

The Amazing Son In Law Chapter 5838 -

At this time, Willie finally won the “trust” of Zhang Ermao (Cade) after a long explanation and flattery.

He also remitted a total of 800,000 US dollars to Zhang Ermao (Cade)’s account very simply.

After Zhang Ermao (Cade) received the money, he was overjoyed and said to Willie, “Oh, old man, so you are not Lei Zi, you are the God of Wealth!”

Willie couldn’t wait to ask, “I paid the money, and the things belong to me Right?”

Zhang Ermao (Cade) directly handed the lightning strike wood to Willie, and said, “You take this first, and it will be delivered after a while.”

Willie was ecstatic, and took the lightning strike wood in his hand. I keep playing with it in my hands, and my love is beyond words.

At this time, he no longer has any hatred for Zhang Ermao (Cade).

He just thought, quickly find a deserted place, and try to see what kind of power this magic weapon made of lightning strike wood has.

While waiting to run errands to deliver the goods, Willie couldn’t help asking Zhang Ermao (Cade), “By the way, boss, do you have any similar goods here? If so, can you show them to me? I want everything if it suits you. ”

Zhang Ermao (Cade) shook his head, followed Ye Chen’s instructions, and said, “The wrench finger and the lightning strike wood are all given to me by my family, and I asked me to distribute them on his behalf.” , there are only these two pieces in total, and you have already wrapped them up.”

Willie looked around and saw that there was no one around, so he lowered his voice and said, “Brother, I think what you sell are all just dug out of the pit. Since you have supported pots, there shouldn’t be only these two antiques in the tomb, right?”

Zhang Ermao (Cade) said seriously, “Old man, to tell you the truth, there is indeed a pot, but I’m only in charge of selling it.” , don’t look at me cautiously, my family is more cautious than me. I don’t know where he overcooked the pot and where he poured out some treasures. He just gave me two pieces and asked me to find a channel to sell them. If I sell these two items, he will be able to give me new items.”

Willie said excitedly, “In this way, you should still have the goods!”

As he said that, he hurriedly said again, “Brother, I have something else to ask you.”

Zhang Er said casually, "Just tell me if you have anything to do."

Willie said, "Can you help me introduce your family? I want to buy something from him."

"I'm sorry I can't do that." Zhang Ermao (Cade) said seriously, "My family attaches great importance to personal safety, and he won't meet with me unless necessary, and he won't talk to me. Contact, and the contact method between us is also one-way, he can find me if he has something, but I can't find him if I have something."

Then, Zhang Ermao (Cade) said again, "Well, if you really want it, just give it to me. I will leave a contact information. After I transfer the payment to the previous family, if they still have similar items, they will definitely sell them to me again. After I get the items, I will contact you as soon as possible. "

Willie hesitated for a moment, but finally decided not to reveal his contact information.

Today's mobile phones are very low in concealment because they need to connect to a base station to obtain communication services.

As long as the other party knows his phone number, the other party can lock his location according to the base station connected to the phone number, and the accuracy can even be reduced to within a hundred meters.

The reason why Willie knows this is that in order for an old guy like him who has lived for more than a hundred years to keep up with the times, the British Lord once specially popularized the development status of modern technology to them, and also specially taught them the development status of modern technology. The importance of personal information security has been popularized.

Therefore, although Willie did not doubt Zhang Ermao (Cade), he was still unwilling to tell a stranger his contact information.

So, he said, "Well, boss, after all, you have been in the antique industry for so many years, and you can tell the good from the bad at a glance. If you really see a good thing, keep it and hang it here, tomorrow and the day after tomorrow If I have time, I will come again."

Zhang Ermao (Cade) saw that he acted extra cautiously, so he knew that this matter should not be forced, let alone rush forward.

So he patted his chest and said, "How about it, old man, come and have a look tomorrow morning."

Willie came up and deliberately lowered his voice and said, "Boss, how about this, I will pay you 200,000 US dollars in advance, and if there is anything new, you can help me pay attention first, don't put it on display, so as not to be preempted by others, I have seen it After that, it would be best if I like it, but if I don't like it, you can continue to sell it to others, what do you think?" Zhang

Ermao thought for a while, then nodded and agreed, saying, "Okay, Since you are so forthright, then I won't leave ink, and I will do as you say."

Overjoyed, Willie picked up his phone again and remitted another 200,000 US dollars to Zhang Ermao (Cade)'s bank account.

Before and after, Willie spent a total of 1.5 million US dollars, but he didn't feel distressed at all. On the contrary, he still had a sense of excitement that he had picked up a big leak.

So looking at Zhang Ermao (Cade) now, he doesn't have the annoying energy just now.

Half an hour later, a rider delivered the jade finger to Zhang Ermao (Cade). After signing for it, he handed the jade finger to Willie and asked, "Look at this finger, it's the one you saw at the airport." Is it?"

Willie could clearly feel the aura and formation contained in the jade finger, so he could be sure that this was the jade finger he wanted.

Willie immediately pointed the jade at his hands, and started with the two magical artifacts. Excited, he said to Zhang Ermao (Cade) excitedly, "Boss, if there is anything new, remember to keep it for me!" "Don't worry." Zhang Ermao (Cade)

patted Chest promised, "There will be new things in the future, you didn't readI didn't show anyone before. "

Willie said with a smile, "Okay, if this is the case, then thank you in advance!" "

"You're welcome." "Zhang Ermao (Cade) said casually," if you need anything about antique calligraphy and painting, come to Antique Street to find me at any time. "

"Okay. "Willie's thoughts at this time have been completely taken away by the two magic weapons.

Now his biggest wish is to find a deserted place and try these two magic weapons. So,

he Then he said to Zhang Ermao (Cade), "Boss, since this is the case, then I won't bother you with your business. I will come back tomorrow morning if I have time. "

” OK! Zhang Ermao (Cade) said with a smile, “Old man, then you walk slowly and I won’t see you off.” “

” Stay! Uncle Willie waved his hand, turned around impatiently, and strode away from the Antique Street.

As soon as he got out of the Antique Street, Uncle Willie held out a taxi and got in the car and said to the driver, “Where is the least crowded place in Jinling? Fortunately, it is a deep mountain and old forest, a place where there is no one. “

The taxi driver asked in surprise, “Old man, you are already old, why are you looking for a place where there is no one?” Could it be that you can’t think about it? “

Willie took out a few hundred-dollar bills and put them on the dashboard in front of him, and said coldly, “Stop talking nonsense and drive quickly, otherwise I will take someone else’s car.”

When the taxi driver saw that the other party was offering US dollars, and it was several hundred dollars, he immediately put away the money with a smile on his face, and said flatteringly, “Since you want to go to a place where no one is around, then I will take you to the back of the Phoenix Mountain Cemetery. ” Fenghuang Village, that village is in the valley. The villagers have moved out a few years ago, and now it has become an uninhabited village. There are no roads, let alone people! “

Willie blurted out without thinking, “Okay! just go there! “
