

The Amazing Son In Law Chapter 5079

Ofcourse charlie knew Li Yalin's style of conduct. As long as he wakes up again, as long as he still retains his previous memories, he will definitely do his best to investigate what happened before.

For example, who killed the scumbag Jamura of the Fei family; another example, who wanted to destroy the entire An family.

Therefore, in charlie's opinion, he might as well take this opportunity to have a good chat with Li Yalin.

Let him know who he is, let him know that he killed Jamura, and let him know that he saved him and the whole family.

If this person knows good and bad, and knows how to advance and retreat, then he will definitely be able to use it for himself in the future.

But if this person doesn't know what's good or bad and doesn't know how to advance or retreat, just wipe his memory, make him unconscious, and throw him on the streets of New York.

In that case, at least he saved his life. After making up his mind, he said to Fei Kexin, "Miss Fei, let someone drain the liquid nitrogen in the freezing tank and put Li Yalin in warm water.

"I'll take care of the rest." "Okay. Mr. Wade!" Although Fei Kexin didn't know how charlie planned to save Li Yalin, she had blind worship and trust in charlie, so she said to charlie, "Mr. Wade, for the sake of confidentiality, you and Miss xion, Mr. isaac, Mr. don go to the next door and wait for a while, I will arrange for someone to come over to thaw him, and then I will invite you after the thawing is complete.

" charlie nodded, and he naturally knew the matter of rescuing Li Yalin by himself. Less is better. The people in front of them are absolutely credible, but the credibility of the staff is still difficult to guarantee, and Fei Kexin's arrangements can be considered cautious.

So, charlie came to the lounge next door with Xion, Isaac Cameron, and Don Albert.

And Fei Kexin, without hesitation, called the person in charge of the freezing center and asked him to immediately drain all the liquid nitrogen in the freezing tank No. 7. When the person in charge of the freezing center heard this request, his face turned pale with fright, and he explained: "Miss Fei, the human body is still in a one-way channel state.

We can freeze people safely, but I don't know. How to thaw people safely, once the liquid nitrogen is emptied, I am afraid it will cause irreversible damage to the people in the freezing tank...

" Fei Kexin said with a firm expression: "You don't have to worry about this, you just need to drain the liquid nitrogen.

Clean, and then put the person in warm water to thaw." The person in charge was dizzy and blurted out: "Miss Fei... This... This is not just taking a piece of frozen meat from the refrigerator and thawing it in warm water.

It's simple... Fei Kexin said lightly: "You just need to do as instructed. "The person in charge was helpless and could only agree.

Then, the staff shut down the liquid nitrogen circulation device of the No. 7 tank, and then emptied all the liquid nitrogen in the tank with pressure facilities.

Immediately afterwards, four people wearing The staff in the antifreeze suit took Li Yalin's stiff body, which was nearly minus 200 degrees below zero, out of the freezing tank.

At the same time, another batch of staff had already prepared a pool of warm clean water in the dedicated sterile cleaning pool.

When Li Yalin was sent over, he completed the cleaning of his body here, and was then put on by the staff.

After wearing a special freezing suit, and after two days and two nights to cool down, the body was gradually lowered to an extreme low temperature of minus 200 degrees Celsius.

However, none of these staff would have thought that now they would use this simple and rude method to thaw Li Yalin.

Since Li Yalin is an ice lump of minus 200 degrees Celsius, the warm water in the full pool cooled down rapidly the moment he entered.

The Amazing Son In Law Chapter 5080

The staff quickly turned on the circulation pump and let the heating device circulate the water in the pool to maintain the water temperature of 40 degrees Celsius.

The rough thawing method soon showed great drawbacks.

As soon as Li Yalin's skin started to thaw, it immediately began to seep blood, like a piece of beef that had just been thawed.

The liquid in the cells began to seep out because of the rupture of the cells, which was mixed with blood and body fluids.

The person in charge covered his face in horror and said, "Miss Fei...this...this is basically irreversible damage..."

" Fei Kexin was also shocked, but she said calmly: "Okay, It's none of your business here, let's all leave."

" Everyone look at me, I look at you, and in the end the person in charge took the lead, he turned his heart and said, "Miss Fei, then we'll go out first, If you have any needs, please contact us in time."

" Fei Kexin nodded and watched the staff leave the scene one by one.

She was going to call charlie, but she didn't think that charlie had already walked out of the lounge.

Fei Kexin looked at Li Yalin, who was soaked in a pool of blood, and said nervously to charlie: "Mr. Wade... Li Yalin's situation may not be optimistic..."

" charlie said lightly: "Don't worry, as long as his There is no problem with the brain."

" The reason why charlie so rudely requested to freeze Li Yalin directly with warm water is in the final analysis because of the indiscriminate repair ability of the remodeling Dan.

For Reshaping Dan, all the organs and tissues of the human body, only the brain and the memory in the brain cannot be repaired, and the rest are not a problem.

And Li Yalin's brain has always been protected by charlie's spiritual energy, so even if he suffers serious damage to his cells and body during the thawing process, it doesn't matter at all.

After all, his body has already been beaten into a sieve, even if there is more damage, it doesn't matter, and it will be directly handed over to Reshaping Dan to solve it together.

If it wasn't for the concern that the entire frozen center would be filled with the smell of stewed meat, charlie could not wait for someone to use 10000000000000000000 of boiled water to thaw him quickly.

As it is now, I have to wait patiently for him to thaw.

About an hour later, the continuous circulation of warm water finally made Li Yalin's stiff body gradually warm up.

Fei Kexin remembered something at this time, and said quickly, "Mr. Wade, the blood in Li Yalin's body was emptied before freezing, and all of it was replaced with After the cryogenic protection solution, this...

will it have any effect? Do I need to prepare suitable plasma in advance?" "No." charlie, like a liar, waved his hand carelessly and said, "These are all trivial matters, take it.

Coming down is the moment to witness the miracle.

" After speaking, he stepped in front of Li Yalin, turned on the drain switch of the pool, drained all the warm water in the pool, and then took out a remodeling pill from his pocket.

charlie couldn't help but put the reshaping pill in his hand and looked at it for a moment, and sighed in his heart: "I never dreamed that the most precious medicinal pill I have refined so far, the first one to save life, turned out to be this one that has been in Investigate me, the American police who want to catch me.

" "If it weren't for the fact that you died because of the settlement, I really don't want to waste such a precious medicinal pill on you, just to help my grandparents.

A family, give you a favor!" Thinking of this, charlie sighed, squeezed Li Yalin's mouth, and put the golden remodeling pill into his mouth...

The Amazing Son In Law Chapter 5081

The moment the reshaping pill was put into Li Yalin's mouth, charlie could feel that Li Yalin's body was almost enveloped by a strong spiritual energy.

Then, this aura began to reshape his body.

Although Li Yalin's body was wrapped in a special frozen suit, and he couldn't see the changes in the frozen suit, charlie could feel that Li Yalin's body full of holes was reorganizing at an incredible speed at this time.

The first organ that Li Yalin recovered was the heart. His heart, which was almost shattered, had completely recovered, and then it started beating again.

However, at this time, there was no blood in the blood vessels in his body, and all of them were replaced by cryoprotective fluid.

However, under the influence of the Reshaping Pill, the hematopoietic organs in his body have begun to recover one by one, and then a large amount of fresh blood is continuously produced, and the original cryogenic protection solution is directly discharged by the pressure of the fresh blood. in vivo.

Then, his body began to recover its own temperature, and at the same time, all his body surface wounds began to heal in the fastest time.

Others couldn't see Li Yalin's change, they just found that Li Yalin's complexion seemed to have changed from pale to slightly bloody.

But Charlie saw all the changes in Li Yalin, and couldn't help sighing in his heart: "Reshaping Dan is really worthy of the word reshaping, just like a glass that fell from a height and was shattered, if only glue back every piece of glass as it is, then this can never be regarded as remodeling, only if it is completely restored to the way it was before it was broken, you have a crack, and there is no trace, can it be regarded as remodeling!"

"The broken part can be repaired for you, and the lost part can be regrown for you. This kind of medicine pill is really overbearing!"

At this time, Li Yalin's body organs, limbs, and even blood had returned to the level of complete health. As the blood continued to replenish until it reached the normal blood volume, his heartbeat became stronger and stronger.

At the same time, he gradually regained the ability to breathe on his own.

Others have been able to see the rise and fall of his chest with the naked eye.

Fei Kexin's whole body was like five thunders, and she said in horror: "Mr. Wade... Li... Li Yalin is really alive?!"

Charlie nodded and said lightly, "It's almost time to wake up."

As soon as the words fell, Li Yalin slowly opened his eyes!

Fei Kexin took a step back subconsciously at this time, her heart still racing like a thousand horses.

Although she guessed that Charlie must have a way to save Li Yalin, she didn't expect that Li Yalin could wake up in such a short time with just one pill!

You know, this person stayed in the low temperature of nearly minus 200 degrees for many days, not to mention resuscitating him, it took several hours to thaw him, and he even said that he was alive if he survived?!

Don Albert's feeling was even more shocked. He couldn't help but blurt out and exclaimed: "F*ck... alive? That big icicle just now, so f*cking alive?!"

Li Yalin was still blinking his eyes at this time, because his optic nerve couldn't adapt to the strong light immediately, his eyes only felt white, and he couldn't see anything clearly.

To Li Yalin, it was like a never-ending dream.

If you tell him that he has had this dream for 100 years, he will not have any doubts, because that dream is really too long.

In this dream, his consciousness became more and more chaotic.

He felt more and more, as if he had fallen into the world framed in the movie "Inception", falling continuously in multiple dreams, and the more he fell, the farther he was from waking up.

Moreover, the more you fall, the more blurred the sense of time is, as if the time axis is constantly expanding, a day in a coma, under that chaotic sense, seems to be no longer a day, not just a year, but a Century is so long.

What he didn't know was that in the extremely deep freeze, although his brain still maintained its vitality, it also entered an extremely slow metabolic state due to the extremely low temperature.

Freezing itself is lengthening the timeline of his body.

The human body in this situation is like a piece of meat. If it is not frozen, it will spoil for up to three days, but if it is frozen at a very low temperature, it will not be possible for three years, thirty years, or even three hundred years. Bad.

The Amazing Son In Law Chapter 5082

It was this infinitely elongated timeline that made his consciousness approach chaos.

Although he opened his eyes at this moment, he still felt as if he was still in that never-ending sleep.

But at this moment, he suddenly heard a man's voice: "Li Yalin, can you see me clearly now?"

Hearing this voice, Li Yalin was shocked.

It's strange that no sound has appeared in his dreams for so long.

Even dreaming of his wife and daughter, or his deceased father, the picture is like an early pantomime movie with no sound and only pictures.

And this was the first time he heard a voice, a real voice.

However, this voice was very unfamiliar to him.

What's even more strange is that although the voice is unfamiliar, there seems to be some indescribable familiarity in the strangeness.

He couldn't help but murmured in his heart: "I must... somewhere... heard this voice..."

"It's just... it's been too long... all of a sudden... I can't remember..."

But at this time, his vision began to gradually recover.

In front of him, it is no longer a pale bright.

He could already see the towering stainless steel tanks, which looked eerie and eerie.

After that, his vision began to become clearer and clearer, as if the foggy glass in the bathroom was suddenly blown by the hot air of the hair dryer.

At this time, he was surprised to find that he was lying in a pool that was bigger than the bathtub.

And on the edge of the pool, there is still a person standing!

He fixed his eyes on it, and suddenly his whole body trembled with fright!

At this moment, a large number of memories that had gone away began to return at the speed of light.

The first memory when he came back was when he left the stadium and was about to meet his wife and daughter, but he was killed by a group of gangsters when he arrived at the elevator entrance.

Immediately afterwards, the memory begins to rewind back from this moment.

He remembered his conversation with the An family, his annoyance when he was forced to retire early, and many murders including Jamura...

Then, he suddenly remembered charlie's handsome face.

Immediately, he stared at charlie in astonishment, and blurted out: "It's you! I remember you! You are the staff member next to that female star! What is the name of that female star... Oh right! Stefanie sun! It's Stefanie sun! Jamura disappeared because of her! I remembered it! The day Jamura disappeared, you were with that Stefanie sun!"

charlie nodded and smiled, "Yes, it's me."

Having said that, charlie snorted and said, "By the way, let me introduce myself. I'm not a staff member next to Stefanie sun. My surname is wade, and my name is Charlie."

"charlie?" Li Yalin frowned and said subconsciously, "Why is this name a little familiar..."

charlie's expression froze, and he said loudly: "I'm familiar with the An family, right? Let me introduce to you in depth. My father's name is bruce. You should know my mother. She is the eldest daughter of the An family. Lydia (Ava)!"
