

The Amazing Son In Law Chapter 4891 (The Charismatic Charlie Wade Chapter 4891)

At this moment, in charlie's hand, he was holding a blood-scattering pill.

The diameter of this blood-scattering pill is about one centimeter in diameter. Because it is not as precious as the rejuvenation pill, charlie didn't bother to put it in a wooden box, so he just sealed it with wax paper specially wrapped around food.

Fei Kexin heard that charlie was going to give him a gift, and like a child, he deliberately clenched one hand, palm down, as if it was very mysterious. For a moment, he thought that charlie was joking with himself, so he smiled. He said, "What kind of small gift did Mr. Wade prepare? Could it be a little bug? Let me state in advance that I'm not afraid of bugs."

Boys in childhood always loved to make fun of little girls, and the most common way was to catch them. There is a bug in the palm of the hand, pretending to have a gift for the girl to reach for it.

Fei Kexin also seemed to be playful at this time, while talking, he stretched out his hand and placed it under charlie's clasped hand, then looked at charlie, and asked with a light smile, "Would you like to close it? Eyes?"

charlie smiled slightly, and said indifferently: "No need."

After saying that, the palm of his hand loosened, and the blood-scattering heart-saving pill fell into Fei Kexin's hands.

Fei Kexin felt that it seemed that a ball of paper had fallen into his hands, but it seemed to have more weight than paper, so he looked over curiously and saw that it was a ball wrapped in wax paper. He was stunned for a moment, and then, She then thought of the blood-healing pill that Mia had shown her, which seemed to be wrapped in this wax paper...

At this moment, Fei Kexin felt as if he had been hit hard, and even his scalp started to go numb. The heartbeat is even faster than ever before, as if the adrenaline is soaring at this moment.

Even though the Sanxue Jiuxin Pill was already lying in his palm, Fei Kexin still couldn't believe it.

She looked at Charlie dumbfounded, and asked subconsciously, "Mr. Wade, this... isn't this a blood-scattering pill? Why did you suddenly give me such an expensive gift?"

Charlie looked at her and smiled indifferently: "Since this time, I have really troubled you a lot. This blood-scattering and heart-saving pill is regarded as my little care, and I hope Miss Fei will not dislike it."

Fei Kexin The whole person was a little flattered, and even a little flustered, and said quickly: "Mr. Wade, Kexin's life was saved by you, without you, it is impossible to have Kexin today, what do you have for Kexin today? With such a great kindness, it is right for Kexin to do anything for you..."

After speaking, she hurriedly handed the Sanxuexin Pill to Charlie, and said resolutely, "Mr. Wade The medicinal pill is too precious, but Xin can't have it..."

Charlie pushed the medicinal pill back with a serious expression, put it back into Fei Kexin's hand, and held hers with his own hand, so that she could hold the medicine pill tightly, and said at the same time: "This is a little bit of my heart, you can take it down and keep it close to your body, just in case it is always good."

Said, Charlie again instructed: "If it's not necessary, don't transfer it directly to your grandfather, just leave it for yourself first."

Fei Kexin saw that Charlie's attitude was firm, and he was very moved in his heart, and tears had already filled his heart. Uncontrollably burst out.

Just now, she was still feeling inferior and aggrieved because Charlie treated herself differently from Mia.

Unexpectedly, Charlie gave himself a strong response so quickly.

The elixir in front of her, at this moment, the greatest value to her is not the elixir itself, but the attitude that Charlie released through this elixir.

This elixir let her know that Charlie cared about herself in his heart.

So, all the negative emotions in her heart flowed out with tears at this moment, and the whole person's mood became cloudy and foggy, as if a girl who was just in love had received a love letter from her sweetheart, sweet to her heart.

Seeing that she was crying, charlie quickly said, "Look, how can I make you cry when I gave you a small gift."

As he said that, he handed over a tissue and said, "Quickly wipe your tears, the flight attendant came to see it later, and thought I was bullying you while no one was around."

Fei Kexin couldn't help laughing. Laughing, she took the tissue and wiped away her tears. She joked, "What are you afraid of? Even if you really bullied me, I don't blame you..."

After speaking, she realized that she was joking. It didn't seem appropriate, so he quickly changed the subject, remembering the joke he had made with charlie, so he immediately said very firmly: "Mr. Wade, thank you for this great gift, in return, I will send Patek Philippe and Rolex within a week. These two companies bought them for you..."

charlie quickly waved his hand and said, "Don't, don't!"

Then, he pointed to the Patek Philippe that Mia gave him, and said helplessly, "Just this one. I don't even know what to do with the watch, you still have to send me two watch-making companies, what's the use of them."

Fei Kexin said seriously, "But if you put your blood-rescue pill at auction. At the meeting, at least tens of billions of dollars can be sold at the auction, Ke Xin is really ashamed..."

charlie waved his hand and urged, "KeXin, remember, if it's something I gave you, no matter what it has. How precious or how cheap is just my opinion, you don't need to feel lost because the gift is cheap, and you don't need to feel uneasy because the gift is expensive, you just need to accept it silently, and the rest is not important.

" With these sincere words from charlie, Fei Kexin's heart was touched for a moment and could not be added.

She understood charlie's intentions, and also knew that she must have a place in charlie's heart, so she hurriedly wiped away the tears she couldn't control, nodded solemnly, and choked: "Thank you Mr. Wade , Ke Xin understands!"

charlie hummed, and said again: "Say hello to your grandfather when I go back, and say that I will see him again before I leave the United States."

"Okay!" Fei Kexin hurriedly nodded. Nodding his head, he asked, "Mr. Wade, did you see anything about grandpa? I'll let him prepare in advance!"

charlie shook his head: "No need to prepare, when I see him, I will tell him not to go to next year's Huichundan auction."

Fei Kexin asked in surprise: "Mr. Wade...this... Why is this?"

charlie said seriously: "Your grandfather's desire for longevity is really too strong. If he goes to the auction next year, he will definitely not be able to bear the result of failure, and maybe it will be self-defeating."

Speaking of this, charlie paused slightly, looked at Fei Kexin and continued: "Once he is desperate, and you have too much tolerance and kindness towards him, it is likely to drag the entire Fei family into the abyss, you and the Fei family will treat me I don't want my allies to suffer greatly because of this kind of thing."

Fei Kexin said embarrassedly: "Mr. Wade...Grandpa, he...has always been very clear about himself. He will not listen to persuasion..."

"It doesn't matter." charlie said lightly, "I can't persuade him empty-handed, don't say it's him, even if it's someone else. It's impossible to accept it."

After speaking, charlie paused for a moment, and then said, "The blood-scattering pill that I gave you just now, keep it well, and after I meet your grandfather, I will give him a promise. , let him stop thinking about Huichundan."

Fei Kexin didn't know what was more important to grandfather than Huichundan in this world, so he couldn't help asking: "Mr. Wade, what are you planning to do? What promises are you giving to grandpa?"

charlie said lightly: "As long as he helps you secure your position as the head of the Fei family, he doesn't need to bid for Huichun Dan, and I, charlie, can keep him alive for another ten years!"

The Amazing Son In Law Chapter 4893 (The Charismatic Charlie Wade Chapter 4893)

charlie's words made Fei Kexin tremble.

She knew the weight of charlie's words.

Since charlie said that he would keep grandpa alive for another ten years, he would definitely fulfill his promise.

And basically, this is equivalent to giving grandfather most of the rejuvenation pills.

More importantly, grandpa will live for another ten years, and his only condition is not to ask for money or things, but to let his grandfather assist him and secure the position of the head of the Fei family!

She couldn't help but murmur in her heart: "Mr. Wade did all of this... all of them paved the way for me..."

Thinking of this, she looked at charlie with tears in her eyes, and said gratefully, "Mr. Wade... Thank you for helping Kexin. All this I have done... I swear that in the future, the Fei family will always advance and retreat with Mr. Wade, and will definitely become the most solid and reliable ally by Mr. Wade's side, no one!"

charlie nodded and said seriously: "Actually, in the public world, whether it's my assets or the Fei family's assets, they can be considered to be the pinnacles, but if we really want to open up the upper world, our strength is probably just enough to be a stepping stone.

Those who are knowledgeable can enjoy a lifetime of prosperity and wealth, but those who are not knowledgeable will likely face unexpected dangers if they rush up."

Fei Kexin asked inexplicably, "Mr. Wade, why do you think so? I know that although there are many unknown wealthy families all over the world, with the strength of the Fei family, I dare not say that they can rank among the top five in the world, but there is absolutely no problem with the top ten. Your current asset level may not be enough. Under the Fei family, there are only few people who are stronger than us."

charlie shook his head gently, staring at the sky full of stars at a height of 10,000 meters outside the window, and sighed softly: "Our cognition is limited by our horizons. I used to think that the richest family in the world is the Rothschild, and its scale may be 10 trillion or 20 trillion. However, the incident of the attack on my grandfather's family suddenly made me realize So, this world may be different from what I have always known before."

Fei Kexin hurriedly asked: "You mean, there are more powerful existences in this world than the Rothschild family?"

charlie smiled slightly, instead of answering her question, he asked her: "Do you think we should use What is the measure of the strength of a family or an organization?"

Fei Kexin thought about it and said seriously: "Manpower, material

Let's consider both financial resources and financial resources, but financial resources should be the most important.

charlie nodded: "I used to think that financial resources are the most important. After all, the rankings of world companies and the rich are all measured by money . Speaking of

this, charlie suddenly changed his tone and said seriously: "However, I suddenly thought about a question, if a family, the money for them has already been so much that there is no other meaning other than numbers. , what will they continue to do? "

Fei Kexin asked blankly: "Mr. Wade, what do you mean?" charlie said, "

Look, these rich people or wealthy families we usually meet, their favorite thing to do is money to make money, just like Jews, they are born to make money, and they are born to use it." Money makes more money, which leads them to spend it only where it adds value and brings greater wealth, so they are completely blinded by money. Speaking of

this, charlie said again: "If a family has already seen through too much money, it's just a numbers game, so the money is really spent in the direction of pure consumption, or it can't be used at all. Where the specific value is reflected, what will it bring? "

The Amazing Son In Law Chapter 4894 (The Charismatic Charlie Wade Chapter 4894)

Pure consumption..." Fei Kexin frowned and thought about it, still a little puzzled, and said embarrassingly: "Mr. Wade, I still don't understand it very well, can you explain more?" charlie said seriously: "

The simplest example, the Rothschild family's assets of more than ten trillion US dollars are all placed in industries that can reflect value, such as investing in stones and mines; investing in Fortune 500 companies. Listed companies, or directly set up banks, through banks to lend money to other companies in exchange for high interest or even equity;"

"Even if the money is spent, it can still be counted on its own head, it is nothing more than a form of conversion of assets. For example, I have 100 million US dollars in cash, and then spent 50 million US dollars to buy a luxury house in New York, and then turned my total assets into 50 million in cash and 50 million in fixed assets..."

"Or, I would exchange \$20 million for a house, \$20 million for stocks, \$20 million for a 20 percent ownership of an oil well, \$20 million for a painting by a famous painter, and then I left 20 million in cash as working capital, so that although I spent 80 million dollars, I actually just held it in a different form, and it may even continue to increase in value in the future

When it came to this, charlie changed the subject and said, "But if I use 80 million of the 100 million US dollars to cultivate a group of people What about the unknown dead man? The 80 million US dollars has been converted into combat power, who can know? Others will measure my assets and think that I only have 20 million US dollars, but if I want, I will spend these A dead man made of 80 million US dollars can easily kill ten so-called rich people with assets of 100 million US dollars."

Hearing this, Fei Kexin thought of what happened to charlie's grandfather and grandmother's family some time ago, and suddenly realized something , said in horror: "Mr.

Wade, I understand what you mean... You mean, there may be some top families who have already surpassed the stage of accumulating money to show their strength. On the contrary, they may have converted a huge amount of funds into Become an unexpectedly powerful fighting force?"

"Yes." charlie nodded: "This is a bottomless concept, just like me, in the past few months, I have directly and indirectly invested in Wanlong Palace. The funds on my body have far exceeded 10 billion;"

"This money is not even in my hands at all, and the combat power formed by the Wanlong Palace will not be converted into worth for ranking the rich list;"

"If there is more In the next few years, I have invested more than 100 billion, or even trillions of funds in Wanlong Hall, or other similar organizations, but my own verifiable assets are only 100 billion. In the eyes of others, I may also He is a billionaire, but my real strength is probably incomparable to a trillionaire."

Speaking of which, charlie added: "The mysterious organization that assassinated my grandfather's family may have trained two or three hundred soldiers alone. Years, and they have cultivated an unknown number of dead soldiers all over the world."

"The investment in the dead soldiers in the past two or three hundred years is definitely an extremely terrifying astronomical figure!"

"But these numbers are also Can't be included in the rich list."

"Maybe the funds they have invested in combat effectiveness over the past few hundred years, converted into the purchasing power of today's US dollars, may be higher than the total assets of the entire Rothschild family, so if you only look at assets, perhaps even this family Even the tip of the iceberg cannot be discovered."

"What is the so-called famous Rothschild family in the face of such an invisible giant? When this mysterious organization doesn't want to move him, he is the number one family in the world; When he was with him, he was the No. 1 injustice in the world!"
