

## The Amazing Son In Law Chapter 4437 ( The Charismatic Charlie Wade Chapter 4437 )

Asher's words kept Li Yalin silent for a long time.

Back then, he had only heard of Lydia (Ava) ( Charlie's mom )'s incident. Due to his professional sensitivity, he once wanted to find out what kind of secrets were behind the incident back then, but there were very few insiders of that incident. And he kept it a secret, so he didn't make trouble for himself.

However, thinking of Lydia (Ava) ( Charlie's mom ), he couldn't help but sigh: "Asher, your sister...it's really a pity...If she was still alive, the world of the rich would be a different scene."

Asher nodded slightly.

As the younger brother with the smallest age gap with Lydia (Ava) ( Charlie's mom ), he knows best what kind of strength his sister has.

It can be said that half of the An family's ancestors' credits and half of the credit of An's sister Lydia (Ava) alone are the achievements of the An family's existence today.

Thinking of this, he couldn't help but sigh: "My sister must be strong in her life, and she will never give up on the things she decides. The old man loves her very much. If she hadn't insisted on marrying away, the old man would not have been in a cold war with her for many years. If my sister didn't marry Bruce, so many things won't happen later."

Speaking, Asher couldn't help but wave his hand and sighed: "Hey, now I can only sigh with embarrassment."

"Bruce..." Li Yalin muttered and said, "I have no impression of Bruce at all, I should have never seen him from beginning to end."

Asher nodded and said, "It's normal that you haven't seen him. The old man has always looked down on him, and he rarely comes to An's house."

Li Yalin hurriedly said: "I'll ask you a little more, why does the old man have such a big prejudice against your brother-in-law?"

Asher shrugged his shoulders and said helplessly: "Actually, my brother-in-law's family ranks very high in the country, and even ranked first and second, but compared with the An family, it is still a lot worse, especially when the two of them fell in love, it happened to be the stage of the great rise of Silicon Valley.

The series of investments that my sister made in Silicon Valley began to make crazy profits, so the old man always felt that my brother-in-law was trying to settle down, so he deliberately approached My sister, preconceived and prejudiced against him, not to mention that my brother-in-law wants to take my sister to China, the old man hurts my sister the most. Maybe agree?"

After speaking, Asher said again: "My brother-in-law is also an iron man. In fact, at that time, the old lady had been doing the work of the old man. I thought it might be better to let my brother-in-law stay in the United States. After the two got married, they lived and developed in the United States. The old man also relented later, which means that as long as my brother-in-law stays, he will no longer object to their marriage..."

Li Yalin exclaimed: "Does the old man mean to make your brother-in-law a son-in-law?"

"It can't be said to be a door-to-door son-in-law." Asher explained: "The old man only wanted the two of them to stay in the United States for development, and the old man did not say that they would have a child with the surname An in the future. This should not be considered. Son-in-law, right?"

Li Yalin shook his head and said, "It's not too bad, you have to know that he is not a phoenix man or a poor boy who has nothing, and he is also a famous family, but he is not as rich as An's family. How can he accept the conditions of staying in the woman's house for development?"

Asher nodded: "The same is true, but the old man himself thinks that this is a big concession, and the other party should not have any objections at this time, but my brother-in-law thinks that this is a matter of principle and cannot be compromised, so the two sides have been It didn't resolve the differences."

Li Yalin nodded slightly, was silent for a moment, and then asked, "Oh, yes, I remember that your sister has a son. Once she brought her child back to see the old lady. I have also seen him. How is the child now? ?"

Asher was slightly startled, then sighed, and said with a bit of melancholy: "After my sister and brother-in-law had an accident, my nephew disappeared. For so many years, many people have been looking for him, but there has been no clue, don't you? Look at the old man's mouth and never say it, in fact, he has not stopped searching for the past 20 years."

After speaking, he paused for a moment, and then said: "The year my sister had an accident, the old man set up a special trust fund in Morgan Bank, and put one billion US dollars into it every year;"

## **The Amazing Son In Law Chapter 4438 ( The Charismatic Charlie Wade Chapter 4438 )**

“This money has two purposes, one is to find my nephew, and the other is to give him the rest of the money after finding him;”

“No, 20 years have passed, and the principal has been invested in a total of 20 billion US dollars. In the past 20 years, it has cost less than half to hire multiple teams to find people around the world, which is about 6 to 7 billion US dollars. ”

Li Yalin was stunned and blurted out, “It costs so much to find someone?!”

“Yeah.” Asher explained: “In the information age, it seems easy to find someone, but in fact, the world is so big, if you miss a certain corner, you may never find this person in your life, so you have to ask for more than one person. After the team spread out the world map, a little bit of carpet search, hundreds of thousands of people, running around, feeding people and horses, the cost is really high;”

“In addition, there is also the cost of intelligence. Regardless of whether the information is useful or not, as long as there is information feedback, you will have to pay a certain fee, and you can’t ask the local government, police and gangs for help with this kind of thing, because you are worried about information leakage. , Do bad things with good intentions, so you have to find it a little bit by your own team;”

“And once the suspect is found, we must do everything possible to obtain the other party’s DNA for comparison. This is also a huge cost. Over the years, the DNA comparison alone has been done tens of millions of times.”

Li Yalin asked inexplicably: “I didn’t find this?!”

“No...” Asher sighed: “It’s weird to say that, I’ve been to almost all the places in the world where there are people, but I can’t find it, maybe it’s the wrong direction.”

Li Yalin asked again, “Have you found it in China?”

“Of course.” Asher said: “At that time, it started from the place where the incident occurred. After turning the incident site upside down, it began to gradually spread to the whole country. If the whole country could not find it, it looked for those countries that bordered by land, and then spread it out. It has spread to the whole of Asia and then to the world, and I have searched everywhere, but there is no news.”

Li Yalin asked again: “Then have you sent someone to check your brother-in-law’s family? Maybe they hid the child.”

Asher sneered: “Of course we checked, not only we checked, but in the first few years, we have been sending the top team to monitor them, but we haven’t found any clues.”

“But we didn’t give up. After all, which of these big families can’t play tricks? Out of absolute caution, we won’t give up unless we get 100% confirmation. We’re afraid they are hiding too deep.”

“So, fifteen years ago, we sent another group of people to break into them, and one of them took a full ten years to become the personal butler of the first heir of their family.”

“That time period was almost five years ago, and it was at that time that we were finally able to be 100% sure that my brother-in-law’s family did not know the whereabouts of my eldest nephew! Moreover, the old man of their family also followed We are looking for him everywhere...”

“Look at this before and after, we just spent fifteen years in order to confirm whether the person is in my brother-in-law’s family, or whether they know any clues, and all the human, material and energy involved are basically all It’s futile.”

“In the end, there was no other way. Seeing that the bamboo basket was empty, we pulled everyone back...”

## **The Amazing Son In Law Chapter 4439 ( The Charismatic Charlie Wade Chapter 4439 )**

After listening to Asher’s words, Li Yalin simply subverted the three views and sighed: “You guys are more ruthless than the spy war... The whole World War II took only six years from 39 years to 45 years, and you actually persisted for 15 years...”

“Yes.” Asher said seriously: “Look, these big families basically do things like this. They are not afraid of spending money, not afraid of wasting time, or wasting energy, and at all costs, they just want to not leave any mistakes. , you can’t imagine the hidden project behind this. In order to send the talents we cultivated to several major families in China without any trace, we specially teamed up with China a dozen years ago to promote the development of overseas Chinese top students returning to China. In the event, we sent nearly 100 overseas Chinese graduates who graduated from major universities in the United States back to China, and let them enter these families through social recruitment and work hard from scratch;”

“This matter has been going on for more than ten years, and in these ten years, we have to continue to pay high fees to these people in private.”

“So you can understand why you spend so much money?”

Li Yalin nodded and said with emotion, “Understood... Twenty years before and after, spending billions of dollars on a thing that didn’t work out, you rich people can afford to burn so much money.”

Asher smiled slightly: "It doesn't count as burning money. Although it took so much, the money was spent little by little over 20 years, and the money is put into the trust and the profits are very impressive. Before half a year, the account balance should be about 356 billion."

Li Yalin exclaimed: "Why so much?! Didn't it cost billions?"

Asher nodded and said, "I make money while I'm doing it. In the past few years, the trust income was very high. In good years, it was normal to earn more than ten points a year. In addition, it is a compound interest model, and the money will naturally roll more and more. ."

Speaking of this, Asher said again: "So, you sound like we are stupid, and we even spent a lot of money in vain, but in fact, we did not spend any cost, and everything has a special person. To do it, we don't have to do it ourselves, and in the final calculation, there is actually a slight profit."

Li Yalin was convinced, and sighed: "Return to profit, money begets money, in peaceful times, the wealth of you rich people is really for generations..."

After he finished speaking, he laughed at himself again: "Unlike me, I only know how to arrest people and solve cases, and have no economic sense at all."

Asher said seriously: "Theoretically speaking, as long as the descendants of the rich take care of their own hands and don't take money out of it, even if the rich only has 100 million dollars, if they put it in the trust, they can guarantee his Future generations will never be short of money to spend."

Li Yalin couldn't help sighing: "If you can find your great nephew, wouldn't his worth increase by three or four billion dollars out of thin air?!"

"More than that." Asher said: "When the old man's condition worsened, he was afraid that one day he would become confused and lose the ability to take care of himself, so he filled more than 60 billion into that account in one go, making up 100 billion. After that, he changed the terms of the trust. The 100 billion principal remained unchanged, and he kept it all for my great nephew. He only took out the annual profit to find someone, but even so, the annual profit was several billions. dollars."

"So, if I can find my great nephew, his worth will increase by 100 billion dollars out of thin air!"

After listening, Li Yalin lit a cigar, took a slow sip, then sat up straight, straightened his collar, and grinned: "Asher, how do you think I am your nephew?"

Asher was stunned for a moment, but then he reacted immediately and scolded with a smile, "f\*ck you, uncle."

Li Yalin laughed and said: "When your nephew is worth it, 100 billion US dollars, according to the way you rich people play, when you spend it until you die, you don't spend all the interest..."

## **The Amazing Son In Law Chapter 4440 ( The Charismatic Charlie Wade Chapter 4440 )**

Asher shook his head and smiled and said, "I just don't know if my nephew can still be found. If he can find it, it is estimated that he has suffered for so many years. With his mother's contribution to the An family, this hundred billion dollars will not be worth it. A lot."

Speaking, he couldn't help saying regretfully: "It's a pity that the old man is ill, and he may not be able to recognize him when he sees him. Even if he is told that it is him, the old man may not believe him. If the old man is healthy and healthy, he really sees him. , I'm afraid I will give him some more money. Although he rarely talks about it for so many years, he really misses this grandson in his heart."

Immediately, he said, "Oh yes, the old lady also saved a lot of money for her grandson. She always said that she would give it to him when she found him. Although it is not as much as 180 billion, 18 billion is definitely still there. some."

Li Yalin was a little numb from the shock, so he wasn't surprised. He just joked: "You're an uncle, don't you express it?"

"Does that need to be said?" Asher said seriously: "The person I admire most in my life is my sister, if my nephew can be found, I will give a meaning of 18.8 billion, Kaifeng, Zhao Nan, Yoyo, the three of them, it is estimated that each of them can't be less than one hundred... After all, it's almost two thousand..."

Li Yalin didn't know whether to laugh or cry: "I'm also the richest man in the world on Forbes..."

Asher said with a smile: "That one is nothing. If it is really the richest man in the world, then the one who is currently ranked first will not even be able to enter the top ten."

Speaking of this, Asher couldn't help sighing again, and laughed at himself: "Hey, what about 200 billion? It sounds like a lot, but at a critical time, you can't even buy a rejuvenation pill."

Li Yalin sneered and said: "It seems that you have a lot of resentment towards Magic pill this time..."

Asher nodded and said seriously: "My resentment is really too big. I am so old, Asher, and I have never suffered such humiliation. The owner of that rejuvenation pill is definitely a person! I will give him three Seventy-seven billion dollars, but to him, that amount of money is no match for his principles..."

With that said, Asher asked Li Yalin, "Do you know how Mr. Jian, Fei, was seized by his son?"

"I don't know." Li Yalin said: "The Fei family didn't release any news. They said that the old man was getting old. The board of directors agreed that he was not suitable for the position of the head of the family, but I knew they must take the opportunity to take the old man. Taking advantage of the opportunity of the old man to go to China, the old man was made empty."

Asher snorted: "Old age is nothing but rhetoric, and the waste of the Fei family can't be compared to a 90-year-old old man Fei. The real reason is because Fei also went there. Participated in the auction of magic pill, and he offered a price of 200 billion US dollars. After I was kicked out, he should have successfully auctioned Pill, but his son Zaki cut his way back. It is equivalent to breaking his way of life, based on the physical condition of the old man, I think it will be a year at most."

"Grass..." Li Yalin scolded, "This is so f\*cking stupid! It's clear that I don't want the old man to live too long, and he doesn't want the old man to spend too much money..."

"Yes." Asher nodded and said, "So, Zaki's grandson was kidnapped and asked for a ransom of 200 billion yuan. After I heard the wind, I thought it was very interesting. Good reincarnation?"
