

## Army 711

### Chapter 711

The mountain range in front of them was extremely lush with trees and jungles. There were many giant trees that were tens of thousands of meters tall, and there were huge exotic beasts living in the huge mountain range.

In the records of the giant spirit race, this mountain range was named: Mountain spirit forest.

It was extremely vast.

In reality.

the entire 'mountain spirit jungle' was the 'hunting ground' of that race.

"Toria,"

"go," Jiang Li ordered, "send out the mechanical creature army and lure out all the mutated species, the 'giant spiritual snakes', that live in the medium-sized energy crystal mine."

lure the giant spirit snakes above level Seven out of Djinn planet and into the universe.

"Remember!"

you're here," Jiang Li said. your mission is to lure the 'giant spiritual Snake Race' into space.

"Yes."

"Yes, sir!"

“.....”

Toria and the other giant spirit tribe generals responded in unison.

In reality.

Jiang Li knew it very well.

It was impossible for the giant spirit race's 'mechanical creature Army' to annihilate the 'spiritual energy giant snake Race'.

at that time.

four level 10 experts were fighting on giant spirit planet.

Then ...

The only way to welcome the fate of Titan star was probably destruction.

so,

Only then did Jiang Li send out the 'mechanical Army' to enrage the 'giant spiritual Snake Race' and lure them out into the universe.

the real battlefield was in the universe.

This way, the losses could be reduced to the minimum.

“Rumble!”

After that.

The war immediately erupted.

First of all ...

The biological battleships and mechanical battleships aimed at the 'mountain spirit jungle' and locked onto the location of the 'medium-sized power crystal mine'.

They fired at the same time.

Countless cannons fired into the forest, causing countless explosions. Flames shot into the sky, the earth shook, and huge trees collapsed.

It formed a destructive scene.

Roar! Roar! "roar!"

Countless mutant beasts roared and fled in all directions.

Kachaa! Kachaa!

At the same time.

The ground cracked.

The ground seemed to have been pushed open from the depths of the earth. Giant 'serpents of spiritual energy' slithered out of the ground and raised their enormous heads.

"Roar!"

The giant snakes roared, and energy beams shot out from their mouths.

It pierced through.

Bang Bang Bang Bang!

An explosion sounded.

Countless fireworks bloomed in the air.

Some of the battleships couldn't avoid the attacks in time and fell from the sky.

“It has appeared!”

“They’re coming out so quickly.”

giant spirit energy snake tribe. These giant spirit energy snakes aren't big. They're only at level five, and they're just the lowest tier members of the giant spirit energy snake tribe.

“Prepare for battle!”

The giant spirit race members roared loudly.

Obviously.

toria and the others sent out a scouting team.

...

After a long period of investigation.

The situation of the ‘giant spiritual snakes’ had basically been investigated.

First of all ...

There were only a hundred thousand spiritual energy giant snakes in the entire clan. Even the smallest one was a thousand meters long.

The life form could also reach rank-5.

“fire the cannons! Fire the cannons!”

only when the ‘giant spiritual snakes’ are completely enraged will they all come out!

attack!!!

“Fire the nuclear weapons!”

“Rumble!”

Countless battleships of the giant spirit race’s mechanical creature Army opened fire, bombarding the giant spirit Snake Race. The giant spirit Snake Race also retaliated in a frenzy.

...

Giant spiritual snake.

A creature with a mutated gene.

In addition, they also had a wonderful symbiotic relationship with the ‘medium power crystal mine’.

These giant snakes were no longer made of flesh and blood. Their bodies seemed to be made of black crystals, and they contained a vast amount of energy.

It could be said that ...

the body of the giant snake of spiritual energy was similar to an energy crystal.

Roar! “Roar!”

In the face of the bombardment of the mechanical creature Army, many of the Level-5 and Level-6 giant spiritual snakes could not hold on any longer. They cried out in pain as their snake bodies exploded and died.

Of course.

A large number of the mechanical Army’s battleships had also been sunk.

“BOOM!”

The earth quaked and the mountains shook.

Even the entire Djinn planet was shaking violently.

“.....”

Jiang Li’s expression froze.

“It’s coming out.”

“Be careful!”

remember His Majesty’s orders. Don’t fight to the death with the giant spiritual snake tribe on the planet. After you draw out all the giant spiritual snake marks, draw them all into the universe.

“Understood!”

“Yes!”

“.....”

The generals and soldiers of the giant spirit race responded.

Finally!

The giant spirit snake tribe had all been mobilized.

The ‘giant spiritual snake’ that had reached level 10 broke through the mountains and flew out from the depths of the earth, causing the entire planet to shake slightly.

Jiang Li looked over.

The body of the snake, which was like a wyrm dragon, came into view. It was actually millions of meters long, and its entire body was purple-black, flashing with a lustrous luster.

There was a pure purple horn on his forehead.

Other than that.

Behind the dragon-like Level-10 psionic serpent, there were nine level-9 psionic serpents that were hundreds of thousands of meters long.

Roar! Roar! roar!

The Python roared.

It was as if the entire world was shaking.

boom! BOOM! BOOM!

the next moment.

Countless attacks landed on their bodies, but they did not hurt them at all. Their bodies were covered in a layer of energy light curtain, resisting all the attacks.

“Retreat!”

quickly retreat!!

“.....”

The pupils of the giant spirit race members contracted.

After that.

the entire army of mechanical creatures began to retreat.

Shua! Shua! Shua!

Full speed.

It rushed into the universe.

“Roar!”

The purple eyes of the level 10 giant spiritual snake were filled with human-like anger and killing intent. It roared to the sky and gave an order to the entire tribe.

After that.

It took the lead and chased after the mechanical creature Army.

At the same time.

Nine level-9 giant spiritual snakes, as well as many Level-8 and Level-7 giant spiritual snakes, and tens of thousands of Level-5 and Level-6 giant spiritual snakes followed behind the Level-10 giant spiritual snakes, chasing after the mechanical creature Army.

“follow them.”

Jiang Li said.

“Yes.”

The mechanical intelligence replied.

The interstellar warship flew at sub-light speed. In just a few seconds, it had already left Djinn planet and entered the lonely starry sky of the universe.

In front of them.

the army of mechanical creatures and the group of giant spiritual snakes.

The two sides, one chasing and one fleeing.

They were gradually moving away from Djinn planet.

however ...

The Level-10 psionic giant snake was too powerful. It caught up with the mechanical creature Army and rushed into the Army. Like a tiger entering a flock of sheep, it launched a tragic slaughter.

Bang Bang Bang Bang!

Those battleships were smashed into pieces and exploded in the starry sky, turning into scrap metal.

“Damn it!”

“Too strong! This Suan ni, this Suan ni!”

“A tenth-grade lifeform, is this the strength of a tenth-grade lifeform?”

“Si si si ...”

“Useless! Even the antimatter energy can’t cause much damage to the enemy!”

“What do we do now?”

The generals of the giant spirit tribe were terrified. The mechanical creature Army had suffered heavy losses when faced with the Level-10 giant spirit snakes. Toria and the others were also filled with fear.

“Ah!”

Jiang Li heard the screams of the giant spirit race.

Your Majesty, save me!!!

Toria and the others cried.

However ...

Jiang Li remained unmoved.

Finally ...

When the giant spiritual snakes were far enough away from Djinn planet ...

“Everyone, move out.”

kill them all. Jiang Li waved his right hand and gave an order. annihilate the giant spiritual snakes.

“Yes, sir!”

First of all ...

The doors of the battleships opened, and a million level 9 Black Star Troopers appeared. They swarmed out and formed a mechanical Army. XS01, MYL01, STS01, and Wang Gang also charged out.

They led their mechanical Army and charged toward the giant spiritual snake tribe.

that’s His Majesty’s mechanical Army!

“That’s great.”

“his majesty has made his move.”

“Hurry up! We will cooperate with His Majesty to annihilate the giant spiritual snakes!”

The giant spirit race members roared loudly.

“Kill!”

“BOOM!”

The mechanical Army’s morale was greatly boosted, and they launched a counterattack.

At the same time.

Three early-stage level 10 special meches and Wang Gang, who was a perfected-stage level nine, led a million level 9 Black Star Troopers and attacked from the back of the psionic giant snake tribe.

Bang Bang Bang Bang!

an even more intense battle broke out.

Countless explosions were heard.

Kachaa! “crack!”

The serpents were all killed by the level 9 Black Star Troopers.

Roar! “Roar!”

The level 10 spiritual energy giant snake roared repeatedly, shaking the surrounding cosmic energy and setting off a real energy storm, which was extremely violent.

However ...

No matter how violent the Level-10 giant psionic snake was, it was powerless against the siege of MYL01 and the others. It could only watch its people being slaughtered.

MYL01 kept attacking, taking advantage of the flaws of the Level-10 giant psionic snake and causing damage to it again and again.

The Level-10 giant spiritual snake roared again and again, trying to break through the blockade, but all failed.

“Purgatory sword!”

Clang!

STS01 slashed with his sword. The power of the law of purification was integrated into this sword, but it produced a hellish sword light, directly cutting off the giant tail of the Level-10 psionic giant snake.

“Death submerging!”

MYL01 held his long sword tightly and summoned the shadow of the death god. With this slash, the Level-10 psionic giant snake was cut in half from the middle.

Finally.

“devouring magic eye.”

BOOM!

XS01 dealt the last blow and used the devouring magical eye. A beam of light flew out of the magical eye and hit the core of the Level-10 giant psionic snake, completely killing it.

Buzzzzzz! Buzzzzzz!

After that.

colorful lights appeared on the body of the level 10 giant psionic snake and quickly gathered together, turning into a ten-colored light spot.

shua!

It quickly flew towards Jiang Li.

[ acquired a tenth-tier soul Tinder! ]

a notification appeared.

He had obtained the level-ten soul Tinder.

“Not bad.”

A smile appeared on Jiang Li’s face.

Half an hour later.

The war was over.

the giant spirit snake clan was completely annihilated.

The mechanical creature Army had lost 100000 battleships. Due to the special nature of the giant spirit race, they would only die if their core was destroyed. Thus, only a million giant spirit race soldiers had died.

Time passed.

After Jiang Li settled everything on giant spirit planet, he was ready to return to the ‘Super Fantasy world’. Although this’ universe ‘was full of resources, it was still too dangerous for his current strength.

And now.

Jiang Li ruled 'Titan star' and had two subsidiary races. He had established a Foundation in this 'universe'. In the future, he would slowly develop and slowly devour them.

"It's almost time."

Jiang Li had arranged everything. He left XS01 and the interstellar battleships on Djinn planet. He only took Wang Gang, MYL01, and STS01 back to the Super Fantasy world.

"Teleport!"

buzzzzzz!

Wang Gang teleported and took Jiang Li away. They disappeared and reappeared in the universe one light year away.

"continue."

Jiang Li finished charging Wang Gang.

"yes."

Buzzzzzz! Buzzzzzz!

After a hundred teleportations ...

They were at least 100 light years away from Djinn planet.

"Let's do it here,"

Jiang Li stood on a meteorite and communicated with ancestor Bai's order. little white, build a plane channel immediately and return to the Super Fantasy world, Saint peace state.

## Chapter 712 Will

After a minute.

Buzzzzzz!

The 'token of the immortal court' on the back of Jiang Li's hand glowed. The milky-white light tore the sky apart and connected to the universe.

The passage was successfully built.

It was a two-meter-high arched gate.

It emitted a faint white light.

After Jiang Li built the plane channel, he felt danger instinctively. He was worried that the unknown space civilization would catch his trace and use the 'two-way foil' to attack him.

so,

only then would jiang li stay far away from the ju ling galaxy in case it was affected.

"Let's go!"

let's go. Jiang Li didn't dare to hesitate. He dashed into the plane channel and the meches behind him followed.

The plane's channel quickly closed.

The two-meter-tall 'arched gate' was disappearing.

however ...

At this moment.

An unexpected change happened in an instant.

It could be seen.

Just as Jiang Li rushed into the plane channel and the 'arched gate' was about to disappear completely, the 'will of the universe' of the plane universe arrived.

The willpower of the great cosmos.

It was the source of everything in this 'plane universe', all the DAOs, all the rules, and all the laws. It was difficult to fathom, understand, or even look at it in disdain.

The strong is the Dao.

“Whoosh!”

The arrival of the 'will of the universe' was silent, without any strange signs, without any movement, and without any fluctuations.

It was invisible and had no substance.

It was as if it did not exist at all.

Yet, it truly existed.

the will of the universe was like an invisible wave. in order to confine the plane channel that jiang li opened, it actually froze the entire plane.

that's right.

It was the entire universe that was infinitely large.

If ...

If the constantly changing 'great universe' was likened to a movie that was currently playing, then the power of the great universe's will would be the pause button when you pressed the movie.

This was a power that completely transcended one's level.

It was impossible to describe.

It was the power of the will of the universe, with Jiang Li as the 'pivot', that was preparing to invade the 'Super Fantasy world 'through the' plane channel 'that Jiang Li had built.

Counter-invasion!

Terrifying!

How terrifying!

in the 'plane channel'.

When Jiang Li passed through the plane channel, his consciousness was in a state of complete pause, but at this moment, Jiang Li 'woke up' for no reason.

He 'opened' his eyes.

“This is Wufu.”

universe ocean? ” Jiang Li looked around in confusion. He saw countless light balls floating like bubbles. He found himself in universe ocean.

“What’s going on?”

jiang li was stunned. why am i here? Shouldn’t I have returned to the Holy peace Region?”

The most important thing was ...

Jiang Li had come to universe ocean with his real body.

There was ‘water’ named ‘Wu’ in universe ocean. Theoretically, Jiang Li, who was a perfected level-nine, would turn into ‘nothingness’ in an instant if he fell into ‘Wu’.

all traces of his existence would be erased.

but ...

Jiang Li didn’t disappear. He survived.

because ...

A thin layer of white light and black light intertwined around Jiang Li, forming a black and white pattern that blocked the ‘nothingness’ around him.

only then could jiang li live.

...

“Master.”

Buzzzzzz!

Little white appeared. Her petite body floated in front of Jiang Li and she shouted, “you’re finally awake. I don’t know why, but a force suddenly stabilized the ‘plane channel’ and rushed into it, preparing to occupy master’s consciousness and completely replace you.

“However,”

“You have the ‘white ancestor’s token’ protecting your body, and you are an official member of the immortal court. The ‘white ancestor’s token’ contains the Supreme consciousness of ‘white ancestor’, one of the Five Ancestors of the immortal court, and it helped you block that power.”

“But,”

” the power of the two consciousnesses collided, and the aftermath completely destroyed the plane’s channel, causing master to fall into universe ocean. fortunately, there are still remnants of the power of the two consciousnesses in master’s body, which is why he survived. ”

“This bi an ...”

huh? ” Jiang Li fell silent and was a little confused. ancestor white, your will is weak.

boom!

Suddenly.

...

Jiang Li heard an ‘explosion’ and looked towards the direction of the movement. He saw two huge balls of light, one black and one white.

“That’s Yingluo.”

jiang li’s eyes widened. he wanted to see what the two balls of light looked like, but he was hit by a terrifying backlash. his eyes started bleeding.

“Ah!”

ah! Jiang Li screamed and covered his eyes.

However ...

Jiang Li still saw it vaguely.

in the white light, jiang li vaguely saw a white figure sitting cross-legged, and endless worlds appeared around the figure.

it was like the ups and downs of ten thousand worlds.

In addition.

Within The Black Sphere.

What Jiang Li saw was the boundless universe with countless civilizations and countless races, containing infinite possibilities.

BOOM!

The ‘explosion’ sound was heard again.

Right in front of them.

The white light and the black light collided head-on, releasing all their power.

Then, they both exploded.

White and black light intertwined.

It bloomed.

It spread out in all directions.

Bang Bang Bang Bang!

The fluctuation of the light set off terrifying waves in universe ocean. The waves were like a tsunami, hitting the surrounding bubble light balls.

After that.

Those small bubble light balls couldn't withstand the beating of the waves and directly exploded, turning into 'nothingness'. Some of the larger light balls resisted the waves, but countless cracks appeared on them.

A disaster had descended.

such a collision set off huge waves that destroyed countless small worlds.

Trillions of living beings perished.

master, master, run!!

Whitey's eyes widened as it watched the huge waves crashing toward it. It let out a shriek.

“!!!”

Jiang Li's eyes widened. He wanted to avoid it, but he couldn't move his limbs at all. He could only watch the huge wave coming at him.

Kachaa!

The black-and-white light curtain on Jiang Li couldn't hold on for too long. Cracks appeared on the light curtain as the waves hit it, and it finally cracked.

“We're finished, Yingluo.”

Little white was also desperate. It ran into the mark in Jiang Li's hand.

One had to know.

The water in universe ocean, named 'Wu', could erase everything.

Jiang Li couldn't take it at all.

Buzzzzzz! Buzzzzzz! wuwuwuwuwu!

At this moment.

The 'transparent crystal ball' in Jiang Li's arms flew out and emitted a blurry light. The layer of crystal ball on the outside disappeared.

After that.

The 'eternal particle' was completely exposed.

eternal 'eternal' particle ‘

Jiang Li was stunned.

“Ah!”

The next moment.

ah! Jiang Li couldn't help but scream because his body was being eroded by the 'ocean'. The Imperial status appeared between his eyebrows, and the fate of the country appeared. The Dragon roared.

All of his power erupted.

However ...

Jiang Li's power was as fragile as bubbles in front of the 'ocean' of 'nothingness'. It was so fragile that even his' Emperor 'status' was about to be erased.

Slowly.

jiang li's consciousness was almost gone.

at this very moment.

Jiang Li finally understood that every time he opened a plane channel, he would instinctively sense danger when he wanted to return to the 'Super Fantasy world'.

It wasn't like those high tier space civilizations.

But ...

the danger that befell them after they entered the plane's channel.

Facing such an indescribable Supreme existence ...

Jiang Li had no way to fight back.

Gradually.

Jiang Li's consciousness was blurry.

“whoosh!!!”

Suddenly.

The ‘eternal particle’ started to work. It instantly devoured a large amount of ‘ocean water’ and turned into a chaotic stream of light, merging into Jiang Li's body.

Gradually.

under the influence of the ‘eternal particle’, jiang li's body, which was only left with a head, was gradually reassembling. his essence was changing rapidly.

His neck, shoulders, arms, and chest heaved.

It was gradually born.

Not long after.

Jiang Li's body was completely reconstructed and a new body was born. He was floating in universe ocean like a corpse, but he didn't know where he was.

after that.

The huge waves began to calm down.

The white and black light balls also disappeared after colliding.

All that was left were specks of light.

huh?!

Suddenly.

Little white flew out of the mark again. She widened her eyes and looked at the unconscious Jiang Li. She was stunned.”This Wufu, this Wufu, impossible, how can he not be dead? We’re in universe ocean!”

if you want to survive in universe ocean, you need to be at least at the Dao level.

” he’s just a level nine. how can he not die? ”

buzzzzzz! Buzzzzzz! Wuwuwuwuwu!

After the two light balls exploded, countless black and white light spots flew towards Jiang Li like moths to a flame.

“ah!”

ah! little white screamed in fear. It was afraid of being hit by the light spots, so it quickly hid in the mark on the back of Jiang Li’s hand.

Countless black and white dots of light.

It entered Jiang Li’s forehead.

They all disappeared.

Buzzzzzz! Buzzzzzz!

Black and white light surged around Jiang Li's body. In the end, they merged into one and turned into a chaotic mist that disappeared into Jiang Li's body.

Time passed.

jiang li fell into a deep sleep. he was floating in universe ocean.

during this period.

Little white showed up from time to time to check on Jiang Li's condition, but Jiang Li showed no signs of waking up.

“Master, when are you going to wake up?”

Xiaobai sighed with emotion.

BOOM!

Suddenly.

There was a shaking sound. Little white quivered and quickly looked over. It saw a huge ball of light floating in universe ocean.

However ...

This huge bubble of light had many cracks.

It was filled with the aura of destruction and decay.

“Judging from the size of this world, it should be at least a Supreme-grade world.”

” it’s the end of the world, ” xiaobai said. ” even a world like this will fall one day.  
”

Buzzzzzz! Wuuwuwuwu!

After the bubble light ball trembled, the crack became bigger, and a terrifying suction force came out. It swallowed a large amount of the water named ‘Wu’ in ‘universe ocean’, and the world was destroyed.

After that.

it sucked jiang li over.

“Don’t!”

Little white was dumbfounded. She ran to Jiang Li’s face and stomped on his face, trying to wake him up. She shouted, ” master, master, please wake up! If you don’t wake up, you’ll be sucked in!

Jiang Li frowned and seemed to be waking up.

“That’s great.”

Little white was very excited and jumped even harder.

Shua!

However ...

The bursting bubble suddenly sucked Jiang Li into it. Jiang Li flew into the bubble through the crack.

“We’re finished, Yingluo.”

With a look of despair, little white followed suit.

## Chapter 713 Update

He had no concept of time when he was unconscious.

Jiang Li didn't know when he woke up. He only vaguely remembered that after being wrapped by 'nothing', his consciousness gradually blurred and he fell into complete darkness.

When he woke up.

Jiang Li found himself lying in a dense forest with nothing on. When he looked up at the sky, he saw endless gray mist.

He could not see anything.

“I'm Yingying!”

Jiang Li shook his head. He had a headache and his memory was a mess. He almost lost his memory.

Fortunately ...

After a while.

only then did jiang li sort out his thoughts.

“How did I end up here?”

Jiang Li organized his thoughts. He was about to take out a set of clothes from the 'low-quality interspatial ring', but then he realized it was gone.

The most important thing was ...

Wang Gang, STS01, and MYL01.

The three meches were all gone.

"Damn it!"

why is the plane channel suddenly frozen? " Jiang Li clenched his fists and looked upset. where did that black ball of light come from?"

"There's also ancestor Bai's order."

"How detestable."

"The plane channel was shattered by the collision of two willpower forces, causing Wang Gang, STS01, and MYL01 to all fall into 'universe ocean'."

" in the end, it was wiped out from its roots by the power of 'nothingness' . "

that's a perfected-stage level nine mech and two special meches at the early stage of level ten. Jiang Li took a deep breath and said unhappily.

"They're all scrapped."

" so many high-end combat forces have been lost all of a sudden. "

fortunately, I left 'XS01' on Djinn planet. Otherwise, the losses would be even greater.

He adjusted his emotions.

little white. Jiang Li sat down with his legs crossed and connected to the token of the immortal court. He found little white.

“Master.”

Xiao Bai was listless and very dispirited. you’re here.

“What happened to you?”

Jiang Li frowned and asked, ” Did we not return to the ‘Super Fantasy world’? Also, what happened after I fainted?”

“Master, we’re all done for, do you know that?”

waah ... little white cried. I thought you wouldn’t be able to resist the power of ‘Wu’, but you’re fine.

master, you’re unconscious and floating aimlessly in ‘universe ocean’, but you were pulled in by a world that was about to be destroyed.

“I wanted to wake you up, but you didn’t.”

you said that we’ve come to a world that’s on the verge of destruction? ”

Jiang Li asked.

“Yes.”

Xiaobai nodded, ” master, the most important thing is that this is a Supreme-grade world that is on the verge of destruction. The moment the Supreme-grade world is destroyed, the terrifying power produced is enough to turn any existence below the Dao level into ashes.

“When that time comes, we’ll be dead.”

“.....”

is it possible? ” Jiang Li was silent for a while and asked, ” do you have a way to sense the location of the ‘Super Fantasy world’ and build a plane channel? ”

“This Yingluo.”

Xiaobai muttered to herself for a while. I’ll try.

“Yes.”

okay. Jiang Li nodded and waited quietly.

At the same time.

Jiang Li wanted to summon the Dominator panel of the ‘super mecha Army’.

Si si si si si

a shocking change occurred.

Jiang Li heard the sound of countless electric currents. The virtual screen appeared in front of him, but there were countless garbled codes and data streams.

It kept on distorting and fluctuating.

“this bi an ...”

...

” what happened? ” jiang li was stunned. ” what happened? ”

“ah!”

suddenly.

A vast amount of information rushed into Jiang Li’s mind. He cried out in pain and fainted again.

Buzzzzzz! Buzzzzzz!

Jiang Li’s body flashed with a chaotic mist.

Sha Sha Sha Sha

In the darkness.

Many huge figures appeared.

Jiang Li’s cry of pain attracted the Predators in the dark forest. The Predators were getting closer and closer, but it was too dark to see their faces.

However ...

...

He could vaguely see the figures of leopards and tigers.

Shua! Shua!

The Predators all pounced on Jiang Li.

Pfft! pfft! “Pfft!”

blood and flesh flew everywhere.

As soon as the Predators pounced on Jiang Li, the chaotic light mist tore them into pieces.

si si si si si

The countless garbled codes and data streams on the virtual screen began to slowly return to normal.

After that.

a series of notifications appeared.

[ detected ‘great universe origin fragment’ and ‘a wisp of Supreme Being’s origin fragment’. Starting to fuse the two origin fragments of will with the’ super mech Army ‘as the main template. System update and upgrade initiated. ]

[ countdown: 60,59,58, ran ran ]

He was unconscious.

system update. Jiang Li vaguely heard the sound.

A minute later.

[ ‘super mechanical army’ system template upgrade completed! ]

A notification appeared.

At the same time.

Jiang Li woke up too.

” launch the ‘super divine mechanical army’. ”

open the Dominator panel. Jiang Li said.

Shua!

[ master panel ]

[ master: Jiang Li ]

[ game: super mechanical Army ]

[ interface: Army type ]

Mechanical Army type (can be expanded), mechanical Navy type (can be expanded), mechanical air Force type (can be expanded), mechanical interstellar type (can be expanded), and special mechanical type (can be expanded).

[ type of machinery origin: can not be activated ]

“Lord mode: can be activated (consumes 1 origin point per second)”

origin points: 8820 origin points

[ soul Tinder: 100 billion level-one soul Tinders, 3 billion level-two soul Tinders, 110 million level-three soul Tinders, 40 million level-four soul Tinders, 100000 level-five soul Tinders, 5000 level-six soul Tinders, 300 level-seven soul Tinders, 27 level-eight soul Tinders, 2 level-nine soul Tinders, 1 level-ten soul Tinder ]

“As expected,”

Jiang Li carefully checked the changes on the Dominator panel.

First of all ...

There was a brand new army type.

It was called the type of machine origin.

Moreover, it was in a state where it could not be opened. It was estimated that one condition had to be met before it could be opened.

In addition.

Some energy points had become origin points.

After the conversion.

One origin point was equivalent to ten trillion energy points.

Finally.

There was also an additional ‘Dominator mode’.

after the ‘dominator mode’ was activated, jiang li would enter the ‘dominator mode’. he could control all the mechanical soldiers he made and become the ‘mechanical lord’.

Of course.

These changes were not the most important.

Jiang Li had digested all the information in the one minute he was unconscious. He knew the reason for everything and the true origin of the ‘super mecha Army’.

The ‘super mechanical Army’ was actually a wisp of the will of the universe. With the ‘super mechanical Army’ as the template, it had been integrated into Jiang Li’s soul.

after that.

With the help of the ‘will of the universe’, Jiang Li transmigrated to the’ Super Fantasy world ‘with the’ super divine mechanical Army ‘and experienced many things.

Of course.

There was no such thing as free lunch in this world. Everything had a price in ‘fate’. Jiang Li got the help of the’ will of the universe ‘to Cross Worlds and grew step by step. He got everything he never dared to dream of before.

In reality.

Jiang Li was the vanguard of the ‘will of the universe’.

To be even more heartless.

Jiang Li was the puppet of the will of the universe.

The ‘will of the universe’ wanted to invade and devour other worlds, so it sent a wisp of its will into Jiang Li’s body, making him the vanguard and puppet for the invasion of other worlds.

However, Jiang Li didn’t know that.

Normally speaking.

In the end, Jiang Li would become stronger and even rule the world, but he would gradually be assimilated by the 'will' because the 'will' would absorb souls and become stronger.

Jiang Li's growth couldn't keep up with the growth of the 'will' at all.

Just think about the drop rate of the soul Tinder.

A drop rate of one-tenth.

In addition, the success rate of soul Tinder fusion was only one-tenth.

Jiang Li only got 'one percent'. 99 percent of it became food for the 'will', so the ending was already decided.

One had to know.

As long as it was a living being, it would definitely have a real soul. There was no such thing as 'drop rate'.

However ...

The 'will of the universe' would never have thought that Jiang Li would be teleported to a Supreme world like the 'Super Fantasy world'. It was a Supreme world with an extremely terrifying level.

Furthermore ...

The 'Super Fantasy great world' formed the immortal court of the six races and had long begun to conquer the universe, while the 'will of the great universe' had just begun to try.

He had transmigrated to this Supreme world.

Jiang Li would have a chance to survive.

Jiang Li also managed to seize the chance. He got the help of 'Bai Zifeng' and obtained 'ancestor Bai's order'. He even returned to the 'plane universe' and obtained the 'eternal life particle'.

In the end.

When Jiang Li was about to return to the 'Super Fantasy world', the 'will of the universe' immediately stopped the 'plane channel' and activated the 'will' in Jiang Li's body, trying to invade the 'Super Fantasy world'.

Since Jiang Li was already an official member of the 'martial arts Celestial Court' and he had the 'ancestor white token', the 'ancestor white will' in the 'ancestor white token' was activated.

The two sides engaged in a battle of will in universe ocean.

Both of them exploded.

Jiang Li would've been killed by universe ocean's 'nothingness' in the battle of wills, but he was lucky enough to activate the 'eternal particle' and regenerate his body.

After the 'will of the universe' and 'ancestor White's will' both exploded, only the original energy was left. Since Jiang Li still had the aura of their will, the 'original energy' that was left after the explosion was all integrated into Jiang Li's body, making the game template 'super mechanical Army' reach a new level.

The most important thing was ...

Both the will of the universe and ancestor White's will were gone. Jiang Li didn't have anything left by the Supreme beings.

There was more.

After absorbing the source energy, Jiang Li was now the true master of the 'super divine mechanical Army'. Plus, the 'super divine mechanical Army' had absorbed the 'source energy'. Although it was only a small amount, it gave Jiang Li the key to opening the 'Supreme door' and a glimmer of hope to become a Supreme Being.

"Hahahahaha!"

Jiang Li took a deep breath, then laughed out loud. He was very happy even though he lost Wang Gang, STS01, and MYL01.

but ...

Jiang Li, on the other hand, had completely broken free of the shackles on his body and had the key to the Supreme position.

Chapter 714 game

After Jiang Li calmed down, he smelled the blood around him. He saw the bloody mud on the ground and rustling sounds came from the dark forest.

These were the Predators attracted by the smell of blood.

It was approaching quickly.

Roar!

Immediately.

A huge violent bear pounced at Jiang Li from the left and the back. Jiang Li dodged it easily.

Whoosh!

die! Jiang Li pointed.

The finger ray pierced through violent bear's corpse.

“Pfft!”

Blood spurted out.

Buzzzzzz!

This violent bear was three meters tall. Its entire body was pitch-black and covered in thick fur. It fell to the ground, and its body glowed with a black light, turning into a black soul Fire seed.

Shua!

It merged into Jiang Li's body.

[ acquired a stage-two soul Tinder! ]

“as expected,”

Jiang Li was overjoyed. He couldn't help but be excited. as long as you kill any living being, you can take the other party's soul and form a 'Soul Fire seed'.

“there's no such thing as a 'drop rate'.”

“Alright, alright, alright.”

Jiang Li clenched his fists and said with a smile, ” this way, my speed of obtaining the soul Tinder will increase by more than a hundred times.

In addition.

Although Jiang Li almost died in universe ocean and got a new body from the eternal life particle, his cultivation didn't disappear.

He was still at the peak of tier 9.

However ...

The 'eternal particle' was sleeping in the deepest part of his body, and he couldn't use its power.

Roar! "Roar!"

In the surroundings.

roars sounded.

It attracted more and more predators.

Kachaa! Kachaa!

Huge trees were also knocked down.

The beasts and monsters hidden in the forest appeared.

They were densely packed.

they formed a circle and trapped jiang li in the middle.

It could be seen.

The eyes of these predators in the forest were Scarlet, filled with abnormal madness and violence, as if they had lost their minds and were completely occupied by destruction and violence.

“That’s Yingluo.”

Not only that.

Jiang Li also saw the ‘blue bar’ and ‘health bar’ that only appeared in the game above the heads of these predators, as well as their levels and names.

[ name: berserk elite wild boar ]

[ level: 26 ]

[ hp: 2600/2600 ]

Mana: 260/2

[ skill: ??? ]

.....

[ name: berserk single-horned giant python ]

[ level: 38 ]

[ HP: 38000/38000 ]

Mana: 3800/38

[ skill: ??? ]

.....

“This game monster?”

...

what? ” Jiang Li was stunned. He said in surprise, ” “Could it be that this world is a world dominated by the ‘rules of the game’?”

interesting. Jiang Li’s eyes lit up. this is interesting.

At this moment.

Jiang Li noticed that the body of the ‘violent bear’ was gone. There were only three pieces of violent bear meat, a Bear Paw, and a set of clothes on the ground.

Hence.

Jiang Li picked it up.

[ name: violent bear meat X3 ]

[ Type: ingredient ]

[ rank: lower second rank ]

[ description: this is the meat of a wild bear. It can be used to cook delicious food. ]

.....

...

[ name: violent bear's left paw ]

[ Type: ingredient ]

[ rank: lower second rank ]

[ description: this is a Bear Paw dropped from a wild bear. It can be used to cook delicious food. ]

.....

[ name: violent bear garment ]

[ Type: Defensive equipment-cloak ]

[ rank: lower second rank ]

[ description: this is a defensive equipment dropped from a wild bear. It has a certain amount of defensive power. It can cover the body and block certain attacks. ]

.....

Jiang Li checked the information of the three different items.

Obviously.

Other than the lack of specific game data of tens or hundreds of points, the situation was indeed very similar to a 'game world'.

“Even though it's just a cloak, it's better than nothing.”

Jiang Li put on the bear coat. It was like he was wearing bear skin, barely covering his body.

roar! Roar!

At this moment.

roar! Roar! Roar! the Predators finally couldn't stand it anymore. They roared and charged at Jiang Li from all directions.

In the blink of an eye.

jiang li's head was blocked by many predators.

"You're overestimating yourself."

BOOM!

Jiang Li sneered. His body shook and a terrifying power burst out. Three flowers gathered above his head and five Qi gathered. A level-twenty-four lotus rose into the sky.

BOOM!

there was a loud explosion.

It was like a huge mushroom cloud rising into the sky.

The light shone.

Pfft! Pfft! "Pfft!"

Blood splattered everywhere.

countless predators and beasts were wailing.

All of them died.

His body fell to the ground.

The earth was shaking.

After Jiang Li's power exploded, the power of the explosion created a terrifying energy storm that swept in all directions. A huge energy hemisphere could be seen, with Jiang Li as the center, and it kept spreading out.

Everywhere it passed.

Everything was destroyed.

There were trees, plants, animals, and beasts.

All sorts of monsters.

They all died.

after the light faded.

With Jiang Li as the center, everything within 10000 meters was turned into flat land. All the goods were destroyed.

There were corpses lying on the ground.

Buzzzzzz! Buzzzzzz! Buzzzzzz!

After that.

The bodies glowed and merged into Soul Fire Seeds. They quickly flew to Jiang Li and merged into his body.

He took a closer look.

It was between Jiang Li's eyebrows.

The 'Emperor's position' was flashing with light, but it was slightly dim, as if it had been damaged. This was because it had been eroded by 'nothingness' in universe ocean, which was why it was like this.

He wanted to recover.

he could only slowly nurture it with the empire's fate.

Shua!

The interface opened.

Jiang Li glanced at the soul Tinder.

In a short period of time.

Jiang Li got ten level-seven soul Tinders, three hundred level-six soul Tinders, one thousand level-five soul Tinders, four thousand level-four soul Tinders, ten thousand level-three soul Tinders, twenty thousand level-two soul Tinders, and fifty thousand level-one soul Tinders.

"Not bad, not bad."

it's a 100% drop rate. Jiang Li was smiling. He was sure now.

Buzzzzzz! buzzzzzz!

Immediately after.

After a certain amount of time.

The bodies of the monsters disappeared one by one. The ground was covered with countless items. Jiang Li couldn't pick them all up in a short time.

However ...

Jiang Li wasn't in a hurry.

He was checking the information of the items one by one.

Time passed.

The next morning came.

I'll go. Jiang Li changed into a new coat and armor. He also had a black longsword in his hand. He looked completely new.

it was almost the entire night.

jiang li had basically figured it out.

the world that he had come to was on the verge of destruction. it was indeed a new game world dominated by the 'rules of the game', but it was facing a situation of destruction.

In addition.

Maybe it was because Jiang Li wasn't a native of this world, or maybe it was because of other reasons, but the 'game rules' of this world couldn't be applied to Jiang Li.

for example.

although the monsters dropped items after jiang li killed them, he didn't have a 'player interface' or anything like that. he couldn't get any experience points from killing monsters.

"Master."

At this moment.

Little white finally sent Jiang Li a message. It was excited and said quickly, " " little white can sense the location of the 'super fantasy world', which means that the martial immortal court of the human race hasn't completely given up on this world. the resources in this broken world must not have been completely plundered. "

but because this is a broken world, I will need about a month to build a plane channel and leave.

"yes."

okay. Jiang Li nodded. then stay in this world for another month. You can start building the plane channel now and finish it as soon as possible.

"Yes."

"I understand," Xiaobai said.

Shua!

Jiang Li flew into the sky and looked around. The entire 'game world' was covered in gray fog.

The visibility was even worse.

“Since the ‘martial arts Celestial Court of the human race’ hasn’t given up on this world yet, it means that we might encounter the other dynasties of the ‘Super Fantasy world’ in this ‘game world’.”

I can’t see clearly. Jiang Li thought, the visibility is too low. I can only see a hundred thousand meters around me.

The current situation ...

Jiang Li could choose to stay in the forest and wait for a month. When little white finished building the plane channel, he would leave.

Of course.

Jiang Li could also choose to leave and explore the ‘game world’. Since the Army of the dynasty hadn’t left yet, there must be a lot of precious resources.

Jiang Li could try to get those precious resources.

“If we stay here, I can’t guarantee that the dynasty of the ‘human martial immortal court’ won’t suddenly withdraw in the next month.”

Jiang Li thought, if they really leave, it’ll be troublesome. I’m afraid they’ll be destroyed with this ‘game world’.”

hmm, let’s first determine a direction and keep moving forward. Let’s see if we can encounter any living beings from other imperial dynasties or the natives of this world.

let’s figure out the situation of this world first. Jiang Li made a decision.

Shua!

Jiang Li disappeared instantly.

It was as fast as lightning.

After flying for about an hour.

On the way, Jiang Li saw villages and towns that had been turned into ruins one after another. There were only violent monsters and no indigenous people.

In addition.

jiang li also found some special places, such as the ‘palace of immortals’ floating in the air. it looked like a paradise on earth and was full of temptation.

but ...

jiang li, on the other hand, felt extreme danger.

He definitely couldn’t go in.

He would definitely die if he entered.

So, Jiang Li only looked at it from afar for a while, then quickly looked away and left. Not long after, he finally saw a huge city in the distance.

“Hu ~~ Hu ~ Hu ~”

Jiang Li was relieved. I thought there were no normal living things in this ‘game world’.

Shua!

let’s go. Jiang Li quickly flew over and entered the city in a high-profile way. No one dared to stop him when he showed his strength and cultivation of complete-stage level nine.

“Level 99, our ‘Hope City’ actually has a level 99 powerhouse of the ninth step.”

I looked at him from afar. He really has a majestic aura. It’s hard to look at him directly. He’s also too handsome.

“yup! That’s right!”

In the surroundings.

Hope city’s residents were all excitedly discussing with respect.

Not long after.

The city Lord of Hope City, li Shihe, personally came out to welcome Jiang Li. Under the gaze of the people, Jiang Li followed li Shihe into the city Lord Mansion.

Chapter 715

Time passed.

Jiang Li stayed in the city Lord’s mansion for three days and asked a lot about the ‘game world’.

It could be said that ...

Jiang Li had a basic understanding of the game world.

First of all ...

The 'game world' was called the 'six realms world', and it was made up of 'six realms'. The mortal realm, infernal court, heaven realm, dark realm, Demon Realm, and spiritual realm.

The 'human realm' was the center of the six realms.

Therefore, there was only one plane in the 'human world'.

However, the other five realms were different. There were 18 levels of hell world, 36 levels of heaven world, 27 levels of Darkness World, and 72 levels of spirit world.

a hundred thousand years ago.

The 'world coordinates' of the 'six-realm world' had been discovered by the 'Supreme dynasty', which was in the fourth stage. With the help of the Supreme power of the 'martial arts immortal court', the Emperor of the Supreme dynasty had paid a great price to build a stable 'plane channel'.

Hence.

The war of invasion had begun.

one after another.

It took him about ten thousand years.

The entire 'six realm world' was officially occupied by the 'godless dynasty'. The heavenly race 'of the heaven realm, the hell race 'of the infernal realm, the dark race 'of The Dark World, the spirit race 'of the spirit realm, and the human race 'of the human realm.

they had all become vassals of the 'no god dynasty'.

The 'six-realm world' naturally became the back garden of the 'no God dynasty', and it was also a 'resource exploitation site'. A large number of resources were excavated and taken away by the No God dynasty.

That was until a hundred years ago.

The 'six-realm world' finally couldn't bear the burden. Under the situation where it could enter but not exit, it finally entered the prelude of destruction. The world collapsed, and the 'nothingness' of the 'universe ocean' invaded the world, giving birth to the terrifying 'bizarreness'.

Strange.

In essence, when the 'world' was about to enter the prelude of destruction, the 'ocean water' of the 'universe ocean' invaded the world and fused the laws of destruction and the world itself.

they were existences that were born from that.

'Bizarreness' usually had a certain 'pattern', and 'bizarreness' would kill living beings according to 'patterns'. However, 'bizarreness' would grow step by step, and eventually reach the level where it could do as it pleased and not be restricted by 'patterns'.

Li Houhe did introduce them to Jiang Li.

The levels of 'bizarreness' were: spirit-destroying level, city-destroying level, country-destroying level, world-destroying level, world-destroying level.

Furthermore, the 'anomalies' could not be killed. After encountering the 'anomalies', the only way to survive was to figure out the 'patterns' of the anomalies 'and escape with the help of the patterns.

obviously.

On the way to the city of Hope, the ‘Palace of Immortals’ that Jiang Li encountered was actually a kind of ‘creepy’, a very scary kind.

If Jiang Li walked in, he would probably die.

In reality.

‘bizarreness’ did not exist. it was just that in the knowledge of courtesies, ‘bizarreness’ was a terrifying existence that could not be killed. however, ‘bizarreness’ was born from ‘nothingness’, a fusion of destruction and the laws of the world itself.

so,

By using the power of the ‘laws’, he could kill the ‘anomalies’.

In the afternoon.

jiang li was ready to leave because he had found out where the army of the ‘no god dynasty’ had been. if possible, he wanted to use the plane channel of the ‘no god dynasty’ to leave.

“My respected Lord.”

master! he came to visit Jiang Li. As soon as he arrived, he kowtowed to Jiang Li and kept kowtowing. please save our lives!

“Save you?”

No. Jiang Li shook his head. city Lord Li, you’re overestimating me. I don’t have that ability.

One had to know.

jiang li couldn't even protect himself now. if he couldn't leave this 'six realm world' as soon as possible, he would be dead for sure when the world was destroyed.

Where did he get the ability to save them?

“my lord,”

He raised his head courteously, and his eyes flickered as he said directly, ” my Lord stayed with me for three days. During these three days, you asked a lot of questions about the six realm world, and many of them were common knowledge.

in addition, Sir, you have some habits and characteristics that are even similar to those people from the 'no God dynasty'.

so, I dare to guess that you are not a native of the 'six realm world', but from another world. It is very likely that you are from the same world as the ' godless dynasty'.

“Oh, Yingluo.”

Jiang Li's eyes turned cold.

only you, Sir, can save us. Only you have the ability to do so. We, the remaining soldiers, have built 'City of Hope', but we are just struggling at death's door.

Li Houhe continued,”the world is about to be destroyed, how can we survive?” the only chance of survival is to leave this world that is about to be destroyed.”

“My Lord!”

Plop!

...

Li Shihe knelt down. please, I beg you. Please save us.

“My Lord!”

“sir, please save our lives!”

“We’re willing to do our best for you, my Lord!”

“Sir, please!”

The door opened.

Outside.

all the creatures in hope city kneeled on the ground and kowtowed to jiang li. they could see the entire city lord’s mansion and the area outside.

They were densely packed.

A large number of them knelt down.

“Be polite.”

...

you’re right. Jiang Li’s eyes were calm. since you’ve guessed my identity, aren’t you afraid that I’ll kill you? ”

“Hehe.”

Li Huhe smiled in a carefree manner. of course I know. In fact, I understand it very well. However, the world is about to be destroyed and everyone will die in the end. It’s better to take a risk. If we don’t, we won’t even have a chance to live.

“That does make sense.”

Jiang Li shook his head and said slowly, ” “it’s a pity that i really don’t have the ability to save you.”

Clang!

As soon as he finished speaking.

sword! Jiang Li raised the sword in his hand.

“So, Yingluo”

Jiang Li didn’t finish.

“you’re so silly!”

Li Wuhe was stunned, and his face twisted. His expression became even more ferocious, and his change was huge. He shouted angrily, ” you demons from another world. If it weren’t for you, how could the six realm world have been destroyed? ”

“How could we have become what we are now?”

” we’ve already begged you like this. we’ve given up our dignity and everything just to survive. just to survive? ”

“Why? Why? Why did you do that?”

“Why are you so ruthless? Why wasn’t he willing to show even a little bit of mercy? Why are you so brutal?”

“Go to hell! Go to hell! Go to hell!”

“Since we can’t live, we’ll drag you down with us!”

Buzzzzzz! buzzzzzz! buzzzzzz!

In reality.

while he was speaking, his body started to twist and become an illusion. jiang li slashed out, but it was like he was cutting through the air.

Si si si si si

A strange aura spread out.

“Strange!”

“It’s strange! The city Lord has become strange!”

“No! No!”

“Quickly run!”

Instantly.

The surrounding creatures fled in all directions in fear, and the scene was even more chaotic.

“kekekekekekekeke”

it’s useless. It’s useless. li Shihe was already out of his mind. He looked at Jiang Li and smiled eerily.

“You’re dead, you’re dead.”

“Let’s die together! Let’s die together!”

BOOM!

jiang li’s body shook and terrifying energy spread around. the entire mansion exploded and jiang li flew into the sky.

He looked around.

It could be seen.

the entire city of hope was shrouded in a thick black fog from all directions. the fog was like a viscous liquid, eroding the city of hope from the surroundings.

“Ah!”

“Help! Help!”

“No!”

Shrill screams and pained wails came from all directions, while a thick, pitch-black mist enveloped all living beings.

in the blink of an eye.

Under the corrosion of the fog, those creatures died directly, and their corpses became like walking corpses, becoming part of the fog.

‘Black Death Mist’, this is the’ eeriness ‘of a nation-destroying level.

Li Yinghe’s body was gradually turning into pitch-black, viscous black mist. The remaining consciousness said in a sinister voice, ” “i was originally a prince of the ‘adam kingdom’, and i was supposed to inherit the throne.”

“but,”

” the ‘black mist of death’ descended upon the ‘adam kingdom’. one month, it’s only been one month. the entire’ adam kingdom ‘has been completely eroded by the’ black mist of death’. ”

all the living beings in the kingdom became part of the ‘black mist of death’.

I was the only one who was lucky enough to survive.

however, there’s a wisp of black mist remaining in my body. I’ve tried everything, but I can’t get rid of it. I can only suppress it.

now, I finally don’t have to suffer this torture and pain anymore. You brutal demons from the other world, I’ll let you taste the horror of ‘bizarreness’ and have a taste of the evil consequences you’ve planted.

Li Shihe was roaring.

Buzzzzzz!

His body had completely turned into a thick black mist, and he flew into the sky, blending into the endless ‘black mist of death’.

“Rumble!”

The ‘black mist of death’ became even more violent.

If ...

Previously, it had been a calm wave, but now it was a violent tsunami.

It swept in all directions.

It crushed everything.

In less than half a minute.

It had already corroded one-third of Hope City.

He looked around.

it was a scene of doomsday.

Jiang Li stood in the air, his eyes calm.

Shua!

After that.

There were two pop-up windows in front of Jiang Li.

A pop-up window on the left.

it came from the task issued by the 'six realm world'.

[ main mission: the beginning of the path to salvation ]

[ details: dear adventurer, the kind and tenacious down-and-out Prince 'li hehe' has led the residents of Hope City to make a sincere request of you. We beg you to save all the living beings of Hope City. ]

[ mission reward: origin of the world's laws ]

[ punishment for failure: none ]

Yes/no?

In reality.

Just as he was making a request to Jiang Li.

Soon, Jiang Li received a mission from the ‘six realm world’.

to tell the truth.

The reward of the mission was indeed very attractive.

However ...

the notification for the ‘super divine mech army’ appeared.

[ prompt: dear ruler, the ‘super divine mechanical Army’ has captured a wisp of Qi from the ‘game origin’ of the ‘six-realm world’ and is trying to invade it. ]

[ successfully invaded the ‘game origin’ of the ‘six realm world’ and began to tamper with the main mission: Tampering successful. Please check the new mission content. ]

” mission content displayed. ”

Jiang Li said.

Chapter 716 Redemption

[ main mission (altered): redemption ]

[ content: decorum and self-degradation caused by despair, then voluntarily fused with a wisp of Black Death Fog in your body, attracting the strange Black Death Fog of the National-annihilation level. The Black Death Fog has enveloped the City of Hope of the six-sector world. Please eliminate the National-annihilation level strange Black Death Fog. ]

[ mission reward: a wisp of world law origin ]

Punishment: none

Immediately.

The new mission was opened in front of Jiang Li.

The mission's content had indeed changed drastically. Although the mission's name was 'redemption', the mission's content was to get rid of the 'Black Death Fog'.

The current situation ...

'City of Hope' was covered in the 'black mist of death'. If Jiang Li wanted to leave, he had to get rid of the 'black mist of death', so there was no conflict in the mission content.

One had to know.

The 'main mission' issued by the 'six-realm world' had been deceiving from the very beginning. The courtesy and the corruption had even integrated a wisp of the 'black fog of death' on their own.

However ...

In the previous 'main mission', he described courtesies and dejection as a kind and tenacious fallen Prince.

One had to know.

Li Shihe's body still had a wisp of the 'black mist of death'. If Jiang Li really accepted the mission and saved the residents of Hope City, he would be in danger.

at that time.

If the 'black mist of death' in li tehe's body exploded and devoured him, he would definitely be in danger. It was obviously a trap.

Fortunately ...

After the last upgrade, the abilities of the 'super mechanical Army' had improved greatly. When the 'game origin' of the 'six-realm world' gave Jiang Li a mission, they captured a wisp of the origin and changed the mission.

In reality.

The main reason that the 'super mech Army' could complete this 'invasion' and 'tampering' was that the 'six-realm world' was on the verge of collapse and destruction.

The 'game source' was already riddled with holes, which was why it could be easily invaded.

“Ah!”

“BOOM!”

Under the corrosion of the black mist of death, almost half of the City of Hope had fallen. Countless creatures tried to resist and escape.

Buzzzzzz!

The black mist filled the air, and there were many puppets that looked like walking corpses.

Jiang Li's ears were filled with screams.

More and more living beings died.

“Kekekekekekeke”

The black mist was surging.

hehe. it formed a polite head and floated in the air, staring at Jiang Li from afar and laughing eerily. die, sink, and become one. Hehe.

instantly.

The black mist of death spread even faster.

Shua!

with a thought.

Jiang Li immediately opened the interface of the mechanical Army.

eight soul Tinders and 100 origin points have been consumed to unlock the level 8 mechanical interstellar Army.

Buzzzzzz!

go! Jiang Li ordered.

Shua!

[ unlocking 'mechanical interstellar Army type, level 8 interstellar Army type'.  
Countdown: 10?9?8?7.....? ]

[ the countdown has ended. ]

” the level 8 mechanical interstellar army has been unlocked. ”

[ can be expanded. ]

A notification appeared.

“Unfurl.”

jiang li had an idea.

[interface: mechanical interstellar Army type]

[Grade 7 troop type: bi an (omitted)]

[level 8 troop type: stellar-level space war mothership (unlocked), stellar-level space fortress (locked)(18128)]

“Build a stellar-level space war mothership.”

Jiang Li said.

...

Shua!

[ do you wish to dilute one origin point with ten trillion energy points? [ hint: origin points can be diluted into energy points. Energy points can not be condensed into origin points. The dilution can not be reversed. ]

A notification window appeared.

“I’m sure,”

Jiang Li said.

Buzzzzzz!

The manufacturing interface appeared.

One trillion energy points were deducted from Jiang Li.

The ‘stellar-level space war mothership’ began to be manufactured. On the manufacturing interface was a huge space mothership. At first, it was in an illusionary state, and countless light spots around it merged into it, gradually solidifying.

“Kill! Kill! Kill!”

“Death! Death!”

...

“Sink! Sink into oblivion!”

“.....”

It could be seen.

A large number of walking corpse-like puppets surged out of the strange ‘black mist of death’. They were numerous and instantly formed a densely packed Army.

It was hard to count.

the most important thing was ...

These existences that had been transformed into ‘puppets of death’ by the ‘black mist of death’ all retained their strength when they were alive. They were as strong as they were when they died.

Clang!

The sound of a sword rang out.

The weapon in Jiang Li’s hand was still the top-tier level Seven equipment that he got from killing monsters before because Jiang Li’s original weapons were long gone, including the Yin Yang Emperor sword and the Dominator Dragon divine weapon. They were all corroded and disappeared by the ‘nothingness’ of universe ocean.

“Roar!”

roar! a Dragon’s Roar came from Jiang Li’s body.

Buzzzzzz!

The Azure-colored mist of the Empire’s National aura filled the air.

shua! Shua!

In that instant.

They were Jiang Li’s three one-Dragon sacred artifacts of the Empire’s fate. They were like three rays of Green Dragon light, spinning around Jiang Li.

“condense!”

Jiang Li controlled the sacred weapon.

Immediately.

The Green Dragon Imperial Jade seal turned into a shadow of a Green Dragon and merged into the black long sword in Jiang Li's hand. The black long sword in Jiang Li's hand turned dark green with the shadow of a five-clawed Green Dragon.

In addition.

The Azure Dragon imperial edict transformed into the Azure Dragon Armor, while the great Xia Marquis token transformed into the Azure Dragon light shield.

“Kill!”

die! Jiang Li rushed forward and swung his sword.

“Whoosh!”

A bright sword light in the shape of a crescent moon swept across the surroundings. The death puppets were destroyed one by one and turned into ashes.

but ...

these ‘death puppets’ didn’t really die, and they were resurrected in the ‘black death fog’. they charged out again, and there was no end to them.

“Kekekekekekeke”

“Courtesies and harmony” laughed eerily,”bizarreness is undying. It’s undying bian.”

BOOM! BOOM!

die! Jiang Li swung his sword again and again. Countless sword lights destroyed a large number of puppets of death and slowed down the spread of the black mist of death.

but ...

Just like li Shihe said, it seemed that the creepy ones really couldn't be killed. Jiang Li had destroyed countless puppets of death, but the black mist of death was endless.

Furthermore ...

Jiang Li's sword light didn't cause any damage to the black mist.

It could be seen from this.

However, 'strange' was very difficult to deal with.

Unknowingly.

Only one-fifth of the 'City of Hope' was left. The rest of the city was covered by the 'black mist of death'. The residents who survived all gathered around Jiang Li.

All of the living beings were filled with fear.

"We're dead. We're really dead."

I knew it, I knew it. Hope City would be like those countries and cities, and would eventually be eroded and destroyed. I just didn't expect this day to come so quickly.

"i can't accept this, i can't accept this!"

"I don't want to die, I really don't want to die!"

“.....”

These living beings displayed a variety of emotions. Some were in complete despair and gave up struggling, some were unwilling to die and fought, and some were at a loss and helplessly drifted along with the tide.

All living beings had different expressions.

However ...

None of this had anything to do with Jiang Li.

Jiang Li never cared about the lives of the creatures in Hope City.

Shua!

[ creation complete! ]

A minute passed.

A notification popped up in front of Jiang Li.

“yes.”

Jiang Li smiled, nodded and said, ” let this so-called ‘black mist of death’ test the power of a stellar-level space battle mothership.

“Don’t Let Me Down.”

“Space carrier, descend.”

Buzzzzzz!

let's go. Jiang Li pointed forward. Space fluctuated and a huge space carrier appeared.

In an instant.

It turned into a physical body.

Such a huge space war mothership was completely black. It seemed to have swallowed all light, so there was no reflection at all.

Furthermore ...

The 'stellar-level space war mothership' was a huge battleship made of 'strong interaction force material' as the main body. Its body was almost indestructible, and it was in an absolutely smooth and zero-degree state.

The space war mothership's appearance was similar to a long shuttle. Its length reached 20 million meters, and its width and height were only about a million meters.

Because it was too big, most of the space war mothership was covered in the 'Black Death Fog'.

"Upgrade."

Buzzzzzz! Buzzzzzz!

The light flickered.

Jiang Li used one origin point and 400 billion energy points to upgrade the stellar-level space carrier to the perfected-stage of level eight.

It only took a few seconds.

Shua!

interstellar troop type: stellar-level interstellar warfare mothership

[ No.: Xjzzmj01 ]

[ rank: complete rank eight ]

skill 1: level 8 ultimate-grade mechanical intelligence

” skill 2: ultimate rank 8 locked-on strike

” skill 3: tier 8 ultimate space movement ”

skill 4: top-tier level 8 interstellar combat

skill 5: tier 8 ultimate firepower coverage ”

Skill 6: level-eight energy shield

skill 7: level 8 ultimate black Star Trooper research and manufacture

” skill 8: research and manufacturing of level 8 top-tier interstellar battleships

[ machinery: Jian Jia (omitted) ]

advancement requirements: one level-nine soul Tinder, one origin point ”

The information was displayed.

Jiang Li finished browsing.

Obviously.

The ‘stellar-level space war mothership’ was much stronger than the ‘stellar-level space Soldier research and development ship’. Not only could a stellar-level space war mothership produce Space Soldiers, it could also produce space warships.

within ten seconds.

A stellar-level space war mothership could produce a million level 8 space battleships and 10 million level 8 Space Soldiers. The number of soldiers it could produce was more than 10 times that of a stellar-level space Soldier Research ship.

In addition.

A level 8 space carrier already had ‘mechanical intelligence’.

interstellar battleships only became ‘mechanical intelligence’ after they reached the ninth step.

start building 10 million level 8 Black Star Troopers and 1 million space battleships.

” go! ” jiang li ordered.

“Yes!”

Xjzzmj01’s ‘mechanical intelligence’ quickly responded to Jiang Li.

Buzzzzzz! Wuuwuwuwu!

In an instant.

A terrifying energy storm was set off in the surroundings. The ‘stellar-level space war mothership’ was like a black hole, devouring the vast energy of the human world.

it formed an energy tornado-like storm.

Ten seconds later.

the million level 8 space warships and 10 million level 8 Space Soldiers have been completed.

The mechanical intelligence of the space carrier reported to Jiang Li.

“All troops, move out!”

go! Jiang Li waved his hand and gave an order.

## Chapter 717 Destruction

Jiang Li summoned a planet-sized space carrier out of thin air. It made a lot of noise and attracted the attention of the living beings around.

“Then what’s Yingluo doing?”

“Why did such a huge object suddenly appear?”

“.....”

They were shocked.

He was startled.

And confusion.

All the living beings were discussing spiritedly. They naturally couldn't recognize the space carrier, so they were full of doubts. It was just that the space carrier was too large, which brought a strong visual impact.

“Kill! Kill!”

“charge!”

“.....”

The earth was shaking.

The army of death puppets from the black mist of death charged forward again.

At the same time.

Kachaa! Kachaa!

The huge door of the stellar-level space war mothership opened, and tens of millions of mechanical soldiers swarmed out of the door, directly charging into the death puppet army of the 'Black Death Fog'.

this was a small-scale war.

“rumble!”

energy rumbled, and the ground shook.

The death puppets were undying, and after they died, they would immediately be revived from the 'Black Death Fog'. It was the same for the Black Star Troopers and the battleships.

as long as the stellar-level space battle motherships existed, they could continuously produce space soldiers and space battleships to replenish the losses of the war.

This way ...

the legions of both sides seemed to be immortal.

There was more.

The main body of the 'stellar-level space war mothership' was a super mothership made of 'strong interaction force materials', and the 'Black Death Fog' could not damage the mothership.

Of course.

The 'strong interaction force material' was not omnipotent, and there was a limit to it. It was not really indestructible, but it could be destroyed.

The 'main body' of the mothership was too large, and a large part of it was covered by the 'black mist of death'.

Si si si si si

As such, under the constant corrosion of the 'black mist of death'.

It looked like it was being corroded by acid.

Immediately.

The damage level of the 'stellar-level space war mothership' was rapidly increasing.

“Recover,”

okay. Jiang Li used some energy points and recovered immediately.

“Impossible! This is impossible!”

“Rumble!”

The head appeared again. Even the chaotic consciousness was shocked. It looked at Jiang Li’s mechanical Army in shock.

Obviously.

The strange ‘black mist of death’ was also shocked by Jiang Li’s mechanical Army. It didn’t expect to encounter an ‘immortal’ existence.

Could it be that the other party was also strange?

didn’t we agree that we’re the only ones who are ‘undying’? Why can he do it too? This is not fair!

“not bad.”

okay. Jiang Li nodded, satisfied with the power of the ‘stellar-level space warship’. it’s just a space warship, but it’s already at the Army level. It’s much stronger than the ‘stellar-level space Soldier Research warship’.

It could be said that ...

After unlocking the new interstellar Army.

A level 7 interstellar soldier could basically announce their retirement.

“it’s my turn next.”

Jiang Li looked at the black mist of death calmly.

The ‘stellar-level space warship’ had stalled most of the power of the ‘black mist of death’. More importantly, Jiang Li had found the main body of the ‘black mist of death’.

“I’ve found you,”

Jiang Li’s eyes glittered.

shua!

...

He disappeared in an instant.

The next moment.

li Shihe. Jiang Li had already appeared in the depths of the black mist of death. A figure appeared in front of Jiang Li. When he got closer, he saw that it was li Shihe.

“Oh.”

Jiang Li muttered.

In reality.

Li Yinghe thought that the entire Adam Kingdom had been destroyed, and he was the only one lucky enough to survive. However, he didn’t know that the ‘Black Death Mist’ had been him from the very beginning.

He was the source.

he was the black mist of death.

The 'nothingness' of universe ocean merged with the destructive aura of the world and then into the body of li Shihe.

it gave birth to bizarreness.

...

According to the normal operation of the world, 'courtesy and harmony' could be considered 'son of destiny', one of the trendsetters of the next era.

so,

The world's law attached to li Shihe.

Hence.

The 'nothingness' of 'universe ocean', the aura of the world's destruction, and the world's law attached to 'courtesy and harmony'. The three fused into one and became a strange 'black mist of death'.

he wanted to take revenge and eliminate the anomalies, but he didn't know that he was the target of his revenge.

however ...

It was a strange fact that the trace of consciousness that was treated courteously and reserved had automatically blocked him.

until jiang li arrived.

His last bit of consciousness collapsed.

The same disaster once again broke out in Hope City.

Buzzzzzz! Buzzzzzz!

the black mist surged wildly.

Li Shihe opened his eyes, which were as red as blood.

“Demon! You otherworldly demons!”

die! li Shihe roared with a hideous face. He lunged at Jiang Li with endless black mist. die! Go to hell!”

“How lamentable.”

Clang!

Jiang Li attacked.

in an instant.

Purple-gold patterns of law appeared on Jiang Li’s body. It was the ‘Emperor path law’ that Jiang Li had comprehended.

“The mountains and rivers, Sheji!”

Buzzzzzz!

Emperor Xia! Jiang Li used his martial arts. Countless pictures of mountains and rivers appeared behind him. Countless creatures bowed and shouted Emperor Xia’s name.

“Die!”

Shua!

let’s go! Jiang Li slashed out. Shanhe Sheji merged into the attack and used the ultimate power of law that he could use now.

A purple-gold sword ray streaked across the sky.

The space seemed to be cut.

Rip!

The black mist of death was cut apart like a rag, dissipating under the power of the law. This sword had cut li waihe’s body in half.

Kachaa! Kachaa!

In an instant.

Purple-gold runes of law appeared on li Yinghe’s body and spread out, causing countless cracks to appear on his black mist body.

BOOM!

Finally.

The courtesies exploded.

Buzzzzzz! “Whoosh!!!”

The surrounding ‘black mist of death’ melted away like snowflakes, and the ‘death puppets’ also turned into ashes, dissipating with a wisp of wind.

The strange ‘black mist of death’ that could destroy a country.

Death!

In front of Jiang Li.

The white light gradually condensed into a fist-sized ball of white light. A polite figure appeared and bowed to Jiang Li, then disappeared.

The ball of white light turned into a white spot and flew toward Jiang Li.

It merged into Jiang Li’s body.

He disappeared.

Shua!

[ ‘main mission (altered): redemption’ is completed. you have received the mission reward ‘a wisp of the world’s law origin’. ]

A notification appeared.

“Is this the mission reward?”

No. Jiang Li shook his head. I did it myself.

Obviously.

From the very beginning.

the task that the game origin of the six-realm world gave jiang li was a huge trap. even the reward was fake.

“Salvation.”

redemption? ” Jiang Li glanced at the City of Hope that had been completely destroyed. you call this redemption? ” To save who? Don’t tell me destruction is salvation?”

shua!

” i’m fine. ” jiang li shook his head and flew away.

His figure disappeared into the thick fog in the distance.

“I survived! We’ve survived!”

“Hahahahaha!”

“Oh my God, did you guys see that? Did you see that? it turned out that strangeness could also be killed, could also be killed! Bizarreness isn’t indestructible!”

“.....”

Hope city’s survivors were filled with the joy of surviving the disaster. They were extremely excited, extremely excited, and extremely happy.

Because ...

they saw ‘hope’.

‘Weirdness’ was not immortal, but could be killed.

This was hope!

Jiang Li. they all looked in the direction where Jiang Li left with deep respect, because Jiang Li had broken their understanding and given them hope.

everyone, Hope City has already been reduced to ruins. After we rest, we will rebuild our homes in the ruins.

At this moment.

Someone shouted.

“Rebuild our home!”

” rebuilding a home on top of the ruins! ”

all the living beings shouted.

however ...

at some unknown time.

In the sky above the ruins of ‘City of Hope’, an ethereal Palace floated over. It was surrounded by immortal energy, and one could vaguely see fairies singing and dancing in the palace.

unknowingly.

the living beings of hope city raised their heads and looked at the immortal palace. they could no longer look away, and the spiritual light in their eyes gradually blurred and sank.

“Immortal Palace, immortal Palace Suan ni”

“I’m going to become an immortal, I’m going to become an immortal, sob sob”

“There will be no more pain and sorrow in the immortal Palace.”

“.....”

He murmured.

hope city’s living beings kept muttering.

finally.

One by one, they flew up, and their bodies were shrouded in immortal Qi. It was as if they had really flown up into the sky and into the ‘immortal Palace’, becoming ‘Immortals’.

The immortal Palace flew away.

Hope City no longer had any living beings.

silence!

A strange silence!

Sha Sha Sha Sha

After the breeze blew.

Only a few withered leaves flew past.

on the other side.

after jiang li left the city of hope, he flew for almost a day according to the information he got before and finally arrived at the place where the army of the ‘no god dynasty’ had been.

However ...

When Jiang Li arrived, the building was already empty.

The entire city.

All that was left was a huge empty city.

“.....”

Jiang Li stood in the sky above the huge empty city and looked around. All he could see was the endless black fog. He fell into deep thought.

“little white, how much longer?”

Jiang Li asked.

“Master, there are still 23 days left.”

Xiaobai answered.

“There are still 23 days!”

Jiang Li took a deep breath.

little white, what do you think the ‘resources’ that the ‘no God dynasty’ didn’t leave for are? ”

Jiang Li asked.

“Master, I don’t know about this.”

“After all, I’m just a weak assistant,” Xiaobai said.

“yup,”

Jiang Li took out the wisp of world law origin. The white light floated in his palm. He looked at it quietly. you’re just an assistant after all.

Within the white light.

There were fine, intertwining patterns.

It was extremely profound.

Shua!

Jiang Li quickly took out the world law origin.

“Other than this ‘world law origin source’.”

Jiang Li thought, I really can’t think of any resources in this world that’s on the verge of destruction that can make the ‘dynasty of no God’ risk so much to stay here.

the most important thing was ...

After Jiang Li got the ‘wisp of world law origin’.

There was an unexpected change in the ‘machinery type’.

activate ‘machinery origin Army type’.

Jiang Li said.

Chapter 718 The sovereign

[ sub-surface: type of machinery ]

[ status: ‘a wisp of world law origin source’ is consumed to activate. ]

?.....?

very quickly.

In front of Jiang Li’s eyes.

The ‘machine type’ was no longer in a state that couldn’t be activated. After Jiang Li got a wisp of the world law origin, he could activate it.

However ...

the world law origin source was an extremely precious resource. it had almost all kinds of uses and could be used in all kinds of fields.

This included refining weapons, refining pills, cultivating, and so on.

Under certain circumstances.

It could create a world.

“Open!”

Jiang Li made a decision after thinking for a long time.

buzzzzzz!

The white light on Jiang Li's palm disappeared and merged into the 'screen' in front of him.

Shua!

In an instant.

The 'machine origin Army type' interface flickered with a white light, and the 'world law origin' completely merged into it.

[ the machinery Origin series has been successfully activated. ]

[ new troop type information obtained. ]

A notification appeared.

After the interface was opened.

[ sub-surface: type of machinery ]

Status: Open

[origin soldier type: master of machinery-game God (locked)(099)(hint: Unlocking 'origin source soldier type' requires 'world law origin')]

?.....?

Jiang Li muttered.

After carefully browsing through all the information, he was a little surprised and fell into deep thought. I didn't expect to unlock such a 'troop type'.

The most important thing was ...

Jiang Li had never heard of an 'original soldier' like 'master of machinery'. This original soldier 'was completely different from its previous framework.

One had to know.

According to Jiang Li's understanding of the game 'super mecha Army', it was a game that was similar to the 'super mecha Army'.

Even if Jiang Li played to the end.

there was no need for the 'machinery type' to appear, and there was no need for the 'master of machinery-game god' to appear.

However ...

This was a good thing.

This meant that the 'super divine mechanical Army' had completely broken away from its original framework and possessed infinite possibilities. As long as it could continue to grow, there would be no limit to its existence.

I just don't know what kind of troops the 'master of machinery-the master God of games' will be and what abilities he will have.

it's the six-realm world. Jiang Li guessed, " it probably absorbed a wisp of the world law origin from the game origin of the six-realm world.

"In this case, the abilities of the master God of games may be related to the 'game origin' of the 'six realms world'."

however, the amount of world law origin source required is too much. I actually need a total of 99.

Jiang Li took a deep breath and said, ” ” this isn’t an easy task, and from the looks of it, they want me to keep hunting down the ‘anomalies’ and seize the ‘world law origin source’ that the anomalies possess. ”

“and ...”

if my guess is correct, the ‘anomalies’ can be killed. The reason why the ‘no God dynasty’ hasn’t retreated yet is because they want to kill the ‘anomalies’ and obtain the ‘world law origin’.

“If I’m planning to seize the world’s origin source, then I’ll be fighting with the ‘no God dynasty’ for resources. In the end, I’ll definitely have to fight.”

“That’s the ‘imperial dynasty’ that’s ranked at the ‘fourth class’.”

“The great Xia Empire is only at the 9th level. The difference is not just a star and a half.”

However ...

Jiang Li didn’t want to give up so easily.

Furthermore ...

There were six realms in the six realm world. In addition to the human realm, each realm had dozens of planes, which could be called vast and boundless.

It was hard to say if they would even encounter it.

I don’t know, ” Jiang Li said. I don’t have any information about the ‘endless dynasty’. I don’t know when I’ll be able to find it.

...

“Before that, I might as well think of a way to hunt down the ‘anomalies’ and obtain the ‘world law origin source’.”

I have to unlock the ‘origin soldier profession’,’ master of machinery-Game Master God’. After all, if I miss this opportunity, I won’t be able to do it again. I don’t know when I’ll be able to unlock new ‘origin soldier profession’ in the future.

this is an opportunity. I can’t miss it!

Jiang Li made the decision.

Shua!

His figure flickered.

” okay. ” jiang li disappeared from where he was and left the empty city. he spread out his senses and sent out ten million level-nine interstellar soldiers and a million interstellar battleships.

the army scattered.

A large-scale search for ‘strange’ traces.

Logically speaking.

The world was at the end of its destruction. There should be a large-scale ‘anomaly’, but when Jiang Li’s Army scattered and looked around ...

...

However, he discovered that the ‘strange’ was actually very rare.

“As expected,”

it’s true. Jiang Li muttered, ” the dynasty is indeed hunting the ‘eeriness’.

“Chief sovereign.”

Suddenly.

The starship’s ‘mechanical mind’ contacted Jiang Li.

“What is it?”

jiang li asked.

“We have lost contact with search unit 0231.”

The mechanical intelligence replied.

“Oh.”

huh? ” Jiang Li’s eyes lit up. did you find any strange traces? ”

“Yes.”

“This is the image sent over,” the intelligent machine said.

“Whoosh!!!”

The Starship projected a light screen in front of Jiang Li. The huge light screen showed an ethereal and majestic palace.

“The immortal Palace.”

” strange? ” jiang li was stunned. ” is this the strange thing i encountered before? ”

“Chief sovereign.”

search unit 0231 that has entered the ‘heavenly Palace’, ” the AI continued. there are 100000 Black Star Troopers and 10000 battleships.

“we lost contact in an instant.”

” most importantly, the main body of the ‘space carrier’ has suffered irreversible damage from the source, too.

“What do you mean by that?”

jiang li asked.

the upper limit of the space carrier’s production of ‘Space Soldiers’ and ‘space warships’ has been lowered.

The mechanical intelligence replied.

“This bi an ...”

” huh? ” jiang li realized. he looked at the ‘immortal palace’ on the screen and felt even more terrified. ” i can’t believe this happened. ”

The upper limit of manufacturing was reduced.

It meant that ...

‘Xjzzmj01 stellar-level space war mothership’ could only produce ‘9.9 million level 8 Space Soldiers’ and ‘990000 level 8 space warships.

The loss of '100000 Black Star Troopers and 10000 Black Star battleships' would never be recovered.

Furthermore ...

Xjzzmj01 had suffered permanent damage.

The damage level was permanently fixed at '99%'.

Jiang Li used some energy points to repair 'xjzzmj01', but he realized that the 'one percent 'damage couldn't be recovered.

This was an injury caused by the source of the root.

Obviously.

Jiang Li had never encountered such a situation before.

It could be seen from this.

The 'strange' immortal Palace was extremely dangerous.

It was definitely beyond the level of a country destroyer.

“World destruction or world destruction?”

Jiang Li took a deep breath and looked serious. or is it beyond the 'world-destroying level'? ”

“Retreat!”

send out the order. The Black Star Troopers and interstellar battleships must pay close attention to the ‘divine Palace’ and report to me from time to time.

“we must avoid the ‘immortal palace’.”

“Yes.”

The mechanical intelligence replied.

Buzzzzzz! Buzzzzzz!

the huge light screen in front of jiang li started to ripple like waves on a calm water surface. the ‘immortal palace’ on the screen seemed to be materializing.

“Close the screen immediately.”

run! Jiang Li was shocked and ordered.

“Yes!”

Shua!

The projection disappeared.

“hu ~~ hu ~ hu ~”

Jiang Li was relieved.

Time passed.

Half an hour passed.

“Chief sovereign.”

report! the mechanical intelligence reported,”discovered ‘strange’ traces, estimated to be ‘city destroyer level’, location 1000 kilometers Southeast.

“Alright,” he said.

Jiang Li was overjoyed and quickly rushed over.

Not even half a minute had passed.

They arrived at their destination.

Jiang Li stood in the sky and looked down. He saw a small village. The villagers were laughing and talking with excitement on their faces.

It was like a paradise.

It looked very normal.

However ...

The six-realm world was on the verge of destruction. How could there be such a ‘Happy Village’ in such a collapsing world?

he took a closer look.

The smiles on the villagers ‘faces were too stiff, like puppets. Looking at them from afar, it had a terrifying aura, as if they were not smiling.

“I’m a foreigner.”

At this moment.

The village head of 'Happy Village' walked to the door. He was a kind old man. He looked at Jiang Li with a smile and said, "welcome to 'Happy Village'.

"hurry up and come in!"

"Village chief, village chief, is there a guest?"

"That's great, that's great."

my fellow villagers, there are foreigners here. Butcher Liu, hurry up and kill the pigs. We'll hold a pig feast to welcome the foreigners.

"Alright, alright,"

"....."

Jiang Li. the villagers invited Jiang Li.

Jiang Li looked down at the village. The villagers' smiles were enchanting. He couldn't help but have a good impression of the villagers and want to enter the village.

"Hmph!"

BOOM!

Humph! Jiang Li snorted. The mark of the emperor's position between his eyebrows glowed and he immediately got out of the bewitching state and returned to normal.

your bewitchment is much worse than that of the 'heavenly Palace'.

you're right, " Jiang Li said coldly.

After that.

Jiang Li looked down again.

the smiles on the villagers 'faces seemed to have turned sinister.

He no longer had that kind of affability.

“Attack!”

Jiang Li waved his right hand. The level-nine interstellar battleships lined up and locked onto the ‘Happy Village’ below. Beams of light shot out.

BOOM! BOOM! BOOM!

An explosion sounded.

The earth trembled.

dust filled the air.

It was as if this village had been erased from the map.

“Has it been resolved?”

Jiang Li looked at it.

“whoosh!!!”

The next moment.

The sky was covered in a dark fog.

A second later.

It was still the same place, the same scene, and the same appearance.

The 'Happy Village' appeared again.

Everything. Everything.

Everything returned to normal.

It was as if nothing had happened.

“So, ordinary methods really can't kill them?”

it seems like I have to find the 'main body' of the strange thing and destroy it first,  
” Jiang Li said. only then can I completely solve the problem.

## Chapter 719 Seizing

However ...

It wasn't easy to find the main body of the 'strange'. Jiang Li had spent a lot of time finding the main body of the black mist of death.

Furthermore ...

Most of the Black Death Fog's attention and power had been drawn away by the mechanical Army.

Jiang Li finally had a chance.

“Outsider, come in, come in quickly.”

“We are a ‘Happy Village’.”

“The all-pig feast is ready.”

“Yes, yes.”

“just come in, foreigner.”

“.....”

At the village entrance.

All the villagers had gathered together.

they kept waving at jiang li with warm smiles on their faces, but in jiang li’s eyes, they looked gloomy.

The words he said did not make sense.

“Chief, chief, all the pigs in the pigpen have been killed.”

Suddenly.

Butcher Liu ran back, his head full of sweat.

“Is that so?”

The village chief's face became expressionless, and the smile on his face disappeared. how can I do that? Without pigs, how are we supposed to entertain our guests?"

"Yup! That's right!"

"What should we do?"

"that's troublesome."

"I have to think of a way."

"....."

The villagers were making a ruckus.

"hehe."

the village chief's smile was no longer kind. he looked up at jiang li and said with a smile, "Isn't there a 'pig' here? we'll catch it and keep it in the pigpen."

"yes, yes, yes."

"We agree,"

"capture him, capture him!"

"....."

the villagers cheered.

Buzzzzzz! Buzzzzzz!

A change occurred.

The dark fog surged over.

It formed a huge tornado.

Roar! Roar!

Kachaa! Crack! Crack!

The villagers roared like ferocious beasts. Their eyes turned red and their bodies swelled up in an instant.

In just a short second.

They turned into ferocious black-scaled monsters.

“roar!”

” come in! ” the village chief shouted at jiang li, ” outsider, come in and eat the pig! ”

Bang!

As soon as he finished speaking.

The village chief stomped on the ground and his huge body soared into the sky.

“Fire the cannons.”

Jiang Li looked at him coldly.

Bang Bang Bang Bang!

the interstellar battleships opened fire, shooting out energy beams that penetrated everything. the village chief was directly vaporized by the energy beams.

“BOOM!”

The earth trembled and energy roared.

...

the entire village was wiped out again.

buzzzzzz! Buzzzzzz!

Endless dark fog spread out.

In an instant.

The Happy Village was restored again.

The village chief and the villagers appeared once again.

it returned to its original state.

“A foreigner, Lao Ai.”

Jiang Li! the village chief and the others were stunned. After a while, they looked up at Jiang Li and roared. Their bodies expanded again.

BOOM! BOOM! BOOM!

After that.

...

They were greeted by energy bombs falling from the sky.

once again, the village was razed to the ground.

Jiang Li destroyed the village again and again, but the village was reborn again and again.

“I’ve found you,”

Finally ...

After destroying the Happy Village hundreds of times, Jiang Li finally caught the main body of the strange ‘Happy Village’. It was the willow tree at the entrance of the village.

It was really dark under the light.

bang bang bang!

An explosion sounded.

The Black Star Troopers immediately moved out and blocked all the residents of Happy Village, preventing them from getting close to the willow tree at the village entrance.

Clang!

The sound of a sword rang out.

“The mountains and rivers, Sheji.”

Buzzzzzz!

jiang li activated the power of the laws of the emperor path and used the ‘martial arts profound’. he merged the’ mountains and rivers ‘into his sword and charged forward like a sword.

“Roar!”

The willow tree woke up.

A hideous and hollow face appeared on the trunk.

In an instant.

Countless willow branches flew towards Jiang Li like giant pythons.

Kachaa! Kachaa!

Jiang Li’s sword destroyed everything, but the strange ‘Happy Village’ couldn’t stop Jiang Li’s sword at all.

Countless willow branches broke.

one had to know.

Even the strange ‘black mist of death’ stopped Jiang Li.

In the end.

The Willow was cut in half by Jiang Li.

Buzzzzzz! Buzzzzzz!

The purple-gold nomological patterns intertwined and covered the Willow's body. Countless cracks appeared on the Willow before it finally exploded with a boom.

main body exterminated.

All that was left was a white ball of light.

An illusionary shadow of a willow tree appeared behind the white light. It swayed its branches and leaves as if it was bowing to Jiang Li before it disappeared.

Below.

The 'Happy Village' was like sand.

At the village entrance.

The village chief and the villagers were still standing there, looking at Jiang Li with the same 'happy' smile on their faces. They kept waving at Jiang Li.

Inch by inch, it turned into dust and dissipated.

"It's quite easy to deal with a city-destroying anomaly."

I'm at the perfected stage of level nine, " Jiang Li said. I've mastered the Emperor path and comprehended martial arts. I should be able to easily deal with anything below the level of National destruction.

"i just don't know what level 'world-destroying level' is."

"Yes."

let's play it safe. Jiang Li muttered, " I'll just solve the anomalies below the level of Kingdom destruction. As long as I kill 99 of them, I'll be able to unlock the 'master of machines-the God of games.'

"There's no need to take the risk to find a world-destroying anomaly."

no matter what, this is a 'superior world', and a' superior world 'that is approaching its end.

jiang li reached out to grab the white light in front of him.

Wuwuwuwuwu!

but ...

A strange fluctuation appeared and enveloped the white light in front of him, causing the white light to be in a state between illusion and reality.

Jiang Li's right hand passed through the white light.

"What's going on?"

Jiang Li was stunned.

After that.

The White ball of light was gradually fading away.

"This is a Kasaya."

what? " Jiang Li reacted and said with a gloomy face, " "You dare to snatch my things!"

Obviously.

It was the 'will of the six-realm world'. It obviously wanted to take away the wisp of the world's law origin 'that Jiang Li had fought hard for.

It was actually very simple.

Since the 'six realms world' was a 'game world', it followed the rules of the game', and there was a 'drop rate', which meant that there was a chance of items 'dropping from killing monsters.

now.

The world's will followed the rules of the game.

The rules of the game.

The world's will.

It could also be said to be the 'source of the game'.

He changed the settings.

the drop rate of 'a strand of world law origin' after killing a 'strange' was one in a billion.

This kind of 'drop rate'.

It was completely impossible for it to drop.

According to the 'rules of the game'.

jiang li didn't get a wisp of the world's origin this time, so the world will could take it back.

Shua!

[ due to the interference of the 'world will' and the 'rules of the game', the capture of' a wisp of the world's law origin 'has failed. The' ultra-divine mech Army 'has begun to fight back. ]

[ beginning invasion, Chengcheng ]

[ countdown: 10,9,8,7 ]

[ intrusion successful! ]

[ tampering with the 'game rules' completed! ]

[ when the ruler kills the 'strange', it will drop the' world law origin'. ]

The whole process took less than ten seconds.

The 'game origin' of the 'six-realm world' was invaded by the 'super mechanical Army' again, changing the rules of the game that were applied to Jiang Li.

The drop rate of 'one in a billion' had become 100%.

It would definitely drop.

After that.

The fluctuations of the world's will disappeared unwillingly.

Buzzzzzz!

A wisp of the world's origin law appeared.

Shua!

It quickly flew towards Jiang Li.

[ acquired a wisp of world law origin. ]

A notification appeared.

opening the interface of the machinery origin.

Jiang Li said.

[sub-surface: type of machinery]

Status: Open

[origin soldier type: master of machinery-game God (locked)(199)(hint: To unlock 'origin soldier type', world law origin 'is required]

?.....?

“Alright,” he said.

yes. Jiang Li nodded and smiled. no wonder it's the upgraded 'super mechanical Army.' As the saying goes, a journey of a thousand miles begins with a single step.

” since i've collected a wisp of the world law origin, is it still far from the 99th? ”

Shua!

The interface closed.

“Let’s continue.”

let’s go! Jiang Li waved his hand and shouted.

Of course.

It wasn’t that Jiang Li didn’t think about building more ‘stellar-level space battle motherships’. That way, there would be more mechanical armies and it would be easier to find the ‘eeriness’.

This way ...

There was a higher chance that Jiang Li would be discovered by the dynasty.

For the time being.

ten million level 8 meches were enough.

Jiang Li’s mechanical army split up and spread out in a circle with Jiang Li as the center.

They followed Jiang Li.

The human realm was huge.

But it was not without end.

Ten days later.

Jiang Li saw the world barrier of the 'six-realm world'. He could see the huge and hideous cracks, and' ocean water 'was seeping in.

“we’ve already reached the edge of the world.”

jiang li opened the information of the mechanical origin troops.

[sub-surface: type of machinery]

Status: Open

[origin Army Type: master of machinery-game God (locked)(4099)(hint: To unlock 'origin soldier type', 'world law origin 'is required]

?.....?

I only found 39 anomalies in 10 days.

Jiang Li closed the interface and said, ” “i’m still short of 59.”

In reality.

In ten days.

Jiang Li also found traces of the 'Supreme dynasty' in the human world. He saw an Army of the Supreme dynasty from afar. There were quite a few of them, but Jiang Li didn't approach them. He just observed them from a distance for a while and left.

He was being cautious.

Jiang Li used the Dominator panel to create a 'super Intel soldier'. Then, he used two soul Tinders from level three to level nine and a lot of energy points to level up to perfected level nine.

They had become a brand new super elite troop class.

Shua!

The information was displayed.

[ unit type: interstellar space reconnaissance soldier-space drive (elite) ]

[ rank: complete rank-nine ]

[ military rank: marshal-planet level ]

[ No.: Xjkjzc01-LJQDQ ]

tier 7 skills: interstellar travel, psionic master, melee combat, long-range sniping, condensed strike

level 8 skills: interstellar reconnaissance, data invasion, energy manipulation

level nine skills: space travel, space invisibility ”

” equipment: tier 9 ultra-quality space battle suit ”

[ space drive: a space scout that uses ‘space’ as its energy source. it has a certain level of combat ability and powerful scouting abilities. ]

[ machinery: Jian Jia (omitted) ]

[ level up: two level-ten soul Tinders, 200 origin points ]

## Chapter 720 surveillance

okay. Jiang Li waved his hand and ordered, ” xjkjzc01-KJQDQ, your next task is to follow this Army of the ‘no God dynasty’. Keep an eye on the situation and movements of the Army and report to me.

“Yes.”

xjkjzj01-klqdk saluted jiang li and replied, ” “Don’t worry, chief sovereign. I guarantee I’ll complete the mission.”

“Yes.”

okay. Jiang Li nodded in satisfaction.

Buzzzzzz!

He activated the spatial stealth skill.

After that.

Xjkjzc01-KJQDQ’s human-like figure gradually turned illusory and entered space, achieving ‘spatial invisibility’.

shua!

‘space travel’ activated.

In an instant.

Xjkjzc01-kjqdk travelled an extremely long distance and arrived at the location of the ‘no God dynasty’ Army.

reporting to the Lord, the infiltration mission has been completed.

xjkjzc01-KJQDQ sent a message to jiang li.

Obviously.

After the elite Fusion troop class, the ‘super Intel soldier’, was upgraded to the ‘interstellar space reconnaissance soldier’, abilities like ‘communication’ became basic skills and were not displayed in the skill bar.

furthermore ...

The interstellar space reconnaissance Warriors could contact the Super god game Legion directly and report to Jiang Li from time to time.

This way ...

jiang li didn’t need to make an intel soldier to follow him.

in addition.

The interstellar space reconnaissance Warriors were extremely powerful, and they were also elite troops. Their ‘reconnaissance’ abilities were extremely powerful, and they were difficult to detect.

It was the most suitable place to monitor the situation of the ‘dynasty without God’.

Very quickly.

A picture appeared in front of Jiang Li’s eyes.

In the image.

What was displayed was an Army of the ‘no God dynasty’ in the distance, and it was also filmed at a close distance. The commander of the army was a rough-looking middle-aged man with a ninth-rank cultivation base.

as expected of the ‘godless dynasty’. A dynasty ranked at the 4th level is just a random army, and the commander is already a level 9.

Shua!

After observing for a while, Jiang Li turned off the camera.

“little white, how long will it take to build the plane channel?”

Jiang Li asked.

“Master, there are still 16 days.”

Xiaobai answered.

“Yes.”

sixteen days should be enough. Jiang Li muttered.

“Let’s go.”

Shua!

Jiang Li disappeared and flew towards the northeast. The space carriers and the Black Star Troopers followed him.

Half a day later.

The easternmost part of the human world.

‘heaven realm city’.

Jiang Li had arrived. He stood in the air and looked ahead. He saw a huge city, but it was already in ruins.

It was a sight of wolves.

One had to know.

before the end of the world, ‘heavenly city’ was the passage between ‘the human world’ and ‘heavenly world’. it was an epic-level floating city in the human world.

And now.

The glory had become a thing of the past.

All that was left were ruins and remains.

However ...

The passageway between the ‘human realm’ and the ‘heavenly realm’ would not disappear, because the ‘passageway’ was originally a part of the world’s structure. Only when the world was completely destroyed would the ‘passageway’ disappear.

“This is the passage to the ‘heavenly realm’.”

...

” what’s going on? ” jiang li looked at the huge whirlpool in front of him. without the protection of the ‘heaven realm city’, the passage was completely exposed in front of jiang li.

In the past.

in order to enter the heaven realm, one must pass the test of ‘heaven realm city’ and complete a series of main missions before finally entering the heaven realm.

There was no need for that now.

They could enter directly.

“let’s go,” he said.

Jiang Li walked forward to the front of the tunnel. The giant black Whirlpool was filled with clear space ripples like a natural ‘wormhole’.

Able to perform ‘spatial teleportation’.

In reality.

The structure of the ‘six realm world’.

it was as if layers and layers of worlds were stacked together. the ‘human world’ was at the center, with the heaven realm and spirit realm above the human world, while the hell realm, the dark realm, and the demon realm were below.

...

The wormhole-like ‘channel’ connected all the planes in the six realms.

“Hu ~~ Hu ~ Hu ~”

Jiang Li took a deep breath. Although he was sure that the tunnel was safe, he still sent the ‘stellar-level space carrier’ to explore first.

“Scout ahead,”

go! Jiang Li ordered.

“Yes.”

The stellar-level space war mothership’s ‘mechanical intelligence’ responded.

At the same time.

Recall all the Black Star Troopers and battleships into the ship.

Shua!

the space carrier began to approach the ‘tunnel’.

Wuwuwuwuwu!

The spatial fluctuations became clearer and clearer, and they acted on the ‘stellar-level space war mothership’, causing the huge’ stellar-level space war mothership ‘to quickly shrink.

Finally.

It had reached a level where it could pass through the ‘tunnel’.

shua!

The ‘stellar-level space war mothership’ entered the tunnel and disappeared.

After a while.

jiang li didn't receive any notifications and didn't retrieve any energy points, which meant that the 'stellar-level space warship' was fine. it passed through the 'tunnel' safely and arrived at the first level of the 'heaven', 'supreme emperor heaven'.

after that.

jiang li entered the 'tunnel'.

His vision turned black.

In an instant.

In the blink of an eye, Jiang Li passed through the 'tunnel'. He didn't feel anything. When he realized what was going on, he had already passed through the 'tunnel'.

they had arrived in the 'heavenly realm'.

“Chief sovereign.”

The mechanical intelligence of the stellar-level space warship reported to Jiang Li, “we've already sent out the Black Star Troopers and battleships to Scout the area.

the heaven realm's situation isn't very optimistic. The entire 'Supreme Emperor heaven' has almost collapsed, and we haven't found any 'strange' traces. However, there are a large number of traces of war left behind.

“It's obvious.”

“The Army of the Supreme dynasty has swept through Supreme Emperor heaven.”

“Less than 10% of the 'strange' people are left.”

while the mechanical intelligence reported to jiang li, it also showed him the images taken by the black star troopers and the interstellar battleships.

time passed.

Five days later.

In the thirty-sixth realm of the heaven realm, the 'daluotian'.

The Daluo forest.

BOOM!

die! Jiang Li slashed with his sword. The sword roared like a dragon. He used the law of the Emperor path to the limit and killed the main body of the strange 'dark forest'.

Killed with a single sword strike.

buzzzzzz!

It strangely dissipated.

The entire Daluo forest turned into ashes.

The scene was huge.

After that.

a white ball of light appeared.

Shua!

[ acquired a wisp of world law origin. ]

A notification appeared.

“Unfurl.”

Jiang Li checked the information of the ‘origin soldier type’. He frowned and said,  
” I only got nine world law origins in the entire Wutian world.

“it’s too slow,”

” there’s still eleven days left. at this speed, it’s impossible to complete. ”

In reality.

These were not the most important things.

Most of the ‘oddities’ had been killed by the ‘dynasty of no heaven’. It took Jiang Li a long time to find only one or two that escaped.

it was more like a terrifying and strange ‘immortal palace’.

Because the overly powerful anomalies were hard to kill, and the effort and reward were not proportional, the Army of the ‘no God dynasty’ would take the initiative to avoid those powerful anomalies.

After the destruction of the world, even if those strange things would not be destroyed by the terrifying power of the destruction, they would eventually be assimilated by the ‘nothingness’ of universe ocean.

Shua!

[ prompt: xjkjzc01-kjqdt requesting communication. ]

“I’m sure,”

Jiang Li said quickly.

The projection appeared.

“Chief sovereign.”

commander Jiang, the interstellar space Scout saluted Jiang Li.

“report the situation.”

Jiang Li said.

“Yes.”

the interstellar space reconnaissance warrior put down his hand and reported, ” reporting to the Lord, the Army of the ‘godless dynasty’ has begun to return to the ‘human world’ from the major planes of the six worlds.

” if nothing goes wrong, the army of the ‘no god dynasty’ will be fully assembled in three days. then, they will return to the ‘super fantasy world’ and cut off the plane channel. ”

“Three days!”

Jiang Li said seriously, ” “that’s really unexpected.”

While reporting.

The interstellar space reconnaissance warrior also sent the images he took to Jiang Li and played them in front of him so that Jiang Li could understand the situation of the ‘dynasty without God’.

First of all ...

The Army of the 'no God dynasty' in the 'six-realm world' was just an Army of the 'no God dynasty'. They could not even be considered elite.

It was called the 19th Legion.

The Army's form of address was only replaced by 'numbers', and there was not even a formal 'title'.

According to the intelligence they had gathered.

The '19th Legion' had ten trillion soldiers.

there were ten armies in total.

Each Army had trillions of soldiers.

All the commanders-in-chief of each Army were at the perfected stage of tier 9.

He was extremely powerful.

The Army's general was only a King of the 'no God dynasty'.

Its full name was 'yang dike'.

His cultivation was at the early tenth level.

In addition.

the interstellar space reconnaissance warriors had also found out that the main forces of the 'no god dynasty' had actually been sent to a 'universe plane' that the 'martial immortal court' of the human race had discovered six years ago.

That was the ‘universe’ Jiang Li was in.

“Ten trillion soldiers.”

it’s worth a try. Jiang Li thought. if that’s the case, it’s worth the risk. We’ll start a war with the ‘19th Division’.

” we can’t let the 19th division retreat in three days. ”

Buzzzzzz!

After making the decision.

” okay. ” jiang li didn’t hesitate anymore. he opened the dominator panel.

“Build 1000 stellar-level space battle motherships.”

go. Jiang Li ordered. He used two million trillion energy points, which was 200 origin points. and 100000 planetary-level Space Research spaceships.

Shua!

The manufacturing interface appeared.

Two different shadows appeared, and countless light spots filled them, gradually solidifying.

A minute later.

[ creation complete! ]

A notification appeared.

Buzzzzzz! Buzzzzzz!

Jiang Li waved his right hand.

“The fleet has descended!”

stop! Jiang Li shouted.

In front.

110,000 battleships and motherships appeared at the same time, filling up the surrounding space for tens of thousands of miles, blocking all vision.

“Upgrade.”

Shua!

Jiang Li spent another 2800 origin points to upgrade 100000 planetary-level Space Soldiers into warships and 1000 stellar-level space battle motherships.

A few seconds later.
