

Army 78

Chapter 78 The sniping from thousands of meters away

“Wang Chao Ma han, you two deal with these corpses and cremate them.”

let’s go. Jiang Li waved his hand and ordered.

“yes, city lord.”

Wang Chao nodded immediately.

“Yes, sir.”

Ma Han’s tone was flattering.

A few minutes later.

Wang Ling scolded them, and their bodies were carried away by Wang Chao and ma han. They found a place outside the courtyard and directly burned them to ashes with firewood, destroying all evidence.

Jiang Li returned to his room.

Intel mech xx01, contact Intel mech xx05 immediately.

let’s go, ” Jiang Li ordered after sitting down.

“Yes, chief sovereign.”

Buzzzzzz!

Xx01 walked to Jiang Li's right side and started the video communication function to contact xx05.

Shua!

Xx01 raised his right hand. A beam of light shot out from his wrist and formed a virtual screen in front of Jiang Li.

Intel mech xx05 greets my Lord.

on the screen.

Sir Jiang Li. xx05 saluted Jiang Li.

"Yes."

jiang li nodded. "where are you now? " How about I give you the mission? is the progress smooth? Have you locked onto the target? What's the probability of killing the target?"

my Lord, we arrived at Black Dragon County three hours ago and have determined a suitable sniping spot, the peak of Black Dragon Mountain. Although we haven't locked onto the target yet, it's already within our surveillance range.

yes. xx05 replied, "based on the current situation, our success rate is 60%.

"Yes."

"okay." jiang li nodded. "turn the camera to the black dragon county."

"yes."

Xx05 nodded and changed the camera.

Shua!

In the projection.

What came into Jiang Li's sight was a huge city. It was like a giant beast lying on the ground. It was about a few thousand meters away. Xx01 and the others were on the top of a mountain.

From their position, they could see the entire Black Dragon County.

“Black Dragon County.”

Heilong, “Jiang Li narrowed his eyes and sneered. Heilong, hehe, I'd like to see if you can survive a sniper mech at the perfected-stage of level two.

only after I get rid of you can I go and deal with the green scale city and barren city. Otherwise, I can't be at ease if there is an enemy watching me all the time in my own territory.

It was obvious.

Jiang Li had already made up a plan to deal with the Black Dragon.

In reality.

Jiang Donglai didn't know that Jiang Li was watching him.

After Jiang Donglai sent out the pigeon, Jiang Li immediately sent a mech to follow the pigeon to the Black Dragon County.

Jiang Donglai's messenger pigeon flew to the mansion of the Black Dragon County's King. In the end, Ying Heilong received the letter, and Jiang Li confirmed where Ying Heilong lived and his target.

Immediately.

Jiang Li sent sniper mech JJ01, three cold weapon meches at the perfected-stage of level one, and Intel mech xx05 to the Black Dragon County as fast as possible.

One had to know.

The sniper mech's powerful ability was to snipe the target from a long distance.

Ying Heilong was in the Black Dragon County's County King's mansion. He was an expert at the perfected stage of the second level, and he had many powerful subordinates by his side.

He held a large number of troops.

it was not advisable to send troops to assassinate.

It was even more impossible to directly bring troops to attack.

With Jiang Li's power, the best way to kill Chu Heilong was to use the sniper mech at the perfected-stage of level two to kill him from a long distance.

Time passed.

Half an hour later.

In the projected image.

The target had appeared.

...

Qiu Heilong was dressed in a black flood dragon robe, and his black hair was tied behind him. He walked out of the mansion with a black messenger pigeon in his hand.

He took the letter from the pigeon's leg and read it carefully.

His face darkened.

“trash!”

The Black Dragon squeezed the letter in his hand and turned it into ashes under the fire internal strength. He raised his head and his eyes revealed a cold killing intent.

Pfft!

he waved his right hand.

His internal force burst forth, and the black messenger pigeon exploded into pieces of flesh and blood.

“it’s just a matter of dealing with the newly appointed city lord, but we’ve actually lost a subordinate at the late stage of the second level. now, i have to take action personally.”

Humph! Ying Heilong snorted. fine. For the blood refinement bead, to break through to level three, to break the celestial bridge, and to gather the innate true Qi, I’ll go and meet Jiang Li in person.

“I’d like to see what kind of ability he has.”

...

“Men, prepare the horses.”

the black dragon raised his head and shouted.

“Yes, Your Highness.”

A subordinate responded loudly from outside.

Outside the Black Dragon County.

On the peak of the Black Dragon Mountain.

Kachaa! Kachaa!

Sniper mech JJ01 immediately turned the head of the gun. The scope of the sniper locked onto the Black Dragon in the mansion of the Commandery Prince of Black Dragon County thousands of meters away.

master, target locked. Please give your orders.

what's wrong? "xx05 asked.

"Do it."

use the 'energy bomb'. You must kill him in one shot. Jiang Li ordered.

"Yes."

Kachaa!

Sniper mech JJ01 took out his original clip and replaced it with an energy bullet. Then, he aimed at mie Heilong with his scope.

"!!!"

At the same time.

shroud heilong's pupils constricted. the moment he was locked on by the sniper mech, he instinctively felt a chill run from his feet to his head.

It was dangerous!

There was a fatal danger!

However, it was a little awkward.

Where did the danger come from?

Obviously.

Heilong Qian was a martial artist at the perfected stage of the second tier. He was powerful and had sharp senses. He had naturally experienced countless battles, big and small, to be able to sit in the position of the Commandery Prince.

He was extremely sensitive to danger.

so,

The moment he was locked on, his instinct for danger warned him.

“Where is it?”

However ...

Qiu Heilong released all his senses, and his internal strength surged, forming a Crimson protective energy barrier. A powerful aura spread out, forming an extremely powerful pressure.

he looked around.

However, he did not find anything.

The sniper mech was thousands of meters away from him. No matter how alert he was, he couldn't find the sniper mech hiding on the peak.

“Shoot!”

stop! Jiang Li shouted.

through video chat, he had seen the black dragon’s performance. he muttered, ” the Black Dragon is indeed harder to deal with than I thought. It was just locked on by the sniper mech and it immediately sensed the danger and was prepared.

Kachaa!

Bang!

Sniper mech JJ01 locked onto mie Heilong and pulled the trigger. A deafening gunshot sounded, and a white energy bullet shot out of the muzzle.

There was a ‘Dong’ sound.

The powerful recoil made sniper mech JJ01 tremble and move back one centimeter.

One had to know.

Sniper mech JJ01 was at the perfected stage of level two, so his physical fitness was equivalent to the weakest martial artist at the perfected stage of level two. Even so, the recoil force still made him move back one centimeter.

One could see how strong he was.
