

The Amazing Son In Law Chapter 5773 -

Zhang Ermao listened in a fog, and subconsciously said, "Master Charlie, why do you use the real thing that is familiar with the pit to deceive people? To be honest, tomb robbery these days The investigation is very tight. Antique dealers like us don't dare to buy things from the pits for fear of getting into trouble and lawsuits, but if they are familiar with the things from the pits, it's a different matter. Jiu Yuan, it was dug out ten years ago, even if it was black, it is now washed white."

charlie waved his hand and said, "Don't ask why, just tell me if there is a way to fix it."

Saying that, charlie Pointing to the lightning strike wood again, he said, "There are these, I want to use them to make something, and it's best to give people a feeling of being unearthed. Do you have any knowledge?"

Zhang Ermao thought for a while, and said, "Master Charlie, it's easy to talk about this matter. I have a fake background. You know this. What we are best at is to disguise those new things and turn them into The appearance of just unearthed is to deceive people. Sometimes, the porcelain that has just been fired here can be transformed into an official kiln of the Qing Dynasty that has just been unearthed. I have a half bottle of water for a long time, but I can't fool the experts."

As he spoke, Zhang Ermao changed the subject and said, "But you are planning to use the real thing from the Qing Dynasty to pretend to be the real thing from the Qing Dynasty that you just dug up. This is simple. There are too many, to put it bluntly, the small one will deal with the color and paste for you first, then dig some soil in the soil next to the latrine in the countryside, get some pig offal and pour it in, put this thing in it and bury it together with the pig offal At night, sprinkle some urine on it at the end, and when it is dug out the next day, it will look like the thing just unearthed!"

charlie asked him, "Can this method be discovered by others?"

Zhang Ermao shook his head "If you say that you use new things to make old ones, and let others look at them, they will definitely find flaws, but after all, you put real things in them, who can find out, even if an expert holds a carbon-14 instrument Come here for identification, this thing is also from the Qing Dynasty. They judge whether this thing is from a pit, mainly by looking at the color and pulp, and its own smell, whether there is a faint earthy smell, bloody smell and The smell of dead bodies, as long as this is done well, they will feel that this thing is newly unearthed."

charlie nodded, and said with a smile, "Okay, then this matter is up to you."

Zhang Ermao was puzzled Ask "Master Charlie, why do you want a small one?"

charlie didn't answer his question, but asked him with great interest, "Zhang Ermao, since you followed Hong Wu, why do you still do business in this antique city?" "

Zhang Ermao said hastily, "Master Charlie, I am grateful to you and Fifth Master for your love, and I have the opportunity to follow Fifth Master on the saddle, so I don't have the mind to do any antique business. I have long since put it aside and don't care about it."

charlie said seriously, "The business I asked you to do really requires you to spare some time and go back to manage your antique business."

Zhang Ermao asked in surprise, "Master Charlie... what do you mean by this? I don't understand, please explain."

The Amazing Son In Law Chapter 5774 -

charlie smiled slightly, took two jade wrench fingers and a piece of lightning strike wood, and said to Zhang Ermao. Er Mao said, "Wait for me first."

Immediately, charlie came to the inner room, and in the two jade ring fingers, he used spiritual energy to lay out a very simple protective formation, and in the lightning strike wood, used Lingqi laid down a simple thunderbolt formation.

In this way, these two jade wrench fingers have become two simple protective rings, which can protect the wearer from a small disaster, and the lightning strike wood has also become a ring that can only be used once and will break and shatter. The Thunderbolt.

After finishing these, he went back to the living room from the room, handed two finger pullers and a thunderbolt to Zhang Ermao, and told Zhang Ermao, "You take these three things first, and make them as if you just made them It's the same as the one dug out of the soil."

Zhang Ermao immediately said, "Okay, Master Charlie, I'll deal with it for you as soon as I get back! Will I send it back to you after I've dealt with it?" "

No need." charlie said lightly, "Go to Antique Street , Find two smart street vendors who can afford to eat, give them a ring and let them wear it on their hands, and then one will go to the arrival hall of the airport, and the other will go to the exit of the high-speed rail station. Hold the sign and wait to pick up people. As for who to pick up, it doesn't matter, you can just write their personal names." "Uh..."

Zhang Ermao looked surprised, "Master Charlie, who are you going to pick up? Just write your personal names casually, I guess Can't pick up anyone?"

charlie said lightly, "I don't want to pick up people, I want to wait for them!"

After that, charlie said very seriously, "Zhang Ermao, what I'm going to tell you next, you have to wait for someone!" Listen carefully! If this matter is done well, I, charlie, will promise you glory and wealth in the future!" When Zhang Ermao

heard this, he immediately sat up straight excitedly, and respectfully said, "Master Charlie, just give orders! Ermao Must go all out!"

charlie nodded, and said word by word, "You pay a high price to make the two of them wait from the moment the airport and high-speed rail station opens every day until they close, and wait until someone asks the origin of the jade wrench in their hands. Let the two of them clearly say that they bought it from you, and tell them that if the other party asks them to buy it at a high price, let them ask for it at 100 times the actual market value, and don't sell anything less."

Although Zhang Ermao was confused, he still understood charlie's request, and quickly said, "Master Charlie, don't worry, I will do it!"

charlie nodded in satisfaction, and handed the Thunderbolt Talisman to Zhang Ermao, Using a bit of aura, he told him with psychological hints, "Keep this thing for yourself, take it back to your antique street, and continue to operate your antique stall, but you must remember, you must put it in the most conspicuous position of your booth, no matter who comes to ask for the price, you will ask for five million yuan, not a penny less. If someone asks you where the Thunderbolt Talisman came from, you just tell him it was a while ago It was just dug out of a living pit, when someone asks you, you must firmly believe in your heart that these three things were all dug out of a living pit, understand?" Zhang

Ermao His eyes froze, and he nodded heavily, "Understood!"

charlie could see that the psychological suggestion had already taken effect on Zhang Ermao.

So, he said to Zhang Ermao, "If someone buys this lightning strike wood, you tell me immediately; if someone steals it, you tell me immediately." Zhang Ermao immediately said respectfully,

" Alright, Master Charlie! I'll do it now, little one!"

charlie sent Zhang Ermao out of the villa, with a confident smile on the corner of his mouth.

The Amazing Son In Law Chapter 5775

The reason why he wants to do this is to hang a "bell" on each of the two gates of Aurous Hill, and those two "bells" are the two jade finger rings he gave Zhang Ermao.

These two jade wrench fingers do not look very eye-catching, and most people would not be interested in looking at them. As Zhang Ermao said, the material of these two jade wrench fingers is average, and the price itself is not too high. , Even people who understand antiques will not take it seriously.

Therefore, when two people are wearing a jade finger and waiting for people at the airport and high-speed rail station with a sign, only one kind of people will pay attention to the jade finger on their fingers, that is, those who can see through the jade finger. In the finger, there is a person with a formation!

And those who can see through the formations contained in the jade finger must be those who have mastered spiritual energy.

Who masters Reiki?

charlie knew only five people besides himself.

One is the British Lord who broke the Qing Dynasty.

The other four are the four earls who broke the Qing Dynasty.

However, the Lord of England would not come to Aurous Hill by himself, and one of the four earls died.

Therefore, charlie's goal is to only have three people left, and that is the three remaining earls of the Qing Dynasty.

Right now, my grandparents, and Lin Wan'er are all in Aurous Hill, so the chances of the Earl of the Qing Dynasty appearing in Aurous Hill are greatly increased. However, after I have done these things, I have great confidence. Be warned.

The airport and the high-speed rail station are the two gates of Aurous Hill. It is impossible for the earl to drive here from the surrounding cities, so the most likely way is to take the plane or the high-speed rail town.

And I asked Zhang Ermao to arrange two people to squat in these two places at all times. They may hold the sign of Zhang Sanli and Li Si, and they may squat in these two places for several days in a row, but it doesn't matter, because there is a high probability that they will not send two More than one earl came to Aurous Hill, and even if two earls were sent to Aurous Hill, it was impossible for them to come by plane and high-speed rail at the same time.

Therefore, it is doomed that the earl who broke the Qing Dynasty can only meet one of these two people, and although the earl is powerful, it is impossible to know that there is another person wearing the same jade wrench dozens of kilometers away. It is even more impossible to know that the person holding the sign has been waiting here for many days.

They will only be pleasantly surprised to find that they have encountered a magic weapon in Aurous Hill!

Although this magic weapon is just a simple amulet, anyone who changes it will want to know if this jade finger is used as a clue to find other magic weapons.

In public, the earl of the Qing Dynasty had an important mission, so he must not dare to be too arrogant in this kind of matter, so he would definitely inquire about the source of the finger pull in a low-key manner.

In this way, the clue will point to Zhang Ermao.

When the earl who broke the Qing Dynasty found Zhang Ermao, he would find that there was a thunderbolt in Zhang Ermao's place.

Even if they don't know the thunder talisman, they can definitely see that this magic weapon can have an attack effect! It is naturally much stronger than the jade finger that can defend itself.

At that time, they will definitely get a treasure, and they will definitely not hesitate at the price of several million.

However, this Thunderbolt Talisman looks like an ordinary piece of lightning strike wood. Zhang Ermao quoted five million yuan. Even a rich second generation like Qin Aodong, who is a loser, can't spend so much money to buy it, so he will buy it. Must be a person who knows the goods!

In other words, he must be one of the three Earls of the Qing Dynasty!

At that time, the other party will be very excited when he gets this thunderbolt, and he will definitely want to find a place where there is no one to try it out, and he probably does not have the "Nine Profound Heavenly Scriptures", so it is impossible to know that his specially refined This Thunderbolt can only be used once.

Therefore, once he tries it, the Thunderbolt will be wiped out, and at the same time, it will trigger a thunder!

At that time, not only will I know that he is coming, but I will also know his approximate location!
