

## Army 92

Chapter 92-still trying to run after shooting an arrow in the dark

“Pfft!”

The snake-biting man had actually retreated, and in such a decisive manner at that. Qing Wenling’s anger surged, and he spat out blood.

“City Lord!”

Scaled wing exclaimed.

“Retreat?”

Jiang Li’s eyes were cold. He looked at the monster army outside the valley and sneered.”You still want to run after shooting an arrow in the dark? how is that possible?”

“Do it.”

shut up! Jiang Li shouted and gave an order.

“kill!”

Shua! Shua! Shua!

suddenly.

Cold weapon meches, biochemical meches, and combat meches. More than two thousand meches rushed out from the back of the long snake Army and formed a long battle line, completely blocking the snake-biting Army’s retreat.

Obviously.

let's go. Jiang Li had already sent out all the cold weapon meches, biochemical meches, and combat meches to the back of the long snake Army.

“Commander!”

“our escape route has been cut off!” ye zhanglin exclaimed.

“Prepare for battle.”

The Ouroboros's gaze was calm. He raised the Ouroboros bow in his hands, took out an ordinary arrow, pulled it into a full moon, and shot it out.

“Whoosh!”

Bang!

The arrow pierced through the head of a combat mech. The damage was more than 90% and it was scrapped. 75 energy points were recovered.

“Giving up the advantageous terrain to block my escape route, do you want to capture them all in one fell swoop? I'm afraid you don't have the ability to do so.”

The Ouroboros snorted coldly.

“Yes!”

“All troops, attack!” Ye zhanglin shouted.

“Kill!”

BOOM!

The war broke out in an instant.

There were more than 2000 meches, and each of them was at perfected-stage level one. Although the long snake Army had 10000 soldiers, there were only 2000 level-one demons and 500 at perfected-stage level one.

The rest were all at the peak of the unranked level.

Other than that.

There were also nine demon generals who had reached the early stage of level two.

The Ouroboros clan's cultivation was at the peak stage of the second level, while the Vice commander ye zhanglin was at the late stage of the second level.

Whoosh! Whoosh! Whoosh!

The cold weapon mech threw out his alloy daggers and killed hundreds of peak-stage elementary level demon soldiers before they even fought.

A large number of corpses fell to the ground.

“biochemical poison!”

Wuwuwuwuwu!

the biochemical mech released its power. pitch-black biochemical poison mist gushed out of its body and spread out, attaching to the demons.

“Ah!”

” what is this thing?! ”

“no!”

A terrified scream was heard.

The demons who were contaminated by the biochemical poison could not last long after the poison invaded their internal organs. They died with shrill screams, and their bodies were controlled to become ‘walking puppets’.

In the blink of an eye.

Thousands of demon soldiers were controlled and attacked the demon soldiers.

BOOM! boom!

The combat mech charged into the battle and killed many demons at the peak of the elementary level. Even the level one demons were no match for it.

“The great circle of rank one! They’re all at the perfected stage of Tier 1!”

the rank-two demon generals shouted in alarm and immediately charged into the battlefield.

“Kill!”

BOOM!

ye zhanglin shouted. his strength of the late stage of the 2nd rank burst out. the power of his bloodline surged, and a huge tiger phantom condensed behind him.

...

kachaa! Kachaa!

He charged into the meches and killed them one by one.

more than 2000 martial artists of perfected-stage level one.

this is ... Ouroboros's eyes were serious. I'm afraid only the Army of the Qian dynasty can have such a troop. How did Jiang Li build such an Army? ”

“I've underestimated him.”

whoosh! Whoosh! Whoosh!

The snake continued to shoot out arrows. Each arrow was powerful enough to kill a perfected-stage level one mech.

At least a hundred meches were killed by the Ouroboros.

“Ah!”

Suddenly.

from the line canyon behind them came a shrill scream.

...

“BOOM!”

The flames soared to the sky.

The biochemical mech SH01 was shot a few times in a row and completely killed Lin Yi. Its body was torn into pieces by the power of the explosion and blood and flesh flew everywhere.

Bang!

JJ01's Platinum-colored energy bullet shattered Qing Wenling's head. It exploded like a watermelon, and his headless body fell to the ground.

Da da da da

More than 700 firearm meches ran out of bullets from their machine guns and submachine guns. They took out their automatic rifles and started shooting at the demon soldiers of green scale city.

five thousand monster soldiers of the green scale city.

All of them died!

In the canyon.

The ground was filled with corpses, and the smell of blood was strong. Fresh blood gathered and formed a viscous pool of blood. The scene looked a bit horrifying, like a scene of Asura.

Buzzzzzz! Buzzzzzz!

gray light spots flew out of the body and merged into jiang li's forehead. he caught the level-one soul tinder.

among them.

A black light spot appeared on Qing Wenling's body and flew into Jiang Li's forehead.

shua!

[acquired a stage-two soul Tinder!]

A notification appeared.

"Alright," he said.

Jiang Li smiled. I've captured another level-two soul Tinder. I'm one step closer to gathering all the level-two soul Tinders and activating the level-two troop class.

consume energy points to replenish the ammunition of all the firearm meches.

Jiang Li waved his hand.

Buzzzzzz!

After consuming 740 energy points, all the firearm meches had finished replenishing their ammunition.

“Attack!”

stop! Jiang Li shouted.

Kachaa! Kachaa!

The seven hundred and thirty-nine firearm meches turned their guns and aimed at the long snake Army outside the canyon. They pulled the trigger and started shooting.

“Set up the formation!”

The Ouroboros's pupils contracted as he loudly shouted.

“single-line snake army formation!”

Buzzzzzz! Buzzzzzz!

The thousands of monster soldiers circulated their cultivation techniques according to the unique grade positions. The power of their bloodlines surged and formed a link, forming an army formation.

The spiritual Qi of heaven and earth surrounded him.

“Whoosh!!!”

the blood-black mist covered the entire army and blocked the bullets from the firearm meches.

“Kill!”

The Ouroboros clan commanded the entire Army.

“Roar!”

The Army formation activated and combined the power of the demon soldiers. A blood-black mist filled the air and condensed into a huge Python that circled the sky.

the python roared like a dragon and charged at the mech army.

bang bang bang bang!

an explosion sounded.

The battle formation was extremely powerful. It destroyed the ‘walking corpse puppets’ controlled by the biochemical meches and sent hundreds of meches flying.

“All troops, charge!”

The snake-biting man roared.

“Kill!”

Battle cries shook the heavens.

BOOM!

SH01 fired a rocket into the midst of the long snake Army. The shell exploded, and flames soared into the sky, causing a violent tremor.

The blood-black mist trembled.

“Pfft!”

“Ah!”

Many of the monster soldiers spat out blood from the shock as they suffered the backlash from the battle formation.

Bang! Bang! Bang! Bang! Bang! Bang!

Immediately after.

JJ01 switched to armor-piercing rounds and fired a few shots in succession. The powerful recoil force caused him to take a few steps back. He even pierced through the blood-black mist formed by the military formation and killed a few perfected-stage level one demon soldiers.

“Jiang Li!”

Jiang Li, the Ouroboros clan leader turned around and stared at Jiang Li, who was standing on the Rocky Mountain. He clenched the Ouroboros bow in his hands.

There was only one black-gold arrow left, and Jiang Li was protected by several perfected-stage level-two experts. They couldn't hurt him at all.

The most important thing was ...

Some of Jiang Li's soldiers were so strange. They didn't fear death at all. Even if their hands were cut off, they could still bite with their teeth.

Furthermore ...

There were also some soldiers who could release black poisonous mist. Any demon soldiers that came into contact with the poisonous mist would become puppets controlled by the other party.

It was impossible to guard against.

If it wasn't for the long snake Army's 'battle formation', they wouldn't have been able to fight back.
