo Helin arrived at the central region battlefield through this 'space tunnel'.

In the sky.

The two mechanical space Station bases, kjzjd02 and kjzjd03, had arrived. They were like satellites, hovering at the highest altitude of the central region of the Saint peace state.

The images of the central region battlefield were captured.

After that.

all of them were sent to the base of the 01 division.

Buzzzzzz!

the hidden dragon general in the no. 01 army base showed jiang li the picture he took.

“It’s the demon race’s division.”

what do they want? ” Jiang Li frowned. what do they want? ”

Jiang Li ordered kjzjd02 and kjzjd03 to keep an eye on the situation.

“Wutian.”

in the image.

Fu Tianqing and Mo Helin flew across the sky and came before Wu Tian.

“Two Vice Division heads.”

Wutian raised his head and glanced at them. “What are you two doing here? The central region doesn’t need the demon division’s support.”

Fu Tianqing's expression was solemn. He said in a deep voice, "Wutian, the situation has changed. We have to change our original plan because the humans may also be able to perform 'precise teleportation'.

Wutian pondered for a while and asked, "What exactly happened?"

I was planning to lead ten monster Palace Masters to the capital of the Xia Dynasty with the book of the nether world when the war broke out. I wanted to kill Emperor Xia, Jiang Li.

"I didn't expect an accident to happen."

Lord Chi and Elder Brown of The Human Division, "Fu Tianqing said in a deep voice. the ten human temple Masters have all arrived in time. They were directly teleported to the imperial capital of the great Xia.

this caused the plan to fail.

it even caused the death of two perfected tier 7 Monster Temple Masters.

"Therefore, I'm guessing that the human race can also teleport to any place in the Holy peace Region accurately. It's also possible that they have already set up a 'spatial teleportation formation'."

jiang li eavesdropped on their conversation.

"Whoosh!!!"

At this moment.

okay. Hidden Dragon waved his right hand and projected a screen in front of Jiang Li.

on the screen was the battlefield in the eastern region of saint peace state.

Obviously.

They passed through the nine mechanical space Station bases and the hidden Dragon in the 01 army base.

Jiang Li could watch the entire battle in the Saint peace state.

Strategic planning.

On the battlefield in the Eastern Region.

after ssts01 arrived, it absorbed a large number of remnant souls and its evolution progress reached 100%. jiang li used four trillion energy points to upgrade ssts01 to late-stage level eight.

It was different from the southern Territory and the central region.

On the battlefield of the Eastern Region.

The human army led by Wu Wuji was extremely powerful. With Jiang Li's nuclear weapons, they had completely suppressed the barbarians and monsters in the Eastern Region.

They had gained a huge advantage.

“Retreat!”

monster army, listen up. Set up a grade 8 formation and retreat!

At this moment.

The two demon sovereigns of the Eastern Region's Eastern peak demon dynasty and the astral wind imperial dynasty.

After setting up the grade-8 formation, they did not attack Wu Wuji. Instead, they retreated at full speed under the leadership of the two demon sovereigns.

Furthermore ...

They were retreating in the direction of the central region.

“Your Majesty, the monster race is trying to escape.”

Duan Qilin shouted.

“This Emperor saw it.”

Wu Wuji frowned and looked over. He found the palace Master of the division among the monster army.

Of the four monster race temple Masters, two were at the eighth step and two were at the seventh step.

“The demon race is divided.”

Wu Wuji took a deep breath. It seems like the demon race has used The Earth Book to teleport here.

Chapter 629 support

“if that’s the case, then let the demons retreat if they want to.”

“No need to chase.”

After understanding the situation ...

Wu Wuji immediately gave the order, ” all troops, listen up. Gather the battlefield and destroy the Barbarian race’s six-winged barbarian dynasty and soaring snake Empire.

“Yes.”

kill!!!

“Set up the formation!”

” all troops, charge!!! ”

“BOOM!”

Wu Wuji rushed to the front and arranged the grade 8 formation. More than 200 billion human soldiers and the Barbarian Army clashed.

A great battle broke out.

After the demon Army of the eastern peak demon dynasty and the astral wind Empire had retreated, the six-winged barbarian dynasty and the soaring snake Empire had to face the attack of Wu Wuji and the human army alone.

“Ah!”

Immediately.

Countless barbarian soldiers started to scream.

the barbarians were losing ground.

Defeat and death were only a matter of time.

the demons in the Eastern Region retreated just like that, giving up their dynasty and territory.

I see. Jiang Li thought, " it seems like the monster race is going to gather all their forces and completely occupy the central region.

Buzzzzzz!

SSTs01 was hidden at the edge of the battlefield, absorbing the remnant souls of dead creatures to improve its own evolution.

Obviously.

jiang li didn't want to get involved in the battlefields of the central region and the eastern region.

He just watched from the side.

In the central region.

wutian was still talking to fu tianqing and the others.

"What do you guys want to do now?"

what's going on? " Wutian asked in a deep voice after some thought.

"We're preparing to gather the monster army."

"The only thing we can do now is to gather all the forces of the demon Empire and occupy the central region of the Saint peace state," mo Helin said in a deep voice.

we'll use the central region of the Holy peace state as our Foundation to fight against the humans and barbarians.

“Yes.”

yes. Fu Tianqing nodded and continued, ” we've already used The Earth Book's ability to send the demon Palace Lords to the southern and eastern regions of the Holy peace state.

they'll inform all the demon sovereigns in the southern and eastern territories to withdraw from the battlefields as soon as possible, and then rush to the central region of Saint peace state as fast as possible to gather there.

“Wutian.”

Mo Helin continued, ” under the leadership of the great Xia Dynasty, the human race has already taken over the Western Region of the Holy peace state. Now, the human race has occupied the Western and Northern regions. ”

“The Eastern Region will also fall into the hands of the human race.”

“In that case, the southern land will be taken by the barbarians.”

Wutian said.

“yes.”

Mohreen nodded.

Wutian, we'll help you take over the central region of holy peace state and defeat all the barbarians and humans there.

fu tianqing said.

“.....”

Wutian did not agree immediately. He was deep in thought.

“Don’t worry,”

by then, all the demon dynasties will be led by the Wutian demon dynasty, ” Fu Tianqing continued. and you, demon Emperor Wutian, will become the Supreme demon Emperor with the help of the demon race’s division.

“Alright,” he said.

Wutian quickly looked up, his eyes gleaming. then let’s do it.

BOOM! boom!

As soon as he finished speaking.

“Roar!”

energy exploded.

...

The Dragon’s Roar shook the heavens and earth.

the terrifying and powerful wutian true dragon appeared.

“Kill!”

BOOM!

Wutian made his move. Purple Thunderbolts flashed as if the God of Thunder had descended. The Thunder Dragon was about to destroy the world. He struck his palm at the battlefield in front of him.

“Wutian!”

Wuwuwuwuwu!

Qin qipo let out a long howl, and all of his might was released. Boundless soul energy filled the surroundings, and five type 8 puppet Warriors appeared beside him.

this was qin qipo’s true strength.

“Kill!”

Bang Bang Bang Bang!

...

Five type 8 puppet Warriors rushed out and attacked with all their might. They struck out powerful fist prints and blocked Wutian’s attack.

kill!!!

BOOM!

An explosion sounded.

fu tianqing and mo helin followed closely behind wutian demon emperor and quickly entered the battlefield. they released the power of the perfected stage of level eight and suppressed the whole scene.

Its might was monstrous.

demon race is divided!!!

“They are the Vice Division leaders of the monster race.”

“Damn it!”

why are the two of them here?!

At this moment.

Qin qipo, Qiu Wanlian, and the three barbarian sovereigns were all horrified. Their faces were filled with fear.

“Hehe, the two Vice Division Masters of the demon division are here.”

Jiang Li crossed his arms in front of his chest and looked at the battlefield in the central region calmly. He didn’t send the mechanical Army to help.

If ...

Qin qipo didn’t leave the ‘Alliance of human dynasties’. Instead, he agreed to let Jiang Li be the leader of the Alliance and gave him 30% of the fate of the dynasty.

Jiang Li might even send his mechanical Army to help.

now.

Jiang Li would only stand by.

It was already good enough that he didn’t hit him when he was down.

“Chief sovereign.”

“There’s a situation in the southern land,” Hidden Dragon said.

Buzzzzzz!

Hidden Dragon waved his right hand.

the purple light rays interweaved and formed another virtual screen.

On the screen.

It was the battle situation in the southern region of the Holy peace Region.

BOOM! BOOM! BOOM!

Jiang Li heard an explosion.

It could be seen.

The two Deputy Division Masters of the Barbarian division led the ten barbarian temple Masters to the southern Territory of the Holy peace Region and directly entered the battlefield.

“rumble!”

The top experts of the Barbarian race were like tigers in a flock of sheep.

Even a grade 8 army formation would not be able to suppress them.

“Ah!”

Instantly.

The screams of the human and demon soldiers rang out.

Heavy casualties.

“it’s the barbarian division!”

“Hurry up and retreat!”

The pupils of the four monster race temple Masters contracted as they shouted.

retreat!!!

“All troops, retreat!”

“Hurry up! Retreat to the central region of the Holy peace Region!”

The three demon sovereigns shouted loudly.

“Pfft!”

Lin Tianjian spat out a mouthful of blood. He had suffered from the backlash of the grade 8 formation and his face was pale. When he saw the Barbarian experts arrive, he was in despair.

“We’re finished!”

Jing yueke’s pupils contracted.

“Your Majesty, quickly escape!”

Xiao Jinlin roared, ” Your Majesty, quickly hand over the grade 8 formation to me. I’ll bring up the rear with the dynasty’s Army. Please leave quickly!!!

“Your Majesty!”

” run!!! ”

“It’ll be too late if we wait any longer!”

Immediately after.

The human princes, marquises, and generals all shouted out.

“Hahahahaha!”

Barbarian Emperor di Long laughs out loud and his killing intent is boiling. He controls the rank 8 formation and waves his hand, roaring: all troops, listen up! Charge!!!

kill!!!

“don’t let them escape.”

“Don’t let a single human or demon off!”

The barbarians roared.

Pfft! Pfft! Pfft!

Blood splattered everywhere.

It spread across the earth and sky.

The hall Masters of the Barbarian division were extremely powerful. Under the enhancement of the grade 8 formation, their strength had also increased greatly. With a flip of their hands, they killed many human and demon experts.

The situation on the battlefield suddenly changed.

The Barbarian Army suppressed the human army and the demon Army with a crushing force.

“Damn it!”

One of the level 8 monster race temple Masters had a dark expression as he shouted, ” ” if you had listened to the orders of the deputy division leader and retreated from the southern land, the situation would not be like this. ”

“How detestable.”

“What’s the use of saying this nonsense?”

“What do we do now?”

“We can’t retreat even if we want to.”

The three demon sovereigns also had ugly expressions.

Obviously.

The four demon temple Lords followed Fu Tianqing’s instructions and came to the southern land through the book of the nether world. They then informed the three demon emperors in the southern land and asked them to retreat to the central region to meet up with Wutian.

but ...

The three demon emperors of the southern land were obviously reluctant to give up the foundation that they had worked so hard to build and insisted on delaying the evacuation.

the result.

Two of the Barbarian division's Vice Division Masters and ten barbarian division Hall Masters had arrived.

All of them were in danger.

In reality.

The situation of the demons in the southern land was much better than that of Lin Tianjian and the others. After all, the demons in the southern land had the support and help of the four Hall Masters of the demon clan.

Two rank 8 and two rank 7 Hall Masters.

“QX01, immediately call the red Lord and Elder Brown over.”

go! Jiang Li immediately ordered.

“Yes.”

QX01 nodded and left the room.

Jiang Li couldn't just watch the sword Empire and the tianzong Empire be destroyed.

Because ...

Jiang Li needed their power.

The total military strength of the Lianzhen Empire and the Mobei Empire did not even reach 100 billion.

Jiang Li needed the soldiers of the sword Empire and the tianzong Empire to set up a level-eight battle formation. He needed Lin Tianjian and the others to fight the monsters and barbarians with the human race's level-eight battle formation.

This was the only way.

Only then could Jiang Li's mechanical Army fully utilize its advantages.

Half a minute later.

QX01 led master red and Elder Brown into the room in the ruler's hub.

"lord chi, elder brown."

I won't say much, " Jiang Li said. you can see for yourself.

Shua!

Jiang Li waved his right hand.

He displayed the three battlefields projected by Hidden Dragon in front of Lord red and Elder Brown.

"This bi an ..."

Lord Chi and old brown were stunned for a moment, and then their faces were full of shock.

"Lord Chi, Elder Brown, I need to teleport you and the ten Monster Temple Masters to the southern land to help Lin Tianjian and the others evacuate."

Jiang Li said.

“Alright,” he said.

He came back to his senses.

Lord Chi nodded in agreement.

“No problem,”

Elder Brown said.

“Teleport!”

“whoosh!!!”

Jiang Li waved his right hand and activated the ‘fixed-point teleportation’. Lord Chi, Elder Brown, and the ten Hall Masters were teleported to the battlefield of the southern Territory.

“Ah!”

Suddenly.

Countless screams could be heard from the projection of the central region battlefield.

Jiang Li looked over.

After Fu Tianqing and Mo Helin, the two powerful fighters at the peak of the eighth level, joined the battle, they immediately suppressed the Barbarian and human armies of the central region.

He was simply invincible.

“Set up the formation!”

Qin Qi PO’s pupils shrunk, and he gave a decisive order.

Buzzzzzz! Wuwuwuwuwu!

The array Masters displayed their array seals, and array discs flew up and hovered in the air. They combined with each other and gathered endless military Qi.

After that.

the grade 8 army formation was set up successfully.

One-third of the battlefield.

Silver lines appeared and interweaved together, forming an extremely vast ‘army formation domain’ that covered one-third of the battlefield.

Grade 8 military formation-soul magic Domain.

“Set up the formation!”

Immediately after.

the three barbarian sovereigns of the barbarian race.

The Barbarian Emperor, great shaman, and the others immediately gave the order to set up the level eight military formation of the Barbarian race.

Buzzzzzz! “Whoosh!!!”

The pitch-black Totem patterns interweaved in the surrounding space, forming a black ‘army formation domain’ that also covered one-third of the battlefield.

Grade 8 army formation-totem domain.

“Grade 8 army formation.”

Wutian’s expression was calm as he looked at the two grade-8 formations ‘formations.

“Set up the formation immediately.”

The seven Lotus demon sovereigns roared and gave the order.

Buzzzzzz! Buzzzzzz!

The murderous aura of the Army gathered.

There were countless patterns intertwining and imprinted on the surrounding space, forming a ‘military array domain’.

There were flashes of lightning.

They looked like thunder Dragons.

Grade 8 military formation-lightning magic Domain.

“Kill!”

“Kill!”

“Kill!”

BOOM! BOOM! BOOM!

There were three loud bangs.

The three grade-8 battle formations collided head-on, and spiritual Qi exploded. It was as if the mountains and rivers were reversed, and the sun and moon were shattered. Space seemed to be torn apart under such a collision.

At this moment.

The war between the three races in the central region had entered a state of white heat.

Chapter 630 evacuation

Jiang Li was staring at the battlefield in the central region of the Holy-peace state. Most of his eyes were on Wutian and Qin qipo.

They were also paying attention to the grade 8 army formation.

through the intense battle of the three races in the central region.

Jiang Li could observe and understand the overall strength of the monsters. He could also know the power of the level-eight battle formation and the specific combat power of Wu Tian.

This way ...

Jiang Li would be prepared.

Other than that.

Jiang Li also paid some attention to the three barbarian emperors.

Only by knowing yourself and your enemy can you win a hundred battles.

BOOM! BOOM! BOOM!

the armies of the three sides were engaged in a fierce battle, and the rumbling sounds shook the surroundings.

after the demon army led by wu tian demon emperor joined the red dragon dynasty, the total number of demon troops had reached nearly 400 billion.

At this moment.

the demon army immediately set up four level 8 formations.

Fu Tianqing and Mo Helin had strengthened the level 8 military formation, which greatly increased their combat strength and strength.

The might of a peak tier 8 martial artist erupted.

it could be said to be invincible.

This extremely brutal and massive war continued.

Every moment.

A large number of living beings had fallen.

Buzzzzzz! Buzzzzzz!

MYL01 was hiding at the edge of the battlefield, using his 'devouring evolution' talent to quietly absorb the souls of dead creatures to increase his own evolution.

However ...

However, MYL01's Soul Absorption was hindered.

This was because they were on the battlefield.

The 'soul magic Domain' that the soul martial Empire's Army had set up formed the 'army formation domain', and it absorbed most of the souls of the living beings.

these remnant souls turned into energy and supplemented qin qi po's body.

Soul law!

What Qin qipo comprehended was the law of the soul, and he had mastered the profound meaning of martial arts.

Obviously.

This was because Qin qipo cultivated the 'ancient puppetry technique' and was a rank eight puppeteer. Thus, he was able to comprehend the 'spiritual law' and grasp the spiritual law.

He relied on the power of the laws to improve himself.

He had persisted until now.

On the other side.

In the Eastern Region of the Holy peace Region.

"Ah!"

ah! Jiang Li heard screams from the battlefield in the Eastern Region.

He immediately looked over.

In the image.

Wu Wuji attacked with all his might. He swept across the battlefield and fought two barbarian emperors alone. Powerful martial Dao laws were released, and he was like the king of martial Dao, killing two barbarian emperors in succession.

At this moment.

the demon army had long since retreated from the battlefield.

“The Barbarian Emperor is dead,”

Wu Wuji held the heads of the two barbarian sovereigns in his hands, and his aura seemed to have reached its peak. He then shouted, “All troops, kill!”

“Charge!”

exterminate the barbarians!!

“Roar!”

“Rumble!”

The sounds of battle and explosions resounded in all directions.

The human army led by Wu Wuji was fighting with all their might.

Two barbarian emperors had fallen.

The annihilation of the six-winged barbarian dynasty and the soaring snake Empire was already set in stone. The Barbarian Army was forced to retreat in defeat. In the end, they couldn't even maintain the grade 8 battle formation.

The Army formation was broken.

...

The war was coming to an end.

“If I'm not mistaken, the Eastern Region will fall into Wu Wuji's hands.”

Jiang Li thought.

Shua! Shua! “Whoosh!”

At the same time.

Lord Chi, Elder Brown, and the ten Hall Masters of the human race division had all been teleported to the southern region of Saint peace state.

Jiang Li only sent Lord red and Elder Brown. He didn't send the mechanical Army.

“Kill!”

After Lord Chi descended, he immediately shouted and charged into the battlefield. His might of a perfected tier 8 expert erupted like a Scarlet Flame.

He charged forward.

BOOM!

...

Lord Chi exchanged a few blows with the Deputy of the Barbarian race, man Wuji. The collision of their attacks was like the collision of two planets, causing a terrifying explosion of energy.

“Lord Chi!”

Shua!

Man Wuji quickly retreated to increase the distance between them. His face darkened as he stared at Lord Chi and said in shock, “The human race’s division Minister is actually here.”

he raised his head and looked around.

Man Wuji saw the other Vice Division Head of The Human Division, elder he, fighting with the Barbarian Vice Division Head, ’tu Jiuling’.

Other than that.

There were also ten Hall Masters of the human race.

there were four rank eights and six rank sevens.

They were powerful.

“Lord Chi!”

Lin Tianjian’s eyes widened in surprise. His face was full of shock as he said excitedly, ” “That’s great, that’s really great.”

“The human race’s division has come to support.”

“hahahahaha!”

Jing yueke, Xiao Linlin, and the others shouted excitedly.

“why would i?”

the human race’s division. It’s a top expert of the human race.

“Si si si ...”

“All the top powerhouses of the human race are here!”

The monster emperors were also shocked.

sword Emperor, human Emperor of the heaven sect.

Lord Chi lowered his head to look at Lin Tianjian and Jing yueke, then said in a deep voice, ” “we are here on the orders of emperor xia to assist you in your retreat.”

the main force of the Barbarian race is basically in the southern land. If we continue to fight, both sides will suffer and the demon race will benefit in the end.

therefore, you must immediately order the Army to withdraw from the southern region of the Holy peace state. After you leave the battlefield, Emperor Xia will use a spatial teleportation to send all of you back to the imperial capital of the great Xia Dynasty.

“This Kasaya is Kasaya.”

Lin Tianjian was stunned for a moment. He opened his mouth and felt indignant.

Obviously.

Lin Tianjian was still unwilling to accept this.

If they retreated just like that, the sword-Emperor dynasty would really be finished.

after the territory was lost.

When all the territories and maps of the sword-Emperor dynasty and tianzong dynasty were occupied by the Barbarian race ...

The two human imperial dynasties would only exist in name.

The most important thing was ...

If they were to retreat to the imperial capital of the Grand Xia ...

there was only one path left for him.

That was to merge into the 'Grand Xia Dynasty'.

In reality.

jiang li could tell that lin tianjian was unwilling to give up, so he only sent lord red and elder brown instead of the mechanical army.

His goal was to force Lin Tianjian to retreat.

In the end, it would merge into the great Xia Dynasty.

"Sword Emperor, please consider the big picture."

"For now, only the great Xia Dynasty has the ability and qualification to lead the rise of the human race in the Saint peace state and establish the human empire," Elder Brown said in a deep voice.

“And ...”

” as long as the empire is established, with your contributions, you’ll definitely become a marquis of the empire. you’ll enjoy the empire’s fate and the protection of a five-clawed flood dragon. ”

“It won’t be lower than the human Emperor’s.”

“That’s right.”

“If you insist on fighting to the death with the barbarians in the southern land, we can only retreat first,” Lord Chi advised.

“Alright, I understand.”

Lin Tianjian raised his head. The unwillingness in his heart dissipated. He could only accept his fate.

“All troops, hear my order!”

Roar!

A Dragon’s Roar resounded.

retreat!!! Lin Tianjian shouted.

“Retreat from the southern land.”

“Retreat!”

Jing yueke gritted his teeth and shouted.

“alright!”

A smile appeared on Lord Chi’s face.

“This is the best choice.”

Elder Brown nodded in satisfaction.

Hence.

Lord Chi, Elder Brown, and the ten Hall Masters of the human race joined forces. Lin Tianjian and Jing yueke led the human army. The grade 8 battle formation was activated, and they retreated as they fought.

They were rapidly retreating from the battlefield.

“Don’t chase them.”

With a deep look in his eyes, di Long shouts, ” let the human army retreat. With the top experts of the human race here, we’ll have to pay a huge price if we want to keep the human army in the southern land.

“Yes.”

“Yes, sir.”

The Barbarian kings immediately responded.

In reality.

They didn’t want to continue chasing.

all troops, listen up. Gather all the troops and surround the demon armies of the three demon dynasties. The humans have escaped, but we must not let the demons escape.

kill!!!

“All troops, charge!”

BOOM! BOOM! BOOM!

The Barbarian Army quickly changed their tactics. They closed the battlefield and surrounded the monster army. All of their forces attacked the monster army.

this time.

The demon Army had suffered heavy losses.

Heavy casualties.

“Damn it!”

“the barbarian race actually let the human race go and used all of their forces to deal with us.”

“Bastard!”

“.....”

The three demon sovereigns were furious.

given the current situation, it is obviously unrealistic for us to retreat with the demon Army.

The monster race Palace Master said in a deep voice.

three demon sovereigns, we must leave the demon Army behind to guard the rear. Then, we will try our best to break through the barbarians 'blockade and escape to the central region of Saint peace state.

“This is the only way.”

The monster race Palace Masters said.

Time passed.

After a moment of silence, the three demon emperors listened to the suggestion of the demon temple master. They left the demon Army behind to guard the rear while they tried their best to break through the Barbarian blockade and evacuate at full speed.

However ...

The Barbarian race would not let them off easily.

In the end.

When the war in the southern Territory was over.

Only the two level 8 demon Palace Masters and the only level 8 demon Emperor, Yi tiangan, managed to escape.

the rest.

They were all killed by the barbarians.

the demon army was completely annihilated.

Of course.

In order to exterminate all the demon clans, di Long and his brothers have also paid a heavy price.

Especially when the demons fought back at the last moment, many barbarians were killed or injured.

In the end.

Di Long and the others have paid the price of losing 100 billion barbarian soldiers.

The Barbarian race had completely taken over the entire southern region of the Holy peace state.

“Clean up the battlefield!”

Di Long’s eyes are deep. He is staring at the central region of holy peace state and the direction in which Lin Tianjian and the others are retreating, which is the Western Region.

“Yes.”

“yes, sir.”

Buzzzzzz! Buzzzzzz!

the barbarian formation master’s team began to move.

Then, he set up the ‘origin totem array’, which enveloped more than half of the battlefield. The power of the totem surged and covered the corpses of the demons and humans on the battlefield.

The essence of the blood and flesh from the corpses of demons and humans would be refined into ‘origin pills’.

In reality.

‘Original totem array’, ‘blood refining array’, ‘ten thousand blood refining array’.

In fact, the effect was the same.

However ...

The ‘blood refining formation’ and the ‘ten thousand blood refining formation’ were developed by the human array Masters. They were used to refine the corpses of the Barbarian and demon clans to make the ‘blood refining pill’ and ‘ten thousand blood refining pill’, which were suitable for the human clan to practice martial arts.

The ‘origin totem array’ was used by the totem spell casters of the Barbarian race to refine the corpses of demons and humans to refine the ‘origin pill’ that was suitable for improving the power of the Barbarian race’s totem.

The two were similar.

“Di Long,”

Shua! Shua!

With man Wuji and tu Jiuling, there were also six Hall Masters of the Barbarian race, four level 8 Hall Masters, and two level 7 perfected stage hall Masters.

the other four had died on the battlefield.

“yes.”

Di Long nods and says to man Wuji and tu Jiuling with cupped hands: Vice Division Masters, thank you for coming to our aid. Otherwise, we would have had to pay an even greater price to take down the southern land.

“Taking down the southern Territory is just the beginning.”

“Our ultimate goal is to build a barbarian Empire in the entire holy peace state,” man Wuji said with a deep voice.

“If I’m not wrong, the demon race must want to take over the central region of the Holy peace state. They will definitely gather all their forces there,” tu Jiuling said.

“With the strength of the senior Magi, they are no match for the monster race.”

“So,”

we need to go to the central region immediately to help the Grand Magi evacuate from the central region and meet up in the southern Territory.

“alright,” he said.

“No problem.” Di Long nodded.
