

## Army 801

Chapter 801 Rule

Buzzzzzz! Wuwuwuwuwu!

The images of the battlefields in the seven regions were sent to Jiang Li through the law bases. They were extremely clear.

“Rumble!”

On the interstellar battlefield.

The war was getting more and more intense.

Countless battleships were destroyed, and mechas exploded one after another.

kill!!!

Immediately after.

In the battlefields of the various regions.

with more than 100000 level 12 mechanical interstellar soldiers joining the army, jiang li's mechanical fleets had the absolute advantage.

“No!”

Wails resounded in all directions.

It could be seen.

Countless space pirates 'battleships and motherships exploded and were all destroyed. They were forced to retreat. In the face of the sudden reinforcements, they could not resist.

Three days later.

In the blood-red area.

All the galactic space pirates 'fleets were annihilated. The 01 mechanical fleet destroyed the galactic space pirates and took down the blood-red zone.

Buzzzzzz! Wuwuwuwuwu!

Instantly.

A vast, invisible fate turned into the fate of the Empire and came from all directions. It slowly gushed toward Jiang Li and was devoured.

The body of the Empire's National aura true dragon grew bigger and bigger.

"Very good," he said.

Jiang Li was more and more satisfied.

Seven days later.

in the hero area.

The entire Galaxy Heroes Alliance was annihilated. The mechanical fleet No. 02 destroyed the Galaxy Heroes Alliance and quickly took over the hero area. Jiang Li had already occupied nearly two-fifth of the Galaxy.

Of course.

This was just the beginning.

One after another.

Half a month later.

the blue dragon empire was struggling to resist jiang li's mechanical fleet, which was getting stronger and stronger. even though they had deployed a rank 12 army, they were still no match for jiang li.

The most important thing was ...

The casualties were too heavy.

He had no choice.

The human Emperor, the old dragon, could only take away a portion of the resources. He resolutely gave up the area he had occupied and retreated back to the Super Fantasy world.

In reality.

The war had been going on for a long time.

The five human imperial dynasties had already found out about Jiang Li and knew that he was a human Emperor from the Super Fantasy world. The great Xia Dynasty.

Very quickly.

As the Blue Dragon Dynasty's Army retreated, Jiang Li easily took over the Blue Dragon region.

A month later.

The heavenly rules imperial court, the great Luo imperial court, and the outstanding imperial court.

The three great human empires also retreated and left the great cosmos world.

Obviously.

The four great emperors retreated.

It meant that they had given up on fighting in the great cosmos.

In the end.

only the mage dynasty remained.

They had been guarding the ‘magic area’.

“Rumble!”

Hence.

let’s go. Jiang Li personally led the mechanical fleet. There were a million law-level advanced motherships and a million law-level advanced Guardian fortresses, forming a huge fleet.

army suppression magic area.

...

“Roar!”

The Dragon roared.

At this very moment.

after conquering more than half of the milky way, jiang li's azure dragon had grown to nearly 90 million meters. it was only 10 million meters away from 100 million meters.

right in front.

It was the Legion of the magic Empire that Jiang Li saw.

They had many troops.

Even though the war had been going on for so long.

The number of soldiers had also reached more than five quadrillion.

Furthermore ...

They had already set up five grade-12 military formations.

...

They were powerful.

“Jiang Li.”

Roar!

The next moment.

A Dragon's Roar came from behind the magic Empire's Army. It was a true dragon of the Empire's National aura, which was also 90 million meters long.

It was completely golden.

It was a five-clawed Golden Dragon.

It was extremely dazzling.

its might was extremely powerful.

on the head of the five-clawed golden dragon.

The mage dynasty's human Emperor, 'SCANA', had his hands behind his back, and his eyes were cold. There was an extremely strong killing intent in the depths of his eyes that seemed to have materialized.

“Kill!”

die! Skana shouted and the five-clawed Golden Dragon immediately merged into his body. The power of an Emperor surged and he charged at Jiang Li.

“kill!”

jiang li was also eager to fight. he held the 'demonic sword' and the 'divine palace' above his head. with one attacking and one defending, he charged at skana with the power of law.

The battle of the human emperors broke out.

At the same time.

jiang li's mechanical fleet and skana's empire army also started fighting. the two armies clashed and countless rumbles were heard.

It shook the starry sky.

Clang! Clang!

The sword Qi was everywhere.

Demonic sword energy, sword of domination, sword of law Suan ni

Skills after skills.

die! Jiang Li released all his energy and slashed out countless sword lights, covering Skana. Skana wasn't weak either. He resisted Jiang Li's attack.

One had to know.

Skana was already at the peak of rank-12. In addition, he was a human Emperor and had the enhancement of a rank-12 Army, so his combat power had reached the limit of rank-12.

“Rumble!”

The two sides fought.

Jiang Li waved his sword and Skana waved his knife.

The blade and the sword collided.

It was difficult to determine the winner.

In this great battle.

it lasted for nine days and nine nights.

Jiang Li and Skana fought for nine days and nine nights. They didn't feel tired at all. They fought again and again.

At the same time.

Through this battle, Jiang Li gradually became familiar with all the powers and his understanding of fighting became deeper and deeper. He grew in the battle.

Unknowingly.

The pressure on Skana was getting bigger and bigger.

Gradually.

He was at a disadvantage.

“retreat!”

BOOM!

you’re courting death! Skana roared and slashed with all his strength. He split the space and pushed Jiang Li back at the same time. He immediately retreated and put some distance between them.

“Whoosh!!!”

skana waved his right hand.

immediately.

Space and time split open.

A huge plane channel appeared.

“All troops, hear my order!”

“All troops retreat,” Skana shouted.

“Yes!”

“Hurry up! Retreat!”

don’t fight anymore. His Majesty has ordered us to retreat immediately!

“.....”

the various kings, marquis kings, and generals all shouted out.

Hence.

The various armies began to retreat as they fought, retreating to the plane channel.

In the end.

Jiang Li won. He defeated the magic Empire’s Army and forced them to retreat from the world of the multiverse.

“Jiang Li.”

Skana stood at the entrance of the plane channel and looked at Jiang Li. the world isn’t as simple as you think.

“This time,”

you did win the final victory, but it won’t be so easy the next time. You’ll encounter stronger and more terrifying enemies.

“It is too difficult to make use of the greater world to become a ‘Holy Land’.”

“I’ll see you next time.”

Buzzzzzz!

As soon as he finished speaking.

Skana stepped back, entered the plane channel, and disappeared in the blink of an eye.

Jiang Li didn't chase after him.

It was no longer necessary. Jiang Li had gotten what he wanted. The mage dynasty had retreated and the entire magic area was under his control.

Furthermore ...

Skana was extremely strong. Even if Jiang Li caught up with him, he might not be able to kill him. Perhaps Skana had set up a trap on the other side of the plane channel.

“Congratulations to Your Majesty for winning and unifying the entire Milky Way.”

“Congratulations, Your Majesty!”

“.....”

Buzzzzzz! Buzzzzzz!

Lin Tianjian, Wu Wuji, and the others all came to Jiang Li and congratulated him.

“Yes.”

okay. Jiang Li nodded.

Shua!

His figure flashed.

Jiang Li left the magic area through spatial teleportation and returned to the Djinn system. He entered the room of the maxim Dominator in the No. 40 Maxim base.

The art of the Azure Emperor.

roar! “Roar!”

Green Dragon! Jiang Li activated his technique. The Green Dragon appeared and wrapped around Jiang Li.

Obviously.

Because Jiang Li had unified the entire Milky Way.

hence.

All the time.

There would be boundless fate of the Empire that would surge in from all directions. The Azure Dragon of great Xia would then devour and refine the vast fate of the Empire.

Gradually growing.

Time passed.

Half a year later.

BOOM!

The energy of the universe began to boil.

With the room of the maxim Dominator in the maxim base 040 as the center, the space around it began to shake at a speed faster than light.

“Roar!”

The Dragon roared.

Bang Bang Bang Bang!

In that instant.

It was an Azure Dragon of great Xia that was 100 million meters long. It was extremely life-like, and it was a majestic five-clawed Azure Dragon.

This might.

It instantly spread out.

In that instant.

It covered the entire Milky Way.

All the civilizations and races in the Milky Way galaxy were shrouded in the Dragon’s might of the Empire’s true dragon, and their expressions became extremely respectful.

This phenomenon.

It lasted for three days and three nights.

Finally, it calmed down.

Buzzzzzz!

After that.

The 100 million-meter-long Azure Dragon disappeared into Jiang Li's body.

He merged into it.

Jiang Li opened his eyes.

His expression did not change.

But in his heart, he was extremely happy.

“.....”

Immediately after.

Jiang Li felt the state of his body. After more than half a year and the nourishment of the Empire's fate, Jiang Li was confident that he could directly cross the twelfth level and enter the thirteenth level of the transcendent realm.

Hence.

Jiang Li came out of seclusion the next day.

“Chief sovereign.”

“Congratulations on emerging from seclusion, hegemon.”

“.....”

Shua! Shua! Shua!

Immediately.

Hidden Dragon.

And from Hidden Dragon No. 040 to Hidden Dragon No. 047.

All of them appeared at the first moment.

They all congratulated him.

“Yes.”

okay. Jiang Li nodded and asked, ” how’s the situation in the Milky Way? ”

“reporting to the hegemon, everything is going smoothly.”

yes. Hidden Dragon replied, ” during the seven months that you were in seclusion, we continuously sent out large numbers of mechanical fleets to suppress the chaos everywhere.

“Furthermore ...”

because of the surveillance of the law base, as long as there is chaos in any place, it can be suppressed immediately.

“Also,”

” in the entire milky way, there are a total of 19580 civilizations and races. now, all of them have submitted to the great xia empire and become their subsidiary races. ”

” we’ll transport them through space. ”

in the Milky Way, all the energy crystals that have been mined have been transported to the major law bases, waiting for you to come out and inspect them.

“Alright!”

okay. Jiang Li nodded with satisfaction after he learned more about it. He went to the major magical bases and converted all the energy crystals stored in them.

## Chapter 802 Transcendence

Buzzzzzz! Buzzzzzz! “Whoosh!!!”

When Jiang Li was converting the energy crystals, there was a bright light and notifications popped up one after another.

” conversion successful. you’ve received one trillion origin points! ”

.....

conversion successful. You’ve received one trillion origin points!

.....

Hence.

When Jiang Li finished converting all the energy crystals, he got 113.5 trillion origin points in total.

such a large number of resources.

It was hard to estimate.

Of course.

Jiang Li had converted all the resources in the Milky Way to get so many origin points.

One had to know.

And this was just the Milky Way.

In the entire great cosmos.

It had countless galaxies like the Milky Way.

It was hard to imagine.

The great cosmos world contained an enormous amount of resources.

This way ...

After Jiang Li harvested all the resources in the Milky Way, he probably wouldn't have to worry about resources anymore.

A violent Army that could go all out.

he didn't need to worry about not having enough origin points.

“Alright, alright, alright.”

Jiang Li's eyes lit up with excitement.

Immediately after.

Qian Long and the others handed over their technological knowledge about the Galaxy Pirates and the Galaxy Heroes Alliance to Jiang Li. Most of it was about the particle field.

Jiang Li Read it carefully.

Half a month later.

Jiang Li finally understood the knowledge.

In the following time.

Jiang Li sent ten million level 12 mechanical interstellar soldiers into ten different fleets with ten bases of laws-spaceship mode commanders.

They headed in ten different directions and began to explore the surrounding universe and galaxy groups.

In addition.

Jiang Li went into seclusion.

This time, he was in seclusion.

jiang li didn't go back to the super fantasy world. instead, he continued to cultivate in the room of the maxim dominator in the no. 40 maxim base.

It could be said that ...

Jiang Li was well-prepared.

This time.

he would definitely be able to create the rules and step into the thirteenth level of the transcendent realm.

Around the No. 040 magical base.

There were many soldiers protecting Jiang Li from being disturbed.

Time passed.

In the room of the chief sovereign of laws.

Buzzzzzz! Wuwuwuwuwu!

jiang li adjusted his state of mind.

In the blink of an eye.

A month had passed.

Shua!

With a thought.

let's go. Jiang Li activated his cultivation technique and his consciousness left his body. He crossed the obstacles of time and space and entered the world of the true dragon List.

At this moment.

Jiang Li had already noticed.

...

His illusionary body wasn't on the seventh rank of the true dragon List, but on the sixth rank. He was in the lower-middle of the Imperial dynasty's ranking.

in other words ...

The great Xia Empire was no longer a lower-level Empire.

Instead, it was a middle-level imperial dynasty.

it was a huge improvement.

It could be said that ...

After Jiang Li took over the Milky Way, he directly skipped the seventh level and entered the sixth level.

Currently.

The great Xia Empire was ranked 69980.

He was at the end of the line.

Buzzzzzz! buzzzzzz! Wuuwuwuwu!

...

The true dragon Roll glowed and a purple-gold light appeared. It left the true dragon Roll and flew to Jiang Li, merging into his body and disappearing.

BOOM!

In that instant.

Jiang Li felt a vast amount of knowledge enter his mind.

First of all ...

It was the ‘Azure Emperor Art’.

This time.

The Azure Emperor Art’s advancement was not small.

He had reached level 13.

The most important thing was ...

huh? ” Jiang Li just realized.

After stepping into the transcendent realm.

The division of realms no longer had the division of initial stage, intermediate stage, late stage, and perfection. Transcendent realm was transcendent realm. There was no division of early, middle, and late stage.

Jiang Li was trying to understand the level thirteen Green Emperor Art.

At the same time.

Jiang Li compared the level thirteen Green Emperor Art with the technology in the particle field that he had learned recently.

Unknowingly.

Jiang Li had a deeper understanding of the transcendent realm.

Shua! “Whoosh!”

As the purple-gold lights merged, Jiang Li got one reward after another.

‘Reward 2:999 world law origin’

.....

‘Reward 3: Medium-level National aura military formation secret technique.’

.....

‘Reward 4: the Empire’s sacred artifact will be upgraded.’

.....

‘Reward 5: Medium-grade spacetime secret skill.’

.....

Five rewards.

Jiang Li received all of them.

Buzzzzzz!

His consciousness left the illusionary body and returned to his main body.

“Hu ~~ Hu ~ Hu ~”

Jiang Li opened his eyes and let out a breath.

Shua!

[captured 999 world law origin source!]

In front of him.

A notification popped up.

However ...

Jiang Li didn't have any mechanical origin units to unlock.

However ...

The world law origin source's function was not limited to this.

buzzzzzz! Buzzzzzz! "Whoosh!!!"

next.

Green Emperor Art. Jiang Li started to practice the level thirteen Green Emperor Art.

Roar! "Roar!"

The Dragon roared.

okay. Jiang Li entered the zone.

"Rumble!"

At the same time.

The boundless energy of the Empire's fortune descended and poured into Jiang Li's body. He entered a mysterious state of enlightenment.

He activated his cultivation technique.

A day later.

Jiang Li successfully switched to level thirteen Green Emperor Art.

after that.

Jiang Li started to try to break through.

First of all ...

What Jiang Li needed to do now wasn't to form the origin of laws and reach level twelve, but to create his own rules.

Because ...

Jiang Li injected level 12 gene strengthening fluid and the modification of the eternal life particle.

he could already directly cross the 12th step.

However ...

It was extremely difficult to create one's own laws. Who knew how many peak rank 12 existences had been trapped in this step?

He had exhausted all his thoughts and means.

In the end.

It was difficult to create laws.

In the end, he was helpless.

Some became the vassals of the ‘master of the natural order’.

it was similar to the relationship between a master god and a god follower.

time passed.

In the blink of an eye.

It had been five years.

Before Jiang Li went into closed-door cultivation, he was confident that he could break through and enter the transcendent realm.

but ...

When he really went into closed-door cultivation to try.

He discovered.

It was too difficult.

It was simply too difficult.

Jiang Li had tried everything, but he couldn’t make it. There were even a few times when he almost integrated the ‘law of immortality’.

However ...

Jiang Li restrained himself.

He believed in himself.

He would definitely succeed!

He definitely could!

During his seclusion.

although the milky way had participated in several interstellar wars that swept across the entire milky way, under the unified command, it developed at a flourishing speed.

On the contrary, it was getting stronger and stronger.

In addition.

the ten universe exploration fleets also sent good news one after another. they had all discovered different star clusters around the milky way.

This included the major Magellan Galaxy, the minor Magellan Galaxy, the Andromeda Galaxy, the Orion Nebula, the long Yun Galaxy, the Ursa Galaxy, and the cigar Galaxy.

The ten major galaxy groups.

None of them had been unified.

The forces of the Super Fantasy world were still at war with the civilizations in their respective star systems.

“The chief sovereign is currently in seclusion.”

let's go! Hidden Dragon sent a message to the others, ” continue to monitor the surrounding ten major galaxies and report the specific situation of the ten major galaxies at all times.

” i believe that with the ruler’s personality, as long as he successfully breaks through, he’ll definitely form a fleet and attack the ten major galaxies around him. ”

“Yes.”

“Understood.”

I’ve already sent out a small team of energy soldiers.

don’t worry. We’ll have more accurate information soon.

“.....”

The other ‘hidden dragons’ quickly responded.

In the room of the chief sovereign of laws.

“Emperor Suan ni Emperor Suan ni”

Buzzzzzz! Buzzzzzz!

Jiang Li fell into a dilemma. He focused on the ‘Imperial number law’ because it was his main law. Also, Jiang Li had a feeling that if he could create the ‘Imperial number law’, he would be able to truly transcend.

the ‘imperial number rule’ was created for jiang li.

However ...

Jiang Li didn’t care how he tried, but he failed again and again. He didn’t even know how many times he had failed.

however ...

The energy from the dynasty's fortune hadn't been exhausted yet, so Jiang Li wasn't discouraged.

“dominator mode!”

BOOM!

At this moment.

Jiang Li used his origin points and entered ‘dominating mode’.

Hence.

Countless streams of data appeared on Jiang Li's body. It was like a chain of data made of countless numbers that surrounded Jiang Li.

At this moment.

Jiang Li was calm.

He had seized the opportunity.

“No! no!”

Shua!

no, no. I was wrong from the beginning. I was wrong! Jiang Li said as if he had seen the sun and moon.

“It's not Imperial divination! it's not the imperial divination!”

Jiang Li shouted in his heart.

“Mechanical!”

BOOM!

Jiang Li’s body was shaking when he shouted this word in his heart. He felt completely comfortable as if he had gotten rid of all the restraints.

“The law of machinery!”

buzzzzzz!

Jiang Li opened his eyes and changed the ‘Imperial number law’ to ‘machine law’.

He had time.

It’s just a blind leaf.

At this moment.

Jiang Li’s mind was clear.

the most important thing was ...

The ‘law of machinery’ began to transform.

It was transforming towards the laws.

Buzzzzzz! Buzzzzzz! wuwuwuwuwu!

From head to toe.

Jiang Li's body trembled slightly and started to disappear, but it also started to reform. The body that was formed by the eternal life particle disappeared.

At this moment.

The mechanical precepts had transformed into mechanical laws.

at this moment.

Jiang Li created the mechanical rule.

Hence.

Jiang Li was reborn.

With the 'machinery laws' as the main force, it reunited its body and soul.

From the inside out, from the outside in.

He had undergone a complete transformation and transcendence.

Time passed.

this advancement.

It lasted for a full nine years.

nine years had passed.

The energy from the Empire's fate was also exhausted.

At the same time.

Jiang Li had also successfully created the mechanical rule and entered the level thirteen transcendent realm.

Jiang Li had transcended.

Everything. Everything.

There was a qualitative change.

a month later.

Jiang Li came out of seclusion.

There was a particle floating in Jiang Li's right palm, glowing.

It was the 'eternal particle'.

Shua!

[ prompt: you have sensed the 'law fragment of immortality'. Do you want to absorb it? after successful absorption, you will be able to develop a new type of rule troop. ]

"Oh."

" oh. " jiang li reacted. " so this is what you want. "

"Confirm absorption."

Jiang Li said.

## Chapter 803 consumption

“Whoosh!!!”

The ‘eternal life particle’ in Jiang Li’s hand emitted a faint light, and the fluctuation of the light became stronger and brighter as if it was resisting some kind of power.

Shua!

The next moment.

The light disappeared.

The eternal particle also disappeared at the same time.

[ captured a ‘law fragment of immortality’! ]

A notification appeared.

Ten seconds later.

[ unlocked ‘mechanical rule Army Type: eternal spear’ ]

another notification popped up.

“Alright!”

” finally! ” jiang li was overjoyed. ” there’s a new type of troop. ”

without any hesitation.

create ‘mechanical rule soldier type: eternal spear’.”

go! Jiang Li ordered.

Buzzzzzz! Buzzzzzz!

[ create a soldier type of ‘mechanical rules’: [ eternal spear ‘requires one trillion origin points! ]

“I’m sure,”

Jiang Li said.

Shua!

The manufacturing interface appeared.

A total of one trillion origin points fused into it and slowly disappeared. The ‘eternal spear’ became a long, gray spear.

Countless light spots filled the space, and the illusionary ‘eternal spear’ gradually solidified.

A minute later.

[ creation complete! ]

A notification popped up.

“Alright,” he said.

buzzzzzz!

The ‘spear of eternal life’ appeared in front of Jiang Li. It was a two-meter-long gray spear, floating in front of him.

Jiang Li reached out his hand.

he held the body of the eternal life spear.

After that.

Jiang Li felt the fluctuation of the law of immortality. Although it wasn't very strong, it contained the law of immortality and was comparable to a real particle weapon.

Such power.

It had far surpassed any universe law weapon.

Shua!

Jiang Li checked the basic information of the eternal spear.

[ rule soldier type: eternal spear ]

[ rank: rank 13 ]

No.: Yszm

rank 13 skill: light of eternal life ”

[ rule mech: this is a rule mech created from the 'law of eternal life'. Since the 'law of eternal life 'was created by the' Lord of eternal life', the 'spear of eternal life' is a one-time consumable. ]

promotion condition: can not be promoted!

Finished checking.

Jiang Li's expression didn't change.

"It's actually a one-time use item."

"that's beyond my expectations." jiang li muttered.

Obviously.

It wasn't easy to create a level 13 mech with rule power. The rule fragments could only be used once.

However ...

this way ...

The 'super god game Legion' already had the 'immortal particles' as a template and could continuously copy the 'law fragments of immortality', thus creating the eternal Spears.

...

After that.

After Jiang Li got familiar with the power of the 'spear of eternal life', he left.

"Welcome, hegemon,"

Outside.

The hidden dragons came forward to welcome him.

"Yes."

okay. Jiang Li nodded.

Half a month later.

Through Qian Long's report, Jiang Li had familiarized himself with the changes in the Milky Way and the ten major galaxy groups around it.

"not bad."

okay. Jiang Li nodded in satisfaction.

...

hence.

half a year later.

One after another.

the mechanical fleets that were sent to other star systems all came back with news. jiang li now had a basic understanding of the ten major star systems around the milky way.

Among them.

The great Magellan system.

Currently.

The demon race had sent many lower imperial dynasties to the great Magel system. The war had lasted for decades, and there were only three of the many lower imperial dynasties left.

In addition.

All the civilizations and races in the Magellan system had been wiped out.

There were only three demon imperial dynasties left to decide the winner.

They were the heavenly feather Empire, the black candle Empire and the Mowu Empire.

mini magellan system.

It was currently occupied by the Barbarian Empire.

Andromeda Galaxy.

Currently, it is occupied by the demon race.

The Orion Nebula.

Currently, it is occupied by the demon race.

The prosperous luck star cluster.

Currently, it was occupied by the God race.

Cigar Galaxy group.

currently, it was ruled by the ghost clan.

.....

In the major galaxy groups.

Basically, they had fallen into the hands of the various races in the Super Fantasy world one after another. Those original civilizations and races had either been destroyed or subdued.

create 100 million level 12 mechanical interstellar soldiers.

build fifty million low-level advanced motherships and fifty million low-level advanced fortresses. Jiang Li ordered all the bases.

“Yes.”

“Yes, sir.”

“.....”

The hidden Dragon Gang responded.

the manufacturing this time.

Jiang Li used a trillion origin points, 20 billion tons of steel materials, and 50 million tons of Star Iron.

This bit of resources.

For Jiang Li, it was not a big deal.

It was a drop in the bucket.

It could be made easily.

another half a month passed.

“Chief sovereign.”

” yes. ” hidden dragon came to report. ” the 100 million level 12 mechanical interstellar soldiers have all been completed. ”

“alright,” he said.

Jiang Li was overjoyed.

“All of you, move out.”

Buzzzzzz! Wuwuwuwuwu!

Hence.

Many mechanical battleships and fortresses were teleported out of the magical mech factories in the major magical bases.

All of them had arrived in outer space.

They gathered together.

they formed a vast mechanical fleet.

There were many of them.

“All troops, hear my order!”

let’s go. Jiang Li shouted, ” one hundred million level 12 mechanical Galactic soldiers will be divided into ten mechanical fleets. Each fleet will have ten million mechanical Galactic soldiers.

“among them,”

every five million law-level advanced motherships and five million law-level advanced Guardian fortresses will form a mechanical fleet. In addition, each fleet will be equipped with a ‘law base-spaceship mode’.

start a war against the 10 major galaxy groups around the Milky Way.

“Yes.”

“Yes, sir.”

“We will obey the chief sovereign’s orders.”

“.....”

The mechanical soldiers followed Jiang Li’s order.

“very good,” he said.

Jiang Li was more and more satisfied.

buzzzzzz! buzzzzzz! “Whoosh!!!”

The spatial teleportation was activated.

With the power of the ‘law base’, it was enough to easily travel through space.

In the blink of an eye.

The ten mechanical fleets were all teleported away one after another.

among them.

Magical base 041 led the brand new mech fleet 01 to the Grand Magellan system, while magical base 042 led the brand new mech fleet 02 to the lesser Magellan system.

And so on.

Finally.

Jiang Li also built three more bases.

They were respectively magical sub-bases No. 048, No. 049, and no. 050. fleet 08, fleet 09, and fleet 010.

Hidden Dragon and number 40 will stay in the Milky Way.

In addition.

jiang li also left behind ten million level 12 mechanical interstellar soldiers to protect the milky way.

This was to prevent their base from being attacked.

In the following war.

There was no surprise.

jiang li would start a war with the major galaxies around the milky way and then occupy all the major galaxies around it, making them part of the great xia dynasty's territory.

it could be said that ...

As long as there was no level thirteen 'transcendent realm' existence.

jiang li's current 'mechanical fleet' was basically invincible.

In reality.

Jiang Li didn't care even if the 'transcendent realm' appeared, because he was already a level thirteen 'transcendent realm' and the 'spear of eternal life' could resist the power of particle weapons.

Jiang Li was already on the winning side.

Buzzzzzz! Wuwuwuwuwu!

The scene appeared.

the scene of the ten mechanical fleets was transmitted to jiang li through the 'energy communication'.

a few days later.

The 01 mechanical fleet arrived at the great Magellan system.

In reality.

The next battle didn't need any tricks at all. Jiang Li directly ordered the No. 01 mechanical fleet, led by No. 041 Hidden Dragon, to launch an attack.

A frontal attack.

"Kill!"

kill!!!

BOOM! BOOM! BOOM!

Battle cries shook the heavens.

In that instant.

A vast war broke out.

“Hu ~~ Hu ~ Hu ~”

Jiang Li let out a long breath.

a day later.

jiang li's no. 02 mechanical fleet attacked the little magel system.

Two days later.

Fleet 03 had attacked the Andromeda Galaxy, while fleet 04 had attacked the Orion Nebula.

Three days later.

The ten major galaxy groups were all at war.

Jiang Li was like the mastermind behind the scenes, controlling everything.

After the war broke out.

jiang li had only observed for seven days.

Everything was as Jiang Li expected.

The ten major galaxy groups.

There were no transcendent realm experts, nor were there any Level-7 civilizations that had mastered particle-based weapons.

Hence.

Jiang Li was relieved.

however ...

He was being cautious.

jiang li used another 99 trillion origin points to create 99 'eternal spears' that could be used at critical moments.

so,

Jiang Li left the battle to Qian Long and the others.

Jiang Li, on the other hand, went into seclusion again.

In reality.

As Jiang Li's cultivation became higher and higher, he had even reached the transcendent realm and created the 'machine rule'. The 'super god game Legion' was no longer of much help to Jiang Li.

At the very least.

The 'super god-like game Legion' could no longer create a real 'regular army'.

The 'spear of eternal life' was a one-time use weapon.

Furthermore ...

If the Lord of eternal life appeared ...

Could he still control the ‘spear of eternal life’?

Jiang Li was also suspicious.

little white, open the plane channel.

let’s go back to Saint peace state, ” Jiang Li ordered.

“Yes.”

Xiaobai replied.

Buzzzzzz!

time and space split open.

A white arched gate appeared.

Jiang Li walked in.

His figure disappeared.

The scene changed.

soon, jiang li returned to the saint peace state and appeared next to the ‘immortal palace’.

He hadn’t returned to holy peace state for decades.

The changes in the Holy peace Region were huge.

First of all ...

the spiritual qi was extremely abundant.

In addition.

Due to the nourishment of the Empire's fate, more and more geniuses appeared in the great Xia Empire. In addition, new secret realms and floating continents were born.

Everything was developing in a good direction.

“your majesty.”

“We welcome Your Majesty's return.”

“.....”

Shua! “Whoosh!”

immediately after.

Hong Tianqi, Xu Ya, Lord Chi, Elder Brown, and the others.

they quickly came to greet jiang li.

“Yes.”

Jiang Li just nodded.

Soon after.

After Jiang Li learned more about the development of Saint peace state in the past few decades from Lord Chi and the others, he went to the cultivation room in the imperial capital.

he went into seclusion.

“Your Majesty is really in a hurry.”

Hong Tianqi exclaimed.

“It’s been so many years, but I feel like her Majesty’s appearance hasn’t changed at all,”

Xu Ya said.

“.....”

Lord Chi and Elder Brown kept silent.

## Chapter 804

Within the closed-door cultivation room in the imperial capital.

Buzzzzzz! Buzzzzzz!

Jiang Li had entered seclusion.

He activated his cultivation technique.

The true dragon of the great Xia appeared.

At this very moment.

Jiang Li's mechanical fleet went to the other ten major star systems and conquered one civilization after another, making them the subsidiary races of the great Xia Dynasty.

Territory expansion.

Wait, wait, wait.

There was an invisible fate energy that was gradually transforming into the fate energy of the Empire. It transcended the barrier between time and space and was slowly absorbed by the Azure Dragon of the great Xia Dynasty.

After that.

jiang li directly absorbed the energy from the dynasty's fate.

he used the energy from the feedback to cultivate.

In reality.

after the 'azure emperor art' was raised to the 'thirteenth level', it had already reached its limit. it was impossible to raise it to the fourteenth level. the path of raising the 'azure emperor art' 'by relying on the country's fate ranking had already reached its end.

Because ...

Jiang Li had created a new 'rule', an unprecedented 'rule'.

so,

He wanted to continue improving.

" green emperor art. " jiang li had to create the fourteenth level of the art by himself.

Perhaps.

At that time.

The 'Azure Emperor Art' was not the 'Azure Emperor Art'.

However ...

With Jiang Li's current situation, it was impossible for him to create the fourteenth level of the 'art of the Azure Emperor'. The success rate was not even one in a billion.

Jiang Li knew it himself.

so,

Jiang Li didn't try to create a level 14 'art of the Azure Emperor'. Instead, he started to practice the rewards he got from the world of the true dragon List.

The first one.

A medium-level National aura military formation secret technique.

Buzzzzzz! Wuwuwuwuwu!

jiang li entered a state of enlightenment. his comprehension ability increased greatly. all kinds of profound secret techniques of the 'medium-level national aura military formation' flowed in his mind.

After that.

Jiang Li started to focus on studying.

Time passed.

Cultivation knew no time.

The world of the great cosmos.

The ten major galaxies around the Milky Way.

Monster race, barbarian race, God race, devil race, and ghost race.

The five great races.

Every two races occupied two galaxy groups.

Currently.

Jiang Li's ten major mechanical fleets had officially started a war with the five major races in the ten major galaxy groups. Both sides were extremely powerful and it was difficult to determine the winner in a short time.

However ...

Jiang Li's mechanical fleet had the advantage of numbers, not to mention that they were all level 12. Even though they were not as strong as the five clans in the Super Fantasy world, they still had the upper hand.

so,

the five major races kept closing the battle line. jiang li's mechanical fleet was even more aggressive. they kept forcing and occupying the territories of the ten major star systems.

At the same time.

Then, they would continue to subdue different civilizations and races.

For a moment.

The Fortune of the great Xia Dynasty kept rising, which also gave Jiang Li's vast fortune of the dynasty energy. He was completely immersed in cultivation.

The world of the true dragon Roll.

Many empires.

...

They could all see it.

on the sixth level.

the ranking of the "great xia empire" was actually rising at a sky-high speed. in just half a year, it had risen from the 69980th rank to the 61320th rank.

He estimated.

With such a speed of improvement ...

He would probably break through the 60000 and enter the 'fifth tier'.

It could be said that ...

this rate of improvement made many of the emperors feel terrified.

It was hard to believe.

Five years later.

The Orion Nebula.

...

“We welcome the arrival of the Supreme demon follower, Lord liermore Cole.”

On the battlefield.

Numerous Devils prostrated themselves on all fours and howled towards the sky.

“Whoosh!!!”

Space and time crumbled.

There weren’t too many strange things happening.

However, there was a huge vortex above the interstellar battlefield.

it was like a black hole.

immediately after.

A figure flew out of the black hole-like vortex and landed on the interstellar battlefield. He looked down at the interstellar war in the entire Orion Nebula.

He looked closer.

It was a tall and slender demon with long blood-red hair and a pair of crow-like wings on his back. He had a handsome face and a pair of slender sword-like eyebrows.

Liermore Cole.

He was one of the many ‘followers’ of the demon race.

Devil follower.

The meaning was ...

The subordinates of the ‘devil Lord’.

“Devil Lotus,”

Buzzzzzz!

Liermore spread out his right hand, and a twelfth-grade demonic Lotus slowly condensed from terrifying Mystic ice appeared in his palm.

“Fall of the world.”

BOOM!

Liermore waved his hand.

The ‘devil Lotus’ flew out and landed on Jiang Li’s mechanical fleet.

“Attack!”

“Kill!”

“Law energy beam cannon, get ready!”

“Fire!”

“Fire!”

“.....”

Bang Bang Bang Bang!

In that instant.

Countless energy beams that contained the power of the laws enveloped almost half of the battlefield and blasted towards liermore.

However ...

The devil Lotus was spinning gently.

immediately after.

The ripples contained the power of laws, which were completely materialized.

In that instant.

It spread.

“Rumble!”

Countless explosions were heard.

All the energy beams that contained the power of the laws were completely annihilated by the ripples of the devil Lotus. They all exploded and scattered, unable to hurt liermore Cole.

Even to the extent that ...

They could not even get close to Liermore.

furthermore ...

Liermore's attack was not over yet.

The ripples of the 'devil Lotus' continued to spread. Not only did it block all the attacks, but it also continued to spread, destroying countless energy soldiers, energy warships, Guardian soldiers, and energy Guardian ships.

It formed a vacuum.

Buzzzzzz! wuwuwuwu!

The low-level advanced war mothership and the low-level advanced Guardian fortress all activated their energy defense, forming a vast light screen to defend.

Even so ...

There were still many motherships and defensive fortresses that were destroyed.

"BOOM!"

The next moment.

The 'devil Lotus' landed in the center of the mechanical fleet and exploded. The power it produced shattered space and even tore apart time and space.

It caused the space and time within the range of the explosion to be distorted.

It was too terrifying.

One had to know.

Just the ripples produced by the ‘devil Lotus’ were already so powerful. Now that the main body of the ‘devil Lotus’ was attacking, the destructive power it produced was simply indescribable.

At the very least.

they had directly cleared out more than half of the mechanical fleet.

As a result, Jiang Li’s No. 04 mechanical fleet suffered huge losses.

It was a heavy loss.

Their military strength was directly reduced by half.

This also meant that ...

If liermore were to launch another attack like this ...

jiang li’s no. 04 mechanical fleet was about to be completely annihilated.

” the interstellar battlefield on the orion constellation has undergone great changes. ”

“The demon race’s thirteenth level transcendent realm has appeared.”

“Prepare the ‘eternal life spear’ immediately.”

“target locked.”

“.....”

The Milky Way.

Magical base No. 040.

at the same time.

Hidden Dragon and number 40 immediately learned of the situation in the Orion Nebula battlefield. They knew that the number 4 mechanical fleet had encountered a strong enemy and suffered heavy losses.

hence.

They followed Jiang Li's order and used the 'spear of eternal life' without hesitation.

furthermore ...

it was launched through the 'tian fa base'.

Buzzzzzz! Wuwuwuwuwu!

target locked!

"Fire!"

BOOM!

Magical base No. 040 shook violently.

In that instant.

Time and space were torn apart.

The 'spear of eternal life' was launched, easily piercing through time and space, shuttling through the universe, and crossing tens of thousands of light years in the blink of an eye.

The Orion Nebula.

“Who is it?”

Liermore’s eyebrows twitched. He could vaguely sense danger and realized that he was being spied on by an existence far away.

“Whoosh!”

The universe space twisted.

Liermore had yet to react.

Right in front of them.

The universe space seemed to have been twisted into a black hole.

The ‘eternal life spear’ flew out.

At the same time.

The light of eternal life was activated.

It pierced straight through lirmolker.

“The laws of destruction!”

BOOM!

liermore carl roared and activated the power of the natural order, materializing it into an extremely sharp light.

The Light of Destruction collided.

“Rumble!”

the two clashed.

This was a collision of rules, and also a battle of rules.

The two sides confronted each other.

It created a series of explosions.

The universe space shattered.

In the end.

Both of them were annihilated.

Limolkar retreated rapidly, his gaze serious as he said in a low voice, ” “This power has already reached the transcendent realm. I didn’t expect to meet such a strong opponent so soon.”

Whoosh! Whoosh! “Whoosh!”

Around the battlefield.

The universe space was constantly twisting.

Vortexes appeared one after another.

Up, down, left, right, front, back.

All of them.

Furthermore ...

The 'eternal Spears' shot out from the vortexes one after another, tearing through space and time. The 'light of eternal life' was released and headed straight for liermore Cole.

"Not good!"

liermore cole was shocked.

In the face of such a situation.

He directly used all his skills.

buzzzzzz! "Whoosh!!!"

The law of destruction was fully released, forming countless ripples and condensing into twelfth-grade demonic lotuses to protect himself.

Bang Bang Bang Bang!

There were countless explosions.

The sky lit up.

time and space collapsed.

Even time itself was in disorder.

"Ah!"

Liermore let out a shrill cry.

“Pfft!”

demon blood splashed.

“Retreat!”

Liermore Cole shouted in fear, ” quickly retreat!!!

Buzzzzzz!

the plane’s channel appeared.

Shua!

liermore rushed into the plane’s channel without hesitation. it could be said that he had come with confidence and fled in panic.

“This Suan ni, this Suan ni”

“Ran away from Lord Demon, ran ran ran ran ran”

“Quickly run!”

“Retreat! Quickly retreat!”

“quickly leave this world!”

“.....”

the demons began to flee.

Hence.

Jiang Li's mechanical fleet continued to attack.

Hidden Dragon and Hidden Dragon No. 040 no longer used the 'eternal spear' because the strong enemy had been repelled, and the number of 'eternal Spears' was limited.

moreover ...

Although the 'spear of everlasting life' was powerful, it was only a one-time particle weapon.

It was basically impossible.

It was enough to force limore back.

## Chapter 805

because the cong mo ran away, the demons were quickly defeated. jiang li's mechanical fleet no. 04 quickly occupied the orion nebula.

At this moment.

On the other side.

The God race ruled the great fortune Star cluster.

The God race's 'follower God' had descended.

He was very powerful.

When Hidden Dragon and Hidden Dragon No. 040 received the news, they immediately activated the 'spear of everlasting life' and launched an attack on the God followers of the Protoss.

An intense battle broke out.

The power of rules tore and twisted time and space.

The universe space was shattering.

similarly.

Just like the followers of the demons, the followers of the God clan also fled back to the God Realm after a few rounds of attacks from the eternal life spear.

After that.

The longyun star cluster was occupied by Jiang Li's mechanical fleet.

Time passed.

half a month passed.

The major Magellan system, the minor Magellan system, and the cigar system.

The monster race, the Barbarian race, the demon race, the God race, and the ghost race.

The five great races.

Faced with the attack of Jiang Li's mechanical fleet and the spear of eternal life, the subsidiary devil, subsidiary God, and subsidiary ghost retreated in defeat.

The emperors of the monster and barbarian empires were also defeated one after another.

they all retreated.

hence.

Jiang Li's mechanical fleet began to occupy the ten major galaxies around the Milky Way. They subdued a large number of civilizations and races and obtained a vast invisible fate.

At the same time.

The vast and invisible fate energy transformed into the fate energy of the Empire.

They all rushed to Jiang Li and were devoured by the Azure Dragon. The Azure Dragon's body grew rapidly.

With the help of the 'energy given back by the dynasty's fortune', Jiang Li kept cultivating and gradually understood the 'medium-level fortune army formation technique'.

The National fate military formation.

To be precise.

It was made up of 'luck path' and 'formation path', and the two complemented each other to form a powerful 'military formation'. It also became a powerful means for the great empires to conquer the universe.

now.

jiang li used a level thirteen transcendent realm warrior to study the 'medium-level national fortune military formation'.

To comprehend the profound laws within.

“roar!”

Suddenly.

The Azure Dragon of the great Xia Dynasty soared into the sky and revealed its true form. The Dragon's body grew rapidly as it absorbed a large amount of the Empire's fate. It grew from 90 million meters to 100 million meters.

He directly broke through.

The Empire's National fate ranking had also risen from 61320th to 59990th, rising from the sixth to the fifth.

However ...

After the great Xia Dynasty rose to the 5th stage, it became very difficult to increase the ranking of the country's fate. The size of the great Xia Azure Dragon's body also grew extremely slowly.

A year later.

BOOM!

jiang li's body shook.

His entire body.

There were two rules.

They were luck path rules and formation path rules.

The two rule forces combined.

It could produce the power of a 'National aura army formation'.

In reality.

When Jiang Li was comprehending the rules of fate and formation Dao, he sensed the ‘Master of Rules’ who had mastered and comprehended the rules of fate and formation.

Of course.

Jiang Li also created a new rule. He created the unprecedented ‘mechanical rule’, so he was the master of the mechanical rule.

...

This way ...

Jiang Li mainly cultivated the mechanical rules with the help of other rules. He could use the power of other rules to strengthen the power of the mechanical rules.

In other words ...

Transcendent realm.

There were actually two levels.

They were, respectively, followers and rule Masters.

Among them.

The ‘master of the rules’ was an existence that could create new rules. Because he had created an unprecedented rule, he could use the created rule to train his subordinates.

A ‘follower’ was actually someone who had cultivated the rules created by the ‘master of the rules’. Although they had also mastered the power of the rules and also possessed powerful combat strength, they were still a ‘follower’.

but ...

A 'servant' would always be subject to others and must obey the orders of the master of the rules.

...

Finally.

Transcendent realm combat strength.

A 'follower' could only master one 'rule force', so once one became a 'follower', it meant that the road ahead was completely cut off, and they would never be able to improve.

Unless ...

Forsaking one's cultivation base and starting over again with great perseverance, great wisdom, and great luck.

The power of the 'master of the natural order'.

It was basically judged by the number of rules one had mastered.

For example.

Jiang Li had already mastered the 'rules of luck path' and 'rules of formation path'.

After grasping these two rules.

Jiang Li could form a formation with a wave of his hand and even change the fate of all living beings.

It could be said that 'defying the heavens and changing one's fate' could be done with a single thought.

Of course.

Jiang Li's seclusion wasn't over yet.

buzzzzzz!

a medium-grade spacetime secret skill.

Shua!

jiang li had an idea.

At this moment.

Jiang Li started to study the time and space secret skill.

Such a secret technique.

It could be said to be extremely difficult.

They represented the two most profound laws in the universe.

Because ...

They were the two main pillars that made up the world and the universe.

Correspondingly.

The rules of the five elements formed by 'metal, wood, water, fire, and earth' and the rules of yin and yang formed by darkness and light could only be considered as ordinary pillars that formed the world.

It was hard to imagine.

He was able to sublimate the laws of space and time in the past, thereby creating the laws of space and time. How powerful was he now?

Time flew by.

In the blink of an eye, ten years had passed.

Cultivation knew no time.

Jiang Li's ten major mechanical fleets had already occupied and ruled the ten major star systems outside the Milky Way. They were all under the control of the great Xia Dynasty.

At the same time.

The energy from the Empire's fate was also exhausted.

Unfortunately ...

jiang li didn't fully understand the 'spacetime rules'. he only understood a little bit. he had only successfully cultivated the 'medium-level spacetime secret skill'.

Fortunately ...

Jiang Li's ten years of seclusion wasn't without any gains.

First of all ...

Jiang Li had comprehended the 'rules of five elements' and the 'rules of yin and yang'.

This way ...

Jiang Li was cultivating in seclusion.

It could be said that his strength had increased greatly.

Three days later.

Jiang Li consolidated his cultivation.

Buzzzzzz!

Jiang Li stopped channeling.

with a thought.

Jiang Li took out the last ‘true dragon List reward’.

Shua!

It was the ‘upgrade of the Empire’s sacred artifact.’

in reality.

A nine Dragon-level Empire-level Saint weapon was already the limit of a ‘Saint weapon of National fortune’. If it wanted to continue to improve, it would have to inscribe ‘runes of rules’. At that time, it would not just be a ‘Saint weapon of National fortune’, but a ‘Saint weapon of rules’.

“Whoosh!!!”

Jiang Li opened his hands.

Left hand.

The Green Dragon imperial edict, the Green Dragon Imperial Jade seal, and the great Xia Marquis.

Three nine Dragon-level Empire-level sacred artifacts appeared.

His right hand.

In his palm was a dense purple-gold ball of light.

machine rule.

jiang li had an idea.

The Azure Emperor's art circulated.

The true form of the mechanical rules appeared.

Like tadpoles, silver runes flew toward the three Saint artifacts and gradually fused into them.

“Go.”

jiang li waved his right hand.

The dense purple-gold light ball in his palm flew out and split into three. At the same time, they merged into the three nine Dragon-level Empire-level sacred artifacts.

Buzzzzzz! “Whoosh!!!”

The radiance was boundless.

The three nine-Dragon Empire-level sacred artifacts floated into the air.

For a moment.

it was extremely dazzling.

he began to transform and upgrade.

The process of promotion was faster than Jiang Li expected.

Seven days later.

The light gradually faded.

There was no huge phenomenon.

Shua! shua! Shua!

In front of Jiang Li were the ‘Green Dragon Imperial Jade seal’, ‘Green Dragon imperial edict’, and ‘Marquis token of Xia’, which had been modified and upgraded to ‘rules Saint weapons’.

It could be said that ...

The Green Dragon Imperial Jade seal, the Green Dragon imperial edict, and the great Xia Marquis token-these three ‘rules Saint weapons’ were already more powerful than the ‘demonic sword’ and the ‘divine Palace’.

In reality.

If Jiang Li wanted to improve the power of the ‘rules Saint weapon’, he only needed to merge different rules into it.

now.

Jiang Li also mastered the rules of luck path, formation path, five elements, spacetime rules, Yin Yang rules, and so on.

A day later.

Jiang Li was familiar with the power of rules Saint weapons.

Immediately after.

Buzzzzzz!

Jiang Li's consciousness left his body and entered the world of the true dragon List.

now.

The great Xia Empire had already risen to the fifth level, and the Empire's National fate ranking was now at the 58720th place. It had risen by a full level.

Buzzzzzz! Buzzzzzz! "Whoosh!!!"

after that.

A purple-gold light ball descended from the true dragon Roll.

Jiang Li got another reward.

However ...

the true dragon list couldn't help jiang li much anymore.

It was still there.

There were many secret techniques on the true dragon Roll.

‘Reward one: upgrade of a rules Saint weapon!’

.....

‘Reward two: secret art of sword principle!’

.....

‘Reward 3: death secret technique!’

.....

‘Reward 4: Secret Life technique!’

.....

reward 5:999 traces of world law origin!

.....

five rewards.

Jiang Li took them all.

All the world law origins were captured. Jiang Li had more than 1000 world law origins, but he didn’t unlock any new origin soldiers, so he kept them.

rules Saint weapon.

Buzzzzzz! Buzzzzzz!

With the power of the true dragon List, Jiang Li merged the rules of five elements, luck path, and formation path into the rules Saint weapon to increase its power.

three secret techniques.

they represented three different rules.

If Jiang Li could comprehend it ...

He would be able to grasp three different laws.

his strength would definitely increase again.

Three years later.

jiang li officially came out of seclusion.

The door to the closed-door cultivation room in the imperial capital opened.

Jiang Li walked out.

Shua! Shua! “Whoosh!”

At almost the same time.

Xu Ya, Hong Tianqi, Wu Zong, Lord Chi, Elder Brown, and the others sensed Jiang Li’s presence and came to him.

“Congratulations to Your Majesty for coming out of seclusion!”

Hong Tianqi bowed.

“Your Majesty, congratulations on your great increase in cultivation and strength!”

Xu Ya said.

“.....”

wu zong, lord chi, and the others congratulated him.

“Yes.”

” okay. ” jiang li nodded.

half a month later.

let’s go. Jiang Li didn’t stay in the Holy peace state for too long. He asked little white to open the plane channel and was ready to return to the multiverse.

At this moment.

‘Master of machines-the God of games’ reported to Jiang Li.

Several decades passed.

unknowingly.

The ‘player force’ of the ‘Game Master God’ was getting stronger and stronger, and the speed of its development was like the Zerg’s reproduction. It was unbelievably fast.

now.

The player forces of the 'master of machinery-the master God of games' were spread out in 9.8 million low-level worlds, 1.05 million middle-level worlds, 100000 high-level worlds, and 17000 Supreme-level worlds.

Other than that.

There were also 1800 small chiliocosm and 20 middle chiliocosm.

and ...

It was the only greater world.

One had to know.

Below the small world.

Because the world's level was insufficient, it was impossible to give birth to a transcendent realm existence.

In addition.

The small world.

Similarly.

It was also because the level of the world was not high enough that the creatures in the small chiliocosm could not create laws at all. They could only comprehend the laws that had been created.

Middle world.

The level of a world was naturally stronger than a small chiliocosm, and it was enough to give birth to a 'Master of Laws' who could create laws.

Finally.

in the greater world.

That was completely different.

To a higher level.

With the level of the great thousand world, not only could it give birth to a 'Master of Rules' who created rules, but it could also give birth to a Supreme Being who could surpass the 'Master of Rules' and travel through universe ocean.

"There are actually so many of them."

it's only been a few decades, but it's already so strong. Jiang Li was also surprised after hearing the report from the master of machinery-the God of games.

"oh, that's right."

what's wrong? " Jiang Li asked, " if I remember correctly, you're level twelve now. You shouldn't be able to enter the small chiliocosm, right? "

"not to mention the middle and greater worlds."

"Reporting to you, chief sovereign."

The master of machines, the God of games, explained to Jiang Li, " this is because you have made a breakthrough in your cultivation and created the machinery law. This is why I can use the 'machinery law' that you created as a cover to enter the small chiliocosm, middle chiliocosm, and even the greater chiliocosm.

“Of course.”

for the sake of safety, the players from the greater world and middle world rarely contact each other. They will not even be assigned any missions.

“not only that,”

even the corresponding player’s abilities have been greatly weakened.

“Yes.”

Jiang Li nodded and asked again, ” “The only greater world. What world is it exactly? Did you get the relevant information?”

my Lord, the only greater world was obtained a year ago when your cultivation became stronger.

“This world is a world that cultivates the immortal Dao.”

“I don’t know much because I don’t dare to keep in touch.”

“Yes.”

okay. Jiang Li nodded again.

“Your Majesty, the passageway has been opened.”

Xiaobai reminded.

“Alright,” he said.

yes. Jiang Li nodded. let’s go to the great universe first.

Buzzzzzz!

jiang li entered the plane channel and disappeared. the entrance of the plane channel closed.

The scene changed.

the world of the great cosmos.

The Milky Way.

Djinn Galaxy.

Magical base No. 040.

shua!

It had been almost twenty years.

jiang li was back.

“Chief sovereign.”

...

“Welcome back, chief sovereign.”

“.....”

Shua! Shua! “Whoosh!”

Immediately after.

All the 'hidden dragons' showed up to welcome Jiang Li.

"Yes."

"okay." jiang li nodded.

Half a month later.

giant spirit planet.

The Imperial Palace of the Grand Xia.

within the palace.

...

Jiang Li had learned about the Milky Way and the ten major galaxy groups around it from Qian Long and the others.

In general.

It had been almost twenty years.

The hidden Dragon and the others had made use of the abilities of the major magical bases, the combat power of the mechanical fleet, and the various civilizations and races that had been subdued. They had already built the surroundings of the Milky Way into an iron bucket.

it had to be said.

Hidden Dragon and the others were very powerful.

Of course.

In order to create such a powerful military force, the hidden Dragon and the others had also consumed a lot of origin points and resources to create a large number of facilities and troops.

The consumption of all the resources was completely within reason.

“Not bad, not bad, not bad at all.”

Jiang Li was very satisfied.

In addition.

The energy crystals from the ten major galaxy groups were all gathered in one place, waiting for Jiang Li to return and convert them.

I'll go. Jiang Li naturally wouldn't be polite.

All the spoils of war.

Jiang Li was ready to convert them all.

The court session ended.

Jiang Li left the Djinn star system.

Spatial teleportation.

He arrived at one of the galaxies in the great Magellan galaxy group.

It was named the resource Galaxy.

Hidden Dragon and the others had stored all their resources in this Galaxy.

Buzzzzzz! buzzzzzz! Wuwuwuwuwu!

Soon after.

led by hidden dragon.

Jiang Li took out all the energy crystals stored in the resource star system.

One by one, they were all converted.

Countless rays of light flashed.

Shua!

conversion successful. You've received 100 trillion origin points!

.....

conversion successful. Obtained 110 trillion origin points!

.....

A flood of notifications popped up.

Finally.

Jiang Li had finished converting all the resources.

This wave.

he had obtained a total of 2.375 billion origin points.

Currently.

Jiang Li felt that he had more resources than he could use.

Basically.

Jiang Li didn't have to worry about the lack of origin points anymore.

However ...

if jiang li wanted to conquer the universe, he would be able to do so.

These origin points might not be enough.

seven days later.

Magical base No. 040.

Clang!

The 'demonic sword' appeared.

Jiang Li held the hilt of his sword tightly.

Buzzzzzz! Buzzzzzz!

He activated his cultivation technique.

The mechanical laws manifested.

like snakes and dragons, the silver lines crawled along jiang li's right hand, to the hilt of the 'demon sword', and then to the blade.

It was infused into it.

The laws fused.

The ‘demonic sword’ was undergoing an intense change.

Buzzzzzz! Buzzzzzz!

Sword Qi burst out.

The sword was shaking.

The sword chime seemed to be able to tear the soul apart.

Kachaa! “Crack!”

The surrounding space began to shatter.

Obviously.

Jiang Li finally learned something today after studying the mysteries of the mechanical origin soldiers, which was to integrate the mechanical rules into them and combine them with the vast origin point.

he would be able to upgrade his machinery origin source.

Time passed.

Buzzzzzz! Wuwuwuwu!

The origin point turned into a vast stream of energy, continuously pouring into the 'demonic sword'. Human facial features appeared on the body of the 'demonic sword'. The facial features were twisted, and it seemed to be in extreme pain.

If he wanted to transform and advance ...

It was extremely difficult.

Of course.

It was not completely hopeless.

The most important thing was ...

Jiang Li was the Master of Rules who created the 'mechanical rules'. He was the first person in history to use the 'mechanical rules' as if it were his own arm.

Half a month passed.

BOOM!

The 'demonic sword' trembled, and its power rose sharply.

finally ...

It took ten trillion origin points, which was ten trillion points, and Jiang Li kept inscribing 'machine rules'. The demon Sword was upgraded.

clang! Clang!

Not only that.

The moment the 'machine law' was successfully engraved ...

the ‘demonic sword’ itself was equipped with four different laws at the perfection stage-sword dao law, darkness law, devouring law, and strangeness law.

In an instant.

it directly sublimated into rules.

They were the rules of swordsmanship, the rules of absolute Yin, the rules of devouring, and the rules of bizarreness.

It was the same.

The ‘demonic sword’ had become a ‘ruler-level weapon’ with five different laws.

Furthermore ...

Jiang Li used another ninety trillion origin points, which was ninety trillion points, and integrated the rules of luck path, formation path, five elements, and Yin Yang into it.

There were nine rules.

A total of nine rules!

It was just a ‘demonic sword’, but it contained a total of nine rules.

Its power was hard to estimate.

Shua!

Jiang Li had an idea.

He checked the basic stats of the magic sword.

It had completely changed.

[ rule soldier Type: Ruler's weapon-demonic sword ]

[ rank: rank 13 ]

[ No.: MJ01 ]

skill: nine rules (contains nine different rules, and the rules combine and complement each other to produce different powers.)

[ rule machine: a machine created with 'rules' as its source. ]

[ introduction: can such a being still be called a 'machine'? ]

advancement Requirements: unknown!

He finished browsing the information.

“not bad.”

Jiang Li was very satisfied with the improvement and change of the 'evil sword'.

In reality.

Since Jiang Li was the 'master of machinery', the 'demonic sword' could be considered Jiang Li's 'follower', but a 'follower' could only master one rule.

but ...

The 'demonic sword', however, contained nine rules.

of course.

A ‘servant’ was a completely independent life form, but the ‘demonic sword’ wasn’t. It was similar to Jiang Li’s weapon, but it had its own consciousness.

In addition.

The ‘divine Palace’ hadn’t reached the critical point yet. Even if Jiang Li wanted to upgrade it by force, he probably couldn’t.

Buzzzzzz!

Jiang Li opened his right hand and the ‘evil sword’ turned into a mark in his palm.

“Chief sovereign.”

Shua!

Jiang Li. Hidden Dragon came and saluted Jiang Li.

“How’s the situation?”

Jiang Li asked.

“Reporting to you, chief sovereign.”

“our fleet has been exploring the depths of the universe in all directions,” said hidden dragon.”we’ve already discovered many star system clusters.”

other than that, we have also discovered a ‘black hole’ in an area 50 million light years away. A rank-12 mechanical fleet approached, but they could not break free from the gravitational pull of the ‘black hole’, causing some losses.

“Yes.”

okay. Jiang Li nodded.

Three days later.

let’s go. Jiang Li sent out a hundred mechanical fleets. Each fleet was led by a ‘magical base-spaceship mode’.

Furthermore ...

Each fleet was equipped with 5 million protogenic-level motherships and 5 million protogenic-level fortress.

The military forces were fully equipped.

Hence.

” let’s go. ” jiang li took charge of the milky way in person. his mechanical fleet started to spread to the surrounding galaxies at a plague-like speed.

During the period of conquering the universe.

Jiang Li’s mechanical fleet encountered different civilizations and races. They also encountered the powerful human, demon, and barbarian dynasties, as well as terrifying Masters from the demon, God, and ghost races.

Even ...

He was also besieged by many God followers, devil followers, and ghost followers.

but ...

Jiang Li created a large number of Spears of eternal life and dealt heavy damage to the demon, God, and ghost clans.

Hence.

One galaxy group after another was ruled by Jiang Li.

Large amounts of resources were concentrated.

Jiang Li's origin points increased rapidly.

Correspondingly.

The number of Jiang Li's mechanical fleet was also growing rapidly.

100 million, 10 billion, 100 billion, 100 billion, 10 trillion

There seemed to be no end.

Jiang Li's attack was unstoppable.

No force could stop him.

Until ...

Ten years later.

Because Jiang Li kept using the 'spear of immortality' in the 'great universe world', the one-time War weapon with the law of immortality 'finally attracted the attention of the civilizations in the deep Universe.

The civilization.

It was the unknown being that had destroyed the eternal civilization.

It was the same method.

The ‘unknown civilization’ in the ‘depths of the universe’ captured and locked onto a mechanical fleet hundreds of thousands of lightyears away from Jiang Li through the waves of the ‘eternal particle’.

“whoosh!”

It was a ‘particle’ that traveled through space and time and landed directly above Jiang Li’s fleet.

BOOM!

There was a loud explosion.

the next moment.

It was an incomparably resplendent and gorgeous brilliance.

the entire galaxy.

It was directly erased.

The light dissipated.

Jiang Li’s mechanical fleet had all disappeared, not even leaving behind ashes.

“they’re finally here.”

Magical base No. 040.

Jiang Li sensed the fluctuation and opened his eyes. There was excitement in his eyes. He clenched his fists and was eager to fight.

Chapter 807 declaration of war

At the cost of a mechanical fleet, Jiang Li attracted civilizations beyond level six to Level Seven from the depths of the universe.

However ...

the attack of the unknown civilization was far from over.

it could be said that ...

The 'particle weapon' that had just destroyed a mechanical fleet was only the appetizer of the war. The main course had just begun.

Buzzzzzz! Wuwuwuwuwu!

The universe's time and space were distorted.

In that instant.

'Particles' tore through time and space, forming a resplendent stream of light. It was extremely dazzling as it pierced through from an unknown in the 'depths of the universe'.

Immediately after.

They locked onto Jiang Li's mechanical fleet.

Ten years.

Jiang Li used the mechanical fleet to expand his territory and territory while harvesting a large amount of energy and resources from the Galaxy groups.

It could be said that ...

Jiang Li's mechanical fleet already numbered in the tens of thousands.

In reality.

And now.

With the 'Milky Way' where Jiang Li was at the center, it spread out in a spherical shape. The radius of Jiang Li's current rule had reached tens of millions of light-years.

It was hard to estimate.

now.

Jiang Li was already an Overlord of the universe.

Shua! Shua! "Whoosh!"

In front of Jiang Li's eyes.

A large number of images were projected.

Countless particles pierced through the universe's time and space.

Such an attack.

it was obvious.

The ‘unknown civilization’ wanted to destroy Jiang Li’s mechanical fleet with a thunderous momentum. They wanted to eliminate Jiang Li’s forces in one fell swoop.

it could be seen from this.

The ‘unknown civilization’ was extremely confident in their own strength. That was why they were so confident that they could kill Jiang Li in one fell swoop.

However ...

When the ‘unknown civilization’ looked down on Jiang Li, it meant that they had made the wrong move.

“base, hear my order.”

stop! Jiang Li shouted and gave an order, ” all magical bases, activate the ‘heaven punishment base’ and use the ‘spear of immortality’ to block the enemy’s attack.

“Yes.”

“Yes, sir.”

“01111 magical base is ready!”

“.....”

the hidden dragons responded to jiang li.

Whoosh! Whoosh! “Whoosh!”

The weapons were fired.

in that instant.

The 'spear of eternal life' also 'pierced' through the space and time of the universe. The 'light of eternal life' was activated, and each 'spear of eternal life' was like an extreme light, crossing the distance of tens of millions of lightyears.

In an instant.

Bang Bang Bang Bang!

The sound of an explosion rang out.

It could be seen.

Within the tens of millions of lightyears that Jiang Li ruled, there were many galaxy groups. Each of them had exploded.

The 'spear of eternal life' and the 'particle weapon' collided.

It produced a terrifying explosion.

The energy of the universe shook.

Time and space twisted.

It was as if a black hole had been formed.

...

After that.

it gradually calmed down.

“.....”

Jiang Li looked at the countless scenes.

Hidden Dragon, have you locked onto the enemy's specific coordinates? ”

what? ” Jiang Li asked.

master, locking on. The enemy has ‘interference devices’, causing the enemy's spatial coordinates to float. Master, please wait patiently.

Hidden Dragon replied.

“Yes.”

okay. Jiang Li nodded.

The next moment.

...

After Jiang Li blocked all the ‘particle weapons’ of the ‘unknown civilization’ with the ‘spear of eternal life’, the ‘unknown civilization’ released more powerful weapons as if they were angry.

wuwuwuwuwu!

Jiang Li saw it clearly.

It was a beam of ‘particle light’ formed by ‘particles’. It was a powerful application of ‘rules’, like an invincible sharp beam of particles.

It pierced through.

Nothing could stop it.

The 'particle beam' pierced through.

Bang Bang Bang Bang!

Everywhere it passed.

everything was destroyed.

No matter what celestial body it was.

Stars, white dwarves, neutron stars

Countless stars.

Like bubbles, they burst and exploded under the 'particle beam', shining with dazzling light and turning into dust of the universe.

BOOM!

there was a loud explosion.

In the outermost galaxy group within the tens of millions of areas that Jiang Li ruled.

This 'particle beam' directly exploded in the 'Galaxy', releasing endless rays and destructive storms.

Wherever the storm ray passed ...

Everything was destroyed.

far away.

Jiang Li stood in the Milky Way and could see the explosion of tens of millions of light years. For the vast universe, the explosion of the 'galaxy cluster' was like a spark.

It was only one strike.

It had destroyed a Galaxy.

In other words.

If the 'particle beam' had landed on the 'Milky Way', the Milky Way 'would have been destroyed by the terrifying particle beam and turned into cosmic dust.

Very strong!

The methods of the 'unknown civilization' were extremely powerful.

The most important thing was ...

Jiang Li hadn't captured the enemy's specific spatial coordinates yet, but the enemy knew Jiang Li's exact location. The enemy was in the dark while they were in the light.

Under such circumstances.

jiang li could only take the attacks and defend.

Whoosh! Whoosh! "Whoosh!"

a successful strike.

The 'unknown civilization' attacked again.

This wave.

They were no longer pure ‘particles’.

Instead, beams of ‘particle light’ were aimed at the many galaxies within Jiang Li’s territory.

fire the ‘eternal spear’.

stop them! Jiang Li’s face darkened. stop them at all costs!

one had to know.

There were too many attacks. Some of them were even tens of millions of lightyears away. Even if Jiang Li could block the particle beam, he couldn’t block all of them.

It could only block a small part of it.

Bang Bang Bang Bang!

The sound of explosions continued.

in space.

Jiang Li could see more ‘fireworks’ exploding. It was because Jiang Li’s Galaxy was destroyed, causing the extinction of many subsidiary races.

This way ...

Roar! “Roar!”

The Azure Dragon of the great Xia Dynasty let out a painful roar.

The fate of the Empire fluctuated slightly.

It had already affected the fate of the Empire.

“My Lord!”

finally ...

Jiang Li, ” Hidden Dragon reported to Jiang Li.”Although we can’t lock onto the enemy’s position, we already know where they are.”

“Alright,” he said.

alright. Jiang Li got up and said, ” activate the spatial teleportation and send me there.

“Yes, sir.”

Hidden Dragon replied.

Spatial teleportation.

Activate!

Buzzzzzz!

An invisible spatial light beam descended, but it was mixed with the mysteries of the law of space. It enveloped Jiang Li and he disappeared into thin air.

The next moment.

The scene changed.

Jiang Li crossed hundreds of millions of light-years and landed in an unknown Galaxy. Jiang Li appeared out of thin air.

The moment it appeared.

Jiang Li immediately felt that he was being watched.

Buzzzzzz! Buzzzzzz! Wuuwuwuwu!

the next moment.

In the space around Jiang Li.

One spatial vortex after another appeared.

He had opened a ‘wormhole’ and created a Space Channel.

As expected.

The ‘interstellar Army’ would arrive soon.

spatial secret technique.

Buzzzzzz!

space law! Jiang Li shouted and activated his technique. He raised his right hand and waved. Countless space laws spread out from his palm.

Not only that.

Jiang Li had cultivated a medium-level spacetime secret technique. Although he didn’t master the ‘space rules’, he had some basic knowledge of them.

hence.

” space distortion! ” jiang li twisted the space around him with the space secret skill.

After that.

because of the distortion of space, a chain reaction was produced, causing the surrounding space vortexes to change dramatically, and the space passage began to shatter.

BOOM! BOOM! BOOM!

jiang li heard explosions coming from the space tunnels one after another.

The space calmed down.

The surrounding space vortexes had all disappeared.

at this moment.

After Jiang Li defeated the ‘enemy’, he finally had the chance to observe the surroundings. The space law in his eyes interwove and formed the ‘eye of space’.

He observed the surrounding galaxies.

It could be seen.

What Jiang Li saw were ‘man-made stars’. The stars ‘that normally formed in the universe were basically all gone.

All of them had been transformed into ‘man-made celestial bodies’.

The ‘man-made stars’ formed a ‘planetary system’, and they could transform into powerful war weapons at any time.

In reality.

while jiang li was observing the environment of the galaxy around him.

buzzzzzz! Buzzzzzz!

In all directions.

Many ‘fleets’ flew at superlight speed from the nearby ‘Galaxy’ and formed a tight circle with Jiang Li as the center. They were blocked from all directions.

It could be said that ...

Jiang Li had no way out.

However ...

The fleet that surrounded Jiang Li didn’t attack immediately.

This was because Jiang Li had distorted the space and destroyed the space tunnel, causing many enemy fleets to be destroyed.

the enemy was wary.

half a minute later.

“Whoosh!!!”

jiang li felt the energy of the universe.

In front of him.

The energy condensed together.

After that.

it formed a huge 'human face'.

That's right.

It was a human face, not a completely different civilization or race.

Therefore ...

There was a huge possibility.

The other party was also a 'human'.

However ...

Their technology was many times more advanced than Earth's.

It was like the difference between heaven and earth.

"Hello," he said.

The giant 'face' was talking to Jiang Li through soul waves. respected universe master, I am 'pules cladell' from the 'divine civilization', the ruler of 'pules star sector'.

" you came uninvited, barged into the territory of the 'godly civilization', and destroyed our 'godly fleet'. are you trying to start a war with our 'godly civilization'? "

“The civilization of the gods.”

Jiang Li sized up ‘pels cradell’.

obviously.

The person’s real body wasn’t here at all. It might be at least a million lightyears away from here. What appeared in front of Jiang Li was just a projection.

However ...

The other party’s projection was not formed by ‘light rays’, but a’ projection ‘produced by using the’ cosmic energy ‘that was everywhere in the universe.

Furthermore ...

The projection was still real.

Your Excellency poules cladell.

you’re right, ” Jiang Li said. I’m here to declare war on the ‘civilization of gods’.

Clang!

As soon as he finished speaking.

Jiang Li raised his right hand and the ‘demonic sword’ in his palm turned real. The black ‘demonic sword’ appeared in his right hand with the handle.

“Exterminate!”

Shua!

die! Jiang Li swung his sword.

At that moment.

The sword Qi spread out like a vast wave. It contained the power of laws and swept through the surrounding starry sky, destroying everything in its path.

Chapter 808 Star Domain

Bang Bang Bang Bang!

There were countless explosions.

In the surroundings.

All the fleets, mechas, and interstellar bases that surrounded Jiang Li were destroyed by Jiang Li's sword energy.

One sword!

it was just a casual sword!

It could be said to be 'killing gods and Buddha'.

Not only that.

Jiang Li didn't hold back the power of the sword, so the wave of sword Qi continued to spread. The artificial planets exploded and the system collapsed.

The entire Galaxy was wiped out.

“You, you, you, you, you, you, you ...”

” you ... ” pules was stunned and then furious. he stared at jiang li as if he was going to swallow jiang li alive. ” how dare you! ”

“You’re too noisy!”

Shua!

die! Jiang Li swung his sword.

Bang!

The giant face was shattered.

It exploded into light spots and dissipated.

“.....”

I’m here. Jiang Li looked around and used his soul to sense the surrounding galaxies.

one had to know.

Jiang Li didn’t know anything about the divine civilization.

However ...

Just from the fact that the godly civilization could easily release their ‘particle weapons’, it could be inferred that the’ godly civilization ‘was definitely a Level-7 civilization that had surpassed Level-6.

The specific situation.

Jiang Li didn't know.

Hence.

"let's go." jiang li kept moving forward and entered the territory of the 'godly civilization'. he entered an unknown galaxy group and the obstacles from the' godly civilization 'also arrived.

however ...

At first, the fleets that appeared were not equipped with 'particle weapons'. With Jiang Li's current cultivation and strength, such a fleet was just a piece of cake.

It could be said that ...

Jiang Li could kill as many as they came.

Time passed.

Jiang Li began to search for information from various planets and galaxies and gained some basic understanding of the 'civilization of gods'.

First of all ...

The 'godly civilization' was a civilization at the peak of Level 7.

Among them.

The 'immortal particle domain' controlled by the 'civilization of gods' had almost made use of and deduced the 'immortal particle' to the limit. In addition, the 'civilization of gods' also occupied the space with a radius of 100 million light years.

among them.

Within the '100 million light years' area ruled by the 'godly civilization'.

After detailed statistics.

there were a total of 100 million galaxy groups.

Furthermore ...

Each galaxy cluster also had between 100 billion to 400 billion galaxies.

so,

The number of 'galaxies' was hard to estimate.

In addition.

The 'godly civilization' also divided the '100 million light years' area into ten regions. The ten regions were divided and named as 'star fields'. Each star field had about ten million star systems.

ten starfields.

However, there were only nine Starfield Lords.

Because ...

One of the star fields was called the 'Divine Star field'. This was the 'mother star field 'of the' divine civilization', and the leaders of the 'Divine Star field' were naturally the Supreme rulers of the 'divine civilization'.

'Pules cradell', whom Jiang Li had met before, was one of the rulers of the nine starfields of the 'civilization of God'. He ruled one of the nine starfields, 'pules Starfield'.

...

so,

If Jiang Li wanted to destroy the ‘civilization of God’, he had to destroy them one by one. He had to kill the Lords of the nine Star fields before he attacked the ‘Divine Star field’.

Otherwise ...

If Jiang Li attacked the ‘divine Starfield’ directly, the other nine starfields would definitely help.

At that time.

It would not be so easy to destroy or subdue the ‘godly civilization’.

“Alright,” he said.

Jiang Li’s eyes lit up. He disappeared into the sky and came to the outer space of the planet. He looked at ‘pules cladell’.

In reality.

It was from ‘pules star sector’ that was attacking Jiang Li’s ‘great Xia Dynasty’.

through understanding.

...

Jiang Li already knew.

‘Puss cradell’ was in the puss galaxy group.

Furthermore ...

Nearly 90% of the 'pules star sector's combat power was concentrated in the 'pules star system group', which had powerful cosmic law weapons, particle field weapons, and super-energy weapons.

buzzzzzz! Buzzzzzz!

let's go. Jiang Li took a step forward. The law of space wove under his feet, forming mysterious runes. He was using space travel.

One step took ten light years.

let's go. Jiang Li was invincible all the way. The divine fleet that came to stop him was all destroyed by Jiang Li, which had attracted the attention of the 'divine civilization'.

Hence.

'Puss cradell' took out some of the particle weapons and aimed at Jiang Li. Countless particles crossed the distance.

He started to attack Jiang Li.

BOOM! BOOM! BOOM!

in the surroundings.

The universe space twisted.

Jiang Li felt that he was being locked on.

However ...

Jiang Li was very calm.

“Sword Qi.”

Clang!

demonic sword! Jiang Li raised the ‘demonic sword’ over his head and waved his right hand. The ‘demonic sword’ also made a sword sound and the sword started to shake.

It released countless ‘sword Qi’.

Each sword Qi contained the power of the ‘laws of the sword’.

It was like a fairy scattering flowers.

Countless rays of sword Qi spread in all directions.

It was spherical.

Bang Bang Bang Bang!

Hence.

Every beam of sword Qi collided with every particle of eternal life, resulting in an explosion that shattered the space. It was a confrontation on the level of rules.

Easily.

jiang li blocked pules ‘attack.

“What?”

They were shocked.

The Starfield Lord, puss cradell, was watching the battle. He was obviously shocked by the scene, and his expression was extremely surprised.

“What’s going on?”

Pules took a deep breath. how can such a terrifying life form exist? It can actually face a particle-field weapon head-on!”

“Don’t tell me it’s Zhenzhen?”

One had to know.

A Super Fantasy world had invaded the world of the multiverse.

Humans, demons, and barbarians.

The Imperial dynasties of the three races crossed the boundaries of the world and descended into the life-preserving Galaxy of the great cosmos world.

the god race, the devil race, and the ghost race.

The three races had also sent a large number of armies.

All over the universe.

war had broken out.

The ‘godly civilization’ was extremely peaceful.

Within the 100 million light years of the divine civilization’s rule, there were no human, monster, or barbarian dynasties. There were no gods, ghosts, or demons either.

It was as if ...

The ‘civilization of gods’ seemed to have been forgotten.

Even so ...

The ‘godly civilization’ was very well-informed, and they had spent a lot of time and effort to understand the existences from the ‘Super Fantasy world’.

now.

” what’s wrong? ” puss cradell saw jiang li’s situation.

At the first moment.

puss kodre thought of the ‘super fantasy world’, because only life forms from the’ super fantasy world ‘would have such terrifying combat power.

The world of the great cosmos.

All civilizations and races developed technology and created powerful weapons.

Even if it could improve the individual.

At most, it was at the level of an ‘adept’.

time passed.

Jiang Li fought all the way with the ‘demonic sword’ in his hand. As the ‘Master of Rules’ who had mastered multiple powers of rules, Jiang Li’s combat power was completely beyond pules cladell’s imagination.

It could be said that ...

It was a complete sweep.

In the end, pels cradell had to mobilize all the weapons in the particle field to deal with Jiang Li, who was getting closer and closer to the Pels Galaxy.

“Sword Qi of laws.”

Unfortunately ...

no matter how many particle weapons and particle beams there were, even if they covered the entire space around jiang li, even if they were endless ...

It was still of no use.

a light shield appeared around jiang li. this ‘light shield’ was formed by the ‘sword aura of rules’. it was hard to break.

It could be said that ...

All the immortal particles and particle beams fell on the ‘defense’ formed by the ‘sword aura of rules’, but they were all blocked. Jiang Li was not hurt at all.

“how is that possible? How is this possible?”

Horrifying!

Jiang Li! pels cradell fell into fear. He no longer had the confidence he had before. He felt uneasy as Jiang Li got closer and closer to the Pels Galaxy.

fear!

He was afraid!

It could be said that ...

Since then, the 'divine civilization' had entered Level Seven, and pels cradell had become the master of pels star system. It had been tens of millions of years, so long that pels had forgotten his previous memories.

but ...

pules had never encountered such a dangerous situation.

Fortunately ...

pules quickly calmed down.

He did not hesitate.

Pules sent the information about Jiang Li to the other eight Starfield Masters and the divine Starfield's Divine Tower, asking for help.

unfortunately ...

It was too late.

Because ...

Jiang Li crossed millions of lightyears.

It arrived at the puss Galaxy.

boom! BOOM! BOOM!

After that.

Jiang Li had just arrived.

in front of him.

Countless mechas, battleships, space carriers, and bases were charging at Jiang Li. The end of the fleet couldn't be seen with the naked eye.

It was impossible to describe such a scene.

“The rules of the five elements.”

“Whoosh!!!”

Facing such a fleet ...

Jiang Li was still calm. He looked straight ahead and held the ‘demonic sword’ in front of his chest. He activated the rule force and used the power of the ‘five elements rule force’.

Shua!

Instantly.

Behind Jiang Li.

A five-colored light of laws appeared.

They were mutually reinforcing and countering each other.

It formed a wheel-like Halo.

“Five elements sword.”

Clang!

Jiang Li's right hand shook. The five Element ring behind him that was formed by the five Element rules merged into the 'demonic sword' like a five-colored light.

The 'Demon Sword' trembled slightly.

Jiang Li let go of the hilt of the 'evil sword'. The sword floated in front of his chest and slowly moved. It turned from a horizontal direction to pointing at the divine civilization's fleet.

"Go!"

Jiang Li pointed his fingers forward.

Wuwuwuwuwu!

The 'demonic sword' shone brightly.

the sword qi illuminated the universe.

It was like the art of sword control.

The 'demonic sword' was like a living thing, like a sword light that had been sublimated to the extreme. It broke through the universe and headed straight for the fleet of the godly civilization.

Bang Bang Bang Bang!

The fleet of the divine civilization launched an attack.

Countless attacks were launched.

Energy beam cannon, particle beam cannon, particle beam cannon

It was extremely gorgeous.

The ‘demonic sword’ was like a hot knife through butter, destroying all the attacks. The five-element sword Qi was unrivaled, destroying countless fleets of the divine civilization.

“rumble!”

The remaining power continued to spread forward.

It had actually pierced through the entire ‘pules galaxy group’.

In other words ...

Jiang Li’s sword.

he had traveled at least 100000 light years.

From afar.

The ‘pules galaxy group’ was like the ‘Milky Way’. It was also in the shape of a vortex. Jiang Li’s sword seemed to have split the entire ‘vortex’.

## Chapter 809 The soul

It was impossible to estimate how much damage Jiang Li’s sword had caused. The ‘celestial body system’ of the ‘pules galaxy group’ was severely damaged, causing all kinds of ‘disunity’.

It could be said that ...

the ‘puss galaxy’ was like a huge egg.

Then ...

Jiang Li's attack just now made a hole in the giant egg. The many planets that were bound in the 'pules system' slowly flowed out of the hole like liquid.

"This Suan ni, this Suan ni"

All sorts of scenes.

All of them were transmitted to the eyes of pels cladell.

at this moment.

Puss cradell was completely in a panic.

fear!

The emotion known as 'fear' seemed to have merged into his 'blood', flowing along his blood vessels and quickly flowing through his entire body. His hands and feet were cold.

It was too terrifying.

Such combat strength.

It was simply too powerful.

It was hard to estimate.

"I've found you,"

Buzzzzzz!

Jiang Li looked up. After he entered the pules Galaxy, he was about a hundred thousand light-years away from pules cladell.

With Jiang Li's current cultivation, he could already sense the aura from hundreds of thousands of lightyears away.

Jiang Li looked over.

“!!!”

It seemed like ...

what? ” pels cradell felt that Jiang Li's eyes seemed to penetrate the image and land on him, which made pels cradell even more terrified.

“Whoosh!!!”

let's go. Jiang Li stepped out.

this time.

Jiang Li's body was covered in the law of space. He even used the power of the 'law of space'. He turned into an invisible light and disappeared.

He crossed the void.

In the blink of an eye.

He crossed a distance of more than 100000 light years in one step.

it went straight to the pules system.

Di di di di di

“warning! Warning!”

the enemy has broken through our heavy defenses and entered our headquarters, the ‘poules system’. The space barrier can’t stop them, the space barrier can’t stop them, ”

“I repeat, I repeat, Yingluo.”

“The enemy is already dead.”

The ear-piercing alarm resounded throughout the entire pules system.

In the surroundings.

The universe space seemed to be distorted.

Countless fleets came from all directions.

“Is there any use?”

Jiang Li looked at the ‘godly fleet’ around him and said calmly, ” with such a fleet, even if you fill up the entire pules system, it will be useless.

“An ant trying to shake a tree, overestimating your own strength.”

“A group of ants can bite an elephant to death. That’s just a low-level interpretation of power.”

Buzzzzzz! Wuwuwuwuwu!

the energy of the universe gathered.

Immediately after.

A giant face appeared in front of Jiang Li again.

It was extremely huge.

His face was filled with anger.

it was 'pules cladell'.

“bastard!”

...

Pules stared at Jiang Li coldly and fiercely, but in Jiang Li's eyes, he was just pretending to be fierce.

In reality.

Pules's heart was filled with fear.

“What do you want to do?”

pules asked.

“Pules.”

Jiang Li was calm. He looked at the giant face in front of him and said, ” the divine civilization, one of the nine Starfield Lords, who controls the entire puss star field.

high and mighty, controlling the fate of countless civilizations and races.

“Undying and imperishable.”

“I’m afraid you’ve lived for more than a hundred million years.”

“what are you trying to say?”

...

Hmph! Paules snorted.

“Submit!”

yes. Jiang Li put his hands behind his back. submit to me and you’ll live. I promise that you’ll see a wider world.

“Submit to bi an!”

Paules was stunned for a moment. When he came to his senses, he burst into laughter. ridiculous, this is really ridiculous. You think you can make me submit? ”

“Impossible.”

“.....”

I see. Jiang Li shrugged. then die.

Clang!

The sound of a sword.

Jiang Li slowly raised the sword in his hand.

“!!!”

Pules was so scared that his entire body trembled and he roared, ” wait a minute, Qianqian, wait a minute, Qianqian. It’s not like there’s no room for discussion about surrendering!

“It’s too late,”

” i’m fine, ” jiang li replied indifferently.

“The sword Qi of absolute Yin.”

Shua!

die! Jiang Li slashed again.

This sword.

It swept in a circle.

the sword qi was everywhere.

This sword.

The Rules of Ultimate Yin were the main force.

It released an extremely powerful ‘sword Qi of absolute Yin’.

Of course.

The ‘magic sword’ had nine rules. Jiang Li used the ‘mechanical rules’ as the foundation to upgrade the ‘magic sword’ to ‘level thirteen’.

The rules of the sword were one of the main rules of the demonic sword.

so,

Regardless of whether it was the five-element sword Qi or the ultimate Yin sword Qi, they were actually a combination of the rules of sword way, the rules of five elements, or the Rules of Ultimate Yin.

It was natural.

the power and destructive power it produced far exceeded any weapon in the particle domain, because it was the fusion of the two laws.

“No!”

Puss cradell screamed and roared, ” “Block it! Block it! You must block it!”

Bang Bang Bang Bang!

All living things were destroyed.

Countless explosions were heard.

The sword Qi swept across.

What came into view was the guarantee of battleships, the destruction of man-made planets, the dust of the universe from the particle weapons, and almost the entire universe was split in two by this sword.

It was simply impossible to resist.

The aftershock of the sword continued to spread.

It was difficult to calm down.

In the end.

When all the fluctuations had disappeared.

The entire 'poules system' had disappeared.

That's right.

All of them disappeared.

Whether it was planets, stars, or the 'God's fleet' that had surrounded Jiang Li, they all disappeared. Nothing was left.

Jiang Li's sword was so powerful.

Shua! Shua!

Immediately after.

Jiang Li saw countless light spots gathering together and forming a colorful torrent that rushed toward him, but they were all captured.

[ acquired a level 12 soul Tinder! ]

.....

[ acquired rank 11 soul Tinder! ]

.....

[ acquired a tenth-tier soul Tinder! ]

.....

Countless notifications popped up.

Jiang Li closed the notification.

At that moment.

jiang li had obtained countless soul tinders.

In reality.

jiang li had too many soul tinders to use up.

However ...

the soul fire seed was not useless.

after jiang li reached the ‘master of rules’ realm, he had been dealing with the ‘soul fire seed’ a lot, so he had already grasped the mysteries of the ‘soul law’.

“what?”

Suddenly.

huh? ” Jiang Li felt a ripple in his soul and space.

shua!

He stepped forward.

Jiang Li disappeared.

In the next instant.

In a place dozens of light years away.

Jiang Li appeared.

at the same time.

Jiang Li was also holding a young man in luxurious clothes who looked pale and scared. His body seemed to be in a spiritual state.

Puss cradell.

That's right.

This young man was the master of the 'puss Starfield', puss cradell.

It was just a glance.

Jiang Li saw through the nature of pels cradell.

To be precise.

puss cradell had completely abandoned his 'physical body', leaving only his own consciousness and soul. he had engraved the law of eternal life into the depths of his soul.

He had reached a different 'follower' state.

This way ...

Puss cradell could easily control the ‘particle weapons’ made from ‘eternal particles’, when used in large numbers.

It could be said that ...

Puss cradell’s combat power was not weaker than the average servant, and could even be stronger.

But unfortunately ...

It was Jiang Li who puss cradell encountered.

One had to know.

Jiang Li wasn’t a ‘follower’. He was the ‘Master of Rules’, and he had five levels of rules. He also had the ‘demonic sword’ with nine levels of rules.

The two of them were not on the same level.

It was a complete instant kill and crushing.

“Spare me! spare my life! Spare me!”

Although puss cradell had lived for countless years, he didn’t want to die. I’m willing to submit. I’m willing to submit.

“Pfft!”

Jiang Li exerted more force with his right hand.

in an instant.

The machine law seemed to have formed an ‘inscription’, melding into the depths of pules cladell’s ‘soul body’, trying to turn him into a servant.

suddenly.

In the depths of puss cradell’s ‘soul body’, the ‘inscription of immortality ‘burst out with dazzling brilliance and formed a terrifying energy.

It charged at Jiang Li.

“How dare you enslave my slave!”

boom!

There was a loud explosion.

puss cradell was directly turned into ashes.

He had fallen.

He couldn’t even catch a ‘Soul Fire seed’.

Obviously.

After reaching the follower realm.

The soul combined with the rules, and a change occurred.

It was already impossible to capture.

“Just now ...”

Vaguely.

Jiang Li seemed to hear someone's angry roar.

He reacted.

Jiang Li had some guesses.

"The civilization of the gods."

it's not that simple. Jiang Li thought, "it seems that it's not that simple. Did some 'Master of Rules' also join the 'civilization of gods'? "Who is it?"

a civilization and race from a great universe or an existence from a Super Fantasy world? "

Temporarily.

Jiang Li didn't know.

However ...

jiang li had already taken over the entire 'pules star field'. he wouldn't give up so easily, nor would he back out so easily.

"Yes."

lekard Starfield is the closest to puss Starfield. I hope the leader of lekard Starfield can understand the situation.

buzzzzzz!

let's go. Jiang Li disappeared. He traveled through space and headed for lekard.

At this moment.

the other eight star fields of the divine civilization.

The eight Starfield Lords had already received news from Pules Cradell, but just as they were about to support him ...

He suddenly realized in horror.

Pules Cradell had been destroyed by an unknown enemy.

The entire planet Pules was occupied by an unknown enemy.

“This is an ...”

“What happened?”

“Are there any records?”

“Did the ‘god’s eye’ record the war?”

“Get it out immediately!”

“.....”

Buzzzzzz! Buzzzzzz!

The divine civilization’s ‘God’s eye’ was a super cutting-edge technology that could monitor the ten star fields at the same time. Naturally, they had recorded the battle scene where Jiang Li conquered the Pules star field.

After that.

The eight leaders of the starfields began to play.

They were all shocked.

It was unimaginable.

They could not imagine it at all.

Originally.

They were surprised that the enemy was a super fleet from a powerful civilization, but when the reality was in front of them, they were all shocked.

One person!

There was only one person!

it had completely broken through the entire planet.

It didn't matter how powerful the godly fleet was or how terrifying the military strength was.

The other party!

He had only used one sword!

One sword!

He only used one sword!

Chapter 810 Undying

After the poules star field was taken over, Jiang Li didn't have to worry about the safety of the Milky Way anymore. He could take over the entire civilization of gods.

Time flew by.

In the blink of an eye, half a month had passed.

Lekard, mouriyak, and grykhas.

One star field after another.

Jiang Li took them down one by one.

Any fleet of gods or particle weapons that appeared in front of Jiang Li couldn't withstand a single blow. Jiang Li alone killed almost half of the civilization of gods with his sword.

It was unstoppable.

This was the power of the 'Master of Rules'.

It was enough to move unhindered across the great cosmos.

He was truly unrivaled.

now.

Jiang Li had already taken down four star fields.

Currently.

Jiang Li was in the fifth Starfield, 'ilki Starfield'.

In reality.

The headquarters of the divine civilization received the news when Jiang Li conquered the second star field, lekard star field.

Furthermore ...

The fleet was mobilized.

They wanted to attack Jiang Li.

Unfortunately ...

” destroy! ” jiang li destroyed the god’s fleet.

no matter how many fleets the godly star field sent out and how powerful their weapons were, they were all no match for jiang li. they were like ants to an elephant.

hence.

Mouriyak Galaxy, grykkhas Galaxy.

The Masters of these two starfields.

As soon as they saw Jiang Li, they surrendered to him.

Obviously.

This was because they knew how terrifying Jiang Li was and that the ‘godly civilization’ couldn’t do anything to him.

the only way was to submit.

Jiang Li knew that there was an unknown being behind the 'civilization of gods', so he didn't engrave the mechanical runes in their souls.

this was to prevent the two starfield lords who had submitted to him from dying again.

In reality.

Jiang Li thought the master of the 'ilki Starfield' would also submit to him.

The result was not the same.

After Jiang Li arrived at 'ilki Starfield', the fleet of the entire 'ilki Starfield' welcomed him. The Lord of the Starfield, ilki cradell, personally led the fleet and attacked Jiang Li.

Of course.

The final result was naturally Jiang Li's victory.

One sword!

It was still a sword!

Jiang Li destroyed the entire 'fleet of the ilki star field' with the 'Yin Yang sword Qi' and destroyed all the confidence of the 'civilization of gods'.

After that.

jiang li understood.

It turned out that ilgi cladell and pule scradell were brothers.

it had to be said.

The different civilization structures and the passage of time did not dilute or change the brotherly relationship between ilgi cradell and pules cradell. Instead, it deepened and blood was thicker than water.

In reality.

Jiang Li didn't expect it either.

He had only used half a month's time to take over half of the divine civilization's star field and control trillions of star systems.

This was something that he could never have imagined in the past.

"It's almost time."

Divine Star field. Jiang Li looked at the divine Star field of the divine civilization.

In half a month's time.

...

almost 90% of the divine civilization's fleet was destroyed by jiang li. it took him a long time to figure out the divine civilization's strength.

A peak Level-7 civilization.

Their strongest combat power was at the peak of the 'follower realm'.

It only had the power of a single rule.

Jiang Li was the 'Master of Rules' and had mastered the power of multiple rules.

Plus ...

jiang li cultivated the system of the 'super fantasy world' and integrated all the power into his body. with jiang li's strength, he could shake the middle world.

Even in the greater world.

They were also overlords.

They stood at the top of the pyramid.

"Your Majesty."

...

Roald moulijacques, the master of the mouliya Starfield, understood what Jiang Li was thinking and immediately flattered, "with your strength, it will be easy to take down the divine Star field. The divine civilization will also be at your feet.

"Your Majesty."

At this moment.

The Lord of the grykhas Starfield, modard grykhas reported to Jiang Li, "I've heard some secret news about the 'divine Starfield',"

the reason why there are no forces or experts from a Super Fantasy world in the ten star fields of the 'civilization of gods' is that the 'civilization of gods' has long been targeted by an expert from a Super Fantasy world.

"Furthermore ..."

most of the higher-ups in the divine civilization's headquarters have already submitted.

only the Supreme Leader of the ‘godly civilization’, the ‘master of God’, did not surrender. That’s why the godly civilization can still maintain its current situation.

“Oh.”

jiang li’s expression didn’t change.

Your Majesty’s appearance has broken the fragile balance. I’m afraid that the ‘master of God’ has no choice but to submit to the existence of the Super Fantasy world under pressure.

Modal said.

“So what?”

I’m back, ” Jiang Li replied.

As soon as he finished speaking.

” let’s go. ” jiang li took a step forward. the law of space interweaved and even activated a bit of the power of the law of space. he crossed the universe space and crossed a million lightyears with one step.

dozens of steps.

They could reach the divine Star area.

At this moment.

Divine Starfield.

The divine civilization’s headquarters.

In the middle.

There was an extremely vast star.

it was called the star of god.

On the planet.

It was located in a huge temple.

Within the palace.

The leaders of the divine civilization were basically all here.

He took a closer look.

Every leader had abandoned their 'physical body' and became an existence of 'soul body'. They had also been inscribed with 'inscriptions of immortality 'and reached the' servant level'.

At the very top of the hall.

On the divine throne.

The one sitting wasn't the 'God master' of the divine civilization.

it was another existence.

His head was full of silver hair.

He had a handsome face.

He was dressed in a long golden robe.

He had an arrogant temperament.

“god lord.”

The silver-haired young man looked at the ‘God of gods’ in front of him. The image of the ‘God of gods’ was that of a white-haired old man. He stood in front of the silver-haired young man and did not speak.

“You should make your choice.”

The silver-haired youth said.

“Hehe, Yingluo.”

The God master laughed, but his smile was a little bleak. He looked at all the leaders around him, who had knelt down. He felt bitter in his heart and said slowly, ” “is there any meaning to my choice?”

“there is.”

The silver-haired youth said, ” I’ve said it before. I’m one of the God followers of the God race’s ‘undying master God.’ Under the orders of my master, the undying master God has never forced anyone to do anything.

“everything must be voluntary.”

“So,”

“i need to hear you surrender willingly,” the silver-haired youth continued.

“.....”

The hall was silent.

voluntary?

thinking about what the silver-haired youth had done in the divine civilization, the god lord wanted to stomp on his face and curse. ” you f \* cking call this voluntary?

Of course.

He could only think about it.

Because ...

This self-proclaimed undying master God follower silver haired youth was too terrifying, and his methods were mysterious.

“We are willing to submit!”

He took a deep breath.

the divine master knelt down and said word by word.

“Hahahahaha!”

The silver-haired young man laughed out loud, and his smile gradually disappeared. since you’ve already submitted, then the divine civilization will be one of the members under the undying master God.

“Today,”

“I’ll let you experience the might of an undying sovereign.”

let me take care of your enemies. It’s your reward.

Buzzzzzz!

as soon as he finished speaking.

The silver-haired young man took a step forward.

His figure crossed space.

The next moment.

He had already appeared in the interstellar space.

“Let’s go,” he said.

“Quickly go and take a look.”

“hurry up!”

“.....”

buzzzzzz! Buzzzzzz! “Whoosh!!!”

The spatial fluctuations were extremely clear.

Within the palace.

The various leaders of the divine civilization crossed the void in their soul forms, left the temple, and entered the outer space of the divine Star.

The God Lord was silent for a moment before he quickly followed.

In outer space.

In the vast universe.

jiang li had already crossed the distance of nearly ten million lightyears and arrived at the divine star system of the divine star field. it was the star system where the divine civilization's headquarters was located.

Buzzzzzz!

jiang li walked out of the space.

His figure appeared out of thin air.

Right in front.

The silver-haired young man, the God follower of the undying master God, also crossed the space and stood in front of Jiang Li. He was about half a light year away from Jiang Li.

The two of them looked at each other.

In the surroundings.

The leaders and higher-ups of the divine civilization had all transformed into beings of spirit, standing far away at the edge.

They watched quietly.

“Human Emperor.”

A glance.

Jiang Li. the young man with divine silver hair knew Jiang Li's identity.

“God clan.”

jiang li saw through the silver-haired young man too. ” he’s protected by rules and shining with divine light. he’s a god-level divine race. ”

“yes, i am.”

human Emperor, ” the silver-haired young man said arrogantly, ” I’ve seen your battles. I have to say that you’re not weak. You’ve already reached level 13.

“However,”

The silver-haired youth continued, ” the divine civilization has already become a subordinate of our master, the undying master God. We’ve already become a member of the undying master God.

“You’re late.”

“an undying sovereign.”

Jiang Li murmured.

“Human Emperor, you can leave now.”

the silver-haired youth said indifferently.

“Alright,” he said.

Jiang Li nodded and looked at the silver-haired young man. I can leave if you want. I’ll leave immediately as long as you can take one of my attacks.

“How is it?”

Jiang Li asked.

“alright,” he said.

The silver-haired youth snorted coldly. human Emperor, you may be strong. However, I am a God follower of the undying master God. How can I be afraid of you? ”

“Please draw your sword.”

The silver-haired youth said.

Buzzzzzz!

Hence.

Jiang Li raised the ‘demonic sword’ and put it in front of him. He let go of the hilt and formed a seal with both hands. He activated the Azure Emperor Art and the power of rules appeared.

First of all ...

The rules of the five elements appeared.

it formed a ring of light.

“The rules of the five elements.”

The silver-haired youth was extremely calm, ” undying God light.

BOOM!

The silver haired youth immediately used the undying laws.

“Luck path, formation path.”

Buzzzzzz! Buzzzzzz!

The next moment.

rules! Jiang Li used two rules again.

“!!!”

The silver-haired youth’s pupils contracted.

However ...

It was not over yet.

Or rather ...

It was just the beginning.

“Yin and yang.”

rule force. Jiang Li released another level of rule force.

Clang! clang!

Immediately after.

The ‘demonic sword’ trembled, and the laws of sword Dao, absolute Yin laws, and devouring laws emerged. All sorts of laws manifested, producing a power that crushed the space.

“The Master of Rules!”

This time.

The silver haired youth was extremely shocked, so much so that the undying God light on his body shook violently. His voice trembled as he screamed, " wait a minute, wait a minute, Your Majesty human Emperor, please spare me!!!
