

Army 98

Chapter 98 captured

“Firearm meches, fire immediately.” He ordered.

Jiang Li said.

Very quickly.

The firearm mech had already set up his machine gun. He was hundreds of meters away, which was beyond the shooting range of the green-scaled demon reserve army.

Da da da da

the machine guns opened fire, and the black muzzles spat out tongues of fire. the hot bullets shot out, forming a rain of bullets that covered the entire city wall.

Pfft! Pfft! Pfft!

On the city wall.

Flowers of blood bloomed. These reserve troops of the monster race from the green scale city were not even level one monsters. They did not have the power of the bloodline and could only rely on their bodies to survive the bullets.

Although they were wearing armor, the quality of the armor of the reserve army could not be compared to that of the regular army.

Instantly.

One by one, the demi-human reserve army was shot to death.

“Ah!”

A shrill scream rang out.

A massacre!

This was a massacre!

The monsters couldn't fight back at all when the firearm mech shot at them. Their arrows couldn't hurt Jiang Li's mech at all.

Not to mention that there were undead puppets in front of them.

BOOM! BOOM! BOOM!

sh01 fired its cannons one after another, and the shells exploded on the city walls, setting off a huge fire. the shockwaves from the explosions spread in all directions, killing a large number of demons.

Shua! shua! shua!

At the same time.

The cold weapon meches, combat meches, and biochemical meches entered the green scale city and killed the level-one demons of the demon gang.

“Die!”

Thump!

At the city gate.

A furious roar was heard.

The red bloodline mist surged, and a two-meter-tall demon with a lion's head and a human's body came into view. His hair was red like flames.

Bang!

the lion-headed demon smashed his fist down. the fist print was like a lion's head, and a lion's roar was heard. his fist smashed the head of a cold weapon mech.

“It's chi Yan, the leader of the lion demon gang!”

gang leader Chi Yan's cultivation is at the mid-stage of the second level. He killed the opponent in one blow.

“That's great.”

“We're saved.”

In the surroundings.

The panicking monsters were overjoyed and couldn't help but feel excited.

“Human!”

Chi Yan looked up at Jiang Li and roared like a lion, ” “You guys are too bold. How dare you invade the red eyebrow Yao Kingdom's territory and even attack the green scale city.”

“i'm telling you, you won't succeed. furthermore, the commotion caused by the battle here will spread very quickly. at that time, the other demon city's army will arrive and you will be dead.”

“I advise you to leave quickly and not make a mistake.”

“Do it.”

Jiang Li ignored Chi Yan and signaled to sniper mech JJ01.

“Yes.”

Kachaa!

JJ01 changed the magazine of the energy bullet and aimed it at Chi Yan’s head. He activated his Eagle Eye and gun fighting skills at the same time to lock and predict, and pulled the trigger.

Bang! Bang!

a platinum-colored energy bullet shot out from the muzzle, making a loud noise and creating a vortex-like airflow. it tore through the air and shot through the air.

“Pfft!”

Under the gazes of the surrounding demons ...

Chi Yan had just killed a mech and shouted. As soon as he finished speaking, his head exploded like a watermelon.

the voice stopped abruptly.

He died just like that.

One-shot kill!

...

“Leader of the red flame Gang!”

“How could this be?”

“What happened to Yingluo just now?”

” the gang leader of the red flame gang, who was in the middle stage of the second level, was killed just like that. his head exploded. ”

“!!!”

The surrounding demons were terrified.

“Attack!”

jiang li waved his hand.

The thousands of meches charged again.

Time passed.

It was evening.

...

The green scale city was completely taken over by Jiang Li. All the green scale city’s reserve army and the monster clan were killed.

The entire green scale city was under Jiang Li’s control.

“The speed of the siege is too fast!”

Xu Li witnessed this scene with his own eyes. The speed of the siege was much faster than he had expected. They had completely captured the green scale city before nightfall.

Green scale city.

among the five major demon cities in the red dragon county of the red eyebrow demon kingdom, it was considered to be of average strength. the entire green scale city had more than 100000 demons.

Before the sun set.

Jiang Li gathered all the monsters.

There were more than 100000 demons.

Men and women, old and young.

The lion-headed demon clan, dog-headed demon clan, ox-headed demon clan, horse-headed demon clan, and all kinds of demon clans were gathered on the huge square. They were densely packed together.

In the surroundings.

The firearm mech had already set up his machine gun. If the demons made any strange movements, he would shoot.

These monsters had seen the power of these weapons with their own eyes and fear appeared in their eyes. They didn't dare to make any movements and stayed in place.

"Father, will we die?"

Among these demons.

there were very young demons. the youngest had just been born, and the slightly older ones were a few years old. there were also some in their teens. they snuggled in the arms of their parents, their eyes filled with fear.

don't be afraid, little li. Be good, your father is here.

the fox-headed demon touched his daughter's hair and said in a gentle tone.

However ...

These demons were very clear.

The city was captured.

There were only two outcomes for them.

They would either be massacred or sold as demon slaves.

Furthermore ...

No matter which one it was.

They all had extremely tragic fates.

Although being sold as a demon slave could save one's life, sometimes, being alive was more terrifying than death.

according to the market price, more than 100000 demons would be worth 10 million taels of silver if they were all sold as demon slaves. It's only 10 million taels of silver. It's not a lot.

it's hard to go back with so many monsters. Jiang Li muttered.

“Let's put aside the matter of the demonic slaves for now. The most important thing now is to plunder the wealth of the green scale city. We can't lose the watermelon just because we picked up a sesame seed.”

Jiang Li said to himself.

of course.

jiang li had just taken over the green scale city, so he wasn't as familiar with the city as these monsters. he still needed their help to plunder the wealth of the city.

This would save a lot of time.

Soon after.

let's go. Jiang Li found a monster who was familiar with the green scale city among the hundred thousand monsters and asked him to lead the way.

"Sir great Suan ni, I am willing to assist you."

It was a white-haired goat-headed demon.

"Alright," he said.

I'm fine. Jiang Li smiled. What is your name? "

"The smaller one is a camel."

the sheep-headed demon replied.

"Yes, lead the way."

Jiang Li waved his hand.

"Yes, my lord."

Yang chengtuo nodded and bowed, his face full of flattery.

With yang chengtuo leading the way for Jiang Li, it was much easier to plunder the wealth of the green scale city. At least yang chengtuo knew that most of the wealth in the city was in the hands of those forces.

Among them.

The most important one was the city Lord's mansion, followed by the five monster gangs, three monster trade associations, and then the rich and powerful monsters.

By the time Jiang Li finished plundering most of the wealth in the green scale city, it was already late at night. All the things he had plundered were placed in the mayor's mansion.

Gold, silver, jewelry, spirit herbs, pills, weapons, equipment, and all sorts of ores and materials.

They piled up into a mountain.

jiang li didn't have the time to count them, so he wasn't sure about the exact amount. however, at least 70% of the wealth of the entire green scale city was here.
