In the eyes of most people, wealth is a symbol of strength, but charlie has never taken money in his eyes.

Facts have also proved to him countless times that money is not everything at all times.

For example, Jian, what if he is worth trillions? Still have to rush to spend more than 200 billion US dollars to buy a rejuvenation pill.

Even his eldest uncle, Asher, was willing to pay more than 300 billion US dollars in exchange for a mere rejuvenation pill.

In theory, as long as charlie is willing, he can use the rejuvenation pill to collect all the wealth of the rich and old in the world.

In that case, his wealth might soon surpass his grandfather's family, surpass the Saudi royal family, and even surpass the Rothschild family.

However, when Stephen Thompson gave him 10 billion, he didn't know how to spend it. What if he had more money than the Rothschild family?

Selling rejuvenation pills without restraint will definitely push you to the forefront, and the extra money you make will not only bring you no real use, but will attract a lot of coveting and peeping.

Therefore, in charlie's view, the most important thing for him in the next step is not to find ways to make more money, but to do more accumulation of strength other than wealth.

Only in this way can we accumulate enough power to deal with those unknown behemoths.

At this time, Fei Kexin, who was beside him, finally understood what charlie was really concerned about.

So, she said to charlie very resolutely: "Mr. Wade, don't worry, no matter what kind of opponent you will face in the future, as long as I'm still in the Fei family, the Fei family will definitely be by your side, advancing and retreating with you!"

charlie nodded lightly and smiled indifferently: "To advance and retreat together... Maybe it's to go to a disaster together; or to share a wealth and honor, I hope I can live up to your trust."

Fei Kexin said without hesitation: "Mr. Wade, I believe in your strength. With your blessing, the Fei family will definitely get a monstrous wealth!"

charlie smiled noncommittally, and then pointed to her hand. He said seriously: "Your grandfather is a good person, he must know that you made a special trip to Hong Kong Island to help me, and I will definitely not say no, so after you go back, you must not let him know that I gave it to me. You have a blood-saving pill, if he asks about you, you can say that when I see him, you will show something to the Fei family."

Fei Kexin did not expect charlie to think so thoughtfully, and said gratefully and respectfully : "Okay, Mr. Wade, Kexin will follow your orders!"

After

twelve hours of flight, Fei Kexin's Boeing 747 finally landed in the United States

Providence Airport.

charlie declined Fei Kexin's request to get off the plane to see him off. He got off the plane alone, and after watching Fei Kexin's plane take off again and headed to New York, he went through customs alone.

Since Fei Kexin's plane is super VIP treatment at all airports in the United States, charlie, a passenger who took a drop-in plane, also received VIP treatment at the airport.

Every airport has one or more convoys of state guests. When there are major diplomatic activities, they provide free escort services for dignitaries of various countries, while at other times, they are operated commercially, and as long as they can afford the money, they can be hired as escorts Serve yourself.

charlie didn't want to be too ostentatious, so he took the initiative to ask the state guest team to reduce the eight cars to one Cadillac.

In this way, it seems a lot more low-key.

When he came back this time, charlie didn't tell Claire in advance.

The main reason is that charlie is very aware of Claire's character. If she tells her the exact return time, she will definitely drive to the airport to meet her. On the one hand, charlie doesn't want to toss her, and on the other hand, she is worried that Claire will come to the airport to meet her. Opportunity to reveal.

After all, the flight number of a private jet will not appear on the big screen at the airport.

## The Amazing Son In Law Chapter 4896 ( The Charismatic Charlie Wade Chapter 4896 )

When the full-size Cadillac off-road vehicle brought charlie to the Hilton Hotel, it was already 8 pm local time.

The driver first removed two huge suitcases from the trunk. These two boxes were Hong Kong Island specialties prepared for him by Lau Ka Fai.

Afterwards, the driver took out a small 20-inch suitcase, which was charlie's own carry-on luggage.

The Patek Philippe that Mia gave him was also put into this box by him.

Seeing that he had three large suitcases, the hotel's luggage student quickly pushed the luggage cart, put all three of charlie's suitcases on it, and followed charlie to the top floor of the Hilton Hotel.

At this time, Claire had just had dinner with Elaine.

In the past few days since Elaine came to the United States, he has become familiar with the city of Providence. Not only can he go out for a walk and go shopping by himself, but he

even met many Chinese women living in the local area, and he quickly became acquainted with them.

In just a few days, Elaine has joined a number of organizations. First, she joined a square dance group organized by a group of old ladies. Every night, she went to the downtown park to dance with them in the Phoenix Legend, and then joined a group composed of Chinese people. The runaway team, composed of men and women in 2000, wore the same tracksuit every day, shouting slogans and running wild on the streets of Providence.

Elaine also arranged a timetable for herself, saying that she would dance on Monday, Wednesday, and Friday nights, run wild on Tuesday, 4th, and 6th night, and stay at the hotel on Sunday to rest and enjoy

of life.

Tonight, it just happened to be the day to check in with the Rampage team.

After eating, Elaine wiped his mouth and said to Claire: "Claire, Mom is going to change clothes and go to the runaway team, do you want to come with me?"

"I don't want to..." Claire shook his head and said: "The presidential suite that charlie set up has a mini gym. If you want to walk or run, you don't need to go to the street to form a group, right?"

"What do you know." Elaine said seriously: "Your mother, I mainly In order to socialize, I'm new here, and I don't know anyone except you and charlie. As a result, you have to go to class every day, and charlie goes out to show people Feng Shui. I always stay in such a big presidential suite by myself. It's weird that you're panicking. You still have to stay here for more than half a month. If I don't meet a few more friends, I'll be bored to death in the future? Anyway, in Aurous Hill, there is a souna every day, Sister Lan. , Sister Elaine is short, when I got here, I didn't have anyone I knew, it was really boring..."

Claire said helplessly: "Mom, you've only been here for a few days, so soon you start to think it's boring... I knew it earlier. In this case, then you might as well live in Aurous Hill..."

Elaine lost the immortal life of living in a luxury house and driving a luxury car because he came to Providence. He also held back his resentment and blurted out subconsciously: "I think so!"

Claire asked in surprise: "Mom, what do you mean? Do you really want to go back to Aurous Hill?"

Elaine panicked, and quickly changed her words with a serious face: "Who said that? I didn't mean that! I came to the United States to find you because I missed you. If I go back, wouldn't I be alone again?"

In fact, what Elaine thought was: "I don't want to go back when you are your mother. The key is that my pocket is cleaner than my face now. If I go back, let alone buying a plane ticket, I don't have any money to take a taxi to the airport. Besides, even if you and Charlie bought me a plane ticket back, I won't have any money after landing. Eat, let alone fuel that Cullinan..."

Claire didn't suspect him, so he said seriously: "Mom, if you want to live with us in the United States, don't always say it's boring here. The more you talk, the more you think about it, and the more unhappy you will be."

"Yes, yes..." Elaine said bravely: "You're right, Mom knows!"

After speaking, she quickly changed the subject and said, "Mom won't tell you, it's time to change clothes and go to the Rampage team to gather. It's over."

Just when Elaine wanted to go back to his room to change clothes, the door suddenly remembered the doorbell.

Elaine said with some dissatisfaction: "Didn't you open Do Not Disturb? Why are you still knocking on the door? It's really annoying!"

After speaking, he came to the door scoldingly...
