

## The Amazing Son In Law Chapter 5642 -

Regarding charlie's cautiousness, Abbas had no doubts at all.

He said without hesitation, "Okay Mr. Wade, now the entire copper mine has collapsed into ruins, and there is such a big commotion today, the Cypriot authorities will definitely take over the investigation. It's not easy to even enter the scene to investigate and collect evidence!"

Abbas said again, "My subordinates feel that there are at most two clues that the Poqing Society can find. One is that they try to sneak into the ruins of the copper mine, or find a way to They bribed the Cyprus officials to obtain the short-range artillery bullets left in the ruins of the copper mine. The other is that if they were lucky enough and worked hard enough, they might be able to get the dna of the Earl of Wanlongdian from the soil in the subsidence area; "

"The latter will allow them to confirm that the earl is dead and cannot die again, while the former will let them know why their earl died. Only the Blackwater company in the United States will be found; "

"The clues from the Blackwater company have been made a dead end by us. If they are cleared up, they will be found out, and they will only vent their anger as we imagined. For the Blackwater Group, it would be more interesting if they fight with the Blackwater Group."

charlie smiled slightly and said, "That would be the best! After this incident, I believe that it will be broken through Po Qinghui ( Benn ), the British lord, and the remaining three earls are estimated to be shrouded in the shadow of this time for quite a long time. These people may have already forgotten what it feels like to be afraid. This time I will let them recall the memories."

Abbas smiled and said, "Mr. Wade, if they know how the earl died, they will probably be scared to death, and they will probably have nightmares when they sleep..."

charlie smiled , Thinking of something, he asked again, "By the way, Abbas, you and all the soldiers of Wanlongdian who participated in the plan to overthrow the nest, evacuate with the ship for the time being, and don't go back to Syria in the near future. Make sure that after everyone evacuates from Cyprus, during this period Don't have anything to do with Syria, lest Poqing will focus on the Hall of Dragons."

Speaking, charlie said again, "Although this plan was executed very well, the overall strength of Wanlongdian must still be far behind that of the Poqing Society. Now is not the time to confront them head-on.

"Abbas immediately said, "Okay, Mr. Wade, the subordinate will stay on the boat first. If you have anything that you need to do, please inform the subordinate at any time. The subordinate will go ashore from other countries." Charlie said, "How about that?"

" , These days, you follow the boat first, and after ten days and a half months, you can find a way to say goodbye to the country and come to China with a different identity. In addition, last time I asked you to arrange the most trustworthy and potential brother to come to Aurous Hill for further study , this time we can also arrange it together. The venue here in Aurous Hill is almost ready, and next, you have to focus on improving your cultivation." Abbas said respectfully, "

Okay Mr. Wade, subordinate Here is the arrangement, report to you at Aurous Hill at the end of August!"

...

at this moment.

The explosion at a copper mine in Cyprus has attracted the attention of Cyprus officials.

When the staff and a large number of police arrived at the copper mine, everyone was shocked by the horrifying scene in front of them!

For these people, they have seen a mining area collapse, but they have never seen it collapse like this!

This is no longer a simple collapse, this is simply an unprecedented major production accident!

In their eyes, there are nearly a thousand employees and their families in this copper mine, and almost all of them work and live here. Now that it has completely collapsed into ruins, the personal safety of nearly a thousand employees and their families has become the biggest trouble at the moment.

So, they immediately tried to find a way to contact the person in charge of the copper mine, but there was no one who could be contacted right now.

In addition to being nervous, Cyprus blocked the news and began emergency excavation of the collapsed site in an attempt to find clues to the victims.

## **The Amazing Son In Law Chapter 5643 -**

At this moment, Wu Shutong, the governor of the Youjun Governor's Mansion who is far away in Naples, is taking the time to get in touch with Bick, the Jiedu envoy of Cyprus.

According to the plan he made with Ou Bojun, he will arrange a top-secret mission for Bick on the phone, asking him to send someone to Rome.

And Ou Bojun wanted to find out if there was anything wrong with Bick and the other Xiaoqiguards ( Bickford guards ), so he had to wait until he finished his phone call before starting.

Wu Shutong right now is like a referee with a starting gun in his hand. If he doesn't give the order, no one can run first.

But the strange thing is that his dedicated line for contacting Bick with a single line, which can be dialed at any time 24 hours a day, when he calls again at this time, it shows that it is no longer connected.

This kind of thing has never happened in the past twenty years.

And this abnormal situation immediately made Wu Shutong nervous.

So, he called Oberjun again, but Oberjun's phone also couldn't be connected.

This time, he had an ominous premonition in his heart.

However, due to the special structural framework of the Qing Dynasty, he has no other subordinates in Cyprus who can be directly contacted except Bick, the Jiedu envoy.

Therefore, the best way now is to send someone to Cyprus to find out the situation.

The best candidate to go to inquire is to send a special envoy from the copper smelter in Turkey. After all, Turkey is very close to Cyprus, and it will not take long for a helicopter to fly there.

However, after all, Ou Bojun is one of the four earls, and now he has lost contact with the entire garrison of the dead. In the interior of the Qing Dynasty, it is already considered a major change, so Wu Shutong did not dare. He made a good claim, but immediately got up and went to his secret room.

The so-called secret room is actually a room that completely isolates external sounds and shields all wireless signals.

In this room, there is only one Internet phone connected to the network cable, which is the only way to communicate with the outside world.

If someone installs bugs and other equipment here, the electromagnetic shielding here is enough to ensure that the other party cannot receive any signals.

Wu Shutong came to the secret room, picked up the Internet phone, and dialed an encrypted number.

Soon, on the other end of the phone, came the deep voice of the English master that had been processed by a voice changer.

“What happened? You even used a dedicated line to contact me again.”

Inside the Poqing Society, the British Lord and the five major governors all had a dedicated line for direct contact.

This special line has the highest confidentiality level and the highest priority level. It is basically equivalent to breaking the air defense alarm inside the Clearing Society. Once it is used to contact, it means that a major and urgent incident has occurred.

According to the Lord's request, no governor should use this line to contact him unless it is absolutely necessary.

Originally, it was difficult to connect the five special lines once in a few years, but recently, the special line of the Governor's Mansion of the Right Army has been activated twice by Wu Shutong. The first time, the Xiao Qiwei ( Bertrand ) who

secretly went to arrest Lin Wan'er disappeared, and Wu Shutong used this special line to report the situation to the British Lord;

Station also lost contact.

Wu Shutong was also extremely nervous at this time. While wiping his cold sweat, he said anxiously, “The Lord...Uncle Nakul...he...” The

Lord said coldly, “What's wrong with Uncle Nakul?”

Wu Shutong swallowed, With difficulty, he opened his mouth and said, “Back to the British Lord... Uncle Nakul... lost contact...”
