Chapter 95 Collecting the stage-two soul Tinder

Hu Dong, Hong Tianqi, Xu Ya, send people to clean up the battlefield and count the casualties.

” stop! ” jiang li shouted.

“Yes.”

“Yes, city Lord.”

yes! Hong Tianqi and the others responded loudly.

“don’t just stand there, do you all hear me? hurry up and get to work.”

the members of the sirius gang shouted.

“Yes, elder Hu Dong,”

“Move faster, Zhenzhen.”

The members of the Sirius gang reacted and ran to the battlefield.

“We’ve won again!”

wang pingyuan climbed halfway up the rocky mountain and looked at the valley full of corpses. he looked out at the tens of thousands of demon soldiers ‘bodies.

Broken limbs and dismembered corpses.

Sticky blood flowed along the ground, and some places had already solidified.

“Yup!”

I understand. Hong Tianqi nodded. He looked around the battlefield and took a deep breath. Then he looked up at Jiang Li, who was standing at the top of the mountain. His eyes were full of respect.

there are more than 10000 demons, including two level-two perfected stage and two level-two late stage. There are more than ten level-two demons and many level-one demons.

Xu Ya's tone was full of respect. these are all the achievements of the city Lord. With more than 2000 troops, he annihilated the entire demon Army. It can be said to be a great victory.

“That's for sure,”

it's a piece of cake for you, city Lord, “pang kui said. it's easy to deal with these demons.

“That's right,”

wu zong nodded his head repeatedly. “this time, we have won a huge victory.”

“In fact, if I'm not mistaken.”

Hong Tianqi thought for a while and suddenly said, ” the monster soldiers in the canyon should be from green scale city. That perfected stage level two monster is probably the city Lord of green scale city, Qing Wenling.

the ones outside the canyon are the famous ‘long snake Army’. Only the Ouroboros clan, known as the’ strongest commander of the red-browed demon Kingdom’s Red Dragon County,’can lead the’ long snake Army’.

you should know that snake-biting is a commander who is as famous as the ‘silver-armored female war god’, the Lord of the heavenly water city. He once used a strategy to take down three major cities of the black snake barbarian kingdom, and from that, he became famous.

I really didn't expect that I would fall in the hands of the city Lord today. Thinking about it carefully, I feel that it's somewhat inconceivable and outrageous.

"serpent."

Hu Dong was taken aback. now that you mention it, I seem to have heard of this rumor before, but I've never seen it before. Instructor Hong, you're really well-informed to even know about this.

"I've lived for a long time, so I naturally know more than you. In any case, I'm the head instructor of the city guards and have fought against the monster race for many years, so I know a little about these things."

Hong Tianqi said with a smile.

instructor Hong, since snake Captain has such a powerful background, I'm afraid it's a big deal for the Red Dragon County of the red eyebrow Yao Kingdom that he's dead.

"red dragon county will definitely find a way to avenge the ouroboros clan," xu ya analyzed.

"That makes sense."

Wang Pingyuan nodded.

Half an hour later.

the battlefield was cleaned up, and all the valuable things were arranged. as for the bodies of the demons, they naturally did not waste time and effort to deal with them.

At the same time.

the number of casualties had also been calculated.

The city guards had 300 dead, 500 heavily injured, and 1000 lightly injured. The Sirius gang had 100 dead, 300 heavily injured, and 500 lightly injured.

A total of 400 people had died.

The military strength of the great Xia city was reduced once again.

Jiang Li's mech Army.

At the end of the war, they lost 1501 meches, 531 combat meches, 500 cold weapon meches, and 470 biochemical meches.

there were 31 meches who had self-destructed.

The firearm meches were shooting from the top of the Rocky Mountain, and the snake Army didn't have archers, so they didn't lose any firearm meches.

now.

There were only 1500 meches left in Jiang Li's mech Army. The number of firearm meches remained the same. Including sniper mech JJ01, there were 740 of them.

There were two hundred and three combat meches, two hundred and thirty-six cold weapon meches, including the three elite meches, and two hundred and thirty biochemical meches.

There were also six Intel meches.

Their military strength had been reduced by half.

Fortunately ...

After the meches were destroyed, half of the energy points could be recovered. Apart from the 31 meches that self-destructed and the 1470 destroyed meches, Jiang Li had recovered 110250 energy points in total.

...

The biochemical mech controlled 1320 'walking corpses' of the demon soldiers with its biochemical toxins.

They were not considered weak.

Shua!

The Dominator panel opened.

With the 20620 energy points that Jiang Li had reserved, he now had 130870 energy points.

Of course.

In the battle at the Rocky Mountain, Jiang Li used up a lot of energy points. He replenished the ammunition of the firearm mech five times, which cost him 3700 energy points, and it cost him 2000 energy points to repair the damaged mech.

He had spent a total of 5700 points.

Jiang Li had 125170 energy points.

After calculating the losses of this battle.

soul Tinder. Jiang Li looked at his gains this time.

...

Among them.

The number of level-one soul Tinders had reached 110. According to the calculation that ten level-one soul Tinders could be fused once, 110 soul Tinders could be fused 11 times.

The number of stage-two soul Tinders had increased from four to seven, and he had obtained three stage-two soul Tinders in this battle.

He was only two pieces away from collecting the nine stage-two soul Tinders.

“Fuse.”

let’s go. Jiang Li merged all one hundred and ten level-one soul Tinders.

[fusion failed!]

.....

[fusion failed!]

.....

[fusion successful!]

.....

A notification appeared.

In the end.

Out of the 11 fusions, he had succeeded four times and obtained four stage-two soul Tinders.

Jiang Li had eleven level-two soul Tinders in total.

You have reached the condition to unlock the stage two mechanical Army.

“city lord,”

Jiang Li. Hong Tianqi came to Jiang Li's side. His left leg was injured and he was limping. the battlefield has been cleaned up. I have something to report.

"Speak," he said.

Jiang Li closed the interface.

some of these monsters are soldiers of the green scale city. The perfected stage two monster that entered the ambush in the valley is the city Lord of the green scale city, Qing Wenling.

Hong Tianqi said.

"Qing Wenling,"

Qing Wenling? "Jiang Li raised his eyebrows and looked down. He saw Qing Wenling's headless body. I was going to attack the green scale city, but I didn't expect Qing Wenling to come to me.

"What else?"

Jiang Li asked again.

"And then there's the 'single line snake Army'."

"if i'm not wrong, the monster army that didn't enter the ambush in the canyon is the famous 'single-line snake army' of red dragon county," hong tianqi answered.

"The only one who can lead the 'single-line snake Army' is the coiled serpent."

snake-biter is a famous commander in the red Dragon County. He is known as the 'strongest commander'. He is as famous as the' silver-armored Valkyrie 'in our Black Dragon County.

the snake-biting troop and the one-line snake troop have all died here. I'm worried that Red Dragon County will try to take revenge on us, or even invade us.

“Red Dragon County.”

what’s the strength of Red Dragon County? ” Jiang Li asked.

city Lord, the Red Dragon County is not weak. At least, it is much stronger than the Black Dragon County. There are rumors that the county King of the demon race, 'Red Dragon', has already broken through to the third rank.

even if the Red Dragon County is not a Tier-3 monster, ” Hong Tianqi said seriously. if the Red Dragon County really wants to invade, they can definitely gather 100000 monster troops.

our great Xia city is the closest to the Green Mountain Range. We will definitely be the first to bear the brunt. By then, even if we have the reinforcements of the great Qian dynasty, I’m afraid we will be in danger.

most importantly, I’m very worried that the great Qian dynasty might abandon the war chariot to save the king.
