

## Army 781

### Chapter 781 Destruction

“Hahahahaha!”

The rough-looking fifth Prince laughed out loud and said, “This fleet’s appearance is just too timely. Otherwise, we really wouldn’t have been able to find a good way to deal with the destroyer fleet.”

“Not bad.”

“When the time comes, if that fleet is willing to submit, we can take them under our command.”

“.....”

All the Kings nodded.

Time passed.

The soldiers of the skyfirmament dynasty had all gathered together. Under the leadership of Heavenly Thunder and the others, they had directly formed a level 11 ‘spatial-type military formation’.

This way ...

Using the power of the ‘space army formation’.

even a stage-one warrior could use ‘space travel’.

It could be said that ...

The power of an army formation was so strong.

At this moment.

The destroyer star.

in the interstellar battlefield in outer space.

BOOM! BOOM! BOOM!

Jiang Li's mechanical fleet and the destroyer's fleet fought each other. One could see mechas exploding one after another and mecha Masters dying.

At the same time.

There were also battleships exploding.

The losses were not small.

Of course.

Jiang Li's weapons and battleships were also damaged and destroyed. They exploded, but they turned into light spots in the sky, leaving no mechanical wreckage.

It returned to the energy of the universe.

Such a scene.

The high-level commanders of the destroyer fleet were shocked.

He was extremely shocked.

“What kind of technology is this Yingying?”

“Cosmic energy, they’re using the cosmic energy to create a mist.”

“How is that possible?”

“Isn’t this ability only available to the interstellar Zerg hive? It can devour the universe’s energy and combine it with various resources and minerals to create different Zerg units.”

“Damn Yingluo!”

“What’s the origin of this fleet?”

“.....”

The high-level commanders of the destroyer fleet were discussing.

At the back of the battlefield.

Buzzzzzz!

“Chief sovereign.”

Hidden Dragon waved his right hand and projected an image. “I’ve monitored the movements of the Army of the sky Empire.”

“Oh.”

Jiang Li observed the image.

“Chief sovereign.”

I’m guessing that they’re aware of what’s happening here, ” said Hidden Dragon. I’m afraid they’re gathering their troops to be the Oriole.

“Hehe.”

yes. Jiang Li smiled. Oriole.

“They are indeed Oriole.”

the destroyer fleet is indeed a ‘cicada’, ” Jiang Li continued. but they miscalculated one thing. We’re not mantises.

“Just in time.”

“Capture them all in one fell swoop.”

BOOM! boom! boom!

Jiang Li looked at the explosion of the interstellar war. The light produced was extremely dazzling and beautiful, like fireworks.

Of course.

The size of these fireworks was extraordinary.

...

Some of them were only ten thousand meters long.

And some.

However, it was more than a million meters long, even reaching ten million meters.

It was like a planet.

On the battlefield.

Jiang Li couldn't hear the screams because the screams of the destroyer's members couldn't shake the energy of the universe, so they couldn't make any sound.

The universe was a 'vacuum'.

There was no such thing as 'air'.

but ...

The explosion caused by the energy blast could shake the energy of the universe and produce the sound of the explosion. Jiang Li could still hear it.

in reality.

...

not long after the war started.

the destroyer fleet was completely at a disadvantage.

Furthermore ...

time passed.

The disadvantage was getting bigger and bigger.

First of all ...

In order to occupy the 'light Galaxy', the destroyer fleet first had a war with the fleet of the 'Light Civilization' and then clashed with the Army of the sky Empire.

the losses were not small.

Even though ...

After obtaining the light Civilization's resources, they quickly recovered some troops.

but ...

Compared to Jiang Li's mechanical fleet.

The difference was huge.

"He's too strong."

the combat power of the enemy's fleet is too strong. Unless we destroy their 'main mothership', those robot warriors are simply unkillable. With our current fleet strength and combat power, we can't defeat them at all.

"Where did they come from?"

"I've never heard of such a powerful civilization in the Milky Way."

"I miscalculated."

The high-ranking commanders of the fleet discussed animatedly.

In the end.

They made their decision.

If this continued ...

They had no chance of winning.

“activate ‘destroyer’.”

“I’m sure,”

“I agree.”

“Pass.”

“I’m sure,”

“.....”

Hence.

the nine supreme commanders had all passed this order.

the destroyer’s strongest weapon.

It was called the destroyer.

Furthermore ...

It was a ‘super mecha’ that was created by fusing laws.

Destroyer commander space carrier.

Kachaa!

the ship’s door opened.

In the deepest part.

A pitch-black humanoid mech slowly appeared.

It was completely black.

they devoured all the light.

The entire mech.

It was a combination of the high-end technology of the destroyer.

Among them.

With the ‘laws of destruction’ as the main body and the power of other laws fused with the ‘laws of energy’ as the driving force, they created terrifying war weapons.

It could be said that ...

In front of the destroyer.

The so-called warship, the so-called mothership.

They couldn’t even withstand a single blow.

They could be easily destroyed.

buzzzzzz! Buzzzzzz! “Whoosh!!!”

The next moment.

the nine 'destroyer fleet' commanders 'bodies' turned into light'. this was a manifestation of their entire bodies turning into laws. they turned into nine rays of light and fused into the 'destroyer' mecha.

In reality.

These nine commanders of the 'destroyer fleet' had been injected with the level 11 destroyer genetic vaccine, so they could only become half-laws, not fully-laws.

Now that he could 'turn his body into light', he naturally relied on the technology of the 'destroyer' mech.

No matter what.

after they integrated into it.

The 'destroyer' mech was activated.

Shua!

In an instant.

The mecha was like light and shadow.

he disappeared.

In the next moment.

He had already appeared on the battlefield.

"Kill!"

boom!

Battle cries rang out.

However ...

This sound was like nine different sounds overlapping each other. It also carried a kind of artificial intelligence's 'mechanical'. The destroyer mech had launched an attack.

“Whoosh!”

It could be seen.

The destroyer took out its weapon.

It was a destructive lightsaber formed from 'law energy'.

The sword swept across.

It formed an unparalleled sword-shaped Halo.

Bang Bang Bang Bang!

Countless explosions occurred.

Wherever the sword light passed.

Everything was destroyed.

All the energy Warriors and Guardian Warriors, as well as the energy warships and Guardian warships, that were blocking the front exploded. They were all annihilated and turned into countless light spots.

Not only that.

It had even caused the main bodies of many level 10 motherships and Guardian fortresses to be destroyed. Even the defense of a level 11 perfected law-level medium-grade Guardian fortress could not withstand it.

Their combat strength was truly terrifying.

In the interstellar battlefield.

He was simply invincible.

everywhere it passed.

It caused a series of explosions.

He pushed his way through.

They charged straight at the perfected-stage level 11 medium-level protogenic space carrier and the medium-level protogenic space fortress, wanting to destroy the two perfected-stage level 11 mechanical space Troops.

very strong!

He was indeed very strong!

In fact, it was not weaker than the 'eternal halberd', which had been strengthened by a level 11 military formation.

This level of combat strength.

He had almost reached the limit of rank 11.

"Chief sovereign."

yes, ” Hidden Dragon reported. the Army of the sky dynasty has arrived. They’re still one light year away from the battlefield and are currently surveying the situation.

“Yes.”

Jiang Li nodded. since we’re here, let’s end the war here as soon as possible. The longer we delay, the more things will change and the Army of the sky dynasty will escape through the plane channel.

Shua!

Jiang Li raised his hand.

There was a flash of black light.

Clang!

The sound of a sword.

The ‘demonic sword’ appeared in Jiang Li’s hand.

Buzzzzzz! Buzzzzzz!

the body of the sword was breathing in and out the sword qi of the demonic sword.

A light year away.

Heavenly Thunder and the others were at the center of the Army.

The Army was guarding.

They looked at the interstellar battlefield one light year away.

In his eyes.

Runes of spatial laws appeared.

It crossed the distance of space.

He could clearly see what was happening a light year away.

“The destroyer.”

The fifth Prince’s gaze was filled with surprise. this Wufu, I really didn’t expect that unknown fleet to have such powerful combat power. It hasn’t been long, and they’ve already forced the destroyer fleet’s strongest weapon, the destroyer mecha, to come out.

“Indeed!”

” it seems like we have underestimated the strength of that unknown fleet. ”

“Be careful.”

“To prevent the boat from capsize in an easy task.”

you must know that the combat power of the ‘destroyer’ mecha has almost reached the limit of level 11. Even if the elder Grand Prince uses the military formation and the boost of the nation’s fate, he might not be able to gain an advantage.

“That’s right.”

“.....”

The various Marquis Kings discussed.

“Yes.”

Thunder of heaven nodded his head slightly and said, ” “Since the destroyer fleet has already sent out the destroyer mecha, this battle should be ending soon.”

“Although that unknown fleet is strong, they shouldn’t be equipped with powerful weapons like the destroyer mecha. We’re fully prepared. When the time comes, we’ll seize the opportunity to attack the destroyer mecha of the destroyer fleet.”

“Yes.”

“i understand.”

“Don’t worry, elder Grand Prince. This time, we’ll definitely achieve an all-out victory.”

victory belongs to our Sky Dome Empire.

All the generals responded loudly.

clang!

Suddenly.

A sword cry that shook the starry sky.

immediately after.

“Roar!”

There was another dragon roar that shook the space.

“Whoosh!!!”

Sword Qi!

It was a jet-black sword Qi.

the true dragon circled, the sword dao resonated, and the laws intertwined.

This sword.

The power seemed to be endless.

“This Suan ni, this Suan ni”

“What’s that?”

“Sword Dao! That’s the way of the sword!”

“Something’s wrong! It’s not just the sword Dao!”

“.....”

Aghast!

Fear!

He trembled!

Heavenly Thunder and the others were completely dumbfounded. Their faces turned pale in an instant, without a trace of blood. They were completely stunned by the sword Qi.

“Sword Qi of the devil sword.”

Shua!

destroy! Jiang Li slashed down and broke the chaos. The power of the law of space sealed the space and the destroyer.

“What? what?”

“What is this?”

“.....”

The nine commanders of the destroyer fleet were shocked.

The mecha’s body was confined.

It was impossible to Dodge.

He could only face them head-on.

Chapter 782 Destruction

The Galaxy was shaking.

Such a powerful attack.

It almost dazzled the entire system of the light Galaxy.

the interstellar space was like a huge box, suffering an unparalleled force, causing the entire space to shake violently.

kill!!!

BOOM! BOOM! BOOM!

Jiang Li! the fleet commanders of the destroyer shouted and activated all the power of the mecha.

“Activate the law energy!”

“Energy convergence!”

“Release!”

Buzzzzzz! Buzzzzzz! “Whoosh!!!”

A vast amount of law energy was shaking violently.

“The spear of the destroyer!”

Bang!

A full-force attack.

It was almost the most powerful technique of the ‘destroyer’. It formed a black spear of the law of destruction and stabbed at Jiang Li.

Kachaa! Kachaa!

The space was almost collapsing.

In the end.

BOOM!

The two sides collided.

Jiang Li's 'Demon Sword' hit the 'destroyer mecha' of the destroyer fleet. It was the collision of the sword and the gun, a clash of powerful laws.

A vast and boundless aftershock erupted.

It shook the starry sky.

kachaa! "Crack!"

The next moment.

Countless cracks appeared on the spear of Annihilator. It couldn't resist the power of Jiang Li's demonic sword aura and started to crack.

Bang!

an explosion occurred.

The spear of the destroyer had been destroyed.

The remaining power of Jiang Li's sword hit the 'destroyer' mecha and split it in half from the middle.

"Ah!"

a shrill scream rang out.

Shua! Shua! "Whoosh!"

The nine destroyer fleet commanders were thrown out and appeared in the space war. The entire 'destroyer' mecha exploded.

It had become scrap metal.

“No!”

The nine destroyer fleet commanders ‘eyes widened. Their expressions were filled with shock, disbelief, and all sorts of expressions.

“This is impossible! this is impossible!”

“How could the destroyer fail? how can it fail?”

“I don’t believe it! I don’t believe it!”

“Could it be that Qianqian?”

is the enemy a fleet from a Level-6 civilization?!

“.....”

Aghast!

It was really extremely shocking!

The destroyer was completely terrified.

Outside the battlefield.

what?!

Dumbfounded.

Thunder of heaven and the others were completely dumbfounded as well. They stared at the scene of the battlefield in a daze and were completely rooted to the spot. They gasped.

he lost. He lost. The destroyer mecha actually lost? ”

“How is this possible?”

...

“This Suan ni, this Suan ni”

The various Kings and Marquises were also in disbelief.

“Did you guys see Zhenzhen just now? The Imperial dynasty’s true dragon, it’s the Imperial dynasty’s true dragon!”

“We were wrong from the start!” Heavenly Thunder shrieked. Like us, they’re from the human race’s imperial dynasty of the Super Fantasy world.”

“This bi an ...”

“What do we do now?”

“retreat! retreat immediately!”

“.....”

After he reacted.

The various Kings and Marquises all shouted.

the ‘imperial dynasty true dragon’ that appeared just now has broken through level 11 and reached level 12.

...

“Rank 12 Suan ni”

the seventh level. Based on the strength that the other party has shown, it's very likely that they're a seventh level Emperor dynasty.

“This news must be reported to ‘His Majesty sky’ immediately.”

“.....”

The generals of the army of the sky Emperor dynasty were discussing among themselves.

in a short period of time.

After analyzing the battle situation.

He immediately made a decision.

They were ready to retreat.

However ...

It was already too late.

BOOM! BOOM! BOOM!

After the destroyer mecha was destroyed by Jiang Li.

Jiang Li immediately ordered the mechanical fleet to speed up the attack and started a one-sided slaughter. They couldn't stop Jiang Li's mechanical fleet at all.

Immediately after.

Clang!

die! Jiang Li swung his sword.

The pitch-black sword light drew a black semi-circle in the air, easily killing the nine commanders of the destroyer fleet.

And then ...

he had captured nine level 11 soul tinders.

activate the Army formation! Spatial travel!

Buzzzzzz!

Heavenly Thunder immediately ordered the Army to activate the level 11 'space army formation'. The entire Army of Emperor dynasty seemed to have turned into a beam of space light and was about to leave.

"Heavenly punishment!"

BOOM!

In that instant.

The 'spear of heavenly punishment' locked onto the Army of the sky Dome Empire. It broke through space, pierced through the Galaxy, and arrived at the battlefield in an instant.

The Army that was charging towards the sky Empire.

“Not good!”

“We’ve been discovered.”

“Be careful!”

“.....”

The various Kings and Marquises all cried out in alarm.

“Lightning slash!”

Shua!

The Thunder of heaven slashed out a dazzling purple lightning Blade light. With the support of the level 11 space army formation, it had the power of space.

It was as if the space had been cut apart.

Bang!

there was a loud bang.

The spear of heavenly punishment was hit by the blade of Heavenly Thunder. Its power was blocked, and it hit the level 11 space army formation, making a huge explosion.

The remaining power was completely blocked.

The Army of the sky Empire had been stopped.

He was forced to stop.

Buzzzzzz!

the next moment.

Right in front of the Army.

jiang li appeared.

they blocked their way.

“Since you’re here, then don’t leave.”

Jiang Li looked down at Heavenly Thunder and the others.

“yingluo, you’re yingluo.”

“Human Emperor!”

“You’re actually human Emperor Zhuanxu.”

“This bi an ...”

Shocking!

When Heavenly Thunder and the others saw Jiang Li, they were all shocked. They didn’t expect their enemy to be the human Emperor.

He felt that it was unbelievable.

One had to know.

Many empires.

Whether it was the humans or the monsters and barbarians.

The human Sovereign, barbarian sovereign, and demon sovereign.

Basically, they would rarely take action, let alone enter the other world.

Because ...

as long as they were in a 'super fantasy world', there was basically no need to worry about their lives. therefore, most imperial dynasties would send their princes, marquises, and other vassals to foreign worlds to fight.

he would rarely lead the army personally.

It was natural.

When Heavenly Thunder and the others saw Jiang Li, they would be very surprised.

"We pay our respects to the human Emperor."

Hence.

Heavenly Thunder and the others looked at each other, then quickly bowed to Jiang Li.

"Submit or die?"

Jiang Li didn't move. He just looked down at Heavenly Thunder and the others indifferently.

"this bi an ..."

heavenly thunder and the others were stunned.

“We are willing to surrender.”

Heavenly Thunder said without thinking too much.

Obviously.

The current situation ...

Jiang Li had level twelve combat power and was a Human Sovereign. He was also enhanced by the fate of the dynasty. His combat power was unpredictable.

If war were to break out ...

Heavenly Thunder and his team would lose without a doubt.

The grade-11 formation would be easily broken.

The hope of victory was slim.

Since that was the case ...

He could only surrender.

After surrendering.

As long as the sky vault dynasty paid a certain price, they would be able to control Heavenly Thunder and the others. Heavenly Thunder wouldn't have to risk his life and Jiang Li would be able to gain a lot of resources.

It was a win-win situation.

“You're so stubborn.”

No. Jiang Li shook his head.

To tell the truth.

surrender. Jiang Li didn't care about the so-called 'tacit agreement' between the dynasties. If they didn't surrender, they would die.

"The sovereign's sword!"

BOOM!

Hence.

As expected, Jiang Li released the skill of the 'Demon Sword'. The 'Dominator mode' was activated and formed the 'Dominator's domain, covering the entire Army of the sky dynasty.

Buzzzzzz! Buzzzzzz! Buzzzzzz!

The Dragon roared.

The law released a dazzling light.

After the various powers gathered together.

It condensed into the 'sword of the mechanical Lord'.

It slashed towards Heavenly Thunder and the others.

"You're so silly!"

Heavenly Thunder and the others were shocked.

“No!”

“Prepare for battle!”

“.....”

The crowd roared.

In an instant.

The rank 11 army formation was formed.

“Kill!”

The heavenly Thunder roared, the Imperial Jade seal appeared, and the dynasty flood Dragon appeared. All kinds of powers were condensed on him, almost pushing his combat ability to the limit of level 11.

“Thunder!”

BOOM!

One blade!

There was only one blade!

the heavenly thunder struck out with his most powerful strike, turning into a thunderclap that filled the sky. the purple light of the thunder illuminated the surrounding starry sky, and there was only one flash of lightning that looked like the light of the blade.

It was as if the starry sky had been torn apart.

It slashed at Jiang Li.

Bang!

The sword light and the saber Light collided.

There was a loud noise.

There was no surprise.

BOOM!

The purple lightning Blade light was shattered and exploded. It couldn't resist the power of Jiang Li's sword at all. There was an absolute difference in level between them.

It was insurmountable.

“Ah!”

arghh! Heavenly Thunder screamed. As the blade light exploded, the shock wave hit Heavenly Thunder's body and sent him flying, spitting out blood.

His injuries were severe.

“break!”

Bang!

die! Jiang Li swung his sword again and shattered the rank 11 formation of the Army. Countless soldiers screamed and died.

BOOM! BOOM! BOOM!

let's go. Jiang Li entered the battlefield in person as if he had entered an invincible realm. No one could stop him.

At the same time.

the power of the ruler-level domain was unleashed.

It blocked countless attacks.

“Ah!”

heavenly thunder screamed in pain.

die! Jiang Li killed him with one strike.

Immediately after.

He also took care of several rank 11 harmonization realm powerhouses.

not long after.

The destroyer fleet had been taken care of by Jiang Li's mechanical fleet. The mechanical fleet immediately rushed over and charged at the Army of the sky dynasty.

Shua!

Hence.

let's go. Jiang Li left the battlefield and left the finishing work to the mechanical fleet.

Time passed.

Half a day later.

The war ended perfectly.

One after another.

From the beginning to the end of the war.

not even a day had passed.

Jiang Li led the mechanical fleet to destroy the destroyer fleet first and then all the Army of the sky dynasty.

He had won an all-round victory.

the entire 'light galaxy' fell into jiang li's hands.

Of course.

This was also because Jiang Li's strength and the combat power of the mechanical fleet could crush the destroyer fleet and the Army of the sky dynasty.

That was why they were able to annihilate the enemy forces in a short day and obtain victory.

If ...

Both sides were evenly matched.

That wasn't something that could be solved in a short one or two days.

It was basically a common thing to eat when the war lasted for several years.

“all troops, hear my order!”

clean up the battlefield and send out the mechanical Army to collect resources on the planets.  
Occupy the entire light system.

“Yes, sir.”

Hidden Dragon replied.

Chapter 783 huge investment

Buzzzzzz! Buzzzzzz! “whoosh!!!”

After Jiang Li took over the light Galaxy, traces of fate started to gather from all directions.

It was converted into the Fortune of the Empire.

It gradually merged into Jiang Li’s body.

Roar! Roar!

A deep Dragon’s Roar.

The Azure Dragon of the great Xia gradually devoured and absorbed the Fortune of the Empire that was converted.

As expected.

This time.

The Azure Dragon of the great Xia Dynasty would definitely be able to break through 10 million meters.

“Yes.”

yes. Jiang Li nodded. teleport.

“Yes.”

Buzzzzzz!

The spatial teleportation was activated.

An invisible spatial light beam landed on Jiang Li. He disappeared into thin air and returned to the No. 01 Basic Law base.

Time passed.

In the blink of an eye, several months had passed.

Star map area 01.

Jiang Li had taken them all.

Not only that.

after the fate of the country gathered.

The great Xia Azure Dragon’s body was tens of millions of meters long.

just ten million meters.

There was no bigger or smaller.

at the same time.

Jiang Li also felt the strong call of the true dragon List.

however ...

Jiang Li didn't enter the world of the true dragon List yet.

After everything was unified.

jiang li divided star map area 01 into 1700 star system areas and named them with different numbers.

only the 'djinn galaxy' had a name.

The spirit Galaxy, the light Galaxy, the sun Galaxy, and so on.

all the titles were removed.

It was changed to a serial number.

Among them.

the spirit star system was star system number 0001, the light star system was star system number 0002, and the blue star civilization was in the blazing sun system number 0003.

And so on.

finally.

The original colony Galaxy 013561 was renamed to Galaxy 1700.

Not only that.

In a few months ‘time.

Jiang Li had already transported all the energy crystals in star map area No. 01 to the No. 01 Basic Law base with the help of the mechanical Army and space transportation.

“Chief sovereign.”

Jiang Li. Hidden Dragon stood beside Jiang Li.

report the specific gains.

Jiang Li said.

“Yes.”

hidden dragon nodded.

“Reporting to the hegemon.”

“Currently, in star map area 01, there are a total of one million small power crystal mines, one hundred thousand medium power crystal mines, and one thousand large power crystal mines,” Hidden Dragon said.

the planets and galaxies with energy crystal mines are marked with ‘red dots’.

“Furthermore ...”

...

” all the mines have sent out ‘interstellar miners’ to mine. each of them has their own machinery and driving equipment, and they are mining with full efficiency. ”

“After calculation.”

“I want to mine all the energy crystal mines.”

“It will probably take ‘a hundred years’.”

“Of course.”

while mining, new energy crystal mines may also be born on other planets and galaxies.

“A hundred years.”

” it’s been a little too long. ” jiang li muttered.

One had to know.

Taking everything into account.

It had been less than a hundred years since Jiang Li got the ‘super mecha Army’. It was no more than thirty years.

...

“Chief sovereign.”

this is already the fastest we can go, ” said Hidden Dragon. energy crystals are a bit special. If they’re exposed to the universe for too long, they’ll melt into the universe’s energy.

” i can’t speed up the mining speed. ”

“i know.”

No. Jiang Li waved his hand and asked, "how many 'energy crystals' can we use now?" "there's no need to report the other resources. just report the energy crystals."

In reality.

Jiang Li had tried to transform the entire energy crystal vein, but he failed every time.

regardless of whether it was a small, medium, or large energy crystal mine.

All of them failed.

Jiang Li didn't know why.

He could only give up.

"Yes."

"My Lord, this time, after completely taking down star map area 01, the number of energy crystals we've obtained can be said to be a huge amount," Hidden Dragon replied.

"Among them,"

190 trillion low-level energy crystals, 62 trillion mid-level energy crystals, 500 billion high-level energy crystals, all of these energy crystals can be used.

"alright," he said.

Jiang Li was overjoyed.

The harvest this time.

it was far beyond jiang li's expectations.

of course.

Most importantly, Jiang Li had taken over the light Galaxy and harvested all the resources of the peak level-4 civilization, so he had gained a lot.

“Convert all of them.”

buzzzzzz!

without any hesitation.

Jiang Li immediately activated the ‘origin point conversion’ function and converted all 190 trillion low-grade energy crystals into origin points.

Shua!

conversion successful. You’ve received 190 billion origin points!

A notification appeared.

In the blink of an eye.

Jiang Li had more than 100 billion origin points.

“alright!”

Jiang Li was excited.

“Continue.”

buzzzzzz!

All 62 trillion intermediate power crystals had been converted.

shua!

[ conversion successful. Obtained 620 billion origin points! ]

A notification popped up again.

This time.

He had obtained more than 600 billion origin points.

“Si si si ...”

Jiang Li couldn't help but take a deep breath.

Finally.

All 500 billion high-grade energy crystals were converted.

Shua!

conversion successful. You've received 500 billion origin points!

a notification popped up.

“hahahahaha!”

This time.

haha! Jiang Li laughed.

it was such a huge harvest.

After Jiang Li digested it, it would be enough to improve his strength.

It could crush the entire Milky Way.

Shua!

[ origin points: 1420 billion origin points! ]

jiang li checked the exact number.

“very good,” he said.

Jiang Li was even more satisfied.

such a number.

It could be said to be a huge investment.

“open the soul tinder column.”

Buzzzzzz!

Jiang Li had an idea.

[ Soul Fire seed: 50 trillion level-one soul Tinders, 30 trillion level-two soul Tinders, 20 trillion level-three soul Tinders, 5.9 trillion level-four soul Tinders, 1.8 trillion level-five soul Tinders, 52.5 billion level-six soul Tinders, 5.08 billion level-seven soul Tinders, 520 million level-eight soul Tinders, 3.3 million level-nine soul Tinders, 100000 level-ten soul Tinders, and 1492647 Level-11 soul Tinders. ]

“Fuse.”

The soul Tinder fusion function was activated.

Shua! Shua!

The fusion interface.

Countless notifications kept appearing on the screen.

He fused with the soul Tinders one after another.

Finally.

The 50 trillion level-one soul Tinders were fused into 5 trillion level-two soul Tinders.

The 35 trillion level-two soul Tinders were fused into 3.5 trillion level-three soul Tinders.

The 23.5 trillion level-three Soul Fire Seeds were fused into 2350 billion level-four Soul Fire Seeds.

8250 billion fourth-tier soul fire seeds were fused into 825 billion fifth-tier soul fire seeds.

6725 billion Tier 5 soul Tinders fused into 672.5 billion Tier 6 soul Tinders.

725 billion level-six soul tinders fused into 72.5 billion level-seven soul tinders.

The 77.5 billion seventh-tier soul Tinders fused into 7.75 billion eighth-tier soul Tinders.

the 83.13 million level 10 soul tinders fused into 8313 thousand level 11 soul tinders.

Shua!

soul Tinder: 9.8 million and 5647 rank-11 soul Tinders.

“Alright,” he said.

Jiang Li was even more satisfied. now, I have enough origin points and soul Tinder. I can even build and upgrade mechanical interstellar troops beyond level 12.

Without any hesitation.

immediately unlock the level 12 mechanical interstellar Army.

jiang li said.

Shua!

nine level 11 soul Tinders consumed, one hundred million origin points. Unlocking level 11 mech Galaxy troops. Please wait patiently.

[ countdown: 10,9,8,7 ]

[ unlocking complete. ]

[ can be expanded. ]

Notifications popped up one after another.

“Alright,” he said.

” okay. ” jiang li nodded in satisfaction.

law-level medium-level Guardian fortress unlocked.

Jiang Li was sure.

Buzzzzzz!

He had consumed 1024 level 11 soul Tinders.

[unlocking complete!]

A notification popped up.

prompt: all the level 11 mechanical interstellar soldiers have been unlocked, and level 12 mechanical interstellar soldiers can be unlocked. As level 12 mechanical interstellar soldiers are

already the peak of the laws, the consumption will increase. Nine level 12 soul Tinders and 100 billion origin points will be required.

Very quickly.

Another notification appeared.

fuse 90 level 11 soul Tinders.

buzzzzzzz!

The fusion interface appeared.

[ fusion successful! ]

.....

[ fusion successful! ]

.....

In the blink of an eye.

jiang li got nine level-twelve soul tinders.

“Continue.”

Jiang Li was sure.

Buzzzzzzz!

” nine rank-12 soul tinders and 100 billion origin points have been consumed to unlock the rank-12 mechanical interstellar army. please wait patiently. ”

[ countdown: 10,9,8,7 ]

[ unlocking complete. ]

A series of notifications popped up.

“Unfurl.”

Jiang Li had an idea.

fuse. Jiang Li started the soul Tinder fusion again.

In the blink of an eye.

The fusion was complete.

He had obtained 2048 level 12 soul Tinders.

“Unlock.”

Buzzzzzz!

Jiang Li used the 2048 level-twelve soul Tinders he got from the fusion and unlocked the advanced magical-level fortress.

Chapter 784 final

[ magical-level advanced Guardian fortress has been successfully unlocked. ]

A notification appeared.

Immediately after.

congratulations, Lord. You have unlocked all the level 12 mechanical interstellar troops. All the mechanical interstellar troops have been fully unlocked.

[ congratulations! ]

” you have unlocked all the mech types!

“as expected.”

Jiang Li’s expression didn’t change. He slowly took a deep breath and read the information carefully. all the units of the ‘super god game Legion’ have been unlocked.

That’s right.

From the very beginning, the highest level of the ‘super god game Legion’ template was only level 12. After reaching level 12, it meant that the ‘road’ had come to an end.

Unknowingly.

Jiang Li had already finished the road.

There were no more records of ‘mech troops’ of higher levels in the ‘game template’.

“.....”

There was silence.

Jiang Li fell into deep silence.

He sighed.

Jiang Li recalled the past.

He couldn’t help but be filled with emotions.

He sorted out his emotions.

” fuse 90 level 11 soul tinders. ”

Buzzzzzz!

[ fusion successful! ]

.....

[ fusion successful! ]

.....

Nine notifications appeared.

Jiang Li got nine level-twelve soul Tinders.

“Immediately upgrade to 01 Basic Law base.”

Jiang Li said.

“Yes.”

Hidden Dragon replied.

nine level-twelve soul Tinders and ten million origin points consumed.

“Whoosh!!!”

The promotion began.

A vast light enveloped the entire No. 01 elementary law base.

“chief sovereign.”

Sir. Hidden Dragon reported to Jiang Li. the upgrade has begun. It will be completed in 24 hours. Please wait patiently.

“Yes.”

okay. Jiang Li nodded.

Shua!

His figure flickered.

jiang li arrived at the outer space of the base.

He looked at the No. 01 elementary law base in front of him.

The base was huge.

It was as vast as the sun.

A pitch-black light enveloped the entire base.

It seemed to have become one with the space and was between existence and non-existence.

The words he had to say.

It was in the middle of the ‘space’.

this time.

Jiang Li didn't leave.

He was quietly looking at the changes and advancement of the base.

...

Time passed.

A day later.

Shua!

[ No. 01 elementary law base upgrade completed. ]

Jiang Li received a notification.

He opened his eyes.

Right in front.

What Jiang Li saw was the 'base' that had changed greatly.

A spaceship!

It was a flying ship.

It was a black spaceships.

...

It was only a hundred meters in diameter.

but ...

However, he was very skilled in using spatial technology.

Its true capacity was millions of times larger than its diameter of a hundred meters.

Shua!

Jiang Li stepped forward.

A black light flashed on his body.

His figure disappeared.

They entered the base ship.

In the control room of the 'headquarter ship'.

Jiang Li appeared.

Buzzzzzz!

Hidden Dragon also appeared immediately.

"chief sovereign."

Jiang Li. Hidden Dragon saluted Jiang Li.

"Yes."

okay. Jiang Li nodded. tell me the details of the base after the upgrade.

“yes.”

Hidden Dragon nodded.

“Whoosh!!!”

Immediately after.

The surrounding ‘walls’ became completely ‘transparent’, allowing them to see everything outside the cockpit, and even more easily capture scenes light years away.

The information projection appeared.

The information and situation of the ‘spaceship base’ were all presented in front of Jiang Li in a ‘3d’ form. He could see and observe it very clearly.

originally.

All the facilities and buildings of the ‘base’ were built outside the base, but now they were inside the ‘base’. It was as if the facilities were built inside after the planet was emptied.

All sorts of changes.

Jiang Li was surprised.

Because ...

According to the ‘game template’, after the ‘army base’ was upgraded to the highest ‘level 12, it would not become like a ‘base spaceship’. Instead, its size and appearance would not change.

it would only add the ‘final facility-self-destruction’.

To put it bluntly.

in fact, it was a kind of ‘self-destruction’ device that could instantly explode with unparalleled power and destroy everything. it was a way to die together with the enemy.

but now ...

the ‘super god game legion’ had merged with the ‘original will’, and after the game update, there were indeed many changes.

Shua!

“Interface: army base”

basic construction requirements: ten normal mechanical soldiers, one normal mechanical engineer, 100 million energy points.

advancement Requirements: unknown ”

Jiang Li Read through the basic information of the base carefully.

After No. 01 Basic Law base was promoted to level 12.

first of all ...

The 'base' had been integrated with a more powerful and complete law.

This way ...

Every facility was equipped with more complete power of the laws.

all his abilities had improved.

In addition.

There were two more modes.

Spaceship mode and base mode.

After Jiang Li asked Hidden Dragon.

He completely understood.

Spaceship mode.

The base could turn into the 'spaceship base' that Jiang Li was seeing now. It could travel through 'space' and travel in the 'universe'.

Base mode.

It could transform into a huge base.

They were stationed in some 'main Galaxy'.

This way ...

The 'base' would be able to merge with the space of the 'main Galaxy', and they would not be able to leave. They could only be stationed in the 'main Galaxy' forever.

However ...

However, it was able to contain the 'main Galaxy' within the scope of surveillance.

It was obvious.

Both modes had their pros and cons.

The spaceship mode allowed it to move freely, but it could not monitor the entire 'main Galaxy' at all times, nor could it easily mobilize the mechanical Army.

the base could not move freely, but it could monitor the entire 'main star system', easily mobilize the mechanical army, and guard the main star system.

"Not bad, not bad."

Jiang Li was very satisfied with both modes.

Both modes were extremely useful.

Finally.

There were two brand new facilities.

The 'self-destruct' facility was a combination of a program and a facility. As it meant, it was a means of mutual destruction. There was no introduction to it.

Fusion heart

The ability of this facility was extremely 'strange'. After Jiang Li learned more about it from Hidden Dragon, he learned that this facility could merge' creatures 'from different worlds and combine them with machines.

it could produce 'brand new troops'.

This fusion.

There was a high probability that it would be a test of luck.

whether he would succeed or not.

jiang li didn't know.

If he failed ...

Naturally, the origin points and the fused creatures would all disappear.

Immediately after.

Jiang Li looked through all the facilities carefully.

There were 12 facilities.

Only the 'Dominator's cockpit' had not been updated with new facilities.

The other 11 facilities all had new units.

"Facility: magical mech factory"

.....

He finished browsing.

Jiang Li closed all the interfaces.

Jiang Li. Hidden Dragon stood beside Jiang Li respectfully.

in reality.

Hidden Dragon didn't want to change into 'base mode', because after changing into 'base mode', he would stay in one place forever, losing his freedom.

you're right. maybe because Hidden Dragon had grown up with Jiang Li and had seen and known a lot, he felt this way.

However ...

Hidden Dragon did not show it.

Jiang Li's order was above all else.

so,

hidden dragon would not say anything.

how can I unlock higher-ranked troops in this situation? ”

Jiang Li asked the Super god game Legion in his mind.

Shua!

A notification popped up.

[ please, my Lord, obtain the 'rules'. ]

“The rules.”

Jiang Li looked at the information and fell into deep thought, how do I get this? To comprehend it by himself? Or to hunt and capture living creatures? or what?”

He thought about it for a long time.

Jiang Li didn't know the answer.

“In that case, don't even think about it in the short term.”

Jiang Li said.

On the other side.

The destroyer's headquarters, mother star system.

Star system of destruction.

The core power of the destroyer was basically concentrated here.

At the same time.

The battle reports from all over the Milky Way came in one after another.

destroyer fleet 01267 has achieved a complete victory. They destroyed the peak level 4 civilization, the Noah civilization, and took down the Noah star system.

.....

the destroyer fleet No. 21120 has won. They destroyed the peak Level-5 civilization, the 'planet motura', and took down the 'planet motura'.

.....

The interstellar battlefields of various places.

Good news came in one after another.

Basically.

They had both achieved victory.

” 00456’s destroyer fleet failed. although they destroyed the light civilization, they encountered the ‘dynasty army’ from another world and an unknown civilization’s fleet, which led to the complete annihilation of the army. ”

Obviously.

This was the battlefield information from the light system that had been sent to the destroyer’s headquarters.

make up for the lost forces of destroyer fleet No. 21120 and send them to the light Galaxy in front of them. As long as it’s not a Galaxy Hero fleet or a Galaxy pirate, there’s no need to report it. Just eliminate them.

The order from the higher-ups of the destroyer headquarters was quickly passed down.

Chapter 785 Sovereign

Jiang Li opened the ‘Dominator panel’ and looked at the interface of the different units.

Currently.

The ‘mech troops’ had all been unlocked, and there were still two ‘origin mech troops’ that had not been built and unlocked.

In the past.

Jiang Li didn’t have enough origin points, so he couldn’t make it.

Now, the number of origin points was completely sufficient.

?.....?

“origin machinery type: master of machinery-game master god (unlocked)(can be manufactured 01), weapon of domination-demonic sword (manufactured), weapon of domination-divine palace (locked)”

?.....?

There were only three types in total.

He could only create one machine origin soldier type.

Among them.

Jiang Li had already made the ‘evil sword’, unlocked the ‘master God of games’, but didn’t make it, and didn’t have enough ‘world law origin’ to unlock the ‘divine Palace, the weapon of domination’, let alone make it.

create ‘master of machinery-gaming master God’.

Jiang Li said.

Buzzzzzz!

Instantly.

One billion origin points were directly consumed to transform into a monstrous amount of energy. It was quickly integrated into the ‘troop type’ and revealed the ‘manufacturing interface’.

in the interface.

What Jiang Li saw was just a giant shadow of light.

In the surroundings.

Countless light spots filled in.

It gradually solidified.

A minute later.

Shua!

[ creation complete! ]

A notification appeared.

“Materialization.”

Buzzzzzz!

Right in front.

The main body of the Master of Games appeared out of thin air and floated in front of Jiang Li. It was a huge ball of light with a diameter of nine meters.

A pure white Radiance appeared.

It was like a source of holiness.

“This is a Kasaya.”

Jiang Li looked at it in surprise. It was like a sun that had shrunk countless times, but it didn’t have any temperature.

It was like a light source.

“Yxzs01 master God greets master.”

Buzzzzzz!

immediately after.

A ‘voice’ appeared in Jiang Li’s mind. The voice was hollow and emotionless. He couldn’t tell if it was male or female.

It was the voice of the God of games.

After that.

Jiang Li checked the message.

Shua!

The basic information was displayed.

[ origin soldier type: master of machinery-Game Master God ]

[ rank: rank 12 ]

[ No.: Yxzs01 ]

” level 12 skill: game god, player enigma (skill growth: [ there are only two skills at the start. As the number of players and the number of worlds experienced increase, the power of the skill will gradually grow, and more skills will be obtained.) ]

[ origin machine: bi an (omitted) ]

[ introduction: the God of games ‘abilities will increase with the number and strength of the’ players’. ]

advancement Requirements: unknown ”

“As expected, it’s also level 12.”

...

Jiang Li nodded. He had read all the basic information about the game God, but he still didn’t fully understand his abilities.

“Yxzs01.”

tell me all the abilities you have, ” Jiang Li ordered. tell me in detail.

“Yes.”

Yxzs01 reported to Jiang Li via voice transmission, ” master, because it was just created, no ‘players’ have been developed yet, so there are only these two main basic skills for now.

the game God and the player enchanter.

” first, let me introduce you to ‘player enchanter’. ”

“As the name suggests.”

the ability of this skill is to grant any existence, including ‘living’ and ‘non-living’,’ living ‘and’ non-living’, ‘living’ and ‘non-living’, all things in the universe, and so on the ability to become’ players’.

“Next up is the ‘game God’ skill.”

“After giving the player the right, the God of games ‘ability will come into play. The existence of the player will receive the help of the God of games and obtain a’ subsystem ‘of the God of games. a mechanical system.”

...

the function of the ‘mechanical system’ is a copy of the ‘super god game Legion’ that rules over you. It has the corresponding functions and can create ‘mechanical soldiers’.

master, you can also issue a ‘mission’ to any player through the ‘Game Master God’. The punishment of the mission can be that if you can’t complete it or fail it, you will be directly obliterated.

“Also,”

of the resources obtained by any ‘player’, only’ one-tenth ‘can be used. The remaining’ nine-tenths ‘will become your harvest, my Lord.

“.....”

Time passed.

Yxzs01 explained all the functions to Jiang Li in detail.

” i understand. ” jiang li understood.

The power of the master of machines couldn't increase Jiang Li's combat ability at the moment, but it had great potential.

one could imagine.

when there were countless 'players' in countless worlds, jiang li would be the mastermind behind these 'players' and control everything.

At that time.

Jiang Li wanted to get rid of a powerful force.

He could directly issue the mission.

After that.

Countless players accepted the mission and swarmed towards a powerful force, destroying it.

In other words ...

The power of the 'master of machinery-the master God of games' was only in the later stages. The later the stage, the more terrifying and powerful the power would be.

“Yes.”

okay. Jiang Li nodded and gave an order, ” yxzs01, activate the 'game giver' skill and use your power.

“Yes, sir.”

Yxzs01 replied.

“Whoosh!!!”

The skill was activated.

The pure white ball of light lit up.

In an instant.

Shua! Shua! “Whoosh!”

A total of nine imprints flew out of the light ball. They were in the shape of a Dragon and emitted a pure white Radiance. They pierced through the barrier of the ‘great universe world’ and disappeared into thin air.

he entered universe ocean.

The Dragon-shaped white mark was the ‘player mark’.

The power of ‘nothingness’ in universe ocean was gradually eroding the player’s Mark, causing the light of the player’s Mark to become dimmer and dimmer. It was almost about to disappear.

In the end.

The nine player imprints were all preserved.

He entered nine completely different worlds.

“Chief sovereign.”

Yxzs01 reported to Jiang Li, ” “The first batch of players has been confirmed.”

“so fast?”

Jiang Li was speechless.

“please take a look, chief sovereign.”

Buzzzzzz! Buzzzzzz! “Whoosh!!!”

The light condensed into a projection.

Nine completely different images appeared in front of Jiang Li.

they represented nine different worlds.

Time passed.

Through the nine players, Jiang Li had a general understanding of the Nine Worlds.

Among them.

Three low-level worlds, three medium-level worlds, two high-level worlds, and one super-level world.

“Yxzs01.”

show me the situation of the Supreme-level world, ” Jiang Li ordered.

“Yes.”

Yxzs01 replied.

Buzzzzzz!

The ninth projected image was enlarged, and the other eight images were shrunk.

A superior-class world.

It was called the Confucian world.

Through a detailed understanding.

In this world.

He was a talented poet.

To be precise.

Reading and writing could allow one to obtain great power and gather the heart and courage of literature. One word could suppress a thousand gold and a country.

The Saints ruled the world.

the sage of poetry, sage of literature, and sage of calligraphy, qianqian

Of course.

Other than the 'human race'.

There were also the beasts that were hostile to the human race.

The beast race cultivated qi and blood.

It was also extremely powerful.

Other than that.

There were also the ‘evil spirits’ that wreaked havoc in the world.

From low to high.

The realms were divided into Tong Sheng, Xiucan, Juren, Jinshi, Hanlin, scholar, Grand scholar, Confucian master, Grand Confucian, half-Saint, quasi-Saint, and Saint.

There were a total of twelve major realms.

In the image.

the confucian world.

The heavenly source continent.

Lu County, Dayuan Manor, liaozhou, Xia country.

What Jiang Li saw was a young man in ragged clothes. lu qing was an ordinary disciple of a humble class in lu county.

And now.

Lu Qing was facing his first choice in his life.

In other words, it was the ‘test for the students’.

However ...

He was suffering from the cold wind and felt dizzy. In addition, his family was poor. It was difficult for him to even buy a few eggs, let alone money to buy Chinese medicine.

Furthermore ...

Lu Qing's old mother was at home, and her health was not good.

Other than that.

There was nothing left.

There was no beautiful child bride.

because ...

How could a poor person like Lu Qing afford to raise a child bride?

\* cough cough \*

Lu Qing coughed. His nose was red, and he felt dizzy. His legs were weak, and he did not even have the strength to take a few steps. He even wondered if he could last until tomorrow.

Not to mention the 'child test' that was going to be held a few days later.

It was simply an illusion.

The most important thing right now was ...

It would be able to protect his life.

Bang!

Lu Qing collapsed.

He could not hold on any longer. He was still halfway to his home. Lu Qing, who was lying on the ground, was gradually losing consciousness.

It seemed like ...

He had returned to his childhood.

His father Jian was there.

he didn't need to think about anything. everything was on his father's shoulders. he revealed a happy and blissful smile by his father's side, but this scene was gradually becoming blurry.

it was about to disappear.

“Whoosh!!!”

At this moment.

A white spot of light fell from the sky. It seemed to have exhausted all its energy. It turned into a white stream of light and entered Lu Qing's mind.

At the center of his eyebrows.

A White Dragon-shaped mark appeared.

He instantly disappeared.

“Chief sovereign.”

Yxzs01 reported to Jiang Li, ” “Although this person is still a ‘humble class disciple’ and is poor and dejected, he has the potential to be a ‘Hidden Dragon’,”

“According to the original trajectory of this world.”

although this person can't be the ruler of the world, he has the destiny of a greedy Wolf and Army destroyer. He will be of great use in the world.

the protagonist can't be given or controlled, and will be discovered. However, it's just a 'greedy Wolf' life Providence, and it's at its poorest time, so it can still be given the qualifications of a 'player'.

"Yes."

I hope this 'Lu Qing' can surprise me like you said. Jiang Li nodded and looked at the unconscious Lu Qing in the picture.

"Please be at ease, chief sovereign."

Yxzs01 said.

Time passed.

Jiang Li looked at the other eight worlds and slowly got familiar with their 'player identity' and the 'mechanical system'.

They all fell into ecstasy.

At that moment.

They all thought that they were 'destined protagonists', and in the future, they would become 'people above people', and they would become 'invincible', the strongest 'protagonists'.

He didn't know.

They were all 'players' that Jiang Li had trained.

However, their future achievements would be very high.

They were all just working for Jiang Li.

## Chapter 786 The immortal master

Buzzzzzz! “Whoosh!!!”

The nine-meter-wide white ball of light began to change. It flickered with light and gradually shrank. In the blink of an eye, it became a Firefly-like light spot.

Shua!

The white light flew towards Jiang Li like a Firefly.

After that.

Buzzzzzz!

It merged into Jiang Li’s body.

He disappeared.

The next moment.

The light spot appeared in Jiang Li’s dantian and floated beside the ‘true spirit’. There were three eight-Dragon level sacred artifacts of the dynasty around it.

little white, open the ‘plane channel’ immediately.

go! Jiang Li ordered.

It was obvious that they were preparing to go back to the Saint peace state to receive the rewards from the true dragon List.

“Yes.”

Xiaobai replied.

Buzzzzzz!

The plane’s channel opened, forming a white arched gate.

Shua!

Jiang Li went in and disappeared. He left the ‘multiverse world’ and entered the ‘Super Fantasy world’, arriving at the Saint peace state.

“your majesty.”

Shua! Shua!

Hong Tianqi, Xu Ya, and the others immediately came to welcome him after sensing the movement.

“Yes.”

okay. Jiang Li nodded and went straight to the ‘seclusion room’.

Kachaa!

The door of the closed room closed.

hong tianqi and the others stood guard outside the room respectfully.

In the closed-door cultivation room.

Buzzzzzz! Buzzzzzz!

” let’s go. ” jiang li activated his cultivation technique.

BOOM!

the azure dragon circled.

Jiang Li’s consciousness entered the world of the true dragon List.

Instantly.

Several purple-gold light balls fell from the true dragon Roll and merged into Jiang Li’s consciousness. Jiang Li’s illusionary body rose into the air.

In the blink of an eye.

He had directly jumped from level 8 to Level 7.

even though ...

At present, it was only at the end of the seventh level, but it was also the seventh level. It could be said that it stood at the top of the ‘lower imperial dynasty’.

Further up.

That was the sixth level.

It would no longer be a ‘lower imperial dynasty’.

Roar!

The Dragon roared.

Jiang Li quickly accepted the reward from the true dragon List.

“congratulations to the great xia dynasty for improving its national fortune. your national fortune ranking has risen to 79850, entering the seventh level. The Azure Emperor Art’s grade has been upgraded.”

Buzzzzzz! Buzzzzzz!

Immediately.

A vast amount of information about the cultivation method of the nation’s fortune poured into Jiang Li’s mind.

Jiang Li had memorized it completely.

This time.

The ‘Azure Emperor Art’ had been upgraded from ‘level 11 top grade’ to ‘level 12 low grade’.

‘reward two: 90 world law origins.’

...

This was a substantial reward.

“alright,” he said.

jiang li was overjoyed.

this way ...

The world law origin points in Jiang Li's hands were enough to unlock the 'divine Palace, the ruler's weapon'. With the origin points he had, he could make it too.

'reward 3: the empire's sacred artifact will be upgraded.'

The third reward.

It could be considered a substantial reward.

He had received all the rewards.

buzzzzzz!

Jiang Li's consciousness returned to his body and left the 'illusionary body'.

...

"Not bad."

jiang li opened his eyes. he was quite satisfied with the reward this time. the first step was to complete the level twelve low-grade azure emperor art.

He didn't use the energy from the country's fate.

It took Jiang Li three days to complete the conversion.

After that.

Jiang Li then upgraded the third-level eight-Dragon sacred artifacts one after another. All of them were upgraded from eight-Dragon to nine-Dragon, reaching the limit of a lower-level sacred artifact.

This way ...

The Green Dragon imperial edict, the Green Dragon Imperial Jade seal, and the great Xia Marquis.

all of them were able to fight against ‘level 12’ existences.

His combat strength had increased greatly.

“Alright,” he said.

Roar! Roar!

Jiang Li put the three nine-Dragon level sacred artifacts back into his body and appeared in his dantian, floating quietly beside his true spirit.

Shua! Shua!

the 90 world law origins were absorbed.

[ captured 90 world law origin source! ]

A notification appeared.

unlocking ‘ruler’s weapon-immortal Palace’.

Jiang Li said.

buzzzzzz!

After consuming 99 world law origins and merging them into it, the ‘ruler’s weapon-immortal Palace’ quickly lit up.

Shua!

[ the unlocking of ‘ruler’s weapon-divine Palace’ has been completed! ]

A notification popped up.

“Alright,” he said.

Jiang Li was overjoyed.

“Create the ‘ruler’s weapon-immortal Palace’.”

Buzzzzzz!

This time.

After spending 100 million origin points, the resources required to create the ‘weapon of domination-the divine Palace’ were the same as the resources required to create the ‘weapon of domination-the demonic sword’.

The manufacturing interface popped out.

Within the interface.

It was a vast and huge immortal Palace.

It was as if there were clouds and mist surrounding it.

In the surroundings.

Countless light spots filled in and gradually condensed.

A minute later.

[ creation complete! ]

A notification appeared.

“Manifest.”

Jiang Li said.

Buzzzzzz!

In front of Jiang Li, the ‘immortal Palace’ appeared out of thin air. What Jiang Li saw was a white ‘Palace’ surrounded by clouds and mist. It was only one meter tall.

“Come.”

Jiang Li reached out his hand.

shua!

The ‘immortal Palace’ quickly flew to Jiang Li and stopped in his palm. It even shrank to the size of his palm and floated quietly.

“Chief sovereign.”

A voice sounded in Jiang Li’s mind.

buzzzzzz! buzzzzzz!

After that.

Jiang Li saw the ‘immortal Palace’ in his palm was glowing. The light gathered and turned into a vivid human figure.

He bowed to Jiang Li.

He took a closer look.

jiang li suddenly realized that this figure was exactly the same as the ‘master of the palace’.

there was no change.

“yes.”

immortal Palace. Jiang Li’s expression remained unchanged. the information of ‘immortal Palace’ is displayed.

“Yes.”

the master of the immortal palace responded.

shua!

[ origin weapon: ruler’s weapon-divine Palace ]

“Yes.”

XG01. Jiang Li finished reading the basic information. tell me more about the abilities.

“Yes.”

The master of the immortal Palace nodded in response.

With the detailed introduction of the ‘master of the immortal Palace’, Jiang Li gradually had a better understanding of the abilities of the ‘immortal Palace’.

First of all ...

the skill ‘master of the immortal palace’.

not only did it allow the ‘heavenly palace’ to possess a ‘master of the heavenly palace’ similar to the ‘artifact spirit’ and ‘mechanical intelligence’, but the ‘master of the heavenly palace’ was also an extremely strong combat force.

in other words ...

level 12. Jiang Li gained a level 12 combat strength.

In addition.

‘Extreme path immortal Palace’.

The ability of this skill.

It could imprison nine level 12 ‘beings’.

After the transformation of the ‘extreme path immortal Palace’, the imprisoned’ beings ‘could become’ Immortals’, become part of the ‘immortal Palace’, and become Jiang Li’s combat power.

For example.

Jiang Li encountered a level twelve enemy.

Jiang Li could imprison ‘level 12 enemies’ through the ‘immortal Palace’ and then transform them with the skill ‘extreme immortal Palace’ to ‘enslave’ them.

Not only that.

The more ‘Immortals’ there were in the ‘immortal Palace’, the stronger they were.

The more powerful it was, the more powerful it would be.

Finally.

The ‘divine Palace’ was also a ‘ruler’s weapon’ with extremely strong defense. The divine Palace was above their heads, and with the ‘divine palace guard’ activated, it was enough to resist the attack of a level 12.

this way ...

‘Demonic sword’ was the main attacker, while ‘immortal Palace’ was the main defender.

One for attack and one for defense.

Jiang Li basically had all his weapons.

“Not bad.”

Jiang Li was more and more satisfied.

“XG01.”

From today on, it will be changed to: Immortal master, master of the immortal Palace, you can call yourself the ‘immortal master’ in the future.”

“Yes.”

The immortal master replied.

“go wait outside.”

go! Jiang Li ordered.

“Yes, sir.”

Buzzzzzz!

The Divine Master’s figure expanded and became a normal height. His right hand held the ‘divine Palace’, which had become the size of a palm, and he walked out. He disappeared through the wall and brought the ‘divine Palace’ out of the seclusion room in the imperial capital, appearing outside.

“who are you?”

Outside.

Hong Tianqi, Xu Ya, and the others were on guard at all times. When they saw the immortal master coming out of the chamber, they were shocked and rushed up to surround him.

“There’s no need to be like this, everyone.”

“To avoid disturbing His Majesty, my name is ‘immortal master’. I am his Majesty’s subordinate and have been ordered by His Majesty to stand guard outside the seclusion room,” the immortal master said slowly.

“Immortal master,”

“You’re so silly!”

Hong Tianqi, Xu Ya, and the others were stunned. They looked at the immortal master in confusion, but they felt an unfathomable aura from the immortal master.

They didn’t dare to be rash.

he could only suppress his doubts in his heart.

They waited patiently for the Xia Emperor to come out of seclusion.

Time passed.

In the blink of an eye, several months had passed.

In the seclusion room in the imperial capital.

Buzzzzzz! Buzzzzzz!

” let’s go. ” jiang li circulated his cultivation technique and the energy from the fate of the empire gushed into his body. he had already entered a state of enlightenment.

He was comprehending the laws of darkness.

endless darkness surrounded jiang li.

the darkness seemed to devour everything.

now.

Jiang Li had completely comprehended the 'law of darkness' and entered the 'fusion' stage. Jiang Li's body seemed to have become one with the darkness.

The 'laws of darkness' belonged to the middle order.

During the fusion process, although there were dangers, it was frightening but not dangerous. After secluding himself for several months, he had taken this step and successfully fused the 'darkness Maxim'.

This way ...

Jiang Li had completely merged six different laws.

Sword Dao laws, spatial laws, metal laws, fire laws, lightning laws, and darkness laws.

BOOM!

At this moment.

Jiang Li's energy was increasing rapidly. He broke through the limit of the first level and reached the late stage of level eleven. He was getting stronger.

however ...

Jiang Li didn't stop his cultivation.

He continued to comprehend the laws.

this time.

Jiang Li wanted to try to comprehend the time law.

However ...

Time and space.

They were both 'two superior laws'.

It was extremely difficult to comprehend.

Jiang Li was able to comprehend the 'law of space' because of the 'secret skill of space' rewarded by the 'true dragon List' and the various space technology.

That was why he was able to successfully comprehend it.

Fortunately ...

Because Jiang Li had injected the 'rank-11 gene strengthening liquid', his body had' half-turned into a law 'and had a bit of the' time law'.

This way ...

Jiang Li had an idea.

He could try to comprehend 'time'.

But very quickly.

Jiang Li realized that he couldn't sense time at all with only a wisp of the 'time law' formed by the 'level 11 gene strengthening liquid'.

you need a rank-12 gene strengthening liquid.

Jiang Li thought.

## Chapter 787 Perfection

Jiang Li had to give up on comprehending the 'Law of Time' and start to comprehend the 'law of wood'. He was comprehending the 'law of wood' very quickly.

if ...

If comprehending the 'time law' was like water dripping through a stone, then comprehending the 'wood law' was like a rabbit running. The speed of the two was obvious.

The difference was huge.

At this moment.

On the other side.

a few months ago.

After the sky vault Imperial Empire learned that the 'Army' that had entered the 'great cosmos world' had been completely annihilated, they didn't dare to send out another army, even though they were extremely furious.

Until half a month ago.

The 'Yongye Empire' sent an emissary, and the two sides met in the 'celestial realm', -greater world-to convey the thoughts of the human Emperor Yongye 'to the' sky vault Empire'.

Hence.

Tian Yuan Sheng, the human Emperor of the sky Dome Empire, and Yong ye, the human Emperor of the eternal night Empire.

Two human emperors.

They were meeting somewhere in the 'immortal realm'.

The two sides discussed for a day and a night.

In the end.

He made a decision.

The human Emperor, 'eternal night', would personally lead the entire Army of the 'eternal night Empire 'to the' great universe world'. The 'sky vault Empire' would also send out nearly 90% of its military forces.

The two great empires had joined forces.

They entered the 'great cosmos'.

Of course.

Tian Yuan Sheng wouldn't head to the great cosmos.

In reality.

The reason why Tian Yuan Sheng had agreed to this wasn't only because the cooperation this time would be advantageous to the sky Dome Empire.

After all ...

eternal night was going to personally lead the troops.

“Tian Yuan victory” didn’t require him to personally take the risk.

The most important thing was ...

The resources in the ‘great cosmos’ were too rich and attractive. The first Prince, ‘Thunder of heaven’, had only transported the first batch of spoils to the ‘heaven vault Empire’, and it had already given ‘Tian Yuan Sheng’ a taste of the sweetness.

It could be said that ...

If they could win.

The strength and national power of the ‘Sky Dome Empire’ would experience a massive growth.

so,

Tian Yuan Sheng had no reason to refuse.

At the same time.

In the world of the great cosmos.

The destroyer fleet No. 21120 arrived at the ‘Galaxy of light’, which was now named ‘Galaxy 0002’ by Jiang Li. Hidden Dragon noticed it immediately through the ‘star map’.

One had to know.

Jiang Li was still cultivating in seclusion in the Super Fantasy world.

Hence.

Thus, Hidden Dragon was 'appointed'.

At the first moment.

Hidden Dragon activated his 'divine punishment'.

since the 'base' had been upgraded to rank-12, the 'spear of heaven' had also been upgraded to rank-12, possessing rank-12 lethality.

Hence.

the hidden dragon first locked on to destroyer fleet no. 21120 and directly fired the spear of heavenly punishment.

At the same time.

The hidden Dragon then sent out the entire mechanical fleet through 'space teleportation' to '0002 star system' and launched a surprise attack on the '21120 destroyer fleet'.

boom! BOOM! BOOM!

The arrival of the 'spear of heavenly punishment' caught the destroyer fleet No. 21120 off guard, causing a large number of 'protogenic space carriers' and 'protogenic battleships' to be destroyed one after another.

They had lost nearly one-tenth of their forces.

"Prepare for battle!"

" all magic energy weapons activated! "

...

“activate energy defense!”

“Prepare the ‘destroyer’!”

“.....”

Buzzzzzz! buzzzzzz! “Whoosh!!!”

Immediately.

The destroyer fleet No. 21120 reacted immediately and activated all sorts of weapons, including the motherships and warships.

All the defensive barriers were activated.

BOOM! boom! boom!

In the next instant.

” attack! ” jiang li’s mechanical fleet arrived. countless energy beam cannons with the law of destruction were fired. energy soldiers, guardian soldiers, and so on formed an army and attacked.

kill!!!

...

The destroyer fleet No. 21120 charged forward.

In that instant.

The interstellar armies of both sides collided.

A tragic interstellar war broke out again.

“.....”

Buzzzzzz!

Hidden Dragon was constantly observing the situation on the battlefield.

The moment the war began.

Both sides were evenly matched.

Furthermore ...

Because of the ‘immortality’ of the energy soldiers and The Guardian soldiers, destroyer fleet No. 21120 suffered a big loss. Jiang Li’s mechanical Army still had the upper hand.

but ...

The destroyer fleet No. 21120 reacted quickly and adopted a war plan to deal with the ‘space Zerg’, directly sending out the powerful ‘ultimate destroyer’.

If ...

A normal ‘destroyer’ had combat power comparable to the peak of rank 11.

Then ...

The ‘ultimate destroyer’ mecha had the combat power of a rank 12.

Execute the 'beheading plan'.

Bang Bang Bang Bang!

Countless explosions were heard.

there was only one 'ultimate destroyer' in the destroyer fleet no. 21120. it had a pitch-black mecha body and a humanoid form.

It was enough to turn his entire body into a law.

It had endless power.

it could be said to be invincible.

After charging into the battlefield.

The 'ultimate destroyer' broke through the blockade and destroyed the 'main flagships' of Jiang Li's mechanical Army one after another. It suffered a lot of damage.

"Heavenly punishment!"

boom! BOOM! BOOM!

The divine punishment was activated.

The rank 12 'spear of heavenly punishment' pierced through space and descended out of thin air, locking onto the 'ultimate destroyer'. The 'ultimate destroyer' felt danger.

"Ultimate destruction death light!"

Buzzzzzz!

The weapon was activated.

It was a terrifying destructive light beam that tore the space apart. It pierced through the space and collided with the ‘spear of heavenly punishment’, creating a huge explosion.

Bang Bang Bang Bang!

The aftershock of the explosion spread.

Many soldiers from both sides were destroyed.

Kachaa! Kachaa!

The remaining power struck the body of the ‘ultimate destroyer’, sending it flying and blocking its attack.

The most important thing was ...

‘Ultimate destroyer’ was damaged.

“this bi an ...”

the other party is also from a Level-6 civilization.

“I’m sorry to trouble you,”

“If the ‘ultimate destroyer’ had been hit by that attack, it would have been destroyed and unable to continue fighting.”

“No wonder destroyer fleet 00456 was completely annihilated.”

“Fight with all your might.”

“.....”

the ‘ship master’ of destroyer fleet no. 21120 said in a serious tone.

Time passed.

The two sides continued to fight.

The interstellar war lasted for three days and three nights.

It was difficult to determine the winner.

On the third day.

qian long even personally went to ‘blue planet’ and gathered many god-level espers there. they formed a ‘esper squad’ and joined the war.

in the end.

The destroyer fleet No. 21120 was constantly losing soldiers, and the ‘ultimate destroyer’ had been destroyed by the ‘spear of heavenly punishment’ multiple times.

He had no choice.

The destroyer fleet No. 21120 had retreated.

The hidden Dragon did not continue to pursue.

Because ...

the entire fleet.

There were only two perfected level 11 mechanical space Soldiers and 500 level 10 mechanical space Soldiers left. The 'ability user team' was even less than 10%.

Only nine people were left alive.

No matter what.

The hidden Dragon repelled the enemy.

However ...

Even Qian Long couldn't predict when the destroyer fleet would come again. If Jiang Li still didn't come out, it would be really troublesome.

A few days later.

After the destroyer fleet No. 21120 returned to the headquarters of the 'star of destruction', they reported their encounter in the 'star system of light' and the strength of the enemy.

In the end.

The destroyer didn't continue to send out more fleets.

Because ...

In the Milky Way.

Other than the destroyer.

There was also the Galactic Hero fleet, the galactic space pirates, and the powerful imperial dynasties from the Super Fantasy world. Those imperial dynasties were all ranked at the seventh level and had level 12 powerhouses.

The destroyer headquarters had to focus all their attention on dealing with them. They could not spare any more combat power to deal with a Level-6 civilization that they did not know about.

Even if they won, the losses would outweigh the gains.

In the Super Fantasy world.

Holy peace Region.

In the seclusion room in the imperial capital.

Buzzzzzz! Buzzzzzz! “whoosh!!!”

A few months passed in the blink of an eye.

Jiang Li had completely comprehended the ‘law of wood’ and started to merge it into the ‘Imperial number law’. He was covered in the law of wood and was about to be assimilated.

There was no danger.

Jiang Li successfully merged with it.

More than half of the feedback energy from the Empire’s fate had been exhausted.

“Continue.”

Buzzzzzz! Buzzzzzz!

jiang li absorbed the energy from the fate of the dynasty and comprehended the ‘law of water’. it was no slower than the ‘law of wood’.

A few months later.

Jiang Li started to merge the law of water.

Everything went smoothly.

jiang li successfully merged with the law of water.

This way ...

Jiang Li had already fused eight different laws. He only needed one more to fuse nine and reach the peak of level eleven.

Next.

Jiang Li had comprehended the law of earth.

A year later.

boom!

Jiang Li's aura rose rapidly and he broke through a limit. He went from the late stage of level eleven to the perfected stage of level eleven and fused nine different laws.

Buzzzzzz! Buzzzzzz! "Whoosh!!!"

Not only that.

The five laws of metal, wood, water, fire, and earth appeared behind Jiang Li. The five laws resonated with each other and formed a ring.

The five elements combined.

They turned into the 'five-element laws'.

Time passed.

The strange phenomenon gradually subsided.

All the laws and energy were integrated into Jiang Li's body.

He consolidated his cultivation.

jiang li stopped channeling.

He opened his eyes.

There was a flash of light.

“Hu ~~ Hu ~ Hu ~”

“great.” jiang li let out a breath and felt the changes in his body. he smiled.”i’ve fused nine laws and reached the peak of level eleven.”

“According to the records of the ‘Azure Emperor Art’,”

if I want to break through to level 12, I’ll need to fuse three more types of nomological laws. After reaching level 12, the nomological laws will become one and form the ‘origin of nomological laws’. I’ll gradually turn my body into a nomological law and become the true body of the undying and imperishable nomological laws.

“It’s time to exit seclusion.”

jiang li stood up.

Squeak!

The door of the closed room opened.

jiang li walked out.

we pay our respects to Your Majesty and congratulate you on coming out of seclusion. Your cultivation has greatly increased and your strength has improved greatly.

Xu Ya, Hong Tianqi, and the others quickly complimented him.

“Yes.”

Jiang Li nodded and didn’t say anything.

“Your Majesty.”

Shua!

master Jiang, the immortal master walked over and bowed to Jiang Li.

“How long have I been in closed-door cultivation?”

Jiang Li asked.

“It’s been two years,”

The immortal master replied.

“It’s been two years,”

it’s time to go to the Milky Way. Jiang Li murmured. I’ll go back to the universe with you.

“Yes, sir.”

The immortal master bowed.

“Whoosh!!!”

Xiaobai opened the plane channel.

Shua!

Jiang Li and the immortal master stepped into it and disappeared. The White arched gate closed and Jiang Li came to the world of the multiverse.

Moreover, it was on Djinn planet.

“Chief sovereign.”

Buzzzzzz!

As soon as Jiang Li arrived, Hidden Dragon came.

## Chapter 788

“What happened? Why are you in such a hurry?”

what’s wrong? ” Jiang Li frowned and questioned Hidden Dragon.

“Reporting to the hegemon.”

” yes, ” hidden dragon immediately reported. ” on the 69th day after you left, the destroyer sent out another destroyer fleet. this fleet’s combat power is more than ten times that of the previous one, and they even have a rank 12 combat power. ”

“After we paid a great price.”

“We’ve finally forced them to retreat.”

we’ve lost a large number of mechanical warships.

“Currently.”

we’re only left with two complete-stage level 11 mechanical interstellar soldiers and 500 level 10 mechanical interstellar soldiers. Many God-level ability users have also fallen.

“Yes.”

okay. Jiang Li nodded slightly, but his expression didn’t change.

Obviously.

It was just the loss of a few thousand level-ten mechanical interstellar soldiers. Jiang Li didn’t take it seriously. He didn’t even care about level-ten mechanical interstellar soldiers.

this time.

Jiang Li returned to the ‘great universe world’ to set up a ‘level 12 mechanical fleet’ and start a war on the entire ‘Milky Way’.

not only that.

destroyer ” was Jiang Li’s first target.

“Chief sovereign.”

yes. Hidden Dragon reported again, ” half a month ago, we discovered that the Emperor dynasty Army had descended on the 1700th star system. After they descended, they immediately went into hiding and secretly investigated our situation.

“Of course, we know their movements like the back of our hands.”

“The Emperor dynasty Army.”

who? ” Jiang Li pondered. can you confirm his identity? ”

“Yes, I can.”

yes. Hidden Dragon nodded. after a long period of investigation, the Imperial dynasty Army that descended on the 1700th star system is a joint Army formed by the eternal night imperial dynasty and the sky imperial dynasty.

“Their military might has probably reached the trillions.”

“Also,”

we also found out that the human Emperor of the eternal night Empire, ’eternal night’, has personally led the joint Army of the two great empires to the 1700 Galaxy.

“If nothing unexpected happens.”

“The eternal night has already decided to start the war in three days.”

“The two great empires have joined forces.”

jiang li took a deep breath. ” the heaven vault imperial dynasty and the yongye imperial dynasty. they’re both on the eighth level. i’m not surprised that they’ll work together. ”

what I didn’t expect was that Yongye would personally lead an Army to take the risk.

“In that case ...”

Jiang Li took a deep breath. then, I'll annihilate the joint Army of the two dynasties. I won't let a single enemy go.

“Hidden Dragon, continue to monitor the other party's movements.”

report immediately if there are any unusual movements.

“yes, sir.”

Hidden Dragon said.

Soon after.

Jiang Li first went back to the Imperial Palace on giant spirit planet and met his parents. After telling them that he was safe, he left and went to law base No. 01.

Currently.

law base no. 01 was still in spaceship mode.

“Chief sovereign.”

Jiang Li. Hidden Dragon stood beside Jiang Li.

“Yes.”

” okay. ” jiang li nodded.

shua!

the dominator panel opened.

?.....?

[ origin points: 1318.79 billion origin points ]

[ soul Tinder: level-three soul Tinder: 1 trillion, level-four soul Tinder: 500 billion, level-five soul Tinder: 90 billion, level-six soul Tinder: 1 billion, level-seven soul Tinder: 90 million, level-eight soul Tinder: 8 million, level-nine soul Tinder: 5 million, level-ten soul Tinder: 100000, level-eleven soul Tinder: 9.79 million ]

?.....?

Obviously.

...

let's go. Qian Long led the mechanical fleet to defeat destroyer fleet No. 21120 and harvested a batch of soul Tinders. Although Jiang Li was in seclusion in the Saint peace state, he could still capture them.

“Hidden Dragon,”

prepare to build a new base, ” Jiang Li ordered.

“Yes.”

yes! Hidden Dragon replied quickly.

First of all ...

To build a basic ‘army base’.

The construction units in the No. 01 magical base's magical Construction Center were all level 12. Whether it was 'ordinary mechanical soldiers' or 'ordinary Mechanical Engineers', they were all level 12.

This way ...

The speed of construction had increased by leaps and bounds.

The new base of the Army was set to be built not far from the Imperial Palace on 'Titan star'.

...

“Whoosh!!!”

It consumed 100 million energy points.

The illusory building landed on the ground.

A black curtain of light enveloped the area.

It rapidly solidified.

A minute later.

Shua!

[ division 040's base construction is complete! ]

A notification appeared.

“Alright!”

okay. Jiang Li nodded with satisfaction. continue.

buzzzzzz! Buzzzzzz! “Whoosh!!!”

Time passed.

In the blink of an eye, a day had passed.

The sub-base didn't need soul Tinder. It only needed energy points and origin points. It only took Jiang Li one day to build another level twelve sub-base.

Among them.

Upgrading the stage 3 base to stage 4 consumed one billion energy points, upgrading from stage 4 to Stage 5 consumed ten billion energy points, and upgrading from Stage 5 to Stage 6 consumed 100 billion energy points.

Upgrading a Tier 6 base to a tier 7 base cost ten trillion energy points, upgrading from tier 7 to tier 8 cost one trillion energy points, upgrading from tier 8 to tier 9 cost ten energy points, upgrading from tier 9 to tier 10 cost one thousand energy points, and upgrading from tier 10 to Tier 11 cost one hundred thousand energy points.

Upgrading from rank-11 to rank-12 required 10 million origin points.

Shua!

The basic information was displayed.

“interface: army base”

[ sub-plane: magical sub-base No. 040-spaceship mode (base mode) ]

[ rank: rank 12 ]

[ facilities: Dominator's cockpit (can be expanded), magical mech factory (can be expanded), magical research Center (can be expanded), magical Construction Center (can be expanded), magical Sentry tower (can be expanded), magical teleportation Center (can be expanded), magical energy station (can be expanded), magical universe war station (can be expanded), magical punishment (can be expanded), magical heart (can be expanded), fusion heart (can be expanded), self-destruction (can be activated) ]

basic construction requirements: ten normal mechanical soldiers, one normal mechanical engineer, 100 million energy points.

advancement Requirements: unknown ”

Jiang Li finished browsing.

“Chief sovereign.”

Buzzzzzz!

jiang li named the ‘heart of base’ of law sub-base no. 040 ‘hidden dragon no. 040’s saluted to jiang li. his eyes were as calm as the water.

Obviously.

Hidden Dragon No. 040 had just been created and had not experienced anything. Although it had a lot of knowledge and technical abilities, it did not have much emotion.

everything was like a piece of white paper.

Jiang Li was the only one who gave the highest order.

“Yes.”

okay. Jiang Li nodded.

He observed carefully.

Hidden Dragon and number 40 looked exactly the same, as if they had been carved from the same mold.

It was exactly the same.

However ...

Hidden Dragon No. 040 had a serial number badge on his chest.

It was written: 040.

magical base No. 40, activate 'base mode' immediately.

go! Jiang Li ordered.

"Yes."

number 040, hidden dragon, responded.

Buzzzzzz! "Whoosh!!!"

in an instant.

Law base No. 40, which was still in the model of a spaceship base a moment ago, changed rapidly. It shone brightly, and in an instant, it turned into a huge base.

It was as vast as the sun.

They were completely stationed in the space of the 'Milky Way'.

Shua! Shua! “whoosh!”

Immediately.

The original No. 01 base had all the facilities and units, including the mech factory’s facilities and units, the security units, the spear of heaven’s punishment, the universe star map detection space base, the universe space positioning shuttle, the mechanical law space teleportation soldiers, and so on.

All the facilities and troops.

They were all received by the law base No. 40.

It was a perfect transition.

This way ...

In the blink of an eye.

Starting from the No. 40 magical base, according to the facilities and units of the space battle station, plus the ability of the magical base, they formed a surveillance of the entire Milky Way.

The whole process took less than an hour.

Buzzzzzz! “Whoosh!!!”

The complete star map of the Milky Way was displayed.

It was projected in front of Jiang Li.

“Chief sovereign.”

Number 040, Hidden Dragon, reported to Jiang Li, ” we’ve completed the acceptance of all the facilities and troops, completed the monitoring of the entire Milky Way, and formed a complete star map.

the teleportation has been set.

“Yes.”

Jiang Li looked at the star map of the Milky Way carefully.

Currently.

The area that Jiang Li occupied was less than one-tenth of the Milky Way. Due to the lack of information, the star map was shown, but the name couldn’t be confirmed.

He needed time.

However ...

jiang li could tell.

If the star map was divided by the coordinates of the top, North, bottom, South, left, West, and right, the area Jiang Li currently occupied was only at the edge of the southeast Region of the Milky Way.

Of course.

The coordinates of the Milky Way could not be determined simply by North, South, East, and West.

He needed more precise coordinates.

It could be simply expressed by the ‘three-dimensional axis’.

X-axis, y-axis, Z-axis.

Zoom in on the image of Galaxy 1700.

go! Jiang Li ordered.

“Yes.”

Number 040, Hidden Dragon, responded.

“whoosh!!!”

The image was enlarged.

Very quickly.

Without even realizing it, the two Allied armies had already occupied more than half of the 1700 star system with their absolute power.

Furthermore ...

Through interrogation and investigation.

Eternal night had already understood.

The enemy that had defeated them was not a civilization from the ‘multiverse’ era, but the human empire from the Super Fantasy world, just like them.

it was called the great xia empire.

“The great Xia.”

When he first found out.

Eternal night's expression turned even colder, containing an intense killing intent.

Yongye used the true dragon Roll to investigate the basic information of the great Xia Dynasty and discovered that it had already risen to the seventh level.

instantly.

Eternal night's expression became even more solemn.

The pressure doubled.

“Hu ~~ Hu ~ Hu ~”

eternal night took in a deep breath.”what a ruthless method. he knew that they were all humans, but he still used such a ruthless method. he didn't give them any face at all.”

“So what if it's the seventh level? It's just a recent advancement.”

I only advanced by relying on the incomparably rich resources of the great cosmos.

the Army I control now has gathered 90% of the forces of the two top eighth stage Emperor dynasties. I can even fight against a seventh stage Emperor dynasty.

“Who is it?”

“whoosh!!!”

Suddenly.

eternal night raised his head.

His sharp senses detected it.

instantly.

In the star map.

Yongye's eyes met Jiang Li's. As a human Emperor, Yongye had profound cultivation and was protected by the fate of the Empire, so he had extremely sensitive senses.

eternal night felt that he was being watched.

Their gazes collided in the air.

"Close it."

Jiang Li squinted, then waved his hand and said slowly, " "We've already been discovered."

"Yes."

Number 040, Hidden Dragon, replied.

Shua!

The image of the star map disappeared.

"Chief sovereign."

"when are we leaving?" asked hidden dragon.

"No rush."

let's unlock all the new 'facilities' first, " Jiang Li said.

“Yes.”

Hidden Dragon nodded.

Chapter 789

” fuse 110 level 11 soul tinders. ”

Buzzzzzz!

The soul Tinder fusion function was activated.

[ fusion successful! ]

.....

[ fusion successful! ]

.....

a notification appeared.

Eleven level-twelve soul Tinders were successfully fused.

eleven level-twelve soul Tinders have been consumed to unlock all the facilities and units.

Jiang Li was sure.

Buzzzzzz! Buzzzzzz!

the magical mech production line has been successfully unlocked.

.....

[ magical machinery production troops unlocked successfully ]

.....

[ law galaxy scientific research soldier has been successfully unlocked ]

.....

[ the builder of the nomological Galaxy base has successfully unlocked ]

.....

[ law of the universe space base has been successfully unlocked ]

[ the divine punishment mech has been successfully unlocked. ]

.....

[ law-modified mech has been successfully unlocked. ]

.....

There were a total of ten types of facilities.

Other than the ‘magical machine production troops’ that required two level 12 soul Tinders, the unlocking of the other facilities only required one level 12 soul Tinder.

prepare all the production units on the 12th floor of the magical mech factory.

jiang li said.

“yes.”

Number 040, Hidden Dragon, responded quickly, ” a total of ten magical mech production lines and a thousand magical mech production soldiers are needed.

“alright,” he said.

yes. Jiang Li nodded. spend 10 billion origin points to build ten production lines of magical meches and 1000 magical meches.

“Whoosh!!!”

The manufacturing interface popped out.

There were two different types of troops.

the ‘magical mech production line’ was a huge ‘furnace’. it was pure black and had 12 different patterns of laws.

they represented the 12 basic laws.

The ‘magical machine production soldiers’ were humanoid.

A minute later.

Shua!

[ creation complete! ]

A notification appeared.

Buzzzzzz! Wuwuwuwuwu!

All the facilities and units were teleported to the 12th floor of the factory.

begin building a law-level advanced mothership and a law-level advanced Guardian fortress.

...

Buzzzzzz!

I’ll try. Jiang Li spent 200 million origin points. activate the factory at full power and make 10000 precept-level advanced motherships and 10000 precept-level advanced Guardian fortresses.

“Yes.”

yes. Hidden Dragon No. 040 replied, ” my Lord, to build a level 12 mechanical interstellar Army, we need 50 billion tons of steel materials, 50 million tons of Star Iron, and 10 million origin points.

“Let’s start.”

Jiang Li said.

Buzzzzzz! “Whoosh!!!”

First of all ...

The manufacturing interface appeared.

A minute later.

Shua!

...

[ creation complete! ]

A conjuring-level advanced mothership and a conjuring-level advanced Guardian fortress were created and materialized in the outer space of the No. 040 base.

The law-level advanced mothership and the law-level advanced Guardian fortress were as vast as the stars.

“Upgrade.”

Buzzzzzz! Buzzzzzz!

Immediately after.

Jiang Li spent 2.8 billion origin points to upgrade the law-level advanced mothership and the law-level advanced Guardian fortress to the perfected level twelve.

at the same time.

Jiang Li used another 200 billion origin points, 40 trillion tons of steel plants, and one trillion tons of Star Iron to produce 20000 level 12 mechanical interstellar soldiers.

Shua!

The basic information was displayed.

” space troop type: law-level advanced war mothership

.....

The number of skills did not increase.

it was just that on top of the original foundation, an even stronger power was added.

Of course.

The combat power of a level 12 mechanical interstellar Army was even stronger.

It was many times more powerful than a level 11 mechanical interstellar soldier.

Among them.

A law-level advanced war mothership.

They could use ‘universe energy’, and each of them could produce 100 billion high-level destruction law energy soldiers and 1 billion high-level destruction law energy battleships.

A law rank advanced Guardian fortress.

They could use the universe energy to create 100 billion advanced law protector soldiers and 1 billion law protector ships.

Just the numbers alone were ten times more than the level 11 mechanical interstellar Army.

Half a day later.

” ruler, the 20000 level 12 interstellar meches have been completed. ”

Number 040 reported to Jiang Li.

“Yes.”

Jiang Li’s expression didn’t change.

buzzzzzz! Wuwuwuwuwu!

Suddenly.

In the dark.

jiang li sensed something. he raised his head and looked at a certain direction in the universe. runes of the law of space were flashing in his eyes. his eyes could see through space.

A light year away.

BOOM! BOOM!

The energy of the universe shook violently.

“Oh.”

I can't believe they're already here. Jiang Li looked at them.

“this bi an ...”

Hidden Dragon No. 040 was stunned. His expression was one of shock and disbelief. main judge, the Lord. The star map surveillance did not detect any enemy. This ... This ...

“This is a hidden army formation.”

Jiang Li waved his hand and said, ” ” the battle formation formed a space of its own and completely concealed all of its qi activity. it's normal that you didn't detect it. ”

since they've already delivered themselves to us, then we'll mobilize our entire mechanical fleet.

” go! ” jiang li ordered.

“yes.”

Number 040, Hidden Dragon, responded.

Buzzzzzz! “whoosh!!!”

The next moment.

The 20,000 and two level 12 interstellar meches all moved out and used ‘space teleportation’ to disappear. They were all teleported away.

the scene changed.

it was a light year away.

“Let’s go.”

Jiang Li took the spaceship model of the No. 01 magical base and teleported away. They arrived at the battlefield one light year away.

At this moment.

jiang li’s mechanical fleet blocked the way of the joint army led by eternal night.

The two armies officially met.

The two armies faced off.

Bang Bang Bang Bang!

Although the war had yet to begin, the invisible forces of the Army had turned into substantial collisions, producing continuous rumbles and shaking the surrounding cosmic energy.

it created a huge sound.

“Xia Emperor.”

BOOM!

“Roar!”

The Emperor dynasty true dragon roared.

Yongye rushed to the front of the Army, stepping on the nine-million-meter-long Emperor dynasty true dragon. His cultivation had already reached the peak of level 11.

“Come out!”

Eternal night shouted.

BOOM! BOOM!

The momentum was great, and the power was unparalleled.

“Immortal master,”

Jiang Li said.

“chief sovereign.”

Buzzzzzz!

The immortal master appeared with the immortal Palace in his right hand and stood beside Jiang Li.

“Go on.”

Don't Let Me Down. Jiang Li waved his hand. this is your first battle. Don't Let Me Down.

“Yes.”

“Please rest assured, my Lord,” the immortal master replied.

Shua!

As soon as he finished speaking.

The immortal master had disappeared into thin air.

He came to the battlefield and appeared in front of eternal night.

“Who are you?”

Eternal night’s eyes narrowed as he stared at the immortal master and asked in a deep voice, ”  
you’re Jiang Li? ”

“No,” she said.

The immortal master’s gaze was calm and emotionless as he said indifferently, ” “I am only Your Majesty’s subject. I am not even one-ten-thousandth of Your Majesty.”

“Under the orders of His Majesty, I’m here to take your head.”

“How arrogant.”

Yong ye’s face was extremely gloomy. Emperor Xia, Jiang Li, how dare you underestimate me.  
Jiang Li, you’ll pay for this.

“i promise!”

boom! BOOM! BOOM!

As soon as he finished speaking.

The three eight-Dragon Empire-level sacred artifacts all manifested.

“Roar!”

The Dragon roared.

the empire’s national aura true dragon merged into yongye’s body.

Its power increased greatly.

He had reached the limit of rank 11.

“The great sun of darkness.”

BOOM!

Eternal night raised his hand, and the laws of darkness appeared. He had condensed the power of 12 types of laws. He only needed to condense the origin of the laws before he could break through to level 12.

this was acceptable.

A great sun of darkness was revealed.

It pressed down on the immortal master.

“The immortal Palace.”

BOOM!

The immortal master raised his hand, and white clouds curled around it. The immortal Palace appeared and expanded in an instant, turning into the size of a huge star and colliding with the Dark Sun.

“rumble!”

Countless explosions were heard.

Bang Bang Bang Bang!

The two sides clashed.

It was actually an evenly matched result.

Yongye was clearly only at the great circle of level 11, but he was actually able to fight evenly with a level 12 immortal master.

“All troops, hear my order!”

attack. Jiang Li waved his hand calmly and ordered, ” attack.

The next moment.

Jiang Li’s mechanical fleet launched the attack. There were 20000 and two level 12 mechanical interstellar soldiers in total. They devoured the endless energy of the universe.

The ship’s door opened.

Countless energy soldiers and battleships surged out like a blanket of stars.

One had to know.

Just a single level 12 mothership and Guardian fortress could produce 100 billion energy Warriors and 100 billion Guardian Warriors, as well as one billion energy battleships and one billion energy Guardian ships.

so,

20,000 two level 12 mechanical space Soldiers.

It could create 10.11 trillion energy Warriors and 10.11 trillion Guardian Warriors, as well as 1000 billion energy warships and 1000 billion energy Guardian ships.

All of them added up.

This included the ‘main mothership’ and the ‘main fortress’.

Jiang Li’s mechanical fleet had a total of 20.2 million and 202 billion and 20000 soldiers, and they were all level 12.

## Chapter 790 Military formation

On the other hand, the Emperor dynasty Alliance Army led by eternal night ...

Among them.

The eternal night Empire had already mobilized all its military forces. The total number of soldiers in the Empire alone had reached 80 trillion.

Although most of them were first-stage Warriors.

However, there were also quite a few powerhouses who were willing to pay a high price.

In addition.

The heaven vault Empire had sent out 90% of their entire Army.

The sky Army’s military strength had reached 50 trillion.

The armies of the two empires had joined forces.

The total number of soldiers reached 130 trillion.

Even so ...

jiang li's forces were still almost twice the size of the armies of the two empires.

BOOM! BOOM! BOOM!

The war had broken out.

let's go! Jiang Li's mechanical fleet launched the first attack. The level 12 mechanical Warriors charged into the Army.

He had gained an overwhelming advantage.

They even caught the soldiers of the Emperor dynasty Army off guard.

It was a complete massacre.

the difference in strength between the two armies was just too great.

Even a grade-11 military formation could not resist it.

“Ah!”

The screams of countless human soldiers rang out.

Blood splattered all over the starry sky.

The terrifying energy exploded, directly crushing the human soldiers 'corpses into blood foam.

it turned into dust.

“This Suan ni, this Suan ni”

“Rank 12! They're all level 12!”

how is this possible?!

“.....”

Countless humans were shocked and terrified. They were shocked beyond words.

set up the formation!!!

BOOM! BOOM! BOOM!

it was a critical moment.

In the face of such a formation.

Yongye’s pupils contracted and his heart was filled with fear. He quickly came back to his senses and used himself as the eye of the formation. He even burned the fate of the Imperial dynasty directly. The Imperial dynasty’s true dragon let out a series of wails.

Buzzzzzz! Buzzzzzz!

the flames of the empire’s fortune enveloped the eternal night and spread to the entire army at superlight speed.

after that.

Eternal night had mobilized trillions of soldiers.

the murderous aura of the army soared to the sky.

buzzzzzz! “Whoosh!!!”

in the surroundings.

The pattern of the military formation gathered.

It affected the 12 basic laws.

They intertwined with each other.

In the end.

They formed A 'Grade 12 army formation'.

At this moment.

Trillions of human soldiers, human generals, and the Kings of the Imperial dynasties had all become one with the eternal night, becoming one.

“Roar!”

A true dragon!

The Army formation materialized.

Grade 12 army formation-army formation true dragon!

...

trillions of human soldiers became every cell and every scale of the true dragon. together, they formed the true dragon army.

Eternal night's body released an endless dark light.

The radiance was boundless.

the eternal night transformed into the eye of the formation.

The Dragon Pearl of a 'true dragon'.

It merged into the forehead of the 'true dragon of war'.

He fused with it.

“Roar!”

Resurrection!

The true dragon of the Army formation had been resurrected.

Its body was infinitely huge.

...

It had reached the level of hundreds of millions of meters.

Bang Bang Bang Bang!

The dragon tail swept across.

Countless explosions were heard.

it was unknown how many energy soldiers, guardian soldiers, energy battleships, and energy guardian ships had exploded and shattered, turning into fireworks.

One had to know.

The power of a military formation.

Unless one's attack exceeded level 12, there was no way to break through a level 12 military formation. Therefore, the 'army formation true dragon' had the defense of a level 12 military formation.

it was difficult for a level 12 attack to 'break through' his defense.

This was very terrifying.

of course.

The backlash from the 'army formation' was also extremely terrifying.

Even if the attacks couldn't break through the defenses, the power of the attacks would still be reflected back on the formation, affecting all the human soldiers and generals.

so,

There would still be casualties.

However, the number of casualties had been reduced by many times due to the grade-12 formation.

By relying on the power of the 'Grade 12 army formation'.

The 'joint Army of the two dynasties' led by Yong ye had the power to fight against Jiang Li's mechanical fleet. This was the power of an 'army formation'.

it was also one of the things that the empires of the 'super fantasy world' relied on to wage wars against the universe.

"a true dragon in battle."

Jiang Li looked at the ‘true dragon Army’ that was wreaking havoc in the ‘mechanical fleet’. as expected of a level 12 army formation. Trillions of soldiers and generals have been integrated into one.

“Transform into a true dragon of the Army.”

“Jiang Li.”

“Roar!”

A Dragon’s Roar that shook the Galaxy.

Yongye roared like a dragon, ” die!!

BOOM! BOOM! BOOM!

Explosions sounded one after another.

It could be seen.

The ‘true dragon Army formation’ controlled by eternal night was like a tiger entering a flock of sheep. It contained an unstoppable power and was extremely powerful. It destroyed countless energy soldiers, Guardian soldiers, energy warships, and energy Guardian ships.

Bang Bang Bang Bang!

Countless attacks were released, forming an area-of-effect attack. However, the ‘true dragon Army’ could teleport a distance of one light year with a single teleport.

he dodged all the attacks.

At this moment.

The eternal night was the Legion, and the Legion was the eternal night.

The two of them had already become one entity.

“Kill!”

Buzzzzzz!

After avoiding the attack.

With another teleportation, eternal night arrived in the middle of the mechanical fleet. Its vast dragon claws were as huge as the stars, crushing countless mechanical Warriors.

boom!

Finally ...

There were already level 12 law-level advanced motherships that had been destroyed. With the main mothership destroyed, the energy soldiers and energy battleships that had been manufactured were all destroyed.

It turned into energy particles and dissipated.

“True dragon’s breath!”

“Roar!”

Eternal night controlled the ‘true dragon Army formation’ and opened its bloody mouth, which could easily swallow a star. Such a scene was extremely shocking and could not be described with simple words.

Buzzzzzz! Buzzzzzz! “whoosh!!!”

At this moment.

The power of the battle formation gathered the power of trillions of human soldiers and generals. After combining, there was an endless and vast energy of the universe.

They all condensed.

At the center of the dragon's mouth.

A black energy ball appeared.

in the end.

He had reached his limit.

There was a loud 'boom'.

The Dragon Breath burst out.

The black flames covered the entire interstellar space, producing a Flaming Dragon Breath as thick as the diameter of a star.

All sorts of nomological powers were wrapped around it.

It pierced through.

Bang Bang Bang Bang!

From afar, the Dragon Breath looked like a sharp black arrow that pierced through the mechanical fleet.

There were countless explosions.

It was unknown how many robot warriors had been destroyed.

They all exploded into light spots.

The main body of the mothership and the fortress was also hit by the dragon's breath. The energy shield couldn't withstand such an attack and exploded. The damage level increased rapidly and was finally scrapped.

"The immortal Palace!"

BOOM!

The immortal master gathered his power and held the immortal Palace in his hand. Like a Supreme immortal's Palace, he smashed it down on the true dragon Army. This attack locked down the space, and spatial laws interweaved in the surroundings like chains.

"Do you think you are worthy of the name 'immortal Palace'?"

Eternal night shouted in anger.

BOOM!

The incomparably huge Dragon Tail swept out and directly collided with the 'divine Palace'. It was as if a planet had collided with it, producing a deafening explosion.

The space around them began to ripple like the surface of water.

Bang!

The immortal Palace was sent flying.

The immortal master was also injured and was sent flying for millions of meters before he managed to stabilize his body.

“Ah!”

The human soldiers screamed.

Although the Army formation was powerful, it had huge side effects, especially when Yongye had forcibly set up the ‘level 12 army formation-army formation true dragon’.

the side effects would be even greater.

this collision.

They suffered a backlash from the battle formation.

This caused a large number of human soldiers to die screaming.

The human soldiers died.

The ‘true dragon of battle’ was manifested in the phenomenon of dragon scales falling off.

“Continue.”

let’s go. Jiang Li waved his hand and gave an order, ” attack and destroy the enemy at all costs.

“yes!”

“Kill!”

all troops, charge!!!

“.....”

The mechanical fleet charged forward, covering the sky and filling the surrounding starry sky, surrounding the true dragon controlled by eternal night in the center.

Countless attacks landed.

it was as if countless beams of light were bombarding the true dragon army.

buzzzzzz!

Yong ye controlled the true dragon and tried to Dodge, but Jiang Li's fleet also had the ability to teleport and they were prepared for the Dragon to Dodge.

The true dragon controlled by eternal night couldn't avoid it.

The two sides could only face each other head-on.

"Chief sovereign."

what's going on? " Jiang Li stood in the cockpit of 'base spaceship 01' and watched the battle. Hidden Dragon was standing beside him. there's no level 12 being on the other side, but he can still use such power.

"It's truly unbelievable,"

"Tell me the truth."

I originally thought that the new 'mechanical fleet' that you created, composed entirely of level 12 mechanical Warriors, mechanical warships, and mechanical fortresses, would be able to easily annihilate the Allied forces of the Yongye Empire and the sky Empire.

"Don't underestimate the Super Fantasy world."

" you can't imagine how terrifying the 'immortal court' is, " jiang li said in a deep voice. " it's a super fantasy world. it's a terrifying existence that can conquer all the worlds. "

“We must do our best.”

“yes.”

yes. Hidden Dragon nodded respectfully. I understand.

BOOM! boom! BOOM!

The battle between the two armies continued.

On the battlefield.

The true dragon was surrounded by the mech fleet. Although countless mech Warriors were destroyed, as well as a large number of motherships and defensive fortresses, the true dragon formation was still destroyed.

Similarly.

“Ah!”

Pfft! Pfft! “Pfft!”

the screams of the human soldiers were endless.

The corpses were turned to dust by the vast energy.

The scales of the true dragon fell off.

Even though ...

The 'level 12-true dragon Army' was very powerful. The eternal night burned the fate of the Empire and was also extremely powerful. However, as time passed, the true dragon Army gradually showed signs of decline.

As expected.

If this war continued, eternal night would definitely lose.

Buzzzzzz! Wuwuwuwuwu!

Suddenly.

At this moment.

Jiang Li's vision went dark.

He didn't have time to react.

He discovered that the entire base ship 01 had fallen into an endless World of Darkness. He couldn't sense any direction, and he couldn't feel any signs of existence.

"hidden dragon?"

Jiang Li frowned and called out, but he didn't get any response.

Obviously.

Jiang Li was dragged into some kind of space domain.

in reality.

from the outside.

Both Qian Long and Jiang Li were standing in the cockpit, not moving at all. There were no creatures around them.

buzzzzzz! Buzzzzzz!

Suddenly.

In the control room of Base 01.

In a dark corner.

a dark and gloomy aura emerged.

The laws intertwined.

It condensed into a dark figure.

it was hazy and illusory.

“Kekekekekekekeke”

He laughed eerily.

the dark figure slowly approached jiang li.

The shadow.

He was a hidden assassin sent by the eternal night.

shua!

A cold glint flashed.

A dagger appeared in the hand of this dark, hazy, and illusory figure. It was a ‘undead dagger’ that was made with the law of soul as its source and soul Jade as its main material.
