

Army 761

Chapter 761 Chaos

In addition.

A level 7 space soldier could produce a million soldiers, and a level 8 space soldier could produce 100000 space battleships and 10 million soldiers.

A level 9 interstellar soldier type could create a million interstellar battleships and 100 million interstellar soldiers.

It could be said that ...

Every time he unlocked a higher level of interstellar Army.

Correspondingly.

the number of one-time use mech soldiers created using 'universal energy' would be ten times more than the original.

it was precisely because of this.

in addition, the abilities of high-level and low-level space soldiers were basically the same, so there was no need to create low-level space soldiers.

The low-level troops were gradually replaced by high-level ones.

Level 10 low-level elementary war mothership.

It could produce ten million energy source battleships and one billion energy source soldiers.

A rank 10 rule-level elementary Guardian fortress.

It could produce ten million energy Guardian spaceships and one billion energy Guardian soldiers.

At the same time.

All the 'energy troops' created from 'cosmic energy' would have the ability of 'elementary law-level' and have stronger combat power.

"yes."

Jiang Li nodded. it's mainly because I don't have enough origin points. Otherwise, I could've unlocked all the level 11 mechanical interstellar troops.

now, I can only transition to a level 10 interstellar Army.

The military forces were replenished.

jiang li rested on titan star for a day. at the same time, he tested the power of the 'basic-level protogenic battle mothership' and 'basic-level protogenic defensive fortress'.

He was quite satisfied.

Every attack of the law-level elementary battle mothership was augmented with 'elementary destruction law', which multiplied the power of the attack.

It contained the power of destruction.

In reality.

A level 4 civilization would use dark matter as an energy source.

Level 5 civilizations had already started to study the various laws of the universe and attached the power of the laws to different weapons, equipment, or daily necessities.

Not only that.

He also began to integrate the laws into his body, gradually changing into a body of laws.

Of course.

A level 5 civilization was only at the initial stage of using the laws of the universe.

Level-6 civilization.

That was completely different.

It could perfectly use the laws, and it could even merge different laws to reach an even more powerful level.

Obviously.

The Super Fantasy world was even more different.

in the super fantasy world.

He was extremely talented.

Even those below the ninth rank would have the initial contact with the laws and grasp the profound meaning of martial arts and other law-type attacks. It was just that their own energy essence was insufficient.

Tenth rank.

It was the nomological realm.

at this level.

He had to comprehend the laws.

A few days passed by in a flash.

The Milky Way.

Because the 'Milky Way Alliance' was destroyed, the entire Milky Way lost its 'laws'. In just a few days, it had already fallen into chaos.

Space pirates, Galaxy Hero Alliance, destroyer.

The other three forces began to invade the original territory of the Milky Way Alliance and gradually encroached on it. The Milky Way Alliance, which had lost its core power, kept retreating.

So on this day.

The armies of the lower-level empires of the Super Fantasy world arrived one by one.

Buzzzzzz! Buzzzzzz!

Many galaxies.

Space and time split open.

...

One after another, huge vortex portals appeared. From the vortex portals, one army and Legion after another were teleported over, garrisoning one life planet after another.

A lower imperial dynasty.

From the ninth to the seventh level.

They all belonged to lower imperial dynasties.

Generally speaking.

The strongest person in a lower imperial dynasty was at level 12.

He had already condensed a body of laws.

Obviously.

The war of invasion of the ‘Super Fantasy world’ against the ‘great universe world’ had already begun.

“this bi an ...”

Jiang Li was looking into the distance. There were runes of the law of space in his eyes. He had mastered the ‘eye of space’. He could look into the distance.

...

with the eye of space, jiang li could see thousands of light years ahead.

Hence.

jiang li saw many plane channels being opened.

” why did so many of them suddenly appear? ”

Jiang Li thought, is it related to the explosion at the center of the Milky Way a few days ago? What happened that day?”

looking at this situation, I’m afraid it’s a precursor to a full-scale invasion.

why didn't the 'will of the great cosmos' change? ”

Thinking of this ...

Jiang Li didn't even dare to think about it.

To make an analogy.

the 'world of the great universe' was the home of the 'will of the great universe', and the 'will of the great universe' 'was the master of this' home'.

Now, a stranger had directly invaded this 'home'.

As the master.

He definitely wanted to chase them away.

But now ...

however, the 'willpower of the great cosmos' didn't move at all.

The only explanation was ...

Something had happened to the 'will of the great cosmos'.

“Chief sovereign.”

at this moment.

it's here. Jiang Li, the hidden Dragon, quickly reported, ” there's an extremely strong and abnormal space-time fluctuation on the planet. A tunnel has appeared that crosses the world barrier.

“Show me the image.”

go! Jiang Li ordered.

“Yes.”

hidden dragon replied.

Buzzzzzz!

The star map of planet spirit was presented in front of Jiang Li.

in the image.

It was the entrance of a vast plane channel, like a golden vortex gate, with many floating warships coming out.

It stopped in the sky above the planet of spirits.

There were many of them.

It was obvious.

It was an Army from a ‘human dynasty’ in a ‘Super Fantasy world’, but the plane channel had appeared in Jiang Li’s territory.

let’s test it out. Jiang Li was silent for a while and then immediately gave an order, ” perfect. Two thousand level-ten interstellar soldiers have just been created. Let’s use them to test their power.

immediately mobilize the tenth level interstellar fleet.

“Yes.”

Hidden Dragon said.

“teleport!”

buzzzzzz!

Instantly.

an invisible space ripple enveloped the 1000 basic protogenic battle motherships and 1000 basic protogenic battle fortresses, and they were teleported away.

It landed on the planet of spirits.

what’s that?!

Planet spirit.

The Army’s Commander-in-Chief of the human Empire’s ‘peacekeeping force’, Prince Vidari, was stunned for a moment. The’ plane channel ‘behind him had just closed.

This time.

The Emperor dynasty had sent out a ten-trillion Army to maintain the peace.

In addition.

Maintaining the dynasty was the eighth level of dynasty.

It was considered average among the lower imperial dynasties.

The two sides faced off.

“This is the territory of the ‘great Xia Dynasty’. Please leave immediately. Otherwise, we will label you as ‘intruders’ and deal you with a destructive blow.”

Fzjcdzzmj01–xxjxbgch’s mechanical intelligence transmitted a voice.

“The Imperial court of the Grand Xia.”

“eh?!”

I didn’t expect you to be from the human empire of the Super Fantasy world.

“I’ve never seen such an Army before.”

“Hehe.”

“Great Xia Dynasty, never heard of it before. It must be the lowest of the ninth class, the Emperor dynasty. To actually dare to speak to our Army that is maintaining the Emperor dynasty like this, you are really bold.”

“What right do you have to say that this is the territory of your ‘great Xia Dynasty’?”

you must know that this is a ‘brand-new greater thousand world’. If it is successfully occupied, it will be enough to give birth to a ‘Holy Land’, which will be an existence that surpasses the Imperial dynasty.

the appearance of each ‘greater world’ is an unprecedented opportunity. All 129600 imperial dynasties are qualified to enter and seize the opportunity.

“To become a ‘Holy Land’.”

“.....”

The marshals and generals of the peacekeeping force berated him in a deep voice.

Instantly.

The atmosphere between the two sides became tense.

Buzzzzzz! Buzzzzzz! Buzzzzzz!

The vast energy of the universe gathered towards the 2000 level 10 interstellar soldiers.

“Move out.”

Buzzzzzz! Buzzzzzz! Buzzzzzz!

The ship’s door opened.

Instantly.

there were energy battleships, energy soldiers, energy guardian battleships, and energy guardians.
they were all mobilized, forming a terrifying mechanical army.

“Kill!”

“Destroy the intruders!”

“boom!”

The war began.

Roar!

Immediately.

let's go! the Army set up a level ten battle formation and surrounded Jiang Li's mechanical Army. The two sides fought their way into the universe.

The images of the war were all sent to Jiang Li.

Time passed.

Half an hour later.

The 'level 10 army formation' of the peacekeeping force was on the verge of collapse. The energy soldiers were endless, but the peacekeeping force of the dynasty suffered quite a lot of losses.

"Retreat!"

Helplessly.

Vedali could only lead his Army to retreat.

"teleport."

Buzzzzzz!

I'll try. Jiang Li took a step forward. He had already mastered the basic spatial secret technique. There were patterns of the spatial law under his feet, forming marks.

He stepped forward.

That was a distance of one light year.

After a few steps.

Soon, Jiang Li arrived at the outer space of the planet.

“Sword, come.”

Clang!

” demon sword. ” jiang li raised the ‘demon sword’ in his hand and released level twelve power. he looked at the army and raised the ‘demon sword’.

“Sword Qi of the demonic sword!”

shua!

die! Jiang Li swung his sword. The power of the sword crossed the space and destroyed the level 10 formation of the peacekeeping force.

“no!”

Pfft! Pfft! “Pfft!”

he screamed again and again.

blood splattered everywhere, and corpses fell.

Countless corpses were floating in the universe.

One sword!

Jiang Li destroyed the level 10 battle formation with one strike!

“Rank 12! This is the power of a rank 12!”

“This Suan ni, this Suan ni”

“Quickly run!”

Vedali and the others were terrified.

However ...

It was too late.

The mechanical fleet immediately surrounded them. Without the power of the level 10 army formation, the Army was forced to retreat in the face of the level 10 energy meches.

He was no match for them at all.

Buzzzzzz! Buzzzzzz! Buzzzzzz!

At the same time.

A large number of soul Tinders flew out of the battlefield and formed a colorful torrent. They all rushed to Jiang Li and were all captured.

an hour later.

The war was over.

Jiang Li's level-ten interstellar fleet won the battle. They killed ten trillion enemies and harvested a large number of soul Tinders and the resources of the entire Army.

Shua!

Jiang Li returned to the No. 01 elementary law base.

“Hidden Dragon,”

the No. 01 Basic Law base is already at level 11. It can produce level 11 gene strengthening liquid. It should be able to give me a body of law.

“When the time comes.”

“It’ll be much easier to cultivate.”

begin gene strengthening fluid production.

go! Jiang Li ordered.

“Yes.”

yes. Hidden Dragon replied, “Lord, do you want to complete all the facilities and units in the ‘elementary law-level Research Center’? This way, the production speed of the gene strengthening liquid will also increase.”

“Alright,” he said.

yes. Jiang Li nodded. I’ll add it immediately.

Buzzzzzz!

A total of 100000 origin points were deducted this time.

“Chief sovereign.”

“All the research units have been replenished,” Hidden Dragon reported.

Chapter 762 Scientific research

“Hidden Dragon, you may begin.”

run the basic magical research Center at full power, ” Jiang Li said.

“Also,”

how much time and resources would it take to research gene strengthening liquids from rank-8 to rank-11? ”

“Chief sovereign.”

“Researching the ‘rank-8 gene strengthening liquid’ requires a rank-8 elixir and one trillion energy points. The ‘rank-9 gene strengthening liquid’ requires a rank-9 elixir and ten trillion energy points.”

‘level 10 gene strengthening fluid’ requires a level 10 elixir and a hundred trillion energy points.’Level 11 gene strengthening fluid’ requires a level 11 elixir and a trillion energy points.

it won’t take too long. It’s estimated to be more than a month.

“Very good,” he said.

it’s good. Jiang Li nodded in satisfaction. much less than I expected.

“It’s also much shorter.”

“Begin immediately.”

Jiang Li said.

“Reporting to you, chief sovereign.”

“Currently, in No. 01 elementary law base, there are only eighth and ninth-grade spirit herbs, no tenth and eleventh-grade spirit herbs,” said Hidden Dragon.

for the time being, we can’t find the ‘level 10 gene strengthening liquid’ and ‘level 11 gene strengthening liquid’.

“Then let’s start with the type 8 and type 9 gene strengthening Fluid Research.”

Jiang Li said.

“Yes.”

” yes. ” hidden dragon replied, ” this research will consume grade eight and grade nine spiritual medicine, as well as 11 trillion energy points. it is estimated to be completed within a day. ”

“Alright,” he said.

okay. Jiang Li nodded.

“little white, immediately construct a plane channel between the ‘great cosmos world’ and the ‘heaven’s wonder world’.”

go! Jiang Li ordered.

“Yes.”

Xiaobai replied.

A minute later.

” master, the plane’s channel has been completed. ”

Little white said.

“Open!”

Buzzzzzz!

Space cracked open.

a white light emerged.

In the blink of an eye.

A white arched gate immediately appeared.

the plane’s channel was successfully opened.

“Yes.”

okay. Jiang Li nodded and immediately entered the plane channel.

The scene changed.

soon, jiang li arrived at the strange world.

When they arrived at the ‘base’ of the great Xia Dynasty in the strange world, they saw a huge floating city. This city was built under the supervision of Lin Tianjian and Wu Wuji.

It was called Tianqi Xia city.

“Your Majesty.”

Lin Tianjian and Wu Wuji immediately came to welcome him.

“Yes.”

okay. Jiang Li nodded to them and went straight to the mansion in the center of the city. He summoned his subordinates who were stationed in the ‘strange world’, including Lin Tianjian, Wu Wuji, and the others.

In addition.

Luo Klan, the myriad life clan, and the giant spirit clan were also there.

“Your subjects pay their respects to Your Majesty.”

Within the palace.

The officials all knelt and kowtowed.

“Rise,”

Jiang Li raised his hand slightly.

...

all the ministers stood up at the same time.

“I came here this time mainly for the ‘elixir’.”

I need level ten and level eleven spirit herbs. Jiang Li went straight to the point.

“Spiritual medicine!”

“This bi an ...”

I seem to remember hearing news of an eleventh-grade spirit herb, but I don't know if it's true or not.

“.....”

The ministers discussed spiritedly.

“your majesty.”

finally.

Lin Tianjian walked forward and reported to Jiang Li, “in Tianqi world, all the top forces with human Immortals and Dharma gods used up all the rank 11 spiritual herbs to win.

...

“So,”

“We've only managed to collect a tenth-grade spirit herb.”

“Your Majesty, please forgive me.”

“.....”

The ministers were silent.

“Only tenth grade.”

Jiang Li frowned.

One had to know.

The resources in Saint peace state were scarce. Even a tenth-grade spirit herb was a peerless treasure, let alone an eleventh-grade spirit herb.

Of course.

Due to the promotion of the great Xia Dynasty and the substantial increase in the fate of the great Xia Dynasty, a vast amount of chaos Qi was drawn in from outside the Super Fantasy world. The concentration of spirit Qi had increased several times.

That was why Jiang Li wanted to get level-eleven spirit herbs in the world of wonder.

“Trash.”

Humph! Jiang Li snorted and glanced at Lin Tianjian and the others coldly. you can’t even find a single level-eleven spirit herb in the entire strange world.

“You’ve really disappointed me.”

“Your Majesty”

Within the palace.

Jiang Li! all the ministers kneeled down under Jiang Li’s pressure. They couldn’t help but show fear on their faces and didn’t dare to say anything.

He was afraid of angering Jiang Li again.

at this moment.

“Your Majesty, I have news of an eleventh-grade spirit herb.”

At the back of the ministers.

A middle-aged man raised his head.

“Oh.”

jiang li looked over.

“It’s him.”

“The current sect leader of the heavenly movement sect, yang haozhi.”

“This bi an ...”

The ministers were all stunned.

“Get up and talk.”

Jiang Li said.

“Thank you, Your Majesty.”

The middle-aged man with short hair stood up and bowed to Jiang Li. “Your Majesty, not only do I know about the eleventh-grade spiritual medicine, I also know the exact location.”

“And you are?”

Jiang Li asked.

“your majesty, i am ‘yang haozhi’, the current sect leader of the’ heavenly movement sect’,”

“I was the first one to surrender to Your Majesty, because I know that the only way out is to surrender to the great Xia Empire,” yang haozhi replied.

obviously.

Yang haozhi had originally been a member of the 'Tian Yuan world', but he had surrendered to the Grand Xia Empire and' betrayed 'the' Tian Yuan world'. In the end, he had even dragged the entire heavenly movement sect along to join the Grand Xia Empire.

"very good," he said.

okay. Jiang Li nodded with satisfaction. tell me the information about the level-eleven spiritual herbs.

"Yes."

"There's a secret realm within the heavenly movement sect called: The heaven realm, in the deepest part of the heaven mirror, there is a vast 'heaven mountain'. "

"On the heavenly Mountain."

"There's an eleventh-grade spiritual medicine called: The celestial Dragon Snow Lotus."

"However,"

" there's a 'sacred beast', the sky dragon, on sky mountain that's comparable to a human celestial. it guards the 'sky dragon snow lotus'. if you want to obtain the 'sky dragon snow lotus', you have to defeat the sacred beast, the sky dragon. "

"Alright," he said.

Jiang Li stood up and waved his right hand.

Clang!

The sound of a sword.

The ‘demonic sword’ appeared.

“Yang haozhi,”

go! Jiang Li shouted, ” I order you to go to the ‘heavenly realm’ with the ‘demonic sword’ and bring me the ‘Heavenly Dragon Snow Lotus’. You must do it without fail. ”

“once the matter is done, there will be a great reward.”

“this minister will obey your decree!”

Yang haozhi took a deep breath, knelt down, and kowtowed to Jiang Li. “Even if I have to risk my life, I will still obtain the ‘Celestial Dragon Snow Lotus’ for Your Majesty.”

“Go on.”

Shua!

Jiang Li waved his hand again.

the ‘demonic sword’ flew out and stopped in front of yang haozhi. human features immediately appeared on the sword saint’s body, making him look extremely evil.

“Let’s go,” he said.

The ‘demonic sword’ spoke.

After that.

yang haozhi and the demonic sword left together.

“.....”

Within the palace.

All the officials looked on in silence.

All the ministers present had witnessed the power of the demonic sword. Those powerful human Immortals were like ants in front of the demonic sword.

One sword!

Only one sword was needed!

human immortals and dharma gods would be killed.

“bring me the tenth-grade spiritual medicine.”

go! Jiang Li ordered.

“Yes.”

Lin Tianjian immediately replied.

Half a minute later.

All the tenth-grade spirit herbs were brought over.

It was stored in a ‘low-grade space ring’.

Shua!

Jiang Li took the ‘grade ten elixir’, opened the plane channel, and returned to the world of the universe. He gave the elixir to Hidden Dragon and used up the elixir and a hundred trillion energy points to start researching the ‘level ten gene strengthening liquid’.

“Chief sovereign.”

“Researching the ‘level 10 gene strengthening fluid’ will take seven days,” Hidden Dragon said.

“Alright,” he said.

Jiang Li said.

A day later.

Shua!

[rank-8 gene strengthening fluid and rank-9 gene strengthening Fluid Research completed!]

Jiang Li received a notification.

start producing the rank-8 and rank-9 gene strengthening liquids immediately.

go! Jiang Li ordered.

“Yes.”

yes. Hidden Dragon replied, ” eleven trillion energy points will be consumed.

Elementary law-level Scientific Research Center.

The eighth and ninth levels.

the mechanical research soldier started to create the gene strengthening liquid.

All sorts of machinery started operating.

Ten seconds later.

Buzzzzzz! Buzzzzzz!

there was a flash.

The type 8 and type 9 gene strengthening liquids were all completed.

There were two small syringes.

They were placed on the 'shelf'.

“Alright!”

okay. Jiang Li nodded in satisfaction.

Buzzzzzz!

Spatial teleportation.

Two small syringes were teleported to the room in the elementary rule-level dominating hub and floated in front of Jiang Li. The liquid in the syringes was as deep as the stars.

The information was displayed.

[research product: rank-8 gene strengthening fluid]

[rank: rank eight]

[effect: unlocking the initial stage of nomological genes]

[usage: intravenous injection]

[origin: elementary law base 01-elementary law-level Scientific Research Center eighth floor]

.....

[research product: rank-9 gene strengthening fluid]

[rank: rank 9]

[effect: further unlocking the initial stages of the nomological transformation of genes]

[usage: intravenous injection]

[origin: elementary law base 01-elementary law level Scientific Research Center ninth floor]

.....

“As expected,”

I’ve already started to make it into a law. Jiang Li muttered.

After that.

let’s go. Jiang Li summoned the ‘elementary law-level scientific researcher’ and injected himself with the ‘gene strengthening liquid’.

“Chief sovereign.”

the basic law-level scientific research soldier arrived.

He had a plain face.

From his appearance.

They were basically no different from ordinary people.

However ...

Oh? ” Jiang Li sharply sensed the aura of law contained in the elementary law-level scientific research soldier.

“yes.”

yes. Jiang Li nodded. let's start.

“Yes.”

okay. the Basic Law-level scientific researcher nodded and took the rank-8 gene strengthening liquid in his hand. He walked to Jiang Li and lifted the small syringe.

Jiang Li extended his left arm.

The tiny needle pierced through Jiang Li's skin and blood vessels. The gene strengthening liquid was pushed in slowly and flowed through his body.

Buzzzzzz!

The feeling was very clear.

First of all ...

The coldness spread through his blood and into the depths of his genes. The aura of law gradually spread all over Jiang Li's body.

the medicine was taking effect.

“Hu ~~ Hu ~ Hu ~”

Jiang Li let out a long breath.

Time passed.

An hour later.

The effect of the rank-8 gene strengthening liquid was fully exerted. Jiang Li clearly felt that the power of law in his body was greatly condensed.

Buzzzzzz! Buzzzzzz!

in the surroundings.

The vast energy of the universe formed a vortex and rushed into Jiang Li’s body.

Very quickly.

Jiang Li consolidated the effect of the level eight gene strengthening liquid.

“Continue.”

go! Jiang Li ordered.

“Yes.”

okay, the Basic Law-level scientific researcher nodded and injected Jiang Li with the rank-9 gene strengthening liquid.

Chapter 763 death by a thousand cuts

The effect of the rank-9 gene strengthening fluid was obviously much stronger than that of the rank-8 gene strengthening fluid. The genes were infected with more law aura and integrated with the power of the law.

However ...

These nomological auras were simply too shallow.

Therefore, it was impossible to manifest.

An hour later.

jiang li strengthened the effect of the rank-9 gene strengthening liquid.

buzzzzzz! Buzzzzzz!

Jiang Li sat down in a circle.

The art of the Azure Emperor circulated.

The 'Imperial divination law' formed from the fusion of the Emperor Dao law and the 'data stream' was revealed. It was dark gold in color and formed countless mysterious runes.

“.....”

Jiang Li sensed the 'aura of law' deep in his genes.

it was a mess.

If ...

If the laws of metal, wood, water, fire, and earth were described as lines, then the ‘law aura’ contained in the gene strengthening liquid was like a mess.

It was like many thin threads were entangled together, and it was completely impossible to tell who was who.

On the other side.

Within the strange world.

Yang haozhi had already entered the ‘Sky Mirror’ with the ‘demonic sword’ and rushed to ‘Sky Mountain’ at the fastest speed possible. They encountered the ‘Sky Dragon’ on Sky Mountain.

Roar!

The celestial Dragon’s body was winding and vast, and it was pure white in color.

after that.

The huge dragon head hung down.

he looked at yang haozhi.

“puny living being, why have you come here?”

Sky Dragon questioned.

“.....”

Yang haozhi was already so intimidated by the Dragon’s might that he could not speak.

“Kekekekekekeke”

suddenly.

A cold and sinister laugh was heard.

Clang!

The sound of a sword.

The ‘demonic sword’ soared into the sky, and sword Qi overflowed.

“Demonic puppet, demonic sword Sir!”

Yang haozhi was jolted awake.

“You’re so silly!”

Tian Long’s eyes were filled with fear. He looked at the ‘demonic sword’ in horror and shouted in fear, what a terrifying demonic weapon this is! I can almost see the countless living beings wailing under this demonic sword.

“The master is not here.”

The demonic sword smiled eerily. it’s time for me to release it.

As soon as he finished speaking.

buzzzzzz!

In that instant.

Endless demonic Qi spread out.

After that.

It formed a terrifying ‘demonic sword domain’, forming a world of its own. It enveloped the heavenly Dragon and dragged him into the ‘demonic sword domain’, where countless sword lights abused him.

“Ah!”

The heavenly Dragon’s wail reverberated throughout the entire sword domain.

An hour later.

The ‘Demon sword’s sword domain’ had disappeared.

Buzzzzzz!

The endless demonic Qi was also drawn into the ‘demonic sword’.

Bang!

...

After that.

yang haozhi saw it.

the sky dragon, which was originally snow-white, had now become a ‘red dragon’ that was stained with blood. if one looked closely, every dragon scale on the sky dragon’s body had been removed.

There were countless wounds.

Obviously.

‘heavenly dragon’ was tortured by the ‘demon sword’ for an entire hour in the ‘demon sword domain’.

In reality.

With the power of the demonic sword, it was enough to kill the heavenly Dragon with one strike. However, the demonic sword tortured the heavenly Dragon for an hour and made him suffer the pain of being cut by ten thousand swords.

Finally, he died.

“Gulp!”

Yang haozhi gulped as boundless fear rose in his heart.

...

“Hurry up and get the celestial Dragon Snow Lotus.”

The ‘demonic sword’ said in a deep voice.

“Yes, yes, yes.”

Yang haozhi quickly nodded.

The world of the great cosmos.

No. 01 elementary law base.

Shua!

[acquired rank 11 soul Tinder!]

Jiang Li immediately received a notification.

The ‘super mecha Army’ had directly crossed the world’s obstacles and captured the Sky Dragon’s ‘level 11 soul Tinder’ through the ‘ruler’s weapon-Demon Sword’.

“You’re done so quickly.”

Jiang Li said.

Buzzzzzz!

Hence.

Jiang Li ordered little white to open the plane channel.

Shua!

He headed towards the wondrous world.

Half a day later.

Yang haozhi returned to Tianqi Xia city.

Jiang Li was already waiting in Tianqi Xia city.

Within the palace.

“Your Majesty.”

Yang haozhi kowtowed.

In the surroundings.

Lin Tianjian, Wu Wuji, Luo Klan, and the other officials kneeled at the side.

“Yes.”

okay. Jiang Li nodded.

Shua!

The ‘demonic sword’ also returned to Jiang Li’s hand. It became a sword mark on Jiang Li’s palm. Yang haozhi looked at it in awe.

“I’m glad that I didn’t fail my mission. I’ve successfully obtained the eleventh-grade elixir, the ‘Heavenly Dragon Snow Lotus’.”

Yang haozhi took out a purple jade box with a sealing formation engraved on it from his bosom. He raised it with both hands, lowered his head, and offered it up respectfully.

“Alright,” he said.

Jiang Li waved his hand.

The purple jade box flew into Jiang Li’s hand.

Buzzzzzz!

The jade box was opened.

In that instant.

Endless spiritual opportunity spread.

Roar!

A Dragon's Roar could be heard.

A white true dragon rushed out.

“Azure Emperor Art.”

BOOM!

Azure Dragon. Jiang Li activated his technique and the fate of the Empire appeared. The Azure Dragon appeared and wrapped around Jiang Li. His eyes also turned Azure.

He looked at the ‘Celestial Dragon Snow Lotus’.

He had suppressed it gently.

revealing his true form.

It was a ‘Dragon-shaped Snow Lotus’.

it was completely white.

Jiang Li felt the aura of law from it.

“Very good! Very good!”

Pa!

Jiang Li closed the jade box and put it into his interspatial ring.

“Yang haozhi,”

” thank you, ” jiang li said. ” you did a good job this time. ”

“Your Majesty, this is all thanks to ‘Sir demonic sword’. I was only a guide.”

Yang haozhi said.

Shua!

Jiang Li waved his right hand.

He took out a mechanical iron box from his interspatial ring.

The box was opened.

There were nine small syringes neatly placed inside.

This was the gene strengthening fluid from rank-1 to rank-9.

It was a full set.

“yang haozhi,”

here’s your reward, ” Jiang Li said. it’s gene strengthening fluid from level one to level nine. Take it.

“Yes.”

Yang haozhi received it with great respect.

Even though ...

Yang haozhi was confused about the effect of the ‘gene strengthening liquid’, but he could see the shock and extreme envy in Lin Tianjian and Wu Wuji’s eyes.

one had to know.

Lin Tianjian and Wu Wuji were the princes of the great Xia Empire.

Something that even the Prince envied.

It must be a rare treasure.

In reality.

Lin Tianjian and Wu Wuji were both shocked and envious.

They had only obtained gene strengthening liquids from Level 1 to Level 7.

but ...

Yang haozhi, on the other hand, had obtained the first to ninth ranks.

Naturally, he was very envious.

the effect of the gene strengthening fluid.

They had a deep understanding of it.

“Also,”

the heavenly movement sect, ” Jiang Li said again. the heavenly movement sect is the number one sect in the strange heaven world.

“Yes.”

“We understand,”

The officials responded.

“I, yang haozhi, thank Your Majesty for your kindness.”

Yang haozhi kowtowed.

Shua!

let’s go. Jiang Li left the strange world.

* Cough cough *

Lin Tianjian and Wu Wuji looked at each other, then walked up to yang haozhi with a smile on their faces. sect master yang, congratulations.

“Sect master yang has truly reached the heavens in a single bound this time.”

wu wuji laughed.

“Yeah, yeah!”

In the surroundings.

The ministers all had fawning expressions.

“.....”

Yang haozhi could not help but feel overwhelmed by the unexpected favor, but he quickly calmed down and said solemnly, ” “All of this was given to me by His Majesty.”

“I will definitely remember Your Majesty’s great kindness.”

it’s mainly for all of you to do your best and serve His Majesty with all your heart. His Majesty will definitely not let you down.

“hehe.”

“That’s right, that’s right.”

“Sect Master Yang’s words are reasonable,”

“.....”

The ministers all agreed.

“Sect master yang,”

Lin Tianjian approached and said,”how about we make a deal?” I’m willing to use these tenth grade pills to exchange for the gene strengthening liquids from Level 1 to level 9.”

“How is it?”

“.....”

Yang haozhi was stunned for a moment before he quickly reacted and said in a solemn tone, ” “This is a reward given to me by His Majesty. How can I make a deal?”

“Please forgive me for not being able to agree.”

“Farewell!”

Yang haozhi turned around and left. He held the mechanical box tightly in his arms and ran away very quickly.

“this guy ...”

Lin Tianjian and Wu Wuji looked at each other.

He was a little unhappy.

The world of the great cosmos.

No. 01 elementary law base.

“Hidden Dragon,”

let’s start researching the ‘level 11 gene strengthening liquid’.

“Yes.”

” yes. ” hidden dragon replied, ” it will require an eleventh-grade spiritual medicine and a trillion energy points. it is estimated to be completed in thirty days. ”

“Alright,” he said.

yes. Jiang Li nodded. let’s start.

“Yes.”

Hidden Dragon said.

The level 11 spiritual herb ‘Celestial Dragon Snow Lotus’ in Jiang Li’s hand was sent to the 11th floor of the elementary law-level Research Center and he started to study it.

Immediately after.

jiang li made a few more sets of gene strengthening liquid.

He arrived at Djinn planet.

He gave the few sets of gene strengthening liquids he had produced to his younger brother Jiang Lijun, his younger sister Jiang Wenxin, his father Jiang beiguo, and his mother Zheng qiushui.

Of course.

the five subordinates of jiang lijun.

It was Qiu Daiyue and the others.

Jiang Li didn't fall behind either.

In addition.

The 'surveillance' range of the No. 01 Basic Law base had already been gradually expanding. Originally, it was only a radius of a hundred light years, but now it could reach a thousand light years.

This was because the 'star map detection space base' and the 'space positioning shuttle' had both been upgraded to the 11th level, and their various abilities had greatly improved.

The 'surveillance' range had expanded.

Jiang Li had found more than ten star systems with life. After some initial investigation, he found that most of them were civilizations below level three.

In addition.

Jiang Li also found the colonial star system of the ‘Light Civilization’.

However ...

The colonial star system fell into chaos.

not only that.

In the major galaxies.

At least a hundred human empires had descended and sent out their armies. They had already settled down in their respective star systems and started to build their armies on their planets.

of course.

These imperial dynasties had very little understanding of the ‘great cosmos’.

for the time being.

They didn’t dare to act rashly.

Similarly.

Jiang Li didn’t send out his mechanical Army either.

It was peaceful.

However, this was only temporary.

Nine days later.

In an unknown Galaxy.

A wandering 'space pirate fleet' appeared and fought with an unknown army of the Emperor dynasty, resulting in a huge battle.

in the end.

The unknown army of the Emperor dynasty had won the battle.

They had obtained all the resources of the Space Pirate fleet and captured many captives. From them, they interrogated or forced out all kinds of intelligence and information.

The technological civilization of the 'great cosmos' was gradually revealed to the many empires.

Of course.

this was only the tip of the iceberg.

It was also on this day.

The No. 01 elementary law base's elementary law-grade Research Center had successfully completed the research of the level 10 gene strengthening liquid, and was ready to produce it.

In addition.

his mother and the others had also familiarized themselves with the increase in strength after being injected with the gene strengthening fluid.

At the same time.

jiang li made the level 10 gene strengthening liquid.

He then injected it.

Jiang Li had improved a lot.

He sensed the opportunity for a breakthrough.

Hence.

He went into seclusion for ten days.

Jiang Li had another breakthrough.

He had broken through from mid-tenth level to late tenth level.

He engraved the Imperial number law runes all over his true Spirit's hands, feet, and chest. Now, only his head was not fully engraved. One more step and he would be at the peak of level ten.

Another dozen days passed.

It had been 30 days since he started researching the rank-11 gene strengthening fluid.

“Chief sovereign.”

Hidden Dragon reported, ” rank-11 gene strengthening Fluid Research completed.

“Alright,” he said.

jiang li was all smiles.

“Let’s start.”

Jiang Li had already arrived at the No. 01 Basic Law base and said to Hidden Dragon, ”
immediately order a Basic Law-level scientific researcher to bring the rank-11 gene strengthening liquid to the room in the dominating hub.

“Prepare for injection.”

“Yes.”

Hidden Dragon nodded in response.

buzzzzzz!

The spatial teleportation was activated.

In the room.

In front of Jiang Li, a Basic Law-level scientific research soldier was directly teleported from the ‘Basic Law-level Research Center’ to the ‘Basic Law-level dominating hub room’.

He took a closer look.

This Basic Law-rank scientific research soldier was carrying a silver mechanical box in his left hand.

“Chief sovereign.”

thank you. the Basic Law-level scientific researcher saluted Jiang Li.

“Yes.”

yes. Jiang Li nodded. did you bring the gene strengthening fluid? ”

“Reporting to the hegemon, I’ve brought it.”

The Basic Law-level scientific research soldier replied.

“Alright,” he said.

start the injection, ” Jiang Li said.

“Yes, sir.”

The Basic Law-level scientific researcher replied.

Buzzzzzz! Buzzzzzz!

hence.

A platform rose from the steel ground under Jiang Li’s feet. He sat down in a circle, adjusted his state, and reached out his left hand to the Basic Law-level scientific researcher.

Kachaa!

The silver mechanical box opened automatically.

There was a small silver syringe inside.

The liquid inside was like an endless starry sky.

It was deep and profound.

“Chief sovereign.”

A steel platform automatically rose from the ground beside the elementary law-level scientific researcher's right hand. He placed the mechanical box on the platform and took out the rank-11 gene strengthening liquid, saying, injecting rank-11 gene strengthening fluid now.

“Yes.”

okay. Jiang Li nodded.

The basic-level law-level scientific researcher approached Jiang Li with a small silver syringe in his hands. The needle pierced Jiang Li's skin and blood vessels.

He slowly pushed in the gene strengthening fluid.

It was a cold feeling.

Jiang Li felt it clearly.

buzzzzzz! buzzzzzz!

his heart was beating strongly.

The speed of his blood flow increased, and the rank-11 gene strengthening fluid quickly spread throughout his body along with his blood flow.

The medicine took effect.

In that instant.

Jiang Li felt the aura of the law.

Vaguely.

Jiang Li saw that the world in front of him was intertwined with countless lines of law, forming the structure of the whole world.

Laws.

From low to high.

It was divided into lower order laws, middle order laws, and upper order laws.

More detailed division.

the lower order laws were metal, wood, water, fire, and earth.

[intermediate order: wind, lightning, ice, darkness, light.]

Finally.

The high-level laws were space and time.

...

There were a total of 12 laws.

of course.

These 12 laws were only the basic laws.

It was the foundation of the world.

Other than that.

There was another type.

It was called a mutated law.

[variant laws: sword path, Emperor path, destruction, life and death Mist]

Finally.

it was 'law fusion'.

Different fusions between the 12 nomological laws would produce different nomological laws, and the more nomological laws fused, the stronger the power would be.

...

Time passed.

With the help of the rank-11 gene strengthening liquid, Jiang Li was in a state of enlightenment. It was so mysterious and wonderful that it was hard to describe.

In this state.

jiang li learned the twelve basic laws.

Buzzzzzz! Buzzzzzz!

the aura and power of the laws gradually integrated into jiang li's body, into his cells and genes, and began to transform.

A day later.

BOOM!

The medicinal effect was completely displayed.

Jiang Li's aura rose.

With the help of the rank-11 gene strengthening drug, Jiang Li's cultivation broke through without any obstacles. The marks of law covered his entire body.

The great circle of level ten!

Jiang Li's cultivation had reached the perfected stage of level ten!

the power of law filled his body.

Jiang Li's strength had greatly increased.

Not only that.

The power of the level 11 gene strengthening drug had turned Jiang Li's body and soul into a half-step nomological body.

Furthermore ...

It was a body of laws that had been integrated with the 12 basic laws.

Three days later.

Jiang Li came out of seclusion.

He had already familiarized himself with the sudden increase in his strength in a short period of time. He restrained his aura and completely consolidated his cultivation at the perfected stage of level ten.

Jiang Li walked out of the room.

“Chief sovereign.”

Lord Jiang Li. Hidden Dragon came and saluted Jiang Li. congratulations.

“Yes.”

yes. Jiang Li nodded. how’s the preparation going? ”

“Reporting to you, chief sovereign.”

Hidden Dragon immediately replied,”with #01 Basic Law base’s ability, along with the ‘Basic Law level universe space battle station’s function ..”

“in addition to the 10 level 11 ‘basic law level universe space detection bases’, we’ve already sent them all out and formed a connection.”

“It took me more than a month.”

with the ‘Titan star system’ as the center, everything within a radius of 10000 light years is already within the surveillance range of the ‘star map’.

“in other words ...”

“As long as you are willing to, my Lord, your mechanical fleet can appear anywhere within the star map’s surveillance range,” Hidden Dragon continued.

“Very good,” he said.

okay. Jiang Li nodded in satisfaction.

“Please take a look, chief sovereign.”

Hidden Dragon waved his right hand.

“Whoosh!!!”

The star map was displayed in front of Jiang Li. It was a hundred meters in diameter.

The ratio was 100 light years to one meter!

“Chief sovereign, please take a look.”

“The entire ‘01 star map’ covers an area of 10000 light years, which means the diameter has reached 20000 light years,” Hidden Dragon said slowly.

it’s within the surveillance range of star map 01.

in total, we have 3100 stellar systems, 3000 Nebula Systems, 3050 star clusters, and 900 chaotic star systems.

“There are only 1800 galaxies with life planets.”

also, the edge of our ‘surveillance range’ has touched the edge of the ‘Milky Way’. Beyond that is the dark and lonely universe.

“Also,”

we have even discovered the ‘light origin Galaxy’ of the ‘Light Civilization’.

“The exact location is here.”

Hidden Dragon pointed at the edge of ‘01 star map’. it’s 9850 light years away from our Titan star system. The’ light source star system ‘is in the middle of a war.

except for the light Civilization.

we have also discovered many Level-3, Level-2, and Level-1 civilizations.

“Finally.”

there are a total of five hundred and eighty-nine Emperor dynasty’s armies that have descended within the range of star map number 01. We still don’t know which dynasty they belong to.

“Zhan Luan?”

Jiang Li frowned. I can’t believe the light Civilization is caught in a war, and it’s in their home star system. It seems like something big has happened. Who invaded the ‘Light Civilization’? ” What’s his background?”

“hidden dragon, can we find out what exactly is happening in the milky way?”

“Reporting to you, chief sovereign.”

yes, ” Hidden Dragon immediately said. from the images we’ve captured these days, there are two forces that have invaded the ‘Light Civilization’. One is a’ destroyer ‘fleet from the Milky Way, and the other is the human empire from the’ Super Fantasy world’.

“Oh.”

Jiang Li muttered.

“also,”

“Low level law grade universe space battle station’s facilities ‘low level law grade universe detection base’, has the ability to’ detect’.”

as long as we spend a certain amount of time, we should be able to deduce it by collecting all the intelligence and information within the surveillance range of star map ’01’.

“alright!”

good. Jiang Li was very satisfied. in that case, I'll leave it to you.

“please be at ease, chief sovereign.”

Hidden Dragon replied.

Shua!

[combat unit type: low level law grade universe detection base]

[rank: rank 11]

[No.: Cdfzjyzcjd01]

[military rank: Marshal-Nebula-grade]

skill: level 11 Galaxy-level universal interstellar exploration ”

[machinery: Jian Jia (omitted)]

upgrade: unable to upgrade ”

.....

Jiang Li checked the information.

“hidden dragon,”

where are they? ” Jiang Li asked, ” can you confirm the location of the ‘Light Civilization’s colony system? ”

“Sure.”

Hidden Dragon replied.

Shua!

The star map changed.

The screen split into ten completely different scenes.

Each of them represented ten galaxies.

Among them.

Seven were stellar systems, two were Nebula Systems, and the last was a star cluster system.

not only that.

Basically, there would be a human empire in every colony Galaxy.

“My Lord, what do you plan to do?”

“Should we send out the mechanical fleet?” Hidden Dragon asked.

“Of course.”

Jiang Li said calmly, ” ” out of the ten colonial galaxies, can you determine which galaxy has the most resources? ”

“Yes, I can.”

yes. Qian Long nodded. colonial star system 013561, which is 3000 light years away from us, is one of the nine major resource star systems of the 'Light Civilization'.

"If we can take it down."

"I believe we'll have an extremely rich harvest."

"Of course."

as it's one of the nine resource-rich star systems, the light Civilization has set up a total of nine 'colony bases' in colony star system 013561 and has nine light fleets.

"not only that,"

it's also equipped with a 'large-scale ultimate weapon'.

"It's extremely powerful."

the dynasty Army that descended on '013561 colonial star system' had conflicts and wars with the light Civilization's colonial base, and both sides suffered losses.

"However,"

"the 'dynasty army' that descended suffered greater losses."

"....."

hmm. Jiang Li pondered. in that case, I'll send the mechanical fleet after the war between the dynasty Army and the base of colony system 013561 breaks out again.

"The Mantis stalks the cicada, unaware of the Oriole behind."

"Also,"

I'm going back to the Saint-peace state to receive the rewards from the true dragon List and absorb the energy from the National fortune. I'm going to try to break through to level eleven.

"I'll leave the matters here to you."

let's go, " Jiang Li ordered. if necessary, activate the 'elementary divine punishment' and destroy the enemy from a distance. We must take down '013561'.

"Yes."

yes. Hidden Dragon replied, " don't worry, my Lord. I will complete the mission you have given me.

"Yes."

okay. Jiang Li nodded in satisfaction.

Buzzzzzz!

Time and space fluctuated.

The plane's channel opened.

jiang li walked in and returned to the saint peace state in the blink of an eye.

"Your Majesty!"

Immediately.

Xu Ya, Hong Tianqi, and other important officials of great Xia quickly came to welcome Jiang Li when they felt the space fluctuation. Jiang Li entered the 'imperial capital' and entered the 'seclusion room' specially built for him.

Buzzzzzz!

He activated his cultivation technique.

Jiang Li calmed himself down and entered the world of the true dragon List. The 'illusionary body' in the world of the true dragon List opened its eyes and looked up at the vast true dragon List.

Chapter 765 A breakthrough

The last time.

Jiang Li's National fate ranking rose further from 99999th to 97980th.

He was rewarded with a 'low grade space technique'.

after jiang li studied it, he gained a basic understanding of the 'law of space'.

This time.

The great Xia Azure Dragon's height increased from two million to five million meters.

The improvement was even greater.

Buzzzzzz!

The true dragon Roll shook slightly.

Several purple-gold light balls flew towards Jiang Li and entered his consciousness.

Information emerged.

‘Congratulations to the great Xia Empire for improving its National fortune. Its National fortune ranking has risen from 97980th to 89850th. Azure Emperor Art’s grade increased.’

Buzzzzzz! Buzzzzzz!

A vast amount of cultivation methods and inheritances poured into Jiang Li’s mind.

In an instant.

He memorized everything.

The tenth level Supreme grade Azure Emperor Art had been upgraded to the eleventh level low-grade.

‘Reward 2: a wisp of world law origin’

Buzzzzzz!

The reward was integrated into Jiang Li’s body.

Oh? ” Jiang Li was stunned. I can’t believe I can be rewarded with something like this.

He couldn’t help it.

Jiang Li was surprised.

‘Reward 3: upgrade of the nation’s fortune Saint weapon.’

“It’s alright.”

okay. Jiang Li nodded in satisfaction.

He received all three rewards.

Shua!

Jiang Li's consciousness left the 'illusionary body' in the world of the true dragon List and returned to his real body. He opened his eyes and looked happy.

Buzzzzzz!

Jiang Li opened his right hand.

after that.

It was a bright light.

A wisp of world law origin source.

“Capture.”

He didn't think much about it.

Jiang Li captured it directly through the 'super mechanical Army'.

Shua!

[captured a world law origin!]

A notification appeared.

“.....”

Jiang Li opened the Dominator panel. there are still eleven world law origins. I'm still far from ninety-nine. Since I can also get 'world law origins' by raising my National fate ranking, it's a good way to get them.

Roar! roar! Roar!

the dragon roared.

Three sacred artifacts of the Empire.

The Green Dragon imperial seal, the Green Dragon imperial decree, and the great Xia Marquis.

the nurturing of the empire's fate.

It had already raised the three sacred artifacts of the Empire from the six-Dragon level to the seven-Dragon level. It was only two levels away from the strongest nine-Dragon level.

currently.

The power of a seven-Dragon level Empire's sacred weapon of National fortune was not bad, but it was not too powerful. At most, it could only suppress a tenth level cultivator.

Shua! Shua! shua!

each of the seven dragon-level sacred artifacts was surrounded by seven five-clawed green dragon shadows.

It was lifelike.

...

"Begin."

Buzzzzzz! Buzzzzzz!

The vast energy of the nation's fate was injected into the three sacred weapons.

The Dragon's Roar continued.

Half a day later.

The eighth five-clawed Green Dragon Shadow was born.

He had advanced to the eight Dragon level.

although it was only one level higher, its power had a significant increase. with the eight five-clawed green dragon shadows surrounding it, it was very powerful.

It was enough to fight against rank 11 existences.

He could be trusted.

If he could reach the level of Nine Dragons.

...

He would definitely be able to fight against level 12.

Unfortunately ...

This time, he could only upgrade it to the eight Dragon level.

"Collect!"

shua! shua! Shua!

let's go. Jiang Li thought. The three eight-Dragon Dynasty fate Saint weapons turned into three Dragon-shaped lights and entered Jiang Li's body, then appeared in his dantian.

"Not bad."

okay. Jiang Li nodded in satisfaction. next, I'll try my best to break through.

Half an hour later.

Jiang Li calmed down and adjusted his state of mind.

BOOM!

The next moment.

jiang li let go of the suppression.

Roar!

The great Xia Azure Dragon roared.

the vast energy from the country's fortune descended like an endless ocean and rushed into jiang li's body.

Buzzzzzz! Buzzzzzz! Buzzzzzz!

jiang li's body glowed with the light of law.

One had to know.

Because Jiang Li had injected the level 11 gene strengthening drug, he had already reached half-step rule-turning and his life level was at level 11.

However ...

Jiang Li's cultivation wasn't.

but ...

This way ...

jiang li's breakthrough became easier.

Plus ...

the blessing of the country's fate.

In that instant.

Jiang Li entered a state of enlightenment.

Buzzzzzz! Buzzzzzz!

The top-grade tenth level Azure Emperor Art instantly completed its cultivation transformation to a low-grade eleventh level.

Tenth rank.

The nomological realm.

Comprehending the law of one's main cultivation and inscribing the law runes on one's true spirit would continuously increase one's comprehension of the main law until it reached perfection.

He had completely grasped his major law.

rank 11.

It was called the harmonization realm.

The meaning was ...

fusion of the laws.

The fused law could be a 'mutated law'.

For example, the way of the sword, destruction, and so on.

Of course.

It could also be called the '12 basic laws'.

no matter what.

The first step.

They all used the 'main law' as the main body and fused with other laws as support to continuously strengthen and increase the power of the 'main law', slowly improving the 'main law'.

Clang! clang! Clang!

A sword cry!

the sound of a sword came from jiang li's body!

Shua!

The demonic sword flew out.

With the help of the ‘demonic sword’.

Jiang Li immediately became a ‘Kendo Grandmaster’.

hence.

Jiang Li resonated with the law of sword Dao.

Plus ...

jiang li was in a state of enlightenment again.

Time passed.

Jiang Li’s understanding of the law of sword Dao was getting deeper and deeper.

Buzzzzzz! Buzzzzzz!

The true spirit in his dantian.

The ‘law engravings’ of the ‘law of sword Dao’ appeared on his body and quickly spread all over his body. Jiang Li used the ‘level 11 low-grade Green Emperor Art’ and started to merge the sword Dao.

Outside the closed-door cultivation room.

the vast and boundless spiritual energy of heaven and earth surged over.

It was like a terrifying tornado.

They were all injected into Jiang Li's body.

in the blink of an eye.

a month passed by.

“Roar!”

The Dragon's Roar resounded through the sky.

the five-million-meter long azure dragon of the great xia dynasty soared into the sky.

It roared across the universe.

At this moment.

The might of the Azure Dragon of the great Xia Dynasty had spread throughout the entire holy peace state.

It shook the world.

Clang!

Immediately after.

It was a boundless sword cry.

Shua! Shua! Shua!

Countless green sword shadows appeared.

The great Xia Azure Dragon's form began to undergo a massive transformation.

it gradually changed shape.

In the end.

The Azure Dragon of the great Xia Dynasty had transformed into an unparalleled Azure longsword. The sword's body was pure azure in color, and the tip of the sword was the head of the Azure Dragon, which was in the shape of an open Dragon mouth.

He took a closer look.

The sword reflected the shadow of the Azure Dragon.

but ...

The phenomenon was not over yet.

After the Blue Dragon Emperor sword appeared.

A Supreme figure slowly appeared.

He stood in the void.

It appeared out of thin air.

At the beginning.

This Supreme Emperor's shadow was still extremely illusionary, as if it didn't exist. However, as time passed, the Emperor's Shadow rapidly solidified.

It turned illusory into reality.

Emperor's shadow reached out his right hand and held the hilt of the 'Blue Dragon Emperor sword'.

clang! Clang!

The 'Blue Dragon Emperor sword' let out a sword cry that sounded like a dragon's cry.

BOOM!

At this moment.

Only then did its might rise to its peak.

It shocked everyone.

Even ...

The power gradually spread out of holy peace state and into the surroundings, affecting the several 'origin continents' around it.

Hence.

Buzzzzzz! Buzzzzzz!

On the origin continents around the Holy peace Region.

An Emperor's shadow appeared.

Humans, demons, and barbarians.

In other words.

the human sovereign, the demon sovereign, and the barbarian sovereign.

He looked over.

“In that direction.”

the fusion of the laws and the manifestation of the Emperor’s Shadow. Which ‘human Emperor’ has advanced to level 11? ”

if I’m not wrong, that place should be the ‘holy peace state’. The newly ascended human Emperor of the ‘holy peace state’ has actually broken through to level 11 so quickly? ”

the ‘emperors’ from all over the holy peace state were discussing and making guesses.

a heavenly queen.

Only then did the strange phenomenon gradually disappear.

The next morning.

The sun of the Super Fantasy world rose.

the emperor’s shadow turned into a ray of blue light and disappeared.

Within the closed-door cultivation room in the imperial capital.

Buzzzzzz! Buzzzzzz!

Jiang Li had completely consolidated his cultivation and all the energy was hidden in his body. He opened his eyes, and the Green Dragon Sword light flashed in his eyes.

“Hu ~~ Hu ~ Hu ~”

thank you. Jiang Li exhaled and looked happy. with the energy from the Fortune of the nation, the effect of the 'level 11 gene strengthening liquid', and the help of the 'demonic sword'.

“The combination of the three.”

“After a long time in seclusion.”

I've finally successfully taken that crucial step. I've fused with the 'sword Dao laws' and made a breakthrough in my cultivation. I've broken through from the perfected tenth level to the early eleventh level.

To tell the truth.

huh? ” Jiang Li felt strange.

One had to know.

Jiang Li's main law was the Imperial number law.

The 'Imperial number law' was another strange law created by the fusion of the Imperial Dao law and the data stream. Jiang Li should have fused the law when he reached level ten.

However ...

While Jiang Li was cultivating.

But he didn't feel anything.

The 'Imperial number law' didn't seem like a law that had been fused.

“What form and form does the 'data stream' appear in the Dominator mode?”

Jiang Li was deep in thought.

However ...

But he couldn't get an answer.

No matter what.

Jiang Li still reached level eleven.

This was a joyous occasion.

Furthermore ...

after the imperial number laws and the sword dao laws merged.

Jiang Li could materialize the law.

[materialization: Blue Dragon Emperor sword]

His strength had greatly increased.

Not only that.

Jiang Li could also combine the 'Blue Dragon Emperor sword' with the 'Demon Sword'.

Hence.

Jiang Li came out of seclusion.

outside the seclusion room in the imperial capital.

"Your Majesty!"

“Congratulations to Your Majesty for coming out of seclusion!”

hong tianqi and the others were waiting outside the chamber.

“Yes.”

yes. Jiang Li nodded and asked, ” how long have I been in seclusion? ”

“Your Majesty, it has been a month.”

Hong Tianqi answered.

“it’s been a month,”

” okay. ” jiang li nodded.

Soon after.

Jiang Li asked Hong Tianqi about the ‘Xia Army’.

although the spiritual energy in saint peace state had increased greatly, coupled with the boost from the nation’s fate, and geniuses were appearing frequently, the number of soldiers in the great xia army still couldn’t break through one trillion.

Furthermore ...

Compared to those old imperial dynasties ...

The quality of great Xia’s troops was still lacking.

Under such circumstances.

Jiang Li couldn't let the Xia Army join the battle.

Even if it was training, it would take a long time.

Otherwise ...

The soldiers weren't even trained yet, and they were thrown onto the battlefield.

That was not training.

Instead, he was throwing his life away.

half a day later.

Jiang Li returned to the world of the multiverse through the plane channel.

Shua!

“Chief sovereign.”

As soon as Jiang Li arrived, Hidden Dragon showed up.

“what's the matter?”

Jiang Li asked.

a war has broken out in colony star system 013561. The dynasty Army and the light Civilization's fleet have been fighting for half a month and are nearing the end.

“That's why I sent out a mechanical fleet yesterday,” Hidden Dragon reported.

immediately display the interstellar battlefield.

” stop! ” jiang li shouted, ” i’ll personally supervise the battle. ”

Chapter 766 Participating in the battle

Buzzzzzz! Buzzzzzz!

Hidden Dragon waved his right hand. Even if he was not in the No. 01 elementary law base, he could still unfold the ‘star map’.

The vast star map was like a huge curtain that slowly pulled open.

“Chief sovereign, please take a look.”

Hidden Dragon said.

“Yes.”

Jiang Li’s eyes focused on her.

the vast ‘star map’ was like an open-air curtain that was spread out in the sky of titan star. the diameter of the picture of the ‘star map’ was almost ten thousand meters.

Within the star map.

What came into view was the scene of colonial star system 013561. The war was taking place in the outer space of the eighth colonial planet of colonial star system 012561.

BOOM! BOOM! BOOM!

The sound of the explosion was deafening.

Both sides of the battlefield.

They were the 'nine great light fleets' of the colony star system 013561 and the Imperial Army of the 'human imperial dynasty-Yongye imperial dynasty' of the Super Fantasy world.

among them.

The motherships, warships, mechas, and so on of the 'nine great light fleets'.

They filled more than half of the battlefield.

The number of soldiers had already broken through tens of trillions.

In reality.

The Yongye Empire's fortune was ranked at the eighth level.

It was even higher than the current ranking of the great Xia Empire.

The entire strength of the Army.

It had reached the level of fifteen trillion.

Of course.

There was no rank 11 in the army of the Empire of darkness. The strongest was Prince Charlot, who was at the peak of rank 10 and had mastered the profound meaning of martial arts.

They were extremely powerful.

Not only that.

Under the amplification of the level 10 army formation.

Charlot's combat ability was extremely close to level 11.

The two armies were engaged in a fierce battle.

They all suffered heavy losses.

Their military strength had already been reduced to less than 10%.

The level 10 battle formation of the Empire of eternal night had also collapsed due to the huge losses.

They were all torn apart.

They became dust in the universe.

Not far from the battle.

jiang li's mechanical army had arrived.

However ...

They hadn't entered the battlefield yet.

"Chief sovereign."

"Should we send out the fleet?" asked Hidden Dragon.

"Of course."

yes. Jiang Li nodded and said, ” activate the ‘elementary divine punishment’ at the same time. When necessary, execute it and destroy the enemy.

“Yes, sir!”

Hidden Dragon said.

all mechanical fleets, move out!

Buzzzzzz!

The order was given.

in the star map.

“rumble!”

Jiang Li’s ‘mechanical fleet’ charged into the battlefield and entered the sub-space, flying at ‘superlight speed’. In an instant, they had already entered the battlefield.

It was as if a God had descended.

“Who is it?”

...

“Not good!”

“A third party has appeared!”

“Prepare for battle!”

BOOM! BOOM! boom!

Without any hesitation.

the cannons of the light fleet were aimed at jiang li's mechanical fleet. countless dark matter-powered light cannons were fired, covering the sky.

shua!

The Guardian battleship fleet charged forward.

Buzzzzzz! Buzzzzzz!

The light barrier that contained the elementary protection law lit up, forming a vast light screen that enveloped the entire fleet, blocking the first round of attacks from the light fleet.

Obviously.

...

Although Jiang Li's mechanical fleet was only level ten, it contained the power of a Basic Law. The power of 'law' was the symbol of a Level-5 civilization.

"Kill!"

"Mechanical Army! Attack!"

"....."

Bang Bang Bang Bang Bang Bang

In that instant.

The energy soldiers and battleships formed a mechanical Army and charged at the front. The dark matter energy destruction cannons that contained the law of destruction destroyed a large number of battleships of the light fleet.

Countless explosions were heard.

It could be seen.

Jiang Li's mechanical fleet.

There were only 1000 motherships and 1000 defensive fortresses, but hundreds of millions of mechanical fleets and armies appeared, completely suppressing the light fleet.

“this bi an ...”

“Where did they come from?”

this battle is about to end, but the other party chose this moment to enter the battlefield. It's definitely not a coincidence.

this means that the entire colony star system 013561 is under their surveillance.

“The possibility is very high.”

from the very beginning, be it us or the light Civilization's fleet, we were targeted. We were like fish on an anvil, waiting to be slaughtered.

“Si si si ...”

“It's too terrifying.”

“What do we do now? we have to find a way to break out of this situation.”

“As expected of a ‘greater world’ that can give birth to a ‘Holy Land’.”

“.....”

It was shocking.

It was horrifying.

the yongye empire’s marshal, charlot, and the other generals were extremely shocked. they couldn’t calm down and had already retreated out of the battlefield.

They wanted to retreat.

One had to know.

Charlot led the ‘Ninth Army’ of the eternal night Empire into the ‘great cosmos world’ as the ‘Vanguard’ to investigate the situation.

but ...

They had a bad start.

They had encountered a peak level-4 civilization.

The two sides were at war.

The 9th Legion was almost completely annihilated.

Even though ...

Most of the enemies had also been eliminated.

but ...

However, there was an even more terrifying enemy.

In the face of such a situation.

Charlot and the others naturally wanted to retreat and report this information to 'Emperor Yongye'. If they wanted to enter the 'great cosmos world' again, they would have to send the main forces of the Yongye Empire.

BOOM! BOOM! BOOM!

However ...

As soon as Charlot and the others tried to escape, they were locked onto by Jiang Li's mechanical fleet. Hundreds of millions of energy battleships and soldiers surrounded them.

hence.

Jiang Li's mechanical fleet surrounded the ninth Army and the nine light fleets of the Empire of darkness.

"Very good," he said.

"okay." Jiang Li looked at the battlefield and nodded in satisfaction.

As expected.

If the situation continued like this, Jiang Li's mechanical fleet would definitely win.

At this moment.

Around Jiang Li.

unknowingly, many members of the myriad life race and the giant spirit race had gathered.

Obviously.

A star map with a diameter of 10000 meters appeared in the sky. Such a commotion naturally attracted the attention of the myriad life tribe and the giant spirit tribe.

They all looked up.

furthermore ...

Jiang Lijun, Jiang beiguo, Zheng qiushui, and Jiang Wenxin were standing beside Jiang Li.

“Brother.”

“What are these?” Jiang Wenxin asked curiously.

“Interstellar battlefield.”

” interstellar war, ” jiang li replied. ” it’s thousands of light-years away from our titan star system. it’s in colonial star system ‘013561’. ”

“This bi an ...”

Everyone was shocked.

thousands of light years away!

“this is too far.”

“Si si si ...”

“what kind of technology is this? It’s actually able to fully present the scene thousands of light years away in front of our eyes?”

“He’s too strong.”

The myriad life race and giant spirit race members discussed in shock.

Immediately after.

Jiang Li asked ‘Hidden Dragon’ to tell his mother the details of the war.

at this moment.

The battle situation suddenly changed.

Within colony Galaxy 013561.

Buzzzzzz! Buzzzzzz! Buzzzzzz!

The nine colony planets.

Suddenly, a vast dark matter energy surged.

it was vast and endless.

kachaa! Kachaa!

At the same time.

The planet cracked.

The colony base was exposed.

The nine colony bases activated the ‘ultimate weapon’ at the same time.

Light!

The ‘medium-sized light’ formed by the colony.

A golden radiance.

It was as vast as the sun.

It was surging with unparalleled energy.

“Chief sovereign.”

the situation has changed, ” Hidden Dragon said. the light Civilization’s colonial bases have activated their ‘ultimate weapon’. There’s a high possibility that the nine colonial bases will condense’ large light’.

“immediately activate ‘divine punishment’.”

Jiang Li said.

“yes.”

Hidden Dragon replied.

In outer space.

No. 01 elementary law base.

Tian fa base.

He looked into the distance.

It was like an altar with nine levels.

Next to the altar.

There were many ‘Spears of heavenly punishment’.

It was completely black.

It was engraved with solid runes of laws.

Rank 11 ‘spear of heavenly punishment’.

In the star map of giant spirit planet.

A small part of the scene was cut out.

The entire situation of ‘Tian fa base’ was displayed.

At the same time.

countless creatures on titan star were watching this scene.

buzzzzzz! buzzzzzz!

One of the ‘heaven’s punishment Spears’ flew into the center of the ‘heaven’s punishment base’.
The two merged into one, and the ‘heaven’s punishment base’ was officially activated.

A vast luster enveloped the surroundings.

The engravings of the laws intertwined.

It contained a terrifying aura.

colony galaxy 013561.

At this moment.

The nine colony bases had all successfully activated their ‘ultimate weapons’, causing nine Golden Suns to appear in the entire Galaxy.

The light shone.

In the dark galaxy.

It turned into a dazzling scene.

“Fuse!”

Shua! Shua! “whoosh!”

The base administrators gave the order.

Hence.

Nine golden balls of light rushed into the Galaxy.

In that instant.

The nine golden balls of light collided in the sky above the battlefield and quickly fused together in an unbelievable manner.

“This Suan ni, this Suan ni”

how is this possible?!

they’re actually hiding such a terrifying technique!

“Si si si ...”

Charlotte and the others gasped.

Such power.

unless charlot was still at his peak and could use the amplification of a tenth-grade military formation, the imperial jade seal, and the nation’s fortune, he would not be able to block the attack.

The current situation ...

The 9th Legion had less than 10% of its forces left.

Charlotte couldn’t block it at all.

such power is probably infinitely close to level 11!

Everyone exclaimed in shock.

“Be destroyed.”

the caretakers of the light civilization’s colony base were somewhat crazy as they stared at the scene on the battlefield. they looked at the vast golden light as if they were looking at the dawn and hope of everything.

“Damned enemy!”

“Under the illumination of the ‘light’, you shall be reduced to ashes!”

” the light civilization can’t lose! ”

“.....”

They were shouting.

“Fire!”

destroy the enemy’s ultimate weapon! Jiang Li looked at the images on the star map calmly.

“yes!”

“Target locked!”

“Heavenly punishment!”

“Fire!”

BOOM!

The No. 01 Basic Law base shook.

The rank 11 ‘spear of divine punishment’ was like a dark light, piercing through space and disappearing in an instant. A crack-like light appeared in the outer space of the base.

Instantly.

Colony Galaxy 013561.

In the sky above the interstellar battlefield.

The ‘spear of heavenly punishment’ had appeared.

Di di di di di

a strong spatial fluctuation has appeared.

[extremely terrifying energy fluctuations have been detected on the battlefield.]

In that instant.

The nine colony bases.

The base administrators received the warning.

“what?”

The base administrators ‘eyes were wide open as they stared at the battlefield. They clearly saw the’
spear of heaven ‘that was as long as a strand of hair.

Chapter 767

Buzzzzzz! Buzzzzzz!

Energy surged.

The extremely dark light was extremely clear under the illumination of the golden light. The spear of heaven's punishment was only nine meters long, but the golden light below it was three times larger than the sun.

The difference was extremely obvious.

The two sides.

The spear of heavenly punishment was not even comparable to a strand of hair.

“That’s the law!”

Suddenly.

Charlot couldn't help but shout out loudly, his expression extremely shocked. Although he couldn't see the 'spear of heaven's punishment' because the golden light was too dazzling, he could clearly sense the aura of the law runes.

Laws!

Absolute power of law!

Furthermore ...

It had reached level 11!

Shua!

Without a sound.

The 'spear of heavenly punishment' fell straight down, piercing the Golden Ball of light below. The extreme darkness tore through the incomparably bright light.

“We’ll definitely win! We will definitely win!”

I believe in ‘light’. I believe in the power of the civilization of light’s ultimate weapon. I believe in its ‘power. It can’t be defeated by the enemy. It will definitely win!

“The ‘light’ is eternal!”

“.....”

Shouting!

The administrators of the nine bases couldn’t help but clench their eight octopus-like tentacles. Their expressions were extremely nervous, but they were also extremely determined.

They let out determined shouts.

Similarly.

On Djinn planet.

Many creatures were looking at the star map.

They couldn’t help clenching their fists.

He looked up at the star map.

His heart was filled with apprehension.

they were also praying in their hearts.

“I must win!”

“We’ll definitely win!”

“.....”

Because Jiang Li was right next to them, they didn’t dare to shout although they were extremely nervous. They could only shout in their hearts.

In reality.

Jiang Li was calm.

One had to know.

A rank 11 ‘spear of heavenly punishment’.

Its destructive power was comparable to a rank 11 harmonization realm being.

Even ...

Even if it was an Ordinary Level-5 civilization.

They might not be able to block all of them.

Not to mention the light Civilization, which was only at the peak of level four.

Even though the light Civilization was only one step away from becoming a Level-5 civilization.

But it was not enough.

so,

This interstellar war.

The result had been determined from the beginning.

Bang Bang Bang!

Countless explosions were heard.

The power of the spear of heaven's punishment was like a hot knife through butter, constantly tearing and annihilating the power of the 'light'. It was only nine meters long, and compared to the 'large light', it was not even comparable to a strand of hair.

but ...

however, it annihilated the power of the 'light'. like an extremely sharp blade, it cut the 'large light' 'like a' watermelon', from the middle.

...

It was split into two.

BOOM!

the next moment.

The 'large light' that had been split into two suddenly expanded at this moment. The 'spear of heavenly punishment' instantly burst out, blooming with endless darkness.

It was as if a giant mouth of the abyss had suddenly appeared.

It instantly swallowed the expanding golden light ball.

He instantly disappeared.

The entire scene.

If he had to describe it ...

it was like a 'light bulb' suddenly becoming many times brighter due to excessive power, but the tungsten wire was burned out due to overheating.

It was instantly extinguished.

...

The entire room turned dark.

Similarly.

the entire colony star system 013561 fell into darkness and loneliness.

"Too strong, too strong, too strong, too strong, too strong!"

"this is the power of 'level 11'!"

"I can't block it!"

"....."

Looking up.

Charlot and the others looked up at the scene and fell into deep shock.

"No!"

A sorrowful roar!

The administrators of the nine colony bases let out painful and unwilling roars at the same time, their voices full of disbelief and shock.

And a deep fear!

One could imagine.

The 'large light' condensed by the ultimate weapons of the nine colonial bases was instantly extinguished by the other party's weapon, without any resistance.

The gap!

This was a huge gap!

"Rank 5!"

the other party must be from a Level-5 civilization!

"How could this be?"

At the same time.

They could not believe that a fleet from a Level-5 civilization would appear.

"There's no mistake."

"Haven't you noticed? Their space carriers, warships, and even their mecha soldiers are all attached with the power of 'laws'. This is the symbol of a 'Level-5 civilization'!"

The base administrators were even more terrified.

"Something big has happened."

“I’m so moved by the connection to the ‘mother Galaxy’.”

if this continues, our nine colony bases will be destroyed. We’re guarding one of the nine resource star systems. If this place is occupied, the light Civilization will suffer a huge loss.

“But Yingluo is Yingluo.”

the mother star system is also in war. I’m afraid they don’t have any spare energy to support us.

“.....”

The administrators of the nine colony bases were contacting and talking to each other. Their voices were full of anxiety and uneasiness, and they were even a little panicked.

giant spirit planet.

When the many living beings saw the scene in the star map, they clearly saw the enemy’s weapons being destroyed, and they had won the confrontation.

He was ecstatic.

They even almost cheered.

He couldn’t suppress the joy on his face.

“Hidden Dragon,”

lock onto the location of the enemy’s nine colony bases and continue to activate ‘divine punishment’ while destroying them. Jiang Li ordered.

“Don’t give them any chance to catch their breath.”

“Yes, sir.”

Hidden Dragon said.

buzzzzzz! buzzzzzz! buzzzzzz!

‘Divine punishment’ was activated.

“Target locked!”

“Fire!”

This time.

Whoosh! whoosh! “Whoosh!”

in an instant.

Nine pitch-black beams of light cut through the sky. Nine level 11 ‘Spears of divine punishment’ pierced through space and appeared in colony Galaxy 013561.

Furthermore ...

They locked onto the nine colony bases.

Di di di di di

An ear-piercing alarm sounded in every colony base.

It was a dazzling bright red.

“Alert! Alert! Alert!”

strong spatial fluctuations detected.

” there’s an extremely strong energy reaction in the outer space of the base. ”

activate defensive mode.

“.....”

“That’s Yingluo.”

The base administrators ‘eyes widened as they saw the image transmitted to them. It was the extreme darkness that destroyed the’ large scale light’.

“No!”

“We’re finished!”

“Our location has been exposed!”

“Defend! Activate the defense!”

Screams!

ear-piercing screams!

Shua!

The ‘spear of heaven’s punishment’ pierced through, and the power it contained tore everything apart. All the weapons of the nine colonial bases were launched, and the energy defense light shield was also activated.

Bang Bang Bang Bang!

the sound of an explosion rang out.

After those weapons were fired, they formed a stream of light that covered the starry sky. With a shake of the ‘spear of heavenly punishment’, all the weapons were destroyed.

Kachaa! kachaa!

BOOM!

The energy defense light shield shattered.

“Light!”

Buzzzzzz!

Immediately after.

Every colony condensed a ‘medium-sized light’ and hit the spear of heaven’s punishment.

Unfortunately ...

Even the ‘large light’ was easily destroyed by the spear of heaven’s punishment, let alone the ‘medium light’. It was simply unable to withstand a single blow.

BOOM!

He immediately disappeared.

“No!”

boom! BOOM! BOOM!

An explosion sounded.

nine colony bases were destroyed at the same time.

the unparalleled power annihilated all the living beings in the nine colony bases. no one was spared, leaving only corpses.

And the resources in the base.

buzzzzzz! buzzzzzz!

Immediately after.

A large number of soul Tinders flew out of each colony base, forming beams of light. Nine beams of light gathered together, crossed space, and captured all of them.

Shua!

[acquired a Tier 3 soul Tinder!]

.....

[acquired a ninth-rank soul Tinder!]

.....

[acquired a tenth-tier soul tinder!]

.....

countless notifications appeared.

Jiang Li automatically blocked it.

Half an hour later.

The war in colony star system 013561 had ended.

Jiang Li's mechanical fleet won the battle. They didn't even destroy any 'motherships' or 'defensive fortresses'. The energy-powered battleships and soldiers were all made of energy and were one-time use.

Unless they were in an environment without energy.

This was clearly impossible.

One had to know.

even if it was the lowest level of devil-free worlds.

It also contained the energy to construct the world.

in addition.

Of course, Jiang Li didn't plan to let the ninth army of the Empire of darkness go. He killed them all and only captured Prince Charlot, Marquis Jin kede, and Mo Ji.

There were also five high-ranking generals.

there were a total of eight people.

All of them were at the tenth level of cultivation.

Charlot, ginkard, and Mo Ji were all at the great circle of level 10.

The five high-ranking generals.

They were also late tenth level.

After winning the war, Jiang Li naturally occupied colonial star system 013561. In this colonial star system, he also needed a large number of slave races and 'slave miners'.

They were all 'consumables' that the light Civilization used to mine resources.

Of course.

yes. Jiang Li naturally took in all the slaves and miners.

However ...

Jiang Li didn't have to do it himself. He ordered Toria and the others to send them to colonial system 013561 through the teleportation of the base.

A few days later.

Jiang Li won the allegiance of the slaves and miners.

Buzzzzzz! Buzzzzzz!

Hence.

jiang li had gained quite a bit of the empire's fortune.

Roar!

The Azure Dragon of great Xia materialized.

The Dragon's Roar shook the sky.

It had increased from five million meters to six million meters!

it was natural.

jiang li felt the call of the true dragon list again.

in the prison of djinn planet.

“Dragon roar! That's a Dragon's Roar!”

“there's no mistake, this is definitely the roar of the imperial dynasty's true dragon!”

“But Yingluo”

“Why would I?”

” why would the roars of the imperial dynasty's true dragon appear here? ”

“.....”

Charlot and the others were filled with doubt and shock.

Giant spirit planet.

The Imperial Palace.

In the main hall.

Jiang Li sat on the throne at the top.

Charlot and the others knelt in the Great Hall below.

In the surroundings.

The ministers of Djinn planet stood quietly on both sides.

charlotte and the others lowered their heads.

in reality.

Their hearts were already in a state of shock.

originally.

The enemy who destroyed the light Civilization's colony and captured them should be a stronger civilization in the universe.

However ...

They had never expected this.

The truth was not what they had imagined.

The Imperial court!

The enemy who destroyed the light Civilization's colony base and captured them turned out to be the 'human race's imperial dynasty' of the Super Fantasy great world.

Why was this 'human empire' able to control the technological civilization weapons of the 'great cosmos'?

He could not understand.

He couldn't figure it out.

Chapter 768 the undead

Jiang Li looked down and didn't say anything. He just looked down at Charlot and the others. His face was calm.

Silence.

The entire Hall was so quiet that even a pin drop could be heard.

Only the heavy breathing of Charlot and the others was left.

Obviously.

Although Charlot and the others had their heads lowered, they could still feel Jiang Li's scrutinizing gaze, so their hearts were heavy.

"charlot."

master, " Jiang Li said calmly.

Jiang Li was just talking normally, but to Charlot and the others, it sounded like a Dragon's Roar, like a real Dragon in the sky.

Charlot and the others looked even more nervous and apprehensive.

"Are you willing to submit?"

what? " Jiang Li asked.

“.....”

Charlotte and the others were stunned.

“You’re awesome!”

Charlot could not help but raise her head.

He wanted to say something, but he couldn’t.

He chose to remain silent.

“You should have noticed it by now.”

“i’m the human emperor of the ‘great xia dynasty’,” jiang li said.

“If you submit, you will be able to keep your lives.”

“respected xia emperor.”

Charlot kowtowed, took a deep breath, and said, ” we are also from the Imperial dynasty of the human race. Please, on account that we are also ‘human’, let us redeem ourselves.

“I beg for Xia di ‘en’s permission.”

“.....”

All the captives said.

“Redeem my freedom?”

Jiang Li said.

“Yes, I am.”

” emperor xia, ” charlot said, ” please send a messenger to inform the yongye empire. i believe that emperor yongye will be able to pay a price that you are satisfied with to redeem us. ”

“Oh.”

so, you don’t want to surrender? ” Jiang Li asked again.

“.....”

Charlot and the others immediately fell silent.

One had to know.

Charlot’s status in the ‘Yongye Empire’ wasn’t too low, and Charlot was even personally conferred the title of ‘Prince’ by ‘Yongye’. His status was very high.

The other marshals and generals.

It wouldn’t be too bad.

It was natural.

they were very loyal to the empire of eternal night.

He would not betray her easily.

“it’s a pity,”

no need. Jiang Li sighed and said, "I don't need the resources. Since you don't want to surrender, I'll just kill you."

"Xia Emperor!"

"You're awesome!"

"....."

Charlotte and the others widened their eyes.

"Take him away."

go. Jiang Li waved his hand.

"Yes."

"Yes, Your Majesty!"

In the surroundings.

Toria and the others responded to Jiang Li's orders.

...

He grabbed the arms of Charlot and the others and dragged them out of the hall.

"Xia Emperor."

Charlot roared, "what you're doing is an official declaration of war against the 'Empire of eternal night'. If the Emperor of eternal night finds out about this, he will definitely not let the matter rest."

“Xia Emperor!”

“how can you do this?”

“.....”

The captives shouted.

Immediately after.

The angry curses of Charlot and the others kept coming.

A few minutes later.

“Slash!”

...

Pfft! Pfft! Pfft!

“Ah!”

Screams of pain could be heard in the hall.

ah! Jiang Li clearly heard the screams of Charlotte and the others.

originally.

Jiang Li kept Charlot and the others alive because he wanted to get some information about the eternal night Empire from them.

He didn't care if he could subdue it or not.

However, it seemed that ...

Charlot and the others were extremely loyal to the Yongye Empire, so it would be extremely difficult to interrogate them. It was even more impossible to make them submit.

so,

Jiang Li didn't want to waste any more time.

Kill them.

One had to know.

Toria and the others had already used various 'biological potions' on Charlot and the others, but the effects were not great.

This was because Charlotte's life rank didn't rely on the gene strengthening fluid. Instead, it was the power of cultivation.

so,

It was almost impossible to be affected by the 'interrogation potion'.

Shua!

Jiang Li closed his eyes.

“Roar!”

The Azure Dragon of great Xia rushed out and directly devoured the flood Dragon of the nation's fate on Charlot's body, causing the Azure Dragon of great Xia to grow a little more. The Empire's fate of the nation had also increased.

“Hidden Dragon,”

let's focus on monitoring the situation in colonial star system 013561. If everything goes well, the Yongye dynasty will soon know that 'Charlot' and the others are dead. They'll definitely send a 'reconnaissance team' to investigate the situation.

“Remember this.”

” we must not let the 'reconnaissance team' of the empire of eternal night return alive. ”

as long as it appears, we must kill it with lightning speed. We must not leave a single one alive.

“Yes.”

yes. Hidden Dragon replied, ” please rest assured, ruler.

“Alright,” he said.

okay. Jiang Li nodded in satisfaction.

In the Super Fantasy world.

It was one of the 129600 origin continents.

Eternal night continent.

the entire land of eternal night was enshrouded in dense spirit qi.

Grotto-heaven, secret realm, floating continent.

all sorts of scenes.

Compared to the Holy peace state ...

the resources in the eternal night continent were at least a hundred times more than that of the holy peace region.

He looked closer.

In the center of the 'eternal night continent'.

Tens of thousands of meters high in the sky.

There was a vast 'floating continent'.

It was called the darkness continent.

Among them.

At the center of the darkness continent.

What came into view was a vast floating city.

It was completely black.

It was like an extremely deep darkness.

It devoured all the light.

It was called the night capital.

It was the imperial capital of the Empire of darkness.

Eternal night Palace.

“.....”

Silence!

A pin drop could be heard in silence!

In the main hall.

The princes and Marquises of the Empire of darkness, as well as the ministers, were standing there. They were all the most powerful people in the Empire of darkness.

At this moment.

Their faces were pale.

His heart was filled with apprehension and nervousness.

Right in front.

On the Black Dragon Throne.

The Emperor of the Yongye dynasty-Yongye!

He was dressed in a Black Dragon robe.

Around him.

The fog of the country's fate shrouded the area.

he couldn't see clearly.

Although he did not speak, he exuded an extremely oppressive and heavy aura. A deep and angry Dragon's Roar could be faintly heard from his body.

It was precisely because of this.

The princes and Marquises of the Empire of eternal night didn't dare to speak.

“Charlot is dead.”

Eternal night's tone was very calm. However, those who were familiar with him knew that the calmer eternal night was, the more furious he was.

“your majesty, please restrain your grief.”

The eternal halberd said with a heavy tone.

obviously.

within the entire eternal night palace.

only 'first prince yongcun ji' dared to reply to yongye's words at this time.

The others.

None of them dared to answer.

He remained silent.

At this moment.

“No matter who it is.”

Eternal night said in an absolute commanding tone, ” “i want the guy who killed charlot to die without a burial place.”

“Yes.”

“We will definitely share your Majesty’s burden.”

“Your Majesty, please be at ease.”

“no one can kill the prince of the empire of yongye and live.”

no one!!!

the ministers immediately shouted in unison.

“Your Majesty.”

The eternal halberd reminded him. Your Majesty, please think twice before you act. You must be clear that Charlot is going to the ‘great cosmos world’ as a ‘Vanguard Army’.

“A ‘multiverse world’ is a multiverse world that can give birth to a Holy Land.”

a power beyond imagination exists.

“Just to be safe.”

we should send out the ‘death specter team’ from the ‘netherworld’ to get more information on the enemy first. Only then can we formulate a corresponding plan.

“.....”

Eternal night muttered to himself.

“The elder Prince’s words are not without reason.”

A few ministers agreed.

“Yup,”

“You have to know.”

in the information mentioned by the martial arts immortal court of the human race, they only told us that the ‘great cosmos’ is a completely different ‘technological world’ and that it possesses powerful technological weapons.

“.....”

everyone said one after another.

“No need.”

“eternal halberd!” yongye shouted in a deep voice.

“Your subject is here.”

The eternal halberd knelt on the ground.

“I accept the decree.”

Buzzzzzz!

The ‘Black Dragon imperial decree’ appeared.

The shadow of the Black Dragon was circling.

The next moment.

It split into a black imperial edict.

“The eternal halberd.”

Eternal night continued,”I now order you to be the ‘eternal night Marshal’ and head to the ‘netherworld’ to summon the ‘undead army’ and lead the third Army of the eternal night Empire.” The undead army will head to the ‘great cosmos world’. ”

“We must eliminate the enemy.”

“There can’t be any mistakes.”

“Yes.”

The eternal halberd took a deep breath. Facing the extremely heavy tone of the eternal night, the eternal halberd did not dare to say anything more. He reached out to receive the edict and said, ” I will definitely carry out your order, Your Majesty.

“Go on.”

‘Yongye’ waved his hand.

After that.

the eternal night opened a plane channel to the ‘netherworld’.

Shua!

The eternal halberd entered it.

His figure disappeared.

The scene changed.

the netherworld.

This was a 'high-level world'.

The Yongye Empire had ruled this netherworld for tens of thousands of years.

And now.

The entire 'netherworld' had become one of the important sources of military strength for the Empire of eternal night.

He looked around.

A thick black mist of death enveloped the entire world.

Skeletons, zombies, zombies, ghosts, spirits, Pixiu

There were countless undead in this world.

Roar! "Roar!"

suddenly.

A Dragon's Roar.

He took a closer look.

In the endless sky of the undead world, an incomparably vast city appeared, hanging high in the nine Heavens. Around this floating giant city, there were actually incomparably huge undead bone dragons. They were deathly white in color, and their dragon eyes were constantly flickering with Soul Fire.

directly below.

An extremely dense black mist of death enveloped the area.

the mountains of undead rose from the ground.

There were also vast plains.

Ta ta ta da

The sound of horse hooves.

It was the clear sound of horse hooves.

There were many of them.

Gradually.

The thick fog around them became a little lighter.

Within the black mist.

A huge Army of undead knights formed by 'Death Knights' appeared.

buzzzzzz!

At this moment.

In the City of the Dead above the nine Heavens.

The eternal halberd had arrived.

They arrived at the main hall of the giant city.

“We welcome the Prince.”

In the surroundings.

A group of Lich Kings appeared and kowtowed to the eternal halberd.

“Alright,” he said.

The eternal halberd was expressionless as it looked down at the Lich King who was kneeling in front of it. Its tone was calm, but it carried an undoubtable meaning as it ordered, “I’ve received orders from His Majesty to gather the undead army. I’ll give you half a month to gather the strongest undead and form an undead army.

an unprecedented war will be waiting for you.

“Yes.”

“We accept the decree.”

“Half a month should be enough.”

“No!”

“Seven days will be enough.”

The Lich Kings were already used to this.

“Very good,” he said.

The eternal halberd nodded in satisfaction and said in a serious tone, ” “Remember, this war will definitely be more intense than any other war in the past. You must gather your strongest forces.”

“Yes.”

“We understand.”

The Lich Kings quickly said.

Chapter 769

of course, jiang li didn't know what the empire of eternal night was doing.

However ...

I'm fine. Jiang Li had already prepared a way to deal with it.

At the same time.

Jiang Li also sent out his mechanical Army to transport all the resources from the nine colony bases in colony Galaxy 013561 back to the basic base 01.

Three days later.

“Chief sovereign.”

Hidden Dragon reported, ” all resources from the nine bases have been transported. There are a total of 500000 trillion tons of Star Iron, 5 million trillion tons of strong interaction force materials,

12.09 billion low-grade energy crystals, 620 million mid-grade energy crystals, and 5.2 million high-grade energy crystals.

“Very good,” he said.

Jiang Li finished listening to Hidden Dragon’s story.

Obviously.

Jiang Li had taken over the entire colonial system 013561. The resources he had gained so far were more than ten times what he had gained after taking over colonial system 001245.

One had to know.

This was only the basic reserve of the colony.

Within colony Galaxy 013561.

There were a total of 12 planets with energy crystal mines, 20 planets with Star Iron mines, and all kinds of other resources.

begin transformation.

Buzzzzzz!

Jiang Li activated the ‘origin point conversion function’ and quickly converted all 12 billion low-level energy crystals, leaving 90 million for Toria and the others.

” conversion successful. you’ve received 10 origin points! ”

.....

conversion successful. You’ve received 10 origin points!

.....

Countless notifications popped up.

Jiang Li got 1.2 million origin points just by converting the low-level energy crystals.

Immediately after.

“continue.”

Buzzzzzz! Buzzzzzz!

jiang li converted another 600 million intermediate power crystals and got six million origin points. this time, he also left 20 million intermediate power crystals for toria and the others.

In reality.

Energy crystals were also a type of energy crystal.

Its structure was similar to that of a spirit crystal.

so,

Warriors could also use ‘energy crystals’ to train.

However ...

The energy contained in the energy crystal was too violent and chaotic. One had to reach the seventh step of cultivation before they could use the energy crystal to cultivate.

Finally.

5.2 million high-grade power crystals.

Jiang Li transformed all of them.

He had obtained 5.2 million origin points.

The three added up.

This time.

Jiang Li got 12.4 million origin points in total.

The harvest was huge.

“Alright,” he said.

Jiang Li was overjoyed.

Shua!

Immediately after.

Jiang Li opened the soul Tinder column.

There weren’t many soul Tinders.

Jiang Li’s mechanical fleet only joined the battle when it was about to end, so they didn’t get many soul Tinders.

“Fuse all of them.”

Buzzzzzz! Buzzzzzz!

...

Finally.

Jiang Li first fused all the soul Fire Seeds into level eleven Soul Fire Seeds.

there were some level nine and level ten soul tinders left.

Shua!

origin points: 13.1 million origin points

[soul Tinder: seven level-nine soul Tinders, five level-ten soul Tinders, six hundred and twenty-five level-eleven soul Tinders]

“It’s still not enough,”

No. Jiang Li shook his head. I have enough level 11 soul Tinder, but I can’t unlock level 11 mechanical interstellar soldiers because it requires 100 million origin points.

Hence.

Jiang Li made a new decision.

Shua!

...

The Dominator panel opened.

“Create a basic protogenic war mothership and a basic protogenic Guardian fortress.”

go! Jiang Li ordered.

Buzzzzzz!

The manufacturing interface appeared.

In the interface.

Two different shadows appeared.

Countless light spots filled in and gradually condensed.

A minute later.

[creation complete!]

A notification popped up.

“Manifest.”

Shua! Shua!

Jiang Li waved his hand.

The mothership and The Guardian fortress appeared in the outer space of the No. 01 Basic Law base.

It was huge.

They were like two satellites revolving around the No. 01 elementary law base.

“Upgrade.”

Buzzzzzz! Buzzzzzz!

The light flickered.

A few seconds later.

Jiang Li had upgraded two level 10 mechanical interstellar troops to the perfected level 10.

One after another.

He had consumed two level-ten soul Tinders and 30000 origin points in total.

“Upgrade.”

Finally.

Jiang Li used two more level-eleven soul Tinders and 20000 origin points to upgrade two complete-stage level-ten mechanical interstellar soldiers to the early stage of level eleven.

“Continue.”

Buzzzzzz! Buzzzzzz!

The promotion had not stopped.

This time.

He had spent 2.8 million origin points.

All of them had been promoted to the great circle of rank 11.

Shua! Shua!

the information was displayed.

space troop type: law-grade medium-level war mothership

[rank: peak of rank 11]

[military rank: Marshal-Nebula-grade]

[No.: Fzjzzzmj01]

level 11 skills: mechanical intelligence, medium destruction law energy drive, energy firepower, energy defense, magical-level energy Soldier Research and manufacture, magical-level energy warship research and manufacture ”

[mid-tier destruction law level: fused with ‘mid-tier destruction law’ and ‘energy drive’, and familiarly mastered the power of the universe law level.]

[machinery: Jian Jia (omitted)]

advancement requirements: one level-twelve soul Tinder, ten million origin points

.....

interstellar Army Type: law-grade medium-level Guardian fortress

[rank: peak of rank 11]

[military rank: Marshal-Nebula-grade]

[No.: Fzjzdshbl01]

level 11 skills: mechanical intelligence, intermediate Guardian law energy drive, energy firepower, energy defense, magical-level energy Guardian and research and manufacture, magical-level energy Guardian Ship Research and manufacture ”

[intermediate Guardian law-level: a battle fortress that has fused ‘intermediate Guardian law’ and ‘energy-driven’. It has mastered the power of the universe’s laws.]

[machinery: Jian Jia (omitted)]

advancement requirements: one level-twelve soul Tinder, ten million origin points

.....

jiang li finished reading the basic information in detail.

“This bi an ...”

why do I need ten million origin points to upgrade to a level twelve troop class? ” Jiang Li asked. If I’m not wrong, I should only need one million origin points.”

One had to know.

According to the rules of the creation and upgrade of mech types.

Making early-stage level one meches requires 10 energy points, early-stage level two requires 1000 energy points, and early-stage level three requires 100000 energy points.

And so on.

He didn’t advance a single level.

The resources required were 100 times more than the previous rank.

Finally.

It required 1000 origin points to build a level 10 mech, 100000 origin points to build a level 11 mech, and 10 million origin points to build a level 12 mech.

This way ...

A mech that had been upgraded from a lower level.

In addition to the consumption of soul Tinder, it also required energy points or origin points, and the required energy points and origin points were one-tenth of the manufacturing price.

For example.

100 energy points are required to upgrade from perfected Tier 1 to early Tier 2. 10000 energy points are required to upgrade from perfected Tier 2 to early Tier 3. 1000000 energy points are required to upgrade from perfected Tier 3 to early Tier 4.

Therefore, it could be inferred this way.

he should only need one million origin points to upgrade to rank-12.

Shua!

A notification popped up from the Super god game Legion.

[prompt: the rank-12 troop class is the peak of the law-level, so the resources required for the upgrade are ten times higher. This only requires ten million energy points.]

“the peak of the law level.”

what's above the law level? ” Jiang Li asked directly.

[prompt: rules!]

The Super god game Legion responded.

“oh.”

Oh? ” Jiang Li was surprised. you can answer my questions now.

this time.

Jiang Li didn't receive any response.

Obviously.

Without the restraint of the will of the universe, the Super god game Legion absorbed the original will of the omnipotent experts through Jiang Li and underwent unprecedented evolution.

The birth of ‘intelligence’ was a very normal thing.

One had to know.

Artificial intelligence, mechanical intelligence, Artifact Spirit of a celestial artifact, and so on.

These things were far from the ‘super god-like game Legion’.

Of course.

If the ‘super god game Legion’ could have a real ‘sentient mind’, it would be unprecedented good for Jiang Li. It would help Jiang Li use the ‘super god game Legion’ better.

For example.

Take the ‘Hidden Dragon’ for example.

If No. 01 basic magical base didn’t have Hidden Dragon, Jiang Li would have to spend a lot of time and effort to get familiar with and perfectly use the facilities and functions of the base.

With Hidden Dragon, Jiang Li didn’t have to worry about it at all.

As long as he gave the order to Hidden Dragon, he would execute it perfectly.

so,

If the ‘super mech Army’ could have ‘intelligence’ like the hidden Dragon ...

It was obvious.

Jiang Li’s use of the ‘super mechanical Army’ would no longer be like a blind man trying to find an elephant.

“Not bad.”

Jiang Li closed all the interfaces. I don’t have enough origin points yet. I can’t upgrade the two mechanical interstellar troops to level twelve. I’ll keep the ten million origin points I have.

when it’s really needed,

“Congratulations, chief sovereign.”

you’ve obtained two powerful level 11 mechanical interstellar soldiers, ” Hidden Dragon said.

“Yes.”

okay. Jiang Li nodded.

The space carriers and the defensive fortresses that had been upgraded to the perfected rank-11 did not change in size. They were still as vast and huge as the sun.

although his appearance had not changed.

However, there was an earth-shattering change on the inside.

His combat strength rose.

To be able to create level 11 precept-level energy battleships and energy soldiers, as well as precept-level Guardian battleships and Guardian soldiers, their power would increase by several times.

It could be said that ...

Jiang Li only needed to send an early-stage level 11 law-level medium-grade mothership to easily destroy all the light fleet and the dynasty Army in colony system 013561.

They could easily take over the entire resource Galaxy.

Buzzzzzz! Buzzzzzz!

After Jiang Li arranged and settled the things he needed to do in the 'great universe world', he ordered little white to open the plane channel and return to the Saint peace state in the 'Super Fantasy world'.

"Welcome back to the palace, Your Majesty."

xu ya and hong tianqi came to welcome him.

"Yes."

let's go. Jiang Li went to the seclusion room in the imperial capital.

Shua!

After that.

Jiang Li sat in a circle and used the art of the Azure Emperor. His consciousness entered the 'world of the true dragon List'. He connected with the list and gave out the reward.

This time.

The great Xia Empire's fate didn't improve much.

The great Xia Azure Dragon had only increased from 5 million meters to 5.5 million meters.

his ranking had only advanced by a few places.

Chapter 770 dispatch

'Congratulations to the great Xia Empire for improving its National fortune. Its National fortune ranking has risen from 89850 to 87970. Empire's National aura cultivation technique,"Azure Emperor Art," has been upgraded.'

Very quickly.

Jiang Li received the reward.

This time.

The 'Azure Emperor Art' had been upgraded from 'level 11 low-grade' to 'level 11 mid-grade'. It had only been upgraded by a small rank, not by much.

But it was better than nothing.

Immediately after.

Jiang Li carefully browsed the eighth level of the Azure Dragon List. He saw the names of the Imperial dynasties one by one.

Finally.

Jiang Li finally found the ranking of the ‘Empire of eternal night’.

Its ranking was much higher than that of the ‘great Xia Dynasty’, reaching 81300. It was already at the peak of the eighth step and was close to the seventh step.

shua!

Jiang Li’s consciousness left the ‘illusionary body’ and returned to his body.

Within the closed-door cultivation room in the imperial capital.

Jiang Li opened his eyes.

In his mind.

It was the heritage of the Empire’s National aura technique.

“Azure Emperor Art.”

buzzzzzz! Buzzzzzz!

Jiang Li sat down cross-legged and started to use his techniques. The fate of the Empire enveloped his body. At the same time, the 'energy feedback' of the fate of the Empire descended. Vast energy poured into Jiang Li's body as if he was enlightened.

Roar! Roar!

The Dragon roared.

The shadow of a Green Dragon appeared on Jiang Li's body.

It wrapped around his entire body.

Time passed.

half a day later.

Jiang Li finished converting the level eleven mid-grade Azure Emperor Art.

After Jiang Li absorbed and refined all the energy, his cultivation improved, but he was still at the early stage of level eleven.

However ...

he was even closer to breaking through to the mid-eleventh level.

One had to know.

It was a record of the 'Azure Emperor Art'.

Early eleventh level.

One only needed to fuse one law to break through to the early eleventh level, but to break through to the mid-eleventh level, one needed to fuse three laws.

To break through to the late eleventh rank, he needed six.

Finally.

To break through to the great circle of rank 11, one would need to fuse 'nine types of nomological laws'.

Nothing major happened in the Holy peace Region. Everything was as usual. There were no changes or enemies. At most, there would be ferocious beasts in the sea area. Sometimes, there would be ferocious beast tides.

However ...

The great Xia Dynasty's forces in the Saint peace state were enough to deal with the beast tide. Jiang Li didn't need to worry about such a small thing.

The next day.

Soon, Jiang Li left Saint peace state and returned to the giant spirit planet in the multiverse.

"Chief sovereign."

"yes," hidden dragon reported to jiang li, "after a long time of investigation, we've figured out the reason for the chaos in the 'milky way' and the army's arrival."

why?" Jiang Li asked. what's the reason?"

"Reporting to you, chief sovereign."

because the Milky Way's 'Milky Way Alliance' was destroyed. The core forces of the nine Level-6 civilizations, as well as many Level-5 and level-4 civilizations, were all destroyed. No one was spared," Hidden Dragon said.

“And so ...”

“In this case, without the existence of the ‘Milky Way Alliance’, the Milky Way will directly fall into chaos.”

the galactic space pirates, the Galactic Hero fleet, and the destroyer, the three major forces of the Milky Way, started a war in order to fight for more territory and resources.

“The Milky Way Alliance is destroyed.”

Jiang Li was stunned. that’s the Milky Way Alliance. How could it be destroyed just like that? could it be that the martial arts Celestial Court of the human race sent an official member to take action? ”

“.....”

...

He couldn’t help it.

Jiang Li would remember the terrifying explosion at the center of the Milky Way.

He estimated.

The Milky Way Alliance was destroyed in that terrifying explosion.

However ...

No matter what.

the milky way was in chaos, which was a good thing for jiang li.

One had to know.

Jiang Li had been developing for such a long time just to stay on giant spirit planet.

From the beginning to the end.

jiang li's goal was to expand his territory and collect a lot of resources. his ambition had never disappeared.

...

In reality.

It was the first goal Jiang Li set for himself.

That was to rule the Milky Way.

so,

In the end, Jiang Li would not only be an enemy of the Galactic Pirates, the Galactic Hero fleet, and the destroyer, but he would also have to face the 'Milky Way Alliance'.

Everything that stood in Jiang Li's way was an enemy that needed to be destroyed.

he must not be soft-hearted.

" how's the situation in colony galaxy 013561? "

Jiang Li asked.

"Reporting to you, chief sovereign."

everything is normal, " Hidden Dragon replied.

“Yes.”

” okay. ” jiang li nodded. ” even so, we can’t let our guard down. send the mechanical fleet and all the level 11 mechanical interstellar troops to colonial star system 013561. ”

“Yes, sir.”

yes, ” replied Hidden Dragon. it’s within the surveillance range of the star map of the No. 01 elementary law base. The area within 10000 light years has been completely confirmed through detailed detection.

there is a total of one peak level-4 civilization, thirty Level-3 civilizations, two hundred and fifty-two Level-2 civilizations, and one thousand seven hundred Level-1 civilizations.

“What else?”

Jiang Li asked again.

there are a total of 323 Emperor dynasty armies that have descended. This means that 323 human Emperor dynasties have arrived in the Milky Way.

Shua!

As he spoke.

Hidden Dragon waved his right hand.

Immediately.

A vast star map was displayed in front of Jiang Li. It was ten thousand meters in diameter. It was as vast as a Galaxy.

It could be seen.

Within the star map.

At the edge of the area.

There was a 'Crimson' dot.

In addition.

There were also 30 'red' points scattered around the entire star map. There were 252 'light red' points and 1700 'white' points.

They were evenly distributed in the surroundings.

"Chief sovereign, please take a look."

within the star map," Hidden Dragon said, "these 'light spots' represent different civilizations. Each civilization exists in a different star system.

"Among them,"

dark red represents level four, red represents level three, light red represents level two, and white represents level one.

"Yes."

okay. Jiang Li nodded.

This way ...

Jiang Li could see it more clearly.

"Very good," he said.

Jiang Li took a deep breath and said slowly, "in that case, the first step to conquering the entire Milky Way will be to take down these civilizations.

"hidden dragon,"

start the 'elementary law-level mech Armory factory' immediately. Start operating at full power and produce 'level ten mechanical interstellar soldiers'.

"Yes, sir."

Hidden Dragon saluted.

"Yes."

build 7220 beginner-level warship and 7220 beginner-level Guardian warship immediately.

"Yes."

"yes." hidden dragon replied, "to create a total of 14440 level 10 mechanical interstellar soldiers, 7220 trillion tons of star iron, 722 million tons of star iron, and 1444000 origin points will be consumed."

"i'm sure,"

jiang li said.

"Yes."

Hidden Dragon said.

Buzzzzzz! buzzzzzz!

The law rank basic mech factory.

The tenth floor began to operate at full power.

The wormhole opened.

He transferred a large amount of steel and Star Iron into the furnace of laws and began to build the level 10 mechanical interstellar Army.

About ten minutes later.

Not even half an hour had passed.

14,440 level 10 mechanical interstellar soldiers were all created.

“Manifest.”

Jiang Li said.

Shua! Shua! shua!

In that instant.

In the outer space of No. 01 elementary law base.

many huge motherships and guardian battleships appeared in outer space, forming a huge mechanical fleet.

“Alright,” he said.

Jiang Li looked at the vast mechanical fleet and felt proud. He took a deep breath and gave an order,
” all soldiers, listen up.

this time, more than 10000 level 10 mechanical interstellar soldiers are all dispatched.

“Among them,”

1700 Level-1 civilizations.

every Level-1 civilization only needs to send out one elementary protogenic war mothership and one elementary protogenic defensive fortress. That will be enough.

two hundred and fifty-two Level-2 civilizations.

every Level-2 civilization needs to send out ten elementary Maxim war motherships and ten elementary Maxim Guardian fortresses to take them down.

“finally.”

thirty level-3 civilizations. ”

the strength of a Level-3 civilization is not weak. If it’s a peak Level-3 civilization, they might come into contact with the power of dark matter energy.

“So,”

we need to send out 100 basic protogenic war motherships and 100 basic protogenic Guardian fortresses to ensure an overwhelming victory in the war. We must not give the enemy any chance to turn the tables.

“Yes.”

“We will obey the chief sovereign’s orders.”

“.....”

Shua! Shua! “Whoosh!”

It could be seen.

After Jiang Li gave the order.

The fleet began to split up one by one, forming various mechanical fleets. 14440 level 10 mechanical interstellar troops were divided into 1980 mechanical fleets.

They were also numbered.

From fleet 0001 to fleet 1980.

“Hidden Dragon,”

let’s start, ” Jiang Li said.

“Yes.”

hidden dragon replied.

Buzzzzzz! Buzzzzzz! “whoosh!!!”

Immediately.

An intense spatial fluctuation emerged.

They quickly locked onto the star systems of 1980 different civilizations.

Space teleportation.

Shua! “Whoosh!”

” position locked, robot fleet 0001 is teleporting, beep beep. ”

.....

” position locked, mechanical fleet 0111 is in the process of transmission, beep beep. ”

.....

position locked, mechanical fleet 1111 is in the process of teleporting.

.....

In the blink of an eye.

All the fleets were teleported away.

they arrived at the star systems of various civilizations.

At the same time.

shua! shua! “Whoosh!”

In front of him.

a total of 1980 different 3d images were projected. each of them represented a civilization and a fleet of machines.

“ ”

Jiang Li looked at the upcoming war calmly, like a Dominator of civilization.

At this moment.

It was in Jiang Li's hands.

It held the fate of 1980 civilizations in its hands.
