

## Chapter 5177 The Amazing Son In Law -

charlie once felt that finding the specific addresses of the May 47 dead men might be as difficult as going to the sky.

The reason is that the mysterious organization controls the dead men extremely tightly, preventing the dead men from perceiving the exact time, nor allowing them to perceive the light, temperature, sound and the changing seasons of the outside world.

Therefore, May 47 doesn't even know which of the seven continents he lives in, let alone whether he is in the tropics or the frigid zone.

Even the only living mouth can't come up with any substantive clues, and it is even more impossible for outsiders to find this place.

However, Li Yalin accurately found clues that the mysterious organization could not control.

Earthquakes, tsunamis, and typhoons are all powerful natural phenomena. If a strong bunker can still isolate typhoons and tsunamis, then no matter how strong the bunker, it is impossible to isolate the strong shock caused by the earthquake.

Those who are imprisoned in the dark, or in some kind of underground fortification, may not perceive the sunlight, the stars, the real sound and temperature of the outside world, but when the earthquake comes, no matter how deep they are. Underground or in a cave, they will definitely feel something.

Moreover, violent earthquakes are not common. If they have occurred, a very accurate time line can be judged. In this way, as long as the clues are relatively consistent, there is a high probability that they can correspond.

However, Li Yalin was not overly optimistic, he said to charlie with a dignified expression, "Master Wade, the job you mentioned is the only clue that can be found so far that is related to the mysterious organization. If you can successfully find their station, It is only possible to find the clues to the mysterious organization behind it, but if I can't find their station, or if they have already evacuated this group of dead soldiers when I find them, then I am afraid the clues will be completely cut off. The mission of approving the dead is a complete failure, maybe the mysterious organization will move all the dead to other places out of prudence."

charlie nodded and said seriously, "I think there is a high probability that they will not evacuate. Think about it, why did they spend so much energy to hide this station, and even tried their best to block the perception of these dead men? It's because of such a station. Site selection, construction and maintenance take a long time and cost, and can't be easily replaced, so they make sure that these dead men who are sent out on

missions have no idea where they live, so that even if they failed and were captured, and they couldn't provide the actual information about the station."

Li Yalin nodded and said, "If this is the case, it would be the best. The station of the dead must be closely guarded by the core members of this organization, as long as they can find it. With this station, you can follow the vines and find the veins of this mysterious organization."

After speaking, he looked up at Charlie and asked, "Master Wade, based on my years of experience in the police, I have concluded an eternal truth, that is, Contact is always mutual."

Charlie said lightly, "Detective Li might as well start talking about it."

Li Yalin said, "If you watch too many police and bandit movies, it will make people feel that the police can always find each other without the criminals noticing it at all. And firmly control the other party until they are completely wiped out, but the criminals of that kind are relatively low-level."

"A considerable number of high-IQ criminals have a very sensitive sense of smell. , he has already discovered us, and when we want to dig deeper into the clues, the other party has already disappeared."

"The organization you mentioned is extremely powerful. Once I really start to contact them, it is very likely that they will also find me."

## Chapter 5178 The Amazing Son In Law -

"Also, it's not the police catching criminals, the police catching criminals. Generally, the worst result is that people run away and are not caught. However, this mysterious organization is much stronger than me, and it may even be possible stronger than you, once we have contact with them, the situation is likely to get out of control, and we may even be exposed to them."

Speaking of this, Li Yalin said with a dignified expression, "Young Master Wade, I'm not telling you this because I'm afraid of death or retreat. After all, you saved my life. It is thanks to you that my wife, children and children are alive today, even if I It doesn't matter if you die, I just hope that you can prepare in advance to protect yourself on the one hand, and on the other hand, if you can, try to protect my family as much as possible."

Charlie was silent for a moment, and said solemnly, "Tan Li , what you need to do now is to use your professional skills, the natural disaster data in your hand, and the memory of May 47, together with May 47, to lock the location of the other party without contact. If you really need to get in touch, I will go out in person without you taking risks."

Li Yalin quickly explained, "Master Wade, I am not afraid of taking risks..."

charlie nodded, "I know, and I don't doubt your courage, but just As you just said, contact is mutual, so be cautious, if you really need to make contact, it is definitely more secure for me to contact than you, so you just do the preliminary investigation and leave the rest to me to decide."

Li Yalin's The purpose is to remind charlie that he must be careful and careful, and cautious and cautious.

Seeing that charlie had accepted his suggestion, Li Yalin was relieved and said, "Master Wade, since this is the case, then I have nothing to worry about, and I will let you know as soon as I make progress."

night.

When charlie drove back to Providence, Li Yalin took a Virgin Atlantic flight to Beirut, the capital of Lebanon, via London.

After a twelve-hour flight, after the plane landed in Beirut, Abbas personally used a helicopter to take him to Wanlong Palace's base in Syria.

Depend on Yu Wanlong Hall's infrastructure funds are extremely abundant, and the current base already has a prototype of a large scale.

A large number of workers from all over the Middle East are working on this huge construction site 24 hours a day, and the various high-end heavy machinery used in the construction of the base can only be seen in developed countries.

When Li Yalin saw several Liebherr 750-ton all-terrain cranes hoisting wind turbines around the Wanlongdian base, he was stunned.

He subconsciously asked Abbas, "Master abbas... Are these wind turbines also owned by Wanlong Hall?!"

Abbas nodded and said with a smile, "There are several sources of electricity for Wanlong Hall, wind power generation. It is just one of them. On the mountain not far away, we have already invested in a large amount of photovoltaic power generation, using photovoltaics during the day and wind power at night. If there is not enough, there is official supply from Syria. After the power generation is basically in place, we will also invest in large-scale energy storage. Base station, in addition, more than 80% of the oil in Syria has been stolen by the United States, and the Syrian government can't get a dime, so they have plans to give us a mining license, and then we can explore and extract oil ourselves. , and then invest in building an oil refinery and a petroleum power plant."

Li Yalin was horrified and blurted out, "This battle is too big..."

Abbas said lightly, "Mr. Wade arranged it, he asked me to build it here. Yongbei Base, so the infrastructure construction must be well-prepared, and Mr. Wade has given tens of billions of dollars in funding, so we plan to invest more funds and exchange money for time."

Li Yalin couldn't help but admire, "Young Master Wade does things . Sure enough, if this base is completely built, maybe it will be able to compete with that mysterious organization."

After speaking, he quickly asked, "That's right, Master Wan, where is the job that Young Master Wade said is now?"

Abbas Jundao "May 47 is in the core area with the highest level of secrecy, Inspector Li, please come with me!"

## Chapter 5179 The Amazing Son In Law

Under the leadership of Abbas, Li Yalin came to the core area of Wanlong Palace here.

The so-called core area is a four-square-kilometer central area at the very center of the Wanlong Palace base.

Although the base has not yet been completed, a high wall has been erected in the core area, and inside the high wall, there are a large number of frame buildings of different heights.

These framed buildings are all modular building units purchased by Wanlong Palace from Huaxia. After rapid assembly, they can be put into use in the shortest time.

However, these buildings are only a temporary transition. Once the Yongbei Base is completed, these buildings will be gradually demolished and eliminated.

Abbas brought Li Yalin to a six-storey building. The interior of the building, the rapid renovation had ended. Although the construction site was still in full swing outside, there were basically no traces of construction inside.

A few minutes later, on the top floor of the building, Li Yalin saw May Fourth Seven who had lost his limbs.

During this period of time, May 47 became the tactical guide of Wanlong Hall. Although he lost his hands and feet, he still taught all the formations he had mastered when he was a dead soldier, and let the soldiers of Wanlong Hall give him a quick look. Zi seems to have opened the door to a new world and has mastered many unprecedented flexible tactics.

In order to study how to decipher the tactics of these dead soldiers, Abbas also arranged for several senior officials of Wanlong Palace to study the methods of restraining the dead soldiers' tactics together with May 47.

In order to ensure that the secrets of May 47 are not leaked, only the high-level officials of Wanlong Palace are qualified to set foot in this building, and May Fourth himself never leaves this building for half a step.

At this time, May Fourth Seven was discussing tactics with several instructors in Wanlong Hall. Abbas invited the others out, then invited Li Yalin to come in and said to May Fourth Seven, "Little Five, this is Mr. Wade's invitation. Detective Li, he is here to investigate the mysterious organization behind you, I hope you can cooperate with Detective Li and tell Detective Li all the information you know clearly."

Seeing Li Yalin on May 47, the whole person seemed to be seeing a ghost is astonishing!

He hadn't heard of Li Yalin's name, nor did he know his origin and background, but he remembered Li Yalin's face, and when he went to assassinate the An family, when the elevator door opened, the first thing he saw was this Li Yalin in front of him. .

At the time, he was even the first person to shoot Li Yalin.

Therefore, he knew very well how many shots Li Yalin was shot at that time, and he could conclude that Li Yalin had no chance of surviving at all.

Because of this, when he saw Li Yalin's familiar and unfamiliar face, he panicked to the extreme.

Li Yalin also knew that this person was the culprit who almost killed him in the first place, but he didn't get angry, just smiled slightly and said, "Looking at your surprised appearance, you should still remember me, right?"

"I couldn't stop saying "This...how is this possible...At that time...that person at that time...is that you?!"

Li Yalin smiled lightly and said, "If the person you mentioned was beaten into a hornet's nest by you at the elevator door. That person, then I can tell you in person in charge, that's me."

"But...but this is not logical..." May 47 said suspiciously, "You were shot so many times, and your body died at that time. Now, it's obviously impossible to save again..."

Li Yalin nodded and said seriously, "I was going to die, but fortunately I have Mr. Wade, so I came back to life."

“Mr. Wade...” 5471 Suddenly he remembered Charlie’s shocking strength, and Charlie was able to break the poison that had been comforting him for more than 30 years at the click of a finger. Then he thought of how Li Yalin had been shot to the end at that time, and he felt even more towards Charlie in his heart. The five-body cast of admiration.

## Chapter 5180 The Amazing Son In Law

So, he said very ashamedly, “Inspector Li, I have offended many things at the beginning, please forgive me...”

Li Yalin nodded and said indifferently, “You are also acting on orders, which is understandable.”

May Fourth Qi breathed a sigh of relief. He hurriedly said, “Inspector Li, no matter what questions you have, as long as I know, I will know everything and say everything.”

May 47 has long hated the organization that controls his own destiny, and even has been hoping that Charlie can find the resident of his line of dead men, and rescue his wife, children and family along the way, so he naturally cooperates with Li Yalin.

Li Yalin nodded, and without too much nonsense, he went straight to the topic and said, “The most urgent task now is to find a way to find out the location of your station on the map. Before that, I don’t know if you have any valuable clues to follow me. Share?”

May 47 shook his head and said, “To tell you the truth, Detective Li, I have been thinking about this issue for a while, but the organization was too cautious and didn’t let me leave any valuable information.”

Li Yalin slightly With a smile, he took out the list of major natural disasters that he had sorted out, and asked him, “Mr. Wu, how old are you this year?”

May 47 hurriedly said, “Go back to Detective Li, I am probably between thirty-six and thirty-eight years old this year. In between.”

Li Yalin asked curiously, “How did you calculate your age?”

May 47 explained, “There is a ‘calendar’ that is quietly recorded inside the dead man. We roughly record it according to our own schedule. I took a look at the time, but since there is no absolute reference standard, there are still some errors.”

Li Yalin nodded and said, “Then let’s count it according to the age of thirty-eight.”

Then, he put the major natural events of the past thirty-five years After sorting out the disaster, while looking at the entry, he asked, “From the time you were born to the last time you left the station, has your station moved or changed?”

“No.” Wu Siqi replied, “The station where I was born is. An underground fortification that I don’t know where or how deep has not been migrated for so many years.”

Li Yalin asked again, “In your memory, has there ever been a strong earthquake?”

“A major earthquake?” May 4th Qi thought for a while and said, “There has been a relatively strong earthquake, but it has been many years.”

“Many years?” Li Yalin asked again, “How many years are many years?”

May 47 frowned and thought for a moment, then said, “It’s about twenty years , but my timeline may deviate from reality to a certain extent. The difference between positive and negative is within two years.”

Li Yalin nodded and stretched out his hand to put the 2008 Huaxia, 2011 Japan, as well as several more recent entries in the timeline were crossed out, and then he said, “In this case, you can exclude the surrounding areas of Japan, as well as central and southwestern China.” After speaking

, he saw the entry of Indonesia in 2004 and asked. ” Does the earthquake in your memory feel strong?”

May 47 said without hesitation, “It was very strong, and even brought a lot of damage to our station at that time, some people were injured, and some people even died.”

Li Yalin As soon as it lighted up, he said excitedly, “That might be the 2004 Indonesian tsunami.”

Then, he took out a map, found the epicenter of the Indonesian tsunami on it, and muttered, “The epicenter at that time was in western Indonesia, many countries The earthquake was felt in Japan and other regions, but the earthquake in your area is relatively strong, it should be around the Indian Ocean, and it may even be in Indonesia.”

“However, in 2003, Hokkaido, Japan, and the Solomon Islands had earthquakes of magnitude 7 or higher. In 2005 In 2008, a magnitude 78 earthquake also occurred in Pakistan, and your timeline is not precise enough, so there may be some deviations

here.” Having said that, he looked at May 47 and asked, “What else do you have in that earthquake? Any other clues?”

“Other clues?” May 47 was silent for a moment, then shook his head and said, “There are no clues, although the earthquake is scary, but after all, no one died, so we didn’t take it too seriously.”

Li Yalin read Looking at the map, he asked, "If the earthquake you were talking about was the tsunami in Indonesia, you live underground. Have there been any flooding accidents after the earthquake?"

"What, he blurted out, "There was indeed a flooding accident at that time. At least 20 cm thick water was poured into the entire station. Later, the water was pumped out by a pump."

When Li Yalin heard this, he couldn't help asking him excitedly, "Is the water salty?"
