

Army 94

Chapter 94 headshot

Under the control of the Ouroboros, he infused it into his next spear strike. The power of the attack was greatly enhanced, reaching an extremely powerful level.

“Ouroboros spear!”

“Pfft!”

The snake-biting spear thrust out with all its might, destroying SH01’s attack. The snake-shaped spear had even pierced through SH01’s chest, and the powerful force sent SH01 flying.

“Jiang Li!”

shua!

Jiang Li. the snake-biting man looked up at Jiang Li with hatred and killing intent.

This was the first time he had been forced into such a sorry state.

without any hesitation.

run! the snake biting monster turned around and ran away. The bloodline power around him shook and all the meches who tried to stop him were sent flying.

“This guy actually ran away.”

Jiang Li was also stunned.

Obviously.

The Ouroboros knew very well that they had already lost this battle. If they continued to fight, even he would die Here. Thus, he immediately fled.

As long as there's life, there's hope.

“Run!”

the snake-biting man turned to the long snake army and shouted, ” “Let as many as you can escape!”

“Commander!”

The morale of the long snake Army's monster soldiers had also collapsed.

Bang!

jj01 aimed at the serpent and pulled the trigger. an energy bullet shot out, tearing the air and forming a vortex.

“Black-gold arrow!”

Whoosh!

With the snake in his mouth, he nocked an arrow and pulled the bow into a full moon shape. He injected his bloodline power into it, forming the illusionary image of the Ouroboros clan, which fused into the arrow.

The black-gold arrow shot out.

Bang!

it could be seen.

The black-gold arrow and the energy bomb collided in the air. As they clashed, rings of energy ripples spread out, and the energy bomb exploded.

obviously.

The power of the black-gold arrow was a level higher.

After all, the black-gold arrow and the Ouroboros bow were both at the peak of the second rank. When the two were combined, their might would be even greater.

After breaking the energy bomb, the black-gold arrow continued to shoot at Jiang Li.

thump!

The giant hammer mech smashed the black-gold arrow away and smashed a big rock. Jiang Li was unharmed.

it was a false alarm.

At this moment.

Pfft!

SH01 pulled out the snake-shaped spear from his chest. With his enhanced physique, his wounds were healing rapidly, and the damage he had sustained was also recovering automatically.

“You!”

The pupils of the Ouroboros contracted.

“Whoosh!”

Immediately.

SH01 leaped forward and once again charged at the snake-biting monster. Its flesh scythe crossed and slashed forward, drawing an 'x'- shaped blood-red sword light.

The Ouroboros rapidly retreated, pulling some distance to avoid SH01's attack. Retrieving the arrows from the quiver on its back, it drew its bow and fired.

Whoosh!

The arrow was shot.

Kachaa!

SH01 cut the arrow in half and closed the distance between them.

whoosh! whoosh! Whoosh!

The snake-biting man pulled out three arrows at once, drew his bow, and shot them out in a triangular formation. SH01's twin blades danced in the air, and with a flash of light, the arrows were deflected away.

sh01 stuck closely to the ouroboros, not giving it any chance to escape.

bang! bang! bang! bang!

the sniper mech jj01 looked for an opportunity to shoot and help sh01. it almost got hit several times by the mech.

...

On the battlefield.

Under the siege of the monster soldiers and the monster generals, Wang Gang was already sixty percent injured.

Bang!

Wang Gang's two fists smashed down, shaking the air and creating shock waves. His fists pierced through ye zhanglin's chest, sending blood and flesh flying everywhere. His arms trembled and his body was torn into pieces.

In the surroundings.

There were less than a thousand soldiers left in the long snake Army.

All of the Stage 2 generals had been killed by Wang Gang.

“Adjutant ye is dead!”

“All the generals are dead!”

“!!!”

Despair filled the eyes of the monster soldiers.

...

in contrast.

In this battle.

Jiang Li had lost 1400 meches. Twenty of them had self-destructed, which meant he had lost half of them.

Other than the twenty meches that self-destructed.

Jiang Li had recovered 103500 energy points in total.

“Use energy points to repair Wang Gang.”

Jiang Li operated the Dominator panel and used some energy points to repair Wang Gang’s damage.

Buzzzzzz!

wang gang’s body glowed as his injuries recovered. his damaged camouflage uniform was also restored.

BOOM!

Wang Gang left the battlefield to reinforce SH01.

“Kill!”

kill him! Jiang Li ordered with cold eyes.

The firearm mech fired at full force. Bullets flew everywhere, forming a rain of bullets that covered the remaining thousand demon soldiers.

All the meches surrounded him.

BOOM! BOOM! BOOM!

SH01 and Wang Gang worked together to surround and kill the Ouroboros. JJ0 assisted from the side, occasionally finding an opportunity to fire a snipe to distract the Ouroboros.

Finally!

The sniper mech JJ01 seized the opportunity and fired a shot. The bullet pierced through the air and broke the snake's left leg.

“ah!”

The Ouroboros let out a miserable shriek.

“Thump!”

Wang Gang leaped over and threw out two punches at the snake's head.

“Ouroboros!”

Buzzzzzz!

The snake-biting man roared and used all his strength to once again condense the Ouroboros magical image. The ring-like shadow appeared and crashed toward Wang Gang, sending him flying.

kachaa! Kachaa!

Wang Gang's arms were twisted, and electric sparks flew.

Pfff!

SH01 charged over and slashed out with his flesh scythe. A blood-red blade light flashed and struck the snake's chest, tearing apart his armor. Blood splattered everywhere, revealing his ribs.

“Ah!”

the snake-biting man let out a mournful wail as he staggered back and fell to the ground. fresh blood continuously flowed out from his wound, and the smell of blood was very strong.

Bang!

The Platinum-colored energy bullet tore through the air and arrived. It didn't give the snake-biting monster any chance to catch its breath. It directly struck the snake-biting monster's head and shattered its helmet.

His head exploded.

A headshot!

"It's settled,"

Jiang Li was relieved to see the headless body fall down. He didn't let the giant hammer mech leave his side from the beginning.

Speaking of this.

"you're right. " the snake-biting monster gave jiang li a lot of pressure.

If Jiang Li didn't send meches to Qingshan mountain to investigate and draw a map, the snake-biting raid would have been successful.

At that time.

Even if Jiang Li could leave safely under the protection of the mech Army, great Xia city would be finished.

Jiang Li had lost a city.

The plan to expand their territory would be ruined before it even started.

Fortunately ...

Jiang Li discovered the whereabouts of snake-Hunter and set up an ambush on the Rocky Mountain. Although snake-Hunter didn't fall for it, Qing Wenling and the monsters of the green scale city rushed into the one-line-sky.

then, they were all killed by jiang li's firearm meches, killing nearly one-third of their forces.

Buzzzzzz!

not long after.

A black light came out of the body of the serpent and flew into Jiang Li's forehead.

Shua!

[acquired a stage-two soul Tinder!]

a notification appeared.

Ten minutes later.

When the last monster soldier was killed by the mech, the battle was over. Jiang Li won the battle.

Of course.

Jiang Li also suffered a great loss.

Fortunately ...

Jiang Li had collected a lot of level-one soul Tinders and several level-two soul Tinders. He could get half of the energy points he spent on the broken meches.

The most important thing was ...

jiang li had killed all the monster soldiers in the green scale city and even qing wenling, the mayor of the city, was dead. jiang li could take over the green scale city without any trouble.

As expected.

The green scale city would be the first city that Jiang Li would occupy.
