

The Amazing Son In Law Chapter 4169 (The Charismatic Charlie Wade Chapter 4169)

Todd's price of seven billion did not intimidate competitors.

Just then, another rich man raised his hand: "Seventy-two!"

The Chinese rich man who had called 5.8 billion and 6.8 billion before was already pale.

Although his bid is very generous, in fact, he is not really cheap.

The limit he can bear is about eight billion. The reason why he increased the price twice is to scare off other competitors before his own limit is touched.

But if this is an auction for ordinary commodities, his method may be effective. Now, it is not the commodity that is auctioned on the stage, but the lifespan!

A terminally ill patient, taking pictures of this quarter of Huichundan, has a great chance of being completely cured. Although it may not be a few years younger, as long as the terminally ill body can be cured, it will be enough to prolong life for several years, or even decades. .

After all, some of them are only fifty or sixty years old. After suffering from a terminal illness, they can only live a few more years with money, but if the terminal illness is completely cured, with their financial resources, it is not difficult to live to the age of eighty or ninety.

Therefore, what is on the stage is not a rejuvenation pill at all, but a life span that everyone can use!

In this case, no matter what kind of psychological tactics you play, everyone has one idea, even if all the liquidity is studded, you must take a picture of Huichundan!

However, among the crowd, there are still a few people with relatively calm expressions who have never participated in the bidding.

These few people did not have the strength to compete for the rejuvenation pill, but they had been holding back their energy and going to bid for the last one.

Among them, Jian and Bernard Arnault, who was assigned 2 billion by Charlie, were also included.

In addition, there are several bidders whose declared assets are not high.

When they declared assets and cooperated with capital verification, they all selectively took out part of their assets, so their declared worths were only about 100 billion US dollars. However, these people are actually very powerful top hidden wealth.

Among them, a middle-aged man whose face was somewhat similar to middle-aged Zheng Shaoqiu, even a little more handsome than middle-aged Zheng Shaoqiu. He had no intention of raising his hand, and his eyes were always staring at the Huichundan on the stage, with a cold expression on his face.

At this moment, an entourage next to him whispered: "Eldest young master, according to the current trend, the last rejuvenation pill will really cost hundreds of billions!"

The middle-aged man nodded lightly, and said without changing his face: "No matter how much the price is, we must do whatever it takes to win this rejuvenation pill!"

At this time, the on-site bidding continues.

The price has been called all the way to 8.8 billion.

After reaching this price, the voice of bidding has been significantly reduced.

Although all the people who came were rich, it was indeed rare to see someone who could give out 8.8 billion US dollars.

The older Chinese brother had bowed his head deeply and gave up the struggle with tears in his eyes.

At this time, Todd gritted his teeth and pushed the price up to nine billion.

Immediately afterwards, another person also began to be cautious, adding 100 million US dollars to his base.

And the one who offered 9 billion seemed to be ready for a tug-of-war, so he added 100 million to the 9.1 billion.

The Amazing Son In Law Chapter 4170 (The Charismatic Charlie Wade Chapter 4170)

The two of you came and went, gradually leaving others behind, and gradually pushing the price to 9.9 billion US dollars.

At this time, both sides of the fight had a feeling that they were about to die and die together.

Others at the scene began to calculate the current situation in their minds.

Some people think that this second rejuvenation pill may be the most expensive of the four tonight.

Because I have just experienced the chicken blood that was given to everyone on the scene of the first Huichundan, it will make everyone lose their minds and fight frantically.

Therefore, the person who can get this rejuvenation pill at this stage is likely to be the strongest among the others except those who plan to compete for the last whole rejuvenation pill.

In this case, it is better to let the strongest one quickly take away the second Huichundan. Without him, the price of the next two Huichundans will likely drop.

It is because of this level of thought that several people who still have the strength to continue to increase their prices have also given up their bids one after another.

However, they were wrong. They all thought they were the smartest, but they never thought about it. In fact, there were many people at the scene who thought the same as they thought.

So, when Todd raised the price to \$10 billion, the other guy gave up the competition.

He felt that when this powerful competitor withdrew, the strongest player in the audience might be himself.

Moreover, just now, I started a one-on-one fight with him from nine billion dollars, and the others couldn't keep up.

In that case, as long as he took away the second Huichundan, when he competed for the third Huichundan, he might only need nine billion to win it.

Wouldn't that save a billion dollars?

Although at this kind of perverted auction, money is no longer money, but a billion dollars is a huge amount of wealth everywhere. If there is a chance to save it, why not save it?

At this time, Jasmine moore finally had the opportunity to make an offer.

The price of 10 billion US dollars has shocked her beyond recognition.

She quietly wiped the sweat from her hands with a tissue, picked up the wooden hammer, and said, "No. 071 is currently priced at 10 billion US dollars. Is there anyone on the scene who has a higher price than this? If so, please raise your hand. Come let me see!"

The place was silent.

Jasmine moore nodded and said with a slight smile, "Okay, the first time for ten billion dollars!"

"Ten billion dollars for the second time! This is the second rejuvenation pill tonight. If there are customers who want to compete, please hurry up."

There was still no response at the scene.

Jasmine moore continued: "Third time for ten billion dollars! The deal! Thank you No. 027, the second rejuvenation pill is yours!"

When Jasmine moore dropped the hammer, Todd, a new Silicon Valley entrepreneur who finally succeeded in auctioning his second rejuvenation pill for US\$10 billion, burst into tears with excitement.

Many people looked at him, and some of them recognized Todd immediately.

Todd is not only famous in Silicon Valley, but also famous all over the world. He is often reported by the media of various countries. He can be regarded as an outstanding young entrepreneur in the world.

The difference between young entrepreneurs and many invisible millionaires is that most of the wealth of invisible millionaires comes from the cultivation and inheritance of their ancestors for many years.

However, most young entrepreneurs like Todd start from scratch, and the accumulation of wealth is very fast, so it is difficult to keep a low profile.

Not only him, but even the richer and more successful Tesla boss Elon Musk and Facebook boss Mark Zuckerberg can't hide their wealth from the world.

Because of the inability to hide himself, the news of Todd's injury in Switzerland, like the news of the car king Schumacher's skiing injury, made headlines around the world as soon as it broke out, and almost everyone knew it.

Therefore, after the people around him recognized him, they immediately remembered that he had a major accident in skiing before, and he had already been a high paraplegic.

Therefore, everyone is looking forward to it.

They also want to know, since Huichundan can cure Parkinson's disease, then this kind of high spinal paraplegia, which has absolutely no possibility of recovery in medicine, can it be cured?
