

The Amazing Son In Law Chapter 5059

Hearing charlie's invitation, Isaac Cameron and Don Albert nodded quickly, and then followed him and Xion on the plane.

As soon as he got on the plane, charlie said to the three of them: "You sit first, I'll go inside and make a call."

The cabin of this Concord Technology is divided into four parts, in addition to the cockpit and the working area of the crew , The cabin is divided into seating area, office area and rest area from front to back.

The seating area is full of large first-class seats, which can seat thirty people, the office area has a conference room, an office, and the lounge area is a double suite.

After charlie greeted the three, he went to the back office first, and the first thing he did after sitting down in the office was to call Fei Kexin first.

After Fei Kexin received the call, she respectfully asked, "Mr. Wade, what are your orders?"

charlie said, "Miss Fei, I will send you a list of medicinal herbs in a moment, and you can hurry up and prepare it for me in New York. , if you can get it all together, it's the best, if you can't get it all together, you can tell me in time which medicine is missing, and I will have it shipped from China."

"No problem." Fei Kexin hurriedly said: "Mr. Wade, here in New York. There are many Chinese, and there are also many well-known Chinese medicine practitioners. The business of Chinese medicine and medicinal materials is also quite large, and I believe that I can gather what you need."

charlie hummed and said, "Then I will send you the list later, Thank you for your hard work."

"Mr. Wade is very polite, it is Kexin's honor to serve you."

Fei Kexin then asked: "By the way, Mr. Wade, when will you return to New York?"

charlie said, "My The plane is about to take off, and it should be there in two hours."

Fei Kexin said hurriedly, "Then I'll pick you up at the airport!"

charlie didn't plan to stay at Fei's house tonight. In addition, Isaac Cameron and Don Albert were both by his side, so he planned to stay at the Shangri-La Hotel in New York.

So, he said to Fei Kexin: "Miss Fei, don't bother, I'm going to Shangri-La tonight. Prepare the medicinal materials from your side and go to Shangri-La to find me directly."

Although Fei Kexin was a little disappointed, she was still very refreshing. Agreed: "Okay, Mr. Wade, please send me the list, and I will prepare it as soon as possible."

charlie then sent Fei Kexin the list of medicinal materials needed to refine the Reshaping Pill.

Although the medicinal materials required for this are very valuable, at least they are not as rare as the phoenix vine.

With the phoenix vine, it should not be too difficult to match other materials.

Once the materials are ready, charlie will be able to directly refine and reshape the Dan in New York.

At that time, after Dancheng is completed, Kairi, Ito Yuhiko, and Tanaka Koji can all fly to New York to solve the problems of these people at one time.

Thinking of Takehiko Ito, Charlie couldn't help but think of Nanako Ito.

He and this gentle and watery Yamato Nadeko have not seen each other for some days.

Although he didn't want to admit it, charlie knew in his heart that he had always missed her.

If Ito Takehiko comes to the United States, Ito Nanako will definitely be with her, and she will be able to meet her at that time.

However, charlie didn't think anything wrong, he just subconsciously hoped to take this opportunity to meet her.

Later, charlie was afraid that his wife Claire was worried about Elaine, so he picked up the phone again and called her.

After the phone call, Claire asked, "Husband, where are you now?"

charlie said, "I flew out of town to help my mother find a relationship, and now I am going back to New York, and my mother has contacted you in the past two days. Is it?"

"Contacted." Claire sighed and said, "Husband, I was just about to call you to tell you about this, Mom just called me ten minutes ago, you know her What did she say to me on the phone?"

The Amazing Son In Law Chapter 5060

charlie, I have guessed something, but I still pretended to be curious and asked: "What did Mom say?"

Claire said helplessly: "Mom told me on the phone that she is living a very GOOD life in prison now. Well, she wanted to call you, but your call never got through, so she called me and asked me to tell you that she is not in a hurry to come out right now, so please don't take her out of it too quickly Get it out...what else to say, as long as she can make it back to China with us, if it's really not possible, she can go back by herself after she is released from prison..." After speaking

, Claire asked nervously: "Husband, don't you think my mother is stunned? Why did she become addicted to going to prison, and said she didn't want to come out too soon..."

charlie sneered and thought to himself, "My stupid wife. , you have to know that your mother is a ghost in Bedford Mountain now, I guess you can understand why she doesn't want to come out..."

But charlie didn't say much, just comforted: "Wife, I guess Mom didn't want us to worry, so she said that."

Claire said seriously: "My mom is not the kind of person who thinks about others. There are only two possibilities for her not wanting to come out. One is that she was coerced, and the other One is that she lived very comfortably in it."

charlie sighed in his heart: "It really is her mother, Mo Ruonv," and said with relief: "Don't worry, the prison is not a place outside the law, and there should be no coercion. Hers, as for the second possibility you mentioned, I think this may be the case. Maybe I made new friends in it, or maybe I want to experience life in it, and I also asked customers in New York to help After looking for a relationship, I guess I can take care of her in there."

Claire said helplessly: "To be honest, I heard her tone on the phone at that time didn't seem like she was being coerced, her tone was weird, It seems to be very happy, but I don't want me to hear it, so I deliberately restrained... I really don't understand..."

charlie smiled: "Good wife, if you don't understand, don't think so much, since Mom can If I tell you that, then there must be no trouble, and it should be fine."

"Well..." Claire sighed and said helplessly, "I can't do anything about her either, I just have to work hard for you and find a way to rescue her."

charlie smiled and said, "It's not hard, as long as Mom is fine, nothing else matters."

After saying that, when charlie saw the seat belt warning light in the office lit up, he said to Claire, "Wife, the plane is about to take off, and I have to return to New York overnight. I won't tell you first, you take care of yourself these days, take classes well, and don't worry about the rest."

"Okay..." Claire instructed: "Then husband, you must also pay attention to rest, don't be tired. Let's go." The

two of them asked each other for a while before hanging up the phone.

Immediately afterwards, the thrust of the aircraft was fully turned on, and after taxiing for a certain distance on the runway, it rose into the air and disappeared into the night.

The flight, which originally took at least five or six hours to fly, landed at JFK Airport in New York in just two hours.

The convoy of Shangri-La Hotel was already waiting at the airport. After charlie and everyone completed the customs formalities from the VIP channel, they took the concierge convoy of Shangri-La directly to the hotel.

When he was about to arrive at the hotel, Fei Kexin called and said to charlie, "Mr. Wade, you have all the herbs on your list. I'll send you to the hotel now?"

charlie didn't expect Fei Kexin's The efficiency is so fast, after all, it only took more than two hours, and it was a big night.

However, charlie didn't ask much. Fei Kexin is now the head of the Fei family, and he is also a householder in New York. Naturally, the relationship channel is deeply rooted.

So charlie said, "Then let's meet at the hotel!"

When the convoy arrived at the Shangri-La Hotel, Fei Kexin had been waiting here for a long time.

jay was also beside her, and jay was carrying two huge suitcases. Inside, there were the medicinal materials that Fei Kexin prepared for charlie.

As soon as charlie got out of the car, Fei Kexin stepped forward and was about to speak, when he saw Xion walking out of the car door next to him, he couldn't help being a little surprised.

Immediately afterwards, Isaac Cameron and Don Albert got out of the car behind, and Fei Kexin was even more puzzled. She naturally knew and saw these two people in Aurous Hill, but she didn't expect Charlie to call them to the United States too. Come.

However, she quickly returned to normal, and respectfully said to Charlie: "Mr. Wade, everything you want is ready."

After saying that, she pointed to the box in Jay's hand, and said, "I'm afraid you won't have enough, so on the basis of your request, I have prepared one more."

"Okay!" Charlie nodded: "Miss Fei is here." After

speaking, Charlie said again: "Miss Fei, what is the situation with that Li Yalin? How's it going?"

Fei Kexin said hurriedly: "It has been frozen in the freezing center, and the state after freezing is very stable."

"Okay." Charlie nodded and said, "I need to arrange a time for the hard work, I want to go tomorrow. Take a look at him."

Fei Kexin agreed without hesitation, and asked, "What time Mr. Wade wants to go, I will arrange it in advance. The freezing center is in the suburbs of New York, you can take a helicopter and get there in half an hour."

"I am confident in refining the remodeling pill, but I am not sure when it will be successful."

So he said, "I'm not sure about the time yet. If you're busy, you can arrange for someone you can trust to connect with President Isaac. You should know Mr. Isaac, right?"

Fei Kexin nodded and said hello to Isaac Cameron, said with a smile: "Mr. Isaac, hello."

After speaking, he looked at Don Albert again and said with a smile: "Hello, Mr. Albert."

Isaac Cameron and Don Albert had long known Fei Kexin's true identity and that she was now the head of the entire Fei family, so they were somewhat restrained, and they quickly nodded politely to say hello, and said together, "Hello, Miss Fei!"

"Ke Xin said to Charlie again at this time: "Mr. Wade, I will go to the Ice Cave Center tomorrow, then I will not arrange anything else tomorrow. You can call me in advance and I will come to pick you up directly by helicopter. "

Alright.” charlie was not polite to Fei Kexin, but readily agreed, thinking that he would hurry up to make alchemy, he said to Fei Kexin, “Miss Fei, I still have some things to deal with today, so I won’t accompany you more.” Well , let’s meet tomorrow about other matters, you have to make a special trip.”

Fei Kexin respectfully said: “Mr. Wade, don’t be polite, since this is the case, then Kexin will not disturb Mr. Wade.”

After that, she said to jay. : “Master jay, give Mr. Wade what Mr. Wade asked for.”

jay stepped forward with the box, Isaac Cameron and Don Albert were going to pick it up, but Xion, who was faster, took the lead.

Xion didn’t want to be courteous in front of charlie, but she had already regarded herself as charlie’s dead soldier and was loyal to charlie, so she instinctively stepped forward and took things over.

Since charlie had asked Isaac Cameron to arrange the room here in advance, after saying goodbye to Fei Kexin and jay, he said to Isaac Cameron: “Old isaac, you live in the same room with Don Albert, and Xion goes to the presidential suite with me. “

As soon as charlie said these words, Xion, Isaac Cameron and Don Albert were all a little surprised.

Xion’s cheeks instantly became flushed, and Isaac Cameron and Don Albert had a sense of clarity on their faces, as if they had realized something.

How could charlie not see the wretchedness on the faces of these two people, so he said sternly: “I asked Miss Fei to prepare some medicinal materials for me, and I will make some medicinal herbs tonight, if Li is among the three of you , the strongest, she follows me, and can help in time if you need anything.”

The Amazing Son In Law Chapter 5062

For charlie, refining higher-level medicinal pills is a big challenge.

The higher the level of medicinal pills, the greater the loss of spiritual energy during refining, and the more dangerous the refining process.

If there is a deviation in the middle, it will fall short in the light, and it will devour itself in the heavy.

Although Xion can’t help with alchemy, she is the strongest among them. With her there, at least she can help charlie avoid external interference as much as possible, which is an extra layer of protection.

The two of them suddenly realized, and then they couldn't help showing some regretful expressions, and Xion also appeared a little ashamed at this moment of his own thoughts.

Then the four came to the top floor, and Charlie took Xion to the presidential suite, instructing Xion to close the doors and windows and the curtains tightly, and then said to Xion: "Xion, I will be in the main room later. Refining the medicine, don't let anyone in before I come out."

Xion nodded and asked him, "Mr. Wade, is there anything else Xion needs to do?"

Charlie smiled slightly: "No, no. Just don't let people come in and disturb you."

Xion said without hesitation: "Okay, Mr. Wade, Xion is guarding at the door."

Charlie suddenly remembered something, and asked, "Xion, how does a four-star warrior feel? What?"

Xion still couldn't hide her excitement when she mentioned the four-star warrior, she said respectfully: "Mr. Wade, Xion... Xion has not had time to feel... It feels like a dream... Grandpa has been looking forward to it all his life. , I only hoped to become a four-star warrior, but I was only in my twenties, and I have already reached this state... It's really... I can't believe it. I've been in a trance all the way, and I may not be in a while. It 's very adaptable."

Charlie nodded and smiled: "Since it's hard to adapt to this time, I'll save you some trouble."

Xion asked in surprise, "Mr. Wade, what did you say? What do you mean? If you don't understand..."

Charlie smiled lightly and said, "I'll teach you how to adapt more quickly."

After speaking, Charlie said again: "Come on, close your eyes first and take a few deep breaths."

Xion obeyed, closed his eyes and took deep breaths very seriously.

At this time, Charlie urged: "The efficiency of ventilation should be faster, and you can use your mouth to assist breathing."

Xion immediately did as instructed, opened her mouth, and tried her best to improve the efficiency of exhalation and inhalation.

Suddenly, she felt that something the size of a marble was thrown into her mouth. She opened her eyes subconsciously, and before she had time to speak, she felt that

the thing in her mouth instantly turned into a warm current and quickly merged into her dantian.

She was shocked and couldn't help but look at charlie, and asked in horror, "Mr. Wade...you...Did you give me a medicinal pill?!"

charlie nodded and said lightly, "Yes. A blood-relieving pill, this pill can help you quickly break through to five stars, haven't you been used to breaking through to four stars, so just adapt to four stars and five stars together."

Xion was dumbfounded, she was dreaming. Unexpectedly, what charlie just said to save himself something, turned out to be what he meant.

Just when she was so overwhelmed that she was so frightened that she didn't know what to do, or even what to say, charlie said lightly, "I'm going to make medicine, hurry up to absorb and digest the power of the medicine, at most ten. In minutes, you will be able to break through the fifth meridian." After that, without

waiting for Xion to respond, he turned around with the herbs and entered the bedroom, leaving Xion with the pestle motionless and distraught...
