

## The Amazing Son In Law Chapter 5229 -

At this moment, the man asked respectfully, "My lord, how credible do you think Lin Waner (Alani)'s words are?" She is resourceful and even wise, but she seldom engages in conspiracies and tricks, so I believe the eight words she wrote."

Then, the Lord Ying said, "And Lin Waner (Alani) must be very clear in her heart that lying at this time is meaningless, even if I see these eight words, even if I believe that she is not lying, but before I find the ring, I can't give up hunting her down. After all, even if the ring is not on her body, she must know the whereabouts of the ring, so she wrote these eight characters not to confuse me, but to irritate me!"

The man couldn't help but said, "My lord! If Lin Waner (Alani) didn't lie, does that mean that she has abandoned the ring in a certain place in Northern Europe?" Where is it?"

Lord Ying said, "Although the ring is of no use to her, it has far-reaching meanings, and she will never throw it away just to save her life."

The man continued, "Could it be stored in a bank safe? If a ring is kept in a bank safe together with other things, it will generally not attract much attention. The security of the bank safe is extremely high, and the identity verification uses biometric evidence such as fingerprints and irises. Store the ring with a fake identity first, and then take it out whenever you need it."

"It's impossible." The hero said flatly, "Lin Waner (Alani) is far more cunning and calculating than you can imagine. Generally, she has already thought about it. Bank safes seem to be hidden and inconspicuous, but they are actually not safe at all. If I want to, my Jinyiwei can open all the bank safes in Northern Europe overnight. After all, how could she take such a risk."

The man said with some doubts, "My lord, if according to what you said, the ring is indeed not in her hands, but she didn't throw it away at will, then there must be a very How to keep it properly, then where do you think this ring went? Or in other words, how was it kept by her remotely?"

The British Lord was silent for a few seconds, and said lightly, "I don't know what you are talking about. The only thing I can be sure of at present is that although the ring is not in Lin Waner (Alani)'s possession, Lin Waner (Alani) is our only clue so far, so we must use all our strength to find it." Go find her for me!" After that, he paused slightly, and continued, "This time, let Willie

come out of the mountain in person, and you send him to come to see me immediately!"

, is the first of the four earls.

The titles of each of these four earls were bestowed by the Lord of England, namely Uncle Mason, Uncle Nakul, Uncle Russell and Uncle Sean.

The four of them have followed the British Lord for many years, and have made great contributions to the development of the forces under the British Lord's command.

Willie, in addition to ranking first among the four earls, is also the most powerful existence among the four earls, and he is the veritable number two figure in the entire organization.

And this man himself is the loyal and brave uncle who ranks last among the four earls.

Within this organization, his contribution is not as good as that of the top three earls, but because of his absolute loyalty to the lord, he was awarded the title of Uncle Loyal and Brave, and he is often sent by the lord.

In Uncle Sean's view, ordering Uncle Mason to track down Lin Waner (Alani) really felt like killing a chicken with a butcher's knife.

However, he dared not have any doubts about the Lord's decision, so he said without hesitation, "My Lord, this subordinate will pass on Willie." A

few minutes later.

A middle-aged man in a Taoist robe and a fairy-like character strode into the main hall with elegant steps.

As soon as he entered, he knelt on the ground on one knee, and after saluting the empty throne, he said respectfully, "My lord, Uncle Sean said, you have something to summon your subordinates, what orders do you have?"

The deep voice of the Lord Ying came, "Uncle Willie, I will give you five years to find Lin Waner (Alani)'s whereabouts. During these five years, I don't care where you go or what method you use. I will give you whatever you want." , You don't need my consent to make any decisions, I just want you to bring Lin Waner (Alani) alive to see me within the five-year period, can you do it?!"

Willie was slightly taken aback, and immediately clasped his hands together, He said loudly, "Since the British Lord is willing to entrust this task to his subordinates, then the subordinates must go all out to bring Lin Waner (Alani) back as soon as possible!" The

British Lord hummed and said, "In the past five years, I will give you 500 million US dollars. As a fund, I will give you five Xiaopeiyuan Pills as a reward after the matter is completed!"

Hearing the words Xiaopeiyuandan, Willie said in a pleasant surprise, "Subordinate, thank you Lord!"

After saying that, he immediately leaned down and kowtowed heavily. Afterwards, he raised his head and asked respectfully, "My

lord, you know Lin Waner (Alani) best, so, regarding Lin Waner (Alani)'s whereabouts, do you have any clues or suggestions that you can give to my subordinates?"

I know her father, but they all did things that I didn't expect. Maybe my understanding of them is too solid, so that I fell into a vicious circle of making mistakes again and again, so Mason Bo still don't look for me I want to suggest, do it all by your own intuition, it may have a miraculous effect."

"Okay!" Uncle Mason nodded heavily "Master, the subordinates know!"

The Lord asked curiously, "I wonder if Uncle Mason Already have plans?"

Willie cupped his hands and said, "Go back to the Lord, and I plan to go to China!"

## **The Amazing Son In Law Chapter 5230 -**

The Lord asked in surprise, "Do you think Lin Waner (Alani) will return to China?"

Willie smiled and said, "I I didn't think so, but I subconsciously thought that Huaxia was more likely."

"Okay!" The Lord Ying rarely snorted twice, "Haha, since you have this intuition, then go! Don't delay for a moment! "

Willie said without hesitation, "Your subordinates obey!"

...

at the same time.

charlie, Don Albert, and Isaac Cameron took Helena's royal helicopter and arrived directly at Aosu City Airport.

Because they are distinguished guests of the royal family, charlie and the others don't even need to go to the customs in person, as long as they hand over their passports to the royal family's butler, they can complete the customs clearance.

The helicopter landed directly in front of the hangar of charlie's Concorde, and charlie was the first to jump off the helicopter.

Afterwards, charlie said to Helena, "Helena, you don't have to worry about getting down, just let the pilot take off and go back."

Helena shook her head with reluctance and said, "Mr. Wade, I'd better take you on the plane, Anyway, the martial law is already here in advance, and no one else will see me."

charlie saw her insistence, so he had to extend a hand to her, and helped her off the helicopter.

In the hangar at this time, the Concorde has been prepared.

The captain and other crew members are waiting below the plane.

Helena accompanied charlie into the hangar, and charlie told her, "You must pay attention to safety during this period of time. If you find any abnormalities, please notify me immediately."

Helena nodded slightly, her eyes flushed . Red was shining with tears at the same time.

She knew that she said goodbye to charlie today, and she didn't know when she would see him again in the future.

Moreover, Helena also knew that among so many women who loved charlie deeply, she was the most special one.

Everyone else has a free body and doesn't need to be outside the world's opinions and evaluations, but I am the only one who still bears the halo of a Nordic royal family.

It's not so much a halo as a shackle.

Because of this shackle, leaving Northern Europe and going to any place in the world, you have to rise to the level of diplomacy and politics. If you want to leave Northern Europe to meet charlie, it is simply a dream, and there is no chance at all.

So if you really want to build charlie, and want to communicate and get along with charlie normally, the only chance is for charlie to come to Northern Europe to find him.

However, with her and even charlie's behavior style, he would definitely not come to Northern Europe to meet her unless it was necessary.

Thinking of this, Helena felt sad and reluctant, so she looked at charlie and said softly, "Mr. Wade, if you have time, you must come to Northern Europe again. If you can't, don't forgetIt's me..."

Seeing that her tears were streaming out uncontrollably, charlie couldn't help but feel a little distressed when he recalled what he noticed in her boudoir this morning.

However, although there are no outsiders here, after all, there are too many eyes Miscellaneous, not only Don Albert and Isaac Cameron are there, but the crew members are also there, and the royal guards are also nearby.

Therefore, charlie can only comfort and say, "Helena, if there is a chance, I will definitely come again. You are in Northern Europe, you must Take care. "

Hearing charlie's words, Helena's heart suddenly warmed up, showing a rare joy, she nodded repeatedly and said, "Mr. Wade, at any time, as long as you tell me that you are coming to Northern Europe, I will definitely wait for you in Aosu City." you!

charlie nodded slightly, and said, "Okay, let's send it here, we're boarding the plane. " "

Helena nodded with tears in her eyes. At this moment, she really wanted to hug charlie gently, and then put her face on his chest for a second.

But, she also knew that in this situation, she had no

Therefore, she could only keep a distance of half a meter from charlie, and said, "Mr. Wade, then I wish you a safe journey ! "

" Good. charlie nodded, and said again, "Take care too, bye." "

Goodbye..."

charlie boarded the Concorde under the watchful eyes of Helena. The

captain and crew members also quickly took their positions and were ready to take off.

At this time, Helena and her party had not left, they just retreated to From a safe distance, it seemed that he planned to watch charlie's plane leave first.

At this time, the captain came to charlie and said, "Master, we will take off in ten minutes, and we expect to arrive in Providence within three hours. "

As he spoke, he continued, "It's three o'clock in the afternoon in Northern Europe, nine o'clock in the morning in New York time, and it should be no problem to land before twelve noon in New York time. "

charlie waved his hand, and asked with a smile, "It shouldn't take long to fly from here to Syria, right?" The

captain thought for a while, and said, "The route distance should be more than 3,000 kilometers to less than 4,000 kilometers. Based on our flying speed, we can calculate It only takes two hours to take off and land."

“Okay.” charlie nodded, waved his hand, and said with a smile, “Then let’s fly directly to Damascus.” The

captain was stunned, and subconsciously asked, “Fly to Syria?”

charlie nodded and said, “Yes, fly to Syria.” The

seven Xiao cavalry guards had followed the Wanpo Army and the soldiers of the Wanlong Palace and returned to Syria ahead of schedule.

charlie hadn’t relieved the poison in the bodies of these seven people yet.

Besides, charlie also wanted to meet Li Yalin, Wusiqi, and the old man he just met on the way to Mexico, Trent.

## **The Amazing Son In Law Chapter 5231 -**

Two hours later, charlie’s Concorde airliner landed in Damascus, the capital of Syria.

Abbas and several core members of Wanlongdian were already waiting at the airport. When charlie got off the plane, Abbas hurriedly stepped forward and said respectfully, “Mr. I didn’t expect you to make a special detour to come to Syria so far, and the preparations were a bit hasty. If I had known that you were coming, my subordinates would have made arrangements as soon as possible.”

charlie said with a smile, “The seven people you brought back still have deadly blood in their bodies. It is highly poisonous, and if they are not detoxified, these seven people will die within a few days.” After finishing speaking

, charlie asked him, “Have the seven people settled down?”

” Any accidents, I left Chen behind and asked him to take a few five-star generals to guard those people.”

“Okay.” charlie nodded and said, “The situation of these people is different from that of May 47. They were in Bergen. At that time, you have already confessed to me something related to that mysterious organization, later you call Inspector Li and May 47 together, and then touch the clues in depth to see if there are any new discoveries.”

Abbas immediately said respectfully, “Okay, Mr. Wade, when we arrive at the base, the subordinates will arrange it immediately.”

Then, Abbas asked again, “By the way, Mr. Wade, how long do you plan to stay in Syria this time? Do you want my subordinates to make arrangements in advance?” Arrange accommodation for you?”

“No.” charlie said with a smile, “I’m here to deal with business, and then I will go back to the United States after a casual visit, and I just took this opportunity to meet old acquaintances.”

Abbas said, “Mr. Wade , There are quite a few of your old acquaintances here, and Commander hunter (Hamid ) happens to be at the base, and he has been talking about you, but I haven’t told him that you are coming.”

charlie asked curiously, “This brother Why did you come to the base of Wanlongdian?”

Abbas explained, “Commander hunter (Hamid ) has been here more frequently recently. In addition to cooperation and exchanges, he mainly wants to learn some experience from Wanlongdian. The overall construction started relatively late, but our infrastructure scale and promotion efficiency are much higher than his.”

Saying that, Abbas said again, “Mr. Wade, let’s set off now. This time, you will have to work hard to land in Damascus. If you come back in two months, our own runway will be put into use, and there will be no need to fly there.” If you transfer in Damascus, you can just land directly on the runway of the base.”

charlie nodded, and asked him curiously, “The plane bypassed the customs and landed directly at the base, what is the official attitude?”

Abbas explained, “All the subordinates have said hello Now , if it’s just the entry and exit of personnel, Damascus basically turns a blind eye and closes one’s eyes, and doesn’t need to go through customs.”

Speaking of this, Abbas said again, “Actually, the current situation here is still very complicated. The management of all borders cannot be realized. Before the entry and exit of opposition personnel and materials was just like playing, so now Damascus basically does not ask. Besides, Damascus is very friendly to us as a whole. After all, we are here. It can mediate the struggle between the two forces in the country. It is rare for everyone to cease fire now. Everyone wants not to attack each other. Many things are just a formality

; We came to Syria just to find a place to live and not to seek any benefits from Syria, unlike the Americans, who only focus on the oil resources here, so they are more willing to maintain this kind of cooperative relationship with us.”

“Then Good.” charlie was relieved when he heard this.

Once an organization like Wanlongdian wants to become bigger and stronger, it will not be welcomed no matter which country it is in. Now that it can take root in Syria, it can be regarded as a solution to the urgent need for development and growth.

It is precisely because of the complicated internal situation here that it gave Wanlongdian a chance to develop with peace of mind.

However, Charlie was also very clear in his heart.

Living under the fence is not a long-term solution after all.

In the future, we must find a way to actually buy a piece of land so that Wanlongdian can build a permanent base without any worries.

Afterwards, Charlie, Abbas and others boarded the helicopter of the Wanlong Palace together.

The five helicopters took off almost at the same time and flew towards the Wanlongdian base.

After an hour's flight, the helicopter has arrived over the base.

It can be seen from the air that the base of Wanlongdian is currently a huge construction site, full of buildings under construction and dusty transport vehicles.

On the east side of the base, there is an airstrip that has already taken shape.

Seeing the construction of the entire base in full swing, Charlie couldn't help feeling relieved.

The Wanlong Temple is currently his most powerful strike force besides himself, and it will have a very important effect on every step he takes in the future, especially in the contest with that mysterious organization, which has far-reaching significance.

Therefore, he hopes that the strength of Wanlongdian will continue to grow and improve, and his goal for the first stage of the development of Wanlongdian's overall strength is to be able to compete with all the dead soldiers of that mysterious organization.

As for the mysterious hero, Charlie planned to keep it to himself and use his own strength to completely defeat him.

The helicopter landed slowly in the core area in the center of the base.

## **The Amazing Son In Law Chapter 5232 -**

On the south side of the core area, there is a cubic building. This building is about 20 meters high. At the bottom is a huge hollow that is transparent from north to south, and a track that is much narrower than normal train tracks passes through it. .

It can be seen from the opening that inside the building is a huge lifting device made of steel frames, with a steel cable as thick as a baby's arm hanging in the middle.

Abbas introduced to Charlie, "Mr. Wade, this is the main shaft of the underground fortification. Its current vertical depth is about 120 meters. The first phase of the underground fortification is currently excavating horizontally at this depth. The lifting device is the cage, and equipment, personnel, and excavated rocks basically come in and out from here."

He pointed to another similar cubic building in the distance, and introduced, "That one is the auxiliary shaft of the underground fortification. Consistent with the main well, it is mainly responsible for ventilation and drainage of all underground working faces."

Charlie nodded, and said, "The current spy satellites and drones are too advanced, and the ground facilities can't even escape Google's satellites, so the underground fortifications will be the most important thing in the future."

Abbas immediately said, "Don't worry, sir, in the current infrastructure budget, more than 65% of the budget is given to underground fortifications. The future underground fortifications will not only meet the needs of all personnel's life and material storage, but also shoulder most of the daily training needs. We will build a safe energy storage and backup energy system underground, which is enough to deal with most emergencies."

While speaking, the lifting device under the cubic building lifted a huge square steel cage up.

Interestingly, this steel cage has two layers, the upper layer is for people, and the lower layer is for a rail mine car.

After the steel cage came to a complete stop, more than a dozen men wearing helmets standing on the upper floor came out of it and walked from the second floor to the first floor.

The workers waiting on the first floor walked directly into the steel cage on the bottom floor, fixed the traction rope on the mine car filled with gravel, and then pulled the mine car along the track to the loading and unloading yard hundreds of meters away. At the other end, workers pushed an empty mine car into the steel cage.

Subsequently, the entire steel cage was lowered into the ground again.

After watching the whole process, Charlie couldn't help frowning and said, "Abbas, relying on this kind of straight up and down cages to transport people and supplies, isn't the turnover efficiency too low? This time, at most dozens of people, or a few tons of goods, can be transported. Even if it takes a few minutes, the efficiency will be a drop in the bucket in an emergency."

Abbas hurriedly said, "Mr. Wade, you are right, the current two shafts are actually configurations in the construction stage, and the underground fortifications are still only elementary. stage, so these two shafts are used for underground construction; "

"However, in the next step, we will build a hub building covering an area of more than 100,000 square meters on the west side of the airport runway, and then from the hub building On the inner floor, a double-lane inclined shaft is directly excavated for vehicles to enter and exit;"

"The inclined shaft will lead directly from the ground of the building to the underground fortifications, just like a tunnel with a steep slope. Once completed, all personnel, vehicles and equipment will drive up and down from here, and the overall turnover speed will increase geometrically. The convenience is no different from that on the ground. Difference."

charlie nodded, "How many workers are working in the mine at the same time?"

Abbas said, "We are now speeding up the progress regardless of cost, so all types of work in the mine are counted, and there are probably five or six hundred people working at the same time. " charlie

asked again, "By the way, what are those Sicilian mafias brought back from Canada before doing now?" The underground fortification has been built. Our normal construction team works three shifts a day and works eight hours a day. However, these mafia teams work two shifts a day and works twelve hours a day. After all, they are a bunch of bastards full of crimes. So we don't pay much attention to labor laws for them, as long as they don't get tired to death." charlie couldn't help laughing and said, "After all, there are more than 800 Sicilian elites, killing people, setting fires, bullying the market, and they don't feel tired after working for 24 hours in a row It's definitely not a problem for them to work underground for twelve hours." After that, charlie asked again, "By the way, where are those Hongmen disciples?" Abbas smiled and said, "Mr. It hasn't arrived yet." charlie laughed dumbly. It is indeed a long way from Hong Kong Island. If it takes more than 20 days, it will definitely not be possible. At this moment, the double-layered cage was lifted up again, and as soon as the iron fence on the upper floor was opened, hunter (Hamid ), who was wearing a red helmet, walked out from inside accompanied by several soldiers from the Wanlong Temple. charlie recognized him at a glance, and shouted "Hasling!" hunter (Hamid ) looked at charlie following the sound, showing his increasingly fat belly.

Seeing that it was charlie who was greeting him, he was overjoyed and shouted, "Oh, Mr. Wade, brother wade!" After finishing speaking, he took

a few quick steps and ran towards charlie.

Quickly running in front of charlie, hunter (Hamid ) held charlie's hand happily while panting heavily, and asked excitedly, "brother wade, when did you come?"

“Just arrived.” charlie Smiling slightly, he looked at his swollen belly, and joked, “Brother, you have gained a lot of weight recently, and it seems that your life is quite comfortable.”

hunter (Hamid ) smiled, cupped his hands and said, “Bless you, brother! Now The war is over, every day besides sleeping is eating, not to mention eating well, and sleeping well, the weight will naturally come up.” After speaking

, he turned and pointed to the main well behind him, and said enviously, “Brother, Your underground fortifications are so damn well built! The lanes are three or four meters high, compared to yours, my underground fortifications are just a mouse hole if they are stretched to death!”

charlie laughed and said to him “Brother, don’t worry, when the construction here is almost done, I’ll let Abbas arrange the arrangement and upgrade it for you.”

hunter (Hamid ) heard this, his hands trembled excitedly, and asked him excitedly, “Brother, how about this?” Seriously?”

charlie nodded and smiled, “Of course, when did I tell a lie?”

Then, charlie said again, “Did you see those hard-working Sicilian elites down there just now?”

“Sicilian elites?” hunter (Hamid ) asked curiously, “You mean the Canadian mafia working below?”

“Yes.” charlie nodded and said with a smile, “These people will also be sent to you at that time!”
