

## Army 66

Chapter 66 plundering

Bang!

At this moment.

Jiang Li had already raised the pistol in his hand and pointed it at dugu Luo. He pulled the trigger and a bullet shot out with powerful kinetic energy and penetrating force.

Pfff!

The bullet pierced through dugu Luo's forehead mercilessly.

The beauty passed away.

Buzzzzzz!

Very quickly.

A black light spot flew out of dugu Luo's body like a Firefly and flew into Jiang Li's body.

[acquired a stage-two soul Tinder!]

A notification appeared.

“oh.”

a level-two soul Tinder? “Jiang Li raised his eyebrows and looked at dugu Luo's body. I'm quite lucky.

Ta ta ta da

The sound of horse hooves rang out.

The cavalymen from the Black Dragon County entered the battlefield slowly. The middle-aged man at the front looked around. He frowned when he saw the bodies of dugu Huangcheng and dugu Luo, but he didn't say anything.

After that.

the middle-aged man's eyes fell on jiang li, then moved down and stopped on the blood refining bead in jiang li's left hand.

His pupils contracted slightly.

"Hong Tianqi, the head instructor of the city guard of Yongan city, greets general."

Hong Tianqi walked over and bowed to the middle-aged man. His tone and attitude were extremely respectful.

"yes."

The middle-aged man was Fang ze, the commander of the Black Dragon County cavalry. He nodded and said slowly, "the Commandery Prince has received a secret order from yang Zike. He said that someone from the half-monster Alliance is planning to get the blood refining bead.

"It seems like I've come too late. The blood refinement bead has already been refined."

"....."

Hong Tianqi did not say anything.

"Clean up the battlefield, we should retreat."

let's go. Jiang Li didn't pay too much attention to Fang ze and the others. He waved his hand and gave an order to leave.

In this battle.

Jiang Li had gained a lot.

Although both the meches and the Sirius gang had suffered heavy losses, Jiang Li got a hundred level-one soul Tinders and one level-two soul Tinder. He even upgraded two level-two meches.

Plus ...

since dugu huangcheng was dead, jiang li wouldn't let go of the wealth of the city lord mansion and the spirit herbs from the chamber of commerce of spirit herbs. he wanted to go back to yongan city immediately.

"Yes, gang leader."

The surviving members of the Sirius gang responded loudly.

Out of nearly 2000 gang members, only less than 500 were left. They had lost three-quarters of their members, but those who survived were the elites of the elites.

Half an hour later.

The battlefield had been cleaned up. Everything in the Barbarian camp had been collected, including some valuable weapons and equipment.

There were quite a few of them.

of course.

Jiang Li didn't take all the spoils. He let Hua Tian and Yu Shulan have a share. After all, the heavenly gate gang and tingyu tower did a lot of work and many people died.

It was the same for the reserve city guards and the dingding city Army, they more or less had some gains.

At this moment.

Fang ze asked Hong Tianqi about the details of what happened.

“Oh.”

Fang ze raised his eyebrows.

“stop there.”

” wait! ” fang ze shouted as soon as jiang li left.

“Is there something?”

Jiang Li stopped and turned around.

“You can’t leave now.”

fang ze said.

“Why?”

...

Jiang Li asked.

the refined blood bead is the evidence of the half-monster Alliance’s crime. You can’t take it away. You have to give it to me and I’ll bring it back to the king for him to make a decision.

“also,” fang ze said matter-of-factly, “we need you to cooperate with our investigation on the alliance between the red-browed yao kingdom and the black snake barbarian kingdom. they are trying to attack the black dragon county.”

we also need to verify the betrayal of dugu Huangcheng and yang Zike.

you killed dugu Huangcheng. You can't get away with it.

Jiang Li smiled and glanced at him. interesting. I didn't see you help me when I was fighting the Barbarian, monster and half-monster Alliance.

now that the war is over, I've taken care of the monsters, barbarians, and the half-monster Alliance, but you suddenly jumped out. Not only did you not say a word of thanks, but you also want to take away the spoils that originally belonged to me. You even want to investigate and question me.

“This is your reasoning?”

“This is just a routine.”

fang ze frowned and said in a deep voice, ” also, I'd like to give you a piece of advice. Don't make a mistake. Don't think that you can ignore the orders of the Black Dragon County just because you're powerful enough to solve this problem.

“You must hand over the blood refinement bead.”

...

“Let's go back to the city,”

Jiang Li glanced at the middle-aged man indifferently and ignored him. He turned around and left with hundreds of meches following him.

“Yes, gang leader.”

“Let’s go, time to go back.”

“We’re back in the city,”

“.....”

The rest of the Sirius gang followed closely behind.

“We should go too.”

Hua Tian also left with the rest of the heavenly gate gang.

“General, we will take our leave.”

Yu Shulan bowed slightly to Fang ze and left.

“.....”

Fang ze looked at Jiang Li’s back with a gloomy face.

“General, should we make a move?”

At this moment.

The Adjutant rode over and whispered in Fang ze’s ear.

“No,”

No. Fang ze shook his head. although Jiang Li isn’t very strong, he has two level-two masters. We won’t be able to gain any advantage if we fight.

“Let’s go back and report this to the Junwang and let him make a decision.”

however, according to the ‘three laws of the human race’, Jiang Li killed the monsters of green scale city and the barbarians of barren city. He also took care of the rebellious dugu Huangcheng. Such merits are enough for him to be the Lord of Yongan city.

“I’m afraid it won’t be that simple when the time comes.”

“Forget it. Let the regional King have a headache over this matter.”

“Withdraw the Army.”

The cavalrymen of Black Dragon County left Qingshan Valley.

Hong Tianqi also returned to Yongan city with the rest of the reserve city guards.

Dong Lin led the remaining soldiers back to Pingding city.

Qingshan Valley.

Corpses were everywhere, and wild beasts were roaming about. Because of the blood refining formation, most of the corpses in the forest had become mummies. These mummies would soon be eaten by the wild beasts in the forest.

until the morning of the next day.

jiang li and the others returned to yongan city first. after entering the city, jiang li immediately led the meches and the members of the sirius gang to the castellan mansion and the chamber of commerce of spirit herbs.

For the entire morning.

” let’s go. ” jiang li ordered his men to empty the city lord mansion and the chamber of commerce of spirit herbs. they had gained a lot, not to mention the herbs and spirit herbs from the chamber of commerce.

Just the silver alone was worth more than ten million taels.

Other than that.

there was also more than ten thousand taels of gold.

Jiang Li moved all the gold, silver, jewelry, herbs, weapons, and martial arts techniques to the headquarters of the Sirius gang.

In the afternoon.

As promised, Jiang Li gave 100 taels of silver to each member who came back alive. There were 493 members in total.

That was 49300 taels of silver.

It was just a drop in the bucket.

Other than that.

Each of them also received a level one mid-grade internal cultivation method and a level one mid-grade martial arts skill. All of them could practice internal strength.

“Long live the gang leader, long live the gang leader, long live the gang leader!”

In the courtyard of the Sirius gang’s headquarters.

All the gang members received their rewards and were extremely excited. With a cultivation technique and money, they had the chance to become martial artists and stand above the rest.

They all cheered and shouted.

of course.

They also knew that compared to the things they had plundered from the city Lord's mansion and the Chamber of Commerce of spirit herbs, what they had obtained was very little.

But they knew better.

If it wasn't for Jiang Li, they would just be ordinary members of a gang forever. It would be extremely difficult for them to get the internal strength technique.

One must learn to be content.

These four hundred or so gang members were able to survive that war, so they were naturally not fools. They could understand this logic.
