Chapter 79 The commander of the battlefield

si la

The Platinum-colored energy bomb contained an extremely strong metal attribute power. It had a sharp penetrating power, tearing the air apart and forming a vortex-like airflow.

It was just a blink of an eye.

He crossed a distance of several thousand meters.

“!!!”

The Black Dragon raised its head, and its pupils contracted as it stared at the White energy bullet that had already broken the sound barrier. The shadow of death enveloped it, and it felt its entire body tremble.

“ah!”

BOOM!

the Black Dragon roared and the fire internal strength in its body exploded.

Kachaa!

His protective Dipper energy was directly shattered by the energy bomb.

It exploded.

“Fire Dragon Fist!”

Bang!

At this moment.

All the internal strength in his body gathered together and a qualitative change was produced. The internal strength seemed to be corporeal and a red light shone. He punched out with both fists at the same time, creating a terrifying Qi explosion.

“Roar!”

it faintly condensed into a fist print that looked like a dragon’s head.

it was extremely powerful.

Pfff!

“Ah!”

arghh! Chu Heilong screamed as his fist exploded. The energy bomb and the fire Dragon’s fist collided, creating a violent explosion. The shockwave spread out and sent Chu Heilong flying.

it could be seen.

The black gloves on Chi Heilong’s hands were blown to pieces. His hands were covered in blood, and a layer of flesh was blown away. One could even see the White bones of his hands.

Fresh blood dripped down.

“He actually blocked it.”

what? “Jiang Li was surprised. as expected of a martial artist at the perfected stage of level two. He’s really strong. I didn’t expect him to block my attack.

“Who is it? Who was it? Get out here! Get out here!”

The black Phoenix Dragon roared.

Ta ta ta da

The sound of concentrated footsteps came.

A large number of soldiers rushed into the mansion.

Bang!

the sniper mech jj01 fired again. the metal energy bullet shot out and tore the air with a sharp sound.

he activated both his top-tier gunfighting technique and eagle eye.

It locked onto the Black Owl Dragon.

“Where is it?”

the black dragon roared. he had already vaguely determined the enemy’s location through the trajectory of the bullet, but he was still unable to determine it.

“Pfft!”

Blood splattered everywhere.

Black Dragon paid the price of an arm to block the second shot. He was severely injured and his face was as pale as paper.

“Everyone, immediately stand in front of this King.”

The Black Dragon reacted and roared.

“Yes.”

In the surroundings.

All the soldiers formed a circle, protecting the Black Dragon behind them.

However ...

it was too late.

Bang Bang Bang Bang!

The sniper mech JJ01 fired three shots. Each shot used an energy bullet. It tore through the air and crossed a few thousand meters.

Bang!

A soldier who was standing in front of the Black Dragon felt as if he had been hit by a cannon. Even though he was wearing armor, it was useless. He was pierced through and his body exploded into broken limbs.

“!!!”

...

Everyone was shocked.

“What is this?”

“Where are the enemies? Where are the enemies?”

“Si si si ...”

The surrounding soldiers were all terrified.

It wasn't that they didn't have the guts.

It was because they didn't even know where the enemy was, and the attack was too strange. Such an enemy was too terrifying.

“ah!”

A shrill scream rang out.

the remaining two energy bombs completely tore through the defensive circle formed by the soldiers and hit the black dragon who was hiding in the back. the chest of the black dragon was pierced through, leaving a transparent hole.

Fresh blood flowed out, forming a pool of blood under black Dragon Qian's feet.

...

“How could this be? How could this be? No! No!”

The Black Dragon opened its mouth and lowered its head. Its right hand, which was covered in blood, trembled as it placed it in front of its chest, as if it was trying to fill up the hole in its chest.

“pfft!”

He spat out blood and looked miserable.

Chu Heilong had never thought that he would be able to dominate the Black Dragon County for so many years, conquer such a large territory, and be considered a famous figure.

He was actually going to die today.

The most important thing was ...

From the beginning to the end.

He didn't even get to see the enemy's face.

Aggrieved!

It was really too aggrieved!

He was unwilling!

his heart was filled with unwillingness!

"I don't want to die, I really don't want to die, Yingluo!"

The Black Dragon let out a final cry, "I still want to break through to the 3rd rank and become a Xiantian warrior. My ambition, my ambition!"

Pfft!

Finally.

The Black Dragon spat out a mouthful of blood and lost its life completely. Its corpse fell backward.

"My King!"

"My Lord!"

The soldiers and generals cried out in grief.

“The enemy is there!”

Suddenly.

Matthew, the Commander-in-Chief of the Black Dragon County, followed the trajectory of the bullet and looked into the distance. He could vaguely see several figures hiding on the top of a mountain thousands of meters away.

“That’s the Black Dragon Mountain.”

“How is that possible? The Black Dragon Mountain is more than a few thousand meters away from our Black Dragon County, and there are so many buildings between us. How did they do it? What kind of method is this?”

“We can’t care about that now. Send soldiers to surround the Black Dragon Mountain immediately. We can’t let the enemy escape.”

“Act immediately!”

All the generals gave their orders.

on the peak of the black dragon mountain.

reporting to the ruler, the target has been killed.

Sniper mech JJ01 put away his gun and saluted to Jiang Li. please give me your next order.

good, you’ve done well. Clean up the surroundings and don’t leave any traces. Then come back immediately.

go! Jiang Li ordered.

“Yes, chief sovereign.”

Sniper mech JJ01 nodded.

Buzzzzzz!

The communication was shut down.

The virtual projection in front of Jiang Li disappeared. Xx01 put down his right hand and stood straight beside Jiang Li.

“The black Nightmare Dragon is dead. This internal problem is temporarily resolved.”

okay. Jiang Li sighed in relief. I’ll wait for Hua Tian and the others to send the herbs here. Then, I’ll have enough meches to take green scale city and barren city.

but before we start, we have to figure out the situation in green scale city and barren city. We can’t attack blindly. Only by knowing ourselves and our enemies can we win.

in the battle of Qingshan Valley, both green scale city and barren city lost nearly 10000 soldiers. They should be at their weakest, and it is the best time to attack.

“i haven’t heard anything about the half-fiend alliance, so i have to be careful. maybe they’ll hide behind the scenes and launch a sneak attack after the war.”

also, if I really attack green scale city and barren city, I’ll have to be on guard against reinforcements from the red-eyebrowed and black snake kingdoms.

“Hu ~~ Hu ~ Hu ~”

there are too many things to consider when it comes to fighting a war. When can I unlock the ‘battlefield commander’ in the ‘mechanical special military service’? then I won’t have to do everything myself. I’ll just leave it to the battlefield commander.

if the rules of the game ‘super mech Army’ haven’t changed, and if I’m not wrong, there are two conditions to unlock ‘battlefield commander’.

” one of them is to have an entire army, which is 1500 meches. the other is to have a ‘level-three soul tinder’.

it’s easy to gather 1500 meches. I can send 1500 early-stage level one meches. The key is the level-three soul Tinder.

the ‘level-three Soul Fire seed’ is the most difficult thing to do. I only have two level-one soul Fire Seeds and four level-two Soul Fire Seeds.

“I’m still far from that.”

battlefield commander. Jiang Li had to give up the idea of unlocking the ‘battlefield commander’ for now.
