

Army 771

Chapter 771 The Blue Star

Half an hour later.

Fleet 1562 was the first to arrive at their destination, flying at superlight speed and quickly stopping in the outer space of an ordinary life planet.

The first colonial war was about to begin.

Jiang Li looked on.

Buzzzzzz! Buzzzzzz! “Whoosh!!!”

The low-level elementary war mothership began to charge.

Dark matter energy gathered.

It condensed into a black ball of light.

Lightning-like electric arcs also appeared.

the laws of destruction revolved.

The skill ‘energy firepower’ was activated.

Shua!

In that instant.

It was a pitch-black destructive energy beam that descended from the sky and pierced through the 'life planet' in front of them. The terrifying power shook the universe's energy.

It tore through the atmosphere.

After that.

“BOOM!”

An explosion rang out.

The entire life planet was like a splendid firework in the starry sky of the universe. When it exploded, the flames were extremely dazzling and beautiful.

There's no more Yingluo

The entire planet.

they were reduced to dust in the universe by this cannon.

As for the living beings on this planet.

Terrifying.

they did not know what had happened from the beginning to the end. to them, who were only a level 1 civilization, they might have thought that it was just a black meteor.

but ...

the next moment.

the entire planet would be gone.

It was natural.

All the living beings on this planet.

It turned into ashes.

it was lamentable.

What a pity.

“This bi an ...”

huh? ” Jiang Li was stunned too. He touched his nose. the game seems to have underestimated the power of a basic-level mothership. Even if it’s made by the basic-level mech factory, one shot is enough to destroy a planet.

the power of a Level-1 civilization can not be resisted at all. If we are not careful, the entire planet will be destroyed.

in such a case, it will not be ‘colonization’ but destruction.

subdue all the civilizations. As long as they submit and become the ‘subsidiary race’ of the great Xia Dynasty, they will be able to increase the fate of the great Xia Dynasty.

“I don’t want destruction.”

“Conquering is the main theme.”

Hence.

jiang li quickly gave a new order to the mechanical fleets. they couldn’t use their skills directly when dealing with level one and two civilizations.

They had to create ‘energy soldiers’ and ‘Guardian soldiers’ to enter the various life planets and then negotiate with the living beings on the life planets. They had to display their strength and conquer the other party.

If he directly fired a cannon.

The entire planet would be annihilated.

Immediately after.

Yes, sir! the mechanical fleets responded quickly.

Time passed.

Jiang Li’s mechanical fleet showed its power to the level three civilizations, but they were not willing to surrender, so they started a war with them.

BOOM! BOOM! BOOM!

in the image.

Jiang Li heard the roar of the interstellar battle.

One by one, the battlefields of the interstellar colonies.

...

Jiang Li’s mechanical fleet destroyed the battleships of the level 3 civilizations one after another. The forces that the level 3 civilizations were proud of were completely vulnerable.

A day later.

“Chief sovereign.”

yes. Hidden Dragon reported to Jiang Li. mechanical fleet 0111 and 1222 took down ten Level-3 civilizations in one day.

“Also,”

“It only took one day.”

basically, more than 90% of the Level-1 civilizations submitted one by one after the mechanical fleet showed their absolute power.

only 10% of the Level-1 civilizations will not surrender.

“we can only destroy it.”

there are also 120 Level-2 civilizations.

“If nothing unexpected happens.”

...

it will only take one day to conquer all civilizations.

“Very good,” he said.

Jiang Li was very satisfied with the news. He ordered, ” immediately project my image to all the civilized planets that have been conquered.

“Yes.”

Hidden Dragon replied.

Buzzzzzz! buzzzzzz! “Whoosh!!!”

Hence.

The star map observation base and the space positioning shuttle quickly projected Jiang Li's image across thousands of light years.

All of them were projected on the planets of the major civilizations.

At this moment.

On hundreds and thousands of life planets.

Roar! "Roar!"

The Dragon's Roar resounded through the sky.

Jiang Li's projection appeared.

Buzzzzzz! Wuwuwuwuwu!

Surrounded by the thick fog of the Empire's fate, The Green Fog of light spread out like a boundless green fog. The majestic figure was like an ancient demon God.

he looked down at countless living beings.

The Azure Dragon of Xia wrapped around Jiang Li.

He suppressed everything.

A shock in terms of status.

"....."

“This Suan ni, this Suan ni”

“How terrifying!”

“Is this the power of a great existence?”

it’s as if they instinctively want to kneel and submit!

“Si si si ...”

The beings of countless civilizations and races were in awe.

I am the Xia Emperor of the great Xia Dynasty, Jiang Li.

A majestic voice sounded.

it was like the might of the heavens.

“Those who submit to me will prosper, and those who resist me will die.”

BOOM! BOOM!

The voice went straight into the depths of his soul.

“Kneel down!”

“Quickly kowtow!”

why aren’t you submitting?!!

“.....”

On the various life planets.

the energy soldiers and guardian soldiers of the mechanical fleet ordered loudly.

Hence.

Thousands of life planets.

This meant that there were thousands of civilizations.

The beings of different races.

it was enough to be calculated in the trillions.

“We are willing to submit!”

“The great and Supreme Emperor of the Xia Dynasty, our ‘Yamato civilization’ is willing to submit!”

“Greetings, Emperor Xia!”

“.....”

In the image.

jiang li could see the civilizations and races on the planets all knelt down. there were billions of creatures.

In an instant.

Jiang Li won the allegiance of thousands of civilized races.

Hence.

In other words, he had obtained over a thousand 'subsidiary races'.

buzzzzzz! Buzzzzzz! “Whoosh!!!”

In the dark.

The luck of these civilizations and races.

It crossed space.

It transformed into the 'fate of the Empire'.

They looked like dragons.

they all rushed towards jiang li.

“Roar!”

The Azure Dragon of great Xia roared and soared into the sky. Its 5.5 million-meter long dragon body coiled around and was incomparably huge. It was comparable to a planet.

The fate of the country was vast.

The Dragon's might was intimidating and majestic.

At the same time.

Green Emperor Art. Jiang Li activated the Green Emperor Art.

The Azure Dragon of the great Xia Dynasty started to absorb and devour the fate of the nation. Its huge dragon body started to grow rapidly, even though many of them were from Level-1 and Level-2 civilizations.

but ...

Quantity could also lead to qualitative changes.

5.51 million meters 6.5 million meters 6.5 million meters

In the end.

After the Azure Dragon of great Xia absorbed all of the fate of the nation ...

The Dragon's body grew to seven million meters.

The improvement was not small.

immediately after.

The Fortune of the nation was boiling.

The Azure Dragon of the great Xia Dynasty split into thousands of Dragon-shaped runic imprints that crossed thousands of light-years of distance and fused into the roots of the various great civilizations and races.

At the same time.

Trillions of living beings from over a thousand civilizations and races had also obtained the corresponding information and knew about the origin of the great Xia Empire.

At this moment.

Everyone was boiling.

Obviously.

They had never expected this.

The great Xia Dynasty actually came from an even more powerful world.

He couldn't help it.

They were even more in awe.

“not bad.”

great. Jiang Li felt the change in the Azure Dragon and nodded in satisfaction. Hidden Dragon, you can cancel the projection. How many civilized races are left? ”

“Reporting to you, chief sovereign.”

Hidden Dragon replied, ” there are ten Level-3 civilizations and one hundred Level-2 civilizations left.

Shua!

Jiang Li's projection disappeared from thousands of vital stars.

However ...

The various civilizations and races were still in shock.

he was unable to come back to his senses for a long time.

“Chief sovereign.”

there’s one more thing I need to report to you, ” Hidden Dragon said. the 0001 mechanical fleet has encountered extremely strong resistance in the 0001 star system.

“Or even ...”

the main bodies of several motherships have also suffered damage.

“Oh.”

what civilization? ” Jiang Li was surprised. It can actually destroy a mothership?”

a civilization at the peak of Level 3 has already touched upon the dark matter energy field. However, the system of this civilization is extremely unique. It should be considered a ‘biological civilization’, but it is slightly different.

Hidden Dragon replied.

display the image of the Galaxy.

I need all the information about this Galaxy, ” Jiang Li immediately ordered.

“Yes.”

Hidden Dragon said.

Buzzzzzz!

The scene unfolded.

First of all ...

The star map space base sent the images to Jiang Li and all the information about the civilization.

Very quickly.

Jiang Li got all the information about this planet.

The life planet.

It was called the Blue Star.

He was certain.

The star system where 'Blue Star' was located was basically the same as the 'solar system'. The diameter of the star system was about one light year.

the creatures of the blue planet.

He also called himself a human.

Not only that.

The humans on the Blue Planet looked 99% similar to the humans on earth.

Among them.

The 'Blue Star humans' named the planet they lived on: the galaxy where the blue planet was located was named: The Sun System was 9000 light-years away from the Titan star system.

The 'Blue Planet humans' called their technology: special ability technology.

"He's an ability user."

is this a biological civilization? ” Jiang Li noticed the difference and muttered. Still Yingluo

Obviously.

The Blue Planet had ‘energy crystal veins’ and ‘energy’ that earth didn’t have. Therefore, the humans on the Blue Planet had evolved to have the corresponding ‘abilities’.

It was called an ability.

ability users were the rulers of the blue planet.

He was very powerful.

It could even cross the universe.

The entire ‘blazing sun System’ was now under the control of the ‘Blue Star civilization’, and the footprints of the Blue Star civilization had even crossed into the surrounding ten star systems.

The ability of an ability user.

They were divided into the elemental category, the extraordinary category, and the special category.

[elements: water, fire, wood, earth, metal, wind.]

[transcendent-Type: Spirit, telekinesis, psionic power]

[special category: x-ray vision, gravity Kasaya]

the blue star civilization divided the levels of ability users from low to high, and they were divided into: Rank F, rank E, rank D, rank C, rank B, rank A, rank S, rank SS, rank SSS.

There were nine levels in total.

Each level was further divided into lower, middle, upper, and super.

SSS-class and above.

He was no longer called an 'ability user'.

it was called god-level.

In reality.

In the history of the Blue Star civilization.

the existence of 'apotheosis' was only a legend.

It was just a guess.

Chapter 772 Potential

'Esper abilities' were a unique talent for the 'Blue Planet humans', just like the 'sprites', who could change their forms according to their genes.

There were trillions of humans on the Blue Planet.

but ...

There were very few who could really give birth to 'special ability organs' and have special abilities.

Furthermore ...

There were also many abilities that were 'strange' but did not have the corresponding combat power.

for example, x-ray vision.

Of course.

If the 'see-through' ability continued to evolve, it would be similar to the 'Starry Eyes' ability of the Super Space sniper.

At that time.

He could see the scene light years away.

Generally speaking.

Out of 10000 Blue Planet humans, only one would be born with a 'Esper organ'.

Ability organs.

this was a completely different type of ability evolved from the 'blue star humans'. the blue star humans with' esper organs 'were like natural-born with the power of' laws'.

Of course.

It was only a tiny prototype.

He wanted to truly grow.

However, it was extremely difficult.

This way ...

The 'Blue Star humans' were like natural Masters of the laws. As long as they were given time and space to grow, they would definitely become a powerful civilization in the Milky Way.

However ...

They met Jiang Li.

In reality.

The Esper ability history of the 'Blue Planet humans'.

It was only about ten thousand years.

It had only been ten thousand years.

they had become a peak level-3 civilization.

It could be seen from this.

if it was 100000 years later.

The 'Blue Star civilization' would probably become the Overlord of the 'Milky Way'.

thinking of this ...

Jiang Li took a deep breath.

"It seems like ..."

the Bluestar civilization has great potential. It's even far more powerful than the elves and the myriad life race. I have to find a way to conquer it.

“It would be such a pity if it were to be destroyed just like that.”

Hence.

Hidden Dragon presented the scene of the ‘fire-type’ interstellar battlefield to Jiang Li. In the vast and lonely starry sky, the battle between the mechanical fleet 0001 and the ‘Blue Star Fleet’ had entered a white-hot stage.

BOOM! BOOM! BOOM!

The sound of the explosion reverberated through the starry sky.

the flames were extremely bright.

It was dazzling.

in this star wars battlefield.

Countless wreckages of the battleships could be seen floating around like cosmic dust, drifting away with the aftermath of the battlefield.

At this moment.

Somewhere in the Star Wars battlefield.

Buzzzzzz! “Whoosh!!!”

“Fire God’s descent.”

BOOM!

It was a roar that shook the starry sky.

Fire!

Endless flames!

they gathered together, forming a seemingly boundless sea of fire.

...

Golden flames.

In the sea of fire.

A figure stood there. His entire body had been completely 'elementalized'. He was like the god of fire descending to the world, with blazing temperatures and dazzling flames.

He took a closer look.

This Blue Star ability user, who had transformed into the 'fire god', was wearing a special 'exoskeleton armor', which was able to mobilize a powerful force.

At this moment.

He seemed to have turned into the sun.

Obviously.

This was what an 'mutant' was.

Moreover, he was an SSS super level 'Esper', just one step away from 'god level', with the enhancement of the 'Esper exoskeleton armor'.

It had barely reached the 'apotheosized level'.

...

“kill!”

The fire god roared.

Like a golden sun, it charged at Jiang Li’s energy Warriors.

Of course.

it wasn’t just the fire god.

There’s also the Thunder God, the water god, and the gold God Qianqian.

Countless powerful adepts.

They were born with ‘Esper organs’.

After that.

With the addition of the ‘Esper armor’, even an F class Esper could burst out with power close to the’ apotheosized ‘level.

However ...

‘Mutant armors’ were rare.

In addition.

for espers below the SSS rank, using the ‘esper armor’ was basically using their own life force to ‘activate’ it. after the battle ended, their life force would often be exhausted.

He would die without a doubt.

“Chief sovereign.”

they’re not afraid of death, ” Hidden Dragon reported to Jiang Li. they’re reckless but smart. They’ve made a detailed plan.

“Obviously.”

these ‘Blue Star humans’ have already made up their minds to fight to the death with the 0001 mechanical fleet.

“Yes.”

I see. Jiang Li nodded. in that case, I’ll go there myself.

“Prepare to teleport.”

“.....”

Hidden Dragon was stunned for a moment. Yes, sir.

“Location confirmed.”

“Begin teleportation!”

Buzzzzzz!

A spatial fluctuation appeared.

An invisible beam of light fell from the sky and covered Jiang Li.

With a whoosh.

jiang li disappeared into thin air.

In the next moment.

fire element.

Not far away from the battlefield.

there was a ripple in the space.

There was a flash.

Jiang Li appeared here.

It was about 100 million kilometers away from the Star Wars battlefield.

BOOM! boom! BOOM!

Jiang Li heard an explosion.

the power of the explosion shook the energy of the universe.

A sound was produced.

A hundred million kilometers away.

Even Jiang Li could feel the aftermath of the battlefield's energy.

He looked into the distance.

The boundless starry sky.

The battlefield was clearly visible.

Bang! Bang!

The Blue Star Fleet and the 0001 mechanical fleet collided.

It could be seen.

The Blue Star's fleet fought to the death. Countless Espers controlled 'Esker armors' and 'Esker battleships', and the power of various elements shook the starry sky.

"Rumble!"

The 0001 mechanical fleet launched its attack.

The energy beam cannon that contained the destruction law destroyed everything. It was hard to resist. Every shot would destroy the battleships of the Blue Star Fleet.

In reality.

Because of Jiang Li's order, the 0001 mechanical fleet didn't use its full power at all. They were worried that they would destroy 'Blue Planet', the home Planet of the Humans on the Blue Planet.

They only sent a few energy Warriors and Guardian Warriors to participate in the battle.

even so ...

The Blue Star Fleet was also completely suppressed.

At this moment.

Jiang Li just appeared.

Buzzzzzz! Buzzzzzz! Wuwuwuwuwu!

Immediately.

A team flew out of the blue Star Fleet. It was a 'psionic battleship' and a hundred psionites wearing 'psionic armor'. They were flying towards Jiang Li.

He arrived instantly.

They surrounded Jiang Li.

Di di di di di

[alien race detected, scanning and analyzing ...]

" analysis complete. "

the appearance of this race is 90% similar to us Blue Planet people.

"....."

Shua!

Finally.

The captain of this small team appeared from the 'special ability battleship', wearing a 'special ability armor'.

"who are you?"

The team leader asked, " why did you appear here? "

"i am the xia emperor."

BOOM!

shut up! Jiang Li scolded.

"Roar!"

Buzzzzzz! Wuwuwuwuwu!

in that instant.

let's go. Jiang Li used his technique and released all of his cultivation at the early stage of level eleven. The mark of 'Imperial status' appeared between his eyebrows.

Roar! Roar! "Roar!"

The true Dragon's Roar resounded through the sky.

Shua!

The Azure Dragon of great Xia appeared, and an endless azure mist of the Empire's National aura permeated the air. The seven-million-meter-long true dragon of the Empire's National aura spiraled around like a huge planet.

It shocked everyone present.

"You, you, you, you, you, you, you ..."

"....."

Shocking!

his expression was one of extreme shock!

In an instant.

All the human beings on the Blue Planet were stunned by Jiang Li's power. He was completely superior to an Emperor.

They were all stunned.

“Stand down.”

Jiang Li looked around.

“.....”

Instinctively.

Yes, sir. all the team members followed Jiang Li's order and left. They scattered and stopped not far away from Jiang Li.

let's go. Jiang Li stepped out.

There were runes of the law of space under Jiang Li's feet.

Shua!

The next moment.

Jiang Li arrived at the space war.

“He’s ...”

All the members of the team were stunned and couldn’t react at all. When they thought of the situation they had just encountered, they were extremely shocked and in awe.

“Cease fire!”

immediately after.

go! Jiang Li ordered.

“Roar!”

The Dragon’s Roar spread across the battlefield. Jiang Li’s power and realm also covered the entire battlefield. He stood in the center of the battlefield.

It was as if he was the master of everything.

The 0001 mechanical fleet quickly stopped their attacks and retreated at a rapid speed.

In the blink of an eye.

They all stopped behind Jiang Li.

Bang! Bang! Bang!

Buzzzzzz!

A light shield-like domain appeared around Jiang Li. All the attacks from the Blue Star Fleet landed on the light shield, but they couldn’t shake it at all.

It was just like a faint wave on the water.

the war had stopped.

The Blue Star Fleet didn't dare to attack again. Countless warships and ability users quickly retreated back to their own Battlefield in the blink of an eye.

"This is an ..."

"Who is he?"

"Why did you suddenly appear on the battlefield? He actually stopped the alien fleet with a single sentence. Also, what's that 'space beast' behind him?"

"So strong!"

he's an extremely powerful super expert. In front of him, the power that we're so proud of is like an ant.

"ai, ai, ai, ai."

is the Blue Planet really going to be destroyed? "

In the Blue Star Fleet.

Countless Blue Planet ability users felt sad.

"I am the Xia Emperor."

At this moment.

Jiang Li went straight to the point. I've seen the battle between the Blue Star civilization and my mechanical fleet 0001. Although your abilities are still weak, you have great potential and are worth cultivating.

“so,”

“I’ve come personally to give you all another chance.”

“Surrender and death.”

“It’s up to you to choose.”

if you refuse, ” Jiang Li continued, ” I’ll destroy the Blue Star civilization with dignity. I’ll do it myself.

“Consider it my last bit of mercy to you.”

Clang!

As soon as he finished speaking.

Jiang Li raised his right hand and the ‘demonic sword mark’ on his palm turned into a black demonic sword.

Jiang Li held his sword.

He raised the sword slightly.

“Roar!”

The great Xia Azure Dragon let out a dragon roar and turned into a ray of Azure Dragon-shaped light, directly pouring into the ‘demonic sword’, causing the ‘demonic sword’ to be coated with a layer of Azure light.

A Dragon’s Shadow appeared on the sword.

“Azure Dragon Sword Qi.”

Shua!

” die! ” jiang li slashed.

This sword.

It had fused the ‘demonic sword’s sword Qi’ and the ‘power of the Empire’s fortune’.

Bang Bang Bang Bang!

Dragon slash! Jiang Li’s sword slashed in another direction. The dark green sword light turned into the shape of a Green Dragon, starting from Jiang Li’s sword.

It kept spreading forward, and it kept spreading forward, and it kept spreading forward.

In the blink of an eye.

he rushed out of the fiery sun element.

It was as if ...

there was no end to jiang li’s sword.

Wherever the sword Qi passed.

Meteorites and stars

They were all destroyed.

“.....”

The entire Blue Star civilization.

he was completely dumbfounded.

Chapter 773 the silver dragon

jiang li's attack spread out for several light years as if it had cut a deep crack in the universe space.

It took a long time for him to calm down.

“Make your choice.”

Jiang Li put away his sword, put his hands behind his back, and looked at the ‘Blue Star Fleet’ in front of him calmly. He saw all the reactions of the Blue Star people.

Shocking!

It was extremely shocking!

It was hard to imagine.

The strongest Esper of the Blue Planet's humans, as well as the leaders, could not imagine how terrifying and unparalleled the power needed to create such a thing.

it was just a casual strike.

He slashed out a sword Qi that was several light years long.

It was impossible to predict.

Just how powerful would this sword be?

Obviously.

With the knowledge of the 'Blue Star civilization', they couldn't make an accurate judgment of Jiang Li's strength. They could only imagine and make wild guesses.

No matter what.

Next.

it was time for the blue star civilization to welcome its fate.

Surrender.

It could continue to exist.

Civilization continued.

Rejected.

Jiang Li would destroy it himself.

One could imagine.

if jiang li really did it, no human on the blue star would survive. the civilization of the blue star would be destroyed.

To tell the truth.

Jiang Li didn't want to see it.

Similarly.

Jiang Li's patience was limited.

They were unwilling to submit.

Then grant him death.

At this moment.

On the Blue Planet.

The leaders of the Blue Star civilization were all gathered together.

The tower of abilities.

At the top of the tower.

The nine Supreme heads of state.

They represented the highest will of the Blue Star civilization.

Buzzzzzz! Buzzzzzz!

In front of the nine Supreme heads of state.

It kept playing the images of Jiang Li's sword.

Silence!

There was no sound at all.

"I think that the Supreme 'Emperor Xia', although he didn't say how long he wanted us to discuss, shouldn't be able to wait for us for long."

The fifth head of state was expressionless, but there was a deep bitterness in his eyes. make your decision. This decision concerns the life and death of the Blue Star civilization.

“Hehe, Yingluo.”

“Life and death?”

“this is too lamentable!”

we thought that we were ‘powerful’ and conquered several galaxies. The powerful adepts could even transform their entire bodies into elements and have the power to destroy planets.

“But Yingluo”

only now do we know how small we are. In front of those high and mighty advanced civilizations, the power we are so proud of is as laughable as a child’s toy.

“such a sword strike.”

“.....”

“i choose to submit.”

...

just as the various heads of state were arguing ...

The ninth leader raised his hand and slowly stated his decision.

“Lan Zhan, you’re the one!”

the other eight were stunned. they were a little surprised, but they also felt that it was natural.

At the beginning.

When they faced the 0001 fleet, because the 0001 fleet didn't use its full power, they had the illusion that they could think of all ways to win.

now.

jiang li showed up in person.

in the face of overwhelming power.

Victory?

It was simply impossible.

...

“Make your choice,”

Lan Zhan took a deep breath. He had long blue hair, looked like a young man, and his eyes were like the ocean. He said calmly.

I saw my only grandson die in front of me with my own eyes.

the head of state number one said slowly in a narrative tone, ” when he joined the war fleet, he told me with a smile that he would defeat the enemy and then come back to tell me stories.

“And then ran ran”

“He's dead.”

“We didn't even find his body, only the core furnace of his ‘mutant armor’.”

“Hehe, Yingluo.”

the first head of state was an old man with white hair. he held a black ball the size of a walnut in his hand and gently stroked it with a gentle gaze.

However, unknowingly.

Her eyes were moist.

“Did you know? he’s my only grandson yingluo.”

The head of state number one repeated, ” do you know? He clearly doesn’t know how to tell a story. When he reads it, he always stammered, but he insisted on telling it to me. ”

“Su Feifei, old su Feifei.”

“You’re so silly!”

“My condolences,”

“.....”

The heads of state were silent.

“You guys can go.”

Head of state number one, elder su, stood up.

“Elder su, please!”

“What do you want to do?”

“Could it be that Qianqian?”

The heads of state were stunned, their expressions somewhat nervous.

“i know,”

elder su’s tone was calm. ” as the head of state, i can not be emotional. the prosperity and development of the blue star civilization is the most important. we are facing an enemy that is impossible to defeat. ”

“submission is the only way.”

for the continuation of civilization, you already have the answer in your heart, don’t you? ”

“.....”

The other eight heads of state fell silent again.

yeah.

Was there a need to think?

The answer was already there.

“But,”

someone has to give an explanation to the heroes who died in this war, ” elder su said. we can’t let them die for no reason. Don’t you think so? ”

“From now on.”

I've stepped down as the 'head of state'. The survival of the Blue Star civilization has nothing to do with me anymore. I'm just an ordinary old man who has lost his grandson.

"Now."

"I'm just an ordinary old man. I have to take revenge for my own grandson."

"Whoosh!!!"

as soon as he finished speaking.

Kachaa! kachaa! Crack! Crack!

Elder SU's long silver hair and his silver trench coat fluttered in the air.

Lightning!

Silver lightning appeared on elder SU's body.

Shua!

He stepped forward.

Elder su had already disappeared.

"Elder su!"

"Don't go!"

"....."

The heads of state couldn't help but shout.

Unfortunately ...

They couldn't stop him.

"We can't stop him,"

Lan Zhan took a deep breath. He was the youngest out of the nine heads of state. let elder su go.
This is his only wish.

"And ..."

"Don't you forget."

"The concept of the apotheosized level was first proposed by elder su."

"He's ..."

The other seven heads of state were stunned for a moment, and their eyes couldn't help but have some hope as they looked toward outer space.

Wuwuwuwuwu!

it was a bolt of silver lightning that seemed to tear space apart. it appeared in front of the blue star fleet in an instant as if it had teleported.

Kachaa! Kachaa!

At this moment.

Energy was released.

The streaks of silver lightning seemed to have transformed into giant Dragons.

He bared his fangs and brandished his claws.

“head of state!”

“It’s head of state number one, head of state su.”

“Su yuanshou is here.”

“What does the head of state want to do?”

“.....”

Blue Star Fleet.

The many Blue Planet ability users exclaimed and stared at the scene.

at the same time.

The image of the Blue Planet’s outer space had been captured and broadcasted live across the world. All the Blue Planet’s humans were closely watching the live broadcast.

Because ...

This was related to the life and death of all of them.

“At least you won’t die if you surrender!”

“You’ll have nothing if you die.”

a bunch of cowards! We Earthlings would rather die than be slaves!

“Ai, ai, ai, ai.”

our Blue Star civilization is too small compared to the entire universe.

“What should we do?”

“Is there still a way out?”

“I support President su, no matter what decision he makes.”

“What about the other eight heads of state? Why didn’t he appear? Are you afraid of death?”

“Hehe, Yingluo.”

“Actually, for ordinary people like us, even if we surrender, there won’t be any changes, right?”

“.....”

At this moment.

Countless Blue Planet humans made their own comments on the live broadcast.

in the outer space of the blue planet.

“Respected Xia Emperor.”

elder su retracted his power, and the silver lightning disappeared. he stood in the void of the universe, and the vacuum environment couldn’t affect him at all.

furthermore ...

The surrounding cosmic energy formed a domain around him.

Jiang Li sized him up.

It had to be said.

‘Special abilities’ were indeed a very strange thing.

It was like the evolution of a ‘biological civilization’, but it also seemed like a kind of cultivation technique.

One had to know.

The ‘great cosmos world’ was a world of technological civilization.

so,

Jiang Li was very interested.

Furthermore ...

The potential of the Esper civilization of the Blue Planet’s humans was very high.

If he could thoroughly study the ‘Esper organs’. ..

Perhaps it could be ‘mass-produced’.

“Your choice?”

Jiang Li asked.

“No,” she said.

Elder su shook his head. my dear Emperor Xia, this is just a personal choice of an ordinary old man like me. It has nothing to do with the entire Blue Star civilization.

“I’m just an old man who wants to avenge my grandson.”

“Other than that.”

“no other thoughts.”

“ha.”

Jiang Li chuckled.

“Silver Dragon, my old friend.”

buzzzzzz! Buzzzzzz!

The next moment.

around elder su.

a series of ‘special ability battle armor’ appeared, shining with a resplendent silver light. all of them attached themselves to old su’s body, forming the ‘special ability battle armor-silver dragon’.

Countless bolts of lightning surrounded him.

“Tenth level.”

Jiang Li sensed the strength of elder SU’s aura. It contained the power of the law of Thunder.

tenth rank.

This elder su had reached the tenth level.

One had to know.

this was not a tenth-grade lifeform.

Instead, it possessed the battle prowess of a tenth-tier being.

One had to know.

The Blue Star civilization was only a peak Level-3 civilization.

It had actually given birth to a level 10 existence.

In reality.

With elder SU's combat power, he could even destroy the dark matter-powered battleships of Level 4 civilizations and fight against the fleets of Level 4 civilizations.

"Apotheosized level, it's the apotheosized level."

"A true apotheosized level!"

"Heavens! This Suan ni, this Suan ni, this is simply a legend!"

"He's too strong. Su Yuhan is too strong."

"Hehe, you guys don't know yet, right? the concept of 'apotheosized level' was first proposed by su yuanshou. So elder su has already reached the apotheosized level."

elder su will definitely win!!!

“Charge!”

“defeat that ‘pretentious’ emperor xia!”

su Yuhan is invincible!!!

“.....”

Countless Blue Planet humans were shouting.

excitement!

He was extremely excited.

They seemed to have seen the light of hope.

Elder su was their only ray of hope.

He had placed all his hopes on elder su.

“Kill!”

“roar!”

Elder su raised his hand, and a brilliant light shone forth. With a roar, his entire body transformed into endless lightning, and the power of laws coiled around him.

At this moment.

Elder su turned into a Silver Dragon with lightning and thunder. He charged at Jiang Li.

“so this is the technique you used all your strength for.”

elder su. Jiang Li slowly raised his hand and pressed down on elder su who had turned into a Silver Dragon. It was like Buddha pressing down on Sun Wukong's five-finger Mountain.

Chapter 774 taming

boom! BOOM! BOOM!

At this moment.

It was as if the interstellar space was shaking. When Jiang Li's palm landed, the entire space of the fiery Sun System was shaken. The vast and endless energy of the universe seemed to be boiling.

It was shaking violently.

Incomparable.

It was impossible to describe such a scene.

The majesty of an Emperor was extremely powerful.

Roar! roar! "Roar!"

The Dragon roared.

Head SU's Silver Dragon charged forward with great power. The lightning laws around the silver Dragon destroyed everything.

Bang!

An explosion sounded.

A dazzling light bloomed.

There was no surprise.

Jiang Li grabbed the ‘Silver Dragon’ by the neck. The silver Dragon was as big as a planet, but Jiang Li was still the same. Compared to the silver Dragon, Jiang Li’s body seemed extremely small.

but ...

jiang li grabbed the silver dragon’s neck.

from a distance.

The silver dragon’s head and body were extremely large, but its neck was extremely thin, as if it had been broken off from the neck.

Its wriggling body twisted and struggled violently, but it was like a big snake that was being strangled.

He couldn’t move at all.

“!!!”

Su yuanshou was shocked. In the face of Jiang Li’s power, he felt like an ant. The power he was so proud of was so weak.

he did his best.

However, he was grabbed by the neck.

Even his struggles seemed so weak and pale.

“This Suan ni, this Suan ni”

“impossible? this is impossible!”

“How could su Yuhan be so weak? How could it be like this? I don’t believe it, I don’t believe it!
This is fake! it must be fake!”

“heavens!”

“We’re finished! It’s all over!”

“The SU Yuan beast at the God level was easily pinched by the other party.”

“The difference is too great!”

“It’s really too big!”

“.....”

many of the blue planet’s humans roared in despair.

One had to know.

Head of state su was their only hope, their only hope. All of the Blue Planet’s humans had placed their last hopes on head of state su.

now.

Everything was broken.

All the hope, all the anticipation, all the hope.

Everything. Everything.

It was like the moon in the water.

It shattered upon contact.

The humans of the Blue Planet had experienced the great difference between hope and despair.

“ah!”

The silver Dragon that su han had transformed into was roaring in anger. He mobilized all the power in his body and resonated with the energy of the universe.

“Can’t even withstand a single blow.”

destroy. Jiang Li said in disdain.

Buzzzzzz!

Clang! Clang! Clang!

Emperor sword! Jiang Li clenched his right hand. The sword hummed and the power turned into countless shadows of the Emperor sword, covering the silver Dragon.

Bang Bang Bang Bang!

...

an explosion sounded.

in that instant.

The silver Dragon was like fragile glass. It was completely broken. The lightning law was destroyed. It couldn't block Jiang Li's sword energy at all.

“Ah!”

Su yuanshou screamed.

after the silver dragon dispersed.

Su yuanshou had returned to his original appearance. His hair was white, and his Silver Dragon Armor was full of cracks. He spat out blood, and his face was pale.

“i'm yingying!”

Su yuanshou looked at Jiang Li with deep respect and said slowly, ” “respected emperor xia, thank you for letting me leave without any regrets.”

“I sincerely hope so.”

please don't order us Blue Star humans around like slaves.

...

“I believe you,”

in the near future, we Blue Star humans will definitely become the most powerful force in your hands. I've always felt that way.

we Blue Star humans have such potential.

Buzzzzzz! wuwuwuwuwu!

su yunshui said.

His body was gradually dissipating.

It started from his feet.

It was as if it had turned into light.

His body turned into countless white spots of light.

It turned out.

head su hadn't reached the apotheosized level yet. he only had a preliminary idea and had tried to break through, but all of his attempts had ended in failure.

This time.

He completely burned his life force and forced himself into the God-level, but he still couldn't compare to Jiang Li's palm.

"Su Yuhan!"

"....."

Countless humans on the Blue Planet cried.

In the end.

Head su completely disappeared.

Jiang Li didn't answer him.

“submit or be destroyed?”

buzzzzzz!

Jiang Li put his hands behind his back and looked at the entire Blue Star.

At this moment.

Jiang Li’s image was shown to all the people on the Blue Planet through the ‘Blue Planet Live broadcast’.

He saw this scene with his own eyes.

Instantly.

Many of the Blue Planet’s humans were enraged.

“Don’t even think about it!”

“To avenge elder su!”

“Su yuanshou died too miserably.”

“Let’s go all out with them.”

“.....”

The Furious Blue Planet humans roared in anger.

but ...

There was more silence and sorrow.

They lowered their heads.

It was obvious that he had compromised.

The reality was not like those stories.

Those beautiful stories.

Usually, there would be a good ending after experiencing a disaster.

However ...

The reality was so sad.

Often, you would give it your all, but all you would get was failure.

Very quickly.

After the angry blue Planet humans calmed down, they all fell silent. Their faces were a little gray as they stared at the Supreme figure in the live broadcast.

He felt so helpless.

Shua! shua! “Whoosh!”

this time.

Jiang Li didn’t have to wait too long.

in less than half a minute.

Immediately.

Eight heads of state.

they all rushed from the blue planet to outer space.

Six men and two women.

the eight heads of state were all sss-class superpowered people.

“Respected Xia Emperor.”

The eight heads of state knelt down in front of Jiang Li at the same time and said, ” on behalf of the entire Blue Star civilization, we sincerely pledge our allegiance to you.

“I’m willing to become a part of the ‘great Xia Dynasty’.”

“Please permit it!”

As soon as he finished speaking.

After that.

Many more ability users appeared.

“We are willing to submit!”

They shouted in unison.

“Alright,” he said.

A smile appeared on Jiang Li’s face.

Immediately.

The eight heads of state and the numerous Esper ability users naturally represented the entire Blue Star civilization. Even if there were many Blue Star humans who were unwilling to submit, it would be of no use.

The higher-ups had already submitted.

How could the lower class resist?

Buzzzzzz! Buzzzzzz!

After the Blue Star civilization surrendered.

The fate of the entire human race on the Blue Planet turned into a boundless fate of the Empire. Jiang Li couldn't see the end of it.

“This bi an ...”

Jiang Li was stunned. He couldn't believe it. He said in surprise, ” “There's actually such a vast amount of luck? It's a little unbelievable.”

It was true.

After the fate energy manifested.

it actually formed a boundless sea of fate.

They rushed towards the Azure Dragon of the great Xia Dynasty.

Roar! Roar!

The Azure Dragon of Grand Xia roared, and it was as if he had transformed into a ‘black hole’, constantly devouring the fate of the Empire that had been transformed from the fate, fusing them into his body.

Instantly.

The body of the great Xia Azure Dragon was growing at a speed that could be seen with the naked eye.

It continued to improve.

7.1 million meters 7.5 million meters 8 million meters

In the end.

After the Azure Dragon of the great Xia Dynasty devoured all the fate of the Empire that was converted from the fate, its seven million meters long body became nine million meters long.

Shua! “Whoosh!”

Immediately after.

The Xia Dynasty’s Azure Dragon split into a bright Dragon-shaped rune mark, and the Azure light fog of the nation’s fate enveloped the entire Blue Planet. The mark of the subsidiary race was integrated into the roots of the Blue Planet’s humans.

Instantly.

All the humans on the Blue Planet were stunned.

An Azure Dragon Mark appeared between their brows, then quickly disappeared. All sorts of information about the ‘great Xia Dynasty’ was transmitted into their minds.

Furthermore ...

he had also learned everything about the subsidiary races.

“This bi an ...”

how is this possible?!

“The ‘great Xia Dynasty’ actually doesn’t belong to this world? it’s actually from another world called the ‘super fantasy world’. this is simply too shocking.”

“Unbelievable.”

“there’s more,”

“The subsidiary races are not slaves. They are just vassals of the great Xia Empire.”

“.....”

The people of the Blue Planet were discussing.

“Your subject Lan Zhan pays his respects to Your Majesty!”

Leader nine was the first to react. He took a deep breath, adjusted his state of mind, knelt down in the air and kowtowed to Jiang Li.

“your subjects pay their respects to your majesty.”

Hence.

The surrounding seven heads of state also reacted.

They all saluted to Jiang Li.

Obviously.

Because of the ‘mark of the subsidiary race’, the earth language was naturally engraved in the depths of the minds of all the humans on the Blue Planet, and they could naturally understand it.

“Very good,” he said.

” okay. ” jiang li nodded in satisfaction.

Shua!

Hence.

Jiang Li waved his right hand.

The Grand Xia Marquis medallion materialized.

In the surroundings.

Countless Blue Star humans looked up.

“Lan Zhan,”

Jiang Li said.

“Your subject is here.”

lan zhan replied.

from today onwards, I will grant you the title of great Xia’s King. You will be the ruler of the Blue Star, and you will lead and manage the ‘Blue Star civilization’ for me. There must be no mistakes.

go! Jiang Li ordered.

“This Minister will obey.”

Lan Zhan replied in a calm tone.

“Roar!”

the next moment.

the azure dragon of the xia dynasty let out a long roar and released a vast beam of azure light, which enveloped the blue formation.

Buzzzzzz! Buzzzzzz!

the power of the empire’s fate fused into his body.

At the same time.

A stream of inherited information about the ‘Empire’s National aura technique’ appeared in Lan Zhan’s mind out of thin air.

It was called the verdant King Art.

It was derived from Jiang Li’s ‘art of the Azure Emperor’.

“this bi an ...”

Lan Zhan was completely stunned.

He was overjoyed.

Roar!

Immediately after.

A five-clawed flood Dragon condensed behind Lan Zhan. It was green and lifelike, like a real Supreme flood Dragon. The flood Dragon's body was at least 100000 meters long.

Not only that.

Lan Zhan's life level had also evolved.

He had the status of a 'Marquis King'.

"Your subject thanks Your Majesty."

Lan Zhan couldn't help but exclaim in excitement.

Buzzzzzz! Wuuwuwuwu!

Suddenly.

Lan Zhan's aura fluctuated, and his body emitted a blue radiance. His energy was constantly fluctuating, with strong fluctuations of the water Dao.

Without any hesitation.

Lan Zhan quickly sat down cross-legged.

At the same time.

The 'verdant Emperor Art' was activated.

“what’s going on?”

“What’s wrong with Lan Zhan?”

“He was fine just now.”

“What a strong energy fluctuation. From the looks of it, is Lan Zhan about to break through?”

“This bi an ...”

“That’s impossible. If Lan Zhan had a breakthrough, wouldn’t he be the first person in the history of the Blue Star civilization to truly break through to the ‘apotheosis’ level?”

“Si si si ...”

“you know, head su hasn’t even broken through yet!”

In the surroundings.

the seven heads were shocked, their eyes fixed on lan zhan.

Jiang Li stood on the side.

His expression did not change.

He was waiting very calmly.

Chapter 775 Dharmic formulation

The boost of the Empire's fortune made Lan Zhan break through very quickly. Jiang Li only waited for less than half an hour before Lan Zhan completed his breakthrough.

BOOM!

his aura rose rapidly.

He had directly broken through to a new level.

The 'Esper organs' had been further developed, and they had evolved into Esper cells.

He took the first step toward the body transformation.

after another half an hour.

Lan Zhan stabilized the energy after the breakthrough. He could clearly feel the unparalleled power contained in his body, and the feeling of unparalleled power.

Lan Zhan was unusually excited.

"Your subject thanks Your Majesty."

Lan Zhan kowtowed again.

"Yes."

Jiang Li nodded and said calmly, "continue to work hard and manage the Blue Star civilization for me. It's just a small breakthrough.

"As long as you do well, the reward will only be more."

"Yes."

“I will not let you down, Your Majesty,” Lan Zhan said loudly.

“.....”

In the surroundings.

The other seven heads of state were extremely shocked and envious.

He was a little jealous.

“The seven of you will assist Lan Zhan in the future.”

from now on, the Bluestar civilization only needs one leader, ” Jiang Li said. the seven of you will be vice leaders.

“Yes.”

“We accept the decree.”

“.....”

the original seven heads of state responded.

He had subdued the Blue Star civilization.

Jiang Li didn't stay in the sun element any longer.

In reality.

With the current power and civilization level of the Blue Star civilization, the power and strength they possessed had already surpassed the myriad life tribe and the giant spirit tribe on the giant spirit planet.

so,

Jiang Li had already made up his mind.

After letting the Blue Star civilization get used to it for a while.

Jiang Li would ask the Blue Star civilization to build a superpower Army and then ask little white to open the plane channel to the New World and send the superpower Army to conquer it.

This way ...

Not only could they harvest the resources of the New World, but they could also harvest the resources of the New World.

Furthermore ...

it could also promote the growth of the blue star civilization.

Two birds with one stone.

in addition.

Jiang Li had told Lan Zhan to simplify the ‘verdant King Art’ and teach it to all the humans and Espers on the Blue Planet.

As for whether he could master it.

Jiang Li had no idea.

After all ...

Lan Zhan was able to master it with the help of the Empire’s blessing and amplification.

Furthermore ...

After the Blue Star ability user Army headed to the New World, they could also study the new world's cultivation techniques and thus develop a cultivation technique that was completely suitable for Blue Star ability users to cultivate and evolve.

Buzzzzzz!

Spatial teleportation.

Jiang Li returned to the No. 01 elementary base of laws of nature.

In the dark.

The Azure Dragon List was calling for Jiang Li more and more.

One had to know.

...

the great xia dynasty's fortune had increased greatly this time. their ranking must have improved a lot and they would receive a lot of rewards. jiang li was looking forward to it.

On the Blue Planet.

Not long after Jiang Li left.

The expected turmoil did not happen.

Because ...

After submitting.

It was only then that all of the Blue Star humans realized that their lives were still the same as before. There were not many changes. They only knew that their Blue Star civilization had become a subsidiary race of the great Xia Empire.

Other than that.

There was almost no change.

Not only that.

Coupled with the blessing of the Empire's fate, the ability users of the Blue Planet suddenly realized that the speed at which their abilities were strengthened had actually accelerated.

...

As for the Esper powerhouses who stood at the top of the pyramid ...

They all gathered together and asked Lan Zhan what it felt like to break through to the 'apotheosis' level. What was the opportunity for a breakthrough?

Wait, wait, wait.

After thinking about it carefully.

Only then did the top powerhouses of the Blue Star civilization realize that the difficulties and doubts that had been plaguing them in breaking through to the apotheosized level were easily resolved in front of the great Xia Empire.

Lan Zhan broke through in the blink of an eye.

The more he thought about it.

The more they thought about it, the more terrified they felt.

His heart was filled with respect.

Buzzzzzz! Buzzzzzz!

In addition.

As time passed.

The mechanical fleets that Jiang Li sent out returned one after another. All the remaining civilizations within the surveillance range of star map '01' had been subdued.

in other words.

Jiang Li only spent a few days.

With Titan star as the center, he easily took over the star system 10000 light-years around it.

Of course.

in fact, it wasn't a complete victory.

this was because they still lacked a peak level-4 civilization.

That was the 'Light Civilization'.

Jiang Li hadn't taken down the civilization of light yet.

In reality.

the reason why jiang li didn't send a mechanical fleet to the light civilization's mother star system was to prevent a sneak attack from the 'eternal night empire'.

If the fleet was stuck in the light Civilization's home star system, even if the No. 01 Basic Law base could perform space teleportation, they wouldn't be able to teleport back.

he had to leave the battlefield.

Buzzzzzz! wuwuwuwuwu!

At the same time.

The fate of the Empire, which was transformed from the fate of various civilizations and races, crossed the distance of space and descended. The Azure Dragon of great Xia absorbed all of it.

Roar! roar!

The Dragon's Roar was extremely loud and majestic.

The Dragon's body was slowly growing.

In the end.

It stopped at 9999999 meters!

Just a little bit more.

One meter.

He would be able to break through to ten million meters.

At that time.

the national fate ranking would then enter the seventh level.

“It’s a pity,”

if we can take down the light Civilization, we should be able to break through ten million meters easily and enter Level Seven, ” Jiang Li said.

Buzzzzzz!

The phenomenon disappeared.

The Azure Dragon turned into a ray of Azure light and returned to Jiang Li’s body.

Hidden Dragon, what’s the situation of the light Civilization’s home star system? ”

Jiang Li asked.

“Reporting to you, chief sovereign.”

shua!

hidden dragon quickly summoned the image projection of the light civilization’s mother star system and told jiang li, ” ” currently, the light civilization’s mother star system has recalled the light fleets from the various colonial star systems and harvested a large amount of energy resources from them. ”

“In short.”

the light Civilization has used all their power.

“also,”

” the only force that is invading the light civilization is the destroyer of the milky way and the ‘sky dome dynasty’ from the super fantasy world. ”

“yes.”

Jiang Li nodded and looked at the image of the light Civilization’s mother star system.

In reality.

With all the forces and fleets that Jiang Li had now, it was enough to take down the light Civilization. Even if there were losses, it would be within an acceptable range.

how long can the light Civilization last? ”

Jiang Li asked.

my Lord, with the fleet sent by the destroyer and the Army strength displayed by the sky Dome Empire, it will be difficult for the light Civilization to be captured.

Hidden Dragon replied.

how’s the situation in colony Galaxy 013561? ”

jiang li asked again.

no signs of the Yongye Empire.

Hidden Dragon replied.

continue to monitor. Don’t let your guard down.

Jiang Li said.

“Yes.”

Hidden Dragon nodded.

This time.

Jiang Li didn't go back to the Super Fantasy world. Instead, he went directly to the No. 01 elementary law base and started to cultivate in seclusion.

After that.

In the world of consciousness.

true dragon List. Jiang Li used techniques and his consciousness came to the 'true dragon List'. He entered the' illusionary body 'and looked up at the purple-gold' true dragon List 'at the top.

Buzzzzzz! Buzzzzzz!

The light flickered.

after that.

One after another, purple-gold light balls fell.

It merged into Jiang Li's body.

the reward was issued.

'Congratulations to the great Xia Empire for advancing in the National aura. Your National aura ranking has risen from 87970th to 80099th. Nine wisps of world law origin source.

"World law origin source."

so, I have 20 world law origins now. I'm still 79 away from collecting 99. Jiang Li was happy.

“Reward 2: the Emperor dynasty’s National aura cultivation technique,’ Azure Emperor Art’, has been upgraded.”

Buzzzzzz! Buzzzzzz!

A vast amount of inheritance information rushed into Jiang Li’s mind. He quickly memorized it and upgraded the Azure Emperor Art from level 11 mid-grade to level 11 Supreme-grade.

Further up.

he would be able to reach level 12 low-grade.

‘Reward 3: elementary special ability technique’

“What is this?”

Jiang Li was surprised.

Buzzzzzz!

Immediately after.

All the information about the ‘elementary special ability technique’ was poured into Jiang Li’s mind. It was extremely detailed, complicated, and mysterious.

“It’s actually like this.”

Jiang Li was even more surprised.

The words were just like their meaning.

It was exactly what it meant.

The ‘elementary Esper ability technique’ was related to the ‘Blue Star civilization’. It recorded in detail how to develop the ‘Esper organ’ and gradually assimilate the ‘Esper organ’ into the whole body.

It had reached the peak of ‘elementary special ability techniques’.

At that time.

His entire body was filled with ‘Esper organs’.

In other words, it had completely turned into a law.

However ...

A mutant’s complete Protogenia was extremely singular, with only one type of Protogenia, so in terms of combat power, they were naturally far inferior to a true level 12 powerhouse.

Of course.

This method was extremely fast.

It could create a group of people with abilities comparable to a Level-12 mutant in a short time.

“Not bad.”

Jiang Li nodded in satisfaction. I didn’t expect the ‘Bluestar civilization’ to have such great potential. It’s so great that the ‘Azure Dragon List’ designed a ‘beginner-level special ability technique’ for it.

Furthermore ...

Since it’s a beginner special ability technique.

Up.

Naturally, there were intermediate and advanced special abilities.

Therefore ...

It had great potential for growth.

Buzzzzzz!

His consciousness returned to his body.

Jiang Li opened his eyes.

“Elementary special abilities.”

Buzzzzzz! Buzzzzzz!

Jiang Li opened his right hand. Dense runes appeared in his palm, shining with colorful lights.

The colorful lights gathered together.

BOOM!

In the surroundings.

The vast energy of the universe gathered.

in the end.

The mysterious runes and the energy of the universe combined together to form a palm-sized ‘black jade slip’, which recorded the ‘elementary special ability technique’.

The interesting thing was ...

This black jade slip could only be used once.

In other words ...

Only one human from the Blue Planet could learn it.

Of course.

elementary Power Technique ” was still in Jiang Li’s mind, but he didn’t have the time and interest to teach it to the people of the Blue Star.

“Hidden Dragon,”

jiang li gave the black jade slip to qian long and said, ” “Make a trip and give this ‘black jade slip’ to Lan Zhan. Tell him that he can choose what he wants to do after he has learned it.”

“Yes.”

Hidden Dragon replied.

Buzzzzzz!

hidden dragon teleported away and handed the black jade slip to lan zhan. after lan zhan got it, he fell into madness and deep shock.

It was too pathetic.

the humans of the blue planet racked their brains, but they still couldn’t figure out the method to create special abilities.

And now.

how did it end up in the hands of the blue planet's humans?

Easily.

The other party had developed a special ability that far exceeded the apotheosized level.

“Chief sovereign.”

yes, ” Hidden Dragon returned and reported to Jiang Li, ” I’ve given the black jade slip to Lan Zhan.

“Yes.”

okay. Jiang Li nodded.

“chief sovereign.”

Suddenly.

Hidden dragon's eyes flickered, and his expression changed. an extremely strong spacetime fluctuation has been detected in colonial star system 013561. It's very likely that the Army of the 'Yongye Empire' has arrived.

immediately lock onto the enemy's exact location and send out all the mechanical fleets. Go all out and ambush the enemy, annihilating the Army of the Yongye Empire.

Jiang Li said in a deep voice.

Chapter 776 great battle

The spatial teleportation was activated.

“Whoosh!!!”

An invisible spatial light beam enveloped Jiang Li.

Jiang Li disappeared from the No. 01 Basic Law base and was teleported to colony Galaxy 013561.

Immediately.

Jiang Li stood in the middle of the mechanical fleet.

He was surrounded by countless motherships and defensive fortresses.

They formed a huge mechanical fleet.

Right in front.

Time and space twisted.

It formed a black arched gate.

It was the entrance to the ‘plane channel’.

Shua! Shua! “Whoosh!”

immediately after.

An extremely dense black mist of death enveloped the surrounding starry sky. It contained the aura of the death law, as if it was the domain and range of the death god.

“undead suan ni”

Jiang Li looked into the distance and saw through the mist of death. He saw countless undead warriors.

There were skeleton warriors, Death Knights, dark zombies, death mages, death bone dragons, and so on.

There were all sorts of undead soldiers.

They came together.

they formed an extremely terrifying and powerful ‘undead army’.

At the same time.

Jiang Li also saw nine Lich Kings.

“Roar!”

The Dragon roared.

The black true dragon of the country’s fate took form and roared in the starry sky.

“It’s actually an undead army.”

the undead army? ” Jiang Li was surprised. I didn’t expect that the Empire of darkness would send an ‘undead army’. If I’m not wrong, the Empire of darkness must have ruled a powerful world of undead.

“And ...”

the netherworld is a high-level world.

One had to know.

Nine Lich Kings.

All of them were rank 11.

He was extremely powerful.

“Chief sovereign.”

Shua!

Hidden Dragon’s figure appeared.

“Yes.”

Jiang Li nodded, waved his right hand and shouted, ” “All troops, move out.”

“Yes!”

yes, ” Hidden Dragon replied and passed on Jiang Li’s order.

“Rumble!”

“kill!”

“all troops, charge!”

“!!!”

In that instant.

Jiang Li's mechanical fleet charged at the 'undead army' of the Empire of eternal night. Countless roars were heard.

Beams of energy light beams containing the power of the laws of destruction blasted over.

Bang Bang Bang Bang!

an explosion sounded.

The 'undead army' of the Yongye Empire had just passed through the 'plane channel' and arrived in the 'great universe world'. They had not had time to adapt and familiarize themselves with the surrounding environment.

The next moment.

An overwhelming wave of attacks came.

...

The most important thing was ...

Jiang Li's mechanical fleet was made up of level ten beings. Every attack contained the power of the law of destruction and was extremely destructive.

Furthermore ...

Jiang Li also had two complete-stage level 11 mechanical interstellar soldiers.

Not only that.

Jiang Li also had the 'demonic sword', a level 12 machine origin soldier. With Jiang Li's cultivation at the early stage of level 11, the 'demonic sword' would be even more powerful in his hands.

“Enemy attack!”

“Prepare for battle!”

“Damn it!”

“.....”

The nine Lich Kings roared loudly.

...

However ...

It was too late.

Bang Bang Bang Bang!

the mechanical fleet’s attacks bombarded the undead army, and the destructive power annihilated everything. a large number of death knights, dark zombies, and undead bone dragons.

Wait, wait, wait.

they were all dead.

Under the bombardment of the energy beam cannon that contained the destruction law ...

It was directly reduced to ashes.

Heavy losses.

Buzzzzzz! Buzzzzzz! “Whoosh!!!”

At the same time.

Jiang Li also caught a large number of soul Tinders. They formed a colorful flood and quickly rushed to Jiang Li. Notifications popped up one after another.

After a round of bombing.

The undead army had lost at least one-tenth of their forces.

Roar! “roar!”

The undead army began to fight back.

The undead Bone Dragon roared and released soul flames, forming a powerful Dragon Breath that shot toward Jiang Li’s mechanical fleet like a beam of light.

Instantly.

One energy soldier after another was scrapped.

activate Guardian.

Buzzzzzz! “Whoosh!!!”

The Guardian fortress released its skill, and The Guardian soldiers and Guardian battleships linked together, forming an extremely vast energy barrier.

It enveloped the entire mechanical Army.

Bang Bang Bang Bang!

The undead Bone Dragon's Dragon Breath attack was completely blocked by the energy protection barrier.

This ability ...

It was like the protection of an Army.

However ...

The energy shield of the fortress only had defensive capabilities and did not have any amplification abilities. Therefore, it was much weaker than an 'army formation'.

In fact,

Jiang Li had gotten the 'low-level military formation secret technique' from the true dragon List and given it to Toria and the others to study, but they hadn't made any progress yet.

With Toria's intelligence and abilities, it was impossible for them to come up with a way to make a 'mechanical Army' into a 'battle formation'.

In fact.

regarding this matter.

Jiang Li already had a guess in his heart.

If he succeeded ...

Perhaps it would allow the 'mechanical Army' to set up a 'military formation'.

At that time.

Jiang Li's strength would be greatly improved.

No. Fzjzzzmj01, a precept-level medium war mothership, and no. Fzjzdshbl01, a precept-level medium defensive fortress, move out.

Jiang Li waved his hand.

Buzzzzzz! Buzzzzzz!

Immediately.

Behind Jiang Li.

The protogenic medium-level mothership and the protogenic medium-level Guardian fortress rushed out. Two complete-stage rank-11 mechanical interstellar troops joined the battlefield.

the skill was activated.

Shua!

In that instant.

With the medium-level fortress as the center, a boundless ‘protective light veil’ spread out rapidly and covered Jiang Li’s fleet in an instant.

a rank 11 ‘protective light veil’.

Its defensive power was extremely strong, and it was almost impossible for anyone below level 11 to break through it.

Hence.

Under such circumstances.

All the attacks from the undead army were blocked as quickly as possible.

“What?”

“This is impossible!”

The Lich Kings ‘eyes widened in disbelief.

However ...

Jiang Li’s attack was far from over.

In fact, it was just the beginning.

“Activate the energy source.”

BOOM!

The skill was activated.

the ” energy drive ” of the ‘medium-level destruction maxim’ was released. it condensed a vast amount of energy and turned into a black beam of light.

“Whoosh!”

It pierced through.

It drew an extremely bright black light in the starry sky.

It was as if the starry sky was being torn apart.

bang bang bang bang!

“Ah!”

Countless screams rang out.

This attack.

it directly pierced through the undead army. it was unstoppable, and it contained destructive power. the undead army was completely suppressed.

“This Suan ni, this Suan ni”

Since the start of the war.

It only took a few minutes.

The undead all felt fear and powerlessness.

He was too strong.

He was simply too powerful.

“Roar!”

At this moment.

the wyrm dragon’s roar came from behind the undead army.

Shua!

A Black Five-clawed Dragon flew out and hovered above the battlefield. It looked at Jiang Li’s mechanical Army and saw a figure standing on the dragon’s head.

He looked closer.

It was the Prince of the Empire of eternal night, 'eternal halberd'.

A vast aura surged.

The runes of law intertwined.

“oh.”

another Prince. Jiang Li looked at him. however, this Prince is very unusual. The five-clawed Dragon is five million meters long.

“And ...”

“My cultivation has reached the late eleventh level.”

One had to know.

The eternal halberd was the eldest Prince of the Empire of eternal night.

In other words ...

He was the strongest in the Yongye Empire, other than 'human Emperor Yongye'.

He was naturally very powerful.

“All troops, hear my order!”

the eternal halberd stared at jiang li's mechanical army and shouted, ” use me as the eye of the formation and set up an eleventh-grade Army.

“The fate of the Empire.”

“Condense!”

BOOM! boom!

As soon as he finished speaking.

The eternal halberd formed a seal with both hands and displayed the ‘military formation secret technique’. He used himself as the eye of the formation, in addition to the power of the Empire’s fate and the Imperial Jade seal.

It had fused with the power of the entire undead army.

The boundless military Qi merged.

He set up a grade-11 army formation.

In other words ...

The undead Army’s strength had reached a hundred trillion.

“Kill!”

The eternal halberd roared.

At this moment.

The starry sky was shaking violently.

It exploded with an incomparably terrifying aura.

The Army formation was set up successfully.

It formed a real world of the undead and instantly pulled Jiang Li's entire mechanical fleet into it.

Rank 11 army formation-netherworld.

After that.

BOOM!

there was a loud bang.

The eternal halberd showed its might.

His Imperial Jade seal had turned into a long black halberd. The five-clawed flood Dragon under his feet had merged into the weapon, and the body of the halberd had flood dragon patterns.

“Martial arts Dharmakaya,”

Martial arts!

The eternal halberd mainly cultivated the ‘law of martial arts’, and it had fused six types of nomological powers, raising the power of the ‘law of martial arts’ to an extreme level.

It could be seen.

The body of the eternal halberd seemed to have turned pure gold. Countless nomological patterns were imprinted on it, and its entire body seemed to have turned into a complete law.

“kill!”

BOOM!

The eternal halberd roared and the Dragon halberd stabbed forward. The power of this attack was amplified by the level 11 military formation, the Imperial Dragon, and the Imperial Jade seal.

He had almost reached the level of the great circle of rank 11.

Kachaa! Crack! Crack!

The ‘protective light veil’ of the magical-level medium level Guardian fortress could not block the attack of the eternal halberd and cracks appeared. Then, under the suppression of the ‘netherworld’ army formation, it was destroyed.

BOOM!

There was a loud bang.

The ‘protective light barrier’ had shattered.

“All troops, charge!”

bang bang bang bang!

Immediately.

die! the eternal halberd shouted. He led the entire Army of the Dead and charged at Jiang Li’s mechanical Army.

The flood Dragon halberd swept around.

Countless energy soldiers and Guardian soldiers shattered.

“Charge!”

“Follow the Prince’s footsteps!”

“The undead live forever!”

“Eternal night will win!”

“.....”

The nine Lich Kings were also shouting.

They fought forward.

Instantly.

Jiang Li’s mechanical fleet was suppressed.

“Activate skill.”

buzzzzzz! Buzzzzzz!

The two perfect-stage rank-11 mechanical interstellar troops, the mid-grade protogenic war mothership and the mid-grade protogenic Guardian fortress, were showing their full power.

it was as if he had transformed into a black hole.

It was devouring the energy of the universe.

The ship’s door opened.

In the blink of an eye.

Level 11 energy soldiers and battleships rushed out, as well as level 11 Guardian soldiers and battleships, forming a level 11 mechanical Army.

they surrounded the eternal halberd and the lich king.

Chapter 777 coercion

At this moment.

Hundreds of millions of level 11 mech Warriors had arrived.

The momentum was incomparably vast.

they surrounded him.

An intense battle broke out.

the armies of both sides had already engaged in close combat. the countless collisions shook the space and produced extremely terrifying shockwaves.

In reality.

Although the level 11 energy-source soldiers and battleships were not as powerful as the Lich King and the others, there were a lot of them, up to 100 million in total.

It directly formed a crushing pressure.

even with the rank 11 army formation, 'netherworld', protecting and enhancing them.

That would be completely useless.

It was a complete suppression.

“No! no!”

this is impossible!!

“Heavens!”

“Rank 11! They’re all level 11!”

“How did this happen?”

“Hundreds of millions of level 11?”

“Fake! This must be fake! It definitely is!”

“.....”

Screams.

The Lich King shrieked in fear.

“Ah!”

As one of the Lich Kings was too shocked and terrified, the level 11 energy soldiers seized the opportunity and injured him, causing him to let out a shrill scream.

“kill!”

Bang Bang Bang Bang!

However, the eternal halberd charged forward. His eyes were calm, and his martial arts Dharmakaya gave off an infinite light. Every move and form contained boundless power and strength.

It could be seen.

The eternal halberd was like an invincible God of War. Wherever it passed, everything was annihilated, and it easily killed countless energy soldiers and energy battleships.

Obviously.

This was the power of the experts in the Super Fantasy world.

Quantity?

There was no meaning to it.

The level 11 energy soldiers and energy battleships that were charging at the eternal halberd were all torn apart and exploded, turning into energy that filled the sky.

“A puppet that can’t even withstand a single blow.”

The eternal halberd’s tone was contemptuous.

In reality.

many of the old human empires in the super fantasy world had been to countless worlds, so they were already used to this kind of ‘human wave tactic’.

even though ...

The energy soldiers and energy battleships created by the mid-grade protogenic space carrier by gathering cosmic energy did indeed have the power of a level 11.

but ...

In front of the eternal halberd.

It was indeed as fragile as porcelain.

It was like saying.

The tofu of the same weight collided with the steel of the same weight.

It was obvious.

The tofu would directly rot.

The steel would be unscathed.

The eternal halberd was steel, and the energy soldiers were tofu.

Of course.

It was not to say that the energy soldiers were not strong.

However ...

The Super Fantasy world was a cultivation where all the mighty forces were returned to the body. The powerhouses had long tempered their bodies to an extreme degree.

...

On the other hand, in the 'great cosmos'.

It was completely different.

Another example.

The Lich King came from the ‘netherworld’. Although they were also level 11, they were obviously far inferior to the eternal halberd. Faced with the siege of the mechanical Army, they kept retreating and were in a precarious situation.

a little carelessness.

It would be the end of destruction.

If it wasn’t for the power of the ‘army formation’.

The nine Lich Kings had died long ago.

“Sky Shattering Strike.”

BOOM!

The eternal halberd shouted and performed a martial technique. His figure was like light, and the Dragon halberd struck out, causing the space to crack like a mirror.

...

The halberd light spread all the way.

Everywhere it passed.

Everything in front of him was shattered.

Shua!

Teleportation.

The eternal halberd had also mastered the space law.

He instantly teleported in front of the medium-level Protoss mothership.

“Die!”

Buzzzzzz!

The eternal halberd’s eyes widened in anger. He gathered all the power in his body, and his martial arts Dharmakaya shone brightly. The Dragon halberd in his hand slashed fiercely at the law-level medium-class mothership.

“Energy defense,”

instantly.

The medium-level protogenic space carrier condensed an ‘energy defense’, forming a pitch-black energy shield. The shield was intertwined with the protogenic power.

Immediately after.

The protocosmic medium-level Guardian fortress also quickly placed its defense on the protocosmic medium-level mothership.

bang!

There was a loud bang.

The strike of the eternal halberd landed on the energy shield, causing a violent explosion. A storm spread out, shaking the surrounding space.

Kachaa! Kachaa!

The energy shield began to crack.

“Energy source.”

BOOM!

The medium-grade protogenic battle mothership fired a terrifying energy beam cannon, sending the eternal halberd flying. Immediately after, countless energy soldiers and energy battleships surrounded it.

“Explode!”

BOOM!

the eternal halberd shouted, and energy exploded, forming countless sharp lights that tore apart the energy soldiers and battleships one after another. they were fighting with all their might.

in reality.

The eternal halberd was very clear.

this time.

He had encountered a powerful enemy.

Such an Army.

He had never encountered such a thing in his life.

this was really too terrifying.

Hundreds of millions of level 11 Warriors.

Furthermore ...

He could actually revive continuously.

He couldn't help it.

the eternal halberd thought of the 'strangeness' produced when the world was destroyed. the 'strangeness' also had a law of immortality, but as long as the origin was broken, it could be killed.

Similarly.

It was the same for the enemy's Army.

They had an origin flagship.

As long as it was destroyed.

They could destroy the entire Army.

However ...

He was simply too powerful.

The enemy's 'origin flagship' could not only create hundreds of millions of battles, but it also had extremely powerful combat power. It could teleport, had a strong defensive ability, and had extremely strong attack means.

It was difficult to destroy.

so,

The eternal halberd already had a premonition of death.

Under such circumstances.

The eternal halberd had fought to the point of madness. He wanted to fight for a chance of survival from a dead end. He wanted to fight with his life for a future.

The battle lasted for nearly an hour.

Jiang Li didn't wait for his opponent to use any other tricks.

hence.

let's go. Jiang Li was ready to fight.

he wanted to end this war as soon as possible.

“sword, come.”

“Whoosh!!!”

jiang li raised his hand and the ‘demonic sword’ appeared automatically. a black ‘demonic sword’ appeared in his hand. the blade was long and black, and it was breathing sword qi.

It contained life.

Instantly.

The laws of the sword Dao resonated.

“Sword Qi of the devil sword.”

Shua!

die! Jiang Li slashed out the demonic sword. The sword Qi of the demonic sword was released, starting from the blade and spreading forward.

The starry sky seemed to split open.

The power of level 12 was unleashed.

Bang!

This sword.

It directly hit the rank 11 army formation, the ‘netherworld’.

Kachaa! kachaa!

After that.

A crack had appeared in the ‘netherworld’.

“Ah!”

The backlash from the battle formation.

Many undead soldiers died. Their Soul Fire went out and their bodies turned into ashes, leaving only countless Soul Fire Seeds that were all captured by Jiang Li.

“Roar!”

A Dragon’s Roar resounded.

Jiang Li showed up.

The Azure Dragon of the great Xia Dynasty, 999999 meters long, appeared.

They hovered in the sky above the battlefield.

On the dragon's head.

Demon Sword. Jiang Li stood straight with a black 'Demon Sword' in his right hand.

He looked at the eternal halberd calmly.

a real Dragon! A real Dragon!

Dumbfounded.

they were all dumbfounded.

The undead army.

The nine Lich Kings and countless undead warriors looked at the 'Emperor dynasty true dragon' that had suddenly appeared in shock. They were dumbfounded and extremely shocked.

"Human puppet human Emperor!"

It was horrifying.

The eternal halberd was horrified.

"It's actually another human empire."

The eternal halberd was shocked. no wonder we were ambushed. Our enemy was another human empire. That's why they knew we would come again.

“You’re pretty good.”

Jiang Li looked down at the eternal halberd and said slowly, ” I am the ‘Emperor Xia, Jiang Li’ of the great Xia Dynasty. You have no chance of winning.

“Just surrender.”

“Submit to this Emperor, and you can live.”

“The defeated general,’eternal halberd’, pays his respects to the Xia Emperor.”

The eternal halberd quickly bowed to Jiang Li and said, ” respected Emperor Xia, how can a defeated general be brave? I have lost with some dignity to be able to make you take action personally.

“That’s enough,”

shut up! Jiang Li yelled. I don’t have time to listen to your nonsense. You only have two choices.

“Submit and live, or die.”

“Emperor Xia, what are you doing?”

The eternal halberd looked up in shock.

Obviously.

It wasn’t that the eternal halberd had never encountered other imperial dynasties in other worlds. As long as they surrendered, the defeated party would have to pay enough ‘ransom’ to return alive.

but ...

Jiang Li meant that he didn't give her any face at all.

In such a situation.

It would only happen between two human empires that were mortal enemies.

however ...

No matter how hard the eternal halberd thought, he couldn't think of the unresolvable enmity between the great Xia Dynasty and the eternal night dynasty.

“a sovereign's sword.”

Buzzzzzz!

jiang li didn't have the patience to wait for the answer of the eternal halberd. he released the more powerful skill of the 'demon sword' and gathered all kinds of energy.

he formed the 'sword of the mechanical lord'.

“Slash!”

Shua!

The sword slashed down.

It hit the rank 11 army formation, 'netherworld'.

This time.

kachaa! “Crack!”

The ‘netherworld’ continued to collapse, and cracks appeared. It could no longer hold on, and with a loud bang, the ‘netherworld’ shattered.

The rank 11 formation was broken.

They were all destroyed.

“Kill!”

Jiang Li stopped and pointed at the Army of dead souls.

After that.

Countless mechanical soldiers, battleships, and motherships formed a vast charge and charged toward the spirit Army.

“Ah!”

bang bang bang bang!

countless explosions were heard.

A large number of undead soldiers were killed.

“spare me! Spare me!”

“we surrender! We surrender!”

“we can’t win, we can’t win at all!”

“.....”

The Lich Kings shrieked in fear.

“It’s over, it’s all over.”

The eternal halberd’s face turned pale. He held the Dragon halberd in his hand tightly. He wanted to attack, but he didn’t dare to move at all because Jiang Li was looking at him.

“Xia Emperor.”

The eternal halberd put down the Dragon halberd in his hand dejectedly. He had lost all his fighting spirit and said with a sad tone, ” “Please stop,”

we’ve lost. We’re willing to surrender, so please give us a chance to live.

“Submit and you will live.”

I’ll kill you. Jiang Li was expressionless. or die.

Chapter 778

kill!!!

BOOM!

I’m Prince Yongye! the eternal halberd raised his head. Facing Jiang Li’s threat, his eyes were filled with fighting spirit. There was only an extremely firm belief and an expression that was not afraid of death. I’m Prince Yongye!

“There’s no Surrender, only death.”

“Boom boom boom!”

At this moment.

The war continued.

Countless undead died under the bombardment of the energy cannons that contained the laws of destruction. Their soul flames were extinguished, and their bodies turned into ashes.

Except for the soul Tinder.

Nothing was left behind.

“Ah!”

Suddenly.

There was a shrill scream.

the lich king, who was the most severely injured, was surrounded and killed by the level 11 energy warriors. he was killed easily without being able to resist.

Based on the current situation.

The ‘undead army’ of the Empire of eternal night would not be able to hold on for long. They would be completely annihilated, and the hundreds of billions of undead soldiers would all die.

“Martial arts heaven-seizing spear!”

Buzzzzzz! Buzzzzzz!

At this moment.

The eternal halberd had reached its peak. He displayed his strongest strength and burst out with all kinds of forces. His martial arts celestial body released a dazzling light and condensed all the power.

it turned into an extreme spear light.

It contained the power of the fusion of various laws.

It was extremely powerful.

It pierced through Jiang Li.

“the essence of sword qi.”

Clang!

Jiang Li wasn't surprised by the eternal halberd's last attack. He just used the most powerful skill of the 'Demon Sword'.

He had consumed 10000 origin points.

He fused the energy of the 'origin point' into the 'Demon Sword'.

He slashed out with his sword!

It could be considered that he was paying attention.

The sword Qi was released, and its power was boundless.

It contained the most extreme power of the laws of sword, and it hit the spear light of the eternal halberd head-on with a destructive posture.

Kachaa! “Crack!”

it directly shattered the strongest attack of the eternal halberd.

BOOM!

there was a loud explosion.

The spear radiance shattered and exploded into a radiance that filled the sky.

“.....”

The eternal halberd’s eyes widened.

“Roar!”

The flood Dragon rushed out, but it was instantly shattered by the remaining power of Jiang Li’s sword. It couldn’t resist at all. The Imperial Jade seal was also smashed into pieces.

“Pfft!”

Blood splattered everywhere.

The sword Qi of origin tore through all the defense of the halberd, penetrated his body, and killed him.

wuwuwuwuwu!

After that.

a level 11 soul tinder flew out.

shua!

[acquired rank 11 soul tinder!]

A notification appeared.

“your highness!”

“.....”

...

At this moment.

The undead Army’s morale was completely gone.

The Lich Kings who were still alive knelt down and begged for mercy.

“Kill!”

kill them! Jiang Li pointed at the Army of dead souls and gave an order.

Obviously.

Although the Army of the Dead was strong, it was still much weaker than Jiang Li’s mechanical fleet and mechanical Army.

so,

Jiang Li didn’t care at all.

Only the ‘eternal halberd’ caught Jiang Li’s attention.

BOOM! BOOM! BOOM!

...

the brutal massacre began.

There were countless explosions.

it shook the entire colony galaxy 013561 and almost disrupted the system of the colony galaxy.

Roar!

the great xia azure dragon roared.

It devoured the Emperor dynasty flood Dragon.

However ...

There was still no change.

he was still 9999999 meters.

There was not much change.

obviously.

The last 'one meter' was difficult to grow.

An hour later.

The war was over.

Jiang Li's mechanical fleet and mechanical Army won the battle, but they also lost some level ten mechanical interstellar troops.

Among them.

A hundred elementary protogenic battleships were destroyed, and a hundred and fifty elementary protogenic Guardian battleships were destroyed.

Everything was within an acceptable range.

in addition.

Jiang Li had captured hundreds of billions of soul Tinders.

"Very good," he said.

Jiang Li was very satisfied.

Come to think of it.

After this battle.

after the yongye empire suffered a series of losses, they would not dare to act rashly again. at the very least, they would not send another army over in a short period of time.

however ...

He still had to keep an eye on her.

He couldn't let the other party take advantage of this.

But unfortunately ...

The dynasties couldn't fight each other in the 'Super Fantasy world'. Otherwise, Jiang Li would have entered the Super Fantasy world based on the emperor's position of the Yongye dynasty, determined the origin land where the Yongye dynasty was located, and completely destroyed it.

After that.

Buzzzzzz!

The spatial teleportation was activated.

Jiang Li returned to the No. 01 elementary law base.

"Congratulations on your triumphant return, chief sovereign."

Hidden Dragon complimented.

"It's just a small-scale war."

No. Jiang Li waved his hand. even if I don't go, the mechanical fleet is strong enough to win this war. At most, we'll suffer some losses.

"....."

Hidden Dragon was silent for a moment.

After all ...

The hidden Dragon could be considered a type of 'mechanical intelligence', but' flattery 'was not very good.

"hidden dragon,"

let's go, " Jiang Li said, " next, we can relax in colony star system 013561. The most important thing is to keep an eye on the light Civilization's home star system."

"I'm going into closed-door cultivation for a while."

"After I've finished my seclusion."

" immediately send a mechanical fleet to the light civilization and take them down. then, we'll unify the surveillance range of star map 01. "

"Yes."

yes! Hidden Dragon quickly replied.

the night came.

This time, he was in seclusion.

Jiang Li still didn't go back to the Super Fantasy world. Instead, he started to cultivate in the room of the elementary law-level ruler's hub in the elementary law base No. 01.

Shua!

The Dominator panel opened.

Jiang Li checked the number of soul Tinders.

[soul tinder: 50 trillion level-one soul tinders, 30 trillion level-two soul tinders, 10 trillion level-three soul tinders, 1.9 trillion level-four soul tinders, 800 billion level-five soul tinders, 12.5 billion level-six soul tinders, 1.08 billion level-seven soul tinders, 120 million level-eight soul tinders, 1.3 million level-nine soul tinders, 90000 level-ten soul tinders, and 635 level-eleven soul tinders.]

"Fuse."

Buzzzzzz! Buzzzzzz!

Tinder fusion function activated.

100% fusion success rate.

after merging all the low-level soul tinders, jiang li's high-level soul tinders increased rapidly.

Among them.

The 50 trillion level-one soul Tinders were fused into 5 trillion level-two soul Tinders.

The 35 trillion level-two soul Tinders were fused into 3.5 trillion level-three soul Tinders.

The 13.5 trillion level-three soul Tinders were combined into 1350 billion level-four soul Tinders.

The 3250 billion fourth-tier soul Tinders fused into 325 billion fifth-tier soul Tinders.

1125,000,000 Tier 5 soul Tinders were fused into 112.5 billion Tier 6 soul Tinders.

125 billion level-six Soul Fire Seeds were fused into 12.5 billion level-seven Soul Fire Seeds.

13.5 billion seventh-tier soul Tinders fused into 1.35 billion eighth-tier soul Tinders.

1.47 billion level-eight soul Tinders fused into 147 million level-nine soul Tinders.

148.3 million level-nine Soul Fire Seeds were fused into 14.83 million level-ten Soul Fire Seeds.

14,920,000 level 10 Soul Fire Seeds were fused into 1492000 level 11 Soul Fire Seeds.

Finally.

After the fusion was complete.

Shua!

soul Tinder: 1.492635 rank-11 soul Tinders.

The number of level 11 soul Tinders had exceeded a million.

easily.

jiang li could get a level-twelve or even level-thirteen soul tinder.

but ...

With only the soul Tinder, it was not enough without sufficient origin points. It was impossible to create and upgrade to rank-12 or even rank-13 mech Warriors.

One had to know.

Jiang Li only had more than ten million origin points.

At most, it could only upgrade to a level 12 mechanical warrior.

For the time being.

He didn't need to advance.

"We can't continue like this."

it's not efficient. Jiang Li muttered, " it's too inefficient to rely on the subsidiary races of colony system 013561 to mine energy crystals.

In reality.

It wasn't that Jiang Li didn't think about sending mech soldiers to help with the mining, but his mech soldiers were basically not involved in production or mining.

They were all 'war troops'.

Its destructive power was astonishing.

if they were sent over.

A little carelessness.

Maybe nine would even blow up the planet.

The planet exploded.

When a large area of the 'energy crystal mine' came into contact with the energy of the universe, it would be assimilated by the energy of the universe in a very short time, just like candy dissolving in water.

It quickly disappeared.

Jiang Li tried to send the 'production soldiers' of the Basic Law-level mech factory there, but they were not much faster than the subsidiary races.

Basically.

The number of 'miners' for mining resources was already full.

Even if Jiang Li continued to send more people.

The mining speed would not increase.

it was rather slow.

Buzzzzzz! Buzzzzzz! “Whoosh!!!”

Gradually.

Jiang Li calmed down and used the art of the Azure Emperor. The Fortune of the Empire surged and there were Dragon roars. Jiang Li gradually entered the state of cultivation.

Not long after.

jiang li completed the green emperor art at the peak of level eleven.

BOOM!

The next moment.

The boundless energy of the Empire’s fate descended. It was actually a kind of energy transformed from the fate of the Empire. It was extremely mysterious and rushed into Jiang Li’s body.

seal! Jiang Li formed a seal with both hands.

The seal took the shape of a Dragon.

He began to refine the energy.

Not long after.

He entered a state of enlightenment.

In that instant.

The 12 basic laws in Jiang Li's body began to resonate with him. This was the 12 basic laws that were contained in his genetic cells after he injected the level 11 gene strengthening liquid.

One had to know.

In addition to the 'Imperial number law' that Jiang Li mainly cultivated, he had also touched the law of sword Dao because of the 'demonic sword'. All the other laws he had comprehended were integrated into the 'Imperial number law'.

now.

In a state similar to enlightenment.

Jiang Li started to understand the 12 basic laws.

Buzzzzzz! Buzzzzzz! "Whoosh!!!"

Not long after.

The pattern of the law of space appeared on Jiang Li's body. It was because Jiang Li had cultivated the 'low-level space secret skill', so it was one of the 12 basic laws.

His comprehension of the spatial laws was the deepest.

Time passed.

jiang li's understanding of the law of space became deeper and deeper. the true spirit in his dantian immediately had dense marks of the law of space.

It slowly spread throughout his entire Truesoul.

Chapter 779 a breakthrough

Jiang Li didn't know how much time had passed, but his comprehension of the law of space had also reached perfection. He had also completely comprehended the low-level space secret skill without him knowing.

Under such circumstances.

Jiang Li could use the law of space to easily create an independent small space and teleport.

He was going to travel through space.

In reality.

Although Jiang Li's comprehension of the law of space had reached perfection, he had only reached the basic level of the Dao of space.

up.

There was also the space rule.

Next.

it was the process of 'fusion'.

the process of merging the 'spatial law' into the 'imperial number law' to increase the power of the 'imperial number law' was much more difficult than the process of comprehension.

Fortunately ...

Jiang Li had the vast feedback energy of the Empire's fate. In the state of enlightenment, he gradually merged the mysteries of the laws and intertwined them.

The space law runes on the true Spirit's body gradually fused toward the center of his brows.

During the fusion process.

The law of space covered Jiang Li's entire body.

Jiang Li's body suddenly became illusionary and merged with the space. It was as if he was going to be assimilated by the space.

The process of breaking through was very dangerous.

If he failed ...

Jiang Li would probably be assimilated by the 'space' and become part of it. He would turn into light and ascend to heaven.

In reality.

He had failed to break through and died.

Fortunately ...

even jiang li had persevered.

He broke through and improved step by step.

time passed.

BOOM!

In the end.

Jiang Li's body shook.

The strength of his aura rose rapidly.

It was obvious.

Jiang Li had made a breakthrough and successfully merged the space law.

He didn't fail.

One had to know.

The space law was one of the upper laws among the 12 basic laws. It had all kinds of mysterious and abnormal power and might, which were hard to grasp.

To be able to comprehend this law and fuse it.

It was a huge improvement for Jiang Li.

His strength had more than doubled.

however ...

jiang li hadn't reached mid-stage level eleven yet.

Because ...

to reach the mid-stage of level eleven, he needed to fuse three different laws. jiang li had only fused two so far and needed one more to break through.

the third.

law of gold. Jiang Li chose the law of gold.

Even though ...

The 'law of gold' was a lower-level law, but it was very aggressive and easy to learn and merge. Jiang Li chose the 'law of gold'.

As expected.

Compared to the 'spatial laws'.

Jiang Li's understanding of the 'law of gold' increased rapidly. It was more than several times better than the 'law of space'. Soon, he had completed it.

After that.

he started the 'fusion'.

Clang! Clang! Clang!

Jiang Li's body glowed with a golden light. His body turned golden as if he was going to be assimilated by the law of gold.

...

The third gold law was already in the process of fusion.

Time passed.

BOOM!

this time.

The commotion was even greater.

Because ...

The third 'law of gold' had been successfully integrated. Jiang Li naturally reached the mid-stage of level eleven. His aura naturally grew several times stronger.

He was getting stronger and stronger.

cultivation knew no time.

The more powerful he was, the more this was the case.

One had to know.

...

Jiang Li was already a level eleven expert in the harmonization realm. He had already started to turn it into a law and was almost immortal.

Unlimited lifespan.

time?

It was as if he had no concept of it.

He went into seclusion.

Time passed in a flash.

After Jiang Li reached the mid-stage of level eleven, he hadn't finished his cultivation and comprehension yet because he hadn't finished absorbing the energy from the dynasty's fortune.

However ...

It was almost the same.

on the other side.

In the Super Fantasy world.

Eternal night continent.

The ‘origin land’ where the eternal night Empire was located.

In the central area.

Tens of thousands of meters high in the sky.

It was a floating continent known as the ‘darkness continent’.

the imperial palace of the empire of eternal night-the night capital.

It was right in the center of the darkness continent.

At this very moment.

halberd!!!

the night emperor ‘yongye’s angry roar came from the deepest part of the night capital. it was like a real dragon’s roar that shook the sky and set off a storm of spiritual energy.

In turn, it affected the entire eternal night continent.

It shook the endless sea around the eternal night continent.

“this bi an ...”

“His Majesty, he’s wailing!”

“What happened?”

“Why is His Majesty so angry?”

“Just now, His Majesty was shouting the elder Prince’s name. Could it be that elder Prince Xuanji is Xuanji?”

“Quickly, go to the main hall!”

“.....”

the ministers of the empire of eternal night were shocked.

Shua! Shua! shua!

Instantly.

One by one, the Kings, Marquises, and ministers rushed into the main hall of the Imperial Palace like streaks of light.

In the blink of an eye.

All the officials gathered in the eternal night Palace.

After that.

The night Emperor Yongye announced the death of the elder Prince, the 'eternal halberd'. He had died in the 'great universe world'.

how is this possible?!

"How did the elder Grand Prince fall?"

"Si si si ..."

The ministers were horrified.

"Quickly head to the 'netherworld' to check out the situation."

one of the princes shouted.

It only took half an hour.

A subordinate ran back and forth from the 'netherworld' and hurriedly rushed into the Yongye Palace to report the situation to the night Emperor, Yongye, the various Kings, and the ministers of the Yongye Empire.

the entire 'netherworld'.

ninety-nine percent of the army had been taken away.

The nine most powerful Lich Kings, many bone dragons, undead skeleton mages, and so on, almost all the undead troops were taken away.

Less than one in ten.

It became empty.

"how did this happen?"

that's the military strength of an entire high-level world. It's enough to reach the level of trillions. With the elder Grand Prince around, they can even set up a level 11 military formation."

"Under such circumstances, even a normal rank 12 would be able to fight back. How did this happen? how could this be?"

"....."

It was hard to accept.

The ministers of the Empire of eternal night found it hard to accept.

"Pass down my order."

Eternal night was expressionless. the entire country is in mourning.

"Yes."

"We will obey your orders."

"As you wish, Qianqian."

The ministers all kowtowed.

Their expressions were a little bleak.

After the court session.

eternal night palace.

Only eternal night was left.

Silence.

There was no sound.

In the darkness.

A hazy and illusory figure appeared.

Unknowingly.

He arrived in front of eternal night.

“The shadow pays his respects to Your Majesty.”

The hazy and illusory figure kowtowed to Yongye.

“I’m going to the ‘great cosmos’.”

Eternal night said.

“Yes, sir.”

The shadow replied.

after that.

Then, he disappeared into the darkness.

“.....”

Yongye looked to his left in a daze. There was an empty chair to his left, almost parallel to Yongye's 'Emperor throne'.

He took a closer look.

On this empty chair.

There was a carving of a Black Five-clawed flood Dragon.

It was lifelike.

In the past.

When there were no ministers.

Her brother would always sit on this empty chair, and the two of them would 'sit close to each other and talk'. Unknowingly, even the eternal night did not know how many years had passed.

Until now.

He could vaguely remember.

He and his elder brother.

He was just one of the countless disaster victims in the 'eternal night continent'. For a bite of food, he would do anything, cheat, cheat, and crawl.

"Oh."

"Yes,"

it wasn't called 'eternal night continent' in the past.

“what should i call you?”

“.....”

“I’ve forgotten.”

if only you were here, elder brother. You would definitely remember and help me clear my doubts.

As he muttered.

Yongye stretched out his fair right hand and gently touched the edge of the empty chair. In the darkness, it was no longer possible to distinguish between his shadow and Yongye’s.

The world of the great cosmos.

No. 01 elementary law base.

The room in the ruler’s hub.

Jiang Li used up the last bit of energy from the dynasty’s fortune and finally merged the ‘law of fire’ and ‘law of Thunder’.

This way ...

jiang li had fused five laws in total.

He was only one away from six.

As long as he succeeded.

Jiang Li would be able to reach the late-stage of level eleven.

Unfortunately ...

The energy from the Empire's fortune feedback had been exhausted.

so,

After Jiang Li stabilized his cultivation, he had to come out of seclusion.

The door to the Lord's hub opened.

Jiang Li came out.

"Chief sovereign."

Shua!

Hidden Dragon appeared out of thin air. congratulations, ruler. Your cultivation has increased greatly.

"Yes."

Jiang Li smiled. how long have I been in seclusion? "

my Lord, using Earth's time, you've been in seclusion for three years.

Hidden Dragon replied.

"Three years."

huh? " Jiang Li was surprised. it's been so long.

"yes."

Hidden Dragon nodded.

“How’s the situation?”

Jiang Li asked.

“Reporting to you, chief sovereign.”

three years ago, not long after you went into seclusion, ” Hidden Dragon said, ” a strong spacetime fluctuation was discovered in colony Galaxy 013561, but it disappeared in an instant.

” although i’ve locked onto its exact location, i haven’t found any traces of its existence. ”

“So,”

” i’m guessing that the yongye empire has probably made further moves. however, three years have passed, and there is still no movement. ”

“still not giving up.”

” the light civilization? ” jiang li frowned. ” that’s good too. if ‘eternal night’ dares to fight, he won’t be able to return. what about the light civilization? ”

the light Civilization has already perished.

“a year ago, the destroyer and the heaven vault empire suddenly increased their offensive forces and completely destroyed the light civilization,” hidden dragon said.

“Currently.”

the destroyer’s fleet and the sky dynasty will level the light Civilization’s mother star system.

” the two sides are in a stalemate. ”

perhaps it’s because too many soldiers were exhausted in order to destroy the light Civilization.

“It has already been destroyed.”

the light Civilization? ” Jiang Li was stunned. that’s fast. I thought the light Civilization could hold on a little longer. I didn’t expect it to be destroyed in just two years.

“chief sovereign, there’s another piece of good news.”

Hidden Dragon said.

“What good news?”

Jiang Li asked.

it’s related to the Blue Star civilization’s ability users.

“Yes.” Hidden Dragon quickly replied,”after Lan Zhan obtained the ‘elementary special ability technique’, he was gradually mastering it. At the same time, he also simplified and divided the technique, making it easier to cultivate.”

“And so ...”

” in less than three years, the probability of the birth of ability users has increased from one in ten thousand to one in one percent, showing an increase of hundreds of times. ”

“Also,”

all the SSS-class ability users have broken through to the God-level.

“Lan Zhan has also touched the threshold of rank-11 ‘God-level’. I estimate that he will break through soon.”

Chapter 780 expedition

Three years.

The change was neither big nor small.

“This is beyond my expectations.”

so fast? ” Jiang Li said in surprise, ” it’s only been three years, and there are already so many God-level Warriors.

However ...

After encountering the rank 11 eternal halberd ...

Jiang Li noticed something.

In the case of the same level.

The ‘human warriors’ of the Super Fantasy world were existences that could crush other worlds. In some cases, numbers were meaningless in the face of the ‘human warriors’ of the Super Fantasy world.

If ...

The combat power of ability users was too low.

It wouldn’t be of much help to Jiang Li.

Similarly.

Since the ‘human warriors’ were so powerful, the Barbarian race, the monster race, and even the ghost race, the demon race, and the God race should all have invincible combat strength.

“Qian Long, did you find any traces of the Barbarian race, monster race, ghost race, demon race, and God race within the scope of star map number 01?”

Jiang Li asked.

“Reporting to you, chief sovereign.”

“No,” Hidden Dragon replied.

ever since the armies of the human empires descended one after another, the Barbarian race, monster race, ghost race, demon race, and celestial race all disappeared.

“Is that so?”

” it seems like i’m right. the entire milky way has become the battlefield of the human race. the other five races have withdrawn from the milky way. ” jiang li guessed.

“I’m afraid they are fighting in another main Galaxy.”

Time passed.

three days later.

let’s go. Jiang Li gathered all the mechanical fleets.

They gathered in the outer space of the No. 01 basic base.

Everyone gathered.

There was a perfected rank 11 law-level medium-grade mothership and a perfected rank 11 law-level medium-grade Guardian fortress, with only two rank 11 mechanical interstellar soldiers.

there were 8120 law-level elementary war motherships and 8050 law-level elementary guardian fortresses produced by the basic mech factory.

the number of fleets.

A total of 16172 ships.

In addition.

Individual combat.

Jiang Li was still going to fight in person.

The remaining mech warships and meches.

All of them stayed behind to guard the Djinn star system.

To avoid any accidents.

furthermore ...

Base 01 was equipped with many level 11 security units, enough to ensure the safety of the Djinn star system.

Like this.

Only then would Jiang Li have no worries.

“Let’s go.”

Buzzzzzz!

Jiang Li waved his hand.

spatial teleportation.

Activate!

Shua!

There was a flash.

The entire fleet disappeared into thin air.

okay. Jiang Li also left.

In the next instant.

the ‘home galaxy’ of the light civilization-the light galaxy.

In the outer area.

...

Jiang Li arrived with his mechanical fleet.

To appear here.

He began the last step of occupying the surveillance range of star map 01.

Rule the light Galaxy.

At this moment.

They needed to get rid of the destroyer's fleet and the Army of the sky dynasty stationed in the light system.

As expected.

With Jiang Li's strength.

It was enough.

"Chief sovereign."

Shua!

...

Jiang Li stood at the back of the mechanical fleet. Hidden Dragon appeared beside him and reported, "the small battleship team that discovered the destroyer is approaching at full speed.

"How far away is it?"

Jiang Li asked.

"It's about 298 light years away."

Hidden Dragon replied.

"Activate 'divine punishment' and destroy the enemy."

Jiang Li said.

“Yes.”

hidden dragon said.

BOOM!

After that.

Two hundred and ninety-eight light years away.

An extremely terrifying explosion occurred.

The destroyer had sent an entire Scouting Fleet.

They were all exterminated.

Furthermore ...

All the warships were destroyed, not even the wreckage was left.

“Hidden Dragon,”

” where are they? ” jiang li asked, ” lock onto the specific location of the destroyer fleet and teleport there as soon as possible. ”

“Yes, sir.”

Hidden Dragon replied.

obviously.

After Jiang Li's mechanical fleet arrived through space teleportation.

At the first moment.

The destroyer fleet received the alarm and news from the surveillance system and immediately sent out a reconnaissance fleet. However, not long after they left, they were attacked from a distance.

All of them had been destroyed.

"The reconnaissance fleet has been destroyed."

"It means that the other party has no intention of negotiating."

"The good ones don't come, the bad ones don't."

it can be confirmed that the other party is not an Army of the 'Heaven's Vault dynasty', but a 'mechanical fleet'. They should be the same as us, a civilization of this world and not an invader from another world."

"Prepare for battle."

the other party is really bold. They actually dare to attack our headquarters directly.

"Let them see the power of the destroyer fleet."

"....."

The upper echelons of the destroyer fleet discussed with each other, full of confidence.

obviously.

After a long interstellar war.

The civilizations in the Milky Way galaxy also gradually learned that the 'human empire' was not a civilization from a 'great universe world', but an intruder from another world.

Furthermore ...

They had also obtained a lot of information.

other than that.

They had even 'captured' human warriors' with lower cultivation and carried out various 'experimental studies', using the human warriors 'of the' Super Fantasy world 'as new experimental subjects.

He was amazed.

The 'human warriors' of the 'Super Fantasy world' had strong vitality and powerful strength. They had the Super power to fight against war machines with their physical bodies.

The situation that he was in.

They were the ones who had refined all the power into their bodies.

It had reached an extreme sublimation.

In such a situation.

when he was at a lower level.

They would indeed be suppressed by the war machines, and it would be difficult for them to fight against the war machines and other weapons.

but ...

As he became stronger, his level would also increase.

Generally speaking.

When he reached the ninth step.

It was basically the same.

The higher he went.

The power of the 'human warriors' in the 'Super Fantasy world' would gradually surpass the power of the interstellar war machines. After all the data they had researched, they could infer that the power of the 'human warriors' would gradually surpass that of the interstellar war machines.

The result was extremely shocking.

In other words ...

When he reached level 12.

the 'human race martial artists' of the super fantasy world would begin to suppress the mighty force produced by the technological civilization of the 'great universe world' and become stronger and stronger.

It was hard to estimate.

The advantage of a technological civilization was that they 'made up for their shortcomings'.

After knowing all this.

The many civilizations in the Milky Way began to study the 'martial arts power' of the 'Super Fantasy world' and understand the power of the 'cultivation civilization'.

He wanted to learn from them.

However, it was obvious.

This was not something that could be achieved overnight.

‘Cultivation’ required an incalculable amount of time, and it was unknown how long it would take to reach the level of a ‘Super Fantasy world’.

It might even be impossible.

Buzzzzzz! buzzzzzz!

In the center of the light Galaxy.

The original ‘divine light star’ was now occupied by the ‘destroyer fleet’ and had become their lair. It had also been renamed ‘destroyer star’.

Jiang Li led the mechanical fleet and arrived at the outer space of planet destroyer.

boom! BOOM! BOOM!

In that instant.

As soon as Jiang Li’s mechanical fleet appeared, they were greeted by countless energy beams that covered the sky and covered them.

“Activate the protection!”

Buzzzzzz!

In an instant.

The perfected rank 11 precept-level medium grade Guardian fortress activated its skill, forming an extremely vast protective light screen that instantly enveloped the entire mechanical fleet.

bang bang bang bang!

Countless explosions rang out.

The light was blinding.

Every explosion.

They could see the brilliance of the fireworks.

All the attacks.

they were all blocked.

None of the battleships were damaged.

The light dissipated.

An unscathed mechanical fleet appeared before the destroyer fleet.

“what?”

“This Suan ni, this Suan ni”

“Impossible! That’s impossible!”

they’re in a hurry to deal with the enemy. How can they block all the attacks? ”

“I don’t believe you.”

“No!”

Countless members of the destroyer fleet screamed.

However ...

This was the reality.

No matter how much he didn’t believe it, it was the reality.

It would not change anything.

“Kill!”

Jiang Li said.

buzzzzzz! Buzzzzzz! “Whoosh!!!”

The cosmic energy was being devoured by a black hole, madly gushing into the 16000 plus motherships and fortresses, creating soldiers and warships.

In the blink of an eye.

They formed a vast mechanical Army.

“Charge!”

“Kill!”

BOOM! BOOM! boom!

All the troops charged.

They charged towards the destroyer star.

“All troops, kill!”

“dispatch the fleet!”

“Mecha division, move out!”

small battleship fleet dispatched!

“Annihilate the enemy!”

“Eternal destruction.”

“.....”

Buzzzzzz! Buzzzzzz! “Whoosh!!!”

Countless destroyer motherships, warships, mecha legions, fleet legions, and so on formed the unparalleled destroyer fleet.

“Rumble!”

the war broke out.

The sound of the explosion shook the entire light system.

The destroyer.

It had the meaning of ‘destruction’.

In reality.

What Jiang Li encountered was not the full power of the destroyer. It was just one of the many fleets of the destroyer.

One had to know.

The destroyer, the Galaxy Alliance, the Galaxy Hero fleet, and the Galaxy Space pirate fleet were known as the four major forces in the Galaxy.

naturally, it was impossible for it to only have this little bit of power.

At the very least.

They had the strength of the top ‘Level-6 civilization’ in the Milky Way.

In addition.

The ‘destroyer’ was a powerful force formed by the survivors of the destroyed civilizations in the Milky Way.

so,

Most of the members of the destroyer hated all the other civilizations in the Milky Way, and they often made destructive actions.

This kind of behavior.

They were even more detestable than the Space Pirates in the Galaxy.

On the other side.

The aftermath of such a vast interstellar war was enough to affect the entire 'light Galaxy'. The Army of the sky Dome imperial dynasty naturally received the news at the first moment.

The sky planet.

In the commander's mansion of the military camp.

Within the manor.

The commander of the army of the sky Dome Empire was officially the first Prince 'Thunder of heaven', and the fifth and ninth princes were his assistants.

Other than that.

there were also nineteen marchioness kings who were the great generals of the various great armies.

Buzzzzzz! buzzzzzz!

At this moment.

In front of them, a scene was being played. It was the battlefield in the outer space of 'planet destroyer'. Jiang Li's mechanical fleet was fighting with the destroyer fleet.

"Do you have any suggestions?"

Thunder of heaven asked.

"Of course it's the crane and the clam that fight, the fisherman will benefit."

"The Mantis pouncing on the cicada, unaware of the Oriole behind."

"Gather the troops and prepare to reap the benefits."

“.....”

The various Kings and Marquises all said this.

“Alright!”

Heavenly Thunder’s eyes shone brightly as he made his decision. gather all our forces immediately. As long as we take down the entire ‘light Galaxy’, with all the resources in the’ light Galaxy’, our heaven vault Empire will definitely rise to a higher level.
