

The Amazing Son In Law Chapter 5576 -

Feng Zidong's question was also something that Charlie couldn't figure out.

He also didn't understand why the Po Qinghui (Benn) invested so much energy in his grandmother's family, even planting a bomb that was delayed for twenty years.

If it is said that they are greedy for Anjia's money, this reason is also difficult to hold, because the wealth of the Qing Dynasty should be much stronger than that of Anjia, and they control so many dead soldiers, special envoys, and Jiedu envoys. Even for the dark masters of the Huben camp, making money is simply the easiest thing for them, and there is no need to keep an eye on Anjia.

So this also means that they have other plans for Anjia.

But what Charlie was most confused about was that he didn't know what the intention was.

Therefore, Charlie could only say to Feng Zidong, "About the intentions of the Poqing Association for An's family, I actually didn't understand it. It seems a little unreasonable to say that they are doing it for money; it seems that they are angry at An's family because of my parents." It's not very tenable, after all, if they solve the An family's plan, they definitely don't need to wait so long with their strength." "

"You're right." Feng Zidong sighed, and said, "Perhaps, breaking the clear Maybe they want to get something special from Anjia."

Charlie shook his head, "I can't think of anything they would be interested in from Anjia. It's not surprising, and there are no warriors in the immediate family of An's family, and it is impossible to have any exercises or elixir."

Feng Zidong nodded in agreement, and said, "This matter, I am afraid that only the high-level members of the Po Qinghui (Benn) can do it." I'll know."

Charlie asked curiously, "Uncle Feng, what information did my dad disclose to you before the accident?"

Feng Zidong said, "In the email your dad sent me before the accident, apart from mentioning the meeting to break the Qing Dynasty, and told me that my parents are most likely in the PoQinghui (Benn), and he said that there is an existence in the PoQinghui (Benn) that specializes in cultivating masters in the dark realm." Charlie spit out three words, "Hu Benying!" Feng Zidong's expression became even

more

serious "You also know Huben Camp?"

charlie said lightly, "Only eight-star fighters have the opportunity to join the Huben camp. As long as they join the Huben camp, they will become masters of the dark realm within ten years. Am I right?" "Yes..." Feng Zidong nodded and looked at Ye

Charlie "It seems that your understanding of the PoQinghui (Benn) is almost the same as mine. My understanding of the PoQinghui (Benn) is as high as the Huben Camp." charlie asked curiously, "

Uncle Feng, I'm curious, how do you know these things?" Did you get in touch with your parents?"

Feng Zidong said, "Yes, my parents are in the Qinghui (Benn), and they are both in the Huben camp!"

The Amazing Son In Law Chapter 5577 -

charlie had vaguely guessed that this would be the case, so he couldn't help sighing, "Look Come on, all fighters in the world cannot escape the temptation to become a master of the dark realm..."

After finishing speaking, he asked Feng Zidong, "Uncle Feng, did my dad tell you?"

Feng Zidong nodded and said, "Your dad knows about the existence of the Huben Camp. He mentioned in the email to me that someone saw a male warrior named Feng and a female warrior named Xu, and they were husband and wife, which coincided with my parents' surnames, so he It is speculated that these two people should be my parents."

After speaking, Feng Zidong said again, "It is precisely because of this that I decided to change my career to be a host, and hope that my parents will pay attention to me one day, and then get in touch with me."

charlie hurriedly asked, "Did you succeed?"

"Successful." Feng Zidong nodded, and said, "About ten years ago, I established contact with my parents.

" The internal structure is extremely strict, and the management is also extremely strict. How did you get in touch with your parents?"

Feng Zidong smiled slightly and explained, "I have to brag about myself when I was young. Very clever, I once played a game with my father, the two of us often used different rules to make up codes, and then hide the codes in a certain text, and then give them to the other party to decipher; "

“In the beginning, my father would always let me make the rules very simple. For example, at the beginning, I used the acrostic mode, and used the first word of each sentence as the hidden content. In this mode, the password is 1 ;”

“If the second word of each sentence is used as the hidden content, then the password of this mode is 2;” “

But this kind of difficulty is basically equal to no for me, so he gradually upgraded his password, From 1212, it has changed to 1234 or 4321;”

“If it is 1234, it means, take the first character of the first sentence, the second character of the second sentence, the third character of the third sentence and The fourth word of the fourth sentence, because the password has only four digits, so starting from the fifth sentence, it should be regarded as the first sentence of the next cycle, and then repeat 1234 until all hidden words Find them all, and piece them together to tell the other party; “”

But then I found out that this pattern is also easy for my dad to guess, so I upgraded it to my birthday, May 13th, so the password is It became 513, but even so, my dad can still guess it after spending some time; “”

So, I realized at that time that if you use your own birthday or the birthday of your relatives as a password, it is actually very easy for others to guess. Cracked;”

“So, later I thought of a new encryption method, which is to use my birthday and add 1234 as the password;” “

I was born on May 13, so the basic password is 0513, add the four numbers respectively If I go to 1234, it becomes 1747. Therefore, 1747 is the password to crack my text. Later, my father could not decipher my password, so I told him how to upgrade my password. “

The Amazing Son In Law Chapter 5578 -

Speaking of which, Feng Zidong said again, “Ten years ago, blogging was popular at that time, and I was a celebrity, so the number of views of my blog was also very high, so I often published some articles and essays on the blog, but every time I In this article, the password of 1747 will be used to add the ten words ‘I miss you very much, please contact me’. I believe that except for my father, no one else in this world can understand it. “

charlie couldn't help giving a thumbs up, “You and your father have a secret way of communicating, and you are a well-known celebrity, if your father is still alive and has the opportunity to browse the Internet, he will definitely pay attention to your movements, So I will definitely see your blog, and naturally I will also be able to see the content you left. This method is really clever!

Feng Zidong smiled modestly and said, "It doesn't matter if you are high or not, usefulness is the most important thing." "

Speaking, Feng Zidong said again, "Ten years ago, on May 13th, which was my birthday, I received a private message from a stranger. The content of the private message was very ordinary. I like the text of my blog very much, I think I am a very talented person, and I hope I can continue to work hard;" "I

receive dozens or even hundreds of private messages of this kind almost every day, but the difference of this private message is that, If you put the password of 1747 into it, you can get just six characters. We miss you very much too. "

At this moment, charlie couldn't help feeling a little excited.

He asked Feng Zidong, "How did your parents bypass the monitoring of the PoQinghui (Benn) and contact you?"

Feng Zidong explained, "According to my father, when he was in Huben Camp, although his aptitude was only the worst, but because of his Being a human being, he has won the trust of the head of the Huben camp, and during his ten years in the Huben camp, he and my mother gave birth to a son and a daughter, so in the eyes of Po Qinghui (Benn), the overall stability is stronger Quite a few;"

"Later, the Qing Dynasty sent them to Saudi in the Middle East. On the surface, they were a couple who ran a Chinese restaurant in Saudi. In fact, the Qing Dynasty sent them to Saudi to monitor the royal family of Saudi and Once the secret whistle of other forces is clear, there will be orders, and they must execute them immediately."

charlie exclaimed, "Can you still have children in Huben Camp?"

"Yes!" Feng Zidong nodded, and said, "This is what my father realized by himself. No one has a child in the Huben camp. My parents are the first couple in history. My father thinks that as long as he has a child in the Huben camp, he can prove with practical actions that he and my mother The relationship between the two is very deep, and they are each other's fetters and weaknesses. Their willingness to have children under the control of the Poqing Society can also prove that they have enough recognition for the Poqing Society itself, and after the child is born, the In the eyes of the Huihui, they are equal to the protons of ancient times, so the PoQinghui (Benn) will trust them even more."

After speaking, Feng Zidong said again, "It is precisely because of this that my parents can have the opportunity to be sent abroad, and they can really be accepted. The expatriates are all trusted by the Poqing Society, because the Poqing Society will give them as much freedom as possible in order not to reveal their identities." charlie suddenly realized, and sighed, "So,

The Amazing Son In Law Chapter 5579 -

my third aunt , should also be deeply trusted by the Poqing Society.”

Feng Zidong nodded and said, “Maybe it was the Poqing Society that cultivated it from an early age, and my two younger brothers and sisters who have never met have been isolated and cultivated by the Poqing Society.”

charlie asked, “What is isolated culture?”

Feng Zidong explained, “It is to isolate the children from their parents, the parents are sent abroad, and the children stay in the Poqing Society to train them until they become adults, but the Poqing Society may also send the children to the secular world early to pack their identities in case they are needed. “

Speaking of this, Feng Zidong asked charlie, “You said your third aunt was a member of the Qing Society. How did she and your third uncle meet?

” Sister.”

Feng Zidong nodded and said, “It is very likely that in order to get rid of your third uncle, the Poqing Council arranged more than a dozen girls of different identities, different backgrounds, and even different races around your third uncle at the same time. Which one does your third uncle like?” Who is it, they can do this kind of thing.”

charlie was slightly taken aback, but soon returned to normal.

At first glance, what Feng Zidong said might sound like mobilizing people, but in fact, this is the surest way.

At that time, there was only the third uncle in the An family who was still unmarried. If the Qing Dynasty Society wanted to plant a bomb inside the An family, the third uncle was the best breakthrough point and the only chance.

If only the third aunt is sent, in case she fails, this line will not be able to advance.

The best way is to arrange a lot of girls of all kinds, and they are all very good and innocent women, so that these women will appear next to the third uncle one after another. As long as one of them succeeds, the task will be successfully completed.

charlie was amazed at how clever he was, and asked Feng Zidong, “Uncle Feng, are your parents still in Saudi?” “

Yes.” Feng Zidong nodded, “They have always been there, and they have always been able to complete the breaking The tasks assigned to them by the Qinghui (Benn), so they have always been trusted.”

Feng Zidong said, "And my father never thought about leaving the Qinghui (Benn), he just saw my news and wanted to get in touch with me. Besides, he didn't do anything to be sorry for the Poqing Society, so he's been safe all the time."

charlie asked him, "Your father doesn't want to leave the Poqing Society, is he a die-hard loyalist of the Poqing Society, or is he forced to leave the Poqing Society? Forced by the poison of the society?"

Feng Zidong said, "It's mainly the poison and my younger brothers and sisters. There is still no solution to the poison. As long as you leave the Poqing Society and don't get the supply of antidote, you will definitely die within half a month. Moreover, according to the Poqing Society's consistent Routine, as long as my parents betray the Poqing Society, my younger brother and sister will be executed immediately by the Poqing Society, so even if they want to leave the Poqing Society, they have no way to do so." charlie nodded and asked again, "

Then Have you and your parents met in the past ten years?"

The Amazing Son In Law Chapter 5580 -

"No." Feng Zidong said, "I once offered to meet them in Saudi on a business trip, and I could even pretend to be a diner in their restaurant and eat in silence. I left after a meal, but my father didn't agree. He said that although he didn't do anything to apologize to the Qinghui (Benn), once he was caught, the Qinghui (Benn) would know that he had disclosed the information about the Qinghui (Benn). He and my mother, still My younger brothers and sisters will also be executed as an example, so in the past ten years, we can only communicate through my blog." charlie wanted to tell Feng Zidong that he

had the ability to crack the toxin The antidote, but after thinking about it, even if his parents can cure the poison, his younger siblings are still under the control of the Po Qinghui (Benn). In this way, it is still a dream to instigate his parents.

As long as his parents have no plans to leave the Qing Society for the time being, in this case, it would be unnecessary to detoxify them, and it is very likely that they will expose themselves.

So, he said to Feng Zidong, "Uncle Feng, if your parents decide to leave the Qing Society one day, you can contact me."

Feng ZidongHe nodded, but said with a wry smile, "I don't think it's possible. Leaving the Poqing Society will not only kill them, but also my younger brothers and sisters."

"Yes." charlie agreed, "This is how the Poqing Society controls the internal

affairs The method of members, the vast majority of people should not be able to escape, but there may be exceptions to everything, if they want to leave, I may not be

able to help your younger brothers and sisters, but I can help them.” Feng Zidong was slightly surprised, he

thought Ask clearly why charlie is sure that he can help his parents, but after thinking about it carefully, it is not suitable for him to ask about this kind of thing, so he cupped his fists at charlie and said, “I have made a note of it, thank you!”

Charlie He asked again, “Your parents, did they tell you anything about the Po Qinghui (Benn)?”

Feng Zidong thought for a while, and then suddenly said, “By the way, he told me a few days ago that there is one thing that can make them feel better.” A chance for a family of four to break away from the Qing Dynasty and regain their freedom.”

charlie frowned and asked, “What kind of chance?”

Feng Zidong said, “It seems to be a clue to find a girl, whether it’s a dead man, a knight guard, or a tiger. As long as the dark masters who come out of the camp find that girl, the whole family can be free.”

charlie heard this, and instantly thought of Lin Wan’er (Alani) who was accidentally rescued in Northern Europe.

He immediately asked, “What girl? Are there any clues?”

Feng Zidong said, “My father didn’t make it very clear. He only said that the girl was the one whom the Lord of the Qing Dynasty called for. If you catch her, you will be able to lead the Qing Dynasty.” Will be the first...”

Speaking of this, Feng Zidong said again, “Oh, by the way, my father also said that the girl has a ring, and whoever can find that ring can also take the lead.”

charlie deliberately asked him “Can’t even catch a single girl in such a huge meeting?”

Feng Zidong said truthfully, “My father said that some time ago someone almost caught her in Northern Europe, but she escaped...”
