

Army 721

Chapter 721 Attack

it only took a few seconds.

Jiang Li's fleet had changed drastically.

After upgrading to the peak of Type 7, the 'planetary-level space Soldier research and operation warship' was 20000 meters long, 2000 meters tall, and 2000 meters wide.

The length of the 'space carrier' was 20 million meters, and its width and height were only one million meters.

The difference in size between the two was huge.

"all troops, hear my order!"

"start building interstellar soldiers and interstellar warships," jiang li shouted.

Buzzzzzz! Buzzzzzz! Buzzzzzz!

After that.

An earth-shattering phenomenon occurred.

Endless energy gushed over, pouring into the battleships and motherships, causing 'Supreme Emperor heaven', which was already on the verge of collapse, to be unable to support itself.

Kachaa! Kachaa!

It was like Broken Porcelain.

Countless cracks appeared.

Obviously.

Based on the current situation.

Supreme Emperor heaven would probably fall apart.

“This bi an ...”

wait! Jiang Li was shocked and quickly said, ” slow down the production speed immediately.

“Yes!”

The fleet responded.

Buzzzzzz! Buzzzzzz!

The devouring energy fluctuations calmed down.

It was at least a thousand times slower, and it was maintained at its limit. It wasn't to the point where 'Supreme Emperor heaven' couldn't withstand it and was on the verge of collapse.

Three hours later.

A total of 100000 battleships of Level 7 Black Star Troopers and 1000 level 8 Black Star Troopers and level 8 battleships were completed.

this way ...

Jiang Li's mechanical Army.

Their military strength had already exceeded 100 billion.

Among them.

There were 100 billion Level 7 Black Star Troopers, 109.9 million level 8 Black Star Troopers, and 109 million level 8 battleships.

100,000 full-stage type 7 planetary state space Soldier Research ships.

1,001 stellar-level space battle motherships at the peak of the eighth stage.

One perfected-stage rank nine elite soldier.

“It's not enough.”

Buzzzzzz!

Jiang Li opened the soul Tinder column. I'm still short of enough level-nine soldiers and decisive level-ten meches.

[soul tinder: 110 billion level-one soul tinders, 3.5 billion level-two soul tinders, 120 million level-three soul tinders, 4030000 level-four soul tinders, 111000 level-five soul tinders, 5050 level-six soul tinders, 310 level-seven soul tinders, 18 level-eight soul tinders, 1 level-ten soul tinder]

“Fuse.”

Buzzzzzz!

fuse. Jiang Li activated the 'soul Tinder' function. The fusion of soul Tinders required ten soul Tinders of the same level to fuse once.

In the past.

Because of the limitations of the ‘will of the great cosmos’.

The fusion of the soul Tinder had a success rate.

now.

Jiang Li had gotten rid of the shackles and was no longer restricted by the will of the universe. There was no problem with the success rate of the fusion of the soul Tinder.

[fusion successful!]

.....

[fusion successful!]

.....

[fusion successful!]

.....

The fusion interface flickered with rays of light.

...

A series of notifications appeared.

They were all ‘fusion successful’.

Finally.

you've obtained 11 billion stage-two soul Tinders.

A notification appeared.

“Alright!”

merge with 14.5 billion level-two soul Tinders. Jiang Li smiled.

The fusion began.

He activated the one-click fusion.

shua! Shua! Shua!

Countless notifications popped up on the interface.

...

Shua!

” acquired 1.45 billion stage-three soul tinders. ”

“Continue.”

Jiang Li said.

Time passed.

1.57 billion type-three soul Tinders fused into 157 million type-four soul Tinders; 197,030,000 fourth-tier soul Tinders were fused into 19703000 fifth-tier soul Tinders. 19,804,000 level-five soul Tinders were fused into 1980400 level-six soul Tinders.

1,985,450 level-six soul Tinders were fused into 198545 level-seven soul Tinders.

the 198,855 level-seven soul tinders had been fused into 19885 level-eight soul tinders, and there were still five level-seven soul tinders that could not be fused.

consumed 128 level-eight soul Tinders, unlocked the ‘stellar-level interstellar fortress’.

Jiang Li said.

One hundred and twenty-eight level-eight soul Tinders were deducted.

Shua!

[stellar-level interstellar fortress has been successfully unlocked!]

A notification appeared.

congratulations, Lord. You have successfully unlocked all the level 8 mechanical space Soldiers and obtained the authority to unlock level 9 mechanical space Soldiers.

[please acquire nine level-nine soul Tinders and 10000 origin points as soon as possible.]

Notifications popped up one after another.

I can’t unlock the level 9 mechanical interstellar Army now.

Jiang Li said.

continue to fuse the eighth-rank soul Tinders.

The 19,775 level-eight soul Tinders were fused into 1977 level-nine soul Tinders, leaving only five level-eight soul Tinders.

soul Tinder: five level-seven soul Tinders, five level-eight soul Tinders, 1977 level-nine soul Tinders, one level-ten soul Tinder.

“Very good,” he said.

it’s easy. Jiang Li smiled. since there’s no limit to the success rate of fusing soul Tinders, it’s easy to get high-level soul Tinders.

upgrade 11 stellar-level space war motherships from xjzzmj01 to xjzmj01.

Buzzzzzz!

After deducting 11 level 9 soul Tinders and 11 origin points, the 11 stellar-level space battle motherships were all upgraded to early level 9.

“Continue to advance.”

The light flickered.

A few seconds later.

The 11 stellar-level space carriers had all been upgraded to the peak of the type 9 realm.

among them.

Just a stellar-level space carrier alone required a total of 140 origin points to upgrade from the early stage of level 9 to the full stage of level 9.

11 ships would cost 1540 origin points.

The consumption was huge.

however ...

After the upgrade of 'xjzzmj01', the damage to the source 'was repaired, and the upper limit of the space Soldiers and space vessels was restored.

This was a good thing.

The information was displayed.

[space troop type: space carrier-antimatter energy source]

[rank: complete rank-nine]

[military rank: Marshal-planet level]

[No.: Xjmj01-FWZNY]

level 8 ultimate skills: mechanical intelligence, locked-on strike, space movement, interstellar combat, firepower cover, energy defense light shield

top-tier level 9 skills: top-tier level 9 interstellar Soldier research and manufacturing, top-tier level 9 interstellar battleship research and manufacturing, top-tier level 9 antimatter-powered interstellar obliteration cannon

[antimatter energy source: Pi Xiu (omitted)]

[machinery: Jian Jia (omitted)]

advancement requirements: one level-ten soul Tinder, 100 origin points ”

“Yes.”

Jiang Li finished reading all the information about the level-nine space carrier and smiled with satisfaction. level-nine is more than enough.

“i’m only a tenth rank away.”

Jiang Li took a deep breath. use a level-ten soul Tinder and 100 origin points to upgrade ‘xjmj01-FWZNY space carrier-antimatter energy source’ to the early stage of level ten.

Buzzzzzz! Buzzzzzz!

The level-ten soul Tinder emerged.

It was still 100 energy points.

They were all integrated into the Starship.

The light flickered.

After a few seconds, he completed his advancement and reached the early tenth level.

[interstellar troop type: super stellar space carrier-dark matter Energy]

[level: early tenth level]

[military rank: Marshal-stellar-level]

[No.: Cjxmj01-AWZNY]

” level 8 ultimate skills: mechanical intelligence, locked-on strike, space travel, interstellar combat, firepower cover, energy defense light shield

top-tier level 9 skill: top-tier level 9 antimatter-powered interstellar obliteration cannon

level 10 low-grade skills: level 10 low-grade dark matter drive, level 10 low-grade Galactic Soldier research and manufacturing, level 10 low-grade Galactic warship research and manufacturing.

[dark matter energy: a super stellar space carrier powered by ‘dark matter’. It has a destructive power that surpasses’ antimatter’. It is the Overlord of the Galaxy.]

[machinery: Jian Jia (omitted)]

advancement requirement: 2000 origin points ”

Soon after.

Jiang Li checked the number of origin points.

he was left with over 4100 points.

It was not enough to upgrade ‘cjxmj01-AWZNY’ to the peak of the tenth level.

Not to mention advancing to rank 11.

so,

Jiang Li used another 2000 origin points to upgrade ‘cjxmj01-AWZNY’ to the mid-stage of level ten and then closed all the interfaces.

“that’s enough.”

Jiang Li looked at the mechanical interstellar fleet around him. although my mechanical Army only has a hundred billion soldiers, the Supreme dynasty’s nineteen armies have more than ten trillion soldiers.

“The difference in military strength is a hundredfold.”

however, my mechanical Army is made up of Black Star Troopers, and the weakest one is at Level 7. Even if it’s a level 9 Army, he’s not afraid at all.

“Moreover ...”

10 perfected-stage level 9 space carriers are enough to produce 100 million level 9 Space Soldiers and 1 million level 9 space warships.

the only mid-tenth level super stellar space carrier can also produce 10 million tenth-level soldiers and 100000 stellar warships.

because the Super stellar space carriers are only at the ‘mid-tenth level’, it takes longer to build stellar soldiers and stellar warships, and they can only exist for a shorter time.

‘super god game Legion’, contact the interstellar space reconnaissance Warriors immediately.

Jiang Li said.

Buzzzzzz!

A virtual window popped up.

A second later.

Shua!

The communication screen appeared.

“Chief sovereign.”

commander Jiang. the interstellar space Scout saluted Jiang Li.

“xjkjzc01.”

can you tell me where the 19th Division is? ” Jiang Li asked.

“Sure.”

the interstellar space reconnaissance soldier replied.

After that.

A large amount of information and intelligence was immediately transmitted over.

“Whoosh!!!”

it could be seen.

A huge projection appeared in front of Jiang Li. It was the world map of the ‘six realm world’. From top to bottom, the bottom was the eighteenth level of the hell world, the ‘hell saber realm’.

After that.

It kept going up.

After the eighteen levels of hell, the twenty-seven levels of The Dark World, and the nine levels of the demon world, it was the 'human world'. Above the human world was the thirty-six levels of heaven, and finally, it was the seventy-two levels of the spirit world.

In other words ...

The 'six realm world' was like a stacked cake.

There were a total of one hundred and sixty-three levels.

On the map.

There were ten 'red dots' in total.

They represented the 19th Division's 10 great armies.

Currently.

There were already three red dots in the human realm.

This meant that three armies had already gathered in the human realm.

" we can't let the 19th division's 10 armies all gather together. otherwise, ten trillion soldiers are enough to set up a level 10 army formation. "

Jiang Li said in a deep voice.

the closest red dot is on the first level of the spirit world."

let's go to the first level of the spiritual realm. Jiang Li studied the world map carefully.

“All troops, move out!”

let’s go. Jiang Li waved his hand and led his mechanical Army to the first level of the spiritual realm.

Chapter 722 Victory

the next moment.

Jiang Li disappeared from where he was. The scene changed and he appeared in the control room of ‘cjxmj01-awzny’.

“chief sovereign.”

buzzzzzz! buzzzzzz!

Countless rays of light intertwined and formed a two-meter-tall figure. It was the ‘mechanical mind’ of the ‘super Starship’. It saluted Jiang Li.

“Yes.”

okay. Jiang Li nodded.

In the surroundings.

with the ‘super stellar-level space carrier’ as the center, the ones closest to the ‘super stellar-level space carrier’ were 10 ‘space carriers’ that were at the peak of the ninth-rank, followed by 990 ‘stellar-level space battle carriers’ that were at the peak of the eighth-rank.

At the outermost perimeter.

They were 100000 peak-stage type 7 ‘planetary state space Soldier research and development spaceships’.

“Rumble!”

the engine roared.

Shua! Shua!

The interstellar fleet opened the way.

They advanced at high speed.

they were flying at ‘sub-light speed’.

One had to know.

Jiang Li was currently in the ‘daluotian’ of the 36th level of the heaven realm, which was next to the ‘sui spirit realm’, the first level of the spirit realm.

Time passed.

jiang li led the ‘mechanical fleet’ to the passage between the first level of the spiriters ‘realm, the’ sui spirit realm’, and the ‘daluotian’, the 36th level of the heaven realm.

“Stop,” he said.

stop! Jiang Li shouted.

“Yes!”

The mechanical fleet stopped.

“spread out!”

let’s go back. Jiang Li ordered, ” this is the only way back to the ‘human world’.
Set up an ambush and wait for the 19th Division to come from the Sui Ling realm.

“Yes, sir!”

“.....”

Shua! Shua! Shua!

it could be seen.

The battleships and motherships quickly spread out and hid their tracks. Although ‘battleships’ and ‘motherships’ did not have ‘space stealth’, simple’ optical stealth ‘was still possible.

“Not bad.”

okay. Jiang Li nodded in satisfaction. He looked at the huge ‘tunnel’ in front of him, which was like a vast Whirlpool, and waited quietly on the sofa.

Half an hour later.

Buzzzzzz! wuwuwuwuwu!

The ‘passage’ that was like a vast Whirlpool started to change. It started to shake and create ripples. The spatial fluctuations were extremely clear.

“Prepare for a surprise attack.”

Jiang Li reacted and stood up quickly. Staring at the whirlpool portal, he waved his right hand and shouted, ” “The enemy is about to arrive.”

“Yes!”

“Yes, sir!”

“The ship’s door is open, hum hum ...”

Black Star Troopers, move out.

interstellar battleship unit, move out!

“.....”

Shua! Shua! “Whoosh!”

In an instant.

From the ‘vortex tunnel’, many floating battleships appeared. They were numerous and covered the array. In the blink of an eye, they covered the entire sky.

this army was the seventh army of the ‘19th legion’ of the no god dynasty.

“Target locked!”

“Antimatter-powered space annihilation cannon charging, Yingying”

“.....”

A series of notifications appeared.

...

Jiang Li looked closer.

At the center of the Army.

‘Marshal’s flagship’.

Inside the ship.

The commander of the seventh Army, ‘Sky Moon’, sat upright.

In the surroundings.

they were the marshals, deputy marshals, and generals of the seventh army.

There were quite a few of them.

“Lord Commander.”

General Chang Ling stood up and reported to Yue zhikong, ” “The seventh Army has arrived at the thirty-sixth level of heaven, daluotian. With our marching speed, we will be able to return to the ‘human realm’ safely in a day.

“Alright,” he said.

...

Yue zhikong nodded in satisfaction and asked, ” “marshal qiu, how many ‘weirdos’ did our seventh unit kill?”

report to the commander.

Marshal Qiu stood up. the seventh Army has been here for thirty-nine days. They've killed five hundred anomalies and obtained 'thirty world law origins'.

"Yes."

Yue zhikong nodded his head. with that, the mission is completed.

Obviously.

Although the Army of the Supreme dynasty had ruled and occupied the six-realm world, they couldn't change the 'game rules' of the six-realm world.

at most, he would find a 'loophole'.

so,

When the Supreme dynasty's Army killed the 'strange', the drop rate of the world law origin source 'was only about one-fifteenth.

of course.

Jiang Li was different.

After a series of updates and upgrades, the 'super mechanical Army' had invaded the 'game origin' of the 'six-realm world' and changed the 'game rules'.

It made Jiang Li's drop rate reach '100%'.

As long as he successfully killed the 'anomaly', he would be able to obtain the 'world law origin source'.

Finally ...

All the floating battleships of the seventh Army had left the passage and safely arrived at the 36th layer of heaven, 'daluotian'. They were ready to move on to the next passage.

[charging complete,]

[charging complete,]

“.....”

immediately after.

Jiang Li received countless notifications.

At the same time.

With the whirlpool portal as the center, Jiang Li's mechanical fleet surrounded the seventh Army and locked onto them.

It was fully charged.

now! Fire all of them!

let's go! Jiang Li waved his hand and gave an order.

BOOM! boom! BOOM!

An explosion sounded.

It was only for an instant.

More than 100000 battleships and space carriers exited from the 'optical invisibility' state. After they were all fully charged, beams of light pierced the sky.

It was as if space itself had been pierced.

Bang Bang Bang Bang!

In that instant.

countless fireworks exploded in the air. the seventh army was caught off guard by jiang li's mechanical fleet. the beam cannons pierced through the battleships of the seventh army.

The defense of the formation could not withstand it at all.

“ah!”

Countless screams rang out.

“rumble!”

The exploding battleships fell from the sky like meteorites. It was a tragic scene, and a large number of soldiers died.

buzzzzzz! Buzzzzzz! Buzzzzzz!

On the battlefield.

A large number of soul Tinders flew out and rushed to Jiang Li like a colorful flood. Jiang Li caught all of them.

Without the interference of the ‘will of the great universe’.

The number of soul Tinders that Jiang Li got had increased by more than ten times.

“Ah!”

BOOM!

There was a terrifying explosion.

The ‘super stellar-grade space carrier’ had finally finished charging and activated the ‘ninth-rank pinnacle-grade antimatter energy-powered space obliteration cannon’. The power of this cannon shot directly pierced through the 7th Army’s’ Marshal flagship’.

the planet-sized ‘marshal mainship’ exploded.

A furious roar was heard.

“Who is it?”

BOOM!

Yue zhihong soared into the sky amidst the flames. His power was vast and shook the sky. The power of laws permeated his body, as if he was burning.

“Enemy attack!”

“Prepare for battle!”

” kill!!! ”

“.....”

Buzzzzzz! Wuuwuwuwu!

Battle cries shook the heavens.

As expected of a fourth-tier dynasty, even though the seventh Army was just an ordinary Army, they were able to react in an extremely short amount of time.

It only took a second.

Roar! Roar! “Roar!”

Many level-eight battle formations were formed and they quickly launched a counterattack against Jiang Li’s mechanical fleet, but it was just a last-ditch struggle.

“Kill!”

Level 7 Black Star Trooper mechanical Army, charge!

“Charge!”

“Annihilate the enemy.”

“.....”

There were 100 billion Level 7 Black Star Troopers, 10 billion level 8 Black Star Troopers, 100 million level 9 Black Star Troopers, 100 million level 8 battleships, and a million level 9 battleships.

All of them were mobilized.

A frontal assault.

Kachaa! “Crack!”

“Ah!”

“Pfft!”

Blood splattered everywhere.

The corpses were all vaporized by the terrifyingly high temperature.

“rumble!”

The combined attacks of the level 9 Black Star Troopers and the level 9 battleships directly destroyed the level 8 formations.

“This Suan ni, this Suan ni”

“The enemy is too strong.”

“Ninth-rank! They’re all ninth-rank!”

“No!”

The soldiers wailed.

“Impossible! This is impossible!”

fear!

Yue zhikong and the others looked extremely frightened.

“Retreat! Retreat!”

“Hurry!”

“break through their encirclement!”

“How could this be? What had happened? Why is there such an unknown enemy in the six-realm world?”

“This is going to be a big problem!”

The marshals and generals of the seventh Army said in horror.

“Hurry up! Quickly think of a way to inform the other troops!”

Marshal Qiu roared.

super stellar space carriers, deploy ten million level 10 soldiers and 100000 level 10 battleships.

don’t let them have time to send messages to the other troops of the 19th Division,
” Jiang Li ordered.

“Yes!”

The mechanical intelligence replied.

After that.

Kachaa! Kachaa!

The door of the Super star system space carrier opened.

Tens of millions of level 10 soldiers and 100000 level 10 battleships were deployed. They flew across half the battlefield and surrounded Yue zhikong and the others.

“attack!”

The level 10 mechanical Army launched their attack.

“whoosh!”

Those were light beams that contained dark matter energy. ‘Dark matter energy’ was a weapon many times more powerful than ‘antimatter energy’.

“Kill!”

BOOM!

the grade 9 generals and generals of the 7th Army all shouted and unleashed their full strength. They charged forward and were pierced by the dark matter energy beams.

“Ah!”

Pfft! pfft!

Blood splattered everywhere.

The level 9 marshals and generals were turned into sieves by the dark matter energy beams.

It could be said that ...

he had no ability to resist.

it was only one round of attack.

The marshals and generals of the seventh Army were all annihilated.

There was a loud explosion.

Sky Moon was sent flying.

* Cough cough *

Yue zhikong spat out a mouthful of blood, and his face turned pale. A hole had appeared in his chest, and blood was flowing out from it. He was severely injured.

“Who are you?”

Yue zhikong raised his head and looked at the terrifying Warriors around him. He was filled with despair. who is it?!

“Attack!”

” kill him! ” jiang li ordered coldly.

BOOM! BOOM! BOOM!

The dark matter energy beam shot out and killed Yue zhikong. Yue zhikong was unable to fight back at all. His body was vaporized, and not even his bones were left.

Ten minutes later.

The war was over.

The seventh Army was completely annihilated, with no survivors.

At the same time.

jiang li got a lot of soul tinders.

“Clean up the battlefield.”

kill him! Jiang Li ordered again.

“Yes!”

The mechanical fleet responded to Jiang Li.

Chapter 723 The Rubik's Cube

an hour later.

The mechanical soldiers cleaned up the battlefield.

jiang li got a lot of resources, including many upper spiritual crystals, steel, dark iron, and other materials. he also got spiritual herbs and pills.

no matter what.

The seventh Army was the Army of the fourth class, 'the dynasty of no God'.

naturally, there were many resources.

The combat power of the Army was far greater than the armies of the Starfall Empire and the witch-praying Empire that Jiang Li had encountered before. Even if they were at the same level, there was still a huge difference in combat power.

Of course.

They encountered Jiang Li's mechanical Army.

No matter how strong the 'Seventh Army' was, they would be defeated and annihilated. In the end, they would become Jiang Li's food.

Of course.

What Jiang Li was most concerned about was the origin of the world's law.

"Chief sovereign."

Buzzzzzz!

The Super starship's mechanical intelligence bowed to Jiang Li and presented the 'world law origin' to him in a special container.

"this is what the stellar soldier found in the ruins of the enemy's 'marshal flagship'. it should be the 'world law origin' that you mentioned. please take a look, lord."

"yes."

okay. Jiang Li nodded and took it from the mechanical spirit.

he took a closer look.

The container looked like a 'Rubik's Cube' with unique symbols on each box. Jiang Li tried to open the 'Rubik's Cube', but he failed.

Obviously.

To open the 'Rubik's Cube', a password 'was needed.

[special item: Supreme Rubik's Cube]

[Type: Special]

[rarity: none]

[description: this is a 'Rubik's Cube' created by the 'atheless dynasty' Army with a unique encryption method. It is used to store extremely valuable items. Opening it by force will trigger a self-destruct device.]

Immediately after.

Jiang Li saw the message.

“A unique encryption method.”

world law origin? ” Jiang Li frowned. this is troublesome. It's not as easy as I thought to get the world law origin from the 17th Division.

Shua!

[master,'interstellar space reconnaissance warrior' requesting communication.]

A notification appeared.

“Answer.”

Jiang Li said.

“Yes!”

Buzzzzzz!

The communication projection screen appeared.

“Chief sovereign.”

The interstellar space reconnaissance warrior saluted Jiang Li and quickly reported,
” the 17th Division’s first to 5th Division have all returned to the human world.

furthermore, the various armies have already received news from the ‘Seventh Army’.

“Yes.”

Jiang Li nodded and wasn’t too surprised. I already know. Now, I’ll give you another mission. Find a way to find the password to the ‘Supreme Rubik’s Cube’.

“Yes.”

The interstellar space reconnaissance warrior immediately replied.

Soon after.

the communication was shut down.

Jiang Li received new information from the interstellar space reconnaissance Warriors. They remarked the locations of all the troops.

“Let’s go.”

let’s go to the ninth heaven of the heaven realm,” Jiang Li said.

After an hour.

They arrived at their destination.

however, jiang li didn't find any traces of the army of the dynasty in the 'bright sky'. he asked the black star troopers to spread out but they still couldn't find them.

...

"Has he already left?"

Jiang Li said in a deep voice.

Obviously.

all the troops of the 17th division had received the message from 'yue zhikong', the commander of the seventh division. they knew the strength of jiang li's mechanical army.

so,

He rushed back to the human world as fast as he could.

A day later.

at the center of the human realm.

There was an extremely huge 'towering sky peak'.

In reality.

The towering sky peak was the 'ancestral bloodline' of the 'human world' and the main pillar of the 'six realm world'. It was an extremely important place. In the past, only the most distinguished creatures could enter the 'towering sky peak'.

...

clouds and mist lingered.

It seemed to connect heaven and earth.

it was difficult to describe its vastness and magnificence.

Buzzzzzz! Buzzzzzz! “Whoosh!!!”

He looked closer.

With the ‘towering sky peak’ as the center, there were countless ‘floating battleships’ in the surroundings. Their sizes varied, with the small ones like Hills and the big ones like stars.

BOOM! BOOM! BOOM!

This was the roar of the engine.

It was like thunder.

in the dark fog.

One after another, huge battleships appeared.

They formed a huge fleet of warships.

Obviously.

Jiang Li’s mechanical fleet had arrived.

“They’re finally here.”

Towering sky peak.

The commander of the 17th Division, Yang Di.

Looking ahead, he could see the huge battleships clearly through the dark fog.

His expression was calm.

He was calm.

In reality.

In the span of one day.

Jiang Li passed by the human world and went to the demon realm, the dark realm, and the hell realm, but he didn't find any other troops of the 17th Division.

However ...

Jiang Li, on the other hand, killed a few.

He had obtained five more 'world law origins'.

Just an hour ago.

'Interstellar space reconnaissance Warriors' contacted Jiang Li and reported the situation. The nine troops of the 17th Division had all gathered.

Furthermore ...

The 17th Division's generals were extremely cautious about the password of the 'Supreme Rubik's Cube', causing the 'interstellar space reconnaissance Warriors' to be unable to find out the password.

Jiang Li felt it was a pity.

The nine armies had all gathered, so Jiang Li had to go to the human world to fight the final battle with the 17th Division. This battle was unavoidable.

“Set up the formation!”

yang di ke waved his right hand and quickly gave the order.

“Yes!”

“Yes, sir!”

“Formation, activate!”

“.....”

behind yang di ke stood 20000 deputy commanders.

In the surroundings.

They were the nine commanders-in-chief of the nine armies.

After that.

They were the Deputy marshals, generals, and so on. There were many of them, and even the weakest of them was a type 9 powerhouse.

Buzzzzzz! Buzzzzzz! Wuwuwuwu!

The nine marshals of the nine great armies responded to Emperor Yang. Endless military Qi gathered and formed a vast energy fluctuation.

Within a short period of time.

He had already set up nine Grade 9 Army formations.

At the same time.

Jiang Li's 'mechanical fleet' had also arrived. They locked onto the many floating battleships around towering sky peak and were all charged.

“Fire!”

Jiang Li waved his hand.

boom! BOOM! BOOM!

An explosion sounded.

It could be seen.

the terrifying beams of light contained immense power, but they were all blocked by the nine Grade 9 formations.

pfft! Pfft!

Only a small number of soldiers vomited blood.

There were very few casualties.

The 17th Division's strength was evident.

BOOM!

The annihilation beam cannon of the ‘super stellar space carrier’ shot over. The vast annihilation beam cannon contained unparalleled power, and it was difficult to describe its power.

Kachaa! Kachaa!

Because the six-realm world was on the verge of collapse, it couldn’t withstand the power of the obliteration cannon, which caused the surrounding space to collapse.

“Tenth-ranked!”

Yang dike’s expression froze. the information from Yue zhikong is true!

“Sky sun fist!”

BOOM!

Emperor Yang made his move. He clenched his right hand into a fist and punched out directly. True yang laws interwove together and formed a pure golden Flaming Fist print.

Bang Bang Bang Bang!

The two sides collided.

Yang dike’s punch hit the annihilation cannon of the ‘super Starship’ and energy exploded, forming a vast storm.

Kachaa! Kachaa!

The towering sky peak was actually collapsing.

It was a probing attack.

The two sides were tied.

The war broke out.

Jiang Li's interstellar soldiers and interstellar battleships charged into the 17th Division's battle formation and started fighting.

“Seventh rank! They're all tier 7!”

“There's still level 8!”

“How can there be so many powerhouses of the ninth step?”

“This Suan ni, this Suan ni”

Countless people were shocked.

His expression was one of fear.

Pfft! Pfft! Pfft!

blood splattered everywhere.

A large number of soldiers fell, and their bodies fell from the sky. There were also many Black Star Troopers and black Star Troopers that were destroyed.

However ...

After the Black Star Troopers and battleships were destroyed.

They would immediately be replenished.

“He won’t die?”

“No! It’s impossible to be undying!”

“.....”

The 17th Division’s generals discussed among themselves, and their gazes quickly turned to the planetary state space troopers “research and space carriers.

He quickly reacted.

the battleships behind are the main ones!

“destroy them!”

“Kill!”

BOOM! BOOM! BOOM!

Hence.

The nine armies ignored the deaths and injuries as they fought against the mechanical Army of the Black Star Troopers and the mechanical Army of the interstellar battleships. Their target was the research and space carrier of the planetary state Black Star Troopers.

Galactic soldiers, Galactic warships, move out.

jiang li said.

“Yes.”

Shua! Shua! Shua!

The doors of the Super Starship opened, and tens of millions of soldiers and 100000 starships swarmed out, forming an extremely powerful mechanical Army.

They charged.

kill!!!

The level 10 mechanical Army showed its power and charged into the battlefield. It even tore apart a level 9 formation and destroyed the formation space.

“!!!”

Yang Emperor Yi’s pupils contracted and he shouted, ” ” set up the formation immediately. combine all nine formations into one! ”

“Yes!”

“Yes, sir!”

“.....”

The soldiers responded loudly.

buzzzzzz! Buzzzzzz! Wuwuwuwuwu!

Hence.

The stage 9 military formation that had already been destroyed was set up again. Nine stage 9 military formations combined together, and the nine layers of military formation space fused into one, causing nomological patterns to appear in the military formation space.

The scene was shocking.

it was like a world of its own.

“Grade 10 army formation!”

Emperor Yang released an endless amount of energy. The laws interweaved and the power was monstrous. The space around him started to crack.

Obviously.

There were only nine trillion soldiers in the 17th Division, one trillion away from the ten trillion needed to set up a tenth grade Army. Therefore, yang Emperor Xun used himself as the eye of the formation and forcibly set up the tenth grade army formation.

This way ...

even though the grade 10 battle formation had been set up, yang emperor xun would face immense pressure and backlash.

Of course.

As long as yang Emperor Yi could withstand it, his combat power would have a huge leap and increase under the enhancement of the tenth grade army formation.

“True yang world!”

BOOM!

yang emperor yi roared towards the sky. the grade 10 military formation had been successfully set up. the military formation formed a world, and the ‘true yang laws’ appeared.

“True yang fist!”

Yang Thearch Yi roared and punched out with both his fists. Two majestic Suns appeared and were filled with endless nomological laws. It was as if he had transformed into a body of laws.

“Kill!”

bang bang bang bang!

After this punch was thrown, it produced a power that could destroy everything. Wherever it passed, everything was destroyed and turned into ashes. All the level 10 Galactic soldiers and battleships were destroyed.

“Die!”

Shua!

After Emperor Yang’s power increased, he became more confident. He stared at Jiang Li and used space teleportation to cross the battlefield and rush to Jiang Li.

“Lord mode, activate.”

jiang li looked at emperor yang and activated the new ability of the ‘super god game legion’.

Chapter 724 The ruler

Jiang Li closed his eyes and slowly opened his hands. His body seemed to be covered in a layer of light.

this was an indescribable power that had been transformed by the consumption of the origin point.

with the help of the ‘super god game legion’, the power connected jiang li with all the meches he had created.

Buzzzzzz! Buzzzzzz! “Whoosh!!!”

After that.

all the mech soldiers created by the ‘super mech army’ came one after another and were under jiang li’s control.

[ruler’s Machinery]

It formed an extremely strange fluctuation.

The most important thing was ...

This power that descended had directly crossed the boundary of time and space and the world.

The barriers of time and space and the world could not stop it.

“Evil god domain.”

BOOM!

evil god domain! Jiang Li opened his eyes quickly. His eyes looked a little evil. The power of the evil mechanical God had come and was controlled by Jiang Li. He instantly used the evil god domain and it quickly expanded.

It could be seen.

The 'evil god domain' seemed to be invisible, but it actually existed and could form a space of its own.

"This is a Kasaya."

Yang Emperor Yi's pupils contracted slightly because he could clearly feel the strange 'evil god aura', which made him feel a sense of fear.

"BOOM!"

The next moment.

Emperor Yang's 'true yang fist' landed. It was fused with the power of the 'Grade 10 military formation'. The law of true yang interweaved, and naturally, it produced an extremely terrifying power.

The nomological fist print destroyed everything.

Kachaa! Crack! Crack!

In an instant.

Countless cracks appeared on Jiang Li's 'evil god domain'. The power of the 'evil mechanical God' alone couldn't stop the attack of Emperor Yang.

"Die!"

Yang dike's expression was cold and filled with killing intent. After destroying the 'evil god domain', he charged at Jiang Li with the law of true yang.

"true yang sword!"

Clang!

The sound of a sword.

In an instant, a sword of laws was formed.

The sword was drawn.

It was as if the sky had been split open.

it contained a powerful might.

“Ruler’s domain!”

BOOM!

Finally ...

The power of countless mechanical soldiers descended.

The evil mechanical God, the stellar space carriers, the starships, the battleships, the mechanical Army on the ‘giant spirit planet’ in the ‘great universe world’, and the mechanical Army in the ‘Super Fantasy world ‘in the Holy peace state.

All the power.

it was all on jiang li.

He had transformed into the ‘ruler’s domain’.

In the surroundings.

In the space of the ‘ruler’s domain’, there were many meches, battleships, motherships, nuclear meches, missile meches, and so on.

they formed a huge mechanical army.

they surrounded and protected jiang li.

At this moment.

It was as if Jiang Li had turned into a real ‘mechanical Lord’.

Its might was monstrous.

Unparalleled Majesty.

Buzzzzzz! Wuwuwuwuwu!

at the same time.

jiang li’s forehead.

...

The position of an Emperor appeared.

With the addition of the ‘ruler’s domain’, he had become even more powerful.

Shua! Shua! “Whoosh!”

He took a closer look.

Countless streams of data appeared around Jiang Li. They gathered together and formed a chain of data.

It wrapped around his entire body.

It was like the 'laws of machinery'.

At this very moment.

Jiang Li felt the power in his body. It seemed endless, as if it could split the world and was invincible.

furthermore ...

Jiang Li closed his eyes and could feel the power of trillions of mechanical soldiers around him. They were truly powerful.

...

“!!!”

Yang Emperor Ke was shocked. The 'ruler's domain' had enveloped him, but he had the protection of the level 10 military formation 'true sun world', which resisted the suppression of the 'ruler's domain'.

but ...

This extremely powerful force and aura made Yang Emperor Yi feel an extremely terrifying threat.

kill!!!

Without any hesitation.

Yang Thearch Ke sped up and teleported to Jiang Li using spatial techniques. He was in front of Jiang Li in the next moment.

The sword of true yang pierced out.

“A mechanical cannon!”

Jiang Li raised his right hand. Countless streams of data gathered around his right arm and formed a huge hand cannon.

“BOOM!”

there was a loud explosion.

let’s go! Jiang Li fired his cannon. The moment he fired, countless shadows appeared behind him. All the meches with energy beams appeared.

galaxy motherships, interstellar battleships, interstellar motherships, laser meches, super ares-class soldiers, super energy soldiers, and so on.

they were launched at the same time.

In other words ...

after jiang li turned into the mechanical lord, the power of the ‘cannon’ was the combination of all the meches.

It was a beam of light that looked like a stream of data.

Bang!

It clashed with the true yang sword.

this was a clash between the laws. the chain-like streams of data were constantly cracking, and the true yang sword was also covered in dense cracks.

It continued to spread.

in the end.

There was an earth-shattering explosion.

The true yang sword shattered.

The remaining power of the ‘mechanical cannon’ landed on yang dike’s body, but it was blocked by the defense of the ‘level 10 military formation’. Yang dike was sent flying.

He quickly stabilized his body.

“Ah!”

Many soldiers of the 17th Division screamed in pain. They were suffering from the backlash of the ‘Grade 10 battle formation’. Many of them bled from their seven orifices and fell to the ground dead.

how can he be so strong?!

yang dike’s pupils contracted and he stared at jiang li. seeing the ‘data stream’ that was like a chain around jiang li, he said, ” “What’s this ‘law’? Why was it so strange? Difficult to see through?”

In reality.

The chain-like ‘data flow’ on Jiang Li’s body wasn’t a ‘law’. It was more like a powerful force that had never been seen before.

It could be called the law of machinery!

At this moment.

On the battlefield.

The situation had changed quite a bit.

The '17th Legion' borrowed the power of the 'Grade 10 army formation' to withstand the bombardment and artillery fire. They wanted to close the distance and destroy the main bodies of the 'warships' and 'motherships'.

At the same time.

The 'mechanical Army' took the initiative to attack.

Since yang dike had been stopped by Jiang Li, the '17th Division' no longer had a level-ten combat power. Therefore, the troops led by the level-ten 'galactic warriors' and 'Galactic warships' rushed into the 'level-ten army formation'.

Bang Bang Bang Bang!

countless explosions were heard.

“Ah!”

“BOOM!”

There were screams, roars, and more.

Countless sounds were mixed together.

It formed the prelude to a war of blood and fire.

The battlefield was like a meat grinder.

Such a terrifying war was countless times more terrifying than a meat grinder.

At this moment.

The battle between Jiang Li's mechanical Army and the 17th Division was getting more and more intense. Countless soldiers were fighting against each other. The floating battleships grouped together to kill the Black Star Troopers.

it had already entered a state of white heat in an extremely short time.

'grade 10 army formation-true sun world'.

The laws of true yang gathered.

It formed countless flames of true yang.

The flames transformed into a human figure.

Like an unconscious soldier fighting against a level 10 'stellar soldier' and a level 10 'stellar warship', the level 10 army formation blocked the Super stellar space carrier.

"A mechanical knife!"

Shua!

At this moment.

attack! Jiang Li attacked first. He waved his right hand and data gathered in his palm, forming a long blade.

It existed between illusion and reality.

"Slash!"

Jiang Li was expressionless and his eyes were cold. It was as if he didn't have any feelings. He had become the Supreme ruler of the world.

After that.

die! Jiang Li slashed forward.

Shua!

The saber radiance was like a waterfall and a Galaxy. It was bright and beautiful, like countless stars decorating it. It turned into a huge Galaxy of saber radiance and slashed at Yangdi ke.

The moment the blade was slashed out.

Wherever the blade ray passed.

Countless mechanical soldiers appeared.

The scene was vast.

It was difficult to describe its infinite power.

“a dragon of national fortune!”

Yang Emperor ke retreated quickly. With a thought, the mark of a blue flood Dragon appeared between his brows. The flood Dragon had five claws, which was the ‘five-clawed flood Dragon’.

Obviously.

Yang di ke was one of the Kings of the ‘no God dynasty’.

Has the ‘five-clawed flood Dragon Mark’.

roar! “Roar!”

The flood Dragon’s Roar resounded through the sky.

Yang dike summoned his protective flood Dragon. The huge and vast five-clawed flood Dragon was formed by the fate of the Empire.

It possessed great power.

The most important thing was ...

This ‘five-clawed flood Dragon’ was actually a hundred million meters long. It was even more magnificent than the stars as it hovered above the Yang Emperor armor.

The Dragon’s might was vast.

One had to know.

Jiang Li’s Azure Dragon was only 300000 meters long, while yangdike’s five-clawed flood Dragon was 300 to 400 times longer.

“Flood Dragon protection!”

Buzzzzzz!

Yang dike quickly activated the cultivation technique of the National aura and his body was shrouded in the blue National Aura Mist. The five-clawed flood Dragon, which was more than 100 million meters long, turned into a Dragon-shaped light and merged into his body.

BOOM!

Yang dike's body trembled.

His aura continued to rise.

"It's not over yet."

"The Empire's sacred weapon of National fortune-the Marquis seal!" Yang dike shouted.

Shua!

He opened his right hand and a blue jade seal appeared in his palm. There was a lifelike five-clawed flood Dragon carved on it.

"qingyang sword!"

Clang!

The Marchioness-royal seal's appearance changed. With the blessing of the Empire's fate, it transformed into a blue long sword that was intertwined with the laws of true yang.

"Slash!"

The sword radiance interweaved and turned into a huge sword Dragon. It roared and pounced forward.

in an instant.

The true yang sword and the mechanical blade clashed.

The clash of laws and the collision of swords created waves of energy ripples that contained destructive power. They shattered the space like a mirror.

“Ah!”

Yang dike screamed and flew backward.

Bang Bang Bang Bang!

On the other hand, Jiang Li.

Countless mechanical soldiers appeared in front of Jiang Li, blocking all the aftershock and power. Jiang Li stood still, unharmed.

“Kill!”

boom! BOOM! BOOM!

jiang li formed another mechanical knife with his left hand. he held the knife with both hands and launched a frontal attack at yang dike.

kill!!!

Yang di ke steadied his body fearlessly. After he raised his head, he roared and attacked.

Chapter 725 Intense battle

BOOM! BOOM! BOOM!

On the battlefield.

die! Jiang Li and yang sovereign ke fought fiercely. Countless blades and laws collided, tearing the sky apart. The entire 'human world' was shaking.

At this moment.

the fierce battle between the two sides had almost turned half of the 'human world' into their battlefield. countless broken blade auras and sword auras split the earth and the sky.

The world trembled.

On the other side.

This was because the aftermath of the battle between the 'mechanical Army' and the '17th Army' had already affected the entire 'human world'. The commotion and fluctuations caused by it had attracted many strange things.

In the East.

It was a misty and unparalleled immortal Palace surrounded by clouds and mist. It was as if countless Immortals and fairies could be seen there.

the 'divine palace' was floating toward the 'towering sky peak'.

In the West.

Buzzzzzz! Buzzzzzz! "Whoosh!!!"

Deep within the pitch-black mist, there was an extremely deep blood-red color. The deep blood-red color and the strange black color intertwined, forming a terrifying black-red color.

It was like hell, like a ghost's domain.

In the middle.

There seemed to be a huge throne made of countless white bones. However, there was only one empty space on the white bone throne.

The strange ‘white bone throne’.

in the south.

he looked closer.

It was a hunchbacked old man with white hair and a Haggard face. His face was full of wrinkles, and age spots could be clearly seen on the back of his hands.

He was carrying a basket woven from bamboo.

his footsteps seemed to be very slow.

he even staggered a little as he moved forward on the rough road.

However ...

He took a closer look.

inside the basket was a head full of white hair. the hair was very long and there was no blood. it was obviously the head of an old woman.

“My dear wife, hold on for a little longer. You’ll be able to find your body soon.”

The hunchbacked old man said in a gentle voice.

shua!

Suddenly.

The eyes of the old woman's head opened.

It was as red as blood.

Roar! "Roar!"

The old woman's head let out a beast-like roar.

The hunchbacked old man gently consoled the old woman's head, calming it down.

"We're almost there,"

Shua!

The hunchbacked old man looked at towering sky peak and took a step forward. His figure disappeared into space and he teleported away.

The strange old man.

Finally.

In the North.

Only a 'demonic sword' flew over, crossing the void. The sword had human features, and pitch-black demonic Qi was rising around it.

"I want to find a true master who can use me!"

The demonic sword was roaring.

The strange 'Demon Sword'.

These four were strange.

It was not born in the 'human world'.

Instead, they crossed the passages from the other five realms and came to the 'human realm'. All of them were powerful and strange beyond words, almost unsolvable.

At this moment.

Towering sky Peak's battlefield.

* Cough cough *

you ... yang Thearch ke coughed up blood and had wounds on his body. He stared at Jiang Li coldly. Yang Thearch Xun was at a disadvantage in the battle just now.

...

"I didn't expect you to force me to this extent."

Yang di ke said in a deep voice.

"However,"

"Do you really think that's all I've prepared?" ke continued. I've already reported everything that happened in the six realm world."

"If nothing unexpected happens."

" soon, several marquis kings will come to the six realm world. "

“At that time, you will die without a doubt.”

Yang Emperor ke roared.

“The Empire’s National fortune Saint artifact!”

Buzzzzzz! Buzzzzzz!

after jiang li turned into the ‘mechanical lord’, he had almost reached a state of absolute rationality. yang dike’s words couldn’t move jiang li at all.

...

He waved his right hand.

they were three dragon-level sacred artifacts of the empire.

Obviously.

Because the great Xia Empire’s fate energy had increased tremendously twice, the ‘sacred artifact of the Empire’ had been upgraded under the nourishment of the great Xia Empire’s fate energy.

From one dragon-level to three Dragon-level.

Naturally, its power had increased by quite a bit.

“The Empire’s sacred artifact of National fortune.”

Yang Emperor ke’s tone was cold. He was not surprised, as if he had expected this. He asked in a deep voice, ” and there are three of them, but they are only three Dragon-grade.

“Who the hell are you? What was his background? What is his identity?”

how did I get into the ‘six realm world’? ”

“Tell me the truth now. Otherwise, when the other Marquis Kings arrive, you’ll die without a burial place.”

shut up! yang Emperor ke shouted coldly.

“Condense.”

Buzzzzzz!

Jiang Li remained unmoved. The three sacred weapons of the dynasty merged into his body and increased his power.

“Azure Emperor Art!”

roar!

” let’s go. ” jiang li activated his technique. the fortune of the dynasty rose and mist filled the air. the azure dragon of xia, only three hundred thousand meters long, appeared and roared.

At the center of his eyebrows.

The mark of the ‘position of the Emperor’ became clearer and clearer.

the true dragon appeared.

“You’re so silly!”

Yang Emperor ke's eyes widened. His calm expression was suddenly filled with shock and astonishment. He stood rooted to the ground and stared at the great Xia Dynasty's Azure Dragon.

They were dumbfounded!

yang dike was indeed dumbfounded.

He had many guesses, but he didn't expect Jiang Li to be the 'Emperor of the human race' and have the protection of the Imperial dynasty's true dragon.

Shocking!

Yang Emperor ke was extremely shocked.

"Human Emperor, you're actually the human Emperor Zhuanxu!"

Yang Emperor ke shouted.

"Hahahahaha!"

Immediately after.

Yang dike laughed out loud. His shock turned into excitement and he could not suppress his joy. I didn't expect this. I really didn't expect this.

I can't believe I met the human Emperor in the 'six realm world'!

however, your Emperor dynasty true dragon is only 300000 meters long, while my Supreme wyrmdragon is hundreds of millions of meters long.

Roar!

As soon as he finished speaking.

It was a huge dragon head that emerged from the top of Yangdi ke's head and stared at the Azure Dragon of great Xia.

It revealed a greedy desire to devour.

There was a saying that the Kings and nobles would rather have balls.

Flood Dragons could also devour true dragons.

“kill!”

He really didn't want to wait for the other Marquises to arrive. He wanted to kill Jiang Li himself and devour the true dragon.

“Melt!”

Buzzzzzz!

Azure Dragon! Jiang Li used all his strength and activated his techniques. The Azure Dragon turned into a Dragon-shaped light and merged into Jiang Li's body, increasing his strength.

Immediately after.

the laws of the emperor dao intertwined.

“The mountains and rivers, Sheji.”

I'll take a look. Jiang Li opened his hands and the law spread out. Behind him, a huge scroll of mountains and rivers was woven with the law of the Emperor path.

Shua!

Jiang Li waved his right hand and countless mechanical soldiers appeared. They gathered together like a river of Stars and charged at yang dike.

“!!!”

Yang Emperor ke was shocked. He slashed out his true yang sword and collided with the sword.

“BOOM!”

There was a loud explosion.

The sword radiance shattered, and the Galaxy exploded.

“Ah!”

Yang dike exclaimed and was sent flying.

the sword of the mechanical Lord!

Buzzzzzz! Buzzzzzz! Buzzzzzz!

the next moment.

Jiang Li raised his hands. The power of the sovereign Dao laws, Jiang Li's own cultivation, and countless data streams gathered. All kinds of powers merged into one.

The power of the 'mechanical Lord' was the main force.

gradually.

sword hilt, sword body, sword blade

All of them condensed.

all of the power condensed into a ‘sword of the mechanical lord’.

The sword was huge.

it was like a star of the universe.

He took a closer look.

The interior of the mechanical sovereign’s sword seemed to be made up of countless mechanical soldiers, and there were countless data chains, Emperor path laws, and National fate power wrapped around it.

“!!!”

Fear!

Extreme fear appeared on his face!

“Retreat!”

Shua!

Without the slightest hesitation.

Yang Emperor ke quickly retreated, wanting to teleport away.

However ...

The power of the 'ruler's domain' was fully unleashed at this moment. It locked the space and made it impossible for him to escape.

it was a world of its own.

Not only that.

The 'ruler's domain' had even blocked the power of the 'level 10 military formation-true sun World'.

“Slash!”

” mechanical sword! ” jiang li swung his sword. the powerful 'mechanical sword' locked onto yang dike and released supreme power. it combined with the 'ruler's domain' and locked the space.

“No!”

Yang dike felt the danger of death.

“Not good!”

“Go and help commander yang!”

“Hurry up!”

“.....”

The generals roared.

At the same time.

He controlled the 'Grade 10 military formation-true yang world' and used almost all of his power to assist yang dike. Endless true yang laws spread over.

BOOM! BOOM! BOOM!

The 'super stellar space carrier' led the 'stellar soldiers' and 'stellar warships', forming an invincible' level 10 mechanical Army', charging around on the battlefield.

"Ah!"

Pfft! Pfft! Pfff!

"rumble!"

Tens of millions of attacks were blocked by the 17th Division, causing countless explosions and screams. They seized the opportunity and slaughtered hundreds of millions of soldiers.

"Supreme true yang sword!"

Yang Emperor ke used all his strength and combined all his power to unleash his strongest attack. The power of the true yang laws had reached an extremely powerful level.

Bang!

Kachaa! Kachaa!

After that.

The 'sword of the mechanical Lord' and the 'Supreme true yang sword' clashed, creating a storm of energy that spread out like ripples.

The space crumbled.

Countless cracks appeared.

The towering sky peak trembled violently. The main peak, which reached straight into the sky, trembled and trembled. It was covered in cracks and finally couldn't withstand the aftermath of the battle and collapsed.

it was just like the collapse of the 'buzhou mountain' in the legends.

The main pillar collapsed.

Naturally, the world would be destroyed and the sky would tilt.

It accelerated the speed of destruction.

“ah!”

Pfft! pfft! “Pfft!”

Yang di ke was screaming in pain. The Supreme true yang sword was breaking, and the shards hit him, leaving holes in his body.

Fresh blood spurted out.

” block it!!! ”

Yang di ke roared and used all his strength to block the sword of the mechanical Lord.

BOOM!

In the end.

with a loud explosion that was enough to shake the entire ‘mortal world’, the supreme true yang sword ‘broke and then exploded, just like the destruction of the sun.

it was extremely dazzling.

And in the endless white light.

Jiang Li’s ‘sword of the mechanical Dominator’ continued to fall. The ‘Dominator’s domain suppressed the’ true sun World ‘while the’ sword of the mechanical Dominator ‘broke the defense of the’ true sun World’.

Bang!

the sword hit yang dike’s head.

Chapter 726

“no!”

Yang dike roared.

“Roar!”

The next moment.

The five-clawed flood Dragon rushed out of his body and roared with endless power.

It crashed into the ‘mechanical Lord’s sword’.

BOOM!

There was a loud explosion.

The five-clawed flood Dragon was directly split into pieces, exploding like a firework. Light shot out in all directions, extremely gorgeous, and had a kind of peerless beauty.

“Pfft!”

blood splattered everywhere.

Yang dike’s head exploded. The ‘mechanical Lord’s sword’ smashed his head from the front, and blood splattered everywhere.

Bang Bang Bang Bang!

After that.

Yang dike’s body couldn’t withstand the power of the ‘mechanical Lord’s sword’. It was like a heavy hammer crushing tofu.

In the end.

before he could even scream, he was killed by jiang li.

“Lord Commander!”

“No!”

“It’s over, Yingluo, it’s all over, Yingluo.”

“Ah!”

“.....”

Countless screams rang out.

They were terrified.

The grade 10 formation of the 17th Division, the true sun World, lost its core with the death of yang dike and completely collapsed.

Peng Peng Peng!

Instantly.

One by one, the soldiers were unable to withstand the backlash from the formation, and their bodies exploded like balloons.

Blood and flesh flew everywhere.

The scene was extremely tragic.

There were countless deaths and injuries.

“Attack!”

“beam cannon! Fire! Fire!”

“.....”

BOOM! BOOM! BOOM!

The true sun World shattered and lost the power of the 'level 10 army formation'. The 17th Division could no longer stop Jiang Li's mechanical Army.

he was completely suppressed.

Countless energy cannons and nuclear bombs landed in the midst of the enemy forces and exploded, killing a large number of soldiers. The beams of light pierced through many of the battleships.

“Kill!”

The next moment.

The 'super stellar space carrier' led the 'level 10 Galactic soldier unit' and 'level 10 Galactic battleship unit', forming an extremely powerful 'level 10 mechanical Army', and charged into the center of the battlefield.

A brutal massacre was carried out.

Pfft! Pfft! Pfff!

The blood that filled the sky splashed like ink and gathered into a River. However, it was evaporated by the terrifying and hot energy ripples, turning into a bloody mist.

Exiting 'Dominator mode'.

jiang li said.

After that.

The chain-like data stream on Jiang Li's body disappeared quickly. The 'ruler's domain' also disappeared at the same time. Jiang Li's aura returned to normal.

“hu ~~ hu ~ hu ~”

Jiang Li sighed and said,” that feeling just now was indeed ‘Dominator mode’. It was simply powerful to the extreme.

“He’s almost invincible among tenth level.”

Shua!

[this time ,’Dominator mode ‘has been activated for a total of 68 seconds, and 68 energy points have been consumed.]

...

A notification appeared.

it was only activated for slightly more than a minute.

yes, ” Jiang Li said. I took care of yang di ke.

“Whoosh!!!”

Immediately after.

Ten-colored light appeared and gathered together, forming a ten-colored light spot. It quickly flew to Jiang Li and merged into his body.

[acquired a tenth-tier soul tinder.]

“Not bad.”

Jiang Li was very satisfied.

“Azure Emperor Art.”

let's go. Jiang Li activated his cultivation technique.

...

Roar!

A Dragon's Roar resounded.

The Xia Azure Dragon rushed out of Jiang Li's body and roared as it circled in the sky. Jiang Li controlled the Dragon and opened its huge mouth.

It began to devour the fate of the Empire.

Buzzzzzz! Buzzzzzz! Wuwuwuwuwu!

In the surroundings.

after the five-clawed flood dragon's explosion, the fate of the empire formed a torrent that surged towards the great xia azure dragon. the mouth of the great xia azure dragon was like a black hole.

It was constantly devouring the fate of the Empire of the five-clawed flood Dragon.

The Dragon's body was growing at a rapid speed.

310,000 meters-400000 meters-600000 meters

In addition.

On the battlefield.

Countless soul Tinders kept appearing. They were so dense that it was hard to count. The 100% drop rate increased the number of soul Tinders Jiang Li caught by ten times.

It formed a colorful torrent and rushed toward Jiang Li.

Time passed.

Jiang Li's mechanical fleet and mechanical Army surrounded the 17th Division. The 17th Division didn't even have a chance to escape.

They formed an absolutely crushing posture.

Countless soldiers died.

They all became resources for Jiang Li's growth.

Ten minutes later.

the '17th army' had been completely annihilated. under the crazy bombardment of the mechanical army, all nine trillion soldiers had died, turning into incomplete corpses.

"Chief sovereign."

Shua!

At this moment.

The 'interstellar space reconnaissance soldier' appeared. In his hand was an extremely disheveled middle-aged man. It was the commander of the 10th Army of the 17th Division, 'Moke'.

"Yes."

okay. Jiang Li nodded.

“Kneel down!”

The interstellar space Scout soldier pressed Moke’s back hard and forced Moke to kneel in front of Jiang Li. The interstellar space Scout soldier saluted Jiang Li again. my Lord, this man is ‘Moke’, the commander of the 10th Army of the 17th Division. He definitely knows the ‘Rubik’s Cube password’.

“Don’t even think about it!”

Moke raised his head and glared at Jiang Li. “you actually dared to annihilate the 17th division! the supreme dynasty will not let you off, and his majesty will not let you off either! you’ll definitely die!”

Pfft!

Jiang Li waved his right hand and his energy turned into a sword. He cut off Moke’s left arm from the shoulder. Blood gushed out like a fountain.

“Ah!”

Moke screamed in pain.

“You Yingluo, you bastard Yingluo!”

Pfft!

Jiang Li cut Moke’s right arm off from his shoulder. Blood gushed out again. Moke cried out in pain.

“Lines of data!”

buzzzzzz! Buzzzzzz!

jiang li reached out his right hand and opened his fingers. there were data streams made of numbers '0' and '1'. they formed a network and covered moke.

Pfft! pfft! "pfft!"

"Ah!"

After that.

The lines of 'lines of data' were like extremely sharp little knives, cutting open wounds on Moke's body, and blood oozed out.

The most important thing was ...

The 'lines of data' was not only causing damage to Moke's body, but it was also cutting Moke's soul.

"Ah!"

moke let out an incomparably shrill scream. he rolled around in the air in pain, and tears of blood even flowed from his eyes. his entire body was covered in blood.

I'll tell you, I'll tell you. Please, I beg you, give me a quick death, give me a quick death!

moke screamed.

Buzzzzzz!

Jiang Li quickly stopped and the lines of data stopped. Moke had a chance to catch his breath and the pain all over his body subsided like a tide.

However ...

After experiencing the pain just now, Moke did not want to try it again. There was only a deep fear in his heart, but after the pain on his body disappeared, Moke did not want to die again.

“I’ve said it, can you spare my life? I’m willing to surrender I ”

Moke said in a trembling voice.

“Speak,” he said.

Jiang Li looked down at Moke.

gulu!

Moke swallowed his saliva.

Moke didn’t dare to say anything more. He quickly told Jiang Li the password and kowtowed to him. “I’ve already said it, please spare my life, Your Majesty! Spare me!”

“Bastard!”

At this moment.

Spatial fluctuations appeared.

Buzzzzzz!

several figures descended from the sky and shouted angrily.

“Moke!”

“You dare to betray the Supreme Emperor!”

“You’re looking for death!”

Finally ...

The Marquis Kings that yang di ke had contacted arrived one after another. When they appeared, their figures quickly solidified. There were three Marquis Kings in total, two men and one woman.

they were all tenth level combatants.

“Die!”

BOOM!

The female Marchioness King made her move. She was dressed in Vermillion Bird red, and her figure was graceful and beautiful. She flicked her palm forward, and the cry of a Vermillion Bird rang out.

Buzzzzzz!

The flames condensed.

It turned into an arrow of fire!

The Vermilion Bird arrow.

Pfft!

The Vermillion Bird arrow pierced through Moke’s body. Then, the Vermillion Bird arrow exploded, and the Vermillion Bird’s Shadow appeared, blasting Moke’s body into pieces.

go! Jiang Li waved his hand and dispersed the aftermath of the explosion.

“there are only three marquis kings.”

Jiang Li put his hands behind his back and looked at the three Marquis Kings.

Roar!

At the same time.

The Azure Dragon of great Xia had devoured all the Fortune of the Empire of yang dike's five-clawed flood Dragon. Its body, which was only 300000 meters long, had grown to 1.1 million meters.

he had directly stepped into the eighth stage.

It was a huge improvement.

“a true dragon.”

The Vermillion Bird Marchioness's pupils contracted as she clenched her fists. it's the Imperial dynasty's true dragon! You're the Emperor of the human race!

“This bi an ...”

The horse-faced Marquis Wang's eyes also focused.

it's an Emperor. No wonder yang di ke was killed. Even the entire 17th Division was destroyed by an Emperor. Even if he was only an eighth-grade Emperor, he deserved to die.

The square-faced male Marquis King took a deep breath.

Obviously.

The three Marquis Kings in front of him were extremely cautious.

They were very clear.

to be able to establish a human empire, control one of the 129600 origin lands of the super fantasy world, and become the emperor of the human race, he was definitely not a simple person.

Only those who possessed truly powerful abilities and capabilities were qualified to become the Emperor of the human race. Otherwise, they would have long been eliminated from the 'Dynasty Wars' and 'Dynasty Wars'.

"jiang xiu pays his respects to the emperor."

Lord Jiang, the Vermilion Bird Marchioness bowed to Jiang Li.

"Respected Emperor."

"Why did you appear in the 'six realm world'?" the horse-faced Marquis asked. in the 'martial immortal court' of the human race, the 'six realm world' has completely belonged to the 'no god dynasty', and the 'no god dynasty' has absolute ownership."

Chapter 727 Desperate situation

"Our godless dynasty has the right to deal with the 'six-realm world'. Even if you're the Emperor of the human race, you still have to give a reasonable explanation for this."

The horse-faced Marquis Wang continued.

“Yes.”

The square-faced middle-aged Marquis King nodded and continued, ” ” your majesty, you’ve entered the six realm world for no reason, attacked the 17th division, and even killed yang emperor ke. you must give us an explanation. ”

“An explanation?”

Jiang Li sneered. what explanation do you want? If it wasn’t for ke xianggu, I wouldn’t have killed him and destroyed the 17th Division.”

“Don’t waste your breath.”

“Hand over the control of the ‘plane channel’ to me immediately, and I’ll consider sparing your lives.”

“You!”

The horse-faced Marquis Wang’s face darkened.

“Hu ~~ Hu ~ Hu ~”

Jiang Xiu also took a deep breath, his chest heaving up and down.

“Are you sure?”

The square-faced middle-aged Marquis said in a deep voice.

“you’re too noisy!”

Jiang Li waved his hand.

After that.

The mechanical fleet and mechanical Army quickly moved, surrounding Jiang Xiu and the others. Jiang Xiu and the others quickly retreated, pulling apart the distance.

BOOM! BOOM!

Jiang Xiu and the others attacked Jiang Li's mechanical Army a few times, and they were shocked to find that the weakest one was at Level Seven.

It was extraordinary.

Furthermore ...

And a terrifying Army made up of tens of millions of grade-10 cultivators.

he was extremely horrified.

“This Suan ni, this Suan ni”

Jiang Xiu and the others looked scared. If the 17th Division was still here, they would have dared to fight Jiang Li's mechanical Army with a level 10 formation.

But now ...

With just the three of them, facing the encirclement of tens of millions of stage 10 experts, only death would await them. There was no other option, so they had to retreat.

“Let's go!”

The square-faced middle-aged Marquis King roared, ” hurry up and leave!!!

“Damn it!”

that useless yang di ke, why didn't he explain the situation clearly? this is a trap.
This is an Army of tens of millions of level 10 martial artists!

“I'm afraid that only the first three imperial dynasties can form such an Army.”

Buzzzzzz! Buzzzzzz!

immediately.

Jiang Xiu and the others quickly took out the 'spacetime token', which was an item of a higher grade than the 'spacetime crystal'. They activated the 'spacetime token' and prepared to escape the 'six realm world'.

Clang clang clang clang clang

A shocking change occurred.

Celestial music sounded, and a Celestial Palace surrounded by clouds and mist appeared. Waves of white celestial mist permeated the air and enveloped the space in the blink of an eye.

* jie jie jie jie jie

A strange black mist came from the West and kept rolling. In the center of the black mist was a huge throne of white bones.

“My wife needs a body.”

In the South.

The old man walked out of the space and looked over with his empty eyes.

Clang! Clang! Clang!

The sound of a sword was shocking.

The demonic sword crossed the void.

“Who is it? Who was it? Who can become my master?”

The demonic sword roared.

“Strange, strange, strange, strange, strange, strange.”

Fear!

The horse-faced Marchioness King’s voice was filled with fear. He stared at the four strange beings who had suddenly appeared and surrounded everyone.

His face turned as white as a sheet of paper.

...

“world annihilation level! It’s a world-destroying level!”

“The most bizarre!”

Jiang Xiu and the square-faced middle-aged Marchioness “tone were also extremely heavy,” to actually encounter such a level of strangeness, this is already the strongest strangeness that a ‘Supreme level world’ can produce.”

this level of strangeness is comparable to a rank-12 powerhouse who has a body of laws.

“We’re in big trouble.”

Retreat!

Jiang Xiu and the rest were retreating at lightning speed!

si si si si si

the mist from the throne of bones spread and covered many of the black star troopers, corroding them and turning them into a part of the mist.

The most important thing was ...

The Black Star Troopers that were corroded by the white bone throne were all injured from the source of the damage, causing the damage level of the battleship to be permanently reduced.

...

At the same time, many Black Star Troopers were consumed by the mist.

“Not suitable, not suitable, all of them are not suitable, Yingluo.”

Shua! shua!

The old man rushed over, passing by the interstellar soldiers and interstellar battleships. It was as if no one was there. There was an invisible layer of light on his body.

bang bang bang!

All the attacks were blocked by that layer of invisible light.

All of them were ineffective.

Bang Bang Bang Bang!

The old man grabbed the Black Star Troopers and battleships in his hands. The level 7,8,9, and even 10 mechanical soldiers were like toys in his hands.

As long as it wasn't suitable.

He crushed them one by one.

"Trash! Trash! All of you are trash!"

Clang! Clang!

Kachaa! "Crack!"

The demonic sword swept across.

die! Jiang Li's sword aura destroyed countless mechanical soldiers. He frowned and looked at the four strange creatures.

World annihilation level.

It was indeed too powerful.

Jiang Li's fleet and mechanical Army couldn't cause any trouble to the enemy at all. If this continued, the entire mechanical fleet would be destroyed.

No one knew if it was intentional or not.

The four monsters seemed to have a tacit understanding. They all avoided their range of activity, but they surrounded Jiang Li so he couldn't find a chance to leave.

“Respected Emperor of the human race.”

Not long after.

Jiang Xiu and the rest were unable to hold on any longer. The immortal mist and the black and blood-colored mist continued to spread towards them, causing them to be exhausted from dodging. They were afraid of being contaminated, and they were also afraid of being targeted by the old man and the devil sword.

hence.

They contacted Jiang Li.

these are four world annihilation level monsters. They’re almost equivalent to rank 12 powerhouses with bodies of laws. We have no hope of winning.

The square-faced middle-aged Marquis King said, ” I hope that you can help us by attracting the attention of the four strange creatures. Then, we can find an opportunity to build a plane channel. Finally, we can escape from the ‘six realm world’ together.

“Respected Emperor, this is our only chance.”

The horse-faced Marquis said.

“please believe us.”

thank you. Jiang Xiu said sincerely and bowed to Jiang Li. He seemed to be pretending to be innocent.

“no need.”

Clang!

Jiang Li waved his right hand and the Green Dragon Imperial Jade seal turned into a long green sword. I have a way to leave. As for you, you're on your own.

Shua!

As soon as he finished speaking.

retreat! Jiang Li quickly retreated.

“You!”

Jiang Xiu and the others opened their eyes wide, as their expressions changed, turning extremely gloomy.

“If we die, don't even think about living.”

die! the horse-faced man roared and charged at Jiang Li. if you're going to die, we'll die together. Don't even think about running away!

“Don't!”

Jiang Xiu stretched out his hand and shouted.

But it was too late.

The horse-faced Marquis Wang had already rushed out.

“I found it.”

The hunchbacked old man's eyes flashed as he stared at the horse-faced male Marquis King. His figure disappeared, and in the next instant, he appeared in front of the horse-faced male Marquis King.

After that.

He reached out and grabbed at the horse-faced Marquis Wang.

“No! No!”

The horse-faced Marquis King was terrified. He exploded with all his power. The fate of the Empire, the Dragon, the Saint weapon, and so on were all released.

However ...

these powers were like bubbles in front of the hunched old man, completely unable to withstand a single blow. the hunched old man’s claws were like tiger skin and chicken claws, annihilating everything.

“Save Yingluo, save my Yingluo!”

The horse-faced Marquis King was in despair. He looked at Jiang Xiu and the square-faced middle-aged Marquis King, but Jiang Xiu and the others couldn’t bear it and turned their faces away. They simply didn’t have the ability to save them.

pfft!

The horse-faced Marquis Wang’s head was plucked off by the hunchbacked old man.

His head was crushed.

After that.

The hunchbacked old man gently took out the old woman’s head from the basket and placed it on the horse-faced male Marquis King’s neck. As soon as he placed it

on the horse-faced male Marquis King's neck, the horse-faced male Marquis King's body corroded quickly.

In an instant.

It turned into rotten mud.

“Roar!”

the old woman's head instantly went berserk, letting out a beast-like roar. her head slowly expanded, and the hunchbacked old man continued to comfort her. only then did the old woman's head gradually calm.

“Where are you? Where is he?”

The hunchbacked old man seemed to become even more anxious.

“This is the place.”

Jiang Li stopped. He was standing on the ‘towering peak’. After the ‘towering peak’ fell, the sky fell and the earth cracked. The world tilted and the destruction accelerated.

at the same time.

It also tore space apart, and cracks appeared in the regional wall.

The ‘nothingness’ seeped in.

“Ah!”

A shrill scream rang out.

not far away.

jiang xiu pushed the square-faced middle-aged man from behind. the square-faced middle-aged man was caught off guard. he never thought that jiang xiu would attack him from behind.

Pfft!

The demon Sword slashed down.

The square-faced middle-aged Marquis was split in half.

He died immediately.

“Trash, trash Yingluo!”

The demonic sword was roaring in anger.

“.....”

Jiang Xiu’s pretty face was filled with fear, and her entire body was trembling. Why? Why did I have to encounter such a thing?”

“I, Qianqian, don’t die! Don’t die! I, Jiang Xiu, will marry the Supreme Emperor! I will enter the Imperial Harem and become the Empress! I will be the mother of the world! This isn’t my final destination. It shouldn’t be my final destination!”

“Ruler mode.”

Wuwuwuwuwu!

Jiang Li entered the ‘Dominator mode’. He released all his power. Energy storms spread out, countless data streams surged, the fate of the country gathered, and the laws were condensed.

In the end.

The sword of the mechanical Lord appeared.

instantly.

Jiang Li? ” four strange gazes were attracted by Jiang Li.

“he’s ...”

Jiang Xiu stared blankly.

After that.

The four monsters all charged at Jiang Li.

BOOM!

die! Jiang Li slashed down. The ‘sword of the mechanical Lord’ cut open the fragile space. He hit the crack precisely.

Bang Bang Bang!

Countless explosions were heard.

BOOM!

The ‘mechanical Lord’s sword’ exploded.

kachaa! Kachaa!

the crack was gradually cracking like fragile porcelain. the crack that was originally as thick as a strand of hair was now as thick as an adult's arm.

buzzzzzz! Buzzzzzz!

The 'water' of the 'void' of the 'universe ocean' gushed in like a stream.

no, no, he's crazy, he's crazy, he's crazy!!!

Jiang Xiu shrieked, " he actually split open the regional wall, heavens! Was he tired of living? was it too slow? It's over, it's all over, Yingluo."

Chapter 728 swallowed

Once the crack in the 'boundary wall' expanded, the 'void' water of the 'universe ocean' would surge in, forming a tsunami-like wave that would drown the entire 'human world'.

At that time.

Not to mention the creatures in the 'six-realm world', even the four 'weirdos', which were comparable to level 12, could not withstand the erosion of the 'universe ocean'.

everything would be reduced to nothingness.

It was directly wiped out from the roots.

However ...

But Jiang Li was different. He had Reforged his body because of the 'immortal particle'. With the body of the 'immortal particle', he was not afraid of the erosion of universe ocean.

It was Jiang Li's only chance to attract the 'empty' water.

At the same time.

Jiang Li! the four monsters around him quickly charged at Jiang Li.

"I've found you,"

Shua!

The hunchbacked old man's speed was the fastest, and he was at the forefront.

"Target locked!"

"Attack!"

"Fire! fire! Fire!"

"Whoosh!"

in an instant.

Jiang Li's mechanical Army attacked the weird 'old man'. Countless energy beams with destructive power pierced through the old man.

"Get lost," he said.

BOOM!

The hunchbacked old man stretched out his hand, and his palm, which was like a withered chicken claw, transformed into a giant hand that covered the sky. It contained supreme power that could destroy everything.

Buzzzzzz! Buzzzzzz!

Pfft! Pfff!

All the energy beams were ‘extinguished’, and the energy was dispersed. They were unable to stop the old man ‘at all as he charged through the heavy defenses of the mechanical Army.

he quickly closed the distance between him and jiang li.

“.....”

Jiang Xiu looked from afar. After the four monsters were distracted by Jiang Li, she suppressed her fear and kept retreating.

She wanted to take the opportunity to escape.

“Whoosh!!!”

However ...

Before she had even left for tens of thousands of meters, she had already been targeted by the ‘immortal Palace’. Immortal mist filled the air, bringing with it a burst of beautiful and intoxicating music.

In the blink of an eye.

Jiang Xiu’s eyes turned misty, as he was completely immersed in it.

“Empress, I’m going to be the Empress, I’m going to be the Empress!”

Jiang xiumeng murmured as she walked towards the 'immortal Palace'. After entering the palace, her figure completely disappeared. It could be said that she had died without a sound, without any pain.

Furthermore ...

She still died in her sweet dream.

The ruler's domain expanded.

only then did they slightly block the hunched old man's steps, but the old man soon broke free from the restraints. the immortal palace, the white bone throne, and the demonic sword.

The three strange figures followed behind the old man.

It was as if he was letting the old man open a path.

“open!”

BOOM!

blade of the mechanical Lord. Jiang Li gathered all his power again. This time, he formed a huge 'blade of the mechanical Lord'.

Bang!

The 'blade of the mechanical Lord' slashed down.

It once again hit the crack in the 'wall' from the front, but because of the 'ocean water' pouring in like a stream, the power of the 'blade of the mechanical Lord' was greatly reduced.

Kachaa! kachaa!

The crack had only doubled in size.

“Whoosh!!!”

More ‘nothingness’ came like a stream.

“Come on, come on, give me your body.”

...

At the same time.

Jiang Li! the hunchbacked old man was already in front of Jiang Li. He appeared not far behind Jiang Li and grabbed at Jiang Li with his right hand.

“You’d better go find someone else.”

let’s go. Jiang Li turned around coldly and jumped towards the crack in the ‘boundary wall’. His body was completely bathed in the ‘ocean water’ that was pouring in from the crack.

‘nothing’ covered jiang li’s entire body.

Si si si si si

in an instant.

Jiang Li’s clothes and the ‘equipment’ that dropped from the monsters he killed in the ‘six-realm world’ were all turned into dust by the ‘nothingness’.

Immediately after.

There were eleven Supreme Rubik's Cubes on Jiang Li, but they only lasted for one more second before they were all erased.

all that was left were white spots of light floating in the 'ocean water' of 'nothingness'. however, they were not corroded by the 'ocean water' of 'nothingness' and were instead preserved.

...

Obviously.

The 'ocean water' of 'nothing' in 'universe ocean' was so powerful that it was beyond anyone's knowledge. Therefore, the Supreme Rubik's Cube couldn't resist the erosion at all.

Furthermore ...

the 'self-destruction' device inside the 'supreme rubik's cube' had no chance to be activated.

In the end.

Jiang Li didn't use the 'Rubik's Cube code' and 'opened' the 'Supreme Rubik's Cube'. The Rubik's Cube was a 'world law origin', and it was glowing.

Jiang Li didn't take a closer look.

However, there were definitely more than a hundred of them.

"Alright," he said.

Jiang Li was overjoyed. He picked up the 'world law origin' and stored them in the inventory of the 'super mechanical Army'.

“Ah!”

Suddenly.

” ah! ” jiang li heard the strange ‘hunchbacked old man’s scream. the old man reached his right hand into the’ ocean ‘around jiang li.

in an instant.

His entire right palm was wiped off.

He disappeared into thin air.

The hunchbacked old man immediately screamed in pain.

“Roar!”

Bang Bang Bang Bang!

The ‘basket’ on the hunchbacked old man’s back shook violently, and the head of the old woman with white hair flew out of the basket.

Roar! Roar! “Roar!”

He roared again and again.

There was only madness in his eyes.

“Wife, wife, be good, be good, I’ll find a body for you now.”

The old man comforted.

“.....”

The old woman's head seemed to have really calmed down, no longer roaring. Her Scarlet eyes were quietly watching the hunchbacked old man.

“Be good, be good, Yingluo.”

The hunchbacked old man walked towards the old woman's head with a gentle expression.

“Whoosh!!!”

Suddenly.

In an instant.

roar!

The old woman's head directly swelled into a giant head. It opened its bloody mouth and aimed at the 'hunched old man'. It lowered its head and swallowed the hunched old man in one bite.

??.....??.....

the old woman's head was chewed, and a sound came from her mouth. scarlet and sticky blood seeped out from the corners of her mouth.

The scene was a little scary.

“I'll eat you, I'll eat you!”

the old woman's head went back to normal. she kept murmuring and stared at jiang li with her red eyes.

After that.

die! the old woman's head charged at Jiang Li.

In reality.

This anomaly was not the hunched old man. From the beginning to the end, the true appearance of this anomaly was the head of this old woman. The hunched old man was just a disguise.

Furthermore ...

This anomaly was not called the 'hunched old man'.

Instead, it was called 'old lady's head'.

Shua shua shua shua

The 'old woman's head' rushed into the 'ocean' of 'nothingness', as if sulfuric acid had been poured on the head, and it was constantly being corroded at a speed that was visible to the naked eye.

Roar! Roar! "Roar!"

A beast-like growl sounded.

"!!!"

Jiang Li's face turned pale. The 'old lady's head' finally stopped one centimeter in front of Jiang Li. She was almost within his reach and he could see her disgusting face.

Jiang Li almost vomited the dinner he had last night.

Of course.

Jiang Li didn't eat last night.

This was just a metaphor.

jiang li saw the 'old woman's head' disappear in front of his eyes.

in the end.

All that was left was a white dot of light.

Buzzzzzz!

After that.

It was captured by the 'super divine mechanical Army'.

[acquired a wisp of world law origin]

a notification appeared.

Obviously.

The strength and weakness of a 'peculiarity' had little to do with the 'world law origin source'. No matter how strong the 'peculiarity' was, after being killed, it would only drop a wisp of the world law origin source.

It was no wonder that the 17th Division had only hunted the weaker ones.

This was because the rewards were the same, but the price to pay to kill a powerful anomaly was much higher.

“Hu ~~ Hu ~ Hu ~”

Jiang Li was relieved. He just tried to use level nine power and the power of the nation’s fate. He couldn’t even use it in the dominating mode.

Because the moment it was used, it would be ‘erased’ by ‘nothing’.

so,

Jiang Li couldn’t push ‘Wu’ like he was pushing ‘water’. It was as if Jiang Li didn’t exist and couldn’t affect’ Wu ‘at all.

furthermore ...

Jiang Li couldn’t use his ‘physical strength’ either. For example, if Jiang Li punched forward, the force of the punch would be erased by ‘nothing’ and wouldn’t have any effect.

It was precisely so.

All of Jiang Li’s power would be erased by ‘Wu’, so he couldn’t affect’ Wu’.

fortunately ...

Through the crack in the boundary wall, endless ‘water’ from the ‘universe ocean’ came in, forming a small waterfall. Jiang Li stood in the waterfall and was covered from head to toe, so the ‘bizarreness’ couldn’t hurt him at all.

Just now, the old lady’s head had personally witnessed the horror of universe ocean’s nothingness.

Buzzzzzz! Buzzzzzz!

The celestial Palace, the white bone throne, and the demonic sword.

The three monsters surrounded Jiang Li so that he didn't dare to leave the range of 'nothing'.

Kachaa! Kachaa!

Time passed.

The crack in the 'regional wall' was getting bigger and bigger.

Furthermore ...

Because the 'empty' seawater was constantly pouring into the 'six realms world', and the 'main pillar', which was the 'towering sky peak', had collapsed, the 'six realms world' 'was being destroyed at a faster speed.

If the three monsters didn't leave, Jiang Li wouldn't be able to escape from the six-realm world. Little white didn't open the plane channel in the 'empty' water of the 'universe ocean'.

so,

this wasn't the way to go.

Jiang Li had to find a chance to escape or find another way.

Finally ...

the crack on the 'boundary wall' above Jiang Li's head and behind him expanded again. the 'ocean water' gushed in, forming an even bigger waterfall.

In the immortal Palace, on the white bone throne, the demonic sword was so frightened that it quickly retreated a great distance away.

but ...

The three anomalies still refused to leave.

they were just circling around.

“Damn it.”

Jiang Li’s face darkened. He looked at the three weirdos and unwillingly looked away. He turned around and saw a two-meter-tall crack.

“This bi an ...”

Oh? ” Jiang Li’s eyes lit up. He had an idea.

Chapter 729 Demonic sword

Jiang Li looked around. The ‘human world’ of the ‘six-realm world’ was already full of holes. A large amount of ‘nothing’ had eroded everything.

Kachaa! Kachaa!

Jiang Li could see countless spatial cracks.

In such a situation.

Jiang Li couldn’t guarantee that the ‘six-realm world’ could last for another half a month. It would probably be completely destroyed soon.

At that time.

The 'Supreme world' exploded. Jiang Li was in the 'six realm world'. The power of the destruction of the world was enough to turn everything in the world into nothing.

It would never exist.

It was almost a certain death situation.

“No!”

Jiang Li clenched his fists and stared at the crack above. The crack was two meters high and one meter wide. It was like a wide door.

In other words ...

Jiang Li could enter universe ocean through the crack in the 'boundary wall'. As long as he could leave the 'Supreme world', he would be safe even if he was in universe ocean.

as long as I can escape, I can keep my life even if I enter universe ocean.

Jiang Li said in a deep voice.

As for what to do after entering universe ocean, Jiang Li didn't know yet. The most important thing now was to escape from this desperate situation.

Hence.

Jiang Li tried to swim to the crack in the 'boundary wall', but soon, he realized that it didn't work.

Because Jiang Li's strength couldn't affect the 'empty' water, the kinetic energy caused by swinging his limbs couldn't be eliminated. Therefore, Jiang Li couldn't swim forward like a normal person.

Therefore ...

Jiang Li couldn't get close to the crack in the 'boundary wall', nor could he enter universe ocean. He was surrounded by the three strange beings and was trapped here.

“.....”

Jiang Li's expression was extremely serious.

Shua!

The hegemon's interface opened up.

obviously.

The 'water' of 'nothing' in 'cosmic ocean' could not affect 'super god-like game Legion'.

[world law origin source: 189 wisps]

Jiang Li glanced around.

it's enough to unlock the 'master of machinery-the God of games'.

I'm not sure. Jiang Li murmured happily, " I wonder if I can unlock the 'master of machinery-God of games' and use its power to get out of this situation.

“Demonic sword!”

Clang!

At this moment.

An unexpected change happened.

The strange world-annihilating ‘demonic sword’ began to move. It let out a soul-tearing sword cry. The body of the demonic sword trembled as it gathered all its power.

All the power was fused into one.

“Stab!”

Whoosh!

The ‘demonic sword’ was black and purple in color. It combined all the power into one and used the basic sword move ‘stab’ at Jiang Li.

The black-purple sword light streaked across the sky.

Everywhere it passed.

the space split open like paper.

Shua shua shua shua

The ‘ocean water’ of ‘nothingness’ kept eroding the power of the ‘demonic sword’. In the end, it reached Jiang Li. The sword intent and aura of the demonic sword were so terrifying and sharp that Jiang Li felt a strong threat.

After that.

Jiang Li instinctively reached out and grabbed the handle of the ‘Demon Sword’.

The tip of the 'devil sword' was only one centimeter away from Jiang Li.

One had to know.

In the 'ocean' of 'nothingness', Jiang Li couldn't exert any power, so his grip didn't have the power to stop the 'demonic sword'.

therefore ...

Whether it was the 'old woman's head' or the 'demonic sword'.

world annihilation level anomaly.

...

He used all his might.

They couldn't hurt Jiang Li at all.

in the end, it would only stop one centimeter in front of jiang li.

The reason why Jiang Li reached out and grabbed the handle of the 'evil sword' was that the 'sword intent' and 'sword force' released by the 'evil sword' triggered his instinct to protect himself.

BOOM!

In that instant.

The moment Jiang Li held the 'demonic sword', countless emotions rushed out of the 'demonic sword' and into the depths of Jiang Li's mind.

Countless illusions, countless ghostly shadows.

At this moment.

Jiang Li felt like he had fallen into an endless abyss.

Si si si si si

...

The ‘demonic sword’ was being corroded, like an iron sword that was rusting.

Buzzzzzz!

Because the power of the ‘ocean’ of ‘nothingness’ and the power of the ‘demonic sword’ were erased, Jiang Li woke up from the illusions and the real ones.

“What a terrifying devil sword.”

Jiang Li was shocked. He looked at the ‘demonic sword’ in his hand that was being corroded. If the power of the ‘demonic sword’ hadn’t been erased, Jiang Li would have fallen into oblivion and become the puppet of the ‘demonic sword’, a ‘sword slave’.

It was extremely terrifying.

Suddenly.

Facial features appeared on the ‘demonic sword’ again. It opened its eyes with great difficulty and looked at Jiang Li, laughing wildly. I finally found my master, hehe!

As soon as he finished speaking.

The facial features on the sword were quickly disappearing.

the ‘demonic sword’ was rapidly disappearing.

Shua!

[captured one ‘extremely damaged demonic sword’. Unlocked’ mechanical origin soldier type’: [ruler’s weapon-demonic sword!]

Suddenly.

A notification popped up in front of Jiang Li.

At the same time.

The ‘evil sword’ in Jiang Li’s hand also disappeared.

“This bi an ...”

huh? ” Jiang Li was stunned. I didn’t expect this to work.

The reason the Super mech Army could unlock the ruler’s weapon, the demonic sword, was that at the last moment, the strange world-annihilating demonic sword recognized Jiang Li as its master.

Only then did he successfully unlock it.

The old woman’s head didn’t surrender to Jiang Li.

Naturally, it couldn’t be unlocked.

To subdue the ‘bizarreness’ was not an easy task. The conditions of the ‘bizarreness’ had to be met and completed. However, the conditions of the ‘bizarreness’ were basically impossible to complete.

For example.

The old lady's head needed her body.

The key was ...

The old woman's head had eaten her own body, so it couldn't find her body and press it back on.

There was simply no solution.

There was more.

It was the 'master recognition' of the 'demonic sword'.

The 'demonic sword' contained an indescribable horror of 'erosion' and 'illusion'. There was basically no living creature that could resist the backlash of the 'demonic sword'.

However ...

Jiang Li took a shortcut and used the power of universe ocean's nothingness to make the power of the 'evil sword' ineffective.

Shua!

[sub-surface: type of machinery]

origin weapon type: master of machinery-game God (locked)(29799); weapon of domination-magic sword (locked)(29799)

?.....?

There was an obvious change in the type of machinery.

there was a different type of soldier.

“.....”

“it’s just that from the name,” jiang li analyzed,”the ‘master of machines-the god of games’ is obviously more of a support type.”

on the other hand-the ‘ruler’s weapon-demonic sword’ is definitely-‘battle-type’ weapon.

“There’s no need to think any further.”

Jiang Li made a decision and said, ” unlock ‘ruler’s weapon-demonic sword’ immediately.

Buzzzzzz!

He had deducted 99 world law origins.

It merged into the ‘machinery type’ interface.

waves of ripples appeared on the interface.

He regained his calm.

[consumed 99 world law origin source, successfully unlocked ‘ruler’s weapon-demonic sword’]

A notification appeared.

Shua!

[sub-surface: type of machinery]

origin weapon type: master of machinery-Game Master God (locked)(29799),
master weapon-magic sword (can be manufactured)(01)”

?.....?

“I can only create one ‘ruler’s weapon-demonic sword’.”

Jiang Li said.

Obviously.

The ‘origin soldier’ was different from the ‘normal mech soldier’.

after unlocking the ‘normal mech types’, there was no limit to the number of mechs he could create. as long as he had enough energy points and origin points, he could create an unlimited number of them.

There was a limit to the origin source weapons.

Under normal circumstances.

He could only create one origin source soldier.

“create the ‘ruler’s weapon-demonic sword’.”

Jiang Li said.

shua!

[do you wish to spend 100 million origin points to create a ‘ruler’s weapon-demonic sword’?!]

A notification window popped up.

“This bi an ...”

” 100 million origin points? ” jiang li was stunned. ” i don’t have that many ‘origin points’ . ”

shua!

[insufficient origin points. Would you like to consume the ‘world law origin’ to create? [the world law origin required is the same as the number of units unlocked.]

another notification appeared.

“Use ‘world law origin’ .”

I can’t think too much about it now. I have to make the ‘ruler’s weapon-demonic sword’ first-

“As for whether or not we’ll lose money, we’ll have to think about it later.”

“Yes!”

Jiang Li confirmed.

Buzzzzzz!

Instantly.

another 99 world law origins were consumed.

The 'manufacturing interface' appeared.

Within the interface.

It was an illusory sword.

It was completely black.

There were no overly unique decorations.

It looked like an ordinary black sword.

He observed carefully.

It seemed to be emitting wisps of demonic Qi.

It was a little strange.

Time passed.

The 'demonic sword' was gradually becoming more and more solid. Countless light spots seemed to be filling the surroundings of the manufacturing interface, and the illusionary world was turning into reality.

A minute later.

[creation complete!]

A notification appeared.

Clang!

Vaguely.

Jiang Li heard the faint sound of swords.

streaks of pitch-black sword energy were being emitted from the ‘manufacturing interface’. it seemed that the ‘manufacturing interface’ was no longer able to suppress the ‘demonic sword’ that had completely materialized.

shua!

The information was displayed.

[origin weapon: ruler’s weapon-demonic sword]

[rank: rank 12]

[No.: MJ01]

‘Rank 12 skill: Grandmaster Kendo, demonic sword Qi Kasaya (skill growth rate: [there are only two skills in the beginning. As ‘ruler’ is used, and after gradually integrating, powerful skills can be developed.]

[origin machinery: a type of mechanical soldier created with the ‘world law origin’ as the foundation. It has surpassed the general concept of ‘machinery’ and has unlimited growth potential.]

[introduction: the power of the magic sword will change according to the strength of the user.]

” advancement requirements: unknown ”

“It’s level 12.”

Jiang Li was surprised. “After the ‘origin source soldiers’ were created, they had the initial rank of level 12.”

Chapter 730 The battle

“Materialization.”

Without any hesitation.

MJ01. after the excitement, Jiang Li calmed down. He conjured ‘MJ01’.

It was a black mist that was gathering in front of him.

In the end.

Clang!

With a sword cry.

It was the long black sword that appeared in front of Jiang Li.

“Sword, come.”

Jiang Li raised his hand and the ‘demonic sword’ turned into a black sword rainbow and quickly flew to Jiang Li. He held the handle tightly.

Si si si si si

Immediately after.

Jiang Li heard the sound of 'corrosion'. The 'nothingness' of universe ocean was eroding 'MJ01'. The black blade was slowly becoming rusty.

even a level 12 origin source soldier can't withstand the power of universe ocean's nothingness.

Jiang Li said.

"However,"

Jiang Li took a deep breath. that's enough for now.

This was because 'MJ01' was being corroded by 'none', and its damage was increasing by 1% with every second. Under normal circumstances, 'MJ01' 'could last for 90 seconds.

so,

Jiang Li could use some 'origin points' to recover the damage to 'mylj01'.

"The laws of the sword."

Jiang Li closed his eyes. As soon as he held the hilt of 'MJ01', he understood the mystery of 'sword Dao', the laws of sword Dao, and the power of sword Dao.

It could be said that ...

"master." Jiang Li went from a master who knew how to use the sword to a 'sword master'. countless sword moves appeared in his mind.

"This kind of power ..."

Jiang Li opened his eyes and couldn't help but let out a breath of air. Cold demonic sword light appeared in his eyes. It was as if all living things had fallen, all living things had been destroyed, and demonic Qi was soaring into the sky.

'MJ01' gave Jiang Li a feeling.

It wasn't dead.

It was a living thing.

the 'demonic sword' was a living sword, and it seemed to be in a 'deep sleep'. it needed to awaken the supreme power of the 'demonic sword' 'to destroy all living things.

"Slash!"

Shua!

die! Jiang Li shouted. He held the demonic sword tightly and slashed behind him. The power of the attack wasn't immediately eliminated by 'Wu'. It was gradually disappearing.

so,

go! Jiang Li's sword pushed him forward.

Obviously.

As long as he didn't have to go to universe ocean, Jiang Li didn't want to go. He just needed to get rid of the 'white bone throne' and 'immortal Palace'.

Jiang Li would probably be waiting for little white to connect the plane channel safely.

At that time, he would leave the ‘six realm world’ and return to the ‘holy peace province of the Super Fantasy world’.

shua! Shua! Shua!

The black sword light was everywhere.

After dozens of slashes, Jiang Li finally broke out of the ‘void’ of universe ocean with the help of the pushing force.

BOOM!

in that instant.

The ‘white bone throne’ charged at Jiang Li. The black and blood-red mist covered Jiang Li and the giant ‘white bone throne’ fell from the sky.

The strange world annihilation-level ‘white bone throne’ had arrived.

Buzzzzzz! Buzzzzzz!

the ‘throne of bones’ released a terrifying pressure that pressed down on jiang li. the pressure was so majestic that it was like a suppression on the level of life.

Roar!

Jiang Li’s body shook.

A faint Dragon’s Roar could be heard from within his body.

Immediately after.

The ‘position of the Emperor’ appeared automatically, and there was a mark of a five-clawed true dragon between his brows. It was vivid and life-like, as if it was about to come to life and soar into the sky.

...

He took a closer look.

The originally dim ‘Emperor’s position’ had already been completely restored, and it was shining with light. Because of the increase in the Empire’s fate, the great Xia Azure Dragon had grown from 300000 meters to 1.1 million meters.

so,

The damage to the ‘Emperor’s position’ was instantly restored.

“sword qi of the devil sword.”

Clang!

Jiang Li held the sword and felt the power contained in the ‘demonic sword’. There was demonic energy everywhere and countless sword Dao laws appeared, all gathered together.

“Whoosh!”

The sword light swept across.

The entire black and blood-red fog was split open, as if the sky was being split open.

The ‘Throne of Bones’ that had been falling from the sky retreated, avoiding the sword Qi of the demonic sword. The huge Throne of Bones gradually disappeared into the depths of the black fog.

...

Roar! Roar! “Roar!”

Furthermore ...

The battle had just begun.

An extremely terrifying roar seemed to be coming from the depths of the black and blood-red fog.

boom! BOOM! BOOM!

he stepped through the air, creating a loud boom.

The black and blood-red mist was surging. Under the power of the ‘bone throne’, it quickly gathered together and formed many monsters.

The black mist giant.

They were black mist Giants.

It was huge.

It was as vast as the stars.

Its huge body shot straight into the clouds.

“Kill!”

run! Jiang Li shouted, holding the handle of the sword in his right hand and rushing forward. After getting ‘MJ01’, Jiang Li’s combat power had increased several times.

kachaa! Kachaa!

The space around them collapsed. The fragile space couldn't withstand Jiang Li's attack anymore.

Shua! Shua! "Whoosh!"

Jiang Li was like a tiger among a flock of sheep.

Bang Bang Bang!

The sword Qi destroyed the 'black fog Giants' one after another, but it was only on the surface. After the 'black fog Giants' were destroyed, the black fog continued to condense into even more 'black fog Giants'.

Obviously.

Killing the 'black fog giant' was only 'treating the symptoms' and not the root of the problem'. It would not be able to damage the essence of the 'Throne of Bones', and it would be useless no matter how many 'black fog Giants' were killed.

Roar! Roar!

Not only that.

An even more terrifying roar came from the depths of the black mist.

ta ta ta da

It was like the sound of horse hooves.

In the depths of the black mist.

The mist was slowly moving.

The first thing he saw was a huge ‘black skeleton giant’. It formed an Army and charged at Jiang Li.

Behind them.

It was the ‘headless Paladin’, who was riding the ‘skeletal warhorse’.

The Headless Horseman’s weapon was a bone spear.

He observed carefully.

the ‘skeletal warhorse’ was burning with black flames, and so was the ‘headless horseman’. when the horses stepped in the air, they would leave behind traces of fire.

“Ruler mode.”

BOOM!

activate! Jiang Li shouted.

Buzzzzzz! Wuwuwuwuwu!

in that instant.

Jiang Li’s aura rose and his origin points were deducted. The power of all the meches came and became Jiang Li’s power. They were all under Jiang Li’s control.

Of course.

‘MJ01’ was also a ‘mech’ created by the ‘divine mech Army’, so it naturally became Jiang Li’s power.

BOOM!

At this moment.

Jiang Li turned into the ‘mechanical Lord’. His face was cold and expressionless. He was like a Supreme Lord who controlled the lives of all living beings. Countless’ data streams ‘appeared on his body.

It was like chains.

It was like the materialization of the ‘laws’.

it was extremely mysterious.

Furthermore, it was difficult to see through.

“Slash!”

Shua!

Demon Sword! Jiang Li slashed with the ‘Demon Sword’. It was a sword light in the shape of a Half Moon.

Bang Bang Bang Bang!

countless explosions were heard.

In that instant.

The black mist Giants exploded one after another, bursting like bubbles.

It was simply too weak to withstand a blow.

at the same time.

A large number of the charging ‘giant white bones’ Army also fell.

with jiang li as the center.

Jiang Li had cleared a space around them.

it could be said that ...

Within the range of the ‘ruler’s domain’, there was not a single wisp of black mist.

“Kill!”

Clang! Clang! Clang!

die! Jiang Li charged forward and fought the ‘white bone Army’ head-on.
Countless demonic sword auras pierced through the entire Army of Bones like a sharp sword.

“The Knights! Charge!”

BOOM! BOOM!

The ‘headless riders’ gathered and formed an Army of Knights. They raised the white bone Spears in their hands, and black flames burned fiercely.

“kill!”

The Knights charged forward and the Army stabbed at Jiang Li like a giant spear.

“The sovereign’s sword!”

clang!

” die! ” jiang li raised his sword and gathered a lot of power into a giant sword full of demonic qi. he slashed at the charging knights.

The Knight’s spear and the master’s sword expanded.

BOOM!

The huge explosion resounded through half of the human world. The terrifying power shattered the surrounding space, and countless spatial cracks appeared.

bang!

In the end.

The Knight’s spear shattered and the entire ‘Knight order’ turned into ashes under Jiang Li’s ‘sword of domination’. They were all annihilated and dispersed into endless black mist.

Roar! Roar! “Roar!”

he didn’t even have a chance to breathe.

The even more powerful white bone Army had appeared.

it was an army of bone dragons. they soared into the sky and roared. the flames of their souls gathered together and turned into a sea of fire as they charged at jiang li.

“A sovereign’s sword.”

Clang!

die! Jiang Li swung his sword again. The giant sword destroyed everything. The law of sword Dao tore the sea of fire apart and extinguished the flames.

Kachaa! “Crack!”

They also annihilated all the bones one by one.

“I’ve found you,”

Shua!

it’s here. Jiang Li moved through space and arrived in front of the bone throne. The giant bone throne floated in the air and appeared in front of Jiang Li.

On the throne.

There was no one.

It was as if they were waiting for someone to sit on the throne.

Buzzzzzz! Buzzzzzz! Buzzzzzz!

In the surroundings.

an endless amount of black fog surged toward the ‘white bone throne’, and finally condensed into a black figure. it had no facial features, only a human shape.

The black figure sat on the white bone throne.

“I am the king!”

The black figure was speaking, when you subdue all living beings!

“Submit!”

BOOM!

As soon as he finished speaking.

A terrifying pressure rushed out of the black figure. It was at least a hundred times stronger than before and it pressed down on Jiang Li.

“Azure Emperor Art.”

stop! Jiang Li shouted. He activated his technique and the mist of National aura appeared.

“Roar!”

the azure dragon flew out and circled above jiang li, roaring at the ‘throne of bones’.

buzzzzzz!

At the same time.

The ‘position of Emperor’ appeared between Jiang Li’s eyebrows.

It blocked the pressure of the ‘white bone throne’.

“I am the Emperor of the human race.”

Jiang Li was expressionless. Streams of data surrounded him like chains of laws. His Dominator's domain covered the area. Behind him, there seemed to be countless mechanical soldiers.

The demonic sword was in his hand.

He had grasped the laws of sword Dao.

unparalleled majesty.

and you are an inanimate object. How can you resist me? ”

Jiang Li pointed at the bone throne.
