

Army 791

Chapter 791 brain

He observed carefully.

One would discover that the 'undead dagger' didn't only have the 'soul precept', but also the power of the 'death precept'. This was a weapon that could directly destroy the soul.

He got closer.

He was approaching Jiang Li.

It was silent.

It hid all of its Qi.

He was close.

It was getting closer and closer.

He stood behind Jiang Li.

After that.

The other party slowly raised the 'undead dagger'. The 'undead dagger' spat out rays of sharp light, and the soul law and death law intertwined, producing an extremely strange killing intent.

Shua!

It was aimed at the back of Jiang Li's head.

At the moment of the stab.

It was like a pitch-black cold light that flashed by.

“Kiss of the Grim Reaper.”

Buzzzzzz!

the space was being torn apart.

A crack as thick as a strand of hair appeared.

“You’re looking for death.”

Clang!

The sound of a sword.

The ‘demonic sword’ automatically materialized to protect its master.

Clang!

The pitch-black body of the sword revealed the facial features of a human. It had a cruel, cold, and mocking expression as it blocked the ‘undead dagger’.

the tip of the dagger touched the body of the ‘magic sword’.

Shua shua shua shua

The sword Qi of the ‘demonic sword’ and the sharp light of the ‘undead dagger’ kept clashing with each other. Both sides expanded, producing tiny but sharp colliding sounds.

“Get lost!”

Bang!

The ‘demonic sword’ shook, and the power it produced directly sent the dark and illusionary figure holding the ‘undead dagger’ flying.

“Ah!”

Furthermore ...

He even let out a blood-curdling scream.

He retreated continuously.

His body trembled as if it was about to collapse.

“This Suan ni, this Suan ni”

[illegible]

“Nothing is impossible.”

Buzzzzzzz!

Jiang Li's eyes returned to normal. He raised his right hand and the 'evil sword' fell into his hand. He held the sword and looked down at the dark and illusionary figure lying on the ground.

you ... You ... You weren't affected by the 'Darkness Domain'.

The dark and illusory figure lying on the ground reacted. His eyes widened, and his emotions fluctuated violently. how could this be? How could this be?”

“You’ve failed.”

alright, ” Jiang Li said slowly. then, accept the consequences of death.

Clang!

There was another sword chime.

Demon Sword. Jiang Li raised the ‘Demon Sword’.

This time.

Jiang Li didn’t even use the ‘demonic sword’. He just slashed forward and the black sword Qi flew towards the dark and illusionary figure lying on the ground.

“don’t even think about it,”

“Whoosh!!!”

The dark and illusionary figure roared and tried to escape, only to find that the surrounding space had been confined. The ‘Five Element lock’ had appeared on his body without him knowing, and it was like a ring trapping him.

...

he couldn’t escape.

It couldn’t be avoided.

“Five elements law, five elements law,”

The dark and illusionary figure shrieked in fear, ” no!!!!

Bang!

the sword qi streaked across.

Like a sharp blade cutting through a bubble, the bubble exploded and the dark and blurry figure was also killed by Jiang Li’s attack.

He had no power to resist.

It turned into black light spots and disappeared.

Shua!

[acquired a rank 11 soul Tinder!]

...

A notification appeared.

“I solved a small problem.”

Jiang Li put away his sword.

“Congratulations, chief sovereign.”

Hidden Dragon immediately said.

Obviously.

Jiang Li already knew that the dark and illusory figure would attack when the war broke out.

Therefore, he had already made preparations.

Furthermore ...

Jiang Li also knew his background.

It was back then.

After Jiang Li took care of the second wave of troops from the yongcun halberd and the Yongye dynasty, he landed on '013561 colony Galaxy' again.

However ...

Jiang Li couldn't determine his exact location or lock onto him because he was too good at hiding.

hence.

let's go. Jiang Li used this battle to lower his guard and lure the enemy to attack.

As expected.

let's go. Jiang Li succeeded in luring the enemy out.

He would kill them with lightning-like methods.

On the battlefield.

"Shadow!"

Eternal night was stunned. He could sense the death of 'shadow'. failed. Shadow's assassination failed.

"Jiang Li!"

boom!

Yongye roared, and the Dragon roars shook the entire Galaxy.

"Kill!"

Bang Bang Bang Bang!

let's go! Yongye charged forward with unparalleled power and broke through the blockade of the mechanical fleet. He was about to rush to base spaceship 01 where Jiang Li was.

"Alright,"

Buzzzzzz!

let's go. Jiang Li took a step forward and a ripple appeared in the space. He disappeared from the spot and walked out of the cockpit of spaceship 01 to the edge of the battlefield.

"For the sake of the human Emperor,"

" death, " jiang li said slowly, " i'll give you death. "

Jiang Li!!!

Roar!

Jiang Li! Yong ye's eyes fell on Jiang Li and he couldn't look away. The eyes of the true dragon were as big as the moon. I want you dead!

“True dragon’s breath!”

Buzzzzzz!

The grade-12 army formation rotated wildly.

It extracted the power of trillions of human soldiers and generals.

Insufficient strength.

it directly extracted his life force.

They were all gathered together.

A huge energy ball appeared in the dragon’s mouth.

BOOM!

The energy sphere exploded.

The diameter of the dragon’s breath was as big as a star. It was coming at Jiang Li with unparalleled power.

“Azure Emperor Art.”

BOOM!

Jiang Li’s body trembled and he started to use his techniques.

Roar! “Roar!”

The Azure Dragon of great Xia materialized.

It was just right.

It was ten million meters.

Shua! Shua! Shua!

Immediately after.

Three nine-Dragon level sacred artifacts of the Empire appeared.

They formed three Azure Dragon streams of light.

They surrounded Jiang Li.

BOOM! BOOM!

The laws were manifested.

jiang li's main cultivation was the imperial number law. he had combined the law of sword dao, the law of thunder, the law of darkness, the law of space, and the law of the five elements.

a total of nine.

All of them were conjured.

Clang! Clang!

Demon Sword. Jiang Li raised the 'Demon Sword'.

The 'demonic sword' trembled, producing the sound of a sword tearing through space.

First of all ...

Roar!

The Azure Dragon of the Xia Dynasty let out a long roar.

It turned into a ray of Azure Dragon light, fusing into the 'demonic sword', greatly increasing the power of the 'demonic sword'. An Azure Dragon's Shadow appeared on the body of the 'demonic sword'.

buzzzzzz! Buzzzzzz! Buzzzzzz!

Immediately after.

The three nine-Dragon level sacred artifacts of the Empire transformed.

The demonic sword couldn't be merged into the sacred weapon of the Empire, but it could strengthen Jiang Li's strength.

One had to know.

The three nine-Dragon level 'sacred artifacts' in Jiang Li's hands were already the limit of a lower imperial dynasty. They were enough to fight against level twelve beings.

Finally.

The Nine Laws and the Imperial number law merged into one, turning into Dragon-shaped data streams. Like chains, they wrapped around the body of the demonic sword.

Kachaa! Kachaa!

The space was already starting to be unable to withstand this overly powerful force.

A crack appeared.

Powerful!

It was simply too powerful!

BOOM!

Jiang Li's body shook.

'Dominator mode' activated.

From head to toe.

Countless streams of data appeared.

The ruler's domain was released.

In the surroundings.

Countless meches also appeared.

"A sword of the laws of a sovereign."

Shua!

Jiang Li used the power of the 'demonic sword' again. After all the powers were combined into one, it became the 'sword of law' and slashed at the true dragon's breath.

"BOOM!"

The next moment.

The ‘ruler’s law sword’ and the ‘true dragon Breath’ clashed.

Bang Bang Bang Bang!

Immediately after.

The clash of energy between the two sides resulted in continuous explosions.

“Break!”

Bang!

stop! Jiang Li shouted and attacked with all his strength. The attack was so powerful that it had already reached level twelve and suppressed the Dragon Breath of the military true dragon.

In the end.

An explosion that shocked the surrounding ten light years occurred.

The space almost exploded.

“Ah!”

The dragon’s breath was destroyed.

Yongye let out a shrill cry and spat out blood. He almost broke free from the level 12 formation. The true dragon of the formation let out a sorrowful cry.

Pfft! “Pfft!”

The remaining power of Jiang Li's sword even pierced through the body of the true dragon.

“Ah!”

Dragon blood splattered and dragon scales fell off.

Countless soldiers and generals died.

The ‘Grade 12 army formation’ shook violently.

He was on the verge of collapse.

“Now.”

immortal Palace! Jiang Li reached out and shouted, ” immortal Palace, come.

“Yes.”

Buzzzzzz!

yes, master, ” the immortal master replied. He turned into a ray of light and merged into the ‘immortal Palace’. The palace was like a white light, traveling through space and landing on Jiang Li's left hand.

“The extreme path immortal Palace.”

Buzzzzzz! wuwuwuwuwu!

The skill was released.

immortal Palace. Jiang Li released the ‘immortal Palace’ skill.

In that instant.

The ‘immortal Palace’ rose into the air and expanded with the wind, turning into a vast Hall of the immortal Palace. Endless white immortal mist curled around it, covering more than half of the immortal Palace.

Extreme path immortal Palace.

It could suppress a level 12 being.

“Go.”

shut up! Jiang Li scolded.

Kachaa! “Crack!”

The sound of chains clashing rang out.

In an instant.

The White immortal mist condensed and turned into nine giant white chains. They were like white dragons dancing in the vacuum.

shua!

The giant white chain pierced through the space and wrapped around the hundred million-meter-long ‘true dragon Army’ from top to bottom.

what is this!?

Eternal night roared.

Bang Bang Bang Bang!

The true dragon struggled violently, but the giant white chain was getting closer and closer.

It was a critical moment.

Buzzzzzz!

“Roar!”

The ‘Emperor’s position’ between Yongye’s brows manifested. The true dragon of the Empire’s National aura roared, producing a crushing pressure on the life position and suppressing the ‘immortal Palace’.

Unable to trap.

It could not be locked.

Unable to imprison.

“Hmph!”

Humph! Jiang Li snorted and also activated his ‘Imperial status’. A Green Mark of a five-clawed true dragon appeared between his eyebrows to offset the suppression of Yongye’s status.

However ...

Yongye was the ‘Emperor of the human race’, and his life status was high.

They could not be enslaved.

Hence.

The ‘true dragon of the Army’ began to disintegrate.

“If you can’t imprison him, then die.”

Upon seeing this scene.

Demon Sword! Jiang Li charged at the true dragon Army without hesitation. He stabbed with the ‘Demon Sword’ and put the energy of the origin point into the sword.

The ‘demonic sword’ was wrapped in a layer of invisible sword Qi.

It pierced through everything.

“Pfft!”

In an instant.

Blood splattered everywhere.

Jiang Li’s ‘demonic sword’ broke through the defense of the ‘true dragon Army’ and went straight through Yong ye’s head.

Chapter 792 Imprisonment

The scene seemed to freeze.

Kachaa! Kachaa!

Cracks.

From the position of ‘eternal night’, between the eyebrows of the ‘true dragon of military formation’, cracks spread rapidly like a spider web. In an instant, they spread to the dragon’s tail.

The expression on eternal night's face froze.

His life force was rapidly flowing away.

“Your Majesty!”

“No!”

“.....”

countless generals and soldiers were wailing.

The voice was filled with sorrow.

“Jiang Zhizhi, Jiang Li Zhizhi.”

Yong ye opened his mouth and reached out his right hand. His fingers were like an eagle's claw, as if he was going to grab Jiang Li's neck and strangle him.

His eyes were filled with endless killing intent.

And hatred.

Jiang Li's eyes were calm.

This gaze.

Jiang Li had seen too much.

Buzzzzzz! Buzzzzzz! “whoosh!!!”

At this moment.

The ‘demonic sword’ glowed and shrieked. Jiang Li actually felt ‘joy’ coming from the ‘demonic sword’. The blood that was as thick as Mercury flowed down the blade.

His blood was devoured.

The ‘demonic sword’ was like a ‘blood-sucking blade’, absorbing and devouring Yongye’s blood.

Immediately after.

Blood as thick as hair appeared on the body of the ‘demonic sword’.

Strange.

it was very strange.

Take a closer look.

In the blood that the demonic sword had devoured, there was still a trace of the power of the emperor’s status that had not yet dissipated, and it was integrated into the demonic sword.

“Have a safe trip.”

Jiang Li’s eyes were cold. After the ‘demonic sword’ stopped devouring, he pulled the ‘demonic sword’ out of Yongye’s head.

it sprayed blood all over the sky.

“.....”

Eternal night’s gaze quickly dimmed.

His life force was flowing away.

On the verge of death.

it seemed like ...

Yongye once again saw the figure of his brother, the 'eternal halberd'. With a smile on his face, he slowly extended his right hand to Yongye, and Yongye also raised his right hand.

the two of them put their hands together.

Eternal night!

He had fallen!

“roar!”

in that instant.

The true dragon of the Empire wailed.

the fate of the country collapsed.

At the same time.

The cracks of the 'true dragon of war' covered the entire Dragon's body.

The grade-12 battle formation was crumbling.

“Now.”

stop! Jiang Li shouted.

“yes.”

The immortal master replied.

Kachaa! “Crack!”

...

The huge immortal mist chains were like real pythons, waving in the starry sky and piercing through the ‘true dragon Army’. In the blink of an eye, they had locked the limbs of the ‘true dragon Army’.

Roar! Roar! “roar!”

The true dragon of battle roared and struggled, and the cracks on the Dragon’s body became more and more dense.

but ...

The immortal mist chains of the immortal Palace stopped the collapse of the level 12 army formation.

it quickly locked the dragon’s head and tail.

The entire dragon body.

They were all trapped by the immortal mist chains.

Not only that.

the empire’s national aura true dragon was also forced to be sealed and merged with the army true dragon.

“The extreme path immortal Palace.”

...

BOOM! boom! BOOM!

above the starry sky.

It was as if he was in the nine Heavens.

The vast nine-tiered heavens appeared.

At this moment.

The power of the ‘extreme path Celestial Palace’ directly regarded the level 12 formation ‘true dragon Army’, which was formed by trillions of human soldiers and generals, as its main body.

They were ‘imprisoned’.

The true dragon of battle was struggling violently.

However, it was of no use.

in the end.

‘BOOM!’ There was a loud sound.

The ‘true dragon of military formation’ was locked up in the ‘first-level immortal Palace’.

Buzzzzzz! Buzzzzzz!

the ‘first-level divine palace’ shone brightly.

It was extremely dazzling.

The true dragon roared, and the Dragon roars came in waves.

its power rose sharply.

Everything was stable.

The true dragon of military formation was directly locked up.

“Come.”

Buzzzzzz!

jiang li raised his hand.

The immortal mist surged.

The nine-layer immortal Palace slowly disappeared.

They combined into one.

It turned into a huge immortal Palace, then it quickly shrank to the size of a palm and flew towards Jiang Li.

It landed on Jiang Li’s palm.

It floated quietly.

“Alright,” he said.

jiang li observed the 'palace' carefully. inside the palace, there was a 'true dragon'. it was alive and powerful. it was the 'true dragon of the army' that had been successfully imprisoned.

now.

the 'trillions' of human soldiers and generals had 'truly' become a 'true dragon of war'. they could no longer be changed. they had become the dragon scales, dragon blood, and so on of the true dragon.

Together, they formed the 'true dragon Army'.

he observed it carefully.

at the center of his eyebrows.

There was a pitch-black Dragon Pearl.

Its luster was extremely dim.

Inside the Dragon Ball.

There was an illusionary figure. It was 'eternal night'.

however ...

'yongye' was already dead, so this dragon ball was just the corpse of 'yongye', which could be called a 'dead dragon ball'.

Buzzzzzz!

the immortal master appeared.

master. they stood beside Jiang Li respectfully.

“Congratulations, my Lord, for successfully imprisoning a level 12 being.”

The immortal master bowed.

“yes.”

yes. Jiang Li nodded. that’s right.

One had to know.

After the successful imprisonment.

now, the true dragon of war had become jiang li’s servant. the dragon was extremely powerful and had inherited everything from before.

His strength had not weakened in the slightest.

“Go.”

jiang li waved his left hand.

“Roar!”

In that instant.

A true dragon flew out of the palace in Jiang Li’s hand and expanded. In the blink of an eye, it became a hundred million meters long.

The true dragon roared.

It was so powerful that it shook the entire Galaxy.

He lowered his head to Jiang Li.

It meant ups and downs.

“hahahahaha!”

haha. Jiang Li laughed. I’ve already locked up a level twelve being. I’m just short of eight more.

“Come back.”

stop! Jiang Li shouted.

Buzzzzzz!

The true dragon turned into a Dragon-shaped stream of light and flew into the immortal Palace.

He disappeared.

Shua!

Jiang Li checked the information of the immortal Palace.

There was indeed a change.

[origin weapon: ruler’s weapon-divine Palace]

[rank: rank 12]

[No.: XG01]

level 12 skills: master of the immortal Palace, extreme immortal Palace, immortal Palace Guardian, immortal Palace true dragon, Dragon's destruction mayfly (skill growth: [there are only three skills at the start. [origin machine: bi an (omitted)]

[introduction: the more 'Immortals' are locked in the 'immortal Palace', the more powerful it will be.]

advancement Requirements: unknown ”

Jiang Li finished browsing.

He was certain.

The 'divine Palace' had evolved and upgraded.

originally.

The 'heavenly Palace' only had three skills, but now it had five.

Two new skills were added.

and all of them were related to the 'true dragon of the army' who was the first to be imprisoned.

If it followed this pattern ...

The nine-layer immortal Palace was completely locked up.

there was a high probability that he would have 21 skills.

Clang!

Suddenly.

Jiang Li heard the sound of a sword.

The ‘demonic sword’ released a stronger aura.

Obviously.

After devouring the blood that contained the emperor’s status, the demonic sword had also improved to a certain extent, becoming stronger.

the immortal master stood next to jiang li.

His eyes were silently looking at the demon Sword.

Shua!

[origin weapon: ruler’s weapon-demonic sword]

[rank: rank 12]

[No.: MJ01]

‘Level 12 skills: Grandmaster Kendo, demonic sword aura, sword of domination, origin sword aura, sword of laws, Emperor sword form Kasaya (skill growth rate: [there are only two skills in the beginning. as ‘ruler’ is used, and after gradually integrating, powerful skills can be developed.]

[origin machine: bi an (omitted)]

[introduction: the power of the magic sword will change according to the strength of the user.]

advancement Requirements: unknown ”

“Emperor sword form.”

Jiang Li saw the new skill of the ‘demonic sword’.

From the words.

It was obviously related to the ‘position of the Emperor’.

Of course.

What ability was it exactly?

Jiang Li didn’t know. He would know after the battle.

As expected.

The ‘demonic sword’ would probably undergo some changes.

Buzzzzzz!

The ‘demonic sword’ glowed and turned back into the ‘sword-shaped mark’.

After that.

clean up the battlefield.

The spatial teleportation was activated.

Jiang Li returned to the No. 40 magical base.

They had gotten rid of the ‘eternal night Empire’.

Jiang Li had gotten rid of a small problem.

Come to think of it.

After the heaven vault Empire found out that Yongye’s entire Army had been annihilated and that even Yongye had lost his life, they would definitely not dare to enter the great cosmos world again.

Jiang Li wouldn’t have to worry too much about the danger of the Super Fantasy world.

They could focus their energy on dealing with the forces of the Milky Way.

On the other side.

In the Super Fantasy world.

Heaven’s Vault continent.

In the imperial capital of the sky Dome Empire.

Roar! “roar!”

The true dragon of the Empire’s National aura manifested.

It let out a series of painful wails.

Buzzzzzz! Buzzzzzz!

The fate of the country began to collapse.

in the blink of an eye.

Almost one-third of it had disappeared.

“Ah!”

Pfft!

human emperor tian qiong cried out in pain as he spat out a mouthful of blood. his face was filled with pain as his eyes widened in shock, ” “How is that possible? How is this possible?”

Obviously.

The skyfirmament dynasty’s military strength had suffered a huge loss. The Army that had been sent to the great cosmos worlds had been completely annihilated, causing the nation’s fate to rapidly decline.

As a result, human Emperor tianqiong suffered the backlash of the Empire’s true dragon.

His injuries were not light.

Immediately.

Human Emperor tianqiong closed his eyes and his consciousness entered the true dragon Roll.

After that.

When he saw the situation on the true dragon Roll ...

His eyes widened, and his pupils contracted.

Aghast!

Fear!

It was hard to believe.

All sorts of emotions surged into his heart.

“He actually slipped away.”

Human Emperor Tian Qiong’s consciousness returned to his body and he opened his eyes. He was still in shock. It’s gone. The eternal night Empire has actually disappeared.

“si si si ...”

He gasped.

“How terrifying is the power of the great cosmos? Even eternal night was killed.”

“.....”

There was a long silence.

“Men, come.”

Human Emperor tianqiong roared.

Shua! Shua! shua!

Immediately.

Many Kings and Marquises rushed over.

“Your subjects pay their respects to Your Majesty.”

The princes and Marquises kowtowed.

Human Emperor Tian Qiong was expressionless, ” send an order to the entire country. From today onwards, Tian Qiong imperial dynasty will be ‘locked up’ and will not have any contact with the outside world. They will rest for a thousand years.

“This bi an ...”

“Your Majesty!”

“.....”

The princes and Marquises were all stunned.

“Are you still not going to execute it?”

Human Emperor tianqiong berated.

“Yes.”

“We will do as you command.”

“.....”

The princes and Marquises all said in unison.

Eternal night continent.

They had already fallen into chaos.

The Yongye Empire was destroyed.

It had caused the various marquissate Kings, County Kings, city Lords, and others to split up. In less than a few days, there had already been countless Wars.

The people were in deep waters.

Of course.

None of this had much to do with Jiang Li.

now.

Jiang Li was studying the star map of the Milky Way carefully. He was collecting all kinds of information according to the investigation of ‘magical base No. 40’.

complete the star map.

Chapter 793 Opening

Time flew by.

In the blink of an eye, ten years had passed.

Everything was peaceful within 10000 light years of Jiang Li’s rule. There was no war. All the civilizations under Jiang Li’s rule were developing in an orderly manner.

Furthermore ...

All of them were getting stronger and stronger.

“Chief sovereign.”

Buzzzzzz!

Number 040, Hidden Dragon, appeared beside Jiang Li and reported, ” the ‘war’ in area 045 is over. The Milky Way hero fleet has won. The Imperial Emperor dynasty from the Super Fantasy world was defeated and suffered heavy losses. They had no choice but to withdraw from the Milky Way and return to the Super Fantasy world.

“Currently.”

“The entire Milky Way is already in a state of division.”

“If nothing unexpected happens.”

“The war in the Milky Way should temporarily enter a state of ceasefire and stability.”

“Yes.”

okay. Jiang Li nodded. open the Milky Way star map.

“yes.”

shua!

Number 040, Hidden Dragon, waved his hand.

In an instant.

The vast Milky Way star map was displayed.

Jiang Li observed carefully.

the entire milky way star map.

It used a total of nine colors to draw it.

nine regions were depicted.

among them.

The area that Jiang Li occupied was the smallest, the most remote, and the most scarce of the nine regions in the Milky Way star map.

In addition.

There were still nine regions left.

The destroyer was drawn in black and Jiang Li named it: The area of destruction was drawn in blood by the Galactic Pirates and named: blood-red zone.

The Galactic Hero fleet was painted in gold and named: Hero region.

Other than that.

They were the five great human imperial dynasties.

they were all seventh-tier emperor dynasties.

Furthermore ...

His ranking was also quite high.

Among them.

the blue dragon empire, which was ranked 73800th, occupied an area painted in white. The Cang Dragon region.

The territory occupied by the 73700th human empire, the heaven rules Empire, was drawn in sky blue and named: Heavenly rules region.

the territory occupied by the 73500th human empire, the great luo empire, was drawn in a dark green color and named: In the zenith land.

The territory of the 73300th human empire, the magic Empire, was drawn in sky blue and was named: Magic area.

Finally.

The territory occupied by the 73100th human empire, 'zhuoyue Empire', was drawn in dark gray and was named: the superior region.

The areas closest to Jiang Li's territory were: The magic zone, the Grand Luo zone, and the destruction zone.

"Yes."

number 040, " Jiang Li said slowly, " order all the subsidiary races immediately. The war to rule the galaxy is about to start. The Blue Star civilization will lead all the subsidiary race armies and form an Army.

the war to unify the Milky Way also needs their help.

"Yes."

Number 040, Hidden Dragon, responded respectfully.

Buzzzzzz!

His figure disappeared.

Immediately after.

Shua!

The hidden Dragon arrived.

“Chief sovereign.”

...

” thank you. ” hidden dragon saluted jiang li. ” as per your order, i left the milky way ten years ago and kept moving in the same direction. ”

“It has been ten years.”

we have successfully arrived at the Andromeda Galaxy, which is nearly two million light-years away from the Milky Way.

“period.”

I have discovered a huge ‘nest’ in the lonely universe millions of light years away from the Milky Way. The specific situation is unknown.

“Also,”

“In the Andromeda Galaxy, there are ‘interstellar zergs’.”

the demon powerhouses were wreaking havoc in the Andromeda Galaxy. I was unable to go any deeper and was discovered by a level 12 demon powerhouse. I was lucky enough to escape.

“This is all the information about the Andromeda Galaxy.”

“.....”

Jiang Li listened to Hidden Dragon's detailed report.

...

he gradually gained a general understanding of the milky way's 'neighbor' andromeda.

10 years.

To an ordinary person, this was a huge problem.

That was probably one-seventh or one-eighth of his life.

but ...

To a transcendent lifeform that was close to immortality and near immortality, it was just a snap of a finger.

Similarly.

For a galaxy group ...

That was only a drop in the ocean in his long life.

"Yes."

okay. Jiang Li nodded. let's put the Andromeda Galaxy aside for now. I'll go to the 'nest' a million lightyears away when I have the chance.

"Since you've returned."

"Everything is ready. Let's prepare for the battle."

“Yes.”

Hidden Dragon replied.

Half a month later,

the subsidiary army arrived at the djinn star system.

There were more than a thousand subsidiary races.

Ten years.

They formed an extremely large subsidiary Army.

Among them.

The Blue Star civilization.

The head of state, Lan Zhan, had broken through to rank 11 a few years ago. The other seven vice heads of state had also recently broken through to rank 11.

There were quite a few apotheosized adepts.

There were millions of them.

There were even more of them below SSS-class.

The Blue Star civilization continued to research ‘elementary Esper abilities’ and developed an even more powerful ‘Esper armor’. After wearing it, Espers could unleash’ apotheosized level ‘combat power.

Therefore ...

It was named the God-sealing armor.

except for the blue star civilization.

The other civilizations had also sent out a large number of troops.

The mighty subsidiary legions.

They had officially arrived.

after a rough calculation.

the total strength of the subsidiary corps.

Space carriers, Warframes, mechas, drones, and so on.

It had reached about three quadrillion.

When they gathered together.

It surrounded the entire outer space of Titan star.

“I, Lan Zhan, will lead the Blue Star civilization to victory.”

“I, Wen lingji, lead the Wenling civilization to a new era.”

“I, Molin, will lead the bi ‘an.”

“Your subject is Qianqian.”

“.....”

Instantly.

In the subsidiary Legion.

The rulers of the affiliated races all bowed to Jiang Li and reported to him.

This could be seen from the names of the rulers of these subsidiary races.

This was because the power of the ‘imprint of the subsidiary races’, as well as the information regarding the Grand Xia civilization, language, culture, and so on, had been transmitted to these subsidiary races.

Hence.

They began to learn culture and language.

He even changed his name.

“Yes.”

okay. Jiang Li nodded.

Roar!

A Dragon’s Roar resounded.

Great Xia rushed out of Djinn planet.

They arrived in outer space.

Jiang Li stood on the dragon’s head.

He put his hands behind his back.

his gaze slowly swept across the entire subsidiary army.

“very good,” he said.

ten years ago, I said that you will face and participate in an unprecedented ‘war’ that will sweep across the entire Milky Way, ” Jiang Li said.

“This war,”

“It will be very cruel.”

“You will die at any moment.”

“However,”

“This is the war and baptism that the great Xia Empire must go through to conquer the Milky Way. You will also be able to make contributions in this war and rise up step by step,”

“Power, wealth, and strength.”

“If you want it.”

I’ll fight for it myself. In war, I’ll kill my enemies and survive.

“.....”

“Kill! Kill! Kill!”

“The Xia Empire is invincible! The Xia Emperor is invincible!”

“unify the milky way!”

the great Xia will win!!!

“.....”

The next moment.

Shouts.

The countless living beings in the subsidiary Army started to shout.

It shook the universe’s energy.

“The fleet has descended.”

buzzzzzzz!

Jiang Li waved his right hand.

in that instant.

Streams of light rushed out of the law base No. 40 and flew into outer space, occupying a vast area in the starry sky.

buzzzzzzz! Buzzzzzzz!

The fleet was revealed.

One hundred and twenty thousand!

A total of 120000 level 12 interstellar meches!

Jiang Li spent one trillion origin points, 20 million tons of steel materials, and five trillion tons of Star Iron to build 100000 level 12 meches.

among them.

60,000 law-level advanced war motherships and 60000 law-level advanced Guardian fortresses.

One had to know.

The entire Milky Way.

In the past ten years, there had been constant war.

There were many human empires, Galactic Pirates, Galactic Hero fleets, and destroyers in the Super Fantasy world.

The four great forces.

They continued to fight against each other.

during this period.

they had fought countless times.

It was unknown how many wars had taken place.

living beings fell.

The planet exploded and the Galaxy shook.

It even caused the disintegration of many galaxies.

Ten years.

the milky way's power has basically been stabilized.

“This Suan ni, this Suan ni”

“Is this His Majesty's Army?”

“Why are there only 120000 motherships? Isn't the number a little too small?”

“Little?”

“Hahahahaha!”

I'm afraid you haven't seen how terrifying His Majesty's 'fleet' is. It's an existence that can devour the universe's energy and mass-produce troops like the Zerg in the universe.

“that's right.”

“Also, do you think these motherships and fortresses are just ordinary motherships and fortresses? That's not it at all. It's the crystallization of the most advanced technology of a Level-6 civilization, and it has unparalleled power.”

” to be honest, with our strength, i don't know if we can survive such an interstellar war. how many of us can survive? ”

“.....”

The subsidiary races were in a heated discussion.

the mechanical fleet, the subsidiary army.

Jiang Li's two forces gathered.

“Your Majesty.”

wu wuji, lin tianjian, xu ya, hong tianqi, and a few other kings stood behind jiang li respectfully.

Obviously.

Jiang Li had also sent them.

Because ...

After decades of careful cultivation and research.

There had been a preliminary breakthrough in the application of the ‘military formation’.

This war.

He would use the power of the ‘battle formation’ on the ‘mechanical fleet’. If he succeeded, Jiang Li's strength would be multiplied.

“Yes.”

okay. Jiang Li nodded. are you ready? ”

“Your Majesty, please be at ease.”

Hong Tianqi and the others were full of confidence.

activate the spatial teleportation.

Buzzzzzz! Buzzzzzz!

Immediately.

A vast, formless spatial light beam descended.

In that instant.

it enveloped the mechanical fleet and the subsidiary legions.

Teleportation!

Shua!

The scene was dragged out.

The two legions and the fleet disappeared quickly.

“Let’s go,” he said.

Buzzzzzz!

let’s go. Jiang Li took a step forward and teleported one light year away. Lin Tianjian and the others quickly followed him.

the scene changed.

At the edge of the destruction zone.

The space was distorted.

In the next instant.

Jiang Li's mechanical fleet and the affiliated Army arrived at the same time.

The war was about to begin.

Chapter 794 destruction

Jiang Li was looking around. What he saw was the boundless and lonely universe.

The destroyer named one of the galaxies at the outermost edge of the 'apocalypse zone': Star system WW0011.

Right in front of Jiang Li's eyes.

It was this star System No. WW0011.

Buzzzzzz! Buzzzzzz! "Whoosh!!!"

At this moment.

The 'destroyer fleet' that was stationed at the periphery of the star system WW0011 had noticed Jiang Li's fleet as soon as it landed.

Hence.

They immediately sent out a large number of warships and mechas.

They formed a small mecha fleet.

They advanced quickly.

Stop Jiang Li's mechanical fleet in the shortest time possible.

Jiang Li looked on quietly.

Di di di di di

warning! Warning!

['space sensor' has detected an extremely strong spatial fluctuation within the warning range, hehe]

The urgent alarm sounded.

detecting and calibrating the specific location and coordinates of the spatial fluctuations, hehe.

"Unknown fleet detected."

"there's a huge number of them!"

it can be confirmed that most of the space carriers, warships, mechas, etc. Of this fleet are within the technological level of a level-4 civilization. They have mastered the 'dark matter energy'.

immediately send out the vanguard mecha fleet 001 to intercept the unknown fleet.

"....."

Buzzzzzz! wuwuwuwuwu!

in the blink of an eye.

The '001 Vanguard mecha fleet' flew at superlight speed.

From afar.

the entire fleet was like a stream of light streaking across the dark universe.

Hurry up!

It was extremely fast!

“Heavenly punishment.”

However ...

facing such a situation, jiang li just slowly raised his hand.

After that.

He waved it down.

BOOM!

In that instant.

the space was pierced.

It was a pitch-black spear.

rank 12 spear of heavenly punishment.

It pierced through space.

It pierced through the No. 40 magical base and directly charged towards the No. 001 Vanguard mecha fleet.

Bang Bang Bang Bang!

countless explosions were heard.

It made the Dark Universe in front of him look like a beautiful firework.

Everything was destroyed.

It turned into ashes.

They were all annihilated.

They were all annihilated.

The entire Vanguard mecha fleet 001 was annihilated.

Not even a speck of dust was left behind.

they turned into the dust of the universe.

On the planet where the fleet of the peripheral star system, WW0011, was stationed.

...

what?!

“What was that? What exactly happened?”

“Battleship fleet, battleship fleet, battleship fleet, battleship fleet, battleship fleet!”

“it’s gone, it’s all gone, yingluo.”

“It was all gone in an instant!”

“Si si si ...”

Aghast.

He was extremely shocked.

At this very moment.

The commanders of the destroyer fleet stationed in star system WW0011 were all in shock after seeing this scene.

this situation made their hearts sink.

...

Powerful.

It was indeed very powerful.

It was only for a moment.

The attack came from nowhere and almost annihilated the entire Vanguard fleet 001. The vanguard fleet did not even have time to react.

This kind of power.

They were definitely not from a ‘level-4 civilization’.

It was a preliminary estimate.

The other party was definitely a powerful fleet from a Level-6 civilization.

This was because this fleet could easily control the space laws and control the universe law grade interstellar weapons.

That's why it's so destructive.

"Hurry up! Hurry up! Hurry up! Report to the headquarters "intelligence tower immediately!"

"Hurry up!"

"If we were any later, I'm afraid we wouldn't be able to make it."

"....."

It roared.

He even roared.

The commanders of the destroyer fleet stationed at the periphery of the star system WW0011 were extremely anxious, as they roared out orders.

However ...

Even so ...

Everything was too late.

"Sword, come."

Clang!

jiang li raised his right hand.

It let out a sharp sword cry.

The ‘demonic sword’ appeared.

the pitch-black sword qi of the demonic sword was released.

sword! Jiang Li clenched the handle of his sword.

Buzzzzzz! Wuuwuwuwu!

The energy was surging.

He immediately felt the vast power.

The power of the ‘demonic sword’ was added to Jiang Li.

“It just so happens that I’ll be the one to start the first strike of this war,”

Shua!

let’s go. Jiang Li activated his cultivation technique. The Fortune of the country surged and the power of law manifested.

“Sword Qi of the devil sword.”

The skill was activated.

die! Jiang Li slashed.

the pitch-black sword qi of the demonic sword was released.

Shua!

in that instant.

The power generated by this sword swept across the entire Galaxy WW0011.

Such a scene.

If ...

If the entire Galaxy WW0011 was like a piece of black paper, then the power of the ‘Demon Sword’ was like a sharp knife.

In an instant.

The entire Galaxy WW0011 was torn apart.

The space shattered.

BOOM! BOOM! BOOM!

The huge planets exploded one after another.

“Ah!”

Countless wails could be heard.

The energy of the universe began to boil violently.

It was like boiling water.

Bang Bang Bang!

The huge planets exploded like balloons. They were extremely beautiful and dazzled, forming a scene as if space had collapsed.

He was unable to calm down.

Time passed by slowly.

when all the strange phenomena subsided.

The universe's energy fluctuations had also calmed down.

It was as if the entire WW0011 outer star system was wiped out by a powerful force. Everything was destroyed and disappeared, turning into nothingness.

He looked around.

The only thing he could see was the Dark Universe.

The entire scene.

It was like a pencil drawing that had been erased by an eraser.

one strike!

It was only one strike!

jiang li had destroyed a 'galaxy'.

At this very moment.

Jiang Li suddenly realized how strong he had become. He could easily destroy an entire Galaxy.

It was really too terrifying.

Such a scene.

Such a scene.

It was already hard to imagine.

Unknowingly.

Jiang Li's current realm and level had become a god-like existence.

One had to know.

Jiang Li didn't accumulate any power. He just released the skill with a casual swing of his sword, and the power was so great that the planet exploded and the space cracked.

The Galaxy was wiped out.

Terrifying!

It was extremely terrifying!

“hu ~~ hu ~ hu ~”

jiang li took a deep breath and slowly put down the sword in his hand. he stared at the boundless 'destroyed area' with cold eyes. that was the 'territory' that was about to be conquered. ”
mechanical fleet, subsidiary army, listen up. ”

“It's Wufu!”

Immediately.

The living beings of all the civilizations and races in the subsidiary armies and mechanical fleets, as well as the mechanical intelligence of the mechanical fleets, responded in unison.

kill!!!

BOOM!

Jiang Li! Jiang Li shouted. His voice was so powerful that it shook the universe's energy and created energy sound waves that spread across the entire Army.

“Kill!”

“Kill!”

kill!!!

Buzzzzzz! wuwuwuwuwu!

The next moment.

All the living beings in the subsidiary armies and mechanical fleets were shouting in unison.

In that instant.

The two armies flew at superluminal speed and disappeared from their original location. They charged into the destruction zone and set off the prologue to the upcoming interstellar war.

At this moment.

Star system of destruction.

The destroyer headquarters.

The star of destruction.

The highest leaders of the destroyer lived on the 'star of annihilation', because the 'star of annihilation' could be considered the mother planet of the destroyer.

It could be called the place of origin.

The destroyer intelligence tower.

It was built in the outer space of the 'star of annihilation'.

It was extremely huge.

it was completely black.

It looked like a five-pointed star.

Inside.

"Urgent news, urgent news!"

star system WW0011 has been attacked by an unknown fleet. Currently, we can't contact the commander of the destroyer fleet stationed at the periphery.

open the 'Galaxy detector star map'.

"Yes."

"Unfolding the Kasaya."

“.....”

“Whoosh!!!”

The light flickered.

An azure blue screen appeared.

After they gradually gathered together.

it formed a star map.

He took a closer look.

They would find that the ‘star map of the Galaxy detector’ of the ‘destroyer intelligence tower’ was quite different from the ‘star map of Jiang Li’s magical base.

it wasn’t as clear and real as jiang li’s law base.

If ...

If the ‘Galaxy detector’ star map of the destroyer intelligence tower was a ‘smooth’ image, the star map of Jiang Li’s magical base would be in super high-definition blue light.

Shua! Shua! Shua!

The star map continued to flash.

Very quickly.

Buzzzzzz!

The scene froze.

he locked onto one of the areas.

It was the peripheral Galaxy WW0011.

it was rapidly magnified.

after that.

Everything was blank.

There was only emptiness in the star map. There were no planets. There was nothing in the vast peripheral system of the WW0011.

Not even a meteorite could be seen.

“ . . . ”

Silence.

The inside of the entire destroyer intelligence tower.

it fell into complete silence.

One could almost hear a pin drop.

[illegible]

After a long time.

one of the destroyer civilization's beings couldn't help but scream.

And he ...

It was actually the tower master of the destroyer intelligence tower-Moke Dorli.

Such a scene had indeed stunned him.

Dumbfounded.

even though ...

It wasn't impossible for the destroyer to destroy a Galaxy. In fact, just sending one destroyer mecha could destroy a Galaxy.

However ...

If the Annihilator wanted to destroy a Galaxy, it would take time. It couldn't be done overnight, and it might even take years to destroy a Galaxy.

but ...

the time before and after this incident.

In fact, it only took a few minutes.

After that.

The entire WW0011 outer star system was destroyed.

there was nothing.

it was clean.

Even the destroyer's headquarters fleet would find it difficult to achieve such a feat.

Such a thing happened.

It meant that an unknown enemy fleet with combat power comparable to the destroyer headquarters fleet had infiltrated the 'annihilation zone'.

"Hurry up! Hurry up!"

Moke Dolli came back to his senses and roared, "activate all the scouts. We must lock onto the enemy!"

"yes!"

"As you command! Pagoda master!"

"....."

the various destroyer members responded to moke dourli loudly.

Half an hour later.

"Si si si ..."

The next moment.

a series of gasps could be heard.

Because ...

They had discovered yet another completely destroyed Galaxy.

It was wiped clean.

Nothing was left behind.

Not even a single meteorite could be found.

Such a scene.

It was truly a horrifying feeling, as if a cold air was rushing to the top of his head.

Chapter 795 lock

“This Suan ni, this Suan ni”

“He actually destroyed another of our galaxies.”

“Who is it? Who is it?”

bastard!!!

He was furious.

He was extremely furious.

At the same time, he was overwhelmed with shock and fear.

It was also filled with an inextinguishable anger.

damn it!!!

Moke dorly clenched his fist tightly and stared at the scene in the star map. The empty scene made him feel a deep sense of powerlessness.

as well as a towering rage.

“Who is the other party? A fleet of galactic space pirates? Or the mechanical Army of the Galaxy Hero fleet? Why didn’t we receive any news beforehand?”

“still,”

the other party is the Army of the Emperor dynasty from one of those elusive Otherworlds? ”

Gradually.

Moke Doly fell into deep thought.

It could be said that ...

He had already guessed most of the truth.

he looked closer.

Moke dorly was not a ‘humanoid’ civilization. His form was very similar to the ‘slime’ race in the fantasy world, with a viscous liquid form.

It could change into all sorts of different forms.

It was dark brown in color.

Of course.

‘Moke dorly’ was naturally not a slime.

in fact.

He was a civilized race named ‘Jia Shen’.

Back then.

this was because an interstellar war between two advanced civilizations had affected moke dori’s solar system, causing the planetary system of the solar system to be in chaos.

From there.

The planet trembled.

The environment of the home planet where the ‘Jia Shen’ race was located changed drastically, causing the ‘Jia Shen’ race to be unable to continue to survive. The power and technology of the entire planet created a space carrier that used unstable nuclear fusion as its power source. It then entered outer space and began an interstellar adventure that no one knew the future of.

There were many dangers and crises.

In the end.

Just as Moke Dorli and the rest could not hold on any longer and their race was on the verge of extinction, they encountered the destroyer fleet.

He joined the destroyer and became a member of the destroyer.

And now.

Time flew by.

Moke Dorli didn't know how long he had been in the 'destroyer'. Later, when Moke Dorli was in a high position, he found out which two advanced civilizations were the ones who had fought the war.

One of the higher civilizations.

It was a fleet of the destroyer.

The other one was from a Level-5 civilization in the 'Milky Way Alliance'.

However ...

moke duoerli's chi shen clan had long been closely related to the destroyer, and there was no longer any distinction between them. even if all the living beings of the chi shen clan knew about this, it would only add to their troubles and would not help them at all. it would even be detrimental to the development and growth of the chi shen clan.

so,

Moke dorly hid this fact.

Not only that.

Moke Dorli also put all the 'crimes' on the Milky Way Alliance, making all the Sharu race hate the Milky Way Alliance.

After the upper echelons of the destroyer found out about this matter, coupled with the fact that the potential of the min Shen clan wasn't low, Moke Dorli was promoted to the position of 'tower master'.

In reality.

Moke Dorli was so angry because the second star system that Jiang Li destroyed was one of the star systems developed by the min Shen clan.

“Why? Why can’t you find out where the enemy’s fleet is?”

Moke Dorli roared, ” trash! A bunch of trash!”

“.....”

...

Inside the pagoda.

There was complete silence.

Di di di di di

Suddenly.

an ear-piercing alarm sounded.

Not only that.

The star map was now a dazzling blood-red color.

“What happened?”

Moke Doly questioned.

Buzzzzzz!

In an instant.

...

an area on the star map was enlarged.

In the blink of an eye

the position of jiang li's mechanical fleet and the affiliated legions were captured by the 'star map' and appeared on the screen.

"Pagoda master!"

"i found it! We've finally found them!"

"that's great, that's great, yingluo."

The members inside the tower shouted excitedly.

"Hahahahaha!"

Moke Dorli laughed out loud, his expression extremely happy. He took a deep breath and stared at the star map.

His eyes were fixed on her.

"Good! Good!"

" i don't care who you are or where you're from. " moke dorli's smile was full of killing intent. he looked at jiang li's mechanical fleet and affiliated legions.

however, you guys actually dared to be so audacious. You don't know the immensity of the heavens and earth. You actually dared to enter the territory of the 'destroyer'. You're just seeking your own death.

send the information to the destroyer headquarters immediately, and ask the higher-ups to mobilize the 'space weapon-Light of Destruction' to give the enemy a fatal blow.

“Let them have a taste of The Power of Us destroyers.”

“Yes!”

“As you command! Pagoda master!”

“.....”

buzzzzzz!

The intelligence was transmitted through 'energy communication'.

“.....”

Moke duoerli clenched his fists tightly, and his eyes were filled with killing intent, ” you dare to destroy the star system where our Chi Shen clan is developing, you all deserve to die! Damn it!”

I, Moke duoerli, will not let you all go. I will think of all ways to completely destroy you under the rule of the destroyer.

On the other side.

Where Jiang Li was.

it was just outside the 'destruction zone'.

they advanced towards the center.

“Chief sovereign.”

Buzzzzzz!

Hidden Dragon appeared at the first moment and quickly reported, " we've been discovered. The anti-detection system of the spaceship base has already detected us.

"Yes."

" i know. " jiang li's eyes were calm. " i know. "

Obviously.

Jiang Li's instinct told him.

As soon as Moke duoerli and the others noticed Jiang Li, he already felt that they were watching him, but he just kept silent.

"I'd like to see how strong the destroyer's weapon is."

I'll go, " Jiang Li said.

After a few minutes.

the star of destruction.

In the middle.

They built a huge floating city.

It was called the City of Destruction.

The higher-ups of the destroyer's headquarters were basically here.

Of course.

The identity of the upper echelons of the destroyer was extremely mysterious, and no one knew where they were.

Every meeting.

They were all held in the 'city of destruction' in the form of projections.

it can be confirmed that due to the limited information we have on this unknown fleet, we named it: unknown fleet."

"Additional discussion!"

"Additional discussion!"

"....."

The high-level meeting of the destroyer headquarters had begun.

This time.

Only nine projections of the upper echelons appeared.

However ...

That was more than enough.

" according to moke duoerli, the master of no. 09 destroyer intelligence tower, this unknown fleet is very powerful and has a great hatred for the destroyers. they destroyed two of our star systems the moment they appeared. "

“One of the galaxies is developed by the ‘Min Shen clan’.”

“This is understandable.”

we don’t mind our subordinates protecting their own kind. It’s better to control these talents of different races.

[Moke dorly requests to use ‘space weapon-Light of Destruction’.]

“I agree!”

very quickly.

One of the upper echelons of the destroyer raised his hand in agreement.

After a few seconds of silence.

“additional discussion!”

“Additional discussion!”

“.....”

Half a minute passed.

The decision was passed.

Nine votes agreed.

“space weapon-light of destruction! Activate!”

BOOM!

It created a huge explosion.

Next to the star of destruction.

There was a huge planet.

He took a closer look.

It turned out to be an artificial planet made of different materials.

In reality.

This was a super high-tech weapon.

It was the main body of the ‘space weapon-Light of Destruction’.

di di di di di

Countless ear-piercing alarms rang.

Kachaa! kachaa!

The artificial planet shook violently.

After that.

It split open from the middle.

They formed two half-spheres.

Buzzzzzz! buzzzzzz! “Whoosh!!!”

The vast energy was activated, and the power of countless nomological laws appeared like streams of light. Due to different nomological laws, the light of the nomological laws was also different in color.

It gathered towards the center.

“hahahahaha!”

Moke Dori laughed out loud. He saw that the space weapon, Light of Destruction, had been activated. He was excited. it’s a success! It’s a success!

“You guys are dead!”

Moke Dolli was extremely excited.

Buzzzzzz! Buzzzzzz!

‘Space weapon-Light of Destruction’ has been fully charged.

In the middle.

it condensed into a colorful energy ball.

In the end.

All the colors had disappeared.

they fused into one.

it turned into a gloomy and silent gray color.

At a glance.

He felt as if his soul was being destroyed.

“target locked!”

“Fire!”

BOOM!

There was a loud explosion.

the huge artificial planet trembled.

the energy ball seemed to have exploded, producing a ray of light filled with a gloomy and destructive aura. it was dark gray in color and tore through space.

it had disappeared.

At the same time.

Where Jiang Li was.

Buzzzzzz!

The spatial fluctuations were extremely intense.

After that.

Jiang Li looked up.

“They’re here.”

Jiang Li said.

Shua!

In that instant.

It was a dark gray light with a gloomy and destructive aura. It crossed countless light years and pierced through Jiang Li.

“You’re looking for death.”

BOOM!

The immortal master took a step forward.

A terrifying aura burst out.

Shua!

The immortal master waved his right hand and the immortal Palace flew out on its own.

“The true dragon of the immortal Palace!”

Roar!

The skill was released.

An extremely loud and clear Dragon’s Roar was heard.

Buzzzzzz!

The 100-million-meter-long true dragon of the celestial Palace appeared and hovered in the universe. It released an extremely powerful Dragon's might, as if it had frozen the space.

“True dragon's breath!”

“Rumble!”

Countless explosions were heard.

The true dragon of the celestial Palace roared and released its Dragon Breath, which rushed toward the light of Destruction.

After that.

The two attacks collided.

A series of explosions were heard.

It shook the space.

The dazzling light blocked Jiang Li's mechanical fleet and the affiliated legions. The energy waves from the explosion spread out like waves.

Chapter 796

He looked around.

It was a dazzling white light.

The power of the explosion caused endless cosmic energy to sweep out in all directions, shaking the entire Galaxy. The planets shook violently, and countless cracks appeared on the surface of the planets.

It was about to explode.

BOOM!

immediately after.

The Light of Destruction was covered by the Dragon Breath of the true dragon of the celestial Palace.

When the light from the energy explosion dissipated ...

The destroyer's space weapon, Light of Destruction, was easily blocked by the true dragon of the immortal Palace, leaving only a burst of power that spread in all directions.

It gradually calmed down.

“Kill!”

go! Jiang Li shouted with cold eyes. At the same time, he also gave an order to the No. 40 magical base.

“Yes!”

“Target locked!”

“Heavenly punishment! Activate!”

“Fire!”

BOOM!

It was a loud bang.

In magical base No. 40, nearly 10000 light years away.

Through the direction of the 'Light of Destruction', he had completely locked onto the spatial coordinates of the destroyer's 'headquarters'.

The spear of heaven's punishment was like an extremely sharp light, piercing through the space. In the blink of an eye, it crossed the distance of nearly 10000 light years and directly attacked the destroyer headquarters.

Buzzzzzz! Buzzzzzz!

In the universe space.

A spatial vortex appeared.

The spear of heavenly punishment pierced through the space vortex.

He aimed at the 'artificial planet' weapon.

It blasted out.

It drew out a dazzling stream of light.

"What?"

the other party actually managed to lock onto our specific location with just one attack!

"This bi an ..."

The higher-ups of the destroyer headquarters were extremely shocked.

“Hurry up and receive the attack!”

“Yes!”

‘Spatial weapon-Light of Destruction’ shot out once again, forming a beam-like existence that contained a destructive aura and all sorts of nomological laws.

Bang!

The two sides collided.

It created a violent explosive storm.

It spread out in all directions.

Everything settled down.

the spear of heavenly punishment and the light of destruction were both annihilated.

Buzzzzzz! Wuwuwuwuwu!

The space was distorted.

Vortexes began to appear in the universe.

Whoosh! Whoosh! Whoosh!

The spears of divine punishment descended one after another, as well as the law Spears of divine punishment. They were all level 12 law weapons, piercing the surroundings of the destroyer’s headquarters.

“Activate the defense!”

Wuwuwuwuwu!

Around the star of destruction.

There were already many man-made planets around the planet of annihilation in a hexagonal position. All of them had been activated.

Kachaa! kachaa!

Shua!

the light shone.

...

It immediately formed an extremely dazzling energy defense light screen.

It contained the intertwining of all sorts of law runes.

Bang Bang Bang!

Immediately.

the heaven’s punishment Spears pierced through the energy shield and exploded. Not long after, the energy shield began to crack.

In the end.

He couldn’t hold on any longer.

All of them exploded.

“This bi an ...”

The higher-ups of the destroyer headquarters were extremely shocked.

after that.

...

The artificial planetary weapons around the star of annihilation exploded one after another, all destroyed by the spear of heaven’s punishment in law base No. 40.

They became the dust of the universe.

Buzzzzzz!

The star of annihilation quickly launched its final defense, blocking all the spears of heaven’s punishment. This prevented the star of annihilation from being destroyed.

immediately mobilize all the fleets and surround the unknown fleet.

“Immediately!”

“.....”

The high-level leader of the destroyer gave the order directly.

He was roaring loudly.

Buzzzzzz! Buzzzzzz! “Whoosh!!!”

Hence.

The order was conveyed through ‘energy communication’.

All the major galaxies in the area of annihilation and the planets where the destroyer fleet was stationed all started to move. One by one, the destroyer fleet was mobilized.

The spatial teleportation was activated.

He was heading towards Jiang Li.

it could be said that ...

jiang li used the ‘spear of divine punishment’ to cross tens of thousands of lightyears and attacked the destroyer’s headquarters, the ‘star of destruction’.

This had completely infuriated the higher-ups of the destroyer.

hence.

destroy! the higher-ups of the destroyer immediately gave the highest order. They must destroy Jiang Li’s mechanical fleet and affiliated legions at all costs.

He would kill all the signs of threat to the destroyer in the cradle.

In reality.

Through the star map of the No. 40 magical base, Jiang Li had already seen all the movements of the fleets in the entire area of destruction.

In fact.

When Jiang Li started the first battle of the war to unify the entire Milky Way, he was already fully prepared and confident of winning.

“Come on.”

Jiang Li nodded and said, ” “hurry up and gather all the fleets, then annihilate the entire destroyer fleet in one fell swoop,”

“This way, I won’t have to search for them one by one.”

On the other side.

in the outer space of the ‘star of destruction’.

the destroyer intelligence tower.

Inside the pagoda.

“don’t be scared, don’t be scared.”

Moke duoerli and the rest were so shocked that they could not speak. Their eyes were wide open, and their pupils contracted. Their expressions were full of fear. impossible, this is absolutely impossible. Not only was the Light of Destruction blocked, but the destroyer headquarters was also attacked? ”

“Hiss hiss hiss hiss hiss

” what was that just now?! ”

“This bi an ...”

Aghast.

Moke dorly and the rest were extremely shocked.

Time passed.

Buzzzzzz! Buzzzzzz! Wuuwuwuwu!

in the galaxy where jiang li was.

In the surroundings.

The space trembled slightly.

After that.

More and more destroyer fleets appeared, more and more. They were already uncountable, appearing in the surroundings.

They surrounded Jiang Li.

“It’s starting.”

Jiang Li grinned. The Fortune of the country surged and the power of law surrounded him. He clenched the ‘demonic sword’ in his hand. He was so eager to fight that the ‘demonic sword’ even made a sword cry.

“activate,”

Jiang Li raised the demonic sword in his hand.

Buzzzzzz! Buzzzzzz! “Whoosh!!!”

Immediately.

A total of 50000 precept-level advanced motherships and 50000 precept-level advanced Guardian fortresses, which were 100000 level 12 meches, all activated their skills.

Instantly.

It created an unparalleled storm of cosmic energy that surged like a vortex and poured into the 100000 level 12 meches.

Kachaa! Kachaa!

The ship's door opened.

Energy soldiers, battleships, Guardian soldiers, and energy Guardian ships surged out madly, forming a vast mechanical Army in the blink of an eye.

“Kill!”

Jiang Li pointed his sword forward.

“Kill!”

“Attack!”

mechanical Army, charge!!

Instantly.

Subsidiary Army, mechanical Army.

They formed a charging posture like a boundless wave, killing their way towards the destroyer's many fleets.

in that instant.

an unparalleled interstellar war had broken out.

Countless explosions were heard.

The mechanical Black Star Army of both sides clashed.

Bang Bang Bang Bang!

jiang li's mechanical army had the upper hand because all of his mechanical warriors were at level 12.

They were powerful.

It even formed a crushing pressure.

“.....”

Jiang Li watched the battle calmly. He could see countless space carriers exploding, warships breaking, and mechas turning into dust.

Very quickly.

Then, more ‘destroyer’ and ‘ultimate destroyer’ appeared and formed a fleet of mechas, slightly blocking the attack of Jiang Li's mechanical Army.

However ...

It was just like a Mantis trying to stop a car.

In reality.

Jiang Li didn't take the powerful civilizations in the Milky Way seriously at all because he not only had a powerful mechanical fleet, but he also had a powerful individual.

It could be said that ...

They had perfectly suppressed the civilizations of the great cosmos.

His only worry.

And it was the 'human dynasty' from the 'Super Fantasy world'.

It was highly possible.

These 'human imperial dynasties' had not even used their full strength in the previous wars. If they were the slightest bit careless, they could have been defeated.

Time passed.

The destroyer kept sending out fleets after fleets, but they were all killed like moths to a flame. They were no match for Jiang Li's mechanical Army.

Chapter 797 Particle

"This Suan ni, this Suan ni"

"When did such a terrifying existence appear in the Milky Way?"

"how could this be?"

"If this continues, we might lose to Wufu."

“.....”

Silence!

The upper echelons of the destroyer looked at the scene of the battlefield and fell into deep thought. They had never expected that such a terrifying fleet would appear while they were still recuperating.

Every single one of the robot warriors actually had combat power comparable to the ‘ultimate destroyer’.

In such a situation.

It was too terrifying.

It was hard to imagine.

And how powerful would the being that could control this terrifying fleet be?

Time flew by.

Since the mechanical Army and the destroyer’s fleet officially fought, Jiang Li had not participated in any more battles. Instead, he handed everything to the fleet under him.

hidden dragon was in charge.

In the blink of an eye.

Based on Earth’s time, this interstellar war had already lasted for three whole days.

The decline of the destroyer fleet was becoming more and more obvious.

He retreated step by step.

He could no longer resist.

They could only shrink their Battlefront and retreat.

“I can only use my final weapon.”

Finally ...

The upper echelons of the destroyer could not hold on any longer. They had to turn the tables and defeat this powerful mechanical fleet of unknown origin.

Otherwise ...

They could not imagine it.

The destroyers that had existed for countless years would actually be completely destroyed one day.

However ...

they couldn't help but think of the 'milky way alliance'.

Back then.

The Milky Way Alliance was destroyed by an unknown existence. With the strength of the 'Milky Way Alliance', it was at least several times stronger than the destroyer.

Even so ...

The Milky Way Alliance was also destroyed.

“Don't tell me we also have to take a bath?”

“No! It won’t! That’s impossible!”

we won’t be destroyed just like this. Although this unknown fleet is extremely powerful, it’s not to the point where we can’t fight against it. We still have a chance of victory!

“That’s right!”

we still have the final weapon. Although this weapon is still in the experimental stage, it has already been successfully built. As long as it is successfully activated, we will be able to touch the territory of a Level-7 civilization!

“additional discussion!”

“Additional discussion!”

“.....”

Immediately.

Many of the higher-ups in the destroyer headquarters agreed.

now.

as the destroyer was on the verge of destruction, all the top leaders of the destroyer headquarters came out, a total of twelve.

The twelve leaders all agreed.

Hence.

The ‘final weapon’ was activated.

In reality.

The ultimate weapon of the destroyer.

It was actually a particle weapon made up of 'destructive particles'. This was a technological weapon that had already come into contact with the law domain and surpassed the laws of the universe.

Of course.

'particle weapons' were only the most basic technological weapons in the law domain.

...

It was the highest level of technological weapons in the law domain.

It was actually a 'universal law weapon'.

'Particles' were existences that were above the laws. The universe had all kinds of different particles, and each particle represented a supreme law.

in reality.

'Particles' were created, and did not exist in the first place.

In other words.

The rules!

it wasn't comprehended, but created.

Create the rules!

It was the secret to surpassing level 12.

This was very difficult.

...

if he could take this step, it would be like reaching the heavens with a single step.

It was a success.

you'll surpass the laws.

With the laws as the foundation.

Create your own rules.

It could be called transcendence.

As long as one could break through the world's barrier, they could travel through universe ocean.

One had to know.

Every time a 'law' was created, one would become the master of that law. Therefore, any existence that wanted to use and comprehend this 'law' and transcend would be subject to one's control.

To make an analogy.

You, who created this 'rule', are the 'master God', and those who use and understand this 'rule' are your 'follower gods', becoming your subordinates.

I must obey you.

Otherwise ...

You can easily strip him of his power and fall to the mortal world.

back then.

the ‘eternal civilization’ accidentally discovered the existence of the ‘eternal particle’, which alarmed a super civilization in the depths of the universe. they directly launched a particle and destroyed the eternal civilization.

This meant.

They looked down on the ‘eternal civilization’ at all and felt that the ‘eternal civilization’ was not worthy of being their subsidiary civilization at all, and that it would only end up being destroyed.

particle weapon: needle of destruction.

“Activate!”

Wuwuwuwuwu!

Kachaa! “crack!”

The ‘star of annihilation’ lit up with a dazzling light, and countless paths of light formed by nomological laws appeared. They intertwined together, forming an extremely vast scene.

The star of destruction split open from the middle.

At the center of the planet.

A huge striking needle appeared.

Buzzzzzz! Buzzzzzz!

After that.

countless laws interwove and spread, surging into the huge collision needle in the center of the planet. they continued to condense, converge, and condense.

It wanted to use a special technology to forcibly condense the power of countless laws into 'destructive particles' and then merge them with the 'colliding needle' to form an extremely powerful particle weapon.

In the past.

the destroyer had actually tried many times, but it had always ended in failure.

This time.

They had gone all out and mobilized all the energy of the 'star of annihilation' with the attitude of 'success or death' in order to succeed in one fell swoop.

thus, he could turn the tables.

"I must succeed!"

"You must!"

"This is our only chance!"

"....."

The leaders of the destroyer were shouting out loud.

At the same time.

Buzzzzzz!

In front of Jiang Li.

Everything that happened on the ‘star of annihilation’ appeared in front of Jiang Li. He looked at the gray light condensed by the power of countless laws.

It was dangerous!

Jiang Li felt danger!

I’ve still underestimated the civilizations of the great universe.

Jiang Li took a deep breath. if I wasn’t well-prepared, I wouldn’t have known that the destroyer’s headquarters had such a terrifying weapon.

however, since I already know, I can’t let you guys really activate it.

“Teleport!”

Buzzzzzz!

As soon as he finished speaking.

let’s go. Jiang Li took a step forward and disappeared from where he was. The next moment, he appeared in the destroyer’s headquarters star system tens of thousands of light years away.

In front of him.

It was the ‘star of destruction’.

jiang li’s eyes fell on the particle weapon. ” The needle of destruction.

After getting closer.

Jiang Li's sense of danger was even more obvious.

"The sword of laws!"

without the slightest hesitation.

"die!" Jiang Li slashed at the star of destruction.

Chapter 798 attack

The moment Jiang Li swung his sword, the power of laws mixed together and formed a colorful light that was extremely bright.

The laws of space, sword Dao, and fire

They merged into one.

It turned into a sword of laws.

The sword light seemed to have pierced through time and space. In an instant, it slashed toward the 'star of destruction' and appeared in the sky above it.

defend!!!

The higher-ups of the destroyer were shouting loudly.

Buzzzzzz!

In an instant.

The energy defense quickly opened and covered the entire ‘star of annihilation’ like an indestructible energy shield, blocking Jiang Li’s sword of law.

bang!

There was a loud bang.

It shook the surrounding starry sky.

Jiang Li’s sword of law hit the energy defense of the star of destruction.

Kachaa! “Crack!”

The energy defense barrier was constantly being shattered.

in the end.

It was followed by a loud bang.

The energy shield was completely shattered.

it shattered into light spots that filled the sky.

The sword of law went straight for the firing pin.

“No!”

The higher-ups of the destroyer widened their eyes in fear. They could only watch helplessly as this happened, unable to stop it.

Buzzzzzz!

Suddenly.

‘Particle weapon: needle of destruction’ emitted an extremely rich radiance, but it also appeared to be extremely dark, shrouding the surrounding space.

Palpitations!

Jiang Li’s heart palpitated!

“You succeeded? Did we succeed?”

“That’s great, that’s great, Yingluo.”

“Hahahahaha!”

Excitement!

he was extremely excited!

The highest leaders of the destroyer were extremely excited.

They seemed to have seen the hope of survival, as if they had seen the beautiful future of the ‘destroyer’. They widened their eyes and stared at it.

Bang!

The next moment.

There was a loud bang.

The ‘destruction clashing needle’ directly exploded. The ‘laws’ that were too strong and dense caused the ‘destruction clashing needle’ to be unable to withstand it.

Hence.

It created an unparalleled explosion.

Chacha.

It was precisely this kind of unparalleled explosion that contained destructive power. At the same time, in the depths of the explosion, 'destructive particles' were produced. However, these 'destructive particles' were only a scene that flashed past.

It was just a fleeting scene, but it also produced an extremely powerful force, like the waves on the lake, spreading in all directions.

Kachaa! Kachaa!

the space couldn't bear it.

Cracks appeared and spread out like a spider web.

BOOM!

After that.

The destructive explosion covered Jiang Li's 'sword of law' and attacked.

It caused an explosion.

Bang Bang Bang Bang Bang Bang

There were countless explosions.

...

Jiang Li's 'sword of law' exploded.

The sword ray exploded into countless pieces.

They all collapsed.

not only that.

Jiang Li was also sent flying by the force. The storm that contained the power of the 'destruction particles' shook Jiang Li's blood and Qi. His internal organs were almost injured.

He flew back nearly half a light year.

Jiang Li finally steadied himself.

In the end.

Everything was settled.

The energy of the universe slowly stabilized.

The light from the explosion also gradually dissipated.

...

After that.

The scene that entered his eyes.

It was an empty space.

The planet of annihilation, the destroyer's headquarters, and the many artificial planets around it had all disappeared. They had all been destroyed by the power of the 'destruction particles'.

Buzzzzzz! Buzzzzzz!

suddenly.

Soul Fire Seeds flew towards Jiang Li.

He captured all of them.

[acquired a level 12 soul Tinder!]

.....

[acquired a level 12 soul Tinder!]

.....

A notification appeared.

In total.

Jiang Li caught twelve level-twelve soul Tinders.

It was just right.

that was the highest number of twelve leaders in the destroyer headquarters.

In reality.

The twelve highest-ranking leaders of the destroyer headquarters had long abandoned their physical bodies. They had only separated their ‘souls’ and ‘consciousness’ and fused them with the entire ‘star of annihilation’.

There was no distinction between them.

It could be said that ...

The twelve highest-ranking leaders of the destroyer headquarters had lost their ‘seven emotions and six desires’ as living creatures, and only had ‘wisdom’ for the development of the destroyer.

Unfortunately ...

The so-called ‘intelligence’ of the destroyer’s headquarters was destroyed by Jiang Li’s mechanical fleet and Army.

“Hu ~~ Hu ~ Hu ~”

I’m fine. Jiang Li exhaled and put away his sword slowly. He circulated his cultivation technique to calm his qi and blood down. His expression gradually calmed down, but there was a spark of wisdom in the depths of his eyes.

It was because he seemed to have seen an opportunity for a ‘breakthrough’.

just now.

The moment the ‘destruction particle’ was born.

Even though ...

it only lasted for a short moment.

However, in this short moment, Jiang Li saw the birth of ‘particles’ and the birth of ‘rules’.

This was a rare enlightenment.

Of course.

it was almost impossible to ‘create rules’ one by one. jiang li had just grasped this opportunity. it was still extremely difficult for him to make a real breakthrough.

no matter what.

at least, jiang li had some ideas now. before, he didn’t have any idea how to break through to level thirteen.

Shua!

The spatial teleportation was activated.

Jiang Li’s figure flashed.

He directly teleported out of this place.

He returned to the battlefield tens of thousands of light years away.

“Yes.”

okay. Jiang Li looked at the battlefield and nodded.

Because on the battlefield.

Jiang Li’s mechanical Army had completely suppressed the destroyer’s fleet. They were pushing forward and were about to win.

Plus ...

The highest leaders of the destroyer headquarters had all been annihilated, causing the 'destroyer' to fall into chaos and endless fear.

Time passed.

in the blink of an eye, three days had passed.

Jiang Li's mechanical Army had completely annihilated all the destroyer's fleets. In the later stages of the war, many of the destroyer's fleets even started to flee.

Not only that.

Many members of the destroyer's civilizations in the major star systems in the area of destruction started to escape, but they were all stopped by Jiang Li's fleet.

If they resisted ...

That was to destroy without hesitation.

As long as they submitted.

they would become a subsidiary race of the great xia empire.

This way ...

The fate of the great Xia Empire was constantly improving.

A month later.

Jiang Li took over the entire 'destroyed area'. During this time, he also found the blood-red area, hero area, magic area, and so on. Fleets from other areas were sent to investigate.

let's go. Jiang Li disappeared all the fleets.

Even so ...

All the major regions of the Milky Way galaxy, as well as the five great human empires, all knew that the destroyer had been destroyed by an unknown fleet.

Furthermore ...

It only took less than a month.

All of them were extremely shocked.

after some investigation.

They all set their eyes on the '01 star map area' that Jiang Li once ruled.

obviously.

The Galactic Hero fleet, the galactic space pirates, and the five great empires of the human race had already suspected 'star map area 01'. They suspected that there was an extremely powerful force in star map area 01.

In reality.

When he carefully read through the information he had read a few years ago, he found something particularly strange.

That was ...

All the fleets and troops that they sent to star map area '01' that Jiang Li was in came back empty-handed. They didn't get any information, nor did they find any traces of civilization. They didn't even find any resources.

Even ...

There would also be situations where fleets and armies disappeared for no reason.

It was precisely because of this.

A region without any civilization, race, or resources was automatically ignored by the major organizations. In addition, it also caused them to lose their military strength for no reason.

of course.

this was because jiang li was monitoring the entire milky way through the no. 40 magical base. he knew all the movements of all the forces in the milky way.

When a Force's fleet or Army arrived on a life-preserving planet with a civilized race, Jiang Li would hide in advance.

There were also various resources.

so,

This created this illusion.

now.

It was too late when the forces realized what was going on. Jiang Li bared his fangs like an excellent Hunter who had his eyes on his prey.

They began to launch deadly traps and attacks.

They won the war.

In the following time.

” let’s go. ” jiang li naturally sent out many mechanical fleets and affiliated armies to the major galaxies in the area of destruction to search for all kinds of resources.

Every moment.

There would be a large number of energy crystals and various resources that would be transported to the No. 40 magical base where Jiang Li was.

Buzzzzzz! “Whoosh!!!”

Jiang Li naturally didn’t refuse.

All the energy crystals were converted into origin points one after another.

Shua!

conversion successful. You’ve received 100 million origin points!

.....

conversion successful. You’ve received 100 million origin points!

.....

Countless notifications appeared.

The origin points in Jiang Li’s hand were increasing like a rocket.

Half a month later.

all the resources in the destroyed area that could be directly converted had been turned into origin points by jiang li.

Shua!

[origin points: 19400 trillion origin points!]

Jiang Li checked the number.

This time.

Jiang Li had taken down the ‘destroyed area’ and gained a terrifying amount of resources. He could build a massive level 12 mechanical fleet.

He estimated.

It was at least 10000 times more than the resources they would obtain from capturing the light Civilization.

Hence.

“Number 040, Hidden Dragon.”

Jiang Li said.

“Chief sovereign.”

thank you. number 040, Hidden Dragon, appeared and saluted Jiang Li. please give me your orders.

immediately create 700000 rank-12 interstellar mech soldiers, including 350000 precept-level advanced motherships and 300000 precept-level advanced Guardian fortresses.

” go! ” jiang li ordered.

“Yes.”

yes. number 40, Hidden Dragon, replied, ” this production will consume a total of seven trillion origin points, one hundred and forty million tons of steel materials, and three hundred and fifty thousand tons of Star Iron.

“I’m sure,”

Jiang Li said.

Chapter 799 dispatch

beginning production. Please wait patiently, my Lord.

number 040, hidden dragon, responded.

At the same time.

in the magical mech factory of the no. 040 magical base, all the production soldiers starting from the 12th floor had been activated at full power, producing a large number of magical-level advanced war motherships and magical-level advanced guardian fortresses.

Buzzzzzz! Buzzzzzz! “Whoosh!!!”

a series of rumbling sounds rang out.

During the period of making level 12 meches on the 12th floor of the magical mech factory.

The blood-red zone, the hero zone, and the zone controlled by the five great human empires.

They sent out different fleets and troops one after another, trying to sneak into the area under Jiang Li’s rule, but they were all monitored by the ‘star map’.

Hence.

let's go. Jiang Li decisively sent out the mechanical fleet and activated 'divine punishment'. They crossed the distance of space and attacked the fleets and troops that were lurking.

They were all annihilated.

A few days later.

"Chief sovereign."

Shua!

Number 040, Hidden Dragon, came and reported to Jiang Li, "the 700000 level 12 mechanical space Soldiers have all been completed. Please take a look, master.

"Alright," he said.

okay. Jiang Li nodded.

Buzzzzzz! Wuwuwuwuwu!

Hence.

700,000 precept-level advanced war motherships and precept-level advanced Guardian fortresses all appeared in the outer space of the No. 40 magical base, forming an extremely large mechanical fleet that surrounded the No. 40 magical base.

"not bad, not bad."

Jiang Li looked at the huge fleet and nodded. He was more and more satisfied.

Buzzzzzz! Wuwuwuwuwu!

Immediately after.

Jiang Li used a lot of origin points to build seven level 12 sub-bases of laws. They all appeared in the form of 'spacecrafts'.

“My Lord!”

Shua! Shua!

Hidden Dragon No. 041, Hidden Dragon No. 042, Hidden Dragon No. 043, Hidden Dragon No. 044, Hidden Dragon No. 045, Hidden Dragon No. 046 and Hidden Dragon No. 047.

a total of seven.

they all appeared and stood in front of jiang li in a row.

At the same time, he saluted Jiang Li.

“Yes.”

okay. Jiang Li nodded in satisfaction and shouted, ” all units, listen up. All the mechanical fleets will be divided into seven fleets. Each fleet will have 100000 soldiers. They will be led by Hidden Dragon 041 to 047.

“yes.”

“We will obey the Lord’s orders!”

“.....”

The other Hidden Dragon puppets responded in unison.

“number 041, hidden dragon.”

stop! Jiang Li shouted.

“Your subordinate is here. Please give me your orders, hegemon.”

Number 041, Hidden Dragon, responded.

you will lead the number 01 mechanical fleet and head to the blood-red region. Eliminate all the galactic space pirates in the blood-red region, occupy the entire blood-red region, and harvest the resources.

go! Jiang Li ordered.

“Yes!”

Number 041, Hidden Dragon, responded.

immediately after.

” go! ” jiang li gave orders one after another.

Among them.

no. 042, hidden dragon, led the no. 02 mechanical fleet and headed towards the ‘hero area’ that the galaxy hero alliance ruled. No. 043, Hidden Dragon, led the No. 03 mechanical fleet to attack the ‘Blue Dragon territory’ occupied by the Blue Dragon Empire. No. 044, Hidden Dragon, led the No. 04 mechanical fleet to attack the ‘heavenly rule area’ ruled by the heavenly rule Empire.

No. 045, Hidden Dragon, led No. 05, and headed toward the ‘great Luo region’ ruled by the great Luo Empire. No. 046, Hidden Dragon, led No. 06, and headed toward the ‘magic region’ ruled by the magic Empire. No. 047, Hidden Dragon, led No. 07, and attacked the ‘outstanding region’ ruled by the dynasty of excellence.

Finally.

jiang li's first mechanical fleet and the affiliated legions all stayed in star map area no. 01 in case the enemy attacked their base.

...

Moreover ...

Lin Tianjian and Wu Wuji didn't use the new battle formation that they had developed when Jiang Li attacked the destroyed area.

In general.

The destroyer's last weapon, the particle weapon: Other than the needle of destruction, none of the other fleets and technological weapons could hurt Jiang Li.

so,

There was no need to use the new military formation that he had developed.

Space teleportation!

Activate!

Buzzzzzz! Buzzzzzz! "Whoosh!!!"

the light shone.

An extremely dense spatial light completely enveloped the seven large mechanical fleets. The seven mechanical fleets were teleported away one after another, leaving this place.

...

They headed to the other seven regions.

The battle began.

okay. Jiang Li only took a few glances and then looked away. He let the hidden Dragon guards lead the interstellar wars in the seven areas.

On the other hand.

The base had been upgraded to level 12 and could now produce level 12 gene strengthening liquid, but Jiang Li didn't have any level 12 spirit herbs.

However ...

Because the 'Master of Games' had been developing and strengthening the players' forces for such a long time, the players' footprints had unknowingly spread to many worlds.

Among them.

There were also three more Supreme-level worlds.

However, there was no small world.

Hence.

Jiang Li asked the 'Master of Games' to release a task to find a 'level-twelve' elixir. After a few days, 'du Qing' from the Confucian realm finished the task.

After confirming the specific situation.

Jiang Li went to the 'Confucian realm' in person to get the level-twelve spiritual herbs.

It was called the Dragon Tattoo vine.

little white, activate the dimensional teleportation.

go! Jiang Li ordered.

“Yes.”

Xiaobai replied.

Buzzzzzz!

The space gradually cracked open, and a white arched gate appeared.

Jiang Li walked into the White arched door.

The scene changed.

He had already arrived in the Confucian world.

The Confucian world.

this was a superior-grade world. the highest combat strength could reach rank-12, which was the limit of the rules. any higher would be the creation of rules and transcendence.

After entering this world.

Jiang Li wasn't interested in knowing too much about the forces in this world. Instead, he rushed to the Wensheng Institute as fast as he could according to the information he got from the mission.

Saint of Wensheng Institute.

In truth, it was the most powerful faction in the Confucian world.

The entire Confucian world.

In total, there were only three types of tier twelve spirit herbs.

They were the ‘Dragon Tattoo vine’ of the human race, the ‘dragon battle Tree’ of the beast race, and the ‘dragon blood flower’ of the ferocious beasts.

Dragon battle Tree, Blood Dragon Flower.

These two Spirit herbs had disappeared for a long time.

Only the ‘Dragon Tattoo vine’ had accurate information.

shua!

Jiang Li’s figure was like light.

In the blink of an eye.

It was the ability to travel extremely far in space.

They arrived at the Wenlong court.

“Sword, come.”

clang!

Jiang Li raised his hand and the ‘demonic sword’ appeared.

Buzzzzzz! Wuuwuwuwu!

His scholarly aura was vast.

It formed a series of ripples.

After that.

from the saint of literature institute, many great scholars, even quasi-saints, and half-saints rushed out. each of them was full of talent, forming a scene of talent soaring into the sky.

“Who are you, Sir?”

“Why did you come to Wensheng Institute?”

“.....”

The leading half-Saints questioned.

“Bring out the ‘Dragon Tattoo vine’.”

everyone. Jiang Li glanced at everyone indifferently.

“You must be joking. The ‘Dragon Tattoo vine’ is a sacred object of the Saint of Literature Institute. How can you take it out so easily? I hope you won’t make things difficult for us and leave on your own. Otherwise, even if a scholar has the guts of a scholar, an ordinary man’s anger can cause blood to splatter everywhere.”

One of the half-Saints said.

“Boring!”

Shua!

Demon Sword! Jiang Li’s eyes were cold. He wielded the ‘Demon Sword’ with his right hand and an unparalleled sword Qi in the shape of a half-moon swept toward the Wensheng Institute.

“You’re so silly!”

“quickly stop him!”

“.....”

Immediately.

The half-Saints shouted, but they didn’t even have the chance to compose a poem, because Jiang Li’s sword was too fast.

Pfft! “Pfft!”

Fresh blood splattered.

Heads fell to the ground one after another.

The two half-Saints who stood at the very least had died.

At this moment.

The literary star dimmed, the literary Qi trembled and rapidly decreased.

The half-Saint had fallen.

It had caused the entire world’s literary aura to weaken.

“No! No!”

Countless people wailed.

“Bring out the ‘Dragon Tattoo vine’.”

Jiang Li said.

“Get it, we’ll get it immediately!”

“Your Excellency, please calm down, please calm down!”

“Hurry up and bring the Lord’s ‘Dragon Tattoo vine’!”

“.....”

The quasi-Saints and great scholars shouted.

Hence.

The whole process took less than half a minute.

He took out the ‘Dragon Tattoo vine’ and stored it in a Saint instrument. Jiang Li took a closer look. The ‘Dragon Tattoo vine’ looked like a sleeping dragon.

“Not bad.”

okay. Jiang Li looked at it and nodded with satisfaction. He immediately put the Dragon Tattoo vine away.

Buzzzzzz!

There was a flash.

Jiang Li disappeared into thin air. After achieving his goal, he left the Confucian realm through the plane channel and returned to the multiverse.

“Hidden Dragon,”

Jiang Li said.

“Chief sovereign.”

The hidden Dragon appeared quickly.

“Yes.”

jiang li took out the dragon tattoo vine and gave it to qian long. ” produce the rank-12 gene strengthening liquid as fast as possible.

“Yes, sir.”

Hidden Dragon replied.

“Yes.”

okay. Jiang Li nodded with satisfaction. send me the images of the battlefields in the seven areas.

“Yes.”

buzzzzzz! Buzzzzzz!

Hidden Dragon waved his right hand and seven screens appeared. They enlarged in front of Jiang Li’s eyes, showing the situation of the seven areas and the war scenes in real time.

“.....”

let’s go. Jiang Li watched the situation on the battlefield silently.

First of all ...

The 'blood red zone' ruled by the Galactic Pirates and the 'hero zone' ruled by the Galactic Hero fleet were both crushed by Jiang Li's fleet.

It could be said that ...

He was at a complete disadvantage.

He retreated step by step.

If the situation continued like this, Jiang Li's mechanical fleet would soon take down the red zone and the hero zone.

In addition.

On the side of the five human empires.

At the beginning.

the dynasty was still at a disadvantage, but after learning about the specific deployment of jiang li's mechanical fleet, they began to 'behead'.

They had sent out an extremely powerful rank twelve Prince.

after that.

With absolute strength, they would break through the blockade of the mechanical Army and charge to the front of the level 12 motherships or the level 12 fortresses, destroying the main motherships and fortresses.

It had to be said.

This tactic was quite successful.

Of course.

This was also related to the extremely powerful individual strength of the Super Fantasy world, which was why they could adopt such a ‘decapitation strike’ to reverse the disadvantage.

however ...

This situation would not last long.

Although Jiang Li’s mechanical fleet suffered a lot of losses, they still had the upper hand. More and more soldiers of the five human empires were dying.

as expected.

Seven battlefields.

jiang li would probably win all the battles.

Of course.

Even if he was confident of winning, Jiang Li wouldn’t be too arrogant. Instead, he became more cautious and concentrated.

Chapter 800 Time and space

In this war.

It lasted for several months.

Jiang Li's mechanical fleet also suffered heavy losses. The Galactic Hero fleet and the galactic space pirates, although they didn't create 'particle weapons', they did create 'pseudo-particle weapons'.

In terms of power.

Pseudo-particle weapons were far inferior to real particle weapons, but they were still above rank-12 and could easily unleash the power at the limit of rank-12.

so,

The seven areas all stopped Jiang Li's attack.

For the time being.

Jiang Li couldn't take down all seven regions in a short time.

"Chief sovereign."

Hidden Dragon No. 040 appeared.

"What is it?"

what's going on? " Jiang Li asked, " is there anything new happening in the battlefields of the seven regions? "

" lord, the situation of the seven battlefields is still under our control. although the enemy is resisting intensely, i am confident of winning. "

Number 040, Hidden Dragon, replied, " I'm here to report to you about the 'destroyer'.

after we occupied the destroyed zone, we collected a large amount of information and knowledge regarding the destroyer technology. We already have most of it.

“However,”

we still found the ‘destroyer’ s research in the field of ‘particles’.

the technology and knowledge of the ‘particle field’, this subordinate guessed that it would be of great use to you, my Lord, so this subordinate has compiled all the knowledge and information on ‘particles’.

“please take a look, chief sovereign.”

Finished speaking.

hidden dragon took out a ‘usb’.

Of course.

This wasn’t an ordinary USB drive, because ordinary USB drives couldn’t store knowledge in the particle domain at all.

“Oh.”

Jiang Li was interested.

One had to know.

Jiang Li had seen the power of ‘particles’ before.

At that time.

The star of destruction’s ‘particle weapon: destruction colliding needle’ was activated. Although it failed, in the process of the final explosion, destruction particles were born.

This power ...

It had already far exceeded the laws.

so,

Jiang Li guessed.

The ‘particle field’ in the ‘multiverse’ might be the ‘rules’ in the ‘Super Fantasy world’. Jiang Li’s eyes lit up and he had a deep understanding of it.

he had vaguely grasped that opportunity.

Hence.

Jiang Li began to read the knowledge about the particle field that Hidden Dragon 040 had compiled. Jiang Li was like a sponge, absorbing the nutrients.

Gradually.

Jiang Li had a basic understanding of the so-called particles.

Three days later.

Jiang Li Read all the knowledge about particles and all the conjectures he had.

Jiang Li also had an idea.

“Hu ~~ Hu ~ Hu ~”

I’m not wrong. Jiang Li exhaled and his eyes glowed. I was right. In the universe, particle weapons are the use of rules.

“This way ...”

the ‘eternal particle’ that the eternal civilization accidentally discovered was actually a manifestation of the ‘law of eternal life’. The ‘eternal particle’ also saved my life and Reforged my body.

Thinking of this ...

Jiang Li’s eyes suddenly lit up.

“If you put it this way.”

Jiang Li thought for a while. my current body is actually reconstructed by the ‘eternal particle’. Has it already surpassed the body of laws? ”

“This way, can I directly skip the ‘level 12’ stage and directly create my own ‘rules’, thus stepping into the realm of transcendence?”

Vaguely.

...

Jiang Li felt that his guess was right.

He couldn’t help but feel excited.

Time flew by.

Three months later.

“Chief sovereign.”

Hidden Dragon appeared and reported to Jiang Li, ” the level 12 gene strengthening fluid has been developed. It can be produced immediately.

“alright,” he said.

great! Jiang Li was excited when he heard the good news. He had been waiting for this news for a long time. Hidden Dragon, start making it now.

“yes.”

Hidden Dragon replied.

Buzzzzzz!

...

the research center of the twelfth level of the laws.

the research soldiers began to use the origin points to produce the rank-12 gene strengthening liquid.

Time passed.

This time, it took a full minute.

The rank-12 gene strengthening liquid was finally produced.

One had to know.

in the past, the gene strengthening liquid only needed ten seconds to be produced.

“Very good,” he said.

jiang li was very satisfied.

After that.

He directly entered the room in the ruler's hub.

bring me the rank-12 gene strengthening liquid directly.

" go! " jiang li ordered.

"Yes."

hidden dragon replied.

Buzzzzzz!

Spatial teleportation.

The rank-12 gene strengthening drug was directly transported from the shelf on the 12th floor of the Research Center to the room in the ruling hub and appeared in front of Jiang Li.

Immediately after.

the rank-12 machine law research soldier also came.

"Begin injection."

Jiang Li said.

"Yes."

yes, " the soldier replied. He walked to Jiang Li with a small syringe of level 12 gene strengthening liquid and was ready to inject it.

“Yes.”

” okay. ” jiang li nodded.

The needle pierced through Jiang Li’s skin and into his blood vessel. The soldier slowly injected the rank-12 gene strengthening liquid into Jiang Li’s blood vessel.

“Whoosh!!!”

After the rank-12 gene strengthening liquid was injected into Jiang Li’s blood vessels, his heart beat faster and the gene strengthening liquid spread throughout his body along with his blood flow.

After that.

The medicine was starting to take effect.

The 12 basic laws were integrated into Jiang Li’s body.

Immediately.

Jiang Li’s understanding of the twelve basic laws was getting deeper and deeper.

Time passed.

A day later.

The medicinal effect was fully displayed and produced.

at this moment.

Jiang Li’s body had become a body of law, but it could only be achieved with the help of level 12 gene strengthening liquid.

Jiang Li didn't cultivate it himself.

so,

The difference was still not small.

However ...

Because of the rank-12 gene strengthening liquid, Jiang Li's understanding of the time law had gradually deepened. He was now very confident that he could comprehend the time law.

Of course.

He still needed time to comprehend it.

Jiang Li was almost 90% sure that he could break through to the early stage of level twelve.

As long as he was in seclusion.

basically, he would be able to break through directly.

Of course.

The current situation ...

The war in the seven regions was still going on. It wasn't time for Jiang Li to cultivate yet. He would only have enough time to break through after the war was over.

However ...

Jiang Li decided to go into seclusion.

“Hidden Dragon,”

stop! Jiang Li shouted.

“Chief sovereign.”

Buzzzzzz!

Jiang Li. Hidden Dragon came to the room and saluted Jiang Li.

I’m going to go into seclusion now. I’ll give you the authority to mobilize the origin points. You can use the origin points according to the specific situation.

go! Jiang Li ordered.

“yes!”

Hidden Dragon replied.

“Go on.”

Jiang Li waved his hand.

Hidden Dragon then left.

Buzzzzzz! Buzzzzzz!

he activated his cultivation technique.

The vast feedback energy of the Empire’s fate descended and merged into Jiang Li’s body. Jiang Li gradually absorbed the energy.

At this moment.

The rank-12 gene strengthening fluid and the energy from the Empire's fortune were both used to enhance the energy.

Jiang Li's understanding of the laws was getting deeper and deeper.

First of all ...

jiang li quickly understood the law of light and the law of ice completely and integrated the two laws into his main imperial number law.

time passed.

Jiang Li had been in seclusion for a long time.

In the end.

" time law. " jiang li used up all the energy from the dynasty's fortune and the aura of the time law brought by the gene strengthening liquid before he could truly comprehend the time law.

At this moment.

Metal, wood, water, fire, and earth.

They fused to form the 'five elements'.

Darkness and light.

the fusion formed 'yin and yang'.

time and space.

the fusion formed 'spacetime'.

Plus ...

Sword Dao, lightning law, and ice law.

There were a total of twelve laws.

It merged into his main 'Imperial number law'.

He had reached his limit.

Three days later.

Jiang Li strengthened himself. He was only one step away from breaking through to level twelve and transforming his body and soul with the Imperial number law.

However ...

When Jiang Li was trying to turn it into laws.

He suddenly realized.

His body and soul seemed to have undergone some kind of mutation.

In reality.

This was because of the 'eternal particle'.

Back then.

when jiang li entered universe ocean, he was corroded by ‘nothingness’ and almost died. in the end, it was the eternal particle that changed jiang li.

Only then did he survive.

Vaguely.

Through all sorts of comprehensions.

Jiang Li felt that as long as he created his own ‘rules’, he would be able to skip the’ level twelve ‘stage.

One step of transcendence.

Of course.

This was extremely difficult.

However ...

There was still a chance.

As long as Jiang Li could unify the Milky Way and subdue all the civilizations and races in the Milky Way, he would have a vast fortune of the Empire.

He would have a great chance of taking this step.

As for the ‘law of eternal life’.

Jiang Li gave up.

Because ...

the 'rules of immortality' had been created by an unknown being. if jiang li chose the 'rules of immortality', he would be controlled by the' lord of eternal life 'forever.

It was a complete disregard for the essentials.

In reality.

the imperial number law was jiang li's first choice.

If he could sublimate the Imperial number law, he would definitely be able to create an unprecedented law and open up a new path in the universe.

he consolidated his cultivation.

Jiang Li came out of seclusion.

after coming out of seclusion.

Number 040, Hidden Dragon, and Hidden Dragon appeared one after another.

He would report to Jiang Li about the battle situation in the seven areas.

first of all ...

Star map area No. 01 had been attacked hundreds of times during the four months Jiang Li was in seclusion. Even rank 12 princes of the Imperial dynasty had come.

However ...

They were all repelled.

although there were some losses, they were all within an acceptable range.

In addition.

In the seven battlefields.

Now that the blood-red region controlled by the galactic space pirates had been defeated, the 01 fleet led by No. 041 Qian Long had the hope of being the first to take down the blood-red region among the seven fleets.

The defeat of the Galactic Hero fleet was also very obvious.

five great empires.

the five human emperors had all descended into the world of the great cosmos.

furthermore ...

He set up a grade-12 military formation and merged the trillions of human soldiers into one. They gradually gained the upper hand on the battlefield.

As a result, Jiang Li's mechanical fleet was forced to retreat.

"Chief sovereign."

yes. Hidden Dragon No. 040 reported, " because you're in seclusion and the situation on the battlefield has changed, after some discussion, we've used the energy crystals we've plundered in the war to create 500000 precept-level advanced war motherships and 500000 precept-level advanced Guardian fortresses through the mech factory.

not long ago, they were all sent out to the seven battlefields.
