

Army 811

Chapter 811 exterminated

Jiang Li turned a blind eye to the silver-haired young man's begging, because in his eyes, the silver-haired young man was already a 'dead man'.

the rules in front of jiang li merged together.

It produced a power that could split the heavens and earth.

It was too terrifying.

In the surroundings.

The leaders of the 'divine civilization' were all stunned. They looked at the silver-haired young man in shock.

One had to know.

In the beginning, the silver-haired young man was full of confidence and extremely proud. He didn't take Jiang Li seriously at all.

now.

The upper echelon of the 'godly civilization' was shocked. The silver-haired youth who claimed to be a God follower of the undying God was so scared that he knelt down and begged for mercy.

"The sword of rules."

Clang!

The sound of a sword.

Jiang Li didn't use his full strength. After combining with the power of the 'Demon Sword', he only combined seven rules. Then, he pointed at the silver-haired young man with his right hand.

shua!

The sword light of the 'demonic sword' shone.

It illuminated the surrounding universe.

Kachaa! Kachaa!

Even the space could not withstand the power of the sword, causing the space to constantly crack, forming spiderweb-like cracks.

The sword of rules.

The sword slashed at the silver-haired youth.

"No!"

The silver-haired young man was terrified. Facing this sword that was almost certain to kill him, he exploded with all his power, and the immortal divine light around him shone brightly.

It was extremely resplendent.

it was like a vast divine light blazing sun.

The laws of immortality intertwined.

"my lord!"

BOOM!

The silver-haired youth opened his arms and howled towards the sky. He used a 'follower's Secret technique' and forcefully drew in the undying master God's power that was separated by the world.

buzzzzzz! "Whoosh!!!"

Its might was getting stronger and stronger.

the next moment.

Behind the silver-haired youth.

A life-like figure appeared.

It was the body of an undying master God.

In the end.

The figure had fused with the silver-haired youth.

"Ah!"

the silver-haired young man shouted, " the immortal sword! "

Clang!

Similarly.

It was also the sound of a sword.

The silver-haired youth turned his body into a sword, becoming one with it. He received the power of the undying master God, as well as the power of the divine light formed by the undying laws, and fused it all into this sword.

It turned into the ‘sword of eternity’!

“Whoosh!”

the sword radiance of the immortal sword tore the space apart like an extremely sharp sword radiance. its power was indescribable, but it was enough to break the rules. it pointed at jiang li.

Bang! Bang! Bang!

in that instant.

Within this cosmic space.

There was a violent collision.

it could be seen.

It was the clash of two swords.

Jiang Li’s sword of rules and the silver-haired young man’s sword of eternity collided with each other, creating a series of explosions. The space seemed to be fragile under this power and easily cracked.

...

The power of rules collided with each other.

Kachaa! Kachaa!

Immediately after.

cracks started to appear on the silver-haired young man's sword of immortality. it started to crack and soon covered the entire sword. it couldn't resist jiang li's sword of rules.

“Ah!”

The silver-haired young man's shrill scream came from the sword of immortality.

BOOM!

There was a loud explosion.

the sword of immortality exploded.

The light shone.

The space cracked.

...

“Pfft!”

The silver-haired young man returned to his original human form. His body flew backward, and he spat out blood. Upon closer inspection, countless cracks and wounds appeared on his body.

Blood gushed out from the wound.

shua!

let's go. Jiang Li disappeared.

In an instant.

Jiang Li caught up with the silver-haired young man and stood in front of him. The silver-haired young man's eyes widened.

“Pfft!”

Jiang Li's 'demonic sword' pierced the silver-haired young man's head.

It came out of his brain.

The sword Qi of the 'demonic sword' invaded the body of the silver-haired young man and destroyed his life force. In an extremely short time, his soul was destroyed.

The battle was over.

from the beginning to the end of the battle.

The silver-haired young man couldn't fight back at all. He was completely suppressed by Jiang Li. Even though the silver-haired young man used the power of an immortal sovereign at the last moment, he was still overconfident.

It wasn't that the silver-haired young man wasn't strong enough, but that Jiang Li was too strong.

One had to know.

The silver haired youth was a God follower that the undying master God held in high regard, how could he not be strong?

“Die, Yingluo, die, Yingluo!”

“This Suan ni, this Suan ni”

“How is that possible? How is this possible?”

“Si si si ...”

“how could lord god follower be killed? how could he have been killed?”

“Just now, what happened in Xuanji?”

“.....”

In the surroundings.

The leaders of the divine civilization were completely shocked. The ‘God follower’ they thought was invincible was killed by Jiang Li in one second.

How could he not be frightened?

Buzzzzzz!

At this moment.

A strange fluctuation appeared on the silver-haired young man’s corpse. It attracted the surrounding cosmic energy and formed an extremely illusory figure.

this figure was wearing a silver robe.

“How audacious! Human Emperor, how dare you kill my God follower? you’re really bold.”

the illusionary figure shouted.

“You’re noisy.”

Shua!

die! Jiang Li's eyes were cold. He swung his sword and a half-moon shaped sword Qi cut the illusionary figure on the silver-haired young man's body.

jiang li didn't even need to guess to know that the illusionary figure was the immortal master god.

It had to be said.

for an undying master god to be able to create an illusionary body on the corpse of a god follower, his power was indeed extraordinary. as a master god of the gods race, he was naturally no ordinary 'master of laws'.

Jiang Li couldn't tell how many rules the immortal master God had mastered.

In reality.

After reaching the realm of 'master of the natural order', the more natural order one grasped, the stronger their combat power would be, and there was almost no upper limit.

Buzzzzzz! Buzzzzzz!

Suddenly.

The light from the silver-haired young man's corpse disappeared, turning into countless light spots and dissipating. However, there was no 'Soul Fire seed', but instead, it condensed into a ball of light.

It appeared to be gray and chaotic.

The ball of light flew towards Jiang Li.

It merged into Jiang Li's body.

shua!

[captured a fragment of the law of immortality!]

A notification appeared.

“the law fragment of immortality.”

Jiang Li murmured.

shua!

ten seconds later.

[unlocked ‘mechanical rule soldier Type: Sword of eternity’]

Another notification popped up.

“Oh.”

it’s another ‘regulated soldier’. Jiang Li’s expression remained unchanged.

to create the ‘sword of eternity’.

one trillion origin points. Jiang Li used one trillion origin points.

Buzzzzzz!

The manufacturing interface appeared.

It was a long, slender, and simple sword.

There were countless light spots filling up the surroundings.

It gradually solidified.

A minute later.

[creation complete!]

A notification appeared.

Shua!

‘soldier type of rules: sword of eternity’ appeared in front of jiang li.

it was an ancient-looking long sword.

He took a closer look.

It was almost identical to the appearance of the silver-haired youth when he transformed into a sword.

Immediately after.

Jiang Li checked the information of the sword of eternity.

[soldier type of regulation: sword of immortality]

[rank: rank 13]

[No.: Bxzj01]

rank 13 skill: immortal sword light ”

[rule machine: Chi Chi (omitted)]

” promotion condition: can not be promoted! ”

.....

“as expected,”

Jiang Li held the handle of the ‘sword of eternity’ and could feel the ‘rule of eternity’ inside. The sword of eternity was a one-time consumable, just like the spear of eternity.

“Go.”

Shua!

immortal sword! Jiang Li swung his sword. The immortal sword in his hand turned into an immortal sword light and slashed forward, spreading the space and sword Qi into the depths of the universe.

It spread out for an unknown distance of light years.

in the end, it ran out of energy and disappeared.

In the surroundings.

The Supreme leaders of the ‘godly civilization’ were in awe.

“We are willing to submit!”

great and Supreme existence, our ‘godly civilization’ is willing to be your subordinate.

“.....”

Without any hesitation.

The leaders of the ‘godly civilization’ knelt down to Jiang Li without any backbone. They kowtowed to Jiang Li.

“Very good,” he said.

okay. Jiang Li nodded in satisfaction.

On the other side.

In the Super Fantasy world.

Jiang Li killed a follower of an immortal master God, which naturally attracted the hatred of the immortal master God, because a follower God was like the left and right arm of a master God.

However ...

The undying master God was temporarily held back by important matters. He couldn’t enter the multiverse to kill Jiang Li, which bought Jiang Li some time.

to be precise.

In the immortal world.

It was one of the nine regions.

The sovereign region.

the undying master god was leading his god followers to kill the supreme immortal emperor of the supreme region. the battle had reached the most critical point.

compared to hunting the ‘paragon immortal emperor’. ..

Jiang Li's matter was much smaller and unimportant.

One had to know.

In the immortal world.

the 'immortal emperor' realm was equivalent to the 'master of laws' realm.

Furthermore ...

If they could kill an immortal Emperor, the undying master God would be able to directly devour the origin of the immortal Emperor and grasp all the laws of that immortal Emperor without any effort.

Time passed.

Three days later.

the 'godly civilization' was completely under jiang li's rule. jiang li had conquered such a vast area of the universe and gained the submission of the godly civilization. he had a powerful subsidiary race.

Hence.

It was as if a boundless amount of fate was surging over, transforming into the Empire's fate. The Azure Dragon of great Xia appeared and continued to devour the Empire's fate.

The huge body of the true dragon continued to grow.

Not only that.

Jiang Li asked the Lord of God and the others to sort out all the knowledge of the most advanced technology in the civilization of gods. Jiang Li began to study it carefully.

Unfortunately ...

The knowledge of the particle field of the ‘civilization of God’ was even less than Jiang Li’s.

it could be said that ...

Until now, the ‘civilization of gods’ was still focused on the ‘eternal particle domain’, but they had already developed the power of the ‘eternal particle domain’ to the extreme.

They were already at the peak of a Level-7 civilization.

Of course.

Jiang Li didn’t get nothing.

First of all ...

With the help of the technological knowledge of the ‘immortal particles’ in the ‘civilization of God’, Jiang Li mastered the ‘law of immortality’ in just one day.

In addition.

jiang li also saw through it.

Since he was temporarily unable to understand the domain above the laws, he would continue to integrate and master more laws to make himself stronger and stronger.

One had to know.

Jiang Li had offended the undying master God.

at that time.

It was inevitable that he would have to fight an undying master God.

Before this.

Jiang Li had to keep improving his strength.

Chapter 812 Comprehension

The 'godly civilization' was indeed a Level-7 civilization that had existed for countless years. Their understanding of the entire universe was far beyond Jiang Li's.

the world of the great cosmos.

They were above Level-7 civilizations.

They were a 'Level-8 civilization' that had mastered the fusion of various particle fields and were already at the top of the pyramid in the universe.

The 'God' civilization joined a Super Space civilization called the 'universe Alliance'. The universe Alliance 'was a super organization led by nine level 8 civilizations.

His footprints covered the endless universe.

The diameter of the universe that the universe Alliance could monitor and control had already reached 36 billion light years. It was hard to imagine how vast and great it was.

In reality.

Other than the universe Alliance.

Within the great cosmos.

There were also the ‘universe bug race’, ‘universe Star Beast’, and ‘universe alien’.

As for civilizations above Level-8 ...

The ‘godly civilization’ also had some understanding through the records and knowledge of the ‘universe Alliance’. They were a level 9 civilization’.

he had mastered the ‘laws of the universe’.

“The laws of the universe.”

Jiang Li had finished browsing through all the information stored in the ‘civilization of gods’. It only took him three days. a Level-8 civilization should be at the level of a ‘Master of Rules’, and a level-9 civilization should be beyond that.

“The laws of the universe, does it mean that they have surpassed the laws of the universe?”

Jiang Li muttered.

A month later.

Jiang Li gave the permission to the hidden dragons and asked them to lead the mechanical fleet to fight in the vast universe.

Through the star map of the ‘divine civilization’.

Around the ‘godly civilization’.

There were also several powerful Level-7 civilizations with huge organizations.

Hence.

Jiang Li set his sights on the nearby Level-7 civilizations.

His goal was simple.

They had to subdue the surrounding Level-7 civilizations.

Using battle to sustain battle.

He had to gather a large amount of resources.

at the same time.

The more civilizations and races Jiang Li conquered and the more territories he occupied, the Azure Dragon Kingdom would be able to absorb more fate of the dynasty and grow.

Jiang Li could also use the energy from the dynasty's fortune to cultivate.

The most important thing was ...

basically.

Every Level-7 civilization had mastered the power of different particle fields. After Jiang Li subdued these Level-7 civilizations, he would be able to comprehend more rule power through their knowledge in the particle field.

of course.

In order to fight against the particle weapons of a Level-7 civilization.

Jiang Li left the 'evil sword'.

The 'Demon Sword' had its own consciousness. With the power of the nine rules of the 'Demon Sword', it was enough to deal with Level-7 civilizations. It could even deal with the fleet of a Level-8 civilization.

Three days later.

let's go. Jiang Li told them everything.

buzzzzzz! Wuwuwuwuwu!

Jiang Li entered the No. 40 magical base.

He began to cultivate in seclusion.

during his seclusion.

after the hidden dragons obtained the corresponding authority, they started to build a large number of mechanical fleets, all of which were level 12 meches.

In total, they had built ten thousand mechanical fleets.

Among them.

Each fleet had a military strength of one quadrillion.

In other words ...

in order to create such a fleet of machines.

Let's not talk about the various steel materials and Star Iron.

just the origin points.

...

He had consumed a total of one trillion origin points.

Each mechanical fleet consumed a trillion origin points.

One had to know.

Jiang Li only ruled one Galaxy. After converting all the resources in the Galaxy, he got more than a billion origin points.

now.

Just the ‘godly civilization’.

They ruled over a Galaxy with a diameter of 100 million light years.

It had 100 million galaxies.

so,

He had enough origin points.

There was no need to worry about a lack of resources.

...

At the center of the divine civilization.

Divine Starfield.

The divine Galaxy.

It was the headquarters of the ‘godly civilization’.

it had become the command center of the great xia empire in the great cosmos.

A huge Imperial Palace was built.

Within the palace.

There were ‘hidden dragons’ that looked exactly the same standing there. They were all the ‘heart of the base’ of the magical bases, which formed the interstellar war command center.

now.

‘Heart of base’ had completely taken over the ability of ‘battlefield commander’.

In addition.

The ‘God master’ of the divine civilization, as well as the Supreme leaders of other major civilizations and races, were all gathered here, awaiting orders.

Furthermore ...

Lin Tianjian, Wu Wuji, and the other princes.

They stood at the outermost perimeter.

Lin Tianjian, Wu Wuji, and the others could no longer participate in the upcoming war. Even the ‘military formation’ that they had developed could not be put to use.

In other words.

Although the ‘army formation’ was powerful, it was already at its limit when it reached ‘level 12’. It could not step into the realm of ‘rules’, so it was not of much use in the upcoming interstellar war.

The most important thing was ...

Lin Tianjian, Wu Wuji, and a few others would not be of much use.

One had to know.

The fleet’s next journey would cross a distance of hundreds of millions of light years.

“God Lord.”

Hidden Dragon stood in the middle and looked at the God master.

“Yes,”

The God master took a step forward.

“open the ‘star map of the universe’.”

Hidden Dragon ordered.

“Yes.”

The God master replied.

“whoosh!!!”

The next moment.

The vast universe star map unfolded.

He appeared in the sky above the main hall.

All the living beings raised their heads.

He looked up at the vast universe star map.

he browsed through it carefully.

Within the entire star map.

It was divided into seven areas.

The central area was the 'godly civilization'.

In the surrounding six regions.

They were from four Level-7 civilizations. One was a star field occupied by the bug race, and the other was the habitat and reproduction place of the star beasts.

Four Level-7 civilizations.

The soul civilization, the life and death civilization, the sun civilization, and the firmament civilization.

Every civilization had mastered different technologies in the particle field.

The universe Zerg and the universe star beasts.

they were two different existences.

before the chief sovereign went into seclusion, he had already given us the highest order.

they want us to lead the fleet and take down the four surrounding Level-7 civilizations one by one, ” Hidden Dragon said. at the same time, they want us to eliminate or subdue the Zerg and the star beasts.

“.....”

in the surroundings.

the supreme leaders of the various civilizations and races were all silent.

in reality.

Apart from the God Lord, many other civilizations were still in shock because they were not experienced enough and their civilization level was too low.

He couldn't express any opinion.

It was hard for them to imagine.

How magnificent would a scene hundreds of millions of light years away be?

he couldn't imagine such a scene in his mind.

“My Lords.”

The master of God quickly said, ” four Level-7 civilizations. The divine civilization has also tested their strength. Among them, the technology of the mind civilization is the most unfathomable. It is impossible to guard against them.

” the life and death civilization is the most powerful. ”

the sunreach civilization is relatively mediocre.

” the firmament civilization is the weakest. ”

If possible, I think we should attack the firmament civilization first.

“No,” she said.

a mere Level-7 civilization can’t stop us at all, ” Hidden Dragon said. it’s even more impossible to fight against the Lord’s fleet. Under the light of the Lord, we will be invincible.

“So,”

10000 mechanical fleets will be mobilized and divided into six fleets. They will launch a war against the four Level-7 civilizations, the space Zerg, and the space Star beasts at the same time.

“i have to give the hegemon a surprise before he exits seclusion.”

“this bi an ...”

The God master was stunned. He was shocked by Hidden Dragon’s idea. No matter how he thought about it, he would never have thought that he would have to activate all six battlefields at the same time. Could he really win?

In magical base No. 040.

Buzzzzzz! Buzzzzzz!

He activated his cultivation technique.

Jiang Li was already in seclusion to cultivate.

They had subdued the peak level Seven divine civilization.

Of course, Jiang Li had harvested a lot of fortune from the Empire.

the world of the true dragon roll.

The great Xia Dynasty's National fate ranking rose rapidly.

Very quickly.

The Azure Dragon's body size was hard to estimate.

One had to know.

A true dragon of the Imperial dynasty whose body was 100000 meters long would be ranked at the ninth level. If it reached the level of a million meters, it would be ranked eighth. When it reached the size of ten million meters, it could be ranked at the seventh level.

And so on.

With every increase in level, the size of the Dragon's body would increase by ten times.

In other words ...

As long as the Emperor dynasty true Dragon's body reached a billion meters, it would be able to enter the fifth stage. If it was ten times larger, reaching ten billion meters, it would be able to enter the fourth stage.

now.

The great Xia Dynasty was ranked 51300th, and the fifth stage was also the first stage. The great Xia true Dragon's body was about nine billion meters in size.

It was roughly equivalent to 30 light-seconds.

Flying at the speed of light for half a minute.

Buzzzzzz! Buzzzzzz! Wuwuwuwu!

immediately after.

Purple-gold light balls fell from the true dragon List and quickly merged into Jiang Li's body, receiving one reward after another.

Each reward represented a cultivation method of a law.

‘Reward 1: medium-grade soul secret technique’

.....

‘Reward 2: Medium-grade karma secret technique’

.....

‘Reward 3: Medium-level secret disaster skill’

.....

Three rewards.

They represented three different laws.

As long as he succeeded.

Jiang Li could master three different rules again.

However ...

it was definitely not an easy task to comprehend the laws.

Furthermore ...

Jiang Li didn't study the three rule secret skills he got this time. Instead, he continued to study the 'medium-level space secret skill' he got before, trying to master the space rules.

Cultivation knew no time.

The energy from the Fortune of the Empire kept flowing into Jiang Li's body, helping him cultivate and improving his comprehension.

he entered a state of enlightenment.

this was the only way.

Only then would he be able to comprehend the laws in an extremely short amount of time.

Otherwise ...

He might not even be able to comprehend a single law even after hundreds of thousands of years of closed-door cultivation.

Ten years later.

the space trembled.

Jiang Li was surrounded.

The space formed many mysterious lines like pythons and Dragons. They intertwined with each other and gradually merged into Jiang Li's body.

Instantly.

jiang li disappeared.

it was in between the layers of space.

Spatial rule force!

He had successfully comprehended it!

Chapter 813 Closed-door cultivation

Jiang Li's figure gradually became real. He had left the layers of space and came to the 'real' space world. His body was covered in the mysterious aura of space rules.

He had already completely mastered the spatial laws.

medium-level soul secret technique.

buzzzzzz!

Immediately after.

After Jiang Li completely consolidated the space rules, he began to study the 'medium-level soul secret skill'. He used the 'medium-level soul secret skill' as a guide to gradually understand the mysteries of the 'soul'.

In addition, the energy from the dynasty's fortune was flowing into Jiang Li's body.

it would improve jiang li's comprehension.

In addition.

Shua! Shua! Shua!

Jiang Li opened the Dominator panel and took out a large number of soul Tinders. They were like countless light spots, each of which was like a Firefly.

The stars surrounded the moon.

The different levels of the soul Tinder had different colors.

It formed a colorful scene.

boom!

Soul Fire! Jiang Li burned the ‘soul Tinder’ and formed a vast ‘Soul Fire’. In the burning ‘Soul Fire’, Jiang Li practiced the ‘medium-level soul secret technique’ and comprehended the mysteries of the soul rules.

Time passed.

A year later.

Jiang Li would study the ‘law of soul’ and then the ‘rule of soul’.

Five years later.

His comprehension of the soul law was complete.

of course.

This was because Jiang Li had an endless supply of energy from the fate of the dynasty. In addition, Jiang Li could directly see the essence of the 'soul' by burning the 'soul Tinder' and igniting the 'Soul Fire'.

so,

That was why Jiang Li was able to comprehend the soul rule in just six years.

Otherwise ...

If he didn't have countless soul Tinders to light up the soul Fire, he wouldn't have been able to master the soul rules in six years.

Half a year.

Jiang Li consolidated the soul rule force.

Next.

Jiang Li created 'swords of eternity' and used the immortal sword light to understand the mysteries of the 'rules of eternity'.

The law of immortality.

Naturally, it was a powerful law created by an undying master God.

Eternal.

even though ...

Even if Jiang Li had mastered the 'law of immortality', he wouldn't be able to exert its power when facing an 'immortal master God'. He would be completely suppressed.

but ...

If he could grasp the undying laws, he would be able to understand the various mysteries of the undying laws, and from there, he would be able to understand the situation of the undying master gods and come up with a corresponding battle plan.

Only by knowing yourself and your enemy can you win a hundred battles.

Hence.

Jiang Li began to analyze the 'rules of immortality'. With the help of the energy from the dynasty's fortune, Jiang Li's comprehension ability increased greatly.

It took a total of nine years.

Jiang Li had finally mastered the 'rules of immortality' and turned them into his own power.

Through the analysis and mastery of the 'undying laws'.

Jiang Li had some understanding of the immortal Sovereigns.

even though ...

There was no difference in strength between laws.

but ...

The ultimate mystery of the law of immortality was to make one immortal and indestructible.

so,

This was a very powerful rule.

The undying master God was definitely an extremely powerful 'Master of Laws'.

To defeat an undying master God ...

...

It was quite difficult.

of course.

It wasn't as if he had no chance at all.

As long as Jiang Li mastered enough rules, he could crush the immortal master God.

Next.

Jiang Li started to practice medium-grade karma secret skill.

Buzzzzzz! Buzzzzzz!

Time flew by.

Three years later.

Jiang Li had only comprehended the 'law of cause and effect'. He was still one level away from perfection, let alone mastering the 'law of cause and effect'. It was extremely difficult.

Since Jiang Li started his closed-door cultivation.

...

A total of 28 Earth years had passed, almost 29 Earth years.

In the outside world.

Earth-shaking changes had taken place.

First of all ...

The many 'hidden dragons' led 10000 'mechanical fleets', and each fleet had 1.5 trillion level 12 mechanical interstellar soldiers.

They had already started a war against the four Level-7 civilizations, the space Zerg, and the habitat of the space Star beasts.

It took nine Earth years.

they had taken down one of the four level-7 civilizations, the firmament civilization.

He used another nine Earth years.

The mechanical fleet would then take over all the habitats of the bugs and star beasts.

In the next ten years.

the soul civilization, the life and death civilization, and the sun civilization.

The three Level-7 civilizations had joined forces.

Finally, they stopped Jiang Li's mechanical fleet.

it had been a stalemate for nine years.

Finally.

It even alerted the universe Alliance.

In addition.

The habitat of the space insects and the star beasts were occupied by Jiang Li's mechanical fleet.
The Saha da na insect race and the universe Star Beast: The eternal star tribe knew.

This way ...

Jiang Li had offended the three superpowers of the universe.

The Ya Ge civilization, one of the nine Level-8 civilizations of the universal Alliance, sent the 'Ya Ge Fleet' to the battlefield and stopped Jiang Li's mechanical fleet.

Not only that.

the two sides even started a huge war.

Hence.

The hidden Dragon guards brought out their demonic sword without hesitation.

Interstellar battlefield.

The 'demonic sword' descended.

Clang! Clang!

Just the sound of the sword seemed to tear the soul apart.

Shua! Shua! "Whoosh!"

Streams of sword Qi were emitted from the sword.

The space was torn apart.

BOOM! BOOM! BOOM!

There were nine rules.

Without Jiang Li's control, the 'evil sword' completely released its 'nature', so it directly burst out the 'nine rules', which were the rules of machinery, sword Dao, ultimate Yin, devouring, bizarreness, luck Dao, formation Dao, five elements, and Yin Yang.

Nine completely different laws fused into one.

It exploded with unparalleled power.

“Slash!”

The sword slashed out.

the power that burst out was indescribable.

Bang Bang Bang Bang!

Wherever the sword light passed.

Everything was destroyed.

Countless battleships, fleets, stars, and galaxies were like bubbles under this sword, unable to withstand a single blow.

“Rumble!”

The sound of the explosion shook the endless space.

It was extremely terrifying.

The power of this sword.

It affected an area with a diameter of 100 million light years.

It was too terrifying.

He only used one sword.

The 'Yage fleet' of the 'Yage civilization' had almost been completely annihilated, and only the leader of the 'Yage fleet' had survived. He looked extremely shocked.

a Level-8 civilization!

The fleet leader's eyes widened in shock as he shrieked, " it's a level-8 civilization. the other party is actually a level-8 civilization. "

when did a level 8 civilization appear in the territory of our 'Universal Alliance', and we have no news of it at all? "

The 'demonic sword' showed its might.

He had shown the universe Alliance his power.

Hence.

The leader of the Yager fleet sent the relevant information to the 'Universal Alliance'. After the leaders of the nine Level-8 civilizations received the news, they immediately held a meeting.

The meeting went on for half a day.

finally.

The result was out.

one had to know.

The human, demon, and barbarian empires from the Super Fantasy world, as well as the subsidiary races and experts of the demon, God, and ghost races, had entered the world of the great cosmos.

The universe Alliance had to deal with the power from the Super Fantasy world.

not only that.

Also, be careful of the 'space Zerg', 'space astral beast', and 'space Xenomorphs'. The three superpowers that were no weaker than the universe Alliance did not have the extra energy to deal with a level 8 civilization that they did not know about.

If possible.

As long as it was feasible.

They had to find a way to recruit this 'unknown Level-8 civilization' and make them join the 'universe Alliance'. Just like them, they would enjoy the same treatment as the leader of the 'universe Alliance'.

This way ...

At the same time, the other party could share his burden.

Just like this.

rocky, the leader of the 'yage fleet' that had survived, received an order. he represented the will of the entire 'cosmic alliance' to talk to the other 'hidden dragons', lin tianjian, wu wuji, and the supreme leaders of the various civilizations and races.

Of course.

Be it the hidden dragons, Lin Tianjian, or the 'clan leaders' of the subsidiary clans, none of them could represent the will of the great Xia Dynasty.

After the discussion.

Hidden Dragon told 'Rocky' their decision.

Chapter 814 Condition

First of all ...

If they wanted to stop the war.

The soul civilization, life and death civilization, and sun civilization-the three great Level-7 civilizations-had to surrender unconditionally and become a part of the great Xia Empire.

as for whether or not he would join the 'universe alliance', he would have to wait until jiang li came out of seclusion.

Rocky didn't dare to make a decision and could only pass on this condition to the nine leaders of the universe Alliance.

The nine rulers only muttered to themselves for a moment before agreeing to this condition.

As long as they could stop the war, they would only have to hand over three Level-7 civilizations.

It didn't matter.

In addition.

The nine rulers also wanted to express their good will and want the great Xia Empire to join the 'universe Alliance'.

Half a year later.

magical base no. 040.

Law-level Lord's hub room.

Buzzzzzz! Buzzzzzz!

Jiang Li was still in seclusion.

the law of cause and effect had been perfected, but he still couldn't master the rules of cause and effect. it was like there was a paper window between them that jiang li couldn't break through no matter how hard he tried.

In addition.

as the hidden dragon and the others had already occupied the habitats of the four level-7 civilizations, the space zerg, and the space star beasts, they had obtained an endless amount of the empire's fate.

Hence.

After the Azure Dragon of great Xia devoured such a vast fortune of the Empire ...

his dragon body broke through the 10 billion mark.

The great Xia Dynasty's National fortune ranking had entered the fourth rank.

Furthermore ...

It was still increasing.

In the end.

It had reached the level of 47800.

Immediately after.

Jiang Li also got many rewards.

They were all cultivation methods of law secret techniques.

Shua! Shua!

Purple-gold light balls merged into Jiang Li's body.

'Reward 1: medium-grade wish secret skill.'

.....

'Reward 2: middle-grade secret technique of morality.'

.....

'Reward 3: Medium-grade destructive secret skill.'

.....

‘Reward 4: middle-grade curse secret technique.’

.....

jiang li tried to cultivate other secret skills and found that they were the same as ‘medium-grade karma secret skill’. it was easy to comprehend the laws, but it was hard to master the rules.

Even though ...

there was still the vast energy of the empire that had yet to be absorbed.

but ...

there wasn’t much meaning in continuing his seclusion.

If he wanted to grasp more laws, he would have to slowly comprehend them over time.

Hence.

jiang li came out of seclusion.

this time, he was in seclusion.

Jiang Li had mastered the space rule, the soul rule, and the immortal rule, which were three different rules. Jiang Li had become the Master of Rules who had mastered eight rules.

if the rules of the ‘demonic sword’ were added ...

jiang li had mastered twelve rules.

Shua! Shua!

As soon as Jiang Li walked out of the room, Hidden Dragon arrived and stood in front of him. He saluted Jiang Li respectfully.

...

In the surroundings.

The hidden Dragon guards appeared one after another.

“Congratulations to the hegemon for emerging from seclusion!”

‘The hidden Dragon Gang shouted in unison.

“Yes.”

Jiang Li looked up and saw many ‘hidden dragons’. They looked exactly the same.

It was hard to tell.

If it wasn’t for the serial number on their chests, they wouldn’t have been able to tell.

Jiang Li couldn’t even count them. There were too many hidden dragons. There were at least tens of thousands of heart of base.

This showed.

At least tens of thousands of law bases were built.

...

Shua!

Jiang Li opened the Dominator panel and checked the number of origin points. He was surprised to find that his origin points had increased instead of decreasing.

Clang!

The next moment.

huh? ” Jiang Li heard a sword sound. He looked up and saw the ‘demonic sword’ coming like a black sword light.

In an instant.

It stopped in front of Jiang Li.

“it’s been a long time,”

Jiang Li reached out and grabbed the handle of the ‘evil sword’.

The body of the ‘demonic sword’ trembled and let out a series of ‘joyous’ sword cries.

Buzzzzzz!

the sword light lit up.

The ‘demonic sword’ disappeared and turned into a sword pattern on Jiang Li’s palm.

“Hidden Dragon,”

how long have I been in seclusion? ” Jiang Li asked with his hands behind his back. how many years have I been cultivating? ”

“Reporting to the hegemon, it has just been thirty years.”

Hidden Dragon replied.

“It’s been thirty years.”

Jiang Li took a deep breath. the mission I gave you. The four Level-7 civilizations around, the habitats of the space bugs and space beasts, have you taken them all? ”

“Yes.”

yes. Hidden Dragon replied, ” the habitats of the four great Level-7 civilizations, the space Zerg, and the space astral beasts, have all been taken down after 29 years and have been given to the great Xia Dynasty.

“oh.”

good job. Jiang Li’s expression didn’t change, but he was happy. He nodded. good job.

“This is what your subordinates should do.”

Hidden Dragon replied.

“the chief sovereign’s orders are the direction we should head in.”

immediately after.

all the hidden dragons shouted in unison.

“Yes.”

okay. Jiang Li nodded in satisfaction.

“Chief sovereign.”

yes. Hidden Dragon reported to Jiang Li. when we led our fleet to attack the four Level-7 civilizations, we alerted the 'Universal Alliance'. One of the nine Level-8 civilizations of the 'Universal Alliance', the 'Yage civilization', sent out the 'Yage fleet'.

we directly asked 'demonic sword', and Sir' demonic sword 'exploded with great power. With only one strike, he destroyed all the resistance.

"We won."

"And so ..."

"the 'universe alliance' let 'rocky' be the envoy and negotiated with us. in the end, they agreed to our request and gave all the regions within a billion light years to the great xia empire. "

"Also,"

"They also want to invite you to join the 'universe Alliance'."

"Oh."

Jiang Li pondered. After listening to Hidden Dragon's story, he said, "this is interesting. The universe Alliance actually wants to invite me to join.

it seems that the universe Alliance is overwhelmed by the invasion of the Super Fantasy world. That's why they want to recruit me. I guess they want me to be their 'fighter'.

"However, Yingluo"

Jiang Li took a deep breath. they want to use me, but I want to use them too.

"go and invite rocky over."

go! Jiang Li ordered.

“Yes.”

Hidden Dragon replied.

half a day later.

The headquarters of the divine civilization-the divine Star system.

And now.

It had been renamed to the great Xia Galaxy.

Planet great Xia.

The Imperial Palace of the Grand Xia.

In the main hall.

Jiang Li was sitting on the highest throne.

below.

Lin Tianjian, Wu Wuji, Xu Ya, Hong Tianqi, the God Lord, and the leaders of the subsidiary races were all gathered in the hall.

Obviously.

jiang li of the holy peace state had allowed it to develop naturally.

Jiang Li's current goal was the 'multiverse world', so he brought all the ministers of the great Xia Dynasty into it.

Only a small number of important officials of the great Xia Empire were left to manage the state.

“Luo Ji pays his respects to the Xia Emperor.”

Rocky, the emissary of the Yage civilization, kowtowed to Jiang Li.

“yes.”

Jiang Li looked at Rocky.

Rocky lowered his head. He didn't dare to look up at all. In his eyes, Jiang Li was surrounded by mist. He didn't even dare to look at Jiang Li.

Jiang Li's gaze gave him a terrifying pressure.

“I already know why you've come.”

Jiang Li's tone was calm, but he said in a serious tone, ” it's possible for me to join the universe Alliance, but you have to agree to my conditions.

Chapter 815 The deal

the hall was silent.

Rocky lowered his head, waiting for Jiang Li to continue.

I need the various technological knowledge in the particle domain that the various Level-8 civilizations have.

let's go. Jiang Li stated his purpose.

one had to know.

After Jiang Li took over the divine civilization, he studied the technological knowledge in the immortal particles of the divine civilization and mastered the rules of immortality in one day.

Of course.

One could not rule out the fact that Jiang Li had used the ‘eternal particle’ to reforge his body.

Even so ...

If Jiang Li could get a lot of technological knowledge about particles, he would be able to master a lot of rule force in a very short time.

At that moment.

even if the true body of an immortal master god came, jiang li wouldn’t be afraid.

in addition.

Jiang Li could try to divert the trouble.

He could even drag the entire universe Alliance into his battleship.

this Tao Wu?!

Rocky suddenly raised his head, his expression stunned and shocked. He immediately shouted, ”
“Impossible! This was impossible! The scientific knowledge in the particle field is the most precious wealth of every civilization, and it is the foundation for every civilization to survive in space!”

“This condition is impossible to agree to.”

“Don’t be in a hurry to reject me.”

Jiang Li smiled and said calmly, ” Rocky, you’re just a ‘Messenger’, you can’t represent the will of the entire universe Alliance. You haven’t asked’ them’, how do you know that this condition is impossible? ”

go and contact the highest authority of the universe Alliance. Get them to talk to me personally.

“.....”

Rocky was stunned for a moment, then he nodded dejectedly. “yes!”

half a day later.

Rocky conveyed Jiang Li’s ‘condition’ to the highest level of the universe Alliance. Jiang Li’s unreasonable request naturally caused the nine Level-8 civilizations to be angry.

After calming down.

In the end, the nine Supreme-beings of the universe Alliance decided to talk to Jiang Li in person.

of course.

It wasn’t his real body, but an illusionary body formed through technological means.

In the main hall of the Imperial Palace.

Buzzzzzz! Buzzzzzz! “Whoosh!!!”

Rocky took out the ‘Space Projector’, which could show the nine Supreme powers of the universe Alliance across tens of billions of light years.

Nine imposing figures appeared.

Their postures were different.

However ...

Their figures were shrouded in a thick fog.

He couldn't see it clearly at all.

Of course.

The communication between advanced civilizations was no longer through language, but through the fluctuations of the soul, they expressed different attitudes and words.

Furthermore ...

Every civilization had a different culture and language.

Therefore, it was not realistic to communicate with 'words'.

One had to know.

even on 'earth', due to the differences in each country, chinese, english, japanese, and other languages and cultures were born.

Unless ...

A super civilization that could dominate the entire universe could appear in the 'great universe world' and forcefully give orders to all civilizations in the universe to learn the same language and culture.

The possibility of this was very low.

It could even be said to be very unrealistic.

“Respected human Emperor of the great Xia Dynasty.”

Jiang Li. the nine people showed their respect to Jiang Li.

“Yes.”

yes. Jiang Li nodded. dear Supreme rulers of the universe Alliance.

“Xia Emperor.”

...

At this moment.

Yage, the Supreme ruler of the Yage civilization, went straight to the point and said, ” unfortunately, we can’t agree to your conditions. We can’t give you the technology in the particle field.

if we start a war, your great Xia Dynasty will become history under the cosmic Alliance’s fleet.

“.....”

The other eight Supreme rulers of Level-8 civilizations were silent.

“hehe.”

I don’t know. Jiang Li smiled. not necessarily.

“xia emperor.”

Immediately after.

Green jade, the highest ruler of the Level-8 civilization, the green jade civilization, said, ” in fact, we have already investigated and deduced that your great Xia Dynasty should have a great relationship with the ‘Super Fantasy world’.

towards invaders from ‘other worlds’, our universe Alliance has always exterminated them. Allowing you to join our universe Alliance is already the greatest mercy.

...

“Do you still have the energy to fight with me?”

Humph! Jiang Li snorted.

“.....”

time passed.

Jiang Li and the nine supreme leaders of the universe Alliance kept talking and arguing.

Three days later.

Jiang Li and the nine supreme leaders of the universe Alliance reached a final cooperation.

First of all ...

Jiang Li agreed to join the ‘universe Alliance’ and became the tenth person with the highest power. He had the corresponding rights and obligations.

Of course.

As for how much power he would have and how much responsibility Jiang Li would do, he had to do his best.

That was, they would talk about it when the time came.

no matter what.

To the 'Universal Alliance', they had temporarily stabilized a dynasty that was comparable to a Level-8 civilization. This would allow them to have more energy to deal with the other dynasties.

Of course, Jiang Li wouldn't join the universe Alliance without any conditions.

the nine supreme rulers didn't agree that jiang li wanted to browse the technological knowledge in the particle field of the nine level-8 civilizations.

Hence.

Both sides took a step back.

Jiang Li didn't want the technological knowledge from the nine level eight civilizations, but he wanted the technological knowledge from the level Seven civilizations in the universe Alliance.

Of course.

even if they only wanted the technology of a level 7 civilization, it would be a difficult task. the level 7 civilization of the universal alliance would not give away their own technology for free.

so,

Jiang Li planned to trade with the many Level Seven civilizations in the universal Alliance. He would use the 'rules' that he had mastered to exchange for the technological knowledge of the particle field from the level Seven civilizations.

And with the universe Alliance as a guarantee.

this way ...

Both sides of the deal were mutually beneficial.

Furthermore ...

All the information and knowledge of the universe within the 'Universal Alliance' was also released to Jiang Li, including some technology in the field of particles.

"Xia Emperor."

"We'll take our leave now," said Ya Ge.

"Yes."

yes. Jiang Li nodded. remember to copy the database of the 'universe Alliance' and send it to me.

"No problem," he said.

Ya Ge said.

Buzzzzzz! Buzzzzzz!

The nine figures disappeared.

Rocky was left kneeling on the ground.

"rocky greets the ruler."

rocky kowtowed.

"Let's go back,"

Jiang Li waved his hand.

“Yes.”

Rocky stood up and left the hall respectfully.

The next day.

The ‘universe Alliance’ made a copy of all the information in the database and sent it over for Hidden Dragon and the others to receive.

it had to be said.

The universe Alliance was a super Overlord level power.

As for how long it had existed ...

There was no way to know.

“Sort out the important information.”

leave it to me, ” Jiang Li ordered. then, give it to me.

“Yes.”

“as you command, hegemon!”

Hidden Dragon and the others replied.

in the following time.

Jiang Li copied all the technological knowledge in the particle field of the spiritual civilization, the sun civilization, the life and death civilization, and the firmament civilization.

he entered a special closed-door cultivation room.

He began to carefully study and comprehend the particle knowledge of the four universal civilizations.

in reality.

‘Particles’ were ‘rules’.

The worlds of the great cosmos called them ‘particles’, while the Super Fantasy worlds called them ‘rules’.

Furthermore ...

The concept of ‘rules’ was applicable to most cultivation civilizations.

Only the universes with technological civilizations called them ‘particles’.

Half a month later.

Jiang Li had mastered the mind rule, the Yang rule, the life and death rule, and the sky rule. Even without the ‘demonic sword’, he had mastered twelve rules.

His strength had increased again.

hence.

jiang li came out of seclusion.

Just nice.

The hidden dragons had already sorted out the relevant information and handed it to Jiang Li. Through the information recorded by the universe Alliance, Jiang Li had a general understanding of the entire universe.

First of all ...

In the entire great cosmos.

It was in the shape of a huge sphere.

All the civilizations and races in the universe lived in the inner parts of the universe. The edge of the universe had a 'sea of the universe'.

The ocean of the universe.

This was an extremely terrifying region.

Even the 'laws' would be suppressed.

The diameter of the entire universe.

It was about ten trillion light years.

The most terrifying thing was ...

The entire great cosmos was still slowly expanding at a certain speed.

In other words ...

the size of the great cosmos world was getting bigger and bigger.

Even the universe Alliance didn't dare to say that they had a complete understanding of the universe.

If the entire universe could be compared to '100%', the universe Alliance would at most understand '50%', which was about half of the universe.

To tell the truth.

This was already not bad.

In addition.

Within the entire great cosmos.

They were mainly divided into civilized races, space zergs, Space Star beasts, and space aberrations.

The four main existences.

a civilized race.

For example, the civilization of gods, the civilization of earth, the elegant song civilization, the green jade civilization, and so on. All kinds of different technological civilizations belonged to the 'civilized race'.

The universe Zerg.

It was a completely different existence from a 'civilized race'.

They possessed unparalleled 'reproductive power'. By devouring different resources and civilizations, they could continuously strengthen themselves and form technological evolution.

it could be said that ...

In the deepest part of the universe Zerg's genes, a complete 'genetic tree' was engraved. All the universe zergs grew according to this complete 'genetic tree'.

Of course.

There would also be some changes.

It was as if the 'genetic tree' had more branches.

Universe Star Beast.

this was the other extreme.

They were similar to the 'divine beasts' and 'immortal beasts' or 'holy beasts' in cultivation civilizations. They had powerful individual strength and were completely different.

Furthermore ...

They were born with terrifying power.

Devouring planets.

'Planets' were the food of cosmic star beasts.

Finally.

Alien.

They were a race born from the bodies of other civilizations through parasitism. At birth, they inherited all the knowledge and talents of their hosts.

In addition.

Space aliens loved to kill and would often cause interstellar wars, causing the destruction of many space civilizations. They were a type of destroyers.

If ...

‘Civilized races’ were the creators of technological civilizations, and ‘space aliens’ were the destroyers of technological civilizations. The two were almost completely opposite existences.

Chapter 816 Limit

Currently.

In the space around the ‘universe Alliance’, there were space zergs, Space Star beasts, and space aberrations that could go against the ‘universe Alliance’.

they were the universe zerg race-

so,

It formed a situation of four legs.

Of course.

In the database of the ‘universe Alliance’, there were also records of the alliances of other civilizations and the existence of other powerful forces in the universe like the Zerg.

Furthermore ...

In the records of the ‘database’.

In the universe a trillion light years away.

There was a 'level-9 civilization'. This civilization was called: A hundred million years ago, the spaceship of the singer civilization had landed in the Galaxy where the headquarters of the 'universe Alliance' was stationed.

The two sides had a friendly exchange.

With the help of this friendly Messenger from the songstress civilization, the leaders of the nine Level-8 civilizations had all received a huge upgrade, and their civilization evolution had advanced by a large level.

Of course.

There was no record of the specific situation in the database. It was only briefly mentioned.

In addition.

Jiang Li also noticed that ...

the power that a 'level-8 civilization' in a large universe world had was different from that of a 'master of laws'.

One had to know.

The 'master of the natural order' had to create a new natural order, and then use the natural order that he had created as the core source. From there, he could master and comprehend different natural orders.

He combined all kinds of rule force and mastered a more powerful combat power.

but ...

A Level-8 civilization was very different.

Even if a Level-8 civilization was not the creator of the ‘particles’, as long as they could break through the technological barrier and achieve the integration of different particles, they could become a Level-8 civilization.

The words he had to say.

The situation of a ‘Level-8 civilization’ was very similar to that of the ‘Demon Sword’.

A month later.

Jiang Li finished reading all the information.

in addition.

according to the universe alliance’s database, hidden dragon and the rest roughly created a vast universe star map, drawing out the entire universe.

It had to be said.

This was a major improvement.

This was like ...

A backward feudal civilized country had obtained a complete earth globe. From there, they had an understanding of the whole world and had an outline in their hearts.

he was no longer confused.

Next.

Jiang Li sent Hidden Dragon and the others to the major Level-7 civilizations of the universe Alliance to show their friendliness.

the entire universe alliance.

Other than the nine great Level-8 civilizations.

There were also 99 Level-7 civilizations.

A Level-7 civilization would then control a large number of Level-6 civilizations, and a Level-6 civilization would then control a large number of Level-5 civilizations, and so on.

The universe Alliance alone controlled tens of billions of light years of space.

Ninety-nine Level-7 civilizations.

this meant that he had 99 fields of particle technology.

Of course.

Many Level-7 civilizations had the same technology in the particle field, but the level of mastery, understanding, and application were different.

In addition, there was a lack of resources.

The combat power they could display was also high and low.

in general.

Jiang Li realized that the 'civilization of gods' was at the top among the Level-7 civilizations. Most of the Level-7 civilizations couldn't surpass it.

Time flew by.

At the beginning.

Jiang Li's 'trading' path was full of setbacks. Even if Jiang Li was the 10th supreme ruler of the 'universe Alliance', a Level-7 civilization wouldn't want to trade their 'lifeblood'.

...

Threats and promises.

Jiang Li had tried everything.

Fortunately ...

After the first deal was done, Jiang Li's 'trade' path started to become smoother.

because ...

The first deal.

Jiang Li made a deal with the Noah civilization. Jiang Li took out the technological knowledge in the field of 'eternal particles' and traded the technological knowledge in the field of 'life particles' that the Noah civilization had.

after the noah civilization obtained the technology of the eternal particle, they developed and grew at the fastest speed possible, and the combat power of their fleet was improved.

even though ...

The Noah civilization was temporarily unable to combine the two particles, but their strength had significantly improved.

In reality.

...

The reason why the Noah civilization made a deal with Jiang Li was that they had no other choice. The Empire of the monster race, which was ranked in the fourth level, had descended on the star field ruled by the Noah civilization.

The war between the two sides had been going on for hundreds of years.

the noah civilization had always been at a disadvantage.

And now.

The demon Emperor of the demon race's 'sky demon Empire', 'demon Phoenix heaven', had personally descended to the world of the great universe, preparing to participate in the final battle with the Noah civilization.

the noah civilization was losing ground.

He had no choice.

The Noah civilization had to make a deal with Jiang Li. After the deal, the Noah civilization's strength increased greatly and they finally stopped the sky demon Empire's attack.

after the news spread.

Many peak Level-7 civilizations were tempted.

The transactions were completed one after another.

Jiang Li gained more and more technological knowledge in the particle field.

Of course.

Although Jiang Li could sell the technology in the field of single particles many times, the truth couldn't be hidden and many Level-7 civilizations knew about it.

The path of trade was cut off.

However ...

Jiang Li also got what he wanted.

Hence.

jiang li started a new round of closed-door cultivation.

This time.

Jiang Li wanted to comprehend all the technological knowledge in the particle field that he had obtained from the exchange, master the corresponding rule power, and integrate it into his body.

In the closed-door cultivation room.

Buzzzzzz!

Jiang Li first studied the Noah civilization's 'life particles'.

at the same time.

The energy from the Fortune of the Empire arrived. Jiang Li entered a state of enlightenment and sped up his understanding of the mysteries of the life particles.

Three days later.

life particles. Jiang Li integrated all the knowledge about 'life particles' and further cultivated. He easily mastered the development of life and the rules of life.

It only took seven days.

He had mastered the power of a rule in seven days.

This speed ...

If the master God of the gods race, the devil Lord of the devil race, the ghost Lord of the ghost race, and the Master of Rules of the human, demon, and barbarian races knew about this, they would probably be so envious that their faces would turn purple.

It could be said that ...

Such mastery speed.

he was simply unprecedented.

It was likely that only by devouring the origin of the Masters of Laws such as the immortal Emperor of the immortal world and the Majin of the magic world could such a speed of improvement be achieved.

Of course.

Grasping the 'rules of life' was only the appetizer.

Next.

Jiang Li continued to study different particle fields.

The rules of death, reincarnation, natural disaster, origin, light, and creation were all extremely powerful.

Three years later.

Jiang Li integrated all the technological knowledge in the particle field and mastered the corresponding rule force. He began to merge the rules.

Life, death, creation, reincarnation.

One by one, the laws fused.

Jiang Li was getting stronger and stronger.

The aura on his body was also becoming more and more unfathomable.

It was impossible to guess.

At the same time.

The ‘mechanical rules’ that Jiang Li had created became more and more profound as more and more rule force was integrated into it. It was subliming into an unknown domain.

It was hard to estimate.

cultivation knew no time.

Jiang Li didn’t know how long it took him to merge the rules.

Until he

After Jiang Li merged 99 rules, he realized that he could no longer merge the power of rules into the ‘mechanical rules’.

He had already reached his limit.

Instantly.

jiang li understood.

Although the ‘master of the natural order’ said that the fusion of ‘natural orders’ could be infinite, it was only in theory. It could not be truly infinite. 99 types of natural orders was the limit of the ‘master of the natural order’.

“You’ve reached your limit so quickly?”

Jiang Li took a deep breath. I’ve prepared so much, but I can only merge 99 rules. I can’t believe I still haven’t merged the heaven secret rule and the energy rule.

Buzzzzzz!

Jiang Li felt his body.

Inside his body.

True cores, true spirits, and the like no longer existed. All of the powers had long since fused together, and all of them were now in his body.

between raising his hands and moving his feet.

It was the release of the mighty power of various laws.

the vast world and heaven and earth.

Nothing could restrain Jiang Li anymore.

Even ...

Jiang Li’s consciousness broke through the barrier between worlds and sensed the countless worlds in universe ocean. There were players of the ‘game God’ in those worlds.

Because these players were connected to Jiang Li, he could sense their world.

of course.

The one with the deepest perception was still the ‘Super Fantasy world’.

However ...

In Jiang Li’s perception, the impact of the ‘Super Fantasy world’ was so vast that he couldn’t even sense the boundary of it.

It was hard to imagine.

at this very moment.

Jiang Li couldn’t estimate how strong he was.

“It’s time to exit seclusion.”

Jiang Li got up, pushed open the door of the chamber, and walked out slowly.

“Chief sovereign.”

“welcome, hegemon,”

The hidden dragons came forward to welcome him.

“Yes.”

” okay. ” jiang li nodded and looked at the endless universe. his consciousness and perception spread out as if he had become one with the entire universe.

Vaguely.

Jiang Li seemed to have sensed the consciousness of the ‘multiverse’.

Furthermore ...

The ‘universe’ seemed to be angry at Jiang Li’s betrayal.

huh? ” Jiang Li reacted.

“Betray?”

No. Jiang Li shook his head.

It was true.

Jiang Li was originally a human from earth and a member of the universe. It was the universe that ‘gave birth’ to Jiang Li. What Jiang Li was doing not only didn’t help the universe, but it even made it worse.

However ...

Jiang Li didn’t care. He retracted his perception and ignored the ‘anger’ of the consciousness of the ‘multiverse’.

One had to know.

If Jiang Li hadn’t been lucky enough to let ancestor Bai’s consciousness and the universe’s consciousness fight and destroy them at the same time, he would’ve been able to benefit from it.

Jiang Li was just a tool for the universe now.

He might even lose his self-consciousness.

calculating the time, it should have been a few decades since I killed the subordinate God of the undying master God.

” oh? ” jiang li muttered, ” did the immortal sovereign forget about this? ”

Buzzzzzz! Buzzzzzz!

Suddenly.

huh? ” Jiang Li sensed a strong spacetime fluctuation.

The barrier between the two worlds was broken through.

They formed a passageway link.

Jiang Li sensed a familiar aura.

“Speak of the Devil, and the devil will come.”

Jiang Li put his hands behind his back and looked calmly in the direction of the spacetime ripple. There was a strong fighting intent in his eyes.

Chapter 817 the battle

one had to know.

jiang li had now mastered 99 types of rule force and merged them into one. it could be said that jiang li had reached the limit of the master of rules.

At the level of the master of the natural order.

Jiang Li was already at the top of the pyramid.

so,

Of course, Jiang Li wasn't afraid of an 'immortal master God'. In fact, he really wanted to fight with an' immortal master God 'to test his strength.

Very quickly.

In less than half a minute, the plane channel between the two worlds was completed, and the extremely rich space-time aura fluctuations gradually calmed down.

However ...

the commotion it caused was getting bigger and bigger.

Jiang Li looked over.

in the distant universe.

The moment the plane channel was built, there was endless divine light shining. It was as if the surrounding starry sky was surrounded by divine light, turning into a divine Kingdom.

Shua! Shua! "Whoosh!"

Immediately after.

There were 'angels' descending, Holy and beautiful.

The formation was extremely powerful.

they were welcoming the arrival of a certain great existence.

After that.

Nine God followers appeared.

It was like a myriad of stars surrounding the moon.

Not long after.

The undying God Lord walked out from the channel.

At this moment.

Jiang Li could finally see the true face of the ‘immortal master God’. He saw through the divine light around the ‘immortal master God’ formed by the rule power.

A middle-aged man in a purple robe entered his sight.

Of course.

this was just his appearance.

He looked like an ordinary middle-aged man.

but ...

He observed carefully.

One would discover how terrifying it was.

it seemed like ...

Behind him was the illusionary image of thousands of worlds, countless believers, and rules that criss-crossed each other. It was as if he was the master of everything.

Immediately.

Jiang Li's mechanical fleet noticed such a big scene at once. The hidden dragons immediately mobilized nearly 90% of their fleet.

Shua!

at the first moment.

The undying master God sensed Jiang Li's gaze. He looked at Jiang Li, who was hundreds of light years away.

Instantly.

The two masters of the natural order looked at each other.

bang bang bang bang!

The space exploded, and energy boiled.

The two of them were almost at the top of the pyramid. Just by looking at each other, the clash of their auras had shattered the universe space and destroyed the Galaxy.

It was too terrifying.

It was hard to estimate and imagine such power.

“Oh.”

The undying master God's eyes were filled with shock, "to think that he would have reached such a state! Since when did the human race produce such a powerful human Emperor? " Why haven't I heard anything about it?"

Shua!

Jiang Li took a step forward and entered the range of the immortal master God's divine light domain. Mechanical laws immediately appeared on Jiang Li's body.

The light of the mechanical rule spread.

the light had a gray, chaotic luster.

"an undying sovereign."

...

"thank you, " jiang li said. " i've been waiting for you. "

"Are you the one who killed my God follower?"

The undying master God questioned.

At this moment.

The two masters of the natural order were now facing each other.

In the surroundings.

They were the angels of the God race and the nine God followers.

Other than that.

Jiang Li's mechanical fleet also arrived.

the various subsidiary races also sent out their fleets.

The atmosphere was tense.

...

the god race.

without a doubt.

It was a very powerful 'race'.

It was completely different from the methods of the 'human, demon, and barbarian' imperial dynasties. When the three imperial dynasties subdued different worlds and races, they all took them in as 'subsidiary races'.

The gods race was completely different.

The God race cultivated all the conquered worlds and races into their most sincere believers. Then, they guided the souls of the believers into their divine Kingdom and transformed them into 'angels'.

'Angels' were extremely powerful, and could reach level 12 at most.

Even ...

if a 'master god' found them pleasing to the eye, they would also promote a level 12 angel to a god follower.

The God clan had many 'sovereigns'.

so,

The ‘angels’ that each sovereign transformed into were different.

For example.

the undying main god’s ‘angels’ were called: Undying Angel.

in addition.

although there were many master gods in the protoss, only twelve of them had truly reached the limit of the master of the natural order and integrated ninety-nine different natural orders.

They were called the twelve great gods of the God clan.

so,

The undying master God was clearly not one of the 12 great master gods of the gods race.

“Yes, I am.”

Jiang Li looked straight at the immortal master God. immortal master God, I killed your God follower. I gave him a chance, but he was too weak. He couldn’t even take one strike from me.

you’re too weak and you dare to be so impudent in front of me? you deserve to die.

“How audacious!”

“A mere human race Thearch dares to be so presumptuous!”

“Quickly kneel down!”

how dare you murder an undying God follower! You deserve to die!

“.....”

in the surroundings.

the angels roared in unison.

boom! BOOM! boom!

the next moment.

yes. Jiang Li responded with action.

The mechanical fleet fired a round of cannons, and countless law energy beam cannons were like countless sharp glints that enveloped the many angels.

“Angelic holy light!”

“Undying holy light!”

“.....”

The angel Corps immediately retaliated.

Instantly.

countless explosions occurred.

The undying master God led the Army of undying angels and even brought nine undying followers. Of course, his purpose wasn't just to kill Jiang Li and avenge his subordinates.

In reality.

The undying master God had also set his eyes on the great cosmos world.

after all ...

The ‘great cosmos world’ was a newly discovered great thousand world that had yet to be developed. It had all kinds of resources and was extremely tempting.

However ...

In the beginning.

Existences at the Master of Laws realm were unable to enter the world of the great universe.

And now.

As the consciousness of the great cosmos world was gradually suppressed and forced to retreat, the restrictions on the great cosmos world were getting smaller and smaller.

Now, the master of the natural order had already entered the world of the great universe.

Therefore ...

The undying master God arrived at the first moment.

He also arrived at the divine civilization’s star field according to the coordinates left by the silver-haired young man and fought Jiang Li directly.

“impudent!”

Buzzzzzz!

” jiang li! ” one of the nine immortal followers of the immortal master god was a muscular young man with blue hair and blue eyes. he yelled and charged at jiang li.

BOOM!

die! the immortal divine light formed a fist of divine light that smashed at Jiang Li like a huge world.

Clang!

Jiang Li opened his eyes.

In that instant.

The sword Qi was everywhere.

Jiang Li’s eyes turned into two sharp sword lights that contained the laws of sword Dao.

Bang!

There was a loud explosion.

The divine light fist exploded.

Pfft!

The sword Qi even pierced the undying God follower’s chest.

Divine blood splattered.

“Ah!”

The burly undying God screamed and flew back.

“What a powerful sword Dao.”

“Si si si ...”

“Longke was actually heavily injured.”

“To think that a sword formed from the light of one’s gaze would have such power.”

“.....”

The other eight subsidiary gods were shocked and terrified by Jiang Li’s strength.

Fortunately ...

the undying master god was right beside them.

so,

They quickly calmed down.

One had to know.

A few decades ago, the undying master God had ambushed and killed a Paragon immortal Emperor in the immortal world. Absorbing the Paragon immortal Emperor’s origin source of laws, he had once again fused three different laws.

And now.

As for how many laws the undying master God had grasped, they had no idea either.

“So you’re Emperor Xia, Jiang Li.”

The undying master God opened his eyes, and there was a look of shock in his eyes.

Obviously.

The undying master God just communicated with the ‘master God platform’ of the God race and paid a price to get some basic information about the great Xia Dynasty and Jiang Li.

“I didn’t expect this.”

The undying master God took in a deep breath. other than the Qin Emperor Ying Zheng of the past, there’s actually another person like you appearing in the human race. To think that you’ve grown to such a level in such a short period of time.

“die!”

Buzzzzzz!

Suddenly.

The undying master God attacked without any warning. He threw a palm at Jiang Li. The palm print was intertwined with laws and destroyed time and space.

“Good.”

attack! Jiang Li shouted. He didn’t use the ‘demonic sword’, but instead, he charged forward. The power of rules intertwined and formed a palm print!

“BOOM!”

The two collided. The clash of palm imprints was a collision of rules.

Kachaa! “crack!”

Bang Bang Bang Bang!

Instantly.

The surrounding space was like glass that had been hit by a huge force. It shattered into countless pieces.

A spatial Rift appeared.

It was like a huge black hole that devoured everything.

“Kill!”

die! Jiang Li roared and charged at the undying sovereign.

Without the slightest hesitation.

BOOM! BOOM! BOOM!

Five elements, yin and yang, creation, reincarnation, life and death, Suan ni

At this moment.

All kinds of strange phenomena manifested by the power of rules appeared behind Jiang Li and spread out. In an instant, 99 of them burst out.

“Five elements!”

BOOM!

die! Jiang Li's palm turned into five elements and crushed the immortal master God.

“!!!”

The undying master God's eyes narrowed as his face was filled with shock and fear. His calm and collected demeanor from earlier on had completely disappeared as his hands and feet turned cold, and his entire body was trembling slightly. you!!! You!!!!

“The sword of immortality!”

It was a critical moment.

The undying master God struck out with his sword fingers, unleashing the undying sword. The power of this move was many times stronger than the silver-haired young man back then.

BOOM!

The immortal sword and the five elements wheel collided.

It made a huge sound.

The aftershock shook the surrounding space for billions of light years.

It was extremely terrifying.

BOOM!

Finally.

the immortal sword exploded, and the remaining might from the rotation of the five elements struck the body of the undying master god. the undying master god immediately put up a defense, and his undying god light formed a barrier of light that protected his entire body.

However, he was still sent flying.

“The Lord of limits! You’ve actually integrated a total of 99 laws and advanced to such a level in such a short time!”

The moment the undying master God managed to stabilize himself, he could not help but scream out in fear.

“Creation and reincarnation.”

Buzzzzzz!

” die! ” jiang li attacked again.

“not good!”

The undying master God was shocked. the law of extreme speed!

In that instant.

The undying master God dodged the attack by a hair’s breadth, but Jiang Li’s body flashed and he appeared in front of the undying master God again.

Clang!

This time.

Jiang Li took out the ‘demonic sword’.

Chapter 818 Ying Zheng

A battle at the level of a master of the natural order broke out. Just the aftermath of the battle was enough to destroy a Galaxy. In an instant, it crossed a distance of tens of hundreds of light years.

However ...

The battle began.

The undying master God was suppressed by Jiang Li.

It could be seen.

the undying master god also used different rule powers, but he was still no match for jiang li because he had only integrated 33 rules.

On the other hand, Jiang Li.

That was a total of ninety-nine laws.

The difference between the two sides could be seen at a glance.

so,

The battle began.

The undying master God's defeat was set in stone.

However ...

Because Jiang Li's cultivation had improved too fast, he wasn't sure about his own strength, so he used the immortal master God as his 'sandbag' to familiarize himself with his cultivation and strength.

“Ah!”

The undying master God screamed.

Pfft!

He spat out a mouthful of blood.

Jiang Li's attack just now only combined less than fifty types of rule force. With the mechanical rule force as the lead, it condensed into a mechanical divine light and shattered all of the undying master God's means.

After that.

It pierced through the undying master God's body.

There was a huge transparent hole in his chest.

"He's too weak,"

Jiang Li looked down at the immortal master God who was screaming and vomiting blood. He sighed, shook his head, and said, "undying master God, you've truly disappointed your Emperor.

I thought you'd be strong enough to force me to use all my strength. But it turned out to be completely different from what I expected. You're far too far off.

"I didn't even use any strength, and you fell down."

"You don't even have the strength to be my 'sandbag',"

"....."

Disappointment!

Jiang Li was very disappointed!

“You, you, you, you, you, you, you ...”

The undying master God’s entire body was trembling. Not only was he furious, he was also filled with fear. Never in his wildest dreams would he have thought that he would be able to offend such a powerful being so casually.

He had fused 99 types of rule force.

Such an existence.

this was already the limit of a lord of the natural order.

The entire God clan.

Only the ‘twelve sovereigns’ were at this level.

It was hard to imagine.

The Xia Emperor Jiang Li in front of him was also a limit master in terms of realm and strength. The immortal master God who had mastered 33 types of rule force was no match for Jiang Li.

It was a complete suppression.

In the surroundings.

The nine God followers of the undying master God, as well as the angel Army, were all looking at this scene in shock. The impact of this scene was simply way too great.

They had always been proud of their invincible overgods, yet they had ended up like this today. They had been beaten up like sandbags.

The most important thing was ...

To think that the other party was still not satisfied and felt that the undying master God was a punching bag that wasn't tough enough?

Such a scene.

It was like an illusion.

However ...

The shockwaves from the battle continued to spread and brushed past their bodies, giving them a sense of death. The various terrifying aftershocks seemed to be constantly reminding them.

It was true.

Emperor Xia Jiang Li was so terrifying, so powerful, so invincible, so unparalleled. The Overlord that they were so proud of was so vulnerable in front of Emperor Xia. He wasn't even qualified to be a sandbag.

“F * ck me f * ck me”

The undying master God wanted to say something, but when he sensed the unparalleled aura of the 99 rule forces from Jiang Li, he swallowed his words.

...

He did not dare to.

now.

The undying master God was even starting to worry about his own safety.

Even though ...

the profound meaning of the ‘law of immortality’ could allow an undying master god to be eternal. however, this ‘eternal immortality’ also had its limits. in the face of absolute power, the so-called ‘eternal immortality’ was just a joke.

For example.

The silver-haired youth from back then.

He also cultivated the law of immortality, but he was still destroyed by Jiang Li in the end.

Buzzzzzz! Buzzzzzz! Buzzzzzz!

At this moment.

Jiang Li held the handle of the demonic sword in front of his eyes and used the power of ninety-nine rules, with the mechanical rules as the source.

...

Creation, life and death, reincarnation, and the five elements.

at this moment.

all kinds of rule force were integrated into the ‘demon sword’.

Obviously.

Jiang Li was going to completely merge the ninety-nine rule forces and release his strongest power with the demonic sword to destroy the immortal master God.

“No!”

The undying master God came back to his senses and was filled with terror. Against such a power, the undying master God could not even muster up the slightest bit of will to resist.

Because the difference was too great.

Resistance would only be futile.

Furthermore ...

With Jiang Li's current cultivation and strength, he wouldn't be afraid even if the undying master God threatened him with the God race.

"Spare me! Spare me!"

Hence.

The undying master God started wailing and begging for mercy.

It had to be said.

What kind of God follower would be what kind of master God.

back then.

The silver-haired young man also cried and begged for mercy. The immortal master God was doing it again, but Jiang Li didn't move at all. The power of the 99 rules was gradually condensed.

Buzzzzzz!

At this moment.

Time and space were torn apart.

after that.

In an instant.

Another plane channel appeared.

“Stop.”

BOOM!

Jiang Li! someone shouted angrily from the plane channel. He wanted to stop Jiang Li from killing the immortal master God, but before he arrived, he had already sent a message.

“Lord eternal life!”

The undying master God raised his head. The look of despair on his face had disappeared. His voice was filled with excitement and agitation. With the appearance of the eternal life Master God, he was saved.

One had to know.

the eternal master god was one of the twelve great master gods of the gods race.

However ...

jiang li didn't seem to hear the eternal master god's chiding. he continued to merge the ninety-nine rule forces. even the demonic sword in his hand was starting to be unable to take it.

It emitted a series of sword hums.

“You, you, you, you, you, you, you ...”

The moment the undying master God caught sight of this, his face turned pale from fright. you're crazy! You're simply crazy! The eternal master God is already here, and you're still trying to kill me? ”

“Are you going to start a war with the God race?”

“You're noisy.”

immortal sovereign. Jiang Li looked up with cold eyes. immortal sovereign, as long as you can use my sword, I'll spare your life.

“The sword of machinery.”

Shua!

Jiang Li had merged 99 rules and released his most powerful attack. Nothing happened when Jiang Li's demonic sword struck down.

Without a sound.

It seemed like ...

The moment Jiang Li's demonic sword fell.

The invisible sword slashed over.

there was no fluctuation at all.

It streaked across space, across the starry sky, across the dense clouds of the universe.

run!!!

The undying master God shrieked out as he unleashed his full power and ran for his life. As long as he could escape until the great eternal master God arrived, he would be able to keep his life.

However ...

The undying master God had just escaped to a distance of less than a few hundred light years.

Suddenly.

Soundlessly, a formless sword Qi sliced through the body of the undying master God. The expression of the undying master God froze up as he was forced to a stop.

the terrified expression on his face froze.

Buzzzzzz! Buzzzzzz!

After that.

The life force of the undying master God had been completely wiped out, and the so-called laws of immortality were completely unable to protect his life at all. As such, the so-called eternal immortality had become a joke.

immediately after.

Starting from the feet of the undying master God.

Gradually, the brilliance turned into gray chaotic light spots, dissipating in all directions and gradually spreading upwards. It only took a few seconds.

The undying master God disappeared.

It was directly annihilated.

It turned into light spots and dissipated.

He had fallen.

The mighty Overgod of the God race, who could hunt Immortal Sovereigns in the immortal realm and treat them as prey, was killed by Jiang Li just like that.

not even a corpse was left behind.

He had thought.

After killing the immortal master God, the power of Jiang Li's most powerful strike was enough to destroy the universe within hundreds of millions of light years.

but ...

However, Jiang Li could control this power and restrain the power of the sword.

so,

After killing the undying master God, the power of the mechanical sword was retracted, and it did not destroy a single planet.

In reality.

If Jiang Li didn't hold back the power of the sword and let it burst out, the universe and galaxies within billions of light years would be destroyed.

Buzzzzzz!

Finally.

The countless light spots merged together and turned into a ball of light the size of a baby's fist. It flew towards Jiang Li.

“How audacious!”

BOOM!

The next moment.

Jiang Li! a figure rushed out of the plane channel. The figure's face couldn't be seen at all. It rushed at Jiang Li and reached out to grab the light ball the size of a baby's fist.

Unfortunately ...

The other party was still a step too late.

The ball of light the size of a baby's fist merged into Jiang Li's body.

Capture successful!

shua!

[captured an 'undying law origin'!]

A notification appeared.

Shua!

Another notification popped up.

[successfully unlocked 'rule soldier Type: Mechanical immortal'!]

A notification popped up.

“This bi an ...”

jiang li was surprised. he didn't expect to get such an unexpected reward after killing the immortal master god. he unlocked a clearly different type of rule troop.

“xia emperor.”

Buzzzzzz!

The eternal master God stood before Jiang Li. The light dimmed and Jiang Li saw a white-haired old man, but he didn't have the kindness of an old man at all. There was only anger and murderous intent.

The twelve great sovereigns of the God clan.

They represented the twelve bloodlines of the God clan.

They were the water god, the fire god, the gold God, the wood God, the earth God, the darkness master God, the light Master God, the space Master God, the destruction master God, the creation master God and the eternal master God.

The five elements great master God.

They were the first five great sovereigns of the God clan.

he had created the five laws of metal, wood, water, fire, and earth.

in reality.

The five elements great master God's power and strength were among the strongest among the Protoss.

The eternal great master God was ranked last among the twelve great masters of the God race.

Because ...

The great eternal master God was the last of the twelve to reach the level of a limit master.

“Hand over the law of eternity.”

The eternal great master God took a deep breath and scolded in a cold tone.

“I don’t know what you’re talking about.”

Jiang Li shrugged.

“Bastard!”

Jiang Li! the eternal master God shouted angrily, ” Emperor Xia, Jiang Li, don’t think that you can do whatever you want just because you’re a limit master. The foundation of the God race is beyond your imagination.

“Is that so?”

Suddenly.

another master of the natural order descended. this time, it was not the gods race, but a human emperor of the human race.

“If that’s the case, I’ll have to try.”

“Ying Zheng!”

The eternal great master God’s pupils contracted.

Chapter 819 Trash

hmm? ” Jiang Li looked in the direction of the sound and saw a man in a Black Dragon robe walking out of the plane channel.

within a few steps.

It crossed the universe space.

before he knew it, he had already appeared at a location not far away.

You are Ying Zheng? ”

jiang li took a deep breath and looked at the human emperor in black. he had a lot of thoughts and was also confused. he wondered if this human emperor in black was really the emperor of xia country on earth more than 2000 years ago.

perhaps, he would have to ask ‘ying zheng’ himself to know the answer.

” why are you here?! ”

After the eternal great master God came to his senses, he stared straight at ‘Ying Zheng’ who had suddenly appeared. His tone was filled with shock, but his shocked expression quickly returned to normal.

“I’m only returning to my ‘hometown’ to take a look.”

Ying Zheng said slowly.

“.....”

Jiang Li's pupils constricted.

” hometown?! ”

The eternal great master God was stunned for a moment, then he immediately rebuked,”ying zheng, what are you talking about? He actually calls this ‘great cosmos’ his home!”

“What I said is true.”

“Is there a need to lie?” asked Ying Zheng indifferently.

“It's just that he's angry.”

Ying Zheng paused for a moment before he continued, ” when I came back, everything had changed.

“Enough!”

I don't care if what you say is true or false. It has nothing to do with me. I'm going to take back the ‘origin of laws of the immortal master God’. Are you going to stop me? ” the eternal master God shouted.

“No,” she said.

Ying Zheng shook his head and said, ” you want to take back the undying master God's origin of laws, and this has nothing to do with me. The main thing is that I haven't fought for a long time, so it's inevitable that I'm a little rusty in combat. That's why I wanted to find you to practice with me.

“You're so silly!”

the eternal great master god's eyes widened.

After that.

The eternal great master God glared at Jiang Li again.

“Let’s go!”

Buzzzzzz!

Without any hesitation.

The eternal master God waved his right hand, and an endless amount of godly light bloomed out, bringing away all the undying angels in the surroundings, as well as the nine God followers of the undying master God.

“Ying Zheng.”

At this moment.

The eternal great master God’s voice was heard. the decisive battle between us will definitely not be now. Once the time is right, don’t blame me for being ruthless.

in the blink of an eye.

The Army of the God race disappeared.

In the starry sky.

Jiang Li’s mechanical fleet was the only one left.

And Jiang Li and Ying Zheng, who were looking at each other.

“greetings, qin shi emperor.”

Jiang Li was silent for a while, then he cupped his hands at Ying Zheng.

“.....”

Ying Zheng remained silent.

The scene was extremely quiet.

After a while.

“Xia Emperor.”

“You came back earlier than me, right?” asked Ying Zheng.

“Yes.”

” okay. ” jiang li nodded.

“When I came back, I didn’t see what I wanted to see.”

Ying Zheng continued.

because the earth was destroyed.

Jiang Li said.

...

“Destroyed.”

Ying Zheng paused for a moment.

“I was unable to stop him.”

let's go. Jiang Li told him what happened.

Jiang Li was talking.

Ying Zheng was listening.

After a while.

jiang li was done.

Hence.

Ying Zheng looked at Jiang Li calmly.

buzzzzzz!

...

after that.

The fluctuation of time and space appeared.

Ying Zheng took a step forward and his black-robed figure disappeared into the universe. In the blink of an eye, he was gone. However, Jiang Li heard Ying Zheng's voice.

"Trash!"

the word pierced into jiang li's soul.

It could be clearly heard.

"....."

Jiang Li was stunned. He looked in the direction where Ying Zheng left and fell silent for a while. He didn't know how to respond to Ying Zheng, so he could only stay silent.

He couldn't help it.

earth! Jiang Li recalled the scene of the 'earth' exploding in front of him.

There was a long silence.

Shua!

At this moment.

An extreme stream of light broke through the air.

Jiang Li reached out instinctively. The black light turned into a Black Dragon-shaped Jade slip in his right palm.

After that.

jiang li injected his rule force into it and the information recorded in the jade slip poured into his mind. it was exactly what ying zheng wanted to tell jiang li.

as the great cosmos 'will kept on retreating and its defenses were broken, the great cosmos could no longer stop the invasion of the' six races 'under the suppression of the' six races'.

In the past.

Due to the restrictions of the 'multiverse world', the six races could only send existences below the realm of laws to invade the' multiverse world'.

It wasn't just at the nomological realm.

The nomological realm.

Even existences at the nomological realm and above might descend.

The real war had just begun.

The wars between empires and interstellar wars in the past could only be considered small.

It could be said that ...

if nothing unexpected happened.

All the empires from the first to the third class of the true dragon List would send out their armies and enter the great cosmos world, starting a war that would engulf the entire great cosmos world.

“The restriction is gone.”

After Jiang Li finished reading the information, the Black Dragon-shaped Jade slip in his hand turned into ashes and disappeared. I’m more curious about how you entered the ‘Super Fantasy world’.

“Is it also because of the ‘consciousness of the great cosmos’?”

“Or is there another secret?”

However ...

judging from ying zheng’s attitude when he called jiang li ‘trash’ just now, it was already very kind of him to tell jiang li about the disappearance of the restriction and the invasion of the six alien races.

It was impossible to answer Jiang Li’s question.

Shua!

At this moment.

Hidden Dragon teleported over.

“Chief sovereign.”

hidden dragon quickly reported to jiang li, ” the universe Alliance has just sent an urgent message. Within the area of tens of billions of light years under the control of the universe Alliance, many space and time fluctuations have been detected. A large number of powerful armies from other worlds have arrived. The universe Alliance is facing a serious challenge.

“So fast.”

” wait. ” jiang li came back to his senses. ” contact the nine supreme leaders of the universe alliance immediately. ”

“Yes.”

Hidden Dragon said.

Planet great Xia.

In the Imperial Palace.

Buzzzzzz!

Jiang Li connected to the ‘true dragon List’ with his mind. The Xia Dynasty’s National fortune ranking had reached the third rank.

Furthermore ...

The ranking was still rising gradually.

Jiang Li checked the overall ranking of the true dragon List and found that the star falling Empire and the witch-praying Empire were involved in the destruction of Earth.

The two great empires.

He had already been removed from the true dragon Roll.

As expected.

The two imperial dynasties should have been destroyed.

“This bi an ...”

jiang li was silent for a moment.

A few minutes later.

Buzzzzzz! Buzzzzzz! Wuwuwuwuwu!

The 9 highest authority figures of the universe Alliance appeared.

“Xia Emperor!”

“Xia Emperor!”

“.....”

Hence.

Jiang Li, Ya Ge, Qing Yu, and the other nine supreme leaders of the Alliance bowed to Jiang Li with great respect.

“everyone,”

Jiang Li said calmly.

The hall was silent.

“Xia Emperor, you are the only one who can save the ‘universe Alliance’ now,”

green jade’s tone was solemn.

“It’s truly unimaginable.”

Ya GE’s tone was even filled with fear. that’s a terrifying Army called the ghost clan. Half a day. It’s only half a day.

the fleet of the Yage civilization is retreating again and again. They are no match for the ghost race at all. Even if they use the most powerful particle fusion weapons, they can’t fight against them.

“Now.”

“We’ve already lost a third of the star regions.”

if this continues, in less than three days, the entire universe Alliance will be wiped out, and all the star fields will be occupied by the alien races from the ‘Super Fantasy world’.

“We will lose without a doubt!”

All the Supreme rulers said one after another.

“No need to say anymore.”

wait. Jiang Li interrupted the nine Supreme rulers.

That was the truth.

The will of the ‘great cosmos world’ was defeated, causing the restrictions to disappear. The six races of the Super Fantasy great cosmos world officially launched a large-scale invasion, and the civilization of the great cosmos world naturally couldn’t resist it.

Because ...

The difference between the two worlds was very obvious.

“I can help you.”

jiang li said.

“Really?”

“This is great.”

“alright, alright, alright.”

“.....”

The nine Supreme rulers were overjoyed.

“Of course.”

I have a condition, ” Jiang Li said.

“What condition?”

“Emperor Xia, just say it. As long as it is within our means, we will definitely agree.”

“Please speak.”

“.....”

The nine Supreme rulers said one after another.

“merge the universe alliance into the great xia dynasty.”

I’ll help you, ” Jiang Li said. as long as the ‘universe Alliance’ is part of the great Xia Dynasty, I’ll have a reason to help you.

“This Suan ni, this Suan ni”

“Emperor Xia, what are you talking about? you’re the 10th person with the highest authority in the universe alliance, the universe alliance was yours from the start.”

“Yes, yes.”

“There’s no such thing.”

Ya Ge and the others said.

“that’s enough,”

Humph! Jiang Li snorted. I don’t have time to waste on useless things. You only have two choices. The first is to reject me.

“When the time comes.”

when the Army of the six races from the Super Fantasy world descends, even the entire great universe world will become prey, let alone the universe Alliance.

“The few of you will die without a doubt.”

“The second option.”

“That is to promise me that you will submit to me and become a part of the great Xia Empire. I will help you and protect your lives.”

“When the time comes.”

“You will still be the highest authority of the universe Alliance. Power, status, everything will not change.”

“Choose,”

“Dead or Alive?”

“Only three seconds.”

three, two, one. Jiang Li started the countdown.

“Alright!”

the moment jiang li’s countdown ended.

Ya Ge stood up and stared at Jiang Li. Emperor Xia, can you really promise that you can do everything you say? ”

“.....”

The other eight Supreme rulers looked at Jiang Li.

“Of course.”

yes, ” Jiang Li said. you’re right.

since that’s the case, I, Ya Ge, on behalf of the ‘Ya Ge civilization’, officially announce that I will join the great Xia Empire and become a part of it.

Ya Ge said directly.

“.....”

There was a moment of silence.

“Alright!”

“I agree as well,” green jade shouted.

Immediately after.

The other seven Supreme rulers looked at each other and also submitted to Jiang Li, just like Ya Ge and green jade.

Hence.

The entire universe Alliance was in Jiang Li’s hands.

Chapter 820 Manufacturing

As soon as the nine Supreme rulers announced their loyalty to Jiang Li, an urgent report came from the front line of the universe Alliance. The eternal Heaven dynasty, the first-rank barbarian dynasty

from a Super Fantasy world, led the Army and destroyed a large number of fleets of the green jade civilization.

The battle was in a crisis.

Buzzzzzz! buzzzzzz! “Whoosh!!!”

the images of the battlefield were transmitted to jiang li and the others.

The eternal Heaven Empire.

In reality.

The Imperial dynasties that could be ranked in the first tier all had the battle prowess of the master of the natural order realm, and there were quite a number of them in the servant realm.

so,

It was normal for the green jade civilization’s fleet to lose.

Generally speaking.

His ranking on the Azure Dragon Roll.

The Imperial dynasties from the seventh to the ninth were considered lower imperial dynasties, and the strongest of the lower imperial dynasties was at the twelfth level.

the imperial dynasties from the fourth to the sixth were considered middle-level imperial dynasties. the strongest of the middle-level imperial dynasties, which was also the imperial dynasties ranked before the fourth-level, were basically those who had just stepped into the realm of the master of the natural order.

Finally.

The Imperial dynasties from the third to the first class belonged to the upper imperial dynasties, and all the emperors of the upper imperial dynasties were the Masters of rules.

those who had integrated within 30 rules would be in the third grade, those who had integrated within 60 rules would be in the second grade, and those who had integrated below 99 rules would be in the first grade.

In addition.

there were also top empires.

They were the top 99 empires of the three races.

The three emperors had all mastered ninety-nine types of power of the natural order and reached the level of the limit master. Their combat power was the limit of the power of the natural order master.

Furthermore, the Empire's National fate had already reached the peak of the Empire, and it had begun to touch the edge of the 'Holy Land'. It had begun to try to break through the realm of the master of the natural order and step into a stronger realm.

It could be said that ...

He was only one step away from the ninth Holy Land.

shua!

jiang li opened the dominator panel.

to create an 'undying mechanical God'.

go! Jiang Li ordered.

Buzzzzzz!

In an instant.

It cost Jiang Li a trillion origin points. At the same time, he also added the ‘immortal law origin’ into it and started to build.

The manufacturing interface appeared.

In the interface.

The shadow that appeared was actually the same as the original undying master God. It was as if they were made from the same mold, not changing much.

Buzzzzzz! buzzzzzz!

In the surroundings.

Countless light spots filled in.

It gradually solidified.

A minute later.

Shua!

[creation complete!]

A notification appeared.

After that.

The ‘mechanical immortal God’ appeared out of thin air and stood in front of Jiang Li. He opened his eyes and saluted Jiang Li. I salute you, Lord.

“Yes.”

okay. Jiang Li nodded.

Shua!

His basic information was displayed.

[rule troops: mechanical immortal]

[rank: rank 14]

[no.: jxbxzs01]

“Skill: rule of immortality”

[law origin machinery: with the ‘law origin’ as the main force, a large amount of Origin Energy is consumed, and with the guidance of the ‘mechanical law’, the law origin soldiers created are powerful. They can fuse with the power of the law and grow gradually, finally reaching the level of the limit Masters.]

promotion condition: can not be promoted!

...

Jiang Li finished reading the message.

“Good! Good!”

haha! Jiang Li’s eyes lit up and he laughed.

It could be said that ...

The undying master God really gave Jiang Li a great surprise.

one had to know.

When Jiang Li used the ‘demonic sword’ as a weapon, he injected 99 types of rule force into it. The power from the fusion caused permanent damage to the ‘demonic sword’.

so,

The ‘demonic sword’ had a huge restriction when fusing with the laws.

He didn’t even fuse 99.

Perhaps fusing nine types had already reached the maximum.

...

now.

The ‘mechanical immortal God’ that was created could fuse 99 types to the maximum, and could finally reach the realm of the ‘Lord of limits’.

The most important thing was ...

Jiang Li himself had mastered 101 rules. After integrating 99 rules into the ‘machine rules’, he had reached the level of a limit Lord.

so,

Jiang Li could merge the rule force he had mastered into the ‘mechanical immortal God’ and upgrade it to the level of a limit Lord.

“Fuse!”

Buzzzzzz!

let's do it. Jiang Li formed a seal with his hands. He first combined the two rules that he hadn't merged with the machinery rule, the heaven secret rule and the energy rule.

Shua! Shua!

The two law runes entered the 'mechanical immortal God', and the strength of the 'mechanical immortal God' clearly increased.

"Continue."

jiang li took a deep breath and kept conjuring the power of rules. he turned them into runes of rules and merged them into the mechanical immortal one by one.

Five elements, sword Dao, yin and yang, life and death, reincarnation, creation and Suan ni.

There were layers of rules.

In the end.

BOOM!

There was a loud bang.

the aura of the mechanical immortal god reached its limit. it had integrated the power of a total of 99 rules, and its body was shining with a nine-colored light.

Then, it slowly retracted.

"thank you, hegemon."

The mechanical immortal saluted Jiang Li again.

“Yes.”

Jiang Li looked at the mechanical immortal God and nodded in satisfaction. “From today onwards, your name will be ‘undying’.”

“Yes.”

The undying replied.

Shua!

[rule troops: mechanical immortal]

[title: immortal]

[rank: peak of rank 14]

[No.: Jxbxzs01]

skill 1: rule of immortality

skill 2: rule fusion ”

skill 3: ultimate form ”

[origin of laws machinery: Chi Chi (omitted)]

promotion condition: can not be promoted!

Jiang Li finished reading the basic information of the undying.

Compared to before ...

His undying had already reached the limit of level 14, and from only having one law of undying before, he now had three.

He was stronger.

“Hidden Dragon,”

stop! Jiang Li shouted.

“Yes.”

Buzzzzzz!

Lord. Hidden Dragon came forward and saluted Jiang Li. please give me your orders.

now, you will lead the mechanical fleet, cooperate with the ‘undying’, and enter the Huo Jun civilization’s star field through space teleportation, and destroy the Army of the eternal Sky Empire.

go! Jiang Li ordered.

“Yes.”

I promise to complete the mission, ” Hidden Dragon replied loudly.

“Undying.”

it’s your first mission, ” Jiang Li said. Don’t Let Me Down.

“please be at ease, chief sovereign.”

The undying replied.

Buzzzzzz!

Hence.

Half a minute later.

The mechanical fleet assembled.

This time.

they only sent out a fleet of one quadrillion law-level advanced war motherships and one quadrillion law-level advanced guardian fortresses.

With an undying as the ship's leader.

The hidden dragons acted as the commanders.

In addition.

Then, the major magical bases, with the eternal spear and the immortal sword as support.

The spatial teleportation was activated.

Buzzzzzz! Buzzzzzz! Wuwuwuwu!

An invisible spatial fluctuation enveloped the area.

in an instant.

The two quadrillion fleet was teleported away.

As for undying.

He didn't even need the teleportation of the magical base.

Shua!

The undying took a step forward, and the fluctuations of time and space were extremely intense. He shuttled through the universe space and arrived at the battlefield within the green jade civilization star field first.

shua! Shua!

Immediately after.

Through the law base, the images of the battlefield within the green jade civilization's star field were transmitted to Jiang Li and green jade.

"Can you do it?"

Green Jade's eyes were filled with worry.

"i believe that the xia emperor will be able to turn the tide."

Ya Ge said.

"that's right."

"we believe in the xia emperor!"

"....."

The other Supreme rulers all agreed.

in reality.

Under such circumstances.

they could only believe that jiang li would win.

Because ...

Within the cosmic Alliance's star sector.

The nine Level-8 civilizations and 99 Level-7 civilizations had all fallen into the flames of war. They were surrounded by enemies on all sides. It was already extremely difficult to defend their own star fields, let alone send reinforcements.

now.

Jiang Li was the only one left who could send troops.

In the green jade civilization's star field battlefield.

“Attack!”

fire the fleet's precept energy cannon!

“Charge!”

“.....”

First of all ...

Jiang Li's two quadrillion-level mechanical fleet launched the first attack as soon as they arrived. They also devoured the vast energy of the universe and built a large number of mechanical warships.

They formed an uncountable fleet.

He looked around.

There was no end in sight.

Countless attacks were launched at the eternal Heaven imperial court.

Bang Bang Bang Bang!

The radiance of countless explosions and energy explosions spread out, snaking across a distance of tens of millions of light years.

It was difficult to describe such a vast battlefield.

He couldn't even form an image in his mind.

it was too terrifying.

For a moment.

The Army of the eternal Heaven imperial dynasty was caught off guard and suffered considerable losses. It could be said that this was the greatest loss they had suffered since entering the great cosmos.

"Damn it!"

"I didn't think that there would be such a powerful Army!"

“Kill!”

BOOM! BOOM!

immediately.

Several level 13 servants of the Imperial court rushed out of the Army of the eternal Sky imperial court, riding five-clawed flood Dragons and charging forward.

bang bang bang bang!

Instantly.

The numerous follower princes dominated the battlefield, destroying a large number of motherships and defensive fortresses.

Not only that.

The green jade civilization’s fleet was also forced to retreat.

The losses were huge.

“Kill!”

BOOM!

The undying made his move, and the power of the natural order condensed in his palm, turning into an undying spear, which he threw at the Army of the eternal Heaven Empire.

BOOM!

There was a loud explosion.

The power of rules swept through the surroundings.

“Ah!”

He screamed again and again.

It caused the death of a large number of barbarian soldiers.

BOOM! BOOM! BOOM!

The undyings attacked one after another, immediately recovering their disadvantage.

“Surround and kill him!”

Hence.

The Imperial princes looked at each other and hollered. They mobilized all their power and transformed into rule force light. They crossed space and attacked the undying.

however ...

The princes of the eternal Heaven imperial court were only at the follower realm. Even if they had a large number of people, they wouldn't be a match for an undying, who was already the master of the natural order and had condensed 99 natural order.

“Ah!”

A miserable scream rang out.

One of the princes was seized by an undying, using his law energy to form a chain, blocking his way out. In the end, his head was crushed by an undying.

Life was extinguished.

He died on the spot.

“not good!”

“It’s the master of the natural order! The opponent is a master of the natural order!”

“Retreat! Retreat!”

Without any hesitation.

The Imperial princes all shouted.

Unfortunately ...

Jiang Li wouldn’t give them a chance. He ordered the base to activate the eternal spear and the eternal sword, which crossed hundreds of millions of light years and blocked the retreat of the eternal Sky dynasty’s Army.

“Ah!”

Countless screams rang out.

The undying led the mechanical fleet, coupled with the eternal spear and sword of immortality, and launched a one-sided slaughter. The various princes of the eternal Sky Empire were simply unable to contain their anger.

At the same time, he was extremely frightened.
