

## Army 80

Chapter 80 Medicinal herbs in hand

At this moment.

Black Dragon Mountain.

When the troops of the Black Dragon County arrived, sniper mech JJ01, Intel mech xx05, and the three cold weapon meches at the perfected-stage of level one had already left.

all traces were cleaned up.

After Matthew and the others arrived, they didn't find any clues. It was as if the enemy had appeared out of thin air and then disappeared into thin air. There were no clues or clues.

“Detestable!”

“Withdraw the Army.”

He was helpless.

Matthew had no choice but to retreat and find a way to block the news.

However ...

the news of the black dragon's death was too big, and it caused quite a stir. the news couldn't be sealed for long, and the next day, the news of the black dragon's death spread.

It spread throughout the entire Black Dragon County.

Within the Black Dragon County's jurisdiction.

There were five cities in total.

they were the great xia city, pingding city, five lakes city, hope city, and tianshui city.

The news of Chu Heilong's death had reached the ears of the castellans of the other four cities. The news naturally shocked the entire Black Dragon County.

Since the murderer could not be confirmed, there were all kinds of rumors, which even caused turmoil in the Black Dragon County. The news also spread to the red-browed demon Kingdom and the black snake barbarian kingdom.

The great gan Lord dynasty also found out very quickly.

“The Black Owl dragon actually died.”

pingding city.

Chang Ping looked at the letter in his hand with an expression of disbelief. He said in shock, “Who did this? who would have the ability to kill chu heilong in the ‘junwang’s mansion’? He didn’t even leave any clues behind.”

the Black Dragon County is heavily guarded and sealed. Even if it’s an assassination, it’ll require a level three inborn warrior at the very least.

“What kind of force can send a level three inborn warrior? Could it be the red eyebrows Yao Kingdom? Or the black snake barbarian kingdom? Are they going to make a move?”

Five lakes city.

The city was built in the middle of five huge lakes. Around the city, there were five huge lakes. After they were connected, they formed the city moat.

“It’s been an eventful year.”

city lord's mansion.

luo yanping, the city lord of five lakes city, had a thin face and a deep gaze. he put down the letter in his hand and muttered, "first, there was the qingshan valley incident. the half-monster alliance was behind it. now, the commandery prince was killed."

I'm afraid the Black Dragon County won't be safe for a while. I should be prepared in case I'm caught off guard.

Hope City.

This city was the furthest away from Jiang Li's great Xia city. Its territory was close to another big County of the great Qian dynasty, 'Jinwang County'.

even if something were to happen in black dragon county, hope city would be the safest place for them. they could retreat into jinwang county.

"Haha, it's good to die."

The city Lord of Hope City, Guo Yi, laughed out loud. He did not even bother to hide the smile on his face. Oh, Black Dragon Chu, you're here today too. If it weren't for you, I, Guo Yi, would have been the Black Dragon County's County King Long ago. I might have even broken through the barrier of the celestial bridge and stepped into the Third Order inborn realm.

"But who did it? Heilong Qian's abilities are not small, and he's very strong. Even I'm not his match. To be able to kill Heilong in the 'Junwang's mansion', he's definitely not some unknown person."

guo yi lowered his head and pondered. "could this really be the prelude to the red eyebrows yao kingdom and the black snake barbarian kingdom's attack on the great qian dynasty?"

celestial water city.

The geographical location of this city was close to the wuzu plain. Because of the flat terrain, Tianshui city was easy to attack but hard to defend. However, Tianshui city had blocked several attacks from the black snake barbarian kingdom.

Furthermore ...

Luo Tianshui, the city Lord of Tensui city, was a woman. She was a God at commanding soldiers and was very powerful. Every time she went to battle, she would wear a full body of silver armor that covered her facial features, so few outsiders knew what she looked like.

However ...

In the Black Dragon County, Luo Tianshui was known as the ‘silver-armored Valkyrie’.

“Sister Tianshui, who do you think killed the Black Dragon?”

in the city lord’s mansion of celestial water city.

Luo Tianshui’s residence.

Luo Tianshui’s sister, Luo Yilin, rested her Jade-like arms on the table and her chin on her hands. In front of her was a letter containing the latest news.

Her eyebrows were slightly furrowed, and her smooth, white, and egg-shaped face was filled with confusion.

even Matthew from the Black Dragon County couldn’t find out who it was. How would I know? ”

luo tianshui’s voice came from the inner room, but it was slightly deep and heavy.

“Sister, take a guess.”

Luo Yilin said.

“Yes, if I really have to guess.”

luo tianshui thought for a while and said, ” not long ago, silver eagle from the half-monster alliance created a blood refining formation and made blood refining beads, but it was ruined by the leader of a third-rate gang named ‘jiang li’. he killed all the barbarians, monsters, and the half-monster alliance. ”

...

the blood refining bead is in Jiang Li’s hands too.

Chu Heilong wanted to take Jiang Li’s blood refining bead, so they had a big fight.

“It can’t be.”

Luo Yilin opened her red mouth and her face was full of disbelief. sister Tianshui, you mean Jiang Li killed Black Dragon Qian? ”

“How is that possible? I don’t believe it. Jiang Li can do that? If you want to kill Chu Heilong in the Junwang residence, you’ll need to be at least at the third step of cultivation.”

” how can jiang li be level three? it’s impossible. ”

“Hehe.”

Luo Tianshui just smiled and didn’t say anything more.

sister Tianshui, I think the red eyebrows Yao Kingdom and the black snake barbarian kingdom might be behind this. They want to attack the Black Dragon County, so they killed nie Heilong first to throw the county into panic and turmoil.

Luo Yilin analyzed.

“Let’s not think about this matter anymore.”

...

Luo Tianshui waved his hand. last time, the 10000 barbarian soldiers from the barren city passed through the blockade of Tianshui city and entered the hinterland of the Black Dragon County, but I didn't receive any news.

"I suspect that there's a 'spy' from the black snake barbarian kingdom in Tianshui city. Yilin, I'll leave this matter to you. Quickly find this 'spy' hiding in Tianshui city."

"No problem, leave this to me."

Luo Yilin patted her flat chest and said with confidence, "I promise I'll find out who this spy is within three days."

late at night.

The great Xia city.

Sniper mech JJ01, Intel mech xx05, and the three cold weapon meches who were at the perfected-stage of level one returned successfully.

Jiang Li asked them to return to the team.

At the same time.

It was also on this night.

The team that was escorting the medicinal herbs returned to the great Xia city safely. They were robbed by 'mountain bandits' along the way, but they were easily dealt with by the meches.

there was no danger.

“City Lord, this subordinate was fortunate enough to have not failed you. All these herbs have been safely transported back.”

Hu Dong bowed.

“Yes.”

good job. Jiang Li nodded with a smile and patted Hu Dong’s shoulder. you’ve done well this time. I’ll remember your contribution. You can get your contribution points by registering at the contribution Pavilion.

“Thank you, city Lord.”

Hu Dong was overjoyed.

“Sect leader, elder Hua Tian is still in Pingding city. Although those Chambers of Commerce are trying to stop us, they stopped making things difficult for us after contacting general Dong Lin and receiving his help. The city Lord of Pingding city also offered to help. We’ve already decided on the details of the next deal.”

Hu Dong continued.
