Isaac Cameron didn't speak, but held the phone screen in front of her.

When Xion saw the words on the phone screen, tears welled up in her eyes instantly.

On the screen it said Young Master Something happened, please don't make a fuss, help call the Elms family to find clues together!

Xion did not speak, but nodded emphatically.

Soon, more than ten Elms family members hurriedly gathered, got into the helicopter, and headed towards the place where the incident happened. When Xion

saw the horrific scene, her heart seemed to be ripped out of her life, and she couldn't control her tears.

But she still wiped away her tears, and together with the Elms family, Looking for clues on the periphery of the circular explosion area. More than

a dozen people continued to expand the search area, and even searched within a radius of one kilometer from the center of the explosion, but still did not find any traces related to charlie.

From the beginning of the search From a moment on, none of them said a word, but the feeling of despair shrouded everyone's heart at this moment... Time

went

back to before the battle between charlie and Willie.

The small courtyard on the top floor of Zijin Villa In the hot spring pool, there are bursts of water vapor above the water surface. The

clear hot spring water is full of flower petals floating, and as a pair of jade hands gently fiddle with the petals, the water surface reflecting the moonlight immediately shimmers and looks really beautiful.

Lin Wan'er (Alani), who has been retreating in the small courtyard for several days and has not left the courtyard for half a step, is currently soaking in the hot spring pool in the courtyard with her eyes slightly closed.

The hot spring water submerged half of her collarbone, while her flawless and slender pink shoulders were exposed to the air.

Originally, she saw that the night was just right, the moon was bright and the stars were clear, and she planned to take a dip in the hot spring and then go back to her room to rest, but she never thought that after just a short soak, there would be dense bursts of thunder in the distance.

In her opinion, this kind of thunder was the same as the thunder that shook Jinling before, it was a little abnormal at first glance, and it didn't seem like it was caused by a change in the weather.

She suddenly felt a little uneasy in her heart, and murmured anxiously, "Oops... Could it be that such dense thunder is related to Charlie?! Could it be... Could it be that his doom is tonight?" She just thought of this, and

then there was another huge explosion, which echoed in the Zijin Mountain!

Lin Wan'er (Alani)'s face turned pale from the sound of the explosion, and her heart seemed to be weightless in an instant, and was suddenly lifted!

A second later, she came back to her senses, and immediately subconsciously turned to look at the bath towel she had placed on the smooth boulder by the hot spring pool.

She stretched out her tender and delicate right hand, trying to pull the bath towel over.

But at this moment, a sudden change occurred in the hot spring pool!

Originally, the water level of the warm water in this pool was almost completely equal to the side of the pool. Fresh hot spring water was slowly poured in from the waterfall of the rockery, and the excess spring water was slowly drained away along the smooth side of the pool, forming a thin stream, making the water level in the pool is always kept in a slightly overflowing state.

But at this moment, the water level of the hot spring pool suddenly increased sharply!

A large amount of water came out of nowhere, quickly submerged the pool, and flowed out along the edge of the entire hot spring pool!

Lin Wan'er (Alani)'s breathing and heartbeat speeded up instantly, her eyes fixed on the water in front of her, as if she was waiting for something.

In the next second, a naked man with scars all over his body suddenly floated up from the water!

Lin Wan'er (Alani) saw the man's face, it was Charlie who rescued her from the fire and water like a magic soldier in Northern Europe!
