

## Army 751

### Chapter 751 Gathering

“All fleets, hear my order.”

Administrator No. 3 personally commanded, ” all space carriers and battleships activate the ‘antimatter energy obliterating device’. At the same time, turn on the dark matter energy defense shield to its maximum power.

“Activate ‘dark matter-powered obliteration cannon’.”

“Destroy the enemy’s weapon head-on,”

The order was given.

Buzzzzzz! Buzzzzzz!

The ‘oblivion battleship’, which was equipped with the’ dark matter energy oblivion cannon ‘at its maximum power, rushed to the front of the fleet, and the’ dark matter energy reactor ‘was running at full power.

kachaa! Kachaa!

The long shuttle-shaped annihilation battleship split from the middle to both sides. An energy light appeared in the center, and around the energy light, black light paths appeared like lightning.

dark matter energy obliteration cannon charging complete!

“fire!”

boom! BOOM! BOOM!

The eight annihilation battleships were fully charged at the same time. It was eight thick dark matter annihilation beams that drew a beautiful path of light in the universe.

After that.

It collided with the spear of heaven's punishment head-on, creating a huge explosion. The shockwaves shook the universe's energy, creating tidal waves. Each wave was enough to shatter a planet.

Kachaa! Kachaa!

The spear of heavenly punishment began to crack.

In the end.

All of them exploded.

The energy of the eight Spears was also released.

"I blocked it just like that."

Administrator number three frowned. He looked at the scene of the explosion and fell into deep thought. it's clearly a weapon compressed from 'antimatter energy'. Why is the' antimatter destructive device 'ineffective? "

what's attached to the opponent's weapon? "

Number three was very confused. He couldn't understand. could it be some unique technology? Or is it a special racial talent?"

for example, the 'transformation talent' of the sprites.

At this moment.

” anti-reconnaissance completed. the position of the enemy’s ‘reconnaissance ship’ has been discovered. the enemy’s ‘reconnaissance ship’ has been locked on. ”

Administrator number three received another message.

“Destroy it immediately.”

Administrator number three said.

Shua!

One of the motherships of the ‘light fleet’ fired a beam of dazzling ‘gamma-ray’, which pierced through the starry sky and instantly destroyed a’ space positioning shuttle ‘0.1 light-years away from the fleet.

There was a loud ‘boom’.

The ‘space positioning shuttle’ exploded.

He could not avoid it.

At the same time.

The ‘star map’ in front of Jiang Li became blurry.

“Chief sovereign.”

“The enemy fleet destroyed one of our ‘space positioning shuttle’,” Qian Long immediately replied.

“Yes.”

yes. Jiang Li nodded. to prevent more ships from being destroyed, there’s no need to continue ‘locking on’ the enemy fleet. Just keep monitoring them.

“Yes.”

Hidden Dragon replied.

“Hidden Dragon, through the ‘spear of heavenly punishment’, can you estimate the strength of the enemy’s fleet?”

Jiang Li asked.

“Reporting to you, chief sovereign.”

“I can deduce a part of it,” Hidden Dragon said.

first of all, the enemy fleet has complete control over the ‘antimatter energy’ and can even render the ‘antimatter energy’ ineffective. In short, the energy source that the enemy fleet uses and controls is ‘dark matter energy’.

it’s dark matter, ” Hidden Dragon said. level nine meches don’t have dark matter energy. They use an ‘antimatter energy reactor’. Only level ten meches have dark matter energy.

in addition, the enemy fleet can directly nullify the ‘antimatter energy’. In this way, the Army on planet Djinn is basically useless.

“Yes.”

Jiang Li nodded. in that case, there’s no need to send the Jurin planet Army. Even if we do, we’ll just be sending ourselves to death. We can’t even delay them.

once the antimatter energy is rendered useless, the entire fleet will be completely destroyed.

...

“Yes, I am.”

yes,” Hidden Dragon said. if we want to defeat the enemy, we have to build enough level 10 meches. The most suitable one is the stellar-level space carrier.

use the level-nine and level-ten soul Tinder to upgrade to the level-ten ‘super stellar space carrier-dark matter energy’. Only then can we win.

“Also,”

“The number of enemy fleets.”

there are 100000 motherships and 10 billion warships.

in this case, we must have enough ‘super stellar space carriers’.

“.....”

Jiang Li was silent.

One had to know.

Jiang Li now had 1968 level-nine soul Tinders and less than 10000 origin points left.

...

Under such circumstances.

Just upgrading an early-stage level 10 ‘super stellar space carrier-dark matter energy’ required 242 origin points.

With Jiang Li’s current source points, he could only build 40 ‘super stellar space carriers’ at the early stage of level ten-dark matter energy.

As for making level 11 meches.

This was simply impossible.

the shadow had too many origin points. jiang li didn't have enough.

It was impossible.

40 level 10 super stellar space carriers-dark matter energy sources-would go to war with the fleet of light's 100000 space carriers and 10 billion battleships.

It was like throwing an egg at a rock.

The chances of winning were too small.

“Since that's the case, Zhenzhen”

Jiang Li let out a breath and looked at the star map in front of him coldly. He waved his right hand and a dark light flashed.

Buzzzzzz!

The next moment.

a black 'evil sword' appeared in jiang li's hand.

Machine origin troops.

A rank 12 'ruler's weapon-Demon Sword'.

“It's just a fleet, yet I have to personally take action.”

a level-four civilization is already this powerful? ” Jiang Li asked. is it really so powerful? ”

Buzzzzzz!

The Dominator panel opened.

fuse 120 level-nine soul Tinders.

Jiang Li said.

shua!

The fusion interface appeared.

[ fusion successful! ]

.....

[ fusion successful! ]

.....

A notification appeared.

Finally.

Jiang Li got twelve level-ten soul Tinders.

“build 10 ‘stellar-level space war motherships’.”

Jiang Li had an idea.

He had used up one origin point.

Buzzzzzz!

The manufacturing interface appeared.

On the interface was the shadow of a Starship.

There were countless light spots filling up the surroundings, gradually solidifying.

A minute later.

Shua!

[ creation complete! ]

A notification appeared.

Shua! shua! Shua!

After that.

Jiang Li waved his right hand and ten stellar-level space carriers appeared out of thin air. They lined up in the sky above Base 01.

“All of them will be promoted.”

buzzzzzz!

Jiang Li used 14 origin points to upgrade the ten stellar-level space carriers to perfected-stage level eight.

“let’s continue.”

Immediately after.

Jiang Li used another ten level-nine soul Tinders and ten origin points to upgrade the ten stellar-level space carriers to the early stage of level-nine.

After that.

He then spent another 1400 origin points to upgrade to the full-circle of type 9.

finally.

He used ten tenth-grade soul Tinders and 1000 origin points to upgrade ten ninth-grade stellar-level space war motherships into the early tenth-grade ‘super stellar-level space motherships-dark matter energy source’.

At this point.

Jiang Li stopped advancing.

In reality.

The reason why Jiang Li built ten level ten super stellar space carriers-dark matter energy sources-was to test the strength of the enemy’s fleet.

In addition.

It also had the intention of supporting the scene.

upgrade the Super Sniper and interstellar space divine Archer to the early stage of level 10.

Immediately after.

Jiang Li used three level-ten soul Tinders and 300 origin points this time.

Buzzzzzz! Buzzzzzz!

The two meches were shining.

In an instant.

He had already advanced to the early tenth level.

The information was displayed.

[ unit type: Super Space God sniper-dark matter Energy ]

[ level: early tenth level ]

[ military rank: Marshal-Nebula-grade ]

[ No.: Cjshjb01-AWZNY ]

tier 7 ultimate skills: Gun Master, long-range sniping, psionic sniping, psionic sniping, psionic bullet, nuclear bullet, star snipe ”

rank 8 ultimate skill: spatial eye ”

top-tier level nine skill: antimatter energy bomb ”

level 10 low-grade skills: elementary space control, dark matter energy bomb ”

“equipment: level 10 low-grade cosmic energy engine”

[ dark matter energy: Pi Xiu (omitted) ]

[ machinery: jian jia (omitted) ]

upgrade: 2000 origin points ”

.....

[ unit type: Galaxy Space divine Archer-dark matter energy (elite) ]

[ level: early tenth level ]

[ military rank: Marshal-Nebula-grade ]

[ No.: Xjkjsg01-FWZNY ]

tier 7 ultimate skills: godly Bow Master, long-range shooting, psionic master, psionic shot, psionic divine arrow, nuclear arrow, nuclear chain arrow, cosmic shot.

tier 8 ultimate skills: eye of space, arrow cover ”

” top-tier level nine skills: antimatter energy arrow, spatial arrow ”

level 10 low-grade skills: beginner space mastery, dark matter energy arrow, space destruction arrow ”

“Equipment: level 10 inferior-grade cosmic energy bow”

[ dark matter energy: Pi Xiu (omitted) ]

[ machinery: Jian Jia (omitted) ]

upgrade: 2000 origin points ”

.....

Among them.

the super sniper soldier had advanced to the super space sniper soldier.

There was a huge change.

He had obtained the dark matter energy.

military rank promotion.

the interstellar eye had evolved into a spatial eye.

He had obtained two new skills.

The interstellar space divine Archer had advanced into the stellar space divine Archer.

The only difference was ...

Because the Galaxy Space divine Archer was an elite troop type, they had received an additional skill. This time, they had received three new skills.

“not bad.”

okay. Jiang Li nodded in satisfaction.

In order to prevent the aftermath of the war from affecting the Titan star system, Jiang Li decided to fight in the dustless star system where the ‘light fleet’ was.

the dustless galaxy was four light years away from the djinn galaxy.

The impact was minimal.

evil mechanical god. ”

Jiang Li said.

“Chief sovereign.”

Buzzzzzz!

the next moment.

Jiang Li! the evil mechanical God disappeared from giant spirit planet and teleported to Base 01. It appeared in front of Jiang Li and greeted him respectfully.

“Yes.”

okay. Jiang Li nodded.

“master.”

Shua!

Immediately after.

Jiang Li’s servant, ‘Lightning Dragon Wyke’, was also here.

It was because of the life-and-death battle last time.

In addition, he had been cultivating in seclusion for the past few years.

so,

Wyke had already broken through and reached the early stage of the 10th rank. Among the lightning dragons, he was considered an adult.

“Get ready to go.”

Everyone gathered.

run! Jiang Li ordered Hidden Dragon.

“Yes.”

Hidden Dragon replied.

The stellar space teleportation room was activated.

Buzzzzzz! buzzzzzz!

the spatial fluctuations were extremely intense.

Chapter 752 Crushing

The teleportation began.

An invisible spatial light beam appeared out of nowhere and enveloped them.

Buzzzzzz!

It was only for a moment.

Jiang Li and his fleet disappeared into thin air, leaving the outer space not far from Titan star.

On Djinn planet.

Toria and the rest were still trying their best, and were filled with urgency. They continued to build military bases and battleships.

However ...

They had no idea.

In this interstellar war, it was not their turn to fight. No matter how many fleets they built, they would not be able to exert any combat power after their energy technology was locked down by the enemy.

In reality.

Jiang Li had other plans for the fleet that Toria and the others built.

“Whoosh!!!”

dustless galaxy.

The spatial fluctuations were extremely intense.

The next moment.

let's go. Jiang Li appeared in the dustless Galaxy with his mechanical fleet and blocked the way of the 'fleet of light'.

Di di di di di

the light fleet.

“A strong spatial fluctuation has been detected ahead.”

warning ... Warning ... Warning ... Warning ... Warning ... Warning ... Warning ... Warning ...  
Warning ... Warning ... Warning ... Warning ... Warning ... Warning ... Warning ... Warning ...  
Warning ... Warning ... Warning ... Warning ... Warning ... Warning ... Warning ... Warning ...

“Charge!”

” activate the ‘dark matter energy’ defense shield and connect the entire light fleet as one. then,  
move at superlight speed and crash into the enemy’s fleet to destroy it. ”

“Yes!”

“.....”

buzzzzzz!

In an instant.

The 100,000 space carriers and the dark matter energy defense light shields of the 10 billion battleships were connected into one. The vast fleet of light was like an indescribable giant.

The most important thing was ...

the light fleet was traveling at superluminal speed.

This way ...

If they hit an object ...

It would produce an unparalleled impact and destructive force.

Even if a star was right in front of them, it would be instantly crushed into pieces and dust. There was no way to resist.

“Oh.”

Humph! Jiang Li raised his eyebrows. He saw the enemy’s response and snorted. He put on an indifferent expression and slowly raised the ‘evil sword’ in his hand.

Buzzzzzz! Buzzzzzz!

The ‘demonic sword’ was shaking violently.

After that.

Since Jiang Li had mastered the ‘Demon Sword’, he had gained the passive skill of a ‘Sword Master’. The laws of sword Dao appeared like sword-shaped lines.

Immediately after.

The entire dustless Galaxy.

The energy of the universe started to shake.

The ‘demonic sword’ was like a black hole, devouring the endless energy of the universe.

Di di di di di

“Warning! Warning!”

there’s a huge energy reaction ahead. It’s growing at an unimaginable speed faster than light.

level one, level two, level three, level four Pixiu ”

“Danger! It’s dangerous!”

he’s going to surpass Level 4!!!

“Hurry!”

“Stop! Stop the fleet immediately!”

“It’s too late!”

...

“.....”

“Whoosh!!!”

“Sword Qi of the devil sword.”

Clang!

” let’s go! ” jiang li activated his skill. he held the ‘demonic sword’ in his right hand and gathered unimaginable ‘cosmic energy’. at the same time, he released the law of sword dao.

After that.

die! Jiang Li slashed at the fleet of light.

In that instant.

It was a beam of incomparably dazzling sword Qi. It was pitch-black in color and contained material sword Dao laws. It was as dazzling as a Galaxy.

It was a head-on attack.

Kachaa! Kachaa!

...

BOOM!

the entire 'light fleet' collided with the sword aura of the demonic sword. the two parties collided head-on, and the power of the demonic sword's sword aura erupted, easily tearing apart the dark matter energy defense shield.

It was like an egg shell.

It was easily shattered.

At the same time.

The large number of warships at the front of the light fleet were like fireworks in the universe. Under the power of the sword aura of the demonic sword, they exploded one by one.

a series of sparks appeared.

In the end.

The light fleet stopped.

Hundreds of millions of warships were destroyed by Jiang Li's sword. If Jiang Li didn't miss, the power of the sword would have pierced through the entire 'fleet of light'.

It was truly terrifying!

Level 12!

This was the power of a 'level 12 machine origin soldier'.

One had to know.

This was because Jiang Li's cultivation wasn't high enough to fully exert the power of the 'demonic sword'. Otherwise, it would be even more terrifying.

Although Jiang Li was a Grandmaster in the art of sword, he got it directly instead of practicing step by step.

It was like an ordinary person suddenly obtaining the power of The King of Fighters. Naturally, he would not be able to use his body's power as he wished.

As a result, he missed.

He needed to get used to it.

"It's alright."

Jiang Li shrugged. He wasn't very satisfied with the result of the attack.

Originally.

Jiang Li wanted to use the mechanical fleet to test the enemy's fleet, but he attacked first.

Now, Jiang Li was holding the hilt of the 'evil sword' in his right hand. He lowered his head and looked at the enemy fleet in front of him. The vast fleet in front of him occupied most of his vision.

One had to know.

as one's cultivation grew stronger, one's perception of the enemy would no longer be based on 'sight', but rather an instinctive perception.

After sensing the enemy's hostility and aura, they could lock onto the enemy's position and release an attack to kill the enemy.

Buzzzzzz! Buzzzzzz! buzzzzzz!

A large number of soul Tinders flew out of the ruins of the battleships and rushed toward Jiang Li like a tidal wave.

All captured.

Jiang Li got a lot of soul Tinders.

"The fleet is out."

Jiang Li waved his right hand.

Buzzzzzz! Buzzzzzz!

Ten 'super stellar space carriers' charged forward.

after that.

He activated his skills one after another.

every 'super stellar space carrier' was like a black hole, devouring a large amount of cosmic energy and creating a large number of disposable stellar soldiers and stellar warships.

Among them.

There were 100 million level 10 soldiers and a million level 10 battleships.

“Roar!”

The Dragon’s Roar shook the sky.

Wyke directly transformed into his original form, and an extremely huge dragon body appeared. the huge dragon body was constantly expanding and enlarging.

He had reached his limit.

it was the size of a planet.

BOOM! BOOM! BOOM!

The lightning was raging.

It was also surrounded by the laws of lightning.

it was extremely powerful.

It could be seen.

Wyke’s area had completely become a world of Thunder.

Immediately after.

The Super Space sniper soldier took out the ‘space energy Engine’ and the Galaxy Space divine Archer took out the ‘space energy bow’. They stood on both sides of Jiang Li.

At the same time.

The fleet of light dispersed and formed a formation, but they didn't dare to attack Jiang Li because they were scared of his attack.

In mothership 01.

Buzzzzzz!

Manager number three's expression was dark, and his gaze was extremely solemn. In front of him was a huge projection of the unknown enemy that was blocking their way.

"What is the background of the other party?"

Administrator number three took a deep breath. the attack just now has probably surpassed the level of a level-4 civilization and reached the level of a Level-5 civilization.

they easily destroyed our 'fleet defense' and even destroyed 100 million interstellar battleships in an instant. If we were to start a war, I'm afraid we would be completely annihilated.

"Damn it!"

how could such a high-level civilization appear in the 'edge of the Galaxy'? "

"I'm sorry to trouble you,"

Heavy!

Number three's heart was heavy.

At the same time.

Manager number three looked at Wyke, who had transformed into a Lightning Dragon.

"The other party was actually able to subdue the 'Star Beast'."

Administrator number three took a deep breath. I've never heard of a technology that can subdue a 'starbeast'. This is because the genes of a 'starbeast' are completely independent, so it can't be subdued.

start the projection immediately. I want to talk to the leader of the other side.

Administrator number three took a deep breath. After thinking it through, he quickly gave the order.

“yes!”

Buzzzzzz! Buzzzzzz!

After that.

In the middle of the 'fleet of light', a rich golden light appeared and gathered towards the center, forming an extremely huge giant of light.

It was like a Golden Star.

“Hello!”

The 'giant of light' bowed to Jiang Li, but he didn't bow. Instead, he put his hands together and spread them out, forming a pyramid.

in reality.

This was the highest level of courtesy in the 'civilization of light', but Jiang Li didn't understand it and didn't need to understand it.

In addition.

The reason Jiang Li could understand what they were saying was that their conversation was transmitted in the form of brainwaves, like a conversation between souls.

Naturally, there was no language barrier.

“respected expert.”

I’m manager three from the ‘Light Civilization’s 001245 colonial star system’. I’ve been appointed as the ship master of the light fleet this time, ” manager number three continued.

the light Civilization.

I see. Jiang Li muttered. indeed.

I’ve never seen you before, so there shouldn’t be any grudges between us. Why did you lead your fleet to ambush us? ”

administrator number three continued.

“attack!”

you’re right, ” Jiang Li said indifferently.

“Yes!”

Roar!

Wyke roared and opened his huge bloody mouth, directly roaring out a terrifying Thunder Dragon Breath, instantly turning the other party’s projection into ashes.

“All troops, attack!”

Jiang Li waved his hand.

“Yes!”

“fleet attack!”

BOOM! boom! boom!

Jiang Li had just given the order.

The Galactic Fleet launched a frontal assault on the light fleet. Countless dark matter energy weapons were fired, causing terrifying explosions.

Bang Bang Bang Bang!

Countless explosions resounded throughout the entire dustless Galaxy.

“Damn it.”

Manager number three’s face was extremely gloomy. Without any hesitation, he shouted, ” kill!!! ”

Hence.

The war broke out just like that.

The battleship exploded.

it could be seen.

The light fleet unleashed their might. Countless dark matter energy beams penetrated everything. A large number of interstellar battleships were turned into ashes under such bombardment.

In addition.

The doors of the light fleet’s warships and motherships opened.

After that.

A large number of robot warriors rushed out.

Within a short period of time.

Jiang Li's fleet was suppressed by the light fleet.

the light fleet's strength and firepower were too terrifying. jiang li's fleet was no match for them at all.

However ...

the mechanical fleet was not the main force.

Furthermore ...

As long as the ten 'super stellar space carriers' weren't destroyed, it didn't matter how many stellar warships and soldiers were destroyed.

Very quickly.

The fleet of light noticed the abnormality of Jiang Li's mechanical fleet.

"Why is it like this? Why did the enemy's interstellar battleships keep appearing? No matter how many of them are destroyed, they will still rush out from the space carriers behind!"

"This situation ..."

"The Zerg! the universe zerg! This is an ability that only the races in the universe have!"

the mother nest of the universe Zerg can continuously absorb the energy of the universe and lay eggs, hatching one Zerg after another. As long as the mother nest is not destroyed, the Zerg will not be exterminated!

“How is that possible? How could the other party master the core power of the space Zerg?”

“what’s his background?”

Fear!

the light fleet’s soldiers began to feel fear!

Chapter 753 bait

“If this continues, even if we outnumber them by many times, we won’t be able to completely annihilate them. In a battle of attrition, we’ll lose without a doubt!”

we must destroy the enemy’s ‘space carrier’.

“At all costs!”

kill!!!

BOOM! BOOM! BOOM!

The battleships charged forward, and the mechanical Warriors opened up a path, killing their way forward. Every single mechanical warrior was piloting a standard light mech that was integrated into one.

His combat strength was extremely terrifying.

Even ...

If the conditions allowed, a powerful light Mech Warrior could even destroy a warship of the same level.

In addition.

The pilot of the 'light mech' was the 'Light Civilization's mech pilot'.

Of course.

The true members of the light Civilization wouldn't be able to pilot such a cheap standard light mech. Only the subsidiary races ruled by the light Civilization could pilot it.

Even slaves!

for example, the spiritlings.

As he had become a 'mecha master', he was considered to have gotten rid of his' slave 'status. However, he was only a' secondary citizen 'of the lowest grade. He needed to accumulate battle merits and advance step by step before he could become a true member of the light Civilization.

"Kill!"

Roar!

Wyke charged forward. He had mastered the Thunder rule and his strength exploded. The standard light mecha were destroyed by Wyke one by one, turning into scrap metal and dust.

"Arrow cover!"

Buzzzzzz! Buzzzzzz!

The stellar space divine Archer released his skill, and the dark matter energy arrow split into 100000 rays, forming a large area of damage.

Bang Bang Bang!

An explosion sounded.

Many of the mechanical Warriors were destroyed.

The Super Space sniper soldier stood not far away. In such a large-scale battle, the Super Space sniper soldier could not display the area-of-effect damage of the Galaxy Space Archer.

In addition.

It would not be easy to destroy the enemy's warships.

Finally ...

The enemy's fleet of light broke through layers of blockades and showed the power of a level-4 civilization. They finally reached the rear of Jiang Li's mechanical fleet.

"Now!"

kill!!!

"Destroy the enemy's mothership!"

The captains of the light fleet roared.

Buzzzzzz! Buzzzzzz! Buzzzzzz!

the charging began.

The space carriers had joined forces.

Unparalleled dark matter energy gathered, forming a vast ball of light that was like the sun. It kept on compressing the dark matter energy in a terrifying manner.

In the end.

The pitch-black dark matter energy turned into a vast golden color.

It was as if it had formed a small golden neutron star.

one had to know.

The strongest weapon of the 'Light Civilization'.

It was called light.

this was an extreme use and transformation of dark matter energy, like the transformation of yin and yang. in the end, the extreme darkness turned into the extreme light.

In addition.

the 'light' that the 'fleet of light' cast out was only the smallest 'light'.

“‘Light’ energy gathering complete!”

“Target locked!”

“Fire!”

Buzzzzzz!

In an instant.

The ‘light’ that was like a small golden neutron star was launched, drawing a beautiful golden light path in the starry sky and penetrating the ten super stellar space carriers.

...

It could be said that ...

If he was hit.

Jiang Li’s ten super-class space carriers would be destroyed instantly.

There was no chance of survival.

“This power ...”

it’s extremely powerful, of course. If I’m attacked, I’m afraid I’ll be seriously injured and die in an instant.

“This should be your most powerful technique.”

“I just don’t know if you can block my sword.”

As soon as he finished speaking.

Jiang Li raised his sword again.

Buzzzzzz! Buzzzzzz!

...

after that.

the laws of sword dao interweaved. jiang li only used the power of the ‘demonic sword’. he didn’t use his own cultivation and strength.

“Sword Qi of the demonic sword!”

The skill was activated.

The vast energy of the universe condensed into one, and the laws of sword Dao became real. Jiang Li locked onto the Golden ‘light’ that looked like a neutron star.

Clang!

It was accompanied by the sound of a sword that pierced straight into the soul.

Shua!

die! Jiang Li slashed.

The black sword light was like a galaxy of stars.

It slashed at the Golden neutron star-like ‘light’.

this scene.

it happened in the dustless galaxy.

They watched from afar.

It was like the expansion of extreme darkness and extreme light.

After that.

The darkness swallowed the light.

jiang li's sword tore apart the 'light' of the fleet of light and devoured the golden light. the giant light ball was split in half from the middle.

BOOM!

The ball of light instantly expanded.

Immediately after.

The sword light exploded, completely obliterating the energy of the light ball.

“whoosh!”

The remaining power of this sword was satisfactory to the front. The remaining sword radiance seemed to be extinguished at any moment, but it still pierced through the light warships one after another.

In the end.

They only dispersed after destroying a mothership of light.

“No! No!”

“How could this be? How did it end up like this?”

“That's 'light', that's 'light'!”

'light' has been defeated. The fleet of light's 'light' has been defeated.

“We’ve lost, we’ve lost,”

“it’s all over, it’s all over.”

why would such a terrifying existence and civilization appear in a place like this? ”

“.....”

Countless members of the light fleet were screaming in fear.

At this moment.

The annihilation of the ‘light’ had crushed all their hopes and will.

In reality.

In the sky above the battlefield.

it had a huge ‘eye’, and around the eye were many octopus-like tentacles. unknowingly, the evil mechanical god’s aura and domain had enveloped the entire battlefield.

Under the continuous attacks.

The mechanical evil god gradually eroded the will and spirit of countless members of the fleet of light, causing them to be overwhelmed by fear and lose the will to resist.

The light dissipated.

Jiang Li finally appeared in the light fleet’s sight.

“He actually slipped away, he actually slipped away.”

In the mothership.

Number three was completely dumbfounded. He stared blankly at the image in front of him. His eyes widened so much that they were about to fall out.

He didn't believe it.

He didn't even dare to believe it.

The terrifying, powerful, and indescribable blow earlier had easily annihilated the light fleet.

He actually slipped away.

it was actually sent by a member of the other party.

It was too terrifying!

It was too terrifying!

How could there be such a terrifying race in the Milky Way?

it was too terrifying!

In comparison.

Battleships, space carriers, dark matter.

like a toy!

It was like a toy!

“Run!”

Without thinking.

The third administrator's mind was filled with the same thought.

"I have to escape, I have to escape!"

Number three screamed in his mind, " my merit points will reach 10000 soon. By then, I'll become a noble of the light Civilization. I still have a bright future. I shouldn't die in such a remote border area. I shouldn't die in such an unknown battlefield!

"No! no!"

Fear!

He was afraid!

And the desire to live!

All kinds of emotions had already occupied the mind of the third administrator.

at this very moment.

He only had one thought.

And that was to survive.

"Kill! Kill!"

Manager No. 3 gave the highest order, " destroy the enemy at all costs, stop the enemy, even if it means the entire Army is annihilated!

Roar!

Administrator number three roared.

Hence.

The light fleet began their suicidal assault. Wave after wave, they attacked continuously. One by one, their warships were destroyed and their mecha operators died.

“What’s going on?”

huh? ” Jiang Li was also stunned. He didn’t expect them to attack like this.

“Go on.”

Shua!

go ahead. Jiang Li threw the ‘evil sword’ with his right hand. you’re free to do whatever you want.

“Yes, chief sovereign.”

Buzzzzzz!

The ‘demonic sword’ floated in front of Jiang Li. Human features immediately appeared on the sword, but it didn’t look as evil and crazy as before.

However ...

It became even more demonic.

“Kill!”

Clang! Clang!

The ‘demonic sword’ charged into the battlefield. Demonic Qi enveloped the surroundings, and sword Qi streaked about, tearing apart battleships one after another. Numerous light battleships surrounded the ‘demonic sword’.

“Exterminate!”

Shua! Shua! Shua!

The sword Qi formed a tornado-like storm.

In that instant.

the warships of light that had besieged the ‘demonic sword’ had all turned into cosmic dust.

Buzzzzzz! Buzzzzzz!

It could be seen.

The ‘demonic sword’ was absorbing some kind of unknown energy from the entire battlefield. It was all being absorbed by the ‘demonic sword’.

Unknowingly.

The ‘demonic sword’ became more agile.

“Oh.”

Jiang Li’s eyes glittered.

Obviously, he had also noticed it.

At this moment.

At the edge of the battlefield.

An extremely small round spaceship hid all traces of its tracks and left the battlefield quietly. It flew at superluminal speed and disappeared into the distance.

“Hehe.”

I’ve already put out the bait. I just don’t know if I can catch the big fish I want.

“Don’t Let Me Down.”

Jiang Li looked away.

“Sword, come.”

Jiang Li raised his hand.

Shua!

The ‘demonic sword’ came and Jiang Li grabbed the handle.

“The sovereign’s sword!”

BOOM! BOOM!

Jiang Li! Jiang Li shouted and released his power.

Roar!

The Dragon’s Roar shook the sky.

The vast power of laws condensed.

The Dominator mode was activated.

All sorts of abilities gathered.

it was integrated into the sword.

slash!!!

Clang!

” demon sword! ” jiang li slashed with the ‘demon sword’. the supreme sword of the mechanical lord slashed at the battlefield. the power tore the space apart.

A spatial Rift appeared on the battlefield of the stars.

The terrifying power of the spatial tear destroyed the light warships one by one.

“Rumble!”

The entire dustless Galaxy was shaking, and extremely terrifying waves spread out, crushing everything in their way, causing the surrounding planets to explode like balloons.

the power of this sword was truly too powerful.

After all the fluctuations had subsided.

The remaining forces of the light fleet were completely destroyed.

As he was unable to control the power of this sword, it even caused a super stellar space carrier to be accidentally injured. It was almost destroyed. Fortunately, he discovered it in time and quickly recovered it with energy points.

“Tsk, tsk.”

sword of domination. Jiang Li looked at the scene he created and sighed. As he became stronger, the power of the sword of domination had become even stronger.

“clean up the battlefield.”

teleport. Jiang Li ordered, ” Hidden Dragon, prepare to teleport.

“Yes.”

Buzzzzzz!

okay. Jiang Li left first and teleported back to the room in the Dominator’s hub in the base on Galaxy 01.

“Chief sovereign.”

Hidden Dragon saluted.

“Yes.”

yes. Jiang Li nodded. have you locked onto administrator number three? ”

“Reporting to you, chief sovereign.”

the other party’s spaceship is equipped with anti-lock devices, ” Hidden Dragon said. in addition, after the other party left the battlefield, they have returned to the rearing Galaxy through space teleportation.

“Isn’t the captive Galaxy within the star map’s surveillance range?”

Jiang Li asked.

“yes, i am.”

Hidden Dragon nodded.

“It doesn’t matter if I can lock onto him or not. I just want to know his exact location.”

Jiang Li said.

Chapter 754 Destruction

“I’m sure.”

Hidden Dragon replied.

during the battle just now, due to the fear in his heart, the presence of the ‘evil mechanical God’ was left on his body.

Hidden Dragon explained the reason, ” as long as I detect the presence of the ‘evil mechanical God’, I will be able to determine its exact location.

“Alright,” he said.

yes. Jiang Li nodded and ordered, ” start now.

“Yes.”

hidden dragon replied.

Immediately after.

The star map began to unfold, showing the picture of the ‘captive Galaxy’ in front of Jiang Li. The star map kept enlarging the picture of the ‘captive Galaxy’.

finally.

All of them were concentrated on the outer spirit planet at the outermost edge of the ‘captive Galaxy’.

“Chief sovereign.”

“The location of the enemy’s base has been confirmed,” Hidden Dragon replied.

“Very good,” he said.

okay. Jiang Li looked at it and nodded in satisfaction.

“Teleport.”

Buzzzzzz!

An invisible spatial light beam enveloped Jiang Li.

the next moment.

Jiang Li disappeared from the room in the ruler’s hub.

Dustless Galaxy.

Jiang Li’s mechanical fleet had already cleaned up the battlefield and collected a lot of resources.

Buzzzzzz!

spatial teleportation.

the mechanical fleet was directly teleported away.

In the captive Galaxy.

the outer spirit planet.

Inside the planet.

Colony base 001245.

Administrator number three hid in the depths of the colony and entered the highest floor of the 'Tower of Light' as fast as possible, wanting to hold an emergency meeting.

Di di di di di

At the same time.

the entire base.

An ear-piercing alarm sounded.

It had also entered a level 1 alert state.

"Hurry up! Hurry up! Hurry up!"

Manager number three was extremely anxious, his right hand pounding on the table.

In the outer space of the outer spirit planet.

buzzzzzz!

A spatial fluctuation appeared.

Shua!

There was a flash.

jiang li stood in the universe and looked at the ‘outer spirit star’ in front of him. what he saw was a huge star.

It was dark brown in color.

Buzzzzzz! Buzzzzzz!

after that.

Behind Jiang Li.

The mechanical fleet arrived one after another.

Inside the outer spirit planet.

Di di di di di

the security system of colony base 001245 noticed jiang li and the mechanical fleet as soon as they appeared. the alarm kept going off.

“Is there an enemy invasion in Xuanji?”

...

“Where did the enemy come from? How dare you invade our Light Civilization’s colony base.”

“Such great courage!”

“Prepare the ‘base weapons’ and give the enemy a heavy blow!”

“Yes!”

“Understood!”

Sector 1 is ready!

“.....”

buzzzzzz! Buzzzzzz! “Whoosh!!!”

In an instant.

The entire colony 001245 started operating at its fastest speed, surging with a vast amount of dark matter energy. The energy of the universe also surged into it.

at the top of the tower of light.

...

On the highest floor.

In the meeting room.

Manager number three looked at Jiang Li and the mechanical fleet that suddenly appeared in outer space in horror.

“How could this be? How could that be?”

“What is he doing here?” the third administrator shouted in fear.

Di di di di di

The door of the meeting room opened.

Immediately after.

administrator number four and administrator number nine rushed in.

“Number three, what’s wrong with you? Why did he run back in such a hurry? Didn’t I appoint you as the ‘Captain’ and lead the ‘fleet of light’ to conquer another civilization?”

Administrator number four asked directly.

“What happened? Why didn’t the light fleet return with you?”

Administrator number nine questioned.

“We’re finished! We’re all finished!”

administrator number three sat on the ground, paralyzed. ” we were on our way to another civilization’s star system when we were suddenly ambushed by an advanced civilization’s enemy, causing the entire light fleet to be annihilated. ”

“I was the only one who was lucky enough to escape.”

“What did you just say?”

Administrator number Four’s eyes widened as he stared at administrator number three and shouted, ” ” impossible, this is only the edge of the milky way, how could there be the existence of a higher civilization? ”

Administrator number nine was silent for a while, then pointed at the screen in front of him. It was the scene of Jiang Li standing in outer space.

he's the enemy of the higher civilizations you mentioned? ”

Administrator number nine questioned.

“It's him! It's him!”

Administrator number three shouted.

In the image.

Jiang Li's body was covered in a thick mist of the Empire's National aura. Under the protection of the National aura, one couldn't see his true face.

“The sovereign's sword!”

Clang!

at this moment.

Jiang Li looked at the outer spirit planet in front of him and activated the Dominator mode. He activated the Azure Emperor Art and the National fortune shook. Vast energy surged.

“Slash!”

Shua!

Jiang Li raised the 'demonic sword' in his hand. Data streams wrapped around him like chains, forming a Dominator domain. Countless meches appeared around him.

In the end.

All sorts of powers.

Just like that, they were all integrated into this sword.

It turned into the ‘sword of the mechanical Lord’.

After that.

The ‘Demon Sword’ slashed down, and the unparalleled sword of the mechanical Lord slashed toward the outer spirit star. It contained power far beyond that of a level-4 civilization and crushed everything.

“no!”

The third administrator screamed.

“Stop him!”

Administrator number four shouted.

“Fire all weapons!”

administrator number nine shrunk in pain and shouted.

“Fire!”

“fire!”

“.....”

BOOM! BOOM! BOOM!

One had to know.

Colony 001245 was built on the inside of the outer spirit planet. It had existed for more than 100000 years and had long turned the entire planet into a powerful interstellar base.

At this moment.

The power of the interstellar base was fully displayed in front of Jiang Li.

in that instant.

Countless attacks blasted over. The beams of light contained extremely terrifying power and destructive power, but they were easily destroyed by the sword of the mechanical sovereign.

Bang Bang Bang Bang!

There were countless explosions.

the beams of light and attacks were like snowflakes falling on a burning iron block when they hit the sword of the mechanical lord.

It instantly evaporated.

It was unshakeable.

how is this possible?!

Dumbfounded!

number four and number nine were both dumbfounded.

“Whoosh!!!”

The next moment.

The outer spirit star shook and a vast energy light screen formed an extremely tough energy shield to block Jiang Li’s sword.

Kachaa! Kachaa!

The energy shield continued to crack.

They simply couldn’t hold on for long.

It would collapse immediately.

“Now you believe me, right?”

Number three smiled bitterly. I never expected to encounter such a terrifying enemy. Just one of them is enough to destroy our Galactic base.

” the light fleet’s ‘light’ can’t shake the other party at all. ”

“We’re dead!”

“It’s not over yet.”

” we still have one last resort, ” administrator number nine shouted. ” release the energy of the entire colony base and condense a medium-sized ‘light’. ”

“We can definitely destroy them.”

“But Yingluo”

administrator number three opened his mouth. ” releasing the energy of the entire colony requires the approval of all nine administrators. there are only three of us in the base. ”

“The other six administrators are not in the base. They are basically just in name, but they have the same authority as us.”

“That’s enough.”

Administrator No. 9 took a deep breath. the colonial base management regulations state that when the colonial base encounters irresistible factors and faces destruction ...

even if there is only one administrator in the base, they can activate the ‘ultimate weapon’.

“the light of base 001245.”

Administrator number nine shouted.

“Yes, administrator.”

Buzzzzzz!

a golden light appeared.

After gathering together, it formed a human figure of energy. After putting his hands together, it formed a ‘pyramid’ shape and bowed to the three administrators.

activate the ‘ultimate weapon’ immediately.

Administrator number nine ordered.

“Di di di di di di di di”

“Detected that colonial base 001245 is facing the crisis of destruction. According to the ‘colonial base management regulations’, I would like to ask the three administrators, do you want to activate the ‘ultimate weapon’? To die together with the enemy?”

The Golden figure asked.

“.....”

The three wardens looked at each other.

“I agree!”

The three of them nodded at the same time.

“.....”

The Golden human figure seemed to show a trace of human-like sadness.

“Yes!”

The light of base 001245 responded, ” activate the ‘ultimate weapon’.

kachaa! Kachaa!

“BOOM!”

The massive outer spirit star trembled violently and split in the middle, exposing the colony base inside.

Buzzzzzz! Buzzzzzz!

after that.

All the energy of base 001245 was gathered above the Tower of Light in the center, as if it had an endless source of energy.

It contained an extremely terrifying power.

BOOM!

an explosion sounded.

The energy shield shattered.

“Exterminate!”

Jiang Li’s sword of the mechanical Dominator slashed at the colony base on the outer spirit planet with all kinds of laws.

At the same time.

The ultimate weapon of colony base 001245, ‘light’, had been completed.

“fire!”

The Golden human figure appeared again and merged with the Golden ‘light’ that was as vast as the sun. It gave the ‘light’ consciousness and rushed at Jiang Li.

“Rumble!”

An explosion that shook the entire Galaxy occurred.

Kachaa! Kachaa!

Bang Bang Bang Bang!

Jiang Li's sword of the mechanical Dominator hit the 'light' of colony base 001245. The two sides collided and the power kept exploding.

The outer shell of the outer spirit star was directly reduced to ashes.

the buildings outside the colony base 001245 were collapsing and melting.

the power of the explosion and collision was so huge that it shook the entire captive galaxy, and the endless cosmic energy produced tidal waves.

It was even terrifying.

"We've succeeded, we've succeeded."

Administrator number four screamed in excitement.

"Hahahahaha!"

Administrator number nine laughed.

"That's great, that's great, Yingluo."

Administrator number three was extremely excited. I knew it, I knew it. It's just the edge of the Milky Way. How could there be an existence that the 'Light Civilization' can't compete with? It's impossible!"

the 'light' of the fleet of light is the smallest 'light', but the 'light' of base 001245 is much stronger than the 'light' of the fleet of light.

"We will definitely win."

The third administrator shouted.

“Break!”

shut up! Jiang Li scolded.

Roar!

The Dragon’s Roar shook the sky.

the azure dragon of the great xia appeared, and the power of the empire’s fate was further integrated into the sword of the mechanical sovereign. the power of the sword of the mechanical sovereign erupted once again.

Wuwuwuwuwu!

Instantly.

The sword of the mechanical Lord suppressed the ‘light’ of base 001245.

Chapter 755 The light race

“BOOM!”

jiang li’s sword split the ‘light’ of colony base 001245 in half like cutting a watermelon with a knife.

“exterminate!”

Buzzzzzz!

Jiang Li’s right hand shook. The power of law in the sword penetrated into the ‘light’ that was split in half and destroyed the unstable and terrifying energy that was about to explode.

“whoosh!!!”

The entire scene.

It was as if a light bulb had suddenly been cut off. The originally incomparably dazzling and bright ‘light’ was instantly extinguished. The house was extinguished without a sound.

There was no terrifying explosion as he had imagined, nor was there the terrifying aftermath that could destroy everything.

At this moment.

All that was left was darkness.

In the endless darkness of the universe, the sword of the mechanical Dominator lay in the center of the huge outer spirit star. It was extremely huge and was wrapped in nomological patterns.

Vaguely.

one could see the shadow of a green true dragon.

And ...

The streams of data continued to intertwine.

It was like chains intertwining.

Suddenly.

Under the sword light of the mechanical Lord.

The extinguished ‘light’.

In an instant, a golden human figure appeared.

It was the heart of the base of colony 001245. After more than 100000 years of evolution, it had become human-shaped, and perhaps it had also developed 'intelligence'?

No one knew.

However ...

The Golden figure appeared.

But it was like the setting sun.

It only lasted for a short moment.

The Golden human figure looked up and focused. In his eyes, there were only the chains and light formed by streams of data.

It was like pilgrims meeting their 'Saint'.

It was like a fanatic meeting their 'God'.

It was as if the people chasing their dreams had seen their dreams come true.

“.....”

Without a sound.

The Golden figure bowed to Jiang Li and knelt down in front of him like a loyal fanatic.

Buzzzzzz!

After that.

The Golden human figure gradually disappeared.

It was as if nothing had happened.

“Just now ...”

what? ” Jiang Li fell silent. am I seeing things? ”

“We’re finished, Yingluo.”

He staggered.

The three moderators staggered and sat on the floor of the conference room.

“He actually slipped away, actually slipped away.”

“We lost! He actually lost!”

“.....”

Trembling!

They were trembling in fear!

Buzzzzzz!

Jiang Li put away his sword.

The vast sword of the mechanical Lord disappeared and turned into rays of light. The ‘Demon Sword’ also merged into Jiang Li’s body. This time, it turned into a black sword mark in Jiang Li’s right palm.

Super Space sniper God, Galaxy Space Archer God.

” go! ” jiang li ordered, ” lead the galactic warriors into the enemy’s base and capture the captives. ”

...

“Yes.”

The Super Space God sniping soldier saluted.

“i promise to complete the task.”

The stellar space divine Archer quickly replied.

They waited quietly.

Capturing the captives did not take too long. Although there were still many ‘mecha operators’ in the enemy base piloting the standard light mecha, they were just putting up a last-ditch struggle.

Half a day later.

All the captives were captured.

They had captured a total of 34.68 million enemy prisoners.

the three base administrators were also included.

In addition.

...

The galactic warriors had plundered a large amount of resources from the enemy base. Just a preliminary estimate was that there were hundreds of millions of low-grade energy crystals, tens of millions of middle-grade energy crystals, and tens of thousands of high-grade energy crystals.

It was only a colony base of the light Civilization, yet there were so many Energy Materials. It was evident how rich the resources of the light Civilization were.

Of course.

The enemy's colonial base still had a large number of military weapons and equipment, as well as various high-tech products. All these things had to be transported back.

He left it to Toria and the others to handle.

He might be able to decipher the technology of the light Civilization.

“Teleport.”

Buzzzzzz!

Jiang Li disappeared and was teleported back to the base on Galaxy 01.

immediately after.

The mechanical fleet carried all the loot back to the base. Jiang Li ordered the galactic warriors to bring all the energy crystals to him.

In the end.

After detailed statistics.

In total, they had seized 780 million low-grade energy crystals, 54 million mid-grade energy crystals, and 40000 high-grade energy crystals.

“alright!”

I’ve gained a lot from this battle. Apart from so many energy crystals, I also got a lot of soul Tinder.

All the energy crystals were stored in a special ‘energy storage’.

‘Energy storage’ was a ‘space item’ created using space technology, which could store a large number of energy crystals. Each small ‘energy storage’ could store 100000 energy crystals, medium ‘energy storage’ could store a million energy crystals, and large ‘energy storage’ could store ten million energy crystals.

“convert.”

Buzzzzzz!

Jiang Li turned on the ‘origin point’ conversion function and converted all the energy crystals in the ‘energy storage’ into energy points.

Among them.

One low-grade energy crystal can be converted to 0.0001 (one in ten thousand) origin point.

In other words ...

it was just a small ‘energy storage’ with 100000 low-level energy crystals stored in it, which could only be converted into 10 origin points.

Shua!

” conversion successful. you’ve received 10 origin points! ”

.....

conversion successful. You have received ten energy Gu!

.....

Time passed.

Half an hour later.

Jiang Li left 80 million low-level energy crystals and converted all 700 million of them. He gained 70000 origin points in total. The exhausted origin points suddenly became rich.

“Alright,” he said.

Jiang Li was all smiles.

“Continue.”

Jiang Li started to convert the intermediate power crystal.

One intermediate-level energy crystal can be converted to 0.01 (1%) origin points.

This way ...

After the 100,000 intermediate-level energy crystals stored in a small ‘energy storage’ were all converted, one could get 1000 origin points.

Shua!

conversion successful. Received 1000 origin points!

.....

conversion successful. Received 1000 origin points!

.....

A series of notifications appeared.

Jiang Li left four million intermediate-level energy crystals and converted all 50 million intermediate-level energy crystals, gaining 500000 origin points.

Finally.

There were a total of 40000 high-grade power crystals.

Jiang Li had converted all of them.

One high-grade energy crystal could be converted into one origin point.

After the conversion of 40000 pills.

He had obtained a total of 40000 origin points.

so,

Jiang Li got a total of 610000 origin points this time. He was still far from the one billion origin points needed to create the ‘master of machines-the God of games’.

“open the soul tinder column.”

Jiang Li had an idea.

Shua!

[ soul Tinder: 138.6 million level-three soul Tinders, 48 million level-four soul Tinders, 5.2 million level-five soul Tinders, 200000 level-six soul Tinders, 10000 level-seven soul Tinders, 500 level-eight soul Tinders, 2400 level-nine soul Tinders ]

“Oh.”

Jiang Li raised his eyebrows. as expected of a level-4 civilization. Even the weakest one in the fleet is a level-three life form.

Obviously.

Because of the gene strengthening liquid, the life level of the universe’s races had become very easy to improve.

As long as one was injected with a certain level of gene strengthening fluid, one would become a certain level of life form.

In addition.

The light fleet.

There were a total of 100000 space carriers, 10 billion battleships, and trillions of mechas and drones.

but ...

Most of the weapons of war relied on AI to operate. Other than a few key positions that required a pilot, everything else was handled by the AI.

“Fuse.”

buzzzzzz!

Jiang Li fused all the level-three soul Tinders and got 13860000 level-four soul Tinders.

After that.

After that, he fused all 151.86 million Tier 4 soul Tinders and obtained 15.186 million Tier 5 soul Tinders.

Immediately after.

A total of 20386000 level-five soul Tinders had been fused, and he had obtained 2038600 level-six soul Tinders.

He fused two million, two hundred and thirty-eight thousand and six hundred sixth-tier soul Tinders.

It turned into 223860 seventh-tier soul Tinders.

After that.

After fusing all 233860 level-seven soul Tinders, he had obtained 23386 level-eight soul Tinders.

After merging all 23880 level-eight soul Tinders, it became 2388 level-nine soul Tinders.

Finally.

Shua! Shua!

origin points: 611300 origin points

[ soul tinder: 6 level-eight soul tinders, 4788 level-nine soul tinders ]

Jiang Li checked the information.

“Not bad.”

okay. Jiang Li nodded in satisfaction.

On the other side.

After capturing the captives, Jiang Li handed them to Toria and the others for interrogation. However, every official citizen of the light Civilization had a ‘light chip’ in their body.

The ‘light chip’ was a trigger.

As long as one had the thought of betraying the ‘Light Civilization’, the device would be triggered directly, destroying the brain and life force. The duration would not exceed one-thousandth of a second.

so,

the interrogation ultimately failed.

Among the three wardens.

Number 4 and number 9 had forcefully resisted Toria’s interrogation and torture. They had even used the Titan race’s biotechnology and various drugs.

Unfortunately ...

There was no other way.

Helplessly.

Jiang Li executed number four and number nine.

Only number three remained.

this was because the seed of fear had been planted in his heart by the evil mechanical god. with a little guidance, he gradually broke down and finally pried open administrator number three's mouth.

But unfortunately ...

Administrator number three only said one word.

After that.

A 'bang' was heard.

His head exploded.

In the end.

Jiang Li didn't get any useful information.

However, he had seized three 'mechs' from the 'Light Civilization'. After they were activated, they would transform into 'Giants of light', with a body as large as a planet.

There was another thing.

the race of the 'light civilization' was called: light race.

His exact appearance.

the light race had a massive head that was like a round basketball, but its body was made of nine octopus-like tentacles. Its skin was golden, as if it had been forged from pure gold.

In reality.

The light race was a silicon-based life form.

## Chapter 756

There was a lot of information stored in the ‘central computer’ of the colony base, including detailed information about the ‘Milky Way’, which was of great help to Jiang Li.

On the second day.

Jiang Li announced that the crisis was over and the enemies from the light Civilization had been eliminated.

Even the light Civilization’s colony base 001245 was destroyed by Jiang Li.

Thus, it eliminated the war disaster that Djinn planet was about to face.

Upon hearing such good news.

All the living beings on Titan star naturally cheered.

They shrieked with joy.

The originally depressed Djinn planet suddenly regained its vitality, and Toria and the others were all smiling and filled with joy. They all heaved a sigh of relief.

Similarly.

jiang wenxin, jiang lijun, jiang beiguo, and zheng qiushui were also relieved.

of course.

The danger was only temporary.

One had to know.

jiang li had destroyed colony base 001245. the civilization of light would receive the news that the colony base was destroyed and even the colony star system was occupied soon.

Because ...

There were nine administrators in colony base 001245. Jiang Li only caught three of them.

If the other six administrators were not in the base.

If they couldn't contact the colony, it would definitely arouse suspicion.

At that time.

He was not far from being exposed.

currently ...

Jiang Li's forces weren't enough to fight against the 'civilization of light'. He couldn't rely on the 'magic sword' to fight against the entire peak level four civilization.

He needed more power.

Three days later.

Toria and the others sorted out all the information that they could decipher in a short time and gave it to Jiang Li.

The Milky Way.

It was like a constantly spinning vortex.

among them.

it was the most powerful civilization.

it was called the galaxy alliance.

Originally.

It was an Alliance created by the nine great Level-6 civilizations in the Milky Way. After tens of thousands of years of evolution, there were 999 Level-5 civilizations and 9999 level-4 civilizations.

The 'Light Civilization' was only one of the 9999 level-4 civilizations in the Milky Way Alliance. They were also one of the members of the 'Milky Way Alliance'.

In addition.

The 'Light Civilization' controlled a total of 100000 star systems.

Among them.

There were a total of 1869 colonial galaxies similar to the 'captive Galaxy' that had planets with life, and only one-fiftieth of them.

Other than that.

There were also all sorts of nebulas and star clusters.

There were a lot of resources in the galaxies.

there was another thing.

in the star system of the ‘light civilization’.

It was called the light Galaxy.

It was an extremely huge star system with a diameter of 100 light years. It had long been built by the light Civilization into the core of the light Civilization.

Except for the Milky Way Alliance.

There were still three major forces.

They were space pirates, Galaxy heroes, and the destroyer.

.....

“The Milky Way Alliance.”

Jiang Li took a deep breath and read the detailed information carefully. the light Civilization, a peak level four civilization, is just an ordinary civilization in the Milky Way Alliance. This shows how powerful the Milky Way Alliance is.

“It seems like I have underestimated the power of the Milky Way.”

also, because the solar system is located at the edge of the Milky Way, all kinds of resources are scarce, so the edge of the Galaxy has not given birth to a powerful civilization.

...

Time passed.

In the blink of an eye.

It had been a month since Jiang Li destroyed the light Civilization base 001245. The entire 'captive Galaxy' was under Jiang Li's rule.

In addition.

okay. Jiang Li had already gathered all the ten galaxies within a ten-Lightyear area around the base.

The current situation ...

as long as there were any enemies, spaceships, or situations, the 01 base would instantly receive accurate news.

He also reported to Jiang Li.

Of course.

jiang li teleported toria and the others to the 'captive planet' in half a month through base 01. toria spent some time and effort to tame the elves on the 'captive planet'.

He changed the name of the captive Galaxy to the spirit Galaxy.

...

the original 'captive planet' was also officially renamed 'planet of spirits'.

The entire sprites had surrendered to Jiang Li and became the third subsidiary race of the great Xia Dynasty, which greatly improved the fate of the great Xia Dynasty.

Something unexpected happened.

Originally.

The Azure Dragon Kingdom of the great Xia was only 1.1 million meters long.

After subduing the sprites, it actually grew to two million meters. Jiang Li's ranking had risen by dozens of places. He felt the Echo of the 'true dragon List'.

Obviously.

This was because the 'sprites' had a unique 'racial talent'. They could completely change their own genetic characteristics and transform into another race that had all the characteristics and talents of that race.

In reality.

In the 'great cosmos plane'.

Although this 'racial talent' wasn't weak, it was limited. This was because the races of the 'multiverse plane' relied on the power of technology and not personal strength.

so,

Even if the sprites transformed into another race, it was impossible for them to directly obtain their technology. They would need a very long time to study it.

The genes of the universe's races would not record any technological information or techniques.

but ...

however, it was different in the 'super fantasy world'.

If ...

Jiang Li had obtained the bloodline genes of the God race, the demon race, and the ghost race in the Super Fantasy world, so he could make the sprites copy and transform.

At that time.

The sprites could directly transform into the God race, the demon race, and even the ghost race.

They would be able to possess the various talents of the God race, devil race, and ghost race.

It was precisely because of this.

The sprites were extremely valuable.

he had great potential.

Therefore, after Jiang Li conquered the elves, the fate of the Empire was greatly improved.

“chief sovereign.”

At this moment.

there’s news from the spirit Galaxy, ” Hidden Dragon reported. an unknown spaceship has entered the spirit Galaxy and is rapidly approaching the outer spirit planet.

“They’re finally here.”

jiang li’s eyes glittered.

Shua!

Immediately.

The star map’s interface opened.

In the image.

What appeared was a meteor shower from the spirit Galaxy. It expanded one of the areas and finally revealed a silver, circular spaceship.

it entered jiang li's eyes.

“There's only one ship.”

Jiang Li took a deep breath and said in a deep voice, ” immediately send out the mechanical fleet and capture the other party.

“Yes.”

Hidden Dragon replied.

Buzzzzzz!

the next moment.

The teleportation was activated.

In that instant.

The ten super stellar space carriers, Super Space snipers, stellar space archers, and the evil mechanical God that Jiang Li had built before.

All of them were teleported to the spirit Galaxy.

One had to know.

Because of the large increase in origin points, Jiang Li used 182000 origin points to upgrade ten super stellar space carriers, Super Space sniper soldiers, and stellar space divine archers to the perfected stage of level ten.

In addition.

Because the soul Tinder did not have a 'drop rate', there were no more 'remnant souls'. The mechanical evil god still needed to merge with a complete soul Tinder to level up.

Ten level-nine soul Tinders could be fused into a level-ten soul Tinder.

so,

With the evil mechanical God's 'devouring evolution' talent, he only needed to absorb a level nine soul Tinder, and he could consume origin points to directly advance to the perfected level ten.

so,

Jiang Li used a level-nine soul Tinder and 14000 origin points to upgrade the mechanical evil god to the perfected level ten.

As a result ...

The combat power of Jiang Li's forces had increased.

half an hour later.

The mechanical fleet took less than a few minutes to end the battle, mainly because the other party had escaped and spent more time chasing.

It had only taken half an hour.

Base 01.

Bang! Bang!

The captured person was administrator number seven of colony base 001245. Like administrator number three, four, and nine, he was also a legitimate 'light race'.

carbon-based life forms.

It had a huge head and octopus-like tentacles.

A golden body.

The Super Space God sniper soldier casually threw it away. After translating it into Chinese, it was called: The milajika light creature was like an octopus lying on the ground.

His face was filled with anger.

"Who are you? Which civilization are you from?"

Mirajika lay on the ground and glared at Jiang Li. She yelled, "release me immediately. You dare to capture a member of the great 'light race'? you will regret this.

shua!

Kachaa!

"let's go." jiang li pointed and cut off one of milajika's tentacles. it rolled aside and turned into a solid gold in the blink of an eye.

"Ah!"

milajika screamed in pain.

"I'm going to kill you! I'm going to kill you, Yingluo!"

milajika continued to roar.

Kachaa!

go! Jiang Li pointed again.

After that.

Another tentacle cut down from the root.

“Ah!”

This time.

arghh! mirajika screamed in pain, but she didn't dare to say anything else. There was only fear in her eyes as she looked at Jiang Li in horror.

“what are you guys trying to do?”

Milajika asked in a trembling voice.

Obviously.

Even if it was the existence of a higher civilization, as long as it was a living creature with intelligence and spirituality, it would have 'seven emotions and six desires' and would naturally feel fear.

In this world.

within the universe.

There would be no living beings without emotions.

Unless it was a dead object.

Because ...

Even a Saint.

There would also be a display of emotions.

“Very good,” he said.

Jiang Li nodded with satisfaction. let me ask you, where’s the nearest colony system to base 001245? ” How far away is it from the 001245 colony?”

“Answer me truthfully!”

“It’s useless without Yingluo, Yingluo.”

Milajika shook her head and said in fear, ” in the light Civilization, as long as you’re a ‘light race’, you’ll be implanted with the’ light chip ‘from the day you’re born.

“Anyone who has made a great contribution and become an official citizen must also be implanted with a chip. You can’t get anything from me.”

“i advise you to give up on this idea.”

our ‘Light Civilization’ is already a peak level 4 civilization. In the Milky Way Alliance, we are also one of the top civilizations. We are only half a step away from achieving a critical breakthrough to become a level 5 civilization.

## Chapter 757 Opening

when the time comes, no matter where you come from, you will have to pay an unimaginable price.

Milajika roared.

“it’s a pity,”

Jiang Li shook his head and walked to milajika. He stood in front of her and covered her with his shadow.

“You, you, you, you, you, you, you ...”

Milajika’s entire body trembled. She quickly shut her mouth and did not dare to say anything more. hurry up! Hurry up! Let me go! Let me go! If you don’t want to do it, otherwise ...

Kachaa!

Jiang Li reached out and grabbed milajika’s head. The golden head that was as round as a basketball was crushed in Jiang Li’s hand.

It fell to the ground like pure gold.

“We’ve captured so many prisoners, but not a single one of them has been interrogated.”

it’s true. Jiang Li sighed. these space civilizations are really secretive about their own civilization information. There’s no leak at all.

This was normal.

For example.

If it wasn’t encrypted.

In the higher civilizations.

If a scientist or a high-level intellectual defected and told everything he knew to the enemy civilization, there would be disastrous consequences.

In addition.

Another example.

The genes of the race had been deciphered by the enemy civilization, and based on the flaws of the race's genes, a special 'genetic virus' was created to destroy the race.

All sorts of situations.

That was enough to show how important it was to keep a civilization a secret.

"Fortunately, it's not like I didn't get anything."

Jiang Li looked at the corpses on the ground. They were just a pile of gold. at least I learned from mirajika that the civilization of light is not only a peak level four civilization, but they're also making a 'technological breakthrough'. If they succeed, they'll become a level five civilization.

a peak level-4 civilization is already so powerful. I wonder how powerful a Level-5 civilization will be.

"I have to deal with this as soon as possible."

buzzzzzz!

The information on Base 01 was released.

I still have enough origin points. I'll upgrade the 01 base to level 10 first.

Jiang Li had an idea.

Shua!

[ using 10 level 10 soul tinders and 1000 origin points, upgrading base 01. ]

a notification appeared.

“chief sovereign.”

Hidden Dragon immediately reported. the base has begun to upgrade. It will take 24 hours to complete the upgrade. Please wait patiently, Lord.

“Yes.”

okay. Jiang Li nodded.

Soon after.

Because the base needed to be upgraded, Jiang Li left Base 01 and went back to Djinn planet.

More than a month had passed.

in addition to the battleship from before.

added together.

Toria and the others had already created a huge fleet.

Among them.

there were 100 million space carriers, a trillion space battleships, biological battleships, mechas, drones, and so on. there were more than 10 trillion of them.

Such a huge interstellar fleet.

It was already powerful enough.

“Little white.”

Buzzzzzz!

” little white. ” jiang li used his consciousness to contact little white.

“Master.”

Little White’s voice came into Jiang Li’s mind.

“Yes.”

yes. Jiang Li nodded. I need to build a plane channel that connects the ‘multiverse world’ and the ‘Tian Yuan world’. How long will it take? ”

...

“Master, it will only take a day to complete.”

Xiaobai answered.

“alright,” he said.

good. Jiang Li nodded in satisfaction. start building it now.

“Yes.”

Xiaobai replied.

With just a token, he could easily create a plane channel that connected two completely unrelated worlds with the help of the power of the immortal court.

It could be seen from this.

It was the power of the human martial immortal court.

The technological civilization in the 'great cosmos' might be extremely powerful.

but ...

...

The 'Super Fantasy world' would only be stronger.

Because ...

Just the will of ancestor white, one of the Five Ancestors of the martial immortal court of the human race, could compete with the will of a great universe.

One had to know.

there were also four existences in the martial arts celestial court that were not inferior to ancestor white.

In addition.

Except for the 'human martial immortal court'.

There were also the demon race bloodline immortal court, the Barbarian race totem immortal court, the God race, the devil race, and the ghost race. These five great existences were not any weaker than the human race's martial arts immortal court.

The more he thought about it.

The more Jiang Li thought about it, the more terrifying the Super Fantasy world was.

He couldn't help it.

Jiang Li remembered the 'war of dynasties' again. He encountered the gods, the demons, Bai Zifeng, and other unimaginable powerful figures.

Their power.

jiang li still couldn't forget it.

Even now.

jiang li had the 'demon sword', a level 12 machine origin soldier. he wasn't confident that he could fight against the gods and the demons.

he could not understand.

It was just like how animals would never be able to learn human language.

Between the two sides.

There was a difference in the source of the origin.

"If I remember correctly."

I think they said 'Tao state', " Jiang Li said. they also said that once you've entered the ' Tao state', you can't enter the 'Super Fantasy world'. That's the rule.

"Then,"

“What level is the ‘Tao state’?”

Jiang Li’s thoughts were running wild.

Maybe he was amazed by the power of the Milky Way, so Jiang Li thought a lot.

He shook his head.

Jiang Li calmed down.

After that.

In the next 24 hours.

let’s go! Jiang Li started giving orders to Toria and the others.

First of all ...

All the interstellar fleets were assembled.

Hundreds of millions of space carriers, trillions of space warships, biological warships, biological mechas, biological drones, and so on were all gathered together.

It was a vast scene.

It had already enveloped the entire Djinn planet.

From afar.

it was almost impossible to see the end of the fleet.

“Roar!”

The Dragon’s Roar shook the sky.

The Azure Dragon of great Xia materialized.

The power was vast.

next, all of you will enter another world and begin a new journey. You will only have one mission, which is to listen to the orders of the two princes, Lin Tianjian and Wu Wuji, and help the ‘Tian Yuan world’ and the ‘strange world’ fuse together. In the end, you will rule over the new fused world.

” let’s go! ” jiang li shouted on the true dragon.

Buzzzzzz! Buzzzzzz!

Jiang Li’s voice spread across the entire planet.

“Yes!”

“We accept your orders!”

the great Xia will win!!!

“.....”

Roars sounded at the same time.

“Alright,” he said.

okay. Jiang Li nodded in satisfaction.

A day later.

Shua!

[ 01 base upgrade complete! ]

A message came from the base.

After that.

Hidden Dragon appeared next to Jiang Li.

“Chief sovereign.”

” jiang li. ” hidden dragon saluted jiang li.

“Yes.”

hmm. Jiang Li nodded and looked at Hidden Dragon. Hidden Dragon was becoming more and more like a real life form. He was no longer a program or a machine.

the base has been upgraded. It has undergone a huge change. At the same time, it is equipped with stronger abilities and can better assist the ruler.

“Do you want to go and take a look?

“There’s no need to rush.”

” no. ” jiang li waved his hand and said, ” send the giant spirit fleet to the ‘tian yuan world’ first. ”

“Yes.”

thank you. Hidden Dragon stood behind Jiang Li respectfully.

Not long after.

“Master.”

Little White’s voice sounded in Jiang Li’s mind. “The plane channel between the ‘great cosmos world’ and the ‘Tian Yuan world’ has been completed.”

“Alright,” he said.

okay. Jiang Li nodded in satisfaction and said, ” open it now.

“yes.”

Xiaobai replied, ” master, please choose your seat.

“Yes.”

okay. Jiang Li nodded and pointed ahead.

Buzzzzzz! Buzzzzzz!

Immediately.

There was an extremely strong spatial fluctuation.

Right in front.

The space began to twist and tear, and a huge crack appeared. White light poured in, and the whole process took less than ten seconds.

In the end.

everything was stable.

What appeared before everyone was an enormous white arched gate.

the opening of the plane channel is complete.

little white said.

“Very good,” he said.

Jiang Li was even more satisfied. He looked at the giant spirit fleet, took a deep breath, and shouted,  
” “All troops, listen up! Enter the plane channel immediately!”

“Yes!”

The entire Army responded.

Hence.

let’s go. Jiang Li led the giant spirit fleet into the plane channel.

Buzzzzzz!

there was a flash.

Jiang Li disappeared into thin air.

Behind them.

The interstellar battleships, space carriers, and so on entered the plane channel in batches and disappeared into thin air like Jiang Li.

The scene changed.

The Tian Yuan world.

high up in the sky.

A huge crack appeared, forming a white arched gate.

Buzzzzzz!

There was a flash.

Jiang Li appeared here.

Shua! Shua!

Two figures rushed over.

They were Lin Tianjian and Wu Wuji.

“Your Majesty.”

“Your subject pays his respects to Your Majesty!”

Lin Tianjian and Wu Wuji bowed at the same time.

“Yes.”

yes. Jiang Li nodded. my giant spirit fleet is about to arrive. I've sent a large number of troops this time and they're very strong. I'll let you two lead the entire giant spirit fleet.

"You only have one mission."

"That is to help the 'Tian Yuan world' and the 'strange world' complete their fusion at the fastest speed possible, and finally completely occupy and rule the New World after the fusion."

"Do you understand?"

Jiang Li asked.

"I understand."

lin tianjian bowed.

"i accept your orders."

Wu Wuji also bowed.

"Very good," he said.

okay. Jiang Li nodded in satisfaction.

buzzzzzz! Buzzzzzz! Buzzzzzz!

Immediately after.

After Jiang Li dodged, the warships and space carriers swarmed in through the plane channel like locusts.

He entered the Tian Yuan world.

In the blink of an eye.

They formed a vast fleet, casting an incomparably huge shadow.

“This Suan ni, this Suan ni”

Hence.

Wu Wuji and Lin Tianjian were so shocked that they couldn’t speak.

Half a minute passed.

The entire Titan fleet had arrived in the Tian Yuan world.

immediately after.

let’s go. Jiang Li took over the ship and let Lin Tianjian and Wu Wuji get to know Luo Klan, the chief of the giant spirit fleet. Then he left the rest to Lin Tianjian and the others.

“Your Majesty.”

Lin Tianjian’s expression changed slightly after his excitement. He said, ” ” this time, the fleet’s arrival has caused such a huge commotion. it will definitely attract many martial saints. perhaps even human immortals will appear. ”

“We need to evacuate as soon as possible.”

“That’s right.”

Wu Wuji nodded, ” Your Majesty, we’ve spent a lot of time. With our martial Saint level strength, we’ve already established a force in the Tian Yuan world and occupied a territory.

“enough to hide the fleet.”

“Alright,” he said.

okay. Jiang Li nodded. I’ll leave the things here to you. I won’t stay here any longer.

As soon as he finished speaking.

Jiang Li turned around and entered the plane channel, returning to the multiverse.

Only Lin Tianjian and the others were left looking at each other.

## Chapter 758 Ten years

Jiang Li went back to the world of the multiverse alone and left the giant spirit fleet under Lin Tianjian and Wu Wuji’s command.

As for what the final result would be ...

I believe it won’t be too bad.

Moreover ...

Jiang Li wouldn’t really ignore it.

Giant spirit planet.

jiang li had already walked out of the plane channel.

“Your Majesty.”

Toria and the other ministers saluted Jiang Li.

Obviously.

Toria and the other eunuchs were not sent to the Tian Yuan world.

they still needed to take care of djinn planet.

“yes.”

okay. Jiang Li nodded.

Buzzzzzz!

After that.

jiang li waved his right hand and the plane channel behind him closed and disappeared. the space returned to normal like water.

Shua!

jiang li arrived at base 01.

after the base was upgraded to level 10.

The size no longer changed.

“Chief sovereign.”

Jiang Li. Hidden Dragon appeared and saluted Jiang Li.

“Yes.”

yes. Jiang Li nodded. open the base information.

“Yes.”

Hidden Dragon replied.

Buzzzzzz!

Immediately.

the projection of the base appeared.

Shua! Shua!

Jiang Li opened the information interface.

“Interface: army base”

[ sub-plane: Base 01 ]

[ level: level 10 ]

[ facilities: ruler Galaxy hub (can be expanded), Galaxy mech factory (can be expanded), Galaxy Research Center (can be expanded), Galaxy Construction Center (can be expanded), Galaxy Sentry tower (can be expanded), Galaxy teleportation room (can be expanded), Galaxy energy station (can be expanded), Galaxy Space battle station (can be expanded), divine punishment (can be expanded) ]

” basic construction requirements: ten normal mechanical soldiers, one normal mechanical engineer, 100 million energy points.

advancement requirements: nine rank-11 soul Tinders, 100000 origin points

after that.

Jiang Li then opened the information about the various realms.

The information of the facility did not change much.

There were no new facilities, nor were there any new facilities or troops.

However ...

all the facilities and units had been upgraded to level 10.

All his abilities were greatly improved.

At the same time.

the power of the divine punishment increased rapidly.

The main body of the ‘spear of divine punishment’ was already condensed from dark energy. If they encountered the ‘fleet of light’ again, Jiang Li wouldn’t even need to come out. He only needed to use divine punishment to kill the fleet of light.

“It’s alright,”

okay. Jiang Li nodded in satisfaction.

A day later.

Jiang Li returned to the Super Fantasy world.

Xu Yahong, Tianqi, and the other princes and Marquises of the great Xia, as well as the various ministers of the great Xia, had all come to welcome him.

...

Jiang Li arrived at the Imperial Palace.

He immediately entered the closed-door cultivation room and began his closed-door cultivation.

He circulated the Azure Emperor Art.

Immediately after.

Jiang Li's consciousness came to the world of the 'true dragon List' and entered the 'illusionary body'. It didn't cause too much of a stir. A purple-gold light fell from the 'Azure Dragon List'.

After that.

It merged into Jiang Li's body.

'Congratulations to the great Xia Empire for its promotion in the National fate. You have risen from 99999th to 97980th. A low level space technique.'

spatial secret technique.

jiang li was overjoyed.

Instantly.

...

his consciousness returned to his body.

a lot of information appeared in jiang li's mind out of nowhere. they were all 'secret skills' related to space. one needed to be at least level nine to start practicing.

“Not bad.”

Jiang Li was very satisfied.

Buzzzzzz!

The feedback of the country’s fate arrived.

Jiang Li used the energy from the Fortune of the nation to cultivate.

a few days later.

Jiang Li came out of seclusion.

His comprehension of the ‘strange laws’ had increased once again.

one had to know.

Jiang Li’s main cultivation was law.

It was the fusion of the ‘Emperor path laws’ and the ‘data stream’.

This upgrade.

jiang li named the ‘strange law’ formed by the two: The Imperial number law was named after the first word of ‘Emperor path law’ and ‘data stream’.

Time flew by.

In the blink of an eye, ten years had passed.

In the past ten years, Jiang Li had been traveling between the universe, the Super Fantasy world, and the 'Tian Yuan world' and the 'strange world'.

Unknowingly.

Jiang Li had already comprehended the 'low-level space secret technique' and understood the mysteries of the space law. He was about to make another breakthrough.

Hence.

Jiang Li chose to cultivate in seclusion in the Imperial Palace on the Azure Dragon floating continent in the Saint peace state.

Buzzzzzz! Buzzzzzz!

In the closed-door cultivation room.

I'll go. Jiang Li used his technique. The marks of law formed by the 'Imperial divination law' gradually filled his arms and chest with the true spirit in his dantian.

"Break!"

BOOM!

"break!" Jiang Li shouted. His aura rose and his energy shook, forming a vast energy storm that swept in all directions. An unparalleled dharma form appeared.

Azure Dragon continent.

Xu Ya, Hong Tianqi, and many other princes and Marquises of great Xia, as well as the ministers and generals of great Xia, and countless people of great Xia, were looking up at the sky.

It could be seen.

It was an incomparably vast and imposing figure.

His body went straight into the sky, and it was impossible to see his entire body. He was only faintly visible among the endless clouds.

It contained an extremely noble Majesty.

Buzzzzzz! Buzzzzzz!

Not only that.

Streams of data flowed around the figure.

Not long after.

His figure disappeared into thin air.

BOOM!

the next moment.

jiang li had officially broken through to the mid-stage of level ten. he had a better grasp of the pattern of law, so he was naturally stronger.

Buzzzzzz!

Suddenly.

” huh? ” jiang li felt the fluctuation of space.

“Oh.”

huh? ” Jiang Li looked over.

It was Lin Tianjian who had returned from the strange world using the spacetime crystal. His face was full of smiles, and he must have brought back good news.

The space-time crystal.

Jiang Li had received the ‘inferior spacetime crystal manufacturing method’ from the ‘true dragon List’ and had given it to the ministers of the great Xia Dynasty.

Currently.

The ‘top-notch blacksmiths’ of the great Xia Dynasty had already grasped the ‘inferior spacetime crystal manufacturing method’.

There was more.

space secret technique-low-level artifact refining, low-level military formation secret technique, and low-level National fortune secret technique. Jiang Li gave them all to the Kings and ministers of great Xia to study and cultivate.

ten years.

the great xia empire had already made a preliminary breakthrough.

shua!

Jiang Li teleported.

He appeared in front of Lin Tianjian.

“Your Majesty.”

Lin Tianjian was shocked, but he immediately bowed to Jiang Li.

“Yes.”

Jiang Li nodded. I’m back.

“Thank you for your concern, Your Majesty.”

Lin Tianjian quickly replied, ” I’ve come back to report the good news about ‘strange world’ to you, Your Majesty. King Wu and I led the giant spirit fleet, and with your help, we’ve gone through many wars and finally unified strange world. We’ve completed the mission Your Majesty gave us.

“I didn’t fail you!”

Lin Tianjian made a 90-degree bow.

“Very good,” he said.

good. Jiang Li nodded in satisfaction. in that case, you and Prince Wu will continue to be in charge of the ‘strange world’.

“Yes, sir.”

Lin Tianjian bowed.

Heavenly Wonder World.

In reality.

With Jiang Li’s help, the merging speed of the ‘Tian Yuan world’ and the ‘strange world’ was getting faster and faster. The merging was completed two years ago.

There was no danger.

Jiang Li named the New World after the fusion: Heavenly Wonder World.

Hence.

A war that engulfed the entire strange heaven world erupted.

In order to occupy the 'strange world', Jiang Li spent a lot of time and effort. He even killed several human Immortals and Dharma gods in the 'strange world'.

It was natural.

jiang li had harvested a lot of soul tinders from this battle.

"Go on."

there's another important task. Harvest the resources of the strange world. Don't forget it. Jiang Li waved.

"I understand."

Lin Tianjian said.

One had to know.

The 'heavenly Wonder World' was a newly-born superior-grade world.

To make an analogy.

It was a newborn baby.

As long as they were harvested properly, they would still have a large amount of lifespan before they faced the destruction of the world.

furthermore ...

If there was an opportunity.

The Supreme-class world was promoted again.

At that time.

That would be a ‘small chiliocosm’.

Shua!

soul Tinder: 13000 level-nine soul Tinders, 1500 level-ten soul Tinders, and 23 level-eleven soul Tinders.

Ten years.

Jiang Li had gained a lot.

Furthermore ...

Jiang Li merged all the soul Tinders below level nine.

origin points: 1.98 million origin points

In addition.

Jiang Li also harvested a lot of origin points in the ‘strange world’. After all, it was a new world. High-quality energy crystal mines kept appearing.

This was because the two worlds had successfully merged.

The vitality stones and magic crystals had all disappeared.

The two fused.

It became the energy crystal of the ‘heavenly wonder crystal’.

This way ...

The energy contained in a low-grade heavenly strange crystal was already ten times that of a low-grade primordial stone or a low-grade magic crystal. From this, one could see how great the changes were after a high-level world was upgraded to a Supreme-level world.

Shua!

Jiang Li closed the interface.

until now, I still haven’t collected enough origin points to build the ‘master of machinery-the God of games’.

Jiang Li took a deep breath.

Shua!

immediately after.

Jiang Li ordered little white to open the plane channel.

Jiang Li walked in.

He left the Super Fantasy world first.

He arrived at Djinn planet.

After that.

They entered the 01 base.

“Chief sovereign.”

Hidden Dragon saluted.

“how’s the situation?”

Jiang Li asked.

“Reporting to you, chief sovereign.”

yes. Hidden Dragon replied, ” after ten years of continuous expansion, the star map that Base 01 can draw now covers a diameter of hundreds of light years.

it’s a pity that we still haven’t found a star system with a planet with life.

“also,”

” in the past ten years, ever since we captured ‘mirajika’, no member or fleet of the’ light civilization ‘has descended. ”

“It’s been ten years.”

Jiang Li looked up at the star map and took a deep breath. I thought the fleet of the ‘Light Civilization’ would arrive in less than half a year.

“The result.”

“He hasn’t come for ten whole years.”

“What exactly happened?”

“.....”

Hidden Dragon was silent for a moment before saying, ” my Lord, there’s only one possibility for this to happen. The ‘Light Civilization’ is facing a huge crisis, and it’s because of this crisis that they don’t have the time and energy to take care of us.

then, what kind of danger would make a peak level-4 civilization, which is close to Level-5, give up on revenge? what if we give up a colonial star system?”

Jiang Li thought to himself, the sprites are slaves with racial talents. I’m afraid they’ll be worth a lot of money even if they’re sold in the Milky Way.

BOOM! BOOM!

Suddenly.

BOOM! Jiang Li heard a boom and an explosion that shook his soul.

“That’s Yingluo.”

what’s going on? ” Jiang Li looked over. His sight and gaze crossed the space and looked into the distance. It was a place tens of thousands of lightyears away from him.

In reality.

It was the center of the Milky Way.

it caused an explosion.

Furthermore ...

Such a terrifying explosion and such a huge movement could be observed and sensed by Jiang Li across tens of thousands of lightyears.

“what happened?”

Jiang Li was stunned.

Chapter 759 beginning

Confusion.

It was shocking.

And doubts.

Jiang Li had a feeling that something shocking must have happened tens of thousands of light years away.

It was highly possible.

The reason why the light Civilization's fleet did not appear was also related to this matter.

Unfortunately ...

Jiang Li's strength was too weak.

he could only rely on some clues and some information he knew, and then make some guesses and inferences out of thin air. these guesses and inferences might be wrong.

In the center of the Milky Way.

the location of the galaxy alliance headquarters.

It was called the Alliance Galaxy.

This was a Galaxy system with a diameter of tens of thousands of light years.

It was the headquarters of the Milky Way Alliance.

at this moment.

Buzzzzzz! Buzzzzzz! buzzzzzz!

The space shattered as if the starry sky had collapsed. Countless stars shattered and turned into cosmic dust. The spatial cracks were like peerless sharp blades, drawing out sharp glints.

In the Alliance Galaxy.

It had been forcefully divided into three regions by three different forces.

In one of the regions.

It was formed by the nine Level-6 civilizations of the Milky Way Alliance, 999 Level-5 civilizations, and 9999 level-4 civilizations.

The core power of the Milky Way Alliance.

They formed the ‘Galactic Fleet’.

In another area.

Wind!

Gale!

roar! Roar! “Roar!”

The battle cry was like a Dragon’s Roar.

He looked around.

They were densely packed.

In the universe.

Standing there were soldiers in black armor and holding long halberds.

The terrifying thing was ...

Every soldier here.

they were all grade 9.

furthermore ...

All of them were at the great circle of tier 9.

Terrifying!

This was simply too terrifying!

How could there be such an Army?

In that instant.

The soldiers roared, and a murderous military Qi covered the starry sky. The Qi activities were connected, forming an unparalleled military formation and revealing a black flood Dragon.

He took a closer look.

It was a nine-clawed flood Dragon.

The nine-clawed flood Dragon stretched out its head.

They appeared right in front of the Army.

On the dragon's head.

the one standing was a 'black-armored general'.

He stood on the head of the flood Dragon with his hands behind his back. His hair and beard fluttered in the wind. He had an indifferent expression, an absolute confidence, and an unparalleled fighting spirit.

he looked at the fleet of the milky way alliance.

His eyes revealed a trace of disdain.

Obviously.

In this area was the Army of the Emperor dynasty from the Super Fantasy world.

...

And in the last area.

There was only a sky full of purple flames.

The flames were like the evolution of laws.

He actually slipped away.

There was actually only one person with a peerless figure.

one person!

Only one person!

she was a peerless woman!

His gaze moved closer.

It was hazy, but it was extremely noble.

It was as if ...

...

She was the Supreme 'heaven'.

He stood there.

This caused both sides to be unable to continue fighting.

In reality.

The terrifying explosion that Jiang Li just saw was from this woman surrounded by purple flames. She had a Purple Phoenix mark between her eyebrows.

One palm!

It was only one palm!

the collision between the two sides was annihilated!

It was too terrifying.

“Fairy Bai,”

The general in black armor bowed respectfully to the peerless beauty. I didn’t expect such a low-level battlefield to attract your attention.

I believe in the order of His Majesty, the Qin Emperor, to destroy the Milky Way Alliance and disrupt the order of the Milky Way. This will pave the way for the descent of the lower imperial dynasties of the Super Fantasy worlds.

“you’re awesome!”

Buzzzzzz!

That peerless beauty waved her Jade-like hand, and Li Xin immediately shut his mouth, not daring to say more.

One had to know.

The peerless woman in front of him.

It was unknown how ancient it was.

As for strength?

Hehe.

Li Xin didn't even dare to think about it.

Furthermore ...

li xin also heard a lot of rumors that the reason why the qin emperor didn't have an empress was because he wanted to marry this 'white fairy'.

It was a pity.

This 'fairy white' seemed to have no interest in the Qin Emperor at all.

"I'll do it."

This 'white fairy' said.

"Eh?!"

huh? " Li Xin was stunned, " fairy Bai, you actually want to personally take action? "

"Yes."

The White fairy nodded.

"Yes."

"All troops, listen up! All troops, retreat! Activate the battle formation!" Li Xin immediately shouted.

"Yes, sir!"

The soldiers responded in unison.

Shua! Shua!

The entire Army quickly retreated.

roar! roar!

The nine-clawed flood Dragon roared and coiled like a giant python, protecting the entire Army.

“They’re crying”

The Milky Way fleet.

This was a space fleet formed by the core forces of the Milky Way Alliance. They had unparalleled strength and were the leaders of nine Level-6 civilizations.

They were all concentrated on the ‘Galactic mothership’.

The Galactic mothership.

This was a space carrier built with the core technology of the nine Level-6 civilizations.

In reality.

The Milky Way Alliance had ruled the entire Milky Way for God knows how many years, so it should be counted in units of tens of thousands of years.

He was tyrannical.

the overlord of the milky way.

They could never have imagined that.

All of a sudden.

An Army that they had never seen before had descended. The difference in military strength between the two sides was clearly more than 10000 times, but the other side had crushed their fleet with ease, making it hard for them to breathe.

What was even more terrifying was ...

Just as the battle between the two sides reached a state of white heat.

It was as if he was above the starry sky.

a fair, jade-like hand appeared.

it was surrounded by endless purple flames.

Vaguely.

It was as if he could see the endless world wailing as it burned under the purple flames.

BOOM!

The next moment.

The palm print descended.

It suppressed both sides, annihilating all attacks and extinguishing the flames of war.

After that.

An unparalleled beauty appeared.

Such a mighty force.

it was truly unimaginable.

“All fleets, hear my order.”

Buzzzzzz! buzzzzzz!

Finally ...

The ‘Galactic Fleet’ decided to launch a general attack.

They were going to fight with their backs to the wall.

He looked around.

The entire Alliance star system was filled with motherships and battleships, equipped with endless firepower.

Antimatter energy, dark matter energy, and universe law-grade weapons.

At this moment.

he had released all of them.

In that instant.

it formed a brilliance that filled the starry sky.

“Exterminate.”

that ‘white fairy’ merely pointed out with a finger. that was an invisible fluctuation, an invisible power that surpassed all so-called energy sources and all kinds of laws.

It contained the laws of destruction.

After that.

It was like a light bulb going out.

It cut off the supply to the source.

All the attacks.

antimatter, dark matter, universal law weapons ...

They all disappeared.

It was as if a gentle breeze had blown away all the attacks, as if they had been piled up with dust.

Silently, they were all annihilated.

“No!”

“What level is this bi an?”

“.....”

Fear!

Endless fear!

Like a tidal wave, it surged into the hearts of the civilizations and races in the Milky Way Alliance. Facing such a powerful existence, they lost all will to resist.

“Be destroyed.”

Buzzzzzz!

That ‘white fairy’ raised her hand and slowly lifted it up. An endless Purple Lotus appeared out of thin air and covered more than half of the Milky Way fleet.

burning!

It was burning crazily!

the purple flame attached itself to the battleships, burning everything. it was impossible to put it out, and even space could be burned as fuel.

At this moment.

The entire battlefield had turned into a fiery hell.

Within ten breaths.

The entire Milky Way fleet was annihilated.

In other words ...

All the higher-ups and core forces of the Milky Way Alliance were annihilated.

The ‘white fairy’ stopped and remained silent. After sensing something, she immediately looked toward a certain place in the Milky Way. The corners of her mouth rose slightly, as if she had seen something interesting.

“Hehe.”

This ‘white fairy’ laughed lightly, and then she disappeared into thin air.

“Tsk, tsk.”

Li Xin looked at the scene on the battlefield, shook his head, and sighed, ” “I didn’t expect that the mission given to me by the Qin Emperor would be completed in such a way.”

“Forget it,”

“let’s return first and report the news of our encounter with ‘fairy bai’ to the qin emperor.”

As soon as he finished speaking.

li xin didn’t even clean up the battlefield. instead, he directly opened the plane channel and led the entire army into the plane channel.

Obviously.

The entire battlefield.

Everything was burned to ashes, and nothing was left.

Giant spirit planet.

Jiang Li didn’t know it had happened.

However ...

Jiang Li seemed to have noticed something when the ‘fairy white’ looked over. He glanced at the center of the Milky Way and then looked away in confusion.

Jiang Li took a deep breath. no matter what, the most important thing is to improve my strength. I have enough origin points and soul Tinders.

it's time to activate a higher level mechanical interstellar Army.

“Also,”

” i’ve comprehended the ‘inferior national aura secret technique’ and the ‘inferior military formation secret technique’ from the ‘true dragon list’ in the past ten years. perhaps i can use my mechanical army to set up a military formation. ”

“When the time comes.”

the mechanical Army’s combat power will increase by many times.

He made a decision.

Jiang Li immediately took action.

Shua!

[ interface: mechanical interstellar Army type ]

[ Level 7 troop type: Yingluo ]

level 8 troops: stellar-level space war mothership (unlocked), stellar-level space fortress (unlocked)

?.....?

A few years ago, Jiang Li used one hundred and twenty-eight level-eight soul Tinders to unlock the ‘stellar-level interstellar fortress’.

use nine level-nine soul Tinders and 10000 origin points to unlock the level-nine mechanical interstellar Army.

Jiang Li confirmed.

buzzzzzz!

immediately.

Nine ninth-rank soul Tinders and 10000 origin points were deducted.

Shua!

unlocking the level 9 mechanical interstellar Army type. Countdown: 10?9?8?7.....?

[ the countdown has ended. ]

the level 9 mechanical interstellar Army type has been unlocked.

[ can be expanded. ]

A notification appeared.

“Unfurl.”

Jiang Li had an idea.

[ interface: mechanical interstellar army ]

[ Grade 7 troop type: bi an (omitted) ]

[ level 8 troop type: bi an (omitted) ]

level 9 troop type: Galaxy-level energy war mothership (unlocked), Galaxy-level energy war fortress (locked)(13000256)

?.....?

intergalactic energy war fortress unlocked.

Jiang Li said.

Buzzzzzz!

He had consumed two hundred and fifty-six level-nine soul Tinders.

Shua!

[ intergalactic energy battle fortress has been successfully unlocked! ]

A notification appeared.

“Very good,” he said.

okay. Jiang Li nodded in satisfaction. continue to unlock level ten mechanical interstellar soldiers.

“Whoosh!!!”

This time.

He used up ten level-ten soul Tinders and one million origin points, which reduced his origin points storage by more than half.

Ten seconds later.

mechanical interstellar Army type level 10 interstellar Army type has been unlocked.

[ can be expanded. ]

notifications popped up one after another.

Buzzzzzz!

The next moment.

hmm? ” Jiang Li sensed the vast fortune of the Empire coming across time and space.

He felt it carefully.

These were his gains from conquering the wondrous world.

Lin Tianjian and Wu Wuji had truly unified.

Roar! roar!

The great Xia Azure Dragon roared.

The fate of the nation increased.

in the blink of an eye.

The Azure Dragon Kingdom of great Xia had actually increased to five million.

Occupying a superior-grade world would actually bring such a huge improvement.

“Very good,” he said.

it calmed the fluctuations of the country's fate.

Jiang Li's face was full of smiles.

Not only that.

he also felt the true dragon roll calling out to him again.

Chapter 760 Unlocking

buzzzzzz! Buzzzzzz!

Azure Dragon. Jiang Li activated his cultivation technique. The Azure Dragon of Xia circled in the air and his aura gradually calmed down.

After that.

The Xia Azure Dragon turned into a Blue Dragon Shadow and merged into Jiang Li's body.

He disappeared into thin air.

The Empire's fate that was constantly shaking also returned to normal.

Shua!

Jiang Li immediately opened the interface of the level 10 mechanical interstellar Army.

[interface: mechanical interstellar Army type]

[Grade 7 troop type: bi an (omitted)]

[level 8 troop type: bi an (omitted)]

[level 9 troop type: bi an (omitted)]

[level 10 troop Type: Magical-level elementary war mothership (unlocked), magical-level elementary Guardian fortress (locked)(1491512)]

?.....?

“Yes.”

I didn't expect that there would be elementary law-level troops after unlocking level ten mechanical interstellar troops.

one had to know.

When Jiang Li used the soul Tinder and origin point to upgrade his troops to level ten, there were no law-level mech troops.

in reality.

Just because it wasn't marked didn't mean it wasn't there.

no matter what.

to be able to teleport through space, that was the performance of using the 'spatial laws'. it was just that' spatial teleportation 'could only be considered as a superficial use of the' spatial laws'.

unlocked law-level elementary battle fortress.

go! Jiang Li ordered.

Shua!

512 level-ten soul Tinders have been consumed. The magical-level elementary battle fortress has been successfully unlocked.

A notification appeared.

if I want to unlock the level 11 mechanical interstellar Army, I have enough level 11 soul Tinders, but I'm lacking a lot of origin points.

I need 100 million origin points to unlock it. Jiang Li said.

Shua!

origin points: 970000 origin points

The difference was huge.

“hidden dragon,”

Jiang Li shouted.

“Chief sovereign.”

thank you. Hidden Dragon immediately appeared in front of Jiang Li and saluted. please tell me what to do.

“Immediately upgrade to Base 01.”

go! Jiang Li ordered.

“Yes.”

yes. Hidden Dragon replied, " this advancement will consume ten rank-11 soul Tinders and 100000 origin points.

"Let's start."

Jiang Li said.

Buzzzzzz!

The promotion began.

A vast amount of Origin Energy enveloped the entire 01 base.

With Jiang Li's mid-tenth level 'law realm' cultivation, he could already feel countless laws gradually integrating into the base under the guidance of the origin Energy.

"Chief sovereign."

"Another 24 hours to complete the upgrade," Hidden Dragon reported.

"Alright," he said.

" okay. " jiang li nodded and asked, " can i use the galaxy mech factory during the promotion? "

"Temporarily not."

yes. Hidden Dragon replied, " after this upgrade, the base will undergo a huge change.

"i know."

...

jiang li stopped asking.

A day later.

[ 01 base upgrade complete! ]

Jiang Li received a notification.

Shua!

Jiang Li landed in the base.

After that.

Jiang Li noticed.

the base could actually merge with space.

It was between existence and non-existence.

It was extremely mysterious.

...

of course.

the size of the base had not changed.

“Chief sovereign.”

The hidden Dragon appeared.

Hidden Dragon didn't seem to have changed much.

but ...

However, Jiang Li felt the power of law from Hidden Dragon.

“Yes.”

okay. Jiang Li nodded. how is it? ”

“Reporting to you, chief sovereign.”

“The base has already been integrated with the laws, and this subordinate also possesses a preliminary body of laws,” said Hidden Dragon.

“Oh.”

jiang li was surprised.

“chief sovereign, please take a look.”

Shua!

Hidden Dragon displayed the basic information of the base.

“Interface: army base”

[ sub-surface: No. 01 Basic Law base ]

[ rank: rank 11 ]

[ facilities: master elementary law hub (can be expanded), elementary law mech factory (can be expanded), elementary Scientific Research Center (can be expanded), elementary law Construction Center (can be expanded), elementary law Sentry tower (can be expanded), elementary law teleportation room (can be expanded), elementary law energy station (can be expanded), elementary law universe space battle station (can be expanded), elementary law divine punishment (can be expanded), law heart (can be expanded) ]

basic construction requirements: ten normal mechanical soldiers, one normal mechanical engineer, 100 million energy points.

advancement requirements: nine level-twelve soul Tinders, ten million origin points ”

Jiang Li Read through the basic information of the base carefully.

Obviously.

The base had already become a Basic Law base.

It was infused with the laws.

Every facility was equipped with the power of the laws.

In addition.

There was also a brand-new facility, the ‘heart of laws’.

Immediately after.

Jiang Li looked through all the facilities carefully.

Ten facilities.

Only the ‘ruler’s primary magical hub’ had not been updated with new facilities and troops.

The other nine facilities all had new units.

“Facility: Basic Law-level mech factory”

factory units: Pi Xiu, elementary law-level mech production line (locked)(141), elementary law-level mech production line (locked)(142)

.....

[facility: elementary magical research Center]

research soldier type: Youyou, elementary law-level research soldier (locked)(141)”

.....

[facilities: elementary magic-level Construction Center]

[construction unit type: Pi Xiu, elementary law-level mechanical base builder (locked)(141)]

.....

[facility: elementary magic Sentry tower]

[Sentinel troops: Pixiu, elementary law-level Galactic Sentinel troops (locked)(141)]

.....

[facilities: elementary law-grade teleportation room]

teleportation unit type: Pixiu, elementary law-level space teleportation unit (locked)(141)

.....

[facilities: elementary magical energy station]

nuclear soldiers: Pixiu, elementary law-level research energy fusion mech (locked)(141)”

.....

[facility: elementary law-grade universal space battle station]

[Space Station unit type: Pi Xiu, elementary law-level space detection base (locked)(141)]

.....

[facility: elementary law-level heavenly punishment]

[heaven’s punishment army type: suan ni, elementary law heaven’s punishment army (locked)(141)]

.....

[facility: heart of Law]

magic soldier type: elementary magic pool (unlocked)”

.....

immediately unlock all the facilities and units.

Jiang Li used ten level-eleven soul Tinders to unlock ten new facilities.

He would find out more about the functions of the new facilities in the future.

Hidden Dragon, immediately activate the ‘elementary law-level mech factory’ at full power.

start building level ten mechanical interstellar soldiers, ” Jiang Li ordered.

“Yes.”

yes. Hidden Dragon replied, ” my Lord, using the elementary law-grade mech armament factory to create a level 10 mech interstellar soldier requires 50 million tons of steel materials, 50000 tons of Star Iron, and 100 origin points.

“Alright,” he said.

how much steel materials and Star Iron do we have now? ” Jiang Li asked.

“Reporting to you, chief sovereign.”

the amount of steel materials is already inexhaustible, ” said Hidden Dragon. Star Iron, on the other hand, is a more precious material.

it’s even tougher than Dark Iron. Even ‘strong interaction materials’ can’t compare with it.

“After all ...”

the strong interaction force material is a top-tier man-made material.

“The star Iron is ‘naturally formed’ in the universe.”

since the ‘strong interaction material’ is man-made, the ‘strong interaction force’ can be destroyed according to the laws within it, thus easily destroying the material.

” but star iron is different. we can’t figure out the rules, so we can’t destroy it easily. we can only destroy it with brute force. ”

“Currently.”

the reserve of Star Iron is 50 trillion tons.

“50 trillion.”

so much? ” Jiang Li was shocked. it’s enough for now.

“Hidden Dragon,”

build a thousand basic-level motherships and a thousand basic-level battle fortresses immediately.  
Jiang Li ordered.

“Yes.”

Hidden Dragon replied.

Shua!

Immediately.

The 10th level of the Galaxy mech factory started to operate.

Buzzzzzz! Buzzzzzz!

The wormhole transmission was activated.

Time passed.

A large amount of steel materials and Star Iron were transported into the furnace, and the ‘mechanical interstellar Army’ began to be created. They were then injected into the origin point and carried out the final transformation.

in total, one hundred billion tons of steel materials, one billion tons of star iron, and two hundred thousand points of origin were consumed.

one had to know.

no. 01 basic law level base was already an 11th level base.

so,

It was very fast to create level 10 troops.

Half a minute later.

2,000 level 10 mechanical interstellar soldiers were completed.

Buzzzzzz! Buzzzzzz!

Instantly.

Jiang Li released 2000 level 10 mech interstellar soldiers from the factory and they appeared in space.

A thousand space carriers and a thousand fortresses.

They were like huge stars.

The scene was shocking.

Shua!

Immediately.

Jiang Li opened the message.

He checked.

interstellar troop type: law-level elementary war mothership

[ level: level 10 ]

[ military rank: Marshal-star-level ]

[ No.: Fzjcdzmj01-xxjxsacred ]

level 10 skills: mechanical intelligence, elementary destruction law energy drive, energy firepower, energy defense, energy Soldier Research and manufacture, energy warship research and manufacture ”

[ elementary destruction law level: fused ‘elementary destruction law’ and ‘energy drive’, grasping the power of the universe law level. ]

[ machinery: Jian Jia (omitted) ]

promotion condition: unable to be promoted ”

.....

” interstellar army type: magical-grade elementary guardian fortress

[ level: level 10 ]

[ military rank: Marshal-star-level ]

[ No.: Fzjcdzzbl01-xxjxsacred ]

level 10 skills: mechanical intelligence, elementary protection law energy drive, energy firepower, energy protection, energy protection and research and manufacture, energy protection Ship Research and manufacture ”

[ elementary Guardian law level: a battle fortress that has fused ‘elementary Guardian law’ and ‘energy-driven’. It has grasped the power of the universe’s laws. ]

[ machinery: Jian Jia (omitted) ]

promotion condition: unable to be promoted ”

.....

Jiang Li finished reading the basic information of the two types of interstellar soldiers.

Two types of troops.

The motherships specialized in interstellar warfare and were equipped with powerful firepower. They had also fused with ‘elementary destruction laws’. The Guardian fortresses were completely different. Their main abilities were defense and protection.

One for attack and one for defense.

They were able to cooperate with each other.

The mothership and The Guardian fortress were paired together.

this way, he would be able to attack and defend.
