

Army 691

Chapter 691 Intense battle

“The battle has only just begun.”

Jiang Li glanced at the notification and wiped the blood from the corner of his mouth with his left hand. He raised his head and waved his right hand, ” all units, listen up. All the ‘Black Star Troopers’ are to move out. No matter the cost, tear this ‘dead space’ apart.

Kachaa! Kachaa!

“BOOM!”

A huge explosion was heard.

Inside each battleship.

In the research Battle Room.

It could be seen.

The giant ‘iron can’ like manufacturing pods all opened from the middle, and the ‘Black Star Troopers’ that looked like they were carved out of the same mold appeared.

Each ‘Black Star Trooper’ was nine meters tall, as large as a three-story building. They looked like black mechas from science fiction movies, and their purple electronic eyes were flashing.

xjzbyjzz01 planet-level black Star Trooper Manufacturing Research ship’s hatch is open. Millions of ‘Black Star Troopers-basic form’ are deployed.

.....

xjzbyjzz01111 planet-level black Star Trooper Manufacturing Research ship's hatch is open. Millions of 'Black Star Troopers-base form' are deployed.

.....

“You’re bluffing.”

Hu yehuo coldly snorted and said in disdain,”although I don’t know how your 50000 ‘rank 7’ soldiers got here, do you think you can turn the tables with just these 50000 soldiers?” This is simply a fool’s dream!”

“Die!”

Roar!

Hu yehuo waved his right hand and the Dragon of death roared. Its huge body bared its fangs and claws as it charged at Jiang Li, shaking the universe.

“astral battle technique.”

Shua!

antimatter combat technique. Wang Gang teleported in front of Jiang Li, clenched his fists, and activated his skill. The antimatter energy reactor started to run. antimatter combat technique.

“Star destroying fist!”

BOOM!

Wang Gang gathered powerful energy and threw a punch. It was as if the space had collapsed, forming a black hole. This punch shattered the death Dragon.

Bang Bang Bang Bang!

Countless explosions were heard.

Hu yehuo's pupils contracted, and his expression was one of shock. He waved his right hand, forming a blood-colored light screen that blocked the impact of the shockwaves. He didn't even take half a step back, " it actually has such terrifying destructive power. It has definitely reached the peak of the ninth-rank.

one had to know.

When Wang Gang shattered Ywen's arrow of death with one punch, Hu yehuo thought that Ywen was not strong enough, so he was blocked by Wang Gang.

now.

Only after Hu yehuo personally faced Wang Gang did he realize how powerful he was.

Shua! Shua! "Whoosh!"

At this moment.

The Black Star Troopers poured out from the doors of the battleships. Their numbers were hard to estimate, and in the blink of an eye, they covered the entire space.

In an instant.

The number had reached 40 billion.

[energy unit type: black star soldier-basic form]

[No.: None]

[rank: rank seven]

skill: Level 7 Black Star combat technique

[weapon equipment: Type 7 energy cold weapon, Type 7 energy hot weapon]

[energy machinery: a unit created by the 'planet-grade Black Star Trooper research-made battleship' after absorbing the energy of the universe. It can only carry out simple combat orders and is a one-time use item. It will disappear when its energy is depleted.]

Jiang Li checked the information of 'Black Star Trooper-basic form'.

Obviously.

The number of 'Black Star Troopers' created by the 'planet-level black Star Trooper research and warship' was huge, and they were all at Level 7, so their combat power was not weak.

The most important thing was ...

It didn't even need to consume energy points, and it could be created by absorbing energy.

but ...

'Black Star Trooper-base form' could not last forever, it would disappear after its energy was depleted. There were pros and cons to this.

In general.

The advantages outweighed the disadvantages.

The basic form of the Black Star Troopers wouldn't consume any of Jiang Li's resources. Even if they all disappeared, Jiang Li wouldn't suffer any loss.

...

It could be said that ...

Every 'planet-level black Star Trooper research and operation ship' was like the Queen of an ant colony, while the 'Black Star Troopers' basic form 'was like a normal ant.

the queen ant could reproduce like crazy.

Similarly.

The 'planet-level black Star Trooper Research & production ship' could also produce a large number of 'Black Star Troopers-basic form'.

what?!

“Si si si ...”

“what's going on? Why did so many 'soldiers' appear all of a sudden, and why were all of them at Level 7?”

“Heavens!”

“This Suan ni, this Suan ni”

It was shocking.

...

Fear!

He looked horrified!

In the surroundings.

Regardless of whether it was the generals and commanders of the Starfall Empire or the other powerhouses who were watching the battle from the sidelines, they were all stunned by this scene.

One had to know.

Every soldier and warrior in all the Imperial dynasties in the Super Fantasy world had to go through a long period of training to become a qualified soldier.

However ...

Jiang Li's 'mechanical Army' didn't need a long time of training. As long as he had enough resources, he could create a huge mechanical Army.

it was even more terrifying now.

With the 'planet-level black Star Trooper combat research Starship', Jiang Li didn't even need to consume energy points. As long as the universe and the world had enough energy, the Starship would be able to absorb energy to build Black Star Troopers.

“Kill!”

“Kill!”

kill!!!

“.....”

40 billion Black Star Troopers in their basic form formed a terrifying mechanical Army. They pulled out their Level 7 energy cold weapons and formed beam sabers.

after that.

the mechanical army fearlessly charged towards the starfall empire's army.

40 billion against a trillion.

The difference in military strength between the two sides was a full twenty to thirty times.

but ...

Every 'Black Star Trooper-in their basic form was-level 7 Mech Warrior. They were not afraid of death and had no fear at all. They only knew how to fight! Battle! Battle!

A head-on battle.

Unless a level 10 master showed up, they would be able to break the level 9 formation directly. Jiang Li didn't have any level 10 Masters.

so,

if he wanted to break the formation, he could only take drastic measures.

they could only charge into the enemy and kill their soldiers. when the number of enemy soldiers dropped to a certain number, the grade 9 formation would naturally be unable to continue.

He had to break the formation.

“Damn it!”

hu yehuo and the rest’s pupils contracted. this sudden turn of events had caught them off guard. they had not expected that over 40 billion type 7 warriors would suddenly appear.

Such an Army was truly too terrifying.

“Truly terrifying.”

even the eighth or seventh level imperial dynasties might not be able to produce such an Army, let alone the ninth level imperial dynasty.

“This is unbelievable.”

“Could it be that the other party is really from a dynasty above the seventh class? that’s why they could send such a powerful army? How could they transport so many troops here without anyone knowing?”

“it’s very possible.”

In the surroundings.

The various experts outside the battlefield had their imaginations run wild.

boom! BOOM! BOOM!

WMS01 and the others went all out and stopped Lanti the Tauren and ywin the elf at all costs. Even if their arms were broken, they could recover in a short time.

Wang Gang charged at Hu yehuo.

“blood rain blades! Fall!”

Whoosh! Whoosh! “Whoosh!”

The Vice marshals and generals of the Starfall Empire used the power of the Army formation to mobilize the power of the Army formation. The countless blood-red Death Qi gathered and formed drops of blood rain. The blood rain transformed into blood-red blades.

After that.

The Blades of Blood rain enveloped the ‘Black Star Troopers’.

” activate the energy-tier thermal weapons! ”

“Fire!”

fire!!!

bang bang bang bang!

Every Black Star Trooper in their basic form was like a black mech. Shoulder cannons rose from the shoulders of each black mech, and rows of muzzles appeared on their chest and back.

The energy Cannonball was fired.

All 40 billion Black Star Troopers fired, and countless energy cannonballs shot into the air, each one of which had the power of a giant nuclear bomb.

“rumble!”

Countless energy cannonballs collided with the blades of sanguine rain. Countless explosions rang out, shaking the starry sky. The storms that were produced spread out, causing the energy of the universe to tremble.

It affected both Venus and Mars.

“Ah!”

On the battlefield.

A large number of soldiers had fallen. Some died from the backlash of the battle formation, some were killed by the energy cannons, and some died because their battleships were broken and exposed to the vacuum of the universe. Their bodies could not take it and died.

Peng Peng Peng!

At the same time, a large number of ‘Black Star Troopers’ in their basic form ‘exploded and were pierced by the Blades of Blood rain. Some were also killed by the enemy generals.

The power of a level 9 army formation was unleashed, and it destroyed many Black Star Troopers.

“Hehe.”

a smile appeared on hu ye’s face as he proudly said, while an Army of the seventh step is terrifying, against a formation of the ninth step, they will still be defeated.

“hahahahaha!”

“Kill!”

“Activate the formation!”

tier 7 and tier 8, use the power of the Army formation to heavily injure the enemy!

“.....”

The generals of the Starfall Empire quickly assigned their battle tactics.

“is that so?”

Jiang Li sneered.

Shua! Shua! Shua!

after that.

More Black Star Troopers in their basic form flew out from the battleships and charged into the battlefield to replenish their losses.

Obviously.

The limit for each spaceship was one million Black Star Troopers, but after the Black Star Troopers were destroyed, they could be replenished immediately to ensure that there were enough troops.

“What?”

” this is impossible!!! ”

“This is simply awesome!”

He was dumbfounded.

This time.

Hu yehuo and the others were all dumbfounded. They felt a chill rush up to their heads. Looking at the mechanical Army that had been replenished, they felt a chill in their hearts.

“It’s not over yet.”

upgrade to xjzbyjzz01 planet-level space soldier Manufacturing Research ship. Jiang Li said.

Buzzzzzz!

The level 8 soul Tinder flew out and merged into the research ship xjzbyjzz01, along with a hundred trillion energy points.

the light flickered.

A few seconds passed.

The promotion was completed.

However ...

It was not over yet.

“Continue to level up.”

Shua! Shua!

Jiang Li quickly used up 14000 trillion energy points and upgraded planet-level black Star Trooper Manufacturing Research ship xjzbyjzz01 to perfected-stage level eight.

to create level 8 Black Star Troopers.

go! Jiang Li ordered.

Ten seconds later.

A million level 8 Black Star Troopers arrived on the battlefield.

Chapter 692 Retreat

The size of a battleship that had been upgraded to the perfected type 8 realm was at least a hundred times that of a perfected Type 7. It was like a star that appeared on the battlefield.

the outer appearance of the battleship did not change much, but it had been expanded many times.

Its length reached a million meters, and its width and height reached two hundred thousand meters.

After the cabin door opened.

The pitch-black mechas were ninety-nine meters tall.

The number had reached a million.

Shua!

The information was displayed.

space unit type: Galaxy-grade space unit research and operation warship

[No.: Xjzbyjzz01]

[rank: complete rank eight]

skill 1: level 8 superior-grade super intelligence ”

” skill 2: rank eight ultimate locked-on strike

skill 3: tier 8 ultimate space movement ”

” skill 4: top-tier level 8 interstellar combat

skill 5: tier 8 ultimate firepower coverage ”

Skill 6: level 8 energy light shield

skill 7: top-tier level 8 Black Star Trooper research battle

[machinery: Jian Jia (omitted)]

advancement requirements: one level-nine soul Tinder, ten trillion energy points ”

Obviously.

After reaching the peak of the eighth-rank, the number of skills on the warship did not increase. There were still seven skills, but each skill had been upgraded from the seventh-rank to the eighth-rank.

Shua!

The information on the Black Star Troopers was displayed.

[energy unit Type: Black Star Soldier-basic form]

[No.: None]

[rank: rank eight]

skill: level 8 interstellar combat technique

[weapon equipment: type 8 energy cold weapon, type 8 energy hot weapon]

[energy machinery: after the ‘Galactic-level black Star Trooper research-made battleship’ absorbed enough energy from the universe, the energy units created from the Black Star Trooper manufacturing module can only perform simple combat. They are one-time use consumables and will disappear automatically when their energy is depleted.]

The information of the Black Star Troopers did not change much.

Their levels, skills, and equipment.

All of them were raised from the seventh step to the eighth step.

His combat strength had increased greatly.

attack!!!

stop! Jiang Li shouted with a cold look.

“Kill!”

“Kill!”

buzzzzzz! Wuwuwuwuwu! “whoosh!!!”

As soon as Jiang Li finished.

There were a total of a million rank-8 Black Star Troopers, and their battle cries shook the surrounding space. They gathered with more than 40 billion rank-7 Black Star Troopers, and the rank-8 Black Star Troopers turned into the tip of a sharp knife, charging straight at the Starfall Empire's Army.

“Energy beam, fire!”

whoosh! Whoosh! “Whoosh!”

In that instant.

The level 8 Black Star Troopers gathered their energy and formed a black energy beam that pierced through the Army in front of them, creating a huge explosion.

The tragic battle became more and more intense.

it could be seen.

When the level-eight Black Star Troopers appeared, the combat power of Jiang Li's mechanical Army increased by several times and they turned the situation around.

High-end combat power.

Jiang Li had six level nines.

The Starfall Empire's Army, on the other hand, was much stronger.

there were only three grade nine Nine Nine generals.

in terms of military strength.

...

although the starfall dynasty's mechanical army was dozens of times larger than jiang li's, jiang li's black star troopers were all level seven and they were not afraid of death.

now.

jiang li's mechanical army was replenished by a million level-eight ones.

The two armies fought.

After countless attacks collided, a series of explosions and rumbles rang out. The soldiers from both sides fought each other, and fresh blood splattered all over the surrounding starry sky.

Buzzzzzz! Buzzzzzz! buzzzzzz!

On the battlefield.

Countless Soul Fire Seeds emerged and formed a rainbow-like flood. They all rushed towards Jiang Li and he caught a large number of Soul Fire Seeds.

At the same time.

The tier 9 military formation, 'space of death', also erupted with a powerful might. A rain of blood filled the sky, scattering into the starry sky and forming a tornado of death that wreaked havoc on the entire battlefield.

Bang Bang Bang Bang Bang Bang

...

a large number of black star troopers were swept away by the death tornado and exploded one by one.

however ...

the moment the doors of the battleships opened, the black star troopers rushed out and charged into the mechanical army, quickly replenishing their numbers.

“This Suan ni, this Suan ni”

In the surroundings.

The experts standing outside the battlefield were watching the situation. They thought Jiang Li and the others would die under the siege of the Starfall dynasty’s Army.

but ...

The situation changed one after another.

The armies that appeared one after another blocked the Starfall dynasty’s Army’s attacks. The scales of victory began to tilt in Jiang Li’s favor.

how is this possible?!

Hu yehuo’s pupils contracted, and his body felt cold.

LAN TI’s heart was also filled with fear. She looked at the Black Star Troopers and thought, ” these things, can’t they be killed? ”

“no! It’s not like this!”

it’s useless for you to do this, ” Ywen shouted. it’s useless even if you kill all the soldiers because more soldiers will ‘resurrect’ from the battleships one by one.

” those ‘warships’ are the real core. as long as we destroy all those ‘warships’, these soldiers will collapse on their own. ”

“This bi an ...”

“That’s reasonable.”

Hu yehuo and LAN TI’s eyes lit up as they reacted.

at the same time.

The Vice marshals and generals of the Starfall Empire also reacted quickly.

“Destroy the warship!”

kill!!!

The soldiers shouted in unison.

“You guys found out too late.”

Jiang Li snorted. MYL01, SSTs01, WMS01, Wang Gang, and a million level 8 Black Star Troopers, surround the general with me.

“kill them!”

“Kill!”

Shua!

As soon as he finished speaking.

die! Jiang Li waved his hand and slashed out the Yin Yang Emperor sword. It was a Galaxy-like sword ray that instantly exploded with great power.

“kill!”

” charge!!! ”

BOOM! BOOM! BOOM!

It could be seen.

the situation on the battlefield changed again. under jiang li’s order, the mechanical army, which was originally on the defensive, turned to attack and quickly attacked.

First of all ...

Jiang Li’s sword tore a huge hole.

“Sinking into death.”

Demon God awakening.

“Purgatory of heaven.”

The next moment.

The three late-stage level nine special meches also released their strongest skills at the same time. Vast energy waves swept in all directions.

“Space of death, explode!”

hence.

hu yehuo, yawen, and lanti attacked at the same time. they activated the power of the dead space and combined it with their own power.

Buzzzzzz!

Immediately.

A blood-red sun was formed. It was extremely vast, like a planet, floating in the center of the battlefield, and the aura of death spread out.

“Explode! explode! explode!”

“Rumble!”

The blood-red sun descended and crashed into WMS01’s team, clashing with their three strongest skills.

Such a collision.

It was as if two stars had collided, shaking the starry sky.

Bang Bang Bang Bang!

Waves of energy rippled out in all directions.

“Star destroying fist.”

Finally.

Wang Gang gathered the power of antimatter energy and punched out with all his might. The scene of space collapsing was formed. The fist force exploded and penetrated everything.

Bang!

There was a loud explosion.

The blood-red sun was completely annihilated.

“Ah!”

Kachaa! Kachaa!

Countless screams rang out as the soldiers of the Starfall Empire fell to the ground one after another. A large number of soul flames appeared from their corpses.

They quickly rushed towards Jiang Li.

“alright,” he said.

A smile appeared on Jiang Li’s face.

One had to know.

The quality of the Starfall Empire’s soldiers was very high. Even the weakest of them was at the early stage of Level 1, and their military strength had reached a trillion soldiers.

Buzzzzzz! Buzzzzzz!

At the same time.

WMS01, SSTs01, and MYL01 had absorbed a large number of remnant souls, and their evolution progress was rapidly increasing at a visible rate.

It was about to reach a hundred percent.

“Kill!”

Immediately.

A million level 8 Black Star Troopers surrounded Hu yehuo and the rest, and a million level 8 Black Star Troopers surrounded the three level 9 marshals. Even with the help of the level 9 Army, Hu yehuo and the rest were still in danger.

Quantitative change led to qualitative change.

While the difference between the type 8 and type 9 realm was huge, with a million type 8 experts surrounding three type 9 experts, they naturally had the advantage. Hu yehuo and the rest were forced back.

“Ah!”

hu yehuo cried out in pain. he had blocked countless energy beams, but he was still hit. a hole had appeared in his chest.

Fresh blood flowed.

Pfft! Pfft!

Mist and Yawen were also injured.

“Not good!”

“Quickly go and help the Marshal and the others.”

“Kill!”

after the starfall empire's army reacted, they rushed over with the intention of sharing the pressure on hu yehuo and the rest and stopping the level 8 black star troopers.

“Yin-yang sword.”

Clang!

let's go! Jiang Li swung his swords and formed a black and white five-clawed sword Dragon. He charged at the Starfall Empire's Army. Wang Gang and WMS01 followed closely.

“Ah!”

A miserable scream rang out.

Many soldiers died under Jiang Li's sword.

Heavy casualties.

Kachaa! Kachaa!

In the surroundings.

The 'formation space' formed by the grade 9 formation started to crack. This was because the formation was becoming unstable after a large number of soldiers had died.

“Retreat! retreat!”

At this moment.

a look of fear appeared on hu yehuo and the others' faces. they knew the severity of the situation. if they continued to fight, the entire army would be wiped out.

“Let’s go!”

“retreat!”

“.....”

“Dragon of death!”

Roar!

Hu yehuo roared and used all his strength to form a huge blood-red true dragon. It bared its fangs and claws as it charged forward.

“Arrow of death!”

Buzzzzzz!

Yawen also used his strongest attack.

“Blood bull divine axe!”

boom!

die! Lanti roared. His power burst out and formed a huge blood-red axe. He then swung it down.

the three rank nine generals used the power of the death space to attack.

It was as if the space was torn apart.

It created a powerful force that tore open the encirclement formed by a million level 8 Black Star Troopers, creating a huge hole.

“Retreat!”

Shua!

Hu yehuo and the rest retreated at full speed, breaking out of the encirclement of a million level 8 Black Star Troopers. The Starfall Empire’s Army started to retreat, and the area of the dead space also started to shrink.

The Army gathered together.

they quickly retreated.

at the same time.

Jiang Li and the others also quickly left the dead space.

Buzzzzzz! buzzzzzz! Buzzzzzz!

at this moment.

wms01, ssts01, and myl01’s bodies began to emit rays of light. their evolution progress had all reached 100%.

“Upgrade.”

shua!

Jiang Li used 2.4 trillion energy points without hesitation and upgraded WMS01, SSTs01, and MYL01 to complete-stage level nine.

Chapter 693 Throbbing

MYL01 and the others 'bodies flickered with light, and in a few seconds, they had all completed their advancement, reaching the peak of the type 9 realm.

All of them were much stronger.

“You want to escape?”

jiang li looked at the retreating starfall empire's army with cold eyes. his killing intent grew stronger as he shouted, ” “In your dreams!”

“Set up the plane channel immediately.”

Buzzzzzz!

jiang li connected his mind with the 'mark of the immortal court' on the back of his hand. the scene changed and jiang li's consciousness came to the 'bubble space'.

There were countless bubble light balls.

“My respected master.”

Little white appeared and stood beside Jiang Li. “The immortal court's assistant 'little white' is at your service.”

“Alright,” he said.

yes. Jiang Li nodded. open the plane channel.

“Yes, sir.”

Xiaobai replied, " master, please wait patiently. The 'plane channel' will be successfully opened in ten seconds.

"Yes."

Shua!

jiang li's consciousness returned to his body and he opened his eyes.

At this moment.

Hu yehuo and the others led the 'defeated Army' and were retreating to Mars at a fast speed. They all looked at Jiang Li gloomily.

"marshal hu, this time, we led a trillion-strong army but were defeated. if the prince knew about this, he would be furious."

Lanti said worriedly.

"....."

Yawen was silent for a moment. we were too careless. Who would have thought that the other party would have such a powerful trump card? such an Army is simply unheard of.

"Yes."

hu yehuo nodded his head, " when we return, we will report this to the prince. none of us wanted this to happen. we can only say that we underestimated the enemy's strength. "

"Rumble!"

Suddenly.

The space around them started to shake. Hu yehuo and the others were immediately alarmed. They looked around and saw many battleships in the dark Universe.

There were many of them.

They formed an encirclement.

kill!!!

all troops, hear my order! Surround and kill the Starfall Empire's Army!

“Charge!”

“Set up the formation!”

battle cries rang out.

sound was not transmitted through air, because there was no gas in the vacuum of the universe. there was only omnipresent and endless cosmic energy.

so,

These sounds were produced by the transmission of energy that shook the universe.

In reality.

life forms below the fourth stage were unable to shake the universe's energy in the universe's vacuum, so they naturally couldn't make a sound, like mutes.

” it's a witch prayer!! ”

“It’s the Army of the witch-praying Empire!”

“Damn it!”

“We’ve been ambushed,”

Hu yehuo and the others were shocked.

“hurry, hurry up! gather all our forces and break through the encirclement!”

“Kill!”

“Attack with full force!”

Immediately.

The war between the armies of the qiwu Empire and the Starfall Empire had begun.
The armies of both sides clashed, and Grade 9 battle formations clashed.

Pfft! Pfft! Pfff!

Energy exploded.

It produced a brilliant light like fireworks.

...

At the same time.

rivers of blood filled the universe.

“It’s the Army of the witch-praying Empire!”

what? ” Jiang Li was also stunned. He looked at the Army that suddenly appeared. The enemy also had trillions of soldiers and had also formed a rank-nine Army. The two sides were fighting each other.

one had to know.

The Starfall Empire’s Army had been fighting against Jiang Li’s mechanical Army for a long time and suffered great losses. They only had less than 700 billion soldiers left.

Plus ...

The witch-praying Empire had set up an ambush, and the Starfall Empire had fallen into it.

so,

The moment the two sides started fighting.

The Army of the Starfall Empire was at a disadvantage.

...

the plane channel has been successfully opened.

At this moment.

little white. little White’s voice sounded in Jiang Li’s mind.

Ten seconds had passed.

Kachaa! Kachaa!

Jiang Li waved his right hand and the mark on the back of his hand glowed with a strong white light. It tore apart time and space, forming a large crack. Under the influence of the white light, it turned into an arched gate.

The passage was established.

“Very good,” he said.

okay. Jiang Li smiled and clenched his fists. He was about to summon the interstellar Base 01, but just as he was about to move ...

Suddenly.

what’s going on? ” Jiang Li’s heart throbbed as if death was coming and the sky was falling.

Instinct!

It was an instinct of fear.

“What’s going on?”

Jiang Li was stunned.

“It’s a plane channel.”

“He’s actually able to create a plane channel.”

“He’s a human. If he can build a plane channel, he must be an official member of the immortal court,” said Jiang Chen.

“This bi an ...”

In the surroundings.

When the overlords saw the plane channel, they were all surprised and looked at Jiang Li.

The eyes of the experts of the God race, devil race, and ghost race revealed a dangerous and greedy light.

“an official member of the immortal court who is only at the mid-ninth level, his identity must be extraordinary.”

“Tsk tsk tsk tsk tsk.”

the reward for killing an official member of the immortal court is incomparably generous. After all, according to the rules of the ‘martial immortal court’, the minimum cultivation of an official member of the immortal court must be level 12.

“A rank 9 official member of the immortal court,”

“this is a heaven-sent opportunity!”

Faintly.

The experts of the various races around them began to stir as their greed gradually triumphed over their reason.

On the other side.

The armies of the two empires were still engaged in an intense battle.

“What was that feeling just now?”

Jiang Li took a deep breath and couldn’t calm down.

what's wrong? ” Jiang Li was confused by the feeling of fear.

“.....”

he was being cautious.

jiang li put down his hand and stopped summoning '01 interstellar base'.

shua! shua! Shua!

After that.

” jiang li! ” the masters from the other races quickly approached jiang li and formed a circle.

“You're all looking for death.”

Jiang Li's eyes turned cold as he looked around.

There were quite a number of experts from various races.

Among them.

This included the celestial race, the devil race, the ghost race, and other races from other worlds. They should be races that had been subdued, such as the blood race, Giants, and demonic beasts.

Other than that.

jiang li also found some self-cultivators who practiced the immortal dao.

from level seven to level nine.

“Everyone, be careful. The enemy isn’t weak at all. Furthermore, their Army is able to send the Starfall Empire’s Army fleeing in panic.”

“Understood.”

“Ignore the surrounding troops. Our goal is to kill them.”

“.....”

BOOM!

At this moment.

The God race member who was surrounded by fluttering snowflakes and was bone-piercingly cold, like a Snow Maiden, took the lead to attack. Her cultivation was at the early stage of the ninth rank, and she was just a very ordinary God race member.

“Divine Art-Snow World!”

Buzzzzzz! Buzzzzzz!

The snow goddess waved her hand and snowflakes flew in the air, forming a snow realm domain. It enveloped Jiang Li and the others as if their souls were frozen.

“kill!”

attack!!!

The next moment.

The experts from all the races made their moves.

A rough estimate.

There were nine level 9s, hundreds of level 8s, and even more Level 7s.

“You’re overestimating yourself.”

Jiang Li sneered. He waved his right hand and the mechanical Army quickly attacked. A million level-eight Black Star Troopers and forty billion level-seven black Star Troopers surrounded them.

After that.

The powerhouses of the type 8 and type 7 were all surrounded by the Army.

They could not break through the encirclement of the mechanical Army at all.

“Ah!”

Pfft! Pfft!

Blood splattered everywhere.

A shrill scream rang out.

“No! No!”

“Have mercy! Spare me!”

“ah!”

Not long after the battle started.

Many powerhouses from different races had died. The blood breeds, Giants, and other powerhouses were all killed by the Black Star Troopers, their blood evaporated.

At this moment.

They had personally experienced the terror of the Black Star Troopers.

he was simply seeking his own death.

Greed had made them lose their rationality and correct judgment.

“Sinking into death.”

shua!

Kachaa! kachaa!

myl01 summoned the shadow of the grim reaper and slashed out with the reaper’s scythe. the snow world of the snow goddess race was split in half and destroyed easily.

In reality.

myl01’s death god’s apparition was no longer an apparition, but a real entity. its power and lethality had increased by many times.

“ah!”

pfft!

the snow goddess screamed and vomited blood as a look of fear appeared on her face.

“Astral battle technique.”

Buzzzzzz!

Jiang Li used Wang Gang’s skill and teleported. While the snow World was collapsing and the snow goddess race was injured, he quickly attacked them.

Clang!

die! Jiang Li appeared behind The Snow Maiden divine race. He combined the Yin Yang Emperor sword and slashed out, shaking the energy of the universe and creating a sword cry.

the black and white sword projection streaked through the starry sky.

“No!”

what?! the snow goddess race was terrified. Layers of ice appeared around them to form a defense, but they cracked under Jiang Li’s sword.

BOOM!

In the end.

jiang li’s attack exhausted all of its power, but it still shattered the snow goddess race’s defense. the snow goddess race felt lucky that they survived and quickly retreated.

“sinking into death.”

Jiang Li raised his left hand and controlled MYL01’s skill. The shadow of the Grim Reaper appeared behind Jiang Li and he waved his left hand.

Shua!

The Grim Reaper's figure held the Reaper's Scythe in its left hand and slashed at the snow goddess race. The black blade streaked across the starry sky and sliced through the bodies of the snow goddess race.

“.....”

The snow goddess was frozen on the spot, and her screams came to an abrupt end.

“pfft!”

The next moment.

Blood splashed all over the sky. The blood was ice blue. The snow goddess race was cut in half by Jiang Li.

“The snow goddess celestial race has been killed by bi an!”

“Si si si ...”

“How can he be so strong?”

“.....”

The death of the snow goddess race caused all of the experts from the various races to tremble in fear as they regained their senses from their greed. Their expressions were filled with fear as they couldn't help but retreat.

“Quickly retreat!”

He didn't think much about it.

The other 8 type 9 powerhouses quickly retreated.

“Surround them.”

Jiang Li waved his hand.

the 40 billion level 7 black star troopers and 1 million level 8 black star troopers formed a circle, surrounding the powerhouses from the various races.

He had cut off their retreat.

“Kill!”

kill him! Jiang Li ordered coldly.

Immediately.

The Black Star Troopers charged forward fearlessly. Wang Gang, WMS01, and the others went all out. The four perfected-stage level nine existences were almost invincible.

“The great circle of rank nine! they’re all tier 9 perfected stage!”

“We’re finished! We’re all finished!”

“Run!”

Collapse!

The experts of the various races completely collapsed.

They died one after another.

She gave Jiang Li a high-level soul Tinder.

Not long after.

There were only eight injured level-nine Masters left on the battlefield. Jiang Li's battleship was also damaged.

"Rumble!"

The starry sky trembled.

what's going on? " Jiang Li looked in the direction of the sound and saw two huge legions coming from two directions at full speed.

Obviously.

The Starfall Empire and the witch praying Empire had sent all their military forces here, and the two princes were leading the Army personally. Two huge five-clawed flood Dragons could be seen in the distance.

"....."

jiang li watched in silence.

Chapter 694 Dropped

Although the two kings were powerful, Jiang Li was sure that they weren't above level nine.

He should be at the peak of tier 9.

Jiang Li was relieved.

if the opponent was a tenth-rank, there was no need to fight.

even so ...

The two princes were extremely powerful.

After all ...

These two imperial princes had the blessing of the Empire's National fate, the protection of the Empire's sacred artifact 'Imperial Jade seal', and finally, the power of a level nine military formation.

his strength could easily reach the peak of the ninth step.

Or even stronger.

"The Prince, His Highness the Prince has arrived."

Hu yehuo sensed the commotion and looked over. He saw the Emperor dynasty Army led by the Fox Prince and shouted out in excitement.

"Hahahahaha!"

Lanti laughed excitedly. the Prince is here.

"Hu ~~ Hu ~ Hu ~"

Yawen heaved a sigh of relief.

On the other side.

The Army of the qiwu Empire.

It was the three marshals who were leading this Army.

They were the Barbarian Army Marshal-tan wuwen, the giant army Marshal-Qiu Shanling, and the blood clan Army Marshal-nigkid.

“The Starfall Empire’s reinforcements have arrived so quickly.”

Tan wuwen was tall and had dark skin. Half of his face was covered with mysterious and slightly strange totem patterns. He was wearing black full body armor as he coldly said.

“what a pity.”

qiu shanling was the ‘mountain giant’ of the giant tribe. in his normal state, he was a hundred meters tall, and his body seemed to be made up of all kinds of huge rocks. his huge stone head nodded, and he said with a slightly regretful tone,”If that’s the case, we won’t be able to completely annihilate this Army. It’s truly a pity.”

“Don’t worry, our Wu Qi Empire’s Marshal long is here as well.”

Nicholas had a noble temperament. His face was pale without a trace of blood, and his eyes were blood red. He was wearing a black tuxedo, and when he spoke, the sharp fangs at the side of his mouth could be seen. the final battle that has been dragged on for almost two years will officially begin today if I’m not wrong. Be prepared to fight with all your might.

“All troops, hear my order!”

“Prepare to meet up with Prince Long’s Army,” tanwu Wen ordered.

Time passed.

The Imperial Army led by the two princes was approaching quickly.

The auras of these two armies were not something Hu yehuo and the others could compare to.

Although there was not much difference in the number of soldiers, because of the blessing of the Empire's fate, the morale of the Army was multiplied.

“Ah!”

BOOM!

Screams rang out.

The eight level-nine Masters were attacked by Jiang Li's mechanical Army and the four perfected-stage level-nine meches. They were in danger.

The injuries on his body were getting worse.

Demon God awakening.

Buzzzzzz!

WMS01's all-out attack transformed into a huge eye and fused with the surrounding starry space. The vast energy of the universe was injected into it.

It contained a powerful aura.

“Kill!”

whoosh!

when the giant eye opened, it was as if an illusion of the world falling appeared. it condensed into a terrifying eye light that tore through the starry sky.

bang bang bang bang!

Pfft! Pfft!

Countless explosions rang out.

The terrifying arrow pierced through everything in its path. In the end, it pierced through the heart of a demon and left a hole in his body.

“ah!”

The demon let out a shrill scream.

One had to know.

WMS01 was at the peak of the ninth rank. When the demonic god awakened, WMS01's strongest attack was launched. This demon was only at the mid-stage of the ninth rank, so he took WMS01's full-power attack head-on with his cultivation base at the mid-stage of the ninth rank.

Demon blood splattered all over the starry sky.

...

One strike!

WMS01 killed the Nephilim in one hit.

He had fallen in the starry sky.

Unfortunately ...

This Nephilim did not drop a ninth-rank soul Tinder either. His remnant soul was completely absorbed by WMS01, causing WMS01's evolution progress to increase by less than 10%.

“This Suan ni, this Suan ni”

The other seven level nine experts were even more terrified. They couldn't hold on for long against the mechanical Army and the four perfected-stage level nine meches.

it was a situation of certain death.

In order to survive.

They United and charged in one direction, trying to break through the encirclement of the mechanical Army. However, they could not do it at all. Under the siege of Wang Gang and the others, they could only die.

“Die!”

...

Jiang Li also joined the battle and attacked with all his might. The seven level-nine Masters struggled to resist, but they were getting more and more injured.

Pfff!

Fresh blood splattered across the starry sky.

okay. Jiang Li seized the opportunity. After the level-eight Black Star Troopers severely injured a level-nine master with energy beams, Jiang Li beheaded him.

“Ah!”

“Spare me! Spare me!”

“.....”

Pfft! Pfft! pfff!

Time passed.

Jiang Li killed the type 9 experts one by one. Their bodies floated in the sky and a nine-colored light finally appeared.

“Whoosh!!”

It was the middle-aged man who cultivated the immortal Dao.

He had the cultivation of a late-stage rank nine.

According to the division of the ‘cultivation world’.

Level one Qi refining, level two foundation building, level three golden core, level four nascent soul, level five out of body, level six soul splitting, Level Seven fusion, level eight tribulation passing, and level nine Mahayana.

Above Mahayana was immortal Ascension.

If he was in the ‘cultivation world’, he would be able to ascend to the ‘immortal world’.

In other words ...

the middle-aged man was a late-stage mahayana realm cultivator.

He was very powerful.

He was still a swordsman.

However ...

In the end, Jiang Li controlled Wang Gang's 'anti-matter energy' and combined it with the power of the Yin Yang Emperor sword to kill him.

“Cultivators,”

jiang li looked at the body. the nine-colored light gathered together and formed a nine-colored light spot, floating above the body.

Shua!

Nine-colored light spots flew toward Jiang Li and disappeared.

[acquired a ninth-rank soul Tinder!]

A notification appeared.

“Not bad.”

A smile appeared on Jiang Li's face as he thought, ” “If there's a chance, I can go to the 'cultivation world'.”

At this moment.

The Fox Prince of the Starfall Empire led the Army and passed by Jiang Li's mechanical Army. He glanced at Jiang Li and his mechanical Army and didn't stay for long.

Similarly.

Jiang Li only took a few glances.

Very quickly.

The Fox King personally went to the battlefield, and Hu yehuo led the remaining troops. The grade 9 formation could no longer be maintained, and the Army only had 500 billion soldiers left.

“Your Highness, this subordinate did not do his job well. Please punish me.”

Hu ye Huo lowered his head.

“i underestimated the enemy’s power, which led to the army’s defeat. then, we were ambushed by the army of the witch-praying dynasty, which caused us to suffer a great loss.”

Yawen bowed. I am willing to accept my punishment.

“.....”

LAN ti lowered his head and didn’t dare to say a word.

“The three of you are truly useless. You can’t even handle such a small matter.”

Naturally, the Fox Prince scolded them mercilessly, ” you were even ambushed by the witch-praying Empire. If I didn’t receive the tip-off and rush over in time, you wouldn’t even be alive.

“.....”

Hu yehuo and the others lowered their heads in silence as they were scolded.

In addition.

Tanwu Wen also led the Army of the witch praying Empire to meet up with Prince long.

“Your subordinate greets the Prince.”

Tan wuwen and the other two bowed to Prince long.

“Yes.”

Prince long nodded. you’ve done well.

“Thank you for your praise, Prince.”

The tanwu vein and the other two said simultaneously.

“Hu Xing,”

prince long raised his head and looked at the fox king, hu xing, and shouted, “It’s been two to three years since we’ve arrived in this universe,”

“It’s time for a conclusion today.”

“.....”

Hu Xing was silent for a while. His face didn’t change as he said, long Heng, it’s been two to three years. I believe you’ve already explored the entire solar system.

there are no extraordinary resources in the entire solar system.

“Is it worth it to start a war with me for such a barren land?”

“hahahahaha!”

Prince long Heng laughed out loud, his eyes burning with battle intent as he shouted, of course it's worth it. The solar system is indeed a barren land. There's nothing worth fighting for.

“But,”

the Army of the Starfall Empire is our resource. After we destroy you and refine your corpses, we will have enough resources and military merits to ‘fill our stomachs’.

“That means there's nothing to talk about.”

Hu Xing took a deep breath and raised his head. The fog around him dissipated, revealing his true appearance. He was a handsome young man in green.

Of course.

although he looked like a young man, his real age was probably more than ten thousand years old.

“How arrogant.”

Hu Xing waved his right hand and the folding fan in his hand changed into a green heavenly halberd. There was a five-clawed flood Dragon winding around the halberd.

It was very powerful.

“All troops, hear my order!”

Hu Xing waved his heaven scorcher halberd and shouted, “Set up the formation and prepare for battle.”

“Yes!”

“Yes, sir!”

” set up the formation!!! ”

“.....”

Buzzzzzz! Buzzzzzz! Buzzzzzz!

Battle cries rang out.

the army formation changed, and the murderous aura of the army surged. the energy of the universe also formed waves and gathered. the trillion-strong army set up a level 9 army formation.

“Hahahahaha!”

long heng laughed wildly, ” hu xing, today is the day you die. ”

boom!

The power shook.

Long Heng waved his hand and clenched his right hand in the air. A huge black blade appeared. The blade trembled and let out a blade cry, like a Dragon’s Roar.

The shadow of a five-clawed flood Dragon appeared on the blade.

“All troops, hear my order!”

long heng roared and gave the order, ” set up the formation and kill the enemy. ”

“Yes!”

“Kill!”

“.....”

“Rumble!”

The space was shaking.

The murderous military Qi rumbled and seemed to cover the starry sky. It swept in all directions and formed a vast Grade 9 army formation. The two armies faced each other.

The battle was about to start.

“Master.”

Shua!

Jiang Li, who protected Zheng Qishui and the others and came to Jiang Li's side. His face was pale and he was badly injured. After taking some healing pills, he recovered a little.

this is the best time. Why don't we take advantage of the fact that the war between the Starfall Empire and the witch-praying Empire is going on and they won't have time to care about us? let's leave this place first.

Wyke suggested.

Jiang Li's Black Star Troopers had already cleaned up the battlefield. They collected all the resources and moved them into the warehouse of the warship.

“Leave?”

No. Jiang Li shook his head and said in a deep voice, ” “Why should I leave? The Starfall Empire destroyed my earth, and they will have to pay for it with their lives.”

furthermore, I’ll be able to obtain a huge amount of resources if I annihilate them.

Chapter 695 Promotion

“But, this Yingluo ...”

Wyke’s expression was one of shock and fear, ” master, that’s the Army of Two empires, and there’s even a Prince in charge. There are 15 type 9 powerhouses in both armies.

“Plus,”

“They also have a Grade 9 army formation, so how can we win? It’s impossible to win.”

I’m going to lose, ” Jiang Li said. how do you know I’m going to lose? ”

“GE! GE! GE!”

jiang lijun called out softly. he had already regained his senses, but he still found it hard to accept the change.

The five soldiers stood behind Jiang Lijun and looked at Jiang Li with respect.

At the same time.

There was also a deep sense of gratitude.

They were very clear.

If it wasn't for Jiang Li, they would've died in the Earth's explosion. They wouldn't have been able to witness such a war.

"If we really can't, let's just leave."

"where there's life, there's hope," said jiang beiguo.

"Yup,"

Jiang Lijun nodded and said, "The difference in military strength is too great."

"Dad, second brother."

jiang wenxin shook her head and said, "i think we should trust big brother."

"....."

Zheng qiushui did not say anything.

"Hehe."

Jiang Li smiled but didn't say anything.

"Brother."

"i've already been injected with the gene strengthening fluid you gave me," jiang lijun shouted. "according to what you said, i've already reached type 7."

“Let me help you.”

“yes,”

Jiang beiguo nodded. and me.

“I appreciate your kind intentions, but you’re too weak. Even if you’ve reached the seventh step, you’ve never experienced such a battle before. You have almost no combat experience.”

No. Jiang Li shook his head and refused. so, just stay behind Wyke and protect yourself.

“Yes, yes.”

“don’t give big brother any more trouble,” jiang wenxin nodded.

Buzzzzzz!

Jiang Li waved his right hand and took out the level-nine soul Tinder. It was floating in his palm. The nine-colored light was extremely bright.

Obviously.

Jiang Li was going to use the level-nine soul Tinder that he had just gotten.

To tell the truth.

If Jiang Li could kill all the armies of the two imperial dynasties, he would get a huge amount of soul Tinders. Even the three special meches might be able to fill up all his evolution progress.

at that time.

Jiang Li would have a level ten mech.

Jiang Li wouldn't give up such a rare opportunity.

Shua!

with a thought.

Jiang Li opened the Dominator panel. He was going to use the level-nine soul Tinder and ten trillion energy points to upgrade the level-eight warship to level-nine.

“Upgrade.”

Without any hesitation.

Jiang Li used a level-nine soul Tinder and ten trillion energy points. He turned into a beam of light and merged into the xjzbzzyj01 space combat research ship.

The light flickered.

A few seconds passed.

The promotion was completed.

“Continue.”

Buzzzzzz! Buzzzzzz!

Jiang Li used another 1.4 trillion energy points. The light on the warship kept flashing and the warship was upgraded to perfected-stage level nine.

the information was displayed.

...

[interstellar troop type: interstellar battleship-antimatter energy source]

[rank: complete rank-nine]

[military rank: Marshal-planet level]

[No.: Xjzj01-FWZNY]

top-tier level 8 skills: top-tier level 8 mechanical intelligence, top-tier level 8 locked-on strike, top-tier level 8 space movement, top-tier level 8 interstellar combat, top-tier level 8 firepower cover, top-tier level 8 energy light shield

top-tier level 9 skills: top-tier level 9 Black Star Trooper research and combat, top-tier level 9 antimatter-powered space annihilating cannon

[antimatter energy source: Pi Xiu (omitted)]

[machinery: Jian Jia (omitted)]

advancement requirements: one level-ten soul Tinder, one million energy points ”

Xjzbzzzyj01, the interstellar combat research ship, had been upgraded to the peak of level 9, and the information and skills of the interstellar warship had undergone a massive change.

The format of the information introduction was exactly the same as Wang Gang's.

...

Furthermore ...

He also had the military rank of ‘Marshal-planet level’, had mechanical intelligence, was able to command meches, and even had an’ antimatter energy reactor’.

not only that.

it had also added a powerful active attack skill,’antimatter-powered interstellar obliteration cannon’. as for how destructive it was, one could guess from wang gang’s performance.

It was definitely extremely powerful.

Plus ...

The ‘top-tier level 9 Black Star Trooper research combat’ skill could use the ‘energy of the universe’ to create millions of level 9 Black Star Troopers. Their combat power would increase greatly and they would be more suitable for interstellar warfare.

interstellar battleships, hear my order. Immediately produce a million Black Star Troopers.

go! Jiang Li ordered.

“Yes.”

The interstellar warship’s mechanical intelligence responded to Jiang Li.

Buzzzzzz! Buzzzzzz! “whoosh!!!”

The antimatter energy reactor was operating at full power, producing a black hole-like effect. It crazily devoured the surrounding cosmic energy, forming a vast vortex.

It shook the surrounding starry sky.

It could be seen.

The size of the interstellar warship had been expanded by ten times.

There was no change in its appearance.

It was ten million meters long and two million meters wide and tall.

“Rumble!”

Such a commotion was truly too vast.

One had to know.

this was the creation of a million level 9 black star troopers.

it was not a small amount.

The amount of cosmic energy required was simply too much.

It caused a huge phenomenon.

The energy of the universe surged over, forming a huge tornado. Countless meteorites were turned into ashes by the tornado, wreaking havoc in the surrounding starry sky.

“What’s going on?”

Shua!

The war between the Starfall Empire and the witch praying Empire had just started, and the grade-9 formations of both sides overlapped each other, and the two armies were fighting each other.

BOOM! BOOM!

Hu Xing and long Heng fought. They were extremely strong, and their cultivation had reached the perfected stage of tier 9. With the power of the tier 9 military formation and the blessing of the Empire's fate, their strength rose.

the attacks collided, shaking the space.

the strange movement of cosmic energy attracted their attention. after exchanging a blow, they quickly separated and looked in the direction of the strange movement.

Hu Xing and the others saw Jiang Li and the others.

“What happened?”

Hu Xing frowned. Even Hu Xing could feel the danger from such a huge energy fluctuation. It was not an ordinary sound. It was definitely not something that an ordinary existence could do.

“Who are they? What identity? What's his background?”

Long Heng's gaze was serious.

“your highness.”

shua!

Hu ye suddenly broke away from the tanwu pattern's entanglement and his body charged up. He quickly arrived in front of Hu Xing and reported, “They are the enemies who intruded into our territory and killed seven of our patrolling elven soldiers.”

“The other party’s background is very mysterious.”

“when they were surrounded by our grade 9 army formation ‘dead space’, victory was already in our hands, and killing them was only a matter of time.”

“However, I don’t know what method they used, but they were actually able to directly teleport their troops into our rank 9 military formation, ‘dead space’.”

moreover, their Army is very strange. It’s as if they are immortal. Only by destroying the core warships can we kill them.

“There’s actually such a thing.”

hu xing’s expression turned slightly serious, ” to be able to teleport an army into the army formation space, this method is extraordinary. it probably surpasses the three lower imperial dynasties. ”

“There’s one more important thing.”

Hu ye suddenly quivered and said,”when we were retreating, the other party actually tore apart time and space and created a ‘plane channel’..”

“I thought he would summon the Army again, but I didn’t expect him to close the passage again.”

“What did you say?”

Hu Xing’s eyes opened wide and he couldn’t believe it, ” they built a plane channel? ”

“It’s true.”

Hu yehuo nodded.

“Si si si ...”

Hu Xing gasped in shock, but soon, greed appeared on his face. He stared at Jiang Li and the others.

“To be able to create a ‘plane channel’ out of thin air, and to be a human.”

“An official member of the immortal court,”

“The other party is an official member of the immortal court.”

“Hahahahaha!”

hu xing laughed towards the sky, incomparably excited, ” the heavens are really helping this king. the heavens are helping this king. i’m only an official member of the immortal court at the intermediate stage of the ninth rank. such a huge meat pie has actually fallen into my lap. ”

“Hahahahaha!”

Hu Xing couldn’t help but laugh out loud again, ” as long as I kill him, just the reward given by the demon race bloodline immortal court is enough for me to break through to level 12 in my lifetime.

“All soldiers, hear my order!”

Hu Xing took a deep breath and shouted, leave the battlefield immediately. Follow me and destroy the Army ahead.

Hu Xing’s speed increased.

His figure disappeared from his original spot and teleported.

He charged at Jiang Li as fast as he could.

At the same time.

The Starfall Empire's Army formed into a Grade 9 formation and followed closely behind.

On the other side.

Almost at the same time.

long heng had also learned everything from tanwu wen.

one had to know.

tan wuwen and the others led the army to ambush on the path that hu yehuo and the others had to take when they retreated, so they naturally saw everything jiang li did.

“don't even think about it,”

kill him! long Heng shouted and moved forward quickly. He teleported and quickly caught up with Hu Xing. The two of them were almost side by side, ” his life is mine.

“You?”

Hu Xing snorted.

While they were talking.

Long Heng and Hu Xing were close to Jiang Li at the same time.

“Be careful, master.”

Wyke shouted.

“Die!”

Hu Xing made his move. He waved his right hand and directly summoned the Imperial Jade seal. He used his killing move, ” the Imperial Jade seal descends, exterminate the heavens and kill the earth, exterminate!

BOOM!

There were no unnecessary moves.

Hu Xing poured all of his energy into the Imperial Jade seal. The Imperial Jade seal expanded in the wind and was surrounded by three five-clawed flood Dragons. It was extremely powerful.

The Jade seal fell from the sky.

Space was sealed.

it was aimed at jiang li.

“kill!”

Long Heng did not want to be outdone and attacked at the same time. He also summoned his Imperial Jade seal and used his strongest killing move. Imperial Jade seal Divine Blade, the blade severs heaven and earth, slash!

BOOM!

Long Heng slashed with all his strength. The blade light tore the starry sky apart and the power of the Imperial Jade seal was integrated into it, turning into a destructive blade light.

It was like a Black Galaxy.

space was sealed.

He slashed at Jiang Li.

Two ultimate killing moves.

They landed at the same time.

“!!!”

Jiang beiguo and the others widened their eyes and felt that their divine souls were shocked, unable to move.

“A level 9 Black Star Trooper unit! Mobilize!”

jiang li waved his right hand.

“Whoosh!!!”

The energy fluctuations in the universe calmed down.

The doors of the interstellar battleship opened rapidly.

Shua! Shua! “Whoosh!”

A million level 9 Black Star Troopers swarmed out. They were in black mechas with purple electronic eyes and a height of 999 meters.

They all stood in front of Jiang Li.

They quickly launched a frontal assault.

the millions of level 9 black star troopers raised the huge sniper cannons on their backs at the same time, aimed at hu xing and long heng, and fired.

BOOM! BOOM! BOOM!

the beams of light that contained antimatter energy formed a bright path of light, illuminating the dark universe as they bombarded.

“what is this?”

hu xing and long heng’s eyes widened.

Chapter 696 intense battle

“Rumble!”

An incomparably huge explosion quickly resounded through the starry sky in all directions.

The millions of energy light beams that contained antimatter energy covered a very wide area and even covered all directions. They bombarded and collided with the two attacks from Hu Xing and long Heng at the same time.

Kachaa! Kachaa!

Roar! Roar!

a sorrowful dragon's roar rang out as the energy beams pierced through the starry sky. at the same time, they tore apart hu xing's imperial jade seal and long heng's vast saber radiance.

It exploded with a vast power.

It even affected half of the solar system.

“No!”

Hu Xing panicked and couldn't help but scream, ” grade nine! This Suan ni, this Suan ni, they're all ninth-rank!”

“Impossible! How is this possible?”

Long Heng's entire body trembled, and his face was as white as a sheet.

Fear!

Incomparable fear!

At this very moment.

hu xing and long heng truly felt the fear of facing death. millions of tier 9 experts launched their strongest attack at the same time, causing the space to shake violently.

Kachaa! Crack! Crack!

vaguely.

the sound of space shattering could be heard.

“ah!”

pfft!

Hu Xing vomited blood and let out a shrill scream. The Jade seal was shattered and exploded into Starlight. The terrifying impact sent Hu Xing flying.

At the same time.

Long Heng’s vast blade light exploded and broke into fine blade Qi, which spread all around. Long Heng coughed up blood and his body flew backward, the long blade in his hand falling out.

“Prince!”

“Something has happened to His Highness the Prince!”

“This Suan ni, this Suan ni”

“Hurry!”

buzzzzzz! Buzzzzzz!

It was a critical moment.

The armies of the Starfall Empire and the witch praying Empire charged forward at full speed and arrived almost at the same time. Two Grade 9 battle formations descended, protecting Hu Xing and long Heng within the battle formation space.

Bang Bang Bang Bang!

The two Grade 9 battle formations displayed their might at the same time, summoning an endless amount of cosmic energy. Their radiance was boundless, illuminating the starry sky and blocking all the remaining attacks.

Energy beams exploded, forming a series of fireworks-like scenes.

“Ah!”

A large number of living beings were screaming.

With the type 9 army formation, even though they managed to defend against all the attacks, many of the soldiers suffered from the backlash.

There were many casualties.

Shua!

[energy unit Type: Black Star Troopers-antimatter energy form]

[No.: None]

[rank: rank 9]

skill 1: level 9 interstellar combat technique

skill 2: level 9 antimatter energy combat technique

[weapon equipment: type 9 energy cold weapon, type 9 energy hot weapon]

[energy machinery: after ‘interstellar battleship-antimatter energy’ absorbs enough cosmic energy and fuses with the ‘antimatter energy’, the energy units created from the Black Star Troopers’ manufacturing pods can only perform simple combat. They are one-time consumables and will disappear when their energy is exhausted.]

“All soldiers, hear my order!”

Jiang Li’s eyes were cold. He waved his right hand and shouted, ” ” kill!!! ”

“Kill!”

” kill!!! ”

“Rumble!”

Battle cries filled the air.

Jiang Li’s mechanical Army charged forward, led by a million level-nine Black Star Troopers and followed by more than 40 billion level-seven black Star Troopers.

...

He attacked.

Bang Bang Bang!

countless energy beams, energy cannonballs, energy nuclear bombs, and so on blanketed the starry sky of the battlefield. all of them bombarded the armies of the starfall empire and the wu prayer empire.

The war broke out.

“retreat! retreat!”

Hu Xing’s and long Heng’s pupils contracted and their bodies turned cold. They felt the fear of death and shouted loudly to the soldiers, ” retreat!!!

“Quickly retreat!”

“BOOM!”

The Army formation was activated.

The two legions no longer had the courage to continue fighting. They were facing an Army of a million level 9 Black Star Troopers and 40 billion Level 7 Black Star Troopers.

Even if they had two Grade 9 Army formations, they would not be able to defend.

...

In reality.

After all, level 9 Black Star Troopers were one-time use items that were created from cosmic energy. Their combat power was very weak compared to the same level, at the minimum level of level 9.

but ...

However, their numbers had reached a million.

they used quantity to make up for quality.

“Continue the victorious pursuit.”

stop! Jiang Li shouted.

“Yes, sir!”

Wang Gang, WMS01, and the others, as well as the perfected-stage level nine interstellar battleships, led the mechanical Army, which was the mechanical Army of the Black Star Troopers.

They began to pursue and kill the armies of the Starfall Empire and the witch praying Empire at full speed.

Pfft! Pfft! Pfft!

Fresh blood flowed and splattered all over the starry sky.

A large number of soldiers fell.

the most important thing was ...

the starfall dynasty and the witch-praying dynasty's marching speed was much slower than jiang li's mechanical army. they couldn't escape at all.

"It's too fast."

Hu yehuo was shocked, "their speed is too fast.

"Damn it!"

"Detestable!"

"How can there be so many powerhouses of the ninth step?"

"....."

Tan wuwen, Yawen, and the others were also terrified.

"Hu Xing,"

Long Heng's expression was serious as he looked at the mechanical Army behind him and shouted to Hu Xing, "let's join forces. the current situation is very serious for us."

"The enemy is moving too fast, at least several times faster than us, so we can't retreat."

"At that time, even if we manage to escape, the entire Army will be annihilated."

"Join hands?"

Hu Xing was silent.

"That's right."

"Even though we have dozens of times the number of soldiers, the enemy's soldiers are all at the seventh step, and there are a million ninth step soldiers," long Heng continued.

"and if we don't destroy the mainships, these soldiers won't matter how many we kill. they'll be replenished."

"The only way now is for our two armies to work together and use the power of the stage 9 formation to break through the encirclement of the one million stage 9 soldiers and destroy the Mainship."

"This is the only way we can survive."

"If we succeed, we'll be able to get rid of that ninth level official member of the immortal court. That'll be enough even if we split the benefits equally."

"Alright!"

Hu Xing nodded. He didn't think for too long before he agreed, "long Heng, you are right. Let's work together.

"All troops, hear my order!"

Hu Xing and long Heng turned around at the same time and gave orders to the two armies at the same time. They shouted, "The enemy is advancing too quickly. They are at least several times faster than us."

"If we continue to escape, our losses will only be greater."

so, we have to let go of our past grudges and work together with the two legions to fight to the death with our backs to the water. Either the enemy dies, or we die.

kill!!!

hu xing roared and his battle cry shook the surroundings.

"All troops, charge!"

long heng roared.

"....."

hu yehuo, tan wuwen and the others exchanged glances.

"Kill!"

After that.

All the marshals shouted in unison.

"Charge!"

“Kill them.”

“Kill! Kill! Kill!”

Battle cries shook the heavens.

It could be seen.

The two legions that were retreating immediately turned around. Their morale was greatly boosted, and the two armies joined forces. They were no longer fighting on their own, but had formed a cooperation.

“Rumble!”

The two Grade 9 Army formations were set up successfully.

It formed an army formation space and trapped Jiang Li’s mechanical Army in it.

A battle to the death.

Bang Bang Bang Bang!

countless explosions were heard.

A brutal war had truly erupted.

Both sides fought.

Every second.

The battleships of the Starfall Empire and the witch-praying Empire were pierced through by the energy beams and destroyed by the energy cannons and nuclear bombs.

It became a wreckage, floating in the universe.

Similarly.

The Black Star Troopers were reduced to energy particles under the combined attack of the two armies. There were even planet-level research spaceships that were destroyed.

Time passed.

The war had entered a state of white heat.

buzzzzzz! Buzzzzzz!

From the battlefield.

A large number of soul Tinders floated up and rushed toward Jiang Li like a colorful torrent.

He had captured a large number of soul Tinders.

The harvest was huge.

Jiang Li's smile grew wider.

Furthermore ...

WMS01, SSTs01, MYL01.

three special meches.

Their evolution progress had all reached 60%.

He was still 40% away.

He would be able to advance to early tenth level.

At that time.

Jiang Li's strength would grow in all aspects.

“Kill!”

BOOM!

following a huge explosion.

Hu Xing and long Heng worked together, along with Hu yehuo and the other marshals, and the two legions 'power to cover them. They tore through the defense line of the 100000 level 9 Black Star Troopers.

After that.

Teleportation.

They charged to the front of the interstellar warship.

“Die!”

BOOM!

Hu Xing roared and his eyes turned red. His combat strength rose and the five-clawed flood Dragon appeared. It merged into Hu Xing's body and once again merged with the power of the Army.

This time.

Indeed, the two great battle formations were combined.

“The Jade seal!”

Hu Xing's hands pressed forward, and a huge Imperial Jade seal appeared. It expanded with the wind and instantly became the size of a star, smashing towards the interstellar warship.

anti-matter combat technique.

Buzzzzzz!

Wang Gang moved with his space combat technique and released his strongest skill. Antimatter energy gathered on his fists, ” double star annihilating fist!

BOOM! BOOM!

He punched out with both fists, and the fist force exploded, annihilating everything. The space around the fists seemed to be spinning, forming a collapsing scene like a small black hole.

Bang!

the power of this punch exploded.

BOOM!

Hu Xing's Jade seal exploded, and countless energy exploded, forming a vast shock wave. Wang Gang was directly sent flying.

The energy was exhausted.

The degree of damage rapidly increased.

"Recover,"

Jiang Li quickly used some energy points to restore Wang Gang.

Pfft!

Hu Xing was also sent flying. He stabilized his body with great difficulty and coughed out blood. He looked at Wang Gang, "what a powerful force. My full-power attack was actually blocked.

"However,"

Hu Xing laughed nastily, "this Prince's mission is complete.

"Imperial Jade seal Divine Blade!"

BOOM!

Long Heng jumped out from behind Hu Xing and moved in a flash, charging to the front of the interstellar warship. The power of this blade was even stronger than what Long Heng had displayed before.

the vast saber radiance was like a black galaxy. it contained the concept of nirvana and the power of the saber dao laws. it could really cut the galaxy.

"Sinking into death."

Demon God awakening.

“Purgatory of heaven.”

BOOM! BOOM! BOOM!

WMS01, SSTs01, and MYL01 rushed out at the same time and activated their strongest skills, attacking long Heng at the same time.

After that.

“Rumble!”

The attacks from both sides collided. It was as if two stars had collided, shaking the starry sky. The blade light exploded, and all the attacks were shattered. Energy shock waves spread out like ripples.

Chapter 697

“Ah!”

Long Heng screamed and vomited blood. He flew backward and stabilized his body with difficulty. He quickly took out a pill and swallowed it, refining the medicinal power to recover his injuries.

Bang Bang Bang!

At the same time.

WMS01, SSTs01, and MYL01 were also sent flying. They were badly injured and were getting more and more injured. Jiang Li quickly used up energy points to recover.

“Now!”

“Activate the Army formation!”

“Kill!”

Hu ye Huo, tan Wu Wen and the other marshals shouted in unison.

Buzzzzzz! Buzzzzzz!

The space around the Army formation shook.

The two armies added together had a total of thirteen grade-9 experts.

He activated the grade 9 army formation.

the starfall empire’s ‘space of death’ and the witch-praying empire’s ‘domain of destruction’ unleashed their power at the same time. the energy trembled and swept in all directions.

“Blade of death!”

Shua!

there weren’t many moves.

There was only one blade.

Hu yehuo and the others released all of their power and merged it into the ‘space of death’, causing an endless amount of blood-colored death Qi to gather.

In the end.

It turned into a 'blade of death'.

The blade was huge.

It was comparable to a huge star.

It was blood-red in color.

the law of death wrapped around him.

pfft! Pfft! Pfft!

In order to unleash the power of this move, the grade 9 army formation had devoured a large amount of energy, even causing a large number of soldiers to have their essence, Qi, and spirit devoured, turning them into mummies.

"Nirvana spear!"

At the same time.

tan wuwen and the others also released all of their strength, infusing it into the 'nirvana domain'. the endless black nirvana qi started to gather.

In the end.

It transformed into a 'Nirvana spear'.

the spear god was slender.

It was as huge as a vast star.

it was completely black.

The nomological laws of Nirvana wrapped around him.

Similarly.

The witch Emperor dynasty had also suffered great losses. In order to form the Nirvana spear, they had devoured a large number of soldiers' energy, causing many of them to become mummies.

Very strong!

it was extremely powerful!

It was difficult to resist.

if they were hit, the interstellar warship would definitely be scrapped in an instant.

“.....”

jiang li's expression turned serious.

“.....”

Behind Jiang Li.

Jiang Lijun and the others clenched their fists.

He was extremely nervous and nervous.

“Slash!”

BOOM!

Hu yehuo and the others took the lead to attack. They waved their hands, their faces were malevolent, and their killing intent surged. The huge blade of death slashed towards the interstellar warship.

The power of this blade was extremely powerful.

he had already reached the peak of the ninth step.

...

The blade of death seemed to have split space apart.

Kachaa! Kachaa!

The head of the interstellar warship split in half from the middle and then moved to both sides. In the center of the split, there was a pitch-black cannon barrel.

First of all ...

the ninth-rank ultimate skill 'antimatter-powered interstellar obliteration cannon' was activated.

Buzzzzzz! Buzzzzzz! buzzzzzz!

Immediately.

The 'antimatter energy' reactor of the interstellar warship was running at full power.

Accumulate antimatter energy.

The position of the muzzle.

A pitch-black energy light appeared.

...

It contained a power that made one's heart palpitate.

‘Charging begins, counting down: 10,9,8,7’

A notification appeared.

buzzzzzz!

The next moment.

The energy light shield was activated.

the skill was activated.

A pitch-black energy light shield appeared and enveloped the entire interstellar warship, forming a tough energy defense. It was a defense with no blind spots.

The skill ‘firepower coverage’ was also activated.

Bang Bang Bang Bang!

Countless cannonballs and light beams bombarded the blade of death, causing countless explosions, but they were unable to block the power of the blade of death.

“Nirvana spear!”

BOOM!

Immediately after.

Tan wuwen and the others shouted, and the pitch-black spear of extinction descended. It followed closely behind and pierced toward the interstellar warship. The radiance on the tip of the spear formed a sharp spear radiance.

The door of the battleship opened.

Many level 9 Black Star Troopers rushed out.

there were not many of them.

Less than 1000.

Whoosh! Whoosh! Whoosh!

The 1,000 level 9 Black Star Troopers fired their antimatter beam cannons at the blade of death and the gun of extinction.

It created a series of explosions.

The attack was temporarily suspended.

this caused the blade of death and the gun of extinction to stop falling for a few seconds.

it was these few seconds.

“Charging complete!”

A notification appeared.

“.....”

Jiang Li's eyes lit up. He clenched his fist and waved it down, shouting, ” “Fire!”

BOOM!

There was a loud explosion.

kachaa!

“BOOM!”

The surrounding space was shaking, and the interstellar battleship was also shaking violently. The terrifying recoil force produced by the antimatter energy interstellar obliteration cannon caused the interstellar battleship to fly back hundreds of thousands of meters.

At this moment.

The entire starry sky.

The entire battlefield.

one could only see the extremely eye-catching beam of light containing antimatter energy. it annihilated and destroyed everything. it was extremely powerful.

In that instant.

The annihilation cannon focused on the star-like blade of death, and the blood-red blade light slashed against the annihilation cannon. The death law and the power of annihilation collided.

Bang Bang Bang Bang!

Countless explosions rang out, and shockwaves spread out.

“ah!”

Hu yehuo and the others shouted out loudly, using all their strength.

“Kill!”

boom!

The gun of extinction also fell and bombarded the annihilation cannon. The laws of extinction and death clashed with the power of annihilation generated by the antimatter energy at the same time.

Kachaa! Kachaa!

Vaguely.

The space couldn't withstand it, and a mirror-like shattering sound was produced.

“This bi an ...”

Hu Xing's eyes widened as he stared at this scene. He said in fear, how can this warship still have such a powerful attack method? ”

Long Heng took a deep breath, his body turning cold. Fear and the desire to retreat rose in his heart, ” not only can he create so many ninth-rank death Warriors, but he also has such a powerful attack.

“How do we fight this? How can we possibly win!”

“BOOM!”

In the end.

The blade of death and the gun of extinction exploded at the same time, and the light beam of the annihilation cannon also exploded. The attacks of both sides were shattered at the same time, and the dazzling radiance was as dazzling as the sun.

It was hard to describe.

It was as if endless shock waves were spreading out.

An empty domain was cleared out.

“Ah!”

Pfft! Pfft! Pfft!

Countless living beings screamed.

The soldiers of the two armies suffered a terrifying backlash, and blood even flowed out of their seven orifices as they fell backward, lifeless.

Hu yehuo and tan wuwen were also bleeding from the corners of their mouths. They staggered and were forced to retreat. They had also suffered from the backlash of the battle formation and had suffered serious internal injuries.

Fortunately ...

their cultivations were all at tier 9, so they resisted the backlash of the tier 9 army formation.

bang!

The interstellar warship's cannon exploded.

It was as if his chest had exploded.

Damage increased.

“Recover,”

buzzzzzz!

Jiang Li quickly used up energy points to repair the damage of the interstellar warship.

kill!!!

boom! BOOM! BOOM!

Jiang Li waved his hand and gave another order. The mechanical Army of the Black Star Troopers charged into the enemy’s Army.

It was as if a flower had bloomed from the middle.

The battle was tragic.

One had to know.

In order to destroy the level-nine interstellar warship, Hu Xing and long Heng tried their best, but they failed in the end. They were even counterattacked by Jiang Li.

heavy losses.

This was especially so when the last two great army formations had been completely unleashed, but they had been destroyed by the interstellar battleship’s strongest ‘antimatter-powered interstellar obliteration cannon’.

the backlash from the battle formation.

It also caused a large number of soldiers from the two legions to die.

The scale of victory was leaning towards Jiang Li.

Buzzzzzz! Buzzzzzz!

WMS01 and the others had absorbed a large number of remnant souls, and their evolution progress was gradually increasing. They had all reached 70%.

Time passed by unknowingly.

The war had unknowingly continued for a day and a night.

More and more soldiers died. Even the level-nine formations of the two legions were affected. Tens of thousands of Jiang Li's battleships were destroyed.

This caused the number of Black Star Troopers to drop to 30 billion.

It was less than 40 billion.

Of course.

The losses of the two legions were even greater.

More than half of the soldiers died.

Furthermore ...

there were also many grade 7 and grade 8 generals who had fallen.

“damn it!”

Hu Xing and long Heng’s faces were extremely gloomy. They couldn’t see any hope of victory at all. If they couldn’t destroy the ninth-grade flagship, they couldn’t win.

Hu Xing and long Heng tried to break through the mechanical Army to kill Jiang Li, but Jiang Li was already at the mid-stage of level nine and he could use ‘dominating mech soldier’ to control Wang Gang and the others.

so,

Their plan had failed.

not only did he fail.

Jiang Li even took the chance to fight back and killed a level-nine general.

“now that things have come to this, we can only do this.”

Hu Xing took a deep breath and took out a Silver rhombus-shaped crystal. There was a mysterious time and space totem rune inside that was shining.

“You’re so silly!”

When long Heng saw this, his pupils contracted and he shouted, ” are you crazy? you want to activate the ‘time and space crystal’? ”

“What else?”

Hu Xing shouted,”if this continues, not to mention the entire Army being annihilated, I’m afraid we will also lose our lives. Don’t tell me you still haven’t realized it?” The other party wants to capture us all in one fell swoop.”

“But Yingluo”

Long Heng gritted his teeth. if you activate the ‘time and space crystal’, the fluctuations in time and space will probably alarm the superpowers of this universe.

“When the time comes, Yingluo”

“That’s enough,”

Hu Xing snorted coldly, ” don’t forget that the other party had also opened a ‘plane channel’ before. Naturally, it would also cause a spacetime fluctuation. We might have already been targeted by the superpowers of this universe.

‘time and space crystal’ activated.

Buzzzzzz!

Hu Xing shouted and formed a seal with his hands. A totem rune was formed and merged into the ‘spacetime crystal’ in his hand. The ‘spacetime crystal’ burst out with a dazzling and resplendent silver light.

“Damn it!”

Long Heng also took out the spacetime crystal. It was also shining with silver light, and there was a mysterious spacetime bloodline rune inside.

“Activate,”

Buzzzzzz!

Long Heng formed a seal, and his bloodline power boiled, forming a bloodline rune. It merged into the space-time crystal and activated it.

A dazzling radiance bloomed.

Two silver balls of light appeared.

It was extremely resplendent.

Kachaa! Kachaa!

the space was being torn apart.

At the same time.

in a galaxy several galaxies away from the milky way.

In the starry sky.

A round universe ship was floating.

Di di di di di

target found, target found.

“Confirm the universe coordinates.”

“Begin cleaning.”

the universe ship’s voice had just finished.

Buzzzzzz!

Suddenly.

The belly of the ship split open, and a palm-sized card appeared. It flickered with light, and with a flash, the card disappeared.

He entered the space.

In the next instant.

The location of the solar system.

The palm-sized card appeared in the sky above the sun.

After that.

it was activated.

With the sun as the center.

The dimension began to collapse.

At first, it began to collapse at the speed of sub-light and spread out in a regular circle.

Chapter 698 Escape

The collapse of the dimension gradually collapsed from a three-dimensional space to a two-dimensional space. The movement caused was extremely huge, and even the energy of the universe was cleaned up.

“this thing ...”

” dimensional weapon? ” jiang li noticed the change and quickly turned around. the scene in front of him made his pupils shrink and he couldn’t help but be shocked. ” dimensional weapon? ” Damn it, why did such a thing suddenly appear!”

“Retreat!”

Jiang Li didn’t hesitate at all. Facing such a ‘dimensional weapon’, Jiang Li didn’t have any way to deal with it.

One had to know.

it was impossible for a three-dimensional being to survive in a two-dimensional world.

Unless he transformed himself into a two-dimensional being.

so,

The only chance.

it was to escape the range of the ‘two dimensional’.

Shua! Shua! Shua!

with a thought.

jiang li immediately gathered wyke, wang gang, wms01, ssts01, myl01, his parents, his brother, and his sister.

“GE! GE! GE!”

Jiang Lijun took a deep breath. He had also seen the changes and collapse of the sun. He was extremely frightened. that thing, is it really a Suan ni? ”

“I don’t have time to answer your question now.”

stop! Jiang Li shouted.

interstellar warship, immediately send us to the control room.

go! Jiang Li ordered.

“Yes.”

buzzzzzz!

Xjzj01-FWZNY interstellar warship-the antimatter energy responded to Jiang Li. A light beam shot over from the head.

It covered Jiang Li and the others.

Shua!

The light flickered.

Jiang Li and the others disappeared into thin air.

The scene changed.

Jiang Li and the others came to the ‘cockpit’ of the interstellar warship. It was very large and the walls around them had changed into a transparent light screen.

This way ...

Jiang Li could see the outside from the ‘driving cabin’, but the outside couldn’t see what was going on inside.

Wuwuwuwuwu!

beams of light were projected from the surroundings.

They gathered together.

it formed a three-dimensional image.

What appeared in front of Jiang Li was the mechanical intelligence of the ‘interstellar battleship’. It was a middle-aged man with a National face and blue light.

he was wearing a military uniform.

“chief sovereign.”

The mechanical intelligence bowed.

“Yes.”

” okay. ” jiang li nodded and looked at the sun.

The scene that entered his eyes

The scorching sun exuded a terrifyingly high temperature that was enough to burn everything. However, under the influence of the dimensional collapse caused by the ‘card’, no matter how high the temperature was, it was useless.

The scene of the collapse was horrifying.

He shuddered.

One had to know.

The diameter of the Sun was about 1.4 million kilometers, and the speed of the dimensional collapse was spreading out in a regular circle at the initial speed of sub-light.

In other words ...

The whole process took less than three seconds.

the sun disappeared.

From afar.

It had already become a huge two-dimensional picture.

Two-way foil Kasaya

...

dimensional weapon? ” Jiang Lijun asked in shock, ” is there really such a terrifying civilization in the universe? ” But why would they suddenly attack the solar system?”

“.....”

Wyke looked puzzled. He couldn't understand the meaning of the words 'two-way foil' and 'dimension reduction strike' that Jiang Lijun said.

However ...

Wyke looked at the terrifying sun, which had turned into a two-dimensional picture without a sound. Such a great force terrified Wyke.

It was too terrifying.

“Chief sovereign.”

at the speed of the dimensional collapse, it will spread to where we are in about ten minutes, ” the mechanical intelligence reminded. if we are covered by the dimensional collapse, with our current strength, we can’t resist the destructive power of the dimensional collapse.

“This is already a method that is ‘close to Dao’, ”

“Yes.”

I know. Jiang Li came back to his senses and said, ” get ready for ‘space movement’ immediately. Teleport as far as possible and leave the solar system.

...

“yes.”

The mechanical intelligence replied.

‘space movement’ activated.

The mechanical intelligence spoke in a mechanical voice, ” “Antimatter energy reactor on full power. Charging begins. 60?59?58?57.....”

The countdown began.

One minute!

“Is that really a dual-directional foil?”

Jiang Li still couldn’t believe it. this kind of ‘universal weapon’ has appeared. Which civilization in the universe sent it? ”

Jiang Li was deep in thought.

He was carefully recalling in his mind.

In reality.

Not long ago, when Jiang Li opened the plane channel and controlled the Dominator panel, he felt ‘danger’ and ‘fear’. It was an instinctive reaction.

In other words ...

When Jiang Li used these abilities several times, he had already leaked his aura and was sensed by the Super civilizations in the universe.

however ...

Jiang Li’s aura was extremely weak, and he quickly closed the plane channel when he sensed the ‘danger’.

so,

The Super civilizations in the universe couldn’t determine Jiang Li’s universal coordinates in such a short time.

However ...

Hu Xing and long Heng had used the ‘time and space crystal’ one after another, completely exposing their location. Their coordinates had been completely confirmed by a super civilization in the universe.

Immediately after.

The ‘dimension reduction strike’ was coming.

They were immediately cleaned up.

On the other side.

Hu Xing and long Heng were also shocked. They looked at the scene of the sun's destruction and cold sweat appeared on their foreheads. Their entire bodies trembled and they clenched their fists.

“This ... This ... This ... This ...”

hu xing's tone was trembling.

“We're finished, Yingluo.”

Long Heng screamed, “I knew it! I knew it! We can't use the spacetime crystal! We can't use the spacetime crystal! It will completely expose our whereabouts!

heavens, this kind of technique is close to the Dao, close to the Dao!

Fear!

He was trembling!

His heart was filled with sorrow!

“.....”

Hu yehuo and tanwu Wen, as well as the countless generals and soldiers of the two armies, looked at the destruction of the sun and the collapse of the dimension with despair in their eyes.

A sense of powerlessness and despair emerged in his heart.

“Hurry up and close the ‘tunnel’.”

Long Heng roared.

Obviously.

Their location had been completely exposed. If they continued to open the ‘passageway’ and even brought in more armies and experts from the Empire, it would only cause more casualties.

One had to know.

The ‘level’ of this ‘plane universe’ was not inferior to that of a ‘Super Fantasy world’. It was definitely a terrifying Supreme existence comparable to the ‘immortal court’.

Even if it was a little weaker than the ‘immortal court’, it was still not something a mere ninth-stage imperial dynasty could deal with. It was likely that a sneeze from the other party could destroy the entire imperial dynasty.

they were on completely different levels.

so,

They had to close the ‘passage’, or it would bring a disaster to the Imperial court.

conquering other ‘planes of the universe’ and ‘worlds’ often brought great benefits, but at the same time, it was also full of unknown predicaments and dangers.

In the history of the ‘Super Fantasy world’.

Many ‘imperial dynasties’ had encountered terrifying dangers during their conquest of the myriad worlds, which had led to the destruction and destruction of the entire imperial dynasty.

Of course.

These unknown and terrifying dangers.

They might have encountered a Supreme existence, or they might have encountered a powerful civilization, or they might have been dragged into a strange realm.

There were countless risks.

It was hard to predict.

Buzzzzzz! Buzzzzzz!

Long Heng formed a seal with both hands, and the totem runes interweaved and fused into the torn space-time. The silver space-time light dissipated, and the runes collapsed.

in the end.

The crack disappeared.

The passageway closed smoothly.

“.....”

Hu Xing's body also trembled and he quickly closed the 'tunnel'.

“What do we do now?”

hu xing looked at long heng, ” waiting for death? ”

“I’m Yingying!”

Long Heng opened his mouth and didn’t know how to answer Hu Xing. He looked at the scene of the dimension collapsing. This kind of ‘Dao-like’ means only made him feel despair.

Obviously.

It was the first time Hu Xing and long Heng had faced such a ‘weapon of universal law’. They didn’t know how to deal with it or how to survive.

In reality.

The ‘dual foil’ was not invincible.

As long as one’s speed could reach the speed of light and exceed the spreading speed of the dimensional collapse, one would be able to escape the range of the ‘omnidirectional foil’ and survive.

He had a chance of survival.

Buzzzzzz! Buzzzzzz! Buzzzzzz!

the ‘antimatter energy reactor’ of the interstellar battleship was turned on at full power. rays of light appeared on the huge battleship and covered the entire body of the battleship.

“Chief sovereign.”

Yes, sir. the mechanical intelligence raised its head and reported, ” the energy has been charged. We can teleport at any time.

“Good Yingluo.”

Jiang Li took a deep breath and looked at the battlefield in space. More than 30 billion interstellar soldiers were fighting against the two legions. Countless creatures were killed.

only a minute had passed.

with the speed of the ‘dimensional collapse’, it would take about nine minutes to reach jiang li, but jiang li was worried that the super civilization in the universe would come in person.

in addition.

A level 7 ‘planet-level black Star Trooper combat research Starship’, even if it activated’ teleportation ‘at full power, could only reach sub-light speed.

so,

He couldn’t take the 30000 or so ‘planet-level space combat research spaceships’ with him anymore. He had to leave them here. Jiang Li didn’t want to leave them here. After all, he had used up more than seven million trillion energy points.

“Teleport.”

let’s go! Jiang Li ordered the interstellar warship without any hesitation.

“Yes.”

The mechanical intelligence replied.

“Whoosh!!!”

Immediately.

The space was distorted, creating a vortex and opening up the space. The 'interstellar warship' drilled into the space like a Loach and disappeared.

The next moment.

The 'interstellar battleship' was teleported a light year away. It was as if it had already left the 'solar system' and entered the boundless universe.

“We'll run, we'll run!”

Jiang Li Jun was stunned. He looked behind him. With his eyesight as a rank-7 life form, he could naturally see the solar system in the distance. have we really left the solar system? ”

“that's right.”

” teleport, ” jiang li said. ” interstellar battleships, continue teleporting. ”

” master, we can't teleport for the time being. we have to wait for the 'antimatter energy reactor' to cool down and recover its energy before we can continue to charge and teleport. ”

The mechanical intelligence replied.

“recover,”

buzzzzzz!

Jiang Li used some energy points to restore the power of the interstellar warship and the cooldown. He ordered, ” continue the teleportation.

“Yes.”

the mechanical intelligence replied.

The charging countdown began again.

A minute later.

“Whoosh!”

The interstellar battleship once again entered space and teleported away. In the blink of an eye, it was teleported to a light year away.

“Not enough, far from enough.”

teleport! Jiang Li shouted. keep teleporting!

Chapter 699 Great

“Teleport!”

.....

teleport!!

.....

teleport!!!

.....

buzzzzzz! Buzzzzzz! “Whoosh!!!”

The interstellar battleship carried out ‘spatial teleportation’ again and again, drilling into space, and each time it teleported, it would travel a distance of one light year.

To tell the truth.

Jiang Li didn’t know how many times he had been teleported.

Unknowingly.

as they were teleported again and again ...

Jiang Li had lost his sense of direction in the universe.

“.....”

meteorites. Jiang Li looked around. All he could see was the dark and quiet universe and the floating meteorites.

Coldness and emptiness filled his heart.

“Where is this place?”

Jiang Lijun and the others opened their mouths.

Shua! Shua!

At this moment.

jiang li received a lot of notifications and noticed that his energy points were increasing rapidly. it had increased by more than three million trillion points.

“Yes.”

energy points? ” Jiang Li was stunned for a moment. After he realized it, he realized that it was because all the level-seven planet-level black Star Troopers ‘combat research ships were destroyed and the energy points were recovered.

“Have they all been destroyed?”

Jiang Li turned around and looked behind him, but he couldn’t see the solar system anymore. He might not even be looking in the direction of the solar system.

After all ...

jiang li didn’t even know where he was in the universe.

However ...

Jiang Li was sure.

he must still be in the milky way.

One had to know.

The diameter of the Milky Way was 100000 light years. Jiang Li couldn’t have been teleported 100000 times, so there was a 90% chance that he was still in the Milky Way.

On the other side.

Not long after Jiang Li escaped from the solar system.

It was about five minutes later.

At the edge of the solar system.

Around Pluto.

“.....”

Buzzzzzz! Buzzzzzz!

Hu Xing, long Heng, Hu yehuo, tan wuwen, and the other nine-star generals, as well as the six rank nine Deputy generals, appeared.

“Escape, escape, escape, escape”

Hu Xing and the others turned back and looked at the place behind them. The scene of the dimensional collapse spread to the surroundings. Hu Xing and the others revealed a look of joy after surviving a disaster.

“Too Yingluo, too good Yingluo”

hu xing and the others couldn't help but cheer.

“It's just that he's angry.”

hu yehuo opened his mouth, his expression was dark,”i'm afraid all the soldiers are dead ..”

“Ai, ai, ai, ai.”

the nine-star generals sighed.

Obviously.

Jiang Li escaped from the solar system through space teleportation, which inspired Hu Xing and the others. They recovered from their fear and seized the chance to survive.

Hence.

They immediately took out their ‘one-time space teleportation tokens’, which were produced by their respective immortal courts and could teleport a distance of half a light year.

However ...

...

The single-use teleportation token could only take a few creatures away. They could only let Hu Xing and the others escape. The soldiers couldn’t take them away.

Finally.

hu xing and the others had escaped, but they left the two legions there.

At this moment.

The Prince of the Silver Moon Empire, which was stationed on Pluto, had appeared because of the silver-armored female Prince. Behind her stood three late-stage rank nine marshals.

“Hu Xing, long Heng,”

what are you doing here? ” the female prince frowned.

“Silver wonder orchid.”

Hu Xing was stunned for a moment. After he reacted, he said, mind your own business. I’m just giving you a kind reminder. Hurry up and run. It’s best if you run back to the ‘Super Fantasy world’. Otherwise, you’ll only die.

The female prince Yin miaolan was stunned. what do you mean? ”

“You actually didn’t notice?”

...

Long Heng was stunned for a moment before he sneered and pointed at the direction of the dimensional collapse. see for yourself.

“This bi an ...”

Yin miaolan looked in the direction long Heng was pointing at, and the scene that greeted her eyes made her widen her eyes. She sucked in a cold breath, ” how could this happen? ”

“Bastard!”

Yin miaolan reacted and scolded, ” it’s the two of you who have alarmed the Supreme powers of this plane universe!

“Is this the right time to talk about such things?”

Hu Xing shook his head, ” think of a way to escape. Do you think you can resist such an attack? ” it’s a good thing that the speed of the spread is still within an acceptable range. otherwise, i’m afraid we wouldn’t even have the chance to live.”

While they were talking.

buzzzzzz!

A spaceship had arrived through space warp and appeared outside the solar system. It then observed the solar system that was undergoing its two-dimensional transformation from afar.

At the same time.

The ship had discovered Yin miaolan and the others.

the target has been found. The target has escaped the range of the 'two-dimensional foil'. It is speculated that the target possesses' space technology 'and can jump out of the' two-dimensional space'.

“Capture it immediately.”

requesting for 'spatial cage'.

“Permission granted.”

Kachaa!

After that.

The belly of the spaceship had split open, and a transparent cube the size of a palm appeared. It was about four centimeters long.

Shua!

The 'transparent cube' disappeared.

The next moment.

he appeared above yin miaolan and the others.

Buzzzzzz!

The ‘transparent cubic block’ emitted light and then integrated into the space, assimilating the surrounding space and stripping it from the original space.

“What’s going on?”

Yin miaolan, Hu Xing, and long Heng reacted. They suddenly found that the surrounding space had undergone a huge change, as if they had left the original space.

Not only that.

The space that was ‘stripped’ was shrinking at a rapid speed.

In an instant.

It became the size of the original ‘transparent cube’.

It was a square with a length, width, and height of no more than four centimeters.

However ...

The original ‘transparent cube’ was transparent, and there was nothing inside. Now, there was Pluto and the space around it.

Yin miaolan, Hu Xing, long Heng, and the others had been reduced in size by who knows how many times. They were like dust, imprisoned in this ‘transparent cube’.

BOOM! BOOM!

Yin miaolan and the others unleashed all their techniques, transforming into their star-like Dharma forms in an attempt to break the ‘spatial cage’. However, they were unable to move it at all.

Shua!

The 'cube' flew towards the spaceship, entering the spaceship from the bottom and disappearing.

The entire captured scene.

From the beginning to the end.

To make an analogy.

it could compare the surrounding space to a huge cake, and the function of the 'spatial cage' was to cut a piece off from the huge cake.

Similarly.

Naturally, everything on the 'cake' that was cut off was taken away.

target captured. Mission completed.

” activate the 'dual-directional foil collector'. ”

Shua!

After that.

As soon as he finished speaking, the spaceship moved again. From the bottom of the spaceship, a white jade-like light appeared out of thin air. It was carved with patterns, forming a 'blood-colored flower' pattern.

A Card Book!

It was a thin card Book.

It was only three centimeters thick.

“Whoosh!!!”

The ‘CardBook’ was activated and flew out. It then released an ‘illusory’ light, which penetrated the boundary between ‘three-dimensional space’ and ‘two-dimensional space’.

It covered more than half of the solar system, which had already been two-dimensional.

kachaa!

It was as if the pause button had been pressed.

The scene that was constantly turning into two dimensions stopped.

The light gathered at the speed of light.

A few minutes passed.

It regrouped into a crystal clear ‘card’ and was bound by a ‘special dimensional force field’. It flew into the card Book and inserted itself into it.

Shua!

The card Book flew back into the spaceship.

‘omnidirectional foil’ recovery complete.

now, we’ll proceed with ‘dimension cutting’ and ‘space repair’.

“Whoosh!!!”

An indescribable power descended, acting on the solar system that was flattened. With a tearing sound, it was as if paper was being torn.

The entire two-dimensional solar system was like a piece of paper that was torn apart. It was then forcefully torn from the universe.

At this moment.

It was as if the universe was collapsing.

The area that had been torn off turned into an incomparably huge devouring domain. This was true nothingness. The surrounding cosmic matter and stars seemed to be swallowed by a black hole and tilted into the vast domain of darkness.

The scene was hard to describe.

such a scene.

If the universe could be compared to a huge balloon, a two-dimensional version of half of the solar system was like two hands squeezing a balloon. The compressed area would cause two layers of balloon skin to stick together, forming a flat area with no air at all.

now.

The spaceship of unknown origin had used an incomprehensible 'power', or 'technology', to forcibly tear down a small part of the solar system from the universe.

This way ...

It was as if the area of a huge balloon that had been compressed into a flat surface had been cut off. The air in the huge balloon would pour out at a crazy speed from the gap.

if he didn't stop them.

The balloon would be destroyed.

Of course.

The universe couldn't be compared to a small balloon.

but ...

If it wasn't fixed or stopped, it would accelerate the destruction of the universe.

Very quickly.

this 'spaceship' began to repair the hole, pulling the space around the hole and overlapping it, using its 'power' to 'repair' it.

"Repair complete."

"Return immediately."

Wuwuwuwuwu!

The spaceship disappeared into thin air, bringing with it the two dimensional space that had been torn apart. No one knew where the spaceship went, and no one knew which super civilization this 'spaceship' came from.

From the beginning to the end.

The being piloting the spaceship had never appeared.

There was only a slightly hollow voice.

Perhaps.

This spaceship did not come from any super civilization but was a ‘cleaner’ or ‘defender’ in the universe. Or perhaps, it was just a product created by a super civilization to maintain the order of the universe.

These were all unknown.

now.

the ‘solar system’ had lost its sun, and earth and many other planets had been destroyed. only the outer planets were left. without the restraint of the sun’s gravity, neptune and the other planets scattered in all directions without any pattern, beginning to wander in the universe.

It was possible.

These planets would enter another star system and be captured by other stars, having a new ‘home’.

Or they would collide with meteorites or other wandering planets and eventually be completely destroyed. The fragments would also become meteorites in the universe.

In reality.

if jiang li could witness those scenes with his own eyes, the ‘dual-directional foil’ was obviously more terrifying and advanced than jiang li had expected.

One had to know.

in jiang li's 'knowledge', if the 'omnidirectional foil' was activated, the collapse of the dimension would be irreversible and unchangeable.

In the end.

It would cause the dimension of the entire universe to drop and become a two-dimensional universe.

However ...

However, this 'spaceship' had recycled the 'omnidirectional foil' and even carried out 'dimension cutting' and 'universe repair'. All kinds of magnificent powers were unimaginable.

Chapter 700 teaching

Although Jiang Li didn't see the final result of the solar system with his own eyes, he had already expected it to be destroyed.

It was impossible to preserve it.

"my lord, do we still need to continue with the 'teleportation'?"

The mechanical intelligence of the interstellar warship asked.

Jiang Li was silent for a while. Instead of answering immediately, he asked, " "how many times have we teleported? "

my Lord, ever since we left the solar system, we've been teleported 1859 times in a straight line and crossed a distance of 1859 light years.

yes. the mechanical mind replied, " we passed through nearly 2000 galaxies.

“I know.”

Jiang Li sat down and started to think. The steel-like material under his feet turned into liquid and formed a chair.

interstellar battleships, there's no need to continue teleporting. Follow the original straight line and continue the route at the fastest speed. It's best if we can find other civilizations in the Galaxy.

go! Jiang Li ordered.

“yes.”

the mechanical intelligence replied.

in the cockpit.

WMS01, SSTs01, MYL01, and Wang Gang all stood straight behind Jiang Li like bodyguards.

Wyke silently sat down cross-legged and circulated some kind of cultivation technique. He absorbed the cosmic energy that the interstellar warship drew from the universe to recover from his injuries.

Obviously.

in order to protect the safety of jiang beiguo and the others, wyke had indeed suffered a serious injury.

In addition.

After all, Jiang Wenxin was only 13 or 14 years old. Although she had experienced the destruction of the earth and the terrifying interstellar war, she had still managed to escape death.

but ...

jiang wenxin wasn't injured, and her family was still there. even if the ground was destroyed, she wouldn't be able to see her former classmates and good friends. she wasn't too sad, but the beauty of the universe had deeply attracted her eyes.

She stood in front of the wall of the driver's seat and leaned on it, staring at the scenery in space. She could see countless meteorites flying past the window.

no matter what.

jiang wenxin had been injected with gene strengthening fluid from level 1 to level 7. she was now a level 7 lifeform. even in the universe, she could survive the environment of the universe.

With her eyesight as a rank-7 lifeform, she could naturally see the scenery of the universe.

It could be said that ...

Other than Jiang Wenxin, who was still in the mood to appreciate the scenery of the universe, Jiang beiguo, Zheng qiushui, Jiang Lijun, and the five soldiers who followed Jiang Lijun were also present.

although they had already calmed down, they were still deep in thought about the future.

He was worried.

The earth was destroyed.

The solar system was probably gone as well.

They had entered the boundless universe and were like headless flies wandering in the Milky Way. No one knew where the future would be.

in reality.

The reason why Jiang Li didn't open the plane channel now was that he couldn't bring any living beings from other worlds, planes, or universes into the Super Fantasy world.

so,

Jiang Li had to find a safe place for his family to settle down first so that he could return to the Saint peace state in peace.

He couldn't let his family stay in the control room of an interstellar warship and wander in the universe forever. When would that ever end?

However ...

It was not easy to find a civilization in the universe.

At the very least.

For Jiang Li, he could only rely on time and a little luck. He didn't have the ability to search the entire Milky Way in an instant.

Shua!

The Dominator panel opened.

At the same time.

Jiang Li checked the information on WMS01 and the others.

“it’s actually already at 99%.”

it’s okay. Jiang Li was happy, but he sounded a little regretful. I’m only one percent away from reaching the early stage of level ten. I’m sure my strength will increase by then.

“It’s a pity,”

jiang li said to himself.

the dominator panel had already been opened.

Jiang Li looked at it carefully.

The first was to browse the information on the soul Tinder.

...

[soul Tinder: 420 billion level-one soul Tinders, 50 billion level-two soul Tinders, 6 billion level-three soul Tinders, 50 million level-four soul Tinders, 1 million level-five soul Tinders, 10000 level-six soul Tinders, 240 level-seven soul Tinders, and 6 level-eight soul Tinders.]

“This bi an ...”

soul Tinder? ” Jiang Li was stunned. although we killed more than a trillion enemy soldiers in this war, I didn’t expect the number of soul Tinders to be much more than the last dynasty War.

especially the high-level soul Tinder.

“It’s simply an exponential increase.”

On second thought.

Jiang Li understood.

In the end.

The quality of Emperor dynasty's Army was much higher than dynasty's Army. The weakest soldier in Emperor dynasty's Army was at early-stage level 1, and there were many high-level experts.

Under the protection of the battle formation, not many high-level generals were killed.

However, it was still much more than dynasty's Army.

...

“Not bad.”

okay. Jiang Li smiled and nodded with satisfaction. Without hesitation, he said, ” activate the ‘soul Tinder fusion’ and fuse all level-one soul Tinders. ”

Buzzzzzz!

the fusion interface appeared.

Shua! Shua!

Immediately after.

The interface was filled with fusion notifications.

In the blink of an eye.

All 420 billion level-one soul Tinders had been fused.

He had obtained 14 billion level-two soul Tinders.

Soon after.

Jiang Li fused all 64 billion level-two soul Tinders and got 1.1 billion level-three soul Tinders. Then, he fused all 7.1 billion level-three soul Tinders, and obtained 80 million level-four soul Tinders.

After merging another 140 million level-four soul Tinders, Jiang Li got 1.4 million level-five soul Tinders. The 2.4 million level-five soul Tinders continued to merge, and Jiang Li got 24000 level-six soul Tinders.

34,000 sixth-tier soul Tinders were fused.

He had obtained three hundred and forty seventh-tier soul Tinders.

This way ...

The number of seventh-tier soul Tinders had reached 580.

Jiang Li had already unlocked all the level-seven mechanical interstellar soldiers, so he didn't have any place to use the level-seven soul Tinder.

Hence.

Jiang Li merged all 580 level-seven soul Tinders.

[fusion successful!]

.....

[fusion failed!]

.....

[fusion failed!]

.....

Most of the time, the fusion failed, and the success rate was only one in ten.

Finally.

Jiang Li got six level-eight soul Tinders.

Shua!

soul Tinder: 12 level-eight soul Tinders.

The information on the soul Tinder column had become very clean.

There was only one message.

Soon after.

Jiang Li checked the number of energy points.

Before this.

In order to build 50000 level-seven Space Soldiers, Jiang Li had used up 7.5 trillion energy points.

After that.

Jiang Li upgraded another perfected-stage level Seven planet-level black Star Trooper combat research ship to perfected-stage level eight, which cost him another 14100 trillion energy points.

Immediately after.

it took jiang li 1.41 trillion energy points to upgrade the stellar-level space soldier combat research starship to the perfected-level nine.

In addition.

WMS01, SSTs01, and MYL01, the three special meches, also leveled up from late-stage to perfected-stage level nine, consuming 2.4 trillion energy points.

In addition, he had to use tens of thousands of energy points to repair and replenish the energy of the meches during the war.

so,

jiang li had used up about 11.4 million trillion energy points in the battle with the armies of the starfall empire and the wizard praying empire.

In the end.

Due to the interference of the space civilizations, Jiang Li had to give up on the fleet and escape through space teleportation, which led to the destruction of the fleet.

half of the energy points had been recovered.

That was 3.749925 trillion energy points.

This way ...

Jiang Li still had around seven million trillion energy points left.

energy points: 7.149925 trillion energy points.

Jiang Li took a closer look.

“It’s alright.”

Jiang Li nodded. I still have more than seven million energy points. That’ll be enough for a large-scale war.

Time passed.

the ‘interstellar battleship’ crossed the galaxy in space.

This was the dream of Earth’s humans for countless years.

Jiang Li’s dream came true.

during the flight route.

Jiang Li took out the ‘martial arts technique’ from the Super Fantasy world for his family to practice. Because of the effect of the gene strengthening liquid, Jiang beiguo and the others ‘talents became extremely outstanding. Plus, they were already level-seven life forms, so it took them twice the effort and half the result. They broke through realms one after another.

Originally.

Jiang Li wanted Jiang Lijun and the others to practice the ‘art of the verdant King’, a subsidiary technique of the ‘art of the Azure Emperor’, but this was not the ‘Super Fantasy world’.

However, many of his methods were restricted.

the ‘verdant king art’ and other national arts could not be taught.

At the very least, not now.

perhaps.

In the future, as the ‘Super Fantasy world’ invaded this universe deeper and deeper, the various means of the ‘Super Fantasy world’ would be completely unlocked in this universe.

so,

Jiang Li picked four different types of Supreme-grade level-nine cultivation methods for his family members.

Among them.

his mother, zheng qiushui, practiced the ‘commentary on the water scripture’, his father, jiang beiguo, practiced the ‘deep earth incantation’, his brother, jiang lijun, practiced the ‘nine-fold killing’, and his sister, jiang wenxin, practiced the ‘green wood incantation’.

Four martial arts.

Their names weren’t stunning, but they were the most powerful top-tier level-nine cultivation techniques in the Holy peace Region. They were much stronger than the nine Heavens Dragon Slayer and the art of heaven and earth destruction.

In addition.

Through a detailed conversation.

jiang li also learned the names and life experiences of the five soldiers. they didn't have a powerful background or a tragic family.

It could be said that ...

They were all ordinary members.

However ...

They yearned for the Army.

Only then did he apply for the military school with determination.

Of course.

However, from now on.

Their future might be filled with countless exciting things.

It was also possible for them to die midway.
