

The Amazing Son In Law Chapter 5257 -

At this time, charlie couldn't help but think of his third aunt who he didn't know.

In charlie's mind, he couldn't help but rely on Duan Liye's clues and his own imagination to outline the woman's tragic life.

During her teenage years and youth, it is likely that she has been studying hard in order to change the fate of the whole family.

Her father may have experienced the tragedy of the dead, so he must have instilled in her the belief in studying hard to save the whole family when she was very young.

And she must have lived up to expectations. With her own efforts, she was admitted to a top university.

At this time, because of her excellent academic performance and excellent external conditions, the Li Qinghui gave her a difficult and important task, which was to prepare to get close to her uncle, Olin.

Li Yalin once told charlie how the little aunt and uncle got acquainted.

At that time, my uncle was in the second year of master's degree at Harvard University, and my aunt had just been admitted to Harvard to study for a master's degree. The two met because of an old-fashioned plot of a hero saving the beauty, and through contact with her, my uncle was pleasantly surprised to find that this woman no matter what she is inside Or externally, they all cater to all their requirements for the opposite s*x.

An's family and Li Yalin also guessed that the little aunt was probably the enemy's secret agent deliberately planting around the little uncle at that time.

But according to Li Yalin, after the death of the little aunt, this incident is just a speculation that cannot be verified.

However, now I can be sure that their speculation is 100% accurate.

Although my aunt was twenty-two or three years old when she met my uncle, it is very likely that she has been working hard to become the kind of woman my uncle would like or even be obsessed with since she was fifteen or sixteen.

After years of preparation, she performed "Love at First Sight" with her uncle at Harvard University.

The naive uncle thought he had found the one, but what he didn't know was that all of this was nothing but a carefully prepared drama around him.

He has been with this woman for nearly twenty years. This woman gave birth to him two daughters. The family of four seems to have a deep relationship, but he never dreamed that this woman who has been with him for twenty years has never seen him. Since the day I was born, I have always had a denture filled with a highly toxic substance in my mouth.

The husband and two biological daughters who have been together for twenty years have not been able to stop the little aunt from working hard to break the Qing Dynasty.

On the day of Stefanie sun's New York concert, this woman acted as an internal response, and cooperated with the dead men of the Qing Dynasty to destroy the entire An family.

However, charlie didn't know whether this little aunt and her two daughters were on the killing list of the Qing Dynasty.

If it is there, then I don't know that this little aunt is not clear in her heart.

However, judging from the fact that she resolutely gritted her fangs and chose to commit suicide at the last moment, even death in her heart did not escape the control of the Po Qinghui.

And her suicide was likely to protect her family members who were still under the control of the CCP.

This is also charlie's opinion that the Poqing Society is the strongest.

Just when charlie was filled with emotion, someone knocked on the door and said respectfully outside the door, "Master Special Envoy, in half an hour, our ship will be docked."

charlie sensed that this person was not a master of martial arts, so So he said to Duan Liye in a very low voice, "Send him away."

Duan Liye nodded, and said, "Okay, I see, you go to work."

"Of order!" The other party responded, turned and left this layer.

charlie asked Duan Liye, "Are all the people on board yours?"

The Amazing Son In Law Chapter 5258 -

"No." Duan Liye shook his head and said, "The bodyguards on this ship are all Turkish cavalry guards. As for the crew, they are all peripheral The members are only responsible for sailing the boat, and they don't know the specifics."

charlie pointed to the motionless man standing in the corridor inside the door, and asked him, "Who is he?"

Duan Liye said, "He is my deputy."

charlie frowned and asked, "Does your deputy have to meet your needs?"

Duan Liye replied, "He wants to join the Huben camp, but to join the Huben camp, he needs someone who has been trained in the Huben camp." Recommendation, that's why I used this as a condition and asked him to satisfy me..."

charlie stretched out a hand to interrupt him, "Okay, you don't need to say anything."

Duan Liye immediately closed his mouth.

charlie asked again at this time, "Is there any way for you to let me sneak into the copper mine with you?"

Duan Liye said without thinking, "It's simple, you just need to wrap up in a black robe with me."

"Black robe?"

"Yes." Duan Liye stood up, took off two black robes from the hanger behind the door, and said to charlie, "Because I am a special envoy, only my superiors and my deputy can see my true face." , In front of other people in the organization, I am always wrapped in a robe, so that no one can see any features."

charlie nodded, and then asked, "The person in charge of the Cyprus copper mine, have you seen your real face?"

"No." Duan Liye shook his head and said, "If you want to go in, you just need to get off the boat in a black robe like me later. After getting off the boat, the guards from the copper mine will pick us up."

charlie asked again, "Then When will you return?"

"Tomorrow." Duan Liye said, "After the ship docks, the knights on this ship will gather all the crew members in the engine room, and they will not be allowed to see the outside world. We will start unloading, and after unloading all the materials, we will start loading copper ore, and we will set off to go back when we are full tomorrow morning."

charlie asked him, "What about you?"

Duan Liye explained, "I will meet you tonight. stay in the copper mines, Supervise the Xiaoqiguards taking the medicine, and then supervise the dead man taking the

medicine. After making sure that everyone is taking the medicine normally, it will almost be dawn. “

” Good. charlie nodded and said, “Then I’ll go in with you!” After that, charlie asked again, “

Where’s the antidote you brought?” Duan Liye pointed to the

closet in the corner of the room, and said, “The antidote is in the closet.”

charlie nodded and said, “Take out the antidote. ” “

” Good! “Duan Liye immediately went to the closet, took out a heavy backpack from it, and put the backpack in front of charlie.

charlie opened the backpack and found that it was packed like a chalk box, which was full of There were more than 30 boxes.

He took out one box and found that a round badge was printed with wax paint on the top cover of the box.

charlie opened the box directly, and found that inside was a cylinder that was as thick and long as an index finger and rolled out of kraft paper.

The upper and lower seals of the cylinder also had a wax seal.

charlie tore off the kraft paper, Then he saw the ten small pills wrapped in it.

He put the pills under his nose and sniffed, and found that the antidote was similar to the antidote he had prepared.

Most of the antidote he had prepared was Some nourishing common herbs only have a very small part of them that actually have the effect of detoxification.

And this antidote is the same.

The effect of most of the herbs is to strengthen the body, while the part that really works is a kind of after- treatment The ingredients refined by a special method.

charlie immediately recognized that this ingredient contained a very small amount of aura. Although it was only a tiny amount, charlie could still clearly perceive the existence of aura.

This made charlie’s expression tremble , it seems that the person who refines this antidote can master spiritual energy just like himself!
