

## Army 701

### Chapter 701 Fragment

Of course.

Jiang Li also chose five upper-grade level nine cultivation methods for them.

It was the ‘five elements Arts’.

Among them.

The burly youth with a rough face, Qiu Daiyue, cultivated the five-element art-earth element art. The tallest and slimest man, li Jinlang, cultivated the five elements Arts-metal element Arts. The young man with a weak expression and high spirits, Ai Hua, cultivated the five elements Arts-wood element Arts. The hot-tempered man ‘Wu Yan’, who was hard to calm down, cultivated the ‘five elements art’- fire element art.

Finally.

She was also the only female soldier among the five.

He was valiant and had a delicate face.

Her name was ‘Guo Fengling’.

What she cultivated was the ‘five elements Arts-water element Arts’.

During this period of time.

They had all memorized the ‘five elements chant’ and could only follow Jiang Li’s orders. They had already mastered it.

When the five martial arts were combined, they could unleash a power that was several times stronger.

He believed in her.

Not long after.

no matter if it was jiang beiguo and the others, or qiu daiyue and the others, they could all raise their martial arts cultivation to the same realm as their own life level.

Time passed.

Jiang Li didn't know how much time had passed.

The sea route in this lonely universe was too much of a test of one's heart and will.

Other than meteorites, there was nothing but darkness outside. Although they had passed through a solar system not long ago, they had not found any life planets.

In reality.

If it wasn't for the fact that Jiang Li wasn't alone and had his family with him, ordinary people would've lost their minds.

This was not a joke.

It was the truth.

In addition.

Not long ago.

Jiang Li wanted to use the nine level-eight soul Tinders to open the level-eight mechanical interstellar soldier column, but when he wanted to confirm it, his body's instinct gave him a warning.

In other words ...

It was as if it was telling Jiang Li that if he dared to activate this function now and turn on the level-eight mechanical interstellar Army, he would immediately face a disaster.

He would die without a doubt!

This was definitely not a joke.

Furthermore ...

This feeling was many times stronger than when the 'plane channel' had been opened.

As long as it was activated.

That was a situation where death was certain.

“Hu ~~ Hu ~ Hu ~”

Jiang Li fell into deep thought. He touched the mark on the back of his right hand with his left hand. He took a deep breath and closed the interface in front of him.

shua! Shua!

Immediately after.

Jiang Li waved his right hand and took out three level-eight soul Tinders.

“WMS01, SSTs01, MYL01, step forward.”

Jiang Li said.

“Chief sovereign.”

Three special meches walked to Jiang Li and stood in a row in front of him. They saluted Jiang Li at the same time.

the cockpit of the interstellar warship was very large.

Its length, width, and height were at least over ten thousand meters.

so,

myl01, ssts01, and wms01 all maintained their original appearance. since this was not earth, there was no need to disguise themselves as humans.

“what are they doing?”

what happened? ” Jiang Lijun and the others immediately noticed. They stopped cultivating and looked at Jiang Li.

he looked curious.

But he didn’t ask.

Wyke’s injuries had already recovered.

...

Furthermore ...

because of the tragic war, wyke's realm had loosened after a long pause, and he had touched the mystery of the tenth level.

He believed in her.

Not long after.

Wyke only needed to study and consolidate his gains and insights, and he would be able to break through to the early 10th rank. By then, Wyke would be considered an adult.

“Yes.”

Jiang Li looked at WMS01 and the others.

One had to know.

The three special meches in front of him.

Envoy MYL01.

It was the robot warrior that had followed Jiang Li the longest.

...

although wang gang was the first mech that jiang li made, he couldn't be used for a while because he wasn't strong enough and jiang li didn't have enough soul tinder.

so,

Wang Gang and the other meches from the previous batches were no longer used.

now.

MYL01's evolution progress had already reached 99%, and if they activated the level 8 mechanical interstellar Army, it seemed that it would attract unknown dangers.

jiang li was going to consume the complete level-eight soul tinder to complete the last one percent of the evolution progress of myl01 and the others so that they could reach the early stage of level ten.

“Chief sovereign.”

At this moment.

Before Jiang Li could put the level-eight soul Tinder into MYL01 and the others, the mechanical intelligence appeared and reported to Jiang Li, ” a large group of meteorites has appeared in front of us. Do you want to re-plan your route to avoid them? ”

“A giant group of meteorites?”

Jiang Li frowned. what happened? ”

Shua!

The mechanical intelligence waved its right hand. Countless rays of light interweaved and projected the image of the huge meteorites in front of Jiang Li.

“How much longer until the meteorites collide with the interstellar battleships? Is it a threat to the warship?”

Jiang Li asked.

“My Lord, they will collide in ten seconds at most.”

“With the interstellar battleship’s defense, even if the ‘energy light shield’ is not activated, just the toughness of the battleship itself is enough to withstand the impact of the meteorites,” the mechanical intelligence replied.

“of course.”

there might be unknown dangers in the meteorite group, or other risks. The specific decision is up to you, my Lord.

if we rashly change the original route, then we’ll be completely bumbling around in space. If we encounter similar situations in the future and change the route again, we’ll only be completely lost.

let’s go. Jiang Li thought for a few seconds and said, ” we don’t need to change the route. Let’s just go there.

“Yes.”

The mechanical intelligence replied.

“Mechanical intelligence.”

how long have we been traveling in space? ” Jiang Li asked. how long have we been traveling in space? ”

“Reporting to you, chief sovereign.”

The mechanical intelligence gave a rough answer. the current flight route has been 1956 hours, close to 82 days, almost three months.

“This bi an ...”

three months? ” Jiang Li was stunned. it’s been almost three months.

Obviously.

There was no point of reference.

Plus ...

Jiang Li had been teaching his family how to cultivate. Time had passed without him knowing, which was why he had been traveling in space for nearly three months.

The speed of the interstellar battleship.

Without using 'space jump' and other skills.

It could reach sub-light speed.

and it was infinitely close to the speed of light.

When using a skill, no spatial teleportation will be used.

Interstellar battleships would enter a sub-space state, and the scene of the battleship's body disappearing from space would appear. It would travel at light speed, or even superlight speed.

However ...

This kind of sailing state could not be maintained for long.

It would consume a large amount of energy.

Furthermore ...

When he entered the sub-space state, even if Jiang Li couldn't observe the universe normally, the interstellar warship wouldn't be able to observe the life planet of specific life forms.

As for 'spatial teleportation'. ..

It was even more impossible to observe.

so,

it would be best to move at sub-light speed.

“Brother.”

Jiang Wenxin ran over, pointed at the front, and shouted to Jiang Li, ” meteorites, so many meteorites. Is this a meteorite cluster? ”

“They're here.”

Jiang Li's expression didn't change.

There was already a huge group of meteorites in front of the interstellar warship. The meteorites, big and small, came into Jiang Li's sight and formed a huge area.

Among them.

The smaller meteorites were about the size of a 100-meter-tall mountain.

but ...

Those large meteorites were even comparable to the size of the moon.

activate the 'energy light shield' and charge straight through the 'meteorites'.

” go! ” jiang li ordered.

“Yes.”

The mechanical intelligence replied.

“whoosh!!!”

immediately.

The skill was activated.

The ‘interstellar warship’ trembled slightly, and the ‘antimatter energy reactor’ was activated. In an instant, starting from the bow of the warship, a pitch-black energy light curtain spread to the tail and finally gathered together.

it formed an energy light shield that covered the entire warship.

Immediately after.

The people in the control room could clearly see that the ‘interstellar battleship’ was like a terrifying ‘giant beast of the universe’, ruthlessly crashing into the group of meteorites.

The meteorites were smashed into pieces by the interstellar battleships.

The energy light shield only rippled.

Not only that.

No one could hear anything.

No matter how hard the meteorites hit, this ‘physical’ method was unable to shake the surrounding cosmic energy.

so,

All of this was silent.

“He’s so powerful.”

Jiang Wenxin’s eyes widened. that’s amazing. Those meteorites were so big, but they were shattered so easily.

“Hehe.”

it’s just a meteorite. Jiang Li smiled. Wen Xin, even you can shatter a meteorite easily.

“Really?”

Jiang Wenxin asked in surprise.

“Yes.”

yes. Jiang Li nodded with certainty.

one had to know.

after three months of cultivation and jiang li’s personal guidance, jiang wenxin and the others ‘martial cultivation improved rapidly.

currently.

Jiang Lijun's cultivation speed was the fastest, and his martial cultivation had already reached the perfected stage of level five. Qiu Daiyue and the others had also reached the early stage of level five.

On the other hand, Jiang beiguo and Zheng qiushui were much worse.

Only initial-stage Tier 4.

Jiang Wenxin's cultivation was only at the perfected stage of Tier 3.

But don't forget.

After Jiang Wenxin was injected with the gene strengthening fluid, she was already a seventh-rank lifeform. With her perfected third-rank cultivation, she could barely mobilize the energy of the universe.

It was easy to shatter a medium-sized meteorite.

"Ah!"

Suddenly.

Jiang Wenxin shrieked and pointed to the front with a trembling finger. She said in a frightened tone, " " that's so big! that meteorite is so big! "

"....."

everyone looked over, and their pupils contracted slightly.

It was a huge meteorite.

It was huge!

It was extremely huge!

It was a rough estimate.

it was several times larger than earth.

Vaguely.

jiang li could see that the ‘meteorite’ was a fragment of a planet.

Furthermore ...

They also discovered that there were still living beings on this ‘meteorite’.

“This bi an ...”

Surprise!

Jiang Li was very surprised.

At the same time.

jiang li was very interested.

Of course.

While Jiang Li was interested, he also became alert.

one had to know.

it was just a fragment of a planet, but it was already several times the size of earth.  
it was hard to believe how big this planet would be when it was complete.

A planet the size of the sun?

Furthermore ...

Even if the planet was destroyed, there were still living beings that could survive on the fragments.

From this, one could imagine.

The 'life' on this planet was definitely no small matter.

A little carelessness.

It might cause him to fail miserably in an easy task.

He had to be cautious.

This was the first 'alien' that Jiang Li had met in the universe. He couldn't pretend that he didn't see anything. He had to make contact with it.

Only then would they have the chance to understand the tip of the iceberg of the universe.

## Chapter 702 The crystal

The 'planet fragment' in front of them was still some distance away from the 'interstellar warship'. In about two seconds, it would collide with the interstellar warship.

interstellar battleships, immediately produce a certain number of level 9 Black Star Troopers and then teleport Wang Gang out.

capture all the 'living beings' on the 'planet fragment' as soon as possible, " Jiang Li ordered. the level 9 Black Star Troopers will work with Wang Gang.

"Yes, sir."

"Yes."

The intelligent machine and Wang Gang received the order and responded at the same time.

Buzzzzzz!

There was a flash.

Wang Gang disappeared into thin air.

The next moment.

He appeared in front of the battleship. Due to the lack of time, in less than a second, the battleship absorbed a large amount of cosmic energy and only produced 10000 level 9 Black Star Troopers.

"black star troopers, hear my order."

Wang Gang stood in the middle of the 10000 level 9 Black Star Troopers. With a wave of his right hand, as a general with the rank of 'Marshal-planet level', Wang Gang was able to give orders to the mech soldiers.

"Release your energy immediately and form an energy net to trap the 'planet fragment' in front of you."

wang gang ordered.

“yes.”

Buzzzzzz! Buzzzzzz! buzzzzzz!

The 10,000 level 9 Black Star Troopers responded and charged toward the ‘planet fragment’ in front of them. Every level 9 Black Star Trooper’s face was glowing, forming a beam of light.

Shua! Shua!

The energy beams intertwined and combined. In an instant, they formed a huge energy net that covered the ‘planetary fragment’.

At this moment.

a change occurred.

boom! BOOM!

From the ‘planet fragment’, many creatures wearing exoskeleton armors rushed out, forming an armored team and launching a frontal assault.

They pulled out their energy weapons. Each of the armored warriors held a combat weapon that was like a lightsaber in their hands. It absorbed the energy of the universe and possessed powerful destructive power.

Bang Bang Bang Bang!

These armored soldiers tried to use their energy weapons to tear apart the energy net, but they were unable to do so. After the two sides collided, a loud crashing sound was heard.

at this moment.

The armored soldiers gathered together and talked to each other.

However, Jiang Li didn't know what they were talking about because the language they spoke was completely different from Jiang Li's.

They were two different languages.

BOOM!

At this moment.

A change occurred.

It was an incomparably thick energy beam that had pierced through the 'planetary fragment'. It contained an extremely dense antimatter energy, and its destructive power was extremely terrifying and shocking. It was difficult to describe.

After that.

Kachaa! "Crack!"

A series of explosions rang out.

The energy net was torn apart by the antimatter energy beam, shattering into a sky full of light. It also destroyed thousands of level 9 Black Star Troopers.

"This is actually an antimatter energy source."

Jiang Li said in a deep voice.

Buzzzzzz! Buzzzzzz!

An energy shield appeared around the ‘planet fragment’ and it stopped in space. Jiang Li also ordered the interstellar warship to stop.

Shua! Shua! Shua!

At the same time.

The ‘interstellar battleships’ produced batch after batch of level 9 Black Star Troopers. Like a swarm of locusts, they swarmed out of the interstellar battleship’s door.

It formed a Grand scene.

they surrounded the ‘planetary fragment’.

“If it only has an ‘antimatter energy source’, it’s still far from enough.”

” let’s go. ” jiang li waved his hand and ordered wang gang to lead a million level-nine black star troopers to attack the ‘planet fragment’.

BOOM! BOOM!

inside the ‘planet fragment’.

Numerous combat bases rose from within, and a large number of mechanical Warriors surged out from the huge base, forming a huge mechanical Army.

...

Most of these robot warriors were driven by ‘nuclear energy’.

At the same time.

‘antimatter cannon’ bases also appeared. the huge muzzles were aimed at jiang li’s black star troopers.

it’s the first time I’ve fought a mechanical Army with my own. Jiang Li’s eyes were calm.

kill!!!

At this moment.

Millions of level 9 Black Star Troopers launched a frontal assault, and millions of antimatter beam cannons fired out, destroying a large number of mech Warriors.

anti-matter combat technique.

Wang Gang charged at the front. The antimatter reactor was running at full power. Vast amounts of antimatter energy covered his entire body. He used all kinds of skills to charge into the battlefield.

“Star destroying fist!”

BOOM!

...

The fist landed and destroyed a military base.

“Nuclear palm!”

Bang!

The palm print descended from the sky and blocked the opponent’s antimatter energy annihilation cannon.

“WMS01, SSTs01, MYL01,”

” let’s go. ” jiang li waved. ” help wang gang fight. ”

“Yes, sir!”

WMS01 and the others replied.

Buzzzzzz!

there was a flash.

WMS01 and the others disappeared and were directly teleported to the battlefield. They unleashed their power and rushed into the planet fragment to kill.

Bang Bang Bang Bang!

The brilliant flames lit up the Dark Universe.

Time passed.

ten minutes later.

The war was over.

The mechanical Army of the ‘planet fragment’ was completely annihilated, and 999 battle bases, 99 ‘antimatter energy obliteration cannons’, as well as nine’ core bases ‘were all destroyed.

at the same time.

They had captured 328 prisoners.

12,927 ‘extraterrestrials’ killed.

in addition.

Jiang Li found a lot of resources in the ‘planet fragment’. There were various metals and stored technology.

The crystallization of Science and Technology.

This included controllable nuclear fusion and nuclear fission, warp drive, strong interaction force technology, and more.

Other than that.

There were also different types of ‘Genetic Medicine’.

this included but was not limited to gene strengthening drugs, combat skill drugs, and knowledge mastery drugs.

In reality.

What Jiang Li cared about the most was the precious resource called ‘energy crystal’.

“Chief sovereign.”

Wang Gang saluted to Jiang Li and handed the ‘energy crystal’ to Jiang Li. “This is the ‘energy crystal’.”

“yes.”

okay. Jiang Li nodded and observed it.

It was the size of a thumb.

It was pitch-black in color, and it was as clear as crystal.

It was shining with a bright light.

an item that can be converted into energy points has been detected-low-grade energy crystal. It can be converted into energy points. One low-grade energy crystal can be converted into one trillion energy points.

A notification appeared.

“.....”

energy crystal? ” Jiang Li was stunned. He stared at the ‘energy crystal’ in his hand and said in surprise, ” this Pi Xiu, a low-level energy crystal, can be converted into one trillion energy points.

“You have to know.”

“one trillion energy points is one trillion energy points.”

one low-grade spiritual crystal can be converted into 10000 energy points, one middle-grade spiritual crystal can be converted into one million energy points, and one high-grade spiritual crystal can be converted into 100 million energy points.

“This also means ...”

a low-grade energy crystal contains 10000 times the energy of a high-grade spirit crystal.

“Tsk tsk tsk tsk tsk.”

Jiang Li couldn't help but think, no wonder the dynasties in the 'Super Fantasy world' have to go to the other worlds to plunder their resources.

"I'm afraid that the resources of the 'super fantasy world' have been used up over the endless years, and they have no choice but to plunder the myriad worlds."

Wang Gang, how many 'low-grade power crystals' have you found in total?"

Jiang Li asked.

Master, we've found a total of thirty million 'low-grade energy crystals'.

Wang Gang answered.

"Thirty million!"

"Thirty million?" Jiang Li gasped, then he was overjoyed. "Thirty million?"

This is a destroyed planet, and it's only a fragment. It's unbelievable that so much 'resources' can be plundered.

Thinking of this ...

Jiang Li was excited.

They had obtained so many resources just by encountering a planet fragment along the way. Just how many treasures were hidden in the endless universe?

It was hard to estimate.

"Good, good, good,"

Wang Gang! Jiang Li came back to his senses and ordered, ” Wang Gang, move all the low-level energy crystals to the cockpit immediately.

“yes, sir.”

Wang Gang responded and went to transport the supplies.

Interstellar battleships.

It had the control room, the warehouse, the Black Star Trooper research and manufacturing cabin, and the core area ‘antimatter energy reactor’.

The resources from the ‘planet fragments’ were all transported to the warehouse by the Black Star Troopers.

the mechanical intelligence shows the situation of the 328 captives.

” go! ” jiang li ordered.

“Yes.”

The mechanical intelligence replied.

Rays of light were projected on the surrounding walls. They intertwined and formed a three-dimensional image, showing the situation of the three hundred and twenty-eight captives to Jiang Li.

These alien creatures had humanoid shapes, but they were ten meters tall and had dark green skin. They looked like the creatures in the movies Jiang Li had seen before, ‘avatar’.

Furthermore ...

Most of them had gone through gene strengthening.

90% of them were type 7 lifeforms.

There were only nine type 8 lifeforms and one type 9 lifeform.

Currently.

This was because there was no 'prison' in the 'interstellar warship'.

That was why Jiang Li made a space in the 'warehouse'. The materials used to make the interstellar battleships could be liquefied and changed into different shapes.

A temporary 'prison' was set up.

"There's a language barrier. Even if I wanted to interrogate them, I don't have any good ideas."

Jiang Li was deep in thought.

"master."

Wyke walked over and volunteered, "I have a way to share master's burden."

"What is it?"

Jiang Li asked.

"Soul search."

"in my bloodline inheritance, there's a 'soul-searching technique' that can search the soul memories of all living beings," said vic.

“This way, we won’t have to worry about the language barrier.”

“Alright,” he said.

great! Jiang Li was overjoyed. Wyke, since you have such a technique, I’ll leave the task of interrogating these 328 alien captives to you.

“yes, sir.”

Wyke bowed. don’t worry, master. I promise to complete the task.

“Go on.”

Jiang Li waved his hand.

half a minute later.

Wang Gang went back to the driver’s seat from the warehouse. He had already moved all the ‘low-level energy crystals’ to Jiang Li.

“Chief sovereign.”

wang gang saluted, ” mission accomplished. ”

Chapter 703 Eternal life

“Very good,” he said.

okay. Jiang Li nodded with satisfaction. step aside.

“Yes, sir.”

Wang Gang stood at the side.

in the cockpit.

Only Jiang Li and the four robot soldiers were left. Wyke went to interrogate the alien captives while Jiang beiguo and the others went to the warehouse to sort out the loot.

The ‘low-grade energy crystals’ in front of him were packed in special metal boxes, each containing 1000 ‘low-grade energy crystals’ neatly arranged.

“Convert.”

Jiang Li touched the ‘low-level energy crystal’ and started the energy point conversion function.

Buzzzzzz!

In an instant.

A faint white light enveloped all the metal boxes, and the ‘low-grade energy crystals’ disappeared at a speed visible to the naked eye.

A large number of notifications popped up.

conversion successful. One trillion energy points obtained!

.....

conversion successful. One trillion energy points obtained!

.....

Finally.

The white light disappeared.

All thirty million low-level energy crystals had been converted.

shua!

The Dominator panel opened.

jiang li checked the energy points column.

energy points: 37149925 trillion energy points

obviously.

Jiang Li didn't consume any energy points when he was dealing with the mechanical Army of the 'planet fragment'.

The level-nine Black Star Troopers that were destroyed wouldn't consume any of Jiang Li's resources.

“Ah!”

ah! Jiang Li suddenly heard a scream from the warehouse. It was obvious how cruel and painful Wyke's soul-searching was for the aliens.

The most important thing was ...

The other party had no ability to resist.

The sound of extreme pain even shook the energy of the universe and reached Jiang Li.

A few minutes later.

Wyke came back.

Behind him was a captive.

the captive lowered his head and arched his back, his body slightly trembling.

He could clearly sense extreme fear from the other party.

“Master.”

Wyke bowed respectfully.

“Yes.”

” okay. ” jiang li nodded.

Plop!

The captive even prostrated himself on all fours.

“How was the interrogation?”

Jiang Li asked.

I didn’t let master down. I’ve found valuable information from the souls of the captives.

Wyke replied.

“speak,” he said.

Jiang Li said.

“yes, sir.”

“Master,” Wyke nodded and said, “if it’s translated into Earth’s language, the other party’s name is clearly: The eternal civilization is named after ‘myriad life’.”

“in other words, the ‘myriad life clan’,”

” eternal civilization. ”

...

eternal civilization? ” Jiang Li glanced at the ‘myriad life clan’ that was crawling on the ground and thought it was funny. how dare you call yourself the ‘eternal civilization’ with your weak abilities? ”

Lowly?

In fact, it was not low.

The ‘eternal civilization’ was a space civilization that had complete control over the entire solar system and had conducted large-scale exploration of the surrounding solar systems.

one had to know.

what jiang li encountered was just a ‘planet fragment’. for the entire ‘eternal civilization’, it was like a drop in the ocean. the ‘eternal civilization’ might not be a high-level civilization in the universe, but it wasn’t weak either.

“The Honorable and great emperor.”

No. the myriad life clan suddenly raised his head. His eyes were filled with the desire and madness for ‘eternal life’. He even suppressed his fear of Jiang Li and refuted, ” eternal life does exist. We, the myriad life clan, have been doing a series of research and exploration with’ eternal life ‘as our goal. We’re pursuing the path of eternal life through Science and Technology.

“The most important thing is ...”

we’ve already made a crucial breakthrough.

our myriad life tribe, the eternal civilization, has successfully developed the eternal particle. It is also because of this breakthrough that we have attracted the attention of the depths of the universe.

...

from the depths of the universe, the unknown space civilization crossed the boundaries of endless time and space, crossed the barriers of multiple dimensions, and destroyed the home planet of our ‘eternal civilization’, ‘myriad life star’, with a ‘destructive particle’, causing the star to explode. The entire star system was directly reduced to dust in the universe under the impact of this’ destructive particle’.

it even affected the surrounding galaxies.

“master.”

Wyke looked up and quickly explained to Jiang Li, ” “Because this ‘myriad life tribe’ is willing to submit, and also so that this ‘myriad life tribe’ can communicate with master normally, this subordinate implanted Earth’s language into this ‘myriad life tribe’s’ mind.”

“Yes.”

Jiang Li nodded, looked at the myriad life clan and asked, "Then what about your 'eternal particle'?" he asked.

"This is an ..."

The myriad life tribe member opened his mouth and bitterly said, "in the destruction of that civilization, the 'eternal particle' disappeared. We don't know where it went.

they might have been taken away by an unknown civilization in the depths of the universe.

"then what's the point of keeping you?"

Jiang Li shook his head. I thought I could get some valuable information from you, but it seems that I was too naive.

"No, no, the Honorable and great emperor."

yes, "the member of the myriad life tribe quickly said. we are useful. Before the 'destruction' happened, our space exploration team found a solar system with a planet with life."

"we have the corresponding coordinates."

in fact, we have been following the corresponding coordinates on the front line. Because of the destruction of the civilization, only a small part of us managed to survive.

we don't even have the ability and base to build warp ships.

so we could only push the 'planet fragment' to fly and attract a large number of meteorites to hide. We just didn't expect to encounter a Pi Xiu along the way.

“A life planet.”

Jiang Li’s eyes lit up. He interrupted the myriad life clan and asked, ” “Really?”

“It’s true.”

The myriad life tribe member replied.

“how far away? In what direction?”

Jiang Li asked again.

we’re about three light years away. The exact location is hard to describe, but we can receive the signal from the space exploration team.

“We can guide you,” the myriad life tribe member replied.

please, honorable and great emperor, let us live. We’re willing to be your vassals.

“.....”

okay. Jiang Li agreed after some thought. I agree.

“Thank you for your magnanimity.”

The myriad life clan member kowtowed.

“Roar!”

the next moment.

A Dragon's Roar came out of Jiang Li's body. A 100000-meter-long Azure Dragon rushed out. The mist of the Empire's fortune filled the air with a supreme majesty.

It suppressed the surroundings.

Plop!

Wyke immediately knelt down.

"Your servant pays his respects to Your Majesty!"

Wyke shouted.

"This Suan ni, this Suan ni"

The myriad life tribe member's eyes widened in fear. He raised his head to look at the vast five-clawed true dragon and felt the suppression of his life.

His heart was filled with endless reverence.

The most important thing was ...

The Azure Dragon of the great Xia Empire examined this myriad life tribesman. Countless profound symbols appeared in his huge eyes as the Azure-colored fog of the Empire's National aura gradually enveloped this myriad life tribesman.

The light mist dispersed.

It formed the mark of a five-clawed Azure Dragon on the myriad life being's forehead. Using the myriad life being as a Foundation, it imprinted itself in the depths of the myriad life being tribe.

Immediately.

The 313 myriad life tribe members that were still alive in the warehouse prison also began to change. Their bodies began to glow with a green light.

The light disappeared.

The Azure Dragon Mark appeared between his brows.

In the end.

All the Azure Dragon marks of the myriad life tribe had disappeared.

“this is a kasaya.”

Jiang Li was surprised too.

In that instant.

A message appeared in the depths of Jiang Li’s mind.

“a subsidiary race.”

Jiang Li understood and murmured, ” “I see.”

The ‘mark of the subsidiary race’ was imprinted on the roots of the ‘myriad life clan’. From now on, all the myriad life clan would become a subsidiary race of the great Xia Empire and serve the Empire.

this ‘all’ didn’t refer to the three hundred members of the myriad life tribe, but all the members of the myriad life tribe that would be born and nurtured in the future.

It was the entire race!

In reality.

Jiang Li also got an advantage this time.

The myriad life tribe was able to create an eternal civilization. Not only did they rule the entire star system, but they even radiated to the many star systems around them. At their peak, this kind of strength might have already surpassed the peak ninth-grade dynasty.

It was very likely that he had reached the eighth level.

It could be said that ...

if it wasn't for the fact that the eternal civilization suffered a destructive disaster and only had these 300 people left, and this member of the myriad life tribe who had surrendered to Jiang Li was the current leader of the myriad life tribe ...

With Jiang Li's current strength.

It was impossible to subdue the myriad life clan.

“Your humble servant, Toria, pays his respects to Your Majesty!”

The one in front of Jiang Li was called ‘Toria’. He was the current leader of the myriad life clan. He understood a lot after receiving the information from the Azure Dragon.

At the same time.

Toria also felt an unprecedented shock.

Roar! roar! “roar!”

the dragon roared.

The great Xia Azure Dragon's body was growing at a speed visible to the naked eye. Invisible fate energy was surging out from every member of the myriad life tribe.

After that.

all of them were absorbed into the azure dragon's body.

let's go. Jiang Li had already cleared the warehouse and prison. The three hundred members of the myriad life clan followed their instincts and walked to the control room.

they all came to jiang li.

He knelt on the ground.

“Your subjects pay their respects to Your Majesty!”

The three hundred myriad life tribe members shouted in unison.

The mark between his eyebrows shone.

half an hour later.

The strange phenomenon subsided.

This was the first ‘subsidiary race’ that Jiang Li had conquered. The eternal civilization built by the myriad life clan even surpassed the top ninth-tier imperial dynasty at its peak.

Even though they had suffered a destructive blow.

But after all, their Foundation was still there.

As long as they were given enough time, it was very likely that they would regain the glory of the ‘eternal civilization’.

therefore, the ‘destiny’ was extremely prosperous.

it made the azure dragon of the great xia grow from 100000 meters to 200000 meters.

The vast feedback of the country’s fate was about to descend.

Jiang Li immediately suppressed it.

At the same time.

Jiang Li also felt the call of the ‘true dragon List’.

Buzzzzzz!

Jiang Li used the Green Emperor Art. The Xia Azure Dragon turned into a Dragon-shaped light and entered Jiang Li’s body. Jiang Li looked at the three hundred myriad life clan members kneeling in front of him.

“brother.”

At this moment.

Jiang Wenxin ran over, playing with a transparent crystal ball in her hand. Inside the crystal ball, there was a particle emitting a chaotic light. look what I found in the warehouse.

“Doesn’t this thing look good?”

eternal ‘eternal’ particle ‘

Toria turned around and stared at the crystal ball in Jiang Wenxin's hand. She was completely stunned and stood still. Why would it appear here?"

They were shocked.

he was startled.

He was even a little dumbfounded.

#### Chapter 704 Giant spirit

what's wrong? " Jiang Wenxin walked up to Jiang Li and was still playing with the crystal ball. After hearing Toria's words, she looked at her curiously.

"Eternal life particle? What's that?"

Jiang Wenxin shook her head.

" this pixiu, this pixiu, i didn't expect, i really didn't expect that the 'eternal particle' that we thought was completely lost would actually appear here, and it has been on the 'planet fragment' all this time. "

Toria's heart was filled with emotions. what's even more unexpected is that the 'Princess' is so lucky to find the lost 'eternal particle' so easily.

"Eh?!"

Jiang Li looked at Jiang Wenxin with a weird expression. He thought, " how can my sister be so lucky? " Did he awaken the legendary 'European king' template? The most beloved daughter of her father?

"Brother, you can have it."

jiang wenxin gave the crystal ball to jiang li and said, ” “From what you’re saying, it seems like this thing is very precious.”

“Alright,” he said.

Jiang Li nodded and took it.

After that.

Jiang Li observed the changes in the crystal ball carefully.

On the surface.

There was nothing special about it, but the particles that were emitting chaotic light had a strange, dreamy beauty to them.

In addition.

Jiang Li didn’t feel any obvious energy fluctuations either.

Those who didn’t know would only think that it was a strange ornamental object.

“toria, are you sure this is the ‘eternal particle’ that you’ve developed?”

Jiang Li asked.

“Your Majesty, this subordinate does not dare to speak rashly.”

after receiving the information from the azure dragon, toria’s tone and manner of speaking changed quite a bit. he said firmly,”This is the ‘eternal particle’.”

“Oh.”

huh? ” Jiang Li said in surprise, ” you’ve really developed the ‘eternal particle’? ”

“How do I use it?”

Jiang Li asked.

“This bi an ...”

Toria was stunned. He opened his mouth and said in a bitter tone, Your Majesty, we don’t know how to use the ‘eternal particle’.

if we had known, we would have used the ‘eternal particles’ when the disaster happened, instead of waiting until now.

“In fact,”

we didn’t develop the ‘eternal particle’, but we discovered the ‘eternal particle’.

After that.

Toria told Jiang Li everything he knew in detail.

“I see.”

I understand. Jiang Li nodded after hearing that.

Obviously.

The ‘eternal civilization’ did not mean that they had unparalleled super technology. Instead, they were lucky enough to discover the ‘eternal particle’ by accident.

As for how he discovered it ...

Toria's level had not been high enough back then to know the secrets within. Now that the eternal civilization had been destroyed, there were no corresponding records.

It became an unknown secret.

In such a situation.

Before the 'eternal civilization' could figure out how to use the 'eternal particle', they were destroyed by an unknown civilization from the depths of the universe with 'destruction particles'.

jiang li wanted to put the crystal ball into the 'low-quality interspatial ring', but he failed. the 'eternal particle' couldn't be stored in an interspatial item.

This way ...

Jiang Li had to put it on his body.

The myriad life tribe was now a subsidiary race of the great Xia Empire, so it was basically impossible for them to betray the great Xia Empire. Of course, they couldn't be brought into the Super Fantasy world either.

Jiang Li immediately ordered Toria to confirm the specific location of the planet with life.

After that.

spatial teleportation.

go! Jiang Li ordered.

A minute later.

Buzzzzzz!

The charge was completed.

...

“Teleport!”

shua!

The interstellar battleship disappeared into thin air, slipping into the space like a Loach. In the next moment, it appeared a light year away.

Buzzzzzz! Buzzzzzz!

There were three teleportations in a row.

The interstellar battleship had already entered the ‘stellar system’ with life planets. This ‘stellar system’ was named ‘Titan star system’ by the myriad life tribe.

Currently.

The interstellar battleship was located in the center of the ‘Titan star system’ and was very close to the life planet.

“your majesty.”

toria pointed at the blue and green planet in front of them and said solemnly, ‘Titan’ is right in front of us. The space exploration team is already waiting for Your Majesty on Titan.

“Full speed ahead.”

...

Jiang Li said.

“Yes.”

The mechanical intelligence replied.

“What a beautiful planet.”

Jiang Lijun, Jiang beiguo, and the others were standing behind Jiang Li and looking at Jurin star in front of them. They were excited and expectant.

Shua!

the interstellar warship flew at full speed.

Time passed.

Half an hour later.

The interstellar warship arrived in front of Jurin star.

Buzzzzzz!

Right in front.

a shuttle-shaped universe ship flew over from the front. it was very fast and stopped outside the interstellar battleship.

“Chief sovereign.”

“The spaceship in front is requesting a call,” said the intelligent robot.

“Answer.”

Jiang Li said.

“Yes.”

Shua! shua!

As soon as the voice of the mechanical intelligence fell, the communication was connected. Rays of light emerged from the surrounding walls, intertwining together to form a three-dimensional image.

“Your subjects pay their respects to Your Majesty.”

Plop!

In the image.

What he saw was the only surviving ‘space exploration team’ of the myriad life race. There weren’t many of them, only nine, but every member of the exploration team had reached level 9.

In addition.

The captain of the exploration team, ‘Roklan’, was a level 10 lifeform.

Obviously.

If Jiang Li had believed Toria’s words too blindly and the Azure Dragon didn’t turn the entire myriad life clan into a subsidiary race of the great Xia Dynasty, he would’ve died.

Jiang Li was going to have a war with the only surviving space exploration team of the myriad life race.

But now, it had been subdued without any effort.

Furthermore ...

He even had a tenth-tier subordinate.

It was a bountiful harvest.

“Rise,”

jiang li raised his hand.

“Thank you, Your Majesty.”

As Luo Klan stood up, the eight members of the expedition team behind him also stood up one after another.

Immediately after.

The interstellar warship was connected to Luo Klan’s universe exploration spaceship. Luo Klan and the other nine members of the myriad life tribe entered the interstellar warship through the connected channel.

report the situation of ‘Titan star’.

go! Jiang Li ordered.

“Yes, Your Majesty,”

Yes, sir, ” Luo Klan replied respectfully. He was wearing a half-body space armor. He tapped his right hand on his left wrist, and a 3D projection was formed.

It was clearly displayed in front of them.

In the image.

It was the various pictures of ‘Djinn planet’ that had been shot, and all of them had been explained in extremely detailed in ‘earth language’.

Obviously.

Luo Klan had also received the information from the Azure Dragon of the great Xia.

“your majesty.”

Through the 3D projection, coupled with the exploration of ‘Titan star’ during this period, Luo Klan explained in detail, ” first of all, the Titan star system is a dual-star system with two suns.

the two suns are exactly the same size, with a diameter of about 24 million kilometers.

” however, if you look at it from the ‘titan star’, because the two suns are at different distances from the’ titan star’, the sizes of the two suns will be different.

“Also,”

the diameter of the ‘Titan star’ is 280000 kilometers.

the race that rules the ‘Titan planet’ is the ‘Titan race’. The’ Titan planet ‘contains the resources of the’ energy crystal ‘mineral vein, and the civilization level is only the’ mother planet civilization ‘that focuses on biotechnology.

unable to completely leave the mother planet, and even more unable to survive in the Galaxy.

Time passed.

Through Luo Klan's detailed introduction, Jiang Li had a detailed understanding of 'Titan star'.

It could be determined.

The civilization of the 'Titan race' couldn't resist Jiang Li's invasion at all. If Jiang Li wanted to, he could definitely take over the entire planet.

"Toria, I'm fine with Roland."

Jiang Li thought for a while and asked Toria and Roland for advice. what attitude do you think we should take towards the Titan Warriors? "

One had to know.

Compared to the eternal civilization, Jiang Li had only just learned about the laws of survival in the universe. Naturally, he should ask Toria and Luo Klan for their opinions first.

Of course.

As for what to do, it depended on Jiang Li.

"Your Majesty."

Toria bowed to Jiang Li and said in a respectful tone, " we, the eternal civilization, have discovered four different civilizations in total.

"This is my first time."

we found a civilization called the Eldars. We treated them in a friendly way and taught them about their technological shortcomings.

however, all we got in return was suspicion and suspicion. When the other party became stronger, they tried to overthrow our eternal civilization and enslave us. In anger, we destroyed them.

“Second time, third time, fourth time.”

we destroyed their civilization through war, enslaved them, and made them vassals of our eternal civilization.

“Yes, I am.”

Your Majesty, ” Luo Klan said thoughtfully, ” in my opinion, ’giant spirit planet’ has a huge amount of resources. However, the ‘giant spirit race’ can’t develop these resources because of their lack of technology.

“The most important thing is ...”

their wrong mining method has already caused irreversible damage to Titan star.

if we want to develop and survive on Titan star, we have to destroy the will of the Titan race through war and enslave them completely.

“You have to know.”

to the giant spirit race, we are aliens, natural enemies.

even if we treat each other in a friendly manner, when the giant spirit race grows up, we will only be met with the giant spirit race’s betrayal.

“alright,” he said.

jiang li thought for a moment, then nodded and said, " then we'll rule this Titan star by war.

"yes."

Luo Klan and Toria saluted Jiang Li.

Obviously.

The myriad life tribe's habits had quietly changed.

"Your Majesty."

Luo Klan waved his right hand, and images appeared. He told Jiang Li one by one, " the giant spirit race is further divided into the northern Giant spirit race, Eastern giant spirit race, Southern Giant spirit race, and Western giant spirit race.

four Great Spirit empires have been divided.

" the four great empires have formed an empire alliance. "

Your Majesty, please take a look. These are the Capitals of the four Great Spirit empires and the location of the Empire Alliance.

Chapter 705

since we're going to rule the giant spirit planet by war, we'll destroy the four capitals of the giant spirit race's empires at the same time and wipe out the headquarters of the Empire Alliance.

a hint of excitement appeared in Luo Klan's eyes. "This way, without the leadership, the giant spirit race's army will fall into chaos."

"It will be easier for us to take down the other party."

"That's a good idea."

Okay. Jiang Li nodded and agreed.

"Your Majesty."

Luo Klan kowtowed and asked for permission to fight. Since this was proposed by me, please let me complete it. I won't let you down, Your Majesty.

"Yes."

I agree. Jiang Li's expression remained unchanged. I agree.

"Thank you, Your Majesty."

Luo Klan stood up and looked at his eight team members. Everyone, it's time to make a contribution in the first battle.

"Yes."

"Captain, give the order."

"Hehehe!"

"....."

The eight members of the exploration team laughed and replied calmly.

“Let’s go.”

Luo Klan waved his hand and the eight members of the exploration team followed behind him. They quickly walked out of the cockpit and returned to their spaceship.

wuwuwuwuwu!

The universe ship started up.

It lit up with bursts of light.

space-based weapons ready.

It could be seen.

Within the universe ship’s cockpit, the eight exploration members were operating the ship’s system. Countless images popped up, and countless data streams flickered.

Shua! Shua! Shua!

at the same time.

On the orbit of the moon of the Titan star, four moons that looked like giant sharp swords appeared. They were dark in color and had completely melded with the environment.

space-based weapon.

This was a ‘technological weapon’ installed on the satellite. Through the satellite’s lock-on, it could accurately strike and destroy the targets and enemies on the ground.

Of course.

The specific power of the ‘space-based weapon’ was related to the weapon loaded on the ‘satellite’. If it was loaded with antimatter energy, it could even destroy the entire planet.

The purpose of using ‘space-based weapons’ was naturally not to destroy ‘Titan star’. If it was just to destroy Titan star, Jiang Li could just ask the ‘interstellar warship ‘to blast it into pieces with an’ antimatter-powered interstellar obliteration cannon’.

From the beginning to the end.

Jiang Li’s goal was to ‘rule’, not ‘destroy’.

“Torja,”

jiang li looked at the space-based weapons in front of him. he looked at toria and said, ” it seems that you have long been prepared for war, and you have even quietly created space-based weapons.

“Yes, Your Majesty,”

toria replied.

in addition, the five ‘space-based weapons’ are equipped with ‘collision needles’ made of ‘strong interaction force materials’. With the current civilization and technology of the ‘giant spirit clan’, they can’t resist the power of the ‘collision needles’ at all.

Toria said.

“Yes.”

jiang li thought for a while and asked, "What is a 'strong interaction force material'?"

"Your Majesty."

the strong interaction force material is the ultimate material created by using the principle of strong interaction force," Toria explained. the strong interaction force is used to compress the material to the extreme, eliminating the electromagnetic force between particles, and thus tightly sticking together.

the surface of such an object is absolutely smooth, which makes the material indestructible. It is almost impossible to destroy it by any means. Because its particles have stopped vibrating, its temperature is at absolute zero.

the 'collision needle' made of the 'strong interaction force material' has the characteristics of reflecting almost all electromagnetic waves, absolute smoothness, absolute zero degree, absolute hardness, and so on.

"Finally."

space-based weapons use antimatter energy to give the 'collision needle' a certain amount of kinetic energy. Loaded with an accelerator that can change direction, they become extremely powerful weapons. For the mother planet civilization, they are weapons of complete destruction.

"Alright," he said.

let's go," Jiang Li said. then let me see what you can do.

"I will definitely not let your Majesty down."

"interstellar battleships."

prepare for the coming war. Jiang Li ordered, "create a million level-nine Black Star Troopers immediately.

...

“Yes.”

The mechanical intelligence replied.

Buzzzzzz! Buzzzzzz!

The antimatter energy reactor of the interstellar battleship was running at full power, devouring the endless cosmic energy around it and forming an energy storm.

“This bi an ...”

Within the universe ship.

Luo Klan and the others looked at the interstellar warship in shock.

such a technological method of making use of ‘cosmic energy’ is simply unheard of.

luo klan said in shock.

“yup,”

“This power and energy wave is simply too powerful.”

...

“.....”

the other eight members of the exploration team exclaimed in shock.

space-based weapon No. 5 has locked onto the ‘capital of the northern Giant spirit Empire’. Space-based weapon charging. Countdown: 10?9?8?7.....”

” space-based weapon no. 4 has locked onto the ‘capital of the southern juling race empire’. space-based weapon has begun charging. 10?9?8?7.....”

space-based weapon No. 3 has locked onto the ‘capital of the eastern juling clan Empire’. Space-based weapon charging. 10?9?8?7.....”

space-based weapon No. 2 has locked onto the ‘capital of the Western juling Empire’. Space-based weapon charging. Countdown: 10?9?8?7.....”

“Space-based weapon No. 1 has successfully locked onto the ‘Empire Alliance headquarters’. Space-based weapon charging. 10?9?8?7.....”

The next moment.

The eight members of the exploration team shouted.

“Alright,” he said.

Luo Klan took a deep breath to calm herself down and shouted, ” “‘RAM needle’, fire!”

“Fire!”

“Fire!”

.....

boom! BOOM! BOOM! BOOM! boom!

In that instant.

Five space-based weapons.

They fired at the same time.

Jiang Li saw it clearly.

The five space-based weapons instantly lit up with a dazzling light. The antimatter energy exploded, producing an unparalleled driving force.

All of it was given to the ‘striking needle’.

The surface of the ‘striking needle’ was a crystal-like silver, and it turned into an extremely silver stream of light, falling directly to the planet below.

It could be seen.

In the capital of the four great Titan race empires, including the headquarters of the Empire Alliance.

The leadership of the giant spirit clan had already sensed that something was wrong when the ‘space-based weapon’ was activated, and they reacted in a very short time.

Then, one after another, biological battleships rose into the air.

He came at an extreme speed.

He tried to block it.

Bang Bang Bang Bang!

a series of explosions rang out.

However ...

there was no suspense.

the 'collision needle' crashed into the biological battleships with terrifying power.  
each battleship exploded like fireworks.

It was simply impossible to resist.

It was as if 'iron stone' had crashed into pieces of 'tofu'.

it was a completely fundamental difference.

The 'needle' was the 'iron stone', and the biological battleship of the giant spirit tribe was the 'tofu'.

“Ah!”

Countless giant spirit race beings cried out in pain.

It only took a few seconds.

“Rumble!”

There were a total of 3506 biological warships, and the 'RAM needle' destroyed all of them in less than three seconds.

It was a complete suppression.

In the end.

The needle hit the ground.

The earth quaked and the mountains shook.

Even the entire planet started to shake.

Countless natural disasters have occurred.

This resulted in the deaths of a large number of giant spirit race members.

The capital of the four great empires.

There was also the headquarters of the Empire Alliance.

It was directly erased from Djinn planet.

Not a single trace was left behind.

“Mission accomplished.”

Luo Klan and the others smiled and quickly transmitted the battle scene to the interstellar warship. Then, the mechanical intelligence played it for Jiang Li to see.

“not bad.”

Jiang Li nodded in satisfaction and said, ” next, the Black Star Troopers will clean up the mess.

“Wang Gang,”

WMS01, SSTs01, MYL01, you three lead the mechanical Army of a million level 9 Black Star Troopers and attack Djinn planet.

destroy the giant spirit race’s forces as quickly as possible.

“Yes.”

“Yes, sir.”

“Yes.”

“.....”

Wang Gang and the others responded at the same time.

buzzzzzz! Buzzzzzz!

After that.

the intelligence teleported wang gang and the rest out. the four perfected-stage level nine meches led the million level nine black star troopers and attacked djinn planet.

on djinn planet.

The destruction of the four capital cities and the Alliance headquarters, in addition to the destruction of the advanced biological battleships, was a huge blow to the giant spirit race.

The most important thing was ...

The destruction of the capital and the headquarters led to the death of a large number of the giant spirit race’s upper echelons. Without a unified order from the upper echelons, the giant spirit race had to fight on their own.

Furthermore ...

There were also many military bases and secret bases where high-end technological weapons were stored. Due to the death of the higher-ups, they could not enter.

“Rumble!”

countless explosions were heard.

Jiang Li’s mechanical Army crushed the giant spirit race’s biological Army. The giant spirit race’s shrill cries spread across the planet.

in the cockpit.

The images of the battlefield on Titan star were transmitted to them, forming three-dimensional images that were completely presented in front of them.

Screams, wails, wails, and the sound of death.

The scene of a mass extinction-like scene came into their eyes.

“this bi an ...”

jiang beiguo, zheng qiushui, and the rest looked at this scene with their mouths agape, especially when they saw the young children of the giant spirit race crying for their parents in the ruins, only to be smashed into meat paste by the huge rocks falling from the sky.

How tragic.

He couldn’t help it.

Jiang beiguo and Zheng qiushui felt sorry for him.

“Brother.”

Jiang Wenxin didn't dare to look and couldn't help but ask, " "They're so pitiful, our Yingluo"

"Your Highness."

" this is a war between civilizations, a war between races, " toria said. " there is no mercy. you are his majesty's sister. you should learn to adapt. "

"....."

Jiang Wenxin didn't know how to answer.

Jiang beiguo and the others also swallowed the words they wanted to say.

Tragic?

yeah.

It was tragic.

When earth was destroyed.

It was just as tragic.

jiang li remained silent.

Jiang Li had experienced this many times in the Saint peace state, so he didn't seem to be affected at all.

"Let's end this war as soon as possible."

shua!

Jiang Li waved his right hand and all the three-dimensional images disappeared.

## Chapter 706 landing

Jiang Li's mechanical Army was so powerful that it could completely crush the giant spirit race's biological Army.

although countless giants tried their best and countless 'heroes of the giant race' risked their lives and performed many 'tragic' things, they even destroyed many level-nine black star troopers. however, such losses couldn't cause any fundamental damage to jiang li's mechanical army.

This was because the Black Star battleships would replenish the lost Black Star Troopers in a short time.

Time passed.

Using Earth's time.

Three days later.

All the 'military forces' of the Titan race had been destroyed by Jiang Li's mechanical Army. The environment of Titan planet had also been damaged because of the war.

"Your Majesty."

Toria reported to Jiang Li and said, " the Titan race's 'military power' has been completely destroyed by your mechanical Army, Your Majesty. It's time to occupy 'Titan star'.

"Yes."

yes. Jiang Li nodded. get ready to land on giant spirit planet.

“Yes.”

Toria nodded respectfully.

A day later.

all the preparations were complete.

Buzzzzzz!

The ‘interstellar battleship’ started to sail towards ‘Titan spirit planet’. Luo Klan piloted the universe ship of the myriad life tribe to protect the ‘interstellar battleship’, and millions of level 9 Black Star Troopers surrounded the battleship.

they began to land on djinn planet.

At this moment.

on the ‘giant spirit planet’.

The eastern giant spirit race, the northern Giant spirit race, the Western giant spirit race, and the southern Giant spirit race.

The four great giant spirit clans had already re-elected their four supreme leaders.

They were leading the giant spirit race, which numbered in the hundreds of millions.

They were ready to welcome Jiang Li.

“I’m coming, I’m coming, Yingluo.”

that’s Jian Jia, the evil cosmic person from the universe? ”

shut up. How dare you say something like that. If those ‘cosmic people’ hear you, you’ll die even if you have nine lives. Also, don’t drag us into this.

“I’m Yingying!”

“.....”

Not long after.

Countless members of the giant spirit race stood on the continent. When they heard the commotion, they all raised their heads to look at the sky. The first thing that entered their sights were the two suns, one large and one small.

BOOM! BOOM!

It was the roar of a battleship’s engine.

the huge interstellar battleship slowly entered the atmosphere of ‘titan star’ and expanded the majestic atmosphere. the interstellar battleship, which was tens of millions of meters long, was as large as a planet.

“it’s them, it’s really them, yingluo!”

” those terrifying and powerful ‘cosmic warriors’, the undying’ cosmic warriors’, they are surrounding and protecting that huge super warship. ”

the true owner of the ‘Cosmic Soldier’ is about to appear? ”

At this moment.

countless members of the giant spirit race looked up at the space battleships in the sky and discussed among themselves. they exclaimed in surprise and looked at the 'space soldiers' with fear and deep respect.

Obviously.

After three days of battle.

The Black Star Troopers ran amok on 'Titan planet' and destroyed the giant spirit race's proud biological Army. The giant spirit race finally experienced the crushing power of despair.

in addition.

There was a military base far away from here.

He looked closer.

In the huge military base, there were many members of the giant spirit clan. These members of the giant spirit clan had gathered together, and their expressions were as if they were ready to die.

Di di di di di

countless voices rang out.

They were activating all sorts of equipment.

"Everyone,"

At this moment.

a male giant spirit tribe member stood up. he was expressionless, but he was extremely solemn. the surrounding giant spirit tribe members looked at him with reverence.

Obviously.

...

this giant spirit race member's identity and background were not simple.

In that disaster where the four great capitals and the Alliance headquarters were destroyed in an instant, countless leaders of the giant spirit race were turned into ashes, and not even their remains were left behind.

This male giant spirit was the only survivor of the 'giant spirit royal family'. He wasn't in the four capitals or the Alliance headquarters, so he survived.

It was because he didn't like power, but rather, he liked freedom.

so,

He wandered around on 'Djinn planet' and enjoyed the countless sceneries on the planet.

The disaster pulled him back to reality.

the four great empires were destroyed.

His closest kin had died, and he had witnessed with his own eyes how the 'evil people of the universe' had destroyed his home and how 'inhumane' they had slaughtered countless giant spirit race members.

Hatred!

He was filled with hatred!

...

He wanted revenge!

He wanted to take revenge on the 'evil universe' people who had killed his family, destroyed his home, and slaughtered countless giant spirit race members.

He!

Dong di li!

The only surviving giant spirit royal family!

He swore to personally destroy those brutal people in the universe.

“are you guys ready?”

Dong Dili took in a deep breath. The disasters that had happened in such a short period of time had made him mature a lot. His gaze was heavy and judgmental as he scanned through the giant spirit race members around him.

“My Lord, we’ve already prepared ourselves for death.”

“That’s right.”

“The giant spirit race will never be slaves!”

“.....”

In the surroundings.

All the giant spirit race beings replied in unison.

“Alright,” he said.

Dong Dili clenched his fist and said in a deep voice, ” the ‘military base’ that we are in is a ‘top-secret base’ that only the Titan royal family is qualified to know.

“Only the secret genetic code of the giant spirit royal family can enter.”

in this ‘secret base’, there is the’ ultimate biological weapon-of our giant spirit tribe-the genetic judgment. The power of the ‘genetic judgment’ can destroy the genetic structure deep inside-living being. As long as the other party is a real living being, regardless of whether it is-carbon-based structure or-silicon-based structure, nothing can resist the power of the ‘genetic judgment’.

“Next,”

I will activate the ‘ultimate biological weapon-genetic judgment’. When the people from the universe truly appear, you will immediately lock onto them and launch the’ genetic judgment’.

“Yes.”

“we understand.”

we will definitely succeed and exterminate the cruel people of the universe.

“The giant spirit race will definitely win!”

“We will definitely win!”

“.....”

All the giant spirit race beings shouted in unison.

At the same time.

The interstellar warship had successfully landed on 'Titan planet'.

After that.

Led by the leaders of the four great giant spirit race, the surrounding giant spirit race members in the hundreds of millions all knelt on the ground and kowtowed to the interstellar warship.

“Argh! A great and Supreme existence! You are the God of the giant spirit race in the ancient legends. You are Supreme, you are the highest, you are the light of hope that guides us forward!”

“Ah!”

“We praise you, we sing your praises”

the lost sheep has finally awoken today. You are the only truth in this world. We, who are ignorant and ignorant, have forgotten your greatness and supremacy because we have studied Biological Technology. Thus, you have descended today, punished us, and taught us. Only then can the lost sheep know how to return to the right path.

“.....”

It could be seen.

Jiang Li! the giant spirit clan members shouted and sang, comparing Jiang Li to the 'God of the giant spirit clan'.

In reality.

the so-called ‘god of the giant spirit clan’ was a ‘legend’ that the giant spirit clan had believed in and fabricated a long time ago, similar to the slavery and feudal times on earth.

With the development of ‘biotechnology’, they had long abandoned the so-called ‘God of the giant spirit race’, because they knew that such a thing did not exist at all.

now.

They brought up the legend of the ‘God of the giant spirit race’ again and put the name on Jiang Li to please him.

“brother, they seem to call you the ‘god of the giant spirit race’.”

In the cockpit.

Jiang Wenxin pointed at the giant spirit race and said to Jiang Li.

“I’m not some God of the giant spirit race.”

No. Jiang Li shook his head.

“.....”

In the surroundings.

Jiang beiguo and the rest were also looking down at the countless giant spirit clan members.

“Let’s go,” he said.

I’m going to meet the new leaders of the giant spirit race, ” Jiang Li said.

“Your Majesty.”

please be careful, ” Toria reminded him. after all, we only took less than five days to conquer the entire Titan star.”

furthermore, we’ve massacred hundreds of millions of giant spirit race beings.

therefore, there must be a giant spirit race that is unwilling to submit and wants to take revenge on us. They are waiting for us to descend and fight us to the death.

something like this has happened before when we, the eternal civilization, conquered other civilizations.

“Yes.”

okay. Jiang Li nodded.

“Teleport.”

go! Jiang Li ordered.

Buzzzzzz! Buzzzzzz!

The next moment.

Jiang Li and the others were teleported out of the interstellar warship. They stood in the air outside the warship, exposed to the planet.

“they’ve appeared! they’ve appeared!”

“.....”

In the surroundings.

countless members of the giant spirit race looked up at jiang li and the others.

“Yes.”

it’s different. Jiang Li felt the difference on Titan star. there doesn’t seem to be much difference this week, although Titan star is many times larger than earth.

“There’s not much difference in gravity,”

as for the composition and content of the air, it’s impossible to know without special tests.

“However,”

there is a relatively thin ‘cosmic energy’ inside the ‘Titan star’, unlike earth, where there is no’ cosmic energy ‘at all, so there are no’ extraordinary resources’.

even the entire solar system does not have ‘extraordinary resources’.

however, there are ‘energy crystal mines’ on ‘Titan star’.

At the same time.

In Dong Dili’s Secret base.

“It has appeared.”

“They’ve all appeared.”

“.....”

Many of the giant spirit race beings shouted.

“Now.”

Dong Dili’s expression was crazed as he clenched his fists and roared, ” ” target locked. prepare to launch ‘ultimate biological weapon-genetic judgment’. ”

“Yes!”

“Yes, sir!”

“Program activated!”

buzzzzzz! Buzzzzzz! Buzzzzzz!

At this moment.

the secret base was operating at full power. all the facilities and facilities were activated. the ground shook violently, as if there was a terrible earthquake.

Kachaa! Kachaa!

Immediately after.

It was a giant mountain that was a million meters tall.

It directly split open from the middle.

After that.

The ‘base’ within the giant peak was completely exposed. It had the appearance of a ‘sword-shaped’ base, and was pitch-black in color, reflecting light.

The base split open.

in the middle of the room.

a blood-red ball of light appeared, flashing with a strange light that was difficult to describe with words. it contained the cutting-edge technology of biotechnology.

“target locked!”

“Fire!”

BOOM!

the base was shaken.

The blood-red light turned into a blood-red light with the gene destroyer. It aimed at Jiang Li and shot out.

Chapter 707 Subduing

“Rumble!”

kachaa! “Crack!”

just as the ‘ultimate biological weapon-genetic judgment’ was launched, the base couldn’t withstand it and cracks appeared. various areas began to explode.

“ah!”

He screamed again and again.

The sudden change had caused the deaths of many giant spirit race members in the base.

“this suan ni, this suan ni”

“What’s going on? What’s happening?”

“Why did the base explode?”

Many of the giant spirit race members were shocked and terrified.

Obviously.

The technology for the ‘ultimate biological weapon-genetic judgment’ was not mature and had not been fully developed. Dong Dili had forcefully used it. Although it was launched, it had also caused the entire base to become scrap metal.

However ...

Dong Dili had long since put his life and death aside. Or rather, he had never thought that he would be able to survive. Right now, he was the only thing that could keep him alive.

And that was revenge!

Revenge!

He had to use all means.

“Kill him! Kill him! Kill him!”

Dong Dili clenched his fists and stared at the screen with bloodshot eyes. His face was distorted as he screamed, ” kill him!!!

Shua!

The blood-red light was like a sharp sword. It crossed space and reached the speed of light. It even burned with blood-red flames and was extremely eye-catching.

Hurry up!

It was extremely fast!

“Your Majesty.”

careful! Toria cried out in alarm.

“not good!”

the pupils of luo klan and the others contracted.

“Brother!”

jiang lijun and jiang wenxin shouted.

“My son!”

Jiang beiguo and Zheng qiushui rushed over, trying to block the attack for Jiang Li.

“.....”

Below.

The members of the giant spirit race were also dumbfounded.

However ...

The level 9 Black Star Troopers around them were even faster.

The Black Star Troopers rushed to the front to defend themselves, but the speed of the blood-red light was too fast.

It pierced through the black Star Troopers' bodies.

black star troopers weren't living creatures.

The 'genetic weapon' naturally couldn't affect the Black Star Troopers, but at the same time, the Black Star Troopers couldn't block the 'genetic judgment'. The 'genetic judgment' passed through the black Star Troopers' bodies like they were nothing.

"you're overestimating yourself."

Humph! Jiang Li snorted.

In reality.

When Jiang Li was locked on by the enemy, he sensed it. He didn't panic at all and looked calm.

Buzzzzzz! Buzzzzzz!

the art of the azure emperor circulated.

Roar!

The Dragon's Roar was earth-shaking and the mist of the Empire's fortune spread out, forming a blue mist that quickly covered Jiang Li.

in that instant.

A 200,000-meter-long Azure Dragon of the great Xia Dynasty rushed out and soared into the sky. It released a terrifying Dragon's might that enveloped all the giant spirit race members present.

at the same time.

The mark of 'Emperor status' appeared between Jiang Li's eyebrows.

at this moment.

...

Jiang Li released all his power like a god. The giant spirit race felt like they were facing a God.

"this suan ni, this suan ni"

Plop! Plop!

Very quickly.

Many of the giant spirit clan members who weren't strong enough knelt on the ground and shouted in their giant spirit clan's language, "the great God of the giant spirit clan!"

He fell into a fanatical state.

clang! Clang!

The sound of a sword rang out.

Jiang Li waved his right hand and the Yin Yang Emperor sword appeared. He activated his cultivation technique and the laws of the Emperor path intertwined. His eyes were cold as he slashed out.

“Emperor path sword!”

Shua!

...

The sword ray was as bright as a Galaxy. It was intertwined with the power of the Emperor Dao laws and the power of the Emperor weapon, the Yin Yang Emperor sword.

BOOM!

Jiang Li's attack focused on the 'ultimate biological weapon-genetic judgment'. The two sides collided and kept making explosions.

At the same time.

The 'Emperor path laws' contained in this sword attack were continuously wearing out the power of the 'genetic judgment'.

'Biotechnology'.

He studied plants, animals, dimensional beings, and so on. Then, he studied cells, bacteria, fungi, and so on. After that, he studied the basic structure of living beings, gene fragments, and so on.

It could be said that ...

The biotechnology of the giant spirit race had already entered the genetic level.

one had to know.

What Jiang Li cultivated was the ‘martial arts technique’ of the ‘Super Fantasy world’. He could comprehend the mysteries of the human body and strengthen himself step by step, improving his level of life.

Even ...

To comprehend the truth of heaven and earth, to comprehend the laws of heaven and earth.

He would return all the power to his body.

It could be said that ...

This kind of evolution had long surpassed the level of a single biotechnology civilization. It was definitely not something that could be achieved by a single biotechnology civilization.

In other words ...

From the very beginning.

the ‘ultimate biological weapon’ developed by the giant spirit race, the ‘genetic judgment’, wouldn’t be able to cause any harm to jiang li because jiang li couldn’t be distinguished by’ carbon-based life ‘or’ silicon-based life ‘anymore.

His life level had undergone several evolutions and upgrades.

“BOOM!”

The explosion shook the surroundings.

The blood-red light was shattered by Jiang Li's sword and exploded into light. The red light fell to the ground, the forest, and the sea.

si si si si si

After that.

Those plants, animals, even viruses, cells, and so on.

The genes in his body were broken.

In an instant.

All of them had turned into a rotten mud.

Within a radius of a hundred thousand miles.

It had turned into a 'dead zone'.

The foul smell floated in the air and did not dissipate for a long time.

If one were to look at 'Titan star' from the universe right now, they would see that there was a dark scar on the planet that could not be removed.

This was the terrifying disaster and consequences of the 'genetic weapon'.

"This thing."

Jiang Li frowned. It's so destructive to the environment. Nuclear radiation is nothing compared to this.

"I don't know how long it'll take for him to recover."

“No! No! No!”

At this moment.

In the ‘secret base’.

Dong Dili’s eyes almost popped out of their sockets when he saw this scene. his ferocious expression froze on his face, and he looked extremely dejected.

“This is impossible, this is impossible, how can this be possible?”

Dong Dili mumbled like a walking corpse, ” that’s the ‘ultimate biological weapon’ that the giant spirit clan has researched and created after countless years and everything they’ve done. It’s the ‘genetic judgment’. How could it be useless? ”

this can’t be real, this can’t be real!!!

Bang Bang Bang!

In the surroundings.

The base was being scrapped step by step, and the sound of explosions could be heard from time to time.

“Sir, the base is about to be destroyed. Let’s go.”

“it’ll be too late if we don’t leave now.”

“My Lord!”

The giant spirit race members shouted.

“Hahahahaha!”

However, Dong Dili was laughing out loud. The huge stimulation and blow had pushed him to the edge of madness. it's useless. It's completely useless.

as long as we're alive, there'll definitely be a chance.

“my lord, don't give up so easily!”

“my lord!”

The giant spirit race members shouted.

“Target locked!”

Buzzzzzz! Buzzzzzz!

At this moment.

Jiang Li's mechanical Army had locked onto Dong Dili's location. They only sent out a hundred level-nine Black Star Troopers.

Energy charging.

After that.

BOOM!

They fired at the same time.

Hundreds of thick energy beam cannons, containing a certain amount of antimatter energy, pierced through and hit the huge sword-shaped base.

“Ah!”

” quickly run!! ”

The giant spirit race members in the base were all terrified.

“Everything is over.”

Dong Dili looked on and fell into a temporary calm. He closed his eyes in despair as the voices and smiles of his family appeared in his mind, ” father, mother, my dear brothers and sisters, I’m here to accompany you.

The next moment.

“Rumble!”

A terrifying explosion was heard.

From afar.

The 100,000-meter-tall mountain was reduced to ashes under the bombardment of the energy beam cannons. The entire base was wiped out from the ground.

The light from the explosion illuminated the surroundings.

It even devoured everything.

The ground was shaking violently.

A mushroom cloud rose into the sky.

he was unable to calm down for a long time.

Roar! roar!

Jiang Li stood in the sky and looked down at the giant spirit race. A 200000-meter-long Azure Dragon with five claws hovered behind Jiang Li.

Buzzzzzz! Buzzzzzz!

He activated his cultivation technique, and the emperor's position released its pressure.

Jiang Li's power reached its peak.

On the ground.

The giant spirit clan members couldn't bear Jiang Li's pressure anymore and knelt on the ground. Each of them was nine meters tall.

Even if it was crawling on the ground, it was still three meters tall.

The giant spirit race, which had extremely advanced biotechnology, had extremely long lifespans. An ordinary giant spirit race member could live for more than 1000 years, not to mention the giant spirit race members who had been injected with gene strengthening fluid.

At the same time.

With the help of biotechnology, the giant spirit clan had undergone genetic modifications from the depths of their genes, turning them into beings similar to spirits.

This way ...

The giant spirit race didn't use the concept of the internal organs.

As long as the 'giant spirit core' wasn't destroyed, it wouldn't die. It could create a new energy spirit body, enter it, and be resurrected.

“I am the human Emperor of the great Xia Dynasty.”

Jiang Li’s voice was low, but it reached the depths of everyone’s soul. Emperor Xia ‘Jiang Li’ has arrived on Djinn planet.

“Are you giant spirit race members willing to submit? Become a subsidiary race of the great Xia Empire?”

Obviously.

Although Jiang Li was speaking in Earth’s language, through the fate of the Empire and other means, what Jiang Li wanted to say was directly transmitted into the depths of everyone’s souls.

This way ...

Even though the giant spirit race couldn’t understand Jiang Li’s language, they could understand the meaning.

there was half a second of silence.

“I’m willing!”

“We’re willing!”

the giant spirit race is willing to submit to the great Xia Emperor ‘Jiang Li’. We are willing to become the subordinate race of the great Xia Dynasty. We are willing to submit!

“.....”

the next moment.

With the four great leaders of the giant spirit race at the lead, the surrounding giant spirit race members responded one after another. They shouted loudly in the unique language of the giant spirit race.

“Very good,” he said.

A smile appeared on Jiang Li’s face.

“Roar!”

At this moment.

The Azure Dragon of the great Xia let out an excited roar as well. He looked down at the giant spirit race from above, and countless mysterious runes flickered in his huge eyes.

With Jiang Li as the center, countless green mist of the nation’s fortune spread out and gradually covered a large number of giant spirit race members.

The five-clawed Green Dragon Mark appeared on all of them.

At the same time.

The imprint of the subsidiary race was directly imprinted in the depths of the ‘giant spirit clan’.

This way ...

The Titan race members who had been hiding on Titan star and were unwilling to submit were also forced to copy the marks of their subsidiary races.

It couldn’t be removed.

He was even more unable to resist.

He could only accept it.

how did this happen?!

The giant spirit tribe members who were unwilling to submit were all dumbfounded, especially after receiving the information that the Azure Dragon of the great Xia Dynasty had transmitted to their minds.

He was even more shocked.

They thought Jiang Li was from another civilization in the universe, but his origin was even more bizarre than they thought.

it actually came from another world.

This had completely shocked them.

Chapter 708 perfect completion

Buzzzzzz! Buzzzzzz! “Whoosh!!!”

The Azure Dragon of the great Xia started to devour the invisible ‘fate’ of the giant spirit clan. His 200000 meter long dragon body gradually grew at a speed that could be seen with the naked eye.

210,000 meters, 240000 meters, 280000 meters

In the end.

After the Azure Dragon of the great Xia Dynasty grew to 300000 meters, it completely stopped. The Dragon's might of the country became more and more majestic and powerful.

Although it had also grown by 100000 meters this time, the strength of the country's fate that had been absorbed and increased was clearly much greater than when he had subdued the myriad life tribe.

And the reason why they all grew by 100000 meters ...

That was because the growth of the country's fate true dragon would require more and more country's fate.

Moreover ...

the eternal civilization of the myriad beings tribe was indeed superior to the titan race's, but the total number of members in the myriad beings tribe was only 310.

On the other hand, the giant spirit race.

Although Jiang Li didn't have a detailed count, the number of races was at least in the hundreds of millions, which far exceeded the number of the myriad life clan. Naturally, the fate of the nation would increase more.

The growth of the nation fate made Jiang Li feel the call of the 'true dragon List', and the feeling was getting stronger and stronger. It was at least several times stronger than before.

Furthermore ...

The growth of the dynasty's fortune also brought about the vast energy of the nation's fortune. Jiang Li couldn't suppress it any longer. He had to find a safe place to break through as soon as possible.

Half an hour later.

The strange phenomenon subsided.

Jiang Li looked down at the giant spirit race that had been subdued. It was the second subsidiary race that Jiang Li had subdued. All the giant spirit race members knelt on the ground.

the subsidiary race, the giant spirit race, pays respect to Your Majesty, the Xia Emperor!!

He looked around.

Jiang Li! all the members of the giant spirit clan knelt down and kowtowed to Jiang Li while shouting. Their voices were in unison and their loud voices shook the surroundings.

It was as loud as Thunder.

“Yes.”

okay. Jiang Li nodded.

“toria, roklan.”

Jiang Li shouted.

“your subject is here.”

toria, roklan, and the others quickly came over and knelt down on one knee.

“i’ll be going into closed-door cultivation for a while.”

I’ll leave the giant spirit race to you, ” Jiang Li said. I’ll leave it to you.

“yes, your majesty,”

“This Minister accepts the decree.”

Toria and Roklan were slightly excited as they said in unison.

In reality.

Toria and Luo Klan were worried that Jiang Li would pay more attention to the giant spirit race after he had subdued them.

but now it seemed ...

Jiang Li didn't have such an idea.

Toria and Roklan heaved a sigh of relief.

“Father, mother.”

Jiang Li walked to Jiang beiguo and Zheng qiushui.

“you don't have to worry about us.”

“have a good closed-door cultivation,” zheng qiushui quickly said.

“Yes,”

jiang beiguo nodded.

“Alright,” he said.

” okay. ” jiang li nodded.

“brother.”

Jiang Lijun walked over and asked Jiang Li, ” ” i would like to learn the biotechnology knowledge of the giant spirit race. ”

“That’s not a problem,”

jiang li thought about it and agreed, but he still reminded her, ” ” it’s just that the giant spirit race’s biotechnology isn’t that advanced. in fact, as long as you master the cultivation technique i gave you, a mere biotechnology won’t be able to threaten you at all. ”

“But it’s good to be exposed to new knowledge.”

“Yes.”

Jiang Lijun nodded solemnly. I understand.

...

“Brother, brother, what about me? Then what about me?”

Jiang Wenxin ran over and pointed at herself.

Jiang Li smiled. sister, I hope you can master the technique I’ll give you as soon as possible while I’m in seclusion. Try to cultivate your martial arts to the same level as you.

“yes, sir.”

Jiang Wenxin quickly stood up straight.

Soon after.

jiang li said a few more words to toria and the others. although toria's rank wasn't high in the eternal civilization, it was still a civilization one level higher than the titan race. it was easy to rule and plan the titan race.

Buzzzzzz!

Jiang Li asked the interstellar warship to send him to the cockpit.

His figure disappeared.

Toria and the others followed Jiang Li's orders and started to plan what the giant spirit race would do next. They also set up a ruling framework with Jiang Li as the leader.

...

as for jiang li's family, they were all cultivating the techniques jiang li gave them. they had to at least cultivate their martial arts to the same level as their bodies.

In the cockpit.

“Azure Emperor Art!”

BOOM!

” i'll try. ” jiang li used his technique to draw in the energy of the universe and turn it into his own power. above jiang li's head was the gathering of the three flowers, on his chest was the level-twelve lotus of heart fire, then the level-twelve lotus of golden lung, and finally the level-twelve lotus of earth.

Buzzzzzz! Buzzzzzz!

Jiang Li adjusted his state and reached his peak.

“The blessing of the nation has arrived.”

BOOM!

Jiang Li stopped suppressing it. The energy from the feedback of the country fortune poured into his body and he started to refine it.

Time passed.

Immediately.

Jiang Li controlled the energy he refined and poured it into his liver. The green light was gradually condensing and changing.

An illusionary rank-twelve liver wood Lotus appeared.

After that.

The liver wood Lotus was gradually solidifying.

not long after.

The level-twelve liver wood Lotus was completely solidified. Jiang Li also broke through to the late stage of level nine. His cultivation had successfully increased by a small level.

buzzzzzz! Buzzzzzz!

He activated his cultivation technique.

he had consolidated his cultivation base.

“Continue.”

Jiang Li’s expression didn’t change. He continued to operate his techniques, absorbing the vast energy from the fate of the country and injecting it into his kidney.

Very quickly.

Speckles of black light gathered around the kidney.

Not long after.

An illusionary grade twelve kidney water lotus appeared.

It gradually solidified.

In the end.

The kidney water lotus had completely solidified.

Jiang Li’s aura had obviously improved again.

However ...

He did not break through to the great circle of tier 9.

“Metal, wood, water, fire, and earth.”

jiang li’s expression didn’t change. he felt the changes in his body while the secret of the technique flowed in his mind. ” next, i’ll completely condense the five qi in my chest. ”

“it causes the five elements to rotate and grow endlessly.”

“Hu ~~ Hu ~ Hu ~”

Jiang Li took a deep breath.

First of all ...

Jiang Li spent some time to stabilize his cultivation.

After that.

Feeling the energy from the country fortune, Jiang Li gradually calmed down. He ran his cultivation technique and guided the five Qi in his chest, which was the Lotus of the five internal organs, to the center.

It could be seen.

Under Jiang Li's guidance, the five rank-twelve lotuses gradually moved closer to the center of his upper body. Different types of energy started to collide with each other.

Obviously.

It was not an easy task to gather the five Qi in the chest and reach the level of endless growth.

Roar!

A Dragon's Roar resounded.

The Azure Dragon of Xia appeared and landed on Jiang Li's body. The vast Azure fate of the country fell and merged into Jiang Li's body.

At the same time.

” let’s go. ” jiang li activated his cultivation technique and the energy from the fortune of the country poured in.

The Dao of the five elements.

metal begets water, water begets wood, wood begets fire, fire begets earth, and earth begets metal.

The five elements were born from each other.

As the five lotuses of the five internal organs approached each other, they began to rotate clockwise. The five elemental Qi formed a cycle, achieving a state of endless growth and mutual promotion.

“Whoosh!!!”

There were bursts of light.

In the end.

In the middle of the room.

A twenty-fourth grade Lotus of five elements was born.

It was also known as the Lotus of five Qi.

Above his head.

The three flowers condensed on top of his head, and a mist of light fell into the five elements Golden Lotus. The five elements Golden Lotus then glowed with five-colored light and merged with the three flowers condensed on top.

BOOM!

Jiang Li's cultivation had broken through and he had reached the peak of level nine.

the five elemental lotus and the three flowers crown disappeared at the same time.

Inside his body.

On Jiang Li's true spirit battle twenty-four green Lotus, there was the gathering of heaven, earth, and man on his head and a level twenty-four five elements Lotus on his chest.

Roar!

The Azure Dragon of great Xia circled and released a green mist of light.

At the same time.

He also had the Empire's sacred artifact to protect him.

Time passed.

Jiang Li absorbed all the energy from the fate of the nation and improved his cultivation to the perfected stage of level nine. He also consolidated his cultivation.

However ...

He was still far from breaking through to the tenth-order law realm.

Tenth rank.

The nomological realm.

Jiang Li couldn't really understand the mysteries of this realm. He only understood a little bit. It would be even more difficult to break through to this realm.

According to the records of the 'Azure Emperor Art'.

Tier 9 perfection.

The three flowers gathered above his head.

Five Qis collecting.

He had already cultivated himself to the unblemished state.

His physical body had reached perfection.

Further up.

One had to comprehend the profoundness of the laws and materialize them.

but ...

How should he do it?

Jiang Li didn't understand.

so,

It would be even more difficult to break through.

Fortunately ...

I'll try. Jiang Li had already comprehended the mysteries of the Emperor path laws. Perhaps he could use the 'Emperor path laws' to reach the 'law realm' and reach level ten.

"I've made a breakthrough in my cultivation. It's time for me to accept the true dragon roll's rewards."

Jiang Li closed his eyes and connected with the 'true dragon List'. The power of the 'true dragon List' could cross the boundaries and obstacles of the universe.

It was truly profound and unparalleled, unable to be fathomed.

He didn't know where his 'true body' was.

shua!

Jiang Li entered the chaotic world of the 'true dragon List' and his consciousness entered the 'illusionary body' that had been in this world.

The 'illusionary body' opened its eyes.

He raised his head and saw the huge true dragon Roll falling.

Buzzzzzz! Buzzzzzz!

Immediately after.

Two chaotic-colored lights separated from the true dragon List and turned into two streams of light. They crossed the distance and merged into the illusionary body.

"This is a Kasaya."

huh? " Jiang Li was stunned. A message appeared in his mind.

“Congratulations to the great Xia Dynasty for improving its National fate. Your ranking has risen from 129600 to 121300. Spatial secret technique-low grade formation technique.

spatial secret technique.

Oh, I see. Jiang Li said delightedly. the power of the ‘space domain’ is to increase the ranking of the National fate and get rewards from the ‘true dragon List’.

“there’s only the ‘formation chapter’? It’s still a low grade.”

“Congratulations to the great Xia Dynasty for improving its National fate. Your ranking has risen from 121300 to 116700. Low grade Emperor artifact forging technique.

After that.

The information regarding the second reward appeared.

“Emperor weapon forging technique.”

Jiang Li pondered, is it about how to forge an Emperor artifact? And it’s a low grade one.”

Chapter 709 Symbiotic

no matter what.

It was great for Jiang Li to get these two rewards.

First of all ...

‘Space secret technique-low grade array technique.’ If he could study it thoroughly, he would be able to set up an extremely powerful ‘Space Array’. At that time, it would definitely be easier to travel through the universe.

Of course.

After all, it was only a ‘low-level formation’. Jiang Li couldn’t activate it to be very powerful. It was enough for now.

In addition.

‘Emperor artifact forging technique’.

As long as he could master it, he could forge an ‘Emperor weapon’ himself. He had tested the power of the ‘Emperor weapon’ himself. It was very powerful.

At that time.

Jiang Li could make a sovereign weapon more powerful than the ‘Yin Yang sovereign sword’.

“You are ‘Emperor Xia’.”

at this moment.

Jiang Li. many ‘illusionary bodies’ of emperors around looked at Jiang Li. you’re rising very fast. We’ve been in the Imperial court for tens of thousands of years, but we’re still at the bottom.

” and you’ve only established the empire for half a year, and you’ve risen by a total of 12900. ”

“We are very envious.”

“Haha, lang wo, as a human, Emperor Xia, can you share some of your experiences?”

“We will be extremely grateful.”

“.....”

the monarchs spoke one after another.

“Hehe.”

Jiang Li glanced at the emperors and said, ” “I still have important matters to attend to, so I won’t chat with you all. Farewell.”

“You’re so silly!”

“Jiang Li!”

buzzzzzz!

However ...

Jiang Li’s consciousness had left the ‘illusionary body’ and the ‘illusionary body’ closed its eyes, leaving behind a group of angry ‘emperors’.

this Jiang Li actually left.

“He’s not putting us in his eyes!”

for him to be able to improve so much in such a short period of time, he must have discovered a new world with abundant resources and no empire.

“If only I could force him to tell me.”

it's best if I don't meet him in another world. Otherwise, I'll let him know how powerful I am and make him regret his actions today.

The emperors were extremely unhappy.

However ...

they could only be unhappy, but there was nothing they could do. at most, they could only say a few words.

One had to know.

the six clans 'immortal court had clearly stated that imperial wars were absolutely not allowed in the' super fantasy world', as it would destroy the world.

so,

It was impossible for these emperors to take revenge in the 'Super Fantasy world'.

As for the other worlds ...

How difficult would it be for the universe to encounter such a thing?

giant spirit planet.

The interstellar battleships were floating in the air.

In the cockpit.

Jiang Li's consciousness returned to his body and he opened his eyes.

Buzzzzzz!

Immediately.

‘Space secret skill-low-grade formation technique’ and ‘low-grade sovereign artifact forging technique’ entered the depths of Jiang Li’s mind and he completely memorized them.

First of all ...

Jiang Li started to browse the space secret skill-low-level formation.

Time passed.

“Oh.”

Jiang Li’s eyes lit up. He had finished reading all the low-level formations, but he didn’t comprehend them. The low-level formations were far beyond his expectations.

...

” ‘secret space technique-low-grade array technique chapter’. it is divided into nine chapters. ”

the first chapter is to comprehend the mysteries of space and create a ‘space talisman’. If you succeed, you will have taken one step into the ‘Space Array Dao’.

“The remaining eight chapters are all about how to use the ‘space talisman’ to set up a space formation.”

I didn’t expect the ‘low level space boundary array’ in the last chapter to be able to break through the world barrier and teleport across worlds. This ability has already far exceeded my expectations.

One had to know.

Jiang Li thought it would be great if the strongest space formation recorded in the 'low-level formation chapter' could travel 'one light year', but he was surprised.

The third volume's 'inferior space formation' could allow one to travel a distance of one light year.

As for the 'fourth chapter', 'fifth chapter', and 'ninth chapter', they were getting stronger and stronger.

"Such a 'secret technique' is actually only a 'low grade formation technique'."

what's the level of the medium grade or even the superior grade? " Jiang Li thought. It's really hard to imagine!"

After that.

...

jiang li started to browse the 'forging method of low-grade sovereign artifacts'.

"Level nine Emperor artifact all the way to level twelve Emperor artifact."

jiang li took a deep breath and was shocked."it's just an 'inferior imperial dynasty forging technique', but it recorded the forging of emperor artifacts from level nine to level twelve."

"Hu ~~ Hu ~ Hu ~"

Jiang Li couldn't help but gasp.

however, according to the 'low-grade Emperor artifact forging method', to forge a level ten Emperor artifact, the strength of the Empire's true Dragon's National aura must be at least ten million meters.

three hundred thousand meters. Jiang Li muttered, " the Azure Dragon Kingdom is only three hundred thousand meters away. I'm still far from it.

"It's almost time."

it's time. Jiang Li stopped thinking and stood up. it's time to go out.

"Chief sovereign."

buzzzzzz!

congratulations, my Lord. the mechanical mind appeared and said to Jiang Li, " congratulations on your improvement.

"Yes."

I know. Jiang Li nodded and asked, " how long have I been in seclusion? "

"Reporting to the chief sovereign, you've been in seclusion for three years."

The mechanical intelligence replied.

"Three years."

Jiang Li was stunned. so fast? " why do i feel like only a short time has passed?"

"It has indeed been three years."

the mechanical intelligence continued.

"I know."

go. Jiang Li waved his hand.

In reality.

The reason Jiang Li went into closed-door cultivation for three years wasn't because he was slow, but because it took him a long time to cross the boundary of the universe and enter the chaotic 'true dragon List'.

After all ...

The 'plane universe' that Jiang Li was in right now was no less 'advanced' than the 'Super Fantasy world', and the 'Super Fantasy world' had just started to invade.

Buzzzzzz!

Jiang Li disappeared from the cockpit.

The next moment.

He appeared outside the interstellar warship.

"Chief sovereign."

Shua! Shua!

Wang Gang, WMS01, SSTs01, and MYL01 all showed up and saluted Jiang Li. "Welcome, hegemon!" He said.

"yes."

okay. Jiang Li nodded.

At this moment.

imperial capital? ” Jiang Li just realized that there was a huge imperial capital under the interstellar warship. The tallest building in the center was a hundred thousand meters tall.

In the surroundings.

What came into view was a dense city of buildings.

This imperial capital.

It was a million meters long and a million meters wide.

Buzzzzzz! Buzzzzzz! Buzzzzzz!

Not long after.

Toria and the others were alerted by Jiang Li's exit. They flew over from the center of the imperial capital at lightning speed.

“your subjects, lia.”

“I am Luo Kelan.”

“your subject is gullide.”

“Your humble subject is mo Henglong.”

“.....”

He looked around.

with toria, luoklan, and the myriad life tribe as the leaders, there were many giant spirit tribe members. all of them had reached the level of a ninth-grade life form.

There were a total of 1200!

Your Majesty, we welcome you. Your cultivation and strength have greatly increased.

There were a total of 1000 grade-9 experts.

Jiang Li! the crowd knelt down and kowtowed to Jiang Li.

“Yes.”

jiang li looked at toria and the others with a smile. he nodded and said, ” “Not bad.”

“We welcome Your Majesty to the palace.”

toria and the others said.

Obviously.

in the past three years.

The entire myriad life tribe and the giant spirit tribe received information from the Azure Dragon of great Xia, and their cultures and languages were gradually changing.

learning chinese and chinese culture all over the world.

Of course.

A complete change was not something that could be completed in a few years. The culture and language of the ‘myriad life tribe’ and the ‘giant spirit tribe’ had not disappeared, but were all preserved.

The two cultures and languages became vassals.

“Brother!”

Shua! shua!

Jiang Lijun and Jiang Wenxin quickly flew over.

Three years.

Their cultivation had all reached the great circle of tier 7.

Of course.

This was because Jiang Wenxin and the others had been injected with gene strengthening liquids from rank-1 to rank-7, turning them into rank-7 lifeforms, which was why they could improve so quickly.

After reaching the perfected stage of tier 7, it was difficult for Jiang Lijun and the others to improve their cultivation.

“Big brother, you’ve come out of seclusion.”

jiang lijun said.

“your majesty!”

Qiu Daiyue and the others kowtowed to Jiang Li.

“Yes.”

okay. Jiang Li nodded.

Qiu Daiyue and the others had only been injected with the sixth-tier gene strengthening fluid, so their cultivation was still at the peak of the sixth-tier, and it was difficult for them to break through to the seventh-tier.

The ‘gene strengthening liquid’ created by the myriad life clan and the giant spirit clan was all based on their race’s genes. It was not suitable for the humans on earth.

Of course.

The ‘gene strengthening liquid’ that Jiang Li created through the ‘01 interstellar base’ was absolutely perfect and flawless.

It was suitable for any race.

It could be used in all worlds.

After that.

Jiang beiguo and Zheng qiushui were there as well. Seeing Jiang Li come out safely, they all smiled.

The Imperial Palace.

Emperor Xia’s Palace.

The Dragon Throne directly above.

Jiang Li was sitting on it, surrounded by the blue mist of the nation's fortune. The mark of the emperor's position between his eyebrows was shining as if he was sitting on a Dragon Throne.

The emperor's might was vast.

He suppressed the entire Hall.

Wang Gang and the others stood behind Jiang Li like statues.

He looked around.

"Your subjects pay their respects to Your Majesty!"

the ministers all kowtowed to jiang li.

"All beloved ministers, rise."

Jiang Li raised his hand.

"Thank you, Your Majesty!"

the ministers said in unison, and then stood up in an orderly manner.

three years.

Toria and the others built a Supreme Empire with Jiang Li as the leader and ruled the entire planet. They mined the resources of the planet as Jiang Li ordered.

"Toria,"

report your progress in the past three years, " Jiang Li ordered.

“Your subject will obey.”

Toria cupped his hands and explained, in the past three years, we’ve discovered a total of three small energy crystal mines and one medium-sized energy crystal mine on Titan star.

the three small energy crystal mines are already being mined.

however, we ran into a huge problem when we were mining the medium-sized energy crystal mine.

“What kind of trouble?”

Jiang Li asked.

due to the abuse of biotechnology by the ‘giant spirit clan’, it has led to an unpredictable genetic mutation of the creatures on giant spirit planet. The genetic mutation has formed a very wonderful symbiotic relationship with the medium-sized energy crystal mine.

Toria replied, ” in the end, they formed a tribe.

most importantly, there are life forms that have reached level 10 in this tribe.

“Tenth-ranked!”

” that’s not good news. ” jiang li’s expression changed. ” that’s not good news. ”

Chapter 710 Level

There was a saying that said, "how can you allow others to sleep beside your bed?" on the planet that he ruled, there was actually a genetic mutant creature that had reached the level of a tenth-order life form.

Furthermore ...

It also occupied the precious and rare medium-sized energy crystal mine.

such a thing was absolutely not allowed.

Whether it was to mine the medium-sized power crystals safely or to ensure the safety of Titan star, the level 10 lifeforms that had formed a strange symbiotic relationship with the medium-sized power crystal mines had to be eliminated.

furthermore ...

if he could kill a tenth-grade life form, he might be able to get a tenth-grade soul tinder.

Next.

Toria kept reporting to Jiang Li what had happened in the past three years. She also reported the situation of the myriad life race and the giant spirit race.

among them.

After three years of development.

the number of members of the myriad life tribe had increased from 310 to 1000, with an additional 690 'newborns'. however, it was still far from the prosperity that the myriad life tribe had once enjoyed.

in addition.

after a detailed count of the giant spirit tribe, there were a total of 17938 members.

This was because the special nature of the giant spirit race was that they had undergone genetic modification and evolution.

so,

As long as a giant spirit clan member became an adult, even if they did not inject themselves with the 'giant spirit clan gene strengthening fluid', they would still be able to reach the level of a stage three lifeform. If they learned a certain amount of combat skills and received soldier training, they would all be able to become soldiers with decent combat power.

of course.

Although the giant spirit clan's 'biotechnology' was indeed advanced, it was impossible to put all the giant spirit clan members into the Army. There had to be enough civilians to engage in production.

In the end.

Toria and the others had spent three years.

they were carefully selected.

After going through rounds of selection, they formed the 'mechanical creature giant spirit Army' with the giant spirit race as the main force and the mechanical technology of the eternal civilization.

Their total military strength had reached the level of 500 billion.

They would then be paired with 'biological battleships', 'interstellar battleships', and so on.

It was enough to become a powerful interstellar Army.

“Not bad.”

After listening to Toria’s report, Jiang Li nodded with satisfaction and said, ”  
“Transport all the excavated energy crystals into the Imperial Palace.”

“Yes, sir.”

Toria replied respectfully.

‘low-grade energy crystals’ were an extremely powerful and all-around energy source. their strength and adaptability far exceeded ‘nuclear energy’. relatively speaking, nuclear energy ‘was more suitable to be used to create weapons of war.

This was even more so for the ‘antimatter energy’.

in addition.

Creating all sorts of ‘potions’ also required a lot of energy crystals.

Other than that.

Jiang Li also made gene strengthening liquids from level one to Level Seven and gave them to the myriad life race and the giant spirit race to study at the same time, hoping that they would surprise him.

Half an hour later.

A team of the giant spirit clan transported all the ‘low-level energy crystals’ that they had mined in the past three years into the Imperial Palace. There were a lot of them, 50 million in total.

One had to know.

just a small low-grade energy crystal mine could mine a hundred million low-grade energy crystals.

In addition.

Energy crystal mines weren't like spirit crystal mines. They didn't have the heart of a mine, which would disappear after being mined and wouldn't regrow.

Even if it could be nurtured again.

It would also take tens of thousands of years.

“Convert!”

“Whoosh!!!”

Jiang Li activated the ‘energy point conversion function’. The light spread and covered all the energy crystals. In the blink of an eye, all the energy crystals disappeared.

conversion successful. Received 50 trillion energy points!

A notification appeared.

“Alright,” he said.

A smile appeared on Jiang Li's face.

“Pass on my order, tomorrow, we will exterminate all the type 10 mutant life forms in the middle-scale energy crystal mine.”

stop! Jiang Li shouted.

...

“Yes.”

“We will obey your orders!”

“.....”

within the palace.

All the officials knelt on the ground and said in unison.

After that.

Jiang Li left the hall.

“Hu ~~ Hu ~ Hu ~”

“This is the first time I’ve held a court session under the pressure of His Majesty, and it’s still going on.”

“that’s right,”

“His Majesty’s prestige is truly too heavy.”

...

“However, will we be able to win tomorrow’s war? Even though there aren’t many of them, the leader is a rank 10 lifeform!”

“Since Your Majesty has already given the order, I believe that Your Majesty will definitely win!”

“yes, yes, yingluo.”

“I hope so,”

The officials conversed, their hearts somewhat nervous about tomorrow’s battle.

no matter what.

It was actually very easy to kill a Level 10 Life form. If one was not careful, it could even cause the entire Djinn planet to be destroyed and explode.

At that time.

There would only be a lose-lose situation.

in the afternoon.

In an empty space in the palace.

“Chief sovereign.”

WMS01, SSTs01, MYL01.

Three special meches stood in front of Jiang Li.

“Go!”

Buzzzzzz!

Jiang Li waved his right hand and three level-eight soul Tinders flew out and merged into WMS01 and the others ‘bodies, improving their evolution progress.

immediately.

wms01 and the others had all reached 100% evolution.

At the same time.

His entire body was shining with a rich light.

“Alright,” he said.

upgrade! Jiang Li waved his hand again without hesitation. use energy points to upgrade WMS01, SSTs01, and MYL01.

Buzzzzzz! Buzzzzzz! Buzzzzzz!

Three million trillion energy points were deducted.

They turned into three torrents and flowed into WMS01 and the others ‘bodies.

Kachaa! Kachaa!

In an instant.

the three special meches were being reorganized and modified. they were undergoing a huge evolution, and a strong light covered their bodies.

A few seconds later.

All of them had been promoted.

wms01 had changed a lot. his body had changed completely. he no longer had a human form. instead, he had become a huge purple-black eye.

it was extremely ferocious.

A huge demonic eye.

It was oval in shape and purple-black in color. The longest diameter was nine meters, and the shortest was five meters. It was a slightly narrow and ferocious Demon Eye.

Its entire body was covered in diamond-shaped scales that looked like dragon scales. There were also octopus-like tentacles growing around it that twisted like pythons.

it exuded a demonic aura that twisted one's thoughts and soul.

This sort of comprehension.

He was like an evil god.

it was unusually terrifying and difficult to describe the mysteriousness of this.

Shua!

Jiang Li immediately checked WMS01's message.

[ special unit type: evil mechanical God ]

[ level: early tenth level ]

[ No.: XS01 ]

skill 1: level ten low-grade evil god aura ”

skill 2: level 10 low-grade evil god domain

skill 3: level ten inferior-grade fallen eye

skill 4: level 10 inferior-grade devouring Magic Eye

awakened skill: Demon God's nomological transformation ”

[ Demon God machinery: Jian Jia (omitted) ]

[ evolution progress: 0% ]

promotion condition: can not be promoted!

He finished browsing the information.

Jiang Li's expression changed. After the mechanical demonic god reached the early stage of level ten, it was no longer a 'fake demonic god' but a 'mechanical evil god'.

Not only that.

His skills had also undergone a tremendous change.

One had to know.

The mechanical pseudo-Demon God originally had close to ten skills, as well as weapons and equipment. Now, however, it only had four skills and no weapons or equipment left.

However ...

All four skills were level ten.

Moreover, it had an additional ‘awakened skill’.

“XS01, why did you change so much after your advancement?”

what’s wrong? ” Jiang Li asked.

“Reporting to you, chief sovereign.”

XS01 transmitted via soul communication. this is because of the continuous evolution. I have completely awakened the ‘pseudo-demonic god bloodline’ and integrated the devour law into my body. That’s how I became the ‘evil mechanical God’.

“Like this?”

I understand. Jiang Li nodded. Although he didn’t quite understand, he thought about the description of the level-ten law realm and looked at SSTs01.

Jiang Li looked at SSTs01 and noticed that it didn’t look much different. It was still wearing tight golden armor, showing its long, white legs.

On her back were angel wings.

“Check the information.”

Shua!

the information was displayed.

” special troop type: holy mechanical angel

[ level: early tenth level ]

[ No.: STS01 ]

skill 1: level ten inferior holy sword Grandmaster ”

skill 2: level 10 inferior-grade holy angel power ”

skill 3: level 10 low-grade holy angel territory

skill 4: level 10 low-grade purification rule-purgatory sword

awakened skill: holy Angel’s nomological transformation ”

[ equipment: level 10 inferior-grade holy Angel’s sword of law ]

[ angelic machinery: Jian Jia (omitted) ]

[ mechanical Holy ability: Pixiu (omitted) ]

[ evolution progress: 0% ]

promotion condition: can not be promoted!

as expected.

STS01’s transformation was the same as XS01’s, with the addition of an ‘awakened skill’. All the miscellaneous skills were gone, leaving only the main four skills, and all of them were upgraded to the level 10 low-grade.

Finally.

MYL01.

He was two meters tall, and his face was covered by a black cloak. His whole body blended into the darkness, and a long black knife appeared in his hand.

His entire body exuded a destructive aura.

special troop Type: Mechanical demon

[ level: early tenth level ]

[ No. MY01 ]

skill 1: level ten low-grade psionic Grandmaster ”

skill 2: level ten low-grade demon spirit domain ”

skill 3: level ten low-grade destruction law power ”

skill 4: level ten low-grade death oblivion

[ awakened skill: demon spirit law transformation ]

“equipment: level 10 low-grade blade of destruction and oblivion”

[ magic spirit machinery: Chenchen (omitted) ]

[ evolution progress: 0% ]

promotion condition: can not be promoted!

similarly.

It was the same for MYL01. MYL01 had new weapons and equipment, equipped with a new ‘awakened skill’, and its strength had increased greatly.

“thank you, chief sovereign!”

thank you. MYL01 and the others saluted.

“Yes.”

okay. Jiang Li nodded in satisfaction.

The next day arrived.

At noon.

Buzzzzzz! Buzzzzzz! Buzzzzzz!

High up in the sky.

Biological battleships and mechanical battleships appeared one after another, forming a huge fleet. The ‘mechanical creature Army’ formed by 500 billion giant spirit race soldiers was all mobilized.

Jiang Li’s interstellar warship was in the center of the Army.

in the cockpit.

Jiang Li was inside with STS01, MYL01, Wang Gang, and XS01 floating in the air behind him.

In addition.

Jiang Lijun and the others also followed.

“Let’s go!”

let’s go! Jiang Li waved his hand and gave the order.

“rumble!”

The fleet set off.

the speed was extremely fast.

They marched toward the location of the medium-sized energy crystal mine.

Half an hour later.

They had arrived at their destination.

Shua!

The mechanical intelligence projected a 3D image.

“your majesty.”

The 3D image was Toria. They were communicating with the interstellar warship in another warship and reported to Jiang Li, ” “We’ve arrived. It’s the mountain range in front of us.”
